Mandarine Gestion is approved in France and regulated by the Financial Markets Authority (Autorité des Marchés Financiers).

Date of production | 10/02/2023

Please note

You are about to purchase a product that is not simple and may be difficult to understand.

What is this product?

Type | Mandarine Equity Income (hereinafter "the UCITS" or "the MF" or "the UCI") is a Mutual Fund established under French law. As the Mutual Fund is not a legal entity, it is not subject to corporate income tax. Each holder is taxed as if he/she were the direct owner of a portion of the assets, depending on the tax regime applicable to him/her.

Duration | The UCI was created on 20 January 2005 and its expected lifetime is 99 years.

Objectives | Mandarine Equity Income (the "Fund") is a European equity fund.

The objective of the Fund, managed in a discretionary manner, is to outperform its benchmark index – the STOXX® Europe 600 Net Return EUR index (dividends reinvested) – over the recommended five-year investment period. However, the Fund's objective is not to replicate the performance of this index in any way.

The investment universe within European equities is first determined on the basis of a filter including quantitative criteria based on ratios defined ex-ante, such as yield (dividend divided by the share price), past and future dividend growth, pay-out (share of profit distributed to shareholders), and financial leverage (net debt/EBITDA, level of net debt).

The manager then performs a qualitative analysis for each company in the universe, in particular on the basis of the company's distribution policy and the sustainability of the dividend in order to specifically select the securities with high net returns and those expected to show strong dividend growth.

The Fund may invest up to 100% of its assets in European equities. It may invest up to 20% of its net assets in small-cap issuers.

As part of its cash flow management, the Fund may also invest up to 25% of its assets in debt securities issued by a company or a State, and in money market instruments or debt securities, negotiable debt securities and euro medium-term notes.

Financial futures instruments may be used for hedging or exposure purposes.

The Fund may invest up to 10% of the net assets in UCI units.

Management objective: To achieve a higher return than that of its benchmark index.

The Fund takes sustainability risks and ESG characteristics into account in its selection process. In this regard, the Fund promotes environmental or social characteristics within the meaning of Article 8 of the SFDR Regulation. The Fund is subject to a sustainability risk as defined in the risk profile of the prospectus.

Environmental, social and governance (ESG) criteria contribute to the manager's decision making, but are not a determining factor in the decision-making process.

Benchmark index | STOXX® Europe Small 600 Net Return

Distribution of income | Capitalisation

Deadline for the centralisation of subscription/redemption orders |

Subscription and redemption requests for units are received by BNP Paribas no later than 13.00 on each day that is not a public holiday on the Paris Stock Exchange and are executed on the basis of the next net asset value.

A mechanism for capping redemptions ("Gates") may be implemented by the Management Company. For more information, please refer to the "Redemption capping mechanism" section in the prospectus.

Valuation frequency | Each business day that is not a public holiday on the Paris Stock Exchange.

Target retail investors | All subscribers

Insurance | Not applicable.

Maturity date | This product has no maturity date.

Custodian | BNP Paribas

The prospectus, the annual reports and the latest periodical documents, as well as all other practical information, including where to find the latest share price, are available on our website www.mandarine-gestion.com/ or on written request, free of charge, to: Mandarine Gestion - 40 avenue George V - 75008 Paris.

What are the risks and what could I receive in return?

Risk indicator

The risk indicator assumes that you hold the units for five years.

Please note: The actual risk may be very different if you opt for an early exit, and you may receive less in return.

The synthetic risk indicator makes it possible to assess the level of risk of this product in relation to other products. It indicates the likelihood of this

product incurring losses in the event of market movements or our inability to pay you.

We have classified the product in risk class 4 out of 7, which is a medium risk class. This means that the potential losses associated with the future performance of the product are in the medium range and, should the situation on the financial markets deteriorate, it is possible that our ability to pay you will be affected.

Discretionary management risk I The management style is based on anticipating various market trends; there is a risk that the Fund may not be invested in the best-performing markets at any particular time.

Credit risk I It represents the potential risk of a sudden deterioration in the quality of an issuer or its default.

Guarantee: the Fund's capital is not guaranteed.

Performance scenarios (amounts expressed in euro) I

What you get out of this product depends on future market performance. The future trend of the market is random and cannot be accurately predicted. The unfavourable, intermediate and favourable scenarios presented represent examples using the best and worst performance, as well as the average performance of the product over the last ten years. Markets may evolve very differently in the future. The stress scenario shows what you might receive in extreme market situations. This type of scenario occurred for an investment between one and five years.

| Recommended holding period: Five years Example of an investment: € 10,000 | | | |
|--|---|----------------------------|---|
| Scenarios | | If you exit after one year | If you exit after five years (Recommended holding period) |
| Minimum | As this product does not provide market protection, there is no guaranteed minimum return if you exit before five years. You could lose all or part of your investment. | | |
| Tensions | What you could receive after deducting costs | € 2,690 | € 1,700 |
| | Average annual return | -73.06% | -29.87% |
| Unfavourable | What you could receive after deducting costs | € 8,350 | € 8,830 |
| | Average annual return | -16.54% | -2.45% |
| Intermediate | What you could receive after deducting costs | € 10,520 | € 12,400 |
| | Average annual return | 5.21% | 4.39% |
| Favourable | What you could receive after deducting costs | € 13,650 | € 14,530 |
| | Average annual return | 36.54% | 7.76% |

The figures shown include all costs of the product itself as well as fees due to your advisor or distributor. These figures do not take into account your personal tax situation which may also affect the amounts you receive.

This table shows the amounts that you could obtain according to different scenarios and the following parameters:

- an investment of €10,000;
- and holding periods of one year and five years, the latter being equal to the recommended holding period.

These different scenarios indicate how your investment might perform and allow you to make comparisons with other products.

The scenarios presented are an estimate of future performance based on past data on changes in the value of this investment. They are not an accurate indicator. What you receive will depend on how the market develops and how long you hold the investment or product, as well as your personal tax situation.

It is not easy to exit this product. If you exit the investment before the end of the recommended holding period, there is no guarantee and you may incur additional costs.

What happens if Mandarin Gestion is unable to make payments?

Mandarin Gestion is a portfolio management company approved and monitored by the Financial Markets Authority (Autorité des Marchés Financiers) and must comply with organisational and operational rules, particularly with regard to equity. The investor's funds or the income of the UCI are paid into one or more bank accounts opened in the name of the UCI. Consequently, the default of Mandarin Gestion would not have an impact on the assets of the UCI. The UCI does not benefit from a compensation scheme.

How much will this investment cost me?

You may be asked to pay additional costs by the person selling or advising you about the product. If this is the case, this person will inform you about these costs and show you the impact of these costs on your investment.

Costs over time (amounts expressed in euro):

The tables show the amounts taken from your investment to cover the different types of costs. These amounts depend on how much you invest, how long you hold the product and how the product performs. The amounts shown here are illustrations based on an example of an investment amount and different possible investment periods.

We used the following assumptions:

- that in the first year you would get back the amount you invested (0% annual return). that for the other holding periods, the product evolves as indicated in the intermediate scenario.
- € 10,000 is invested.

| | If you exit after one year | If you exit after five years (Recommended holding period) |
|-------------------------------|-------------------------------|--|
| Total costs | € 442 | € 1,819 |
| Annual cost impact (*) | 4.42% | 2.94% each year |

(*) It shows the extent to which costs reduce your return annually over the holding period. For example, it shows that if you exit at the end of the recommended holding period, your average return per year is expected to be 7.33% before costs are deducted and 4.39% after this deduction.

We may share the costs with the person selling you the product to cover the costs they provide to you. This person will inform you of the amount.

These figures only include any potential fees that the person selling or advising you on the product may charge you. This person will inform you of the actual distribution costs.

Composition of costs:

| One-off entry or exit costs | | If you exit after one year |
|---|---|-------------------------------|
| Entry costs | 2.00% of the amount you pay when you enter the investment. This is the maximum amount you will pay. The person selling you the product will inform you of the actual costs. | € 200 |
| Exit costs | We do not charge an exit fee for this product, but the person selling you the product may do so. | € 0 |
| Recurrent costs levied each year | | |
| Management fees and other administrative and operating expenses | 2.31% of the value of your investment per year. This estimate is based on actual costs over the past year. | € 231 |
| Transaction costs | 0.43% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the investments underlying the product. The actual amount varies depending on the quantity we buy and sell. | € 57 |
| Ancillary costs levied under certain conditions | | |
| Performance-related fees and profit-sharing fees | 15.00% of the outperformance above the benchmark (STOXX® Europe 600 Net Return) in the event of positive annual performance. The actual amount varies depending on the performance of your investment. The above estimate of total costs includes the average over the last five years. | € 0 |

How long do I have to keep it and can I withdraw money early?

The recommended investment horizon is a minimum of five years due to the nature of the underlying asset of this investment. The units of this UCI are medium-term investment vehicles and should be acquired with a view to diversifying your assets. You can redeem your units daily, redemption transactions are executed daily. Holding for less than the recommended period is likely to penalise the investor.

How can I make a complaint?

You may make a complaint about the product or the conduct of (i) Mandarine Gestion (ii) a person who provides advice about the product, or (iii) a person who sells the product, by sending an e-mail or a letter to the following persons, as appropriate:

- If your complaint concerns the product itself or the behaviour of Mandarine Gestion: please contact Mandarine Gestion by e-mail (serviceclient@mandarine-gestion.com) or by post, preferably with acknowledgement of receipt (Mandarine Gestion - for the attention of the Risk and Compliance Department - Mandarine Gestion - 40 avenue George V - 75008 Paris). A complaints procedure is available on the company's website https://www.mandarine-gestion.com/uploads/reg/reg_mandarine_reclamation-traitement_en.pdf
- If your complaint concerns a person who provides advice on or offers the product, please contact that person directly.
