WisdomTree Issuer ICAV

Directors' Report For the financial year ended 31 December 2023

The Directors present to the shareholders the annual report together with the audited financial statements for the financial year (“year”) ended 31 December 2023 of WisdomTree Issuer ICAV (the “ICAV”).

Review of the development of the business

WisdomTree Issuer ICAV is an Irish collective asset-management vehicle constituted as an umbrella fund with segregated liability between sub-funds with registration number C132923. It was established on 20 September 2011 as a Public Limited Company (“PLC”) and on 6 May 2020 it was converted to an ICAV. The ICAV has been authorised by the Central Bank of Ireland (“Central Bank”) as an Undertaking for Collective Investment in Transferable Securities (“UCITS”) pursuant to the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended) and the Central Bank (Supervision and Enforcement) Act 2013 (section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (as amended) (together the “UCITS Regulations”). References to statutes, regulations and laws shall include any amendments thereto. All capitalised terms used but not defined herein shall have the meaning ascribed thereto in the ICAV’s Prospectus dated 8 March 2023 (the “Prospectus”). WisdomTree Asset Management, Inc acts as promoter of the ICAV. The promoter is authorised by the Securities and Exchange Commission (“SEC”) and is registered as an investment adviser under the Investment Advisers Act, 1940, as amended.

As at 31 December 2023, the ICAV comprised 30 active sub-funds and 3 terminated sub-funds, (collectively the “Sub-Funds” or each individually a “Sub-Fund”), (31 December 2022: 29 active sub-funds). The names and initial launch dates of the active Sub-Funds are as follows:

Results and activities

The results of operations are detailed in the Statement of Comprehensive Income and Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares. A detailed review of the ICAV's activities and future developments is contained in the Investment Managers' Reports on pages 27 to 50.

WisdomTree Issuer ICAV

Directors' Report (continued) For the financial year ended 31 December 2023

Directors

The Directors who held office during and since the end of the financial year are detailed below:

Anne-Marie King (Irish)* (Chairperson (appointed as Chairperson on 25 July 2023))

Peter Ziemba (US) (resigned as Chairperson on 25 July 2023)

Bryan Governey (Irish)

Alexis Marinof (Belgian)

Feargal Dempsey (Irish)*

* Independent Non-Executive Directors, as defined by the IF Corporate Governance Code.

All Directors are non-executive Directors.

Going Concern

The Directors' report summarises the ICAV's activities, its financial performance and financial position together with any factors likely to affect its future development. In addition, it discusses the principal risks and uncertainties it faces. Note 11 to these financial statements summarises the ICAV's risk and capital management objectives and policies together with its financial risks. After making enquiries, the Directors have a reasonable expectation that each Sub-Fund within the ICAV has adequate resources to continue in operational existence for the foreseeable future. To the extent that operating expenses exceed management fees received from the Sub-Funds, WisdomTree Management Limited (the "Manager") will pay such excess from its internal resources. In addition, the Board is not aware of any material uncertainties that may cast significant doubt upon each Sub-Fund's ability to continue as a going concern. Accordingly, they continue to adopt the going concern basis in preparing the annual report and accounts with the exception of WisdomTree EUR Aggregate Bond ESG Enhanced Yield UCITS ETF, WisdomTree EUR Government Bond ESG Enhanced Yield UCITS ETF and WisdomTree European Union Bond UCITS ETF, which were terminated during the financial year. The liquidation basis of accounting for the terminated Sub-Funds was applied by selling off all investments that remained on closure date as part of compulsory redemption order. The management company pre-funded the receivables to ensure full cash value of final NAV was provided to investors. As cash was received after the Sub-Fund's closure, this was repatriated back to the management company to repay the pre-funding. There were no closure costs applied to the NAV of the terminated Sub-Funds.

Future developments

The ICAV will look to add new sub-funds over the course of the next financial year based on market opportunities.

Directors' and ICAV Secretary's interests

The Directors who held office at 31 December 2023 held shares in various Sub-Funds with an approximate value of EUR 521,000 (31 December 2022: EUR 448,000). At 31 December 2023 and 31 December 2022, Goodbody Secretarial Limited (the "Secretary") had no interests in the share capital or debentures of the ICAV. At 31 December 2023 and 31 December 2022, the subscriber shares are held by WisdomTree UK Limited and WisdomTree Management Limited. Please refer to Note 8 for Directors' Remuneration and related party transactions with the Directors.

Distributions

The Directors intend to distribute all or substantially all of the net income (interest and dividends, less expenses) of the Sub-Funds attributable to distributing shares. Distributions shall be payable in the local currency of the share class on each Sub-Fund to shareholders. Quarterly distributions will normally be declared with a view to being paid in March, June, September, and December. Please refer to Note 10 for distributions paid during the year and Note 23 for distributions declared prior to the year end but paid subsequent to the year end.

WisdomTree Issuer ICAV

Directors' Report (continued) For the financial year ended 31 December 2023

Adequate accounting records

The Directors comply with the ICAV's obligations to keep adequate accounting records by appointing competent persons to be responsible for them. The accounting records are kept by State Street Fund Services (Ireland) Limited, at 78 Sir John Rogerson's Quay, Dublin 2, Ireland.

Connected persons

Regulation 43(1) of the UCITS Regulations "Restrictions of transactions with connected persons" states that "A responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length; and b) in the best interest of the unit-holders of the UCITS". As required under UCITS Regulation 81(4), the Manager, as a responsible person is satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected persons; and all transactions with connected parties that were entered into during the period to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

The following table details the types of transactions entered into with counterparties that are connected persons:

<i>Types of transactions</i>	<i>Counterparties</i>
Administration, registry and transfer agency services	State Street Fund Services (Ireland) Limited
Custody and trustee services	State Street Custodial Services (Ireland) Limited
Foreign currency hedging services	Assenagon Asset Management SA
	Irish Life Investment Managers Limited
Facilities agency and marketing services	WisdomTree UK Limited
	WisdomTree Ireland Limited
Promoter and index provider	WisdomTree Asset Management, Inc.
Management services	WisdomTree Management Limited
Investment management services	Assenagon Asset Management SA
	Irish Life Investment Managers Limited

Employees

The ICAV had no employees during the financial year ended 31 December 2023 and 31 December 2022.

Significant events during the financial year

See Note 22 in Notes to the Financial Statements.

Significant events after the financial year end

See Note 23 in Notes to the Financial Statements.

Risk management objective and policies

The main risks arising from the ICAV's financial instruments are market price, interest rate, foreign currency, liquidity and credit risk. For further information on risk management objectives and policies, please see Note 11 of these financial statements.

Publication of Financial Statements

The Directors are responsible for ensuring the ICAV's audited financial statements are published on the ICAV's website and have delegated this responsibility to the Manager. Legislation in Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

WisdomTree Issuer ICAV

Directors' Report (continued) For the financial year ended 31 December 2023

Corporate Governance Statement

The ICAV is subject to corporate governance practices imposed by:

- (i) The ICAV Act 2015 which is available for inspection at the registered office of the ICAV and may also be obtained at www.irishstatutebook.ie.
- (ii) The Instrument of Incorporation of the ICAV which are available for inspection at the registered office of the ICAV and at the Companies Registration Office in Ireland.
- (iii) The European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, and under The Central Bank (Supervision And Enforcement) Act 2013 (Section 48(1) (Undertakings For Collective Investment In Transferable Securities) Regulations 2019), which can be obtained from the Central Bank's website at www.centralbank.ie and are available for inspection at the registered office of the ICAV.

The ICAV has assessed the measures included in the Irish Funds Corporate Governance Code which may be adopted on a voluntary basis by Irish authorised collective investment schemes. The Directors adopted the corporate governance practices and procedures in the IF Code with effect from 10 December 2014. The IF Code is available for inspection at the registered office of the ICAV and may also be obtained at www.irishfunds.ie.

The ICAV has adopted a Whistleblowing policy which is available on request.

Internal Control and Risk Management Systems in Relation to Financial Reporting

The Board is responsible for establishing and maintaining adequate internal control and risk management systems of the ICAV in relation to the financial reporting process. Such systems are designed to manage rather than eliminate the risk of error or fraud in achieving the ICAV's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss and relies on the operating controls of the service providers.

The Board has procedures in place which are designed to ensure that all relevant adequate accounting records are properly maintained and are readily available, including production of annual and half yearly financial statements. The Board has appointed State Street Fund Services (Ireland) Limited, (the "Administrator") to maintain the books and records of the ICAV. The Administrator is authorised and regulated by the Central Bank and must comply with the rules imposed by the Central Bank. From time to time, the Board of Directors examines and evaluates the Administrator's financial accounting and reporting routines. The annual financial statements of the ICAV are produced by the Administrator. They are required to be approved by the Board and the annual and half yearly financial statements of the ICAV are required to be filed with the Central Bank.

The Board is responsible for the review and approval of the annual financial statements as set out in the Statement of Directors' Responsibilities. The statutory financial statements are required to be audited by independent auditors who report annually to the Board on their findings.

The Board periodically considers the independent auditors' performance, qualifications and independence. As part of its review procedures, the Board receives presentations and reports on the audit process. The Board evaluates and discusses significant accounting and reporting issues as the need arises.

Dealings with Shareholders

The convening and conduct of shareholders' meetings are governed by the Instrument of Incorporation of the ICAV and the ICAV Act. Although the Directors may convene an extraordinary general meeting of the ICAV at any time, the Directors were required to convene the first annual general meeting of the ICAV within eighteen months of incorporation and fifteen months of the date of the previous annual general meeting thereafter, provided that an annual general meeting is held once in each year within six months of the end of each accounting period of the ICAV.

WisdomTree Issuer ICAV

Directors' Report (continued) For the financial year ended 31 December 2023

Corporate Governance Statement (continued)

Dealings with Shareholders (continued)

At least twenty-one clear days' notice of every annual general meeting and any meeting convened for the passing of a special resolution must be given to shareholders and fourteen days' notice must be given in the case of any other general meeting, unless the auditors of the ICAV and all the shareholders of the ICAV entitled to attend and vote agree to shorter notice. Two shareholders present either in person or by proxy constitutes a quorum at a general meeting. To every separate general meeting of a Fund or Class the provisions of these Articles relating to general meetings shall apply but so that the necessary quorum at any such meeting other than an adjourned meeting shall be two persons holding or representing by proxy participating shares of the Fund or Class in question and, at an adjourned meeting, one person holding participating shares of the Fund or Class in question or his proxy. Any holder of participating shares of the Fund or Class in question present in person or by proxy may demand a poll.

Every holder of participating shares or non-participating shares present, in person or by proxy who votes on a show of hands is entitled to one vote. On a poll, every holder of participating shares present, in person or by proxy, is entitled to one vote in respect of each share held by him, and every holder of non-participating shares is entitled to one vote in respect of all non-participating shares held by him. At any general meeting, a resolution put to the vote of the meeting is decided on a show of hands unless, before or upon the declaration of the result of the show of hands, a poll is demanded by the Chairman or by any shareholder present, in person or by proxy. Unless a poll is so demanded, a declaration by the Chairman that a resolution has been carried, or carried unanimously, or by a particular majority, or lost, or not carried by a particular majority and an entry to that effect in the minutes of the meeting shall be conclusive evidence of the fact without proof of the number or proportion of the votes recorded in favour of or against such a resolution. The demand for a poll may be withdrawn before the poll is taken but only with the consent of the Chairman, and a demand so withdrawn shall not be taken to have invalidated the result of a show of hands declared before the demand was made.

Shareholders may resolve to sanction an ordinary resolution or special resolution at a shareholders' meeting. Alternatively, a resolution in writing signed by all of the shareholders and holders of non-participating shares for the time being entitled to attend and vote on such resolution at a general meeting of the ICAV, will be valid and effective for all purposes as if the resolution had been passed at a general meeting of the ICAV duly convened and held. An ordinary resolution of the ICAV (or of the shareholders of a particular fund or class of shares) requires a simple majority of the votes cast by the shareholders voting, in person or by proxy, at the meeting at which the resolution is proposed. A special resolution of the ICAV (or of the shareholders of a particular fund or class of shares) requires a majority of not less than 75% of shareholders present, in person or by proxy, and voting in general meeting in order to pass a special resolution including a resolution to amend the Instrument of Incorporation.

Board composition and activities

In accordance with the ICAV Act and the Instrument of Incorporation, unless otherwise determined by an ordinary resolution of the ICAV in general meeting, the number of Directors may not be less than two. Currently the Board comprises 5 non-executive Directors of whom 2 are independent. Details of the current Directors are set out above, under the heading "Directors".

The business of the ICAV is managed by the Directors, who exercise all such powers of the ICAV as are not by the ICAV Act or by the Instrument of Incorporation of the ICAV required to be exercised by the ICAV in general meeting.

The Board is responsible for the ICAV's overall direction and strategy and to this end it reserves the decision making power on issues such as the determination of medium and long term goals, review of delegates performance, organisational structure and capital needs and commitments to achieve the ICAV's strategic goals. To achieve these responsibilities, the Board meets on a quarterly basis to review the operations of the ICAV, address matters of strategic importance and to receive reports from the

WisdomTree Issuer ICAV

Directors' Report (continued) For the financial year ended 31 December 2023

Corporate Governance Statement (continued)

Board composition and activities (continued)

Administrator, Depositary and the Investment Managers. However, a Director may, and the Secretary on the requisition of a Director will, at any time summon a meeting of the Directors and ad hoc meetings, in addition to the four meetings, which are convened as required.

Questions arising at any meeting of the Directors are determined by the Chairman. In the case of an equality of votes, the Chairman of the meeting at which the show of hands takes place or at which the poll is demanded shall be entitled to a second or casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two.

There were no sub-committees of the Board in operation during the financial year or at the financial year end.

Diversity Report

The Board is conscious of the importance of diversity to enhance its operation. During the Director selection process, the Board is committed to selecting those with diversity of business skills, experience and gender and candidates for appointment are considered based on these attributes. The Board's principle is that each member of the Board must have the skills, experience, knowledge and overall suitability that will enable each director to contribute individually, and as part of the Board team, to the effectiveness of the Board. Subject to that overriding principle, the Board believes that diversity of experience and approach, including educational and professional background, gender, age and geographical provenance, amongst board members is of great value when considering overall board balance in making new appointments to the Board. In consideration of the nature, scale and complexity of the ICAV, the Board's objective is to ensure that it delivers the business strategy while (i) it maintains a balance of skills, knowledge, experience and diversity at Board member level, (ii) all selection decisions and succession planning for appointments to the Board are based on merit, skills, knowledge, experience and independence, (iii) recruitment is fair and non-discriminatory. The current Board composition reflects diverse age, gender, educational and professional backgrounds. The ICAV's policy in regards to diversity is to take into consideration the above factors when considering new appointments to the Board.

Geopolitical Risk

The Directors and the Company's delegates continue to monitor and assess the impact of ongoing geopolitical conflicts on the Sub-Funds and will take any potential actions needed or as required under the terms of the Prospectus of the Sub-Funds, as facts and circumstances are subject to change and may be specific to investments and jurisdictions.

Sustainable Finance Disclosure Regulation ("SFDR")

During the course of the year, regulation around sustainability-related disclosures continued to evolve, through the Sustainable Finance Disclosure Regulation (Regulation EU/2019/2088) (the "SFDR") and the EU Taxonomy Regulation (Regulation (EU) 2020/852, and amending SFDR) (the "Taxonomy Regulation") and their associated regulatory technical standards and available guidance. Additional disclosure requirements under SFDR Level 2 are applicable to all annual reports published on or after 1 January 2023 and such disclosures as they relate to the Sub-Funds can be found in Appendix III section of this report. Such disclosures have in part been prepared using data sourced from third party data providers which was available as at the date of which the disclosures were produced. It has been observed that the availability of data continues to be challenging in some respects and there may be further regulatory guidance of relevance to the content of the disclosures that is still to be issued. The disclosures included in Appendix III section should consequently be read and understood in light of these continuing challenges. With the assistance of the Manager and the Investment Managers, the Board continues to monitor the ongoing development and evolution of sustainability-related regulation and associated guidance and the availability of relevant data in this regard.

Directors' Report (continued) For the financial year ended 31 December 2023

Relevant audit information

As at the date this Directors' Report was approved and signed each Director is satisfied that:

- (a) there is no relevant audit information of which the ICAV's statutory auditors are unaware; and
- (b) he/she has taken all the steps that he or she ought to have taken as a director in order to make herself or himself aware of any relevant audit information and to establish that the ICAV's statutory auditors are aware of that information; and
- (c) where "relevant audit information" means information needed by the ICAV's statutory auditors in connection with preparing their report.

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Directors' report and the financial statements in accordance with Irish law and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended) (the "UCITS Regulations").

Irish law requires the Directors to prepare financial statements for each financial year. Under that law the Directors have prepared the financial statements in accordance with International Financial Reporting Standards as adopted by the European Union ("IFRS").

Under Irish law the Directors shall not approve the financial statements unless they are satisfied that they give a true and fair view of the ICAV's assets, liabilities and financial position as at the end of the financial year and of the profit or loss of the ICAV for the financial year.

In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with IFRS and ensure that they contain the additional information required by the ICAV Act; and
- prepare the financial statements on the going concern basis unless it is inappropriate to presume that the ICAV will continue in business.

The Directors are responsible for keeping adequate accounting records that are sufficient to:

- correctly record and explain the transactions of the ICAV;
- enable, at any time, the assets, liabilities, financial position and profit or loss of the ICAV to be determined with reasonable accuracy; and
- enable the Directors to ensure that the financial statements comply with the Companies Act before conversion to ICAV and ICAV Act 2015 after conversion to ICAV and enable those financial statements to be audited.

In this regard State Street Fund Services (Ireland) Limited (the "Administrator") has been appointed for the purpose of maintaining adequate accounting records. Accordingly, the accounting records are kept at the following address:

State Street Fund Services (Ireland) Limited
78 Sir John Rogerson's Quay
Dublin 2
Ireland

The Directors are responsible for safeguarding the assets of the ICAV, and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities. In this regard they have entrusted the assets of the ICAV to State Street Custodial Services (Ireland) Limited (the "Depositary"), at the below address, who has been appointed as Depositary to the ICAV pursuant to the terms of a Depositary Agreement.

Independent auditor

The auditors, Ernst & Young, were appointed by the Board of Directors on 7 March 2013 to audit the financial statements for the year ending 30 November 2012 and subsequent financial periods. In accordance with EU Regulations concerning the audit of public-interest entities and having held the position of the ICAV's independent auditor for 14 consecutive financial year ends, Ernst & Young have now reached the maximum permitted time under these regulations and will rotate off as the ICAV's auditor. The Directors have agreed to appoint Deloitte Ireland LLP, Chartered Accountants and registered auditors, as the ICAV's independent auditors for the financial year ended 31 December 2024.Á

Investment Manager's Report
Irish Life Investment Managers Limited
For the financial year ended 31 December 2023

Tracking Difference

Tracking difference is defined as the difference in returns between a fund and its benchmark index.

The investment management approach is to buy a portfolio of securities that as far as practicable consist of the securities or a sample thereof that make up the benchmark index, in similar proportion to the weights represented in the index.

Transaction costs from rebalancing and cash management can have an impact on the Sub-Funds' tracking difference. Depending on the underlying circumstances, these can result in either positive or negative tracking differences.

In addition to the above, the Sub-Funds may also show a tracking difference due to the withholding tax rate suffered by the Sub-Funds on any income received from their investments. The level and quantum of tracking difference arising due to withholding taxes depends on various factors such as any reclaims filed on behalf of the Sub-Funds with the various tax authorities and any benefits obtained by the Sub-Funds under a tax treaty.

The table below compares the Sub-Funds' performance against the performance of the relevant benchmark index during the financial year ended 31 December 2023. An explanation for the difference gross of the Total Expense Ratio ("TER") is provided:

<i>Share Class</i>	<i>Fund return for the year ended 31/12/2022</i> %	<i>Fund return for the year ended 31/12/2023</i> %	<i>Benchmark return for the period ended 31/12/2023</i> %	<i>Tracking difference Net of TER</i> %	<i>TER (Annual or pro rata since Inception)</i> %	<i>Tracking difference Gross of TER</i> %	<i>Explanation of the tracking difference</i>
WisdomTree US Equity Income UCITS ETF - DHS	7.01	(0.92)	(1.32)	0.43	(0.29)	0.72	Outperformance is driven by differences in tax treatment between the fund and the benchmark. The majority of the residual is explained by cash drag.
WisdomTree US Equity Income UCITS ETF - DHS A	7.00	(0.91)	(1.32)	0.42	(0.29)	0.71	Outperformance is driven by differences in tax treatment between the fund and the benchmark. The majority of the residual is explained by cash drag.

January 2024

WisdomTree Issuer ICAV
Investment Manager’s Report (continued)
Assenagon Asset Management S.A.
For the financial year ended 31 December 2023

Reporting period: 1 January 2023 – 31 December 2023

Tracking Difference

Tracking difference is defined as the difference in returns between a fund and its benchmark index. Among others, management fees (TER), investment fees like swap fees and transaction costs, replication accuracy and other factors can have an impact on the Sub-Funds’ tracking difference. Depending on the underlying circumstances, these can result in either positive or negative tracking difference.

Tracking Error

The tracking error for each Sub-Fund represents the annualised volatility of the daily differences between the returns of the Sub-Fund and the returns of its benchmark index for the period from 1 January 2023 until 31 December 2023.

The table below compares the Sub-Funds’ performance against the performance of the relevant benchmark index during the abovementioned period. An explanation for the difference gross of the Total Expense Ratio (“TER”) is provided as well. The table also shows the annualised tracking error for the period from 1 January 2023 until 31 December 2023.

During the reporting period, the annualised tracking errors for all Sub-Fund’s share classes were within the tolerance level for anticipated tracking error as per each Sub-Fund’s Supplement (2%).

Investment Manager's Report (continued)
Assenagon Asset Management S.A.
For the financial year ended 31 December 2023

Performance

- During the period from 31 December 2022 until 31 December 2023 the commodity markets exhibited a negative performance of -7.91% mainly driven by weak energy (Bloomberg Energy Index -21.64%), grains (Bloomberg Grains Index -13.01%) and industrial metal (Bloomberg Industrial Metals Index -9.15%) performance. Strongest performing commodity sectors were softs (Bloomberg Softs Index +18.53%) followed by precious metals (Bloomberg Precious Metals Index +9.64%). The WisdomTree Enhanced Commodity UCITS ETF (Share Class Ticker Symbols: WCOA / WCOG), WisdomTree Enhanced Commodity ex-Agriculture UCITS ETF (WXAG) and WisdomTree Broad Commodities UCITS ETF (PCOM) have been affected by the above stated market conditions and the net asset values ("NAV") for the period from 31 December 2022 until 31 December 2023 decreased by -7.62%, -8.52% and -8.29%, respectively.
- During the reporting period, the main share class of the WisdomTree AT1 CoCo Bond UCITS ETF (COCB) performed in line with the peer-group funds returning 5.44%. The first quarter of the European Banks AT1 CoCo markets was shaped by the writedown of Credit Suisse's AT1 range. However, it showed positive development in the last three quarters of 2023. The attractiveness of AT1 CoCo Bonds in banks' capital structure remained unchanged, providing the highest premium yield compared to other sources of bank debt financing.

WisdomTree Issuer ICAV

Depository Report For the financial year ended 31 December 2023

We have enquired into the conduct of Irish Life Investment Managers Limited and Assenagon Asset Management SA as the Managers of WisdomTree Issuer ICAV (the “ICAV”) for the financial year ended 31 December 2023, in our capacity as Depository to the ICAV.

This report including the opinion has been prepared for and solely for the shareholders in the ICAV as a body, in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, (‘the UCITS Regulations’), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depository

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Managers and the ICAV in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the ICAV has been managed in that period in accordance with the provisions of the ICAV’s Instrument of Incorporation and the UCITS Regulations. It is the overall responsibility of the Managers and the ICAV to comply with these provisions. If the Managers and the ICAV have not so complied, we as Depository must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depository Opinion

The Depository conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the ICAV has been managed:

- (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the ICAV’s Instrument of Incorporation and the UCITS Regulations; and
- (ii) otherwise in accordance with the ICAV’s constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the ICAV has been managed during the financial year ended 31 December 2023, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the ICAV by the Instrument of Incorporation, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (‘the Central Bank UCITS Regulations’); and
- (ii) otherwise in accordance with the provisions of the Instrument of Incorporation, the UCITS Regulations and the Central Bank UCITS Regulations.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF WISDOMTREE ISSUER ICAV

Report on the audit of the financial statements

Opinion

We have audited the financial statements of WisdomTree Issuer ICAV ('the ICAV') for the year ended 31 December 2023, which comprise the WisdomTree US Equity Income UCITS ETF, WisdomTree Europe Equity Income UCITS ETF, WisdomTree Europe SmallCap Dividend UCITS ETF, WisdomTree Emerging Markets Equity Income UCITS ETF, WisdomTree Emerging Markets SmallCap Dividend UCITS ETF, WisdomTree Japan Equity UCITS ETF, WisdomTree Europe Equity UCITS ETF, WisdomTree UK Equity Income UCITS ETF, WisdomTree Enhanced Commodity UCITS ETF, WisdomTree US Quality Dividend Growth UCITS ETF, WisdomTree Global Quality Dividend Growth UCITS ETF, WisdomTree Eurozone Quality Dividend Growth UCITS ETF, WisdomTree AT1 CoCo Bond UCITS ETF, WisdomTree EUR Aggregate Bond ESG Enhanced Yield UCITS ETF, WisdomTree EUR Government Bond ESG Enhanced Yield UCITS ETF, WisdomTree Artificial Intelligence UCITS ETF, WisdomTree USD Floating Rate Treasury Bond UCITS ETF, WisdomTree Cloud Computing UCITS ETF, WisdomTree Battery Solutions UCITS ETF, WisdomTree Cybersecurity UCITS ETF, WisdomTree European Union Bond UCITS ETF, WisdomTree Enhanced Commodity ex-Agriculture UCITS ETF, WisdomTree Emerging Markets ex-State-Owned Enterprises ESG Screened UCITS ETF, WisdomTree Broad Commodities UCITS ETF, WisdomTree BioRevolution UCITS ETF, WisdomTree New Economy Real Estate UCITS ETF, WisdomTree Recycling Decarbonisation UCITS ETF, WisdomTree Blockchain UCITS ETF, WisdomTree Global Automotive Innovators UCITS ETF, WisdomTree Renewable Energy UCITS ETF, WisdomTree US Efficient Core UCITS ETF, WisdomTree UK Quality Dividend Growth UCITS ETF and WisdomTree MegaTrend UCITS ETF (each individually a "Fund" and collectively the "Funds").

The financial statements of the Funds comprise of the Statement of Comprehensive Income, Statement of Financial Position, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, Statement of Cash Flows and notes to the financial statements, including the material accounting policy information set out in note 3. The financial reporting framework that has been applied in their preparation is Irish Law and International Financial Reporting Standards (IFRS) as adopted by the European Union.

In our opinion the financial statements:

- give a true and fair view of the assets, liabilities and financial position of the Funds of the ICAV as at 31 December 2023 and of their profit/loss for the year then ended;
- have been properly prepared in accordance with IFRS as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Irish Collective Asset-management Vehicles Act 2015, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF WISDOMTREE ISSUER ICAV

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the ICAV in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard as applied to public interest entities issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter— financial statements prepared on a basis other than a going concern

We draw attention to note 3.13 to the financial statements which explains that the directors have terminated WisdomTree EUR Aggregate Bond Enhanced Yield UCITS ETF, WisdomTree EUR Government Bond Enhanced Yield UCITS ETF and WisdomTree European Union Bond UCITS ETF (collectively the "Terminated Funds"). Therefore, the directors do not consider it to be appropriate to adopt the going concern basis of accounting in preparing the financial statements of these Funds. Accordingly, the financial statements have been prepared on a termination basis for these Funds as described in note 3.13. Our opinion is not modified in respect of this matter.

Conclusions relating to going concern

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate other than the sub-funds noted in the above paragraph. Our evaluation of the directors' assessment of the sub-funds of ICAV's ability to continue to adopt the going concern basis of accounting included:

- Confirming our understanding of management's Going Concern assessment process and also engaged with management to understand the key factors which were considered in their assessment;
- Obtaining management's going concern assessment, which covers at least 12 months from the date of approval of the financial statements;
- Reviewing and evaluating the reasonability of the key factors considered by management in making their assessment of going concern including consideration of the availability of liquid assets to meet ongoing operational costs and known future capital activity in the sub-funds of ICAV. In assessing these, we obtained and reviewed the liquidity terms which the sub-funds of ICAV offer to investors together with reviewing post year-end capital activity and enquiring of management as to whether there are any subsequent events, including performance, that might give rise to conditions which could lead management to discontinue the operations of the sub-funds of ICAV.
- Reviewing the ICAV's going concern disclosures included in the annual report in order to assess that the disclosures were appropriate and in conformity with the reporting standards.

working world**

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF WISDOMTREE ISSUER ICAV

Conclusion

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the sub-funds of ICAV's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue, with the exception of the Terminated Funds noted above.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to the sub-funds of ICAV's ability to continue as a going concern.

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF WISDOMTREE ISSUER ICAV

Our application of materiality

We apply the concept of materiality in planning and performing the audit, in evaluating the effect of identified misstatements on the audit and in forming our audit opinion.

Materiality

The magnitude of an omission or misstatement that, individually or in the aggregate, could reasonably be expected to influence the economic decisions of the users of the financial statements. Materiality provides a basis for determining the nature and extent of our audit procedures.

We determined materiality for each Fund of the ICAV to be 0.5% of each Fund's Net Asset Value as 31 December 2023 (2022: 0.5%), except for the Terminated Funds. We determined materiality for the Terminated Funds to be 0.5% of the final redemption value. We believe that this materiality basis provides us with appropriate measurement basis since the users of the financial statements may focus more on this than on earnings.

During the course of our audit, we reassessed initial materiality and made no changes to it.

Performance materiality

The application of materiality at the individual account or balance level. It is set at an amount to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds materiality.

On the basis of our risk assessments, together with our assessment of the ICAV's overall control environment, our judgement was that performance materiality was 75% (2023: 75%) of our planning materiality, except for Funds which were newly launched in 2023 (namely WisdomTree Renewable Energy UCITS ETF, WisdomTree US Efficient Core UCITS ETF, WisdomTree UK Quality Dividend Growth UCITS ETF and WisdomTree Megatrend UCITS ETF) whose performance materiality was 50% of our planning materiality. We have set performance materiality at this percentage as this was our first year auditing these Funds.

Reporting threshold

An amount below which identified misstatements are considered as being clearly trivial.

We agreed with the Board of Directors that we would report to them all uncorrected audit differences in excess of 5% (2022: 5%), of our defined materiality, as well as differences below that threshold that, in our view, warranted reporting on qualitative grounds.

We evaluate any uncorrected misstatements against both the quantitative measures of materiality discussed above and in light of other relevant qualitative considerations in forming our opinion.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF WISDOMTREE ISSUER ICAV

An overview of the scope of our audit report

Tailoring the scope

Our assessment of audit risk, our evaluation of materiality and our allocation of performance materiality determine our audit scope for the ICAV. This enables us to form an opinion on the financial statements. We take into account size, risk profile, the organisation of the ICAV and effectiveness of controls, including controls and changes in the business environment when assessing the level of work to be performed. All audit work was performed directly by the audit engagement team.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

Respective responsibilities

Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 25, the directors are responsible for the preparation of the financial statements in accordance with the applicable financial reporting framework that give a true and fair view, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing each sub-fund of the ICAV's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate a Fund or to cease operations, or has no realistic alternative but to do so.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF WISDOMTREE ISSUER ICAV

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Explanation to what extent the audit was considered capable detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud that could reasonably be expected to have a material effect on the financial statements. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. In addition, the further removed any non-compliance is from the events and transactions reflected in the financial statements, the less likely it is that our procedures will identify such non-compliance. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the company and management.

Our approach was as follows:

- We obtained an understanding of the legal and regulatory frameworks that are applicable to the ICAV and determined that the most significant are the Irish Collective Asset-management Vehicles Act 2015, the Undertaking for Collective Investment in Transferable Securities pursuant to the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision And Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.
- We understood how WisdomTree Issuer ICAV is complying with those frameworks by updating our understanding of the adequate system of internal control in place. We also considered the existence of independent service providers, proper segregation of duties and the regulated environment in which the Funds operate, which may reduce opportunities for fraud to take place. We assessed the susceptibility of the ICAV's financial statements to material misstatement, including how fraud might occur by management override of controls.
- Based on this understanding we designed our audit procedures to identify non-compliance with such laws and regulations. Our procedures involved inquiries to those charged with governance into possible instances of non-compliance with laws and regulations, review of board meeting minutes during the year and obtaining representation from the management.

Building a better
working world

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF WISDOMTREE ISSUER ICAV

A further description of our responsibilities for the audit of the financial statements is located on the IAASA's website at: http://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

This description forms part of our auditor's report.

Other matters which we are required to address

We were appointed by Board of Directors on 7 March 2013 to audit the financial statements for the year ending 30 November 2012 and subsequent financial periods. In accordance with EU Regulations, the period of total uninterrupted engagement including previous renewals and reappointments of the firm is 12 years since the ICAV has become subject to these regulations.

The non-audit services prohibited by IAASA's Ethical Standard were not provided to the ICAV and we remain independent of the ICAV in conducting our audit.

Our audit opinion is consistent with the additional report to the Board of Directors.

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the ICAV's members, as a body, in accordance with section 120 of the Irish Collective Asset management Vehicles Act 2015. Our audit work has been undertaken so that we might state to the ICAV's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the ICAV and the ICAV's members, as a body, for our audit work, for this report, or for the opinions we have formed.

WisdomTree Issuer ICAV

Notes to the Financial Statements For the financial year ended 31 December 2023

1. General Information

WisdomTree Issuer ICAV (“ICAV”) is an open-ended Irish collective asset management vehicle which is constituted as an umbrella fund with segregated liability between sub-funds and with variable capital. The ICAV was registered under the laws of Ireland with registered number C132923. The ICAV’s registered office is 3 Dublin Landings, North Wall Quay, Dublin 1, Ireland. The ICAV was authorised and regulated by the Central Bank under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, and under The Central Bank (Supervision And Enforcement) Act 2013 (Section 48(1) (Undertakings For Collective Investment In Transferable Securities) Regulations 2019) (collectively the “Regulations”), together with the listing rules of the Euronext Dublin.

WisdomTree Management Limited (the “Manager”) and WisdomTree Ireland Limited are wholly owned subsidiaries of WisdomTree Europe Holdings Limited. WisdomTree UK Limited is a wholly owned subsidiary of Electra Target Holdco Limited.

For Swiss investors, the Prospectus, the articles, the document containing key information for investors (“KIID”), the annual and semi-annual report, and the list of all purchases and sales made during the period under consideration for the ICAV may be obtained free of charge from the Representative for Switzerland, Société Générale, Paris, Zurich Branch, Talacker 50, PO Box 1928, CH – 8021 Zurich, Switzerland. All Sub-Funds are listed on Euronext Dublin.

At 31 December 2023, the ICAV comprised 30 active sub-funds, (collectively the “Sub-Funds” or each individually a “Sub-Fund”), (31 December 2022: 29 active sub-funds).

2. Basis of Preparation

The financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as issued by the International Accounting Standards Board (the “IASB”) and adopted by the European Union (the “EU”), and Irish statute comprising the ICAV Act 2015 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, and under The Central Bank (Supervision And Enforcement) Act 2013 (Section 48(1) (Undertakings For Collective Investment In Transferable Securities) Regulations 2019) (collectively the “Regulations”).

New standards, amendments and interpretations issued and effective for the financial year beginning 1 January 2023

There are a number of standards, amendments to standards or interpretations that are effective for annual periods beginning on 1 January 2023.

The following new and amended standards and interpretations have no significant impact on the ICAV’s financial statements:

- IFRS 17 Insurance Contracts.
- Disclosure of Accounting Policies (Amendments to IAS 1 and IFRS Practice Statement 2). The amendments require entities to disclose their ‘material’ accounting policies, rather than their ‘significant’ accounting policies.
- Definition of Accounting Estimates (Amendments to IAS 8). The amendments clarify how companies distinguish changes in accounting policies from changes in accounting estimates, with a primary focus on the definition of and clarifications on accounting estimates.

WisdomTree Issuer ICAV

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

2. Basis of Preparation (continued)

New standards, amendments and interpretations issued and effective for the financial year beginning 1 January 2023 (continued)

- Deferred Tax related to Assets and Liabilities arising from a Single Transaction (Amendments to IAS 12). The amendments clarify how companies account for deferred tax on transactions such as leases and decommissioning obligations.

New standards, amendments and interpretations issued but not effective for the financial year beginning 1 January 2023 and not early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 January 2023, and have not been early adopted in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the ICAV.

- Classification of Liabilities as Current or Non-Current (Amendments to IAS 1). The amendments clarify that the right to defer settlement of a liability must exist for at least 12 months after the reporting period. Companies may need to provide additional disclosures for liabilities classified as non-current and subject to covenants within 12 months of the reporting date.

- Lease Liability in a Sale and Leaseback (Amendments to IFRS 16). The amendments to IFRS 16 require a seller-lessee to apply the subsequent measurement requirements for lease liabilities unrelated to a sale and leaseback transaction to lease liabilities arising from a leaseback in a way that it recognises no amount of the gain or loss related to the right of use that it retains.

- Disclosure of Supplier Finance Arrangements (Amendments to IAS 7 and IFRS 7). The amendments address the disclosure requirements to enhance the transparency of supplier finance arrangements and their effects on a company's liabilities, cash flows and exposure to liquidity risk.

- Lack of Exchangeability (Amendments to IAS 21). The amendments clarify how an entity should assess whether a currency is exchangeable and how it should determine a spot exchange rate when exchangeability is lacking, as well as require the disclosure of information that enables users of financial statements to understand the impact of a currency not being exchangeable.

3. Accounting Policies

3.1 Financial assets and financial liabilities

(a) Classification

In accordance with IFRS 9, the ICAV classifies its financial assets and financial liabilities at initial recognition into the categories of financial assets and financial liabilities discussed below.

In applying that classification, a financial asset or financial liability is considered to be held for trading if:

- (a) It is acquired or incurred principally for the purpose of selling or repurchasing it in the near term
- or
- (b) On initial recognition, it is part of a portfolio of identified financial instruments that are managed together and for which, there is evidence of a recent actual pattern of short-term profit-taking
- or
- (c) It is a derivative (except for a derivative that is a financial guarantee contract or a designated and effective hedging instrument)

WisdomTree Issuer ICAV

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

3. Accounting Policies (continued)

3.1 Financial assets and financial liabilities (continued)

(a) *Classification (continued)*

Financial assets

The ICAV classifies its financial assets as subsequently measured at amortised cost or measured at fair value through profit or loss on the basis of both:

- The entity's business model for managing the financial assets
- The contractual cash flow characteristics of the financial asset

Financial assets measured at amortised cost

A debt instrument is measured at amortised cost if it is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows and its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. The ICAV includes in this category cash and cash equivalents, short-term non-financing receivables, accrued income and other receivables.

Financial assets measured at fair value through profit or loss (FVPL)

A financial asset is measured at fair value through profit or loss if:

- (a) Its contractual terms do not give rise to cash flows on specified dates that are solely payments of principal and interest on the principal amount outstanding
- or
- (b) It is not held within a business model whose objective is either to collect contractual cash flows, or to both collect contractual cash flows and sell
- or
- (c) At initial recognition, it is irrevocably designated as measured at FVPL when doing so eliminates or significantly reduces a measurement or recognition inconsistency that would otherwise arise from measuring assets or liabilities or recognising the gains and losses on them on different bases.

The objective to the ICAV is to track the returns of a specified index, and not to collect contractual cash flows. As such, all investments held meet category (b) above and are categorised as financial assets measured at fair value through profit or loss. The ICAV includes in this category equity investments, debt securities and derivative financial instruments.

Financial liabilities

Financial liabilities measured at fair value through profit or loss (FVPL)

A financial liability is measured at FVPL if it meets the definition of held for trading.

The ICAV includes in this category derivative financial instruments.

Financial liabilities measured at amortised cost

This category includes all financial liabilities, other than those measured at fair value through profit or loss.

WisdomTree Issuer ICAV

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

3. Accounting Policies (continued)

3.1 Financial assets and financial liabilities (continued)

(b) *Recognition*

All regular purchases and sales of investments are recognised on the trade date – the date on which the ICAV commits to purchase or sell the investment. Realised gains and losses arising from the sale of financial assets and financial liabilities at fair value through profit or loss are presented in the Statement of Comprehensive Income within net gain/(loss) on investment activities and are calculated on a weighted average cost basis.

(c) *Initial measurement*

Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Transaction costs are expensed as incurred in the Statement of Comprehensive Income (see Note 3.8).

Financial assets and financial liabilities at amortised cost are recognised on the date on which they originated and initially measured at fair value plus transaction costs that are directly attributable to their acquisition or issue.

(d) *Subsequent measurement*

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Subsequent changes in the fair value of financial assets at fair value through profit or loss are recognised in the Statement of Comprehensive Income as part of net gain/(loss) on investment activities.

Financial assets and financial liabilities at amortised cost are measured using the effective interest method.

Expected Credit Loss

The Sub-Funds hold only receivables with no financing component and which have maturities of less than 12 months at amortised cost and, as such, has chosen to apply an approach similar to the simplified approach for expected credit losses (ECL) under IFRS 9 to all its receivables. Therefore, the Sub-Funds do not track changes in credit risk, but instead, recognises a loss allowance based on lifetime ECLs at each reporting date.

The Sub-Funds' approach to ECL reflects a probability weighted outcome, the time value of money and reasonable and supportable information that is available without undue cost or effort at the reporting date about past events, current conditions and forecasts of future economic conditions.

The Sub-Funds use the provision matrix as a practical expedient to measuring ECLs on trade receivables, based on past days due for groupings of receivables with similar loss patterns. Receivables are grouped based on their nature. The provision matrix is based on historical observed loss rates over the expected life of the receivables and is adjusted for forward-looking estimates.

(e) *Derecognition*

Financial assets are derecognised when the contractual rights to receive cash flows from the investment have expired or the ICAV has transferred substantially all risks and rewards of ownership.

Financial liabilities are derecognised when the obligation specified in the contract is discharged, cancelled or expired.

WisdomTree Issuer ICAV

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

3. Accounting Policies (continued)

3.1 Financial assets and financial liabilities (continued)

(f) *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction in the principal (or most advantageous) market at the measurement date under current market conditions (i.e. an exit price) regardless of whether that price is directly observable or estimated using another valuation technique.

Listed Equities, Preferred Stock, Rights, Bonds and Exchange-traded Commodities

The fair value of financial assets traded in active markets, which includes listed equities, preferred stock, rights, bonds and exchange-traded commodities, are based on quoted market prices at the Statement of Financial Position date. The quoted market prices used for these financial assets held by the Sub-Funds are the current last traded prices.

Un-listed Equity

If a quoted market price is not available on a recognised stock exchange or from a broker/dealer for non-exchange traded financial instruments, the fair value of the instrument is estimated using valuation techniques, including use of recent arm's length market transactions, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on the Board of Directors (the "Board") best estimates and the latest available weighted average cost of capital for the ICAV at the Statement of Financial Position date.

Exchange Traded Funds ("ETFs")

The fair value of investments in ETF's, shall be valued at market value based on the last traded price of the ETF.

Futures

Futures contracts are commitments either to purchase or sell a financial instrument, currency, commodity or an index at a specified future date for a specified price and may be settled in cash or another financial asset. Futures are standardised exchange-traded contracts. Initial margin requirements for futures are met in cash or other instruments, and changes in the future contract values are settled daily. Futures contracts have little credit risk because the counterparties are futures exchanges. Daily fluctuations in the value of a futures contract are recorded for financial reporting purposes as unrealised gains or losses by the Sub-Funds and are recorded as a realised gain or loss when the position is closed.

Forward Foreign Currency Exchange Contracts

The fair value of open forward foreign currency exchange contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the Statement of Financial Position date. Gains or losses on open forward foreign currency exchange contracts are included in the unrealised gain or loss on open forward foreign currency exchange contracts, as appropriate, on the Statement of Financial Position.

Total Return Swaps

A swap is an agreement in which one party makes payments based on a set rate, either fixed or variable, while the other party makes payments based on the return of an underlying asset, which includes both the income it generates and any capital gains. In total return swaps, the

WisdomTree Issuer ICAV

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

3. Accounting Policies (continued)

3.1 Financial assets and financial liabilities (continued)

(f) *Fair value estimation (continued)*

underlying asset, referred to as the reference asset, is usually an equity index, loan, or bond. The fair value of the swaps is determined based on the mark to market valuation provided by the counterparty and validated by the Administrator. In determining the mark to market valuation, the counterparty makes assumptions that are based on market conditions existing on each Statement of Financial Position date. Unrealised gains and losses on total return swaps are included in the unrealised gain or loss on total return swaps in the Statement of Financial Position.

Options

The premium on written call options exercised is added to the proceeds from the sale of the underlying security or foreign currency in determining the realised gain or loss. The premium on written put options exercised is included in determining initial fair value of the securities or foreign currencies purchased. Premiums received from written options which expire unexercised are treated as realised gains. The option is subsequently marked to market to reflect the fair value of the option written, which is reported in the Statement of Financial Position.

Unless stated elsewhere in the financial statements there have been no changes to the valuation policies applied for the year ended 31 December 2023 and 31 December 2022.

3.2 Foreign Currency

(a) *Transactions and balances*

Transactions during the financial year, including purchases and sales of securities, income and expenses, are translated into the functional currency of each Sub-Fund using the exchange rates prevailing at the dates of the transactions.

Proceeds from subscriptions and amounts paid on redemption of redeemable participating shares are translated at average rates, which approximate the rates prevailing at the dates of the transactions.

Non-monetary items that are measured in terms of historical cost in a foreign currency are translated using the exchange rates as at the dates of the initial transactions. Non-monetary items measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined.

All foreign currency transaction gains and losses are reported as part of the net gain/(loss) on investment activities in the Statement of Comprehensive Income.

Foreign currency monetary assets and liabilities are translated into the functional currency of the Sub-Funds using the exchange rate prevailing at the Statement of Financial Position date.

3.3 Interest income and expense

Interest income and expense, which relates to financial instruments held at fair value through profit or loss, is recognised in the Statement of Comprehensive Income as it accrues in net gain/(loss) on investment activities, using the coupon rate of the instrument and the period of time held.

Interest income, which relates to interest income from cash and cash equivalents, is recognised on a time proportionate basis using the effective interest method.

WisdomTree Issuer ICAV

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

3. Accounting Policies (continued)

3.4 *Dividend income*

Dividend income is recognised in the Statement of Comprehensive Income when the relevant Sub-Fund's right to receive the payment has been established, normally being the ex-dividend date. Dividend income is shown gross of any withholding taxes, which are disclosed separately in the Statement of Comprehensive Income, and net of any tax credits.

3.5 *Expenses*

Expenses are accounted for on an accruals basis. Expenses are charged to the Statement of Comprehensive Income. Expenses arising on the disposal of investments are deducted from the disposal proceeds.

3.6 *Negative yield on financial assets*

Negative yield on financial assets relating to interest from a negative effective interest rate on a financial asset is accreted daily and is recognised in the Statement of Comprehensive Income over the life of the underlying instrument.

3.7 *Cash and cash equivalents*

Cash and cash equivalents include cash in hand and on demand deposits. Cash equivalents are short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to insignificant changes in value, and are held for the purpose of meeting short-term cash commitments rather than for investments or other purposes. Bank overdrafts are classified as liabilities in the Statement of Financial Position.

3.8 *Transaction costs*

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset. An incremental cost is one that would not have been incurred if a Sub-Fund of the ICAV had not acquired, issued or disposed of the financial asset.

Transaction costs on purchases and sales of financial instruments are included in net gain/(loss) on investment activities in the Statement of Comprehensive Income for each Sub-Fund. Separately identifiable transaction costs incurred by Sub-Funds of the ICAV during the financial year are disclosed in Note 6.

3.9 *Redeemable participating shares*

Each Sub-Fund issues redeemable participating shares, which are redeemable at the holder's option and are classified as financial liabilities as there are multiple share classes in issue without identical features, in accordance with IAS 32.

The redeemable participating share is carried at the redemption amount that is payable at the Statement of Financial Position date.

Redeemable participating shares are issued and redeemed at the holder's option at prices based on the Sub-Fund's Net Asset Value ("NAV") per share at the time of issue or redemption, and accounted for on the day the trade transaction takes place. The Sub-Fund's NAV per share is calculated by dividing the net assets attributable to the holders of redeemable participating shares by the total number of outstanding redeemable participating shares. Net assets are valued for dealing purposes in accordance with the provisions of the ICAV regulations.

3.10 *Distributions*

The Directors intend to distribute all or substantially all of the net income (interest and dividends, less expenses) of the Sub-Funds attributable to distributing share classes. Distributions shall be payable in the currency of denomination of a Sub-Fund's distributing share class to shareholders.

WisdomTree Issuer ICAV

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

3. Accounting Policies (continued)

3.10 *Distributions (continued)*

Distributions with an ex-date during the financial period under review are included as a finance cost in the Statement of Comprehensive Income. The reinvestment of the deemed distribution if applicable, being the portion of the total distribution reinvested, is included as a share transaction in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares.

3.11 *Debtors and Creditors*

All debtors and creditors fall due within one year. Trade and other creditors are payable at various dates in accordance with the suppliers usual and customary credit terms.

3.12 *Significant Accounting Estimates and Judgements*

The preparation of financial statements in conformity with IFRS requires management to make certain accounting estimates and assumptions. It also requires management to exercise its judgement in the process of applying the ICAV accounting policies. Actual results may differ from those estimates and assumptions. The Directors believe that the estimates used in preparing the financial statements are reasonable and prudent.

Uncertainties exist with respect to the interpretation of complex tax regulations and changes in tax laws on foreign withholding tax. Given the wide range of international investments, differences arising between the actual investment income and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax expense already recorded. The ICAV establishes provisions, based on reasonable estimates, for possible consequences of audits by the tax authorities of the respective countries in which it invests. The amounts of such provisions are based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority. Such differences of interpretation may arise on a wide variety of issues depending on the conditions prevailing in the respective investment's domicile. As the ICAV assesses the probability for cash outflow with respect to taxes as remote, no liability has been recognised.

3.13 *Going Concern*

After making enquiries, the Directors have a reasonable expectation that each Sub-Fund within the ICAV has adequate resources to continue in operational existence for the foreseeable future. To the extent operating expenses exceed management fees received from the Sub-Funds, the Manager will pay such excess from its internal resources. In addition, the Board is not aware of any material uncertainties that may cast significant doubt upon each Sub-Fund's ability to continue as a going concern. Accordingly, they continue to adopt the going concern basis in preparing the annual report and accounts with the exception of WisdomTree EUR Aggregate Bond ESG Enhanced Yield UCITS ETF, WisdomTree EUR Government Bond ESG Enhanced Yield UCITS ETF and WisdomTree European Union Bond UCITS ETF, which were terminated during the financial year. The liquidation basis of accounting for the terminated Sub-Funds was applied by selling off all investments that remained on closure date as part of compulsory redemption order. The management company pre-funded the receivables to ensure full cash value of final NAV was provided to investors. As cash was received after the Sub-Fund's closure, this was repatriated back to the management company to repay the pre-funding. There were no closure costs applied to the NAV of the terminated Sub-Funds.

WisdomTree Issuer ICAV

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

3. Accounting Policies (continued)

3.14 *Offsetting financial instruments*

Financial assets and financial liabilities are offset and the net amounts reported in the Statement of Financial Position if, and only if, there is a currently enforceable legal right to offset the recognised amounts and there is an intention to settle on a net basis, or to realise the asset and settle the liability simultaneously. Although there is a legally enforceable right to offset the recognised amounts, the full criteria have not been met, and no financial assets or financial liabilities have been offset in the Statement of Financial Position.

3.15 *Equalisation*

Income equalisation arrangements apply to each Sub-Fund. The arrangements are intended to ensure that the income per Share which is distributed in respect of the distribution period is not affected by changes in the number of Shares in issue during the period. The arrangements have no effect on the Net Asset Value of any Share Class. The calculation of equalisation is based on total accumulated undistributed net income. Income equalisation amounts are included in Proceeds from redeemable participating shares issued and Payments for redeemable participating shares redeemed on the Statement of Changes in Net Assets, in Amounts received on issue of redeemable participating shares and Payments for redeemable participating shares redeemed on the Statement of Cash Flows.

3.16 *Unsettled trades*

Trades for settlement comprise amounts due to/due from brokers. Amounts due from brokers are presented within Assets as Receivable for investments sold on the Statement of Financial Position and represent amounts receivable from the sale of securities. Amounts due to brokers are presented within Liabilities as Payable for investments purchased on the Statement of Financial Position and represent amounts payable on the purchase of securities.

5. Share Capital

Authorised

The authorised share capital of the ICAV is EUR 2 divided into 2 subscriber shares of a par value of EUR 1 each and 500,000,000,000 redeemable shares of no par value. At 31 December 2023 and 31 December 2022, there were 2 subscriber shares in issue at EUR 1 each. The subscriber shares are held by WisdomTree UK Limited and WisdomTree Management Limited. The holders of subscriber shares shall be entitled to one vote per share and shall not be entitled to any distributions whatsoever in respect of their holding of those shares. In the event of liquidation, the subscriber shares, after payment to the shareholders of each Sub-Fund, entitle the holders to receive the nominal amount paid thereof out of the assets of the ICAV not comprised within any Sub-Funds, with no recourse to the assets of each Sub-Fund should there be insufficient assets to enable the payment. The subscriber shares do not form part of the Net Asset Value of the ICAV and are thus only disclosed in the financial statements by way of this note.

Redeemable participating shares

The issued redeemable participating share capital for each Sub-Fund is at all times equal to the NAV of that Sub-Fund. Redeemable participating shares are redeemable at the Shareholders' option and are classified as financial liabilities. The redeemable participating shares may also be bought and sold in a

Redeemable participating shares (continued)

secondary market where such a market exists. All issued share capital has been fully paid up except for amounts receivable from holders of redeemable participating shares as disclosed in the Statement of Financial Position. All shares shall rank pari passu and none of the Shareholders will have any different voting rights to other Shareholders.

For the financial year ended 31 December 2023

6. Fees and Expenses

Establishment expenses

All fees and expenses relating to the organisation and establishment of the ICAV and the Sub-Funds are borne by the Manager.

Management Fees

All of the fees and expenses payable in respect of a Sub-Fund are paid as one single fee. This is referred to as the “Management Fees”. WisdomTree Management Limited, (the “Manager”), is responsible for discharging all operational expenses of each Sub-Fund, including but not limited to, fees of the Investment Managers, Depositary, Administrator, Secretary, Distributors, Directors, Auditors, legal and other professional advisers of the ICAV, Central Bank of Ireland industry funding levy, statutory fees and any relevant regulatory filing fees, listing of shares on any stock exchange, costs of publication of the net asset value per share, registrar and transfer agency services and preparing, printing and distributing the Prospectus, Supplements and KIIDs. To the extent that expenses exceed the Management Fees, the Manager will pay such excess from its internal resources.

The Management Fee for the financial year amounted to EUR 14,481,929 (31 December 2022: EUR 12,912,345). Fees outstanding at 31 December 2023 amounted to EUR 1,321,303 (31 December 2022: EUR 950,082).

Directors’ Fees

The Directors shall be entitled to a fee payable by the Manager, and remuneration for their services at a rate to be determined from time to time by the Directors. The fees of any one Director in any one financial year shall not exceed EUR 30,000 without the approval of the Board. Any Director who holds any executive office (including, for this purpose, the office of Chairperson) or who serves on any committee in their capacity as a Director of the ICAV, or who otherwise performs services which in the opinion of the Directors are outside the ordinary duties of a Director or who devotes special attention to the ICAV, may be paid such extra remuneration as the Directors may determine which shall not exceed EUR 10,000.

WisdomTree Issuer ICAV

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

6. Fees and Expenses (continued)

Directors' Fees (continued)

The Directors may also be paid, inter alia, for travelling, hotel and other expenses properly incurred by them in attending meetings of the Directors or in connection with the business of the ICAV.

Independent non-executive Directors' fees for the financial year amounted to EUR 52,174 (31 December 2022: EUR 68,750) gross of taxes. There were no fees outstanding at 31 December 2023 (31 December 2022: Nil). The ICAV's Directors' fees are payable by the Manager.

Directors of the ICAV, who are also employees of the WisdomTree Group, do not receive any additional remuneration for their role as Director of the ICAV.

All emoluments paid to, or receivable by, the Directors during the financial year are in respect of qualifying services. Qualifying services, in relation to any person, means his or her services as a director of the ICAV and his or her services, while director of the ICAV, as director of any of its subsidiary undertakings or otherwise in connection with the management of the affairs of the ICAV or any of its subsidiary undertakings.

No cash or value of other assets (including shares but excluding share options) was paid to, or receivable by, the Directors under long term incentive schemes in respect of qualifying services. No company contributions were paid, treated as paid, or payable during the financial period/year to a retirement benefit scheme in respect of directors' qualifying services. No directors have retirement benefits accruing under such schemes in respect of qualifying services.

There is no consideration paid to, or receivable by, third parties for making available services of any person as a director of the Sub-Funds, or otherwise in connection with the Management of the Sub-Fund's affairs.

Subscription, Redemption and Switching Fees

The Manager, at its discretion, may charge a subscription fee and/or a redemption fee and/or a switching fee of up to 3 per cent of the NAV per share subscribed for, or redeemed, or switched. These fees will not be incurred by the ICAV on behalf of the relevant Sub-Fund, and accordingly will not affect the NAV of the relevant Sub-Fund. No such fees were charged during the financial year (31 December 2022: None).

Auditors' Remuneration

The remuneration (including expenses), for all work carried out by the statutory audit firm in respect of the financial year is as follows:

	2023	2022
	EUR	EUR
Statutory audit of ICAV financial statements	202,857	178,734
Tax reporting services*	<u>49,759</u>	<u>43,048</u>
	<u>252,616</u>	<u>221,782</u>

Audit fees are shown exclusive of VAT.

*These are the tax advisory services for the Sub-Funds.

Transaction costs

Transaction costs are any fees and expenses incurred in buying and selling securities or other investments held by the Sub-Funds, e.g. brokerage costs and commissions and correspondence fees for transferring securities or investments or other interests, unless otherwise specified in the Supplements to the Prospectus.

7. Taxation

Under current law and practice the ICAV qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended. On that basis, the ICAV is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the happening of a

WisdomTree Issuer ICAV

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

7. Taxation (continued)

“chargeable event”. A chargeable event includes any distribution payments to shareholders, any encashment, redemption, cancellation or transfer of shares, and the holding of shares at the end of each eight year period beginning with the acquisition of such shares.

No Irish tax will arise on the ICAV in respect of chargeable events in respect of:

- a) A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act, 1997, as amended, are held by the ICAV, or the ICAV has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations, and
- b) certain exempted Irish tax resident shareholders who have provided the ICAV with the necessary signed declarations.

The ICAV may be subject to, and/or accrue, withholding, capital gains, transaction-based and other taxes imposed by certain jurisdictions on its investments. Taxes on foreign interest, dividend income and capital gains are generally withheld, assessed and/or accrued in accordance with the applicable country’s tax treaty with Ireland and are recorded in the Statement of Comprehensive Income. There are some cases where the ICAV may not be able to benefit from reduced rates of withholding tax under the provisions of the double tax treaties which Ireland has entered into with various countries.

In addition, the ICAV and/or shareholders may be subject to taxation and tax reporting obligations in jurisdictions in which each Sub-Fund makes investments. The ICAV may seek to collect refunds in respect of taxes paid by each Sub-Fund to certain countries. In those cases, all or a portion of those taxes could ultimately be recovered. However, the recovery process could take several years and the ICAV will incur expenses in its efforts to collect such refunds, which will reduce the benefit to the Sub-Funds of any recovery. The ICAV’s efforts to collect a refund may not be successful, in which case the Sub-Funds will have incurred additional expenses for no economic benefit. The ICAV’s decision to pursue refunds is in its sole discretion, and it may decide not to pursue refunds, even if eligible.

8. Related Party Transactions

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial or operational decisions.

In the opinion of the Directors, the Investment Managers, the Manager, the Currency Managers, the Promoter, the Directors and the Distributors are related parties under IAS 24 “Related Party Transactions”.

Director Peter Ziemba is an employee of WisdomTree Asset Management, Inc. (“WTAM”), a subsidiary of WisdomTree, Inc., which is the ultimate parent of the Manager. Director Alexis Marinof is an employee of WisdomTree Europe Limited (“WTE”) and Bryan Governey is an employee of WisdomTree Ireland Limited (“WTIre”). WTE and WTIre are subsidiaries of WisdomTree, Inc. All Directors of the ICAV are also Directors of the Manager. Anne-Marie King and Feargal Dempsey were appointed as independent non-executive Directors of the ICAV and Manager. Feargal Dempsey is also a Director of WTIre.

The Directors of the ICAV who are also employees of WTAM, WTE and WTIre are not entitled to receive Directors’ fees. Details of Directors’ fees, including independent non-executive Directors’ fees, paid during the financial year are disclosed in Note 6.

With the exception of WisdomTree Enhanced Commodity UCITS ETF, WisdomTree AT1 CoCo Bond UCITS ETF, WisdomTree EUR Aggregate Bond ESG Enhanced Yield UCITS ETF, WisdomTree EUR Government Bond ESG Enhanced Yield UCITS ETF, WisdomTree Artificial Intelligence UCITS ETF,

WisdomTree Issuer ICAV

8. Related Party Transactions (continued)

WisdomTree USD Floating Rate Treasury Bond UCITS ETF, WisdomTree Cloud Computing UCITS ETF, WisdomTree European Union Bond UCITS ETF, WisdomTree Enhanced Commodity ex-Agriculture UCITS ETF, WisdomTree Emerging Markets ex-State-Owned Enterprises ESG Screened UCITS ETF, WisdomTree Broad Commodities UCITS ETF, WisdomTree New Economy Real Estate UCITS ETF, WisdomTree Recycling Decarbonisation UCITS ETF, WisdomTree Global Automotive Innovators UCITS ETF and WisdomTree Renewable Energy UCITS ETF, WisdomTree, Inc. has constructed the indices which are tracked by the Sub-Funds. The Manager pays a licensing fee for the use of these indices.

At 31 December 2023, the WisdomTree Broad Commodities UCITS ETF held shares in WisdomTree Physical Silver, which had a fair value of USD 11,948,265 (31 December 2022: USD 7,479,710), unrealised gain of USD 267,536 (31 December 2022: unrealised gain of USD 172,743), realised gain of USD 16,103 (31 December 2022: realised loss of USD 5,819); Gold Bullion Securities, which had a fair value of USD 5,474,741 (31 December 2022: USD 136,249), unrealised gain of USD 174,582 (31 December 2022: unrealised gain of USD 982), realised loss of USD 18,377 (31 December 2022: realised gain of USD 2,098); and WisdomTree Core Physical Gold, which had a fair value of USD 37,963,164 (31 December 2022: USD 21,956,097), unrealised gain of USD 3,857,439 (31 December 2022: unrealised gain of USD 319,119) and realised gain of USD 370,869 (31 December 2022: Nil). The Sub-Fund sold all shares of WisdomTree Physical Gold during the year ended 31 December 2023 with realised gain of USD 4,708 (31 December 2022: realised loss of USD 4,317, fair value of USD 321,547 and unrealised loss of USD 5,445).

As at 31 December 2023, the Directors held shares in various Sub-Funds with an approximate value of EUR 521,000 (31 December 2022: EUR 448,000), being less than 1 bps (31 December 2022: less than 1 bps) of the total NAV of the Sub-Funds.

The Manager's fees for the financial year amounted to EUR 14,481,929 (31 December 2022: EUR 12,912,345) of which EUR 1,321,303 (31 December 2022: EUR 950,082) was outstanding at the financial year end.

As described in Note 6, the Manager is responsible for discharging all operational expenses of the ICAV. This includes fees of the Administrator, Auditor, Depositary, Distributors and Investment Managers. Please refer to Note 6 for an explanation of the fee structure of the ICAV and details regarding fees paid to these related parties.

To the extent that operating expenses exceed Management Fees received from the Sub-Funds, the Manager will pay such excess from its internal resources.

During the year ended 31 December 2023, the Manager reimbursed WisdomTree Broad Commodities UCITS ETF amounting to USD 109,520 (31 December 2022: USD 3,210) in respect to the metal entitlement for each exchange-traded commodity securities held by the Sub-Fund of which USD 9,920 (31 December 2022: USD 1,457) remains receivable at the financial year end.

The subscriber shares are held by WisdomTree UK Limited and the Manager.

All transactions were entered into in the normal course of business.

9. Soft Commissions/Directed brokerage

There were no soft commission arrangements in place/directed brokerage services utilised as at 31 December 2023 or for the financial year then ended (31 December 2022: None).

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

11. Financial Risks

Introduction

The Sub-Funds' activities expose them to a variety of financial risks including market risk (including price risk, currency risk and interest rate risk), credit risk and liquidity risk. The following information is not intended to be a comprehensive summary of all risks and investors should refer to the Prospectus and Supplements for a more detailed discussion of the risks inherent in investing in the ICAV.

The ability of a Sub-Fund to achieve significant correlation between the performance of the Sub-Fund and the index it tracks may be affected by changes in securities markets, changes in the composition of the Index, cash flows into and out of the Sub-Fund and the fees and expenses of the Sub-Fund. The Sub-Fund will seek to track Index returns regardless of the current or projected performance of the Index or of securities comprising the Index.

As a result, the Sub-Fund's performance may be less favourable than that of a portfolio managed using an active investment strategy. The structure and composition of the Index will affect the performance, volatility and risk of the Index (in absolute terms and by comparison with other indices), and consequently, the performance, volatility and risk of the Sub-Fund.

Risk management structure

The Investment Managers are responsible for the day to day monitoring and ensuring management of the key risks identified by the ICAV. This function is overseen by the Board of Directors of the Manager through the provision of exception and periodic reports by the Investment Managers.

Risk mitigation

The ICAV has investment guidelines that set out its overall business strategies, its tolerance for risk and its risk management policies and procedures.

Excessive risk concentration

Concentrations of risk arise when a number of financial instruments or contracts are entered into with the same counterparty, or where a number of counterparties are engaged in similar business activities, or activities in the same geographic region, or that have similar economic features that would cause their ability to meet contractual obligations to be similarly affected by changes in economic, political or other conditions. Refer to the Schedule of Investments for further information on the Sub-Funds' geographical and industry exposure.

In order to avoid excessive concentrations of risk, policies and procedures adopted by the Investment Managers with respect to the Sub-Funds include specific guidelines to focus on maintaining a diversified portfolio in line with the investment objective.

Market risks

The Sub-Funds use the commitment approach to measure global exposure. This approach converts the ICAV's financial derivative instrument positions into an equivalent position of the underlying assets based on the market value of the underlying asset.

Market risk embodies the potential for both losses and gains and includes currency risk, interest rate risk and market price risk.

The Sub-Funds' exposure to market risk is that the market value of assets will generally fluctuate with, among other things, general economic conditions, the condition of certain financial markets, international political events, developments or trends in any particular industry and the financial condition of the issuers of the securities that the Sub-Funds invests in.

The Sub-Funds' market risk is managed on a daily basis by the Investment Managers in accordance with policies and procedures in place. The Sub-Funds' overall market positions are reported to the Board on a quarterly basis.

WisdomTree Issuer ICAV

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

11. Financial Risks (continued)

Market risks (continued)

Details of the nature of the Sub-Funds' investment portfolio and derivative financial instruments at the financial year end date are disclosed in the Schedule of Investments of each Sub-Fund.

The financial instruments held by the Sub-Funds are carried at fair value through profit or loss with changes in fair value and any resulting gain or loss being recognised directly in the Statement of Comprehensive Income, therefore, all changes in market conditions will also directly impact the NAV.

Price risk

Market price risk arises mainly from uncertainty about future prices of financial instruments held. It represents the potential loss the Sub-Funds might suffer through holding market positions in the face of price movements caused by factors specific to the individual investment or factors affecting all instruments traded in the market.

The Sub-Funds' objective in managing market price risk is to deliver the returns which tracks a specified index. Management achieve this objective by fully replicating (buying each constituent of the specified index), partially replicating (buying a portfolio of investments designed to deliver the returns of the specified index) or synthetically replicating (entering into a derivative to deliver returns of an index) the index each sub-fund was set-up to track.

The Sub-Funds are exposed to price risk arising from derivative and non-derivative financial instruments held by the Sub-Funds for which prices in the future are uncertain. The investments of the Sub-Funds are subject to general economic conditions, normal market fluctuations and the risks inherent in investment in international securities markets.

The Sub-Funds' exposure to market price risk is the total value of financial assets at fair value through profit or loss as set out in the Schedule of Investments.

With all other factors unchanged the sensitivity of the Sub-Funds' NAV to a 10 per cent increase in the associated index, which is management's best estimate of a reasonable possible shift in the associated index, is set out in the table below. A 10 per cent decrease would have an equal but opposite effect.

<i>Fund</i>	<i>Estimated NAV Decrease/Increase 2023</i>	<i>Estimated NAV Decrease/Increase 2022</i>

***** Launched 5 December 2023.

The estimated sensitivities above are for illustrative purposes only and are not intended to be predictive. Actual fluctuations in response to market price changes may differ substantially from the above.

Currency risk

The Sub-Funds may invest in securities that are denominated in currencies that differ from their functional currency. Changes in the values of those currencies relative to the functional currency may have a positive or negative effect on the values of the Sub-Funds' investments denominated in those currencies.

The Sub-Funds may, but will not necessarily, invest in forward foreign currency exchange contracts to help reduce exposure to different currencies; however there is no guarantee that these contracts will successfully do so. Also, these contracts may reduce or eliminate some or all of the benefit that a Sub-Fund may experience from favourable currency fluctuations. At 31 December 2023, forward foreign currency exchange contracts were held on nine of the Sub-Funds, WisdomTree US Equity Income UCITS ETF, WisdomTree Japan Equity UCITS ETF, WisdomTree Europe Equity UCITS ETF, WisdomTree

WisdomTree Issuer ICAV

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

11. Financial Risks (continued)

Market risks (continued)

Currency risk (continued)

Enhanced Commodity UCITS ETF, WisdomTree US Quality Dividend Growth UCITS ETF, WisdomTree Global Quality Dividend Growth UCITS ETF, WisdomTree AT1 CoCo Bond UCITS ETF, WisdomTree Battery Solutions UCITS ETF and WisdomTree Enhanced Commodity ex-Agriculture UCITS ETF. At 31 December 2022, forward foreign currency exchange contracts were held on six of the Sub-Funds, WisdomTree US Equity Income UCITS ETF, WisdomTree Japan Equity UCITS ETF, WisdomTree Europe Equity UCITS ETF, WisdomTree Enhanced Commodity UCITS ETF, WisdomTree AT1 CoCo Bond UCITS ETF and WisdomTree Enhanced Commodity ex-Agriculture UCITS ETF.

All of the financial assets and liabilities of WisdomTree US Efficient Core UCITS ETF were denominated in US Dollar at 31 December 2023 with the effect that the Statement of Financial Position and Statement of Comprehensive Income were not affected by currency movements.

The Sub-Funds with exposure to currencies other than their functional currency at 31 December 2023 are set out in the tables below. The tables below also summarise the sensitivity of the foreign currency exposed Sub-Funds' monetary and non-monetary assets and liabilities to changes in foreign exchange movement. The analysis is based on the assumptions that the relevant foreign exchange rate increased by 10 per cent against the relevant Sub-Fund currency by the amounts disclosed in the tables below, with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the foreign exchange rates, having regard to the historical volatility of those rates. A decrease in exchange rates would have an equal and opposite effect. This sensitivity analysis is a relative estimate of risk and is not intended to be predictive of future results.

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

11. Financial Risks (continued)

Market risks (continued)

Currency risk (continued)

31 December 2022

All of the financial assets and liabilities of WisdomTree US Quality Dividend Growth UCITS ETF, WisdomTree USD Floating Rate Treasury Bond UCITS ETF, WisdomTree Cloud Computing UCITS ETF and WisdomTree Broad Commodities UCITS ETF were denominated in US Dollar, all of the financial assets and liabilities of WisdomTree EUR Aggregate Bond ESG Enhanced Yield UCITS ETF, WisdomTree EUR Government Bond ESG Enhanced Yield UCITS ETF and WisdomTree European Union Bond UCITS ETF were denominated in EUR at 31 December 2022 with the effect that the Statement of Financial Position and Statement of Comprehensive Income were not affected by currency movements.

The Sub-Funds with exposure to currencies other than their functional currency at 31 December 2022 are set out in the tables below. The tables below also summarise the sensitivity of the foreign currency exposed Sub-Funds' monetary and non-monetary assets and liabilities to changes in foreign exchange movement. The analysis is based on the assumptions that the relevant foreign exchange rate increased by 10 per cent against the relevant Sub-Fund currency by the amounts disclosed in the table below, with all other variables held constant. This represents management's best estimate of a reasonable possible shift in the foreign exchange rates, having regard to the historical volatility of those rates. A decrease in exchange rates would have an equal and opposite effect. This sensitivity analysis is a relative estimate of risk and is not intended to be predictive of future results.

Interest rate risk

Interest rate risk arises from the effects of fluctuations in the prevailing levels of markets interest rates on the fair value of financial assets and liabilities and future cash flows. As interest rates rise, the values of debt securities or other income-producing investments are likely to fall. This risk is generally greater for obligations with longer maturities.

The Sub-Fund's objective in managing interest rate risk is to minimize any exposure of the Sub-Fund to interest rate movements.

At 31 December 2023, apart from WisdomTree Enhanced Commodity UCITS ETF, WisdomTree AT1 CoCo Bond UCITS ETF, WisdomTree USD Floating Rate Treasury Bond UCITS ETF, WisdomTree Enhanced Commodity ex-Agriculture UCITS ETF and WisdomTree Broad Commodities UCITS ETF, none of the Sub-Funds hold interest-bearing securities. At 31 December 2022, apart from WisdomTree Enhanced Commodity UCITS ETF, WisdomTree AT1 CoCo Bond UCITS ETF, WisdomTree EUR Aggregate Bond ESG Enhanced Yield UCITS ETF, WisdomTree EUR Government Bond ESG Enhanced Yield UCITS ETF, WisdomTree USD Floating Rate Treasury Bond UCITS ETF, WisdomTree European Union Bond UCITS ETF, WisdomTree Enhanced Commodity ex-Agriculture UCITS ETF and WisdomTree Broad Commodities UCITS ETF, none of the Sub-Funds hold interest-bearing securities. Cash holdings of the Sub-Funds are not subject to significant interest rate risk.

At 31 December 2023 and 31 December 2022, WisdomTree Enhanced Commodity UCITS ETF manages this by swapping all gains/losses earned on interest-bearing securities (from market movements or interest income earned) out to a counterparty under the terms of a total return swap in return for the gains/losses of a reference index, reducing the Sub-Funds' exposure to interest rate risk.

At 31 December 2023, WisdomTree AT1 CoCo Bond UCITS ETF, WisdomTree USD Floating Rate Treasury Bond UCITS ETF, WisdomTree Enhanced Commodity ex-Agriculture UCITS ETF and WisdomTree Broad Commodities UCITS ETF offer the investors exposure to the underlying bonds, which also includes any movements in the interest rate. At 31 December 2022, WisdomTree AT1 CoCo

The interest rate sensitivity information is a relative estimate of risk and is not intended to be a precise and accurate number. The calculations are based on historic data. Future price movements and correlations between securities could vary significantly from those experienced in the past. The following table details the Sub-Funds' interest rate sensitivity. At 31 December 2023 and at 31 December 2022, had the base interest rates increased by 5% in relation to all holdings subject to interest with all other variables held constant, the finance expense on financial liabilities and assets would have increased by:

<i>Fund</i>	<i>Sensitivity 2023</i>	<i>Sensitivity 2022</i>

WisdomTree Broad Commodities UCITS ETF	USD 9,822,870	USD 6,252,458

* Terminated 5 September 2023.

Credit risk

The Sub-Funds are exposed to credit risk, which is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation.

The Sub-Funds are exposed to counterparty credit risk on fixed income positions, exchange-traded commodities, financial derivative instruments, cash and cash equivalents and other receivable balances.

WisdomTree Issuer ICAV

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

11. Financial Risks (continued)

Credit risk (continued)

The ICAV mitigates credit risk by entering into financial instruments with reputable counterparties. The Investment Managers monitor the creditworthiness of each Sub-Fund's counterparties by reviewing their credit ratings, credit spreads and press releases on a regular basis. At 31 December 2023 the long term credit rating of State Street Bank and Trust Company is AA- (31 December 2022: AA-), BNP Paribas is A+ (31 December 2022: A+), Morgan Stanley is A+ (31 December 2022: A+) and Goldman Sachs is A+ (31 December 2022: A+).

The maximum exposure of the Sub-Funds to credit risk at 31 December 2023 and at 31 December 2022 is shown by the values of financial assets at fair value through profit or loss, debtors and cash and cash equivalents in the Statement of Financial Position. Details of credit risk exposure are contained in the Schedule of Investments. At 31 December 2023 and at 31 December 2022, none of the financial assets and financial liabilities are subject to an enforceable master netting arrangement or similar agreement that covers similar financial instruments. None of the financial assets and financial liabilities are offset in the Statement of Financial Position.

Depository risk

The Sub-Funds' Depository is State Street Custodial Services (Ireland) Limited (the "Depository"). All of the assets and cash of the Sub-Funds are held within the custodial network. Bankruptcy or insolvency of the Depository or of its parent company State Street Corporation may cause the Sub-Funds' rights with respect to its investments in securities held by the Depository to be delayed or otherwise affected. The maximum exposure to this risk at 31 December 2023 and at 31 December 2022 is the total value of investments disclosed in the Schedule of Investments as detailed in the Statement of Financial Position.

At 31 December 2023, the long-term rating of State Street Corporation is A (31 December 2022: A) by Standard & Poor's. State Street Corporation is the parent company of the Depository, State Street Custodial Services (Ireland) Limited.

In accordance with the requirements of the ICAV Act 2015 and the UCITS Regulations the Sub-Funds' securities are maintained within the depository network in segregated accounts. The Depository is obliged to ensure that any agents it appoints to assist in safekeeping the assets of the Sub-Funds will segregate the assets of the Sub-Funds thereby reducing counterparty risk in the event of insolvency or bankruptcy of the Depository. The Sub-Funds are exposed to the credit risk of the Depository and/or sub-custodians used by the Depository in relation to the Sub-Funds' cash held by the Depository or sub-custodians. In the event of the insolvency or bankruptcy of the Depository or a sub-custodian, the Sub-Funds will be treated as a general creditor of the Depository or sub-custodian in relation to cash holdings of the Sub-Funds.

The swap providers, BNP Paribas and Morgan Stanley, transfer collateral to the Sub-Fund in respect of its obligation under a relevant swap agreement. Collateral is in the form of stock or cash (31 December 2022: stock and cash). The Sub-Fund uses the collateral transferred to the Sub-Fund to reduce the credit risk associated with the TRS held by the Sub-Fund. The Sub-Fund only controls the collateral in the event of default of BNP Paribas or Morgan Stanley which is why the collateral is not recognised in the accounts of the Sub-Fund.

The collateral is held until termination date of the TRS. The Investment Manager monitors counterparty exposure on a daily basis, thus, reducing the risk associated with the collateral received.

Collateral consists of equities and/or bonds satisfying certain criteria and subject to certain margin percentages and concentration limits. Collateral received by the Funds is held with the Depository, State Street Custodial Services (Ireland) Limited. The collateral cannot be re-used or repledged. All collateral as at 31 December 2023 and 31 December 2022 consist of listed equities and government bonds as agreed between the Swap Provider and the Company.

Liquidity risk

Liquidity risk is the risk that the Sub-Funds may not be able to liquidate investment positions in order to repay amounts demanded by their shareholders.

The Sub-Funds' listed securities are considered readily realisable, as they are listed or traded on regulated stock exchanges and can be accessed through appointed liquidity providers, such as market makers. In addition, the Manager receives reporting on liquidity monitoring from the Investment Managers on a monthly and quarterly basis.

WisdomTree Issuer ICAV

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

11. Financial Risks (continued)

Liquidity risk (continued)

Certain investments and types of investments are subject to restrictions on resale, may trade in the over-the-counter market or in limited volume, or may not have an active trading market. Illiquid securities may trade at a discount from comparable, more liquid investments and may be subject to wide fluctuations in market value. It may be difficult for a Sub-Fund to value illiquid securities accurately. Also, the Sub-Funds may not be able to dispose of illiquid securities or execute or close out financial derivative instrument transactions readily at a favourable time or price or at prices approximating those at which the Sub-Fund currently values them. Illiquid securities also may entail registration expenses and other transaction costs that are higher than those for liquid securities.

The ICAV can manage liquidity risk through redemption limits and redemptions in-kind, if necessary. If redemption requests received in respect of shares of a particular Sub-Fund on any dealing day total, in aggregate, more than 10 per cent of all of the issued shares of that Sub-Fund on that dealing day, the Directors shall be entitled, at their absolute discretion, to refuse to redeem such number of shares of that Sub-Fund on that Dealing Day, in excess of 10 per cent of the issued shares of the Sub-Fund, in respect of which redemption requests have been received, as the Directors shall determine. There were no such limits applied during the financial year.

Each Sub-Fund may allow the Authorised Participant which has been appointed to offer prices for the shares on any listing stock exchange to redeem shares in-kind on each Dealing Day, unless otherwise specified in the relevant supplement. In this context, “in-kind” means that, with the consent of the Authorised Participant, rather than delivering cash proceeds in respect of a redemption, the ICAV will deliver securities or a combination of cash and securities, provided that the asset allocation is subject to the approval of the Depository. The redemption will be subject to an appropriate provision for duties and charges.

The ICAV considers that as at 31 December 2023 and as at 31 December 2022 all of the assets of each Sub-Fund (as shown in the Statement of Financial Position) could be realised within one month of that date either through redemption or sale. As at 31 December 2023 and 31 December 2022, all of the liabilities of each of Sub-Fund (as shown in the Statement of Financial Position) including net assets attributable to redeemable participating shareholders fall due within one month, except for Bank Overdraft balances and total return swaps held on WisdomTree Enhanced Commodity UCITS ETF and WisdomTree Broad Commodities UCITS ETF with contractual maturity within 4 months, which are payable on demand.

Capital Management

The capital of the ICAV is represented by the net assets attributable to holders of redeemable participating shares. The amount of net assets attributable to holders of redeemable participating shares can change significantly on a daily basis, as the ICAV is subject to daily subscriptions and redemptions at the discretion of the shareholders.

As a result, a redemption request may have a significant impact on the liquidity of the ICAV and its ability to continue as a going concern. See Liquidity Risk note above for details of how this risk is mitigated.

The ICAV’s aim with respect to management of its capital is to safeguard its ability to continue as a going concern in order that each Sub-Fund may achieve its overall objective of long-term capital growth, and to maintain a strong capital base to support the development of each Sub-Fund’s investment activities.

The Investment Managers monitor capital on the basis of the value of net assets attributable to holders of redeemable participating shares.

WisdomTree Issuer ICAV

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

11. Financial Risks (continued)

Offsetting

Financial assets and financial liabilities are offset and the net amount reported in the Statement of Financial Position when there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. IFRS 7 requires disclosure of derivatives that have been offset in the Statement of Financial Position, or that have not been offset in the Statement of Financial Position but are subject to an enforceable master netting arrangement or similar agreement.

The following tables present the Sub-Funds' financial assets and liabilities subject to offsetting, enforceable master netting arrangements and similar agreements. Assets/Liabilities not included in those tables are not subject to these agreements. The tables are presented by Counterparty.

(1) WisdomTree Broad Commodities UCITS ETF holds no cash collateral with the counterparty.

(2) Net amount represents the amounts payable to the counterparty in the event of default.

12. Fair Value

IFRS 13 requires the ICAV to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels as defined under IFRS 13.

Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the valuation date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 inputs are inputs other than quoted prices in active markets included within Level 1 that are observable for the asset or liability, either directly or indirectly. Fair value is determined through the use of models or other valuation methodologies.

Level 2 inputs include the following:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in markets that are not active, that is, markets in which there are few transactions for the asset or liability, the prices are not current, or price quotations vary substantially either over time or among market makers, or in which little information is released publicly.

WisdomTree Issuer ICAV

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

12. Fair Value (continued)

- c) Inputs other than quoted prices that are observable for the asset or liability (e.g. interest rate and yield curves observable at commonly quoted intervals, volatilities, prepayment speeds, loss severities, credit risks and default rates).
- d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

The ICAV uses widely recognised valuation models for determining fair values of over-the-counter forward foreign currency exchange contracts and total return swaps. The most frequently applied valuation techniques include forward pricing and swap models, using present value calculations. The models incorporate various inputs including both credit and debit valuation adjustments for counterparty and own credit risk, foreign exchange spot and forward rates and interest rate curves. For these financial instruments, significant inputs into models are market observable and are included within Level 2.

Level 3 inputs are unobservable inputs for the asset or liability. Unobservable inputs reflect the ICAV's own assumptions about how market participants would be expected to value the asset or liability. Unobservable inputs are developed based on the best information available in the circumstances, other than market data obtained from sources independent of the ICAV and might include the ICAV's own data.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement.

Furthermore, for those instruments which have significant unobservable inputs (Level 3), IFRS 13 requires disclosures on the transfers into and out of Level 3, a reconciliation of the opening and closing balances, total gains and losses recognised in the Statement of Comprehensive Income for the year, purchases, sales issues and settlements, and a sensitivity analysis of assumptions used in determining the fair value of Level 3 positions.

Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The determination of what constitutes "observable" requires significant judgement by the ICAV. The ICAV considers observable data to be that market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

Investments whose values are based on quoted market prices in active markets are classified within Level 1, including active, listed and exchange traded securities. The ICAV does not adjust the quoted price for these instruments.

Financial instruments that trade in markets that are not considered to be active but are valued based on quoted market prices, dealer quotations or alternative pricing sources supported by observable inputs are classified within Level 2. As Level 2 investments include positions that are not traded in active markets and/or are subject to transfer restrictions, valuations may be adjusted to reflect illiquidity and/or non-transferability, which are generally based on available market information.

Investments classified within Level 3 have significant unobservable inputs, as they trade infrequently.

The ICAV's policy is to recognise transfers into and transfers out of fair value hierarchy levels as at the last day of the accounting period. There were no transfers during the financial year ended 31 December 2023 between levels of the fair value hierarchy for financial assets which are recorded at fair value.

WisdomTree Issuer ICAV

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

12. Fair Value (continued)

The following table presents transfers during the financial year ended 31 December 2022 between levels of the fair value hierarchy for financial assets which are recorded at fair value:

<i>Level change</i>	<i>Sub-Fund</i>	<i>Securities</i>	<i>Fair Value</i>
From 1 to 3	WisdomTree Emerging Markets Equity Income UCITS ETF	Jingrui Holdings	USD 1,268
From 1 to 3	WisdomTree Emerging Markets SmallCap Dividend UCITS ETF	Jingrui Holdings	USD 4,113

Investments classified as Level 3 as at 31 December 2023 were Magnitogorsk Iron & Steel Works PJSC, Mobile TeleSystems PJSC, Novolipetsk Steel PJSC, PhosAgro PJSC, PhosAgro PJSC GDR, Polyus PJSC, Sberbank of Russia PJSC, Severstal PAO, Tatneft PJSC held on WisdomTree Emerging Markets Equity Income UCITS ETF and LUKOIL PJSC, Mobile TeleSystems PJSC, Novatek PJSC, Novolipetsk Steel PJSC, PhosAgro PJSC, PhosAgro PJSC GDR, Polyus PJSC, Severstal PAO, Surgutneftegas PJSC, VK IPJSC held on WisdomTree Emerging Markets ex-State-Owned Enterprises ESG Screened UCITS ETF. All had nil fair value.

Investments classified as Level 3 as at 31 December 2022 were Jingrui Holdings held on WisdomTree Emerging Markets Equity Income UCITS ETF and WisdomTree Emerging Markets SmallCap Dividend UCITS ETF with fair value of USD 1,268 and USD 4,113, respectively. Magnit GDR, Magnitogorsk Iron & Steel Works GDR, Mobile TeleSystems ADR, Novolipetsk Steel GDR, PhosAgro GDR (Germany Listed), PhosAgro GDR (US Listed), Polyus GDR, Sberbank of Russia ADR, Severstal GDR, Tatneft ADR held on WisdomTree Emerging Markets Equity Income UCITS ETF and LUKOIL ADR, Mobile TeleSystems ADR, Novatek GDR, Novolipetsk Steel GDR, PhosAgro GDR (Germany Listed), PhosAgro GDR (US Listed), Polyus GDR, Severstal GDR, Surgutneftegas ADR, VK GDR held on WisdomTree Emerging Markets ex-State-Owned Enterprises ESG Screened UCITS ETF, with nil fair value.

In light of the ongoing conflict in Ukraine, the Board decided to reduce the fair value of the Russian based equity positions in the Sub-Funds to zero from 8 March 2022 onwards. Subsequently, the Russian government introduced a law prohibiting non-Russian investors trading in Russian securities, therefore, the Sub-Funds are unable to carry out any transactions on these holdings, and a result of associated EU sanctions, the assets are now classified as non-transferable securities. While vendor prices are available, these are only valid for Russian Investors which supports the Sub-Funds' Fair Value of zero approach.

As at 17 March 2023, WisdomTree AT1 CoCo Bond UCITS ETF (the "CoCo Fund") held 9 Credit Suisse bonds. These holdings made up 2.69% of the CoCo Fund with a market value of USD 7,216,193. On 19 March 2023 the Swiss Financial Market Supervisory Authority ("FINMA") announced the merger of Credit Suisse and UBS, and in doing so, decided to write-down the nominal value of all AT1 debt of Credit Suisse to zero.

The write-down value of Credit Suisse bonds to technical zero (0.0001) took effect on 20 March 2023 and now reflect a zero weight and market value on the CoCo Fund. This was in line with action taken by Index sponsor Markit/S&P on the iBoxx Contingent Convertible Liquid Developed Europe AT1 Index.

There were no transfers during the financial year ended 31 December 2023 and no other transfers during the financial year ended 31 December 2022 between levels of the fair value hierarchy for financial assets which are recorded at fair value.

13. Operating Segments

An operating segment is a component of the ICAV that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relates to transactions with any of the ICAV's other components, whose operating results are reviewed regularly to make decisions about resources allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported include items directly attributable to a segment.

It is considered that each Sub-Fund is an operating segment which is investing in line with its investment objective. The segment information provided to the Investment Manager is the same as that disclosed in the Statement of Comprehensive Income and Statement of Financial Position for each Sub-Fund. The Investment Managers' asset allocation decisions are based on a single, integrated investment strategy, to deliver the performance of the relevant Index of each Sub-Fund, and each Sub-Fund's performance is evaluated by reference to the relevant Index. The Sub-Funds have no assets classified as non current assets. Each Sub-Fund's investments expose it to the performance of the relevant Index. The revenue attributable to each Sub-Fund is derived from geographical locations in line with those outlined in the schedule of investments for that Sub-Fund. The daily asset allocation decisions are made by the Investment Managers for each Sub-Fund.

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

14. Efficient Portfolio Management

The Investment Managers may, on behalf of a Sub-Fund and subject to the conditions and within the limits laid down by the Central Bank, employ techniques and instruments relating to transferable securities and money market instruments for efficient portfolio management purposes. Transactions for the purposes of efficient portfolio management may be undertaken with a view to achieving the reduction of risk, the reduction of cost, or the generation of additional capital or income for a Sub-Fund with an appropriate level of risk and taking into account the risk profile of that Sub-Fund. Techniques and instruments used by the Sub-Funds for efficient portfolio management purposes may include the entry into securities lending transactions, repurchase and/or reverse repurchase agreements, forwards or total return swaps. All revenues arising from efficient portfolio management activities, net of direct and indirect operational costs will be retained by the Sub-Funds.

New techniques and instruments may be developed which may be suitable for use by the ICAV and the ICAV may employ such techniques and instruments. Where a Sub-Fund intends to use these instruments for direct investment purposes, details will be disclosed in the Sub-Funds' investment policy.

The ICAV did not enter into securities lending transactions, repurchase or reverse repurchase agreements during the financial year ended 31 December 2023 or 31 December 2022.

Sub-Funds’ financial statements were not aggregated during the financial year ended 31 December 2023 and during financial year ended 31 December 2022.

17. Material Changes to the Prospectus

On 8 March 2023, an updated Prospectus was issued to amend the list of stock exchanges.

18. Segregated liability of Sub-Funds

The ICAV is an umbrella fund with segregated liability between Sub-Funds.

19. Crossholdings

There were no crossholdings between the Sub-Funds at 31 December 2023 (31 December 2022: None).

20. Off Balance Sheet Transactions

There were no off balance sheet transactions for the Sub-Funds at 31 December 2023 (31 December 2022: None).

21. Commitments and Contingencies

There are no commitments or contingencies at 31 December 2023 (31 December 2022: None).

22. Significant Events During the Financial Year

The ICAV launched the following Sub-Funds during the financial year:

<i>Sub-Fund</i>	<i>Launch Date</i>
WisdomTree Renewable Energy UCITS ETF	05/06/2023
WisdomTree US Efficient Core UCITS ETF	10/10/2023
WisdomTree UK Quality Dividend Growth UCITS ETF	13/11/2023
WisdomTree Megatrends UCITS ETF	05/12/2023

The following share classes were launched during the financial year:

	<i>Launch date</i>
WisdomTree Global Quality Dividend Growth UCITS ETF - EUR Hedged Acc - GGRE	20/03/2023

WisdomTree Issuer ICAV

Notes to the Financial Statements (continued) For the financial year ended 31 December 2023

22. Significant Events During the Financial Year (continued)

	<i>Launch date</i>
WisdomTree Global Quality Dividend Growth UCITS ETF - GBP Hedged - GGRB	20/03/2023
WisdomTree Renewable Energy UCITS ETF - USD Acc - WRNW	05/06/2023
WisdomTree US Quality Dividend Growth UCITS ETF - EUR Hedged Acc - DGRE	31/07/2023

The ICAV closed the following Sub-Funds during the financial year:

<i>Sub-Fund</i>	<i>Closed Date</i>
WisdomTree EUR Aggregate Bond ESG Enhanced Yield UCITS ETF	05/09/2023
WisdomTree EUR Government Bond ESG Enhanced Yield UCITS ETF	05/09/2023
WisdomTree European Union Bond UCITS ETF	05/09/2023

As at 17 March 2023, WisdomTree AT1 CoCo Bond UCITS ETF (the "CoCo Fund") held 9 Credit Suisse bonds. These holdings made up 2.69% of the CoCo Fund with a market value of USD 7,216,193. On 19 March 2023 the Swiss Financial Market Supervisory Authority ("FINMA") announced the merger of Credit Suisse and UBS, and in doing so, decided to write-down the nominal value of all AT1 debt of Credit Suisse to zero.

The write-down value of Credit Suisse bonds to technical zero (0.0001) took effect on 20 March 2023 and now reflect a zero weight and market value on the CoCo Fund. This was in line with action taken by Index sponsor Markit/S&P on the iBoxx Contingent Convertible Liquid Developed Europe AT1 Index.

On 20 June 2023, Davy was replaced by IQ EQ Fund Management (Ireland) Limited as Listing Sponsor.

On 25 July 2023, Anne-Marie King was appointed and Peter Ziemba resigned as Chairperson of the ICAV.

There were no other significant events affecting the ICAV during the financial year.

23. Significant Events After the Financial Year End

The following distributions, with an ex-date of 4 January 2024, were declared by the Sub-Funds to holders of redeemable participating shares and were payable after the financial year end:

Appendix I – Remuneration Policy (Unaudited)

WisdomTree Issuer ICAV (the “ICAV”) has appointed WisdomTree Management Limited (“The Manager”) to act as manager to the ICAV and the sub-funds of the ICAV (the “Sub-Funds”). The Manager is subject to and has in place remuneration policies, procedures and practices (together, the “Remuneration Policy”) as required under the UCITS Regulations. The Remuneration Policy is consistent with and promotes sound and effective risk management. It is designed not to encourage risk taking which is inconsistent with the risk profile of the Sub-Funds. The Remuneration Policy is in line with the business strategy, objectives, values and interests of the ICAV and the Sub-Funds, and includes measures to avoid conflicts of interest. The Remuneration Policy applies to staff whose professional activities have a material impact on the risk profile of the Sub-Funds (the “Identified Staff”) and ensures that no individual will be involved in determining or approving their own remuneration. The only Identified Staff are the Directors and the Designated Persons. The Directors of the ICAV who are also employees of WisdomTree, Inc or companies within its group structure (“WisdomTree”) do not receive any remuneration in respect of their services as Directors of the ICAV. Independent non-executive Directors receive fixed remuneration in respect of their services which is set at a level determined by the Board as a whole and which is not performance related and is detailed in page 142 of the Financial Statements. The Manager has requested that the Investment Managers provide details of their aggregate remuneration disclosure to assist the Manager in fulfilling its disclosure obligations under Article 69(3)(a) of the UCITS Directive. The Investment Managers have confirmed that they are subject to and apply equally effective remuneration requirements to their remuneration policy and practices but that they do not disclose their aggregate remuneration in respect of the funds they manage. The Designated Person functions are assigned to WisdomTree employees, who are remunerated by WisdomTree Ireland Ltd, WisdomTree Europe Ltd and WisdomTree UK Ltd, and are not in receipt of fixed or variable remuneration in respect of their Designated Person functions. The independent non-executive directors of the ICAV received aggregate fees of EUR 52,174 gross of taxes in fixed remuneration, payable by the Manager, and did not receive any variable remuneration in respect of their services as directors of the ICAV. The directors of the Manager who are also employees of WisdomTree do not receive any fixed or variable remuneration in respect of their services as directors of the Manager. None of the Directors or Designated Persons are in receipt of variable remuneration in respect of their services as Directors/Designated Persons of the ICAV. There have been no material changes made to the Remuneration Policy or the Manager’s remuneration practices and procedures during the financial year.

Details of the up-to-date Remuneration Policy are available via https://www.wisdomtree.eu/-/media/eu-media-files/other-documents/regulatory/tax/wt/wisdomtree-europe-remuneration-policy.pdf?sc_lang=en-gb.

The Remuneration Policy summary will be made available for inspection and a paper copy may be obtained, free of charge, at the registered office of the ICAV, upon request.

Appendix II – Securities Financing Transactions (Unaudited)

Securities Financing Transactions

Securities Financing Transactions Regulation (Regulation (EU) 2015/2365) (“SFTR”) came into force on 12 January 2016 and, amongst other requirements, introduces new disclosure requirements in the ICAV’s annual and semi-annual reports published after 13 January 2017 detailing the ICAV’s use of securities financing transactions.

Under Regulation (EU) 2015/2365 on transparency of securities financing transactions (SFTs) and of reuse, and amending Regulation (EU) No 648/2012, Article 13 requires UCITS investment companies to provide the following information on the use made of SFTs.

Total Return Swaps (“TRS”)

1. Below is the market value of assets engaged in securities financing transactions at 31 December 2023

	WisdomTree Enhanced Commodity UCITS ETF	WisdomTree Enhanced Commodity ex-Agriculture UCITS ETF	WisdomTree Broad Commodities UCITS ETF
Currency	USD (16,614,598)	USD (1,472,175)	USD (7,356,413)
% of Net Assets	(3.29%)	(1.00%)	(3.01%)

2. Market value of securities on loan as % of Total Lendable Assets

	WisdomTree Enhanced Commodity UCITS ETF	WisdomTree Enhanced Commodity ex-Agriculture UCITS ETF	WisdomTree Broad Commodities UCITS ETF
Currency	—	—	—
% Total Lendable Assets	—	—	—

3. Listed below are the top 10 Counterparties used for each type of SFT at 31 December 2023*

	WisdomTree Enhanced Commodity UCITS ETF	WisdomTree Enhanced Commodity ex-Agriculture UCITS ETF	WisdomTree Broad Commodities UCITS ETF
Counterparty Name	BNP Paribas	Morgan Stanley	BNP Paribas
Value of outstanding transactions	USD (16,614,598)	USD (1,472,175)	USD (7,356,413)

Appendix III – Sustainability-related Disclosures (Unaudited)

During the course of the year, regulation around sustainability-related disclosures continued to evolve, through the Sustainable Finance Disclosure Regulation (Regulation EU/2019/2088) (the “SFDR”) and the EU Taxonomy Regulation (Regulation (EU) 2020/852, and amending SFDR) (the “Taxonomy Regulation”) and their associated regulatory technical standards and available guidance. Additional disclosure requirements under SFDR Level 2 are applicable to all annual reports published on or after 1 January 2023 and such disclosures as they relate to the Sub-Funds can be found in Appendix III. Such disclosures have in part been prepared using data sourced from third party data providers which was available as at the date of which the disclosures were produced. It has been observed that the availability of data continues to be challenging in some respects and there may be further regulatory guidance of relevance to the content of the disclosures that is still to be issued. The disclosures included in Appendix III should consequently be read and understood in light of these continuing challenges. With the assistance of the Manager and the Investment Managers, the Board continues to monitor the ongoing development and evolution of sustainability-related regulation and associated guidance and the availability of relevant data in this regard.

Product name: WisdomTree US Equity Income UCITS ETF
549300VKMPISK1WYIE48

Legal entity identifier:

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

No

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree US Equity Income UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the of , tobacco industry and small arm sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles. In line with the Index methodology,

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

WisdomTree US Equity Income Index (the **Index**), was designated as a reference benchmark to determine whether the Fund was aligned with the social and environmental it promoted.

● **How did the sustainability indicators perform?**

During the period, the Index applied environmental, social and governance (**ESG**) and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 99.63% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%
Coal exposure	Percentage of the Portfolio exposed to companies which derive >5% of revenue from thermal coal extraction or >5% revenue from thermal coal-based power generation or >5% revenue from tailor-made products and services that support thermal coal extraction.	0.00%
Exposure to companies involved in unconventional oil & gas exploration/production	Percentage of the Portfolio exposed to companies which derive >5% of revenues from unconventional oil & gas exploration/production such as oil sands, Arctic oil and gas or shale energy.	0.00%
Violations of UNGC principles and OECD Guidelines	Percentage of the Portfolio exposed to companies that are non-compliant based on the GSS assessment. GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

...and compared to previous periods?

The following updates were made to the sustainability indicators for the Fund effective from market close on 8 March 2023 (the Effective Date):

Indicator	Previous sustainability indicator for reporting period	Updated Indicator	Sustainability
-----------	--	-------------------	----------------

Exposure to Controversial Weapons	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies having any involvement in controversial weapons.	
Exposure to Small Arms	During the previous reporting period, companies were not assessed for involvement in small arms.	Since the Effective Date, companies are assessed for having >5% of revenues derived from the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms.
Exposure to companies involved in tobacco production	During the previous reporting period, companies were assessed for involvement or owning significant shares of companies involved in tobacco production and supplying of tobacco-related products/services and where more than 10% revenue was derived from the distribution of tobacco.	Companies are assessed for involvement or ownership of significant shares of companies involved in tobacco production and supplying of tobacco-related products/services. Effective from the Effective Date, the % assessment of portfolio's exposure to companies deriving revenue from the distribution of tobacco was lowered from >10% to >5%.
Coal exposure	During the previous reporting period, companies were assessed for significant involvement in thermal coal activity, i.e., >25% of revenue derived from thermal coal extraction, or >10% revenue from thermal coal-based power generation.	Effective from the Effective date, the % assessment of Portfolio's exposure derived from thermal coal extraction and thermal coal power-based generation was lowered from >25% and >10% respectively to >5%. Effective from the Effective Date, companies are assessed for >5% of revenue derived from providing tailor-made products and services to support thermal coal extraction.
Exposure to companies involved in unconventional oil & gas exploration/production	During the previous reporting period, companies were not assessed for involvement in unconventional oil and gas exploration/production.	Since the Effective Date, companies are assessed for having >5% of revenues derived from oil sands extraction, or 5% revenues derived from oil and gas exploration in Arctic regions, or 5% revenues derived from shale energy exploration and / or production.
Violations of UNGC principles and OECD Guidelines	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies that violate certain commonly accepted international norms and standards, such as United Nations and OECD guidelines and their underlying conventions.	

- ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable as the Fund has not committed to make sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable as the Fund has not committed to make sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the Regulatory Technical Standards of Regulation (EU) 2018/2088 (RTS) and two optional PAIs from Tables 2 and 3 of Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Funds on a quarterly basis using an internally developed monitoring system and tailored dataset received from the Investment Manager and the Fund’s ESG data provider. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
AbbVie, Inc.	Pharmaceuticals	4.94%	United States
Chevron Corp.	Oil & Gas	4.81%	United States
International Business Machines Corp.	Computers	4.67%	United States
Exxon Mobil Corp.	Oil & Gas	4.59%	United States
Morgan Stanley	Banks	3.39%	United States
United Parcel Service, Inc.	Transportation	2.91%	United States
Bristol-Myers Squibb Co.	Pharmaceuticals	2.91%	United States
Gilead Sciences, Inc.	Pharmaceuticals	2.37%	United States
Citigroup, Inc.	Banks	2.35%	United States
U.S. Bancorp	Banks	1.72%	United States
Kimberly-Clark Corp.	Household Products	1.63%	United States
ONEOK, Inc.	Pipelines	1.56%	United States
Dow, Inc.	Chemicals	1.52%	United States
Kraft Heinz Co.	Food	1.48%	United States
Williams Cos., Inc.	Pipelines	1.47%	United States

What was the proportion of sustainability-related investments?

Not applicable as the Fund has not committed to make sustainable investments.

What was the asset allocation?

The Fund invested substantially all of its assets in the constituents of the Index. 99.21% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investments (**#2 Not Sustainable**) consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

In which economic sectors were the investments made?

Please refer to the "Schedule of Investments" included in the annual report for the ICAV for all information on the Fund's geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund's investment strategy and promotion of environmental and social characteristics. The EU Taxonomy alignment figures are based on figures provided by the Fund's ESG data provider.

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The share of investments made in transitional activities was 0%. The share of investments made in enabling activities was 0.3%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund’s investments were held with a view to achieving the Fund’s investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 0.79% of the Fund’s investments were in ancillary liquid assets (cash and cash equivalents) for liquidity purposes as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund’s ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UN GPs the OECD Guidelines for Multinational Enterprises and their underlying conventions as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the the environmental and social characteristics it promotes. The Index is comprised of the highest dividend yielding US companies, selected based on a revenue exposure and a composite risk score (CRS) screening. The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here: <https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>.

● **How does the reference benchmark differ from a broad market index?**

The Index is a proprietary WisdomTree index and in addition to the CRS, eligibility requirements include (i) a company must list its shares on a US stock exchange, be incorporated and headquartered in the US (ii) pay regular cash dividends on shares of its common stock in the 12 months preceding the annual reconstitution, and (iii) meet minimum market capitalisation and liquidity criteria as detailed in the index methodology. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into account. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The Fund invested in the highest dividend yielding US companies which are eligible for inclusion in the Index. The Index also excluded companies based on specified ESG criteria.

● ***How did this financial product perform compared with the reference benchmark?***

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at the Investment Manager's report in the annual report for the ICAV.

● ***How did this financial product perform compared with the broad market index?***

As described above, the Index is fundamentally weighted and is comprised of the highest dividend yielding US companies, selected based on a revenue exposure and a CRS screening and controlling for tracking error and other risk factors.

During the reporting period, world equities increased by 22.2%, the Index performed -1.3%.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree Europe Equity Income UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the of , tobacco industry and small arm sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles. In line with the Index methodology,

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

WisdomTree Europe Equity Income UCITS Index (the **Index**), was designated as a reference benchmark to determine whether the Fund was aligned with the social and environmental it promoted.

● **How did the sustainability indicators perform?**

During the period, the Index applied environmental, social and governance (**ESG**) and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 99.74% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

...and compared to previous periods?

The following updates were made to the sustainability indicators for the Fund effective from market close on 8 March 2023 (the Effective Date):

Indicator	Previous sustainability indicator for reporting period	Updated Sustainability Indicator
Exposure to Controversial Weapons	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies having any involvement in controversial weapons.	

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Exposure to Small Arms	During the previous reporting period, companies were not assessed for involvement in small arms.	Since the Effective Date, companies are assessed for having >5% of revenues derived from the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms.
Exposure to companies involved in tobacco production	During the previous reporting period, companies were assessed for involvement or owning significant shares of companies involved in tobacco production and supplying of tobacco-related products/services and where more than 10% revenue was derived from the distribution of tobacco.	Companies are assessed for involvement or ownership of significant shares of companies involved in tobacco production and supplying of tobacco-related products/services. Effective from the Effective Date, the % assessment of portfolio's exposure to companies deriving revenue from the distribution of tobacco was lowered from >10% to >5%.
Coal exposure	During the previous reporting period, companies were assessed for significant involvement in thermal coal activity, i.e., >25% of revenue derived from thermal coal extraction, or >10% revenue from thermal coal-based power generation.	Effective from the Effective date, the % assessment of Portfolio's exposure derived from thermal coal extraction and thermal coal power-based generation was lowered from >25% and >10% respectively to >5%. Effective from the Effective Date, companies are assessed for >5% of revenue derived from providing tailor-made products and services to support thermal coal extraction.
Exposure to companies involved in unconventional oil & gas exploration/production	During the previous reporting period, companies were not assessed for involvement in unconventional oil and gas exploration/production.	Since the Effective Date, companies are assessed for having >5% of revenues derived from oil sands extraction, or 5% revenues derived from oil and gas exploration in Arctic regions, or 5% revenues derived from shale energy exploration and / or production.
Violations of UNGC principles and OECD Guidelines	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies that violate certain commonly accepted international norms and standards, such as United Nations and OECD guidelines and their underlying conventions.	

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable as the Fund has not committed to make sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable as the Fund has not committed to make sustainable investments.

— **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the Regulatory Technical Standards of Regulation (EU) 2018/2088 (RTS) and two optional PAIs from Tables 2 and 3 of Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Funds on a quarterly basis using an internally developed monitoring system and tailored dataset received from the Investment Manager and the Fund’s ESG data provider. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
TotalEnergies SE	Oil & Gas	6.42%	France
Bayerische Motoren Werke AG	Auto Manufacturers	6.19%	Germany

Deutsche Post AG	Transportation	2.02%	Germany
Endesa SA	Utilities — Electric	1.86%	Spain
Vodafone Group PLC	Telecommunications	1.71%	France

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31 December 2023.

● **What was the proportion of sustainability-related investments?**

Not applicable as the Fund has not committed to make sustainable investments.

What was the asset allocation?

The Fund invested substantially all of its assets in the constituents of the Index. 99.51% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investments (**#2 Not Sustainable**) consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

Asset allocation describes the share of investments in specific assets.

● **In which economic sectors were the investments made?**

Please refer to the "Schedule of Investments" included in the annual report for the ICAV for all information on the Fund's geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund's investment strategy and promotion of environmental and social characteristics. The EU Taxonomy alignment figures are based on figures provided by the Fund's ESG data provider.

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in transitional activities was 0.2%. The share of investments made in enabling activities was 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable as the Fund has not committed to make sustainable investments.

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable as the Fund has not committed to make sustainable investments.

● **What was the share of socially sustainable investments?**

Not applicable as the Fund has not committed to make sustainable investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund’s investments were held with a view to achieving the Fund’s investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 0.49% of the Fund’s investments were in ancillary liquid assets (cash and cash equivalents) for liquidity purposes as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund’s ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UN GPs, the OECD Guidelines for Multinational Enterprises and their underlying conventions as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index is comprised of highest dividend yielding European companies, selected based on a revenue exposure and a composite risk score (CRS) screening.

The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here: <https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>.

● **How does the reference benchmark differ from a broad market index?**

The Index is a proprietary WisdomTree index and in addition to the CRS, eligibility requirements include (i) incorporation and listing on a stock exchange in one of the following countries Austria, Belgium, Denmark, Finland, France, Germany, Ireland, Italy, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland or the United Kingdom (Europe); (ii) pay regular cash dividends on shares of its common stock in the 12 months preceding the annual reconstitution; and (iii) meet minimum market capitalisation and liquidity criteria as detailed in the index methodology. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into account. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund invested in the highest dividend yielding European companies which are eligible for inclusion in the Index. The Index also excluded companies based on specified ESG criteria.

● **How did this financial product perform compared with the reference benchmark?**

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at the Investment Manager’s report in the annual report for the ICAV.

● **How did this financial product perform compared with the broad market index?**

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

As described above, the Index is fundamentally weighted and is comprised of the highest dividend yielding European companies, selected based on a revenue exposure and a CRS screening and controlling for tracking error and other risk factors.

During the reporting period, world equities increased by 22.2%, the Index performed 19.1%.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: WisdomTree Europe SmallCap Dividend UCITS ETF

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree Europe SmallCap Dividend UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the of , tobacco industry and small arm sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles. In line with the Index methodology,

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

WisdomTree Europe SmallCap Dividend UCITS Index Euro (the **Index**), was designated as a reference benchmark to determine whether the Fund was aligned with the social and environmental it promoted.

How did the sustainability indicators perform?

During the period, the Index applied environmental, social and governance (**ESG**) and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 97.57% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the ESG data provider.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%
Coal exposure	Percentage of the Portfolio exposed to companies which derive >5% of revenue from thermal coal extraction or >5% revenue from thermal coal-based power generation or >5% revenue from tailor-made products and services that support thermal coal extraction.	0.00%
Exposure to companies involved in unconventional oil & gas exploration/production	Percentage of the Portfolio exposed to companies which derive >5% of revenues from unconventional oil & gas exploration/production such as oil sands, Arctic oil and gas or shale energy.	0.00%
Violations of UNGC principles and OECD Guidelines	Percentage of the Portfolio exposed to companies that are non-compliant based on the GSS assessment. GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

...and compared to previous periods?

The following updates were made to the sustainability indicators for the Fund effective from market close on 8 March 2023 (the Effective Date):

Indicator	Previous sustainability indicator for reporting period	Updated Sustainability Indicator
Exposure to Controversial Weapons	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies having any involvement in controversial weapons.	

Exposure to Small Arms	During the previous reporting period, companies were not assessed for involvement in small arms.	Since the Effective Date, companies are assessed for having >5% of revenues derived from the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms.
Exposure to companies involved in tobacco production	During the previous reporting period, companies were assessed for involvement or owning significant shares of companies involved in tobacco production and supplying of tobacco-related products/services and where more than 10% revenue was derived from the distribution of tobacco.	Companies are assessed for involvement or ownership of significant shares of companies involved in tobacco production and supplying of tobacco-related products/services. Effective from the Effective Date, the % assessment of portfolio's exposure to companies deriving revenue from the distribution of tobacco was lowered from >10% to >5%.
Coal exposure	During the previous reporting period, companies were assessed for significant involvement in thermal coal activity, i.e., >25% of revenue derived from thermal coal extraction, or >10% revenue from thermal coal-based power generation.	Effective from the Effective date, the % assessment of Portfolio's exposure derived from thermal coal extraction and thermal coal power-based generation was lowered from >25% and >10% respectively to >5%. Effective from the Effective Date, companies are assessed for >5% of revenue derived from providing tailor-made products and services to support thermal coal extraction.
Exposure to companies involved in unconventional oil & gas exploration/production	During the previous reporting period, companies were not assessed for involvement in unconventional oil and gas exploration/production.	Since the Effective Date, companies are assessed for having >5% of revenues derived from oil sands extraction, or 5% revenues derived from oil and gas exploration in Arctic regions, or 5% revenues derived from shale energy exploration and / or production.
Violations of UNCG principles and OECD Guidelines	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies that violate certain commonly accepted international norms and standards, such as United Nations and OECD guidelines and their underlying conventions.	

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable as the Fund has not committed to make sustainable investments.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable as the Fund has not committed to make sustainable investments.

— — How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

— — Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Taxonomy-aligned investments objectives and is accompanied by specific Union criteria.

The underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the Regulatory Technical Standards of Regulation (EU) 2018/2088 (RTS) and two optional PAIs from Tables 2 and 3 of Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Funds on an quarterly basis using an internally developed monitoring system and tailored dataset received from the Investment Manager and the Fund's ESG data provider. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Saras SpA	Oil & Gas	4.94%	Italy
D/S Norden AS	Transportation	4.81%	Denmark
Assura PLC	Real Estate Investment Trusts	4.67%	United Kingdom
4imprint Group PLC	Commercial Services	4.59%	United Kingdom
Primary Health Properties PLC	Real Estate Investment Trusts	3.39%	United Kingdom
OC Oerlikon Corp. AG	Chemicals	2.91%	Switzerland
Sacyr SA	Engineering & Construction	2.91%	Spain
MPC Container Ships ASA	Transportation	2.37%	Norway
Close Brothers Group PLC	Diversified Financial Services	2.35%	United Kingdom
Pagegroup PLC	Commercial Services	1.72%	United Kingdom
Anima Holding SpA	Diversified Financial Services	1.63%	Italy
Salzgitter AG	Iron & Steel	1.56%	Germany
Plus500 Ltd.	Diversified Financial Services	1.52%	United Kingdom
Peab AB	Engineering & Construction	1.48%	Sweden
Serica Energy PLC	Oil & Gas	0.95%	United Kingdom

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Asset allocation describes the share of investments in specific assets.

What was the proportion of sustainability-related investments?

Not applicable as the Fund has not committed to make sustainable investments.

What was the asset allocation?

The Fund invested substantially all of its assets in the constituents of the Index. 97.26% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investments (**#2 Not Sustainable**) consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

In which economic sectors were the investments made?

Please refer to the “Schedule of Investments” included in the annual report for the ICAV for all information on the Fund's geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund's investment strategy and promotion of environmental and social characteristics. The EU Taxonomy alignment figures are based on figures provided by the Fund's ESG data provider.

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The share of investments made in transitional activities was 0.1%. The share of investments made in enabling activities was 0.5%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

During the previous reporting period the Fund did not make a commitment to EU Taxonomy aligned investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund’s investments were held with a view to achieving the Fund’s investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 2.74% of the Fund’s investments were in ancillary liquid assets (cash and cash equivalents) for liquidity purposes as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund’s ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UN GPs the OECD Guidelines for Multinational Enterprises and their underlying conventions as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the the environmental and social characteristics it promotes. The Index is comprised of the highest dividend yielding US companies, selected based on a revenue exposure and a composite risk score (CRS) screening. The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here: <https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>.

● How does the reference benchmark differ from a broad market index?

The Index is a proprietary WisdomTree index and in addition to the CRS, eligibility requirements include (i) a company must list its shares on a US stock exchange, be incorporated and headquartered in the US (ii) pay regular cash dividends on shares of its common stock in the 12 months preceding the annual reconstitution, and (iii) meet minimum market capitalisation and liquidity criteria as detailed in the index methodology. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into account. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The Fund invested in the highest dividend yielding US companies which are eligible for inclusion in the Index. The Index also excluded companies based on specified ESG criteria.

● ***How did this financial product perform compared with the reference benchmark?***

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at the Investment Manager's report in the annual report for the ICAV.

● ***How did this financial product perform compared with the broad market index?***

As described above, the Index is fundamentally weighted and is comprised of the highest dividend yielding US companies, selected based on a revenue exposure and a CRS screening and controlling for tracking error and other risk factors.

During the reporting period, world equities increased by 22%, the Index performed 22.3%.

Legal entity

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<p><input checked="" type="radio"/> <input type="radio"/> Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <p><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p><input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No</p> <p><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments</p> <p><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> with a social objective</p> <p><input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree Emerging Markets Equity Income UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the tobacco industry and small arm sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles. In line with the Index methodology,

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

WisdomTree Emerging Markets Equity Income UCITS Index (the **Index**), was designated as a reference benchmark to determine whether the Fund was aligned with the social and environmental it promoted.

● **How did the sustainability indicators perform?**

During the period, the Index applied environmental, social and governance (**ESG**) and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 99.23% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the Regulatory Technical Standards of Regulation (EU) 2018/2088 (RTS) and two optional PAIs from Tables 2 and 3 of Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Funds on an quarterly basis using an internally developed monitoring system and tailored dataset received from the Investment Manager and the Fund’s ESG data provider. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Petroleo Brasileiro SA	Oil & Gas	7.54%	Brazil
MediaTek, Inc.	Semiconductors	7.07%	Taiwan
Hon Hai Precision Industry Co. Ltd.	Electronics	2.86%	Taiwan
China Construction Bank Corp. Class H	Banks	2.51%	China
ASE Technology Holding Co. Ltd.	Semiconductors	2.49%	Taiwan
United Microelectronics Corp.	Semiconductors	2.20%	Taiwan
ORLEN SA	Oil & Gas	1.85%	Poland
Grupo Financiero Banorte SAB de CV	Banks	1.64%	Mexico
Astra International Tbk. PT	Retail	1.59%	Indonesia

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31 December 2023.

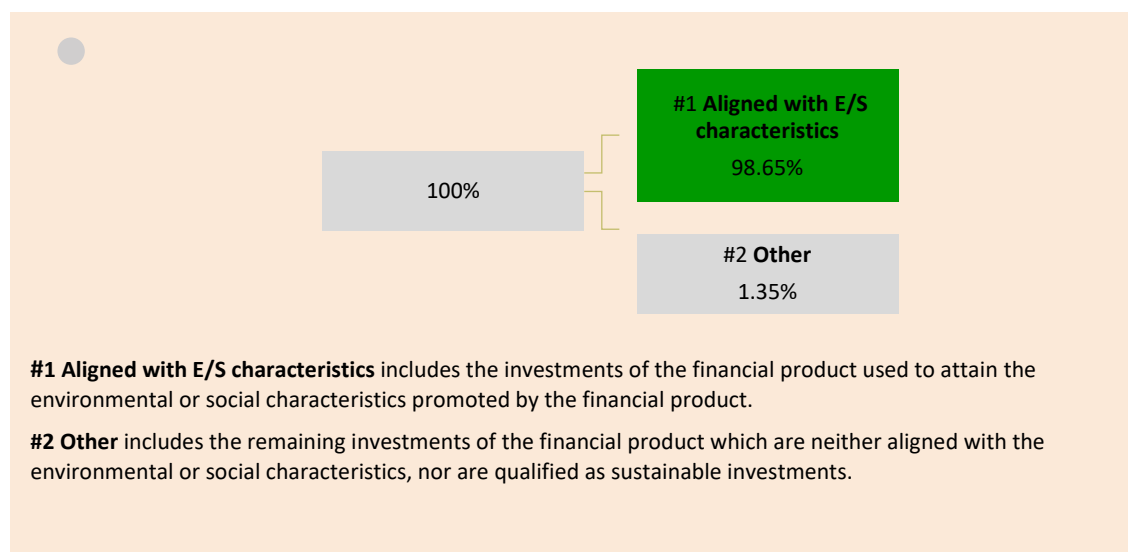

Power Grid Corp. of India Ltd.	Utilities — Electric	1.53%	India
Industrial & Commercial Bank of China Ltd. Class H	Banks	1.39%	China
Bank of China Ltd. Class H	Banks	1.31%	China
Grupo Mexico SAB de CV	Mining	1.16%	Mexico
Novatek Microelectronics Corp.	Semiconductors	1.12%	Taiwan

What was the proportion of sustainability-related investments?

Not applicable as the Fund has not committed to make sustainable investments.

What was the asset allocation?

The Fund invested substantially all of its assets in the constituents of the Index. 98.65% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investments (**#2 Not Sustainable**) consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

In which economic sectors were the investments made?

Please refer to the “Schedule of Investments” included in the annual report for the ICAV for all information on the Fund’s geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund’s investment strategy and promotion of environmental and social characteristics. The EU Taxonomy alignment figures are based on figures provided by the Fund’s ESG data provider.

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

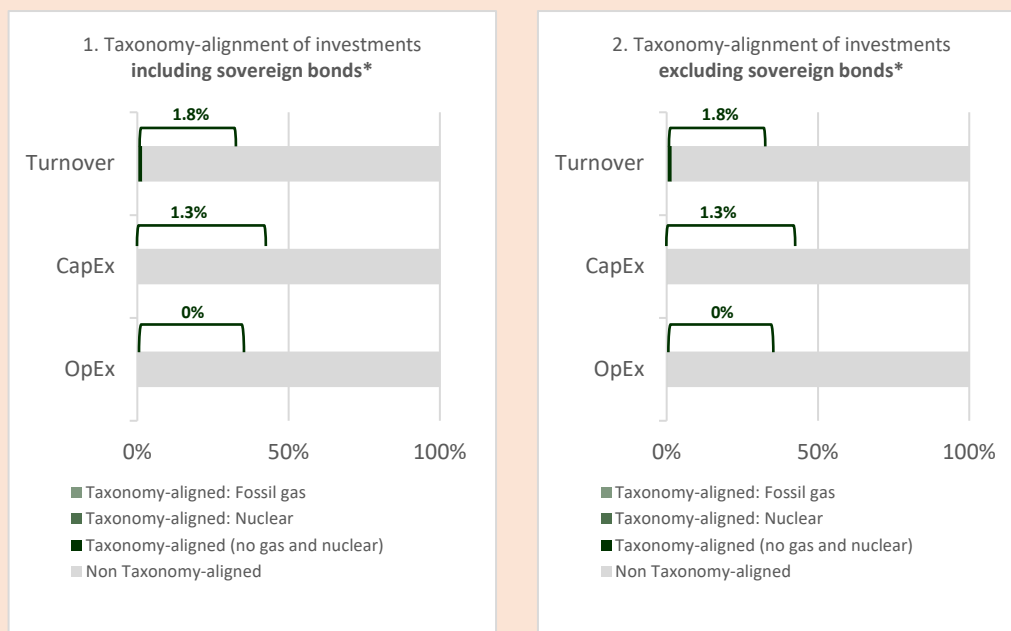

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Asset allocation describes the share of investments in specific assets.

Yes
 In fossil gas In nuclear energy
 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in transitional activities was 0%. The share of investments made in enabling activities was 0.7%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

During the previous reporting period the Fund did not make a commitment to EU Taxonomy aligned investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The Fund's investments were held with a view to achieving the Fund's investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 1.35% of the Fund's investments were in ancillary liquid assets (cash and cash equivalents) for liquidity purposes as permitted under the UCITS Regulations and in assets for which

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

ESG data was not available or in assets not covered by the Fund's ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index is comprised of the highest dividend yielding companies from emerging market nations, selected based on a revenue exposure and a composite risk score (CRS) screening. The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here: <https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>.

● **How does the reference benchmark differ from a broad market index?**

The Index is a proprietary WisdomTree index and in addition to the CRS, eligibility requirements for the Index include: (i) incorporation within one of 17 emerging market nations (Brazil, Chile, China, Czech Republic, Hungary, India, Indonesia, Korea, Malaysia, Mexico, Philippines, Poland, Russia, South Africa, Taiwan, Thailand, and Turkey); (ii) pay regular cash dividends on shares of its common stock in the 12 months preceding the annual reconstitution; and (iii) meet minimum market capitalisation and liquidity criteria as detailed in the index methodology. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into account. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund invested in the highest dividend yielding companies from emerging market nations which are eligible for inclusion in the Index. The Index also excluded companies based on specified ESG criteria.

● **How did this financial product perform compared with the reference benchmark?**

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at the Investment Manager's report in the annual report for the ICAV.

● **How did this financial product perform compared with the broad market index?**

As described above, the Index is fundamentally weighted and is comprised of the highest dividend yielding companies from emerging market nations, selected based on a revenue exposure and a CRS screening and controlling for tracking error and other risk factors.

During the reporting period, world equities increased by 22%, the Index performed 24.2%.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Product name: WisdomTree Emerging Markets SmallCap Dividend UCITS ETF
 identifier: 549300OQO888COYYKC19

Legal entity

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree Emerging Markets SmallCap Dividend UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the of , tobacco industry and small arm sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles. In line with the Index methodology,

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

WisdomTree Emerging Markets Smallcap Dividend UCITS Index (the **Index**), was designated as a reference benchmark to determine whether the Fund was aligned with the social and environmental it promoted.

● **How did the sustainability indicators perform?**

During the period, the Index applied environmental, social and governance (**ESG**) and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 95.85% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%
Coal exposure	Percentage of the Portfolio exposed to companies which derive >5% of revenue from thermal coal extraction or >5% revenue from thermal coal-based power generation or >5% revenue from tailor-made products and services that support thermal coal extraction.	0.00%
Exposure to companies involved in unconventional oil & gas exploration/production	Percentage of the Portfolio exposed to companies which derive >5% of revenues from unconventional oil & gas exploration/production such as oil sands, Arctic oil and gas or shale energy.	0.00%
Violations of UNGC principles and OECD Guidelines	Percentage of the Portfolio exposed to companies that are non-compliant based on the GSS assessment. GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **...and compared to previous periods?**

The following updates were made to the sustainability indicators for the Fund effective from market close on 8 March 2023 (the Effective Date):

Indicator	Previous sustainability indicator for reporting period	Updated Sustainability Indicator
Exposure to Controversial Weapons		The Index has continued to ensure that the Portfolio has 0.00% exposure to companies having any involvement in controversial weapons.

Exposure to Small Arms	During the previous reporting period, companies were not assessed for involvement in small arms.	Since the Effective Date, companies are assessed for having >5% of revenues derived from the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms.
Exposure to companies involved in tobacco production	During the previous reporting period, companies were assessed for involvement or owning significant shares of companies involved in tobacco production and supplying of tobacco-related products/services and where more than 10% revenue was derived from the distribution of tobacco.	Companies are assessed for involvement or ownership of significant shares of companies involved in tobacco production and supplying of tobacco-related products/services. Effective from the Effective Date, the % assessment of portfolio's exposure to companies deriving revenue from the distribution of tobacco was lowered from >10% to >5%.
Coal exposure	During the previous reporting period, companies were assessed for significant involvement in thermal coal activity, i.e., >25% of revenue derived from thermal coal extraction, or >10% revenue from thermal coal-based power generation.	Effective from the Effective date, the % assessment of Portfolio's exposure derived from thermal coal extraction and thermal coal power-based generation was lowered from >25% and >10% respectively to >5%. Effective from the Effective Date, companies are assessed for >5% of revenue derived from providing tailor-made products and services to support thermal coal extraction.
Exposure to companies involved in unconventional oil & gas exploration/production	During the previous reporting period, companies were not assessed for involvement in unconventional oil and gas exploration/production.	Since the Effective Date, companies are assessed for having >5% of revenues derived from oil sands extraction, or 5% revenues derived from oil and gas exploration in Arctic regions, or 5% revenues derived from shale energy exploration and / or production.
Violations of UNGC principles and OECD Guidelines	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies that violate certain commonly accepted international norms and standards, such as United Nations and OECD guidelines and their underlying conventions.	

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable as the Fund has not committed to make sustainable investments.

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable as the Fund has not committed to make sustainable investments.

— ***How were the indicators for adverse impacts on sustainability factors taken into account?***

Not applicable.

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the Regulatory Technical Standards of Regulation (EU) 2018/2088 (RTS) and two optional PAIs from Tables 2 and 3 of Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Funds on a quarterly basis using an internally developed monitoring system and tailored dataset received from the Investment Manager and the Fund’s ESG data provider. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Chicony Electronics Co. Ltd.	Electronics	1.39%	Taiwan
Truworths International Ltd.	Retail	1.16%	South Africa
Cia De Sanena Do Parana	Water	1.13%	Brazil
Tisco Financial Group PCL	Diversified Financial Services	1.09%	Thailand
BNK Financial Group, Inc.	Diversified Financial Services	0.96%	South Korea
Mr Price Group Ltd.	Retail	0.86%	South Africa
Powertech Technology, Inc.	Semiconductors	0.83%	Taiwan
Cia de Saneamento de Minas Gerais Copasa MG	Water	0.76%	Brazil
Investec Ltd.	Diversified Financial Services	0.76%	South Africa
Tiger Brands Ltd.	Food	0.73%	South Africa
Redefine Properties Ltd.	Real Estate Investment Trusts	0.70%	South Africa

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31 December 2023.

JB Financial Group Co. Ltd.	Diversified Financial Services	0.70%	South Korea
Bolsa Mexicana de Valores SAB de CV	Diversified Financial Services	0.69%	Mexico
AVI Ltd.	Holding Companies - Diversified Operations	0.66%	South Africa

What was the proportion of sustainability-related investments?

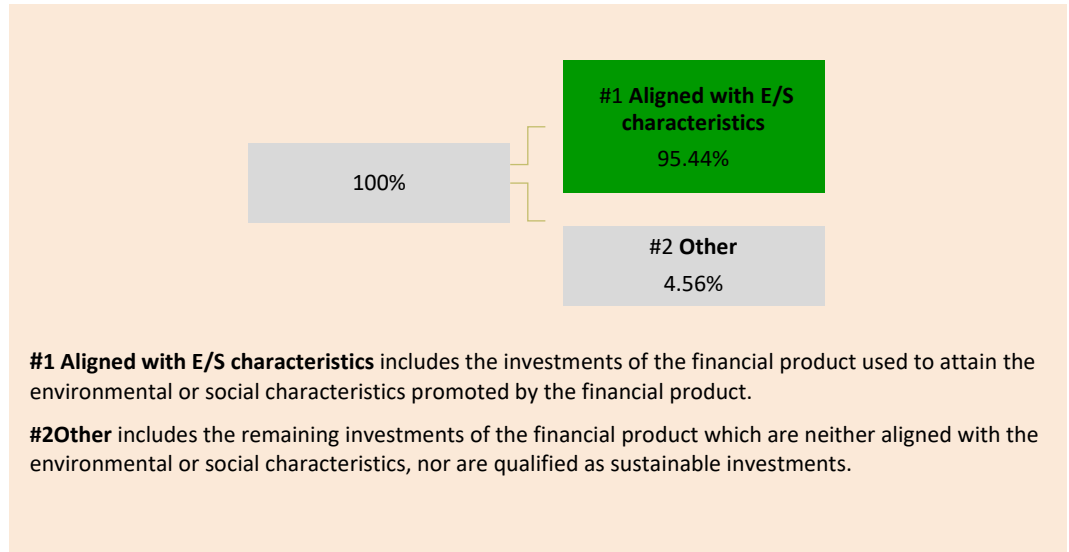

Not applicable as the Fund has not committed to make sustainable investments.

What was the asset allocation?

- The Fund invested substantially all of its assets in the constituents of the Index. 95.44% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investments (**#2 Not Sustainable**) consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

Asset allocation describes the share of investments in specific assets.

● **In which economic sectors were the investments made?**

Please refer to the "Schedule of Investments" included in the annual report for the ICAV for all information on the Fund's geographical and industry exposure as at 31 December 2023.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund's investment strategy and promotion of environmental and social characteristics. The EU Taxonomy alignment figures are based on figures provided by the Fund's ESG data provider.

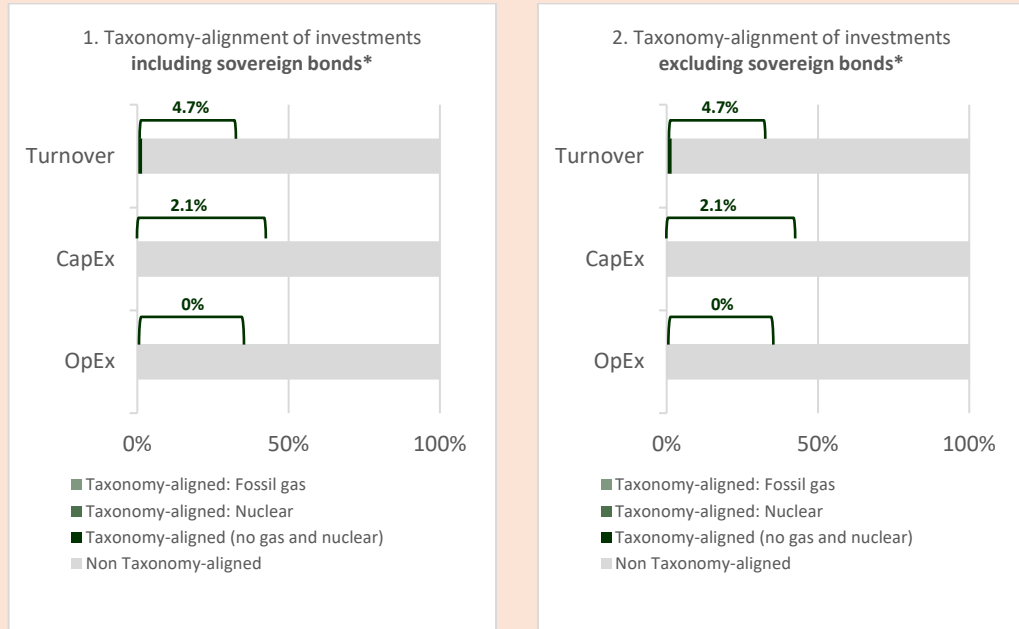

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Yes
 In fossil gas In nuclear energy
 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in transitional activities was 0%. The share of investments made in enabling activities was 1.4%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The Fund's investments were held with a view to achieving the Fund's investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 4.56% of the Fund's investments were in ancillary liquid assets (cash and cash equivalents) for liquidity purposes as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund's ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index is comprised of the small-capitalisation segment of the dividend-paying companies from emerging markets, selected based on a revenue exposure and a composite risk score (**CRS**) screening.

The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here: <https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>.

● **How does the reference benchmark differ from a broad market index?**

The Index is a proprietary WisdomTree index and in addition to the CRS, eligibility requirements include (i) a company must be incorporated within one of 17 emerging market countries (i.e., Brazil, Chile, China, Czech Republic, Hungary, India, Indonesia, Korea, Malaysia, Mexico, Philippines, Poland, Russia, South Africa, Taiwan, Thailand, and Turkey), (ii) pay regular cash dividends on shares of its common stock in the 12 months preceding the annual reconstitution, and (iii) meet minimum market capitalisation and liquidity criteria as detailed in the index methodology. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into account. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund invested in the small-capitalisation segment of the dividend-paying companies from emerging markets which are eligible for inclusion in the Index. The Index also excluded companies based on specified ESG criteria.

● **How did this financial product perform compared with the reference benchmark?**

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at the Investment Manager's report in the annual report for the ICAV.

● **How did this financial product perform compared with the broad market index?**

As described above, the Index is fundamentally weighted and is comprised of the small-capitalisation segment of the dividend-paying companies from emerging markets, selected based on a revenue exposure and a CRS screening and controlling for tracking error and other risk factors.

During the reporting period, world equities increased by 22.2%, the Index performed 22.3%.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="checkbox"/> Yes	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective : ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree Japan Equity UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the of , tobacco industry and small arm sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles. In line with the Index methodology,

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

WisdomTree Japan Hedged Equity UCITS Index (the **Index**), was designated as a reference benchmark to determine whether the Fund was aligned with the social and environmental it promoted.

● **How did the sustainability indicators perform?**

During the period, the Index applied environmental, social and governance (**ESG**) and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 99.35% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%
Coal exposure	Percentage of the Portfolio exposed to companies which derive >5% of revenue from thermal coal extraction or >5% revenue from thermal coal-based power generation or >5% revenue from tailor-made products and services that support thermal coal extraction.	0.00%
Exposure to companies involved in unconventional oil & gas exploration/production	Percentage of the Portfolio exposed to companies which derive >5% of revenues from unconventional oil & gas exploration/production such as oil sands, Arctic oil and gas or shale energy.	0.00%
Violations of UNGC principles and OECD Guidelines	Percentage of the Portfolio exposed to companies that are non-compliant based on the GSS assessment. GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

● **...and compared to previous periods?**

The following updates were made to the sustainability indicators for the Fund effective from market close on 8 March 2023 (the Effective Date):

Indicator	Previous sustainability indicator for reporting period	Updated Sustainability Indicator
Exposure to Controversial Weapons		The Index has continued to ensure that the Portfolio has 0.00% exposure to companies having any involvement in controversial weapons.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Exposure to Small Arms	During the previous reporting period, companies were not assessed for involvement in small arms.	Since the Effective Date, companies are assessed for having >5% of revenues derived from the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms.
Exposure to companies involved in tobacco production	During the previous reporting period, companies were assessed for involvement or owning significant shares of companies involved in tobacco production and supplying of tobacco-related products/services and where more than 10% revenue was derived from the distribution of tobacco.	Companies are assessed for involvement or ownership of significant shares of companies involved in tobacco production and supplying of tobacco-related products/services. Effective from the Effective Date, the % assessment of portfolio's exposure to companies deriving revenue from the distribution of tobacco was lowered from >10% to >5%.
Coal exposure	During the previous reporting period, companies were assessed for significant involvement in thermal coal activity, i.e., >25% of revenue derived from thermal coal extraction, or >10% revenue from thermal coal-based power generation.	Effective from the Effective date, the % assessment of Portfolio's exposure derived from thermal coal extraction and thermal coal power-based generation was lowered from >25% and >10% respectively to >5%. Effective from the Effective Date, companies are assessed for >5% of revenue derived from providing tailor-made products and services to support thermal coal extraction.
Exposure to companies involved in unconventional oil & gas exploration/production	During the previous reporting period, companies were not assessed for involvement in unconventional oil and gas exploration/production.	Since the Effective Date, companies are assessed for having >5% of revenues derived from oil sands extraction, or 5% revenues derived from oil and gas exploration in Arctic regions, or 5% revenues derived from shale energy exploration and / or production.
Violations of UNGC principles and OECD Guidelines	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies that violate certain commonly accepted international norms and standards, such as United Nations and OECD guidelines and their underlying conventions.	

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable as the Fund has not committed to make sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable as the Fund has not committed to make sustainable investments.

— **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the Regulatory Technical Standards of Regulation (EU) 2018/2088 (RTS) and two optional PAIs from Tables 2 and 3 of Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Funds on a quarterly basis using an internally developed monitoring system and tailored dataset received from the Investment Manager and the Fund’s ESG data provider. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Toyota Motor Corp.	Auto Manufacturers	4.49%	Japan
Mitsubishi UFJ Financial Group, Inc.	Banks	4.39%	Japan
Mitsubishi Corp.	Distribution & Wholesale	3.24%	Japan
Shin-Etsu Chemical Co. Ltd.	Chemicals	3.06%	Japan
Mizuho Financial Group, Inc.	Banks	2.46%	Japan
Sumitomo Mitsui Financial Group, Inc.	Banks	2.40%	Japan
Takeda Pharmaceutical Co. Ltd.	Pharmaceuticals	2.17%	Japan
ITOCHU Corp.	Distribution & Wholesale	1.99%	Japan
Nintendo Co. Ltd.	Toys, Games & Hobbies	1.96%	Japan

Tokio Marine Holdings, Inc.	Full Line Insurance	1.77%	Japan
Tokyo Electron Ltd.	Semiconductors	1.77%	Japan
Nippon Steel Corp.	Iron & Steel	1.77%	Japan
Honda Motor Co. Ltd.	Auto Manufacturers	1.77%	Japan
Hitachi Ltd.	Machinery, Construction & Mining	1.74%	Japan
Komatsu Ltd.	Machinery, Construction & Mining	1.72%	Japan

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.

- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.

- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

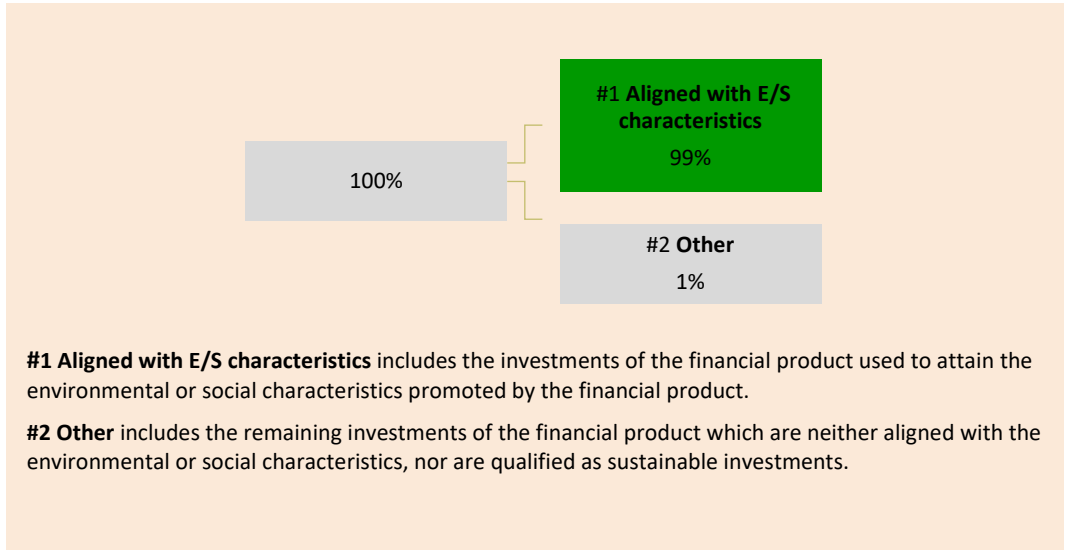

● **What was the proportion of sustainability-related investments?**

Not applicable as the Fund has not committed to make sustainable investments.

What was the asset allocation?

The Fund invested substantially all of its assets in the constituents of the Index. 99% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investments (**#2 Not Sustainable**) consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

Asset allocation describes the share of investments in specific assets.

● **In which economic sectors were the investments made?**

Please refer to the “Schedule of Investments” included in the annual report for the ICAV for all information on the Fund's geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund's investment strategy and promotion of environmental and social characteristics. The EU Taxonomy alignment figures are based on figures provided by the Fund's ESG data provider.

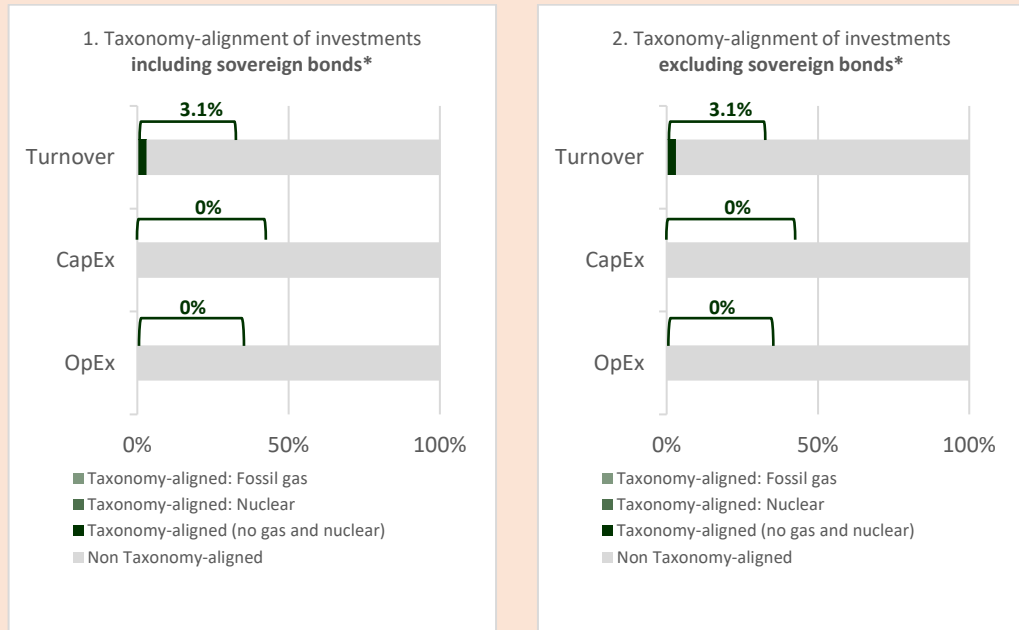

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes
 In fossil gas In nuclear energy
 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in transitional activities was 0%. The share of investments made in enabling activities was 2.7%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund’s investments were held with a view to achieving the Fund’s investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 1% of the Fund’s investments were in ancillary liquid assets (cash and cash equivalents) for liquidity purposes as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund’s ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UN Guiding Principles on Business and Human Rights (**UNGPs**), the OECD Guidelines for Multinational Enterprises and their underlying conventions as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index is comprised of dividend-paying companies from Japan, selected based on a revenue exposure and a composite risk score (“**CRS**”) screening. The Index also excludes companies based on specified ESG criteria outlined above.

Further information on the methodology used for the calculation of the designated index can be found here: <https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>.

● **How does the reference benchmark differ from a broad market index?**

The Index is a proprietary WisdomTree index and in addition to the CRS, excludes companies that derive more than 80% revenue from Japan, ensuring the Index is tilted towards companies with a more significant global revenue basis as described in the Index methodology. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into account.

Companies that were non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund invested in dividend-paying companies from Japan which are eligible for inclusion in the Index. The Index also excluded companies based on specified ESG criteria.

● **How did this financial product perform compared with the reference benchmark?**

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at the Investment Manager’s report in the annual report for the ICAV.

● **How did this financial product perform compared with the broad market index?**

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

As described above, the Index is fundamentally weighted and is comprised of dividend-paying companies from Japan, selected based on a revenue exposure and a CRS screening and controlling for tracking error and other risk factors.

During the reporting period, world equities increased by 22.2%, the Index performed 25.9%.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained. an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree Europe Equity UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the of , tobacco industry and small arm sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles. In line with the Index methodology,

The Fund also considered Principal Adverse Impacts (PAIs) on sustainability factors as described below.

WisdomTree Europe Equity UCITS Index EUR (the **Index**), was designated as a reference benchmark to determine whether the Fund was aligned with the social and environmental it promoted.

● **How did the sustainability indicators perform?**

During the period, the Index applied environmental, social and governance (**ESG**) and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 99.05% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%
Coal exposure	Percentage of the Portfolio exposed to companies which derive >5% of revenue from thermal coal extraction or >5% revenue from thermal coal-based power generation or >5% revenue from tailor-made products and services that support thermal coal extraction.	0.00%
Exposure to companies involved in unconventional oil & gas exploration/production	Percentage of the Portfolio exposed to companies which derive >5% of revenues from unconventional oil & gas exploration/production such as oil sands, Arctic oil and gas or shale energy.	0.00%
Violations of UNGC principles and OECD Guidelines	Percentage of the Portfolio exposed to companies that are non-compliant based on the GSS assessment. GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

...and compared to previous periods?

The following updates were made to the sustainability indicators for the Fund effective from market close on 8 March 2023 (the Effective Date):

Indicator	Previous sustainability indicator for reporting period	Updated Sustainability Indicator
Exposure to Controversial Weapons	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies having any involvement in controversial weapons.	

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Exposure to Small Arms	During the previous reporting period, companies were not assessed for involvement in small arms.	Since the Effective Date, companies are assessed for having >5% of revenues derived from the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms.
Exposure to companies involved in tobacco production	During the previous reporting period, companies were assessed for involvement or owning significant shares of companies involved in tobacco production and supplying of tobacco-related products/services and where more than 10% revenue was derived from the distribution of tobacco.	Companies are assessed for involvement or ownership of significant shares of companies involved in tobacco production and supplying of tobacco-related products/services. Effective from the Effective Date, the % assessment of portfolio's exposure to companies deriving revenue from the distribution of tobacco was lowered from >10% to >5%.
Coal exposure	During the previous reporting period, companies were assessed for significant involvement in thermal coal activity, i.e., >25% of revenue derived from thermal coal extraction, or >10% revenue from thermal coal-based power generation.	Effective from the Effective date, the % assessment of Portfolio's exposure derived from thermal coal extraction and thermal coal power-based generation was lowered from >25% and >10% respectively to >5%. Effective from the Effective Date, companies are assessed for >5% of revenue derived from providing tailor-made products and services to support thermal coal extraction.
Exposure to companies involved in unconventional oil & gas exploration/production	During the previous reporting period, companies were not assessed for involvement in unconventional oil and gas exploration/production.	Since the Effective Date, companies are assessed for having >5% of revenues derived from oil sands extraction, or 5% revenues derived from oil and gas exploration in Arctic regions, or 5% revenues derived from shale energy exploration and / or production.
Violations of UNGC principles and OECD Guidelines	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies that violate certain commonly accepted international norms and standards, such as United Nations and OECD guidelines and their underlying conventions.	

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable as the Fund has not committed to make sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable as the Fund has not committed to make sustainable investments.

— **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the Regulatory Technical Standards of Regulation (EU) 2018/2088 (RTS) and two optional PAIs from Tables 2 and 3 of Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Funds on a quarterly basis using an internally developed monitoring system and tailored dataset received from the Investment Manager and the Fund’s ESG data provider. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Stellantis NV	Auto Manufacturers	8.26%	Netherlands
Banco Bilbao Vizcaya Argentaria SA	Banks	6.60%	Spain
ASML Holding NV	Semiconductors	4.14%	Netherlands
Siemens AG	Miscellaneous Manufacturers	4.13%	Germany
L’Oreal SA	Cosmetics & Personal Care	3.50%	France
Deutsche Telekom AG	Telecommunications	3.26%	Germany
LVMH Moet Hennessy Louis Vuitton SE	Consumer Durables & Apparels	3.22%	France
Bayerische Motoren Werke AG	Auto Manufacturers	3.14%	Germany

Mercedes-Benz Group AG	Auto Manufacturers	3.08%	Germany
Sanofi SA	Pharmaceuticals	3.03%	France
Banco Santander SA	Banks	2.83%	
Schneider Electric SE	Electrical Components & Equipment	2.18%	France
Koninklijke Ahold Delhaize NV	Food	2.09%	Netherlands
Anheuser-Busch InBev SA	Beverages	2.08%	Netherlands

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31 December 2023.

● **What was the proportion of sustainability-related investments?**

Not applicable as the Fund has not committed to make sustainable investments.

What was the asset allocation?

The Fund invested substantially all of its assets in the constituents of the Index. 98.79% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investments (**#2 Not Sustainable**) consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

turnover reflects the “greenness” of investee companies today.

capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.

operational expenditure (OpEx) reflects the green operational activities of investee companies

● **In which economic sectors were the investments made?**

Please refer to the “Schedule of Investments” included in the annual report for the ICAV for all information on the Fund's geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund's investment strategy and promotion of environmental and social characteristics. The EU Taxonomy alignment figures are based on figures provided by the Fund's ESG data provider.

make a substantial

contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in transitional activities was 0.2%. The share of investments made in enabling activities was 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund’s investments were held with a view to achieving the Fund’s investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 1.21% of the Fund’s investments were in ancillary liquid assets (cash and cash equivalents) for liquidity purposes as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund’s ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UN GPs, the OECD Guidelines for Multinational Enterprises and their underlying conventions as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index is comprised of the dividend-paying companies from the Eurozone region, selected based on a revenue exposure and a composite risk score (CRS) screening.

The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here: <https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>.

● **How does the reference benchmark differ from a broad market index?**

The Index is a proprietary WisdomTree index and in addition to the CRS, includes companies that derive 50% or more of their revenue from countries outside of Europe ensuring the Index is tilted towards companies with a more significant global revenue base, as detailed in the index methodology. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into account. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund invested in dividend-paying companies from the Eurozone region which are eligible for inclusion in the Index. The Index also excluded companies based on specified ESG criteria.

● **How did this financial product perform compared with the reference benchmark?**

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at the Investment Manager’s report in the annual report for the ICAV.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● ***How did this financial product perform compared with the broad market index?***

As described above, the Index is fundamentally weighted and is comprised of dividend-paying companies from the Eurozone region, selected based on a revenue exposure and a CRS screening and controlling for tracking error and other risk factors.

During the reporting period, world equities increased by 22.2%, the Index performed 26.0%.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="checkbox"/> Yes	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree UK Equity Income UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the of , tobacco industry and small arm sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles. In line with the Index methodology,

The Fund also considered Principal Adverse Impacts (PAIs) on sustainability factors as described below.

WisdomTree UK Equity Income UCITS Index (the **Index**), was designated as a reference benchmark to determine whether the Fund was aligned with the social and environmental it promoted.

How did the sustainability indicators perform?

During the period, the Index applied environmental, social and governance (**ESG**) and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 99.86% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Indicator	Metric Description	Performance (as at 31 December 2023)

Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%
Coal exposure	Percentage of the Portfolio exposed to companies which derive >5% of revenue from thermal coal extraction or >5% revenue from thermal coal-based power generation or >5% revenue from tailor-made products and services that support thermal coal extraction.	0.00%
Exposure to companies involved in unconventional oil & gas exploration/production	Percentage of the Portfolio exposed to companies which derive >5% of revenues from unconventional oil & gas exploration/production such as oil sands, Arctic oil and gas or shale energy.	0.00%
Violations of UNGC principles and OECD Guidelines	Percentage of the Portfolio exposed to companies that are non-compliant based on the GSS assessment. GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

...and compared to previous periods?

The following updates were made to the sustainability indicators for the Fund effective from market close on 8 March 2023 (the Effective Date):

Indicator	Previous sustainability indicator for reporting period	Updated Sustainability Indicator
Exposure to Controversial Weapons	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies having any involvement in controversial weapons.	
Exposure to Small Arms	During the previous reporting period, companies	Since the Effective Date, companies are assessed for having >5% of revenues derived from the manufacturing and

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

	were not assessed for involvement in small arms.	selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms.
Exposure to companies involved in tobacco production	During the previous reporting period, companies were assessed for involvement or owning significant shares of companies involved in tobacco production and supplying of tobacco-related products/services and where more than 10% revenue was derived from the distribution of tobacco.	Companies are assessed for involvement or ownership of significant shares of companies involved in tobacco production and supplying of tobacco-related products/services. Effective from the Effective Date, the % assessment of portfolio's exposure to companies deriving revenue from the distribution of tobacco was lowered from >10% to >5%.
Coal exposure	During the previous reporting period, companies were assessed for significant involvement in thermal coal activity, i.e., >25% of revenue derived from thermal coal extraction, or >10% revenue from thermal coal-based power generation.	Effective from the Effective date, the % assessment of Portfolio's exposure derived from thermal coal extraction and thermal coal power-based generation was lowered from >25% and >10% respectively to >5%. Effective from the Effective Date, companies are assessed for >5% of revenue derived from providing tailor-made products and services to support thermal coal extraction.
Exposure to companies involved in unconventional oil & gas exploration/production	During the previous reporting period, companies were not assessed for involvement in unconventional oil and gas exploration/production.	Since the Effective Date, companies are assessed for having >5% of revenues derived from oil sands extraction, or 5% revenues derived from oil and gas exploration in Arctic regions, or 5% revenues derived from shale energy exploration and / or production.
Violations of UNGC principles and OECD Guidelines	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies that violate certain commonly accepted international norms and standards, such as United Nations and OECD guidelines and their underlying conventions.	

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable as the Fund has not committed to make sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable as the Fund has not committed to make sustainable investments.

— **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable.

— **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the Regulatory Technical Standards of Regulation (EU) 2018/2088 (RTS) and two optional PAIs from Tables 2 and 3 of Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Funds on a quarterly basis using an internally developed monitoring system and tailored dataset received from the Investment Manager and the Fund’s ESG data provider. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
J Sainsbury PLC	Food	4.88%	United Kingdom
SSE PLC	Utilities — Electric	4.82%	United Kingdom
Land Securities Group PLC	Real Estate Investment Trusts	4.82%	United Kingdom
Rio Tinto PLC	Mining	4.69%	United Kingdom
BT Group PLC	Telecommunications	4.62%	United Kingdom
British Land Co. PLC	Real Estate Investment	4.60%	United Kingdom
National Grid PLC	Utilities — Electric	4.56%	United Kingdom
United Utilities Group PLC	Water	4.22%	United Kingdom
Vodafone Group PLC	Telecommunications	3.76%	United Kingdom
NatWest Group PLC	Banks	3.28%	United Kingdom
Lloyds Banking Group PLC	Banks	3.17%	United Kingdom
Harbour Energy PLC	Oil & Gas	3.16%	United Kingdom

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:31 December 2023.

Barclays PLC	Banks	3.13%	United Kingdom
Schrodgers PLC	Diversified Financial Services	3.11%	United Kingdom
HSBC Holdings PLC	Banks	2.88%	United Kingdom

Taxonomy-aligned activities are expressed as a share of:

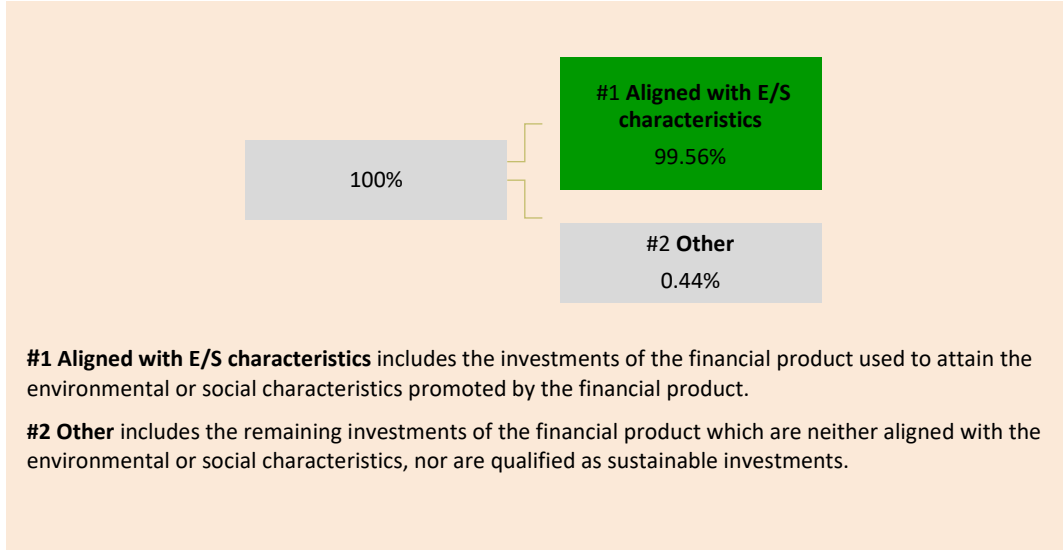

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● **What was the proportion of sustainability-related investments?**

Not applicable as the Fund has not committed to make sustainable investments.

What was the asset allocation?

The Fund invested substantially all of its assets in the constituents of the Index. 99.56% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investments (**#2 Not Sustainable**) consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

Asset allocation describes the share of investments in specific assets.

● **In which economic sectors were the investments made?**

Please refer to the “Schedule of Investments” included in the annual report for the ICAV for all information on the Fund's geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund's investment strategy and promotion of environmental and social characteristics. The EU Taxonomy alignment figures are based on figures provided by the Fund's ESG data provider.

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes
- In fossil gas In nuclear energy
- No

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in transitional activities was 0%. The share of investments made in enabling activities was 1.5%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund’s investments were held with a view to achieving the Fund’s investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 0.44% of the Fund’s investments were in ancillary liquid assets (cash and cash equivalents) for liquidity purposes as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund’s ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UN GPs, the OECD Guidelines for Multinational Enterprises and their underlying conventions as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index is comprised of the highest dividend yielding UK companies, selected based on a revenue exposure and a composite risk score (“CRS”) screening.

The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here: <https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>.

● How does the reference benchmark differ from a broad market index?

The Index is a proprietary WisdomTree index and in addition to the CRS, (i) incorporation in the United Kingdom and listing on the London Stock Exchange; (ii) pay regular cash dividends on shares of its common stock in the 12 months preceding the annual reconstitution; and (iii) meet minimum market capitalisation and liquidity criteria as detailed in the index methodology. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into account. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Fund invested in the highest dividend yielding UK companies which are eligible for inclusion in the Index. The Index also excluded companies based on specified ESG criteria.

● How did this financial product perform compared with the reference benchmark?

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at the Investment Manager’s report in the annual report for the ICAV.

● How did this financial product perform compared with the broad market index?

As described above, the Index is fundamentally weighted and is comprised of the highest dividend yielding UK companies, selected based on a revenue exposure and a CRS screening and controlling for tracking error and other risk factors.

During the reporting period, world equities increased by 22.2%, the Index performed 17.3%.

Product name: WisdomTree US Quality Dividend Growth UCITS ETF
Legal entity identifier: 5493002VL3BV2NJ26843

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree US Quality Dividend Growth UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the of , tobacco industry and small arm sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles. In line with the Index methodology,

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

WisdomTree US Quality Dividend Growth UCITS Index (the **Index**), was designated as a reference benchmark to determine whether the Fund was aligned with the social and environmental it promoted.

● **How did the sustainability indicators perform?**

During the period, the Index applied environmental, social and governance (**ESG**) and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 99.96% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%

● **...and compared to previous periods?**

The following updates were made to the sustainability indicators for the Fund effective from market close on 8 March 2023 (the Effective Date):

Indicator	Previous sustainability indicator for reporting period	Updated Sustainability Indicator
Exposure to Controversial Weapons	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies having any involvement in controversial weapons.	

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Exposure to Small Arms	During the previous reporting period, companies were not assessed for involvement in small arms.	Since the Effective Date, companies are assessed for having >5% of revenues derived from the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms.
Exposure to companies involved in tobacco production	During the previous reporting period, companies were assessed for involvement or owning significant shares of companies involved in tobacco production and supplying of tobacco-related products/services and where more than 10% revenue was derived from the distribution of tobacco.	Companies are assessed for involvement or ownership of significant shares of companies involved in tobacco production and supplying of tobacco-related products/services. Effective from the Effective Date, the % assessment of portfolio's exposure to companies deriving revenue from the distribution of tobacco was lowered from >10% to >5%.
Coal exposure	During the previous reporting period, companies were assessed for significant involvement in thermal coal activity, i.e., >25% of revenue derived from thermal coal extraction, or >10% revenue from thermal coal-based power generation.	Effective from the Effective date, the % assessment of Portfolio's exposure derived from thermal coal extraction and thermal coal power-based generation was lowered from >25% and >10% respectively to >5%. Effective from the Effective Date, companies are assessed for >5% of revenue derived from providing tailor-made products and services to support thermal coal extraction.
Exposure to companies involved in unconventional oil & gas exploration/production	During the previous reporting period, companies were not assessed for involvement in unconventional oil and gas exploration/production.	Since the Effective Date, companies are assessed for having >5% of revenues derived from oil sands extraction, or 5% revenues derived from oil and gas exploration in Arctic regions, or 5% revenues derived from shale energy exploration and / or production.
Violations of UNGC principles and OECD Guidelines	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies that violate certain commonly accepted international norms and standards, such as United Nations and OECD guidelines and their underlying conventions.	

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable as the Fund has not committed to make sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable as the Fund has not committed to make sustainable investments.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the Regulatory Technical Standards of Regulation (EU) 2018/2088 (RTS) and two optional PAIs from Tables 2 and 3 of Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Funds on an quarterly basis using an internally developed monitoring system and tailored dataset received from the Investment Manager and the Fund’s ESG data provider. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 31 December 2023.

Largest investments	Sector	% Assets	Country
Microsoft Corp.	Software	7.70%	United States
Apple, Inc.	Computers	5.16%	United States

UnitedHealth Group, Inc.	Healthcare Services	2.23%	United States

Morgan Stanley	Banks	2.15%	United States
NVIDIA Corp.	Semiconductors	2.00%	United States
Texas Instruments, Inc.	Semiconductors	1.77%	United States

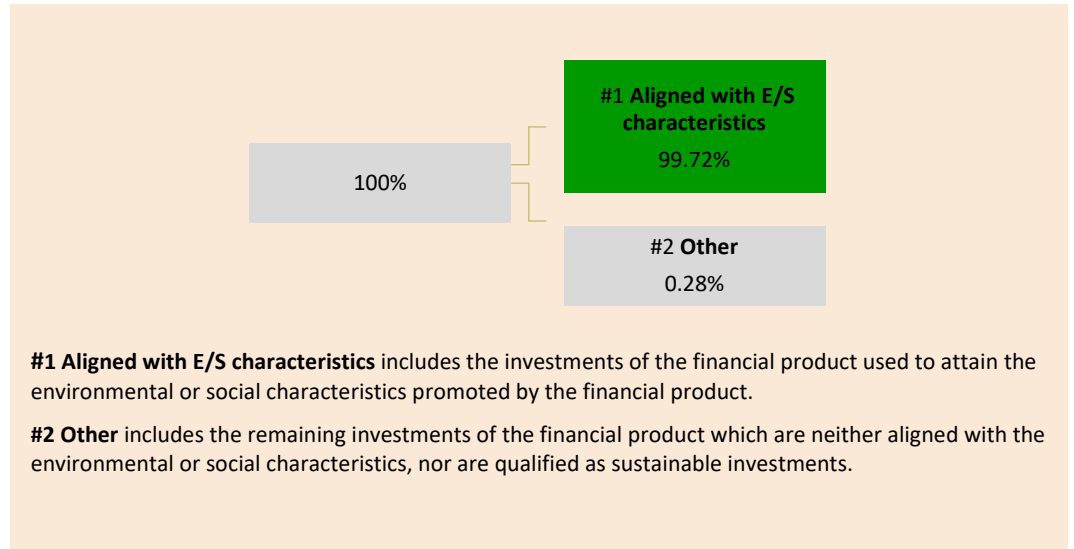

What was the proportion of sustainability-related investments?

Not applicable as the Fund has not committed to make sustainable investments.

What was the asset allocation?

- The Fund invested substantially all of its assets in the constituents of the Index. 99.72% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investments (**#2 Not Sustainable**) consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

- **In which economic sectors were the investments made?**

Please refer to the "Schedule of Investments" included in the annual report for the ICAV for all information on the Fund's geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund's investment strategy and promotion of environmental and social characteristics. The EU Taxonomy alignment figures are based on figures provided by the Fund's ESG data provider.

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

- **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Asset allocation describes the share of investments in specific assets.

Yes
 In fossil gas In nuclear energy
 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in transitional activities was 0%. The share of investments made in enabling activities was 2.3%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The Fund's investments were held with a view to achieving the Fund's investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 0.28% of the Fund's investments were in ancillary liquid assets (cash and cash equivalents) for liquidity purposes as permitted under the UCITS Regulations and in assets for which

ESG data was not available or in assets not covered by the Fund's ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index is comprised of dividend-paying US companies with quality and growth characteristics, selected based on a revenue exposure and a composite risk score ("CRS") screening. The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here: <https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>.

● **How does the reference benchmark differ from a broad market index?**

The Index is a proprietary WisdomTree index and in addition to the CRS, eligibility requirements include (i) a company must list its shares on a US stock exchange and be incorporated and headquartered in the US; (ii) pay regular cash dividends on common shares in the 12 months preceding the annual reconstitution; and (iii) meet minimum market capitalisation and liquidity criteria as detailed in the index methodology. The Index methodology includes the GSS process described above which takes ESG considerations into account. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund invested in dividend-paying US companies with quality and growth characteristics which are eligible for inclusion in the Index. The Index also excluded companies based on specified ESG criteria.

● **How did this financial product perform compared with the reference benchmark?**

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at the Investment Manager's report in the annual report for the ICAV.

● **How did this financial product perform compared with the broad market index?**

As described above, the Index is fundamentally weighted and is comprised of dividend-paying US companies with quality and growth characteristics, selected based on a revenue exposure and a CRS screening and controlling for tracking error and other risk factors.

During the reporting period, world equities increased by 22.2%, the Index performed 18.6%.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Product name: WisdomTree Global Quality Dividend Growth UCITS ETF
Legal entity identifier: 549300EZZY0NU4KEBM29

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree Global Quality Dividend Growth UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the of , tobacco industry and small arm sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles. In line with the Index methodology,

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

WisdomTree Global Developed Quality Dividend Growth UCITS Index (the **Index**), was designated as a reference benchmark to determine whether the Fund was aligned with the social and environmental it promoted.

● **How did the sustainability indicators perform?**

During the period, the Index applied environmental, social and governance (**ESG**) and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 98.71% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%
Coal exposure	Percentage of the Portfolio exposed to companies which derive >5% of revenue from thermal coal extraction or >5% revenue from thermal coal-based power generation or >5% revenue from tailor-made products and services that support thermal coal extraction.	0.00%
Exposure to companies involved in unconventional oil & gas exploration/production	Percentage of the Portfolio exposed to companies which derive >5% of revenues from unconventional oil & gas exploration/production such as oil sands, Arctic oil and gas or shale energy.	0.00%
Violations of UNGC principles and OECD Guidelines	Percentage of the Portfolio exposed to companies that are non-compliant based on the GSS assessment. GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

● **...and compared to previous periods?**

The following updates were made to the sustainability indicators for the Fund effective from market close on 8 March 2023 (the Effective Date):

Indicator	Previous sustainability indicator for reporting period	Updated Sustainability Indicator
Exposure to Controversial Weapons	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies having any involvement in controversial weapons.	

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Exposure to Small Arms	During the previous reporting period, companies were not assessed for involvement in small arms.	Since the Effective Date, companies are assessed for having >5% of revenues derived from the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms.
Exposure to companies involved in tobacco production	During the previous reporting period, companies were assessed for involvement or owning significant shares of companies involved in tobacco production and supplying of tobacco-related products/services and where more than 10% revenue was derived from the distribution of tobacco.	Companies are assessed for involvement or ownership of significant shares of companies involved in tobacco production and supplying of tobacco-related products/services. Effective from the Effective Date, the % assessment of portfolio's exposure to companies deriving revenue from the distribution of tobacco was lowered from >10% to >5%.
Coal exposure	During the previous reporting period, companies were assessed for significant involvement in thermal coal activity, i.e., >25% of revenue derived from thermal coal extraction, or >10% revenue from thermal coal-based power generation.	Effective from the Effective date, the % assessment of Portfolio's exposure derived from thermal coal extraction and thermal coal power-based generation was lowered from >25% and >10% respectively to >5%. Effective from the Effective Date, companies are assessed for >5% of revenue derived from providing tailor-made products and services to support thermal coal extraction.
Exposure to companies involved in unconventional oil & gas exploration/production	During the previous reporting period, companies were not assessed for involvement in unconventional oil and gas exploration/production.	Since the Effective Date, companies are assessed for having >5% of revenues derived from oil sands extraction, or 5% revenues derived from oil and gas exploration in Arctic regions, or 5% revenues derived from shale energy exploration and / or production.
Violations of UNGC principles and OECD Guidelines	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies that violate certain commonly accepted international norms and standards, such as United Nations and OECD guidelines and their underlying conventions.	

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable as the Fund has not committed to make sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable as the Fund has not committed to make sustainable investments.

— *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the Regulatory Technical Standards of Regulation (EU) 2018/2088 (RTS) and two optional PAIs from Tables 2 and 3 of Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Funds on an quarterly basis using an internally developed monitoring system and tailored dataset received from the Investment Manager and the Fund’s ESG data provider. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Microsoft Corp.	Software	4.97%	United States
Apple, Inc.	Computers	3.75%	United States
Johnson & Johnson	Pharmaceuticals	2.54%	United States
Broadcom, Inc.	Semiconductors	2.31%	America
Nestle SA	Food	2.25%	Switzerland
Procter & Gamble Co.	Cosmetics & Personal Care	2.12%	United States
Coca-Cola Co.	Beverages	2.06%	United States
Novartis AG	Pharmaceuticals	2.00%	Switzerland
Roche Holding AG Non-Voting	Pharmaceuticals	1.85%	Switzerland
LVMH Moet Hennessy Louis Vuitton SE	Consumer Durables & Apparels	1.80%	France
PepsiCo, Inc.	Beverages	1.71%	United States

UnitedHealth Group, Inc.	Healthcare Services	1.57%	United States
Morgan Stanley	Banks	1.54%	United States
Industria de Diseno Textil SA	Retail	1.20%	Spain

The list includes the investments

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Taxonomy-aligned activities are expressed as a share of:

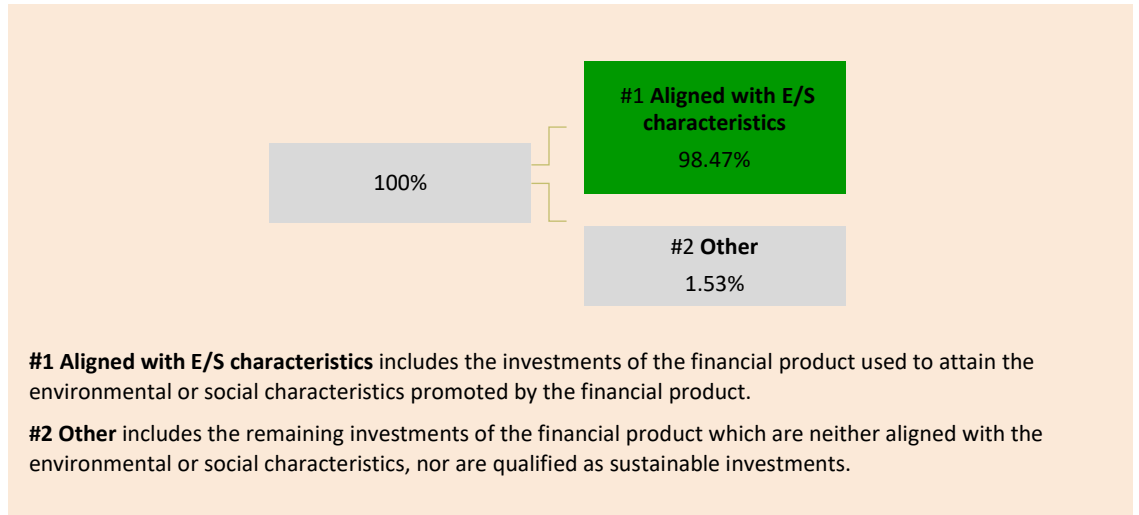

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

What was the proportion of sustainability-related investments?

Not applicable as the Fund has not committed to make sustainable investments.

● **What was the asset allocation?**

The Fund invested substantially all of its assets in the constituents of the Index. 98.47% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investments (**#2 Not Sustainable**) consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

● **In which economic sectors were the investments made?**

Please refer to the “Schedule of Investments” included in the annual report for the ICAV for all information on the Fund's geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund's investment strategy and promotion of environmental and social characteristics. The EU Taxonomy alignment figures are based on figures provided by the Fund's ESG data provider.

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

X

No

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in transitional activities was 0%. The share of investments made in enabling activities was 1.0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The Fund's investments were held with a view to achieving the Fund's investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 1.53% of the Fund's investments were in ancillary liquid assets (cash and cash equivalents) for liquidity purposes as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund's ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index is comprised of dividend-paying companies from global developed markets with quality and growth characteristics, selected based on a revenue exposure and a composite risk score (“CRS”) screening. The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here: <https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>.

● **How does the reference benchmark differ from a broad market index?**

The Index is a proprietary WisdomTree index and in addition to the CRS, eligibility requirements include (i) must be incorporated in the United States, Europe (i.e., Austria, Belgium, Denmark, Finland, France, Germany, Ireland, Italy, Netherlands, Norway, Portugal, Spain, Sweden, Switzerland, or the United Kingdom), Israel, Japan, Australia, New Zealand, Hong Kong, Singapore or Canada; (ii) pay regular cash dividends on shares of its common stock in the 12 months preceding the annual reconstitution, and (iii) meet minimum market capitalisation and liquidity criteria as detailed in the index methodology. The Index methodology includes the GSS process described above which takes ESG considerations into account. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund invested in dividend-paying companies from global developed markets with quality and growth characteristics which are eligible for inclusion in the Index. The Index also excluded companies based on specified ESG criteria.

● **How did this financial product perform compared with the reference benchmark?**

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at the Investment Manager’s report in the annual report for the ICAV.

● **How did this financial product perform compared with the broad market index?**

As described above, the Index is fundamentally weighted and is comprised of dividend-paying companies from global developed markets with quality and growth characteristics, selected based on a revenue exposure and a CRS screening and controlling for tracking error and other risk factors.

During the reporting period, world equities increased by 22.2%, the Index performed 18.5%.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Legal entity identifier:

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective : ____% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective : ____%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree Eurozone Quality Dividend Growth UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the of , tobacco industry and small arm sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles. In line with the Index methodology,

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

WisdomTree Eurozone Quality Dividend Growth UCITS Index (the **Index**), was designated as a reference benchmark to determine whether the Fund was aligned with the social and environmental it promoted.

● **How did the sustainability indicators perform?**

During the period, the Index applied environmental, social and governance (**ESG**) and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 100% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

...and compared to previous periods?

The following updates were made to the sustainability indicators for the Fund effective from market close on 8 March 2023 (the Effective Date):

Indicator	Previous sustainability indicator for reporting period	Updated Sustainability Indicator
Exposure to Controversial Weapons	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies having any involvement in controversial weapons.	

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Exposure to Small Arms	During the previous reporting period, companies were not assessed for involvement in small arms.	Since the Effective Date, companies are assessed for having >5% of revenues derived from the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms.
Exposure to companies involved in tobacco production	During the previous reporting period, companies were assessed for involvement or owning significant shares of companies involved in tobacco production and supplying of tobacco-related products/services and where more than 10% revenue was derived from the distribution of tobacco.	Companies are assessed for involvement or ownership of significant shares of companies involved in tobacco production and supplying of tobacco-related products/services. Effective from the Effective Date, the % assessment of portfolio's exposure to companies deriving revenue from the distribution of tobacco was lowered from >10% to >5%.
Coal exposure	During the previous reporting period, companies were assessed for significant involvement in thermal coal activity, i.e., >25% of revenue derived from thermal coal extraction, or >10% revenue from thermal coal-based power generation.	Effective from the Effective date, the % assessment of Portfolio's exposure derived from thermal coal extraction and thermal coal power-based generation was lowered from >25% and >10% respectively to >5%. Effective from the Effective Date, companies are assessed for >5% of revenue derived from providing tailor-made products and services to support thermal coal extraction.
Exposure to companies involved in unconventional oil & gas exploration/production	During the previous reporting period, companies were not assessed for involvement in unconventional oil and gas exploration/production.	Since the Effective Date, companies are assessed for having >5% of revenues derived from oil sands extraction, or 5% revenues derived from oil and gas exploration in Arctic regions, or 5% revenues derived from shale energy exploration and / or production.
Violations of UNGC principles and OECD Guidelines	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies that violate certain commonly accepted international norms and standards, such as United Nations and OECD guidelines and their underlying conventions.	

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable as the Fund has not committed to make sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable as the Fund has not committed to make sustainable investments.

— **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the Regulatory Technical Standards of Regulation (EU) 2018/2088 (RTS) and two optional PAIs from Tables 2 and 3 of Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Funds on a quarterly basis using an internally developed monitoring system and tailored dataset received from the Investment Manager and the Fund’s ESG data provider. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
ASML Holding NV	Semiconductors	6.92%	Netherlands
Deutsche Post AG	Transportation	6.87%	Germany
Deutsche Telekom AG	Telecommunications	5.95%	Germany
L’Oreal SA	Cosmetics & Personal Care	5.00%	France
Industria de Diseno Textil SA	Retail	4.80%	Spain
Siemens Healthineers AG	Healthcare Products	4.38%	Germany
Heineken NV	Beverages	4.37%	Netherlands
Universal Music Group NV	Entertainment	3.69%	US
LVMH Moet Hennessy Louis Vuitton SE	Consumer Durables & Apparels	3.41%	France
Kering SA	Consumer Durables & Apparels	3.25%	France

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31 December 2023.

UPM-Kymmene OYJ	Forest Products & Paper	3.10%	Finland
Hermes International SCA	Consumer Durables & Apparels	3.05%	France
Endesa SA	Utilities — Electric	2.31%	Spain
Randstad NV	Commercial Services	2.24%	Netherlands

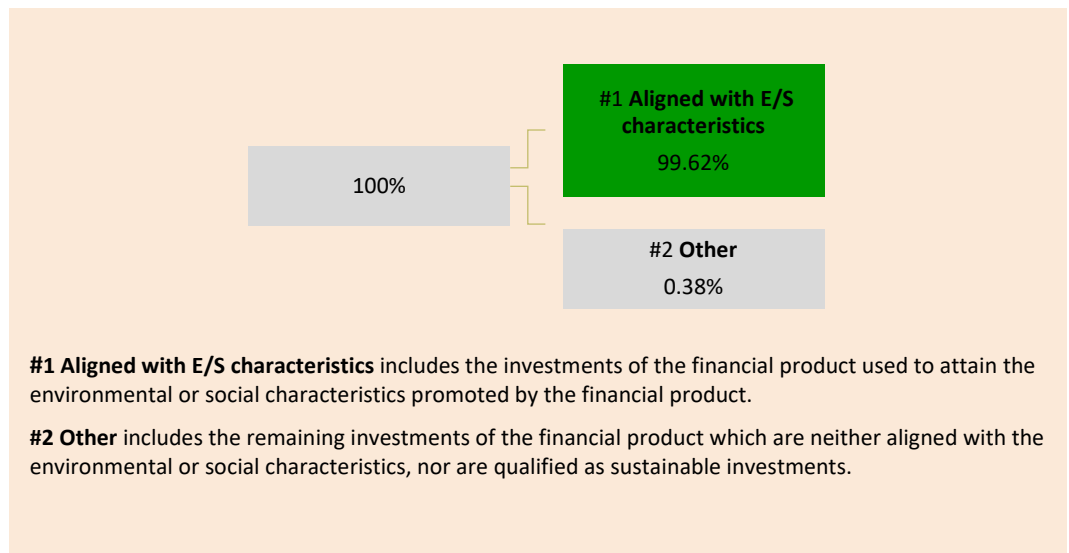

● **What was the proportion of sustainability-related investments?**

Not applicable as the Fund has not committed to make sustainable investments.

What was the asset allocation?

The Fund invested substantially all of its assets in the constituents of the Index. 99.62% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investments (**#2 Not Sustainable**) consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

turnover reflects the “greenness” of investee companies today.

capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.

operational expenditure (OpEx) reflects the green operational activities of investee companies.

● **In which economic sectors were the investments made?**

Please refer to the “Schedule of Investments” included in the annual report for the ICAV for all information on the Fund's geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

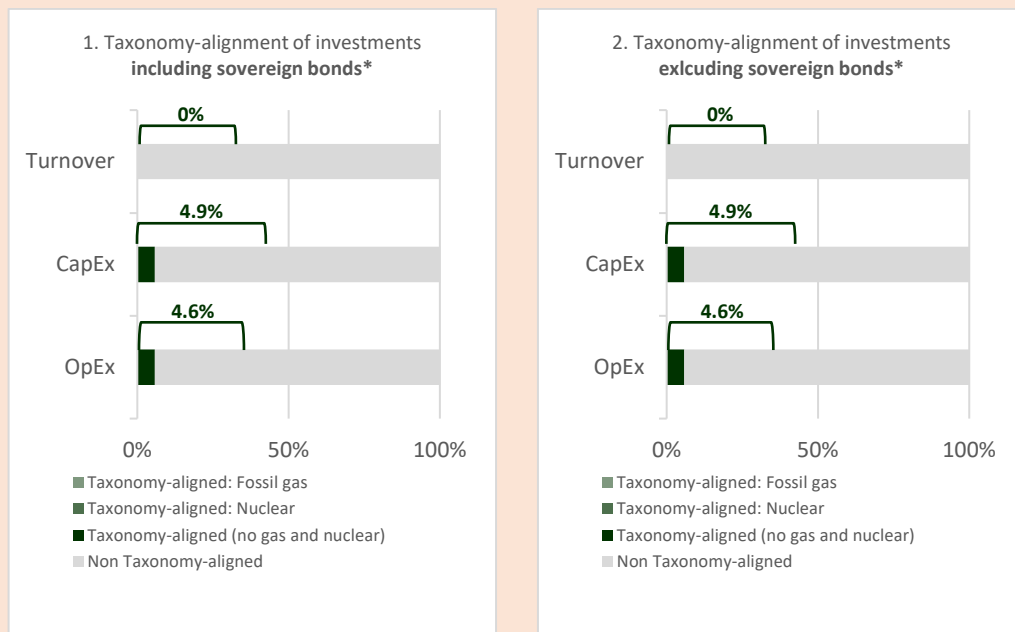

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund's investment strategy and promotion of environmental and social characteristics. The EU Taxonomy alignment figures are based on figures provided by the Fund's ESG data provider.

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in transitional activities was 0%. The share of investments made in enabling activities was 0%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund’s investments were held with a view to achieving the Fund’s investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 0.38% of the Fund’s investments were in ancillary liquid assets (cash and cash equivalents) for liquidity purposes as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund’s ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UN GPs, the OECD Guidelines for Multinational Enterprises and their underlying conventions as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index is comprised of the dividend-paying companies from the Eurozone region with quality and growth characteristics, selected based on a revenue exposure and a composite risk score (CRS) screening.

The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here: <https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>.

● **How does the reference benchmark differ from a broad market index?**

The Index is a proprietary WisdomTree index and in addition to the CRS, eligibility requirements include (i) a company must be incorporated and listed in one of the countries in Eurozone (i.e., Austria, Belgium, Finland, France, Germany, Ireland, Italy, Netherlands, Portugal, or Spain) (ii) pay regular cash dividends on shares of its common stock in the 12 months preceding the annual reconstitution, and (iii) meet minimum market capitalisation and liquidity criteria as detailed in the index methodology. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into account. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund invested in dividend-paying companies from the Eurozone region with quality and growth characteristics which are eligible for inclusion in the Index. The Index also excluded companies based on specified ESG criteria.

● **How did this financial product perform compared with the reference benchmark?**

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at the Investment Manager’s report in the annual report for the ICAV.

● **How did this financial product perform compared with the broad market index?**

As described above, the Index is fundamentally weighted and is comprised of dividend-paying companies from the Eurozone region with quality and growth characteristics, selected based on

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

a revenue exposure and a CRS screening and controlling for tracking error and other risk factors.

During the reporting period, world equities increased by 22.2%, the Index performed 24.1%.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Legal entity identifier: 549300MRTM72PCY20F40

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes	No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree AT1 CoCo Bond UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the tobacco industry and small arms sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles in line with the Index methodology.

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

iBoxx Contingent Convertible Liquid Developed Europe AT1 Index (the **Index**), was designed as a reference benchmark to determine whether the Fund was aligned with the environmental and social characteristics it promoted.

● *How did the sustainability indicators perform?*

During the period, the Index applied exclusionary environmental, social and governance (**ESG**) screening and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index. The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

94.93% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient

ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the ESG data provider.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%
Coal exposure	Percentage of the Portfolio exposed to companies which derive >5% of revenue from thermal coal extraction or >5% revenue from thermal coal-based power generation or >5% revenue from tailor-made products and services that support thermal coal extraction.	0.00%
Exposure to companies involved in unconventional oil & gas exploration/production	Percentage of the Portfolio exposed to companies which derive >5% of revenues from unconventional oil & gas exploration/production such as oil sands, Arctic oil and gas or shale energy.	0.00%
Violations of UNGC principles and OECD Guidelines	Percentage of the Portfolio exposed to companies that are non-compliant based on the GSS assessment. GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

...and compared to previous periods?

The following updates were made to the sustainability indicators for the Fund effective from market close on 17 March 2023 (the **Effective Date**):

Indicator	Previous sustainability indicator for reporting period	Updated Sustainability Indicator
Exposure to Controversial Weapons	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies having any involvement in controversial weapons.	
Exposure to Small Arms	During the previous reporting period, companies were not assessed for involvement in small arms.	Since the Effective Date, companies are assessed for having >5% of revenues derived from the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms.
Exposure to companies involved in tobacco production	During the previous reporting period, companies were assessed for involvement or owning significant shares of companies involved in tobacco production and supplying of tobacco-related products/services and where more than 10% revenue was derived from the distribution of tobacco.	Companies are assessed for involvement or ownership of significant shares of companies involved in tobacco production and supplying of tobacco-related products/services. Effective from the Effective Date, the % assessment of portfolio's exposure to companies deriving revenue from the distribution of tobacco was lowered from >10% to >5%.
Coal exposure	During the previous reporting period, companies were assessed for significant involvement in thermal coal activity, i.e., >25% of revenue derived from thermal coal extraction, or >10% revenue from thermal coal-based power generation.	Effective from the Effective date, the % assessment of Portfolio's exposure derived from thermal coal extraction and thermal coal power-based generation was lowered from >25% and >10% respectively to >5%. Effective from the Effective Date, companies are assessed for >5% of revenue derived from providing tailor-made products and services to support thermal coal extraction.
Exposure to companies involved in unconventional oil & gas exploration/production	During the previous reporting period, companies were not assessed for involvement in unconventional oil and gas exploration/production.	Since the Effective Date, companies are assessed for having >5% of revenues derived from oil sands extraction, or 5% revenues derived from oil and gas exploration in Arctic regions, or 5% revenues derived from shale energy exploration and / or production.

Violations of UNCG principles and OECD Guidelines	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies that violate certain commonly accepted international norms and standards, such as United Nations and OECD guidelines and their underlying conventions.
---	---

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Not applicable as the Fund has not committed to make sustainable investments.

- *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

Not applicable as the Fund has not committed to make sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the Regulatory Technical Standards of Regulation (EU) 2018/2088 (RTS) and two optional PAIs from Tables 2 and 3 of the Annex I of the RTS. The below table provides an overview of exposure to the selected PAIs applicable to the Fund at 31 December 2023.

During the reporting period, the Manager monitored the selected PAI indicators for the Funds on a quarterly basis using an internally developed monitoring system and data received from the Investment Manager and the Fund's ESG data provider. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
UBS Group AG	Banks	1.42%	Switzerland
HSBC Holdings PLC	Banks	1.28%	United Kingdom
Banco Santander SA	Banks	1.22%	Spain
NatWest Group PLC	Banks	1.20%	United Kingdom
BNP Paribas SA	Banks	1.18%	France
Banco Santander SA	Banks	1.14%	Spain
Banco Santander SA	Banks	1.12%	Spain
Lloyds Banking Group PLC	Banks	1.09%	United Kingdom

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31 December 2023.

Lloyds Banking Group PLC	Banks	1.09%	United Kingdom
HSBC Holdings PLC	Banks	1.09%	United Kingdom
Credit Agricole SA	Banks	1.07%	France
Barclays PLC	Banks	1.06%	United Kingdom
Banco Santander SA	Banks	1.06%	Spain
HSBC Holdings PLC	Banks	1.06%	United Kingdom
Standard Chartered PLC	Banks	1.05%	United Kingdom

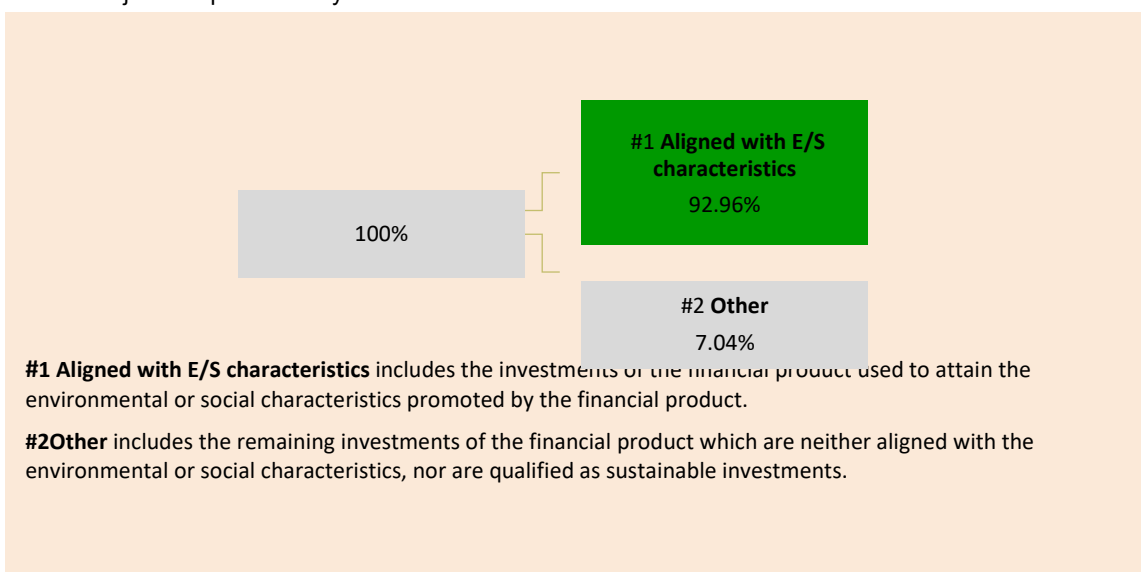

● **What was the proportion of sustainability-related investments?**

Not applicable as the Fund has not committed to make sustainable investments

● **What was the asset allocation?**

The Fund invested substantially all of its assets in the constituents of the Index. As a result, 99.98% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investment's ("#2 Not Sustainable") consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available or not covered by the Fund's ESG data provider. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

Asset allocation describes the share of investments in specific assets.

● **In which economic sectors were the investments made?**

Please refer to the "Schedule of Investments" included in the annual report for the ICAV for all information on the Fund's geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in transitional activities was 0% . The share of investments made in enabling activities was 0%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

During the previous reporting period ending 31 December 2022, the Fund did not make a commitment to EU Taxonomy aligned investments.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund’s investments were held with a view to achieving the Fund’s investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 7.04% of the Fund’s investment were in ancillary liquid assets (cash and cash equivalents), for liquidity purposes and in order to achieve its investment objective as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund’s ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities which are further described in the Index methodology.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions, as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index is designed to reflect the performance of the AT1 CoCos denominated in EUR, USD and GBP issued by financial institutions from European developed markets. The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here:

<https://www.markit.com/Company/Files/DownloadFiles?CMSID=6255ed2eccb7425e81687bc446a5fa27>

How does the reference benchmark differ from a broad market index?

The Index is designed to reflect the performance of financial institutions AT1 CoCos denominated in EUR, USD, and GBP, whilst also screening out bond issuers significantly involved in tobacco, unconventional oil and gas production/exploration, thermal coal and small arms and bond issuers involved in controversial weapons as further described in the Index methodology. In addition, the Index excludes bond issuers that are not in compliance with respect to the UNGCPs and its associated standards, conventions and treaties. The Index rules aim to offer good coverage of the contingent convertible bond universe, whilst upholding minimum standards of investability and liquidity.

How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Fund reflected the performance of the AT1 CoCos denominated in EUR, USD and GBP issued by financial institutions from European developed markets which are eligible for inclusion in the Index. The Index also excluded companies based on specified ESG criteria further described above and in the Index methodology.

How did this financial product perform compared with the reference benchmark?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at Investment Manager's report in the annual report for the ICAV.

● *How did this financial product perform compared with the broad market index?*

As described above, the Index is fundamentally weighted and invests in AT1 CoCos denominated in EUR, USD and GBP issued by financial institutions from European developed markets which are eligible for inclusion in the Index. During the reporting period, the contingent convertible securities universe increased by 7.82%, the Index performed 5.79%

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree Artificial Intelligence UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the tobacco industry and small arms sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles in line with the Index methodology.

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

Nasdaq CTA Artificial Intelligence Index (the **Index**), was designed as a reference benchmark to determine whether the Fund was aligned with the environmental and social characteristics it promoted.

● *How did the sustainability indicators perform?*

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

During the period, the Index applied exclusionary environmental, social and governance (**ESG**) screening and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 98.43% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the Fund's ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%
Coal exposure	Percentage of the Portfolio exposed to companies which derive >5% of revenue from thermal coal extraction or >5% revenue from thermal coal-based power generation or >5% revenue from tailor-made products and services that support thermal coal extraction.	0.00%
Exposure to companies involved in unconventional oil & gas exploration/production	Percentage of the Portfolio exposed to companies which derive >5% of revenues from unconventional oil & gas exploration/production such as oil sands, Arctic oil and gas or shale energy.	0.00%

The remaining portion of the Fund’s investment’s (“#2 Not Sustainable”) consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund..

Asset allocation describes the share of investments in specific assets.

● *In which economic sectors were the investments made?*

Please refer to the “Schedule of Investments” included in the annual report for the ICAV for all information on the Fund’s geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund’s investment strategy. The EU Taxonomy alignment figures are based on figures provided by the Fund’s ESG data provider.

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes: In fossil gas In nuclear energy

No:

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in transitional activities was 0% . The share of investments made in enabling activities was 9.2%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

During the previous reporting period ending 31 December 2022 the Fund did not make a commitment to EU Taxonomy aligned investments. As at 31 December 2023, the share of incidental EU Taxonomy-aligned investments was slightly higher compared with the previous reporting period.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund’s investments were held with a view to achieving the Fund’s investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 1.80% of the Fund’s investment were in ancillary liquid assets (cash and cash equivalents), for liquidity purposes and in order to achieve its investment objective as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund’s ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UNGPs, the OECD Guidelines for Multinational Enterprises and their underlying conventions, as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index is designed to track the performance companies engaged in artificial intelligence (AI) as determined by the Consumer Technology Association (CTA). Companies in the eligible universe are classified into three groups based on each company’s position in the AI value chain and its estimated revenue exposure to AI:

Enhancers: Companies who are a prominent force within AI, but whose relevant product or service within AI is not currently a core part of their revenue

Enablers: Companies who are key players in the AI space, with some of their core products and services enabling the continued development of AI

Engagers: Companies whose main focus is in providing AI-powered products and services. The Index is also aligned with ESG factors using exclusion criteria.

The Index methodology includes the GSS process described above which takes ESG considerations into account. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excludes companies engaged in specific activities, such as involvement in controversial weapons, tobacco, unconventional oil and gas exploration/production, thermal coal or small arm activities described in more detail above.

Further information on the methodology used for the calculation of the designated index can be found here:

<https://www.wisdomtree.eu/-/media/eu-media-files/other-documents/index/wt/index-methodology/nasdaq-cta-artificial-intelligence-index-methodology.pdf> .

How does the reference benchmark differ from a broad market index?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The Index was designed track the performance of companies engaged in AI as determined by the CTA. AI companies are those classified as an enabler, engager or enhancer by the CTA as described above. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into accounts. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

The Index tracked the performance of companies engaged in AI. The Index also excluded companies based on specified ESG criteria.

- *How did this financial product perform compared with the reference benchmark?*

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at Investment Manager's report in the annual report for the ICAV.

- *How did this financial product perform compared with the broad market index?*

As described above, the Index was designed in collaboration between WisdomTree and technology market experts NASDAQ and the CTA and is designed to track the performance of companies which are enhancing, enabling, or engaging AI and, in addition, takes into account ESG considerations and applies relevant exclusions.

During the reporting period, world equities increased by 22%, the Index performed 6.2%.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: WisdomTree Cloud Computing UCITS ETF
549300V5ZPJ143OIR246

Legal entity identifier:

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree Cloud Computing UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the tobacco industry and small arms sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles in line with the Index methodology.

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

BVP Nasdaq Emerging Cloud NTR Index (the **Index**), was designed as a reference benchmark to determine whether the Fund was aligned with the environmental and social characteristics it promoted.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● *How did the sustainability indicators perform?*

During the period, the Index applied environmental, social and governance (**ESG**) and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 100% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the

reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%
Coal exposure	Percentage of the Portfolio exposed to companies which derive >5% of revenue from thermal coal extraction or >5% revenue from thermal coal-based power generation or >5% revenue from tailor-made products and services that support thermal coal extraction.	0.00%
Exposure to companies involved in unconventional oil & gas exploration/production	Percentage of the Portfolio exposed to companies which derive >5% of revenues from unconventional oil & gas exploration/production such as oil sands, Arctic oil and gas or shale energy.	0.00%
Violations of UNGC principles and OECD Guidelines	Percentage of the Portfolio exposed to companies that are non-compliant based on the GSS assessment. GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

...and compared to previous periods?

The following updates were made to the sustainability indicators for the Fund effective from market close on 17 March 2023 (the **Effective Date**):

Indicator	Previous sustainability indicator for reporting period	Updated Sustainability Indicator
Exposure to Controversial Weapons	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies having any involvement in controversial weapons.	
Exposure to Small Arms	During the previous reporting period, companies were not assessed for involvement in small arms.	Since the Effective Date, companies are assessed for having >5% of revenues derived from the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms.
Exposure to companies involved in tobacco production	During the previous reporting period, companies were assessed for involvement or owning significant shares of companies involved in tobacco production and supplying of tobacco-related products/services and where more than 10% revenue was derived from the distribution of tobacco.	Companies are assessed for involvement or ownership of significant shares of companies involved in tobacco production and supplying of tobacco-related products/services. Effective from the Effective Date, the % assessment of portfolio's exposure to companies deriving revenue from the distribution of tobacco was lowered from >10% to >5%.
Coal exposure	During the previous reporting period, companies were assessed for significant involvement in thermal coal activity, i.e., >25% of revenue derived from thermal coal extraction, or >10% revenue from thermal coal-based power generation.	Effective from the Effective date, the % assessment of Portfolio's exposure derived from thermal coal extraction and thermal coal power-based generation was lowered from >25% and >10% respectively to >5%. Effective from the Effective Date, companies are assessed for >5% of revenue derived from providing tailor-made products and services to support thermal coal extraction.
Exposure to companies involved in unconventional oil & gas exploration/production	During the previous reporting period, companies were not assessed for involvement in unconventional oil and gas exploration/production.	Since the Effective Date, companies are assessed for having >5% of revenues derived from oil sands extraction, or 5% revenues derived from oil and gas exploration in Arctic regions, or 5% revenues derived from shale energy exploration and / or production.
Violations of UNCG principles and OECD Guidelines	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies that violate certain commonly accepted international norms and standards, such as United Nations and OECD guidelines and their underlying conventions.	

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Not applicable as the Fund has not committed to make sustainable investments.

- *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

Not applicable as the Fund has not committed to make sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies are were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the Regulation 2019/2088 (**RTS**) and two optional PAIs from Tables 2 and 3 of the Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Fund on an quarterly basis using an internally developed monitoring system and data received from the Investment Manager and the Fund's ESG data provider. Each PAI indicator was individually assessed and compared, where relevant, against an absolute or relative threshold having regard to the individual PAI indicator and underlying metric set out in the RTS.

During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31 December 2023.

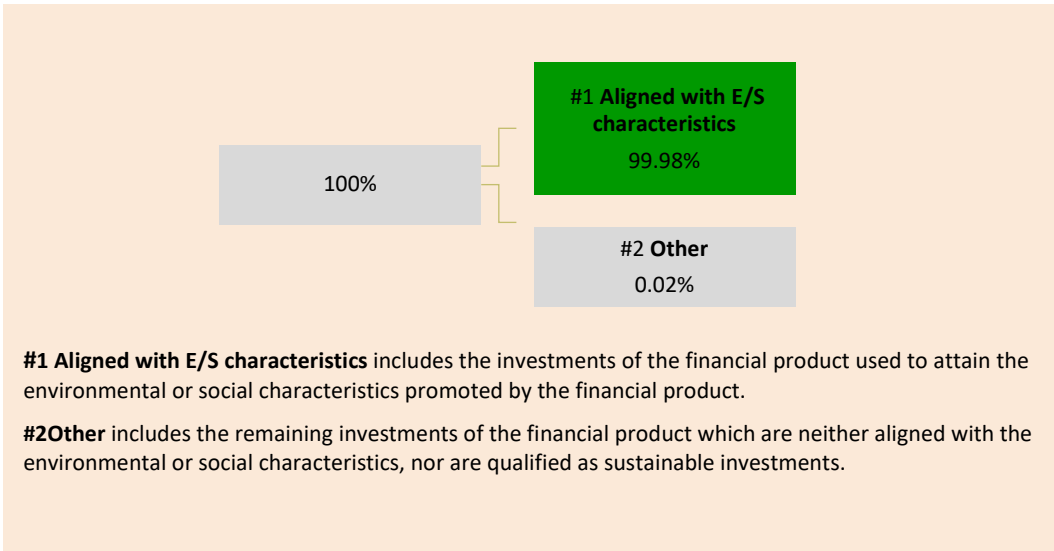

Largest investments	Sector	% Assets	Country
SentinelOne, Inc.	Software	2.35%	United States
Elastic NV	Software	2.33%	Netherlands
Crowdstrike Holdings, Inc.	Computers	2.15%	United States
UiPath, Inc.	Software	2.08%	United States
Zscaler, Inc.	Computers	2.01%	United States
Shopify, Inc.	Internet	1.82%	Canada
Gitlab, Inc.	Software	1.76%	United States
Wix.com Ltd.	Internet	1.75%	Israel
Cloudflare, Inc.	Software	1.75%	United States
Block, Inc.	Commercial Services	1.69%	United States
Qualys, Inc.	Computers	1.68%	United States
Snowflake, Inc.	Software	1.67%	United States
Sprout Social, Inc.	Software	1.64%	United States
Q2 Holdings, Inc.	Internet	1.63%	United States
Braze, Inc.	Software	1.62%	Netherlands

What was the proportion of sustainability-related investments?

Not applicable as the Fund has not committed to make sustainable investments

What was the asset allocation?

The Fund invested substantially all of its assets in the constituents of the Index. As a result, 99.98% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investment's ("#2 Not Sustainable") consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

In which economic sectors were the investments made?

Please refer to the "Schedule of Investments" included in the annual report for the ICAV for all information on the Fund's geographical and industry exposure as at 31 December 2023.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The share of investments made in transitional activities was 0% . The share of investments made in enabling activities was 0%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

During the previous reporting period ending 31 December 2022, the Fund did not make a commitment to EU Taxonomy aligned investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund’s investments were held with a view to achieving the Fund’s investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 0.02% of the Fund’s investment were in ancillary liquid assets (cash and cash equivalents), for liquidity purposes and in order to achieve its investment objective as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund’s ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UN GC Principles, the UN GPs the OECD Guidelines for Multinational Enterprises and their underlying conventions, as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index is designed to track the performance of emerging public companies primarily involved in providing cloud software and services to their customers as determined by Bessemer Venture Partners (**BVP**). To be eligible for inclusion in the Index, a company must derive the majority of its revenue from business-oriented software products via a cloud delivery or cloud economic model, and meet the revenue growth criteria.

The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here: <https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>.

● How does the reference benchmark differ from a broad market index?

The Index was designed track the performance of emerging public companies primarily involved in providing cloud software and services to their customers. The Index is also aligned with ESG factors using exclusion criteria. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into account. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Index was designed track the performance of emerging public companies primarily involved in providing cloud software and services to their customers. The Index also excluded companies based on specified ESG criteria described further above and in the Index methodology.

● How did this financial product perform compared with the reference benchmark?

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at Investment Manager's report in the annual report for the ICAV.

● How did this financial product perform compared with the broad market index?

As described above, the Index was designed by the technology market experts NASDAQ and BVP to track the performance of companies primarily involved in providing cloud software and services and, in addition, takes into account ESG considerations and applies relevant exclusions.

During the reporting period, world equities increased by 22%, the Index performed 40.1%.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<p><input checked="" type="radio"/> <input type="radio"/> Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: ____%</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: ____%</p>	<p><input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No</p> <p><input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of 18% of sustainable investments</p> <ul style="list-style-type: none"> <input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree Battery Solutions UCITS ETF (the **Fund**) promoted the environmental characteristic of reduction in carbon emissions generated, primarily, by road transportation and power production, scaling up renewable energy delivery and energy transition. The Fund promoted these characteristics by offering an investment case supporting the evolution of battery and energy storage solutions (**BESS**).

The Fund additionally promoted the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the tobacco industry and small arms sectors and companies involved in controversial weapons as well as companies which did not adhere to internationally accepted human rights, labour standards or anti-corruption principles in line with the Index methodology

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

A reference benchmark, the WisdomTree Battery Solutions Index (the **Index**) was designed for the purpose of attaining this environmental characteristic promoted by the Fund. The Index reviewed companies' involvement in BESS based on revenue exposure to BESS and an intensity rating developed by third party BESS specialists, which determined companies' alignment to the reduction

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

in carbon emissions as further described in the Index methodology. Only companies with greater than 20% revenue exposure to BESS were included in the Index

How did the sustainability indicators perform?

Sustainability indicators measure how the environmental or social characteristics promoted by the Fund are attained.

During the reporting period, the Fund observed indicators linked to individual United Nations Sustainable Development Goals (**UN SDGs**) to measure the attainment of the environmental characteristic of reduction in carbon emissions. A company's UN SDG alignment considers the most significant contributions its products and services make, which are aligned with specific targets under the UN SDG framework. Contribution towards the following UN SDGs was assessed during the reporting period based on data provided by the Fund's ESG data provider:

UN SDG 7: Affordable & Clean Energy; and
UN SDG 13: Climate Action.

During the reporting period, the weighted share of investments in the portfolio positively contributing to the above UN SDGs was 51.74% according to data provided by the Fund's ESG data provider.

Additionally, the Index applied environmental, social and governance (**ESG**) screening and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index using data provided by the Fund's ESG data provider.

Based on ESG data coverage by the Fund's ESG data provider, 96.97% of the portfolio of the Fund was aligned with the ESG and GSS screening criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or not covered by the Fund's ESG data provider.

The following sustainability indicators measured the environmental and social characteristics promoted by the Fund:

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%
Coal exposure	Percentage of the Portfolio exposed to companies which derive >5% of revenue from thermal coal extraction or >5% revenue from thermal coal-based power generation or >5% revenue from	0.00%

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

	tailor-made products and services that support thermal coal extraction.	
Exposure to companies involved in unconventional oil & gas exploration/production	Percentage of the Portfolio exposed to companies which derive >5% of revenues from unconventional oil & gas exploration/production such as oil sands, Arctic oil and gas or shale energy.	0.00%
Violations of UNGC principles and OECD Guidelines	Percentage of the Portfolio exposed to companies that are non-compliant based on the GSS assessment. GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

● **...and compared to previous periods?**

The following updates were made to the sustainability indicators for the Fund effective from market close on 8 March 2023 (the **Effective Date**):

Indicator	Previous sustainability indicator for reporting period	Updated Sustainability Indicator
Exposure to Controversial Weapons	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies having any involvement in controversial weapons.	
Exposure to Small Arms	During the previous reporting period, companies were not assessed for involvement in small arms.	Since the Effective Date, companies are assessed for having >5% of revenues derived from the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms.
Exposure to companies involved in tobacco production	During the previous reporting period, companies were assessed for involvement or owning significant shares of companies involved in tobacco production and supplying of tobacco-related products/services and where more than 10% revenue was derived from the distribution of tobacco.	Companies are assessed for involvement or ownership of significant shares of companies involved in tobacco production and supplying of tobacco-related products/services. Effective from the Effective Date, the % assessment of portfolio's exposure to companies deriving revenue from the distribution of tobacco was lowered from >10% to >5%.
Coal exposure	During the previous reporting period, companies were assessed for significant involvement in thermal coal activity, i.e., >25% of	Effective from the Effective date, the % assessment of Portfolio's exposure derived from thermal coal extraction and thermal coal power-based generation was

	revenue derived from thermal coal extraction, or >10% revenue from thermal coal-based power generation.	lowered from >25% and >10% respectively to >5%. Effective from the Effective Date, companies are assessed for >5% of revenue derived from providing tailor-made products and services to support thermal coal extraction.
Exposure to companies involved in unconventional oil & gas exploration/production	During the previous reporting period, companies were not assessed for involvement in unconventional oil and gas exploration/production.	Since the Effective Date, companies are assessed for having >5% of revenues derived from oil sands extraction, or 5% revenues derived from oil and gas exploration in Arctic regions, or 5% revenues derived from shale energy exploration and / or production.
Violations of UNGC principles and OECD Guidelines	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies that violate certain commonly accepted international norms and standards, such as United Nations and OECD guidelines and their underlying conventions.	

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The sustainable portion of the Fund's investments were in companies primarily involved in BESS which are considered to contribute to the environmental objective of climate change mitigation as business activities of companies considered sustainable investments resulted in greenhouse gas reduction, including carbon, emission reductions in transport, stationary and off-grid energy storage and other industrial applications.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

The Fund assessed the economic activities carried out by the investee companies regarded as sustainable investments against the do no significant harm (DNSH) criteria as part of the technical screening criteria (TSC) established in accordance with the EU Taxonomy. The DNSH assessment was carried out to ensure that the economic activities of the Fund's sustainable investments did not significantly harm any of the six environmental objectives of the EU Taxonomy. This assessment was undertaken on the sustainable portion of the Fund's investments as part of the TSC by the Fund's ESG data provider.

In addition to the DNSH criteria, taxonomy-aligned activities must make a substantial contribution to one of the EU Taxonomy's six environmental objectives and have minimum safeguards in place to comply with international norms and standards.

During the reporting period, third-party data was relied on for determining taxonomy-alignment. Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive). This position may change over time once reported EU Taxonomy data becomes available.

— **How were the indicators for adverse impacts on sustainability factors taken into account?**

The exclusionary criteria and GSS assessment described above to determine eligibility for inclusion in the Index excluded companies with activities that would significantly harm other environmental or social objectives. In addition, in order to be taxonomy-aligned and considered as a sustainable investment for the Fund, a company must have minimum safeguards in place, as provided for in Article 18 of the EU Taxonomy, to comply with

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

international norms and standards. This approach took account of the following indicators for PAIs (**PAI Indicators**) of investee companies based on Table 1 of Annex I of the Regulatory Technical Standards of Regulation 2019/2088 (**RTS**):

CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS

1. Exposure to companies active in the fossil fuel sector (**Table 1 PAI Indicator 4**)
2. Share of non-renewable energy consumption and production (**Table 1 PAI Indicator 5**)

INDICATORS FOR SOCIAL AND EMPLOYEE, RESPECT FOR HUMAN RIGHTS, ANTICORRUPTION AND ANTI-BRIBERY MATTERS

1. Violations of UNGCP and OECD Guidelines for Multinational Enterprises (**Table 1 PAI Indicator 10**)
2. Lack of processes and compliance mechanisms to monitor compliance with UNGCP and OECD Guidelines for Multinational Enterprises (**Table 1 PAI Indicator 11**)
3. Exposure to controversial weapons (**Table 1 PAI Indicator 14**)

In addition, the GSS categorises issues that arise for companies which are mapped to the UNGCPs (**GSS Issue Indicators**). A non-exhaustive list of the GSS Issue Indicators linked to PAIs which show no significant harm caused by the Fund's sustainable investments include energy use and greenhouse gas emissions, water use, discharges and releases, spills resulting in environmental impacts and emissions, effluents, and waste.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

As outlined above, companies are excluded from the Index that are non-compliant based the GSS assessment carried out by the Fund's ESG data provider. This assessment identifies companies that violate or are at risk of violating commonly accepted international norms and standards such as UNGC principles, which include Human Rights, Labour, Environment and Corruption considerations, UN Guiding Principles on Business and Human Rights (**UNGPs**) and OECD Guidelines for Multinational Enterprises and their underlying conventions. Companies on the UN, US and EU sanctions lists are excluded. Companies designated under the US Executive Order 13959 are also excluded from the Index. In addition, in order to be taxonomy-aligned, a company must have minimum safeguards in place provided to comply with international norms and standards in accordance with Article 18 of the EU Taxonomy.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies are were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the RTS and two optional PAIs from Tables 2 and 3 of the Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Fund on a quarterly basis using an internally developed monitoring system and data received from the Investment Manager and the Fund's ESG data provider. Each PAI indicator was individually assessed and compared, where relevant, against an absolute or relative threshold having regard to the individual PAI indicator and underlying metric set out in the RTS. During the reporting period, the Fund did not exhibit

The list includes the investments constituting the greatest proportion of investments of the financial product during the reporting period which is: 31 December 2023.

sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Bloom Energy Corp.	Machinery, Construction & Mining	4.34%	United States
Joby Aviation, Inc.	Aerospace & Defense	3.96%	United States
Archer Aviation, Inc.	Aerospace & Defense	3.82%	United States
E.ON SE	Utilities — Electric	3.41%	Germany
Bayerische Motoren Werke AG	Auto Manufacturers	3.37%	Germany
Livent Corp.	Chemicals	2.53%	United States
Siemens AG	Miscellaneous Manufacturers	2.35%	Germany
Wartsila OYJ Abp	Machinery — Diversified	2.34%	Finland
Mitsubishi Heavy Industries Ltd.	Machinery, Construction & Mining	2.21%	Japan
Ballard Power Systems, Inc.	Energy – Alternate Sources	2.02%	Canada
Alfen NV	Engineering & Construction	1.94%	Netherlands
Camel Group Co. Ltd.	Electrical Components & Equipment	1.83%	People's Republic of China
TDK Corp.	Electronics	1.74%	Japan
Qingdao TGOOD Electric Co. Ltd.	Electrical Components & Equipment	1.64%	People's Republic of China
Mineral Resources Ltd.	Iron & Steel	1.58%	Australia

What was the proportion of sustainability-related investments?

18% of Investments made by the Fund were sustainable investments based on alignment with the EU Taxonomy.

What was the asset allocation?

The Fund invested substantially all of its assets in the constituents of the Index. As a result, 96.48% of the Fund's assets aligned with the environmental and social characteristics promoted by the Fund. The remaining portion of the Fund's investment's ("#2Other") consisted of ancillary liquid assets (cash and cash equivalents) as assets for for which relevant ESG data was not available. As such, these investments were not aligned with ESG characteristics promoted by the Fund.

18% of the investments made by the Fund qualified as sustainable investments with an environmental objective and were aligned with EU Taxonomy.

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

In which economic sectors were the investments made?

Please refer to the “Schedule of Investments” included in the annual report for the ICAV for all information on the Fund’s geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Fund committed 10% it’s assets to EU Taxonomy aligned investments. However, as at 31 December 2023, the EU Taxonomy alignment figure for the Fund was 18% as reported below.

The figures below are provided by the Fund’s ESG data provider for the reporting period. Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes

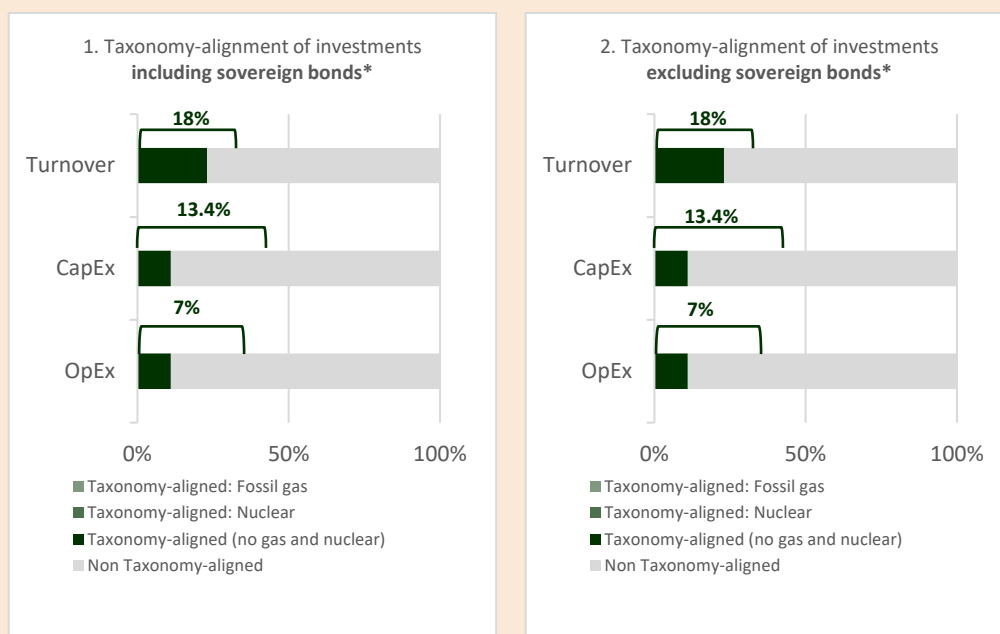

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in enabling activities was 17.4%. The share of investments made in transitional activities was 0%. The remaining 0.6% of aligned investments were own performance, meaning economic activities that make a substantial contribution to climate change mitigation based on their own performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reporting periods?**

During the previous reporting period the Fund committed 10% NAV to EU Taxonomy aligned investments. The table below shows the comparison of EU Taxonomy aligned investments as at 31 December 2023 compared to the previous reporting period ending 31 December 2022 (the "Previous Reporting Period"). Similar to the Previous Reporting Period, the majority of investments were made in enabling activities.

EU Taxonomy alignment of investments	Previous Reporting Period (31 December 2022)	Current Reporting Period (31 December 2023)
Turnover	23%	18%
CapEx	11%	13.4%
OpEx	11%	7%

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

There were no sustainable investments made by the Fund not aligned with EU Taxonomy.

What was the share of socially sustainable investments?

0%

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund’s investments were held with a view to achieving the Fund’s investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 3.52% of the Fund’s investments were in ancillary liquid assets (cash and cash equivalents), for liquidity purposes to achieve its investment objective as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund’s ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reporting period ?

During the reporting period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities outlined in the Index methodology.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UNGPs, the OECD Guidelines for Multinational Enterprises and their underlying conventions. as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the the environmental and social characteristics it promotes. The Index is designed to track the performance of companies primarily involved in BESS. The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here: <https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>.

How does the reference benchmark differ from a broad market index?

The Index was developed by WisdomTree in collaboration with third party specialists in BESS to identify companies operating across the battery value chain. A scoring process helps identify parts of the value chain that deserve a higher weight and then individual companies are also scored on the basis of their exposure to the battery theme.

The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into account. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

The Index tracked the performance of companies primarily involved in BESS. The Index also excluded companies based on specified ESG criteria further described above and in the Index methodology.

- ***How did this financial product perform compared with the reference benchmark?***

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at Investment Manager's report in the annual report for the ICAV.

● ***How did this financial product perform compared with the broad market index?***

As described above, the Index was developed in order to track the performance of publically traded companies primarily involved in BESS and, in addition, takes into account ESG considerations and applies relevant exclusions.

During the reporting period ending 31 December 2022, world equities increased by 22%, the Index performed -5.1%.

Product name: WisdomTree Cybersecurity UCITS ETF
549300S2G8DMVQ73O735

Legal entity identifier:

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Did this financial product have a sustainable investment objective?

Yes	No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree Cybersecurity UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the tobacco industry and small arms sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles in line with Index methodology.

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

WisdomTree Team8 Cybersecurity UCITS Index (the **Index**), was designed as a reference benchmark to determine whether the Fund was aligned with the environmental and social characteristics it promoted.

● *How did the sustainability indicators perform?*

During the period, the Index applied environmental, social and governance (**ESG**) and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 100% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the Fund's ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%
Coal exposure	Percentage of the Portfolio exposed to companies which derive >5% of revenue from thermal coal extraction or >5% revenue from thermal coal-based power generation or >5% revenue from tailor-made products and services that support thermal coal extraction.	0.00%
Exposure to companies involved in unconventional oil & gas exploration/production	Percentage of the Portfolio exposed to companies which derive >5% of revenues from unconventional oil & gas exploration/production such as oil sands, Arctic oil and gas or shale energy.	0.00%
Violations of UNGC principles and OECD Guidelines	Percentage of the Portfolio exposed to companies that are non-compliant based on the GSS assessment. GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

● *...and compared to previous periods?*

The following updates were made to the sustainability indicators for the Fund effective from market close on 8 March 2023 (the **Effective Date**):

Indicator	Previous sustainability indicator for reporting period	Updated Sustainability Indicator
Exposure to Controversial Weapons	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies having any involvement in controversial weapons.	
Exposure to Small Arms	During the previous reporting period, companies were not assessed for involvement in small arms.	Since the Effective Date, companies are assessed for having >5% of revenues derived from the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms.
Exposure to companies involved in tobacco production	During the previous reporting period, companies were assessed for involvement or owning significant shares of companies involved in tobacco production and supplying of tobacco-related products/services and where more than 10% revenue was derived from the distribution of tobacco.	Companies are assessed for involvement or ownership of significant shares of companies involved in tobacco production and supplying of tobacco-related products/services. Effective from the Effective Date, the % assessment of portfolio's exposure to companies deriving revenue from the distribution of tobacco was lowered from >10% to >5%.
Coal exposure	During the previous reporting period, companies were assessed for significant involvement in thermal coal activity, i.e., >25% of revenue derived from thermal coal extraction, or >10% revenue from thermal coal-based power generation.	Effective from the Effective date, the % assessment of Portfolio's exposure derived from thermal coal extraction and thermal coal power-based generation was lowered from >25% and >10% respectively to >5%. Effective from the Effective Date, companies are assessed for >5% of revenue derived from providing tailor-made products and services to support thermal coal extraction.
Exposure to companies involved in unconventional oil & gas exploration/production	During the previous reporting period, companies were not assessed for involvement in unconventional oil and gas exploration/production.	Since the Effective Date, companies are assessed for having >5% of revenues derived from oil sands extraction, or 5% revenues derived from oil and gas exploration in Arctic regions, or 5% revenues derived from shale energy exploration and / or production.
Violations of UNGC principles and OECD Guidelines	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies that violate certain commonly accepted international norms and standards, such as United Nations and OECD guidelines and their underlying conventions.	

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Not applicable as the Fund has not committed to make sustainable investments.

- *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

Not applicable as the Fund has not committed to make sustainable investments.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies are were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the regulatory technical standards of Regulation 2019/2088 (RTS) and two optional PAIs from Tables 2 and 3 of the Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Fund on an quarterly basis using an internally developed monitoring system and data received from the Investment Manager and the Fund's ESG data provider. Each PAI indicator was individually assessed and compared, where relevant, against an absolute or relative threshold having regard to the individual PAI indicator and underlying metric set out in RTS. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

What were the top investments of this financial product?

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: 31 December 2023.

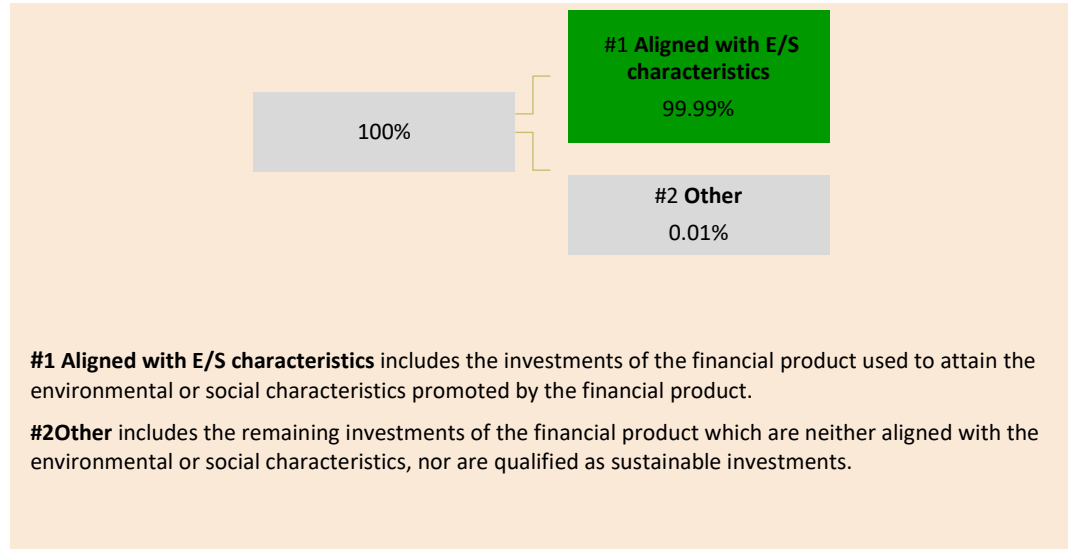

Largest investments	Sector	% Assets	Country
SentinelOne, Inc.	Software	6.67%	United States
CrowdStrike Holdings, Inc.	Computers	6.25%	United States
Elastic NV	Software	5.95%	Netherlands
Zscaler, Inc.	Computers	5.66%	United States
Cloudflare, Inc.	Software	5.46%	United States
Datadog, Inc.	Software	5.11%	United States
Varonis Systems, Inc.	Computers	5.01%	United States
Palo Alto Networks, Inc.	Internet	4.88%	United States
Rapid7, Inc.	Computers	4.80%	United States
CyberArk Software Ltd.	Computers	4.40%	Isreal
Trend Micro, Inc.	Internet	4.37%	Japan
Qualys, Inc.	Computers	4.32%	United States
Tenable Holdings, Inc.	Computers	4.28%	United States
Okta, Inc.	Internet	4.26%	United States
Akamai Technologies, Inc.	Software	3.82%	United States

● **What was the proportion of sustainability-related investments?**

Not applicable as the Fund has not committed to make sustainable investments

● **What was the asset allocation?**

The Fund invested substantially all of its assets in the constituents of the Index. As a result, 99.99% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investment's ("#2 Not Sustainable") consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

● **In which economic sectors were the investments made?**

Please refer to the "Schedule of Investments" included in the annual report for the ICAV for all information on the Fund's geographical and industry exposure as at 31 December 2023.

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments*

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

Asset allocation describes the share of investments in specific assets.

of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in transitional activities was 0% . The share of investments made in enabling activities was 0%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

During the previous reporting period ending 31 December 2022, the Fund did not make a commitment to EU Taxonomy aligned investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund’s investments were held with a view to achieving the Fund’s investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 0.01% of the Fund’s investment were in ancillary liquid assets (cash and cash equivalents) , for liquidity purposes and in order to achieve its investment objective as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund’s ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UN GPs, the OECD Guidelines for Multinational Enterprises and their underlying conventions, as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index is designed to track the performance of companies primarily involved in providing cybersecurity-oriented products. The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here:

<https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>.

● *How does the reference benchmark differ from a broad market index?*

The Index was developed by WisdomTree in collaboration with third party specialists in the cybersecurity sector to identify companies primarily involved in providing cybersecurity-oriented products. The Index utilises a focus score which is developed by WisdomTree in collaboration with third party specialists in the cyber security sector, which captures the perceived degree of a company's overall involvement across development themes in cyber security. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into account. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

The Index tracked the performance of companies primarily involved in providing cybersecurity-oriented products. The Index also excluded companies based on specified ESG criteria described above and set out in the Index methodology.

● *How did this financial product perform compared with the reference benchmark?*

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at Investment Manager's report in the annual report for the ICAV.

● *How did this financial product perform compared with the broad market index?*

As described above, the Index was developed in order to track the performance of companies primarily involved in providing cybersecurity-oriented products and, in addition, takes into account ESG considerations and applies relevant exclusions.

During the reporting period, world equities increased by 22.2%, the Index performed 66.5%.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree Emerging Markets ex-State-Owned Enterprises UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the of , tobacco industry and small arm sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles. In line with the Index methodology,

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

WisdomTree Emerging Markets ex-State-Owned Enterprises ESG Screened Index (the **Index**), was designated as a reference benchmark to determine whether the Fund was aligned with the social and environmental it promoted.

● **How did the sustainability indicators perform?**

During the period, the Index applied environmental, social and governance (**ESG**) and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 99.06% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%
Coal exposure	Percentage of the Portfolio exposed to companies which derive >5% of revenue from thermal coal extraction or >5% revenue from thermal coal-based power generation or >5% revenue from tailor-made products and services that support thermal coal extraction.	0.00%
Exposure to companies involved in unconventional oil & gas exploration/production	Percentage of the Portfolio exposed to companies which derive >5% of revenues from unconventional oil & gas exploration/production such as oil sands, Arctic oil and gas or shale energy.	0.00%
Violations of UNGC principles and OECD Guidelines	Percentage of the Portfolio exposed to companies that are non-compliant based on the GSS assessment. GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **...and compared to previous periods?**

The following updates were made to the sustainability indicators for the Fund effective from market close on 8 March 2023 (the Effective Date):

Indicator	Previous sustainability indicator for reporting period	Updated Sustainability Indicator
Exposure to Controversial Weapons		The Index has continued to ensure that the Portfolio has 0.00% exposure to companies having any involvement in controversial weapons.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Exposure to Small Arms	During the previous reporting period, companies were not assessed for involvement in small arms.	Since the Effective Date, companies are assessed for having >5% of revenues derived from the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms.
Exposure to companies involved in tobacco production	During the previous reporting period, companies were assessed for involvement or owning significant shares of companies involved in tobacco production and supplying of tobacco-related products/services and where more than 10% revenue was derived from the distribution of tobacco.	Companies are assessed for involvement or ownership of significant shares of companies involved in tobacco production and supplying of tobacco-related products/services. Effective from the Effective Date, the % assessment of portfolio's exposure to companies deriving revenue from the distribution of tobacco was lowered from >10% to >5%.
Coal exposure	During the previous reporting period, companies were assessed for significant involvement in thermal coal activity, i.e., >25% of revenue derived from thermal coal extraction, or >10% revenue from thermal coal-based power generation.	Effective from the Effective date, the % assessment of Portfolio's exposure derived from thermal coal extraction and thermal coal power-based generation was lowered from >25% and >10% respectively to >5%. Effective from the Effective Date, companies are assessed for >5% of revenue derived from providing tailor-made products and services to support thermal coal extraction.
Exposure to companies involved in unconventional oil & gas exploration/production	During the previous reporting period, companies were not assessed for involvement in unconventional oil and gas exploration/production.	Since the Effective Date, companies are assessed for having >5% of revenues derived from oil sands extraction, or 5% revenues derived from oil and gas exploration in Arctic regions, or 5% revenues derived from shale energy exploration and / or production.
Violations of UNGC principles and OECD Guidelines	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies that violate certain commonly accepted international norms and standards, such as United Nations and OECD guidelines and their underlying conventions.	

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable as the Fund has not committed to make sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable as the Fund has not committed to make sustainable investments.

— **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the Regulatory Technical Standards of Regulation (EU) 2018/2088 (RTS) and two optional PAIs from Tables 2 and 3 of Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Funds on a quarterly basis using an internally developed monitoring system and tailored dataset received from the Investment Manager and the Fund’s ESG data provider. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Taiwan Semiconductor Manufacturing Co. Ltd.	Semiconductors	7.22%	Taiwan
Samsung Electronics Co. Ltd.	Semiconductors	4.75%	South Korea
Alibaba Group Holding Ltd.	Internet	2.96%	China
HDFC Bank Ltd.	Banks	2.21%	India
Reliance Industries Ltd.	Oil & Gas	2.09%	India
Al Rajhi Bank	Banks	2.04%	Saudi
PDD Holdings, Inc.	Internet	1.74%	China
ICICI Bank Ltd.	Banks	1.19%	India
Infosys Ltd.	Computers	1.18%	India
Bank Central Asia Tbk. PT	Banks	0.97%	Indonesia
Meituan	Internet	0.89%	China

NetEase, Inc.
Bharti Airtel Ltd.
SK Hynix, Inc.

Software 0.86%
Telecommunications 0.84%
Semiconductors 0.83%

China
Indonesia
South Korea

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31 December 2023.

● **What was the proportion of sustainability-related investments?**

Not applicable as the Fund has not committed to make sustainable investments.

What was the asset allocation?

The Fund invested substantially all of its assets in the constituents of the Index. 98.57% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investments (**#2 Not Sustainable**) consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

● **In which economic sectors were the investments made?**

Please refer to the "Schedule of Investments" included in the annual report for the ICAV for all information on the Fund's geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund's investment strategy and promotion of environmental and social characteristics. The EU Taxonomy alignment figures are based on figures provided by the Fund's ESG data provider.

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

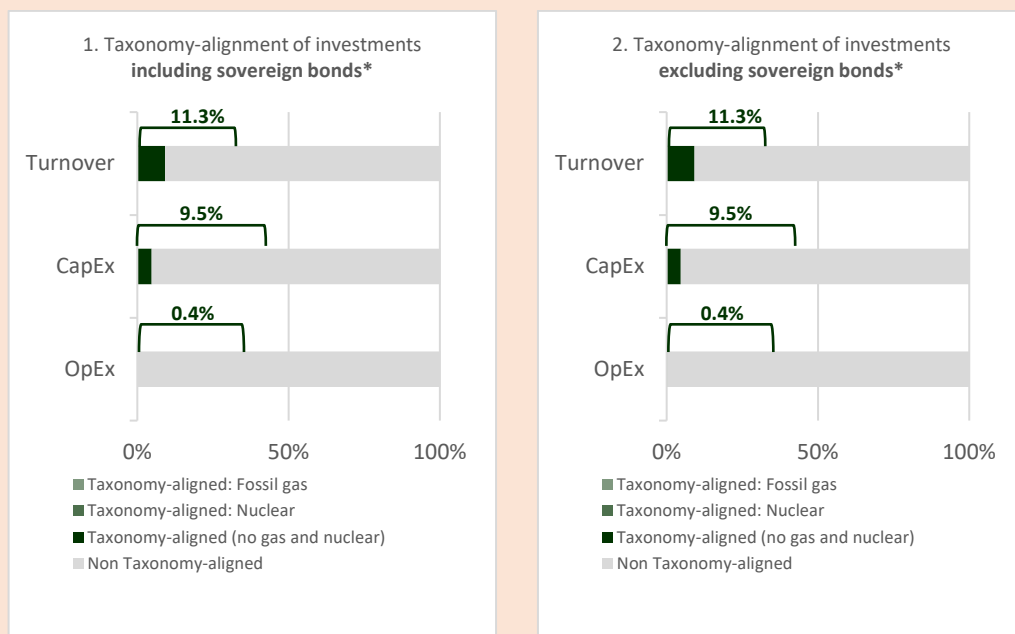

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes
- In fossil gas
- In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in transitional activities was 0%. The share of investments made in enabling activities was 10.8%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

During the previous reporting period ending 31 December 2022, the Fund did not make a commitment to EU Taxonomy aligned investments. As at 31 December 2023, the share of incidental EU Taxonomy-aligned investments was slightly higher compared with the previous reporting period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund’s investments were held with a view to achieving the Fund’s investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 1.43% of the Fund’s investments were in ancillary liquid assets (cash and cash equivalents) for liquidity purposes as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund’s ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index is comprised of emerging market stocks that are not state-owned enterprises. State owned enterprises are defined as government ownership of more than 20% of a company’s shares outstanding. The Index also excludes companies based on specified ESG criteria outlined above.

Further information on the methodology used for the calculation of the designated index can be found here: <https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>.

● **How does the reference benchmark differ from a broad market index?**

The Index is a proprietary WisdomTree index and invests in 17 emerging markets with less than 20% government shares outstanding which are eligible for inclusion in the Index as detailed in the index methodology. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into account.

Companies that were non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund invested in emerging market stocks that are not state-owned enterprises which are eligible for inclusion in the Index. The Index also excluded companies based on specified ESG criteria.

● **How did this financial product perform compared with the reference benchmark?**

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at the Investment Manager’s report in the annual report for the ICAV.

● **How did this financial product perform compared with the broad market index?**

As described above, the Index is fundamentally weighted and is comprised of companies from emerging market nations with less than 20% government ownership, selected based on eligibility requirements detailed in the Index methodology and controlling for tracking error and other risk factors.

During the reporting period, world equities increased by 22% the Index performed 10.7%.

Product name: WisdomTree BioRevolution UCITS ETF
549300UNUUR43K7JTD25

Legal entity identifier:

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="checkbox"/> Yes	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree BioRevolution UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the tobacco industry and small arms sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles in line with the Index methodology.

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

WisdomTree BioRevolution ESG Screened Index (the **Index**) was designed as a reference benchmark to determine whether the Fund was aligned with the environmental and social characteristics it promoted.

How did the sustainability indicators perform?

During the period, the Index applied exclusionary environmental, social and governance ("**ESG**") screening and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 100% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology	0.00%
Coal exposure	Percentage of the Portfolio exposed to companies which derive >5% of revenue from thermal coal extraction or >5% revenue from thermal coal-based power generation or >5% revenue from tailor-made products and services that support thermal coal extraction	0.00%
Exposure to companies involved in unconventional oil & gas exploration/production	Percentage of the Portfolio exposed to companies which derive >5% of revenues from unconventional oil & gas exploration/production such as oil sands, Arctic oil and gas or shale energy.	0.00%
Violations of UNGC principles and OECD Guidelines	Percentage of the Portfolio exposed to companies that are non-compliant based on the GSS assessment. GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● **...and compared to previous periods?**

The following updates were made to the sustainability indicators for the Fund effective from 8 March 2023 (the Effective Date):

Indicator	Previous sustainability indicator for reporting period	Updated Indicator	Sustainability

Exposure to Controversial Weapons	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies having any involvement in controversial weapons.	
Exposure to Small Arms	During the previous reporting period, companies were not assessed for involvement in small arms.	Since the Effective Date, companies are assessed for having >5% of revenues derived from the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms.
Exposure to companies involved in tobacco production	During the previous reporting period, companies were assessed for involvement or owning significant shares of companies involved in tobacco production and supplying of tobacco-related products/services and where more than 10% revenue was derived from the distribution of tobacco.	Companies are assessed for involvement or ownership of significant shares of companies involved in tobacco production and supplying of tobacco-related products/services. Effective from the Effective Date, the % assessment of portfolio's exposure to companies deriving revenue from the distribution of tobacco was lowered from >10% to >5%.
Coal exposure	During the previous reporting period, companies were assessed for significant involvement in thermal coal activity, i.e., >25% of revenue derived from thermal coal extraction, or >10% revenue from thermal coal-based power generation.	Effective from the Effective date, the % assessment of Portfolio's exposure derived from thermal coal extraction and thermal coal power-based generation was lowered from >25% and >10% respectively to >5%. Effective from the Effective Date, companies are assessed for >5% of revenue derived from providing tailor-made products and services to support thermal coal extraction.
Exposure to companies involved in unconventional oil & gas exploration/production	During the previous reporting period, companies were not assessed for involvement in unconventional oil and gas exploration/production.	Since the Effective Date, companies are assessed for having >5% of revenues derived from oil sands extraction, or 5% revenues derived from oil and gas exploration in Arctic regions, or 5% revenues derived from shale energy exploration and / or production.
Violations of UNGC principles and OECD Guidelines	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies that violate certain commonly accepted international norms and standards, such as United Nations and OECD guidelines and their underlying conventions.	

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable as the Fund has not committed to make sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable as the Fund has not committed to make sustainable investments.

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the Regulatory Technical Standards of Regulation (EU) 2018/2088 (RTS) and two optional PAIs from Tables 2 and 3 of the Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Fund on a quarterly basis using an internally developed monitoring system and dataset received from the Investment Manager and the Fund’s ESG data provider. Each PAI indicator was individually assessed and compared, where relevant, against an absolute or relative threshold having regard to the individual PAI indicator and underlying metric set out in the RTS.

During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Twist Bioscience Corp.	Pharmaceuticals	3.29%	United States
Bridgebio Pharma. Inc	Pharmaceuticals	2.34%	United States

Blueprint Medicines Corp.	Pharmaceuticals	2.24%	United States
Iovance Biotherapeutics, Inc.	Pharmaceuticals	2.00%	United States
Schrodinger, Inc.	Software	1.79%	United States
Editas Medicine, Inc.	Pharmaceuticals	1.63%	United States
Amicus Therapeutics, Inc.	Pharmaceuticals	1.61%	United States
Ginkgo Bioworks Holdings, Inc.	Healthcare Services	1.57%	United States
Fate Therapeutics, Inc.	Pharmaceuticals	1.52%	United States
Ultragenyx Pharmaceutical, Inc.	Pharmaceuticals	1.47%	United States
Veracyte, Inc.	Pharmaceuticals	1.46%	United States
Natera, Inc.	Healthcare Products	1.44%	United States
Eli Lilly & Co.	Pharmaceuticals	1.43%	United States
Ionis Pharmaceuticals, Inc.	Pharmaceuticals	1.43%	United States
Arcturus Therapeutics Holdings, Inc.	Pharmaceuticals	1.42%	United States

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31 December 2023.

What was the proportion of sustainability-related investments?

Not applicable as the Fund has not committed to make sustainable investments.

What was the asset allocation?

The Fund invested substantially all of its assets in the constituents of the Index. As a result, 99.65% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investment's ("#2 Not Sustainable") consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

Asset allocation describes the share of investments in specific assets.

In which economic sectors were the investments made?

Please refer to the "Schedule of Investments" included in the annual report for the ICAV for all information on the Fund's geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments.

contribution to an environmental objective.

Transitional activities are activities for which low-carbon

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

Taxonomy-aligned activities are expressed as a share of:

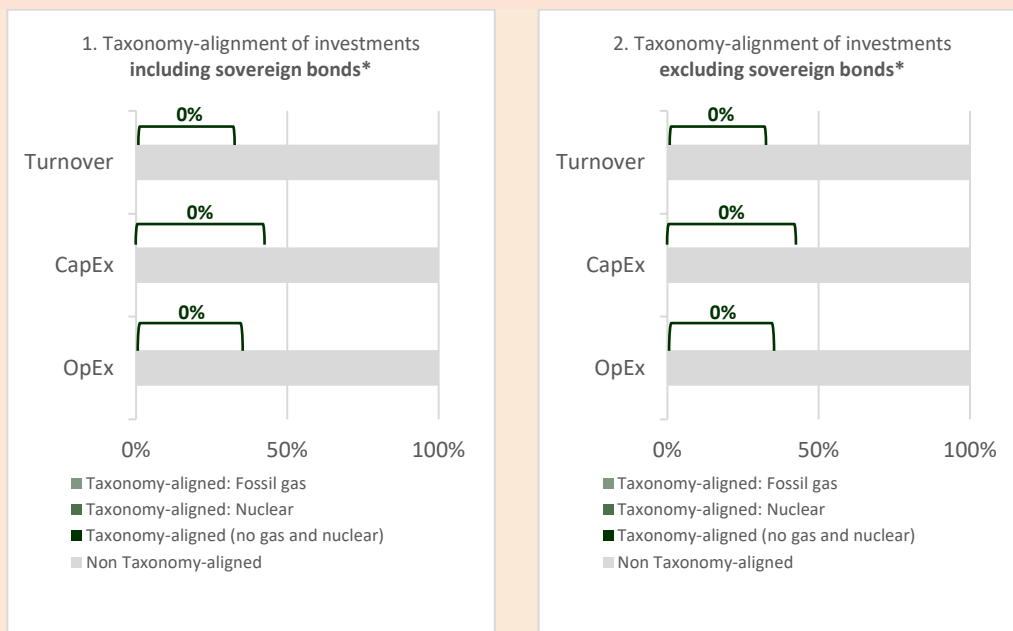

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes: In fossil gas In nuclear energy

No:

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

What was the share of investments made in transitional and enabling activities?

The share of investments made in transitional activities was 0%. The share of investments made in enabling activities was 0%.

How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

During the previous reporting period ending 31 December 2022, the Fund did not make a commitment to EU Taxonomy aligned investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund’s investments were held with a view to achieving the Fund’s investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 0.35% of the Fund’s investment were in ancillary liquid assets (cash and cash equivalents), for liquidity purposes and in order to achieve its investment objective as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund’s ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities outlined in the Index methodology.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions. as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index is designed to track the performance of a global investable universe of companies involved in BioRevolution activities. "BioRevolution" refers to a confluence of advances in biological science and accelerating development of computing, automation and artificial intelligence which is fueling a new wave of innovation in the genetics and biotechnology sectors . The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here: <https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>.

● How does the reference benchmark differ from a broad market index?

The Index was developed by WisdomTree to identify companies primarily involved in BioRevolution activities. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into account. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Index tracked the performance of companies primarily involved in BioRevolution technologies. The Index also excluded companies based on specified ESG criteria further described above and in the Index methodology.

● How did this financial product perform compared with the reference benchmark?

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at Investment Manager’s report in the annual report for the ICAV.

● How did this financial product perform compared with the broad market index?

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

As described above, the Index was developed by WisdomTree in collaboration with third party specialists in the genetics and biotechnology sectors. The Index is designed to measure the performance of a global investable universe of companies involved in BioRevolution activities and, in addition, takes into account ESG considerations and applies relevant exclusions.

During the reporting period, world equities increased by 22.2%, the Index performed -2.4%.

Product name: WisdomTree New Economy Real Estate UCITS ETF
Legal entity identifier: 549300NMYQRKRY5T0P51

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree New Economy Real Estate UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the of , tobacco industry and small arm sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles. In line with the Index methodology,

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

CenterSquare New Economy Real Estate UCITS Index (the **Index**), was designated as a reference benchmark to determine whether the Fund was aligned with the social and environmental it promoted.

● **How did the sustainability indicators perform?**

During the period, the Index applied environmental, social and governance (**ESG**) and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 100% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%
Coal exposure	Percentage of the Portfolio exposed to companies which derive >5% of revenue from thermal coal extraction or >5% revenue from thermal coal-based power generation or >5% revenue from tailor-made products and services that support thermal coal extraction.	0.00%
Exposure to companies involved in unconventional oil & gas exploration/production	Percentage of the Portfolio exposed to companies which derive >5% of revenues from unconventional oil & gas exploration/production such as oil sands, Arctic oil and gas or shale energy.	0.00%
Violations of UNGC principles and OECD Guidelines	Percentage of the Portfolio exposed to companies that are non-compliant based on the GSS assessment. GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

● **...and compared to previous periods?**

The following updates were made to the sustainability indicators for the Fund effective from market close on 17 March 2023 (the Effective Date):

Indicator	Previous sustainability indicator for reporting period	Updated Sustainability Indicator
Exposure to Controversial Weapons		The Index has continued to ensure that the Portfolio has 0.00% exposure to companies having any involvement in controversial weapons.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Exposure to Small Arms	During the previous reporting period, companies were not assessed for involvement in small arms.	Since the Effective Date, companies are assessed for having >5% of revenues derived from the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms.
Exposure to companies involved in tobacco production	During the previous reporting period, companies were assessed for involvement or owning significant shares of companies involved in tobacco production and supplying of tobacco-related products/services and where more than 10% revenue was derived from the distribution of tobacco.	Companies are assessed for involvement or ownership of significant shares of companies involved in tobacco production and supplying of tobacco-related products/services. Effective from the Effective Date, the % assessment of portfolio's exposure to companies deriving revenue from the distribution of tobacco was lowered from >10% to >5%.
Coal exposure	During the previous reporting period, companies were assessed for significant involvement in thermal coal activity, i.e., >25% of revenue derived from thermal coal extraction, or >10% revenue from thermal coal-based power generation.	Effective from the Effective date, the % assessment of Portfolio's exposure derived from thermal coal extraction and thermal coal power-based generation was lowered from >25% and >10% respectively to >5%. Effective from the Effective Date, companies are assessed for >5% of revenue derived from providing tailor-made products and services to support thermal coal extraction.
Exposure to companies involved in unconventional oil & gas exploration/production	During the previous reporting period, companies were not assessed for involvement in unconventional oil and gas exploration/production.	Since the Effective Date, companies are assessed for having >5% of revenues derived from oil sands extraction, or 5% revenues derived from oil and gas exploration in Arctic regions, or 5% revenues derived from shale energy exploration and / or production.
Violations of UNGC principles and OECD Guidelines	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies that violate certain commonly accepted international norms and standards, such as United Nations and OECD guidelines and their underlying conventions.	

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable as the Fund has not committed to make sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable as the Fund has not committed to make sustainable investments.

— **How were the indicators for adverse impacts on sustainability factors taken into account?**

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the Regulatory Technical Standards of Regulation (EU) 2018/2088 (RTS) and two optional PAIs from Tables 2 and 3 of Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Funds on a quarterly basis using an internally developed monitoring system and tailored dataset received from the Investment Manager and the Fund’s ESG data provider. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Ventas, Inc.	Real Estate Investment Trusts	5.83%	United States
Goodman Group	Real Estate Investment Trusts	5.49%	Australia
Iron Mountain, Inc.	Real Estate Investment Trusts	5.33%	United States
Cellnex Telecom SA	Engineering & Construction	5.05%	Spain
American Tower Corp.	Real Estate Investment Trusts	4.70%	United States
Crown Castle, Inc.	Real Estate Investment Trusts	4.57%	United States
Prologis, Inc.	Real Estate Investment Trusts	4.29%	United States
SBA Communications Corp.	Real Estate Investment Trusts	4.27%	United States

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Alexandria Real Estate Equities, Inc.	Real Estate Investment Trusts	4.15%	United States
Equinix, Inc.	Real Estate Investment Trusts	4.08%	United States
Digital Realty Trust, Inc.	Real Estate Investment Trusts	4.08%	United States
Segro PLC	Real Estate Investment Trusts	4.02%	United Kingdom
Airbnb, Inc.	Internet	3.67%	United States
Rexford Industrial Realty, Inc.	Real Estate Investment Trusts	3.37%	United States
Healthpeak Properties, Inc.	Real Estate Investment Trusts	3.16%	United States

What was the proportion of sustainability-related investments?

Not applicable as the Fund has not committed to make sustainable investments.

What was the asset allocation?

The Fund invested substantially all of its assets in the constituents of the Index. 99.60% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investments (**#2 Not Sustainable**) consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

Asset allocation describes the share of investments in specific assets.

In which economic sectors were the investments made?

Please refer to the “Schedule of Investments” included in the annual report for the ICAV for all information on the Fund's geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund's investment strategy and promotion of environmental and social

characteristics. The EU Taxonomy alignment figures are based on figures provided by the Fund's ESG data provider.

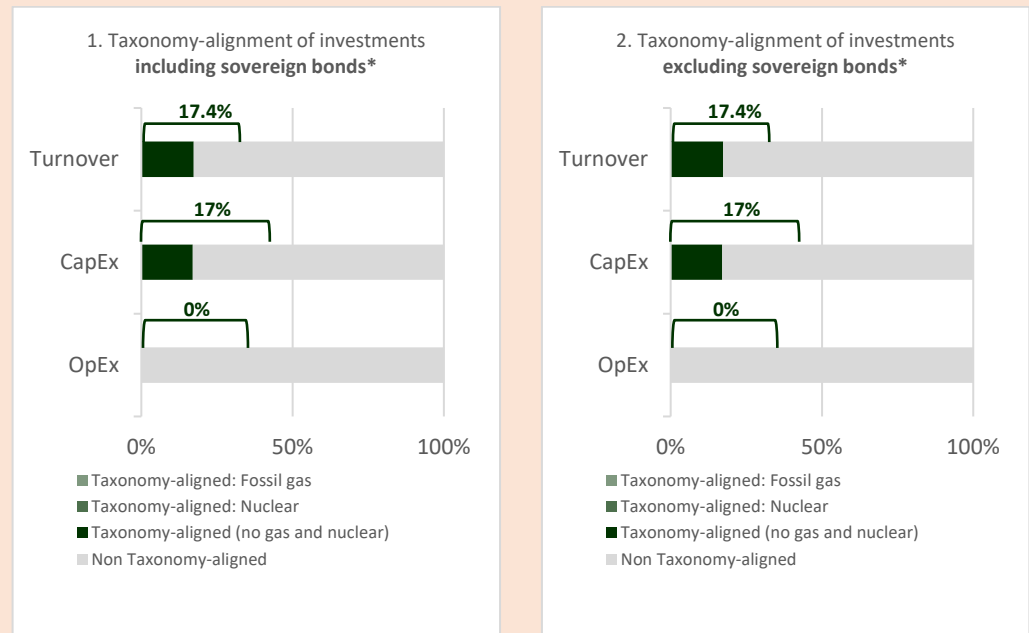

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes
 - In fossil gas
 - In nuclear energy
- No

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in transitional activities was 0%. The share of investments made in enabling activities was 0%. 13.4% of aligned investments were own performance, meaning economic activities that make a substantial contribution to climate change mitigation based on their own performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund’s investments were held with a view to achieving the Fund’s investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 0.40% of the Fund’s investments were in ancillary liquid assets (cash and cash equivalents) for liquidity purposes as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund’s ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index is designed to measure the performance of global real estate companies that have exposure to technology, science and/or e-commerce related business activities. The Index also excludes companies based on specified ESG criteria outlined above.

Further information on the methodology used for the calculation of the designated index can be found here: <https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>.

● **How does the reference benchmark differ from a broad market index?**

The Index was developed by CenterSquare Investment Management (CenterSquare). The Index is designed to track the performance of real estate companies meeting eligibility requirements consisting of 1) ESG screening and 2) material direct and/or indirect exposure to technology, sciences and/or ecommerce related business models, industry sectors and/or geographies. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into account.

Companies that were non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund invested in emerging market stocks that are not state-owned enterprises which are eligible for inclusion in the Index. The Index also excluded companies based on specified ESG criteria.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● ***How did this financial product perform compared with the reference benchmark?***

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at the Investment Manager's report in the annual report for the ICAV.

● ***How did this financial product perform compared with the broad market index?***

As described above, the Index was designed by CenterSquare, a real asset manager focused on listed real estate, private equity real estate and private real estate debt to measure the performance of global real estate companies that have exposure to technology, science and/or e-commerce related business activities and, in addition applies ESG exclusionary criteria.

During the reporting period, world equities increased by 22.2%, the Index performed 14.1%.

Periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: WisdomTree Recycling Decarbonisation UCITS ETF **Legal entity identifier:** 549300MZ5FX2KHX08D48

Sustainable investment objective

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Did this financial product have a sustainable investment objective?	
<p><input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> Yes</p> <p><input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 96.71 %</p> <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <p><input type="checkbox"/> It made sustainable investments with a social objective: 0%</p>	<p><input type="radio"/> <input type="radio"/> <input type="checkbox"/> No</p> <p><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments</p> <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <p><input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

To what extent was the sustainable investment objective of this financial product met?

WisdomTree Recycling Decarbonisation UCITS ETF (the **Fund**) has a sustainable investment objective of investing in businesses related to waste-to-energy and recycling which contributes to environmental objectives of climate change mitigation and circular economy. Waste-to-energy activities include waste disposal processes used to generate energy from waste such as garbage, animal manure, products and/or animal fats. This process generates clean energy and has a positive effect on energy-related greenhouse gases. In addition, recycling activities include plastics recycling which helps prevent, amongst others, ocean plastic pollution.

In order to achieve the Fund's sustainable investment objective, the Tortoise Recycling Decarbonization UCITS Index (the **Index**) was designated as a reference benchmark.

The screening and selection criteria implemented by the Index ensured that the sustainable investment objective of the Fund was met during the reporting period. The Index only included companies from eligible Global Industry Classification Standard (**GICS**) sub-industries which derived at least 20% of revenue, or operating profit, or own assets, or 20% of the company's capital expenditure is in decarbonising waste management and recycling related businesses. The tiered screen applied by the Index reviewed companies' involvement in the waste-to-energy and recycling activities and emissions data to evaluate emissions avoided. Additionally, the tiered weighting approach overweights companies with higher exposure to waste-to energy and recycling activities and companies with zero or negative reported carbon emissions.

How did the sustainability indicators perform?

Sustainability indicators measured how the sustainable objective of the Fund was attained.

During the reporting period, the Fund observed indicators linked to individual United Nations Sustainable Development Goals (**UN SDGs**) to measure the attainment of the environmental

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

objectives of climate change mitigation and circular economy. A company's UN SDG alignment considers the most significant contributions its products and services make, which are aligned with specific targets under the UN SDG framework. Contribution towards the following UN SDGs was assessed during the reporting period based on data provided by the Fund's ESG data provider:

UN SDG 13: Climate Action (to measure climate change mitigation); and
UN SDG 14: Life Below Water (to measure circular economy).

During the reporting period, the weighted share of investments in the portfolio of the Fund that positively contributing to the above UN SDGs was 44.96% according to data provided by the Fund's ESG data provider.

Additionally, the following business activities were selected as sustainability indicators for the Fund.

Business Activity	Measure of involvement	Mininum Threshold	Performance (as at 31 December 2023)
Waste-to-Energy business activities	Revenue, operating profit, assets, capital expenditures	20%	49% of the Fund's investments were in Waste-to-Energy business activities including production of renewable natural gas and renewable diesel.
Recycling Business Activities			51% of the Fund's investments were in recycling business activities such as glass, paper and cardboard recycling as well as recycling plastics into original materials such as polypropylene for re-use.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

● **...and compared to previous periods?**

The net asset value (NAV) figures in the below table represent ex-cash percentages of the Fund's NAV in business activities selected as sustainability indicators compared to the pervious reporting period ending 31 December 2022.

Sustainability Indicator	2022	2023
Percentage NAV of the Fund invested in companies involved in waste-to-energy business activities.	51.5%	49%
Percentage NAV of the Fund invested in companies involved in recycling business Activities	48.5%	51%

The Fund's portfolio exhibited positive revenue alignment to the UN SDGs during the period as described in further detail above.

● **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

The Fund assessed the economic activities carried out by investee companies regarded as sustainable investments for the do no significant harm (DNSH) criteria under article 2(17) of

Regulation 2019/2088 (**SFDR**). The DNSH assessment was carried out as part of the screening and selection criteria implemented by the Index methodology described further below.

1. During the reporting period, the Index applied a tiered screening approach which included a review of companies' carbon emissions data reported in a company's most recent annual or quarterly report and/or sustainability report (as assessed by the Index Provider).
2. The Index excluded investment in companies significantly involved in the high emitting greenhouse gas emitting sector of thermal coal activity and unconventional oil and gas production and tobacco and small arms sectors as well as companies involved in controversial weapons in line with the Index methodology.
3. In addition, the Index excluded companies that violated or were at risk of causing or contributing to severe negative environmental, social or governance (**ESG**) impacts based on the Global Standards Screening (**GSS**) assessment carried out by the Fund's ESG data provider. The UN Global Compact Principles (**UN GCPs**) formed part of the GSS assessment and included Human Rights, Labour, Environment and Corruption considerations. The aim of the UNGCPs environmental considerations (list non-exhaustive) is for the companies to undertake initiatives to promote greater environmental responsibility and encourage the development and diffusion of environmentally friendly technologies. The primary aim of the UNGCPs is to avoid companies causing severe or irreversible harm to the public or the environment.

How were the indicators for adverse impacts on sustainability factors taken into account?

The tiered screening approach, exclusionary criteria and GSS assessment described above to determine eligibility for inclusion in the Index excluded companies with activities that would significantly harm other environmental or social objectives. This approach took account of the following indicators for principal adverse impacts (**PAI Indicators**) of investee companies based on Table 1 of Annex I of the Regulatory Technical Standards underpinning SFDR (**RTS**):

CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS

1. Greenhouse Gas (GHG) Emissions (**Table 1 PAI 1**)
2. Exposure to companies active in the fossil fuel sector (**Table 1 PAI Indicator 4**)
3. Share of non-renewable energy consumption and production (**Table 1 PAI Indicator 5**)

INDICATORS FOR SOCIAL AND EMPLOYEE, RESPECT FOR HUMAN RIGHTS, ANTICORRUPTION AND ANTI-BRIBERY MATTERS

1. Violations of UNGCP and OECD Guidelines for Multinational Enterprises (**Table 1 PAI 10**)
2. Lack of processes and compliance mechanisms to monitor compliance with UNGCP and OECD Guidelines for Multinational Enterprises (**Table 1 PAI Indicator 11**)
3. Exposure to controversial weapons (**Table 1 PAI Indicator 14**)

The GSS categorises issues that arise for companies are mapped to the UNGCPs (**GSS Issue Indicators**). A non-exhaustive list of the GSS Issue Indicators linked to PAIs which show no harm to the Fund's sustainable investment objective include energy use and greenhouse gas emissions, water use, discharges and releases, spills resulting in environmental impacts and emissions, effluents, and waste.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Index excluded companies based on the GSS assessment. This assessment identifies companies that violate, or are at risk of violating, commonly accepted international norms and standards such as UNGCPs, which include UN Guiding Principles on Business and Human Rights (**UNGPs**) and OECD Guidelines for Multinational Enterprises and their underlying conventions. Companies on the UN, US and EU sanctions lists are excluded. Companies designated under the US Executive Order 13959: which goal is 'Addressing the Threat from Securities Investments That Finance Communist Chinese Military Companies' are also excluded from the Index.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies are were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the RTS and two optional PAIs from Tables 2 and 3 of the Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Fund on a quarterly basis using an internally developed monitoring system and tailored dataset received from the Investment Manager and the Fund's ESG data provider. Each PAI indicator was individually assessed and compared, where relevant, against an absolute or relative threshold having regard to the individual PAI indicator and underlying metric set out in RTS.

During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

Vertex Energy, Inc.	Oil & Gas	2.87%	United States
Sao Martinho SA	Energy – Alternate Sources	2.76%	Brazil

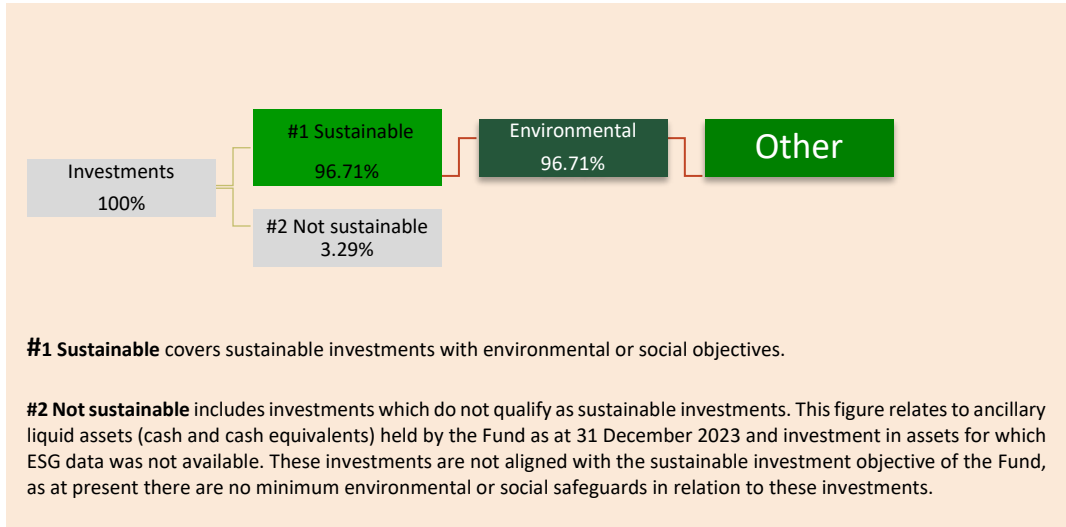

What was the proportion of sustainability-related investments?

● What was the asset allocation?

The Fund invested substantially all of its assets in the constituents of the Index. As a result, 96.71% of the Fund's assets aligned with the sustainable investment objective of the Fund as at 31 December 2023. The remaining portion of the Fund's investments (**#2 Not Sustainable**) consisted of ancillary liquid assets (cash and cash equivalents) and investemnet in assets for which relevant ESG data was not available or not covered by the Fund's ESG data provider. As such, these investments were not aligned with sustainable investment objective of the Fund.

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is at 31 December 2023.

96.71% of the investments made by the Fund qualified as sustainable investments with an environmental objective under article 2(17) SFDR.

In which economic sectors were the investments made?

Please refer to the “Schedule of Investments” included in the annual report for the ICAV for all information on the Fund’s geographical and industry exposure as at 31 December 2023.

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund’s investment strategy and sustainable investment objective of the Fund. The EU Taxonomy alignment figures are based on figures provided by the Fund’s ESG data provider.

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

**For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures*

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

- **What was the share of investments made in transitional and enabling activities?** During the reporting period, the Fund did not make a commitment to make EU Taxonomy aligned investments. However, the incidental share of investments made in enabling activities was 0.3%. The share of investments made in transitional activities was 0%.
- **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**

During the previous reporting period ending 31 December 2022, the Fund did not make a commitment to EU Taxonomy aligned investments. The percentage of incidental investments in EU Taxonomy aligned investments at 31 December 2023 was higher compared with the previous reference period.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

96.71% of the Fund's investments were sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The Fund did not intend to make a minimum allocation to sustainable economic activities that contribute to a social objective. As at 31 December 2023, the share of the Fund's sustainable investments that contribute to a social objective was 0.00%.

What investments were included under "not sustainable", what was their purpose and were there any minimum environmental or social safeguards?

In addition to making sustainable investments, 3.29% of the Fund's investments were in ancillary liquid assets (cash and cash equivalents), for liquidity purposes to achieve its investment objectives as permitted under the UCITS Regulations and in assets for which ESG data was not available or assets not covered by the Fund's ESG data provider. At present, there are no minimum environmental or social safeguards in relation to ancillary liquid assets

What actions have been taken to attain the sustainable investment objective during the reference period?

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

During the reporting period, investments were made by the Fund under the condition of meeting the screening and selection criteria applied by the Index which ensured that all investments made by the Fund were sustainable under article 2(17) SFDR. Companies were selected for investment based on their involvement in waste-to-energy and recycling related activities and weighted based on their carbon emission reporting status.

Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or excluded based on certain revenue thresholds derived from these activities detailed in the Index methodology.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identified and excluded companies that violated or were at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, UNGPs, the OECD Guidelines for Multinational Enterprises and their underlying conventions as set out in the methodology for the Index.

How did this financial product perform compared to the reference sustainable benchmark?

The Index has been designated as a reference benchmark for the purpose of supporting the sustainable investment objective of the Fund. The Index is designed to track the performance of publicly traded companies involved in waste-to-energy and recycling technologies. The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the Index can be found here: <https://tortoiseecofin.com/expertise/indices/tortoise-recycling-decarbonization-ucits-index-recycle/>

● **How did the reference benchmark differ from a broad market index?**

The Index was developed by a third-party index provider which specialises in assets and services that are indispensable to the economy, environment and society. The Index identifies companies involved in waste-to-energy and recycling technologies. The Index provider classifies potential constituents based on their exposure to waste-to-energy and recycling activities as well as company-reported emissions data. The Index methodology includes the GSS process described above and takes ESG considerations into account. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?**

The Index tracked the performance of companies primarily involved in waste-to-energy and recycling technologies. The Index also excluded companies based on specified ESG criteria.

● **How did this financial product perform compared with the reference benchmark?**

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 1.5% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at Investment Manager's report in the annual report for the ICAV.

● **How did this financial product perform compared with the broad market index?**

The Index was developed in order to track the performance of publicly traded companies involved in waste-to-energy and recycling technologies and, in addition, takes into account ESG considerations and applies relevant exclusions.

During the reporting period world equities increased by 22%, the Index performed -17.1%.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: WisdomTree Blockchain UCITS ETF

Legal entity identifier: 549300N3BI54N2BKP590

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input type="radio"/> <input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree Blockchain UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the tobacco industry and small arms sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles in line with the Index methodology.

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

WisdomTree Blockchain UCITS Index (the **Index**), was designed as a reference benchmark to determine whether the Fund was aligned with the environmental and social characteristics it promoted.

● *How did the sustainability indicators perform?*

During the period, the Index applied exclusionary environmental, social and governance (**ESG**) screening and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 91.46% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the Fund's ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%
Coal exposure	Percentage of the Portfolio exposed to companies which derive >5% of revenue from thermal coal extraction or >5% revenue from thermal coal-based power generation or >5% revenue from tailor-made products and services that support thermal coal extraction.	0.00%
Exposure to companies involved in unconventional oil & gas exploration/production	Percentage of the Portfolio exposed to companies which derive >5% of revenues from unconventional oil & gas exploration/production such as oil sands, Arctic oil and gas or shale energy.	0.00%
Violations of UNGC principles and OECD Guidelines	Percentage of the Portfolio exposed to companies that are non-compliant based on the GSS assessment. GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

...and compared to previous periods?

The following updates were made to the sustainability indicators for the Fund effective market close on 8 March 2023 (the **Effective Date**):

Indicator	Previous sustainability indicator for reporting period	Updated Sustainability Indicator
Exposure to Controversial Weapons	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies having any involvement in controversial weapons.	
Exposure to Small Arms	During the previous reporting period, companies were not assessed for involvement in small arms.	Since the Effective Date, companies are assessed for having >5% of revenues derived from the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms.
Exposure to companies involved in tobacco production	During the previous reporting period, companies were assessed for involvement or owning significant shares of companies involved in tobacco production and supplying of tobacco-related products/services and where more than 10% revenue was derived from the distribution of tobacco.	Companies are assessed for involvement or ownership of significant shares of companies involved in tobacco production and supplying of tobacco-related products/services. Effective from the Effective Date, the % assessment of portfolio's exposure to companies deriving revenue from the distribution of tobacco was lowered from >10% to >5%.
Coal exposure	During the previous reporting period, companies were assessed for significant involvement in thermal coal activity, i.e., >25% of revenue derived from thermal coal extraction, or >10% revenue from thermal coal-based power generation.	Effective from the Effective date, the % assessment of Portfolio's exposure derived from thermal coal extraction and thermal coal power-based generation was lowered from >25% and >10% respectively to >5%. Effective from the Effective Date, companies are assessed for >5% of revenue derived from providing tailor-made products and services to support thermal coal extraction.
Exposure to companies involved in unconventional oil & gas exploration/production	During the previous reporting period, companies were not assessed for involvement in unconventional oil and gas exploration/production.	Since the Effective Date, companies are assessed for having >5% of revenues derived from oil sands extraction, or 5% revenues derived from oil and gas exploration in Arctic regions, or 5% revenues derived from shale energy exploration and / or production.
Violations of UNCG principles and OECD Guidelines	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies that violate certain commonly accepted international norms and standards, such as United Nations and OECD guidelines and their underlying conventions.	

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Not applicable as the Fund has not committed to make sustainable investments.

- *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

Not applicable as the Fund has not committed to make sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies are were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the Regulatory Technical Standards of Regulation 2019/2088 (RTS) and two optional PAIs from Tables 2 and 3 of the Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Fund on an quarterly basis using an internally developed monitoring system and data received from the Investment Manager and the Fund's ESG data provider. Each PAI indicator was individually assessed and compared, where relevant, against an absolute or relative threshold having regard to the individual PAI indicator and underlying metric set out in SFDR Level 2 RTS. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is:31 December 2023.

Largest investments	Sector	% Assets	Country
Cleantech, Inc.	Commercial Services	17.25%	United States
Marathon Digital Holdings, Inc.	Commercial Services	14.31%	United States

Bit Digital, Inc.	Diversified Financial Services	1.96%	United States
Iris Energy Ltd.	Commercial Services	1.94%	Australia
Applied Digital Corp.	Telecommunications	1.44%	United States

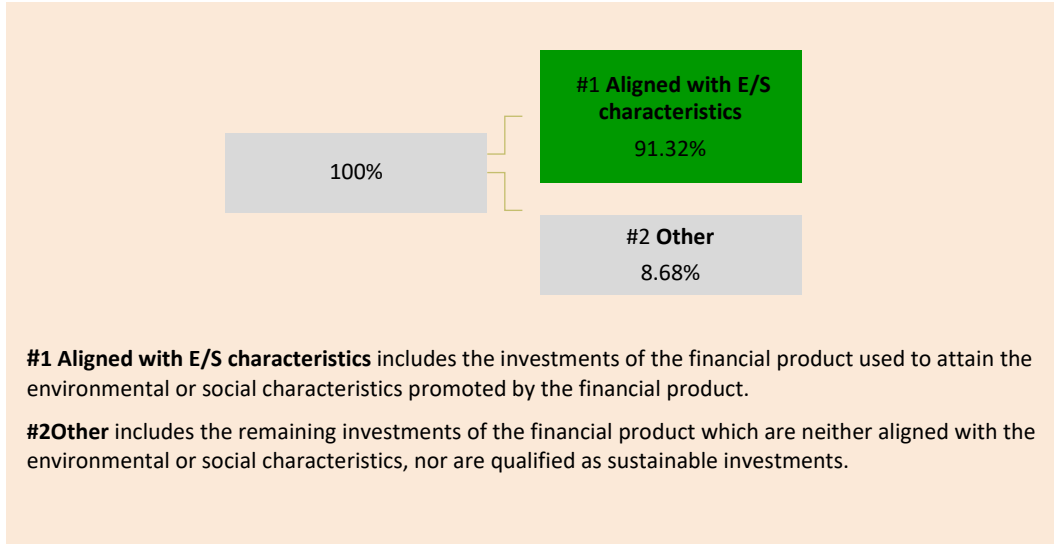

What was the proportion of sustainability-related investments?

Not applicable as the Fund has not committed to make sustainable investments

Asset allocation describes the share of investments in specific assets.

● *What was the asset allocation?*

The Fund invested substantially all of its assets in the constituents of the Index. As a result, 91.32% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investment's ("#2 Not Sustainable") consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

● *In which economic sectors were the investments made?*

Please refer to the "Schedule of Investments" included in the annual report for the ICAV for all information on the Fund's geographical and industry exposure as at 31 December 2023.

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund's investment strategy. The EU Taxonomy alignment figures are based on figures provided by the Fund's ESG data provider.

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

In fossil gas In nuclear energy
 No

 are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The share of investments made in transitional activities was 0% . The share of investments made in enabling activities was 1%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

During the previous reporting period ending 31 December 2022, the Fund did not make a commitment to EU Taxonomy aligned investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

● What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The Fund's investments were held with a view to achieving the Fund's investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 8.68% of the Fund's investment were in ancillary liquid assets (cash and cash equivalents), for liquidity purposes and in order to achieve its investment objective as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund's ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UNGPs, the OECD Guidelines for Multinational Enterprises and their underlying conventions, as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index focuses on blockchain and cryptocurrency technology which include the following categories:

Blockchain Enablers: companies that develop building block components for blockchain ecosystems, such as hardware and software infrastructure and cryptocurrency mining. Cryptocurrency mining consists of validating blocks of transactions on proof-of-work blockchains to yield a minted block subsidy (this refers to the amount of new bitcoin minted in each block).

Blockchain Engagers: companies that provide blockchain and cryptocurrency services and/or applications. These include but are not limited to cryptocurrency trading platforms and exchanges, cryptocurrency banking, and other blockchain based digital ledger technology and service offerings.

The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here: <https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>

- *How does the reference benchmark differ from a broad market index?*

The Index is designed to track the performance of companies primarily involved in blockchain and cryptocurrency technologies. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into accounts. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

The Index tracked the performance of companies primarily involved in blockchain and cryptocurrency technologies. The Index also excluded companies based on specified ESG criteria.

- *How did this financial product perform compared with the reference benchmark?*

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

The divergence between anticipated and realised Tracking Error for the period is set out at Investment Manager's report in the annual report for the ICAV.

● *How did this financial product perform compared with the broad market index?*

As described above, the Index was developed in order to track the performance of companies primarily involved in blockchain and cryptocurrency activities and, in addition, takes into account ESG considerations and applies relevant exclusions.

During the reporting period, world equities increased by 22%, the Index performed 121.3%.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Did this financial product have a sustainable investment objective?	
<input checked="" type="radio"/> <input checked="" type="radio"/> <input type="checkbox"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree Global Automotive Innovators UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the tobacco industry and small arms sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles in line with the Index methodology.

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

WisdomTree Berylls LeanVal Global Automotive Innovators NTR Index (the **Index**), was designed as a reference benchmark to determine whether the Fund was aligned with the environmental and social characteristics it promoted.

● *How did the sustainability indicators perform?*

During the period, the Index applied exclusionary environmental, social and governance (**ESG**) screening and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 100% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the Fund's ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%
Coal exposure	Percentage of the Portfolio exposed to companies which derive >5% of revenue from thermal coal extraction or >5% revenue from thermal coal-based power generation or >5% revenue from tailor-made products and services that support thermal coal extraction.	0.00%
Exposure to companies involved in unconventional oil & gas exploration/production	Percentage of the Portfolio exposed to companies which derive >5% of revenues from unconventional oil & gas exploration/production such as oil sands, Arctic oil and gas or shale energy.	0.00%

GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

...and compared to previous periods?

The following updates were made to the sustainability indicators for the Fund effective market close on 17 March 2023 (the **Effective Date**):

Indicator	Previous sustainability indicator for reporting period	Updated Sustainability Indicator
-----------	--	----------------------------------

Exposure to Controversial Weapons	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies having any involvement in controversial weapons.	
Exposure to Small Arms	During the previous reporting period, companies were not assessed for involvement in small arms.	Since the Effective Date, companies are assessed for having >5% of revenues derived from the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms.
Exposure to companies involved in tobacco production	During the previous reporting period, companies were assessed for involvement or owning significant shares of companies involved in tobacco production and supplying of tobacco-related products/services and where more than 10% revenue was derived from the distribution of tobacco.	Companies are assessed for involvement or ownership of significant shares of companies involved in tobacco production and supplying of tobacco-related products/services. Effective from the Effective Date, the % assessment of portfolio's exposure to companies deriving revenue from the distribution of tobacco was lowered from >10% to >5%.
Coal exposure	During the previous reporting period, companies were assessed for significant involvement in thermal coal activity, i.e., >25% of revenue derived from thermal coal extraction, or >10% revenue from thermal coal-based power generation.	Effective from the Effective date, the % assessment of Portfolio's exposure derived from thermal coal extraction and thermal coal power-based generation was lowered from >25% and >10% respectively to >5%. Effective from the Effective Date, companies are assessed for >5% of revenue derived from providing tailor-made products and services to support thermal coal extraction.
Exposure to companies involved in unconventional oil & gas exploration/production	During the previous reporting period, companies were not assessed for involvement in unconventional oil and gas exploration/production.	Since the Effective Date, companies are assessed for having >5% of revenues derived from oil sands extraction, or 5% revenues derived from oil and gas exploration in Arctic regions, or 5% revenues derived from shale energy exploration and / or production.
Violations of UNGC principles and OECD Guidelines	The Index has continued to ensure that the Portfolio has 0.00% exposure to companies that violate certain commonly accepted international norms and standards, such as United Nations and OECD guidelines and their underlying conventions.	

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Not applicable as the Fund has not committed to make sustainable investments.

- *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

Not applicable as the Fund has not committed to make sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies are were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the regulatory technical standards of Regulation 2019/2088 (RTS) and two optional PAIs from Tables 2 and 3 of the Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Fund on an quarterly basis using an internally developed monitoring system and data received from the Investment Manager and the Fund's ESG data provider. Each PAI indicator was individually assessed and compared, where relevant, against an absolute or relative threshold having regard to the individual PAI indicator and underlying metric set out in the RTS. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 31 December 2023.

Largest investments	Sector	% Assets	Country
Volvo AB	Auto Manufacturers	3.14%	Sweden
Uber Technologies, Inc.	Internet	3.11%	United States
Stellantis NV	Auto Manufacturers	3.08%	Netherlands
Infineon Technologies AG	Semiconductors	2.90%	Germany
PACCAR, Inc.	Auto Manufacturers	2.77%	United States
Copart, Inc.	Distribution & Wholesale	2.63%	United States
Bayerische Motoren Werke AG	Auto Manufacturers	2.62%	Germany
General Motors Co.	Auto Manufacturers	2.60%	United States
Toyota Motor Corp.	Auto Manufacturers	2.54%	Japan
Ferrari NV	Auto Manufacturers	2.45%	Netherlands
Cummins, Inc.	Auto Manufacturers	2.41%	United States
Tesla, Inc.	Auto Manufacturers	2.40%	United States
O'Reilly Automotive, Inc.	Retail	2.37%	United States
Ford Motor Co.	Auto Manufacturers	2.36%	United States
Mercedes-Benz Group AG	Auto Manufacturers	2.36%	Germany

What was the proportion of sustainability-related investments?

Not applicable as the Fund has not committed to make sustainable investments

What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

The Fund invested substantially all of its assets in the constituents of the Index. As a result, 99.76% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investment's ("#2 Not Sustainable") consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

In which economic sectors were the investments made?

Please refer to the "Schedule of Investments" included in the annual report for the ICAV for all information on the Fund's geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund's investment strategy. The EU Taxonomy alignment figures are based on figures provided by the Fund's ESG data provider.

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

In fossil gas In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● What was the share of investments made in transitional and enabling activities?

The share of investments made in transitional activities was 0% . The share of investments made in enabling activities was 7.7%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

During the previous reporting period ending 31 December 2022 the Fund did not make a commitment to EU Taxonomy aligned investments. As at 31 December 2023, the share of incidental EU Taxonomy-aligned investments was slightly higher compared with the previous reporting period.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The Fund's investments were held with a view to achieving the Fund's investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 0.24% of the Fund's investment were in ancillary liquid assets (cash and cash equivalents), for liquidity purposes and in order to achieve its investment objective as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund's ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UNGPs, the OECD Guidelines for Multinational Enterprises and their underlying conventions, as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index is designed to measure the performance of companies primarily involved in the automobility and future mobility industry. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into account. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excludes companies engaged in specific activities, such as involvement in controversial weapons, tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above.

The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here:

<https://www.wisdomtree.eu/-/media/eu-media-files/other-documents/index/wt/index-methodology/nasdaq-cta-artificial-intelligence-index-methodology.pdf> .

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● *How does the reference benchmark differ from a broad market index?*

The Index was developed by WisdomTree, Inc in collaboration with third party specialists in the automobility industry. The Index is designed to track the performance of companies primarily involved in the automobility and future mobility industry and utilises a “Focus Score” and “Fundamental Score” to capture the perceived degree of a company’s overall focus on the automobility industry as described in the Index methodology. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into accounts. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

● *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

The Index measured the performance of companies primarily involved in the automobility and future mobility industry. The Index also excluded companies based on specified ESG criteria.

● *How did this financial product perform compared with the reference benchmark?*

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 1.5% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at Investment Manager’s report in the annual report for the ICAV.

● *How did this financial product perform compared with the broad market index?*

As described above, the Index was designed by WisdomTree, Inc in collaboration with third party specialists in the automobility sector to measure the performance of companies primarily involved in the automobility and future mobility industry and, in addition, takes into account ESG considerations and applies relevant exclusions.

During the reporting period, world equities increased by 22% the Index performed 21.8%.

ANNEX V

Periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: WisdomTree Renewable Energy UCITS ETF **Legal entity identifier:** 549300N0TPFDR0HBAI59

Sustainable investment objective

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> Yes	<input type="radio"/> <input type="radio"/> <input type="checkbox"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 96.57% <ul style="list-style-type: none"> <input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy 	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective
<input type="checkbox"/> It made sustainable investments with a social objective: 0%	<input type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent was the sustainable investment objective of this financial product met?

WisdomTree Renewable Energy UCITS ETF (the **Fund**) has a sustainable investment objective of investing in companies involved in the renewable energy value-chain (**REVC**) which contributes to the environmental objective of climate change mitigation. REVC includes technologies and solutions which aim to develop a renewable energy market, including wind, solar, hydrogen and other renewable technologies value chains.

WisdomTree Renewable Energy UCITS Index (the **Index**) was designated as a reference benchmark for the purpose of attaining the sustainable investment objective.

The screening and selection criteria implemented by the Index ensured that the sustainable investment objective of the Fund was met during the reporting period. The Index only included companies involved in the the following REVC categories as defined in the Index methodology: raw materials, manufacturing, application, enablers or emerging technology (each a "**REVC Category**"). In order to be eligible for inclusion in the Index, companies must derive at least 20% of their revenue from each aforementioned REVC Category (this threshold was increased to 50% for the "application" REVC Category). The Index utilised an intensity rating which captured the perceived degree of a company's

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

overall involvement across the REVC (“**Intensity Rating**”). The Intensity Rating helped identify parts of the REVC that deserved a higher weight based on their exposure to the REVC.

● **How did the sustainability indicators perform?**

Sustainability indicators measure how the sustainable objectives of the Fund are attained.

During the reporting period, the Fund observed indicators linked to individual United Nations Sustainable Development Goals (**UN SDGs**) to measure the attainment of the environmental objectives of climate change mitigation. A company’s UN SDG alignment considers the most significant contributions its products and services make, which are aligned with specific targets under the UN SDG framework. Contribution towards the following UN SDGs was assessed during the reporting period based on data provided by the Fund’s ESG data provider:

UN SDG 13: Climate Action; and
 UN SDG 7: Affordable and Clean Energy.

During the reporting period, the weighted share of investments in the portfolio positively contributing to the above UN SDGs was 84.05% according to data provided by the Fund’s ESG data provider.

Additionally, the following business activities were selected as sustainability indicators for the Fund.

Business Activity	Measure of involvement	Minimum Threshold	Performance (as at 31 December 2023)
Exposure of companies to renewable energy value chain business activities.	Revenue	50% for “ Applications ”, i.e., companies that generated power or develop new Renewable Energy Value Chain. 20% for the following categories: Raw Materials - companies that focused on raw materials mining, such as steel, copper and aluminium specifically used for REVC. Manufacturing - companies that manufactured key modules for REVC, such as polysilicon for solar panels, blades and towers for wind turbines, and high voltage cables for power transmission networks. Enablers - companies that developed the building block components and enable the efficient storage and	96.96%

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

		<p>transmission for REVC such as battery energy storage systems and transmission and distribution network operations.</p> <p>Emerging Technologies - companies that used new sustainable power generation technologies such as floating wind and solar, concentrated solar power, and hydrogen fuel cell.</p>	
--	--	--	--

● **...and compared to previous periods?**

The Fund launched on 12 June 2023. As such, there is no there is no previous reporting period for the Fund under Regulation (EU) 2019/2088.

● **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

The Fund assessed the economic activities carried out by investee companies regarded as sustainable investments for the do no significant harm (**DNSH**) criteria under article 2(17) of Regulation 2019/2088 (**SFDR**). The DNSH assessment was carried out as part of the screening and selection criteria implemented by the Index methodology described further below.

1. Each company from the REVC universe was assessed based on greenhouse gas (**GHG**) intensity as part of the selection and weighing process applied by the Index as described in the Index methodology. Companies that fell within the bottom 5% based on their GHG intensity were excluded from the investment universe.
2. The Index excluded investment in companies significantly involved in the high GHG emitting sector of thermal coal activity, oil and gas exploration, production, refining, transportation and/or storage and unconventional oil and gas production as well as military contracting, tobacco, controversial weapons and small arms sectors in line with the Index methodology. In addition, the Index excluded companies that violate or are at risk of violating severe negative environmental, social or governance (**ESG**) impacts based on the Global Standards Screening (**GSS**) assessment carried out by the Fund's ESG data provider. The UN Global Compact Principles (**UNGCPs**) form part of the GSS assessment and include Human Rights, Labour, Environment and Corruption considerations. The aim of the UNGCPs environmental considerations (list non-exhaustive) is for the companies to undertake initiatives to promote greater environmental responsibility and encourage the development and diffusion of environmentally friendly technologies. The primary aim of the UNGCPs is to avoid companies causing severe or irreversible harm to the public or the environment.
3. The DNSH assessment was also carried out on the portion of the Fund's investments aligned with EU Taxonomy as part of the technical screening criteria (**TSC**) established in accordance with the EU Taxonomy. The DNSH assessment was carried out to ensure that the economic activities of the Fund's sustainable investments did not significantly harm any of the six environmental objectives of the EU Taxonomy. This assessment was undertaken on the sustainable portion of the Fund's investments as part of the TSC by the Fund's ESG data provider.

During the reporting period, third-party data was relied on for determining taxonomy-alignment. Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive). This position may change over time once reported EU Taxonomy data becomes available

How were the indicators for adverse impacts on sustainability factors taken into account?

The selection, screening and exclusionary criteria described above to determine eligibility for inclusion in the Index excluded companies with activities that would significantly harm the Fund's sustainable investment objective. In addition, in order to be taxonomy-aligned and considered as a sustainable investment for the Fund, a company must have minimum safeguards in place, as provided for in Article 18 of the EU Taxonomy, to comply with international norms and standards.

This approach took account of the following indicators for principal adverse impacts (**PAI Indicators**) of investee companies based on Table 1 of Annex I of the Regulatory Technical Standards underpinning SFDR (**RTS**):

CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS

1. GHG Intensity (**Table 1 PAI 3**)
2. Exposure to companies active in the fossil fuel sector (**Table 1 PAI Indicator 4**)
3. Share of non-renewable energy consumption and production (**Table 1 PAI Indicator 5**)

INDICATORS FOR SOCIAL AND EMPLOYEE, RESPECT FOR HUMAN RIGHTS, ANTICORRUPTION AND ANTI-BRIBERY MATTERS

1. Violations of UNGCP and OECD Guidelines for Multinational Enterprises (**Table 1 PAI Indicator 10**)
2. Lack of processes and compliance mechanisms to monitor compliance with UNGCP and OECD Guidelines for Multinational Enterprises (**Table 1 PAI Indicator 11**)
3. Exposure to controversial weapons (**Table 1 PAI Indicator 14**)

The GSS categorises issues that arise for companies which are mapped to the UNGCPs (**GSS Issue Indicators**). A non-exhaustive list of the GSS Issue Indicators linked to PAIs which show no harm to the Fund's sustainable investment objective include energy use and greenhouse gas emissions, water use, discharges and releases, spills resulting in environmental impacts and emissions, effluents, and waste.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Index excluded companies based on the GSS assessment. This assessment identifies companies that violate, or are at risk of violating, commonly accepted international norms and standards such as UNGCPs, which include UN Guiding Principles on Business and Human Rights and OECD Guidelines for Multinational Enterprises and their underlying conventions. Companies on the UN, US and EU sanctions lists are excluded. Companies designated under the US Executive Order 13959: which goal is 'Addressing the Threat from Securities Investments That Finance Communist Chinese Military Companies' are also excluded from the Index. In addition, in order to be taxonomy-aligned, a company must have minimum safeguards in place provided to comply with international norms and standards in accordance with Article 18 of the EU Taxonomy.

The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI Indicators on sustainability factors of investee companies are were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the RTS and two optional PAIs from Tables 2 and 3 of the Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Fund on an quarterly basis using an internally developed monitoring system and dataset received from the Investment Manager and the Fund's ESG data provider. Each PAI indicator was individually assessed and compared, where relevant, against an absolute or relative threshold having regard to the individual PAI indicator and underlying metric set out in the RTS.

During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Sunrun, Inc.	Energy – Alternate Sources	4.66%	United States
Vestas Wind Systems AS	Energy – Alternate Sources	4.16%	Denmark
Sunnova Energy International, Inc.	Energy – Alternate Sources	2.74%	United States

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is at 31 December 2023.

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

The Fund invested substantially all of its assets in the constituents of the Index. As a result, 96.57% of the Fund's assets aligned with the sustainable investment objective of the Fund. The remaining portion of the Fund's investments (**#2 Not Sustainable**) consisted of ancillary liquid assets (cash and cash equivalents) and investemnet in assets for which relevant ESG data was not available or not covered by the Fund's ESG data provider. As such, these investments were not aligned with sustainable investment objective of the Fund.

96.57% of the investments made by the Fund qualified as sustainable investments with an environmental objective under article 2(17) of SFDR.

● **In which economic sectors were the investments made?**

Please refer to the “Schedule of Investments” included in the annual report for the ICAV for all information on the Fund’s geographical and industry exposure as at 31 December 2023.

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reporting period, the Fund committed 25% its assets to EU Taxonomy aligned investments. However, as at 31 December 2023, the EU Taxonomy alignment figure for the Fund was 36.8% as reported below. The figures below are provided by the Fund’s ESG data provider for the reporting period.

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes

In fossil gas In nuclear energy

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

- **What was the share of investments made in transitional and enabling activities?** During the reporting period, the share of investments made in enabling activities was 26.77%. The share of investments made in transitional activities was 0.45%. The remaining 9.58% of aligned investments were own performance, meaning economic activities that make a substantial contribution to climate change mitigation based on their own performance.
- **How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?**

As the Fund launched on 12 June 2023, there is no previous Taxonomy reporting period for the Fund.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

59.77% of the Fund's investments were sustainable investments with an environmental objective that were not aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

The Fund did not intend to make a minimum allocation to sustainable economic activities that contribute to a social objective. As at 31 December 2023, the share of the Fund's sustainable investments that contribute to a social objective was 0.00%.

What investments were included under "not sustainable", what was their purpose and were there any minimum environmental or social safeguards?

In addition to making sustainable investments, 3.43% of the Funds investments were in ancillary liquid assets (cash and cash equivalents), for liquidity purposes to achieve its investment objectives as permitted under the UCITS Regulations and in assets for which ESG data was not available or

assets not covered by the Fund's ESG data provider . At present, there are no minimum environmental or social safeguards in relation to ancillary liquid assets

What actions have been taken to attain the sustainable investment objective during the reference period?

During the reporting period, investments were made by the Fund under the condition of meeting the screening and selection criteria applied by the Index which ensured that all investments made by the Fund were sustainable under article 2(17) SFDR and EU Taxonomy. Companies were selected for investment based on their involvement in one or more of the REVC categories as defined in the Index methodology and weighted based on the Intensity Rating.

Where companies met certain thresholds relating to unsustainable activities described above or did not meet specific environmental, social or governance criteria set by the Index, they were either excluded from the Index in their entirety or excluded based on certain revenue thresholds derived from these activities detailed in the Index methodology.

How did this financial product perform compared to the reference sustainable benchmark?

The Index has been designated as a reference benchmark for the purpose of supporting the sustainable investment objective of the Fund. The Index is designed to track companies involved in REVC technologies and solutions. To be eligible for inclusion in the Index a security must be issued by a REVC company which is involved in one or more of the REVC categories. Further information on the methodology used for the calculation of the Index can be found here: <https://www.wisdomtree.eu/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>

● **How did the reference benchmark differ from a broad market index?**

The Index was developed to identify companies involved in REVC technologies and solutions by WisdomTree in collaboration with third-party specialists in REVC. The Intensity Rating helped identify parts of the value-chain that deserve a higher weight and individual companies are scored on the basis of their exposure to the REVC. The Index methodology includes the GSS process described above and takes ESG considerations into account. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, oil and gas exploration, production, refining, transportation and/or storage, unconventional oil and gas exploration/production, military contracting, small arms or thermal coal activities described in more detail above and in the Index methodology.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?**

The Index tracked the performance of companies primarily involved in the REVC. The Index also excluded companies based on specified ESG criteria.

● **How did this financial product perform compared with the reference benchmark?**

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 1.5% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at Investment Manager's report in the annual report for the ICAV.

● **How did this financial product perform compared with the broad market index?**

The Index was developed in order to track the performance of publicly traded companies involved in the REVC and, in addition, takes into account ESG considerations and applies relevant exclusions.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

During the reporting period world equities increased by 22%, the Index performed -9.8%.

Periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree US Efficient Core UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the tobacco industry and small arms sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles in line with the Index methodology.

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

WisdomTree US Efficient Core UCITS Index (the **Index**), was designed as a reference benchmark to determine whether the Fund was aligned with the environmental and social characteristics it promoted.

How did the sustainability indicators perform?

The Index applied environmental, social and governance (**ESG**) and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 99.88% of the equity portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). The Portfolio consisted of equity securities and US Treasury futures contracts selected as bond components for inclusion in the Index. During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the Fund's ESG data provider.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%
Coal exposure	Percentage of the Portfolio exposed to companies which derive >5% of revenue from thermal coal extraction or >5% revenue from thermal coal-based power generation or >5% revenue from tailor-made products and services that support thermal coal extraction.	0.00%
Exposure to companies involved in unconventional oil & gas exploration/production	Percentage of the Portfolio exposed to companies which derive >5% of revenues from unconventional oil & gas exploration/production such as oil sands, Arctic oil and gas or shale energy.	0.00%
Violations of UNGC principles and OECD Guidelines	Percentage of the Portfolio exposed to companies that are non-compliant based on the GSS assessment. GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

...and compared to previous periods?

The Fund launched on 17 October 2023. As such, there is no previous reporting period for the Fund under Regulation (EU) 2019/2088 (SFDR).

What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Not applicable as the Fund has not committed to make sustainable investments.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

Not applicable as the Fund has not committed to make sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies are were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the Regulatory Technical Standards underpinning SFDR (RTS) and two optional PAIs from Tables 2 and 3 of the Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Fund on an quarterly basis using an internally developed monitoring system and data received from the Investment Manager and the Fund’s ESG data provider. Each PAI indicator was individually assessed and compared, where relevant, against an absolute or relative threshold having regard to the individual PAI indicator and underlying metric set out in the RTS. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle

Principal adverse impacts

are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Apple, Inc.	Computers	7.42%	United States
Microsoft Corp.	Software	6.93%	United States
Alphabet, Inc.	Internet	4.33%	United States
Amazon.com, Inc.	Internet	3.88%	United States
NVIDIA Corp.	Semiconductors	3.04%	United States
Meta Platforms, Inc.	Internet	2.25%	United States
Tesla, Inc.	Auto Manufacturers	1.95%	United States
Berkshire Hathaway, Inc.	Full Line Insurance	1.93%	United States
Eli Lilly & Co.	Pharmaceuticals	1.36%	United States
Broadcom, Inc.	Semiconductors	1.30%	United States
Visa, Inc.	Diversified Financial Services	1.30%	United States
JPMorgan Chase & Co.	Banks	1.22%	United States
UnitedHealth Group, Inc.	Healthcare Services	1.17%	United States
Walmart, Inc.	Retail	1.05%	United States
Exxon Mobil Corp.	Oil & Gas	0.99%	United States

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is:31 December 2023.

What was the proportion of sustainability-related investments?

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects .

Not applicable as the Fund has not committed to make sustainable investments

What was the asset allocation?

The Fund invested substantially all of its assets in the constituents of the Index. 99.89% of the Fund’s assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund’s investment’s (“#2 Not Sustainable”) consisted of ancillary liquid assets (cash and cash equivalents not held for investment purposes) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

In which economic sectors were the investments made?

Please refer to the “Schedule of Investments” included in the annual report for the ICAV for all information on the Fund’s geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund’s investment strategy. The EU Taxonomy alignment figures are based on figures provided by the Fund’s ESG data provider.

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

Yes:

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

In fossil gas
 In nuclear energy
 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

What was the share of investments made in transitional and enabling activities?

The share of investments made in transitional activities was 0% . The share of investments made in enabling activities was 2.8%

● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable. The Fund launched on 17 October 2023. As such, there is no previous reporting period for the Fund under SFDR.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The Fund's investments were held with a view to achieving the Fund's investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 10.41% of the Fund's investment were in ancillary liquid assets (cash and cash equivalents), for liquidity purposes and in order to achieve its investment objective as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund's ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UNGPs, the OECD Guidelines for Multinational Enterprises and their underlying conventions, as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index focuses on performance of a portfolio of large-capitalization US equity securities and US Treasury futures contracts and is comprised of equity, bond and cash components as detailed in the Index methodology. The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here:

https://www.wisdomtree.eu/en-gb/-/media/eu-media_files/documents/1604/wisdomtree-index-methodology-217.pdf

- *How does the reference benchmark differ from a broad market index?*

The Index is designed to track the performance of a portfolio of large-capitalization US equity securities and US Treasury futures contracts. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into accounts. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

- *How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?*

The Index tracked the performance of a portfolio of large-capitalization US equity securities and US Treasury futures contracts. The Index also excluded companies based on specified ESG criteria.

- *How did this financial product perform compared with the reference benchmark?*

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 1.5% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at Investment Manager's report in the annual report for the ICAV.

- *How did this financial product perform compared with the broad market index?*

As described above, the Index was developed in order to track the performance of a portfolio of large-capitalization US equity securities and US Treasury futures contracts and, in addition, takes into account ESG considerations and applies relevant exclusions.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

As the Fund launched on 17 October 2023 there is no previous reporting period for the Fund to provide a comparison to a broad market index for the reporting period ending 31 December 2023.

Environmental and/or social characteristics

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

Did this financial product have a sustainable investment objective?	
<p><input checked="" type="radio"/> <input type="radio"/> Yes</p> <p><input type="checkbox"/> It made sustainable investments with an environmental objective: ___%</p> <p><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> It made sustainable investments with a social objective: ___%</p>	<p><input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No</p> <p><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments</p> <p><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</p> <p><input type="checkbox"/> with a social objective</p> <p><input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</p>

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree UK Quality Dividend Growth UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the tobacco industry and small arm sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles. In line with the Index methodology,

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

WisdomTree UK Quality Dividend Growth Index (the **Index**), was designated as a reference benchmark to determine whether the Fund was aligned with the social and environmental it promoted.

● **How did the sustainability indicators perform?**

During the period, the Index applied environmental, social and governance (**ESG**) and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 99.81% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%

The Fund launched on 22 November 2023. As such, there is no previous reporting period for the Fund under Regulation (EU) 2019/2088

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable as the Fund has not committed to make sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable as the Fund has not committed to make sustainable investments.

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the Regulatory Technical Standards of Regulation (EU) 2018/2088 (RTS) and two optional PAIs from Tables 2 and 3 of Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Funds on a quarterly basis using an internally developed monitoring system and tailored dataset received from the Investment Manager and the Fund’s ESG data provider. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Rio Tinto PLC	Mining	4.97%	United Kingdom

What was the proportion of sustainability-related investments?

Not applicable as the Fund has not committed to make sustainable investments.

What was the asset allocation?

The Fund invested substantially all of its assets in the constituents of the Index. 99.65% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund.. The remaining portion of the Fund's investments (**#2 Not Sustainable**) consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

In which economic sectors were the investments made?

Please refer to the "Schedule of Investments" included in the annual report for the ICAV for all information on the Fund's geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund's investment strategy and promotion of environmental and social characteristics. The EU Taxonomy alignment figures are based on figures provided by the Fund's ESG data provider.

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

Taxonomy-aligned activities are

expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.

- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.

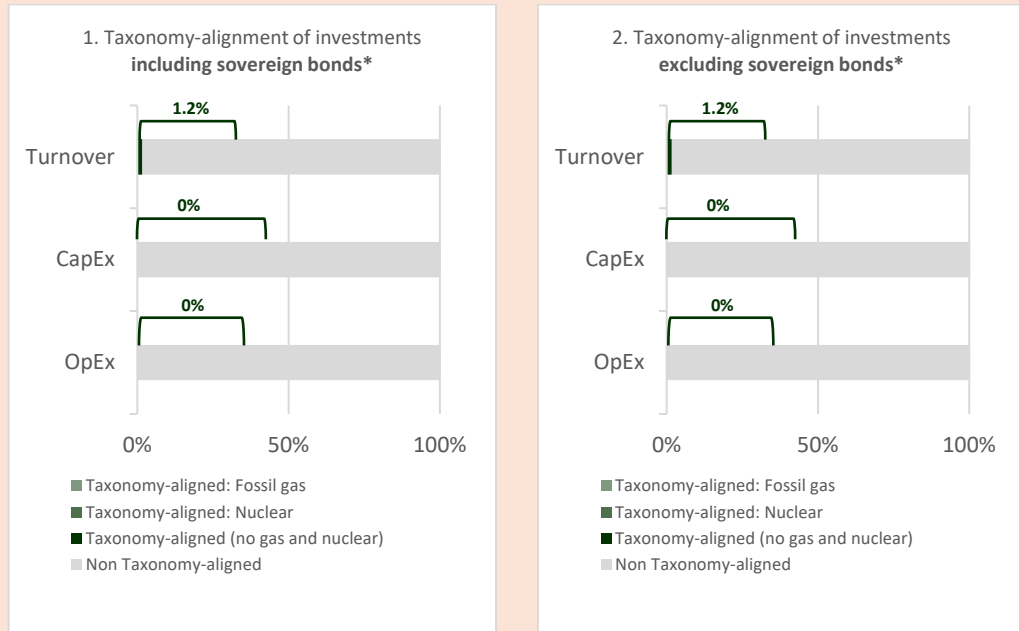

- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

Asset allocation describes the share of investments in specific assets.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes
- In fossil gas In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in transitional activities was 0%. The share of investments made in enabling activities was 0.7%.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Fund’s investments were held with a view to achieving the Fund’s investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 0.35% of the Fund’s investments were in ancillary liquid assets (cash and cash equivalents) for liquidity purposes as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund’s ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index is comprised of dividend-paying UK companies with quality and growth characteristics, selected based on a composite risk score (“CRS”). The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here: <https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>.

● **How does the reference benchmark differ from a broad market index?**

The Index is a proprietary WisdomTree index and in addition to the CRS, eligibility requirements include (i) a company being classified as a UK company and listing its shares on the London Stock Exchange, (ii) pay regular cash dividends on shares of its common stock in the 12 months preceding the annual reconstitution, and (iii) meet minimum market capitalisation and liquidity criteria as detailed in the index methodology. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into account. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Fund invested in dividend-paying UK companies with quality and growth characteristics which are eligible for inclusion in the Index. The Index also excluded companies based on specified ESG criteria.

● **How did this financial product perform compared with the reference benchmark?**

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 2% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at the Investment Manager’s report in the annual report for the ICAV.

● **How did this financial product perform compared with the broad market index?**

As described above, the Index is fundamentally weighted and is comprised of dividend-paying UK companies with quality and growth characteristics, selected based on a revenue exposure and CRS and controlling for tracking error and other risk factors.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

As the Fund launched on 13 November 2023 there is no previous reporting period for the Fund to provide a comparison to a broad market index.

Product name: WisdomTree Megatrends UCITS ETF

Legal entity identifier:

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

<input checked="" type="radio"/> <input checked="" type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___% <ul style="list-style-type: none"> <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of N/A of sustainable investments <ul style="list-style-type: none"> <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy <input type="checkbox"/> with a social objective <input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

WisdomTree Megatrends UCITS ETF (the **Fund**) promoted environmental and social characteristics, including the specific environmental characteristic of climate action by excluding investment in companies significantly involved in the high greenhouse gas emitting sector of thermal coal and unconventional oil and gas exploration/production in line with Index methodology and the social characteristics of good-health and well-being and peace, justice and strong institutions by respectively excluding companies significantly involved in the tobacco industry and small arms sectors and companies involved in controversial weapons as well as companies which do not adhere to internationally accepted human rights, labour standards or anti-corruption principles in line with Index methodology.

The Fund also considered Principal Adverse Impacts (**PAIs**) on sustainability factors as described below.

WisdomTree Global Megatrends Equity Index (the **Index**), was designed as a reference benchmark to determine whether the Fund was aligned with the environmental and social characteristics it promoted.

● *How did the sustainability indicators perform?*

During the period, the Index applied environmental, social and governance (**ESG**) and Global Standards Screening (**GSS**) criteria to verify companies' eligibility for inclusion in the Index.

Based on ESG data coverage by the Fund's ESG data provider, 97.71% of the portfolio of the Fund was assessed for alignment with the ESG and GSS criteria applied by the Index (the **Portfolio**). During the reporting period, there were certain assets for which insufficient ESG data was available to the Fund. This applied in particular to assets for which ESG factors were insufficiently defined or were not covered by the Fund's ESG data provider.

The following sustainability indicators were used to measure the environmental and social characteristics promoted by the Fund.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

Indicator	Metric Description	Performance (as at 31 December 2023)
Exposure to controversial weapons	Percentage of the Portfolio exposed to companies involved in, or owning significant shares of companies involved in, the manufacture of controversial weapons such as anti-personnel mines and cluster munitions.	0.00%
Exposure to small arms	Percentage of the Portfolio exposed to companies which derive >5% of revenue from activities connected to small arms. Activities include the manufacturing and selling of small arms, or the manufacturing and selling of key components involved in small arms manufacture or being involved in the distribution of small arms	0.00%
Exposure to companies involved in tobacco production	Percentage of the Portfolio exposed to companies that are involved in tobacco production and supplying of tobacco-related products/services, or companies which derive >5% of revenue from tobacco distribution as detailed in the Index methodology.	0.00%
Coal exposure	Percentage of the Portfolio exposed to companies which derive >5% of revenue from thermal coal extraction or >5% revenue from thermal coal-based power generation or >5% revenue from tailor-made products and services that support thermal coal extraction.	0.00%
Exposure to companies involved in unconventional oil & gas exploration/production	Percentage of the Portfolio exposed to companies which derive >5% of revenues from unconventional oil & gas exploration/production such as oil sands, Arctic oil and gas or shale energy.	0.00%
Violations of UNGC principles and OECD Guidelines	Percentage of the Portfolio exposed to companies that are non-compliant based on the GSS assessment. GSS identifies companies that violate commonly accepted international norms and standards such as the UNGC principles, the UN Guiding Principles on Business and Human Rights (UNGPs), the OECD Guidelines for Multinational Enterprises and their underlying conventions.	0.00%

● *...and compared to previous periods?*

The Fund launched on 11 December 2023. As such, there is no previous reporting period for the Fund under Regulation (EU) 2019/2088 (**SFDR**).

● *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

Not applicable as the Fund has not committed to make sustainable investments.

● *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

Not applicable as the Fund has not committed to make sustainable investments.

How were the indicators for adverse impacts on sustainability factors taken into account?

Not applicable.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable.

How did this financial product consider principal adverse impacts on sustainability factors?

PAI indicators on sustainability factors of investee companies are were considered at the Fund level. The Manager assessed the 14 mandatory PAIs based on Table 1 of Annex I of the regulatory technical standards of SFDR (RTS) and two optional PAIs from Tables 2 and 3 of the Annex I of the RTS.

During the reporting period, the Manager monitored the selected PAI indicators for the Fund on an quarterly basis using an internally developed monitoring system and data received from the Investment Manager and the Fund's ESG data provider. Each PAI indicator was individually assessed and compared, where relevant, against an absolute or relative threshold having regard to the individual PAI indicator and underlying metric set out in the RTS. During the reporting period, the Fund did not exhibit sustained high adverse impacts across any of the selected PAI indicators. The Manager will continue to monitor the selected PAI indicators during the next reporting cycle

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
Cleantech, Inc.	Commercial Services	2.83%	United States
Taiwan Semiconductor Manufacturing Co. Ltd.	Semiconductors	2.39%	Taiwan
Coinbase Global, Inc.	Diversified Financial Services	2.28%	United States
NVIDIA Corp.	Semiconductors	2.25%	United States
Broadcom, Inc.	Semiconductors	2.03%	United States
Bitfarms Ltd.	Commercial Services	1.67%	Canada
Bit Digital, Inc.	Diversified Financial Services	1.64%	United States
Riot Platforms, Inc.	Commercial Services	1.63%	United States
Advanced Micro Devices, ASML Holding NV	Semiconductors	1.49%	United States
Hut 8 Corp.	Semiconductors	1.44%	Netherlands
Crowdstrike Holdings, Inc.	Commercial Services	1.34%	United States
Monex Group, Inc.	Computers	1.30%	United States
Elastic NV	Diversified Financial Services	1.29%	Japan
Robinhood Markets, Inc.	Software	1.28%	Netherlands
	Internet	1.27%	United States

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is:31 December 2023.

What was the proportion of sustainability-related investments?

Not applicable as the Fund has not committed to make sustainable investments

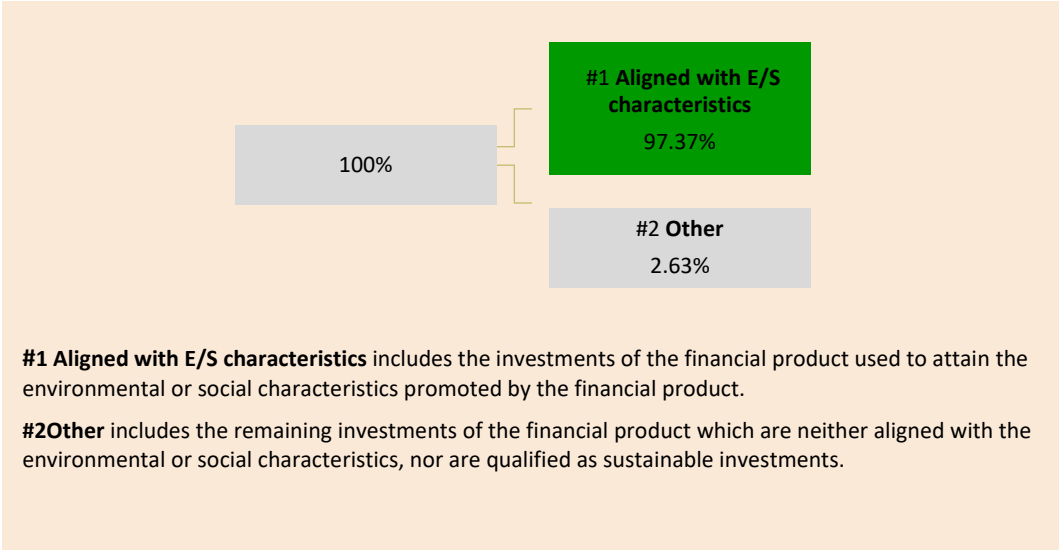

What was the asset allocation?

The Fund invested substantially all of its assets in the constituents of the Index. As a result, 97.37% of the Fund's assets aligned with the promoted environmental and social objectives of the Fund. The remaining portion of the Fund's investment's ("#2 Not Sustainable") consisted of ancillary liquid assets (cash and cash equivalents) and assets for which relevant ESG data was not available. As such, these investments were not aligned with environmental and social objectives promoted by the Fund.

Asset allocation describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

● **In which economic sectors were the investments made?**

Please refer to the “Schedule of Investments” included in the annual report for the ICAV for all information on the Fund’s geographical and industry exposure as at 31 December 2023.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

During the reference period, the Fund did not make a commitment to make EU Taxonomy aligned investments. Therefore, the EU Taxonomy alignment figures reported below are an incidental result of the Fund’s investment strategy. The EU Taxonomy alignment figures are based on figures provided by the Fund’s ESG data provider.

Estimated values were used in the absence of reported data due to a lack of reported EU Taxonomy data acute with companies not within scope of Directive 2014/95/EU (the Non-Financial Reporting Directive) and/or are not yet within the scope of Directive (EU) 2022/2464 (the Corporate Sustainability Reporting Directive).

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas In nuclear energy

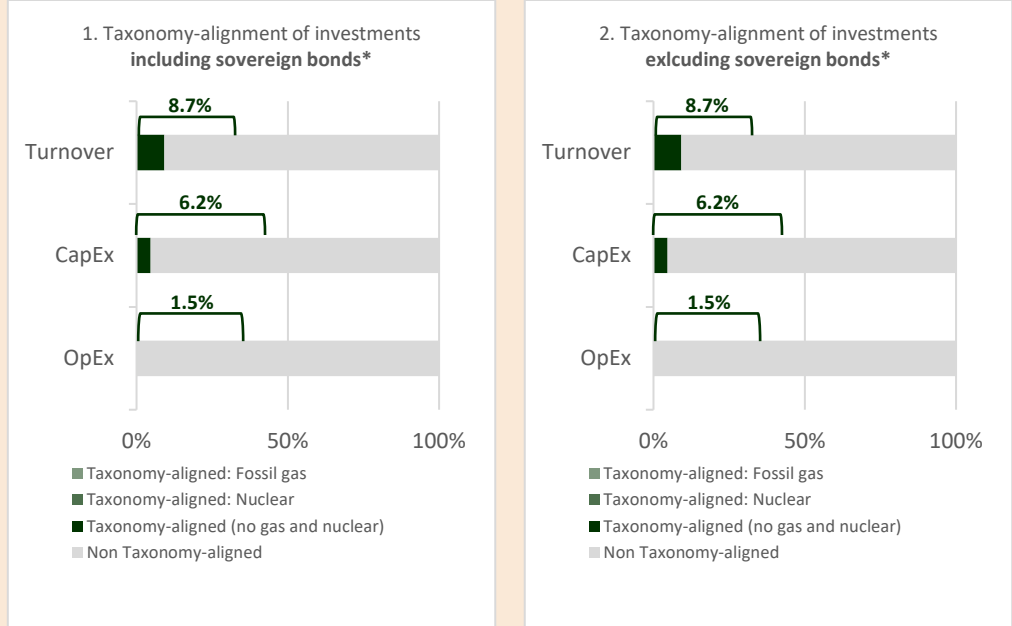

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in transitional activities was 0% . The share of investments made in enabling activities was 7.1%

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

During the previous reporting period ending 31 December 2022, the Fund did not make a commitment to EU Taxonomy aligned investments.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable as the Fund has not committed to make sustainable investments.

What was the share of socially sustainable investments?

Not applicable as the Fund has not committed to make sustainable investments.

What investments were included under "other", what was their purpose and were there any minimum environmental or social safeguards?

The Fund's investments were held with a view to achieving the Fund's investment objective, including investments not aligned to the environmental and/or social characteristics promoted by the Fund. At 31 December 2023, 2.63% of the Fund's investment were in ancillary liquid assets (cash and cash equivalents) , for liquidity purposes and in order to achieve its investment objective as permitted under the UCITS Regulations and in assets for which ESG data was not available or in assets not covered by the Fund's ESG data provider. At present, there are no minimum environmental or social safeguards in relation to these ancillary liquid assets.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, investments were made by the Fund under the condition of meeting the ESG and GSS criteria applied by the Index. Where companies met certain thresholds relating to unsustainable activities or did not meet specific environmental principles set by the Index, they were either excluded from the Index in their entirety or are excluded based on certain revenues derived from these activities.

In addition, the attainment of social objectives was measured in the same manner by verifying whether companies are eligible for inclusion in the Index based on the GSS applied by the Index. GSS identifies and excludes companies that violate or are at risk of violating commonly accepted international norms and standards, such as the UNGC Principles, the UN GPs, the OECD Guidelines for Multinational Enterprises and their underlying conventions, as set out in the methodology for the Index.

How did this financial product perform compared to the reference benchmark?

The Index has been designated as a reference benchmark for the purpose of determining whether the Fund is aligned with the environmental and social characteristics it promotes. The Index is designed to track the performance of global listed companies involved in investment themes across global megatrends which include social, demographic, technological, environmental or geological shifts (“**Global Megatrends**”). The Global Megatrends are represented by sub-investment themes, which include but are not limited to artificial intelligence, decarbonisation, sustainable energy production, global logistics and diversity, equality, and inclusion. The list of sub-investment themes covered by the Index is detailed in the methodology of the Index.

The Index also excludes companies based on specified ESG criteria outlined above. Further information on the methodology used for the calculation of the designated index can be found here: <https://www.wisdomtree.eu/en-gb/-/media/eu-media-files/documents/1604/wisdomtree-index-methodology-217.pdf>

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

● ***How does the reference benchmark differ from a broad market index?***

The Index was designed track the performance of companies involved in investment themes across Global Megatrends as described above. The Index is also aligned with ESG factors using exclusion criteria. The Index methodology includes the GSS process described above which takes ESG considerations into accounts. Companies that are non-compliant with GSS criteria are excluded. The Index methodology also excluded companies involved in controversial weapons and significantly involved in tobacco, unconventional oil and gas exploration/production, small arms or thermal coal activities described in more detail above and in the Index methodology.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

The Index tracked the performance of companies involved in investment themes across Global Megatrends. The Index also excluded companies based on specified ESG criteria.

● ***How did this financial product perform compared with the reference benchmark?***

The Fund seeks to track the price and yield performance of the Index. The aim of the Investment Manager is to keep Tracking Error for the Fund below or equal to 1.5% for each share class for the Fund. The divergence between anticipated and realised Tracking Error for the period is set out at Investment Manager’s report in the annual report for the ICAV.

● ***How did this financial product perform compared with the broad market index?***

The Index was designed by WisdomTree and is designed to track the performance of companies in investment themes across Global Megatrends and, in addition, takes into account ESG considerations and applies relevant exclusions.

As the Fund launched on 11 December 2023 there is no previous reporting period for the Fund to provide a comparison to a broad market index.
