KEY INVESTOR INFORMATION

This document provides you with key investor information about this Fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this Fund. You are advised to read it so you can make an informed decision about whether to invest.

UBAM - 30 Global Leaders Equity, a sub-fund of UBAM

Class: RC EUR (Capitalisation) LU0277302054

UBAM is a SICAV managed by UBP Asset Management (Europe) S.A.

Objectives and investment policy

The Fund seeks to grow your capital and generate income primarily by investing in equities of companies across the world, including emerging markets.

It is a concentrated portfolio of stocks (usually about 30 positions).

The Fund invests in stocks of companies that holds leading positions in their particular business fields, deliver steady growth and are attractively valued.

The Fund is focused primarily on companies which are expected to provide growth and leading (i.e. sustainably high quality) levels of cash flow return on investment. It is long-term oriented with little need for turnover.

The Fund's value is calculated and expressed in US Dollars.

The currency risk in relation to the base currency USD is not hedged.

Investors in the Fund can redeem their units on any business day in Luxembourg, although we recommend a holding period of at least five years. As an equity fund, its holdings can move in line with or return less than the broad stock market, so investors should be aware that the value of their holdings could fall and that they may not get back their initial investment.

Any income received by the Fund is reinvested (capitalisation share class).

Risk and reward profile

This indicator represents the annual historical volatility of the Fund over a 5-year period.

Risk category 5 reflects a high potential gain and/or loss in the value of the portfolio.

This is due to investments in equities deemed undervalued on worldwide markets.

Historical data such as that used to calculate the synthetic indicator cannot be considered as a reliable indication of the Fund's future risk profile.

The risk category associated with the Fund is not guaranteed and may change over time.

The lowest risk category does not mean "risk free".

Your initial investment is not guaranteed.

Significant risk(s) for the Fund not taken into account in this indicator include the following:

Liquidity risk: Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Fund's returns because the Fund may be unable to transact at advantageous times or prices.

Currency risk: The Fund invests in overseas markets. It can be affected by changes in exchange rates which may cause the value of your investment to decrease or increase.

Counterparty risk: As the Fund uses over-the-counter derivatives, there is a risk that the counterparty to the transactions will wholly or partially fail to honour its contractual obligations. This may result in a financial loss to the Fund.

Full details of risks are disclosed in the chapter "Risk Factors" in the prospectus.

Charges

The charges and commissions are used to cover the Fund's operating costs, including marketing and distribution of shares. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest

Charges taken from the Fund under certain specific conditions

Performance fee

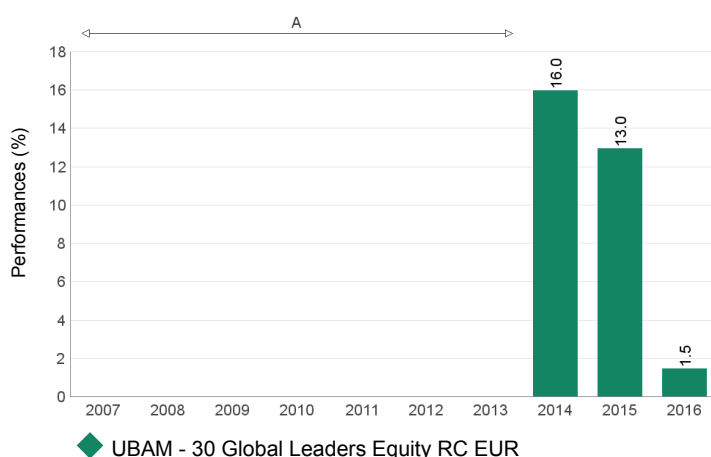

None

The entry and exit charges shown are maximum rates. In certain cases, the charges paid may be lower. Your financial advisor or distributor can inform you of the associated entry and exit charges.

Ongoing charges are based on the charges for the previous year, ending on 31 December 2016. This percentage may vary from year to year. It excludes outperformance charges and intermediation charges, with the exception of entry and exit charges paid by the Fund when it buys or sells shares of another Fund.

For more information about Fund charges, please refer to the relevant sections of the prospectus, which is available at www.ubp.com.

Past performance

The performance figures shown in the bar chart are not a reliable indication of future performance.

Annualised performance is calculated after deducting all charges taken from the Fund.
