## **Directors' Report**

#### for the financial year ended 31 October 2020

The Directors present their report together with the audited financial statements of Absolute Insight Funds plc (the "Company") for the financial year ended 31 October 2020. The Company has segregated liability between its funds and is organised under the laws of Ireland as a public limited company pursuant to the Companies Act 2014 (as amended) (the "Companies Act"). The Company is subject to the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (the "UCITS Regulations") and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (as amended) (the "Central Bank UCITS Regulations"). The financial statements of the Company are prepared in conformity with FRS 102 the Financial Reporting Standard applicable in the UK and Republic of Ireland ("FRS 102").

#### **Principal Activities**

As at 31 October 2020, the Company comprises six funds each a "Fund", collectively (the "Funds"):

Absolute Insight Equity Market Neutral Fund Absolute Insight Currency Fund Absolute Insight Emerging Market Debt Fund Absolute Insight Credit Fund Insight Broad Opportunities Fund Absolute Insight Dynamic Opportunities Fund

#### Review of performance of the business and future developments

The performance of each of the Funds within the Company is set out in the Investment Manager's Report for each Fund. The Company's principal activity is collective investment in transferable securities of capital raised from the public and which operates on the basis of risk spreading.

The Company will continue to act as an investment vehicle as set out in its Prospectus.

#### Results for the financial year and state of affairs

The results for the financial year are set out in the Statement of Comprehensive Income for the financial year ended 31 October 2020. The state of affairs of each Fund is set out in the Statement of Financial Position as at 31 October 2020.

#### Risk management objectives and policies, principal risks and uncertainties

The main risks arising from the Company's financial instruments are market risk (including market price risk, currency risk and interest rate risk), credit risk and liquidity risk (including cash flow risk).

Details of the Company's principal risks and uncertainties, risk management objectives and policies and how these are managed are set out in note 9 to the financial statements.

#### Going concern

The Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt the going concern basis in preparing the financial statements, with the exception of the Absolute Insight Equity Market Neutral Fund, for which the shareholders have been provided with notice of termination post year end 31 October 2020 and for which the going concern basis is therefore no longer appropriate.

#### Changes in the UK political environment

In a referendum held on 23 June 2016 the electorate of the United Kingdom voted to leave the EU. This has set in train a sustained period of uncertainty which has brought about political and economic instability and volatility in the financial markets of the United Kingdom and more broadly across the EU. Although the Brexit deal agreed on 24 December 2020 has brought about some political certainty, some aspects remain under discussion.

The extent of the impact of Brexit is still largely unknown and may depend in part upon the nature and implementation of the Brexit deal, as well as extent to which the United Kingdom intends to implement existing EU legislation.

Those decisions could materially and adversely affect the regulatory regime to which Insight Investment Funds Management Limited (the Investment Manager) and Insight Investment Management (Global) Limited (the Sub- Investment Manager) are currently subject in the United Kingdom, particularly in respect of financial services regulation and taxation.

The longer term process to implement the political, financial and legal framework that is agreed between the United Kingdom and the EU, may lead to continuing uncertainty and periods of volatility in the United Kingdom and some or all of the other 27 members of the EU (some of which are countries in which the Investment Manager and/or Sub- Investment Manager conducts business) and/or the Eurozone.

#### for the financial year ended 31 October 2020

#### Changes in the UK political environment (continued)

There may be detrimental implications for the value of certain of a Fund's investments, its ability to enter into transactions, to value or realise certain of its investments or otherwise to implement its investment policy. This may be due to, among other things, increased uncertainty and volatility in United Kingdom, EU and other financial markets, fluctuations in asset values, fluctuations in exchange rates, increased illiquidity of investments located, traded or listed within the United Kingdom, the EU or elsewhere, changes in the willingness or ability of financial and other counterparties to enter into transactions, or the price and terms on which they are prepared to transact; and/or changes in legal and regulatory regimes to which the Company, the Investment Manager, the Sub-Investment Manager and/or certain of a Fund's assets are or become subject to.

Insight Investment has a fully regulated Irish entity, Insight Investment Management (Europe) Limited (the Manager). The Manager's main business is the provision of fund management services to collective investment schemes such as the Company. The Manager is authorised and supervised by the Central Bank of Ireland as a UCITS management company under the UCITS Regulations and is also authorised by the Central Bank of Ireland as an alternative investment fund manager under the European Union (Alternative Investment Fund Managers) Regulations. The Manager has been appointed as the manager of the Company pursuant to a management agreement, with power to delegate one or more of its functions, subject to the overall control of the Company, so that in the event of the United Kingdom leaving the EU, the relationship between the Company and its investment manager will remain unchanged.

The Manager has delegated certain functions which include the function of investment management and distributor to the Investment Manager. The Investment Manager is a private limited company incorporated under the laws of England and Wales. It is authorised and regulated by the Financial Conduct Authority (the "FCA") in the United Kingdom as an authorised fund manager of collective investment schemes. The Investment Manager has in turn, sub-delegated its investment manager function to the Sub-Investment Manager pursuant to a sub-investment management agreement. The Sub-Investment Manager is a private limited company incorporated under the laws of England and Wales which is authorised and regulated by the FCA.

In February 2019, the FCA agreed a multilateral memorandum of understanding ("MoU") with the EU and EEA National Competent Authorities (which includes the Central Bank of Ireland) as well as a MoU with the European Securities and markets Authority ("ESMA") which will become effective if the United Kingdom leaves the EU without an agreement. The MoUs support the cross border supervision of firms and will permit the sharing of information with EU counterparties. It is the intention that the MoUs will allow for continued close cooperation between the remaining 27 countries of the EU and the United Kingdom. The MoUs will also allow for EU fund managers (such as the Manager) to delegate portfolio management services to a UK registered manager (such as the Investment Manager) in the event that the UK leaves the EU in circumstances where it becomes designated a third country for regulatory purposes.

#### **Directors and Secretary**

The following non-executive Directors held office on 31 October 2020 and throughout the financial year then ended:

Michael Boyce\* Charles Farquharson John Fitzpatrick\* Barry McGrath\* Greg Brisk \*Independent Director

Insight Investment Management (Europe) Limited is the Company Secretary to the Company.

#### **Directors' and Secretary's interests**

None of the Directors, their families or the Secretary hold or held any beneficial interest in the shares of the Company during the financial year. No Director had at any time during the financial year or at the financial year end a material interest in any contract of significance in relation to the business of the Company.

#### **Distributions**

A detailed distribution policy note is included in the Statement of Accounting Policies in note 2(i) and details of distributions declared during the financial year ended 31 October 2020 are included in note 13.

#### for the financial year ended 31 October 2020

#### Audit Committee

There are no committees of the Board in existence. The Directors are aware of section 167 of the Companies Act 2014 which requires certain companies to establish an audit committee. For the financial year ending 31 October 2020, the Directors confirm that they did not establish an audit committee having given due consideration to the following:

- (a) the responsibilities of the audit committee as outlined in section 167 are already carried out by the Board such that establishing a separate committee of the Board was determined not to be necessary;
- (b) the nature, scale and complexity of the Company;
- (c) the internal control and risk management systems relating to the financial reporting process already in place at the Company; and
- (d) the resources available to the Company and the resources and expertise of the various third parties engaged to support the Company.

#### Significant events during the financial year

#### COVID-19 Developments

The outbreak of the coronavirus since the start of January 2020 has had a material impact on global financial markets and economic stability. The Management Company is following the guidance of the authorities in each relevant region, with colleagues working remotely where required. In accordance with the flexible working policy, team members are equipped with the technology and support to work remotely. All core processes can be undertaken remotely, and the IT infrastructure can support large-scale remote working in the event of disruption. The dealers have the technology to support remote working, as do the investment teams. The remote-working technologies have been designed and deployed in a way that replicates the same key system controls that are operational in the office environment. The ongoing oversight of outsourced arrangements includes a periodic review of the outsourcer's business-continuity processes. The Board is currently satisfied with the plans of all of key providers, and continue to monitor developments closely.

#### Share Class launch

Class A1 US Dollar of Insight Broad Opportunities Fund launched on 6 March 2020.

#### Absolute Insight Emerging Market Debt Fund's Supplement to the Prospectus

On 30 April 2020, a revised Absolute Insight Emerging Market Debt Fund Supplement to the Prospectus was noted by the Central Bank of Ireland. The "Use of Financial Derivative Instruments" section was updated to reflect a change in the measurement of derivative exposure from a commitment approach to a Value-at-Risk ("VaR") methodology and to disclose the maximum level of leverage based on the sum of notionals of the derivatives used (as disclosed below). The changes do not affect the Fund's investment policy, its investment management or its risk profile.

"As a result of its use of financial derivative instruments, the Fund may leverage its positions to generate a notional exposure in excess of the Net Asset Value of the Fund. The VaR methodology is an advanced risk measurement methodology which attempts to predict, using historical data, the likely scale of losses that might be expected to occur over a given period of time. The Fund intends to apply a limit on the VaR of the Fund (Absolute VaR limit) which will not exceed 3% of the Net Asset Value of the Fund. The VaR for the Fund will be calculated daily using a one-tailed 99% confidence level, one week (5 days) holding period and calculated on an historic basis using at least 1 year of daily returns, which means that statistically there is a 1% chance that the losses actually incurred over any one week period could exceed 3% of the Fund's Net Asset Value. This holding period and historical observation period may change provided always that they are in accordance with the requirements of the Central Bank.

VaR methods rely on a number of assumptions about the forecasting of investment markets and the ability to draw inferences about the future behaviour of market prices from historical movements. If those assumptions are incorrect by any significant degree, the size and frequency of losses actually incurred in the investment portfolio may considerably exceed those predicted by a VaR model (and even a small degree of inaccuracy in the forecasting models used can produce large deviations in the forecast produced). VaR does enable a comparison of risks across asset classes and serves as an indicator to a portfolio manager of the investment risk in a portfolio. If used in this way, and with an eye to the limitations of VaR methods and the particular model chosen, it can act as a signal to the Sub-Investment Manager of an increase in the general level of risk in a portfolio and as a trigger for corrective action by the Sub-Investment Manager. The measurement and monitoring of all exposures relating to the use of derivative instruments will be performed on at least a daily basis.

#### for the financial year ended 31 October 2020

#### Significant events during the financial year (continued)

#### Absolute Insight Emerging Market Debt Fund's Supplement to the Prospectus (continued)

The requirements of the European Securities and Markets Authority ("ESMA") and the Central Bank prescribe in detail disclosures which need to be made in respect of leverage. Although the VaR methodology as described above is used to control and assess the Fund's exposures, the Fund also calculates leverage based on the sum of the notionals of the derivatives used as is required by the Central Bank. The maximum level of leverage for the Fund arising from the use of FDIs calculated on this basis is expected to vary between 0% and 1000% of the Net Asset Value, although it may exceed this target level at times. This measure of leverage can be high as it includes positions implemented to adjust existing positions as a result of market movements or subscription/redemption activity and it does not take into account any netting or hedging arrangements even though such arrangements are entered into for the purposes of risk reduction."

Change of Secretary of the Company and Manager On 4 September 2020, the Secretary to the Company and Manager changed to:

Insight Investment Management (Europe) Limited Riverside Two, Sir John Rogerson's Quay Dublin D02 KV60 Ireland

*Change of address of registered office of the Company and of the Manager* On 4 September 2020, the address of the registered office of the Company and of the Manager changed to:

Riverside Two, Sir John Rogerson's Quay Dublin D02 KV60 Ireland

#### Subsequent events

#### Termination of the Absolute Insight Equity Market Neutral Fund

On 22 October 2020, the Directors of the Company wrote to Shareholders of the Absolute Insight Equity Market Neutral Fund to give notice of their decision to terminate the Fund.

The Directors determined that due to a reduction in the net asset value of the Fund it was no longer possible to manage the Fund in an efficient manner. Accordingly, the Directors determined to terminate the Fund with effect from 26 October 2020 (the "Termination Date"). The Directors provided a notice period from termination date to the Fund's closure date, 24 November 2020, during which time investors could subscribe for and repurchase shares in the Fund.

#### Brexit

A Brexit deal was agreed between the United Kingdom and the EU on 24 December 2020, with some aspects remaining under discussion. The potential impact of this agreement to the Company is discussed above.

On 3 December 2020, Charles Farquharson resigned as a Director of the Company.

On 14 January 2021, Lee Hutson-Pope was appointed a Director of the Company.

There were no other significant events after the Statement of Financial Position date, up to the date of signing of the Financial Statements that would require disclosure.

#### Independent Auditor

KPMG, Chartered Accountants have indicated their willingness to continue in office in accordance with Section 383 of the Companies Act 2014.

#### Accounting Records

As outlined in the Statement of Directors' Responsibilities, the Directors are responsible for ensuring that adequate accounting records are kept by the Company. To achieve this, the Administrator has been appointed by the Directors to ensure compliance with the requirements of Section 285 of the Companies Act. The Administrator maintains the accounting records of the Company at its offices at 78 Sir John Rogerson's Quay, Dublin 2, Ireland.

for the financial year ended 31 October 2020

#### Statement on relevant audit information

So far as the Directors are aware, there is no relevant audit information of which the Company's auditor is unaware and the Directors have taken all the steps that should have been taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditor is aware of that information.

#### **Corporate Governance Code**

The Company assessed the measures included in the voluntary Corporate Governance Code for Collective Investment Schemes as published by Irish Funds in December 2011 (the "IF Code"). The Directors have adopted the corporate governance practices and procedures in the IF Code. The Board considers that the Company has complied with the provisions of the IF Code throughout this accounting year.

#### **Dealings with Connected Parties**

Regulation 43 of the Central Bank UCITS Regulations states that "a responsible person shall ensure that any transaction between a UCITS and a connected person is conducted: a) at arm's length; and b) in the best interest of the unit-holders of the UCITS".

As required under Regulation 43 of the Central Bank UCITS Regulations, the Directors, as responsible persons are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) of the Central Bank UCITS Regulations are applied to all transactions with a connected party; and all transactions with connected parties that were entered into during the period to which the report relates complied with the obligations that are prescribed by Regulation 43(1) of the Central Bank UCITS Regulation 43(1) of the Central Bank UCITS Regulations.

#### **Directors' Remuneration**

Note 11 of these financial statements provides details of Director's fees for the financial years ended 31 October 2020 and 31 October 2019.

#### **Directors' Compliance Statement**

The Directors, in accordance with Section 225(2) of the Companies Act 2014, acknowledge that they are responsible for securing the Company's compliance with certain obligations specified in that section arising from the Companies Act 2014 and Tax laws ('relevant obligations'). The Directors confirm that:

- a compliance policy statement has been drawn up setting out the Company's policies with regard to such compliance;
- appropriate arrangements and structures that, in their opinion, are designed to secure material compliance with the Company's relevant obligations, have been put in place; and
- a review has been conducted, during the financial year, of the arrangements and structures that have been put in place to secure the Company's compliance with its relevant obligations.

For and on behalf of the Board

John Fitzpatrick

Michael Boyce

18 February 2021

# Statement of Directors' Responsibilities

#### for the financial year ended 31 October 2020

The Directors are responsible for preparing the Directors' Report and financial statements, in accordance with applicable law and regulations.

Company law requires the directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with Irish law and FRS 102, the Financial Reporting Standard applicable in the UK and Republic of Ireland.

Under company law the directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Company and of its decrease in net assets attributable to holders of redeemable participating shares for that year. In preparing the financial statements, the directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

The directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position and profit or loss of the Company and enable them to ensure that the financial statements comply with the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Company. In this regard they have entrusted the assets of the Company to a trustee for safe-keeping. They are responsible for such internal controls as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and to prevent and detect fraud and other irregularities. The directors are also responsible for preparing a Directors' Report that complies with the requirements of the Companies Act 2014.

The directors are responsible for the maintenance and integrity of the corporate and financial information included on the Company's website. Legislation in the Republic of Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

For and on behalf of the Board

John Fitzpatrick

Michael Boyce

### Investment Manager's Reports

#### for the financial year ended 31 October 2020

#### Absolute Insight Equity Market Neutral Fund

The Fund returned -0.99% (net of fees) over the period, compared to a 3-month sterling Libid return of 0.29%<sup>1</sup>.

Near the end of 2019, in the absence of political clarity in the UK and a phase one US-China trade resolution, the Fund posted a negative return. We reduced our strategy's gross exposure in order to monitor developments and kept it tightly hedged, focused on using our pair-trade approach to try to capture true idiosyncratic returns. However, December was a positive month for risk assets.

The global spread of the coronavirus led fear and distress to reverberate through equity markets from late February and particularly March. The Fund generated a negative return in the first quarter, but our tight hedges (including custom stock baskets) and rapid reduction of gross exposure in March helped contain the potential drawdown. By the time markets fell sharply, gross and net exposures were already at the low end of our historical ranges, as we believed investors had been complacent to building risks. We increased gross exposure late in the quarter as we opened new long positions in high-quality companies.

After sharply negative economic data early in the second quarter, market sentiment was boosted by policy announcements, flattening infection curves and tentative steps towards reopening economies. As economic data started to improve, there was a sharp rotation within the equity market as value/cyclicals assumed leadership. A pickup in US virus cases, together with concerns over future unemployment globally, then tempered optimism. Against this backdrop, the Fund generated a positive return. Gross exposure rose while hedging of factor risk remained tight. Net exposure remained in a conservative range.

After markets' strong performance earlier in the period, particularly in the US (and specifically the technology sector), the third quarter ended with a risk-off tone. Negotiations on the next US fiscal stimulus package continued, the risk of a second COVID-19 wave remained, and the UK and the EU struggled to reach a transitional trade agreement. The economic outlook globally, but particularly in Europe, remained mixed. Against this backdrop, the Fund made a positive return.

Equity markets then fell in October given worsening COVID-19 news flow, uncertainty over the US presidential election, and stalled Brexit negotiations. The Fund made a small negative contribution.

2020 has been a highly chaotic period for economies and markets, notably due to the challenges presented by the COVID-19 pandemic. Different sectors, and the companies within them, have been affected to varying degrees. In seeking to generate idiosyncratic and uncorrelated returns, we continue to limit exposure to market beta and individual factor tilts. Consequently, our lead fundamental ideas are typically paired with tight hedges, including the use of custom-made stock baskets. Our gross exposure continues to nudge higher, a trend that goes hand in hand with the bias to tighter hedging of positions.

Insight Investment Funds Management Limited 160 Queen Victoria Street London EC4V 4LA England

November 2020

<sup>1</sup>Fund return is sterling, share class B1p and net of 1% annual management charge and 10% performance fee.

for the financial year ended 31 October 2020

#### **Absolute Insight Currency Fund**

The Fund returned -0.43% (net of fees) over the period, compared to a three-month sterling Libid return of 0.29%<sup>1</sup>.

From late 2019, we had a long euro (EUR) position versus the US dollar (USD), believing the EUR would benefit from an initial US-China trade deal and further fiscal easing within Europe, but the position underperformed over the period. However, we had a long position in the Norwegian krone (NOK), held against the EUR and USD, which performed well. The NOK benefited from improving European growth and the Norwegian central bank raising interest rates. We added long positions in the Russian rouble (RUB), South Korean won (KRW) and Turkish lira (TRY), held against the USD and EUR. Stabilising global economic data and the US-China trade deal were supportive overall to growth sensitive emerging market currencies.

During the first quarter, we held a defensive set of positions, including shorts in the growth-sensitive Australian dollar (AUD) and Mexican peso (MXN) given the risk-off environment. We ran a long position in the safe-haven Japanese yen (JPY), primarily versus the USD, as market volatility worsened on the spread of coronavirus. The position initially performed well, as the JPY appreciated sharply in March, but made a small loss over the period.

In the second quarter, we added a short AUD position versus the JPY. We believed the rally in risk assets could reverse given the poor economic outlook but the AUD strengthened and we closed the short in May. In June, we again added an AUD short. The position underperformed modestly but we maintained it given it still appeared overvalued. In emerging market currencies, we took a relative-value approach with offsetting longs and shorts.

In the third quarter, we added short USD positions versus various currencies including the EUR, NOK, and JPY. We added a long position in the Polish zloty (PLN) versus the EUR, which added to performance, before cutting it. In emerging markets, we added long positions in the KRW and Chinese renminbi (CNH), which both positively contributed, and added a long position in the Indian rupee (INR), which made a marginal loss.

In October, with global growth improving, we increased the size of our long positions in the CNH, KRW, and INR versus the USD; they generally performed well over the month, being held against equal amounts of the EUR and USD, instead of just the USD, to reduce USD-related volatility. We cut our short sterling (GBP) versus EUR position for a small loss. Expecting improved risk sentiment, we added tactical long positions in the PLN, Hungarian forint (HUF) and Czech koruna (CZK). However, as virus cases rose and lockdowns were reimposed, we cut the positions for small losses.

In terms of outlook, the environment of improving global growth and a dovish Federal Reserve is negative for the USD. We are focusing on Asian currencies, which should benefit from an improving trade outlook but are more cautious on European currencies given the likely impact of escalating virus cases on the region's economy.

Insight Investment Funds Management Limited 160 Queen Victoria Street London EC4V 4LA England

November 2020

<sup>1</sup>Fund return is sterling, share class B1p from 1 November 2019 to 28 February 2020 and B2p from 01 March 2020 to 31 October 2020 net of 1% annual management charge and 10% performance fee.

for the financial year ended 31 October 2020

#### Absolute Insight Emerging Market Debt Fund

The Fund returned -1.59% (net of fees) over the period, compared to a 3-month sterling Libid return of 0.29%<sup>1</sup>.

Emerging market (EM) debt recovered strongly from a sharp sell-off in March, with local currency and sovereign debt and external corporate bonds the most supportive to returns.

In late 2019, Latin American exposures initially detracted. Unrest across the region meant risk aversion spread into Brazilian assets. Ecuadorian assets also underperformed after the government failed to pass structural reform measures needed to keep IMF funding. Unrest in Chile caused our exposure there to underperform. However, in December, the largest performance drivers were based in Latin America and included positive contributions from Brazil, Ecuador, Chile, Mexico and Colombia. Brazil, Chile and Colombia's return was largely FX based while our long sovereign credit position in Ecuador generated strong returns.

EM debt sectors experienced a strong sell-off in the first quarter, as the coronavirus escalated from an Asia-centric crisis to a global pandemic. Performance started the first quarter positively but turned negative into March as market conditions worsened in the largest shock to EM since the financial crisis. We raised significant cash in early March, but liquidity conditions then became difficult.

In the second quarter, EM debt sectors staged a strong rebound after the first quarter's sell-off. Hard currency allocations – both sovereign and corporate – were the largest sources of positive return. Local currency rates also provided a positive contribution, while currency exposures and portfolio hedges slightly detracted.

In the third quarter, the broader EM complex continued to be supported by a strong Chinese economic recovery, although Latin America lagged behind owing to high levels of COVID-19 transmission. Sovereign bond holdings had the largest positive effect on performance. External corporates and our local-currency rates positions also added value. In addition, our local-currency quasi-government and external quasi-sovereign positions were marginally positive contributors. However, our foreign currency exposures significantly detracted from performance. Our local corporate positions were also marginally detrimental.

In October, local rates positions were positive. Our external corporate exposures in the Middle East and Africa and Latin America also helped. However, a positive contribution from external sovereign positions was more than offset by losses from our hedges. The largest negative contributor was FX positions, particularly in Central & Eastern Europe and Latin America.

The outlook for EM debt is positive. The US election results should mean a more predictable trade policy, stable US Treasury yields and a weaker US dollar. The main near-term uncertainty remains the impact of a COVID-19 second wave on economic growth but monetary and fiscal easing in EM and the Chinese recovery are mitigating factors. Positive vaccine news and further monetary stimulus from the US Fed would be supportive to EM debt. Technicals remain favourable, with manageable net issuance and returning inflows.

Insight Investment Funds Management Limited 160 Queen Victoria Street London EC4V 4LA England

November 2020

<sup>1</sup>Fund return is sterling, share class B1p and net of 1% annual management charge and 10% performance fee.

for the financial year ended 31 October 2020

#### **Absolute Insight Credit Fund**

The Fund returned -0.66% (net of fees) over the period, compared to a 3-month sterling Libid return of 0.29%<sup>1</sup>.

In November, the Fund was up across all major segments. Within investment grade (IG), our allocation to eurodenominated hybrids and long-dated sterling credits benefitted from yield-seeking. Within high yield (HY), there was broad-based performance. In a strong December, both IG and HY contributed positively.

Performance in January was mainly supported by market allocation and security selection. Our exposure to European financials was a notable contributor. Our UK residential holdings performed well as investors grew more optimistic about Brexit. As concerns over coronavirus escalated, our positions took a hit. In February, all parts of the credit book weakened due to indiscriminate selling. Secured finance positions were resilient. Performance was negative again in March, given the evolution of the global pandemic and Saudi Arabia unexpectedly increasing oil production. Positions were negative across the book, particularly HY exposure.

In the second quarter, IG cash bonds performed well, with HY cash bonds and asset-backed securities also generating sizeable contributions. However, the portfolio's credit default swap (CDS) hedges made a small negative contribution.

In the third quarter, both our IG and HY positions performed well. Within IG, our corporate names performed particularly strongly. In HY, our short-dated exposure contributed the most. However, our secured finance exposure significantly detracted, while our CDS protection was a small negative.

October was a risk-off month as governments announced new restrictions to curb the rapid growth of COVID-19 cases. Positive technicals meant credit was relatively resilient. Our HY and IG allocations were the main performance contributors.

We see strong technicals in credit markets, particularly in IG corporates. There are expectations of negative net supply in the fourth quarter of 2020 following the large amount of issuance in the first half of the year. On the demand side, there is strong support from central banks and investor demand for high-quality credit, due to the low yields on developed-market government bonds. We maintain our positive strategic outlook for credit, and hence retain a long bias. We will continue to add selectively in IG. HY valuations are relatively more compelling and here, too, we will continue to add selectively. In secured finance, we prefer high-rated paper and look for opportunities where the liquidity premium is most obvious.

The political landscape in the US and UK may create some short-term volatility. We are also concerned about the impact of national lockdowns on economic activity. Therefore, we intend to make full use of our security selection capabilities and utilise our full spectrum of tools. We will continue to trade the cash/CDS basis tactically and use convex instruments, including options, both to hedge market risk but also to generate returns. We continue to find attractive idiosyncratic opportunities in targeted markets, while the liquidity profile of synthetic credit markets and the diversification potential of the secured finance complex add to the spectrum of opportunities the Fund can access.

Insight Investment Funds Management Limited 160 Queen Victoria Street London EC4V 4LA England

November 2020

<sup>1</sup>Fund return is sterling, share class B1p2 and net of 1% annual management charge and 10% performance fee.

for the financial year ended 31 October 2020

#### Insight Broad Opportunities Fund

The Fund returned -4.77% (net of fees) over the period, compared to a 3-month sterling Libid return of 0.29%<sup>1</sup>.

The impact of the coronavirus crisis caused significant market disruption in the first half of the period, and against this backdrop the fund generated a negative return. Price action in the European dividend futures market was worse than during the global financial crisis and, despite holding a relatively low exposure and completely exiting these positions as the impact of the virus became clear, the scale of the move resulted in this being one of the larger detractors from performance.

Losses were also incurred in range-bound and breakout strategies within the total return strategy component where the extreme price action saw a number of trades move through the embedded protection buffers. These losses were partially offset by strong returns from a range of defensive relative value trades, in currencies, equities, and fixed income. In addition, our government bond exposure was relatively high going into this crisis and acted as a reasonable diversifier.

Although we reduced risk, following our risk-management protocols designed to contain losses in stressed periods, we also introduced a number of new positions that we believed were well suited to generate returns going forward. Elevated volatility and skew offered attractive opportunities for a degree of upside participation with significant downside buffers, or downside range-trading positions again with wide buffers.

As the initial shock from the virus subsided, nascent signs of economic stabilisation combined with an unwavering message of policy support buoyed risk assets and the fund started to recover some lost ground. We added to holdings in investment grade credit and equities, both of which performed well. We also added several pro-cyclical positions, including positions looking for further upside in key equity markets, and increasing exposure to high yield credit and emerging market debt denominated in major currencies.

Towards the end of the period, we added positions aimed at benefitting from more range-bound markets, and also sought to capture increased opportunities in relative-value trades, adding a number of cross-country government bond positions.

Insight Investment Funds Management Limited 160 Queen Victoria Street London EC4V 4LA England

November 2020

<sup>1</sup> Fund return is sterling, share class B1 and net of 0.5% annual management charge.

for the financial year ended 31 October 2020

#### Absolute Insight Dynamic Opportunities Fund

The Fund returned -10.08% (net of fees) over the period, compared to a 3-month sterling Libid return of 0.29%<sup>1</sup>.

The impact of the coronavirus crisis caused significant market disruption in the first half of the period, and against this backdrop the fund generated a negative return. Price action in the European dividend futures market was worse than during the global financial crisis and, despite holding a relatively low exposure and completely exiting these positions as the impact of the virus became clear, the scale of the move resulted in this being one of the larger detractors from performance.

Losses were also incurred in range-bound and breakout strategies where the extreme price action saw a number of trades move through the embedded protection buffers. These losses were partially offset by strong returns from a range of defensive relative value trades, in currencies, equities, and fixed income. Although we reduced risk, following our riskmanagement protocols designed to contain losses in stressed periods, we also introduced a number of new positions that we believed were well suited to generate returns going forward. Elevated volatility and skew offered attractive opportunities for a degree of upside participation with significant downside buffers, or downside range-trading positions again with wide buffers.

As the initial shock from the virus subsided, nascent signs of economic stabilisation combined with an unwavering message of policy support buoyed risk assets and the fund started to recover some lost ground. Options strategies designed for rising markets benefited from the more positive tone in equity markets and in real assets, our infrastructure holdings recovered. We added several pro-cyclical positions, with positions designed to capture upside risk in equity markets contributed to returns in the second half of the period.

Towards the end of the period, we added positions aimed at benefitting from more range-bound markets, and also sought to capture increased opportunities in relative-value trades, adding a number of cross-country government bond positions.

### Depositary's Report to the Shareholders of Absolute Insight Funds plc

We have enquired into the conduct of Absolute Insight Funds plc ('the Company') for the financial year ended 31 October 2020, in our capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, ('the UCITS Regulations') and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

#### **Responsibilities of the Depositary**

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's Constitution (the "Constitution") and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depositary must state why this is the case and outline the steps which we have taken to rectify the situation.

#### **Basis of Depositary Opinion**

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Constitution and the UCITS Regulations and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

#### Opinion

In our opinion, the Company has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Constitution, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 ('the Central Bank UCITS Regulations'); and
- (ii) otherwise in accordance with the provisions of the Deed of Constitution, the UCITS Regulations and the Central Bank UCITS Regulations.

State Street Custodial Services (Ireland) Limited 78 Sir John Rogerson's Quay Dublin 2 Ireland

18 February 2021

#### Report on the audit of the financial statements

#### Opinion

We have audited the financial statements of Absolute Insight Funds plc ('the Company') for the year ended 31 October 2020, set out on pages 62 to 154, which comprise the Statement of Financial Position, the Statement of Comprehensive Income, the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares and related notes, including the summary of significant accounting policies set out in note 2. The financial reporting framework that has been applied in their preparation is Irish Law and FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland.

In our opinion, the financial statements:

- give a true and fair view of the assets, liabilities and financial position of the Company as at 31 October 2020 and of its increase in net assets attributable to holders to redeemable participating shares for the year then ended;
- have been properly prepared in accordance with FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland; and
- have been properly prepared in accordance with the requirements of the Companies Act 2014, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

#### Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's responsibilities for the audit of the financial statements section of our report. We are independent of the Company in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### We have nothing to report on going concern

We are required to report to you if we have concluded that the use of the going concern basis of accounting is inappropriate or there is an undisclosed material uncertainty that may cast significant doubt over the use of that basis for a period of at least twelve months from the date of approval of the financial statements. We have nothing to report in these respects.

#### Other information

The directors are responsible for the other information presented in the Annual Report together with the financial statements. The other information comprises the information included in the directors' report, the statement of directors' responsibilities, the investment manager's report, the depositary's report to the shareholders, the unaudited appendices and the schedules of significant portfolio changes. The financial statements and our auditor's report thereon do not comprise part of the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except as explicitly stated below, any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether, based on our financial statements audit work, the information therein is materially misstated or inconsistent with the financial statements or our audit knowledge. Based solely on that work we have not identified material misstatements in the other information.

Based solely on our work on the other information, we report that:

- we have not identified material misstatements in the directors' report;
- in our opinion, the information given in the directors' report is consistent with the financial statements;
- in our opinion, the directors' report has been prepared in accordance with the Companies Act 2014.

# Independent Auditor's Report to the Members of Absolute Insight Funds plc (continued)

#### Report on the audit of the financial statements (continued)

#### Opinions on other matters prescribed by the Companies Act 2014

We have obtained all the information and explanations which we consider necessary for the purposes of our audit.

In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited and the financial statements are in agreement with the accounting records.

#### Matters on which we are required to report by exception

The Companies Act 2014 requires us to report to you if, in our opinion, the disclosures of directors' remuneration and transactions required by Sections 305 to 312 of the Act are not made. We have nothing to report in this regard.

#### Respective responsibilities and restrictions on use

#### Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 8, the directors are responsible for: the preparation of the financial statements including being satisfied that they give a true and fair view; such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error; assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and using the going concern basis of accounting unless they either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

#### Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

A fuller description of our responsibilities is provided on IAASA's website at https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description\_of\_auditors\_responsibilities\_for\_audit.pdf.

#### The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the Company's members, as a body, in accordance with Section 391 of the Companies Act 2014. Our audit work has been undertaken so that we might state to the Company's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the Company and the Company's members, as a body, for our audit work, for this report, or for the opinions we have formed.

Liam McNally, for and on behalf of KPMG Chartered Accountants, Statutory Audit Firm 1 Harbourmaster Place IFSC Dublin 1

# Notes forming part of the Financial Statements

for the financial year ended 31 October 2020

## 1. General information

Absolute Insight Funds plc ("the Company") is an open-ended investment company with variable capital and with segregated liability between Funds organised under the laws of Ireland as a public limited company pursuant to the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (the "UCITS Regulations"), and the Central Bank of Ireland (Supervision & Enforcement) Act 2013 (Section 48(I)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"). It was incorporated in Ireland on 5 December 2006 under registration number 431087. The Company commenced trading on 1 March 2007.

The Company is structured as an umbrella investment company with variable capital. A variety of funds may be established from time to time by the Directors. Shares of more than one class may be issued in relation to a Fund. The Company has segregated liability between its Funds. A separate portfolio of assets shall be maintained for each Fund and shall be invested in accordance with the investment objective applicable to such Fund. Particulars relating to individual Funds and the classes of shares available therein are given in the relevant Supplements to the Prospectus.

As at 31 October 2020 the Company had six funds in operation, namely Absolute Insight Equity Market Neutral Fund, Absolute Insight Currency Fund, Absolute Insight Emerging Market Debt Fund, Absolute Insight Credit Fund, Insight Broad Opportunities Fund and Absolute Insight Dynamic Opportunities Fund (the "Funds"). Other funds may be established from time to time.

The Company had no employees during the financial years ended 31 October 2020 and 31 October 2019.

#### Absolute Insight Equity Market Neutral Fund

The investment objective of the Fund is to seek to provide attractive, positive absolute returns in all market conditions.

The Fund will aim to outperform its performance benchmark (3 month LIBID) over a rolling twelve month period after fees and will measure its performance against this. In addition, the Fund seeks to generate returns of up to 3 month LIBID + 3% gross of fees over an annualised five year period, whilst being mindful of the investment objective.

The Fund seeks to generate long-term capital growth, primarily from investing in a range of equity and equity-related securities and financial derivative instruments permitted by the regulations. The Fund will also invest in a broad range of liquid or near cash assets. This asset class will be held both as an absolute return producing asset class in its own right, and also to provide liquidity and cover for exposures generated through the use of financial derivative instruments.

A key feature of the Fund is that it is an absolute return fund in that it seeks to provide positive absolute returns in all market conditions. In addition to maintaining a portfolio of liquid or near cash assets, it will also generally seek to achieve this by minimising the market related risks usually associated with investing in equities (otherwise known as "beta"), whilst isolating the stock specific returns, (otherwise known as "alpha").

On 22 October 2020, the Directors of the Company wrote to shareholders of the Absolute Insight Equity Market Neutral Fund to give notice of their decision to terminate the Fund.

The Directors determined that due to a reduction in the net asset value of the Fund it was no longer possible to manage the Fund in an efficient manner. Accordingly, the Directors determined to terminate the Fund with effect from 26 October 2020 (the "Termination Date"). The Directors provided a notice period from termination date to the Fund's closure date, 24 November 2020, during which time investors could subscribe for and repurchase shares in the Fund.

#### Absolute Insight Currency Fund

The investment objective of the Fund is to seek to provide attractive, positive absolute returns in all market conditions.

The Fund will aim to outperform its performance benchmark (3 month LIBID) over a rolling twelve month period after fees and will measure its performance against this. In addition, the Fund seeks to generate returns of up to 3 month LIBID + 4% gross of fees over an annualised five year period, whilst being mindful of the investment objective.

The Fund seeks to generate long-term capital growth, primarily through obtaining exposure to a range of global currencies. The Fund will maintain a portfolio of liquid or near cash assets. This asset class will be held both as an absolute return producing asset class in its own right, and also to provide liquidity and cover for exposures generated through the use of financial derivative instruments.

# Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

## 1. General information (continued)

#### **Absolute Insight Currency Fund (continued)**

A key feature of the Fund is that it is an absolute return fund in that it seeks to provide positive absolute returns in all market conditions. In addition to maintaining a portfolio of liquid or near cash assets, it will seek to achieve this by maintaining well diversified exposure across a number of currencies.

#### Absolute Insight Emerging Market Debt Fund

The investment objective of the Fund is to seek to provide attractive, positive absolute returns in all market conditions.

The Fund will aim to outperform its performance benchmark (3 month LIBID) over a rolling twelve month period after fees and will measure its performance against this. In addition, the Fund seeks to generate returns of up to 3 month LIBID + 4% gross of fees over an annualised five year period, whilst being mindful of the investment objective.

The Fund aims to produce investment returns through direct holdings of debt and debt-related securities relating to emerging market countries which display low volatility and low correlation to other markets.

The Fund aims to augment these returns by generating long-term capital growth, primarily from investing in interest rate and exchange rate strategies across a range of emerging market bond markets, by using a full range of financial derivative instruments.

The Fund will also maintain a portfolio of liquid or near cash assets. This asset class will be held both as an absolute return producing asset class in its own right, and also to provide liquidity and cover for exposures generated through the use of financial derivative instruments.

A key feature of the Fund is that it is an absolute return fund in that it seeks to provide positive absolute returns in all market conditions. In addition to maintaining a portfolio of liquid or near cash assets, the Sub-Investment Manager will seek to achieve this by a combination of hedging out the market related interest rate and exchange rate risk that usually arises from direct holdings of emerging market debt securities, so that the Fund retains only the stock specific credit exposure and/or taking both "long" and "short" investment positions across a range of markets.

#### **Absolute Insight Credit Fund**

The investment objective of the Fund is to seek to provide attractive, positive absolute returns in all market conditions.

The Fund will aim to outperform its performance benchmark (3 Month LIBID) over a rolling twelve month period after fees and will measure its performance against this. In addition, the Fund seeks to generate returns of up to 3 month LIBID + 5% gross of fees over an annualised five year period, whilst being mindful of the investment objective.

The Fund seeks to produce investment returns primarily through direct holdings of debt and debt-related securities including but not limited to debt securities, debt instruments, debt obligations, treasury bills, debentures, bonds, loan investments, structured financial instruments and certificates of deposit, floating rate notes, short and medium term obligations and commercial paper. Such debt and debt-related securities may be fixed or floating rate and are issued or guaranteed by any sovereign government or their agencies, local authority, supranational or public international bodies, banks, corporates or other commercial issuers. The Fund may invest on a worldwide basis and may, accordingly, invest in emerging markets.

The Fund aims to augment these returns by generating long-term capital growth, primarily from investing in a range of directional and non-directional strategies across a range of bond markets, by using a full range of financial derivative instruments.

The Fund will also generally maintain a portfolio of liquid or near cash assets. This asset class will be held both as an absolute return producing asset class in its own right, and also to provide liquidity and cover for exposures generated through the use of financial derivative instruments.

A key feature of the Fund is that it is an absolute return fund in that it seeks to provide positive absolute returns in all market conditions. In addition to maintaining a portfolio of liquid or near cash assets, the Sub-Investment Manager will seek to achieve this by a combination of hedging out the market related interest rate and exchange rate risk that usually arises from direct holdings of emerging market debt securities, so that the Fund retains only the stock specific credit exposure and/or taking both "long" and "short" investment positions across a range of markets.

## Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

## 1. General information (continued)

#### **Insight Broad Opportunities Fund**

The Fund aims to deliver attractive, positive long-term returns.

The Fund will compare its performance against 3 month GBP LIBID. In addition, the Fund seeks to generate returns of 3 month LIBID +4.5% gross of fees over an annualised five year period, whilst being mindful of the investment objective.

The Fund seeks to generate long-term capital growth through a dynamic asset allocation strategy involving several asset classes (namely equities, fixed income securities as well as commodities and property), primarily through an investment in Investment Funds and financial derivative instruments. The Fund will also make tactical asset allocations as and when appropriate opportunities arise.

The Fund will typically invest in a diversified and broad range of these asset classes subject to the investment restrictions outlined in the Prospectus.

The Fund will generally seek to achieve its investment objective through investing by reference to macroeconomic themes, rather than by individual stock picking.

The Fund shall also take directional views both on equity markets, equity sectors and themes, fixed income markets and, through the use of derivatives on indices, on commodities and property. The Sub-Investment Manager will seek to dynamically adjust the investments of the Fund according to the risk tolerances it will apply to the Fund. In so doing, it will seek to limit downside risk at the expense of some upside potential.

#### Absolute Insight Dynamic Opportunities Fund

The investment objective of the Fund is to deliver attractive, positive absolute returns in all market conditions.

The Fund will aim to outperform its Performance Benchmark (3 Month LIBID) over a rolling twelve month period after fees and will measure its performance against this. In addition, the Fund seeks to generate returns of up to 3 month LIBID + 5% gross of fees over an annualised five year period, whilst being mindful of the investment objective.

The Fund may invest in equities, debt and debt-related securities and currencies, through direct investment, financial derivative instruments and investment funds. The Fund may also invest in commodities, property and infrastructure through financial derivatives and investment funds. Investment in commodities will only be through financial derivative instruments and will be used to gain exposure to eligible commodity indices which have been cleared by the Central Bank. No direct investment will be made in commodities, property or infrastructure. The Fund may invest on a global basis and there is no geographical, industry or sector focus in relation to the equities or other asset classes to which exposure may be taken.

A key feature of the Fund is that it is an absolute return fund in that it seeks to provide positive absolute returns in all market conditions. In addition to maintaining a portfolio of liquid or near cash assets (as defined in the Prospectus) it will also generally seek to achieve this by combining long and short positions to achieve an enhanced risk/return profile compared to traditional long only funds.

## 2. Summary of significant accounting policies

#### a. Basis of preparation

The principal accounting policies applied in the preparation of these financial statements are set out below. The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities (including derivative financial instruments) through profit or loss. The financial statements are prepared on a fair value basis for financial assets and liabilities at fair value through profit or loss and derivative financial instruments. Other financial assets and liabilities are stated at amortised cost, except for financial liabilities arising from redeemable shares issued by the Funds which are carried at redemption amounts.

The financial statements of the Company have been prepared on a going concern basis for the financial year ended 31 October 2020, with the exception of the Absolute Insight Equity Market Neutral Fund, for which the Directors have given notice of termination post year end 31 October 2020 and for which the going concern basis is therefore no longer appropriate.

## Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

## 2. Summary of significant accounting policies (continued)

#### a. Basis of preparation (continued)

The preparation of financial statements in conformity with FRS 102 the Financial Reporting Standard applicable in the UK and Republic of Ireland ("FRS 102") requires management to make judgements, estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of income and expenses during the financial year. Actual results could differ from those estimates.

Estimates and underlying assumptions are reviewed on an on-going basis. Revisions to accounting estimates are recognised in the financial year in which the estimates are revised.

#### Statement of compliance

These financial statements have been prepared in accordance with FRS 102, the UCITS Regulations, the Central Bank UCITS Regulations and Irish Statute comprising the Companies Act 2014.

The Company has availed of the exemption available to open-ended investment funds under FRS 102 and is not presenting a cashflow statement.

The format and wording of certain line items on the primary statements contains departures from the Guidelines under the Companies Act 2014 to reflect this Company's structure as an investment fund. The assets and liabilities in the primary statements reflect specific securities typically held by investment funds and the primary statements also reflect income and expenses associated with this investment activity.

#### b. Foreign currency translation

With the exception of the Absolute Insight Emerging Market Debt Fund, the Funds' investors are mainly from the United Kingdom, with the subscriptions and redemptions of Redeemable Participating Shares primarily in Great Britain Pounds ("GBP"). The Funds' investing strategies, operations and reporting of performance to investors is primarily in GBP. The Board of Directors consider the GBP as the currency that most faithfully represents the economic effects of underlying events and transactions. The functional and presentation currency of the financial statements is therefore GBP.

With respect to the Absolute Insight Emerging Market Debt Fund, based on the mixture of the currency in which financing is received, the Board of Directors consider the United States Dollar ("USD") as the currency that most faithfully represents the economic effects of underlying events and transactions.

Transactions in foreign currencies are translated at the foreign exchange rate ruling at the date of the transaction. Monetary assets and liabilities denominated in foreign currencies at the date of the financial statements are translated to each Fund's functional currency at the foreign exchange rate ruling at that date. Foreign exchange differences arising on translation and realised foreign exchange gains and losses on disposals or settlements of monetary assets and liabilities are recognised in the Statement of Comprehensive Income. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to each Fund's functional currency at the foreign currency exchange rates ruling at the dates that the values were determined. Net foreign exchange gains and losses on monetary financial assets and financial liabilities, are included in "Net gains/(losses) on financial assets and liabilities at fair value through profit or loss" in the Statement of Comprehensive Income. For the purposes of producing the financial statements, year end exchange rates are used for the Statement of Financial Position and average exchange rates (as an approximation of actual rates) are used for the Statement of Comprehensive Income and the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares. Foreign exchange adjustment arising on combination of GBP 1,688,000 (2019: GBP 3,794,000) is included in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares. The method of translation has no effect on the value of the net assets of each Fund.

#### c. Financial instruments

#### (i) Classification

On initial application of FRS 102, in accounting for its financial instruments a reporting entity is required to apply either a) the full requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments, or b) the recognition and measurement provisions of IAS 39 Financial Instruments: Recognition and Measurement, and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments.

Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

## 2. Summary of significant accounting policies (continued)

## c. Financial instruments (continued)

#### (i) Classification (continued)

The Company has chosen to implement the recognition and measurement provisions of IAS 39 Financial Instruments: Recognition and only the disclosure requirements of FRS 102 relating to Basic Financial Instruments and Other Financial Instruments.

The Company classifies its investments into the financial assets at fair value through profit or loss category.

The category of financial assets and liabilities at fair value through profit or loss comprises financial instruments held-for-trading and financial instruments designated at fair value through profit or loss upon initial recognition.

Financial instruments held-for-trading are those that the relevant Fund principally holds for the purpose of short-term profit taking. These include investments in equity instruments, debt instruments, collaterised loan obligations ("CLOs"), loans, warrants, interest rate swaps, contracts for difference, money market instruments, credit default swaps, futures contracts, forward foreign currency exchange contracts, option contracts, swaption contracts, total return swaps and Investment Funds. All derivatives in a net receivable position (positive fair value), are reported as financial assets held-for-trading. All derivatives in a net payable position (negative fair value) are reported as financial liabilities held-for-trading. Financial liabilities that are not at fair value through profit or loss include balances due to brokers, accounts payable, redemptions payable and financial liabilities arising on redeemable participating shares. Financial assets that are not fair valued through profit or loss include cash and cash equivalents, cash held with brokers for derivative contracts, accounts receivable.

The Company does not use the category of financial instruments designated at fair value through profit or loss upon initial recognition to classify any financial assets or financial liabilities, and therefore throughout the financial years ended 31 October 2020 and 31 October 2019 there are no investments held which were designated at fair value through profit or loss upon initial recognition.

## (ii) Recognition

The Company recognises financial assets and financial liabilities held for trading on the date it commits to purchase or sell short the instruments. From this date any gains and losses arising from changes in fair value of the assets or liabilities are recognised.

#### (iii) Measurement

Financial instruments are measured initially at fair value (transaction price).

Subsequent to initial recognition, all instruments classified at fair value through profit or loss are measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income.

Financial assets and liabilities, other than those at fair value through profit or loss, are measured at amortised cost using the effective interest rate. Financial liabilities arising from the Redeemable Participating Shares issued by the Company are carried at the redemption amount representing the investors' right to a residual interest in the Company's assets.

## (iv) Fair value measurement principles

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as transferable securities and financial derivative instruments traded publicly) are based on quoted market prices at the close of trading on the reporting date.

If a quoted market price is not available on a recognised stock exchange or from a broker/dealer for nonexchange traded financial instruments, the fair value of the instrument is estimated using valuation techniques, including use of recent arm's length market transactions, reference to the current fair value of another instrument that is substantially the same, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

# Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

## 2. Summary of significant accounting policies (continued)

#### c. Financial instruments (continued)

#### (iv) Fair value measurement principles (continued)

The fair value of financial derivative instruments, that are not exchange-traded, is estimated at the amount that the Fund would receive or pay to terminate the contract at the reporting date, taking into account current market conditions (volatility, appropriate yield curve) and the current creditworthiness of the counterparties. Realised gains and losses on investment disposals are calculated using the weighted average cost method.

#### (v) Unrealised gains and losses on subsequent measurement

Unrealised gains and losses arising from a change in the fair value of financial assets and financial liabilities that are classified as held for trading are recognised in the Statement of Comprehensive Income.

#### (vi) Impairment

Financial assets that are stated at cost or amortised cost are reviewed at each Statement of Financial Position date to determine whether there is objective evidence of impairment. If any such indication exists, an impairment loss is recognised in the Statement of Comprehensive Income as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate.

If in a subsequent year the amount of an impairment loss recognised on a financial asset carried at amortised cost decreases and the decrease can be linked objectively to an event occurring after the write-down, the write-down is reversed through the Statement of Comprehensive Income.

#### (vii) Derecognition

A financial asset is derecognised when the Company, on behalf of the relevant Fund, no longer has control over the contractual rights that comprise that asset. This occurs when the rights are realised, expire or are surrendered. A financial liability is derecognised when it is extinguished or when the obligation specified in the contract is discharged, cancelled or expired.

Assets held for trading that are sold are derecognised and corresponding receivables from the buyer for the payment are recognised as of the date the relevant Fund commits to sell the assets. The Company uses the weighted average cost method to determine the gain or loss on derecognition.

The Company's obligation for securities sold short is considered closed and the related liability is derecognised, when it delivers or replaces the security borrowed under the original transaction. At the time the transaction is closed, the relevant Fund realises a gain or loss equal to the difference between the price at which the security is sold and the cost of replacing the borrowed security.

#### (viii) Specific instruments

#### Securities sold short

Securities sold short are those positions where a Fund has sold a security that it does not own in anticipation of a decline in the market value of the security and are classified as liabilities held-for-trading. To enter a short sale, the Company may need to borrow the security for delivery to the buyer. On each day the short sale transaction is open, the liability to replace the borrowed security is marked to market and an unrealised gain or loss is recorded in the Statement of Comprehensive Income. While the transaction is open, the Fund will also incur an expense for any dividends or interest which will be paid to the lender of the securities.

#### Options contracts

Options are derivative financial instruments that give the buyer, in exchange for a premium payment, the right but not the obligation to either purchase from or sell to the writer a specified underlying instrument at a specified price on or before a specified date. Put options are contracts sold for a premium that gives one party (the buyer) the right, but not the obligation, to sell to the other party (the seller) of the contract, a specific quantity of a particular product or financial instrument at a specified price. Call options are similar contracts sold for a premium that gives the buyer the right, but not the obligation, to buy from the seller of the option at a specified price. Options may also be cash settled. The Fund may be a seller or buyer of put and call options. Daily fluctuations in the value of the option contract are recorded for financial reporting purposes as unrealised gains or losses by the Funds and are recorded as a realised gain or loss when the position is closed.

# Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

## 2. Summary of significant accounting policies (continued)

#### c. Financial instruments (continued)

#### (viii) Specific instruments (continued)

#### Swaptions

A Fund records an unrealised gain/(loss) for the amount expected to be received or paid under the swaption agreement if the agreement was terminated on the reporting date which is reported within financial assets or financial liabilities at fair value through profit or loss in the Statement of Financial Position and Schedule of Investments.

When a Fund writes a swaption, a premium is received by the Fund and the swaption is initially recognised at the amount of the premium. The swaption is subsequently marked-to-market to reflect the fair value of the swaption written, which is reported within financial liabilities at fair value through profit or loss on the Statement of Financial Position and Schedule of Investments. The difference between the premium received and the fair value reported on the Statement of Financial Position gives rise to an unrealised gain/(loss). When a swaption which the Fund has written is exercised, the amount of the premium originally received will offset the cost of the swap upon exercise of the option in arriving at the movement in unrealised gain/(loss) to be included in the Statement of Comprehensive Income. Premiums received on swaptions written which expire unexercised are treated as realised gains in the Statement of Comprehensive Income.

When a Fund purchases a swaption, a premium is paid by the Fund and the swaption is initially recognised at the amount of the premium. The swaption is subsequently marked-to-market to reflect the fair value of the swaption purchased, which is reported within financial assets at fair value through profit or loss on the Statement of Financial Position. When a swaption which the Fund holds is exercised, the amount of the premium originally paid will offset the cost of the swap upon exercise of the option in arriving at the movement in unrealised gain/(loss) to be included in the Statement of Comprehensive Income. Premiums paid from the purchase of swaptions which expire unexercised are treated as realised losses in the Statement of Comprehensive Income.

#### Forward foreign currency exchange contracts

As part of the Funds' investment strategy, the Funds enter into certain forward foreign currency exchange contracts, all of which are classified as trading instruments and recognised on the Statement of Financial Position at fair value.

The fair value of open positions in forward foreign currency exchange contracts is calculated as the difference between the contract price and fair value based on reported market prices of the underlying contract variables. Realised and unrealised gains and losses are included in the Statement of Comprehensive Income. Realised gains or losses include net gains or losses on contracts which have settled or for which offsetting contracts have been entered into.

#### Futures contracts

Futures contracts are commitments either to purchase or sell a designated financial instrument, currency, commodity or an index at a specified future date for a specified price and may be settled in cash or another financial asset. Futures are standardised exchange traded contracts. Initial margin requirements for futures are met in cash or other instruments, and changes in the future contract values are settled daily. Futures contracts have little credit risk because the counterparties are futures exchanges. Realised and unrealised gains and losses are included in the Statement of Comprehensive Income. Changes in the value of open futures contracts are recognised as unrealised gains or losses on futures contracts until the contracts are terminated, at which time realised gains and losses are recognised.

**Notes forming part of the Financial Statements** for the financial year ended 31 October 2020 (continued)

## 2. Summary of significant accounting policies (continued)

#### c. Financial instruments (continued)

#### (viii) Specific instruments (continued)

#### Total return swaps and credit default swaps

Total return swaps and credit default swaps are used for trading purposes. Total return swaps ("TRSs") and credit default swaps ("CDSs") are measured initially at fair value on the date on which the derivative contract is entered into and subsequently remeasured at fair value. Fair values are obtained from counterparties or from quoted market prices in active markets, including recent market transactions, and from valuation techniques using discounted cash flow models and option pricing models as appropriate. TRSs and CDSs are included in assets when the fair value is positive, and in liabilities when the fair value is negative, unless there is the legal ability and intention to settle the asset and liability on a net basis. Revenues/payments arising on TRSs and CDSs are included in the net gain or loss on investments in the Statement of Comprehensive Income.

#### Contracts for difference

Contracts for difference ("CFDs") represent agreements that obligate two parties to exchange cash flows at specified intervals based upon, or calculated by reference to, changes in specified prices or rates for a specified amount of an underlying asset, or otherwise determined notional amount. The payment flows are usually netted against each other, with the difference being paid by one party to the other. Therefore, amounts required for the future satisfaction of the CFDs, may be greater or less than the amount recorded. The ultimate gain or loss depends upon the prices at which the underlying financial instruments of the CFDs are valued at the CFDs ultimate settlement date. The Funds utilise these CFDs agreements as an efficient means of hedging or of obtaining exposure to certain underlying investments. Through CFDs the Company can in effect be exposed to increases or decreases in the value of an equity or bond or to decreases or increases in the value of a related equity - such trades are consistent with the overall strategy of the Funds.

Open CFDs are carried at the net amount due to/from the counterparty under the terms of the agreement, including unrealised gains and losses from changes in fair value of the notional equities, and are recorded as derivative assets/liabilities at fair value on the Statement of Financial Position. Realised gains and losses and changes in unrealised gains and losses are recognised in the Statement of Comprehensive Income. When the Company holds long CFDs it receives the dividends relating to the underlying equity and pays interest to the third party. When the CFDs are sold short, the Company receives interest on the contract value. The contracts are valued based on the market value of the underlying security.

#### Warrants and Rights

Warrants are sometimes used to gain exposure to emerging market equities where custody, liquidity, or other issues make ownership of local shares sub-optimal. The valuation of the warrants depends on the level of trading. If the warrants are actively traded in the market then the market price is used. If the warrants are not actively traded in the intrinsic value of the warrant based on underlying equity price and warrant strike price is used. Warrants by their nature are covered investments.

An issue of rights to a company's existing shareholders entitles the shareholders to buy additional shares directly from the company in proportion to their existing shareholding.

#### d. Critical accounting estimates and judgements

The preparation of financial statements in conformity with FRS 102 requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Company's accounting policies. The estimates and associated judgement are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgement about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The areas of the Company's business that typically require such estimates are the determination of the fair value of certain financial assets and liabilities as described in note 9(e).

## Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

## 2. Summary of significant accounting policies (continued)

#### e. Interest income and expense

Interest on bank and broker balances, deposits with credit institutions, money market instruments and debt securities is recognised in the Statement of Comprehensive Income on an effective interest rate basis and included in the interest income/expense line item within the Statement of Comprehensive Income.

#### f. Expenses

All expenses are recognised in the Statement of Comprehensive Income on the accruals basis.

#### g. Taxation

The Company is an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997. Therefore, the Company is not liable to tax in respect of its income and gains other than on the occurrence of a chargeable event.

Generally, a chargeable event arises on any distribution, redemption, repurchase, cancellation, transfer of shares or the ending of a Relevant Period. A 'Relevant Period' is an eight year period beginning with the acquisition of the shares by the shareholder and each subsequent period of eight years beginning immediately after the preceding Relevant Period.

A gain on a chargeable event does not arise in respect of:

- a) A shareholder who is not Irish resident and not ordinarily resident in Ireland at the time of the chargeable event, provided the necessary signed statutory declarations are held by the Company;
- b) Certain exempted Irish resident investors who have provided the Company with the necessary signed statutory declarations;
- c) The exchange by a shareholder of shares in the undertaking for other shares in the investment undertaking;
- d) Shares held in a recognised clearing system as designated by order of the Irish Revenue Commissioners; and or
- e) Certain exchanges of shares between spouses and former spouses.

Capital gains, dividends and interest (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

In the absence of an appropriate signed declaration, the Company will be liable to Irish tax on the occurrence of a chargeable event, and the Company reserves its right to withhold such taxes from the relevant shareholders.

There were no chargeable events during the financial years ended 31 October 2020 and 31 October 2019.

#### h. Redeemable Participating Shares

All Redeemable Participating Shares issued by the Company provide the investors with the right to require redemption for cash at the value proportionate to the investor's share in the Company's net assets at the redemption date. In accordance with FRS 102 such instruments give rise to a financial liability for the present value of the redemption amount.

#### i. Distributions

Distributions are declared quarterly out of profits attributable to all re-investment share classes. The distribution payable is re-invested back into the relevant Funds; however no additional shares are issued in respect of such reinvestment.

The net asset value for the reinvestment share classes does not change as distributions are paid to an external account and reinvested back into the relevant Funds on the same day. Distributions are payable out of the profits of the relevant Fund, being the accumulated revenue (consisting of all revenue accrued including interest and dividends earned by the relevant Fund) less expenses. Distributions payable on redeemable participating shares are recognised in the Statement of Comprehensive Income as finance costs.

## Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

## 2. Summary of significant accounting policies (continued)

#### j. Net Asset Value per Share

The Net Asset Value per share for each class disclosed in note 17 is calculated by dividing the net assets by the number of shares outstanding at the financial year end. The subscriber shares are redeemable at the nominal amount paid thereon and do not have a residual interest in the net assets of the Company and therefore do not affect the calculation of the Company's Net Asset Value per share.

## k. Dilution adjustment

On any dealing day where there are net subscriptions or redemptions the Directors may determine (based on such reasonable factors as they see fit, including without limitation, the prevailing market conditions and the level of subscriptions or redemptions requested by shareholders or potential shareholders in relation to the size of the Fund) to apply a dilution adjustment to the dealing Net Asset Value per Share.

This adjustment is intended to pass the estimated costs of underlying investment activity of the Fund to the active shareholders by adjusting the net asset value of the relevant classes of shares and thus to protect the Fund's long-term shareholders from costs associated with on-going subscription and redemption activity.

The dilution adjustment may take account of trading spreads on the Funds' investments, the value of any duties and charges incurred as a result of trading and may also include an allowance for market impact. The dilution adjustment may change from time to time due to changes in these factors. Dilution adjustments are not recognised in the valuation of investments under accounting standards and are accordingly not included in the Statement of Financial Position.

There was no dilution adjustment at the financial year end 31 October 2020 (2019: GBP: Nil).

## I. Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value through profit or loss excluding transaction costs that are directly attributable to the acquisition or issue of the financial asset or financial liability, which are expensed immediately.

Transaction costs on the purchase and sale of debt instruments, CLOs, loans, warrants, total return swaps, CFDs, money market instruments, credit default swaps, forward foreign currency exchange contracts, swaptions and investment funds are included in the purchase and sale price of the investment. They cannot be practically or reliably gathered as they are embedded in the cost of the investment and cannot be separately verified or disclosed. Transaction costs on purchases and sales of equities, futures and options are included in net gains/(losses) on financial assets at fair value through profit or loss in the Statement of Comprehensive Income for each Fund. These costs are separately identifiable and are disclosed in note 12.

#### m. Cash at bank and cash held with brokers for derivative contracts

"Cash at bank" balances are held with the depositary and "cash held with brokers for derivative contracts" are held with brokers and include overnight deposits, collateral for margin calls and other liabilities due to the brokers. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Bank overdrafts are held with the depositary.

Margin Cash is cash held by or due to brokers for open futures contracts and represents the exchange traded futures contracts margin deposits held with brokers. This amount is the minimum deemed by the brokers and counterparties for collateral requirements. It is as such restricted and is reported separately to the unrestricted "cash and cash equivalents" on the Funds' Statement of Financial Position and is included within "cash held with brokers for derivative contracts".

## Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

## 2. Summary of significant accounting policies (continued)

#### n. Collateral

A Fund's assets may be deposited by or on behalf of the Fund for collateral purposes with brokers, for options and futures contracts, and derivative counterparties, in respect of over the counter financial derivative instruments held on the Fund. Such assets remain in the ownership of the relevant Fund and are recorded as an asset on the Statement of Financial Position.

Cash or stock collateral pledged by derivative counterparties to the Funds does not form part of the Net Asset Value of the Fund and is recorded at the foot of each relevant Schedule of Investments for reference purposes only.

#### o. Cross holdings within the Company

For the purposes of producing the combined Company financial statements, investments by Funds within the Company in the shares of other Funds within the Company, also known as "Cross Investments" must be eliminated in order to prevent double counting.

In preparing the combined Company Statement of Financial Position, the value of financial assets at fair value through profit or loss of the Company is reduced by the value of all cross investments as at 31 October 2020. In preparing the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, the share transactions of the investee Fund are reduced by the value of the cross investments. In preparing the combined Company Statement of Comprehensive Income, the net gain/(loss) on financial assets at fair value through profit or loss, is reduced by the amount of realised and unrealised gains and losses earned during the financial year on such cross investments.

Cross holdings within the Company are disclosed in note 11.

#### 3. Fixed Operating Expenses ("FOE")

The Manager shall be entitled to FOE out of the assets of the Funds equal to a percentage of the Net Asset Value of the relevant Share Class as detailed in the Supplements to the Prospectus and listed in note 11. In return for receiving this FOE, the Manager will pay a range of incurred fees and expenses relating to the operation of the Funds, including but not limited to administration fees, depositary fees, audit fees, directors' fees, distributor and sub-distributor fees, paying agent fees, all fees and expenses incurred or payable in registering and maintaining a fund or share class (with the exception of extraordinary fees and establishment fees as described in this note below), all legal (with the exception of extraordinary legal services as described in this note below) and other professional fees and expenses incurred by the Company or by or on behalf of its delegates, and fees and expenses connected with the preparation, publication and supply of information to shareholders and the public.

Fees which are not paid from the FOE include but are not limited to Investment Management and/or any performance fees, direct establishment costs, broker's commission, fiscal charges including stamp duty, taxation and duties payable in respect of the assets of the Funds, and extraordinary expenses including, without limitation, legal services in connection with any major legal or regulatory developments affecting the Company.

#### 4. Cash balances

"Cash at bank" balances are held with the depositary and "cash held with brokers for derivative contracts" held with brokers including overnight deposits, collateral for margin calls and other liabilities due to the brokers. Cash equivalents are short-term highly liquid investments that are readily convertible to known amounts of cash and are subject to an insignificant risk of changes in value. Bank overdrafts are held with the depositary.

The Central Bank's Investor Money Regulations ("IMR"), detail material changes to the rules in relation to investor money, and are designed to increase transparency and enhance investor protection. In response to these regulations, cash accounts held with a third party banking entity for collection of subscriptions, payment of redemptions and dividends for the Company were predesignated, and are now deemed assets of the Company. As at 31 October 2020 and 31 October 2019, there were no material amounts held in these cash accounts for the Company in relation to either subscription monies or redemption payments.

# Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

#### 9. Financial instruments and associated risks

In accordance with paragraph 34.23 of FRS 102, this note details the ways in which the Company manages risks associated with the use of financial instruments.

The investments of a Fund in securities and derivatives are subject to normal market fluctuations and other risks inherent in investing in securities and derivatives. Each Fund's activities expose the Company to a variety of financial risks: market risk (including currency risk, interest rate risk and market price risk), credit risk and liquidity risk. The Company's overall risk management programme focuses on the unpredictability of financial markets and seeks to minimise potential adverse effects on the Funds' financial performance.

#### a. Market risk

Market risk is the risk that changes in interest rates, foreign exchange rates or equity and commodity prices will make an instrument less valuable or more onerous. All trading financial instruments are recognised at fair value, and all changes in market conditions directly affect net income.

## (i) Market price risk

Each Fund's market risk is managed by the Investment Manager within a rigorous risk management framework at the level of individual Funds. The Funds invest in a wide range of securities in accordance with respective investment objectives as detailed in note 1 to the financial statements. The Funds use a mixture of qualitative and quantitative techniques to generate absolute returns.

Market price risk results mainly from the uncertainty about the future prices of financial instruments held. It represents the potential loss a Fund may suffer through holding market positions in the face of market movements and changes in exchange rates.

The Funds invest primarily in the following markets:

- Absolute Insight Equity Market Neutral Fund A variety of derivative and non-derivative financial instruments as dictated by its investment strategy focusing on worldwide equity markets with a bias towards UK and European companies.
- Absolute Insight Currency Fund Derivative and non-derivative financial instruments in a wide range of currencies, as dictated by its investment strategy.
- Absolute Insight Emerging Market Debt Fund A variety of derivative and non-derivative financial instruments as dictated by its investment strategy focusing on debt securities in Emerging Markets.
- Absolute Insight Credit Fund A variety of derivative and non-derivative financial instruments as dictated by its investment strategy focusing on worldwide bond markets.
- Insight Broad Opportunities Fund A variety of derivative and non-derivative financial instruments, primarily Investment Funds, as dictated by its investment strategy.
- Absolute Insight Dynamic Opportunities Fund A variety of derivative and non-derivative financial instruments, as dictated by its investment strategy.

The policy of the Funds is to maintain a diversified portfolio so as to spread investment risk. The Funds use a combination of pair trades and strong individual ideas (which are generally against futures). The Investment Manager has a strong discipline in terms of both profit taking and cutting losses and will use stop losses to aid this process.

For Absolute Insight Equity Market Neutral Fund, Absolute Insight Currency Fund, Absolute Insight Credit Fund, Insight Broad Opportunities Fund and Absolute Insight Dynamic Opportunities Fund, market price risk is measured by absolute Value at Risk ("VaR") and for Absolute Insight Emerging Market Debt Fund global exposure was measured using the commitment approach up to 30 April 2020 and by using VaR with effect from 30 April 2020, as detailed in note 9(f).

#### (ii) Interest rate risk

A Fund's interest-bearing financial assets and liabilities expose it to risks associated with the effects of fluctuations in the prevailing levels of market interest rates on its financial position and cash flows.

A Fund is exposed to interest rate risk by virtue of the effects that changes in interest rates can have on the value of securities. Each Fund's policy is to limit its exposure to market risk and therefore, also limit its exposure to interest rate risk. A significant amount of each Fund's financial assets throughout the financial year consisted of cash at bank, cash held at Depositary and brokers and deposits held with credit institutions.

## Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

## 9. Financial instruments and associated risks (continued)

## a. Market risk (continued)

## (ii) Interest rate risk (continued)

A Fund which holds investments in debt securities, including government and corporate bonds, money market instruments and CFDs during the financial year, is also exposed to interest rate risk. Detail of investments in debt securities, money market instruments and CFDs held at the Statement of Financial Position date is provided in the relevant Fund's Schedule of Investments. Investments in debt securities, money market instruments rate are exposed to fair value interest rate risk, and investments with a floating rate that resets with the market rates are exposed to cash flow interest rate risk.

These assets yield significant amounts of interest income and therefore a Fund is subject to a degree of risk, due to fluctuations in the prevailing levels of market interest rates.

The following tables summarise each Fund's exposure to interest rate risk. The tables include each Fund's trading assets and liabilities at fair values, categorised by the earlier of the contractual re-pricing or maturity dates.

## (iii) Currency risk

The value of each Fund's investments can be affected by currency translation movements as some of the assets and income may be denominated in currencies other than the base or functional currency of that Fund. They are therefore exposed to currency risk, as the value of the securities denominated in other currencies will fluctuate due to changes in exchange rates in a manner that has an adverse effect on the value of that portion of the relevant Fund's assets or liabilities denominated in currencies other than the Fund's functional currency.

The Investment Manager has identified four principal areas where foreign currency risk could impact each Fund:

- movement in exchange rates affecting the value of investments;
- movement in exchange rates affecting short-term timing differences;
- movement in exchange rates affecting the income received; and
- movement in exchange rates affecting holders of redeemable participating shares in currencies other than the operational currency of the relevant Fund.

# Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

## 9. Financial instruments and associated risks (continued)

## a. Market risk (continued)

## (iii) Currency risk (continued)

Currency exposure is monitored closely and is considered to be part of the overall investment process. Currency hedges via forward foreign currency exchange contracts or futures contracts will only be used in the event of a specific currency risk being identified.

Each Fund may receive income in currencies other than its base currency and the base value can be affected by movements in exchange rates.

The table below summarises the Funds' exposure to foreign currency risks as at 31 October 2020, after taking into account the notional amounts of derivative financial instruments.

# Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

### 9. Financial instruments and associated risks (continued)

#### b. Credit risk

Credit risk is the risk that counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with a Fund. Credit risk is generally higher when a non-exchange traded financial instrument is involved because the counterparty for non-exchange traded financial instruments is not backed by an exchange clearing house.

Credit risk associated with trading and investing activities is managed through a Fund's market risk process as discussed above. Each Fund's credit risk concentration is spread between equity instruments, debt instruments, CLOs, loans, warrants, total return swaps, CFDs, money market instruments, credit default swaps, future contracts, forward foreign currency exchange contracts, option contracts, swaptions, deposits with credit institutions and investment funds as presented on the Statement of Financial Position.

The amount of credit exposure is represented by the carrying amounts of the assets on the Statement of Financial Position. Substantially all financial instruments are cleared through and held in custody by one major international institution.

The risk that both counterparties to both derivative and other instruments might default on their obligations is monitored on an ongoing basis.

To manage this level of credit risk, each Fund deals with counterparties of good credit standings, and the Company adopts a collateral programme with each counterparty whereby any unrealised gains on derivatives initiate a 'call' of collateral from the counterparty of which these assets are held in a segregated account, thereby minimising the risk of default. This review is done on a daily basis.

Chaired by the Chief Risk Officer, the Counterparty Credit Committee (CCC) establishes policies for the selection and monitoring of brokers and counterparties. Any exceptions to these policies require approval of the CCC. Counterparty selection involves an assessment of counterparty credit quality, capability, liquidity, pricing and operational effectiveness. Our credit analysis function within the Fixed Income Group is responsible for making both qualitative (fundamental credit assessments) and quantitative assessments of all counterparties for consideration by the CCC. Further input from market-based factors is also included, referencing a number of external factors such as share price performance and credit default swaps (CDS) spreads. This analysis includes the use of a screening tool using a tailored set of quantitative risk indicators which are subject to periodic reassessment.

For delivery versus payment brokers, minimum external rating agency data is not a pre-requisite for approval by the CCC. For OTC Counterparties to be used under Insight's ISDA arrangements are normally required to have a minimum rating of:

- A3 by Moody's or
- A- by S&P or
- A- by Fitch

A lower rating may be acceptable where, in the view of Insight, sufficient credit enhancements have been provided to bring the counterparty in line with the above.

Each Fund restricts their exposure to credit losses on the trading derivative instruments it holds by having netting arrangements with counterparties (approved brokers) with whom it undertakes a significant volume of transactions. Netting arrangements do not result in an offset of Statement of Financial Position assets and liabilities, as transactions are usually settled on a gross basis. However, the credit risk associated with favourable contracts is reduced by a netting arrangement to the extent that if an event of default occurs, all amounts with the counterparty are terminated and settled on a net basis. These netting arrangements are on an individual Fund level.

Each Fund has no more than 20% of the respective NAV exposed to any one counterparty bar the Depositary. As at 31 October 2020, the Funds have exposure to State Street Custodial Services (Ireland) Limited as Depositary (credit rating: AA- (2019: AA-)) and to the following credit counterparties:

Each Fund's maximum exposure to credit risk (not taking into account the value of any collateral or other security held) in the event that counterparties fail to perform their obligations as of 31 October 2020 in relation to each class of recognised financial assets, other than derivatives, is the carrying amount of those assets as indicated in the Statement of Financial Position and Schedule of Investments.

A significant proportion of each Fund's investments in financial assets, have an investment grade as rated by a well-known rating agency.

Each Fund's investments in debt securities classified by credit ratings are:

#### c. Liquidity risk

Each Fund has assets which comprise of realisable securities which can be easily sold. Each Fund's main liability and exposure is to daily cash redemptions of Redeemable Participating Shares. Assets from a Fund may need to be sold if insufficient cash is available to finance such redemptions. It therefore invests the majority of its assets in investments that are traded in an active market and can be readily disposed of.

Each Fund may invest in derivative contracts traded over the counter, which are not traded in an organised public market and may generally be illiquid. As a result, a Fund may not be able to quickly liquidate its investments in these instruments at amounts close to their fair values in order to meet its liquidity requirements or to respond to specific events such as deterioration in the credit worthiness of any particular issuer.

Each Fund may also invest in listed securities which are negotiable instruments. The ability to sell on demand ensures that the Investment Manager can efficiently alter the investment strategy as required. The ability to sell also permits the financing of any unexpected withdrawals from a portfolio. It is important that there are levels of assets which are readily tradable and the Investment Manager will ensure that assets are only held where an efficient secondary market is operating. From time to time the secondary market in any particular issue or market may become less liquid. To minimise this risk the Investment Manager will also ensure that a portfolio is diversified.

Each Fund may also invest in listed Investment Funds. These investments are considered to be readily realisable as a Fund can redeem the majority of its shareholdings on a daily basis.

Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

## 9. Financial instruments and associated risks (continued)

### d. Specific instruments risks

### (i) Securities sold short

Securities a Fund has sold that it does not own are subject to the risk that the value of the security will increase rather than decline. Consequently, the settlement amount of the liability for securities sold short may exceed the amount of the proceeds initially received or the liability recorded in the financial statements as the Fund is obligated to purchase the securities sold short in the market at prevailing prices to settle its obligations.

### (ii) Forward contracts

Forward foreign currency exchange contracts are over-the-counter contractual commitments to purchase or sell a designated amount of a financial instrument or foreign currency at a specified future date for a predetermined price. Whilst the contract or notional amounts reflect the involvement of a Fund in these financial instruments, risks arise from the possible adverse movements in foreign exchange rates. Over-the-counter forward foreign currency exchange contracts are not guaranteed by any regulated exchange. Accordingly, an element of credit risk exists due to the possible non-performance of the counterparties to forward foreign currency exchange contracts.

Because of the low margin deposits normally required in relation to notional contract sizes, a high degree of leverage may be typical in an underlying of a forward foreign currency exchange contract which may result in substantial losses to the Fund. As at 31 October 2020 the Funds' net exposures to forward positions used by the Company translated into the relevant functional currency of each Fund are detailed in the Schedules of Investments.

### (iii) Options contracts

Options are derivative financial instruments that give the buyer, in exchange for a premium payment, the right, but not the obligation, to either purchase from (call option) or sell to (put option) the writer a specified underlying instrument at a specified price on or before a specified date. Daily fluctuations in the value of the option contract are recorded for financial reporting purposes as unrealised gains or losses by the Funds and are recorded as a realised gain or loss when the position is closed. Over-the-counter option contracts result in credit exposure to the counterparty.

#### (iv) Swaptions

This instrument combines the features of two other financial instruments, namely an option and a swap. A swaption involves writing/purchasing options to enter into a swap. A Fund records an unrealised gain (loss) for the amount expected to be received or paid under the swaption agreement if the agreement was terminated on the Statement of Financial Position date which is reported within financial assets or financial liabilities at fair value through profit or loss on the Statement of Financial Position and Schedule of Investments.

# (v) Futures contracts

Futures contracts are commitments either to purchase or sell a designated financial instrument, currency, commodity or an index at a specified future date for a specified price and may be settled in cash or another financial asset. Futures contracts are standardised exchange traded contracts. Initial margin requirements for futures are met in cash or other instruments, and changes in the future contract values are settled daily. Futures contracts have little credit risk because the counterparties are futures exchanges.

#### (vi) Credit default swaps and total return swaps

Entering into credit default and total return swap agreements expose the Funds to market risks equivalent to actually holding securities of the notional value but typically involve little capital commitment relative to the exposure achieved. The gains or losses of the Funds may therefore be significantly greater than this initial commitment.

**Notes forming part of the Financial Statements** for the financial year ended 31 October 2020 (continued)

# 9. Financial instruments and associated risks (continued)

# d. Specific instruments risks (continued)

# (vii) Contracts for difference

CFDs represent agreements that obligate two parties to exchange cash flows at specified intervals based upon, or calculated by reference to, changes in specified prices or rates for a specified amount of an underlying asset, or otherwise determined notional amount. The payment flows are usually netted against each other, with the difference being paid by one party to the other. Therefore, amounts required for the future satisfaction of the CFDs, may be greater or less than the amount recorded. The ultimate gain or loss depends upon the prices at which the underlying financial instruments of the CFDs are valued at the CFDs ultimate settlement date. The Funds utilise these CFDs agreements as an efficient means of hedging or of obtaining exposure to certain underlying investments. Through CFDs the Company can in effect be exposed to increases or decreases in the value of an equity or bond or to decreases or increases in the value of a related equity - such trades are consistent with the overall strategy of the Funds.

# (viii) Loans

Certain Funds may invest in direct debt instruments which are interests in amounts owed by corporate, governmental, or other borrowers to lenders or lending syndicates. A Fund's investments in loans may be in the form of participations in loans or assignments of all or a portion of loans from third parties ("Bank Loan"). A Bank Loan is often administered by a bank or other financial institution (the "Lender") that acts as agent for all holders. The Lender administers the terms of the Bank Loan, as specified in the Bank Loan agreement. When investing in a loan participation, a Fund has the right to receive payments of principal, interest and any fees to which it is entitled only from the Lender and only upon receipt by the Lender of payments from the borrower. Where applicable, the loans are included within Debt Securities in the Schedules of Investments.

# (ix) Collateralised Loan Obligations

A CLO is a pooled investment vehicle which invests in a diversified group of loan assets. To finance its investments the vehicle issues bonds/notes to investors. The servicing and repayment of these notes is linked directly to the performance of the underlying assets. Where applicable, the CLOs are included within Debt Securities in the Schedules of Investments.

# e. Fair value information

FRS 102 section on "Fair Value: Disclosure" requires disclosure relating to the fair value hierarchy in which fair value measurements are categorised for financial assets and financial liabilities. The disclosures are based on a three-level fair value hierarchy for the inputs used in valuation techniques to measure fair value:

- (i) Level 1 The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- (ii) Level 2 Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- (iii) Level 3 Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

The level in the fair value hierarchy within which the fair value measurement is categorised is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

### 9. Financial instruments and associated risks (continued)

#### e. Fair value information (continued)

The determination of what constitutes 'observable' requires significant judgement by the Company. The Company considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Investments whose values are based on quoted market prices in active markets, and therefore classified within Level 1, include active listed equities, investment funds and exchange traded derivatives (futures). The Company does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. These include bonds, investment funds without full listing and with no redemption restrictions, short-term deposits and over-the-counter derivatives (swaps, options, forward foreign currency exchange contracts and CFDs).

Investments classified within Level 3 have significant unobservable inputs, as they trade infrequently.

The tables below analyse each Fund's financial instruments measured at fair value through profit or loss as at 31 October 2020 by the level in the fair value hierarchy into which the fair value measurement is categorised:

### e. Fair value information (continued)

Transfers between levels of the fair value hierarchy are deemed to have occurred when the pricing source or methodology used to price an investment was changed which triggers a change in level as defined under the Companies Act 2014. During the financial year ended 31 October 2020, the equity security Sherborne Investors Guernsey B Ltd transferred from Level 1 to Level 3 on the Absolute Insight Equity Market Neutral Fund. During the financial year ended 31 October 2019, all Money Market Instrument and Deposits with Credit Institutions securities were transferred from Level 1 to Level 2. These securities are short term in nature but are not traded in an active market and therefore Level 2 is deemed to be the appropriate category for these securities. During the financial year ended 31 October 2019, the debt security Topaz Asset Finance 2016-2 DAC transferred from Level 3 to Level 2 on the Absolute Insight Credit Fund.

The following table provides a reconciliation of all movements in the fair value of financial instruments categorised within Level 3 for the financial years ended 31 October 2020 and 31 October 2019:

# Absolute Insight Equity Market Neutral Fund

GBP '000	2020	2019
Opening balance	-	-
Realised gain/(loss) recognised in statement of comprehensive income	-	-
Unrealised (loss)/gain recognised in statement of comprehensive income	-	-
Purchases	-	-
Sales	-	-
Transfers out of Level 3	-	-
Transfers into Level 3	42	-
Closing balance	42	-
Absolute Insight Credit Fund	0000	0040
GBP '000	2020	2019
Opening balance	9,035	811
Realised (loss)/gain recognised in statement of comprehensive income	(433)	28
Unrealised gain/(loss) recognised in statement of comprehensive income	431	(442)
Purchases	1,003	10,850
Sales	(7,568)	(1,974)
Transfers out of Level 3	-	(238)
Transfers into Level 3	-	-
Closing balance	2,468	9,035

The equity security Sherborne Investors Guernsey B Ltd., held on the Absolute Insight Equity Market Neutral Fund with a fair value of GBP 41,595, is classified as Level 3 as at year end 31 October 2020 due to the lack of liquidity for this security and with a static price for greater than 90 days.

The debt security INEOS Rafnes AS 1.000% due 08/11/2024, held on the Absolute Insight Credit Fund with a fair value of GBP 2,467,746, is classified as Level 3 as at year end 31 October 2020 as there is a lack of liquidity for this security and it is fair valued from a single pricing source.

As at 31 October 2020, had the significant unobservable inputs used in the fair value measurement of the securities categorised within Level 3 of the fair value hierarchy increased or decreased by 5%, with all other variables held constant, the decrease or increase in the net assets attributable to the holders of redeemable participating shares of the Absolute Insight Equity Market Neutral Fund would amount to GBP 2,080 (2019: GBP nil) and the Absolute Insight Credit Fund would amount to GBP 123,387 (2019: GBP 451,750).

# Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

### 9. Financial instruments and associated risks (continued)

#### f. Global exposure

In respect of the Absolute Insight Emerging Market Debt Fund, the Investment Manager used the commitment approach to evaluate the global exposure of the Fund up to 30 April 2020. This approach converts the Fund's financial derivative instruments ("FDI") position into an equivalent position of the underlying assets based on the market value of the underlying asset. With effect from 30 April 2020, the Investment Manager's measurement of derivative exposure for this Fund was changed to VaR.

Following the change in measurement for the Absolute Insight Emerging Market Debt Fund, effective 30 April 2020, the Investment Manager uses absolute VaR to evaluate the global exposure of all Funds. The calculation model used is Historicap simulation, with a confidence level of 99%, a holding period of 5 days for the Absolute Insight Equity Market Neutral Fund, the Absolute Insight Emerging Market Debt Fund and for the Absolute Insight Currency Fund, 1 day for the Absolute Insight Credit Fund, the Insight Broad Opportunities Fund and the Absolute Insight Dynamic Opportunities Fund, a 5 year data history for the Absolute Insight Emerging Market Debt Fund and the Absolute Insight Currency Fund, and a 1 year data history for the Absolute Insight Emerging Market Debt Fund, the Absolute Insight Credit Fund, the Insight Broad Opportunities Fund and for the Absolute Insight Currency Fund, and a 1 year data history for the Absolute Insight Emerging Market Debt Fund, the Absolute Insight Credit Fund, the Insight Broad Opportunities Fund and for the Absolute Insight Dynamic Opportunities Fund, and a 1 year data history for the Absolute Insight Emerging Market Debt Fund, the Absolute Insight Credit Fund, the Insight Broad Opportunities Fund and for the Absolute Insight Dynamic Opportunities Fund.

The lowest, the highest and the average VaR calculated during the financial years, and the level of leverage employed during the financial years was:

	Minimum	Maximum	Average	
Fund - 2020	VaR	VaR	VaR	Leverage
Absolute Insight Equity Market Neutral Fund	0.48%	1.98%	1.21%	151.27%
Absolute Insight Currency Fund	0.18%	1.33%	0.67%	342.16%
Absolute Insight Emerging Market Debt Fund*	1.05%	2.40%	1.66%	137.87%
Absolute Insight Credit Fund	0.76%	2.49%	1.53%	174.98%
Insight Broad Opportunities Fund	0.40%	2.09%	1.15%	209.14%
Absolute Insight Dynamic Opportunities Fund	0.29%	1.57%	0.68%	175.88%

\*The Absolute Insight Emerging Market Debt Fund's measurement of derivative exposure changed from the commitment approach to the VaR methodology with effect from 30 April 2020.

	Minimum	Maximum	Average	
Fund - 2019	VaR	VaR	VaR	Leverage
Absolute Insight Equity Market Neutral Fund*	0.40%	0.86%	0.61%	83.71%
Absolute Insight Currency Fund	0.11%	1.04%	0.52%	29.60%
Absolute Insight Credit Fund	0.75%	1.82%	1.17%	221.61%
Insight Broad Opportunities Fund	0.44%	1.01%	0.74%	84.68%
Absolute Insight Dynamic Opportunities Fund	0.24%	0.89%	0.50%	88.74%

\*The Absolute Insight Equity Market Neutral Fund's measurement of derivative exposure changed from the commitment approach to the VaR methodology with effect from 2 January 2019.

#### 10. Share capital

The authorised share capital of the Company is two subscriber shares of  $\in 1$  each and 1,000,000,000,000,000 shares of no par value initially designated as unclassified shares. The unclassified shares are available for issue as redeemable participating shares in the Funds established in the Company. The Directors may issue any of the unclassified shares as redeemable participating shares in a Fund subject to such rights and restrictions as the Directors may determine.

Shares may only be issued as fully paid and shall have no par value. The amount of paid up share capital of the Company will always be equal to the Net Asset Value of the Company.

# Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

#### 10. Share capital (continued)

The redeemable participating shares which comprise the equity capital of the Company are in substance a liability of the Company. The redeemable participating shares may be redeemed on each dealing date at the Net Asset Value per share. The Company does not have any externally imposed capital requirements.

A summary of the shareholder unit activity during the current financial year and the previous financial year is detailed hereunder. All proceeds from redeemable participating shares issued and payments for redeemable participating shares redeemed are shown in the base currency of the Fund.

### **Cross holdings within the Company**

Insight Broad Opportunities Fund held investments in Absolute Insight Credit Fund, Absolute Insight Emerging Market Debt Fund and Absolute Insight Currency Fund at the financial year end, as set out in the relevant schedule of investments (2019: Insight Absolute Insight Credit Fund, Absolute Insight Emerging Market Debt Fund and Absolute Insight Currency Fund). Balances and transactions relating to cross holdings within the Company are eliminated on combination.

In cases where a Fund has made cross investments into the assets of another Fund of the Company, fees associated with such cross investments are deducted in the calculation of fees of the investing Fund, to avoid double counting.

#### Management Company ("Manager")

Insight Investment Management (Europe) Limited was appointed Manager to the Company with effect from 1 February 2017. The Manager is paid Fixed Operating Expenses ("FOE") out of the assets of the Funds as detailed hereunder. The Manager pays a range of fees from the FOE, including administrator's fees, depositary's fees, audit fees, Directors' fees and other expenses. Please refer to the Statement of Comprehensive Income for the amounts charged and the Statement of Financial Position for the amounts payable by the Manager for the financial years ended 31 October 2020 and 31 October 2019.

#### Fixed Operating Expenses ("FOE")

The FOE rates as a percentage of the NAV of the relevant Class of each Fund are detailed hereunder:

#### **Investment Manager**

Insight Investment Funds Management Limited is the Investment Manager to the Company and as at financial years ended 31 October 2020 and 31 October 2019 held shares in the following Funds:

	Shares	s held
Fund	31/10/2020	31/10/2019
Absolute Insight Equity Market Neutral Fund	8,369	8,369
Absolute Insight Currency Fund	8,500	8,500
Absolute Insight Emerging Market Debt Fund	4,000	4,000
Absolute Insight Credit Fund	10,000	10,000
Absolute Insight Dynamic Opportunities Fund	2,000	2,000

#### **Investment Management fees**

In relation to the various Class A and Class B Shares, the Investment Manager is entitled to charge a fee calculated as a percentage of the Net Asset Value of the relevant Class as set out in the table below. These fees are accrued and calculated on each Dealing Day and are payable monthly in arrears.

For all Funds except Insight Broad Opportunities Fund:

Class Ap Sterling/Euro/Dollar/SEK/Swiss Franc Class Ap2 Euro Class B1p Sterling/Euro/Dollar Class B1p2 Sterling/Euro/Dollar Class B2p Sterling/Euro/Dollar/Yen/Swiss Franc Class B2p2 Sterling/Euro/Dollar Class B3p Sterling/Euro/Dollar Class B3p Income Sterling Class B4p Sterling/Euro/Dollar	1.50% 1.50% 1.00% 1.00% 0.85% 0.85% 0.85% 0.75% 0.75% 0.65%
Class B4p Sterling/Euro/Dollar	0.65%

# Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

## 11. Related parties (continued)

Investment Management fees (continued)

For Insight Broad Opportunities Fund:

Class A Sterling Class A1 Dollar	0.85% 1.50%
Class B1 Sterling/Euro/Dollar/Yen/Swiss Franc	0.50%
Class B1p Sterling/Euro/Dollar/Yen/Swiss Franc	0.30%

No Investment Management fee is payable by the Company in respect of the Class S Shares.

Refer to the Statement of Comprehensive Income for the amounts charged and the Statement of Financial Position for the amounts payable for the financial years ended 31 October 2020 and 31 October 2019.

### Performance fees

The Investment Manager is entitled to receive a performance-related Investment Management fee (the "Performance Fee") payable in arrears in respect of each performance period. A Performance Fee of 10% of the excess of the NAV per share at the end of a performance period over the target NAV per share is payable in respect of the net assets attributable to the various Class Ap, Class B1p, Class B2p, Class B3p and Class B4p Shares.

Refer to the Statement of Comprehensive Income for the performance fees charged for the financial years ended 31 October 2020 and 31 October 2019.

The following performance fees were payable as at 31 October 2020 and 31 October 2019:

2020 2019	Absolute Insight Equity Market Neutral Fund GBP '000 -	Absolute Insight Currency Fund GBP '000 -	Absolute Insight Emerging Market Debt Fund USD '000 1 66	Absolute Insight Credit Fund GBP '000 -
2020 2019		Insight Broad Opportunities Fund GBP '000 - 237	Absolute Insight Dynamic Opportunities Fund GBP '000	Combined Total GBP '000 1 288

The Performance Fee is calculated for each individual share in issue at the end of the Performance Period (as defined below), and the total fee payable for a particular share class is the sum of all such individual calculations relating to that share class.

The Performance Fee in respect of a particular share in issue becomes due in the event that both of the conditions below are met:

- the percentage growth in the NAV per share over the Performance Period exceeds a target rate of growth being, the Hurdle Rate applicable to that particular share (as defined below), over the same period; and
- the NAV per share at the end of the Performance Period exceeds the High Water Mark for that particular share being the highest NAV per share at the end of any previous Performance Periods for the particular share (or the issue price where the share was issued in the current Performance Period).

# Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

# 11. Related parties (continued)

### Performance fees (continued)

The Performance Period shall normally run from 1 January to 31 December the following year but, in the case of the initial issue of shares in each class, the first performance period will run from the date of issue to the following 31 December. In the case of a redemption of shares, the Performance Period in respect of those shares will end on the redemption date of the shares, and a Performance Fee will become due and be payable within one month.

With effect from 1 January 2019, the Performance Fee for each relevant share class is equal to 10% of the excess of the NAV per share at the end of a Performance Period over the target NAV per share. The target NAV per share is equal to the NAV per share at the end of the previous Performance Period (or the issue price where the share was issued in the current Performance Period) multiplied by the Hurdle Rate +1, or the High Water Mark for the particular share, which ever is the greater. The Performance Fee is payable one month after the end of the Performance Period.

On a redemption of shares, the redemption will be attributed to existing shares in issue in order to determine which particular shares are being redeemed on a reasonable and fair basis as agreed with the Depositary. The total Performance Fee payable will be the Performance Fee calculated as above attributable to the shares being redeemed on the same basis.

The Hurdle Rate for the Euro shares will be the 3-month EURIBID defined as 3-month EURIBOR (Euro Interbank Offered Rate as determined by the European Banking Federation), minus 0.1%.

The Hurdle Rate for the GBP shares will be the 3-month LIBID defined as 3-month LIBOR (London Interbank Offered Rate as determined by the British Banker's Association), minus 0.125%.

The Hurdle Rate for the USD shares will be the 3-month US LIBID defined as 3-month US LIBOR (US Dollar London Interbank Offered Rate as determined by the European Banking Federation), minus 0.1%.

The Hurdle Rate for the JPY shares will be the 3-month JPY LIBID defined as 3-month JPY LIBOR (Japanese Yen London Interbank Offered Rate as determined by the British Banker's Association), minus 0.1%.

The Hurdle Rate for SEK shares will be the 3-month STIBOR (Stockholm Interbank Offer Rate as determined by the Swedish Banker's Association) minus 0.125%.

The Hurdle Rate for the CHF shares will be the 3-month CHF LIBID is defined as 3-month CHF LIBOR (Swiss Franc London Interbank Offer Rate as determined by the ICE Benchmark Administration (ICE)) minus 0.1%.

No Performance Fee is payable by the Company in respect of the class S shares, or in respect of the class B1 shares of Insight Broad Opportunities Fund.

#### **Directors' fees**

Those Directors who are Directors, partners, officers or employees of the Investment Manager or the Sub-Investment Manager or any affiliate thereof are entitled, but have waived their right, to remuneration from the Company for their services as Directors. It is accordingly expected that in the accounting year ending 31 October 2020, Directors' remuneration should not exceed  $\in$ 75,000. The Directors will be entitled to be reimbursed for their reasonable and vouched out-of-pocket expenses incurred in discharging their duties as Directors.

Directors' fees are included in the FOE, as detailed in notes 3 and 11.

The total Directors' fees incurred by the Company, and included in the FOE for the financial year ended 31 October 2020 were GBP 42,291 (2019: GBP 41,958) of which GBP 3,597 (2019: GBP Nil) was outstanding at the financial year end.

### Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

#### 12. Other significant fees

#### Administrator fee

The Administrator shall be entitled to receive out of the net assets of each Fund an annual fee charged at commercial rates as may be agreed from time to time up to a maximum fee of 1% of the Net Asset Value of each Fund, accrued and calculated on each Dealing Day and payable monthly in arrears. The Administrator is entitled to be repaid all of its reasonable expenses agreed upon transaction and other charges (which will be at normal commercial rates) and other out-of-pocket expenses out of the assets of the Fund.

The Administrator fees are included in the FOE, as detailed in notes 3 and 11.

#### **Depositary fee**

The Depositary shall be entitled to receive out of the net assets of each Fund an annual fee charged at commercial rates as may be agreed from time to time up to a maximum fee of 0.5% of the Net Asset Value of each Fund accrued and calculated on each Dealing Day and payable monthly in arrears (plus VAT thereon, if any). The Depositary is also entitled to Sub-Custodian's fees which will be charged at normal commercial rates together with agreed upon transaction charges (which will be at normal commercial rates) and other out-of-pocket expenses out of the assets of the Fund.

The Depositary fees are included in the FOE, as detailed in notes 3 and 11.

#### **Auditor's Remuneration**

The total amounts earned by the statutory auditors, KPMG Ireland, for provision of services to the Company were (excluding VAT and including out of pocket expenses):

	2020	2019
	GBP	GBP
	<b>'000</b> '	<b>'000</b> '
Statutory audit of Funds' financial statements	93	83
Other assurance services	nil	nil
Tax advisory services	8	8
Other non-audit services	nil	nil

The Auditor fees are included in the FOE, as detailed in notes 3 and 11.

#### **Transaction costs**

During the financial years ended 31 October 2020 and 31 October 2019, the Funds incurred transaction costs in the purchase and sale of investments as follows:

	2020		2019		
		'000	<b>'000</b> '		
Absolute Insight Equity Market Neutral Fund	GBP	129	GBP 90

### Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

### 14. Efficient Portfolio Management

A Fund may engage in derivative instruments transactions for investment purposes or for the purposes of the efficient portfolio management. The term "efficient portfolio management" refers to transactions that are entered into with the aim of reducing risk, reducing cost or generating additional capital for the Fund with an appropriate level of risk, taking into account the risk profile of the Fund as described in the relevant Supplement. The Funds may also engage in over the counter derivative transactions.

The Absolute Insight Equity Market Neutral Fund, the Absolute Insight Emerging Market Debt Fund, the Absolute Insight Credit Fund, the Insight Broad Opportunities Fund and the Absolute Insight Dynamic Opportunities Fund enter into forward foreign currency exchange contracts for efficient portfolio management purposes both from a portfolio and share class hedging perspective. The Absolute Insight Currency Fund enters into forward foreign currency exchange contracts for efficient purposes from a share class hedging perspective.

The gains/(losses) associated with each financial derivative instrument are disclosed in note 5. Net gains/(losses) on financial assets and liabilities. The schedule of investments for each Fund provides details of any open financial derivative instruments contracts as at 31 October 2020 together with the unrealised gain/(loss) and the counterparty associated with each position. Details of any collateral received by the Funds from counterparties in respect of open financial derivative contracts held by the Funds are disclosed at the base of the relevant Schedule of Investments. The Company recognises financial assets and financial liabilities held for trading on the date it commits to purchase or sell short the instruments. From this date any gains and losses arising from changes in fair value of the assets or liabilities are recognised.

### **Derivatives Risk**

Derivatives (such as swaps) are highly specialised instruments that require investment techniques and risk analysis different from those associated with equities and debt securities. The use of a derivative requires an understanding not only of the underlying instrument but also of the derivative itself. In particular, the use and complexity of derivatives require the maintenance of adequate controls to monitor the transactions entered into and the ability to assess the risk that a derivative transaction adds to a portfolio. There can be no guarantee or assurance that the use of derivatives will meet or assist in meeting the investment objectives of a Fund. When engaging in derivative transactions the brokers or counterparties to such transactions will be credit institutions with a minimum credit rating from a recognised rating agency, as described in the Prospectus.

As at 31 October 2020 and 31 October 2019, the counterparties to the derivative instruments and providers of collateral were all rated above the minimum required rating.

### Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

### 15. Closing exchange rates

The relevant exchange rates to GBP as at 31 October 2020 and 31 October 2019 were:

<b>Currency</b> Australian Dollar	<b>31 October 2020</b> 1.843	<b>31 October 2019</b> 1.880

#### 18. Significant events during the financial year

#### COVID-19 Developments

The outbreak of the coronavirus since the start of January 2020 has had a material impact on global financial markets and economic stability. The Management Company is following the guidance of the authorities in each relevant region, with colleagues working remotely where required. In accordance with the flexible working policy, team members are equipped with the technology and support to work remotely. All core processes can be undertaken remotely, and the IT infrastructure can support large-scale remote working in the event of disruption. The dealers have the technology to support remote working, as do the investment teams. The remote-working technologies have been designed and deployed in a way that replicates the same key system controls that are operational in the office environment. The ongoing oversight of outsourced arrangements includes a periodic review of the outsourcer's business-continuity processes. The Board is currently satisfied with the plans of all of key providers, and continue to monitor developments closely.

#### Share Class launch

Class A1 US Dollar of Insight Broad Opportunities Fund launched on 6 March 2020.

### Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

### 18. Significant events during the financial year (continued)

#### Absolute Insight Emerging Market Debt Fund's Supplement to the Prospectus

On 30 April 2020, a revised Absolute Insight Emerging Market Debt Fund Supplement to the Prospectus was noted by the Central Bank of Ireland. The "Use of Financial Derivative Instruments" section was updated to reflect a change in the measurement of derivative exposure from a commitment approach to a Value-at-Risk ("VaR") methodology and to disclose the maximum level of leverage based on the sum of notionals of the derivatives used (as disclosed below). The changes do not affect the Fund's investment policy, its investment management or its risk profile.

"As a result of its use of financial derivative instruments, the Fund may leverage its positions to generate a notional exposure in excess of the Net Asset Value of the Fund. The VaR methodology is an advanced risk measurement methodology which attempts to predict, using historical data, the likely scale of losses that might be expected to occur over a given period of time. The Fund intends to apply a limit on the VaR of the Fund (Absolute VaR limit) which will not exceed 3% of the Net Asset Value of the Fund. The VaR for the Fund will be calculated daily using a one-tailed 99% confidence level, one week (5 days) holding period and calculated on an historic basis using at least 1 year of daily returns, which means that statistically there is a 1% chance that the losses actually incurred over any one week period could exceed 3% of the Fund's Net Asset Value. This holding period and historical observation period may change provided always that they are in accordance with the requirements of the Central Bank.

VaR methods rely on a number of assumptions about the forecasting of investment markets and the ability to draw inferences about the future behaviour of market prices from historical movements. If those assumptions are incorrect by any significant degree, the size and frequency of losses actually incurred in the investment portfolio may considerably exceed those predicted by a VaR model (and even a small degree of inaccuracy in the forecasting models used can produce large deviations in the forecast produced). VaR does enable a comparison of risks across asset classes and serves as an indicator to a portfolio manager of the investment risk in a portfolio. If used in this way, and with an eye to the limitations of VaR methods and the particular model chosen, it can act as a signal to the Sub-Investment Manager of an increase in the general level of risk in a portfolio and as a trigger for corrective action by the Sub-Investment Manager. The measurement and monitoring of all exposures relating to the use of derivative instruments will be performed on at least a daily basis.

The requirements of the European Securities and Markets Authority ("ESMA") and the Central Bank prescribe in detail disclosures which need to be made in respect of leverage. Although the VaR methodology as described above is used to control and assess the Fund's exposures, the Fund also calculates leverage based on the sum of the notionals of the derivatives used as is required by the Central Bank. The maximum level of leverage for the Fund arising from the use of FDIs calculated on this basis is expected to vary between 0% and 1000% of the Net Asset Value, although it may exceed this target level at times. This measure of leverage can be high as it includes positions implemented to adjust existing positions as a result of market movements or subscription/redemption activity and it does not take into account any netting or hedging arrangements even though such arrangements are entered into for the purposes of risk reduction."

#### Change of Secretary of the Company and Manager

On 4 September 2020, the Secretary to the Company and Manager changed to:

Insight Investment Management (Europe) Limited Riverside Two, Sir John Rogerson's Quay Dublin D02 KV60 Ireland

*Change of address of registered office of the Company and of the Manager* On 4 September 2020, the address of the registered office of the Company and of the Manager changed to:

Riverside Two, Sir John Rogerson's Quay Dublin D02 KV60 Ireland

### Notes forming part of the Financial Statements

for the financial year ended 31 October 2020 (continued)

### 19. Subsequent events

#### Termination of the Absolute Insight Equity Market Neutral Fund

On 22 October 2020, the Directors of the Company wrote to Shareholders of the Absolute Insight Equity Market Neutral Fund to give notice of their decision to terminate the Fund.

The Directors determined that due to a reduction in the net asset value of the Fund it was no longer possible to manage the Fund in an efficient manner. Accordingly, the Directors determined to terminate the Fund with effect from 26 October 2020 (the "Termination Date"). The Directors provided a notice period from termination date to the Fund's closure date, 24 November 2020, during which time investors could subscribe for and repurchase shares in the Fund.

#### Brexit

A Brexit deal was agreed between the United Kingdom and the EU on 24 December 2020, with some aspects remaining under discussion. The potential impact of this agreement to the Company is discussed in the Directors' report.

On 3 December 2020, Charles Farquharson resigned as a Director of the Company.

On 14 January 2021, Lee Hutson-Pope was appointed a Director of the Company.

There were no other significant events after the Statement of Financial Position date, up to the date of signing of the Financial Statements that would require disclosure.

### 20. Financial statement approval

The financial statements were approved by the Board on 18 February 2021.

### **Unaudited Appendices - Appendix 1**

for the financial year ended 31 October 2020

### 1. Soft commissions

The Investment Manager is satisfied that there have been no soft commissions during the financial years ended 31 October 2020 and 31 October 2019.

### **Unaudited Appendices - Appendix 2**

for the financial year ended 31 October 2020

### **Remuneration Disclosure**

Insight Investment Funds Management Limited ("IIFML") act as a delegate and Insight Investment Management (Global) Limited ("IIM(G)L") act as a sub-delegate for investment management purposes. Further details of delegation can be found in the fund prospectus document. The delegated entities, IIFML and IIM(G)L sit within a consolidated group, BNY Mellon Investment Management Europe Holdings Limited ("IMEH"). Remuneration disclosures are made by IMEH as part of its annual Pillar 3 Disclosure.

This Pillar 3 disclosure relates to BNY Mellon Investment Management Europe Holdings Limited ("IMEH") – a holding company for BNY Mellon EMEA based investment management firms, and is published in accordance with the requirements of the Financial Conduct Authority ("FCA") Prudential Sourcebook for Banks, Building Societies and Investment Firms, BIPRU 11 (Pillar 3). Pillar 3 disclosures are made annually in respect of the consolidation group headed by IMEH.

The FCA's BiPRU Remuneration Code requires both quantitative and qualitative remuneration disclosures which can be found in the IMEH Pillar 3 report. For information the aggregate remuneration paid to Code Staff under BIPRU in respect of 2019 was £89,446,000. Further details on the remuneration approach for IIFML and IIM(G)L as part of the IMEH consolidated group, can be found in the Pillar 3 report which is updated annually and can be found here: https://www.bnymellon.com/content/dam/bnymellon/documents/pdf/investor-relations/bny-mellon-investment-management-europe-holdings-limited-pillar-3-disclosure-2019.pdf. This document is updated annually in accordance with regulatory requirements.

As noted in the Pillar 3 disclosure IIFML and IIM(G)L have delegated responsibility from IMEH for remuneration matters. They are responsible for remuneration policy decisions and the approval of year-end compensation awards for respective regulated staff members. A Remuneration Committee is in operation to approve compensation awards to employees.

### **Unaudited Appendices - Appendix 3**

for the financial year ended 31 October 2020

### Securities Financing Transactions Regulation

Article 13 of Regulation (EU) 2015/2365 on transparency of securities financing transactions (SFTs) and of reuse and amending Regulation (EU) No 648/2012, requires UCITS investment companies to provide the following information in their annual and semi-annual reports published after 13 January 2017, on the use made of SFTs and Total Return Swaps (TRSs).

For the financial year ended 31 October 2020, there were no SFTs to report, only Contracts for Difference ("CFD") held on the Absolute Insight Equity Market Neutral Fund and TRSs held on the Absolute Insight Emerging Market Debt Fund, which are in scope for this SFT regulation.

### Fund Name: Absolute Insight Equity Market Neutral Fund
