### **Custodian of the SICAV:**

## DPAM INVEST B SA

J.P. MORGAN EUROPE LIMITED, BRUSSELS BRANCH, a credit institution under English law with registered office at 25 Bank Street, London E14 5JP, United Kingdom, acting through its Belgian branch (located at Boulevard du Roi Albert II, 1, 1210 Brussels) (the "Custodian") has been appointed as the custodian of the SICAV under the terms of a written agreement (the "**Custodian Agreement**").

Under the Custodian Agreement, the Custodian fulfils the mandatory and monitoring tasks as stipulated in Articles 51/1 and 51/2 of the Law of 2012. The functions of the Custodian, in accordance with the Law of 2012, principally involve the settlement of the transactions performed by the Management Company, the custodianship of the assets, the execution, on the instruction of the Management Company, of transactions involving the assets, the collection of dividends and interest and certain monitoring tasks. The Custodian must act honestly, fairly, professionally, independently and solely in the interest of the SICAV and its investors.

The Custodian may act as a custodian bank to other undertakings for collective investment.

In addition, in accordance with Article 51/1 §1 of the Law of 2012, the Custodian shall:

- 1) ensure that all the SICAV's investments held in custody by the Custodian correspond to the assets specified in the SICAV's accounts;
- 2) ensure that the number of units in circulation specified in the Custodian's accounts corresponds to the number of units in circulation specified in the SICAV's accounts;
- 3) ensure that the sale, issue, redemption, repurchase and cancellation of units effected by or on behalf of the SICAV are carried out in accordance with the Law of 2012, the Articles of Association or prospectus of the SICAV;
- 4) ensure that the net asset value per unit is calculated in accordance with the Law of 2012, the Articles of Association or the prospectus of the SICAV;
- 5) ensure that all investment restrictions stipulated in the Law of 2012, the Articles of Association or the prospectus of the SICAV are complied with;
- 6) carry out the instructions of the SICAV or the Management Company unless they conflict with the Law of 2012, the Articles of Association or the prospectus of the SICAV;
- 7) ensure that in transactions involving the SICAV's investments, the consideration is remitted to it within the usual time limits;
- 8) ensure that regulations on fees and charges stipulated in the Law of 2012, the Articles of Association or the prospectus of the SICAV are complied with;
- 9) ensure that the SICAV's income is applied in accordance with the Law of 2012, the Articles of Association or the prospectus of the SICAV.

The Custodian may entrust all or part of the assets of the SICAV that it holds in custody to sub-custodians as may be determined by the Custodian from time to time. The Custodian has appointed the London branch of JPMorgan Chase Bank, N.A. as its global sub-custodian. As the Custodian's delegate, it will be responsible for the custody, safekeeping, settlement and management of securities through its networks of sub-custodians. With the exception of the provisions of the Law of 2012, the Custodian's liability shall not be affected by the fact that it has entrusted all or part of the assets in its care to a third party (for further details, see the comments on the Custodian's liability in the description of the Custodian Agreement, and the description of sub-custodians and other delegates).

## DPAM INVEST B SA

The Custodian can only delegate to third parties the functions described in Article 51/1 §3 under the conditions set out in Article 52/1 of the Law of 2012.

The Custodian shall carry out its functions and duties as set out in more detail in the Custodian Agreement.

### The Custodian Agreement

The Custodian shall undertake all the duties and obligations under the Law of 2012 as provided in the Custodian Agreement.

Either Party may terminate the Custodian Agreement by providing 90 days written notice. The Custodian may also terminate the Custodian Agreement by providing 30 days written notice if (i) it is unable to ensure the level of protection required for the SICAV's investments under the Law of 2012 as a result of the Management Company's and/or the SICAV's decisions relating to investments; or (ii) the SICAV, or the Management Company on behalf of the SICAV, wishes to invest or continue investing in a given jurisdiction, despite the fact that (a) this investment may expose the SICAV or its assets to a major country risk or (b) the Custodian is unable to obtain adequate legal advice confirming, for instance, that in the event of the insolvency of a sub-custodian or another entity belonging to this jurisdiction, the SICAV's assets held in custody locally would be unavailable for distribution to the sub-custodian's or sub-entity's creditors, or for their benefit.

After the end of the notice period, the SICAV shall propose a new Custodian which meets the conditions of the Law of 2012, to which the SICAV's assets will be transferred, and who will take over the duties of Custodian as Custodian of the SICAV. The SICAV and the Management Company shall make all efforts that can reasonably be expected to find an appropriate substitute custodian, and the Custodian will continue to provide its services under the Custodian Agreement until the replacement has been found.

The Custodian will be responsible for holding and verifying the ownership of the SICAV's assets, for controlling the cash flows and overseeing compliance with the Law of 2012. As part of its duties, the Custodian will act independently of the SICAV and the Management Company, and in the sole interest of the SICAV and its investors.

The Custodian is liable towards the SICAV and its investors, for the loss of a financial instrument in its custody or the custody of one of its delegates. However, the Custodian shall not be liable if it is able to prove that the loss originates from an external event beyond its reasonable control and the consequences of which would have been unavoidable despite all reasonable efforts to avoid it. The Custodian is also liable towards the SICAV or its investors, for any loss incurred as a result of its failure, whether due to negligence or intent, to duly comply with its duties in accordance with the Law of 2012.

### Conflicts of Interest

As part of the normal course of custody business, the Custodian may from time to time have entered into agreements with other clients, funds or other third parties for the provision of safekeeping and related services. Within a multi-service banking group such as JPMorgan Chase Group, from time to time conflicts may arise between the Custodian and its delegates, for example, where an appointed delegate is an affiliated group company and is providing a product or service to a fund and has a financial or economic interest in such product or service or where an appointed delegate is an affiliated group company which receives remuneration for other related custodial products or services it provides to the funds, for instance foreign exchange, securities lending, pricing or valuation services. In the event of any potential conflict of interest which may arise during the normal course of business, the Custodian will at all times comply with its obligations under applicable laws including Article 25 of Directive 2014/91/EU amending Directive 2009/65/EC (the UCITS V Directive).

## DPAM INVEST B SA

Up-to-date information concerning the description of the Custodian's duties and the potential conflicts of interest that may arise or arising from the delegation of all safekeeping functions by the Custodian, will be available to investors at the registered office of the SICAV.

### Sub-custodians and other delegates

When selecting and appointing a sub-custodian or other delegate, the Custodian shall exercise all due skill, care and diligence to ensure that it entrusts the SICAV's assets only to a delegate who may provide an adequate standard of protection.

The current list of sub-custodians and other delegates used by the Custodian is available at <https://www.degroofpetercam.be>.

### Auditor:

PwC Reviseurs d'Entreprises, SCCRL, with registered office at Woluwedal 18, 1932 Sint-Stevens-Woluwe, represented by Mr Damien Walgrave, independent auditor. The auditor's responsibilities include the examination of accounting data contained in the SICAV's annual report.

### Financial Group promoter of the SICAV:

Degroof Petercam Group

### Remuneration policy:

The remuneration policy has been established by Degroof Petercam Asset Management in accordance with the requirements of the rules on remuneration policy in AIF and UCITS management companies. Since DPAM is a subsidiary of a credit institution providing investment services, the remuneration policy also takes into account certain rules and regulations applicable to its parent company.

The remuneration policy may be summarised as follows:

- The remuneration policy promotes sound and effective risk management and does not encourage risk-taking that exceeds the level of risk tolerated by DPAM and which is inconsistent with the risk profiles or the instruments constituting the AIFs and UCITS managed by DPAM;
- The remuneration policy is in line with the economic strategy, objectives, values and interests of the Management Company, SICAV and investors and incorporates measures to avoid conflicts of interest;
- The remuneration policy within the Degroof Petercam Group and its subsidiaries promotes equal treatment of remuneration packages and other benefits granted to staff members based on the functions and responsibilities assumed, as well as a balance in line with market practices between fixed and variable remuneration based on performance objectives. The remuneration package is composed of a fixed salary, mainly based on skills and experience, a group insurance plan or a supplementary pension and variable remuneration;
- A performance assessment is carried out based on financial and non-financial, individual and collective criteria as part of the annual Individual Appraisal process (Performance Management Cycle) implemented within the Group by the GHR (Human Resources Department of Bank Degroof Petercam); the remuneration policy implemented by DPAM includes appropriate qualitative criteria that seek to align the risks and interests of employees with those of the investment funds (UCITS and AIF) they manage, of the investors of those funds and the Management Company, in the short, medium and long term. These qualitative criteria

## DPAM INVEST B SA

include compliance with internal procedures and regulatory requirements, equitable treatment of investors and their level of satisfaction;

- The assessment of performance is set in a multi-year framework which is adapted to the holding period recommended to the shareholders of the SICAV, in order that the assessment process is based on longer term performance of the SICAV and investment risks and that the actual payment of performance-based components of remuneration is spread over the same period;
- The remuneration policy ensures an appropriate balance between fixed and variable components of the total remuneration; the fixed component always represents a sufficiently high proportion of the total remuneration; the policy on variable components of the remuneration is flexible enough and makes the non-payment of the variable component possible. The determination of the annual variable remuneration for the identified staff, except for the control functions, involves establishing a target bonus expressed as a percentage of the fixed salary and is currently based on the following elements:
  - ✓ Development of the gross operating profit of the Degroof Petercam Group;
  - ✓ Development of the gross operating profit of Institutional Asset Management;
  - ✓ Individual performance of the person.

Details of the up-to-date remuneration policy and the composition of the remuneration committee are available at <https://www.degroofpetercam.be> (tab “Remuneration policy”).

A printed copy is available, free-of-charge, on request from Degroof Petercam Asset Management SA, Rue Guimard, 18, 1040 Brussels or at the following website: [DPAM@degroofpetercam.com](mailto:DPAM@degroofpetercam.com).

Person(s) bearing the costs in the situations described in articles 115, §3, paragraphs 3, 149, 152, 156, 157 §1, paragraphs 3, 165 and 179, paragraph 3 of the Royal Decree of 2012:

Degroof Petercam Asset Management SA, Rue Guimard 18, 1040 Brussels.

### Capital:

The share capital is always equal to the net asset value. It may not be less than € 1,200,000.

### Accounts and inventories

Unless otherwise stated in the information for the sub-fund, the accounts and inventories are in euros.

### Asset valuation rules:

The assets of public undertakings for collective investment with a variable number of shares are valued in accordance with articles 11 to 14 inclusive of the Royal Decree of 10 November 2006 on the accounting, financial statements and interim reports of certain public undertakings for collective investment with a variable number of units.

Without setting out the aforementioned articles in full, this process may be summarised as follows:

Assets traded on an active market not operating with the intervention of third-party financial institutions will be valued on the basis of the closing price.

Assets traded on an active market operating with the intervention of third-party financial institutions will be valued on the basis of the current buying price (for assets) and selling price (for liabilities).

In the absence of a buying price, a selling price or a closing price, the price of the most recent transaction will be used to value the aforementioned assets, provided the economic situation has not changed in any major way since this transaction.

## DPAM INVEST B SA

If the prices on an organised or over-the-counter market are not representative, or if no organised or over-the-counter market exists, the current fair value of similar assets for which an active market exists will be used, provided this fair value is suitable in view of the differences between the similar asset components. If the fair value of similar assets does not exist for a given asset, the fair value of the asset in question will be established using other valuation techniques, subject to certain conditions.

In exceptional cases where the buying and/or selling price is not available for bonds and other debt securities, but a mid-market price is known, the mid-market price will be adjusted using a suitable method to obtain the buying and/or selling price to be applied. This last method will be explained in the annual and/or semi-annual report.

Shares in undertakings for collective investment with a variable number of shares that are held by the undertaking for collective investment will be valued at their fair value in accordance with the paragraphs above. By way of exception to the aforementioned, the fair value of units in undertakings for collective investment with a variable number of units for which there is neither an organised nor an over-the-counter market will be calculated on the basis of the net asset value of these shares.

Notwithstanding how accrued interest is treated, sight deposits, current account liabilities, short-term receivables and payables, tax credits and tax liabilities and other debts will be valued at their nominal value less the write-downs applied to them and the redemptions that have occurred in the meantime.

In view of the relatively small proportion of term debt instruments (other than those stated in the previous paragraph) which are not represented by transferable securities or negotiable money market instruments, they will be valued, in terms of the net asset value, at their nominal value less the write-downs applied to them and the redemptions that have occurred in the meantime, provided the investment policy of the undertaking for collective investment is not focused principally on investing its assets in deposits, cash or money market instruments.

### Accounting year end date:

31 December

### Rules regarding the allocation of net income:

A dividend will, in principle, be paid for distribution shares:

- either at the decision of the Board of Directors during the financial year, in the form of an interim dividend;
- or at the decision of the Ordinary General Meeting

if the distributable revenues allow it.

### Tax regime:

The tax regime described hereunder is linked to the holding of shares in the SICAV by an investor and to their redemption by the SICAV, excluding any capital gains realised on a secondary market, since there is none.

### *In respect of the SICAV:*

The SICAV benefits from the alternative tax base reserved for certain investment companies established in Belgium. Its corporate income tax expense is therefore negligible or even non-existent.

Belgian-source revenue received by the SICAV is not subject to Belgian withholding tax at source, except as regards Belgian dividends, to which a non-attributable and non-recoverable withholding tax at source of 30% applies.

Foreign-source revenue received by the SICAV may be subject to foreign withholding tax at source, the rate of which is generally limited in accordance with double taxation treaties.

The SICAV is also subject to a Subscription Tax applicable depending on the share class:

### ***In respect of private individual investors resident in Belgium:***

#### *Taxation of dividends*

Dividends distributed by the SICAV to Belgian private individual investors are subject to Belgian withholding tax (*précompte mobilier*) at the rate of 30%.

#### *Taxation of capital gains realised upon redemption of shares by the SICAV*

Without prejudice to the tax regime explained hereunder, capital gains realised upon redemption of shares in the SICAV or on the total or partial distribution of its assets (liquidation) are not subject to personal income tax if the investor is acting in the "normal management of his private estate".

*Taxation at the rate of 30% of the portion of the capital gain<sup>1</sup> deriving from accrued interest and capital gains or losses on the fund's underlying debt securities<sup>2</sup> realised on redemption of shares in the SICAV or upon the total or partial distribution of the assets of the SICAV (liquidation).*

The tax regime applied depends on whether:

#### a) Acquisition of a share until 31.12.2017

- The sub-fund invests less than 25% of its assets in debt securities. The investor will not be taxed on income arising directly or indirectly, in the form of interest, capital gains or capital losses, from the return on the fund's underlying debt securities;
- The sub-fund invests more than 25% of its assets in debt securities. The investor will be subject to Belgian withholding tax (*précompte mobilier*) of 30% on the portion of the capital gain representing income arising directly or indirectly, in the form of interest, capital gains or capital losses, from the return on the fund's underlying debt securities;
- The sub-fund is likely to invest more than 25% of its assets in debt securities. The investor may be subject to Belgian withholding tax (*précompte mobilier*) of 30% on the portion of the capital gain representing income arising directly or indirectly, in the form of interest, capital gains or capital losses, from the return on the fund's underlying debt securities.

#### b) Acquisition of a share from 01.01.2018

- The sub-fund invests less than 10% of its assets in debt securities. The investor will not be taxed on income arising directly or indirectly, in the form of interest, capital gains or capital losses, from the return on the fund's underlying debt securities;
- The sub-fund invests more than 10% of its assets in debt securities. The investor will be subject to Belgian withholding tax (*précompte mobilier*) of 30% on the portion of the capital gain representing income arising directly or indirectly, in the form of interest, capital gains or capital losses, from the return on the fund's underlying debt securities;

<sup>1</sup> The taxable base cannot be more than the capital gain realised by the investor on the transaction, it being understood that if the investor has acquired the shares by donation, the value of the share at the time of its acquisition by the donor.

<sup>2</sup> This refers to debt claims of every kind, whether or not secured by mortgage and whether or not carrying a right to participate in the debtor's profits, and in particular, income from government securities and from bonds and debentures, including premiums and prizes attaching to such securities, irrespective of their issue date.

- The sub-fund is likely to invest more than 10% of its assets in debt securities. The investor may be subject to Belgian withholding tax (*précompte mobilier*) of 30% on the portion of the capital gain representing income arising directly or indirectly, in the form of interest, capital gains or capital losses, from the return on the fund's underlying debt securities.

### *Tax on stock exchange transactions*

A tax of 1.32% on the sale price is applied in the case of redemption of capitalisation shares by the SICAV, with a maximum of € 4,000 per transaction.

### ***As regards an investor which is a Belgian tax resident company:***

#### *Taxation of dividends and capital gains realised upon redemption of shares by the SICAV - Ordinary regime*

Tax (*précompte mobilier*) is withheld at 30% on dividends distributed by the SICAV to corporate investors. However, in principle this withholding tax is attributable or recoverable for the company.

Dividends and capital gains realised on redemption are subject to corporation tax at:

- 33.99% (for financial years before tax year 2019)
- 29.58% (for tax year 2019 relating to a taxable period which begins at the earliest on 1 January 2018)
- 25% (for tax year 2021 relating to a taxable period which begins at the earliest on 1 January 2020)

An investment in capitalisation shares of a SICAV may also have consequences for the basis of calculation of incremental notional interest and entail the loss of the reduced corporate income tax rate on the first tranche of €100,000.

### *Tax on stock exchange transactions*

A tax of 1.32% is applied in the case of redemption of capitalisation shares by the SICAV. The tax is charged on the selling price, with a maximum of € 4,000 per transaction.

## DPAM INVEST B SA

### *In respect of non-resident private individual or corporate investors:*

#### *Taxation of dividends*

Except insofar as more favourable provisions of double taxation treaties apply, dividends distributed by the SICAV to non-resident private individual investors are subject to Belgian withholding tax at the rate of 30%.

In respect of private individual investors resident in France: the following sub-funds are eligible for the PEA (*Plan d'épargne actions* or share-based savings scheme): DPAM INVEST B Equities Belgium, DPAM INVEST B Equities Europe, DPAM INVEST B Equities Euroland, DPAM INVEST B Equities Europe Dividend, DPAM INVEST B Equities Europe Small Caps and DPAM INVEST B Equities Europe Sustainable. The SICAV undertakes to invest at least 75% of the assets of the sub-funds mentioned above in securities or rights eligible for the PEA.

The tax treatment of income and capital gains of non-resident private individual and corporate investors depends on the tax legislation applicable in accordance with each investor's personal situation and/or the place where the capital is invested or the registered office established. If an investor is not sure of his tax situation, it is therefore incumbent on him to seek information from professionals or, if applicable, local organisations.

#### *Securities lending programme:*

The following information is sent to investors as part of Regulation (EU) 2015/2365 on transparency of securities financing transactions and of reuse.

1. A securities lending programme has been set up in order to increase revenues from the sub-funds of the SICAV.

In an agreement between JPMORGAN CHASE BANK, NATIONAL ASSOCIATION, a bank incorporated under the laws of Ohio, acting through its branch at 25 Bank Street, Canary Wharf, London E14 5JP, and the SICAV, JP Morgan Chase Bank National Association has been appointed agent of all sub-funds of the SICAV, addressing a sole borrower or several borrowers to whom ownership of the securities is transferred.

All securities of the sub-fund may be loaned, provided the lending does not adversely affect the management of the portfolio. It is therefore stipulated that the securities that the fund managers intend to sell will not be loaned, and that the loaned securities may be recalled if the fund manager intends to realise them.

The borrower's securities lending obligations are secured by financial guarantees in the form of cash collateral or bonds authorised by the regulations. The market value of the collateral in relation to the market value of the loaned assets of the sub-fund must at all times exceed the actual value of the securities loaned.

In view of the guarantees in place, the risk arising from the securities lending programme is relatively low.

2. The type of assets that are eligible for the securities lending programme is limited to shares. The sub-funds to which the securities lending programme applies are listed in the periodic reports of the SICAV.

3. The maximum proportion of assets under management that may be included in the securities lending programme is limited to 20%.

4. The expected proportion of assets under management that may be included in the securities lending programme is difficult to determine. Investors may use the figures from last year in the most recent periodic (annual) report of the SICAV. The proportion of assets under management of a sub-fund of the SICAV lent must not exceed 20%.

5. Criteria used to select counterparties: securities lending counterparties are first selected by the lending agent. After this primary evaluation, the Management Company selects the eligible counterparties. The counterparties are selected on the basis of the internal rating system which takes into account external ratings and Credit Default Swap (CDS) spreads. The counterparty must have a minimum rating of A- (or equivalent). The counterparty must be located

## DPAM INVEST B SA

in a jurisdiction in which the applicable law authorises the mechanism for reducing counterparty risk (normally "set-off", "close-out netting" and "outrights transfer" clauses in CSA agreements). Counterparties in Europe and North America are encouraged but exceptions may be made.

6. Acceptable collateral: only approved collateral is acceptable, for instance:

- EU State Guarantees: Germany, Austria, Belgium, Finland, France, Luxembourg and the Netherlands,
- UK Gilts,
- US Treasury Bills,
- OECD State Guarantees: Australia, Canada, Denmark, Norway, New Zealand, Sweden and Switzerland,
- minimum AA- rating

Only the instruments referred to in Article 12 b of the Royal Decree of 7 March 2006 on loans of securities by certain undertakings for collective investment are accepted as collateral. While there are several issuers, the concentration risk may result in a concentration in European government bonds. A positive correlation between assets and collateral is encouraged; however, as a result of the restrictions in terms of eligible collateral, set out in Article 12 of the Royal Decree mentioned above, negative correlations may not be excluded entirely.

7. Collateral valuation:

Collateral is valued daily on the basis of the market price. The price sources used are IDC (main source), Loanet, Bloomberg and Reuters. If additional collateral is required, payment will be requested the same day. The level of collateral is controlled daily.

8. Risk management

Securities lending risks are controlled by the Management Company and lending agent.

The main risks include:

- Counterparty risk: the possibility that a borrower defaults and/or is unable to return the securities borrowed. Counterparty risk is mitigated by the excess collateral insurance (assessed daily) and compensation for the counterparty's default by the lending agent.
- Collateral risk: the risk that the value of the collateral is, at any time, lower than the value of the securities borrowed. The collateral is not reinvested.
- Operational risk: the risk linked to all operating processes associated with securities lending. It may include, but is not limited to, errors in transactions between the lending agent and the borrower, errors and faults in transaction flows, faults in the IT platforms, etc.

9. Information on the way in which assets subject to financial transactions in securities and collateral are held

The lending agent may hold the collateral through its network of sub-custodians or directly with the central securities depository. Collateral is separated from the agent's other assets. Alternatively, collateral may be held by a third-party collateral manager under an agreement with the agent and borrower.

Assets subject to securities financing transactions are kept by the SICAV's custodian in a separate lending account.

10. Policy on sharing revenue generated by the securities lending programme

Lending agent (JPMORGAN CHASE BANK, NATIONAL ASSOCIATION): for each loan described above, the lender (the SICAV) will pay the lending agent 15% of the revenue (after deducting any rebates given by the lending agent to the borrower) generated by investments authorised in connection with loans guaranteed in the form of cash and securities lending costs paid or to be paid by the borrower for non-guaranteed loans in the form of cash.

The lender (SICAV) shall receive 85% of the fees, of which 75% of the remuneration is payable to the sub-funds; the balance of 25% is payable to the Management Company (Degroof Petercam Asset Management SA) as a fixed fee for the operational administration of the securities lending programme.

## DPAM INVEST B SA

The lending agent is not a related party of the Management Company.

### Person responsible for the content of the prospectus and the key investor information:

### Legal consequences of subscription to shares in the SICAV - Judicial competence – Applicable law:

a) By subscribing to shares in the SICAV, the investor becomes a shareholder of the SICAV and of the sub-fund concerned.

b) The shareholding relationship between the investor and the SICAV is governed by Belgian law and in particular by the Law of 2012, as well as by the Belgian Company Code, unless otherwise indicated in said Law of 2012. In general terms, the Belgian courts are competent to settle any disputes that might arise between a shareholder and the SICAV.

Regulation (EC) No. 593/2008 of the European Parliament and of the Council on the law applicable to contractual obligations (Rome I) and Regulation (EC) No. 864/2007 of the European Parliament and of the Council on the law applicable to non-contractual obligations (Rome II) (the "Rome Regulations") have the force of law in Belgium. Consequently, the choice of applicable law in any contract is subject to the provisions of the Rome Regulations. Regulation (EC) No. 44/2001 of the Council on jurisdiction and the recognition and enforcement of judgments in civil and commercial matters has the force of law in Belgium. In accordance with these provisions, a judgment obtained before a court in another jurisdiction of the European Union will generally be recognised and enforced in Belgium without its substance being reviewed, except in certain exceptional circumstances.

### Shareholder voting rights:

Each share carries the right to one vote within its sub-fund, with the votes of capitalisation shares being weighted by the parity specific to that sub-fund. For votes on resolutions concerning all of the company's sub-funds, the vote of each share is weighted by the fraction of the share capital it represents based on the latest net asset value of the company determined before the Meeting. The total votes per shareholder will not include fractions of votes.

Except in cases where the law requires qualified majorities and quorums and within the limits set down by the law, decisions are taken by a simple majority of votes cast, regardless of the number of shares represented at the Meeting.

### Liquidation of a sub-fund:

The General Meeting, at the proposal of the Board of Directors, may decide to liquidate a sub-fund.

In this case, and in the event of the winding-up of the company, the liquidation will be carried out by the Board of Directors acting as liquidation committee, unless the relevant General Meeting has expressly appointed one or more liquidators for this purpose and determined their remuneration.

The allocation of the liquidation proceeds to shareholders of the one or more liquidated sub-funds will take the form of an identical and simultaneous share redemption for all shares in the same class and the same sub-fund. Subscription and redemption applications for shares in a sub-fund whose liquidation is planned will be suspended from the time of the publication of the notice of the General Meeting convened to approve this decision. Degroof Petercam Asset Management SA, Rue Guimard 18, 1040 Brussels will contribute to the liquidation costs if, during the twelve months preceding the notice of the proposed liquidation, redemptions representing overall more than 30% of the net assets at the time of the winding-up have taken place.

## DPAM INVEST B SA

Degroof Petercam Asset Management SA reserves the right to claim this contribution from people who have applied for the redemption of shares in the sub-fund representing, overall, more than 5% of the total shares existing during this same period.

### Suspension of the redemption of shares:

In accordance with article 195 of the Royal Decree of 2012, subscription and redemption applications will be suspended at the initiative of and for the period of time decided by the Board of Directors of the SICAV if, in view of the circumstances, the processing of such applications may unreasonably prejudice the legitimate interests of all shareholders. Other exceptional circumstances, such as those described in article 196 of the Royal Decree of 2012, may also lead to the suspension of subscription and redemption applications.

### Existence of fee-sharing agreements:

Such agreements between, on the one hand, the SICAV or where applicable the distributor and the investment portfolio manager and, on the other hand, other distributors mentioned where relevant in the prospectus and third parties, including the shareholders of the undertaking for collective investment, may exist but are under no circumstances exclusive. These agreements do not affect the manager's ability to perform his/her duties freely in the interests of the shareholders of the SICAV. The management fee is split according to the market conditions.

### Application of FATCA in Belgium:

The provisions of the U.S. Foreign Account Tax Compliance Act, the U.S. Hiring Incentives to Restore Employment Act of 2010 and related regulations and directives, more generally known under the name "**FATCA**", introduce a new regime of disclosure of information and withholding at source applicable to (i) certain U.S. source payments, (ii) gross proceeds of disposal of assets that might generate U.S. source income in the form of interest or dividends and (iii) certain payments made by, and certain financial accounts held with, entities considered as foreign financial institutions for the purposes of FATCA, each of these entities being a Foreign Financial institution ("**FFI**").

FATCA was put in place with a view to putting an end to non-compliance with U.S. tax laws by U.S. taxpayers investing through foreign financial accounts. With a view to receiving information on financial accounts whose beneficial owners are U.S. taxpayers from FFIs, the FATCA regime applies a 30% withholding at source to certain U.S. source payments to FFIs that do not agree to comply with certain disclosure and at-source withholding obligations with regard to their account holders.

A large number of countries have entered into intergovernmental agreements transposing FATCA with a view to reducing the burden resulting from the obligations of compliance and withholding at source weighing on financial institutions established in these countries. On 23 April 2014, the United States and Belgium entered into such an Intergovernmental Agreement, hereinafter the "**IGA**".

In accordance with the IGA, an entity classified as an FFI, resident in Belgium, must make available to the Belgian tax authorities certain information concerning its shareholders and the payments it makes. The IGA provides for transmission and automatic exchange of information concerning "Financial Accounts" held with "Belgian Financial Institutions" by (i) certain U.S. persons, (ii) certain non-U.S. entities, the beneficial owners of which are substantially U.S. persons, (iii) FFIs that do not comply with FATCA or (iv) persons refusing to provide documentation or information concerning their FATCA status.

The IGA in force between Belgium and the United States was transposed into Belgian tax law by the law of 16 December 2015. While the legal framework is currently in place, some points will also be elaborated on in the Guidance Notes on the SPF Finances website.

FATCA is being implemented gradually and will therefore be fully in place on 1 January 2017.

The SICAV has "deemed-compliant FFI" status, since it is qualified as a Collective Investment Vehicle or CIV within the meaning of IGA and as an Exempt Collective Investment Vehicle within the meaning of Belgian Law.

## DPAM INVEST B SA

Insofar as the SICAV complies with the conditions of the IGA (in particular those relating to its FATCA status) and with the law transposing it into Belgian legislation, no FATCA withholding at source should apply to the payments it receives, and the SICAV's disclosure obligations under FATCA are limited.

To comply with its obligations in the framework of FATCA, the SICAV may request and obtain certain information, documents and attestations from its shareholders and (if applicable) their beneficial owners. The non-disclosure of information requested may lead to (i) a liability on the part of the shareholder failing to provide the information requested ("**Recalcitrant Shareholder**") or possibly on the part of the SICAV, for all resulting U.S. tax withheld at source, (ii) an increase in the SICAV's disclosure obligations or (iii) a forced redemption or transfer of shares of the Recalcitrant Shareholder.

Moreover, in order to retain its status as a Collective Investment Vehicle, the SICAV is not be able to accept certain persons as registered shareholders (for more details concerning eligible investors, see the section headed "Restrictions on subscription to and holding of shares" hereunder). If non-eligible persons were to become registered shareholders, the SICAV might no longer be classified as a Collective Investment Vehicle for the purposes of the IGA, and might (i) see a 30% FATCA withholding at source applied to certain payments it receives, (ii) be subjected to more extensive disclosure obligations and/or (iii) have to withhold tax at 30% on certain payments it makes to non-FATCA compliant shareholders or Recalcitrant Shareholders.

The SICAV is entitled to require shareholders to provide it with all such information relating to their tax status, identity or residence as may be necessary in order to meet such disclosure or other requirements as may apply to the SICAV by virtue of the IGA or any legislation implementing it, and shareholders shall be deemed, by their subscribing to or holding shares, to have authorised the automatic transmission (by the SICAV or any other person) of this information to the tax authorities. Shareholders who do not provide the required information or who otherwise prevent the SICAV from fulfilling its disclosure obligations under FATCA may be subject to forced redemption or transfer of their shares, a 30% withholding at source on certain payments and/or other penalties.

In relation to the foregoing, but without limiting the information, documents or attestations that the SICAV might require of a shareholder, each shareholder must send to the SICAV (i) if this shareholder is a United States person in the meaning of the U.S. Internal Revenue Code of 1986 as amended (the "**IRC**"), an IRS Form W-9 or such other form as may replace it, fully and accurately completed ("**W-9**") or, (ii) if this shareholder is not a United States Person, an IRS Form W-8 fully and accurately completed (including Form W-8BEN, Form W-8BEN-E, Form W-8ECI, Form W-8EXP or Form W-8IMY or such forms as may replace them, including information concerning the status of the shareholder under Chapter 4 of the IRC) ("**W-8**"), and undertakes to provide the SICAV rapidly with an updated Form W-9 or W-8 as the case may be when a previous version of the form becomes obsolete or when the SICAV requests it.

**Furthermore, each shareholder agrees to inform the SICAV immediately in the event of any change in the information provided to the SICAV by the shareholder and to sign and send to the SICAV any form or any other additional information that the SICAV might reasonably request.**

Although the SICAV strives to preserve its status of deemed-compliant FFI and to comply with all obligations incumbent upon it to avoid the application of FATCA withholding at source, it cannot guarantee that the SICAV will be able to meet these obligations and that thus it will not be treated by the United States as a non-compliant FFI subject to FATCA withholding at source on payments received by the SICAV. The application of FATCA withholding at source to payments made to the SICAV could appreciably affect the value of the shares held by all shareholders.

All potential shareholders should consult their own tax advisers regarding the possible impact of FATCA on an investment in the SICAV.

### INFORMATION ON THE RISK PROFILE

#### Risk profile of the sub-funds:

Investors are advised that the value of their investment can increase or decrease and that they may receive less back than their initial stake. The relevant risks for each of the fund's sub-funds are described in the information relating to the sub-funds.

#### Synthetic risk and reward indicator:

The risk and reward profile of an investment is reflected by a synthetic indicator which ranks the sub-fund on a risk/return scale from the lowest (1) to the highest (7) risk category. This indicator is calculated in accordance with the provisions of Regulation 583/2010 and is available, in its most recent version in the key investor information documents. This risk/return level is calculated on the basis of the portfolio's net asset value fluctuations (volatility) recorded over the past five years (or on the basis of the changes in value of an appropriate benchmark if the sub-fund or share class has existed for less than five years). It gives an indication of the sub-fund's potential performance and of the capital risk exposure, but it does not guarantee that the risk/reward profile currently published will remain unchanged. Historical data such as those used in calculating the synthetic indicator, may not be a reliable indication of the future profile of the sub-fund.

### Restrictions on subscription to and holding of shares:

The SICAV reserves the right, (A) when a potential or existing shareholder fails to provide it with the required information (concerning his tax status, identity or residence) to meet such disclosure or other requirements as might apply to the SICAV by virtue of laws in force, or (B) if it learns that a potential or existing shareholder (i) does not comply with the laws in force or (ii) might cause the SICAV to become non-compliant with its legal obligations (or to find itself subject, in any other way, to a FATCA withholding at source on payments it receives):

- to refuse the subscription to shares of the SICAV by said potential shareholder;
- to require said existing shareholder to sell his shares to a person eligible to subscribe to or to hold these shares; or
- to redeem the shares concerned at their net asset value as determined on the Asset Valuation Date following notification to the shareholder of the forced redemption.

Insofar as necessary, it is stipulated that any reference above to applicable laws or legal obligations includes the laws and obligations deriving from or otherwise imposed by the IGA or any legislation implementing it.

## DPAM INVEST B SA

Given that the SICAV has the intention of complying with its FATCA obligations as a Collective Investment Vehicle (as described in Paragraph D of section IV of Appendix II to the IGA), the nominative shares of the SICAV can be directly held only by certain entities, and not by individuals. More precisely, the shares of the SICAV may be held only by entities regarded in the context of the IGA as (i) exempt beneficial owners, (ii) active non-financial foreign entities<sup>7</sup>, (iii) United States persons who are not Specified U.S. Persons<sup>8</sup> or (iv) financial institutions complying with or otherwise exempt from the application of FATCA. If (i) a potential shareholder or a beneficial owner seeking to become a shareholder is not, or (ii) an existing shareholder is no longer, eligible for registration in the register of nominative shares of the SICAV by reason of the SICAV's FATCA status as a Collective Investment Vehicle, said shareholder (or, if applicable, the beneficial owner) may, within the limitations of applicable laws and the SICAV's Articles of Association, receive dematerialised shares. Potential shareholders and beneficial owners seeking to become shareholders are urged to consult their own tax advisers in order to determine whether or not they are eligible to hold shares in the SICAV.

### INFORMATION ABOUT THE SUB-FUND DPAM INVEST B Equities Belgium

#### PRESENTATION:

Name: DPAM INVEST B Equities Belgium

Formation date: 17 May 1991

Term: unlimited

#### INVESTMENT INFORMATION:

##### Objectives of the sub-fund:

The objective of this sub-fund is to offer shareholders **exposure to the equity market** through an actively managed portfolio.

The portfolio of this sub-fund primarily comprises shares of Belgian companies as well as other securities conferring access to the capital of these companies. The following are considered to be equivalent to shares of Belgian companies: shares of foreign companies that have a significant proportion of their assets, activities and profit or decision-making centres in Belgium. ### INFORMATION ABOUT THE SUB-FUND DPAM INVEST B Balanced Dynamic Growth

#### **PRESENTATION:**

Name: **DPAM INVEST B Balanced Dynamic Growth**

Formation date: 22 September 2006

Term: unlimited

#### **INVESTMENT INFORMATION:**

##### **Objectives of the sub-fund:**

The investment objective of this sub-fund consists in building a portfolio that meets practically all of the requirements of a Belgian pension savings fund (third pillar), without, however, being subject to the terms and conditions of this system or its specific tax consequences (positive and negative), and that optimises overall long-term performance through a balanced management approach. Essentially, therefore, investments without any geographical or sectoral restriction are chosen that, based on their return or price gains, contribute to increasing the net asset value, while reducing potential losses through adequate diversification. The sub-fund invests a minimum of 60% of its assets in equities and equivalent financial instruments.

The sub-fund may hold liquid assets on a secondary or temporary basis in the form of current accounts, deposits or securities. The sub-fund invests a maximum of 10% of its assets in open-ended undertakings for collective investment.

No formal guarantee has been given either to the sub-fund or to its investors.

##### **Investment policy of the sub-fund:**

###### **Authorised asset classes:**

Transferable securities and money market instruments listed on a regulated market, both within and outside the European Economic Area, newly issued transferable securities, units in undertakings for collective investment, whether meeting or not the conditions set down by Directive 2009/65/EC and whether in a Member State or not of the European Economic Area, derivative instruments, including equivalent instruments giving rise to a cash settlement, over-the-counter derivative instruments, other transferable securities and money market instruments and liquid assets as long as these transferable securities and money market instruments are compatible with the objectives of the sub-fund.

###### **Authorised transactions in derivative financial instruments:**

The sub-fund may also use derivatives, subject to the applicable legal regulations, such as options, futures, interest rate swaps, currency swaps, performance swaps, volatility swaps, credit derivatives and forward exchange transactions **for the purpose of achieving the investment objectives and for the purpose of risk hedging. Investors should be aware that derivatives of this type can be more volatile than the underlying instruments.**

### INFORMATION ABOUT THE SUB-FUND DPAM INVEST B Real Estate Europe Dividend

#### **PRESENTATION:**

**Name:** DPAM INVEST B Real Estate Europe Dividend

**Formation date:** 23 December 2010

**Term:** unlimited

#### **INVESTMENT INFORMATION:**

##### **Objectives of the sub-fund:**

The objective of this sub-fund is to offer shareholders the highest possible long-term return through a balanced management policy, by investing its assets in securities representative of the real estate sector, in its broad sense, in Europe, and principally with distributable revenues that are higher than the investment universe average. These securities include but are not limited to shares in fixed-capital real estate investment funds, real estate investment certificates, shares of real estate companies and companies active in real estate promotion and development, shares in real estate debt investment funds etc.

75% of the net assets must consist of securities with distributable revenues that are higher than the investment universe average.

The average is defined as being the dividend yield of the FTSE EPRA/NAREIT Developed Europe index.

No formal guarantee has been given either to the sub-fund or to its investors.

##### **Investment policy of the sub-fund:**

###### **Authorised asset classes:**

Transferable securities and money market instruments listed on a regulated market, both within and outside the European Economic Area, newly issued transferable securities, units in undertakings for collective investment, whether meeting or not the conditions set down by Directive 2009/65/EC and whether in a Member State or not of the European Economic Area, derivative instruments, including equivalent instruments giving rise to a cash settlement, over-the-counter derivative instruments, other transferable securities and money market instruments and liquid assets as long as these transferable securities and money market instruments are compatible with the objectives of the sub-fund.

###### **Authorised transactions in derivative financial instruments:**

The sub-fund may also use derivatives, subject to the applicable legal regulations, such as options, futures, interest rate swaps, currency swaps, performance swaps, volatility swaps, credit derivatives and forward exchange transactions **for the purpose of achieving the investment objectives and for the purpose of risk hedging. Investors should be aware that derivatives of this type can be more volatile than the underlying instruments.**

The sub-fund may hold liquid assets on a secondary or temporary basis in the form of current accounts or deposits, as well as units in undertakings for collective investment.

The sub-fund may invest a maximum of 10% of its assets in open-ended undertakings for collective investment.

If, following changes in market conditions or owing to specific information about a company, the securities no longer meet the criteria of higher than average yield, the situation will later be rectified in the interests of the shareholders of the sub-fund.

## DPAM INVEST B SA

### Lending of financial instruments:

The sub-fund may engage in the lending of financial instruments, to the extent authorised by the legal and statutory provisions applicable to undertakings for collective investment.

### Environmental, social and governance (ESG) considerations:

Checks are made to ensure that the securities in which the sub-fund invests are not issued by a company whose activity consists in manufacturing, using or possessing anti-personnel mines.

The sub-fund may invest in units in other UCITS or other funds managed directly or indirectly by Degroof Petercam Asset Management SA or by a company with which Degroof Petercam Asset Management SA is associated as part of a co-management or co-control agreement or by means of a direct or indirect holding of more than 10% of the capital or votes. No issue, redemption or management fees for the target funds may be deducted from the fund's assets in connection with such investments.

### **Warning:**

The investment policy of the sub-fund focuses solely on part of the securities issued by companies of a single economic sector in a specific region, i.e. securities representative of the **real estate sector**, in its broad sense, in **Europe** with distributable revenues that are **higher than average**. Consequently, if the net assets of the sub-fund were to exceed a certain amount, shareholders could be adversely affected by additional net subscription flows, resulting in an excessively high net asset value with the following consequences:

1. risk of penalising shareholders if, in the event of redemption, the manager is obliged to liquidate part of the portfolio in a less liquid market,
2. the manager is no longer able to pursue the management strategy deployed to manage the sub-fund, which could have negative consequences on performance.

Taking the following three points into consideration on the sub-fund's launch date:

1. a possible sub-fund investment universe of approximately € 60 billion;
2. approximately € 44 billion freely available on the market;
3. a stock market turnover amounting to approximately € 115 million per day;

the Board of Directors reserves the right to temporarily stop accepting further subscription applications when the net asset value exceeds € 150 million, depending on the market circumstances at that time. The Board of Directors will publish a detailed report after a decision has been made to stop accepting further subscription applications.

### Risk profile of the sub-fund:

The value of a unit may go up or down, and investors may therefore get back less than they invested.

Description of the risks considered and assessed by the sub-fund to be significant and pertinent<sup>25</sup>:

Market risk (risk of a decline in the market of a given asset class that may affect the price and value of the assets in the portfolio):	Moderate. Investment in securities representative of the real estate sector
Credit risk (risk of default of an issuer or counterparty):	Low.
Settlement risk (risk that the settlement of a transaction does not take place as expected in a given transfer system, due to a payment/delivery default by a counterparty, or a payment/delivery not conforming to the original conditions):	Low. Transactions are settled on the basis of delivery against payment
Liquidity risk (risk that a position cannot be closed at the right time at a reasonable price):	Moderate. Investments are essentially in securities representative of the real estate sector
Foreign exchange risk (risk that the investment value is affected by a change in the exchange rate):	N/A. Warning: This risk is not stable. Depending on changes in the yield of securities in the real estate sector compared with the yield of the FTSE EPRA/NAREIT Developed Europe index, the portfolio may invest in the securities of non-eurozone countries, which means that currency risk can no longer be ruled out. The prospectus will be updated accordingly in this case
Concentration risk (risk linked to a high concentration of investments in a given class of assets or on a given market):	High. Investments are in a specific sector in a small number of European countries
Performance risk (risk relating to performance, including variability of the levels of risk depending on the stock-picking strategy of each sub-fund, and the existence or absence of third-party guarantees or restrictions on these guarantees):	N/A. The investment policy does not require that the composition of an index reflecting the relevant market is tracked and no performance fee is stipulated
