PRESIDENT'S LETTER

December 31, 2020 (unaudited)

#### Dear Fellow Shareholders:

The level of stimulus from the U.S. Federal Reserve (Fed) in 2020 was almost unprecedented and had investment consequences that endure into the new year of 2021. Financial markets benefited from the Fed stimulus and the case for gold investing solidified further.

As 2020 ends, the global economy continues to grow surprisingly well, supporting the markets, despite the social distancing that we all continue to feel in our personal lives. Important commodities like copper regained and passed pre-COVID-19 highs. In addition, in China, not only are higher real policy interest rates a sign of economic strength, but the country's industrial recovery also points to all-time highs in activity, even though consumer activity lags a little.

We do, however, see two risks to markets in 2021: 1) an unforeseen rise in interest rates in the U.S. triggered by higher global growth or other factors; and 2) a bump in the return to full employment. As to the first risk, several assets like gold, commodities and bitcoin may not be fully reflecting inflationary risks which could be a consequence of the huge stimulus of 2020.

An incredible number of people have been laid off in the U.S. and, regardless of GDP numbers, people are unlikely to return quickly to work at pre-COVID-19 levels. Despite signature into law on December 27, 2020 of the Consolidated Appropriations Act, 2021, concern may remain high enough for policy makers to take additional steps (any of which, however, are, as yet, uncertain) that may impact the financial recovery.

The investing outlook sometimes does change suddenly, as it certainly did in 2020. To get our quarterly investment outlooks, please subscribe to "<u>VanEck News & Insights</u>". Should you have any questions regarding fund performance, please contact us at 800.826.2333 or visit our website.

We sincerely thank you for investing in VanEck's investment strategies. On the following pages, you will find a performance discussion and financial statements for each of the funds for the twelve month period ended December 31, 2020. As always, we value your continued confidence in us and look forward to helping you meet your investment goals in the future.

Jan F. van Eck CEO and President VanEck Vectors ETF Trust

January 15, 2021

Investing involves substantial risk and high volatility, including possible loss of principal. An investor should consider the investment objective, risks, charges and expenses of the Funds carefully before investing. To obtain a prospectus and summary prospectus, which contain this and other information, call 800.826.2333 or visit vaneck.com. Please read the prospectus and summary prospectus carefully before investing.

#### MANAGEMENT DISCUSSION

December 31, 2020 (unaudited)

#### Market Review

All funds were to some extent affected by both the wide market sell off beginning in late-February and ensuing market volatility, sparked by the COVID-19 pandemic as it evolved globally. However, remedial measures, both financial and fiscal, taken by central governments around the world in response to the crisis (including the asset purchasing program of the U.S. Federal Reserve), resulted in a positive "bounce back" in markets starting in April. By the end of 2020, the extent of the recovery varied considerably country by country and region by region.

#### Africa

The materials sector, was by far the greatest positive contributor to the performance of VanEck Vectors Africa Index ETF, which returned 2.29% for the 12 month period. The financial and energy sectors were the two greatest detractors from performance. Geographically, four Canada-domiciled mining companies (gold, precious metals and copper) operating in Africa made the country the top contributor to Fund returns. It was followed by Nigeria. By country, the greatest detractor from performance, by country, was Ghana with two companies operating in the energy sector.

#### Brazil

Supported by robust third¹ and fourth quarter² 2019 figures, Brazil went into 2020 with its economy on an apparently steady footing. However, having hit a high on January 23, 2020, as turmoil hit the world's markets, small-cap Brazilian stocks proceeded to plummet by approximately 59% over the following two months, hitting a low on March 23. Unable to claw back their losses as the year unfolded, the VanEck Vectors Brazil Small-Cap ETF lost 20.75% over the 12 month period under review.

Six sectors contributed positively to performance, with the industrial, materials and consumer staples sectors contributing the most. However, together, the negative contributions just from the utilities and consumer discretionary sectors, with two of the three largest average sector weightings during the year, significantly exceeded all positive contributions to performance.

### China

Despite having been the original epicenter of the COVID-19 pandemic, China's rapid and robust recovery therefrom was reflected in the strong positive performances of both VanEck Vectors China Growth Leaders ETF (formerly the VanEck Vectors ChinaAMC CSI 300 ETF) and VanEck Vectors ChinaAMC SME-ChiNext ETF which returned 25.95% and 64.23%, respectively.

VanEck Vectors ChinaAMC SME-ChiNext ETF, by seeking to track its index of companies on the SME and ChiNext boards, offers exposure to more consumer, new economy sector names, many of which have also tended to be non-state owned enterprises. While the information technology sector, with the largest average sector weighting during the year, was the greatest contributor to performance, comparable positive contributions were also made by the healthcare and industrial sectors. Only the utilities and real estate sectors detracted from performance and then only minimally. While most sectors contributed positively to the performance of VanEck Vectors China Growth Leaders ETF, consumer staples companies contributed by far the most to returns. The financial sector detracted by far the most.

Effective May 1, 2020, the Fund changed its name from VanEck Vectors® ChinaAMC CSI 300 ETF to VanEck Vectors China Growth Leaders ETF and has traded thereafter under a new ticker, GLCN. As of the same date, Fund now seeks to track, before fees and expenses, the MarketGrader China All-Cap Growth Leaders Index.

# **Egypt**

Egypt went into 2020 with a strong economy: GDP had grown by 5.6% in its 2019 fiscal year (the 12 months to end-June)<sup>3</sup> and GDP growth in the last two calendar quarters of the year was also strong.<sup>4</sup> Having hit a high on February 26, however, Egyptian stocks fell approximately 39% to a low on March 18. Unable fully to recoup its losses thereafter, the VanEck Vectors Egypt Index ETF lost 10.09% in 2020.

The top three performing sectors were consumer services, materials and consumer discretionary. The financial and healthcare sectors detracted most from performance. Large-cap companies, with the smallest average weighting during the period under review, detracted the most from performance.

#### India

The VanEck Vectors India Growth Leaders ETF (formerly the VanEck Vectors India Small-Cap Index ETF) posted a slight gain for the year of 0.80%. The Fund's portfolio was hit hard by the downturn in the market at the end of March. Having recorded a high on January 17, between then and the low recorded on March 23, the Fund lost approximately 50%. However, it was able to claw back its most of its losses to end the year a little higher than it started it.

While the information technology sector contributed the most positively to performance, companies in the industrial sector were the greatest detractors from performance.

Effective May 1, 2020, the Fund changed its name from VanEck Vectors® India Small-Cap Index ETF to VanEck Vectors India Growth Leaders ETF and has traded thereafter under the ticker GLIN. As of the same date, the Fund now seeks to track, before fees and expenses, the MarketGrader India All-Cap Growth Leaders Index.

#### Indonesia

Like so many other countries, 2020 was particularly challenging for Indonesia and, compared with other Asian emerging markets countries, it was relatively hard hit by COVID-19.<sup>5</sup> This was reflected in the returns for the VanEck Vectors Indonesia Index ETF, which lost 8.20% in 2020. The country had gone into the year with a stable and growing economy and, while GDP growth of 5.02% in 2019 may have been its weakest since 2015,<sup>6</sup> Indonesian stocks were able to recoup many of their losses between the lows they hit toward the end of March and December 31, 2020.

Positive contributions to returns came from three sectors: materials, energy and healthcare. The greatest negative contribution to returns came from the financial sector, with the largest average weighting during the period under review, which, alone, exceeded all positive contributions to performance.

#### Israel

Israel is one country that, despite both the market downturn at the start of 2020 and the continuing ravages of COVID-19, managed successfully economically. While figures from the country Central Bureau of Statistics showed that its economy shrank by 2.8% in the first three quarters of 2020<sup>7</sup> compared with the corresponding period of 2019, most other developed countries suffered far greater damage from the crisis.<sup>8</sup> The country was helped by strong exports, particularly from the tech sector.<sup>9</sup>

The VanEck Vectors Israel ETF gained 28.14% for the 12 months period under review. Over the period under review, the performance of the information technology sector, with the largest average weighting during 2020 made by far the greatest positive contribution to returns. Three sectors detracted most from performance: financial, real estate and energy. Large-cap companies, followed by small- then mid-cap companies, made the greatest positive contribution to returns.

### Russia

Despite the effects of the COVID-19 crisis on Russia's economy being quite serious resulting in the country experiencing its deepest recession since World War II,<sup>10</sup> 2020 could have been considerably worse for both the VanEck Vectors Russia Small-Cap ETF and its peer investing in larger-cap Russian stocks, the VanEck Vectors Russia ETF. The former ETF gained 5.23% for the year, while the latter lost 1.38% over the same period.

The materials sector was by far the most significant contributor to performance of the VanEck Vectors Russia ETF and the energy sector detracted the most. For the VanEck Vectors Russia Small-Cap ETF, the materials sector were the most significant contributors to positive returns. The industrial, information technology and utilities sectors were the greatest detractors from performance.

#### VANECK VECTORS FTFs

#### MANAGEMENT DISCUSSION

(unaudited) (continued)

#### Vietnam

VanEck Vectors Vietnam ETF gained 9.72% in 2020. Despite the country's economic growth having fallen to a 30-year low as a result of COVID-19, it was still forecast to expand by 2.91% in 2020.<sup>11</sup> Even at this level, according to the country's General Statistics Office, the rate is "among the world's highest."<sup>12</sup>

Small-and mid-cap companies contributed the most to performance over the reporting period, each category alone outperforming the positive returns of large-cap companies. Four sectors contributed the majority of positive returns: information technology, materials, consumer staples and financial. The industrial, energy and real estate sectors were the greatest detractors from performance.

\* Returns based on the funds' net asset values (NAVs).

- <sup>1</sup> MVIS® Russia Small-Cap Index (MVRSXJTR) is a rules based, modified capitalization weighted, float adjusted index intended to give investors a means of tracking the overall performance of publicly traded small-capitalization companies that are incorporated in or doing substantial business in Russia.
- <sup>2</sup> The S&P 500 Index (SPTR) is a market-value weighted index consisting of 500 stocks chosen for market size, liquidity, and industry group representation, with each stock's weight in the index proportionate to its market value.

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV since inception. The result is compared with the Fund's benchmark and a broad-based index.

Past performance is no guarantee of future results. Performance results do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption or sale of fund shares.

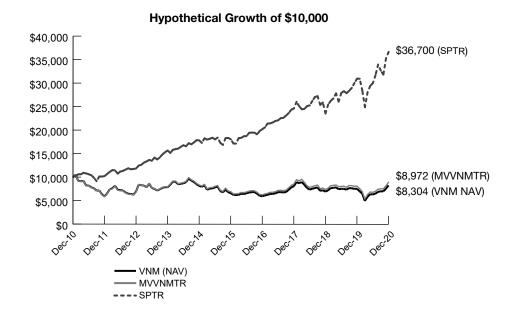

December 31, 2020 (unaudited)

#### **Average Annual Total Returns**

	Share Price	NAV	MVVNMTR <sup>1</sup>	SPTR <sup>2</sup>
One Year	9.94%	9.72%	10.44%	18.40%
Five Year	4.61%	4.66%	5.33%	15.22%
Ten Year	(2.19)%	(1.84)%	(1.08)%	13.88%

- 1 MVIS® Vietnam Index (MVVNMTR) is a rules based, modified capitalization weighted, float adjusted index intended to give investors a means of tracking the overall performance of publicly traded companies that are incorporated in or doing substantial business in Vietnam.
- <sup>2</sup> The S&P 500 Index (SPTR) is a market-value weighted index consisting of 500 stocks chosen for market size, liquidity, and industry group representation, with each stock's weight in the index proportionate to its market value.

This chart shows the value of a hypothetical \$10,000 investment in the Fund at NAV over the past 10 years. The result is compared with the Fund's benchmark and a broad-based index.

Past performance is no guarantee of future results. Performance results do not reflect the deduction of taxes that a shareholder would pay on fund distributions or on the redemption or sale of fund shares.

### VANECK VECTORS ETF TRUST

# ABOUT FUND PERFORMANCE

(unaudited)

The price used to calculate market return (Share Price) is determined by using the closing price listed on its primary listing exchange. Since the shares of each Fund did not trade in the secondary market until after each Fund's commencement, for the period from commencement to the first day of secondary market trading in shares of each Fund, the NAV of each Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for each Fund may reflect temporary waivers of expenses and/or fees. Had each Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of each Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Fund returns reflect reinvestment of dividends and capital gains distributions. Performance current to the most recent month-end is available by calling 800.826.2333 or by visiting vaneck.com.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Certain indices may take into account withholding taxes. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

The Africa Index, Brazil Small-Cap Index, Egypt Index, Indonesia Index, Russia Index, Russia Small-Cap Index, and Vietnam Index are published by MV Index Solutions GmbH (MVIS®), which is a wholly owned subsidiary of the Adviser, Van Eck Associates Corporation. The China Index and India Index are published by MarketGrader.com Corp. (MarketGrader). The SME-ChiNext Index is published by the Shenzhen Securities Information Co., Ltd. (Shenzhen Securities), which is a subsidiary of the Shenzhen Stock Exchange. The Israel Index is published by BlueStar Global Investors, LLC (BlueStar).

BlueStar, MarketGrader MVIS, and Shenzhen Securities are "Index Providers." The Index Providers do not sponsor, endorse, or promote the Funds and bear no liability with respect to the Funds or any security.

### VANECK VECTORS ETF TRUST

# **EXPLANATION OF EXPENSES**

(unaudited)

# Hypothetical \$1,000 investment at beginning of period

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, July 1, 2020 to December 31, 2020.

### **Actual Expenses**

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During the Period."

### **Hypothetical Example for Comparison Purposes**

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

<sup>(</sup>a) Calculated based upon average shares outstanding

<sup>(</sup>b) Total return is calculated assuming an initial investment made at the net asset value at the beginning of the year, reinvestment of any dividends and distributions at net asset value on the dividend/distributions payment date and a redemption at the net asset value on the last day of the year. The return includes adjustments in accordance with U.S. generally accepted accounting principles and as such, the net asset values for financial reporting purposes and the returns based upon those net asset values may differ from the net asset values and returns for shareholder transactions. The return does not reflect the deduction of taxes that a shareholder would pay on Fund dividends/distributions or the redemption of Fund shares.

<sup>(</sup>c) Portfolio turnover rates exclude securities received or delivered as a result of processing in-kind capital share transactions.

<sup>(</sup>d) Excludes reimbursement from prior year custodial charge of 0.01%.

<sup>(</sup>e) For the year ended December 31, 2019, 0.55% of total return, representing \$0.11 per share, consisted of a payment from the Adviser in connection with a reimbursement for an investment loss (See Note 3).

Portfolio turnover rates exclude securities received or delivered as a result of processing in-kind capital share transactions.

Excludes reimbursement from prior year custodial charge of 0.02%.

Calculated based upon average shares outstanding
Total return is calculated assuming an initial investment made at the net asset value at the beginning of the year, reinvestment of any dividends and distributions at net asset value on the dividend/distributions payment date and a redemption at the net asset value on the last day of the year. The return includes adjustments in accordance with U.S. generally accepted accounting principles and as such, the net asset values for financial reporting purposes and the returns based upon those net asset values may differ from the net asset values and returns for shareholder transactions. The return does not reflect the deduction of taxes that a shareholder would pay on Fund dividends/distributions or the redemption of Fund shares.

Effective January 10, 2019, the Fund includes interest expense in the calculation of the expense limitation. The ratio only excludes interest expense accrued prior to January 10, 2019 and not waived under the expense limit agreement. Amount represents less than \$0.005 per share.

For the year ended December 31, 2020, 0.12% of total return, representing \$0.05 per share, consisted of a payment by the Adviser

For the year ended December 31, 2020, 0.07% of total return, representing \$0.02 per share, consisted of a payment by the Adviser (See Note 3).

### NOTES TO FINANCIAL STATEMENTS

December 31, 2020

**Note 1 — Fund Organization —** VanEck Vectors ETF Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and offers multiple investment portfolios, each of which represents a separate series of the Trust. These financial statements relate only to the investment portfolios listed in the diversification table below (each a "Fund" and, collectively, the "Funds").

Fund Diversification Classification

Africa Index ETF Diversified Brazil Small-Cap ETF Diversified China Growth Leaders ETF Diversified ChinaAMC SME-ChiNext ETF Diversified Egypt Index ETF Non-Diversified India Growth Leaders ETF Diversified Indonesia Index ETF Non-Diversified Israel ETF Non-Diversified Russia ETF Non-Diversified Russia Small-Cap ETF Non-Diversified Vietnam ETF Non-Diversified

Each Fund was created to provide investors with the opportunity to purchase a security representing a proportionate undivided interest in a portfolio of securities consisting of substantially all of the common stocks in approximately the same weighting as their index. China Asset Management (Hong Kong) Limited (the "Sub-Adviser") is the sub-adviser to China Growth Leaders ETF (formerly known as ChinaAMC CSI 300 ETF) and ChinaAMC SME-ChiNext ETF. China Growth Leaders ETF and ChinaAMC SME-ChiNext ETF seek to achieve their investment objectives by primarily investing directly in A-shares through the Hong Kong-Shanghai Stock Connect program and via the A-share quota granted to the Sub-Adviser. India Growth Leaders ETF (formerly known as India Small-Cap Index ETF) makes its investments through MV SCIF Mauritius (the "Subsidiary"), a wholly owned subsidiary organized in the Republic of Mauritius.

**Note 2—Significant Accounting Policies—**The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The Funds are investment companies and follow accounting and reporting requirements of Accounting Standards Codification ("ASC") 946 *Financial Services—Investment Companies*.

The following summarizes the Funds' significant accounting policies.

A. Security Valuation - The Funds value their investments in securities and other assets and liabilities at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on national exchanges are valued at the closing price on the markets in which the securities trade. Securities traded on the NASDAQ Stock Market LLC ("NASDAQ") are valued at the NASDAQ official closing price. Over-the-counter securities not included on NASDAQ and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded they are categorized as Level 1 in the fair value hierarchy (described below). Certain foreign securities, whose values may be affected by market direction or events occurring before the Funds' pricing time (4:00 p.m. Eastern Time) but after the last close of the securities' primary market, are fair valued using a pricing service and are categorized as Level 2 in the fair value hierarchy. The pricing service, using methods approved by the Board of Trustees, considers the correlation of the trading patterns of the foreign security to intraday trading in the U.S. markets, based on indices of domestic securities and other appropriate indicators such as prices of relevant ADR's and futures contracts. The Funds may also fair value securities in other situations, such as when a particular foreign market is closed but the Fund is open. Short-term debt securities with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Money market fund investments are valued at net asset value and are considered as Level 1 in the fair value hierarchy. The Pricing Committee of Van Eck Associates Corporation ("the Adviser") provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to

### NOTES TO FINANCIAL STATEMENTS

(continued)

determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments or other assets. If market quotations for a security or other asset are not readily available, or if the Adviser believes they do not otherwise reflect the fair value of a security or asset, the security or asset will be fair valued by the Pricing Committee in accordance with the Funds' valuation policies and procedures. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, periodic comparisons to valuations provided by other independent pricing services, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of their investments on a recurring basis, which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The three levels of the fair value hierarchy are described below:

- Level 1 Quoted prices in active markets for identical securities.
- Level 2 Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).

Level 3 — Significant unobservable inputs (including each Fund's own assumptions in determining the fair value of investments).

A summary of the inputs and the levels used to value the Funds' investments are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

- **B. Basis for Consolidation**—The Subsidiary, an Indian exempted company, was incorporated on February 25, 2010 and acts as an investment vehicle for the India Growth Leaders ETF (the "Fund") in order to effect certain investments on behalf of the Fund. The Fund is the sole shareholder of the Subsidiary, and it is intended that the Fund will remain the sole shareholder and will continue to control the Subsidiary. The consolidated financial statements of the Fund include the financial results of its wholly owned subsidiary. All material interfund account balances and transactions have been eliminated in consolidation.
- **C. Federal Income Taxes**—It is each Fund's policy to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.
- **D. Distributions to Shareholders** Dividends to shareholders from net investment income and distributions from net realized capital gains, if any, are declared and paid annually by each Fund. Income dividends and capital gain distributions are determined in accordance with U.S. income tax regulations, which may differ from such amounts determined in accordance with GAAP.
- **E. Currency Translation**—Assets and liabilities denominated in foreign currencies and commitments under foreign currency contracts are translated into U.S. dollars at the closing prices of such currencies each business day as quoted by one or more sources. Purchases and sales of investments are translated at the exchange rates prevailing when such investments are acquired or sold. Foreign denominated income and expenses are translated at the exchange rates prevailing when accrued. The portion of realized and unrealized gains and losses on investments that result from fluctuations in foreign currency exchange rates is not separately disclosed in the financial statements. Such amounts are included with the net realized and unrealized gains and losses on investment

securities in the Statements of Operations. Recognized gains or losses attributable to foreign currency fluctuations on foreign currency denominated assets, other than investments, and liabilities are recorded as net realized gain (loss) and net change in unrealized appreciation (depreciation) on foreign currency transactions and foreign denominated assets and liabilities in the Statements of Operations.

- **F. Restricted Securities**—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund's Schedule of Investments.
- G. Offsetting Assets and Liabilities—In the ordinary course of business, the Funds enter into transactions subject to enforceable master netting or other similar agreements. Generally, the right of offset in those agreements allows the Funds to offset any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. The Funds may pledge or receive cash and or securities as collateral for securities lending. For financial reporting purposes, the Funds present securities lending assets and liabilities on a gross basis in the Statements of Assets and Liabilities. Cash collateral received for securities lending in the form of money market fund investments, if any, at December 31, 2020 is presented in the Schedules of Investments and in the Statements of Assets and Liabilities. Non-cash collateral is disclosed in Note 9 (Securities Lending).
- **H. Other**—Security transactions are accounted for on trade date. Realized gains and losses are determined based on the specific identification method. Dividend income is recorded on the ex-dividend date except that certain dividends from foreign securities are recognized upon notification of the ex-dividend date. Interest income, including amortization of premiums and discounts, is accrued as earned.

The Funds earn interest income on uninvested cash balances held at the custodian bank. Such amounts, if any, are presented as interest income in the Statements of Operations.

The character of distributions received from certain investments may be comprised of net investment income, capital gains, and return of capital. It is the Funds' policy to estimate the character of distributions received from these investments based on historical data if actual amounts are not available. After each calendar year end, these investments report the actual tax character of these distributions. Differences between the estimated and actual amounts are reflected in the Funds' records in the year in which they are reported by adjusting the related cost basis of investments, capital gains and income, as necessary.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

At December 31, 2020, ChinaAMC SME-ChiNext included \$9,464 in cash, at value on the Statements of Assets and Liabilities, which represents foreign investor minimum settlement reserve funds required by China Securities Depository and Clearing Corporation Limited.

**Note 3—Investment Management and Other Agreements—**The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of 0.50% of each Fund's average daily net assets. The Adviser has agreed, until at least May 1, 2021, to waive management fees and assume expenses to prevent each Fund's total annual operating expenses (excluding acquired fund fees and expenses, interest expense, trading expenses, taxes and extraordinary expenses; and for Russia ETF and Russia Small-Cap ETF, depositary receipt fees up to 0.10% and 0.08% of average daily net assets, respectively) from exceeding the expense limitations listed in the table below. Effective January 10, 2019, China Growth Leaders ETF and ChinaAMC SME-ChiNext ETF no longer exclude interest expense from their expense limitations. Refer to the Statements of Operations for the amounts waived/assumed by the Adviser for the period ended June 30, 2020.

# NOTES TO FINANCIAL STATEMENTS

Vietnam ETF	0.76

During the year ended December 31, 2019, the Adviser reimbursed the Brazil Small-Cap ETF \$372,975 for an investment loss. This reimbursement is reflected in the Statements of Changes in Net Assets as a net increase from payment from Adviser. The per share and total return impact to the Fund is reflected in the Financial Highlights.

During the year ended December 31, 2020, the Adviser reimbursed the China Growth Leaders ETF and ChinaAMC SME-ChiNext ETF \$57,732 and \$17,518, respectively, for transactional losses. These reimbursements are reflected in the Statements of Operations and Statements of Changes in Net Assets as a net increase from payment from Adviser. The per share and total return impacts to the Funds are reflected in the Financial Highlights.

In addition, Van Eck Securities Corporation (the "Distributor"), an affiliate of the Adviser, acts as the Funds' distributor. Certain officers and a Trustee of the Trust are officers, directors or stockholders of the Adviser and Distributor.

At December 31, 2020, the Adviser owned approximately 27% of China Growth Leaders ETF.

**Note 4—Capital Share Transactions –** As of December 31, 2020, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Fund shares are not individually redeemable and are issued and redeemed at their net asset value per share only through certain authorized broker-dealers ("Authorized Participants") in blocks of shares ("Creation Units").

The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index ("Deposit Securities") plus a balancing cash component to equate the transaction to the net asset value per share of the Fund on the transaction date. Cash may also be substituted in an amount equivalent to the value of certain Deposit Securities, generally as a result of market circumstances, or when the securities are not available in sufficient quantity for delivery, or are not eligible for trading by the Authorized Participant. The Funds may issue Creation Units in advance of receipt of Deposit Securities subject to various conditions, including, for the benefit of the Funds, a requirement to maintain cash collateral on deposit at the custodian equal to at least 115% of the daily marked to market value of the missing Deposit Securities.

Authorized Participants purchasing and redeeming Creation Units may pay transaction fees directly to the transfer agent. In addition, the Funds may impose variable fees on the purchase or redemption of Creation Units for cash, or on transactions effected outside the clearing process, to defray certain transaction costs. These variable fees, if any, are reflected in share transactions in the Statements of Changes in Net Assets.

**Note 5—Investments—**For the year ended December 31, 2020, purchases and sales of investments (excluding short-term investments and in-kind capital share transactions) and the purchases and sales of investments resulting from in-kind capital share transactions (excluding short-term investments) were as follows:

**In-kind Capital** 

			Share Transactions		
Fund	Purchases	Sales	Purchases	Sales

(73,661,992)	(250,382,997)	(324,044,989)
	Capital Losses with No Expiration  \$ (10,938,807) (23,062,481) (7,874,850) (12,917,767) (20,892,662) (37,346,421) (181,378) (234,740,709) (3,818,481)	Capital Losses with No Expiration         Capital Losses with No Expiration           \$ (10,938,807)         \$ (53,048,090)           (23,062,481)         (136,443,936)           (7,874,850)         (3,495,612)           (12,917,767)         (20,941,173)           (20,892,662)         (76,228,158)           (37,346,421)         (69,410,301)           (181,378)         (7,823,335)           (234,740,709)         (1,300,618,223)           (3,818,481)         (9,523,363)

During the year ended December 31, 2020, China Growth Leaders ETF, ChinaAMC SME-ChiNext ETF and Israel ETF utilized \$6,045,903, \$2,884,515 and \$955,946 of their capital loss carryovers available from prior years.

During the year ended December 31, 2020, as a result of permanent book to tax differences, primarily due to earnings attributable to the redemption of shares, tax net operating losses and the tax treatment of gains/losses from securities redeemed in-kind, the Funds incurred differences that affected distributable earnings and aggregate paid in capital by the amounts in the table below. Net assets were not affected by these reclassifications.

Fund	Increase (Decrease) in Distributable Earnings	Increase (Decrease) in Aggregate Paid in Capital		
Africa Index ETF	\$ (142,303)	\$ 142,303		
Brazil Small-Cap ETF	525,642	(525,642)		
China Growth Leaders ETF	(748,341)	748,341		
ChinaAMC SME-ChiNext ETF	67,834	(67,834)		
Egypt Index ETF	(99,625)	99,625		
India Growth Leaders ETF	(193,447)	193,447		
Indonesia Index ETF	(2,647,921)	2,647,921		
Israel ETF	(2,117,734)	2,117,734		
Russia ETF	(70,199,214)	70,199,214		
Russia Small-Cap ETF	(194,697)	194,697		
Vietnam ETF	(729,413)	729,413		

The Funds recognize the tax benefits of uncertain tax positions only where the position is "more-likely-than-not" to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds' tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for all open tax years. The Funds do not have exposure for additional years that might still be open in certain foreign jurisdictions. Therefore, no provision for income tax is required in the Funds' financial statements. However, the Funds are subject to foreign taxes on the appreciation in value of certain investments. The Funds provide for such taxes on both realized and unrealized appreciation.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the year ended December 31, 2020, the Funds did not incur any interest or penalties.

Investments in China: Uncertainties in the Chinese tax rules governing taxation of income and gains from investments in A-Shares could result in unexpected tax liabilities for the China Growth Leaders ETF and ChinaAMC SME-ChiNext ETF (the "Funds"). China generally imposes withholding income tax ("WHT") at a rate of 10% on dividends derived by non-PRC resident enterprises (including a Qualified Foreign Institutional Investor ("QFII") and a Renminbi Qualified Foreign Institutional Investor ("RQFII")) from issuers resident in China. China imposes WHT at a rate of 10% on capital gains derived by non-PRC resident enterprises from the disposal in shares of PRC enterprises. Effective November 17, 2014, investments through the Hong Kong-Shanghai Stock Connect program, QFIIs and RQFIIs, which includes these Funds, were exempted temporarily from WHT with respect to gains derived from the trading of equity investments (including A-shares). However, uncertainties remain regarding the taxation of capital gains in China. PRC rules for taxation of RQFIIs (and QFIIs) and the PRC tax regulations to be issued by the PRC State Administration of Taxation and/or PRC MOF to clarify the subject matter may apply retrospectively, even if such rules are adverse to the nonresident investors. If the PRC tax authorities were to issue differing formal guidance or tax rules regarding the taxation of capital gains derived by QFIIs, RQFIIs and other nonresident investors WHT on gains from such investments the Funds could be subject to additional tax liabilities.

**Investments in India:** As a result of renegotiation of the India Mauritius Tax treaty, India commenced taxation on capital gains arising from disposition of shares acquired on or after April 1, 2017 in a company resident in India, with shares acquired on or before March 31, 2017 being grandfathered as exempt from capital gains taxation subject to treaty relief. India currently assesses a capital gains tax on shares sold on the exchange of 15% on short term capital gains and 10% on long term capital gains (plus applicable surcharge and cess). Further, long-term capital gains on certain shares that were held as of January 31, 2018, may be eligible for a step up in cost basis which may reduce realized taxable gains. Existing Indian capital loss carryforwards may be utilized to offset capital gains realized on securities sold.

Note 7—Principal Risks—Non-diversified funds generally hold securities of fewer issuers than diversified funds (See Note 1) and may be more susceptible to the risks associated with these particular issuers, or to a single economic, political or regulatory occurrence affecting these issuers. The Funds may purchase securities on foreign exchanges. Securities of foreign issuers involve special risks and considerations not typically associated with investing in U.S. issuers. These risks include devaluation of currencies, currency controls, less reliable information about issuers, different securities transaction clearance and settlement practices, future adverse economic developments and political conflicts, or natural or other disasters, such as the recent coronavirus outbreak. Additionally, certain Funds may invest in securities of emerging market issuers, which are exposed to a number of risks that may make these investments volatile in price or difficult to trade. Political risks may include unstable governments, nationalization, restrictions on foreign ownership, laws that prevent investors from getting their money out of a country, sanctions and investment restrictions and legal systems that do not protect property risks as well as the laws of the United States. These and other factors can make emerging market securities more volatile and potentially less liquid than securities issued in more developed markets. Certain securities of Chinese issuers are, or may in the future become restricted, and the Funds may be forced to sell such restricted securities and incur a loss as a result.

Should the Chinese government impose restrictions on the ability of China Growth Leaders ETF and ChinaAMC SME-ChiNext ETF to repatriate funds associated with direct investment in A-Shares, the Funds may be unable to satisfy distribution requirements applicable to regulated investment companies ("RICs") under the Internal Revenue Code of 1986, as amended, and the Funds may therefore be subject to Fund-level U.S. federal taxes.

# NOTES TO FINANCIAL STATEMENTS

(continued)

The respiratory disease caused by a novel coronavirus, which has spread internationally and declared as a pandemic by the World Health Organization, has resulted in closing borders, quarantines, disruptions to supply chains and customer activity, loss of life, as well as general concern and uncertainty. The coronavirus has already negatively impacted the economies of many nations, individual companies, and the market. This pandemic is expected to have a continued impact in ways that cannot necessarily be foreseen presently.

A more complete description of risks is included in each Fund's Prospectus and Statement of Additional Information.

**Note 8—Trustee Deferred Compensation Plan—**The Trust has a Deferred Compensation Plan (the "Plan") for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

The expense for the Plan is included in "Trustees' fees and expenses" in the Statements of Operations. The liability for the Plan is shown as "Deferred Trustee fees" in the Statements of Assets and Liabilities.

Note 9-Securities Lending-To generate additional income, each of the Funds may lend its securities pursuant to a securities lending agreement with the securities lending agent. Each Fund may lend up to 33% of its investments requiring that the loan be continuously collateralized by cash, cash equivalents, U.S. government securities, or any combination of cash and such securities at all times equal to at least 102% (105% for foreign securities) of the market value of securities loaned. Daily market fluctuations could cause the value of loaned securities to be more or less than the value of the collateral received. When this occurs, the collateral is adjusted and settled on the next business day. During the term of the loan, the Funds will continue to receive any dividends, interest or amounts equivalent thereto, on the securities loaned while receiving a fee from the borrower and or earning interest on the investment of the cash collateral. Such fees and interest are shared with the securities lending agent under the terms of the securities lending agreement. Securities lending income is disclosed as such in the Statements of Operations. Cash collateral is maintained on the Funds' behalf by the lending agent and is invested in the State Street Navigator Securities Lending Government Money Market Portfolio. Non-cash collateral consists of U.S. Treasuries and U.S. Government Agency securities, and is not disclosed in the Funds' Schedules of Investments or Statements of Assets and Liabilities as it is held by the agent on behalf of the Funds. The Funds do not have the ability to re-hypothecate those securities. Loans are subject to termination at the option of the borrower or the Funds. Upon termination of the loan, the borrower will return to the Fund securities identical to the securities loaned. The Funds bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. The value of loaned securities and related cash collateral, if any, at December 31, 2020 is presented on a gross basis in the Schedules of Investments and Statements of Assets and Liabilities. The following is a summary of the Funds' securities on loan and related collateral as of December 31, 2020:

	Market Value of	Cash	Non-Cash	
Fund	Securities on Loan	Collateral	Collateral	Total Collateral
Africa Index ETF	\$1,969,822	\$ 283,655	\$1,779,588	\$2,063,243

Israel ETF	1,102,074
Russia ETF	495,767
Russia Small-Cap ETF	2,620,748

<sup>\*</sup> Remaining contractual maturity: overnight and continuous

**Note 10—Bank Line of Credit—**The Funds may participate in a \$200 million committed credit facility (the "Facility") to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds based on prevailing market rates in effect at the time of borrowings. During the year ended December 31, 2020, the following Funds borrowed under this Facility:

Average						
Days	Daily Loan	Average				
Outstanding	Balance	Interest Rate				
108	\$ 313,904	1.64%				
196	211,827	1.81				
164	1,649,477	1.62				
139	1,823,924	1.86				
284	590,229	1.65

71	1,442,035	1.44				
150	4,068,107	1.68				
5	226,814	2.24				
275	1,777,377	1.71				
	Outstanding  108 196 164 139 284 135 71 150 5	Outstanding         Balance           108         \$ 313,904           196         211,827           164         1,649,477           139         1,823,924           284         590,229           135         1,212,485           71         1,442,035           150         4,068,107           5         226,814				

Outstanding loan balances as of December 31, 2020, if any, are reflected in the Statements of Assets and Liabilities.

**Note 11—Recent Accounting Pronouncements—**The Funds adopted all provisions of the Accounting Standards Update No. 2018-13, *Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement* ("ASU 2018-13") that eliminate and modify certain disclosure requirements for fair value measurements. Based on management's evaluation, the adoption of the ASU 2018-13 had no material impact on the financial statements and related disclosures.

**Note 12—Subsequent Event Review—**The Funds have evaluated subsequent events and transactions for potential recognition or disclosure through the date the financial statements were issued.

### REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of VanEck Vectors Africa Index ETF, VanEck Vectors Brazil Small-Cap ETF, VanEck Vectors China Growth Leaders ETF, VanEck Vectors ChinaAMC SME-ChiNext ETF, VanEck Vectors Egypt Index ETF, VanEck Vectors India Growth Leaders ETF, VanEck Vectors Indonesia Index ETF, VanEck Vectors Israel ETF, VanEck Vectors Russia ETF, VanEck Vectors Russia Small-Cap ETF and VanEck Vectors Vietnam ETF and the Board of Trustees of VanEck Vectors ETF Trust

### **Opinion on the Financial Statements**

We have audited the accompanying statements of assets and liabilities (consolidated as it relates to VanEck Vectors India Growth Leaders ETF) of VanEck Vectors Africa Index ETF, VanEck Vectors Brazil Small-Cap ETF, VanEck Vectors China Growth Leaders ETF, VanEck Vectors ChinaAMC SME-ChiNext ETF, VanEck Vectors Egypt Index ETF, VanEck Vectors India Growth Leaders ETF, VanEck Vectors Indonesia Index ETF, VanEck Vectors Israel ETF, VanEck Vectors Russia ETF, VanEck Vectors Russia Small-Cap ETF and VanEck Vectors Vietnam ETF (collectively referred to as the "Funds") (eleven of the series constituting VanEck Vectors ETF Trust (the "Trust")), including the schedules of investments (consolidated as it relates to VanEck Vectors India Growth Leaders ETF), as of December 31, 2020, and the related statements of operations (consolidated as it relates to VanEck Vectors India Growth Leaders ETF) for the year then ended, the statements of changes in net assets (consolidated as it relates to VanEck Vectors India Growth Leaders ETF) for each of the two years in the period then ended, the financial highlights (consolidated as it relates to VanEck Vectors India Growth Leaders ETF) for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position (consolidated as it relates to VanEck Vectors India Growth Leaders ETF) of each of the Funds (eleven of the series constituting VanEck Vectors ETF Trust) at December 31, 2020, the results of their operations (consolidated as it relates to VanEck Vectors India Growth Leaders ETF) for the year then ended, the changes in their net assets (consolidated as it relates to VanEck Vectors India Growth Leaders ETF) for each of the two years in the period then ended and their financial highlights (consolidated as it relates to VanEck Vectors India Growth Leaders ETF) for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

### **Basis for Opinion**

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on each of the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2020, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from broker were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernst + Young LLP

We have served as the auditor of one or more of the VanEck investment companies since 1999.

New York, New York February 25, 2021

Expressed as a percentage of the ordinary income distribution grossed up for foreign taxes.

Please consult your tax advisor for proper treatment of this information.

<sup>\*\*</sup> The foreign taxes paid represent taxes incurred by the Fund on income received by the Fund from foreign sources. Foreign taxes paid may be included in taxable income with an offsetting deduction from gross income or may be taken as a credit for taxes paid to foreign governments.

<sup>\*\*\*</sup> This distribution represents Qualified Short-Term Capital Gains ("QSTG") which may be exempt from United States withholding tax when distributed to non-U.S. shareholders with proper documentation.

<sup>(</sup>a) A return of capital is not considered taxable income to shareholders. The portion of a distribution which is a dividend is includable in gross income while the portion of the distribution which is not a dividend shall be applied against and reduces the adjusted basis of the stock. Accordingly, shareholders who received these distributions should not include these amounts in taxable income, but instead should treat them as a reduction of the cost basis of the applicable shares upon which these distributions were paid.

### **BOARD OF TRUSTEES AND OFFICERS**

December 31, 2020 (unaudited)

Name, Address¹ and Year of Birth	Position(s) Held with the Trust	Term of Office <sup>2</sup> and Length of Time Served	Principal Occupation(s) During Past Five Years	Number of Portfolios in Fund Complex <sup>3</sup> Overseen	Other Directorships Held Outside the Fund Complex <sup>3</sup> During Past Five Years

This report is intended for the Funds' shareholders. It may not be distributed to prospective investors unless it is preceded or accompanied by a VanEck Vectors ETF Trust (the "Trust") prospectus and summary prospectus, which includes more complete information. Investing involves substantial risk and high volatility, including possible loss of principal. An investor should consider the investment objective, risks, charges and expenses of the Fund carefully before investing. To obtain a prospectus and summary prospectus, which contains this and other information, call 800.826.2333 or visit vaneck.com. Please read the prospectus and summary prospectus carefully before investing.

Additional information about the Trust's Board of Trustees/Officers and a description of the policies and procedures the Trust uses to determine how to vote proxies relating to portfolio securities are provided in the Statement of Additional Information. The Statement of Additional Information and information regarding how the Trust voted proxies relating to portfolio securities during the most recent twelve month period ending June 30 is available, without charge, by calling 800.826.2333, or by visiting vaneck.com, or on the Securities and Exchange Commission's website at http://www.sec.gov.

The Trust files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-PORT. The Trust's Form N-PORT filings are available on the Commission's website at http://www.sec.gov and may be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 202.942.8090. The Funds' complete schedules of portfolio holdings are also available by calling 800.826.2333 or by visiting vaneck.com.
