

UCITS under Directive 2009/65/EC

Prospectus

ODDO BHF GLOBAL TARGET 2026

1. GENERAL CHARACTERISTICS

Name: **ODDO BHF Global Target 2026** (hereinafter the “Fund”).

Legal form and Member State in which the Fund was established: French Common Fund (FCP).

Inception date: This Fund was approved by the Autorité des Marchés Financiers on 5 July 2019. It was created on 9 September 2019 for a term of 99 years.

Fund overview:

| Unit classes | CHARACTERISTICS | | | | | |
|--------------|-----------------|---------------|---|----------------------------|-------------------------------|--|
| | ISIN | Base currency | Appropriation of distributable income | Minimum initial investment | Minimum subsequent investment | Target investors |
| CR-EUR | FR0013426657 | EUR | Income: Accumulation Capital gains or losses: accumulation | EUR 100 | 1 thousandth of a unit | All subscribers, and particularly natural persons |
| CI-EUR | FR0013426665 | EUR | Income: Accumulation Capital gains or losses: accumulation | EUR 250,000* | 1 thousandth of a unit | Units reserved for eligible counterparties and professional investors within the meaning of Directive 2014/65/EU (or “MiFID II”). |
| CN-EUR | FR0013426673 | EUR | Income: Accumulation Capital gains or losses: accumulation | EUR 100 | 1 thousandth of a unit | These units are available solely at the discretion of the Management Company and do not pay any distribution fees or rebates. Units reserved for (i) investors subscribing via an intermediary providing the service of investment advice on an independent basis pursuant to MiFID II, (ii) investors subscribing via a financial intermediary on the basis of a fee agreement concluded between the investor and the intermediary and mentioning that the intermediary is exclusively paid by the investor, (iii) companies providing the service of portfolio management pursuant to MiFID II, (iv) UCIs managed by ODDO BHF Group entities, and (v) ODDO BHF SCA when providing the service of investment advice on the basis of a written fee agreement concluded with its client |
| DR-EUR | FR0013426681 | EUR | Income: Distribution Capital gains or losses: distribution and/or accumulation | EUR 100 | 1 thousandth of a unit | All subscribers, and particularly natural persons |
| DI-EUR | FR0013426699 | EUR | Income: Distribution | EUR 250,000* | 1 thousandth of a unit | Units reserved for eligible counterparties and professional investors within the meaning of |

2. DIRECTORY

MANAGEMENT COMPANY

ODDO BHF ASSET MANAGEMENT SAS, a *société par actions simplifiée* (simplified joint stock company) (hereinafter the “**Management Company**”)

Portfolio management company approved by the AMF (number GP 99011)
12, Bd de la Madeleine - 75009 Paris

CUSTODIAN, DEPOSITORY

ODDO BHF SCA, a *société en commandite par actions* (general partnership limited by shares) (hereinafter the “**Custodian**”)

The Custodian of the ODDO BHF SCA fund is an institution approved by the French Prudential Control and Resolution Authority (ACPR).

Description of the responsibilities of the Custodian and potential conflicts of interest:

ODDO BHF SCA acts as custodian for the Fund.

The Custodian carries out the following duties, as defined in the applicable regulations: holding the portfolio assets in safekeeping, overseeing the Management Company’s decisions and monitoring the Fund’s cash flow.

By virtue of delegation by the Management Company, the Custodian is also responsible for the management of Fund liabilities, which includes centralising subscription and redemption orders for Fund units, as well as keeping an account of Fund units issued.

In certain countries, the Custodian delegates its safekeeping activities. A description of the safekeeping activities delegated, the list of delegates and sub-delegates of the Custodian and information on the conflicts of interest liable to result from such delegation are available on the Management Company’s website: am.oddo-bhf.com Investors may also request up-to-date information on this from the Management Company.

As an entity, the Custodian is independent of the Management Company.

ADMINISTRATION AND ACCOUNTING DELEGATED TO

EUROPEAN FUND ADMINISTRATION France SAS (EFA France)

17, rue de la Banque
75002 Paris

The role of EFA is to calculate the net asset value of the Fund and other services listed in the agreement. Any conflicts of interest arising as a result of this delegation will be handled in accordance with the policy for managing conflicts of interest, available on the Management Company’s website: am.oddo-bhf.com

STATUTORY AUDITOR:

PWC Audit

63 rue de Villiers

92208 Neuilly-sur-Seine

Represented by Mr Frédéric Sellam

PROMOTERS:

ODDO BHF Asset Management SAS, a *société par actions simplifiée* (simplified joint stock company)

Portfolio Management Company approved by the AMF (number GP 99011)

12, Bd de la Madeleine – 75009 Paris

The list of promoters is not exhaustive mainly due to the fact that the Fund is listed on Euroclear. Thus, some promoters may not be mandated by or known to the Management Company.

ADVISER:

None

DELEGATEES:

The Management Company delegates the portfolio's management to ODDO BHF Asset Management GmbH (hereinafter the "Delegate"), authorised by the *Bundesanstalt für Finanzdienstleistungsaufsicht* (BaFin).

AGENT FOR RECEIVING SUBSCRIPTION AND REDEMPTION ORDERS AS DELEGATED BY THE MANAGEMENT COMPANY:

ODDO BHF SCA, a *société en commandite par actions* (general partnership limited by shares)

Bank approved by the French Prudential Control and Resolution Authority

12, Bd de la Madeleine – 75009 Paris

AGENT FOR RECEIVING SUBSCRIPTION AND REDEMPTION ORDERS:

CACEIS BANK, Luxembourg Branch (prior to centralising)

5, allée Scheffer

L-2520 Luxembourg

3. OPERATING AND MANAGEMENT PROCEDURES

- GENERAL CHARACTERISTICS OF THE UNITS:

Rights attached to the units: The rights of the Fund's co-owners are represented by units, with each unit corresponding to the same fraction of the Fund's assets. Each unitholder has a co-ownership right in the assets of the Fund proportional to the number of units they hold.

The distributable income consists of:

1. The net income for the financial year plus retained earnings, plus or minus the balance of the income equalisation accounts for the last financial year.
2. The realised capital gains, net of fees, minus realised capital losses, net of fees, recorded during the financial year, plus net capital gains of the same kind recorded during previous financial years and that have not been subject to distribution or accumulation, plus or minus the balance of the capital gains equalisation accounts.

The categories of income referenced in points 1° and 2° respectively may be distributed, in full or in part, independently of each other.

Inclusion in a register: The Management Company delegates the management of liabilities to the Custodian.

Voting rights: No voting rights are attributed to the ownership of units, decisions concerning the Fund being taken by the Management Company. The voting rights attached to the securities held by the Fund are exercised by the Management Company, which has the sole power to take decisions, pursuant to regulations in force. The Management Company's voting policy may be consulted at its registered office or online at <http://am.oddo-bhf.com>, in accordance with article 314-100 of the AMF General Regulation. Unitholders can obtain a report of the Management Company's voting activities from the Management Company.

Form of units: Listed on Euroclear France.

Units are issued in bearer form. They cannot be issued in or converted into registered form.

Fractions of units: Subscriptions and redemptions in thousandths of units.

Financial year-end: The last trading day of December in Paris. End of first financial year: 31/12/2020.

Tax regime: As of 1 July 2014, the Fund shall be governed by the provisions of Appendix II, point II. B. of the Agreement (IGA) signed on 14 November 2013 between the government of the French Republic and the government of the United States of America so as to improve compliance with tax obligations at an international level and implement the act governing compliance with these obligations for foreign accounts (FATCA).

This prospectus does not purport to set out the tax implications for investors of subscribing, redeeming, holding or selling the Fund's units. These implications will vary, depending on the laws and practices that apply in the country of residence, domicile or incorporation of the unitholders and on their personal situations.

Abroad, in the countries where the Fund invests, capital gains on the sale of securities and income from foreign sources received by the Fund may be subject to tax, generally in the form of withholding tax. The amount of withholding tax due may be reduced or waived when the governments in question have signed tax treaties.

Depending on your tax status, your country of residence or the jurisdiction from which you invest in the Fund, any capital gains and income resulting from the holding of units of the Fund may be subject to taxation. We advise you to consult a tax advisor in relation to the potential consequences of purchasing, holding, selling or redeeming units of the Fund according to the laws of your country of tax residence, ordinary residence or domicile.

Neither the Management Company nor the promoters shall accept any responsibility whatsoever for any tax consequences that may arise for investors following a decision to purchase, hold, sell or redeem units of the Fund.

Unit redemption followed by subscription

As the Fund is made up of several unit classes, switching from one class of units by means of a redemption followed by a subscription of another class of units (including conversions) constitutes, for tax purposes, a sale in return for payment of a consideration likely to generate a taxable gain.

Delegation of financial management: ODDO BHF Asset Management (GmbH)

Fund of funds: Less than 10% of the net assets.

Investment objective: The Fund aims to increase the value of the portfolio, in the medium and long term, through speculative (high yield) bonds from corporate issuers, rated between BB+ and B- (Standard & Poor's or equivalent as assessed by the Management Company or according to its own internal rating), and is therefore exposed to a risk of capital loss.

The investment objective varies depending on the share class subscribed:

- for CR-EUR, DR-EUR and DR-USD (H) units: the investment objective is to achieve a net annualised performance above 2.30% over an investment period running from the Fund inception date, 9 September 2019, to 31 December 2026;
- for CI-EUR, DI-EUR and DI-USD (H) units: the investment objective is to achieve a net annualised performance above 2.90% over an investment period running from the Fund inception date, 9 September 2019, to 31 December 2026;
- for CN-EUR, DN-EUR, CN-USD (H) and CN-CHF (H) units: the investment objective is to achieve a net annualised performance above 2.80% over an investment period running from the Fund inception date, 9 September 2019, to 31 December 2026;
- for DRw-EUR units: the investment objective is to achieve a net annualised performance above 2.15% over an investment period running from the Fund inception date, 9 September 2019, to 31 December 2026;
- for DIw-EUR units: the investment objective is to achieve a net annualised performance above 2.75% over an investment period running from the Fund inception date, 9 September 2019, to 31 December 2026.

This investment objective takes into account the estimated default risk, the cost of hedging and management fees.

This objective is based on the realisation of market assumptions laid down by the Management Company. It does not under any circumstances constitute the promise of a return or a performance by the Fund.

Investors should be aware that the performance indicated in the Fund's investment objective does not include all cases of default and is based on estimates in view of market assumptions made at a given time.

Investment period: The Fund implements its investment strategy over an investment period where the end-date is fixed by the Management Company.

The investment period end date is initially fixed at 31 December 2026. The Management Company may decide to extend the investment period, according to market conditions on this date and the likelihood that it can achieve what it considers to be a solid investment objective. Such an extension must be decided two months before the expiry of the previous period.

Depending on market conditions, the Management Company may decide to liquidate or merge the Fund before its term ends on 31 December 2026.

Benchmark index: The Fund does not have a benchmark index. The average maturity of the Fund's bond portfolio is around seven years as of the Fund's inception date. This average maturity decreases each year to become equal to that of a money market investment in 2026.

Investment strategy:

The Fund's key investment characteristics:

| Geographical zone of issuers of securities | Investment range |
|---|---|
| OECD | Minimum 60% |
| Outside the OECD, including Emerging Countries: | Maximum 40% |
| Base currency of the securities | All currencies from OECD countries including EUR, USD, GBP and CHF |
| Level of currency risk | The Fund is hedged against currency risk; however, there is a residual risk of no more than 5%. |
| Average duration of debt securities | 0 to 7 |

Strategies used:

The Fund's investment strategy is to manage, on a discretionary basis, a diversified portfolio of debt securities composed, up to a limit of 100% of the Fund's net assets, of traditional, high yield bonds rated between BB+ and B- (by Standard & Poor's or equivalent as assessed by the Management Company, or according to its own internal rating), of which at least 60% are issued by corporate issuers with their registered office in an OECD member country and with maturities of a maximum of six months and one day after 31 December 2026 (final maturity of the product or early redemption options at the Fund's discretion).

The strategy is not limited to holding bonds; the Management Company may make changes to the portfolio to take advantage of new opportunities in the market, or if it detects an increase in the risk of default of one of the issuers in the portfolio.

Within the limit of 40% of the net assets, the Fund may hold securities from corporate issuers whose registered office is located outside of the OECD, including in emerging countries.

The Fund seeks to maximise the portfolio's average yield-to-maturity at the maturity date of 31 December 2026 and select the issuers with the lowest default risk in light of the return offered and fundamental analysis of the various risk factors inherent to said issuers. It seeks to select securities that the manager deems to have been unjustly downgraded by rating agencies.

By taking a large number of factors into account when selecting assets, the Fund can:

- adopt an investment strategy based on bond-picking, combined with technical analysis, when constructing the portfolio, while consistently seeking an attractive risk/return ratio, according to the Management Company's assessment;
- manage the portfolio's investment return depending on changes in interest rates and/or spreads;
- monitor and measure geographical and sector exposure;
- integrate purchases and sales through simulations which make it possible to foresee developments in the portfolio.

The Fund's investment universe is made up of companies included in the following credit market indices: ICE BofAML BB Euro High Yield Index (HE1C) and ICE BofAML SingleB Euro High Yield Index (HE20).

ESG (environmental, social and governance) criteria are another factor in fundamental analysis. **The management team takes ESG (environmental, social and governance) criteria into account in its investment decisions but they are not the dominant factor, so the investment decisions taken may not be consistent with ESG criteria.**

This approach can be broken down into two consecutive stages.

First stage:

The Fund applies the common exclusion framework as detailed in the Management Company's exclusion policy, which is available at am.oddo-bhf.com. This framework covers coal, oil and non-conventional weapons, in particular. Adult entertainment will also be excluded from all investments in the fund.

Second stage: this step involves taking into account the ESG rating of a large majority of the companies in the investment universe from our internal rating system using a combination of two approaches:

- 1) "best-in-universe": the management team favours the highest rated issuers regardless of their size and sector of activity.
- 2) "best effort": the management team values the progress made over time by issuers, thanks to direct dialogue with them.

These two stages may mean that companies excluded because of their low ESG profile but with strong potential for progress in sustainability may be brought back into the investment universe.

As part of the company rating process, the following criteria, among others, are analysed:

- Environmental: energy consumption, water consumption, waste management, environmental certifications, products and services with added environmental value or climate risk management.

- Social: human capital (human resources management, diversity of management teams, employee training, health and safety, etc.), supplier management or innovation.
- Governance: corporate governance (preservation of minority shareholder's interests, composition of governance bodies, remuneration policy, etc.), fiscal responsibility, or exposure to risk of corruption.

The Management Company pays close attention to the analysis of human capital and corporate governance, which has an impact on the final ESG rating of each company. We believe that poor human capital management or corporate governance failures pose a major risk to the execution of a company's strategy and therefore to its valuation.

Our analyses are conducted in collaboration by our management and our ESG analyst teams, and enable us to identify the non-financial risks to which each issuer is potentially exposed (corruption, reputation, regulation, retention of talent, product quality and safety, etc.). They allow us to understand if these constitute a significant risk in the delivery of the strategy and published targets. In this way, the result of our ESG analysis is a concrete expression of the risk of executing an issuer's medium and long-term strategy.

The analysis of controversies (industrial accidents, pollution, convictions for corruption, anti-competitive practices, product safety, supply chain management, etc.), based on information provided by our external non-financial data provider, is integrated into the rating process and directly influences the ESG rating of each company.

This internal ESG analysis results in an internal rating system on a scale of 1 (worst) to 5 (best): High ESG Opportunity (5), ESG Opportunity (4), ESG Neutral (3), Moderate ESG Risk (2) and High ESG Risk (1).

For stocks not monitored by the Management Company's internal rating process, the Management Company relies on non-financial data provided by an external service provider.

The Management Company undertakes that 75% of the debt securities and money market instruments with a high yield credit rating and at least 90% of debt securities and money market instruments with an investment grade credit rating have an ESG rating within the Fund (after taking into account the weighting of each security).

These ESG ratings are taken into account by the management teams in order to ensure a certain level of overall ESG quality within the portfolio.

The management team may select stocks that are not included in the Fund's investment universe.

Given the Fund's performance target and specific maximum maturity for securities held, the selection of securities may vary over time at the portfolio manager's discretion, depending on market opportunities and the maturing of securities. In particular, the Fund may invest up to 100% of its assets in investment grade securities rated higher than BB+ (Standard & Poor's or equivalent as assessed by the Management Company or according to its own internal rating).

The manager may also invest up to 100% of net assets in French or foreign forward financial instruments traded on regulated or OTC markets, without seeking overexposure. The manager may take positions in order to hedge the portfolio against interest rate and credit risk. The manager will also use swap and/or forward exchange contracts to hedge the portfolio against currency risk, though a residual risk of a maximum of 5% remains.

The Fund's maximum exposure to the markets (equities, debt securities, UCIs and derivatives) may not exceed 100% of net assets, it being understood that the maximum exposure is the sum of the net exposures to each of the markets (equity, fixed income, money) to which the Fund is exposed (the sum of long and hedging positions).

The Fund is a financial product that promotes environmental and social factors as defined in Article 8(1) of Regulation (EU) 2019/2088 of 27 November 2019 on sustainability-related disclosures in the financial services sector ("SFDR"), the ESG (Environmental and/or Social and/or Governance) policy of which is presented below. However, the Fund does not have sustainable investment as its objective as defined by Article (9) of the SFDR. As such, the Fund is subject to sustainability risk as defined below.

Regulation (EU) 2020/852 of 18 June 2020 (hereinafter the "Taxonomy") is aimed at identifying environmentally sustainable economic activities.

The Taxonomy identifies these activities based on their contribution to six major environmental objectives:

- climate change mitigation;
- climate change adaptation;
- the sustainable use and protection of water and marine resources;
- the transition to a circular economy (waste, prevention and recycling);
- pollution prevention and control;
- the protection and restoration of biodiversity and ecosystems.

To be considered sustainable, an economic activity must show that it contributes substantially to one or more of the six objectives, while avoiding significant harm to any of the other objectives ("Do No Significant Harm" principle).

For an activity to be deemed consistent with the Taxonomy, it must also respect the human and social rights guaranteed by international law (minimum social guarantees).

In the absence, for the time being, of data that will be provided by companies covered by the Taxonomy in future, the Management Company undertakes to invest 0% of the Fund in aligned activities.

The Management Company expects that the percentage of these investments will increase as more data becomes available, and the Taxonomy's methods change.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities.

The underlying investments of the remaining part of the Fund do not take into account EU criteria on environmentally sustainable economic activities laid down by the Taxonomy Regulation.

Principal category of assets used (excluding embedded derivatives):

1. Assets used (excluding embedded derivatives)

Debt security: between 0% and 100% of the Fund's net assets

The manager invests up to 100% of the net assets in debt securities in the form of traditional bonds.

The Fund's portfolio is invested in fixed income instruments issued by private entities (at least 60%). The manager selects high yield financial instruments rated between BB+ and B- (Standard & Poor's or equivalent as assessed by the Management Company or according to its own internal rating) of companies whose fundamentals are considered likely to improve over time. The Management Company does not use the ratings issued by rating agencies automatically or in isolation, as it also applies its own internal analysis. In the event that the securities' rating is downgraded below B- (Standard & Poor's or equivalent, or according to its own internal rating), the Management Company will decide whether or not to dispose of the securities in light of its own analysis, the interests of unitholders and market conditions.

The securities will be issued in any OECD member currency, including EUR, GBP, USD and/or CHF, and the currency risk will be hedged, with a maximum residual currency risk of 5%.

There is no predefined geographical (with the exception of a minimum limit of 60% for issuers domiciled in an OECD member country) or sector allocation.

Average duration of debt securities: 0 to 7 years.

Shares or units of other money market or short-term money market UCIs: up to 10% of the Fund's net assets

Up to 10% of the Fund may be invested in shares or units of:

- of French or foreign UCITS that may not invest more than 10% of their assets in units or shares of other UCITS, AIFs or investment funds;
- of French AIFs or AIFs from other EU Member States;
- of investment funds established under foreign law.

The units or shares of these UCIs and investment funds must meet the four criteria under article R214-13 of the French Monetary and Financial Code, namely: (i) that they are subject to regulations equivalent to those applicable to UCITS and that there is cooperation between the AMF and the regulatory body of the AIF; (ii) that the level of protection granted to unitholders is equivalent to that of UCITS; (iii) that they issue semi-annual and annual reports explaining their activities; and (iv) that they must not themselves invest over 10% of their assets in units or shares of other UCITS, AIFs or foreign investment funds.

The investment strategies of these UCIs will be compatible with that of the Fund. These funds may be managed by the management companies of the ODDO BHF group (ODDO BHF Asset Management SAS and/or ODDO BHF Asset Management GmbH or ODDO BHF Asset Management Lux).

2. Financial futures and options

The Fund may invest in financial futures or options traded on regulated, organised or OTC markets in France or other countries.

The Fund will invest in listed forward financial instruments in order to seek exposure to and hedge against interest rate risk and for the purpose of hedging against currency risk (futures, options). It may also use swaps and forward exchange contracts to hedge against currency risk.

Index credit default swaps (CDS) will be used only to hedge against credit risk up to a maximum of 100% of the Fund's net assets.

Credit default swaps allow the Fund to protect itself against issuer default by paying a third party a regular sum and receiving a predefined payment from this third party in the event that the expected default should occur.

The Fund will not use total return swaps.

All of these transactions are used for the sole purpose of achieving the investment objective, without seeking overexposure.

3. Securities with embedded derivatives

The Fund may use callable bonds (bonds that the issuer may redeem prior to maturity but that have no other optional elements or sources of complexity) and puttable bonds (bonds that allow the holder to force the issuer to repurchase the security but that have no other optional elements or sources of complexity). These may account for up to 100% of the Fund's net assets.

4. Deposits

The Fund may use deposits to optimise the return on the Fund's cash holdings, up to the limit of 20% of its net assets. Used as part of day-to-day management of the Fund's cash assets, these will contribute to achieving the investment objective based on their level of return.

5. Cash borrowing

The Fund may borrow the equivalent of up to 10% of its net assets in cash in order to cover a temporary delay between incoming and outgoing funds relating to purchases and sales of securities issued on the market, or to cover large redemptions.

6. Temporary purchases and sales of securities

For cash management purposes and to optimise its income, the Fund may enter into:

- reverse repurchase agreements,
- securities lending and repurchase agreements.

Any temporary purchases and sales of securities will all be carried out under market conditions and within the following limits:

- up to 100% of the Fund's net assets in the case of reverse repurchase agreements.
- up to 60% of the Fund's net assets in the case of securities lending and repurchase agreements.

These transactions will be performed on the equities referred to in the "Assets used (excluding embedded derivatives)" section.

The targeted proportion of AUM to be used for reverse repurchase agreements will be 5% of the Fund's net assets; 20% for securities lending and repurchase agreements.

Within the scope of these trades, the Fund may receive or issue financial guarantees (collateral). Their operation and characteristics are presented under "Collateral management".

Temporary purchases and sales of securities may be carried out with ODDO BHF SCA or with EU or UK banks that have a minimum credit rating of A-.

Additional information can be found under the heading "Fees and expenses".

For further information, please refer to the Fund's annual report.

7- Collateral management

Within the scope of OTC financial derivatives transactions and temporary purchases and sales of securities, the Fund may receive or issue financial assets as guarantees.

The purpose of receiving financial guarantees is to reduce the Fund's exposure to counterparty default risk. They will consist solely of cash.

As an exception to the above, and only in the case of reverse repurchase operations, the Fund will receive traditional fixed income securities rated at least A- and/or securities issued by governments with a rating of at least AA- as collateral. In any case, the issue of the security received as collateral must be larger than EUR 100 million and the Fund's participation will be limited to 10%. Such securities will be selected without reference to maturity.

Transactions potentially requiring the use of financial guarantees shall be carried out with an EU or UK credit institution that may belong to the ODDO BHF Group.

Any financial guarantees or collateral received shall also, in accordance with regulations, comply with the following:

- liquidity, valuation (at least daily and assets which do not offer high volatility unless adequate discounts can be obtained), issuer creditworthiness, correlation (independence vis-à-vis the counterparty) and diversification (with a maximum exposure to a given issuer of 20% of net assets) criteria,
- it shall be held by the Custodian of the Fund or any third party, in a segregated account, subject to prudential supervision and which has no connection with the provider of the collateral;

- financial guarantees received must be available for full execution by the Fund at any time without consulting the counterparty or the counterparty's consent;
- financial guarantees received as cash shall only be placed as deposits with eligible institutions or invested in top-tier government bonds or used in reverse repurchase transactions (provided that such transactions are concluded with credit institutions subject to prudential supervision and on the condition that the Fund is in a position to recall the total cash amount at any time, accounting for accrued interest) or invested in short-term money market UCIs;
- the financial guarantees shall not be reused.

Risk profile:

Your money will be invested in financial instruments selected by the Management Company. These instruments are subject to the market's movements and fluctuations.

The risks identified by the Management Company and presented below are not exhaustive. Investors are responsible for forming their own opinion independently from that of the Management Company, assessing the risk of any investments they make, with the assistance of a financial investment adviser where applicable, and for ensuring that the investment envisaged is suited to their financial situation and ability to assume financial risks.

In accordance with the provisions of Article 8 of Regulation (EU) 2019/2088 of the European Parliament and of the Council of 27 November 2019 on sustainability-related disclosures in the financial services sector (SFDR), the management team takes sustainability risks into account by integrating ESG (Environmental and/or Social and/or Governance) criteria into its investment decision-making process, as set out in the "Investment Strategy" section. This process also makes it possible to assess the management team's ability to manage the adverse sustainability impacts of their business activities. For further details regarding the consideration of adverse impacts on sustainability factors, please consult the policy published on the Management Company's website: am.oddo-bhf.com. The Management Company also takes ESG criteria into account through its own exclusion policy. The Management Company is a signatory to the United Nations Principles for Responsible Investment (PRI) and the CDP (formerly known as the Carbon Disclosure Project). Finally, the Management Company exercises the voting rights when shares are held by the Fund. Information relating to the Management Company's policies is available from am.oddo-bhf.com.

Please refer to the Key Information Document for information on the risk category to which this Fund belongs.

In particular, the Fund will be exposed to the following risks:

Risk of capital loss: The Fund is not guaranteed or protected; investors may not get back their initial investment in full.

Risk associated with discretionary management: This risk is linked to the investment style, which is based on expectations regarding the performance of the various markets. There is a risk that the Fund may not be invested in the best-performing markets or securities at all times. The Fund's performance therefore depends on the manager's ability to anticipate movements in the markets or in individual securities. This risk may result in a fall in the net asset value of the Fund and/or a capital loss.

Credit risk: This is the risk of a potential downgrading of an issuer's credit rating, or in an extreme case its default, which would have a negative impact on the price of the debt securities issued and therefore on the net asset value of the Fund. Credit risk varies according to expectations, bond maturities and the level of confidence in each issuer. This may restrict the liquidity of the securities of a particular issuer and have a negative impact on the net asset value of the Fund, especially if the Fund liquidates its positions in a market where transaction volumes are low.

Risk associated with high yield bonds: The Fund must be viewed as partly speculative and as intended in particular for investors aware of the risks inherent in investments in securities with a low rating, or none at all, and restricted liquidity. The use of high yield securities may therefore expose the Fund to the risk of a sharper decline in its net asset value.

Interest rate risk: This corresponds to the risk linked to a rise in bond market interest rates, which causes bond prices and therefore the net asset value of the Fund to fall.

Emerging markets risk: This risk is linked to the operating and monitoring conditions on emerging markets to which the Fund is exposed, which may deviate from the standards that exist on the large international markets and may be affected by various disruptions (such as changes in taxation or political stability, or a temporary lack of liquidity on these securities). These disruptions may trigger settlement/delivery problems likely to have an impact on the prices at which the Fund may be obliged to liquidate its positions, which may then result in a sharp fall in the Fund's net asset value.

Risk associated with commitments on forward financial instruments: The Fund may use derivatives alongside securities in the portfolio, with an overall commitment of up to 100% of the net assets. These instruments may be used only within the agreed sensitivity range. The Fund's net asset value could fall if markets move unfavourably.

Counterparty risk: This is the risk of a counterparty's collapse, causing it to default on payment. The Fund may be exposed to the counterparty risk caused by the use of forward financial instruments contracted over-the-counter with credit institutions or contracts for the temporary purchase or sale of securities. The Fund is therefore exposed to the risk that one of these credit institutions may not be able to honour its commitments in connection with such instruments. Certain contracts exposing the Fund to counterparty risk may be concluded with a company belonging to the ODDO BHF Group.

Risks associated with portfolio concentration: It is possible that there will be times when the Fund's investments are concentrated in specific geographical regions or specific business sectors. If this region or sector were to be impacted by a market event, the Fund's net asset value could fluctuate significantly.

Liquidity risk of underlying assets: Weak liquidity on a market makes it sensitive to significant purchase/sale transaction volumes. This increases the volatility of the Fund, the assets of which are traded or listed on this market, and may impact the valuation of these assets and, where applicable, the prices at which the Fund may be obliged to liquidate its positions. The lack of liquidity is particularly associated with certain geographic (emerging countries) characteristics and with certain classes of securities in which the Fund may invest, such as speculative bonds (high-yield securities). In such cases, the net asset value of the Fund may therefore fall sharply.

A significant proportion of assets are invested in financial instruments that are sufficiently liquid but nevertheless liable, under certain circumstances, to have relatively weak liquidity, to the extent that this impacts on the liquidity of the Fund as a whole.

Risk associated with securities financing transactions and collateral management: Investors may be exposed to legal risk (arising from the legal documentation, the application of agreements and the limits imposed by them) and to the risk associated with the reuse of securities received as collateral, given that the net asset value of the Fund may vary depending on fluctuations in the value of the securities acquired through investment in cash received as collateral. In exceptional market conditions, investors may also be exposed to liquidity risk, making it difficult, for example, to trade certain securities.

Sustainability risk: refers to an environmental, social or governance event or condition that, if it occurs, could have a real or potential negative impact on the value of the investments made by this Fund, in particular: 1) a fall in income; 2) higher costs; 3) damages or a depreciation in asset value; 4) higher capital cost; and 5) fines or regulatory risks. Owing to the nature of sustainability risks and specific subjects such as climate change, the probability of these sustainability risks having an impact on financial products' returns is likely to increase in the longer term.

Environmental:

- sector risks associated with the company's environmental footprint;
- physical and transition risks related to climate change;
- the materiality of environmental controversies; and the management of related conflicts of interest;
- the company's dependence on natural capital;
- risks associated with the company's activities, products and services that may have an impact on the environment.

Social:

- sectoral health and safety risks
- environmental and social risks in the supply chain;
- social climate management and human capital development;
- management of quality and consumer safety risks;
- the management and materiality of social/societal controversies;
- management of innovation capacities and intangible assets;

Governance:

- quality and transparency of financial and non-financial communication;
- sectoral risks associated with corruption and cybersecurity;
- the quality of corporate supervisory bodies
- the quality and sustainability of the corporate governance framework;
- management of conflicts of interest related to corporate governance;
- regulatory risks;
- the integration and management of sustainability in the company's strategy.

The Fund will be exposed, to a limited extent, to the following risks:

Currency risk: This risk is linked to portfolios invested fully or partially in securities denominated in currencies other than the Fund's reference currency and corresponds to the variation in the exchange rate between these currencies and the Fund's reference currency. As such, the value of a security may be affected by a change in the value of its reference currency against the euro, even though its value in its base currency may not change, thereby causing the net asset value of the Fund to fall.

Investors are advised that the Fund's performance may fall short of its objectives: Given the investment strategy in place, the Fund's risk profile is prone to change over time and as the investment period approaches its end-date. At opening, the Fund is fully exposed to the securities' various risk factors. As the investment period draws to a close, the exposure to different risk factors decreases. The difference between the Fund's risk profile at the beginning and end of the investment period is therefore considerable. The Fund's exposure to the securities diminishes as they mature or due to market events. The focus of investments in these circumstances will vary among debt securities, repurchase agreements and money market and short-term UCIs, in accordance with market conditions.

Guarantee or protection: None (neither the capital nor the performance are guaranteed).

- INVESTORS AND UNITS:

Target investors:

The units have not been, and shall not be, registered under the US Securities Act of 1933 (hereinafter "the Act of 1933"), or under any law applicable in a US State, and the units may not be directly or indirectly assigned, offered or sold in the United States of America (including its territories and possessions) for the benefit of any US persons (hereinafter "US Persons"), as defined by US "Regulation S" under the Act of 1933 adopted by the Securities and Exchange Commission or SEC, except if (i) the units are registered or (ii) an exemption is applicable (with the prior consent of the Management Company's CEO). The Fund is not, and shall not be, registered under the US Investment Company Act of 1940. Any resale or assigning of units in the United States of America or to a "US Person" may constitute a violation of US law and require the prior written consent of the CEO of the Management Company. Persons wishing to purchase or subscribe units shall be required to certify in writing that they are not "US Persons".

All unitholders must immediately inform the Fund if they become a "US Person". Any unitholder that becomes a US Person shall no longer be authorised to purchase new units and may be requested to dispose of their units at any time for the benefit of persons who do not have "US Person" status Person".

The term "US Person" has the same meaning in the Prospectus as the definition given in SEC Regulation S (Part 230 - 17 CFR 230.903). This definition of a "US Person" is available at <http://www.sec.gov/about/laws/secrulesregs.htm>

In accordance with the provisions of the Foreign Account Tax Compliance Act ("FATCA"), applicable as of 1 July 2014, if the Fund directly or indirectly invests in US assets, the income from these investments may be subject to 30% withholding tax. To avoid the payment of this 30% withholding tax, France and the United States have concluded an intergovernmental agreement whereby non-US financial institutions ("foreign financial institutions") undertake to set up a procedure to identify direct or indirect investors with US taxpayer status and transmit certain information about these investors to the French tax authorities, which will communicate it to the US tax authorities ("Internal Revenue Service").

In its capacity as a foreign financial institution, the Fund undertakes to comply with FATCA and to take any measures required by the aforementioned intergovernmental agreement.

Except for these restrictions, the Fund is open to all investors, while bearing the following in mind:

CR-EUR, DR-EUR, DRw-EUR and DR-USD (H) units are primarily aimed at retail investors. DR-USD (H) units are hedged against the US Dollar/Euro exchange rate risk due to investments in US Dollars in order to limit variations in performance compared to a unit in Euro, with a maximum residual exchange rate risk of 5%.

CI-EUR, DI-EUR, DIw-EUR and DI-USD (H) units are reserved for eligible counterparties and professional investors as per Directive 2014/65/EU ("MiFID II").

DI-USD [H] units are hedged against the USD/EUR currency risk associated with investments in USD in order to limit differences in performance relative to euro-denominated units, albeit with a residual currency risk of up to 5%.

CN-EUR, CN-USD (H), CH-CHF and DN-EUR units are available solely at the discretion of the Management Company and will not pay any distribution fees or rebates. Units reserved for (i) investors subscribing via an intermediary providing the service of investment advice on an independent basis pursuant to MiFID II, (ii) investors subscribing via a financial intermediary on the basis of a fee agreement concluded between the investor and the intermediary and mentioning that the intermediary is exclusively paid by the investor, (iii) companies providing the service of portfolio management pursuant to MiFID II, (iv) UCIs managed by ODDO BHF Group entities, and (v) ODDO BHF SCA when providing the service of investment advice on the basis of a written fee agreement concluded with its client.

Typical investor profile:

The Fund is intended for investors seeking exposure to the bond markets over a period of seven years, who are willing to accept the risks arising from such exposure.

The amount that is appropriate to invest in this Fund depends on your personal wealth. To determine this amount, investors should consider their personal wealth/assets, their current financial needs and those in seven years as well as their willingness to accept risks or their preference for a more prudent investment. It is also highly recommended that investors sufficiently diversify their investments so as not to be exposed solely to the risks of this Fund.

Recommended investment horizon: At least 7 years.

The recommended minimum investment horizon is the term through to the end of each investment period and each renewed investment period (i.e. through to 31 December 2026 for the first period).

Appropriation of distributable income:

| | | |
|--|--|--|
| Distributable income | Accumulation units CR-EUR, CI-EUR CN-USD (H), CN-CHF (H) and CN-EUR units | Distribution units DR-EUR, DI-EUR, DN-EUR, DRw-EUR, DIw-EUR, DI USD (H) and DR USD (H) units |
| Net income allocation | Accumulation | Distributed in full, or fully or partly carried forward by decision of the Management Company |
| Allocation of net realised capital gains or losses | Accumulation | Distributed in full, or fully or partly carried forward by decision of the Management Company and/or accumulated |

Distribution schedule:

Accumulation units: no distribution

Distribution units:

DR-EUR, DI-EUR, DN-EUR, DRw-EUR, DIw-EUR, DI-USD (H) and DR-USD (H): the proportion of distributable income which the Management Company decides to distribute is paid annually. Distributable income is paid out within five months of the financial year end.

CR-EUR, CI-EUR, CN-EUR, DR-EUR, DI-EUR, DN-EUR, DRw-EUR and DIw-EUR units: Euro (€)

CN-USD (H), DI-USD (H) and DR-USD (H) units: US dollars (\$)

CN-CHF (H) units Swiss francs

Base currency:

CR-EUR, CI-EUR, CN-EUR, DR-EUR, DI-EUR, DN-EUR, DRw-EUR, DIw-EUR, CN-USD (H), CN-CHF (H), DI-USD (H) and DR-USD (H) units: Bearer

Fractions of units:

CR-EUR, CI-EUR, CN-EUR, DR-EUR, DI-EUR, DN-EUR, DRw-EUR, DIw-EUR and CN-USD (H), CN-CHF (H), DI-USD (H) and DR-USD (H) units: one thousandth of a unit

SUBSCRIPTION AND REDEMPTION PROCEDURES:

Terms and conditions of subscriptions and redemptions:

Subscription and redemption requests are centralised by the Custodian on every net asset value calculation day until 11:15 (Paris time, CET/CEST) and executed on the basis of the net asset value of that day. The resulting settlements shall be carried out on the second trading day following the NAV date.

Subscription and redemption orders are executed on the basis of the following table:

| D: NAV date | | D + 1 business day | D + 2 business days |
|--|------------------------------------|--------------------|---|
| Centralisation before 11:15 (CET/CEST) of subscription and redemption orders | Order execution by D at the latest | NAV publication | Settlement of subscriptions and redemptions |

Any order received by the Custodian after this time will be executed at the following net asset value.

New subscriptions to the Fund will not be accepted after the cut-off time on 29 December 2023. From this date, the only subscriptions that will be accepted are those following a redemption request on the same day for the same amount at the same net asset value and by the same unitholder. The subscription period may be extended at the Management Company's discretion.

Initial value of the unit:

CR-EUR units: EUR 100

CI-EUR units: EUR 100,000

CN-EUR units: EUR 100

DR-EUR units: EUR 100

DI-EUR units: EUR 100,000

DN-EUR units: EUR 100

DRw-EUR units: EUR 100

DIw-EUR units: EUR 100,000

CN-USD (H) units: USD 100

CN-CHF (H) units: 100 Swiss francs

DI-USD (H) units: USD 100,000

DR-USD (H) units: USD 100

Minimum initial investment:

CR-EUR units: EUR 100

CI-EUR units: EUR 250,000*

CN-EUR units: EUR 100

DR-EUR units: EUR 100

DI-EUR units: EUR 250,000*

DN-EUR units: EUR 100

DRw-EUR units: EUR 100

DIw-EUR units: EUR 250,000*

CN-USD (H) units: USD 100

CN-CHF (H) units: 100 Swiss francs

DI-USD (H) units: USD 250,000*

DR-USD (H) units: USD 100

**With the exception of the Management Company, companies in the Management Company's group and UCIs and mandates managed by the Management Company or by other companies in the Management Company's group, from which no minimum subscription is required.*

Minimum subsequent investment:

CR-EUR units: 1 thousandth of a unit

CI-EUR units: 1 thousandth of a unit

CN-EUR units: 1 thousandth of a unit

DR-EUR units: 1 thousandth of a unit

DI-EUR units: 1 thousandth of a unit

DN-EUR units: 1 thousandth of a unit

DRw-EUR units: 1 thousandth of a unit

DIw-EUR units: 1 thousandth of a unit

CN-USD (H) units: 1 thousandth of a unit

CN-CHF (H) units: 1 thousandth of a unit

DI-USD (H) units: 1 thousandth of a unit

DR-USD (H) units: 1 thousandth of a unit

Centralisation agent for subscription and redemption requests delegated by the Management Company

ODDO BHF SCA

12, Bd de la Madeleine – 75009 Paris

The Fund's promoters must send subscription, conversion and/or redemption orders to the Centralising Agent no later than the centralisation cut-off time. Any order received by the Centralising Agent after this time will be executed at the following net asset value.

Promoters may apply their own cut-off time, which may be earlier than the cut-off time mentioned above, in order to take into account the time required to transmit orders to the centralising agent. It is the investor's responsibility to obtain information on the time at which his order has been received by the promoter for processing.

Date and frequency of calculation of net asset value

The net asset value is calculated daily, according to the Euronext Paris calendar, with the exception of public holidays on the French Stock Exchange.

Place and methods of publication or communication of net asset value

This information is available daily from the Management Company (ODDO BHF Asset Management SAS) and from the Custodian (ODDO BHF SCA) at 12, Bd de la Madeleine, 75009 Paris, and on the website am.oddo-bhf.com.

Gate provision for capping redemptions:

The Management Company may make use of a gate provision. This allows redemption requests from unitholders of the Fund to be spread out over several net asset value dates when they exceed a given, objectively calculated level.

Method applied:

- The gate trigger threshold is set at 5% of the net assets. Fund unitholders are reminded that the gate trigger threshold corresponds to the ratio between:
- the difference – on the same centralisation date – between the number of redemption requests for Fund units, or the total amount of these redemptions, and the number of subscription requests for Fund units, or the total amount of these subscriptions; and
- the net assets or the total number of Fund units.

The Fund has several unit classes, and the threshold that triggers the procedure shall be the same for all of the Fund's unit classes.

The threshold for applying the gate is in line with the frequency of the Fund's NAV calculation, its investment objectives and the liquidity of the assets in its portfolio. The latter is specified in the Fund's management regulations. Centralised redemptions are

based on all of the Fund's assets, not specific unit classes. The gate may be applied for a maximum of 20 net asset value dates over 3 months.

When redemption requests exceed the gate trigger threshold, the Management Company may decide to satisfy more redemption requests than the gate allows, and thus partially or totally execute orders that are eligible to be blocked.

Notifying unitholders:

If the gate threshold is triggered, all Fund unitholders will be informed by any means via the Management Company's website (<http://am.oddo-bhf.com>).

Unitholders of the Fund whose orders were not executed will be notified individually as soon as possible.

Processing of unexecuted orders:

Redemption orders shall be executed for all unitholders of the Fund who have made redemption requests since the last centralisation date in equal proportion. Orders that have not been executed will be automatically carried forward to the next net asset value date; they will not be given priority over new redemption orders submitted for the following net asset value date. Under no circumstances may unitholders of the Fund in question revoke redemption orders that were not executed and have been automatically carried forward.

Example showing how the provision is applied:

If total redemption requests for Fund units amount to 10% of net assets, but the trigger threshold is 5% of net assets, the Management Company may decide to satisfy redemption requests corresponding to up to 7.5% of net assets (and thus execute 75% of all redemption requests instead of the 50% it would have if it had strictly applied the 5% gate).

Notification of portfolio structure

The Management Company may, upon request, notify professional investors subject to the obligations resulting from Directive 2009/138/EC (the Solvency II Directive) of the structure of the Fund's portfolio at the earliest 48 hours from the last publication of the net asset value. The information provided shall be treated with the utmost confidentiality and shall only be used for the calculation of prudential requirements. This information cannot, under any circumstances, be used for illegal activities such as market timing or late trading by unitholders in possession of such information.

INFORMATION ON FEES, COMMISSIONS, EXPENSES AND TAXATION

Fees and expenses:

Subscription and redemption fees:

| Fees payable by the investor on subscriptions and redemptions | Basis | Maximum rate Rate for CR-EUR, CI-EUR, CN-EUR, DR-EUR, DI-EUR, DN-EUR, DRw-EUR, DIw-EUR, CN-USD (H), CN-CHF (H), DI-USD (H) and DR USD (H) units |
|---|--------------------------------|--|
| Subscription fee not payable to the Fund | NAV per unit × number of units | Maximum 4% inclusive of tax |
| Subscription fee payable to the Fund | NAV per unit × number of units | None |
| Redemption fee not payable to the Fund | NAV per unit × number of units | None |
| Redemption fee payable to the Fund ^{1 2} | NAV per unit × number of units | 1% during the distribution period |

¹ Redemption fees payable to the Fund will only be charged during the distribution period. They will no longer apply at the end of the Fund's distribution period.

² Redemption fees payable to the Fund will not be charged on subscriptions following a redemption request executed on the same day for the same number of units at the same NAV and by the same unitholder.

Subscription fees increase the subscription price paid by the investor, while redemption fees decrease the redemption price. The fees charged by the Fund serve to offset the costs incurred by the Fund to invest and disinvest investors' monies. Fees not paid to the Fund are paid to the Management Company, the promoter, etc.

Management and administration fees:

For more details about the fees charged to the Fund, please refer to the Key Information Document.

| Fees charged to the Fund: | Basis | Rate: CR-EUR, CN-EUR, CI-EUR, DR-EUR, DI-EUR, DN-EUR, DRw-EUR, CN-USD (H), CN-CHF (H), DIw-EUR, DI-USD (H) and DR-USD (H) |
|---|-----------------------------|---|
| Financial management fees and administrative fees not payable to the Management Company (statutory auditor, custodian, distributors, lawyers, etc.) | Net assets | CR-EUR, DR-EUR and DR-USD (H) units: Maximum 1.10%, inclusive of tax |
| | | CI-EUR, DI-EUR and DI-USD (H) units: Maximum 0.50% inclusive of tax |
| | | CN-EUR, CN-USD (H), CN-CHF (H) and DN-EUR units: maximum 0.60% inclusive of tax |
| | | DRw-EUR units: Maximum 1.25% inclusive of tax |
| | | DIw-EUR units: Maximum 0.65% inclusive of tax |
| Maximum indirect fees (fees and management costs) | Net assets | Negligible. |
| Performance fees* | Net assets | 10% (inclusive of tax) of the Fund's net annualised performance over and above the following trigger threshold: <ul style="list-style-type: none"> - 2.30% for CR-EUR, DR-EUR and DR-USD (H) units, once past underperformance over the previous five years has been offset; - 2.90% for CI-EUR, DI-EUR and DI-USD (H) units, once past underperformance over the previous five years has been offset; - 2.80% for CN-EUR, CN-USD (H), CN-CHF (H) and DN-EUR units, once past underperformance over the previous five years has been offset. |
| | | DRw-EUR and DIw-EUR units: None. |
| Transaction fees charged by different parties: - Management Company: 100% | Payable on each transaction | EUR 15 excluding tax |

* The performance fees will be charged in favour of the Management Company as follows:

- The performance fee is based on a comparison between the performance of the Fund and the benchmark index, and includes a method for clawing back past underperformance.
- The Fund's performance is determined on the basis of its book value after taking into account fixed management fees and before deduction of the performance fee.
- Outperformance is calculated on the basis of the "indexed asset" method, which is used to simulate a fictitious asset experiencing the same subscription and redemption conditions as the Fund, while enjoying the same performance as the benchmark index. This indexed asset is then compared with the Fund's assets. The difference between the two is the Fund's outperformance relative to the benchmark index.

- Whenever the NAV is calculated, provided that the Fund's performance exceeds that of the benchmark index, a performance fee provision is booked. In the event that the Fund underperforms its benchmark index between two net asset values, any previously accumulated provision shall be reduced accordingly. The amounts deducted from the provision cannot exceed the amount previously accumulated. The performance fee is calculated and provisioned separately for each Fund unit.
- The benchmark index will be calculated in the unit currency, regardless of the currency in which the relevant unit is denominated, except in the case of units hedged against currency risk, for which the benchmark index will be calculated in the Fund's reference currency.
- The performance fee is measured over a calculation period that corresponds to the Fund's financial year (the "Calculation Period"). Each Calculation Period starts on the last business day of the Fund's financial year, and ends on the last business day of the next financial year. For units launched during a Calculation Period, the first Calculation Period will last at least 12 months and end on the last business day of the next financial year. The total performance fee is payable to the Management Company annually after the Calculation Period has ended.
- In the event of redemptions, if a performance fee provision has been booked, then the proportion of the provision attributable to these redemptions is crystallised and definitively allocated to the Management Company.
- The horizon over which performance is measured is a rolling period of up to five years ("Performance Reference Period"). The clawback mechanism may be partially reset at the end of this period. This means that after five years of cumulative underperformance over the Performance Reference Period, underperformance may be partially reset on a rolling annual basis, wiping out the first year of underperformance during the Performance Reference Period concerned. In relation to the Performance Reference Period concerned, underperformance in the first year may be offset by outperformance in the following years of the Performance Reference Period.
- Over a given Performance Reference Period, any past underperformance must be clawed back before performance fees become payable again.
- Where a performance fee is crystallised at the end of a Calculation Period (except when due to redemptions), a new Performance Reference Period begins.

Example of how performance fees applied to CI-EUR, DI-EUR and DI-USD units work:

| Year | Fund's NAV (base 100 at the start of year 1) | Fund's annual performance | Benchmark's annual performance | Annual relative performance | Underperformance to be clawed back the following year | Payment of a performance fee | Comment |
|------|--|---------------------------|--------------------------------|-----------------------------|---|------------------------------|--|
| 1 | 105.00 | 5.0% | -1.0% | 6.0% | 0.0% | YES | Annual outperformance |
| 2 | 91.30 | -13.1% | -5.1% | -8.0% | -8.0% | NO | Annual underperformance |
| 3 | 94.09 | 3.1% | 1.1% | 2.0% | -6.0% | NO | The underperformance in year 2 is only partially clawed back in year 3. |
| 4 | 89.09 | -5.3% | -6.3% | 1.0% | -5.0% | NO | The underperformance in year 2 is only partially clawed back in year 4. |
| 5 | 100.88 | 13.2% | 11.2% | 2.0% | -3.0% | NO | The underperformance in year 2 is only partially clawed back in year 5. |
| 6 | 102.91 | 2.0% | 1.0% | 1.0% | 0.0% | NO | The underperformance in year 2 is only partially clawed back in year 6. However, the residual underperformance (-2%) is erased for year 7 (end of the 5-year period) |
| 7 | 99.83 | -3.0% | -1.0% | -2.0% | -2.0% | NO | Annual underperformance |
| 8 | 96.83 | -3.0% | -8.0% | 5.0% | 0.0% | YES | The underperformance in year 7 is fully clawed back |

For further information, please refer to the Fund's annual report.

Procedure for the selection of intermediaries:

Intermediaries and counterparties are selected by management staff using a competitive tendering procedure from a predefined list. This list is drawn up using precise selection criteria laid down in the market intermediary selection policy which may be consulted on the Management Company's website.

Funding financial research:

The Management Company has decided to assume responsibility for paying for all financial research on debt securities. As a result, the payment will be made using the Management Company's resources only.

4. COMMERCIAL INFORMATION

Subscription and redemption of units:

Subscription, conversion and redemption procedures are presented in the section “Subscription, conversion and redemption procedures”.

Information relating to the Fund is provided by:

ODDO BHF Asset Management SAS
 12, Bd de la Madeleine – 75009 Paris
information_oam@oddo-bhf.com

Information is also available:

On the website: <http://am.oddo-bhf.com>
By contacting: Customer Services Department
By telephoning: 01 44 51 80 28

The AMF website www.amf-france.org provides additional information on the list of regulatory documents and all provisions relating to investor protection.

Publication date of the prospectus: 26/04/2023

5. INVESTMENT RULES

Regulatory ratios applicable to the Fund: The legal investment rules applicable to the Fund are those that govern UCITS investing no more than 10% of their assets in other UCIs.

6. OVERALL RISK

The Fund’s overall risk is calculated using the commitment method.

7. INFORMATION ON ENVIRONMENTAL, SOCIAL AND GOVERNANCE (ESG) CRITERIA

Additional information on the application of ESG criteria by the Management Company shall be available in the Fund’s annual report and on the Management Company’s website: <http://am.oddo-bhf.com>.

8. ASSET VALUATION AND ACCOUNTING RULES

Asset valuation rules:

The calculation of the net asset value per unit is subject to the following valuation rules:

- financial instruments and transferable securities traded on regulated markets are valued at their market price using the following principles:
- The valuation is based on the last official market price.

The market price used depends on the market on which the instrument is listed:

European markets: Last market price on the net asset value calculation day

Asian markets: Last market price on the net asset value calculation day

North and South American markets: Last market price on the net asset value calculation day

The prices used are those obtained from financial information providers and available on the following day at 09:00 (Paris time): Fininfo or Bloomberg. In the event that no price is available for a security, the last known price is used.

Debt securities and similar securities that are not traded in large volumes are valued by means of an actuarial method; the reference rate used is made up of:

- a risk-free rate obtained through linear interpolation of the OIS curve, updated daily;

- a credit spread obtained at the point of issue and kept constant throughout the lifecycle of the security.

However, transferable debt securities with a residual maturity of less than or equal to three months will be valued on the basis of the straight-line method.

In the interests of unitholders, the Fund shall be valued at the ask price during the distribution period and at the bid price after the Fund's closure to subscriptions.

- Financial contracts (futures or options, or swap transactions concluded on over-the-counter markets) are valued at their market value or at a value estimated according to the methods determined by the Management Company. The method for valuing off-balance sheet commitments consists in valuing futures contracts at their market price and in converting options into the equivalent value of the underlying.
- Financial guarantees: in order to limit counterparty risk as much as possible while also factoring in operational constraints, the Management Company applies a daily margin call system, per fund and per counterparty, with an activation threshold set at a maximum of EUR 100,000 based on an evaluation of the mark-to-market price.

Deposits are recorded based on their nominal value plus the interest calculated daily.

The prices used for the valuation of futures, options or swap transactions are based on those of the underlying securities. They may vary depending on where they are listed:

European markets: Settlement price on the NAV calculation day, if different from the last price.

Asian markets: Last market price on the NAV calculation day, if different from the last price.

North and South American markets: Last market price on the NAV calculation day, if different from the last price.

In the event that no price is available for a future or option contract, the last known price is used.

Securities subject to a temporary acquisition or sale agreement are valued in accordance with the regulations in force. Securities received under repurchase agreements are recorded on their acquisition date under the heading "Receivables on securities received under a repurchase agreement (pension)" at the value fixed in the contract by the counterparty of the liquidity account concerned. For as long as they are held they are recognised at that value plus the accrued interest from the securities in custody.

Securities transferred under repurchase agreements are withdrawn from their account on the date of the transaction and the corresponding receivable is booked under the heading "Securities transferred under a repurchase agreement (pension)"; they are valued at their market value. Payables on securities transferred under repurchase agreements are recorded under the heading "Payables on securities transferred under a repurchase agreement (pension)" by the counterparty of the liquidity account concerned. It is maintained at the value determined in the contract plus any accrued interest on the debt.

- Other instruments: fund units or shares are valued at their last known net asset value.
- Financial instruments whose prices have not been determined on the valuation day or whose prices have been adjusted are valued under the Management Company's responsibility at their foreseeable sale prices. These valuations and their justification are communicated to the statutory auditor at the time of the audit.

Accounting methods:

Income accounting:

The interest on bonds and debt securities is calculated using the accrued interest method.

Transaction cost accounting:

Transactions are recorded excluding fees.

REMUNERATION

The management body of the Management Company is responsible for drawing up, approving and monitoring the remuneration policy. It must ensure that the remuneration policy encourages employees to take risks in line with the risks taken by the funds managed by the Management Company, the investors having placed their assets in these funds and the Management Company itself. Each year, the Management Company shall identify those persons who may be qualified as risk takers in accordance with the regulations in force. The list of employees thus identified as risk takers shall then be submitted to the Remuneration Committee and passed on to the relevant management body. With regard to the variable remuneration component, the Management Company has set a significant threshold triggering payment of a deferred variable remuneration amount. In this way, an employee designated as being a risk taker and entitled to significant variable remuneration will receive a portion of this variable remuneration on a deferred basis. This deferred remuneration shall consist of 40% of the entire variable remuneration amount, from the first euro.

In order to satisfy the obligation to pay 50% of variable remuneration in the form of instruments or in the form of an indexation portfolio, the Management Company will pay 50% of variable remuneration decided for the year falling due in February of the following year, on the basis of the announcement made to employees in December. With regard to the remaining 50%, 10% of the amount of variable remuneration determined will be paid in July after these assets have been invested in the indexation portfolio over

the period from the beginning of January to the end of June (see below), while the remaining 40% of variable remuneration will be subject to deferred payment over a period of three years as part of the operation of the indexation tool.

Provisions relating to the deferred part of variable remuneration shall be calculated using a tool created by the Management Company. This tool consists of a basket of funds that represent each of the Management Company's management strategies, and each fund is weighted in proportion to the assets under management of the Management Company within each of its strategies.

Detailed information on the remuneration policy is available on the Management Company's website (am.oddo-bhf.com). Investors may also request a hard copy of this information from the Management Company.

REGULATIONS

TITLE 1 – ASSETS AND UNITS

Article 1 - Co-ownership units

The co-owners' rights are represented by units, with each unit corresponding to the same fraction of the Fund's assets. Each unitholder has a co-ownership right in the assets of the Fund proportional to the number of units they hold.

The term of the Fund is 99 years starting from its inception, except in the event of early dissolution or extension as set forth in the present regulations.

Unit classes:

The characteristics of the various classes of units and their eligibility requirements are described in the Fund's prospectus.

The different classes of shares may:

- apply different dividend policies (distribution or accumulation);
- be denominated in different currencies;
- be charged different management fees;
- bear different subscription and redemption fees;
- have a different nominal value;
- be automatically hedged against risk, in part or in full, as defined in the Fund's prospectus. This hedge is created using financial instruments that reduce to a minimum the impact of the hedging transactions on the Fund's other unit classes;
- be reserved for one or several distribution networks.

Following the decision of the Management Company's CEO, units may be sub-divided into thousandths, referred to as fractions of units.

The provisions of the regulations governing the issue and redemption of units shall apply to fractions of units, whose value shall always be proportionate to that of the units they represent. Unless otherwise provided, all other provisions of the regulations relating to units shall apply to fractions of units without any need to make a specific provision to that end.

Lastly, the Management Company's CEO may decide, at its own discretion, to sub-divide the units by issuing new units, which shall be allocated to unitholders in exchange for their existing units.

Article 2 – Minimum assets

Units may not be redeemed if the Fund's assets fall below EUR 300,000; if the assets remain below this amount for a period of 30 days, the Management Company shall make the necessary provisions to liquidate the Fund in question, or to carry out one of the operations mentioned in article 411-16 of the AMF General Regulation (transfer of the Fund).

Article 3 – Issue and redemption of units

Units are issued at any time following receipt of subscription requests from unitholders, on the basis of their net asset value plus a subscription fee, where applicable.

Units are issued in bearer form.

Subscriptions and redemptions are executed under the conditions and according to the procedures defined in the prospectus.

Units of the Fund may be listed on a stock exchange in accordance with the regulations in force.

Subscriptions must be fully paid up on the day the net asset value is calculated. They may be made in cash and/or by a contribution in kind in the form of transferable securities. The Management Company is entitled to refuse any securities offered and, for that purpose, must communicate its decision within seven days of the date on which the securities were tendered. If they are accepted,

the securities contributed in kind are valued according to the rules laid down in Article 4 and the subscription is based on the first net asset value following acceptance of the relevant securities.

Redemptions are made exclusively in cash, except in the event of liquidation of the Fund when unitholders have agreed to be reimbursed in kind. They are settled by the registrar within a maximum of five days from the valuation day of the units.

However, if in exceptional circumstances the redemption requires the prior sale of assets held in the Fund, this deadline may be extended to a maximum of 30 days.

With the exception of a succession or an inter vivos gift, the sale or transfer of units between unitholders, or between unitholders and third parties, is treated as a redemption followed by a subscription; if this involves a third party, the sale or transfer amount must, where applicable, be supplemented by the beneficiary in order to at least reach the minimum subscription amount stipulated by the prospectus.

In application of article L.214-8-7 of the French Monetary and Financial Code the redemption of units by the Fund as well as the issue of new units may be suspended on a temporary basis by the Management Company in exceptional circumstances and if this is deemed necessary to protect the interests of unitholders.

If the net assets of the Fund have fallen below the minimum threshold set by the regulations, no redemptions can be carried out.

In exceptional circumstances and where necessary to protect the investors' interests, the Management Company may invoke a provision allowing redemptions to be capped if they exceed a 5% threshold (redemptions net of subscriptions/last known net asset value).

However, this threshold is not triggered systematically; if the Fund has sufficient liquidity, the Management Company may decide to meet redemptions exceeding this threshold. The gate may be applied for a maximum of 20 net asset value dates over 3 months.

The part of the order that is not executed may in no case be cancelled, and is automatically carried forward to the next centralisation date. Round-trip transactions involving subscriptions and redemptions of an equal number of units, based on the same net asset value and for a single unitholder or beneficial owner are not subject to the gate provision.

A minimum subscription amount may be applied according to the procedures set out in the prospectus.

In application of the third paragraph of article L. 214-8-7 of the French Monetary and Financial Code, the Fund may stop issuing units.

In objective situations leading to the closure of subscriptions, such as a maximum number of units or shares issued, a maximum amount of assets reached or the expiry of a fixed subscription period. These objective situations are described in the Fund's prospectus.

The Management Company may prevent:

- the holding of units by any individual or legal entity not entitled to hold Fund units under the terms of the "target investors" section (hereinafter "Non-Eligible Persons"), and/or
- the registering in the Fund's unitholder register or the Transfer Agent's register of any "Non-Eligible Intermediaries", in accordance with the stipulations of the Agreement (IGA) signed on 14 November 2013 between the government of the French Republic and the government of the United States of America so as to improve compliance with tax obligations on an international level and implement the act governing compliance with these obligations for foreign accounts (FATCA).

Within this context, the Management Company may:

- refuse to issue any units if it appears that such an issuance would or could result in said units being held by a "Non-Eligible Person" or registered in the Fund's unitholder register or the Transfer Agent's register;
- request that all information which it deems necessary in order to determine whether or not the beneficial owner of the units in question is a "Non-Eligible Person" be provided at any time from any intermediary whose name appears in the Registers of unitholders, accompanied by a solemn declaration;
- if it appears that the beneficial owner of the units is a "Non-Eligible Person" and is registered in the Fund's Registers of unitholders, immediately proceed with the compulsory redemption of the units held by the Non-Eligible Person. The compulsory redemption shall be carried out using the last known net asset value, increased if applicable by the applicable charges, fees and commissions, which shall be borne by the unitholders concerned by the redemption.

Article 4 - Calculation of the net asset value

The net asset value of the units is calculated in accordance with the valuation rules specified in the prospectus.

Contributions in kind may comprise only stocks, securities, or contracts admissible as assets of UCITS; they are valued according to valuation rules governing the calculation of the net asset value.

TITLE 2 – OPERATION OF THE FUND

Article 5 - The Management Company

The Fund is managed by the Management Company in accordance with the Fund's investment objectives.

The Management Company shall act in all circumstances on behalf of the unitholders and has the exclusive right to exercise the voting rights attached to the securities held in the Fund.

Article 5a - Operating rules

The instruments and deposits eligible to form part of the Fund's assets as well as the investment rules are described in the prospectus.

Article 5b - Admission to trading on a regulated market and/or a Multilateral Trading Facility

Units may be admitted to trading on a regulated market and/or a multilateral trading facility in accordance with the regulations in force. In the event that the FCP whose units are admitted to trading on a regulated market has an index-based investment objective, the fund must have implemented a mechanism for ensuring that the price of its units does not significantly deviate from its net asset value.

Article 6 - The custodian

The custodian carries out the duties incumbent upon it under the legal and regulatory provisions in force as well as those to which it has contractually agreed with the portfolio management company. In particular, it must ensure that decisions taken by the portfolio management company are lawful. Where applicable, it must take all protective measures that it deems necessary. In the event of a dispute with the portfolio management company, it shall inform the *Autorité des marchés financiers*.

Article 7 - The statutory auditor

A statutory auditor is appointed by the governing body of the portfolio management company for a term of six financial years, subject to the approval of the *Autorité des marchés financiers*.

The statutory auditor certifies the accuracy and consistency of the financial statements.

The statutory auditor may be re-appointed.

The statutory auditor is obliged to notify the *Autorité des marchés financiers* promptly if, in the course of its duties, it becomes aware of any fact or decision concerning the undertaking for collective investment in transferable securities which is liable to:

- 1.°Constitute a breach of the legal and regulatory provisions governing this undertaking and is likely to have significant consequences for its financial position, income or assets;
- 2.°Impair its continued operation or the conditions thereof;
3. Lead to the expression of reservations or a refusal to certify the financial statements.

Assets will be valued and exchange ratios will be determined for the purpose of any conversion, merger or split under the statutory auditor's supervision.

The statutory auditor shall assess all contributions in kind under its responsibility.

The statutory auditor shall check the composition of the assets and other information before any publication.

The statutory auditor's fees are determined by mutual agreement between the auditor and the Board of Directors of the portfolio management company on the basis of an agenda indicating all duties deemed necessary.

The statutory auditor certifies the financial statements serving as the basis for the payment of interim dividends.

The statutory auditor's fees are included in the management fees.

Article 8 - The financial statements and the management report

At the end of each financial year, the Management Company prepares the financial statements and a report on the management of the Fund during the last financial year.

The portfolio management company shall prepare an inventory of the assets at least twice yearly and under the supervision of the custodian.

The portfolio management company shall make these documents available to unitholders within four months of the financial year-end and shall notify them of the amount of income attributable to them: these documents shall be sent by post if expressly requested by the unitholders, or made available by the portfolio management company.

TITLE 3 – APPROPRIATION OF DISTRIBUTABLE INCOME

Article 9 - Appropriation of distributable income

The distributable amounts for the year are equal to the amount of interest, arrears, dividends, premiums and prizes, attendance fees and all income relating to the securities comprising the Fund's portfolio plus the proceeds of the amounts currently available and minus management fees and borrowing costs.

The distributable income consists of

1° The net income for the financial year plus retained earnings, plus or minus the balance of the income equalisation accounts for the last financial year.

2° The realised capital gains, net of fees, minus realised capital losses, net of fees, recorded during the financial year, plus net capital gains of the same kind recorded during previous financial years and that have not been subject to distribution or accumulation, plus or minus the balance of the capital gains equalisation accounts (for financial years beginning after 1 January 2013).

The Management Company decides on the allocation of distributable income.

For each unit class, where applicable, the Fund may adopt one of the following methods:

- Pure accumulation: distributable income shall be fully accumulated, with the exception of those amounts which are subject to compulsory distribution by law;
- Pure distribution: income shall be partially or fully distributed, rounded off to the nearest figure; the Fund may pay interim dividends;
- for funds that wish to choose whether to accumulate and/or distribute income. The Management Company decides on the allocation of distributable income each year.

The Portfolio Management Company decides on the allocation of distributable income according to the distribution of income provided for in the prospectus and may pay interim dividends where applicable.

TITLE 4 – MERGER - SPLIT - DISSOLUTION - LIQUIDATION

Article 10 - Merger – Split

The Management Company may either merge all or part of the Fund's assets with another fund under its management, or split the Fund into two or more common funds.

Such mergers or splits may only be carried out after unitholders have been notified.

They give rise to the issue of a new certificate indicating the number of units held by each unitholder.

Article 11 – Dissolution – Extension

If the assets of the Fund remain below the amount set in article 2 above for thirty days, the Management Company shall inform the *Autorité des marchés financiers* and shall dissolve the Fund, except in the event of a merger with another fund.

The Management Company may dissolve the Fund before term. It shall inform the unitholders of its decision, after which no further subscription or redemption requests shall be accepted.

The Management Company shall also dissolve the Fund if a request is made for the redemption of all of the units, if the custodian's appointment is terminated and no other custodian has been appointed, or upon expiry of the Fund's term, unless such term is extended.

The Management Company shall inform the *Autorité des marchés financiers* by post of the dissolution date and procedure. It shall send the statutory auditor's report to the AMF.

The Management Company may decide to extend the Fund's term subject to the agreement of the custodian. Its decision must be taken at least three months prior to the expiry of the Fund's term and must be communicated to the unitholders and the *Autorité des marchés financiers*.

Article 12 – Liquidation

In the event of dissolution, the Portfolio Management Company or the custodian shall act as liquidator; otherwise, the liquidator shall be appointed by the court at the request of any interested party. To this end, they shall be granted the broadest powers to realise assets, pay off any creditors and allocate the available balance among the unitholders in the form of cash or securities.

The statutory auditor and the custodian shall continue to carry out their duties until the end of the liquidation proceedings.

TITLE 5 – DISPUTES

Article 13 – Competent courts - Jurisdiction

Any disputes relating to the Fund that arise during the Fund's lifetime or during its liquidation, either among the unitholders or between the unitholders and the Management Company or the custodian, shall be subject to the jurisdiction of the competent courts.
