GENERAL INFORMATION

Seilern International Funds Plc (the "Company") is an umbrella fund with segregated liability between sub-funds established as an open-ended investment company with variable capital and incorporated under the laws of Ireland on 21 July 2000 under the Companies Act 2014 and established as an Undertaking for Collective Investment in Transferable Securities pursuant to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended ("the UCITS Regulations"). The Company is regulated by the Central Bank of Ireland (the "Central Bank") pursuant to the Central Bank (Supervision and Enforcement) Act 2013 (section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (S.I. No. 230 of 2019) (the "Central Bank UCITS Regulations").

The Company currently has three sub-funds (the "Sub-Funds" or "Funds"), namely: Seilern World Growth approved by the Central Bank on 18 August 2000, Seilern America approved by the Central Bank on 4 May 2007, Seilern Europa approved by the Central Bank on 19 August 2009.

Seilern World Growth Fund has fifteen classes of Shares, namely: EUR U I Class, USD U I Class, GBP U I Class, CHF U I Class, USD H R Class, EUR U R Class, EUR H R Class, GBP U R Class, GBP H R Class, CHF H R Class, GBP H C Class, USD H C Class, EUR H C Class, GBP U C Class and CHF H C Class; Seilern America has seventeen classes of Shares, namely: USD U I Class, EUR H I Class, EUR U I Class, GBP H I Class, GBP U I Class, CHF U I Class, USD U R Class, EUR H R Class, EUR U R Class, GBP H R Class, GBP H C Class, USD H C Class, EUR H C Class, GBP U C Class, EUR U C Class and CHF H C Class; Seilern Europa has nine classes of Shares, namely: EUR U I Class, CHF U I Class, EUR U R Class, GBP U C Class, EUR H C Class, EUR U C Class, GBP U C Class, EUR H C Class, GBP U C Class, EUR H C Class, GBP U C Class and CHF H C Class.

The letter U means that a Share class is unhedged, the letter H means that the Share class is hedged, the letter R means that the Share class is a retail Share class, the letter I means that the Share class is an institutional Share class and the letter C means that the Share class is a clean Share class.

To the extent that Seilern World Growth Fund holds securities denominated in currencies other than Sterling, the sub-fund may hedge against any currency exposures. Seilern America holds securities denominated in currencies other than US Dollar, the sub-fund may hedge against any currency exposures. Seilern Europa holds securities denominated in currencies other than Euro, the sub-fund may hedge against any currency exposures. The Company may also create hedged currency Share classes to hedge the currency exposures between the operating currency of the Share class and the Base Currency of the Fund. In no case shall any hedging transaction exceed 100 per cent of the Net Asset Value of the relevant class. The costs and gains/(losses) of the hedging transactions entered into by each class will be borne solely by the relevant class.

Seilern Investment Management (Ireland) Limited

For the first half of 2020, share classes returns for Seilern World Growth ranged from -0.1 per cent for EUR H R Class, CHF H R Class and GBP H C Class, to +8.4 per cent for GBP U C Class. In relative terms, ten out of twelve share classes of Seilern World Growth outperformed the MSCI World TR, denominated in their respective currencies. This ranged from +7.6 per cent outperformance to underperformance -1.4 per cent.

West Pharmaceutical Services was the best performer for the period. The drug device packaging manufacturer was promoted to the S&P 500 during the period after having performed strongly and consistently over many years. The company also announced strong period financial results, with organic revenue growth of 13 per cent, expanding operating margins, and raised its year-end guidance. Idexx Laboratories was the second-best performer in the period. The pet healthcare company announced a resilient set of first quarter earnings. They provided a further update on vet trends at the end of May, which showed clinical vet visits in the US had returned to growth by the middle of that month.

Inditex was the worst performer for the period. The stock was down, negatively impacted by the news flows coming from the retail sector as a whole and the fact that the large majority of its retail doors have remained shut through the period. Assa Abloy was the second worst performer of the period. The locks manufacturer announced the numbers for the period earlier than expected, which detailed significant pressure in APAC through February and March as well as sudden declaration in EMEA.

Seilern Investment Management (Ireland) Limited

For the first half of 2020, share classes returns for Seilern America ranged from -0.1 per cent for GBP H R Class, to +9.7 per cent for GBP U I Class and GBP U C Class. In relative terms, eleven out of thirteen classes of Seilern America outperformed the S&P 500 TR, denominated in their respective currencies. This ranged from +5.9 per cent outperformance to underperformance -3.9 per cent.

West Pharmaceutical Services was the best performer for the period. The drug device packaging manufacturer was promoted to the S&P 500 during the period after having performed strongly and consistently over many years. The company also announced strong period financial results, with organic revenue growth of 13 per cent, expanding operating margins, and raised its year-end guidance. Idexx Laboratories was the second-best performer in the period. The pet healthcare company announced a resilient set of first quarter earnings. They provided a further update on vet trends at the end of May, which showed clinical vet visits in the US had returned to growth by the middle of that month.

CME was the worst performer for the period. Although the company released strong first quarter results, investor's focus shifted to weak economic data and lower volatility, both of which drove lower volumes as the period progresses. Graco was the second worst performer. The company published results for the period below consensus due to weaker demand in its Industrial segment. Despite near-term headwinds, the company has kept its payroll intact and is well positioned to take advantage of a recovery.

INVESTMENT MANAGER'S REPORT (CONTINUED) FOR THE SIX MONTHS ENDED 30 JUNE 2020

SEILERN EUROPA

The investment objective of Seilern Europa is to seek capital appreciation through investment in equity or equity-related securities of the highest quality which are listed on the stock exchanges of the European OECD countries.

Seilern Europa has nine classes of Shares, namely: EUR U I Class, CHF U I Class, EUR U R Class, EUR U R (Founders) Class, GBP H C Class, USD H C Class, EUR H C Class, GBP U C Class and CHF H C Class.

SUMMARY

The table below shows the performances of the various share classes of the fund, the MSCI World Total Return* expressed in the currency of the share class, and the level of outperformance/underperformance.

	1H2020	MSCI Europe T.R.	Rel. performance
EUR U I Class	-1.6%	-12.8%	11.3%
EUR U R Class	-1.9%	-12.8%	10.9%
EUR U R (Founders) Class	-1.5%	-12.8%	11.4%

USD H C Class	-0.3%	-12.7%	12.4%
EUR H C Class	-1.2%	-12.8%	11.6%
GBP U C Class	5.8%	-6.5%	12.3%

Seilern Investment Management (Ireland) Limited

For the first half of 2020, share classes of Seilern Europa ranged from -1.9 per cent for EUR U R Class to 5.8 per cent for GBP U C Class. In relative terms, all share classes of Seilern Europa outperformed the MSCI Europe TR. The outperformance ranged from +6.3 per cent, to +12.4 per cent.

Chr. Hansen was the best performer for the period. The company reported organic growth at the beginning of the period, underscoring its position as a defensive consumer exposed business. Sales were bolstered by 'extraordinary demand' from a number of customers that sought to increase their safety stock levels following the outbreak. The stock was down impacted by the negative news flows coming from the retail sector as a whole and the fact that the large majority of its retail doors have remained shut throughout the period.

Lindt was the worst performer for the period. Although the company started the year strongly, since the beginning of March measures to limit the spread of the virus significantly impacted its travel retail business, its directly operated store network and, to lesser extent, its trade in grocery stores. Inditex was the second-worst performing stock this period. The stock was down impacted by the negative news flows coming from the retail sector as a whole and the fact that the large majority of its retail doors have remained shut throughout the period.

1. Principal accounting policies

Basis of preparation

The condensed financial statements have been prepared in accordance with accounting standards generally accepted in Ireland and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended ("the UCITS Regulations") and the Central Bank of Ireland (the "Central Bank") pursuant to the Central Bank (Supervision and Enforcement) Act 2013 (section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (S.I. No. 230 of 2019) (the "Central Bank UCITS Regulations"). The condensed financial statements have been prepared in accordance with Financial Reporting Standard 104 'Interim Financial Reporting' ('FRS 104'). Accounting standards generally accepted in Ireland in preparing financial statements giving a true and fair view are those published by the Institute of Chartered Accountants in Ireland and issued by the Financial Reporting Council ('FRC').

The unaudited condensed financial statements have been prepared in accordance with FRS 104 and should be read in conjunction with the audited financial statements for the year ended 31 December 2019. Accounting policies applied in the preparation of interim Financial Statements are consistent with the accounting policies applied in the preparation of the audited annual Financial Statements.

The Company meets the criteria to avail of the exemption available to certain investment funds under FRS 102 not to prepare a statement of cash flow.

Financial assets and liabilities at fair value through profit or loss

The Company has designated its investments into the financial assets and liabilities at fair value through profit or loss category and consequently they are measured at fair value with all changes recognised in the Condensed Profit and Loss Account.

Purchases and sales of investments are recognised on trade date – the date on which the Company commits to purchase or sell the asset. Investments are initially recognised at fair value and are derecognised when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership.

Unrealised gains and losses arising from changes in the fair value of the "financial assets or financial liabilities at fair value through profit or loss" category are included in the Condensed Profit and Loss Account in the period in which they arise. Realised gains and losses are included in the Condensed Profit and Loss Account in the period in which they arise.

All forward foreign currency exchange contracts are fair valued using forward exchange rates prevailing at the relevant valuation date for the remaining period to maturity and any resulting unrealised gains are recorded as assets and unrealised losses as liabilities in the Condensed Balance Sheet.

Realised gains and losses are recorded in the Condensed Profit and Loss Account at the time the forward foreign exchange currency contracts settle. In relation to class specific forward foreign exchange currency contracts the realised and unrealised gains and losses and transaction costs are allocated solely to those share classes.

Valuation of investments

The valuation of investments is based on the Net Asset Value per share at the close of business on the valuation day, which for period ended 30 June 2020 of the Company was 30 June 2020.

After initial measurement, the Company measures financial instruments classified as financial assets at fair value through profit or loss at their fair values. Fair value is the amount for which an asset could be exchanged, or a liability settled, between knowledgeable, willing parties in an arm's length transaction. Securities which are quoted, listed or traded on a Recognised Exchange will be valued at last traded price at the Valuation Point in accordance with IAS 39. The value of any security which is not quoted, listed or dealt in on a Recognised Exchange or which is so quoted, listed or dealt but for which no such quotation or value is available or the available quotation or value is not representative of the fair market value shall be the probable realisation value as estimated with care and good faith by the Directors or by a competent person, firm or corporation appointed for such purpose by the Depositary.

2. Cash at bank

All cash at bank balances as at 30 June 2020 and 31 December 2019 were held with Brown Brothers Harriman & Co., or with third party institutions approved by the Company on overnight deposit, or directly with a sub-custodian (agency accounts) as detailed in the following tables.

4. Distributions

The Directors may distribute dividend and interest income earned, plus net realised and unrealised capital gains, after the deduction of expenses in respect of each accounting period.

Any dividend will be paid by electronic transfer.

Any dividend which is unclaimed six years from the date it became payable shall be forfeited and become the property of the relevant Sub-Fund.

No distributions were made during the period ended 30 June 2020 or during the year ended 31 December 2019.

5. Incorporation and share capital

The Company was incorporated and registered in Ireland on 21 July 2000 as an open ended investment company with variable capital pursuant to the Companies Act 2014. The Company is qualified as a UCITS within the meaning of the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (S.I. No. 230 of 2019) (the "Central Bank UCITS Regulations") and has segregated liability between sub-funds. It is authorised by the Central Bank. Currently, the Company is structured as an umbrella fund consisting of three Sub-Funds which are:

- Seilern World Growth
- Seilern America
- Seilern Europa

The share capital of the Company shall at all times equal the Net Asset Value. The initial share capital of the Company was EUR39,000, represented by 39,000 shares of no par value. The Directors are empowered to issue shares in the Company provided that the amount of issued share capital in the Company does not exceed EUR500 billion. There are no rights of pre-emption upon the issue of shares in the Company. Each share entitles the holder to attend and vote at meetings of the Company and the Sub-Fund represented by those shares.

5. Incorporation and share capital (continued)

The issued share capital of the Company is as follows:

Subscriber share capital consists of 38,996 shares of no par value. Mr. Peter Seilern-Aspang holds two shares and Seilern Investment Management (Ireland) Limited hold the remaining 38,994 shares.

Subscriber shares entitle the holders to attend and vote at general meetings of the Company, but do not entitle the holders to participate in the profits or assets of the Company except for return of capital on a winding up. The subscriber shares in issue are not included in the total share capital in the Condensed Balance Sheet nor is the corresponding bank balance. The tables overleaf outline the movement in redeemable participating shares during the period.

8. Financial risk management

The Company can use investment techniques and financial derivative instruments ("FDI") for efficient portfolio management ("EPM") purposes only. The Company only uses a limited number of simple FDI for non-complex hedging or investment strategies.

The Company may employ investment techniques and financial derivative instruments for efficient portfolio management and investment purposes, subject to the conditions and within the limits from time to time laid down by the Central Bank. Furthermore, new investment techniques and financial derivative instruments may be developed which may be suitable for use by a Sub-Fund in the future and a fund may employ such techniques and instruments subject to the prior approval, and any restrictions imposed by the Central Bank. Notwithstanding this, it is not proposed for the present that the Sub-Funds will employ investment techniques and financial derivative instruments including, but not limited to, trading in futures and options and other derivatives for investment purposes.

The Investment Manager is Seilern Investment Management Limited. The Investment Manager monitors and measures the risk associated with the use of investment techniques and FDI and their contribution to the overall risk profile of the Company. There is a documented risk management process ("RMP") designed to ensure that investors in the Company are sufficiently protected from adverse events related to the use of FDI.

Market risk

Market risk embodies the potential for both gains and losses and includes price risk, currency risk and interest rate risk.

Risk management

As part of the RMP, on each business day the Administrator calculates the Net Asset Value ("NAV") of each share class of the Sub-Funds and compares the current hedge ratio for each share class to the hedging methodology target ratio provided by the Investment Manager. If the difference between the Current Hedge Ratio and the target ratio exceeds a daily tolerance level the administrative agent seeks authorisation from the Investment Manager to instruct Brown Brothers Harriman & Co. ("BBH&Co."), as a principal counterparty, to purchase or sell currency forward contracts on behalf of the share class as may be necessary to: (i) meet the Hedge Ratio or to cause the Current Hedge Ratio to fall within the tolerance band: and (ii) maintain a specific percentage investment in each currency designated by the Investment Manager on behalf of the Company.

In addition to the above controls, the Investment Manager receives daily position reports from the Administrator.

Price risk

Price risk is the risk that the value of instruments will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or currency risk), whether caused by factors specific to an individual investment, its issuer or all factors affecting all instruments traded in the market.

As the majority of the Company's financial instruments are carried at fair value with fair value changes recognised in the Condensed Profit and Loss Account, all changes in market conditions will directly affect net investment income.

8. Financial risk management (continued)

Price risk (continued)

Price risk is managed by the Company's Investment Manager by constructing a diversified portfolio of instruments traded on various markets.

The risk of losing capital through price risk is reduced through detailed proprietary analysis and strict selection criteria which drives selection of the equities. As a result the Company only invests in the highest quality companies listed on the stock exchanges of the OECD countries with proven track records and high predictability of future earnings growth.

Such companies generally will have most or all of the following characteristics: (i) multinational businesses including exposure to the fast growing economies of the world; (ii) steady, non-cyclical demand for their products or services; (iii) unbroken earnings growth records over the last ten years; (iv) global branded products or services often sought after by developing market consumers; (v) the potential for long term consistent earnings growth; (vi) high returns on equity reflecting a technological advantage over their competition or uniqueness of their products or services; (vii) dynamic management, and; (viii) internal resources sufficient to finance their global development and maintain their competitive position.

The breakdown of investment assets and liabilities is disclosed in the Schedule of Investments.

Currency risk

The Company may invest in financial instruments and enter into transactions denominated in currencies other than its functional currency. Consequently, the Company is exposed to risks that the exchange rate of its currency relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Company's assets or liabilities denominated in currencies other than the functional currency.

The Company's currency risk is managed on a daily basis by the Investment Manager in accordance with policies and procedures in place. The geographical analysis provided in the Schedule of Investments for each Sub-Fund broadly represents its currency exposure at period end. To the extent that any Sub-Fund of the Company holds securities denominated in currencies other than its base currency, the relevant share class may hedge against any currency exposure so arising. Details of the Share class level forward foreign currency contracts are included in the Schedule of Investments. In no case shall any hedging transaction exceed 100% of the Net Asset Value of the relevant class.

Interest rate risk

The majority of the Seilern World Growth's, Seilern America's and Seilern Europa's financial assets and liabilities are non-interest bearing. As a result, the Sub-Funds are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates. Any excess cash is invested at short-term market interest rates.

Credit risk

For cash accounts, funds deposited are liabilities of the banks, creating a debtor-creditor relationship between the bank and the Company. Cash accounts opened on the books of Brown Brothers Harriman & Co. ("BBH") are obligations of BBH while cash accounts opened on the books of a sub-custodian (agency accounts) are obligations of the sub-custodian. Accordingly, while BBH is responsible for exercising reasonable care in the administration of agency cash accounts, it is not liable for their repayment in the event the sub-custodian, by reason of its bankruptcy, insolvency or otherwise, fails to make repayment.

All cash at bank balances at the period end are held with BBH or with third party institutions approved by the Company on overnight deposit, or directly with a sub-custodian. Cash balances held at 30 June 2020 and 31 December 2019 are detailed in the cash at bank note. The short-term credit ratings for all of the institutions are listed in the cash at bank note.

8. Financial risk management (continued)

Credit risk (continued)

The Depositary must ensure that there is legal separation of non-cash assets held in depositary, that such assets are held on a fiduciary basis, and that appropriate internal control systems are maintained such that records clearly identify the nature and amount of all assets under depositary. As Depositary, Brown Brothers Harriman Trustee Services (Ireland) Limited (the "Depositary") must ensure the ownership of each asset and the location of documents of title for each asset.

All securities that BBH holds in depositary (as global sub-custodian for and on behalf of the Depositary for further benefit of its underlying clients) are segregated from BBH's own assets, whether they are held in BBH's vault, in segregated accounts on the books of their sub-custodians, or in an account maintained at a central securities depository. BBH maintains segregated accounts per client on its own books as well as on the books of the sub-custodian in the local market, where this is possible. The Depositary must also ensure non-cash assets are held on a fiduciary basis through BBH's network of global sub-custodians.

BBH's sub-custodians are required by contract with BBH and generally by operation of law to segregate the securities of depositary clients from the general banking assets of the sub-custodian.

BBH performs both initial and ongoing due diligence reviews on the sub-custodians within its global depositary network through its network management group. Such reviews include an assessment of service level standards, management expertise, market information, depositary operations, reporting and technology capabilities at the sub-custodian, as well as reviews in relation to their reputation and standing in the market and their ongoing commitment to providing depositary services. Service level agreements are put in place with each sub-custodian, as well as the usual contractual arrangements, and these are reviewed on a regular basis through service review meetings, including on-site due diligence meetings.

Regular financial analysis of all sub-custodians is carried out by BBH's risk and credit group and is focused on the sub-custodian bank's capital adequacy, asset quality, earnings, liquidity and credit ratings as key indicators, amongst others. These reviews form part of BBH's routine assessment of a sub-custodian's financial strength and standing.

Liquidity risk

The Company's constitution provides for the daily creation and redemption of shares and it is therefore exposed to the liquidity risk of meeting shareholder redemptions at any time.

The Company's financial instruments do not include investments in unlisted equity investments, which are not traded in an organised public market and which generally may be illiquid.

The Company's listed securities are considered to be readily realisable as they are listed on recognised stock exchanges.

Seilern Investment Management Limited monitors the liquidity profile of each Fund on a daily basis.

If repurchase requests on any dealing day exceed 10 per cent of the Shares in any Sub-Fund, the Company may defer the excess repurchase requests to subsequent dealing days and shall repurchase such Shares rateably. Any deferred repurchase requests shall be treated in priority to any repurchase requests received on subsequent dealing days.

The Company's redemption policy requires one day's notice before dealing day. Settlements of subscriptions and redemptions shall be made within three business days of the dealing day. Based on the liquidity profile of the Seilern funds, the assets held can broadly be described as liquid. The funds currently run an average cash position of approximately 5% which enables the fund to withstand reasonably large redemptions without being forced to raise cash via the sale of assets. Liquidity of the stocks held in the Seilern funds is calculated using the average daily volume of each security over the last 30 days and trading at a 20% participation rate.

Substantially all of the Company's liabilities, including net assets attributable to holders of redeemable participating shares, are payable within one month.

10. Fair value of assets and liabilities

FRS 102 on "Fair Value: Disclosure" requires disclosure relating to the fair value hierarchy in which fair value measurements are categorised for assets and liabilities. The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value.

The Company has classified fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements.

- (i) Level 1: The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- (ii) Level 2: Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- (iii) Level 3: Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

The following tables show an analysis of assets and liabilities recorded at fair vale as at both 30 June 2020 and 31 December 2019.

12. Connected persons

Transactions carried out with a promoter, partner, manager, depositary, investment manager and/or associated or group companies of these ("connected persons") are carried out as if conducted at arm's length and only when in the best interests of the shareholders.

The Directors are satisfied that there are arrangements evidenced by written procedures in place to ensure that connected persons transactions are carried out as described above and that they have been complied with during the period.

13. Soft commissions

There were no soft commission arrangements in place for the six months ended 30 June 2019 (31 December 2019: none).

14. Significant Events During the Period

An updated Prospectus was noted by the Central Bank on 2 April 2020. The update to the Prospectus included, amongst other matters, the following: (i) the reference to Investment Adviser was replaced with Investment Manager; (ii) the Risk Factors section was updated with the U.K.'s withdrawal from the EU disclosure and with the risks associated with delays in providing complete Customer Due Diligence; and (iii) the acknowledgement in regards the Foreign Account Tax Compliance Act (FATCA) was added.

Since the start of January 2020, global financial markets have been monitoring and reacting to the novel coronavirus (Covid-19). The virus has spread across the world with major outbreaks across Europe, America and the Middle East, resulting in widespread restrictions on the ability of people to travel, socialise and leave their homes. Markets surged back in the second quarter of 2020 as Governments and Central Banks introduced further monetary and fiscal measures to combat the economic cost of the Covid-19 pandemic and associated lockdowns. By May, many countries had started to ease lockdowns. These measures were accompanied by improving economic data which brought fresh hope of economic recovery, even as the virus continued to take hold globally. Levels of uncertainty remained high with many companies withdrawing full year guidance at first quarter results and certain companies in the travel, retail and oil industries announcing bankruptcy proceedings. During the period, the investment manager operated effectively under its business continuity plan, with minimum disruption to the management of the funds.

There were no other significant events during the period.

15. Post Balance Sheet Events

An updated Prospectus was noted by the Central Bank on 28 July 2020. The update to the Prospectus included, amongst other matters, the following: (i) Seilern Investment Management Ltd. is no longer recognised as Distributor; (ii) Shareholders will no-longer be charged an initial sales charge; and (iii) the change of the minimal initial investment for Seilern World Growth EUR U I and Seilern World Growth CHF U I share classes.

There are no other significant post balance sheet events.

16. Approval of condensed financial statements

The condensed financial statements were approved by the Board of Directors on 27 August 2020.
