December 20, 2025

Dear Shareholder,

This report provides an update for AB SICAV I (the "Fund") for the semi-annual reporting period ended November 30, 2025.

US, international and emerging-market (EM) equity stocks rose during the six-month period that ended on November 30, 2025. Global stock markets rallied over the summer months with US indices reaching record levels as investors maintained their enthusiasm for AI-related stocks, but uncertainty over future Federal Reserve (the "Fed") rate cuts grew after conflicting data on US employment and inflation. Remarks from Fed Chair Jerome Powell in August clarified the central bank's shifting focus to the rising risks of weakness in the labor market, and the Fed subsequently lowered its target interest rate by a quarter point at its September and October meetings.

Markets turned volatile in November as concerns over technology stock valuations and future Fed monetary policy decisions weighed on US stocks, but they recovered by month-end on rising expectations for a Fed rate cut in December. Within large-cap markets, both growth- and value-oriented stocks gained in absolute terms, with growth outperforming value on a relative basis. Both large- and small-cap stocks increased in absolute terms, with small-cap stocks outperforming on a relative basis.

Fixed-income government bond market yields were volatile as investors reacted to tariff announcements, government budgets and deficits, central bank decisions, Fed independence, economic growth and inflation expectations, and US-dollar weakness. Global developed-market (DM) yields generally fell over the period, and government bond returns rose in aggregate. Returns were the highest in New Zealand, Switzerland and the UK, and rose the least in Japan, Sweden and Australia.

Overall, DM investment-grade corporate bonds outperformed government bonds. Investment-grade corporates in the eurozone advanced and outperformed the gain among eurozone treasuries, while US investment-grade corporates also outperformed US Treasuries. DM high-yield corporate bonds had solid results and outperformed treasury markets. High-yield corporates in the eurozone and the US outperformed their respective treasury markets. EM hard-currency sovereign bonds outperformed DM treasuries by a wide margin, while EM hard-currency corporate bonds performed well overall. In both EM hard-currency indices, returns were supported the most by high-yield debt. EM local-currency bonds led other credit risk sectors with strong results as the US dollar was mixed against DM currencies and fell versus most EM currencies during the period.

We appreciate your investment in the Fund.

Sincerely,

AllianceBernstein L.P., the Investment Manager of the Fund

The share class performance of each Portfolio is based on the net asset value incorporating the impact of expenses reimbursed or waived by the Management Company as of November 30, 2025. No adjustment has been made for sales charges that may apply when shares are purchased or redeemed. Performance for distributing share classes includes the reinvestment of distributions paid during the year. Past performance is no guarantee of future results. Investment return and principal value may fluctuate so that an investor's shares, when redeemed, may be worth more or less than their original cost.

\* 6 months period ending November 30, 2025.

(a) Share class re-designated. See note A.

**NOTE A: General Information**

AB SICAV I (the “Fund”) is an open-ended investment company with variable capital (*société d’investissement à capital variable*) incorporated with limited liability under the laws of the Grand Duchy of Luxembourg on June 8, 2006 and registered under Part I of the law of December 17, 2010 on undertakings for collective investment (as amended) (the “Law of 2010”). The Fund qualifies as an Undertaking for Collective Investments in Transferable Securities (“UCITS”) within the meaning of Article 1(2) of the EC Directive 2009/65 of July 13, 2009 (as amended).

The Fund is structured as an “umbrella fund” comprising separate pools of assets (each a “Portfolio”).

The Fund offers various classes of shares of each of its Portfolios. All Shares of the same Class have the same rights as to distributions and redemptions.

Effective November 25, 2025, AB SICAV I – Eurozone Equity Portfolio was enhanced into a new strategy under the name AB SICAV I – Eurozone Growth Portfolio. It was also resolved by

the Board of Directors to approve redesignation of the current classes A, A AUD H, A PLN H, A SGD H, A USD, A USD H, AR, C, C USD, C USD H, I, I USD, I USD H, INN, S1, S1 AUD H, S1 USD, S1 USD H and S1N shares of AB SICAV I – Eurozone Equity Portfolio, to classes AXX, AX AUD H, AX PLN H, AX SGD H, AXX USD, AX USD H, ARX, CXX, CXX USD, CX USD H, IXX, IXX USD, IX USD H, INN, S1X, S1X AUD H, S1X USD, S1X USD H and S1NX shares of AB SICAV I – Eurozone Growth Portfolio, respectively. Class I GBP share was closed on August 14, 2025, and new class with the same class name was launched under AB SICAV I – Eurozone Growth Portfolio on November 27, 2025.

The following table lists each Portfolio’s commencement of operations as well as Share Classes funded as of November 30, 2025:

<b>AB SICAV I–</b>	<b>Commencement of Operations</b>	<b>Share Classes Funded</b>

**NOTE B: Significant Accounting Policies**

The Financial Statements have been prepared in accordance with Luxembourg legal and regulatory requirements and on a going concern basis. The following is a summary of significant accounting policies followed by the Portfolios.

**1. Valuation**

**1.1 Investments in Securities**

Securities listed on a stock exchange or traded on any other regulated market are valued at the last sale price on such exchange or market or, if there has been no sale on such day, at the mean of the closing bid and asked price quoted on such day. If a security is listed on several stock exchanges or markets, the last sale price on the stock exchange or market which constitutes the principal market for such security is used.

Securities traded in the over-the-counter market, including securities listed on an exchange whose primary market is believed to be over-the-counter (but excluding securities traded on The Nasdaq Stock Market, Inc. (“NASDAQ”)) are valued at the mean of the current bid and asked prices. Securities traded on NASDAQ are valued in accordance with the NASDAQ Official Closing Price.

Securities are valued at their current market value determined on the basis of market quotations or, if market quotations are not readily available or are deemed unreliable, at “fair value” as determined in accordance with procedures established by, and under the general supervision of, the Management Company’s Board of Managers (the “Board of Managers”) and the Board of Directors.

Fair valuation procedures are designed to adjust closing market prices of securities to reflect what is believed to be the fair value of those securities at the Portfolio’s Valuation Point.

When fair valuation procedures are employed with respect to a particular security, various objective and subjective factors may be considered, including, among other things, developments affecting the security or involving an entire market since the security’s latest reported price, current valuations of relevant stock indices or pronouncements of certain governmental authorities. Fair value prices based on third party vendor modeling tools may be utilized to the extent available. Therefore, when fair valuation procedures are employed, the prices of individual securities utilized to calculate the Portfolio’s Net Asset Value (“NAV”) may differ from quoted or published prices for the same securities.

Currently, fair value adjustments are only applicable to certain equity securities and futures contracts.

Accordingly, as may also be the case with a previously reported stock exchange price, the price of any portfolio security determined utilizing fair value pricing procedures may be materially different from the price to be realized upon the sale of such security.

For portfolio securities primarily traded on U.S. and Indian exchanges, it is expected that fair value pricing procedures are employed only under very limited circumstances such as, for example, the early closing of an exchange on which a particular security is traded or the suspension of trading in particular security. However, it is anticipated that fair value pricing procedures will be utilized frequently for securities traded on non-U.S. exchanges or other markets, particularly European and Asian markets, excluding India, because, among other reasons, these markets close well before the Portfolio’s Valuation Point. Between the close of these markets and the relevant Portfolio’s Valuation Point, significant events including broad market moves may occur. In particular, events in the U.S. market on a trading day after the close of these other markets may affect the value of the Portfolio’s securities.

Fixed income securities (i), securities not listed on any stock exchange, or traded on any regulated market (ii), and securities, trading of which on a stock exchange or a regulated market is thin (iii), are valued at the most recent bid price provided by the principal market makers. If there is no such market price, or if such market price is not representative of a security’s fair market value, then the security is valued in a manner determined to reflect its fair value in accordance with procedures established by, and under the general supervision of, the Board of Managers and the Board of Directors.

U.S. Government securities and any other debt instruments having 60 days or less remaining until maturity are generally valued at market price by an independent pricing vendor, if a market price is available. If a market price is not available, the securities are valued at amortized cost. This methodology is commonly used for short-term securities that have an original maturity of 60 days or less, as well as short-term securities that had an original term to maturity that exceeded 60 days. In instances when amortized cost is utilized, the valuation committee (the “Committee”) must reasonably conclude that the utilization of amortized cost is approximately the same as the fair value of the security. Such factors the Committee will

consider include, but are not limited to, an impairment of the creditworthiness of the issuer or material changes in interest rates.

Over-the-counter (“OTC”) swaps and other derivatives are valued daily, primarily using independent pricing services, independent pricing models using market inputs, as well as third party broker-dealers or counterparties.

**1.2 Warrant Valuation**

A listed warrant is valued at the last traded price provided by approved vendors. If there has been no sale on the relevant business day, the warrant is valued at the last traded price from the previous day. On the following days, the security is valued in good faith at fair value. All unlisted warrants are valued in good faith at fair value. Once a warrant has expired, it will no longer be valued.

**1.3 Financial Futures Contracts**

Initial margin deposits are made upon entering into futures contracts. During the period the futures contract is open, changes in the value of the contract are recognized as unrealized gains or losses by “marking-to-market” on a daily basis to reflect the market value of the contract at the end of each day’s trading. Variation margin payments are made or received, depending upon whether unrealized losses or gains are incurred. When the contract is closed, a realized gain or loss is recorded. This realized gain or loss is equal to the difference between the proceeds from (or cost of) the closing transaction and the Fund’s basis in the contract. Open futures contracts are valued using the closing settlement price or, in the absence of such a price, the most recent quoted bid price. If there are no quotations available for the day of valuation, the last available closing settlement price is used.

**1.4 Forward Foreign Currency Contracts**

The unrealized gain or loss on open forward foreign currency contracts is calculated as the difference between the contracted rate and the rate to close out the contract. Realized profit or loss includes net gains or losses on forward foreign currency contracts which have been settled or offset by other contracts with the same counterparty.

**1.5 Options Purchased and Options Written**

When an option is purchased, an amount equal to the premium paid is recorded as an investment and is subsequently adjusted to the current market value of the option purchased. Premiums paid for the purchase of options which expire unexercised are treated on the expiration date as realized losses. If a purchased put option is exercised, the premium is subtracted from the proceeds of the sale of the underlying security or foreign currency in determining whether the relevant Portfolio has realized a gain or loss. If a purchased call option is exercised, the premium increases the cost basis of the security or foreign currency purchased by the relevant Portfolio. When an option is written, an amount equal to the premium received by the relevant Portfolio is recorded as a liability and is subsequently adjusted to the current market value of the option written. Premiums received from written options which expire unexercised are treated by the relevant Portfolio on the expiration date as realized gains. If a written call option is exercised, the premium is added to the proceeds from the sale of the underlying security or foreign currency in determining whether the relevant Portfolio has realized a gain or a loss. If a written put option is exercised,

the premium reduces the cost basis of the security or foreign currency purchased by the relevant Portfolio. Listed put or call options purchased by a Portfolio are valued at the last sale price. If there has been no sale on that day, such securities are valued at the closing bid prices on that day.

**1.6 Investments in other Undertakings for Collective Investment (“UCIs”)**

Investments in other UCIs are valued at the last available NAV for the UCI in question.

**1.7 Swap Agreements**

The Portfolios accrue for interim payments on swap contracts on a daily basis, within income and expenses. Swap contracts are marked to market on a daily basis with fluctuations in value recorded in “Unrealized appreciation (depreciation) on swaps” in the Statement of Assets and Liabilities and “Changes in unrealized gains and (losses) on swaps” in the Statement of Operations and Changes in Net Assets. Once a swap contract has matured or is sold, the net amount is recorded as “Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency” in the Statement of Operations and Changes in Net Assets. The upfront premiums paid or received are recognized as cost or proceeds in the Statement of Assets and Liabilities and are amortized in a straight line basis over the life of the contract. Accruals of amortized upfront premiums on credit default swaps are included in “Swap income” until the position is sold, thereafter the amortized upfront premiums are included within “Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency”. On all other swap types the amortized upfront premiums are included within “Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency”. Fluctuations in the value of swap contracts are recorded as a component of “Changes in unrealized gains and (losses) on swaps” in the Statement of Operations and Changes in Net Assets.

“Upfront premiums paid/(received) on swap contracts” disclosed in the Statement of Assets and Liabilities include premiums paid (received) on the OTC credit default swaps and a margin that is yet to be settled on the centrally cleared credit default swaps.

**2. Organization Expenses**

The organization expenses for the following Portfolios are being amortized on a straight-line basis through the following dates:

<b>AB SICAV I–</b>	<b>Dates</b>
Sustainable Income Portfolio	June 2026
Security of the Future Portfolio	December 2028
Global Growth Portfolio	February 2029
US Value Portfolio	April 2029
Global Equity Income and Growth Portfolio	December 2029

The organization expenses of other existing Portfolios have been fully amortized in prior years.

For USD Corporate Bond Portfolio and Euro Corporate Bond Portfolio, the Investment Manager waived amounts due to them

in relation to formation expenses and therefore the deferred organization expenses asset has been written down on these Portfolios during the period ended November 30, 2025.

### 3. Allocation Method

Income and expenses (except for class-specific management and distribution fees) for the “fixed income” and “balanced” Portfolios are allocated on a daily basis utilizing a hybrid allocation model. This model allocates based upon each class’ proportionate percentage of the combined value of settled shares for those classes which accrue a daily dividend and the value of the shares outstanding for those classes which accrue a monthly dividend or no dividend at all.

Income and expenses for the “equity” Portfolios are allocated on a daily basis by each class’ value of their proportionate shares outstanding.

For all of the Portfolios, realized and unrealized gains and losses are allocated on a daily basis by each class’ value of their proportionate shares outstanding.

Class specific management, management company, distribution fees and realized and unrealized gains and losses on forward foreign currency contracts related to the Currency Hedged Share Classes are charged/allocated directly to the respective class.

Due to the distinct institutional nature of all types of Class S shares of the Portfolios, certain fund expenses, where applicable, are allocated to the Class S shares based upon minimum shareholder activity and account level requirements.

### 4. Currency Translation

Values expressed in a currency, other than the currency in which a Portfolio is denominated, are translated at the average of the last available buying and selling price. Transactions in foreign currencies are translated into the currency of each Portfolio at the exchange rate ruling at the date of the transactions.

The Combined Statement of Assets and Liabilities is presented in U.S. Dollars at the exchange rates ruling at the date of the Combined Statement of Assets and Liabilities, while the Combined Statement of Operations and Changes in Net Assets is presented in U.S. Dollars at the average exchange rates ruling during the period. Exchange rates applied in the financial statements are: spot rate 1.1600 and average rate 1.1633 for EUR to USD, spot rate 0.1414 and average rate 0.1399 for CNH to USD and spot rate 1.3245 and average rate 1.3421 for GBP to USD.

The “Currency translation adjustment” presented in the Statement of Operations and Changes in Net Assets is the result of the difference in exchange rates used to translate combined net assets at the beginning of the year, the Statement of Assets and Liabilities and the Statement of Operations and Changes in Net Assets.

### 5. Investment Income and Investment Transactions

Dividend income is recorded on the ex-dividend date. Interest income is accrued daily. Investment gains and losses for the Portfolios are determined on an average cost basis. The Fund accretes discounts and amortizes premiums as adjustments,

if applicable, to interest income. Investment transactions are recorded on trade date plus one day.

### 6. Estimates

The preparation of the Financial Statements in conformity with accounting principles generally accepted in Luxembourg requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the Financial Statements and the reported amounts of income and expenses during the reporting period. Actual results may differ from those estimates.

### 7. Swing Pricing Adjustment

The Fund implemented a NAV Adjustment Policy, also known as “swing pricing” policy, effective from November 2, 2015. Under this policy, a Portfolio’s NAV may be adjusted to reflect the impact of estimated transaction costs, deal spreads and charges generated by shareholders’ purchase and redemption activity.

Swing pricing is automatically applied when daily net subscriptions or redemptions exceed a threshold specified by the Swing Pricing Committee under the supervision of the Board of Directors.

When swing pricing is applied, the NAV of the relevant Portfolio’s shares will be adjusted up or down, in an amount generally not to exceed 2% of the relevant NAV, so that the transaction costs incurred due to the purchase and redemption activity are borne by the investors transacting in the Portfolio’s shares, rather than the Portfolio itself. This adjustment is intended to minimize dilution of the value of shareholders’ investment in shares of a Portfolio brought on by transactions in the Portfolio’s shares.

The NAV per Share and the total net assets as disclosed in the Statistical Information are the published NAV per Share and the total net assets, whereas the total net assets disclosed in the Statement of Assets and Liabilities and Statement of Operations and Changes in Net Assets is the total NAV excluding any period end swing adjustments.

All Portfolios subject to swing pricing except Sustainable Global Thematic Portfolio, India Growth Portfolio, Sustainable Euro High Yield Portfolio, RMB Income Plus Portfolio, Global Plus Fixed Income Portfolio, Asia Income Opportunities Portfolio, Flexible Income Portfolio, American Growth Portfolio, China Bond Portfolio, Sustainable Income Portfolio, Sustainable Climate Solutions Portfolio, American Multi-Asset Portfolio, USD Corporate Bond Portfolio, Euro Corporate Bond Portfolio and Global Equity Income and Growth Portfolio swung their NAVs during the reporting period and as of November 30, 2025, the following of such Portfolios swung their NAVs: Global Real Estate Securities Portfolio, Emerging Markets Multi-Asset Portfolio, China A Shares Equity Portfolio and Global Value Portfolio.

**NOTE C: Taxes**

As a Luxembourg *société d'investissement* à capital variable (“SICAV”), the Fund is not subject, under present tax laws, to income, withholding or capital gains taxes in Luxembourg.

The Fund is subject to the Luxembourg *taxe d'abonnement* at the rate of 0.05% per annum calculated and payable quarterly, on the aggregate total net assets on the last day of each calendar quarter. The rate is 0.01% for share classes reserved to institutional investors within the meaning of Article 174 of the Law of 2010. Dividends, interest and capital gains on Portfolio securities issued in certain countries may be subject to withholding or capital gains taxes imposed by such countries.

**India**

Capital gains realized on the disposal of Indian listed stocks within 12 months after purchase (short term gains) are subject to a 20% Indian capital gains tax. The disposal of Indian listed stocks after 12 months after purchase (long term gains) are subject to a 12.5% Indian capital gain tax. The capital gains taxes are accrued in the net asset value and included in the Statement of Assets and Liabilities under the heading ‘Accrued expenses and other liabilities’ or ‘Other receivables’ and included in the Statement of Operations and Changes in Net Assets under ‘Capital withholding tax’ for the period ended November 30, 2025.

**People’s Republic of China (PRC)****Corporate Income Tax (“CIT”)**

By investing in shares of PRC resident enterprises (including China A-, B- and H-Shares), RMB denominated corporate and government bonds, securities investment funds and warrants listed on the PRC stock exchanges or PRC inter-bank bond markets, a Portfolio may be subject to withholding income tax (“WIT”) and other taxes imposed in the PRC.

Lacking specific guidance, it is uncertain whether the RQFII or the relevant investing Portfolios would be considered the taxpayer with respect to the PRC-sourced income derived from the investment in bonds, shares and other securities in the PRC. In the event the RQFII were considered to be the taxpayer, any PRC taxes levied against the RQFII would be reimbursed and ultimately borne by the relevant Portfolios of the Fund.

If the relevant Portfolios are deemed to be the taxpayer, then such Portfolios will be subject to PRC CIT at 25% on its worldwide taxable income if it is considered to be a tax resident enterprise of the PRC. If the Portfolio is considered to be a nontax resident enterprise with an establishment or place of business (“PE”) in the PRC, the PRC sourced profits attributable to that PE would be subject to CIT at 25%.

Under the PRC CIT Law effective from 1 January 2008, a foreign enterprise without a PE in the PRC will generally be subject to a WIT at the current rate of 10% on its PRC sourced income, including but not limited to passive income (e.g. dividends, interest, gains arising from transfer of assets, etc.), subject to the application of treaty relief.

The Investment Manager intends to manage and operate the Portfolios in such a manner that the Portfolios and the Fund not be treated as a tax resident enterprise of the PRC or a nontax resident enterprise with a PE in the PRC for CIT purposes, although this cannot be guaranteed. As such, it is expected

that the Portfolios should only be subject to WIT at 10% to the extent the Portfolio directly derives PRC sourced income in respect of its investment in bonds, shares and other securities in the PRC.

**Equity investments**

With the approval from the PRC State Council, the PRC State Administration of Taxation, the PRC Ministry of Finance and the China Securities Regulatory Commission have jointly issued Caishui [2014] 79 (“Circular 79”) to clarify the WIT treatment with respect to gains derived by QFIIs and RQFIIs from the disposal of equity investments, including shares in PRC enterprises. According to Circular 79, QFIIs and RQFIIs are temporarily exempt from WIT with respect to gains derived from the disposal of equity investments, including shares in PRC enterprises (e.g. A-Shares and B-Shares), via the QFII or RQFII investment quota, effective from November 17, 2014.

**PRC tax disclosure regarding Stock Connect**

In addition to investing in A-Shares via the RQFII quota of the RQFII Holder, the Fund may gain exposure to A-Shares through Stock Connect, which has commenced trading as of November 17, 2014.

With the approval from the PRC State Council, the PRC State Administration of Taxation, the PRC Ministry of Finance and the CSRC have jointly issued Caishui [2014] 81 (“Circular 81”) to clarify the PRC tax treatment regarding China Connect Securities. Circular 81 is effective on November 17, 2014.

According to Circular 81, the Fund is subject to the following PRC income tax treatment with respect to the Northbound Trading under Stock Connect (*i.e.* trading of certain A-Shares on the SSE):

- Temporarily exempt from PRC WIT with respect to gains derived from the disposal of A-Shares.
- Subject to PRC WIT at 10% with respect to dividends received from A-Shares.
- Subject to PRC SD at 0.1% with respect to the sale of A-Shares (*i.e.* the purchase of A-Shares is not subject to PRC SD).

Investors should note that Stock Connect has limited or no history, and, accordingly, the taxation rules applicable to China Connect Securities traded on Stock Connect are not long established and subject to change in the future. Investors should seek advice from their professional tax advisors with any questions regarding China Connect Securities.

The PRC Ministry of Finance (“MOF”) and PRC State Taxation Administration (“STA”) have jointly issued Caishui [2018] 108 (“Circular 108”) to clarify the 3-year PRC tax exemption treatment of bond interest derived by foreign institutional investors on 22 November 2018. According to Circular 108 and Announcement [2021] No. 34 (“Announcement 34”), foreign institutional investors are temporarily exempt from WIT and PRC Value-Added Tax with respect to bond interest income derived in the domestic bond market for the period from 7 November 2018 to 31 December 2025.

Neither Circular 108 nor Announcement 34 mentions the retroactive tax collection on bond interest derived prior to 7 November 2018.

**NOTE D: Distributions**

The following tables describe the frequency and nature of distributions, if applicable, for Base Currency Share Classes and suffixes as well as the meaning of other suffixes used by the Fund. Note that the distribution policy of a suffix supersedes the distribution policy of the base Share Class listed below.

Base Share Class	Distribution Policy Details	
	Fixed Income Portfolios	All Other Portfolios
A, B, C, E, I, IX, L, N, RX, XX, Z	Declares distributions daily and pays them monthly	Does not make distributions <sup>1</sup>
AS, EA, F, S, SU, S1, S5, W, 1, 2	Does not make distributions unless a suffix is used, as per below.	

Suffix	Distribution Policy Details
A <i>Example: AA</i>	Declares and pays distributions monthly, based on gross income and may pay out of capital
2 <i>Example: A2, I2</i>	Does not intend to make distributions
3 <i>Example: S13</i>	Does not intend to make distributions
4 <i>Example: S14</i>	Does not intend to make distributions
D <i>Example: AD, SID</i>	For Equity/Multi-Asset Portfolios: declares and pays distributions monthly and may pay out of capital <sup>2</sup> For Fixed Income Portfolios: declares and pays distributions monthly based on net income and may pay out of capital
I <sup>3</sup> <i>Example: AI, EI, EAI</i>	Declares and pays distributions monthly with a distribution rate to be derived from gross income (before deduction of fees and expenses) and from capital (potentially to a significant extent)
T <i>Example: AT</i>	Declares and pays distributions monthly based on net income and may pay out of capital
M <i>Example: AM</i>	Declares and pays distributions monthly at a fixed rate and may pay out of capital
QD <i>Example: SQD, SIQD</i>	Declares and pays distributions quarterly, based on net income, and may pay out of capital
MG <i>Example: AMG</i>	Declares and pays distribution monthly, based on gross income, and may pay out of capital
QG <i>Example: AQG</i>	Declares and pays distribution quarterly, based on gross income, and may pay out of capital
N <i>Example: AN, IN</i>	Does not intend to make distributions <sup>4</sup>

Suffix	Distribution Policy Details
NN <i>Example: ANN, INN</i>	Annual distribution based on net income and will not pay out of capital
K <i>Example: AK, IK</i>	Distributions to be declared and payable bi-annually, based on net income, and may pay out of capital <sup>5</sup>
R <i>Example: AR</i>	Declares and pays distributions annually, based on gross income and may pay out of capital
L <i>Example: IL</i>	Monthly distributions based on net income and will not pay out of capital
P <sup>6</sup> <i>Example: AP, SP</i>	Declares and pays distributions monthly at a predominantly stable rate based on historical investment results and is expected to pay significantly out of capital.

Suffix	Additional information
X/XX <i>Example: A2X, AXX</i>	Designates share classes no longer offered for new investors <sup>7</sup> and may be used in addition to other suffixes relating to distribution.

<sup>1</sup> All Market Income Portfolio Shares: AX, BX, and CX pay distributions quarterly based on net income and may pay out of capital.

<sup>2</sup> Global Real Estate Securities Portfolio: Share Class ID pays distributions annually based on net income.

<sup>3</sup> These share classes are intended to be “decumulating” shares, designed to maximise distributions paid to Shareholders who are seeking high cash flows from their investment. The intended distribution rate will exceed the income attributable to the relevant Share Class and may require a substantial amount being paid from capital attributable to the relevant Share Class. Distributions may come from gross income (before reduction for fees and expenses), realized and unrealized gains and, potentially to a significant extent from capital attributable to the relevant class. Distributions in excess of net income (gross income less fees and expenses) may represent a return of the investor’s original investment amount and as such, may result in a decrease in the Net Asset Value per share for the relevant class. If the Net Asset Value per share falls below, respectively USD 5 (or currency equivalent), the Board will contemplate at its full discretion, either (i) the restructuring of the Share Class including through the reverse split or through the merger with a Share Class with similar features or (ii) the liquidation of the Share Class. Distributions may be automatically reinvested at the election of the Shareholder.

<sup>4</sup> Eurozone Growth Portfolio: may declare and pay distributions annually based on net income and may pay out of capital.

<sup>5</sup> American Growth Portfolio: does not intend to make distributions.

<sup>6</sup> Distributions based on gross total return are largely derived from historical investment results including realized and unrealized capital gains. Gross total return means the capital and income return before the deduction of fees and expenses. Distributions are expected to exceed the increase in the NAV per Share from the net income and realized/unrealized capital gains of the Share Class resulting in erosion of capital.

If the NAV per share of the Share Class falls below USD 10 (or relevant currency equivalent), the Board may either liquidate the Share Class or merge it with another Share Class that has similar features.

<sup>7</sup> Except for Share Classes IX, XX, RX offered in Global Core Equity Portfolio.

There is no guarantee that distributions will be made. A high distribution yield does not necessarily imply a positive or high return. Gross income means income before the deduction of fees and expenses.

All Shares that declare distributions must do so at least once a year (unless there is nothing to distribute or if making distributions is at the discretion of the Board or the Management Company) and must pay them within one month of declaration. When a dividend is declared, the NAV of the relevant Share Class is reduced by the amount of the dividend.

Distributions are paid only on Shares that were owned as of the record date (the date on which distributions are assigned to Shares). For each Share Class, distributions are paid in the currency of that Share Class including the currency offered Share Class.

Unless otherwise specified above, all distributions indicated may consist of net income, gross income (interest and dividends before fees and expenses), realized and unrealized gains from Portfolio investments and/or capital invested in the Portfolio.

Distributions based on net income typically represent net income (gross income less fees and expenses). These distributions are based on actual investment results, do not target or project any particular rate or amount and may vary from one distribution period to another. Distributions in excess of net income may represent a return of the investor’s original investment amount and as such may result in a decrease in the NAV per Share for the relevant Share Class.

Shareholders may request that their distributions be automatically reinvested. Unless reinvested, any distribution from capital may reduce a portfolio’s future growth and increase the chances of capital loss. A high distribution yield does not necessarily imply a positive or high return.

No interest is paid on unclaimed dividend payments, and after 5 years these payments will be returned to the Portfolio.

The Board may offer new and different types of dividend-paying Share Classes for a Portfolio in the future.

The Board intends to maintain a stable distribution rate for the following Share Classes:

Portfolio	Share Classes and corresponding hedged Classes

USD Corporate Bond Portfolio	AT, IT & ZT
Euro Corporate Bond Portfolio	AT, IT & ZT

The rate of distribution is determined by the Board at its discretion based on Portfolio strategy considerations.

During periods of negative performance, the distribution will normally continue to be paid and the capital value of the investment may fall more rapidly. It may not be possible to maintain the stable rate of distribution payment indefinitely and it may be reduced in part, or to zero.

Please note that in relation to the P suffix share classes only, whilst the monthly distribution rate is intended to be predominantly stable, the rate may be subject to adjustment on at least an annual basis and as otherwise required.

**NOTE E: Management Fee and Other Transactions with Affiliates**

The Fund pays the Management Company a management fee. Under the terms of the Investment Management Agreement from the management fee earned, the Management Company pays an investment management fee to the Investment Manager.

The Management Company has voluntarily agreed to bear certain expenses to the extent necessary to limit total operating expenses on an annual basis.

These limitations have been set as follows (limitations expressed as a percentage of the average daily net assets):

Expenses borne by the Management Company are included in the Statement of Operations and Changes in Net Assets under “Expense reimbursed or waived”. Reimbursement receivable is included in the Statement of Assets and Liabilities under “Other receivables” or in “Accrued expenses and other liabilities”.

The Fund also pays its Management Company, a Management Company fee. Specific share classes of each Portfolio will pay the Distributor, a distribution fee, which is compensation for providing distribution related services to the Fund with respect to such shares.

All of the aforementioned fees are accrued at an annual rate on the average daily net assets of each Portfolio and paid monthly.

A list of each Portfolio’s annual rate for their applicable fees can be found in Table 1 (Page 436 to 461). Also, Class B, BD and each applicable H shares are subject to a contingent deferred sales charge at rates of between 0.00% and 4.00%. Class BX and each applicable H shares are subject to a contingent deferred sales charge at rates of between 0.00% and 3.00% or between 0.00% and 4.00%. Class B2, B2X, BT, E, EA, ED, EI and each applicable H shares are subject to a contingent deferred sales charge at rates of between 0.00% and 3.00%. Class C, C2, C2X, CD, CT, CX and each applicable H shares are subject to a contingent deferred sales charge at rates between 0.00% and 1.00% which may be waived in certain circumstances by the dealer.

The Fund compensates its registrar and transfer agent, AllianceBernstein Investor Services, a unit of the Management Company, under a Management Fund Services Agreement for providing personnel and facilities to perform registrar and transfer agency services for the Fund. Such compensation amounted to \$7,175,917 for the period ended November 30, 2025.

The Fund compensates the Investment Manager for certain services provided to the Fund in connection with the registration of the Fund for sale in certain jurisdictions outside of Luxembourg, subject to certain conditions. For the period ended November 30, 2025, such compensation amounted to \$337,944 and is included in “Professional fees” in the Statement of Operations and Changes in Net Assets.

The Fund compensates its legal adviser, Elvinger Hoss Prussen, *société anonyme* for legal services rendered to the Fund. Payments of €37,891 were made for the period ended November 30, 2025 and are included in “Professional fees” in the Statement of Operations and Changes in Net Assets.

The Investment Manager has not entered into transactions in relation to a placing and/or a new issue in which a connected person had a material interest as a member of the underwriting syndicate.

All transactions executed on behalf of the Fund were entered into in the ordinary course of business and/or normal commercial terms.

There was no commission paid for the period ended November 30, 2025 on securities transactions utilizing the services of the affiliated firms, Bernstein Institutional Services LLC and Bernstein Autonomous LLP. Several of the Management Company’s managers are employees and/or officers of the Investment Manager and/or its affiliates.

Global Plus Fixed Income Portfolio invests in AB FCP I – Mortgage Income Portfolio, a portfolio which is managed by the Management Company. US High Yield Portfolio invests in AB FCP I – Mortgage Income Portfolio, a portfolio which is managed by the Management Company. American Multi-Asset Portfolio invests in AB FCP I – American Income Portfolio, a portfolio which is managed by the Management Company.

The Fund’s directors are entitled to remuneration for their services. Such accrued compensation amounted to \$74,287 for the period ended November 30, 2025 and is included in “Miscellaneous” in the Statement of Operations and Changes in Net Assets.

**NOTE F: Soft Commission Arrangements and Transaction Costs**

During the period ended November 30, 2025, where permitted under applicable law, the Investment Manager and any Affiliated Sub-Investment Manager, if applicable, received and entered into soft-dollar commissions/arrangements with brokers relating to Portfolios of the Fund that invest in equity securities, in respect of which certain goods and services used to support the investment decision making process were received. The soft commission arrangements were entered into on the basis that the execution of transactions on behalf of the Fund will be consistent with best execution standard and the Investment Manager considers many factors regarding best execution standards when entering into soft commission arrangements such as the size and nature of brokerage fees.

Additionally, due to the nature of the investment strategy of certain Portfolios, including where the Investment Manager delegates investment management services to AllianceBernstein Limited, AllianceBernstein (Europe) Limited and CPH Capital Fondsmæglerselskab A/S, all costs associated with soft commission arrangements may be “unbundled” and borne by the Investment Manager or its sub-delegates, if required by applicable law.

The goods and services received include specialist industry, company and consumer research, portfolio and market analysis and computer software used for the delivery of such services.

The nature of the goods and services received is such that the benefits provided under the arrangement must be those which assist in the provision of investment services to the Fund and may contribute to an improvement in the Fund’s performance.

For the avoidance of doubt, such goods and services do not include travel, accommodations, entertainment, general administrative goods or services, general office equipment or premises, membership fees, employees’ salaries or direct money payments.

Transaction costs are costs incurred in the acquisition, issue or disposal of transferable securities, money market instruments, derivatives or other eligible assets. They can include bid-ask spread, fees and commissions paid to agents, advisers, brokers and dealers, transaction related taxes and other market charges. They do not include debt premiums or discounts, financing costs or internal administrative or holding costs. Transaction costs are included within the cost of investments in the Portfolio of Investments as well as in the “Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency” and “Changes in unrealized gains and (losses) on investments” in the Statement of Operations and Changes in Net Assets. Transaction costs are excluded from the Total Expense Ratio and/or expense reimbursement calculation.

For the period ended November 30, 2025, the amount of transaction costs incurred by each Portfolio is detailed in the following table:

AB SICAV I-	Transaction costs
International Health Care Portfolio . . . . .	\$ 865,506

**NOTE G: Forward Foreign Currency Contracts**

A forward foreign currency contract is a commitment to purchase or sell a foreign currency at a future date at a negotiated forward rate. The gain or loss arising from the difference between the original contract and the closing of such contract is included in “Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency” in the Statement of Operations and Changes in Net Assets.

Fluctuations in the value of open forward foreign currency contracts are reflected for financial reporting purposes as a component of “Unrealized appreciation/(depreciation) on forward foreign currency contracts” in the Statement of Assets and Liabilities.

One or more of a Portfolio’s share classes offered in a particular currency (each, an “Offered Currency”) may be hedged to such Offered Currency. Any such share class will constitute a “Currency Hedged Share Class”. Currency Hedged Share Classes aim to provide investors a return more closely

correlated to the Portfolio’s base currency return by reducing the effect of exchange rate fluctuations between the portfolio’s base currency and the relevant Offered Currency, taking into account practical considerations such as transaction costs. The hedging strategy employed is designed to reduce, but may not eliminate, currency exposure between the portfolio’s base currency and the Offered Currency. Risks may arise from the potential inability of counterparty to meet the terms of a contract and from unanticipated movements in the value of a foreign currency relative to the hedged currency.

Given that there is no segregation of liabilities between the various share classes within a portfolio, there is a remote risk that, under certain circumstances, currency hedging transactions in relation to a Currency Hedged Share Class could result in liabilities which might affect the NAV of the other share classes of the same portfolio, in which case assets of the other share classes of the portfolio may be used to cover the liabilities incurred by such Currency Hedged Share Class. The securities in the Fund are used as collateral for forward foreign currency contracts including those used for share class hedging.

**NOTE H: Repurchase Agreements**

Repurchase agreements are collateralized by obligations of the United States, its agencies or instrumentalities thereof. The securities underlying the repurchase agreement will be held by the Depository at all times in an amount at least equal to the repurchase price, including accrued interest.

At November 30, 2025, there were no repurchase agreements.

There was no interest income arising from repurchase agreements during the period ended November 30, 2025.

**NOTE I: Reverse Repurchase Agreements**

Reverse repurchase agreements are identical to repurchase agreements except that rather than buying securities for cash subject to their repurchase by the seller, a Fund sells portfolio assets concurrently with an agreement by the Fund to repurchase the same assets at a later date at a fixed price slightly higher than the sale price. During the reverse repurchase agreement period, the Fund continues to receive principal and interest payments on these securities. Generally, the effect of a reverse repurchase agreement is that the Fund can recover all or most of the cash invested in the portfolio securities involved during the term of the reverse repurchase agreement, while it will be able to keep the interest income associated with those portfolio securities.

Such transactions are advantageous only if the “interest cost” to the Fund of the reverse repurchase transaction, i.e., the difference between the sale and repurchase price for the securities, is less than the cost of otherwise obtaining the cash invested in portfolio securities.

At November 30, 2025, there were no reverse repurchase agreements.

There was no interest income arising from reverse repurchase agreements during the period ended November 30, 2025.

**NOTE J: Financial Futures Contracts**

The Fund may buy or sell financial futures contracts. The Fund bears the market risk that arises from changes in the value of these financial instruments. The Fund’s activities in financial futures contracts are conducted through regulated exchanges, which do not result in counterparty credit risk.

At the time the Fund enters into a financial futures contract, the Fund deposits and maintains with the broker as collateral an initial margin as required by the exchange on which the transaction is effected.

Pursuant to the contract, the Fund agrees to receive from or pay to the broker an amount of cash equal to the daily fluctuation in the value of the contract. Such receipts or payments are known as the variation margin and are recorded by the Fund as unrealized gains or losses. When the contract is closed, the Fund records a realized gain or loss equal to the difference between the value of the contract at the time it was opened and the time it was closed.

**NOTE K: Swap Transactions**

A swap is an agreement that obliges two parties to exchange a series of cash flows at specified intervals based upon or calculated by reference to changes in specified prices or rates for a specified amount of an underlying asset or otherwise determined notional amount. Realized gains and (losses) and changes in unrealized gains and (losses) on swaps are included in the Statement of Operations and Changes in Net Assets respectively under “Realized gains and (losses) on investments, forward foreign currency contracts, swaps, financial futures contracts, options and currency” and as a component of “Change in unrealized gains and (losses) on swaps”.

**Credit Default Swaps**

The buyer in a credit default swap agreement is obliged to pay the seller a periodic stream of payments over the term of the contract in return for a contingent payment upon the occurrence of a credit event with respect to an underlying reference obligation.

**Interest Rate Swaps**

An interest rate swap is a bilateral agreement in which each of the parties agree to exchange a series of fixed or floating interest rate payments based on a notional amount that serves as a computation basis.

**Centrally Cleared Credit Default Swaps**

The buyer in a centrally cleared credit default swap agreement is obliged to pay the seller a periodic stream of payments over the term of the contract in return for a contingent payment upon the occurrence of a credit event with respect to an underlying reference obligation.

**Inflation Swaps**

An inflation swap is a bilateral agreement in which each of the parties agree to exchange fixed rate payments for floating, inflation index linked payments based on a notional amount that serves as a computation basis.

**Centrally Cleared Interest Rate Swaps**

A centrally cleared interest rate swap is a bilateral agreement in which each of the parties agree to exchange a series of fixed or floating interest rate payments based on a notional amount that serves as a computation basis.

**Variance Swaps**

Variance swaps are contracts in which two parties agree to exchange cash payments based on the difference between the stated level of variance and the actual variance realized on underlying asset(s) or index(es). Actual “variance” as used here is defined as the sum of the square of the returns on the reference asset(s) or index(es) (which in effect is a measure of its “volatility”) over the length of the contract term. So the parties to a variance swap can be said to exchange actual volatility for a contractually stated rate of volatility.

**Total Return Swaps**

A total return swap is a bilateral agreement in which each of the parties agree to exchange the total performance of an underlying asset for a series of interest payments based on a notional amount that serves as a computation basis.

default will not yield proceeds sufficient to replace the loaned securities.

In determining whether to lend securities to a particular borrower, the Investment Manager will consider all relevant facts and circumstances, including the creditworthiness of the borrower.

**NOTE L: Loans of Portfolio Securities**

A Portfolio may make secured loans of its securities. The risk in lending securities, as with other extensions of credit, consists of possible loss of rights in the collateral should the borrower fail financially. In addition, a Portfolio will be exposed to the risk that the sale of any collateral realized upon the borrower’s

While securities are on loan, the borrower may pay a Portfolio concerned any income from the securities. A Portfolio may invest any cash collateral in money market instruments, thereby earning additional income, or receive an agreed upon amount of income from a borrower who has delivered equivalent collateral.

A Portfolio may have the right to regain record ownership of loaned securities or equivalent securities in order to exercise ownership rights such as voting rights, subscription rights and rights to dividends, interest or distributions. A Portfolio may pay reasonable finders', administrative and other fees in connection with a loan. For making secured loans of its securities, a Portfolio receives gross fee income, of which 20% is paid to securities lending agent for providing securities lending services.

For the period ended November 30, 2025, the Portfolios earned a net fee income, which is presented in Statement of Operations and Changes in Net Assets under "Securities lending income, net".

For the period ended November 30, 2025 Brown Brothers Harriman & Co. (acting as securities lending agent until August 27, 2025) earned a fee of \$139,020 for providing securities lending services. This is included in the Statement of Operations and Changes in Net Assets under "Securities lending income, net".

Effective on August 28, 2025, securities lending services were transferred to Mitsubishi UFJ Trust and Banking Corporation acting through its New York Branch ("MUTB"). For the period ended November 30, 2025 MUTB earned a fee of \$21,959 for providing securities lending services. This is included in the Statement of Operations and Changes in Net Assets under "Securities lending income, net".

**NOTE M: Bank Facility**

The Fund has access to an overdraft facility (the "Facility"), established with the Depository, intended to provide for short-term/temporary financing if necessary, subject to certain restrictions, in connection with abnormal redemption activity.

**NOTE N: Option Transactions**

The Fund may purchase and write (sell) put and call options on securities. The risk associated with purchasing an option is that the Fund pays a premium whether or not the option is exercised. Additionally, the Fund bears the risk of loss of the premium and a change in market value should the counterparty not perform under the contract. Put and call options purchased are accounted for in the same manner as portfolio securities. The cost of securities acquired through the exercise of call options is increased by the premiums paid. The proceeds from securities sold through the exercise of put options are decreased by the premiums paid.

When the Fund writes an option, the premium received by the Fund is recorded as a liability and is subsequently adjusted to the current market value of the option written.

Premiums received from written options which expire unexercised are recorded by the Fund on the expiration date as realized gains from options written. The difference between the premium received and the amount paid on effecting a closing purchase transaction, including brokerage commissions, is also treated as a realized gain, or if the premium received is less than the amount paid for the closing purchase transaction, as a realized loss. If a call option is exercised, the premium received

The value of loaned securities and related collateral outstanding as of November 30, 2025, are as below. The collateral relates to securities held on the Portfolios.

AB SICAV I-	Value	Collateral Market Value
International Health Care Portfolio . . . . .		
HSBC Bank	\$ 27,711,788	30,186,355
International Technology Portfolio . . . . .		
Merrill Lynch	\$ 1,170,514	1,233,637
Emerging Markets Multi-Asset Portfolio . . . . .		
HSBC Bank	\$ 359,772	391,899
Low Volatility Equity Portfolio . . . . .		
HSBC Bank	\$ 9,181,273	10,001,130
Global Core Equity Portfolio . . . . .		
HSBC Bank	\$ 33,776,930	36,793,090
Citigroup Global Markets Limited	\$ 5,593,238	5,922,983
All China Equity Portfolio . . . . .		
Merrill Lynch	\$ 850,552	896,421
Citigroup Global Markets Limited	\$ 32,052	33,941

Each Portfolio of the Fund is limited to borrowing 10% of its respective net assets. Borrowings pursuant to the Facility are subject to interest at a mutually agreed upon rate and security by the underlying assets of each Portfolio.

is added to the proceeds from the sale of the underlying security or currency in determining whether the Fund has realized a gain or loss. If a put option is exercised, the premium received reduces the cost basis of the security or currency purchased by the Fund. In writing an option, the Fund bears the market risk of an unfavorable change in the price of the security or currency underlying the written option.

Exercise of an option written by the Fund could result in the Fund selling or buying a security or currency at a price different from the current market value.

The Fund may also invest in options on swap agreements, also called swaptions. A swaption is an option that gives the buyer the right, but not the obligation, to enter into a swap on a future date in exchange for paying a market-based premium.

A receiver swaption gives the owner the right to receive the total return of a specified asset, reference rate, or index. A payer swaption gives the owner the right to pay the total return of a specified asset, reference rate, or index. Swaptions also include options that allow an existing swap to be terminated or extended by one of the counterparties.

**NOTE O: Collateral**

**NOTE P: Co-Management of Assets**

For the purpose of effective management, where the investment policies of a Portfolio so permit, the Management Company may choose to co-manage assets of certain Portfolios within or outside the Fund. In such cases, assets of different Portfolios will be managed in common. The assets which are co-managed shall be referred to as a “pool”. These pooling arrangements are an administrative device designed to reduce operational and other expenses and do not change the legal rights and obligations of Shareholders. The pools do not constitute separate entities and are not directly accessible to investors. Each of the co-managed Portfolios shall remain entitled to its specific assets. Where the assets of more than one Portfolio are pooled, the assets attributable to each participating Portfolio will initially be determined by

reference to its initial allocation of assets to such a pool and will change in the event of additional allocations or withdrawals.

The entitlements of each participating Portfolio to the co-managed assets apply to each and every line of investments of such pool. Additional investments made on behalf of the co-managed Portfolios shall be allotted to such Portfolios in accordance with their respective entitlement, whereas assets sold shall be levied similarly on the assets attributable to each participating Portfolio.

As of November 30, 2025, the Fund co-manages the assets of certain Portfolios within the Fund utilizing the following pool:

Asset Pool	Participating Portfolios
AB – Global Growth Pool . . . . .	Sustainable Global Thematic Portfolio
AB – Global Value Pool . . . . .	Global Value Portfolio

**NOTE Q: Clearing Reserve Fund**

(The following applies to China A Shares Equity Portfolio) Under the Investment Regulations, the Sub-Custodian is required to deposit a minimum clearing reserve fund as a percentage of the ABL Quota, the percentage amount to be determined from

time to time by the China Securities Depository & Clearing Corporation Limited (“CSDCC”) Shanghai and Shenzhen branches. Currently, the minimum clearing reserve ratio determined by the CSDCC Shanghai and Shenzhen branches is 0.06%.

**NOTE R: Incentive Fee**

**Select Absolute Alpha Portfolio**

At the end of each partial financial year/ financial year, the Investment Manager received/will receive an amount equal to 20% (10% for Class F Shares and 15% for S13 Shares) of the amount by which the “Adjusted NAV” (as defined below) of each of the relevant Share Classes exceeds the “High-Water Mark” (as defined below) at the end of the last day of a financial year.

Defined terms:

“Adjusted NAV” means the Net Asset Value per share before the reduction for the current financial year’s incentive fee, if any.<sup>1</sup>

“High-Water Mark” or “HWM” means, for a Share Class, the NAV per share at the end of the last day of the most recent financial year in which the last incentive fee was paid or, if no

incentive fee has been paid, the initial offering price of such Share Class at issue.

“Current Shares Outstanding” means the total Shares in issue, for each Share Class, on each day of the Portfolio’s financial year.

“Subscription Adjustment” means the prior day unrealized incentive fee divided by the prior day shares outstanding multiplied by the gross subscription shares.

“Cumulative Subscription Adjustment” means the cumulative prior days’ Subscription Adjustment over the reference period plus the current day Subscription Adjustment.

“Reference Period” means the period equal to at least 12 months, which begins either at the issue of the Share Class or at the time the last incentive fee has been paid. The reference period will always end at a financial year end, except in the case of a Share Class liquidation.

If there is a redemption in a Share charging Incentive Fees at any point during the year, other than as of the end of a financial year, an incentive fee with respect to such Share will be determined for such partial financial year and paid as of such date regardless of whether the financial year end Adjusted NAV exceeds the High-Water Mark. The High-Water Mark is not reset on those Business Days at which incentive fees crystallize following the redemption of Shares.

In accordance with ESMA guidelines 34/39/992 on performance fees in UCITS and certain types of AIFs, the Board will reset the High-Water Mark if no incentive fee has been paid during a five year performance reference period.

The following share classes (and corresponding H classes) do not charge an Incentive Fee: S and Z.

As of November 30, 2025 incentive fees payable was \$8,016,048. This is included within the line item "Accrued expenses and other liabilities" in the Statement of Assets and Liabilities.

For the period ended November 30, 2025, the following share classes had incentive fees as follows:

Share Class	Incentive Fee charged	Percentage incentive fee based on the average share class NAV
A	\$ 2,654,575	1.59%
A CHF H	6,223	1.58%
A EUR	228,399	1.59%
A EUR H	936,259	1.54%
A GBP H	68,287	1.58%
A PLN H	1,066	0.92%
A SGD H	24,873	1.59%
C	311,585	1.55%
FX	22,543	0.86%
FX EUR H	1,076	0.86%

**NOTE S: Joint Credit Facility**

The Fund together with other investment funds (the "participating funds") participates in a \$400 million revolving credit facility (the "Credit Facility") intended to provide short-term financing related to redemptions and other short term liquidity requirements, subject to certain restrictions.

**NOTE T: Subsequent Events**

Effective January 1, 2026, the sub-investment manager of the Fund, CPH Capital Fondsmæglerselskab A/S merged into AllianceBernstein (Europe) Limited.

Effective February 6, 2026, the portfolio AB SICAV I - China Net Zero Solutions Portfolio will merge into AB SICAV I - China A Shares Equity Portfolio.

Share Class	Incentive Fee charged	Percentage incentive fee based on the average share class NAV

<sup>1</sup> For the avoidance of doubt, the Adjusted NAV is net of costs

Fees related to the Credit Facility are paid by the participating funds and are included in miscellaneous expenses in the combined statement of operations. The Fund did not utilize the Credit Facility during the period ended November 30, 2025.

Effective February 27, 2026, the portfolio AB SICAV I - Global Growth Portfolio will merge into AB SICAV I - Concentrated Global Equity Portfolio which will also undergo a change of investment policy and a change of name into AB SICAV I - Global Growth Portfolio.

BNP Paribas, Paris, succursale de Zurich, was authorized by the Swiss Financial Market Supervisory Authority FINMA as Swiss representative of the Fund, and also acts as paying agent. The prospectus, KIDs, the articles of incorporations of the Fund, the annual and semi-annual reports, as well as the list of the purchases and sales which the Fund has undertaken during the financial year, may be obtained, on simple request and free of charge, at the head office of the Swiss representative, BNP Paribas, Paris, Zurich branch, Selnaustrasse 16, CH-8002 Zürich, Switzerland.

The Fund's publications in Switzerland are on [www.fundinfo.com](http://www.fundinfo.com). The issue and redemption prices of the Shares of the Fund, respectively the NAV per Share (with the mention "excluding commissions"), are published jointly and on a daily basis on [www.fundinfo.com](http://www.fundinfo.com).

Information in relation to facilities for investors related to Article 92 1. b) to f) of the UCITS Directive for Austria, Belgium, Croatia, Cyprus, Czech Republic, Denmark, Finland, France, Germany, Greece, Hungary, Iceland, Ireland, Liechtenstein, Luxembourg, The Netherlands, Norway, Poland, Portugal, Romania, Slovakia and Sweden is available at [www.eifs.lu/alliancebernstein](http://www.eifs.lu/alliancebernstein). Facilities requirements for investors related to Article 92 1. a) of the UCITS Directive will be processed by AllianceBernstein (Luxembourg) S.à r.l.

Please note that with effect from September 24, 2008, the International Health Care Portfolio is no longer available for investment by CPF members using CPF monies. This Portfolio will however continue to be subject to the investment guidelines issued by the Singapore CPF Board (the "CPF Investment Guidelines"), as the same may be modified, amended, re-enacted or reconstituted from time to time by the CPF Board.

**The Net Asset Value of the Portfolios of the Fund are published on a daily basis at [www.alliancebernstein.com](http://www.alliancebernstein.com)**

**PEA Eligibility (Plan d'Épargne en Actions)**

The Plan d'Épargne en Actions ("PEA") is a French tax savings plan that allows French residents to benefit from certain tax exemptions for investing in European equities. A PEA eligible fund must permanently invest at least 75% of its net assets in PEA eligible equity-related securities (excluding convertible bonds) of companies established in a European Union Member State or in Liechtenstein, Iceland and Norway and subject to corporate income, or an equivalent, tax.

**Securities Financing Transaction Regulation**

The Securities Financing Transaction Regulation ("the SFTR") introduces reporting requirements for securities financing transactions ("SFTs") and total return swaps.

A SFT is defined as per Article 3(11) of the SFTR as:

- a repurchase/reverse repurchase agreement;
- securities or commodities lending and securities or commodities borrowing;
- a buy-sell back transaction or sell-buy back transaction; or
- a margin lending transaction.

During the period ended November 30, 2025, the Fund had entered into securities lending and total return swaps (TRS) as type of instrument in scope of the SFTR.

**Global Data**

The amount of assets across all SFTs and total return swaps as at November 30, 2025 is as follows:

**International Health Care Portfolio**

Type of asset	Amount	% of NAV	% of lendable assets
Securities lending	\$27,711,788	0.64%	1.26%

The key information documents (KIDs) of the Fund are made available at [www.alliancebernstein.com/go/kid](http://www.alliancebernstein.com/go/kid).

**Notice to Shareholders**

If required by law and applicable regulations, notice to shareholders will be published in the *Recueil Electronique des Sociétés et Associations* (formerly the "Mémorial") and in such other newspaper(s) in such countries as the Management Company may from time to time determine.

**Changes in the Investment Portfolio**

Changes in the Portfolio of Investments during the reporting period are available free of charge to the Shareholders at the registered office of the Management Company.

**Controversial Weapons Policy**

The Management Company arranges for the screening of companies globally for their involvement in the production of anti-personnel mines, cluster munitions and/or munitions made with depleted uranium, biological weapons, chemical weapons and/or incendiary weapons. Where such involvement in production has been verified, the Management Company's policy is not to permit the Fund to invest in securities issued by such companies.

Through the period ended November 30, 2025, the following Portfolio invested primarily in PEA eligible equity - related securities, with the daily average percentage of investment in such securities as follows:

Portfolio	Daily Average (%)
Eurozone Growth Portfolio	88.68%

**International Technology Portfolio**
