General information on the Fund

MULTI UNITS LUXEMBOURG (the "Fund") has been incorporated on March 29, 2006 under Luxembourg laws as a *Société d'Investissement à Capital Variable* ("SICAV") for an unlimited period of time. The Fund is governed by the provisions of Part I of the amended Luxembourg Law of December 17, 2010 relating to Undertakings for Collective Investment.

The Articles of Incorporation were deposited with the Register of Commerce and Companies of Luxembourg and have been published in the *Mémorial C, Recueil des Sociétés et Associations* (the "Mémorial") on April 14, 2006. The Articles of Incorporation have been amended for the last time on January 28, 2014 and were published in the Mémorial on April 4, 2014.

The Fund is registered with the Register of Commerce and Companies of Luxembourg under number B 115.129.

The Fund aims to provide investors with professionally managed Sub-Funds investing in a wide range of transferable securities and money market instruments in order to achieve an optimum return from capital invested while reducing investment risk through diversification.

In addition, the Fund aims to provide investors with professionally managed index Sub-Funds whose objective is to replicate the composition of a certain financial index recognised by the Luxembourg supervisory authority.

As at December 31, 2020, 107 Sub-Funds are available to investors:

Information to the Shareholders

The Annual General Meeting of the Shareholders is held at the registered office of the Fund in Luxembourg each year on the first Friday of April at 10 a.m. (Luxembourg time) or, if any such day is not a business day, on the next following business day.

Notices of all general meetings are sent by mail to all registered Shareholders at their registered address at least 8 days prior to such meeting. Such notice will indicate the time and place of such meeting and the conditions of admission thereto, will contain the agenda and will refer to the requirements of Luxembourg law with regard to the necessary quorum and majority at such meeting.

Audited annual reports and unaudited semi-annual reports are made available for public inspection at each of the registered offices of the Fund and the Administrative Agent within four, respectively two months following the relevant accounting period, and the latest Annual Report shall be available at least fifteen days before the annual general meeting.

The financial period of the Fund ends on December 31 of each year.

The list of changes in the portfolio for the year ended December 31, 2020 is available, free of charge, at the registered office of the Fund.

The figures relating to past performances refer or relate to past periods and are not a reliable indicator of future results.

Audit report

To the Shareholders of
Multi Units Luxembourg

Report on the audit of the financial statements

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Multi Units Luxembourg (the “Fund”) and of each of its sub-funds as at 31 December 2020, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund’s financial statements comprise:

- ☐ the statement of net assets as at 31 December 2020;
- ☐ the statement of operations and changes in net assets for the year then ended;
- ☐ the schedule of investments as at 31 December 2020; and
- ☐ the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the EU Regulation No 537/2014, the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the EU Regulation No 537/2014, the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

To the best of our knowledge and belief, we declare that we have not provided non-audit services that are prohibited under Article 5(1) of the EU Regulation No 537/2014.

The non-audit services that we have provided to the Fund, for the year then ended, are disclosed in Note 14 of the financial statements.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Key audit matter	How our audit addressed the key audit matter
<i>Valuation of OTC derivatives instruments</i> The valuation of such investments is considered to be a Key Audit Matter due to the potential magnitude of material misstatement. Refer to Note 2 of the financial statements for the valuation policy for such instruments.	We gained an understanding of the internal control structure and operating effectiveness of key controls surrounding valuation of OTC derivative instruments through observations, inquiries, and tests of all intervening parties in the valuation process. In addition, we gained an understanding of internal controls implemented by the Management Company including key controls over the fair value process. As of 31 December 2020, a number of the Fund's sub funds (refer to Note 6 of financial statements) invested in OTC derivative instruments. Such instruments are composed by total return swaps. For OTC derivatives such as total return swaps, we independently determined a range of acceptable values, through the use of internally developed models using recognised methodologies, taking into account the key terms of the contracts and observable market data. In addition, for all OTC derivatives, we compared the value of such derivatives to the counter-valuation performed by the Fund's Management Company.
<i>Existence of OTC derivatives</i> The existence of such assets is considered to be a Key Audit Matter due to the potential magnitude of material misstatement combined with the higher inherent risk for assets that cannot be held by the Depositary Bank.	We gained an understanding of the internal control structure and operating effectiveness of key controls surrounding authorisation, completeness and accuracy of OTC derivative transactions and the reconciliation process in place for these instruments. We obtained from the Depositary Bank, the confirmation of the ownership by the Fund of all OTC derivative instruments. We agreed all positions as per Depositary Bank confirmation to the Fund's accounting records.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the EU Regulation No 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the EU Regulation No 537/2014, the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- ☐ identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- ☐ obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;

- ☐ evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- ☐ conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds (except for Lyxor FTSE Europe Minimum Variance (DR) UCITS ETF, Lyxor EuroMTS Highest Rated Macro-Weighted Govt Bond 5-7Y (DR) UCITS ETF, Lyxor WIG20 UCITS ETF, Lyxor MSCI Canada UCITS ETF, Lyxor FTSE USA Minimum Variance UCITS ETF, Lyxor S&P 500 Banks UCITS ETF, Lyxor MSCI South Africa UCITS ETF, Lyxor MSCI Thailand UCITS ETF, Lyxor MSCI Malaysia UCITS ETF, Lyxor Inverse EUR 2-10Y Inflation Expectations UCITS ETF, Lyxor EUR Curve Flattening 2-10 UCITS ETF, Lyxor EUR Curve Steepening 2-10 UCITS ETF and Lyxor US Curve Flattening 2-10 UCITS ETF where a decision or an intention to liquidate exists) to cease to continue as a going concern;
- ☐ evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore

the key audit matters. We describe these matters in our audit report unless law or regulation precludes public disclosure about the matter.

Report on other legal and regulatory requirements

We have been appointed as “Réviseur d'entreprises agréé” of the Fund by the General Meeting of the Shareholders on 27 May 2020 and the duration of our uninterrupted engagement, including previous renewals and reappointments, is 15 years.

PricewaterhouseCoopers, Société coopérative
Represented by

Luxembourg, 29 April 2021

Frédéric Botteman

- MULTI UNITS LUXEMBOURG - Lyxor SG European Quality Income NTR UCITS ETF for MULTI UNITS LUXEMBOURG - Lyxor SG European Quality Income NTR (DR) UCITS ETF.

Within each Sub-Fund, the Fund may create different Classes of Shares which are entitled to regular dividend payments ("Distribution Shares") or with earnings reinvested ("Capitalisation Shares"), or which differ also by the targeted investors, their reference currencies, their currency hedging policy, by the management fees or the subscription/redemption fees.

Capitalisation and distribution shares have been issued during the year ended December 31, 2020.

The amounts invested in the several Classes of Shares of one Sub-Fund are themselves invested in a common underlying portfolio of investments within the Sub-Fund, although the Net Asset Value per share of each Class of Shares may differ as a result of either the distribution policy, and/or the management fees and/or the subscription and redemption fees for each Class.

Notes to the financial statements (continued)

2 - Significant accounting policies

2.1 Presentation of financial statements

The financial statements are prepared in accordance with Luxembourg regulations relating to Undertakings for Collective Investment.

The financial statements of the Fund have been prepared on a going concern basis except for the financial statements of the Sub-Funds MULTI UNITS LUXEMBOURG - Lyxor WIG20 UCITS ETF, MULTI UNITS LUXEMBOURG - Lyxor MSCI Canada UCITS ETF, MULTI UNITS LUXEMBOURG - Lyxor FTSE Europe Minimum Variance (DR) UCITS ETF, MULTI UNITS LUXEMBOURG - Lyxor FTSE USA Minimum Variance UCITS ETF, MULTI UNITS LUXEMBOURG - Lyxor EuroMTS Highest Rated Macro-Weighted Govt Bond 5-7Y (DR) UCITS ETF, MULTI UNITS LUXEMBOURG - Lyxor S&P 500 Banks UCITS ETF, MULTI UNITS LUXEMBOURG - Lyxor Inverse EUR 2-10Y Inflation Expectations UCITS ETF, MULTI UNITS LUXEMBOURG - Lyxor MSCI Malaysia UCITS ETF, MULTI UNITS LUXEMBOURG - Lyxor MSCI South Africa UCITS ETF, MULTI UNITS LUXEMBOURG - Lyxor MSCI Thailand UCITS ETF, MULTI UNITS LUXEMBOURG - Lyxor EUR Curve Steepening 2-10 UCITS ETF, MULTI UNITS LUXEMBOURG - Lyxor EUR Curve Flattening 2-10 UCITS ETF and MULTI UNITS LUXEMBOURG - Lyxor US Curve Flattening 2-10 UCITS ETF which have been prepared on a non-going concern basis following the decision to liquidate the Sub-Fund as indicated in Note 15. The application of the non-going concern basis of accounting has not lead to material adjustment to the Sub-Funds's published net asset value.

2.2 Valuation of investment in securities

2.2.1 Securities listed on a recognised stock exchange or dealt in on any other regulated market that operates regularly, is recognised and is open to the public, are valued at their last available closing prices, or, in the event that there should be several such markets, on the basis of their last available closing prices on the main market for the relevant security.

2.2.2 In the event that the last available closing price does not, in the opinion of the Board of Directors, truly reflect the fair market value of such securities, the value is defined by the Board of Directors based on the reasonably foreseeable sales proceeds determined prudently and in good faith.

2.2.3 Securities not listed or traded on a stock exchange or not dealt in on another regulated market are valued on the basis of the probable sales proceeds determined prudently and in good faith by the Board of Directors.

2.2.4 Securities not listed or traded on a stock exchange or not dealt in on another regulated market are valued at their face value with interest accrued.

2.2.5 In case of short term instruments which have a maturity of less than 90 days, the value of the instrument based on the net acquisition cost, is gradually adjusted to the repurchase price thereof. In the event of the material changes in market conditions, the valuation basis of the investment is adjusted to the new market yields.

2.2.6 Investments in open-ended UCIs are valued on the basis of the last available net asset value of the units or shares of such UCIs.

2.2.7 All other securities and other assets are valued at fair market value as determined in good faith pursuant to procedures established by the Board of Directors.

2.3 Valuation of Futures

The value of financial derivative instruments traded on exchanges or on other Regulated Markets shall be based upon the last available settlement prices of these financial derivative instruments on exchanges and Regulated Markets on which the particular financial derivative instruments are traded by the Fund; provided that if financial derivative instruments could not be liquidated on the day with respect to which net assets are being determined, the basis for determining the value of such financial derivative instruments shall be such value as the Directors may deem fair and reasonable. The financial derivative instruments which are not listed on any official stock exchange or traded on any other organised market will be valued in a reliable and verifiable manner on a daily basis and verified by a competent professional appointed by the Fund.

2.4 Valuation of total return swaps

Swaps linked to indexes or financial instruments are valued at their market value, net present value of future cash flows, based on the applicable index or financial instrument, in accordance with the procedure laid down by the Board of Directors.

Notes to the financial statements (continued)

2.5 Net realised gains or losses on performance swaps

The realised on swaps in the Statement of Operations and Changes in Net Assets includes the balances on swaps paid or received by the Fund in the context of the increase / decrease of the composition of the securities basket, or paid / received in the context of subscriptions / redemptions at the Fund's level.

2.6 Net realised gains or losses resulting from investments

The realised gains or losses resulting from the sales of investments are calculated on an average cost basis.

2.7 Foreign exchange translation

The accounts of each Sub-Fund are maintained in the reference currency of the Sub-Fund and the financial statements are expressed in that currency.

The acquisition cost of securities expressed in a currency other than the reference currency is translated into the reference currency at the exchange rates prevailing on the date of purchase.

Income and expenses expressed in other currencies than the reference currency are converted at exchange rates ruling at the transaction date.

Assets and liabilities expressed in other currencies than the reference currency are converted at exchange rates ruling at the year end.

The realised or unrealised gains and losses on foreign exchange are recognised in the Statement of Operations and Changes in Net Assets in determining the increase or decrease in net assets.

2.8 Forward foreign exchange contracts

Net change in unrealised profits and losses on forward foreign exchange contracts are valued on the basis of forward exchange rates prevailing at the relevant valuation date and are included in the Statement of Operations and Changes in Net Assets.

Forward foreign exchange contracts are disclosed in the Statement of Net Assets under the item "Net unrealised profit/loss on forward foreign exchange contracts".

Net change in unrealised profits and losses and net realised gain/loss are recorded in the Statement of Operations and Changes in Net Assets.

2.9 Combined financial statements

The combined Statement of Net Assets and combined Statement of Operations and Changes in Net Assets represent the total of the Statements of Net Assets Assets and Statements of Operations and Changes in Net Assets of the individual Sub-Funds, converted in Euro, based on exchange rates applicable at year-end.

2.10 Income

Dividends are credited to income on the date upon which the relevant securities are first listed as ex-dividend. Interest income is accrued on a daily basis.

For the index Sub-Funds which replicate the composition of a financial index, the dividend payments are included in the swap performance.

2.11 Formation expenses

The formation expenses of the Fund are borne by the Management Company.

Notes to the financial statements (continued)

3 - Management fees

Following a Main Delegation Agreement dated March 29, 2006, as amended, Lyxor Asset Management Luxembourg S.A. was appointed as Management Company of the Sub-Funds.

Following a Novation Agreement dated February 28, 2014, Lyxor International Asset Management S.A.S was appointed as Management Company of the Sub-Funds.

A management fee is payable monthly in arrears to the Management Company in compensation for its services. Such fee was payable monthly and is set for the period under review at the following rates of the Net Asset Value (inclusive of VAT):

The Management fees rates applicable at December 31, 2020, are as follows :

Notes to the financial statements (continued)

4 - Depositary, Administrative, Registrar Agent and other fees

As Administrative, Corporate and Domiciliary Agent, Société Générale Luxembourg is entitled to receive fees and commissions for its services rendered to the Sub-Funds. Such fees are payable by the Management Company out of the Total Fee it receives to cover structural costs.

As Depositary, Société Générale Luxembourg is entitled to receive a fee for its services rendered to the Sub-Fund. Such fee is payable by the Management Company out of the Total Fee it receives from the Fund.

As Registrar and Transfer Agent, Société Générale Luxembourg is entitled to receive fees and commissions for its services rendered to the Sub-Fund. Such fees are payable by the Management Company out of the Total Fee it receives from the Fund.

5 - Taxation

The amended Law of December 17, 2010 lays down that Sub-Funds of umbrella UCI established under the Law of December 20, 2002 are exempted of the *taxe d'abonnement* if they comply with following conditions stated in the article 175 e):

- whose securities are listed or dealt in on a stock exchange or another market which is regulated, operates regularly and is recognised and open to the public;
- whose exclusive object is to replicate the performance of one or several indices.

Considering that all classes of shares of all Sub-Funds of the Fund described in the Prospectus comply with the conditions required by the article 175 e) of the amended Law of December 17, 2010, the Board of Directors decided, by a Circular Resolution dated December 31, 2010, that all Sub-Funds and their classes of shares are exempted of the *taxe d'abonnement* as from January 1, 2011.

The Fund is not liable to any Luxembourg tax other than a once-and-for-all tax of EUR 1250 that was paid upon incorporation. Investment income from dividends and interest received by the Fund may be subject to withholding taxes at varying rates. Such withholding taxes are usually not recoverable.

6 - Total return swap agreements

The total return swaps entered into by the Sub-Funds are governed by the Master Index Swap Confirmation Agreement dated as of November 13, 2014, signed between Société Générale and Lyxor International Asset Management on behalf of the Sub-Funds, (the "Master Agreement").

The terms and conditions of the swap transactions are detailed for each swap transaction in appendices to this Master Agreement.

Under the Master Agreement, the Sub-Fund pays to Société Générale an amount reflecting the performance of the basket of securities (including income received) held by the Sub-Fund, and receives an amount reflecting the performance of an index (see below the index for each Sub-Fund).

The performance difference between the two legs is adjusted by (i) the difference of repo rate between the basket of securities held by the Sub-Fund and the index components, (ii) the difference between the index components dividend level in the index methodology and their market price, and (iii) pricing parameters linked to the index replication.

The market value of those swaps, used only for index replication purpose are booked in the caption "Swap at market value" of the Statement of Net Assets.

Counterparty's countries are listed following the ISO 3166-1 standard.

Lines captioned "basket of securities" in the tables below should be read in accordance with the swap details presented per Sub-fund and do not have to be considered as swap positions.

As at December 31, 2020, no collateral was received or granted by the collective investment undertaking as part of Total Return Swaps.

Notes to the financial statements (continued)

As at December 31, 2020, the Company holds the following Total Return Swaps :

6.1 MULTI UNITS LUXEMBOURG - Lyxor DAILY LevDAX UCITS ETF

13 - COVID-19

During the period, the world has experienced a global pandemic of Covid-19 affecting all continents without distinction. Managers have adapted their working organisation to this new environment to maintain an efficient operating, trading and investment process. The board of directors and the manager continue to monitor central banks measures, local financial regulators actions on financial markets and governments' efforts to contain the spread of the virus and their impacts on the economy and the securities held in the portfolio.

14 - Non-audit services

For the period from 01 January 2020 to 31 December 2020, the following non-audit services have been provided by the external Auditor:

- issuance of reports on the criteria and methods included in the merger proposals and on the exchange ratios in the context of mergers;
- issuance of reports under ISRE 2410 in the context of the review of the interim financial information of Multi Units Luxembourg - Lyxor SG Global Income NTR UCITS ETF and Multi Units Luxembourg - Lyxor S&P 500 UCITS ETF under the terms and conditions set in an "Information Sharing Agreement" dated 12 March 2014 and 21 May 2015, signed between PricewaterhouseCoopers, Société coopérative and PricewaterhouseCoopers Audit.

15 - Subsequent events

The name of the index of the following Sub-Funds has changed and in consequence the Sub-Funds have been renamed:
On January 13, 2021

- MULTI UNITS LUXEMBOURG - Lyxor Commodities Thomson Reuters/CoreCommodity CRB TR UCITS ETF into MULTI UNITS LUXEMBOURG - Lyxor Commodities Refinitiv/CoreCommodity CRB TR UCITS ETF
- MULTI UNITS LUXEMBOURG - Lyxor Commodities Thomson Reuters/CoreCommodity CRB EX-Energy TR UCITS ETF into MULTI UNITS LUXEMBOURG - Lyxor Commodities Refinitiv/CoreCommodity CRB EX-Energy TR UCITS ETF.

⁽¹⁾ For more details, please refer to the Note 1 of this report.

Notes to the financial statements (continued)

On February 24, 2021

BREXIT:

Third-country status of the United Kingdom as of 1 January 2021:

The transition period resulting from the agreement concluded between the United Kingdom and the European Union on 31 January 2020 ends on 31 December 2020. During this transition period, the United Kingdom, although it is now a third country, has continued to apply EU law and all references to Member States in EU law have been understood as including the United Kingdom. This will no longer be the case as from 1 January 2021 when the United Kingdom's status as a third country will take full effect.

EU Domiciled investment funds are currently gaining market access into the UK and marketed to UK investors through the EU passporting regime. Following the UK's departure from the EU, the passporting regime has ceased at the end of the transition period. The Government has introduced a temporary regime to allow EU funds to continue marketing in the UK in a similar way for a limited time after the end of the Transition Period, after which the funds will have to gain permanent market access into the UK.

In the meantime, the UK Government has consulting on proposals to simplify the process for allowing investment funds set up overseas to be marketed in the UK. Consultation has concluded.

Project of a new overseas funds regime (OFR) aiming to deliver on the government's commitment to introduce a more streamlined regime for overseas investment funds to market to UK retail investors.

Notes to the financial statements (continued)

The Board of Directors of the Company and the Management Company are continuously monitoring and watching for new development on this new OFR.

After the Brexit transition period, UK administrators included in the "ESMA register of administrators and third-country benchmarks" (ESMA register) have been deleted from the ESMA register as the Benchmark Regulation (BMR) is no longer applicable to UK benchmark administrators.

Therefore UK administrators that were originally included in the ESMA register as EU administrators, now qualify as third country administrators (for which the BMR foresees different regimes to be included in the ESMA register, being equivalence, recognition or endorsement).

However, during the BMR transitional period until 31 December 2021, as defined in BMR Article 51(5) this change of the ESMA register would not have an effect on the ability of EU supervised entities to use the benchmarks provided by those third country UK administrators.

To the best of our knowledge no change has been made to the listing conditions for share classes already listed. Special attention will be paid in the coming months to any new listing obligations implemented by LSE post-brexit.

Global risk exposure (Unaudited information)

In terms of risk management, the commitment approach is used in order to determine the global risk for all the Sub-Funds of the Fund.

The level of leverage using the commitment approach is determined in accordance with CSSF circular 11-512 which is further clarified in ESMA Guidelines 10-788.

COMPENSATION OF THE STAFF OF LYXOR INTERNATIONAL ASSET MANAGEMENT (2020 ACCOUNTING YEAR)

1.1 COMPENSATION POLICY AND PRACTICES

The compensation awarded by Lyxor International Asset Management to its employees consists of fixed compensation and may, if economic conditions permit, include a variable component in the form of a discretionary bonus. These bonuses are not related to the performance of the managed vehicles (no profit-sharing in the capital gains).

Lyxor International Asset Management applies the Société Générale Group compensation policy. This Group policy takes into consideration the remuneration provisions of directives 2011/61/EU of the European Parliament and of the Council of 8 June 2011 ("AIFM Directive") and 2014/91/EU of the European Parliament and of the Council of 23 July 2014 ("UCITS V Directive"), which apply to the investment fund management sector.

In this framework, Lyxor International Asset Management notably implements, for all of the employees receiving deferred variable compensation, an indexing mechanism for a part of this variable compensation composed of multiple investment funds representing the activity of the Lyxor group, such as to ensure that the interests of the employees align with those of investors.

The Lyxor International Asset Management compensation policy insures notably the appropriate management of the risks and the compliance by its staff of the Rules and regulations.

The details of the compensation policy are available at the following website:
<https://www.lyxor.com/en/policies-and-regulatory-notice>

1.2 BREAKDOWN OF FIXED AND VARIABLE COMPENSATION

Lyxor International Asset Management	Staff	Full Time Equivalent	Fixed Compensation (EUR)	Variable Compensation (EUR)	Total (EUR)
Lyxor International Asset Management personnel	146	136,69	12 288 307	5 856 504	18 144 811

Lyxor International Asset Management	Staff	Full Time Equivalent	Total Compensation (Fixed and Variable) (EUR)
Identified Population*	43	39,66	6 780 917
Of which Portfolio Management team	37	35,56	5 049 717
Of which other personnel identified	6	4,10	1 731 200

(*) Staff the professional activity of which may have a significant impact on the risk profile of Lyxor International Asset Management, or the AIF or UCITS managed by Lyxor International Asset Management, within the meaning of article L533-22-2 of the *Code monétaire et financier* (the French Financial Code).

Figures set forth in the tables above correspond to the amounts, before deduction of any tax and social costs, awarded to the staff in the context of the Annual Compensation Review occurred in the relevant accounting year, on the basis of the number of employees as at 31 December of the preceding accounting year. Please note that variable remuneration set out in table above are those awarded to the staff, and take into account amounts partially differed to following years, and do not take into account the amount actually paid during this accounting year by virtue of a differed remuneration awarded in a previous year. No carried interest was paid during the relevant accounting year.

SFT Regulation (Unaudited information)

Total return swaps

Following the Regulation 2015/2365 of the European Parliament and of the Council of November 25, 2015 on transparency of securities financing transactions, please find below details about total return swaps for the period ending December 31, 2020:
