PRESIDENT'S LETTER

December 31, 2019 (unaudited)

Dear Shareholders:

The story for 2019 was simple and familiar—slower economic growth was combated by expansive monetary policy.

But first a comment on global growth: the two engines of the global economy, the U.S. and China, continue to move forward and we now have the prospect of at least some resolution of the trade dispute between them in the phase-one agreement. The latest economic statistics from China are steady and there are signs of "green shoots." China's services sector is expanding robustly and manufacturing is struggling, but not collapsing. My blog, *China's Economic Growth: Continuing Despite Headlines*, shows this in two charts.

The biggest event in the markets last summer was the surge in bonds in Europe with negative interest rates. At the end of September, nearly \$15 trillion worth of debt globally carried a negative yield.¹ Despite moves by the European Central Bank to stimulate, not only is the European economy slowing down, but there are also concerns about just how effective central bank actions are. Looking forward, therefore, I think investors should assess their hedge against central bank uncertainty by considering, for example, their gold allocations. While high interest rate environments tend to be tough for gold (it does not pay any yield), against negative interest rates, gold and other hedges against central bank impotence should be strongly considered.

We encourage you to stay in touch with us through the videos, email subscriptions and research blogs available on our website, www.vaneck.com. I have started my own email subscription where I share interesting research—you can sign up on www.vaneck.com. Should you have any questions regarding fund performance, please contact us at 800.826.2333 or visit our website.

We sincerely thank you for investing in VanEck's investment strategies. On the following pages, you will find a performance discussion and financial statements for each of the funds for the twelve month period ended December 31, 2019. As always, we value your continued confidence in us and look forward to helping you meet your investment goals in the future.

Jan F. van Eck CEO and President VanEck Vectors ETF Trust

January 24, 2020

Investing involves substantial risk and high volatility, including possible loss of principal. An investor should consider the investment objective, risks, charges and expenses of the Funds carefully before investing. To obtain a prospectus and summary prospectus, which contain this and other information, call 800.826.2333 or visit vaneck.com. Please read the prospectus and summary prospectus carefully before investing.

VANECK VECTORS ETFs

MANAGEMENT DISCUSSION

December 31, 2019 (unaudited)

Africa

The materials sector, followed by the financial and communication services sectors, were the three greatest contributors to the performance of VanEck Vectors Africa Index ETF, which returned 8.52% for the 12 month period. The consumer discretionary sector detracted the most from performance. Geographically, companies in Kenya, followed by those in South Africa (with the largest average country weighting during the year), were the two largest contributors to performance. A German domiciled company which derives the majority of its revenues across Africa was the largest detractor, followed by companies in Nigeria and Ghana.

Brazil

Following the swearing in of President Jair Bolsonaro on January 1, during 2019 the VanEck Vectors Brazil Small-Cap ETF benefited from not only optimism on the political front, but also a more business-friendly legislative agenda. Consequently, its performance was the reverse of that in 2018 and the Fund returned 40.81% over the 12 month period under review.

Building on a robust first six months of the year, in the third quarter, the country's economy expanded at its fastest pace since the start of 2018. With the country appearing "to be leaving behind years of sluggish growth that followed its worst recession on record."

The utilities and consumer discretionary sectors, with the two largest average sector weightings during the year, were the two largest positive contributors to performance. Only a single sector, communication services, detracted from performance, and then only minimally.

China

After their negative performances in 2018, the two VanEck Vectors China-focused ETFs reported double digit gains in 2019, with VanEck Vectors ChinaAMC CSI 300 ETF and VanEck Vectors ChinaAMC SME-ChiNext ETF returning 35.40% and 42.80%, respectively. Over the course of the year, despite a slowing economy and the continuing trade war between China and the U.S., Chinese asset prices continued to rise, not least as a result of stimulative monetary policies implemented by the People's Bank of China to address growth concerns.

VanEck Vectors ChinaAMC SME-ChiNext ETF seeks to provide exposure not only to China's market for innovative, non-government owned companies, but also to the sectors that are increasingly underpinning the growth of China's "New Economy". The information technology sector, with the largest average sector weighting during the year, was the greatest contributor to performance. Only the utilities sector, comprising two companies, detracted from performance. While all sectors contributed positively to the performance of VanEck Vectors ChinaAMC CSI 300 ETF, financial companies contributed the most to returns and utilities the least.

Egypt

VanEck Vectors Egypt Index ETF gained 5.42% in 2019. The World Bank increased slightly its estimate of gross domestic product (GDP) growth for the country in its last fiscal year (which ended June 30, 2019), from 5.3% to 5.6%. Drivers of growth have been the construction, gas, real estate, tourism and wholesale and retail trade sectors.²

According to the World Bank: "Egypt is sustaining its robust growth, fiscal outturns are improving, and external accounts are stabilizing at broadly favorable levels. Inflation receded significantly, paving the way for monetary easing." However, according to the preliminary GDP release, economic growth in the first quarter of the new (2020) fiscal year (i.e., third quarter 2019), slowed marginally and in November, the HIS Markit Egypt Purchasing Managers' Index declined, for the fourth consecutive month, to 47.9. This is its lowest since September 2017.

The top three performing sectors were financials, communication services and materials. Only the energy and industrial sectors detracted from performance. Both mid- and large-cap companies contributed positively to returns, while small-cap companies, with the largest average weighting during the period under review, detracted from performance.

India

The VanEck Vectors India Small-Cap Index ETF posted a negative total return for the year of 21.65%. Economic growth in India continued to fall throughout 2019. In the second quarter of the country's new fiscal year (July-September), annual economic growth slowed (for the sixth consecutive quarter) to 4.5%, its weakest pace since 2013.6 This compared to 7% growth in the same quarter of 2018 and 5% in the previous quarter.7

With the Sensex index of stocks quoted on the Bombay Stock Exchange trading at "multiples higher than the S&P 500," stocks were proving expensive not only to foreign investors, but also domestically. Other headwinds included both continuing concern about the liquidity of the country's banking system and the fact that, by December, consumer confidence in India was at its lowest level since 2014.

Two sectors contributed positively to performance: healthcare and information technology. Companies in the financial sector, together with those in the industrial and consumer discretionary sectors, were the greatest detractors from performance.

Indonesia

The VanEck Vectors Indonesia Index ETF returned 5.97% in 2019. While Indonesia's economic growth rate in 2018 was 5.17%, at a press conference on December 19, 2019, Indonesia's vice finance minister, Suahasil Nazara said that the country's economic growth was seen at 5.05%–5.06% in 2019. This rate would mark the first slowdown in four years. The country has, however, been able to avoid much of the fallout from the U.S./China trade war because the majority of its economic growth has been driven by the performance of household consumption. The country has been driven by the performance of household consumption.

The greatest positive contributions to returns came from three sectors: financial, materials and communication services. The greatest negative contributions to returns also came from three sectors: consumer discretionary, consumer staples and energy.

Israel

The VanEck Vectors Israel ETF returned 26.64% for the 12 months period under review, a reversal from its poor performance in 2018. According to the country's Central Bureau for Statistics, in the third quarter GDP increased at an annual rate of 4.1%, following a second quarter in which it grew at only 0.8%. At 2.1%, GDP per capita also recovered, after falling 0.9% in the previous quarter.

Unfortunately, however, the figure of 4.1% for GDP growth rested on a single parameter: new car purchases. If the influence of car purchases is "neutralized," then "... the picture that remains is not all that favorable." As November came to a close, however, there was some good news to be found in the country's export figures. With goods and services exports standing at \$84 billion over the first nine months of 2019 (a 4.6% increase on the figure for January–September 2018), according to government data, Israeli exports, led by high tech, were expected to hit a record of \$114 billion in 2019.¹³

Over the period under review, the performances of three sectors, information technology, financial and real estate, produced the majority of positive contributions to returns. Only two sectors detracted from performance, and then only minimally: communication services and materials. Mid-cap companies, followed by large- then small-cap companies, made the greatest positive contribution to returns.

Russia

2019 was a good year for the VanEck Vectors Russia Small-Cap ETF and, even more so, for its peer investing in larger-cap Russian stocks, the VanEck Vectors Russia ETF. The former ETF returned 36.17% for the year, while the latter returned 40.40% over the same period.

Despite disappointing growth during 2019, unlikely to exceed 1.3%,¹⁴ the good news was the fall in inflation, which was, once again, below the central bank's target of 4%. Estimates are that 2020 will see improved economic growth of 1.6%.¹⁵

VANECK VECTORS ETFs

MANAGEMENT DISCUSSION (unaudited) (continued)

The energy sector was by far the most significant contributor to performance of the VanEck Vectors Russia ETF. The financial and materials sectors also contributed strongly to positive performance. While no sector detracted from performance, the utilities sector contributed the least. For the VanEck Vectors Russia Small-Cap ETF, the utilities and consumer staples sectors were the most significant contributors to positive returns. While no sector provided negative returns, the energy sector contributed the least.

Vietnam

VanEck Vectors Vietnam ETF gained 8.86% in 2019. Despite the unresolved trade tensions between the U.S. and China during the year, Vietnam's export and industrial production performance surprised to the upside during the year. ¹⁶ Many companies continue to look to shift their manufacturing operations to the country not only because of favorable wage levels, but also because of labor availability. ¹⁷

According to the country's General Statistics office, economic growth over the first nine months of 2019 was driven by manufacturing, followed by services. ¹⁸ Up 7.31% from 2018, GDP growth in the fourth quarter beat a revised figure of 6.73% in the second quarter. For the first three quarters of the year through September, the growth figure was 6.98%. ¹⁹

Large-cap companies contributed the most to performance over the reporting period, outperforming the positive returns of mid- and small-cap companies. Three sectors contributed the majority of positive returns: information technology, healthcare and real estate. The utilities and consumer staples sectors were the greatest detractors from performance.

* Returns based on the funds' net asset values (NAVs).

The principal risks of investing in VanEck Vectors ETFs include sector, market, economic, political, foreign currency, world event, index tracking and non-diversification risks, as well as fluctuations in net asset value and the risks associated with investing in less developed capital markets. The Funds may loan their securities, which may subject them to additional credit and counterparty risk. Please see the prospectus of each Fund for more complete information regarding each Fund's specific risks.

VANECK VECTORS ETF TRUST

ABOUT FUND PERFORMANCE

(unaudited)

The price used to calculate market return (Share Price) is determined by using the closing price listed on its primary listing exchange. Since the shares of each Fund did not trade in the secondary market until after each Fund's commencement, for the period from commencement to the first day of secondary market trading in shares of each Fund, the NAV of each Fund is used as a proxy for the secondary market trading price to calculate market returns.

The performance data quoted represents past performance. Past performance is not a guarantee of future results. Performance information for each Fund may reflect temporary waivers of expenses and/or fees. Had each Fund incurred all expenses, investment returns would have been reduced. These returns do not reflect the deduction of taxes that a shareholder would pay on Fund dividends and distributions or the sale of Fund shares.

Investment return and value of the shares of each Fund will fluctuate so that an investor's shares, when sold, may be worth more or less than their original cost. Performance may be lower or higher than performance data quoted. Fund returns reflect reinvestment of dividends and capital gains distributions. Performance current to the most recent month-end is available by calling 800.826.2333 or by visiting vaneck.com.

Fund shares are not individually redeemable and will be issued and redeemed at their NAV only through certain authorized broker-dealers in large, specified blocks of shares called "creation units" and otherwise can be bought and sold only through exchange trading. Shares may trade at a premium or discount to their NAV in the secondary market.

The net asset value (NAV) of each VanEck Vectors exchange-traded fund (ETF) is determined at the close of each business day, and represents the dollar value of one share of each fund; it is calculated by taking the total assets of each fund, subtracting total liabilities, and dividing by the total number of shares outstanding. The NAVs are not necessarily the same as each ETF's intraday trading value. VanEck Vectors ETF investors should not expect to buy or sell fund shares at NAV.

Index returns assume the reinvestment of all income and do not reflect any management fees or brokerage expenses associated with Fund returns. Certain indices may take into account withholding taxes. Investors cannot invest directly in the Index. Returns for actual Fund investors may differ from what is shown because of differences in timing, the amount invested and fees and expenses.

The Africa Index, Brazil Small-Cap Index, Egypt Index, India Small-Cap Index, Indonesia Index, Russia Index, Russia Small-Cap Index, and Vietnam Index are published by MV Index Solutions GmbH (MVIS®), which is a wholly owned subsidiary of the Adviser, Van Eck Associates Corporation. The CSI 300 Index is published by China Securities Index Co., Ltd. (China Securities) and the SME-ChiNext Index is published by the Shenzhen Securities Information Co., Ltd. (Shenzhen Securities), which is a subsidiary of the Shenzhen Stock Exchange. The Israel Index is published by BlueStar Global Investors, LLC (BlueStar).

BlueStar, China Securities, MVIS, and Shenzhen Securities are "Index Providers." The Index Providers do not sponsor, endorse, or promote the Funds and bear no liability with respect to the Funds or any security.

Premium/discount information regarding how often the closing trading price of the Shares of each Fund were above (i.e., at a premium) or below (i.e., at a discount) the NAV of the Fund for each of the four previous calendar quarters and the immediately preceding five years (if applicable) can be found at vaneck.com.

VANECK VECTORS ETF TRUST

EXPLANATION OF EXPENSES

(unaudited)

Hypothetical \$1,000 investment at beginning of period

As a shareholder of a Fund, you incur operating expenses, including management fees and other Fund expenses. This disclosure is intended to help you understand the ongoing costs (in dollars) of investing in your Fund and to compare these costs with the ongoing costs of investing in other mutual funds.

The disclosure is based on an investment of \$1,000 invested at the beginning of the period and held for the entire period, July 1, 2019 to December 31, 2019.

Actual Expenses

The first line in the table below provides information about account values and actual expenses. You may use the information in this line, together with the amount you invested, to estimate the expenses that you paid over the period. Simply divide your account value by \$1,000 (for example, an \$8,600 account value divided by \$1,000 = 8.6), then multiply the result by the number in the first line under the heading entitled "Expenses Paid During the Period."

Hypothetical Example for Comparison Purposes

The second line in the table below provides information about hypothetical account values and hypothetical expenses based on the Fund's actual expense ratio and an assumed rate of return of 5% per year before expenses, which is not the Fund's actual return. The hypothetical account values and expenses may not be used to estimate the actual ending account balance or expenses you paid for the period. You may use this information to compare the ongoing costs of investing in your Fund and other funds. To do so, compare this 5% hypothetical example with the 5% hypothetical examples that appear in the shareholder reports of other funds.

Please note that the expenses shown in the table are meant to highlight your ongoing costs only and do not reflect any transactional costs, such as brokerage commissions paid on purchases and sales. Therefore, the second line of the table is useful in comparing ongoing costs only, and will not help you determine the relative costs of owning different funds. In addition, if these transactional costs were included, your costs would have been higher.

| | Beginning Account Value July 1, 2019 | Ending Account Value December 31, 2019 | Annualized Expense Ratio During Period | Expenses Paid During the Period* July 1, 2019 — December 31, 2019 |

| Portfolio turnover rate (c) | 38% | 45% | 53% | 44% | 57% | |

⁽a) Calculated based upon average shares outstanding

⁽b) Total return is calculated assuming an initial investment made at the net asset value at the beginning of year, reinvestment of any dividends and distributions at net asset value on the dividend/distributions payment date and a redemption at the net asset value on the last day of the year. The return does not reflect the deduction of taxes that a shareholder would pay on Fund dividends/distributions or the redemption of Fund shares.

⁽c) Portfolio turnover rates exclude securities received or delivered as a result of processing in-kind capital share transactions.

⁽d) Excludes reimbursement from prior year custodial charge of 0.01%.

⁽e) For the year ended December 31, 2019, 0.55% of total return, representing \$0.11 per share, consisted of a payment from the Adviser in connection with a reimbursement for an investment loss (See Note 3).

NOTES TO FINANCIAL STATEMENTS

December 31, 2019

Note 1 – Fund Organization – VanEck Vectors ETF Trust (the "Trust") is registered under the Investment Company Act of 1940, as amended, as an open-end management investment company. The Trust was incorporated in Delaware as a statutory trust on March 15, 2001. The Trust operates as a series fund, and offers multiple investment portfolios, each of which represents a separate series of the Trust. These financial statements relate only to the investment portfolios listed in the diversification table below (each a "Fund" and, collectively, the "Funds").

Each Fund was created to provide investors with the opportunity to purchase a security representing a proportionate undivided interest in a portfolio of securities consisting of substantially all of the common stocks in substantially the same weighting as their index.

China Asset Management (Hong Kong) Limited (the "Sub-Adviser") is the sub-adviser to ChinaAMC CSI 300 ETF and ChinaAMC SME-ChiNext ETF. ChinaAMC CSI 300 ETF and ChinaAMC SME-ChiNext ETF seek to achieve their investment objectives by primarily investing directly in A-shares through the Hong Kong-Shanghai Stock Connect program and via the A-share quota granted to the Sub-Adviser. India Small-Cap Index ETF makes its investments through the MV SCIF Mauritius (the "Subsidiary"), a wholly owned subsidiary organized in the Republic of Mauritius.

Note 2—Significant Accounting Policies—The preparation of financial statements in conformity with U.S. generally accepted accounting principles ("GAAP") requires management to make estimates and assumptions that affect the reported amounts and disclosures in the financial statements. Actual results could differ from those estimates.

The Funds are investment companies and follow accounting and reporting requirements of Accounting Standards Codification ("ASC") 946 *Financial Services—Investment Companies*.

The following summarizes the Funds' significant accounting policies.

A. Security Valuation - The Funds value their investments in securities and other assets and liabilities at fair value daily. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants on the measurement date. Securities traded on the NASDAQ Stock Market LLC ("NASDAQ") are valued at the NASDAQ official closing price. Securities traded on national exchanges are valued at the closing price on the markets in which the securities trade. Over-the-counter securities not included on NASDAQ and listed securities for which no sale was reported are valued at the mean of the bid and ask prices. To the extent these securities are actively traded they are categorized as Level 1 in the fair value hierarchy (described below). Certain foreign securities, whose values may be affected by market direction or events occurring before the Funds' pricing time (4:00 p.m. Eastern Standard Time) but after the last close of the securities' primary market, are fair valued using a pricing service and are categorized as Level 2 in the fair value hierarchy. The pricing service, using methods approved by the Board of Trustees, considers the correlation of the trading patterns of the foreign security to intraday trading in the U.S. markets, based on indices of domestic securities and other appropriate indicators such as prices of relevant ADR's and futures contracts. The Funds may also fair value securities in other situations, such as, when a particular foreign market is closed but the Fund is open. Short-term debt securities with sixty days or less to maturity are valued at amortized cost, which with accrued interest approximates fair value. Money market fund investments are valued at net asset value and are considered to be Level 1 in the fair value hierarchy. The Pricing Committee of Van Eck Associates Corporation (the "Adviser") provides oversight of the Funds' valuation policies and procedures, which are approved by the Funds' Board of Trustees. Among other things, these

NOTES TO FINANCIAL STATEMENTS

(continued)

procedures allow the Funds to utilize independent pricing services, quotations from securities dealers, and other market sources to determine fair value. The Pricing Committee convenes regularly to review the fair value of financial instruments or other assets. If market quotations for a security or other asset are not readily available, or if the Adviser believes they do not otherwise reflect the fair value of a security or asset, the security or asset will be fair valued by the Pricing Committee in accordance with the Funds' valuation policies and procedures. The Pricing Committee employs various methods for calibrating the valuation approaches utilized to determine fair value, including a regular review of key inputs and assumptions, periodic comparisons to valuations provided by other independent pricing services, transactional back-testing and disposition analysis.

Certain factors such as economic conditions, political events, market trends, the nature of and duration of any restrictions on disposition, trading in similar securities of the issuer or comparable issuers and other security specific information are used to determine the fair value of these securities. Depending on the relative significance of valuation inputs, these securities may be classified either as Level 2 or Level 3 in the fair value hierarchy. The price which the Funds may realize upon sale of an investment may differ materially from the value presented in the Schedules of Investments.

The Funds utilize various methods to measure the fair value of their investments on a recurring basis, which includes a hierarchy that prioritizes inputs to valuation methods used to measure fair value. The fair value hierarchy gives highest priority to unadjusted quoted prices in active markets for identical assets and liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The inputs or methodologies used for valuing securities are not necessarily an indication of the risk associated with investing in those securities. The three levels of the fair value hierarchy are described below:

- Level 1 Quoted prices in active markets for identical securities.
- Level 2 Significant observable inputs (including quoted prices for similar securities, interest rates, prepayment speeds, credit risk, etc.).
- Level 3 Significant unobservable inputs (including each Fund's own assumptions in determining the fair value of investments).

A summary of the inputs and the levels used to value the Funds' investments, are located in the Schedules of Investments. Additionally, tables that reconcile the valuation of the Funds' Level 3 investments and that present additional information about valuation methodologies and unobservable inputs, if applicable, are located in the Schedules of Investments.

- **B. Basis for Consolidation**—The Subsidiary, an Indian exempted company, was incorporated on February 25, 2010 and acts as an investment vehicle for the India Small-Cap Index ETF ("SCIF") in order to effect certain investments on behalf of the SCIF. The SCIF is the sole shareholder of the Subsidiary, and it is intended that the SCIF will remain the sole shareholder and will continue to control the Subsidiary. The consolidated financial statements of SCIF include the financial results of its wholly owned subsidiary. All interfund account balances and transactions have been eliminated in consolidation.
- **C. Federal Income Taxes**—It is each Fund's policy to comply with the provisions of the Internal Revenue Code applicable to regulated investment companies and to distribute all of its taxable income to its shareholders. Therefore, no federal income tax provision is required.
- **D. Dividends and Distributions to Shareholders**—Dividends to shareholders from net investment income and distributions from net realized capital gains, if any, are declared and paid annually by each Fund. Income dividends and capital gain distributions are determined in accordance with U.S. income tax regulations, which may differ from such amounts determined in accordance with GAAP.
- E. Currency Translation Assets and liabilities denominated in foreign currencies and commitments under foreign currency contracts are translated into U.S. dollars at the closing prices of such currencies each business day as quoted by one or more sources. Purchases and sales of investments are translated at the exchange rates prevailing when such investments are acquired or sold. Foreign denominated income and expenses are translated at the exchange rates prevailing when accrued. The portion of realized and unrealized gains and losses on investments that result from fluctuations in foreign currency exchange rates is not separately disclosed in the financial

statements. Such amounts are included with the net realized and unrealized gains and losses on investment securities in the Statement of Operations. Recognized gains or losses attributable to foreign currency fluctuations on foreign currency denominated assets, other than investments, and liabilities are recorded as net realized gain (loss) on foreign currency transactions and foreign denominated assets and liabilities in the Statements of Operations.

- **F. Restricted Securities**—The Funds may invest in securities that are subject to legal or contractual restrictions on resale. These securities generally may be resold in transactions exempt from registration or to the public if the securities are registered. Disposal of these securities may involve time-consuming negotiations and expense, and prompt sale at an acceptable price may be difficult. Information regarding restricted securities, if any, is included at the end of each Fund's Schedule of Investments.
- G. Offsetting Assets and Liabilities—In the ordinary course of business, the Funds enter into transactions subject to enforceable master netting or other similar agreements. Generally, the right of offset in those agreements allows the Funds to offset any exposure to a specific counterparty with any collateral received or delivered to that counterparty based on the terms of the agreements. The Funds may pledge or receive cash and/or securities as collateral for derivative instruments and securities lending. For financial reporting purposes, the Funds present securities lending assets and liabilities on a gross basis in the Statements of Assets and Liabilities. Cash collateral held in the form of money market investments, if any, at December 31, 2019 is presented in the Schedules of Investments and in the Statement of Assets and Liabilities. Non-cash collateral is disclosed in Note 9 (Securities Lending).
- H. Other—Security transactions are accounted for on trade date. Realized gains and losses are determined based on the specific identification method. Dividend income is recorded on the ex-dividend date except that certain dividends from foreign securities are recognized upon notification of the ex-dividend date. Interest income, including amortization of premiums and discounts, is accrued as earned.

In the normal course of business, the Funds enter into contracts that contain a variety of general indemnifications. The Funds' maximum exposure under these agreements is unknown as this would involve future claims that may be made against the Funds that have not yet occurred. However, the Adviser believes the risk of loss under these arrangements to be remote.

At December 31, 2019, ChinaAMC SME-ChiNext included \$8,600 in cash, at value on the Statements of Assets and Liabilities, which represents foreign investor minimum settlement reserve funds required by China Securities Depository and Clearing Corporation Limited.

Note 3—Investment Management and Other Agreements—The Adviser is the investment adviser to the Funds. The Adviser receives a management fee, calculated daily and payable monthly based on an annual rate of 0.50% of each Fund's average daily net assets. The Adviser has agreed, until at least May 1, 2020, to waive management fees and assume expenses to prevent each Fund's total annual operating expenses (excluding acquired fund fees and expenses, interest expense, trading expenses, taxes and extraordinary expenses; and for Russia ETF and Russia Small-Cap ETF, depositary receipt fees up to 0.10% and 0.08% of average daily net assets, respectively) from exceeding the expense limitations as listed in the following table. Effective January 10, 2019, ChinaAMC CSI 300 ETF and ChinaAMC SME-ChiNext ETF no longer exclude interest expense from their expense limitations. Refer to the Statements of Operations for the amounts waived/assumed by the Advisor for the year ended December 31, 2019.

- * The Adviser paid sub-advisory fees directly to the Sub-Adviser
- (a) Prior to January 10, 2019 the expense limitation was 0.72%.
- (b) Prior to January 10, 2019 the expense limitation was 0.78%

During the year ended December 31, 2019, the Adviser reimbursed the Brazil Small-Cap ETF \$372,975 for an investment loss. This reimbursement is reflected in the Statements of Operations and the Statements of Changes in Net Assets as a net increase from payment from Adviser. The per share and total return impact to the Fund is reflected in the Financial Highlights.

In addition, Van Eck Securities Corporation (the "Distributor"), an affiliate of the Adviser, acts as the Funds' distributor. Certain officers and a Trustee of the Trust are officers, directors or stockholders of the Adviser and Distributor.

Effective November 4, 2019, State Street Bank and Trust Company is the Funds' custodian, securities lending agent and transfer agent. Prior to November 4, 2019, Bank of New York Mellon provided these services to the Funds.

For the year ended December 31, 2019, there were offsets to custodian fees under an expense offset agreement and these amounts are reflected in custody expense in the Statement of Operations.

Note 4—Capital Share Transactions—As of December 31, 2019, there were an unlimited number of capital shares of beneficial interest authorized by the Trust with no par value. Fund shares are not individually redeemable and are issued and redeemed at their net asset value per share only through certain authorized broker-dealers ("Authorized Participants") in blocks of shares ("Creation Units"), consisting of 50,000 shares or multiples thereof.

The consideration for the purchase or redemption of Creation Units of the Funds generally consists of the in-kind contribution or distribution of securities constituting the Funds' underlying index ("Deposit Securities") plus a balancing cash component to equate the transaction to the net asset value per share of the Fund on the transaction date. Cash may also be substituted in an amount equivalent to the value of certain Deposit Securities, generally as a result of market circumstances, or when the securities are not available in sufficient quantity for delivery, or are not eligible for trading by the Authorized Participant. The Funds may issue Creation Units in advance of receipt of Deposit Securities subject to various conditions, including, for the benefit of the Funds, a requirement to maintain cash collateral on deposit at the custodian equal to at least 115% of the daily marked to market value of the missing Deposit Securities.

Authorized Participants purchasing and redeeming Creation Units may pay transaction fees directly to the transfer agent. In addition, the Funds may impose certain variable fees for creations and redemptions with respect to transactions in Creation Units for cash, or on transactions effected outside the clearing process, which are treated as increases in capital. These variable fees, if any, are reflected in share transactions in the Statements of Changes in Net Assets.

Note 5—Investments—For the year ended December 31, 2019, purchases and sales of investments (excluding short-term investments and in-kind capital share transactions) and the purchases and sales of investments resulting from in-kind capital share transactions (excluding short-term investments) were as follows:

In-kind Capital

| | | | Share Transactions | | |
|---------------------------|---------------|---------------|--------------------|--------------|--|
| Fund | Purchases | Sales | Purchases | Sales | |
| Africa Index ETF | \$ 25,518,641 | \$ 27,607,576 | \$ - | \$ 3,831,997 | |
| Brazil Small-Cap ETF | 34,413,698 | 48,591,617 | _ | 3,534,476 | |

| Vietnam ETF | (66,849,395) | (200,488,726) | (267,338,121) |

During the year ended December 31, 2019, Brazil Small-Cap ETF and Israel ETF utilized \$8,189,563 and \$40,045 of their capital loss carryovers available from prior years.

During the year ended December 31, 2019, as a result of permanent book to tax differences, primarily due to the tax treatment of gains/losses from securities redeemed in-kind, the Funds incurred differences that affected distributable earnings and aggregate paid in capital by the amounts in the table below. Net assets were not affected by these reclassifications.

| Fund | Increase (Decrease) in Distributable Earnings | Increase (Decrease) in Aggregate Paid in Capital |
|---------------------------|--|---|
| Africa Index ETF | \$ (1,058,432) | \$ 1,058,432 |

| Russia Small-Cap ETF | (132,802) | 132,802 |
| Vietnam ETF | (950,984) | 950,984 |
| vicinani Lii | (930,964) | 930,964 |

The Funds recognize the tax benefits of uncertain tax positions only where the position is "more-likely-than-not" to be sustained assuming examination by applicable tax authorities. Management has analyzed the Funds' tax positions, and has concluded that no liability for unrecognized tax benefits should be recorded related to uncertain tax positions taken on return filings for all open tax years. The Funds do not have exposure for additional years that might still be open in certain foreign jurisdictions. Therefore, no provision for income tax is required in the Funds' financial statements. However, the Funds are subject to foreign taxes on the appreciation in value of certain investments. The Funds provide for such taxes on both realized and unrealized appreciation.

The Funds recognize interest and penalties, if any, related to uncertain tax positions as income tax expense in the Statements of Operations. During the year ended December 31, 2019, the Funds did not incur any interest or penalties.

Investments in China: Uncertainties in the Chinese tax rules governing taxation of income and gains from investments in A-Shares could result in unexpected tax liabilities for the ChinaAMC CSI 300 ETF and ChinaAMC SME-ChiNext ETF (the "Funds"). China generally imposes withholding income tax ("WHT") at a rate of 10% on dividends and interest (excluding government bond interest) derived by non-People's Republic of China ("PRC") resident enterprises (including a Qualified Foreign Institutional Investor ("QFII") and a Renminbi Qualified Foreign Institutional Investor ("RQFII")) from issuers residing in China. However, on November 7, 2018, the PRC Ministry of Finance ("MOF") and PRC State Administration of Taxation ("SAT") jointly issued Caishui [2018] 108 (Circular 108) to clarify the temporary three-year tax exemption on bond interest derived by foreign institutional investors ("FIIs"). Pursuant to Circular 108, FIIs are temporarily exempt from withholding income tax and value added tax with respect to bond interest income derived in the domestic bond market (via QFII, RQFII, CIBM and Hong Kong Bond Connect) from November 7, 2018 to November 6, 2021. China also imposes WHT at a rate of 10% on capital gains derived by non-PRC resident enterprises from the disposal in shares of PRC enterprises. Effective November 17, 2014, investments through the Hong Kong-Shanghai Stock Connect program, QFIIs and RQFIIs, which includes these Funds, were exempted temporarily from WHT with respect to gains derived from the trading of equity investments (including A-shares). However, uncertainties remain regarding the taxation of capital gains in China. PRC rules for taxation of RQFIIs (and QFIIs) and the PRC tax regulations to be issued by the PRC State Administration of Taxation and/or PRC MOF to clarify the subject matter may apply retrospectively, even if such rules are adverse to the nonresident investors. If the PRC tax authorities were to issue differing formal guidance or tax rules regarding the taxation of capital gains derived by QFIIs, RQFIIs and other nonresident investors WHT on gains from such investments the Funds could be subject to additional tax liabilities.

Investments in India: The Finance Act, 2012 introduced a general anti-avoidance rule ("GAAR"), which became effective from April 1, 2017. GAAR is applicable where the main purpose of an arrangement is tax avoidance and empowers Indian tax authorities to declare such an arrangement as an impermissible avoidance arrangement. Additionally, on May 10, 2016, the Governments of India and Mauritius signed the Protocol for amending the tax treaty between India and Mauritius. The renegotiation of the treaty clarified the applicability of GAAR to a Mauritius subsidiary deemed a tax resident of Mauritius. As per the Protocol, India commenced taxation on capital gains arising from disposition of shares acquired on or after April 1, 2017 in a company resident in India, with shares acquired on or before March 31, 2017 being grandfathered as exempt from capital gains taxation. Additionally, the Finance Act (2018) provided that long-term capital gains from listed equity shares sold after April 1, 2018 which were previously exempt from capital gains tax are now subject to a tax of 10% (plus applicable surcharge and education cess). Taxpayers received a cost step-up to the fair market value of shares held on January 31, 2018 provided the shares had unrealized gains as of that date. In summary, capital gains on shares purchased after April 1, 2018 for India Small-Cap Index Fund will now be subject to a capital gains tax of 15% on short-term capital gains and 10% on long-term capital gains (plus applicable surcharges and cess). Existing Indian capital loss carryforwards may be utilized to offset capital gains realized on securities acquired after April 1, 2017. These changes may reduce the return to the India Small-Cap Index ETF on its investments made after April 1, 2017 and the return received by Fund shareholders.

Note 7—Principal Risks—The investment objective of each Fund is to seek investment results that correspond generally to the price and yield performance, before fees and expenses, of its underlying index, as indicated in the name of each Fund. The Adviser uses a "passive" or index approach to achieve each Fund's investment objective by investing in a portfolio of securities that generally replicates the Fund's index. Each of the Funds (except Africa Index ETF, Brazil Small-Cap ETF, ChinaAMC CSI 300 ETF, ChinaAMC SME-ChiNext ETF and India Small-Cap Index ETF) is classified as a non-diversified fund under the 1940 Act. Non-diversified funds generally hold securities of fewer issuers than diversified funds and may be more susceptible to the risks associated with these particular issuers, or to a single

NOTES TO FINANCIAL STATEMENTS

(continued)

economic, political or regulatory occurrence affecting these issuers. The Funds may purchase securities on foreign exchanges. Securities of foreign issuers involve special risks and considerations not typically associated with investing in U.S. issuers. These risks include devaluation of currencies, currency controls, less reliable information about issuers, different securities transaction clearance and settlement practices, future adverse political and economic developments and local/regional conflicts or natural or other disasters, such as the recent coronavirus outbreak. These risks are heightened for investments in emerging market countries. Moreover, securities of many foreign issuers and their markets may be less liquid and their prices more volatile than those of comparable U.S. issuers. In addition, for Africa Index ETF and Egypt Index ETF there may be limitations or delays in the convertibility or repatriation of certain African currencies, which would adversely affect the U.S. dollar value and/or liquidity of the Fund's investments denominated in such African currencies, may impair the Fund's ability to achieve its investment objective and/or may impede the Fund's ability to satisfy redemption requests in timely manner.

As a result of certain events, the United States and the European Union ("EU") have imposed sanctions on certain Russian individuals and companies. These sanctions do not currently impact the Funds. Additional economic sanctions may be imposed or other actions may be taken that may adversely affect the value and liquidity of the Russian-related issuers' held by the Funds.

Should the Chinese government impose restrictions on the ability of ChinaAMC CSI 300 ETF and ChinaAMC SME-ChiNext ETF to repatriate funds associated with direct investment in A-Shares, the Funds may be unable to satisfy distribution requirements applicable to regulated investment companies ("RICs") under the Internal Revenue Code of 1986, as amended, and the Funds may therefore be subject to Fund-level U.S. federal taxes.

A more complete description of risks is included in each Fund's Prospectus and Statement of Additional Information.

Note 8—Trustee Deferred Compensation Plan—The Trust has a Deferred Compensation Plan (the "Plan") for Trustees under which the Trustees can elect to defer receipt of their trustee fees until retirement, disability or termination from the Board of Trustees. The fees otherwise payable to the participating Trustees are deemed invested in shares of the Funds as directed by the Trustees.

The expense for the Plan is included in "Trustees' fees and expenses" in the Statements of Operations. The liability for the Plan is shown as "Deferred Trustee fees" in the Statements of Assets and Liabilities.

Note 9-Securities Lending-To generate additional income, each of the Funds may lend its securities pursuant to a securities lending agreement with the securities lending agent. Each Fund may lend up to 33% of its investments requiring that the loan be continuously collateralized by cash, cash equivalents, U.S. government securities, or any combination of cash and such securities at all times equal to at least 102% (105% for foreign securities) of the market value plus accrued interest on the securities loaned. Daily market fluctuations could cause the value of loaned securities to be more or less than the value of the collateral received. When this occurs, the collateral is adjusted and settled on the next business day. During the term of the loan, the Funds will continue to receive any dividends, interest or amounts equivalent thereto, on the securities loaned while receiving a fee from the borrower and/or earning interest on the investment of the cash collateral. Such fees and interest are shared with the securities lending agent under the terms of the securities lending agreement. Securities lending income is disclosed as such in the Statements of Operations. The cash collateral is maintained on the Funds' behalf by the lending agent and is invested in the State Street Navigator Securities Lending Government Money Market Portfolio. Non-cash collateral consists of U.S. Treasuries and U.S. Government Agency securities, and is not disclosed in the Funds' Schedules of Investments or Statements of Assets and Liabilities as it is held by the agent on behalf of the Funds, and the Funds do not have the ability to re-hypothecate those securities. Loans are subject to termination at the option of the borrower or the Funds. Upon termination of the loan, the borrower will return to the Fund securities identical to the securities loaned. The Funds bear the risk of delay in recovery of, or even loss of rights in, the securities loaned should the borrower of the securities fail financially. The value of loaned securities and related collateral outstanding at December 31, 2019 is presented on a gross basis in the Schedules of Investments and Statements of Assets and Liabilities. The following is a summary of the Funds' securities on loan and related collateral as of December 31, 2019:

| | Market Value of | Cash | Non-Cash | |
|----------------------|--------------------|------------|------------|------------------|
| Fund | Securities on Loan | Collateral | Collateral | Total Collateral |
| Africa Index ETF | \$1,588,160 | \$ 916,922 | \$ 803,218 | \$1,720,140 |
| Brazil Small-Cap ETF | 1,811,608 | 1,306,142 | 588,675 | 1,894,817 |
| Israel ETF | 2,013,664 | 282,011 | 1,771,493 | 2,053,504 |
| Russia ETF | 2,136,185 | 27,004 | 2,131,867 | 2,158,871 |
| Russia Small-Cap ETF | 2,942,477 | 1,210,410 | 1,894,316 | 3,104,726 |
| Vietnam ETF | 1,927,656 | _ | 2,061,166 | 2,061,166 |

The following table presents money market fund investments held as collateral by type of security on loan as of December 31, 2019:

Gross Amount of Recognized Liabilities for Securities Loaned in the Statements of Assets and Liabilities*

| | = ========= |
|----------------------|-------------------|
| Fund | Equity Securities |
| Africa Index ETF | \$ 916,922 |
| Brazil Small-Cap ETF | 1,306,142 |
| Israel ETF | 282,011 |
| Russia ETF | 27,004 |
| Russia Small-Cap ETF | 1,210,410 |

^{*} Remaining contractual maturity of the agreements: overnight and continuous

Note 10—Bank Line of Credit—The Funds may participate in a \$200 million committed credit facility (the "Facility") to be utilized for temporary financing until the settlement of sales or purchases of portfolio securities, the repurchase or redemption of shares of the Funds at the request of the shareholders and other temporary or emergency purposes. The Funds have agreed to pay commitment fees, pro rata, based on the unused but available balance. Interest is charged to the Funds at rates based on prevailing market rates in effect at the time of borrowings. During the year ended December 31, 2019, the following Funds borrowed under this Facility:

| | Days | Average Daily Loan | Average | Outstanding Loan Balance as of |
|---------------------------|-------------|-----------------------|---------------|-----------------------------------|
| Fund | Outstanding | Balance | Interest Rate | December 31, 2019 |
| Africa Index ETF | 92 | \$ 346,353 | 3.74% | \$ 467,385 |
| Brazil Small-Cap ETF | 310 | 1,064,324 | 3.70 | 2,000,930 |
| ChinaAMC CSI 300 ETF | 343 | 2,431,753 | 3.64 | _ |
| ChinaAMC SME-ChiNext ETF | 1 | 1,478,981 | 3.80 | _ |

| Russia Small-Cap ETF | 148 | 393,690 | 3.83 | _ |
| Vietnam ETF | 321 | 3,812,842 | 3.61 | 475,303 |

Note 11—Recent Accounting Pronouncements—The Funds early adopted certain provisions of Accounting Standards Update No. 2018-13 *Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement* ("ASU 2018-13") that eliminate and modify certain disclosure requirements for fair value measurements. The adoption of certain provisions of the ASU 2018-13 had no material effect on financial statements and related disclosures. Management is currently evaluating the potential impact of additional requirements, not yet adopted, of the ASU 2018-13 to financial statements. Public companies will be required to disclose the range and weighted average used to develop significant unobservable inputs for Level 3 fair value measurements. ASU 2018-13 is effective for fiscal years beginning after December 15, 2019 and for interim periods within those fiscal years.

Note 12—Subsequent Event Review—The Funds have evaluated subsequent events and transactions for potential recognition or disclosure through the date the financial statements were issued.

REPORT OF INDEPENDENT REGISTERED PUBLIC ACCOUNTING FIRM

To the Shareholders of VanEck Vectors Africa Index ETF, VanEck Vectors Brazil Small-Cap ETF, VanEck Vectors ChinaAMC CSI 300 ETF, VanEck Vectors ChinaAMC SME-ChiNext ETF, VanEck Vectors Egypt Index ETF, VanEck Vectors India Small-Cap Index ETF, VanEck Vectors Indonesia Index ETF, VanEck Vectors Israel ETF, VanEck Vectors Russia ETF, VanEck Vectors Russia Small-Cap ETF and VanEck Vectors Vietnam ETF and the Board of Trustees of VanEck Vectors ETF Trust.

Opinion on the Financial Statements

We have audited the accompanying statements of assets and liabilities (consolidated as it relates to VanEck Vectors India Small-Cap Index ETF) of VanEck Vectors Africa Index ETF, VanEck Vectors Brazil Small-Cap ETF, VanEck Vectors ChinaAMC CSI 300 ETF, VanEck Vectors ChinaAMC SME-ChiNext ETF, VanEck Vectors Egypt Index ETF, VanEck Vectors India Small-Cap Index ETF, VanEck Vectors Indonesia Index ETF, VanEck Vectors Israel ETF, VanEck Vectors Russia ETF, VanEck Vectors Russia Small-Cap ETF and VanEck Vectors Vietnam ETF (collectively referred to as the "Funds") (eleven of the series constituting VanEck Vectors ETF Trust (the "Trust")), including the schedules of investments (consolidated as it relates to VanEck Vectors India Small-Cap Index ETF), as of December 31, 2019, and the related statements of operations (consolidated as it relates to VanEck Vectors India Small-Cap Index ETF) for the year then ended, the statements of changes in net assets (consolidated as it relates to VanEck Vectors India Small-Cap Index ETF) for each of the two years in the period then ended, the financial highlights (consolidated as it relates to VanEck Vectors India Small-Cap Index ETF) for each of the five years in the period then ended and the related notes (collectively referred to as the "financial statements"). In our opinion, the financial statements present fairly, in all material respects, the financial position (consolidated as it relates to VanEck Vectors India Small-Cap Index ETF) of each of the Funds (eleven of the series constituting VanEck Vectors ETF Trust) at December 31, 2019, and the results of their operations for the year then ended (consolidated as it relates to VanEck Vectors India Small-Cap Index ETF), the changes in net assets (consolidated as it relates to VanEck Vectors India Small-Cap Index ETF) for each of the two years in the period then ended and financial highlights (consolidated as it relates to VanEck Vectors India Small-Cap Index ETF) for each of the five years in the period then ended, in conformity with U.S. generally accepted accounting principles.

Basis for Opinion

These financial statements are the responsibility of the Trust's management. Our responsibility is to express an opinion on each of the Funds' financial statements based on our audits. We are a public accounting firm registered with the Public Company Accounting Oversight Board (United States) ("PCAOB") and are required to be independent with respect to the Trust in accordance with the U.S. federal securities laws and the applicable rules and regulations of the Securities and Exchange Commission and the PCAOB.

We conducted our audits in accordance with the standards of the PCAOB. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement, whether due to error or fraud. The Trust is not required to have, nor were we engaged to perform, an audit of the Trust's internal control over financial reporting. As part of our audits, we are required to obtain an understanding of internal control over financial reporting, but not for the purpose of expressing an opinion on the effectiveness of the Trust's internal control over financial reporting. Accordingly, we express no such opinion.

Our audits included performing procedures to assess the risks of material misstatement of the financial statements, whether due to error or fraud, and performing procedures that respond to those risks. Such procedures included examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements. Our procedures included confirmation of securities owned as of December 31, 2019, by correspondence with the custodian and brokers or by other appropriate auditing procedures where replies from broker were not received. Our audits also included evaluating the accounting principles used and significant estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that our audits provide a reasonable basis for our opinion.

Ernet + Young LLP

We have served as the auditor of one or more of the VanEck investment companies since 1999.

New York, New York February 27, 2020

This report is intended for the Funds' shareholders. It may not be distributed to prospective investors unless it is preceded or accompanied by a VanEck Vectors ETF Trust (the "Trust") prospectus and summary prospectus, which includes more complete information. Investing involves substantial risk and high volatility, including possible loss of principal. An investor should consider the investment objective, risks, charges and expenses of the Fund carefully before investing. To obtain a prospectus and summary prospectus, which contains this and other information, call 800.826.2333 or visit vaneck.com. Please read the prospectus and summary prospectus carefully before investing.

Additional information about the Trust's Board of Trustees/Officers and a description of the policies and procedures the Trust uses to determine how to vote proxies relating to portfolio securities are provided in the Statement of Additional Information. The Statement of Additional Information and information regarding how the Trust voted proxies relating to portfolio securities during the most recent twelve month period ending June 30 is available, without charge, by calling 800.826.2333, or by visiting vaneck.com, or on the Securities and Exchange Commission's website at http://www.sec.gov.

The Trust files its complete schedule of portfolio holdings with the Securities and Exchange Commission for the first and third quarters of each fiscal year on Form N-PORT. The Trust's Form N-PORT filings are available on the Commission's website at http://www.sec.gov and may be reviewed and copied at the Commission's Public Reference Room in Washington, D.C. Information on the operation of the Public Reference Room may be obtained by calling 202.942.8090. The Funds' complete schedules of portfolio holdings are also available by calling 800.826.2333

or by visiting vaneck.com.
