The investment objective of First Trust US Large Cap Core AlphaDEX® UCITS ETF (the “US Large Cap ETF”) is to aim to provide investors with a total return, taking into account capital and income returns, which reflects the return of an equity index called the NASDAQ AlphaDEX® Large Cap Core Index (the “NLCC Index”). In order to achieve its investment objective, the investment policy of the US Large Cap ETF is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities of the NLCC Index.

Subject to Schedule III of First Trust Global Funds plc's (the “Company”) prospectus, First Trust Advisors L.P. (the “Investment Manager”) may also invest in a portfolio of assets which may comprise money market or short-term instruments such as government securities, bankers' acceptances, certificates of deposit, and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the US Large Cap ETF. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the net asset value (the “NAV” or “Net Asset Value”) of the US Large Cap ETF.

The investment objective of First Trust Emerging Markets AlphaDEX® UCITS ETF (the “Emerging Markets ETF”) is to aim to provide investors with a total return, taking into account capital and income returns, which reflects the return of an equity index called the NASDAQ AlphaDEX® Emerging Markets Index (the “NEM Index”). In order to achieve its investment objective, the investment policy of the Emerging Markets ETF is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities of the NEM Index or in depositary receipts that may include American Depositary Receipts (“ADRs”), Global Depositary Receipts (“GDRs”) or European Depositary Receipts (“EDRs”) representing securities in the NEM Index where direct investment in a constituent security of the NEM Index is not possible.

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as government securities, bankers' acceptances, certificates of deposit, and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the Emerging Markets ETF. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the Emerging Markets ETF.

Investment Manager's Report for the financial year ended 31 December 2024 (continued)

The investment objective of First Trust United Kingdom AlphaDEX[®] UCITS ETF (the "UK ETF") is to seek to provide investors with a total return, taking into account capital and income returns, which reflects the return of an equity index called the NASDAQ AlphaDEX[®] United Kingdom Index (the "UK Index"). In order to achieve its investment objective, the investment policy of the UK ETF is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities of the UK Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in the UK Index where direct investment in a constituent security of the UK Index is not possible. At all times, at least 75% of the total assets of the UK ETF will be invested in the equity securities of issuers domiciled in the United Kingdom.

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as government securities, bankers' acceptances, certificates of deposit, and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the UK ETF. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the UK ETF.

The investment objective of First Trust Eurozone AlphaDEX[®] UCITS ETF (the "Eurozone ETF") is to provide investors with a total return, taking into account capital and income returns, which reflects the return of an equity index called the NASDAQ AlphaDEX[®] Eurozone Index (the "EZ Index"). In order to achieve its investment objective, the investment policy of the Eurozone ETF is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities of the EZ Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in the EZ Index where direct investment in a constituent security of the EZ Index is not possible.

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as government securities, bankers' acceptances, certificates of deposit, and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the Eurozone ETF. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the Eurozone ETF.

The investment objective of First Trust Indxx NextG UCITS ETF (the "Indxx NextG ETF") is to provide investors with investment results that correspond generally to the price and yield, (before the Indxx NextG ETF's fees and expenses), of an equity index called the Indxx 5G & NextG Thematic Index (the "Indxx NextG Index"). In order to achieve its investment objective, the investment policy of the Indxx NextG ETF is to invest at least 90% of its net assets in a portfolio of common stocks that consists of the equity securities of the Indxx NextG Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in the Indxx NextG Index where direct investment in a constituent security of the Indxx NextG Index is not possible.

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as government securities, bankers' acceptances, certificates of deposit, and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the Indxx NextG ETF. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the Indxx NextG ETF.

The investment objective of First Trust US Equity Opportunities UCITS ETF (the "US Equity Opportunities ETF") is to provide investors with investment results that correspond generally to the price and yield of an equity index called the IPOX[®]-100 U.S. Index (the "IPOX[®]-100 Index"). In order to achieve its investment objective, the investment policy of the US Equity Opportunities ETF is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities of the IPOX[®]-100 Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in the IPOX[®]-100 Index where direct investment in a constituent security of the IPOX[®]-100 Index is not possible.

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as government securities, bankers' acceptances, certificates of deposit, and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the US Equity Opportunities ETF. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the US Equity Opportunities ETF.

The investment objective of First Trust Global Equity Income UCITS ETF (the "Global ETF") is to provide investors with investment results that correspond generally to the price and yield of an equity index called the NASDAQ Global High Equity Income Index (the "Global Index"). In order to achieve its investment objective, the investment policy of the Global ETF is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities of the Global Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in the Global Index where direct investment in a constituent security of the Global Index is not possible.

Investment Manager's Report for the financial year ended 31 December 2024 (continued)

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as government securities, bankers' acceptances, certificates of deposit, and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the Global ETF. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the Global ETF.

The investment objective of First Trust Germany AlphaDEX[®] UCITS ETF (the "Germany ETF") is to provide investors with investment results that correspond generally to the price and yield of an equity index called the NASDAQ AlphaDEX[®] Germany Index (the "Germany Index"). In order to achieve its investment objective, the investment policy of the Germany ETF is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities of the Germany Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in the Germany Index where direct investment in a constituent security of the Germany Index is not possible.

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as government securities, bankers' acceptances, certificates of deposit, and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the Germany ETF. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the Germany ETF.

The investment objective of First Trust US Equity Income UCITS ETF (the "US Equity ETF") is to provide investors with investment results that correspond generally to the price and yield of an equity index called the NASDAQ US High Equity Income Index (the "US High Equity Index"). In order to achieve its investment objective, the investment policy of the US Equity ETF is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities of the US High Equity Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in the US High Equity Index where direct investment in a constituent security of the US High Equity Index is not possible.

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as government securities, bankers' acceptances, certificates of deposit, and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the US Equity ETF. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the US Equity ETF.

The investment objective of First Trust Dow Jones International Internet UCITS ETF (the "International Internet ETF") is to provide investors with investment results that correspond generally to the price and yield, (before the International Internet ETF's fees and expenses), of an equity index called the Dow Jones International Internet Index (the "International Internet Index"). In order to achieve its investment objective, the investment policy of the International Internet ETF is to invest at least 90% of its net assets in a portfolio of the equity securities of the International Internet Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in the International Internet Index where direct investment in a constituent security of the International Internet Index is not possible.

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as government securities, bankers' acceptances, certificates of deposit and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the International Internet ETF. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the International Internet ETF.

The investment objective of First Trust Nasdaq[®] Clean Edge[®] Green Energy UCITS ETF (the "Clean Edge ETF") is to provide investors with investment results that correspond generally to the price and yield, (before the Clean Edge ETF's fees and expenses), of an equity index called Nasdaq[®] Clean Edge[®] Green Energy IndexSM (the "Clean Edge Index"). In order to achieve its investment objective, the investment policy of the Clean Edge ETF is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities of the Clean Edge Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in the Clean Edge Index where direct investment in a constituent security of the Clean Edge Index is not possible.

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as government securities, bankers' acceptances, certificates of deposit and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the Clean Edge ETF. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the Clean Edge ETF.

Investment Manager's Report for the financial year ended 31 December 2024 (continued)

The investment objective of First Trust Indxx Innovative Transaction & Process UCITS ETF (the "Indxx ETF") is to provide investors with investment results that correspond generally to the price and yield of an equity index called the Indxx Blockchain Index (the "Blockchain Index"). In order to achieve its investment objective, the investment policy of the Indxx ETF is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities (or corresponding ADRs or GDRs) within the Blockchain Index or in ADRs or GDRs representing securities in the Blockchain Index where direct investment in a constituent security of the Blockchain Index is not practicable or possible.

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as Investment Grade fixed and floating government securities, bankers' acceptances, certificates of deposit and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the Indxx ETF. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the Indxx ETF.

The investment objective of First Trust Dow Jones Internet UCITS ETF (the "Dow Jones ETF") is to provide investors with a total return, taking into account capital and income returns, which reflects the return of an equity index called the Dow Jones Internet Composite IndexSM (the "Dow Jones Index"). In order to achieve its investment objective, the investment policy of the Dow Jones ETF is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities of the Dow Jones Index or other depositary receipts representing securities in the Dow Jones Index where direct investment in a constituent security of the Dow Jones Index is not practicable or possible.

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as Investment Grade fixed and floating government securities, bankers' acceptances, certificates of deposit and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the Dow Jones ETF. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the Dow Jones ETF.

The investment objective of First Trust Cloud Computing UCITS ETF (the "Cloud Computing ETF") is to provide investors with investment results that correspond generally to the price and yield of an equity index called the ISE CTA Cloud ComputingTM Index (the "Cloud Computing Index"). In order to achieve its investment objective, the investment policy of the Cloud Computing ETF is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities of the Cloud Computing Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in the Cloud Computing Index where direct investment in a constituent security of the Cloud Computing Index is not practicable or possible.

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as Investment Grade fixed and floating government securities, bankers' acceptances, certificates of deposit, and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the Cloud Computing ETF. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the Cloud Computing ETF.

The investment objective of First Trust Capital Strength UCITS ETF (the "Capital Strength ETF") is to provide investors with investment results that correspond generally to the price and yield, (before the Capital Strength ETF's fees and expenses), of an equity index called The Capital Strength IndexSM ("The Capital Strength Index"). In order to achieve its investment objective, the investment policy of the Capital Strength ETF is to invest at least 90% of its net assets in the common stocks and real estate investment trusts ("REITs") that comprise The Capital Strength Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in The Capital Strength Index where direct investment in a constituent security of The Capital Strength Index is not possible.

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as Investment Grade fixed and floating government securities, bankers' acceptances, certificates of deposit, and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the Capital Strength ETF. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the Capital Strength ETF.

The investment objective of First Trust Value Line[®] Dividend Index UCITS ETF (the "Value Line Dividend ETF") is to provide investors with investment results that correspond generally to the price and yield, (before the Value Line Dividend ETF's fees and expenses), of an equity index called the Value Line[®] Dividend Index (the "Value Line Dividend Index"). In order to achieve its investment objective, the investment policy of the Value Line Dividend ETF is to invest at least 90% of its net assets in the common stocks and depositary receipts that comprise the Value Line Dividend Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in the Value Line Dividend Index where direct investment in a constituent security of the Value Line Dividend Index is not possible.

Investment Manager's Report for the financial year ended 31 December 2024 (continued)

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as Investment Grade fixed and floating government securities, bankers' acceptances, certificates of deposit, and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the Value Line Dividend ETF. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the Value Line Dividend ETF.

The investment objective of First Trust NYSE Arca Biotechnology UCITS ETF (the "Biotechnology ETF") is to provide investors with investment results that correspond generally to the price and yield, (before the Biotechnology ETF's fees and expenses), of an equity index called the NYSE Arca Biotechnology IndexSM (the "Biotechnology Index"). In order to achieve its investment objective, the investment policy of the Biotechnology ETF is to invest at least 90% of its net assets in the common stocks and depositary receipts that comprise the Biotechnology Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in the Biotechnology Index where direct investment in a constituent security of the Biotechnology Index is not possible.

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as Investment Grade fixed and floating government securities, bankers' acceptances, certificates of deposit, and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the Biotechnology ETF. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the Biotechnology ETF.

The investment objective of First Trust Nasdaq Cybersecurity UCITS ETF (the "Cybersecurity ETF") is to provide investors with investment results that corresponded generally to the price and yield, (before the Cybersecurity ETF's fees and expenses), of a total return equity index called the Nasdaq CTA Cybersecurity Exclusions IndexTM (the "Cybersecurity Index"). In order to achieve its investment objective, the investment policy of the Cybersecurity ETF is to invest at least 90% of its net assets in the common stocks and depositary receipts that comprise the Cybersecurity Index or in depositary receipts that may include ADRs or GDRs representing securities in the Cybersecurity Index where direct investment in a constituent security of the Cybersecurity Index is not possible.

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as Investment Grade fixed and floating government securities, bankers' acceptances, certificates of deposit, and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the Cybersecurity ETF. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the Cybersecurity ETF.

The investment objective of First Trust IPOX[®] Europe Equity Opportunities UCITS ETF (the "IPOX Europe ETF") is to provide investors with investment results that correspond generally to the price and yield, (before the IPOX Europe ETF's fees and expenses), of an equity index called the IPOX[®]-100 Europe Index (the "IPOX[®]-100 Index"). In order to achieve its investment objective, the investment policy of the IPOX Europe ETF is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities of the IPOX[®]-100 Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in the IPOX[®]-100 Index where direct investment in a constituent security of the IPOX[®]-100 Index is not possible.

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as Investment Grade fixed and floating government securities, bankers' acceptances, certificates of deposit, and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the IPOX Europe ETF. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the IPOX Europe ETF.

The investment objective of First Trust Alerian Disruptive Technology Real Estate UCITS ETF (the "Alerian DTRE ETF") is to provide investors with investment results that correspond generally to the price and yield, (before the Alerian DTRE ETF's fees and expenses), to those of an equity index called the Alerian Disruptive Technology Real Estate Index (the "Alerian DTRE Index"). In order to achieve its investment objective, the investment policy of the Alerian DTRE ETF is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities of the Alerian DTRE Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in the Alerian DTRE Index where direct investment in a constituent security of the Alerian DTRE Index is not possible.

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as Investment Grade fixed and floating government securities, bankers' acceptances, certificates of deposit, and eligible collective investment schemes which have a similar investment objective and policies as that of the Alerian DTRE ETF or are money market funds. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the Alerian DTRE ETF.

Investment Manager's Report for the financial year ended 31 December 2024 (continued)

The investment objective of First Trust Nasdaq® Clean Edge® Smart Grid Infrastructure UCITS ETF (the “Smart Grid Infrastructure ETF”) is to provide investors with investment results that correspond generally to the price and yield, (before the Smart Grid Infrastructure ETF’s fees and expenses), to those of an equity index called the Nasdaq OMX Clean Edge Smart Grid Infrastructure Index™ (the “Smart Grid Infrastructure Index”). In order to achieve its investment objective, the investment policy of the Smart Grid Infrastructure ETF is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities of the Smart Grid Infrastructure Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in the Smart Grid Infrastructure Index where direct investment in a constituent security of the Smart Grid Infrastructure Index is not possible.

Subject to Schedule III of the Company’s prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as Investment Grade fixed and floating government securities, bankers’ acceptances, certificates of deposit, and eligible collective investment schemes which have a similar investment objective and policies as that of the Smart Grid Infrastructure ETF or are money market funds. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the Smart Grid Infrastructure ETF.

The investment objective of First Trust Bloomberg Scarce Resource UCITS ETF (the “Scarce Resources ETF”) is to provide investors with investment results that correspond generally to the price and yield (before the Scarce Resources ETF’s fees and expenses), to those of the Bloomberg Scarce Resources Index (the “Scarce Resources Index”). In order to achieve its investment objective, the investment policy of the Scarce Resources ETF is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities of the Scarce Resources Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in the Scarce Resources Index where direct investment in a constituent security of the Scarce Resources Index is not possible.

Subject to Schedule III of the Company’s prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as Investment Grade fixed and floating government securities, bankers’ acceptances, certificates of deposit, and eligible collective investment schemes which have a similar investment objective and policies as that of the Scarce Resources ETF or are money market funds. The amount which may be invested in such money market instruments, short-term instruments and Eligible Collective Investment Schemes shall not exceed 10% of the NAV of the Scarce Resources ETF.

The investment objective of First Trust Indxx Future Economy Metals UCITS ETF (the “Economy Metals ETF”) is to provide investors with investment results that correspond generally to the price and yield (before the Economy Metals ETF’s fees and expenses), to those of the Indxx Global Future Economy Metals Index (the “Economy Metals Index”). In order to achieve its investment objective, the investment policy of the Economy Metals ETF is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities of the Economy Metals Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in the Economy Metals Index where direct investment in a constituent security of the Index is not possible.

Subject to Schedule III of the Company’s prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as Investment Grade fixed and floating government securities, bankers’ acceptances, certificates of deposit, and eligible collective investment schemes which have a similar investment objective and policies as that of the Economy Metals ETF or are money market funds. The amount which may be invested in such money market instruments, short-term instruments and Eligible Collective Investment Schemes shall not exceed 10% of the NAV of the Economy Metals ETF.

The investment objective of First Trust SMID Rising Dividend Achievers UCITS ETF (the “SMID Rising Achievers ETF”) is to provide investors with investment results that correspond generally to the price and yield (before the Rising Dividend Achievers ETF’s fees and expenses), to those of the Nasdaq US Small Mid Cap Rising Dividend Achievers™ Index (the “SMID Rising Achievers Index”). In order to achieve its investment objective, the investment policy of the SMID Rising Achievers ETF is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities of the SMID Rising Achievers Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in the SMID Rising Achievers Index where direct investment in a constituent security of the SMID Rising Achievers Index is not possible.

Subject to Schedule III of the Company’s prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as Investment Grade fixed and floating government securities, bankers’ acceptances, certificates of deposit, and eligible collective investment schemes which have a similar investment objective and policies as that of the SMID Rising Achievers ETF or are money market funds. The amount which may be invested in such money market instruments, short-term instruments and Eligible Collective Investment Schemes shall not exceed 10% of the NAV of the SMID Rising Achievers ETF.

The investment objective of First Trust US Momentum UCITS ETF (the “US Momentum ETF”) is to provide investors with investment results that correspond generally to the price and yield, (before the US Momentum ETF’s fees and expenses), to those of US Momentum Index (the “US Momentum Index”). In order to achieve its investment objective, the investment policy of the US Momentum ETF is to invest at least 90% of its net assets in a portfolio of equity securities that consists of the equity securities of the US Momentum Index or in depositary receipts that may include ADRs, GDRs or EDRs representing securities in the US Momentum Index where direct investment in a constituent security of the US Momentum Index is not possible.

Investment Manager's Report for the financial year ended 31 December 2024 (continued)

Investment Manager's Report for the financial year ended 31 December 2024 (continued)

Each of First Trust US Large Cap Core AlphaDEX[®] UCITS ETF, First Trust Emerging Markets AlphaDEX[®] UCITS ETF, First Trust United Kingdom AlphaDEX[®] UCITS ETF, First Trust Eurozone AlphaDEX[®] UCITS ETF, First Trust Indxx NextG UCITS ETF, First Trust US Equity Opportunities UCITS ETF, First Trust Global Equity Income UCITS ETF, First Trust Germany AlphaDEX[®] UCITS ETF, First Trust US Equity Income UCITS ETF, First Trust Dow Jones International Internet UCITS ETF, First Trust Nasdaq[®] Clean Edge[®] Green Energy UCITS ETF, First Trust Indxx Innovative Transaction & Process UCITS ETF, First Trust Dow Jones Internet UCITS ETF, First Trust Cloud Computing UCITS ETF, First Trust Capital Strength UCITS ETF, First Trust Value Line[®] Dividend Index UCITS ETF, First Trust NYSE Arca Biotechnology UCITS ETF, First Trust Nasdaq Cybersecurity UCITS ETF, First Trust IPOX[®] Europe Equity Opportunities UCITS ETF, First Trust Alerian Disruptive Technology Real Estate UCITS ETF, First Trust Nasdaq[®] Clean Edge[®] Smart Grid Infrastructure UCITS ETF, First Trust Bloomberg Scarce Resources UCITS ETF, First Trust Indxx Future Economy Metals UCITS ETF, First Trust SMID Rising Dividend Achievers UCITS ETF, First Trust US Momentum UCITS ETF, First Trust Growth Strength UCITS ETF, First Trust Bloomberg Global Semiconductor Supply Chain UCITS ETF and First Trust Indxx Global Aerospace & Defence UCITS ETF (each a "Fund" and collectively the "Funds") have pursued the objective of replicating the performance of the relevant net total return index by seeking to hold a portfolio of transferable securities that consists of substantially all of the component securities of that index in substantially the same weighting as the index.

The composition of the securities held by each Fund has been adjusted periodically to seek to replicate the composition and weighting of the relevant index.

Dividends accrued on the Funds' securities have been reinvested in accordance with the underlying indices. By reinvesting dividends, net of management fees, in the indices, the Funds' cash component was kept to a minimum.

This income reinvestment policy is designed to alleviate the effects of cash drag until the time of dividend payment because the Funds track net total performance indices. Re-exposing cash to the index not only minimised dividend drag but also recurrent management or transaction fees paid to counterparties outside the Funds for short-term cash management.

Moreover, full replication kept the Funds' tracking error with the relevant underlying index within the expected levels.

Tracking error computation should be based on net total returns indices because of the Funds' income reinvestment policy. The net total return indices are publicly available.

Performance Update*

First Trust US Large Cap Core AlphaDEX[®] UCITS ETF Class A shares

There were 7,575,000 net shares created in the period since inception (+\$166.47 million). During the period since inception, the Fund had a net return of +5.75%, compared to the Nasdaq US SMID Cap Rising Dividend Achievers Total Return Index performance of +6.46%, i.e. -0.71% relative performance. During the period under review, the Fund had a tracking error of 0.004%, which corresponded with our expectations.

First Trust US Momentum UCITS ETF

As of 31 December 2024, the NAV of First Trust US Momentum UCITS ETF was \$41.42M. The Fund owned 180 stocks as of 31 December 2024. There were 1,950,002 net shares created in the period since inception (+\$39.79 million). During the period since inception, the Fund had a net return of +6.20%, compared to the S&P 500® Index performance of +6.39%, i.e. -0.19% relative performance. During the period under review, the Fund had a tracking error of 0.005%, which corresponded with our expectations.

First Trust Growth Strength UCITS ETF

As of 31 December 2024, the NAV of First Trust Growth Strength UCITS ETF was \$0.98M. The Fund owned 50 stocks as of 31 December 2024. There were 50,002 net shares created in the period since inception (+\$0.99 million). During the period since inception, the Fund had a net return of -1.36%, compared to the Growth Strength Index performance of -1.25%, i.e. -0.11% relative performance. During the period under review, the Fund had a tracking error of 0.003%, which corresponded with our expectations.

First Trust Indxx Global Aerospace & Defence UCITS ETF

As of 31 December 2024, the NAV of First Trust Indxx Global Aerospace & Defence UCITS ETF was \$0.98M. The Fund owned 47 stocks as of 31 December 2024. There were 50,002 net shares created in the period since inception (+\$1.0 million). During the period since inception, the Fund had a net return of -2.59%, compared to the Indxx Global Advanced Aerospace and Defence Index performance of -2.60%, i.e. +0.01% relative performance. During the period under review, the Fund had a tracking error of 0.037%, which corresponded with our expectations.

First Trust Bloomberg Global Semiconductor Supply Chain UCITS ETF

As of 31 December 2024, the NAV of First Trust Bloomberg Global Semiconductor Supply Chain UCITS ETF was \$1M. The Fund owned 50 stocks as of 31 December 2024. There were 50,002 net shares created in the period since inception (+\$1.01 million). During the period since inception, the Fund had a net return of -1.14%, compared to the Bloomberg Global Semiconductors Supply Chain Select Net Return Index performance of -1.07%, i.e. -0.07% relative performance. During the period under review, the Fund had a tracking error of 0.019%, which corresponded with our expectations.

Investment Manager's Report for the financial year ended 31 December 2024 (continued)

First Trust FactorFX UCITS ETF*

Market Commentary

As 2024 commenced, we saw sharp divergence in central bank monetary policy rates, the Swiss National Bank began cutting policy rates alongside the Swedish Riksbank and Bank of Canada whilst many of the other central banks including the Federal Reserve ("FED") and European Central Bank ("ECB") maintained their policy rates (in spite of dovish rate-cut market expectations at the beginning of the year). Initially the year was favourable for the G10 Carry trade, however this witnessed a sharp reversal in the third quarter as the Japanese Yen appreciated following weak US data and a hawkish surprise from the Bank of Japan ("BoJ") in July and early August with a broader FX Carry unwind. In the fourth quarter, the G10 Carry trade rebounded, benefitting from a strong US dollar. Emerging Market Currencies were weaker over the course of the year, primarily during the fourth quarter as tariff expectations following U.S. President Trump's electoral victory caused a headwind for these countries.

The Bloomberg Cumulative FX Carry Trade Index for Managed G10 Currencies (the "G10 Carry Index") returned 8.58% for the full year and the Bloomberg Cumulative FX Carry Trade Index for 8 Emerging Market Currencies (the "EM Carry Index") declined -3.17%. Gains for the G10 Carry Index were in the first half and final quarter of the year whereas EM Carry Index gained in the third quarter but gave up those gains in the final quarter of the year.

The period saw broad weakness across G10 currencies, driven by a strong US dollar. The worst performer, on a total return perspective, was the Japanese Yen falling -15% (in spite of the strong reversal/rally in Q3 during the Yen Carry unwind) followed by the New Zealand dollar and Norwegian Krone which fell -11.7% and -11.4% respectively. The top performing currency, on a relative basis, was the British Pound -2.1% followed by Singapore Dollar -5.03% and Euro -7.69%. The British Pound was one of the few currencies which exhibited positive carry versus the US Dollar, meaning its relative outperformance further supported the G10 Carry Index.

In Emerging markets, the higher yielding Latin American currencies led declines, with the Brazilian Real the largest laggard for the year with -18.6%. Outside of Latin America, South Korean Won experienced weakness -14.3% predominately in the fourth quarter for idiosyncratic reasons alongside broad US Dollar strength. There was relative strength in the Turkish Lira +24.7% (from a total return perspective, when incorporating the implied 40%+ carry vs US Dollar), Malaysian Ringgit +1.53% and South African Rand +0.5%.

Fund Commentary

The investment objective of First Trust FactorFX UCITS ETF (the "FactorFX ETF") is to deliver to investors' total returns with lower correlation to the broader equity and bond markets over the medium to long term through its exposure to global currencies and related markets. In order to achieve its investment objective, the investment policy of the FactorFX ETF is to invest 25% to 100% of its net assets in a portfolio of sovereign fixed income securities. The FactorFX ETF may also invest in forward currency contracts, futures, swaps and options. FactorFX ETF intends to pursue an actively managed investment strategy.

The Investment Manager or First Trust Global Portfolios Limited ("FTGP") may invest in sovereign fixed income securities which will be traded or dealt in on Regulated Markets worldwide. These sovereign fixed income securities may be in developed or emerging markets, may be either fixed or floating and Investment Grade or below Investment Grade and the average duration of these securities is likely to be less than two years. The FactorFX ETF may invest up to 30% of its NAV in below Investment Grade fixed income securities. The FactorFX ETF may also invest up to 30% of its NAV in sovereign fixed income securities issued in emerging markets. The amount which may be invested in such money market funds shall not exceed 10% of the NAV of the FactorFX ETF.

For the period ended 31 December 2024, the First Trust FactorFX UCITS ETF (the "Fund") returned 5.84% on a net asset value (NAV) basis compared to the 8.58% return of the G10 Carry Index and the -3.17% return of the EM Carry Index. The Blended benchmark, an equal weight of the G10 Carry and EM Carry Indices, rose 2.71% over the period.

The Fund began the year with net long exposures in emerging market currencies versus the US Dollar and with essentially flat developed market exposures, following a period of Emerging Market strength vs US Dollar weakness in the final quarter of 2023. Net long exposures to developed market currencies versus the US Dollar started the year at 0.7% and net long exposures to emerging market currencies started at 58.8%. The exposures in developed market currencies reduced significantly through the period (especially in Q4) to end with a net short in developed market currencies versus the US Dollar of -68.9% alongside a reduction the net long exposure to emerging market currencies at 20.3%.

In developed market currencies, the largest contributor to the Fund returns came from the short exposure to the Swiss Franc and Japanese Yen. The major detractors were from the long exposure to the Norwegian Krone and New Zealand Dollar. In emerging markets, the positive contributors came from short exposures to the Czech Krone and Israeli Shekel, while the detractors came from exposures to the Brazilian Real, Colombian Peso, Mexican Peso and Chilean Peso. The other positive contribution to the Fund returns came from the short-dated US Treasury securities held by the Fund, given higher short-term interest rates in the United States this contribution is now more significant.

The Fund gross exposure (long positions plus short positions) decreased over the period from around 270% at the beginning of the year to 246% at the end.

* References to benchmarks are for illustrative purposes only. There is no guarantee that a Fund will outperform its benchmark.

First Trust Global Funds plc

Investment Manager's Report for the financial year ended 31 December 2024 (continued)

First Trust FactorFX UCITS ETF* (continued)

Fund Commentary (continued)

The strategy factor scores show a strong decrease in momentum for both developed and emerging market currencies versus the US Dollar over the year which has led to the strategy shifting to a net long US Dollar position. Implied carry remains high for the US Dollar versus most other G10 currencies, given the high US short-term rates, while emerging market currencies in aggregate exhibit higher carry than the US Dollar. Finally, the US Dollar remains overvalued versus most other global currencies based on purchasing power parity.

The implied yield on the Fund remained elevated over the period as US short-term interest rates remained high and the Fund targeted higher yielding versus lower yielding currency exposures. The average long exposure to emerging market currencies also contributed to the high implied yield. As of the 31st of December 2024 the implied yield on the Fund was 11.47%, versus 9.95% at the start of the year. The implied yield is the combination of yield on the global treasury holdings in the Fund and the implied yield across the forward foreign exchange contracts. At the end of the period, the average weighted duration of the bond holdings was 0.49 which was invested in AAA and AA rated sovereign bonds.

The Fund strategy seeks to identify carry opportunities across developed and emerging market currencies and utilises value and momentum factors to determine positioning. The ability of the Fund to capture the FX currency carry opportunities and deliver sizeable returns over the period highlights the attractiveness of this alternative asset class for investors. The correlation of the Fund to traditional equity and fixed income asset classes is low historically, which allows for diversification in broad portfolios. Since the Fund moved its derivative exposure limits from commitment approach to the absolute VaR approach two years ago, the Fund has been able to deliver positive returns in both years (in spite of movements in the US Dollar), with low volatility and low correlation to equity markets.

Looking ahead, central bank policy rates continue to adjust and there remains large divergences across countries. This dynamic should provide an attractive opportunity set for currency carry strategies to take advantage of going forward.

Investment Manager's Report for the financial year ended 31 December 2024 (continued)

First Trust Low Duration Global Government Bond UCITS ETF*

Market Commentary

The year 2024 saw significant movements in government bond yields, driven by shifting inflation and growth expectations. During the first half of the year, global central banks retracted some of the aggressive policy rate cuts that markets had priced in, as inflation proved more persistent than initially anticipated. This resulted in a general rise in bond yields, with the US 10-year Treasury bond yield climbing from 3.88% at the start of the year to 4.40% by the end of June.

The US Federal Reserve's policy easing cycle in the third quarter drove the US 10-year Treasury bond yield down to 3.78% by the end of September. However, this trend reversed in the fourth quarter as renewed growth optimism and the U.S. Presidential election pushed yields higher, with the 10-year Treasury ending the year at 4.57%. While global yields broadly moved in tandem, regional differences remained: the European Central Bank maintained a dovish stance amid weak European growth, while the Bank of Japan initiated a hiking cycle to address rising inflation.

Higher government bond yields over the year led to an increase in the yield-to-worst of the Bloomberg Barclays Global Aggregate Treasuries Index, which rose from 2.92% at the start of 2024 to 3.18% by year-end. As noted, US yields closed higher, and similar trends were observed in Japan, France, Germany, and the United Kingdom. Conversely, some major markets, such as China, South Korea, and Italy, ended the year with lower yields. China, in particular, continued to grapple with economic growth concerns.

At the start of 2024, many sovereign yield curves, including those of the United States, Canada, Germany, and the United Kingdom, were inverted. By year-end, however, all core government bond yield curves had shifted to an upward slope. This steepening was primarily driven by rising long-end yields, while shorter maturities, such as 2-year bonds, generally saw yields decline. In the United States, less dovish rhetoric kept 2-year Treasury yields relatively flat for the year. Meanwhile, most of Europe and China experienced lower yields at the short end of the curve, whereas Japan saw an increase in short-end yields due to its policy rate hikes.

The duration of the Bloomberg Barclays Global Aggregate Treasuries Index declined to 7.13 from 7.43 at the start of the year, reflecting the impact of rising yields. By contrast, the duration of the ICE BofA 3-5 Year Global Government Index remained relatively stable at 3.74.

Fund Commentary

The investment objective of First Trust Low Duration Global Government Bond UCITS ETF (the "Low Duration ETF" or the "Fund") is to deliver total returns to investors over the medium to long term by investing in sovereign Fixed Income Securities globally. In order to achieve its investment objective, the investment policy of the Low Duration ETF is to invest at least 80% of its Net Asset Value ("NAV") in a portfolio of global sovereign fixed income securities. The Low Duration ETF intends to pursue an actively managed investment strategy.

The Investment Manager or First Trust Global Portfolios Limited ("FTGP") may invest primarily in Investment Grade rated fixed income securities which are listed, traded or dealt on Regulated Markets worldwide, including developed and emerging market countries (including Russia) and which are issued by governments, local authorities, Supranational Organisations and public sector bodies and will seek to minimise the effect of the underlying currency exposure of those securities by utilising currency hedging transactions. FTGP may also use interest rate financial derivative instruments in order to manage and hedge its interest rate exposure. The financial derivative instruments used may be forward foreign exchange contracts, currency futures, interest rate futures and interest rate swaps. The Low Duration ETF's investment in money market funds shall not exceed 10% of the NAV of the Low Duration ETF.

The Low Duration ETF returned 2.26% on a NAV basis for the year ending 31 December 2024. The ICE BofA 3-5 year Global Government Bond Index hedged to Euros rose 1.51%, and the Bloomberg Global Aggregate Treasury Index, Euro hedged, rose 1.28% over the same period.

The Fund strategically positions its exposures within the steeper yield curves across its global universe on an ongoing basis. Through the year, the Fund benefitted from being underweight the United States and Japan versus the benchmark as yields rose in both markets. These two markets account for a substantial weight of the benchmark indices. The Funds overweight exposures in favour of the Euro-area helped relative returns as yields generally rose less in the Euro-area. Overweight exposure to Australia and New Zealand hurt relative returns as did the exposure to many of the emerging market yield curves. However, China was an exception, where the Fund was underweight versus the benchmark but Chinese bonds performed well. Through the period the short futures exposures, used to reduce the overall duration of the Fund, benefitted returns.

The Fund's duration exposures are tilted towards the higher carry and relatively steeper yield curves in the Euro-area, Australia and New Zealand. There were also some exposures to the steeper yield curves in investment grade rated emerging markets like Peru, Indonesia, Mexico and Israel. The Fund's short duration exposure is concentrated in the relatively flatter yield curves of South Korea, the United Kingdom, Canada and the United States.

First Trust Global Funds plc

Investment Manager's Report for the financial year ended 31 December 2024 (continued)

First Trust Low Duration Global Government Bond UCITS ETF* (continued)

Fund Commentary (continued)

At 31 December 2024, the Fund's weighted average yield to maturity was 3.80%, which was lower than the 4.02% at the start of the year. The Fund's average duration was 3.47 and has been maintained between 2 and 4 through the year. The Fund was invested in sovereign bonds across 28 different yield curves with all the Fund's holdings being investment-grade rated. Bond positions not denominated in the Fund's base currency, Euro's, were hedged using currency forward contracts. At the end of the period, the Fund's top 3 country exposures were to government bonds in Australia, New Zealand and Italy. The Fund also had short exposures through interest rate futures to South Korean 10yr bond futures, UK 10yr Gilt futures, Canadian 10yr bond futures and US 10yr Treasury futures to maintain the overall duration of the Fund with the 2 to 4 target.

Looking ahead, higher yields across global fixed income markets present a favourable backdrop for the strategy. The Fund's factor-driven, rules-based approach, which prioritises maximising interest rate carry, will remain focused on steep sovereign yield curves that offer attractive compensation for duration risk. We believe this disciplined approach is well-positioned to deliver positive excess returns over time, particularly relative to traditional market capitalisation-weighted indices.

* References to benchmarks are for illustrative purposes only. There is no guarantee that a Fund will outperform its benchmark.

Investment Manager's Report for the financial year ended 31 December 2024 (continued)

First Trust Strategic Metal and Energy Equity UCITS Fund*

Market Commentary

U.S. economic growth was strong during the fiscal year 1 January 2024 to 31 December 2024. Average quarterly Real Gross Domestic Product ("GDP") growth for the four quarters of the year was 2.5% annualised. This is down 0.7% from the average quarterly growth rate of 3.2% in 2023, but still very respectable. The U.S. Labor market, as measured by the Bureau of Labor Statistics ("BLS") Non-Farm payroll release, showed strong employment growth during the fiscal year, with 2.2 million jobs added to the U.S. economy during the period. Labor market participation remained steady for the year at 62.5% of the working age adults actively participating in the labor market. After declining on a real basis (inflation adjusted) during the covid years of 2021 to 2023, real wages finished up for the second year in a row, rising by 1.0% in 2024 after a 0.9% increase in 2023. With inflation slowing slightly, nominal wage growth was 3.9% in 2024 versus 4.3% in 2023. Year over year inflation as measured by the consumer price index was 2.9% in 2024, 0.5% lower than in 2023.

The Federal Reserve ("Fed") switched from a bias to hike to actual rate cuts during the year, as their balance of risks shifted to less concern about inflation which is down significantly, to slightly more concern about unemployment, which is up slightly in the year. As a result, the Fed cut rates three times during the year, enacting a 0.50% cut in September and two 0.25% cuts in November and December. The upper band of the Fed Funds target rate as of year-end was 4.50%. As of year-end, the market, as expressed in fixed income futures contracts, is expecting the Federal Reserve to reduce rates by approximately 0.5% in 2025, which would lower the Fed Funds rate to 4.00%.

The U.S. equity market, as represented by the S&P 500 (the "Index"), rallied during this fiscal year, up 25.02%. Bonds, as represented by the Bloomberg U.S. Agg Index were up during the period by 1.25% and riskier high yield bonds (Bloomberg U.S. Corporate High Yield Bond Index) were up 8.19%. Commodity markets were modestly positive with the Bloomberg Commodity Index up 5.38%.

Fund Commentary

The investment objective of First Trust Strategic Metal and Energy Equity UCITS Fund (the "Strategic UCITS Fund") is to provide investors with long term returns, through capital growth. In order to achieve its investment objective, the investment policy of the Strategic UCITS Fund is to invest in a diversified portfolio of equity securities related to gold and oil which are listed or traded on Regulated Markets worldwide. The equity securities related to gold and oil in which the Strategic UCITS Fund will invest shall primarily consist of common stocks (and their equivalent for other corporate structures such as limited partnerships, land trusts and royalty income trusts, which may be purchased instead of corporate structures in some jurisdictions for tax benefit purposes). The securities in which the Strategic UCITS Fund will invest will be listed or traded on Regulated Markets worldwide. The Strategic UCITS Fund may also invest up to 10% of the NAV in other transferable securities such as convertible securities and warrants. The Strategic UCITS Fund intends to pursue an actively managed investment strategy.

The Investment Manager will identify the potential universe of gold and oil stocks in which to invest by screening for equity securities issued by companies deriving a substantial part of their income from, or having a substantial portion of their assets in gold and oil related sectors and industries and which may include companies involved in mining, exploration and production of gold and oil. The Investment Manager will then create a diversified portfolio by including the largest gold and oil stocks in the investment universe by reference to market capitalisation. The Strategic UCITS Fund's portfolio will consist of two 'sleeves' of up to 150 stocks each, one comprising of gold stocks and the other comprising oil stocks.

The First Trust Strategic Metal and Energy Equity UCITS Fund returned 2.33% for the year ended 31 December 2024. The Strategic UCITS Fund's unmanaged benchmark (50% NYSE Arca Gold Miners Index/50% S&P Oil & Gas Exploration & Production Index) returned 6.21% for the same period. For the year, gold stocks within the portfolio have been the primary driver of returns with the NYSE Arca Gold Miners Index ("Gold Index") up 10.64% while the S&P Oil & Gas Exploration & Production Index ("Oil Index") was down -0.70%. Gold and oil stocks both lagged the price increases of their respective underlying raw materials as the Bloomberg Commodity total return sub-indexes for gold and Brent oil returned 26.62% and 9.45%, respectively.

The Strategic UCITS Fund's relative returns were positively affected by the performance of the individual stocks in the oil and gold portfolios during the fiscal period. Oil stocks outperformed the S&P Oil & Gas Exploration index for the first three quarters of the fiscal period only to see significant underperformance in the 4th quarter as smaller capitalisation oil stocks outperformed. By year-end, oil stocks for the year were a small positive contributor to fund returns. Gold stocks underperformed the NYSE Arca Gold Miners Index by a small amount in the first half of the year and then recovered and added significant value in the 2nd half of the year. The allocation to the oil and gold portfolios switched during the year, with a two-month overweight to oil in March and April and a one-month overweight to gold in September. Overall, the capital allocation process subtracted from returns, with much of the underperformance occurring during the March and April period when the Strategic UCITS Fund was overweight to oil. September's overweight to gold was also a small detractor for relative returns for the year.

* References to benchmarks are for illustrative purposes only. There is no guarantee that a Fund will outperform its benchmark.

First Trust Global Funds plc

Investment Manager's Report for the financial year ended 31 December 2024 (continued)

First Trust Strategic Metal and Energy Equity UCITS Fund* (continued)

Outlook

We believe that the Strategic UCITS Fund is well positioned to achieve its investment objective of long-term returns through capital growth. As of year-end, the Strategic UCITS Fund's industry allocation is 50.98% oil stocks and 49.02% gold stocks. We believe the prospects of higher inflation globally due to a decade of aggressive fiscal and monetary policies is a positive for the First Trust Strategic Metal and Energy UCITS Fund forward return potential. Central banks globally have switched from raising rates to combat inflation to cutting rates based upon growth concerns, all while inflation is running at rates above their target inflation rates. Gold and oil are both physical commodities, which should appreciate versus the U.S. dollar in a high inflationary environment. All else being equal, that should be beneficial for the underlying companies that mine or extract physical gold and oil from the ground.

First Trust Global Funds plc

Investment Manager's Report for the financial year ended 31 December 2024 (continued)

First Trust Global Capital Strength ESG Leaders UCITS ETF*

Market Commentary

U.S. inflation reports released during the year showed that the rate of inflation dropped steadily throughout the first 3 quarters of 2024, before rising slightly again in the 4th quarter. The rate of inflation started the year at 3.1% as the most recently reported metric, before dropping to 2.4% at the end of September then ending the year at 2.7%. This led the Federal Reserve to begin cutting the Federal Funds Rate, which started the year at 5.50% and ended the year at 4.50%.

However, with the rate of inflation rising again by the end of 2024, the Federal Reserve began to signal that there may not be as many rate cuts in 2025 as previously expected. The market is now only expecting another 1 or 2 rate cuts in 2025, with a market implied end of 2025 Federal Funds Rate of 3.90%. The 10-year Treasury yield rose and fell during the first 3 quarters of the year from 3.88% on 29/12/2023 to 4.68% on 30 April 2024, dropping back to 3.78% on 30 September 2024. The 10-year Treasury yield rose again to end the year at 4.57% on 31 December 2024.

The rate of Inflation in Europe followed a similar pattern to the United States, as the Euro Area Harmonised Index of Consumer Prices started the year with a most recently reported metric of 2.4% before dropping to 1.7% on 30/9/2024. The rate of inflation then rose again ending the year at 2.2%, showing that inflation in Europe has stayed steady for almost a year now. The European Central Bank also reduced the European Central Bank Main Refinancing Operations Rate 135 basis points from 4.50% to 3.15%.

Fund Commentary

The investment objective of First Trust Global Capital Strength ESG Leaders UCITS ETF (the "ESG Leaders ETF") is to provide investors with long term returns, through capital growth. In order to achieve its investment objective, the investment policy of the ESG Leaders ETF is to invest in a diversified portfolio of global equity securities issued by companies which the Investment Manager considers to have leading or superior metrics based on environmental, social and governance ("ESG") related criteria (relative to their industry peers) and which, in addition, the Investment Manager considers to exhibit "capital strength" in that they are well capitalised and have strong balance sheets. ESG Leaders ETF intends to pursue an actively managed investment strategy.

Subject to Schedule III of the Company's prospectus, the Investment Manager may also invest in a portfolio of assets which may comprise money market or short-term instruments such as Investment Grade fixed and floating government securities, bankers' acceptances, certificates of deposit, and eligible collective investment schemes which are either money market funds and/or which have a similar investment objective and policies as that of the ESG Leaders ETF for liquidity purposes. The amount which may be invested in such money market instruments, short-term instruments and eligible collective investment schemes shall not exceed 10% of the NAV of the ESG Leaders ETF.

The ESG Leaders ETF returned 9.58%, underperforming both benchmarks, the MSCI All Country World Index 17.49% return and the MSCI All Country World ESG Leaders Index 16.85% return, from 29 December 2023 to quarter end 31 December 2024.

Portfolio performance was driven by being significantly underweight the information technology and communication services sectors, which were the two best performing sectors. The portfolio was also overweight the consumer staples sector, which was one of the poorest performing sectors during the quarter. A further drag on performance came from the portfolio being significantly overweight the industrials sector, which underperformed.

Portfolio performance was helped by the portfolio being significantly overweight the financials sector, which was one of the better performing sectors during the year. The portfolio was also underweight the energy, health care and real estate sectors, which were three of the poorest performing sectors during the year.

Security selection within the materials and industrials sectors helped performance as stocks selected from these sectors did not fare as poorly as stocks within these sectors in the benchmark. The top five performing stocks were Hartford Financial Services Group (HIG US) with a 38.56% return, Taiwan Semiconductor Manufacturing Company, Ltd (2330 TT) with a 36.81% return, Raymond James Financial Inc. (RJF US) with a 34.82% return, HCL Technologies (HCLT IN), with a 34.15% return and Computershare Ltd (CPU AU) with a 33.85% return. In total, 6 of the top 10 performing stocks came from the financials sector.

Poor stock selection from the information technology and consumer staples sectors was a drag on performance, as the poorest performing stock, L'Oreal (OR FP) with -26.07% return, came from the consumer staples sector. The three other poorest performing stocks were Telkom Indonesia Perseo Tbk (TLKM IJ) with a -22.49% return, Bank Rakyat Indonesia Persero Tbk PT (BBRI IJ) with a -21.52% return and Gilead Sciences (GILD US) with a -20.36% return.

First Trust Global Funds plc

Investment Manager's Report for the financial year ended 31 December 2024 (continued)

First Trust Global Capital Strength ESG Leaders UCITS ETF* (continued)

Fund Commentary (continued)

The portfolio had a large positive exposure to the low volatility, quality and dividend yield factors, which were three of the poorest performing factors during the year. The portfolio also had a large positive exposure to the small size factor, which underperformed. Momentum was the only factor to outperform during the year and the portfolio had large negative exposure to the momentum factor.

The portfolio was reconstituted and rebalanced in early June and early December. The weight in U.S. stocks rose moderately from 45.2% on 29 December 2023 to 52.2% on 31 December 2024, while developed markets weight increased significantly from 83.4% to 97.9%. Weight in the financials sector increased significantly by 8.6% and remained the largest weight in the portfolio at 30.3%. This was also the largest increase in weight for any sector while the largest decrease was in the information technology sector, which dropped 6.5%. Financials, industrials and consumer staples were the sectors with the largest overweight compared to the benchmark at period end while information technology and communication services had the largest underweight. The MSCI ESG AAA-rating weight increased 3.4% and weight in the MSCI ESG AA-rating increased 12.4%, while the MSCI ESG A-rating weight decreased 9.0% and weight in the MSCI ESG BBB-rating decreased 6.0%.

Market Commentary

For the fiscal year ending December 31, 2024 (the "Period"), U.S. stock markets rose sharply, as economic data strengthened, and the U.S. Federal Reserve (the "Fed") cut the target interest rate for the first time in four years.

The S&P 500® Index, the well-known measure of U.S. large-cap stocks, ended the Year up 25.0%. Mid-and small capitalisation stocks, as measured by the S&P MidCap 400® Index and the Russell 2000® Index, rose 13.9% and 13.9%, respectively. The Nasdaq- 100® Index, a tech-heavy market measure, rose 25.9% over the Period. Non-U.S. stock markets had positive returns as well: MSCI EAFE (a broad measure of stocks in developed markets, excluding the U.S.) rose by 3.8%, while the MSCI Emerging Markets Index rose 4.4% over the Period.

During the Period, Gold, as measured by the price return of SPDR Gold Shares ETF (ticker GLD), increased by 26.7%.

U.S. economic data suggested a strengthening economy. U.S. gross domestic product ("GDP") growth in the three most recent quarterly reports (first quarter 2024 through third quarter 2024) came in at seasonally adjusted annualised rates of 1.6%, 3.0%, and 3.1%, sequentially. A current Bloomberg survey of economists shows a consensus projection of 2.1% GDP growth in 2025 (versus 2024).

Unemployment in the U.S. remains low by historical standards but trended higher over the Period. The rate was 3.7% in December 2023 and increased to 4.1% by December 2024.

The Fed decreased the Fed Funds Target Rate in 2024, reducing the target range by 1% (from a range of 5.25%-5.50% to a range of 4.25%-4.50%) These rate cuts were a pivot from the cumulative 1% rise in rates during 2023.

U.S. inflation levels, which had fallen in 2023, remained relatively low in 2024. As the year began, inflation (as measured by the Consumer Price Index (CPI - Year over Year)) was running at 3.1%. Inflation rose to 3.5% at the end of Q1 and 3.0% at the end of Q2, before ending the year at 2.7%. The U.S. housing market has been resilient over the Period, with the ten most recent monthly price reports (January through October 2024) showing increasing home prices in six of ten months and an overall net increase of 4.3% (as measured by the S&P Case-Shiller U.S. National Home Price Index).

Fund Commentary

Each of the First Trust Vest U.S. Equity Moderate Buffer UCITS ETFs and First Trust Vest Nasdaq-100® Moderate Buffer UCITS ETFs has an investment objective that seeks to provide investors with returns (before fees, expenses, and taxes) that match those of a specific reference asset (the "Reference Asset"), for each Fund either the S&P 500® Index ("SPX") or the Nasdaq- 100® Index ("NDX"), up to a predetermined upside cap (after fees and expenses, excluding brokerage commissions, trading fees, taxes and extraordinary expenses not included in the Funds' management fees), while providing a buffer against a predetermined level of losses in the Reference Asset, over a specified time period.

During 2024, implied volatilities in U.S. equity markets averaged about 20.3% according to the Cboe S&P 500 1-Year Volatility Index. This index is derived from option prices and estimates the market's expectation of S&P 500® volatility for the next twelve months. As of the end of 2024, the index stood at 21.5%. For comparison purposes, the historical volatility of the S&P 500® over the last 50 years has been about 15.1%.

Some investors are concerned that U.S. inflation has not been fully brought under control and may spike upward again. Should this happen, it will likely negatively impact most bonds. Because of this, many investors may look to reallocate away from fixed income investments.

We believe these six First Trust Vest Buffer UCITS ETFs are alternatives that these investors should consider. These funds are designed to protect investors against a specified level of downside movements in their Reference Asset (either the SPX or the NDX), while limiting the investor's participation in larger upside moves in the Reference Asset. In the current market environment, we believe that such Funds, in appropriate allocations, can be suitable alternatives to fixed income and/or riskier equity investments.

Performance Analysis

The following table provides information pertaining to recent caps and performance for the Period for each of the six First Trust Vest Buffer UCITS ETFs, as well as an attribution analysis that estimates the impact of various factors on each Fund's performance.

Each Fund's cap is reset at the Fund's annual reset date. The table shows the caps that were in effect both at the beginning of the Period and after the annual reset date that occurred within the Period. Both caps are shown pre- and post-expenses. Funds that were launched during the Year do not yet have Prior Period Caps, as they have not yet reached their first annual reset date.

Each Fund's performance may be impacted by a number of factors. These factors include changes in each of: the level of the Reference Asset, the Reference Asset's dividends, interest rates, implied volatility, and time to option expiration. Generally, changes in the level of the Reference Asset are the primary factor, but the other factors can also contribute significantly to Fund performance. Additionally, expenses will negatively impact Fund performance.

Vest Financial, LLC

28 January 2025

* References to benchmarks are for illustrative purposes only. There is no guarantee that a Fund will outperform its benchmark.

DIRECTORS' REPORT

The Board of Directors (the “Board” or the “Directors”) submit its annual report together with the audited financial statements of First Trust Global Funds plc (the “Company”), an umbrella fund with segregated liability between sub-funds for the financial year ended 31 December 2024 (the “Reporting Period”).

Directors' Responsibilities Statement

The Directors are responsible for preparing the Directors' Report and the financial statements in accordance with the Companies Act 2014 (the “Companies Act”) and the applicable regulations.

Irish company law requires the Directors to prepare financial statements for each financial year. Under the law, the Directors have elected to prepare the financial statements in accordance with FRS 102 “The Financial Reporting Standard applicable in the UK and Republic of Ireland” (“FRS 102”). Under company law, the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the Company as at the financial year end date and of the profit or loss of the Company for the financial year and otherwise comply with the Companies Act.

In preparing those financial statements, the Directors are required to:

- select suitable accounting policies for the Company's financial statements and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards, identify those standards, and note the effect and the reasons for any material departure from those standards; and
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors are responsible for ensuring that the Company keeps or causes to be kept adequate accounting records which: (i) correctly explain and record the transactions of the Company; (ii) enable at any time the assets, liabilities, financial position and profit or loss of the Company to be determined with reasonable accuracy; (iii) enable them to ensure that the financial statements and Directors' Report comply with the Companies Act, FRS 102, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (the “UCITS Regulations”), the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the “Central Bank UCITS Regulations”), and the relevant Listing Rules of the Euronext Dublin, Amsterdam, Milan and Paris Stock Exchanges, London Stock Exchange, Deutsche Boerse and SIX Swiss Exchange; (iv) enable the financial statements to be audited. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The financial statements are published at <https://www.ftglobalportfolios.com>. The Directors, relying on the assistance of the Manager and the Investment Manager, are responsible for the maintenance and integrity of the corporate and financial information related to the Company included on <https://www.ftglobalportfolios.com>. Legislation in the Republic of Ireland governing the presentation and dissemination of the financial statements may differ from legislation in other jurisdictions.

Statement of Relevant Audit Information

So far as each person who is a Director at the date of approving this report is aware, there is no relevant audit information, being information needed by the auditor in connection with preparing their report, of which the auditors are unaware. Having made enquiries of fellow Directors and the Company's auditors, each Director has taken all the steps that he/she is obliged to take as a Director in order to make himself/herself aware of any relevant audit information and to establish that the auditors are aware of the information.

Directors' Statement of Compliance

It is the policy of the Company to comply with its relevant obligations (as defined in the Companies Act). As required by Section 225(2) of the Companies Act 2014, the Directors acknowledge that they are responsible for securing the Company's compliance with the relevant obligations. The Directors have drawn up a compliance policy statement as defined in Section 225(3)(a) of the Companies Act 2014 and a compliance policy which refers to the arrangements and structures that are in place and which are, in the Directors' opinion, designed to secure material compliance with the Company's relevant obligations. These arrangements and structures were reviewed by the Directors during the financial year. In discharging their responsibilities under Section 225, the Directors relied upon, among other things, the services provided, advice and/or representations from third parties whom the Directors believe have the requisite knowledge and experience in order to secure material compliance with the Company's relevant obligations.

Accounting Records

The measures that the Directors have taken to secure compliance with the requirements of Sections 281 to 285 of the Companies Act 2014 with regard to the keeping of accounting records is the appointment of an experienced administrator – BNY Mellon Fund Services (Ireland) Designated Activity Company (the “Administrator”). The Company's accounting records are maintained at the Administrator's registered office at One Dockland Central, Guild Street, International Financial Services Centre, Dublin 1, Ireland.

DIRECTORS' REPORT (continued)

Review of the Business and Future Developments

The results of operations are set out on pages 56 to 65. A detailed review of the performance of the Company and future developments is contained in the Investment Manager or relevant Sub-Investment Manager's reports on pages 3 to 25. The Company intends to continue promoting and generating interest in its business in the future. As at 31 December 2024, the Company had no employees.

Price movements of securities invested in by the Company's sub-funds are difficult to predict and can be influenced by, among other things, uncertainties related to climate change and certain macroeconomic conditions (including changing supply and demand relationships; governmental trade; fiscal, monetary and exchange control programs and policies; national and international political and economic events; exchange rates of currencies; changes in interest rates; and the inherent volatility of the market place). During periods of uncertain market conditions the combination of price volatility and the less liquid nature of securities markets may, in certain cases, affect the ability of the Company's sub-funds to acquire or dispose of securities at the price and time they wish to do so, and consequently may have an adverse impact on the investment performance of the Company.

Certain force majeure events (i.e., events beyond the control of the party claiming that the event has occurred, including, without limitation, fire, flood, earthquakes, outbreaks of an infectious disease, pandemic or any other serious public health concern, war, terrorism and labour strikes, major plant breakdowns, pipeline or electricity line ruptures, failure of technology, defective design and construction, accidents, demographic changes, government macroeconomic policies and social instability) may adversely affect the ability of the Administrator, Depositary, Investment Manager, Distributor and other service providers to perform their obligations to the Company until they are able to remedy the force majeure event. While it is expected that such service providers will implement contingency plans for addressing force majeure events it is possible that such force majeure events exceed the assumptions of such plans. Certain of these events may also have a broader negative impact on the world economy and international business activity generally, or in any of the countries in which the Company may invest specifically. The nature and extent of the impact of such events is uncertain but they may adversely affect the return on each of the Company's sub-funds and their investments.

Due to the developing nature of the countries in which certain of the Company's sub-funds may invest their markets are similarly of a developing nature. Accordingly, these markets carry additional uncertainties related to their liquidity and levels of volatility in price movements as compared to markets in more developed economies and markets. The value of the assets of each of the sub-funds referred to above may be affected by uncertainties, such as political developments, changes in government policies, taxation and currency repatriation and restrictions on foreign investment in some of the countries in which the sub-funds referred to above may invest.

Impact of Ukraine & Russia conflict

In February 2022, Russia launched a significant invasion of Ukraine. In response, the U.S, Canada, the U.K., the EU and many other countries imposed sweeping sanctions and export restrictions targeting Russia. A number of businesses and corporations suspended or wound down operations in Russia, Belarus, Ukraine and other impacted regions. The war and the resulting actions taken by world governments created turbulence in the financial markets across the globe. These events have had, and could continue to have, an adverse effect on the value and liquidity of a Fund's investments and make it difficult to price or divest certain securities that are subject to sanctions and restrictions. The volatility and uncertainty caused by such events may also adversely affect the ability to achieve the investment objective of a Fund.

Although the full effect of the continued war is difficult to predict, the war has had, and is likely to continue to have, a significant adverse impact on global macroeconomic conditions and have led to prolonged political, legal, regulatory and economic uncertainty. This uncertainty has impacted, and could continue to impact, the global economic climate and impacted opportunities, pricing, availability and cost of bank financing, regulation, values or exit opportunities of companies or assets based, doing business, or having service or other significant relationships, in Russia and/or Ukraine, and their surrounding regions, including companies or assets held or considered for prospective investment by a Fund.

Effective 28 February 2022, the Russian securities held by the Funds halted trading on the exchange where they traded. Since that time, the Investment Manager fair valued the Russian securities. The Investment Manager initially wrote down the value of the Russian securities in excess of 90% from the last exchange traded price and since 28 February 2023, any Russian securities held by the Funds have been priced at USD 0.00.

Impact of the conflict in the Middle East

The conflict between Israel and Harakat al-Muqawama al-Islamiya (Islamic Resistance Movement) or HAMAS in Gaza escalated in October 2023. The conflict could lead to disruption, instability and volatility in global markets, economies and industries that could negatively impact the business of the Company, results of operations and financial condition. The conflict may also escalate further and its resolution is unclear. The potential for further military escalation and other corresponding events, could have, severe negative effects on regional and global economic and financial markets, including increased volatility and overall uncertainty.

First Trust Global Funds plc

DIRECTORS' REPORT (continued)

Potential Global Trade-Related Market Disruptions

Recently announced U.S. tariffs if maintained, and the potential escalation of trade disputes could lead to disruption, instability and volatility in global markets, economies and industries that could negatively impact the business of the Company, results of operations and financial condition. The extent and duration of the tariffs and their impact on general economic conditions and on the business of the Company are uncertain and depend on various factors, such as the outcome of any negotiations between the U.S. government and governments of affected countries, the responses of other countries to actions taken by the U.S. and any exemptions or exclusions that may be granted. The volatility and uncertainty caused by such trade disputes may also adversely affect the ability to achieve the investment objective of a Fund.

Risk Management Objectives and Policies

Investment in the Company carries with it a degree of risk, as referred to in Note 11 of these financial statements and in the Company's prospectuses.

Results and Dividends

The results for the Reporting Period are set out in the Statement of Comprehensive Income on pages 56 to 65.

There were no distributions declared or paid by the Funds for the Reporting Period except for the First Trust US Large Cap Core AlphaDEX® UCITS ETF, First Trust United Kingdom AlphaDEX® UCITS ETF, First Trust Eurozone AlphaDEX® UCITS ETF, First Trust Global Equity Income UCITS ETF, First Trust Germany AlphaDEX® UCITS ETF, First Trust US Equity Income UCITS ETF, First Trust Low Duration Global Government Bond UCITS ETF and First Trust Alerian Disruptive Technology Real Estate UCITS ETF which have quarterly distributing share classes. These are detailed in the Statement of Comprehensive Income on pages 56 to 65.

Related Party and Connected Person Transactions

The Directors are satisfied that:

(i) in accordance with the Central Bank UCITS Regulations, any transaction carried out between the Company or The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary") and the delegates or sub-delegates of the Company or the Depositary (excluding any non-group company sub-custodians appointed by the Depositary) and any associated or group company of the Company, Depositary, delegate or sub-delegate ("connected persons") is conducted at arm's length and is in the best interests of the shareholders; and

(ii) there are arrangements, evidenced by written procedures, in place to ensure these obligations are applied to all connected persons transactions and that all transactions with connected persons entered into during the financial year complied with the obligations.

The Directors have documented how the Company has complied with these obligations during the financial year and the rationale for being satisfied that the transactions conform to these requirements.

Although not deemed to be related parties under FRS 102 as they do not exercise significant influence over the activities of the Company, Regulation 43 of the Central Bank UCITS Regulations also deems a "Depositary" and its "associated or group companies" to be connected parties to the Company. As such, the Depositary and the Administrator are connected parties to the Company.

During the financial year, €35,186 and €49,309 (31 December 2023: €30,657 and €13,035) fees were earned for provision of depositary and administration services to First Trust Strategic Metal and Energy Equity UCITS Fund as disclosed in the Statement of Comprehensive Income. The Administrator was selected by the Company to execute foreign exchange transactions and purchase and sell securities on behalf of the Funds. The terms of these transactions were conducted by the Company at arm's length and in the best interests of the shareholders of the Company. For the ETF Funds, the Manager is responsible for discharging all operational expenses out of its management fees.

Directors and Company Secretary

The Directors who held office during the financial year were James A. Bowen, Andy Roggensack, David G. McGarel, Bronwyn Wright, Michael Boyce, Tom Coghlan and Sarah Cunliffe - all serve as non-executive Directors. All Directors served for the entire financial year. James A. Bowen served as Chairman of the Board for the financial year ended 31 December 2024. Bradwell Limited (the "Company Secretary") served as Company Secretary for the financial year ended 31 December 2024. Details of the Directors and Company Secretary are listed on page 2.

The Directors who held office at 31 December 2024 and their connected persons and the Company Secretary had no interest in the shares of the Company at that date or at 1 January 2024 or at any time during the Reporting Period. Furthermore, under the Electoral Act 1997 the Directors who held office at 31 December 2024 did not make any political donations.

DIRECTORS' REPORT (continued)

Going Concern

The Company's business activities, together with the factors likely to affect its future development, its financial position, financial risk management objectives, details of its financial instruments and derivative activities and its exposures to price, credit, liquidity and cash flow risk are described on pages 147 to 187. The Company has considerable financial resources in the form of highly liquid investments and cash balances. As a consequence, the Directors believe that the Company is well placed to manage its business risks successfully despite the current uncertain economic outlook.

After making enquiries, the Directors have a reasonable expectation that the Company has adequate resources to continue in operational existence for the foreseeable future. Accordingly, they continue to adopt a going concern basis in preparing the financial statements.

Independent Auditors

The Independent Auditors, PricewaterhouseCoopers, Chartered Accountants and Statutory Audit Firm have indicated their willingness to remain in office in accordance with Section 383(2) of the Companies Act 2014.

Significant Events during the Financial Year

Please refer to Note 19 for details of significant events during the financial year.

Significant Events after the Financial Year End Date

Please refer to Note 20 for details of significant events after the financial year.

Corporate Governance Statement

A. General Requirements

The Company is subject to the requirements of the Companies Act and the Central Bank of Ireland (the "Central Bank") as an Undertaking for Collective Investment in Transferable Securities ("UCITS") pursuant to the UCITS Regulations and the Central Bank UCITS Regulations. The Board has assessed the measures included in the voluntary Corporate Governance Code for Collective Investment Schemes and Management Companies as published by the Irish Fund Industry Association in December 2011 (the "IF Code"). The Board has adopted all corporate governance practices and procedures in the IF Code with effect from 31 December 2012. The IF Code can be obtained from the IF website at <http://www.irishfunds.ie>. The Company is also subject to corporate governance practices imposed by:

- (i) the Companies Act which can be obtained from the Irish statute book website at <http://www.irishstatutebook.ie> and is available for inspection at the registered office of the Company.
- (ii) the constitution of the Company (the "Constitution") which is available for inspection at the registered office of the Company and may be obtained at the registered office of the Administrator or at the Companies Registration Office in Ireland.
- (iii) the Central Bank in the UCITS Regulations and Central Bank UCITS Regulations which can be obtained from the Central Bank's website at: <http://www.centralbank.ie/regulation/industry-sectors/funds/Pages/default.aspx>.
- (iv) Euronext Dublin through the Euronext Dublin Code of Listing Requirements and Procedures for Investment Funds which can be obtained from its website at: <http://www.ise.ie>.
- (v) the London Stock Exchange through its Rule Book which can be obtained from its website at: <http://www.londonstockexchange.com>.
- (vi) the Euronext Amsterdam, Milan and Paris Exchanges through their Rules and Regulations which can be obtained from the Euronext website at: <https://www.euronext.com>.
- (vii) the Deutsche Boerse through its Rule Book which can be obtained from its website at: <http://deutsche-boerse.com/dbg-en/>.
- (viii) the SIX Swiss Exchange through its Rules and Regulations which can be obtained from its website at: https://www.six-swiss-exchange.com/index_en.html.

B. Board of Directors

In accordance with the Companies Act and the Constitution, unless otherwise determined by an ordinary resolution of the Company in general meeting, the number of Directors may not be less than two. The Board currently comprises of seven Directors, three of whom are related to the Investment Manager of the Company and four of whom are independent. Details of the current Directors are set out in the "Directors and Other Information" section on page 2, under the heading "Board of Directors".

DIRECTORS' REPORT (continued)

Corporate Governance Statement (continued)

B. Board of Directors (continued)

The Board meets on at least a quarterly basis to fulfil its responsibilities to the Company. However, additional meetings in addition to the quarterly meetings may be convened as required and the Board may meet more frequently in general sessions of the Board to discuss matters of general importance to the Company.

The Board has delegated management of the Company to certain service providers. These service providers are set out in the "Directors and Other Information" section on page 2.

Board materials, including a detailed agenda of items for consideration at each Board meeting, minutes of the previous meeting and reports from various internal and external service providers are generally circulated in advance of the meeting to allow all Directors adequate time to consider the material.

The quorum necessary for the transaction of business at a meeting of Directors is two. Directors generally attend all Board meetings.

The Board has regular direct contact with the delegated service providers and thus delegated responsibilities to committees are not deemed necessary.

C. Internal Control and Risk Management Systems in Relation to Financial Reporting

The Board, by delegation, is responsible for establishing and maintaining adequate internal control and risk management systems of the Company in relation to the financial reporting process. The Board has entrusted the administration of the accounting records to the Administrator. The Board, through delegation to the Administrator, has put in place a formal procedure to ensure that relevant accounting records for the Company are properly maintained and are readily available, and includes the procedure for the production of audited annual financial statements and unaudited semi-annual financial statements for the Company. The annual and semi-annual financial statements of the Company are prepared by the Administrator and presented to the Board for approval, prior to applicable filing such as with the Central Bank.

The Board has appointed an independent external audit firm to audit the annual financial statements in accordance with the Companies Act. The auditors' report to shareholders, including any qualifications, is reproduced in full in the annual report.

D. Shareholder Meetings

All general meetings of the Company shall be held in Ireland or United States. Each financial year the Company shall hold a general meeting as its annual general meeting. Reasonable notice shall be given in respect of each general meeting of the Company. The notice shall specify the venue and time of the meeting and the business to be transacted at the meeting. A proxy may attend on behalf of any shareholder of the Company (a "Shareholder"). An ordinary resolution is a resolution passed by a simple majority and a special resolution is a resolution passed by a majority of 75% or more of the votes cast. The Constitution provides that matters may be determined by a meeting of Shareholders on a show of hands unless a poll is requested by five Shareholders or by Shareholders holding 10% or more of the shares or unless the Chairman of the meeting requests a poll. Each share (including the subscriber shares) gives the holder one vote in relation to any matters relating to the Company which are submitted to Shareholders for a vote by poll.

E. Diversity Report

The Company is established as an investment fund and has no employees. As with many similarly structured companies, the Board does not have a formal diversity policy in place because any such policy would apply only to the Board itself. While the Board has not set specific targets in respect of gender diversity, the Board's succession plan addresses the need to consider diversity and it acknowledges its importance in enhancing its operation. During any selection process for Directors, the Board is committed to selecting those with diversity of age, gender, educational or professional background, business skills and experience and the candidates for appointment are selected on the basis on these factors. The Board will ensure that all selection decisions are based on merit and that recruitment is fair and non-discriminating.

F. Audit Committee

Per the Companies (Statutory Audits) Act 2018, when a Public-Interest Entity ("PIE") is a UCITS and a company, Section 1551(18) disapplies S167 and S1551(11)(b) disapplies the requirement in S1551(1) for a PIE to have an audit committee. Accordingly, the Company is not required to have and therefore does not have an audit committee.

REPORT OF THE DEPOSITARY TO THE SHAREHOLDERS OF FIRST TRUST GLOBAL FUNDS PLC DATED 23 APRIL 2025

For the period from 1 January 2024 to 31 December 2024 (the "Period")

The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary" "us", "we", or "our") has enquired into the conduct of First Trust Global Funds plc (the "Company") for the Period, in its capacity as Depositary to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company, in accordance with our role as Depositary to the Company and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Regulation 34 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), as amended (the "Regulations").

Our report shall state whether, in our opinion, the Company has been managed in that Period in accordance with the provisions of the Company's constitutional documentation and the Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not been so managed, we as Depositary must state in what respects it has not been so managed and the steps which we have taken in respect thereof.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties and to ensure that, in all material respects, the Company has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the constitutional documentation and the Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional documentation and the Regulations.

Saskia Van Goethem

For and on behalf of The Bank of New York Mellon SA/NV, Dublin Branch

The Bank of New York Mellon SA/NV, trading as The Bank of New York Mellon SA/NV, Dublin Branch is authorised by the National Bank of Belgium.

The Bank of New York Mellon SA/NV, Boulevard Anspachlaan 1, B-1000 Brussels Belgium – Tel. (32) 2 545 81 11, V.A.T. BE 0806.743.159-RPM-RPR Brussels Company No. 0806.743.159. The Bank of New York Mellon SA/NV is a Belgian limited liability company, authorized and regulated as a significant credit institution by the European Central Bank and the National Bank of Belgium under the Single Supervisory Mechanism and by the Belgian Financial Services and Markets Authority.

Independent auditors' report to the members of First Trust Global Funds plc

Report on the audit of the financial statements

Opinion

In our opinion, First Trust Global Funds plc's financial statements:

- give a true and fair view of the Company's and Funds' assets, liabilities and financial position as at 31 December 2024 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Statement of Financial Position as at 31 December 2024;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for the year then ended;
- the Schedule of Investments for each of the Funds as at 31 December 2024; and
- the notes to the financial statements for the Company and for each of its Funds, which include a description of the accounting policies.

Our opinion is consistent with our reporting to the Board of Directors.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

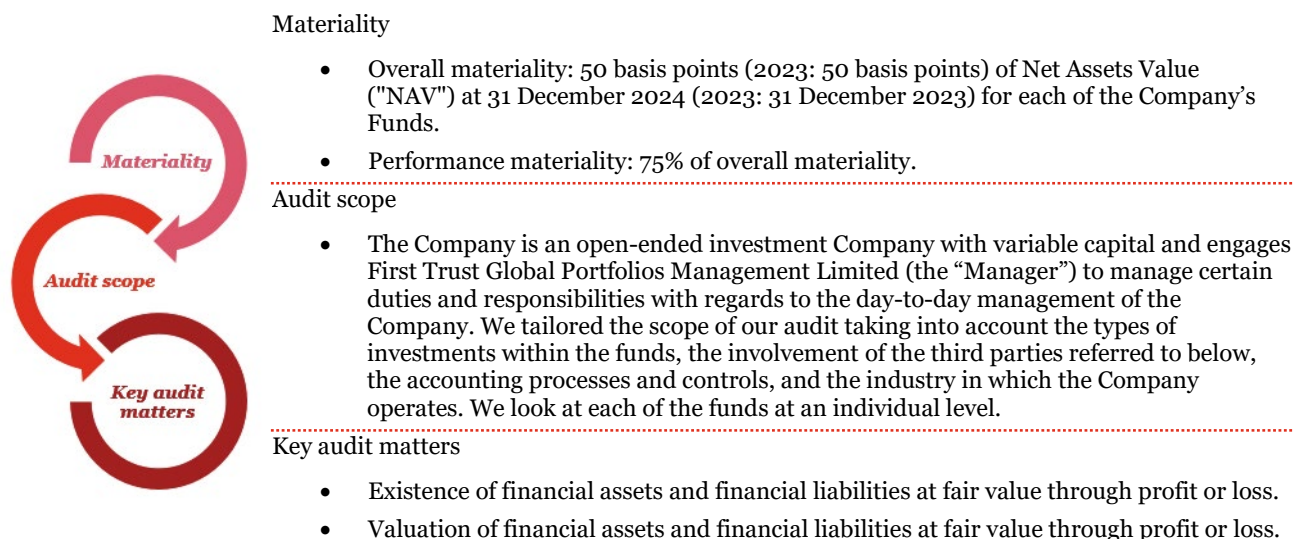

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard as applicable to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by IAASA's Ethical Standard were not provided to the Company.

Other than those disclosed in note 9H, we have provided no non-audit services to the Company in the period from 1 January 2024 to 31 December 2024.

Our audit approach

Overview

The scope of our audit

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example the selection of pricing sources to value the investment portfolio. As in all of our audits, we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

Key audit matters

Key audit matters are those matters that, in the auditors' professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

Key audit matter	How our audit addressed the key audit matter
<p><i>Existence of financial assets and financial liabilities at fair value through profit or loss</i></p> <p>See significant accounting policy 2(b) of the financial statements of the Company for further details.</p> <p>The financial assets and financial liabilities at fair value through profit or loss included in the Statement of Financial Position of each fund are held in the fund's name at 31 December 2024. We focused on this area because it represents the principal element in the financial statements.</p>	<p>Our audit approach sought to obtain independent confirmation of positions held with the depositary and relevant counterparties. We then reconciled these confirmations to the accounting records maintained by the funds' administrator and evaluated any material differences identified.</p> <p>For all financial derivative instruments held with counterparties, we obtained an independent confirmation from each counterparty to evidence the existence of the positions.</p> <p>No material issues were noted as a result of these procedures.</p>

Key audit matter

value through profit or loss

See significant accounting policy 2(b) of the financial statements of the Company for further details.

The financial assets and financial liabilities at fair value through profit or loss included in the Statement of Financial Position of each fund at 31 December 2024 are valued at fair value through profit or loss in line with FRS 102. We focused on this area because it represents the principal element in the financial statements.

How our audit addressed the key audit matter

liabilities by independently obtaining price quotations for the funds' investments included within the financial statements with the exception of the flexible options held.

We utilised our Market Risk Group (MRG) for the valuation of the flexible options.

All material positions could be vendor priced and no differences above our threshold were identified.

No material issues were identified from the results of these procedures.

How we tailored the audit scope

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the Company, the accounting processes and controls, and the industry in which it operates.

As at 31 December 2024 there are 38 Funds operating. The Company's Statement of Financial Position, Statement of Comprehensive Income, and Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares are an aggregation of the positions and results of the Funds.

The directors control the affairs of the Company and are responsible for the overall investment policy which is determined by them. The Company engages First Trust Global Portfolios Management Limited (the 'Manager') to manage certain duties and responsibilities with regards to the day to day management of the Company. The Manager has delegated certain responsibilities to First Trust Advisors L.P. (the 'Investment Manager') and to BNY Mellon Fund Services (Ireland) Designated Activity Company (the 'Administrator'). The financial statements, which remain the responsibility of the directors, are prepared on their behalf by the Administrator. The Company has appointed The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary") to act as Depositary of the Company's assets. In establishing the overall approach to our audit we assessed the risk of material misstatement at a fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the Company's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

Materiality

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the Company's Funds as follows:

Overall materiality and how we determined it	50 basis points (2023: 50 basis points) of Net Assets Value ("NAV") at 31 December 2024 (2023: 31 December 2023) for each of the Company's Funds.
Rationale for benchmark applied	We have applied this benchmark because the main objective of the Company is to provide investors with a total return at a fund level, taking account of the capital and income returns.

We use performance materiality to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds overall materiality. Specifically, we use performance materiality in determining the scope of our audit and the nature and extent of our testing of account balances, classes of transactions and disclosures, for example in determining sample sizes. Our performance materiality was 75% of overall materiality.

In determining the performance materiality, we considered a number of factors - the history of misstatements, risk assessment and aggregation risk and the effectiveness of controls - and concluded that an amount at the upper end of our normal range was appropriate.

We agreed with the Board of Directors that we would report to them misstatements identified during our audit above 5 basis points of each fund's NAV, for NAV per share impacting differences (2023: 5 basis points of each fund's NAV, for

NAV per share impacting differences) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

Conclusions relating to going concern

Our evaluation of the directors' assessment of the Company's and Funds' ability to continue to adopt the going concern basis of accounting included:

- Reviewing the liquidity profile of the assets and liabilities, for any significant mismatches, as detailed in Note 11 Financial Instruments and Associated Risks - Liquidity Risk;
- Agreeing the liquidity terms surrounding the Company and fund's ability to manage liquidity risk through redemption limits, if necessary, as per Note 11 Financial Instruments and Associated Risks - Liquidity Risk, to the legal documents;
- Performing subsequent event testing around capital activity to determine whether material redemption requests have been presented to the funds; and
- Discussing management's plans to assess if there is a plan to terminate any of the funds.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's and Funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's and Funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

Directors' Report

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 31 December 2024 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

Corporate governance statement

- In our opinion, based on the work undertaken in the course of the audit of the financial statements, the description of the main features of the internal control and risk management systems in relation to the financial reporting process included in the Corporate Governance Statement, is consistent with the financial statements and has been prepared in accordance with section 1373(2)(c) of the Companies Act 2014.

- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit of the financial statements, we have not identified material misstatements in the description of the main features of the internal control and risk management systems in relation to the financial reporting process included in the Corporate Governance Statement.
- In our opinion, based on the work undertaken during the course of the audit of the financial statements, the information required by section 1373(2)(a),(b),(e) and (f) of the Companies Act 2014 is contained in the Corporate Governance Statement.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Directors' Responsibilities Statement set out on page 26, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the Company and industry, we identified that the principal risks of non-compliance with laws and regulations related to breaches of Irish legislation and Central Bank of Ireland regulations, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the preparation of the financial statements such as the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended). We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to management override of controls.

Audit procedures performed by the engagement team included:

- Enquiry of management to identify any instances of non-compliance with laws and regulations;
- Identifying and testing journal entries, where any such journal entries, that met our specific risk based criteria, were identified;
- Designing audit procedures to incorporate unpredictability;
- Reviewing relevant minutes of the meetings of the board of directors; and
- Reviewing financial statement disclosures and agreeing to supporting documentation to assess compliance with applicable laws and regulations.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at: https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

Companies Act 2014 exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Appointment

We were appointed by the directors on 13 September 2022 to audit the financial statements for the year ended 31 December 2022 and subsequent financial periods. The period of total uninterrupted engagement is 3 years, covering the years ended 31 December 2022 to 31 December 2024.

NOTES TO THE FINANCIAL STATEMENTS

For the financial year ended 31 December 2024

1. Organisation

First Trust Global Funds plc (the “Company”) is constituted as an open-ended investment company with variable capital in Ireland under registration number 514357 at its registered office, Ten Earlsfort Terrace, Dublin 2 D02 T380, Ireland. The Company is structured as an umbrella fund and comprises separate sub-funds of the Company. It has segregated liability between the sub-funds and is organised under the laws of Ireland as a public limited company pursuant to the Companies Act 2014 (the “Companies Act”), the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended (the “UCITS Regulations”) and the Central Bank of Ireland (the “Central Bank”) (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019, (the “Central Bank UCITS Regulations”).

As at 31 December 2024, the Board of Directors (the “Board” or the “Directors”) had approved 49 sub-funds (each a “Fund” and collectively the “Funds”), of which 38 had external investment. First Trust Advisors L.P. (the “Investment Manager”) provides the seed capital in the form of two shares purchased that allows an ETF to launch and become available to investors.

Unless otherwise indicated, all share classes listed in the table below and overleaf are unhedged.

2. Significant Accounting Policies

A. Basis of Preparation and Accounting Convention

These annual audited financial statements for the financial year ended 31 December 2024 (the “Reporting Period”) have been prepared in accordance with accounting standards generally accepted in Ireland (“Irish GAAP”) comprising Financial Reporting Standard (“FRS”) 102 “The Financial Reporting Standard applicable in the United Kingdom and Republic of Ireland” (“FRS 102”) issued by the Financial Reporting Council and Irish statute comprising the Companies Act, the UCITS Regulations, the Central Bank UCITS Regulations and the listing rules of the Euronext Dublin, Amsterdam, Milan and Paris Stock Exchanges, the London Stock Exchange, the Deutsche Boerse and the SIX Swiss Exchange.

The preparation of financial statements in conformity with FRS 102 requires the use of certain critical estimates and assumptions that may affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the Reporting Period. Although these estimates are based on management’s best knowledge of the amount, event or actions, actual results ultimately may differ from these estimates. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant are disclosed under the fair value estimation note.

The financial statements have been prepared on a going concern basis under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss.

The Company has availed of the exemption from preparation of cash flows as all of the following conditions set out under Section 7.1A “Statement of Cash Flows” of FRS 102 have been satisfied:

- (i) substantially all of the entity's investments are highly liquid i.e. substantially all investments are level 1 or level 2. Please see Note 5;
- (ii) substantially all of the entity's investments are carried at market value; and
- (iii) the entity provides a statement of changes in net assets.

The significant accounting policies adopted by the Company are set out overleaf. These policies have been consistently applied to the financial years presented unless otherwise stated.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

2. Significant Accounting Policies (continued)

B. Financial Assets and Financial Liabilities at Fair Value through Profit or Loss

Valuation of Investments at Fair Value through Profit or Loss

(i) Initial Measurement

Financial assets and liabilities at fair value through profit or loss are initially recognised at fair value. Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. The Company has elected to apply the recognition and measurement provisions of “International Accounting Standards (“IAS”) 39 Financial Instruments: Recognition and Measurement” (“IAS 39”) the disclosure requirements of Section 11 “Basic Financial Instrument” and Section 12 “Other Financial Instruments Issues” of FRS 102.

(ii) Classification

The Company classifies its investments in debt and equity securities as financial assets or financial liabilities at fair value through profit or loss. All financial assets or financial liabilities at fair value through profit or loss are classified as held-for-trading. These include corporate bonds, treasury notes, equities, preference shares and rights. All derivatives in a receivable position are reported as financial assets held-for-trading. All derivatives in a payable position are reported as financial liabilities held-for-trading.

(iii) Recognition and Derecognition

Purchases and sales of investments are recognised at the trade date being the date on which the Company commits to purchase or sell the investment. Investments are derecognised when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership. Realised gains and losses are based on the first in first out method and are reflected in net gain/(loss) on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

(iv) Fair Value Estimation

Each Fund’s financial instruments are carried at fair value on the Statement of Financial Position. The fair value of instruments traded in active markets is based on last traded quoted market prices at the Statement of Financial Position date.

A financial instrument is regarded as quoted in an active market if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service, or regulatory agency, and those prices represent actual and regularly occurring market transactions on an arm’s length basis.

As at 31 December 2024 and 31 December 2023, the financial instruments that have been valued at fair market value as determined in good faith by the Investment Manager are included in Note 5 Financial Assets and Liabilities at Fair Value through Profit or Loss.

C. Income Recognition

Interest and dividend income on financial instruments held at fair value through profit or loss for the financial year is presented as “Income from investments at fair value through profit or loss” in the Statement of Comprehensive Income on an accrual basis, gross of withholding tax which is shown separately on the Statement of Comprehensive Income. Dividends shall be recognised when the shareholder’s right to receive payment is established.

D. Income from investments at fair value through profit or loss

The Company records its investment transactions on a trade date basis. Income from investments at fair value through profit or loss includes accretion of market discount, original issue discounts and amortisation of premiums and is recorded into income over the life of the underlying investment.

E. Expense Recognition

All expenses are recognised in the Statement of Comprehensive Income on an accrual basis.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

2. Significant Accounting Policies (continued)

F. Cash, Bank Overdraft, Margin Cash, Cash Collateral & Pledged Collateral

Cash and bank overdrafts are stated at cost, which approximates fair value. Bank overdrafts are classified as financial liabilities. Cash collateral provided by the Fund is identified in the Statement of Financial Position as Cash collateral and is not included as a component of cash and bank overdraft. For collateral other than cash, if the party to whom the collateral is provided has the right by contract or custom to sell or re-pledge the collateral, the Fund classifies that asset in its Statement of Financial Position separately from other assets and identifies the asset as securities pledged as collateral. Cash collateral receivable/payable in relation to the futures contracts is identified in the Statement of Financial Position as Margin cash and is not included as a component of cash and bank overdraft. As at 31 December 2024 and 31 December 2023, Margin cash is held with the broker J.P. Morgan Securities LLC for the Low Duration ETF and with Societe Generale for U.S. Equity Moderate Buffer ETF - August, U.S. Equity Moderate Buffer ETF - November, U.S. Equity Moderate Buffer ETF - February, U.S. Equity Moderate Buffer ETF - May, Nasdaq-100[®] Moderate Buffer ETF - September and Nasdaq-100[®] Moderate Buffer ETF - December, details of which are disclosed in the Schedule of Investments. As at 31 December 2024, there was pledged collateral for forward currency contracts in the Cybersecurity ETF of US\$750,000 held with Bank of New York Mellon. As at 31 December 2023, there was no pledged collateral in the Funds.

G. Redeemable Participating Shares

For the FactorFX ETF, Low Duration ETF and each of the U.S. Equity and Nasdaq-100[®] Moderate Buffer ETFs, redeemable participating shares are redeemable at the shareholder's option and are classified as financial liabilities. Participating shares can be redeemed at any time for cash equal to a proportionate share of the Company's Net Asset Value ("NAV"). The participating share is carried at the redemption amount that is payable at the Statement of Financial Position date if the shareholder exercised its right to put the share back to the Company.

For all the Funds except for the FactorFX ETF, the Low Duration ETF, Strategic UCITS Fund and each of the U.S. Equity and Nasdaq-100[®] Moderate Buffer ETFs, shares can be redeemed on the primary or secondary market and are classified as financial liabilities. The primary market is the market on which shares of the Funds are issued by the Company to Authorised Participants ("APs") or redeemed by the Company from APs. Only APs are permitted to subscribe or redeem shares on the primary market.

Shares may be purchased or sold on the secondary market by all investors through a relevant recognised stock exchange on which the shares are admitted to trading or over the counter ("OTC"). The purpose of the listing of the shares on a stock exchange is to enable investors to buy and sell shares on the secondary market, normally via a broker/dealer or third party administrator, in smaller quantities than would be possible if they were to subscribe and/or redeem shares through the Company in the primary market.

The fair value of the financial liability for the redeemable participating shares is the redemption amount per share, calculated as the NAV per share less any associated duties and charges, and any redemption dividend which is payable on the shares redeemed.

H. Distributions to Holders of Redeemable Participating Shares

Distributions payable to holders of redeemable participating shares are recognised in the Statement of Comprehensive Income. Distributions payable to holders of redeemable participating shares at the financial year end are recognised in the Statement of Financial Position. The income, earnings and gains of the Funds will be accumulated and reinvested on behalf of the shareholders except for the US Large Cap ETF, UK ETF, Eurozone ETF, Global ETF, Germany ETF, US Equity ETF, Low Duration ETF and Alerian DTRE ETF which have distributing classes. Refer to Statement of Comprehensive Income for further details.

I. Foreign Currency

Items included in the Company's financial statements are measured and presented using the currency of the primary economic environment in which it operates (the "functional currency"). The functional currency reflects the transactions, events, and conditions under which each Fund operates and conducts its business. The presentation currency of the Company is Euro.

The functional currency of the Eurozone ETF, Germany ETF, Low Duration ETF and IPOX Europe ETF is Euro.

The functional currency of the US Large Cap ETF, Emerging Markets ETF, Indxx NextG ETF, US Equity Opportunities ETF, Global ETF, US Equity ETF, International Internet ETF, Clean Edge ETF, FactorFX ETF, Indxx ETF, Dow Jones ETF, Cloud Computing ETF, Capital Strength ETF, Value Line Dividend ETF, Biotechnology ETF, Cybersecurity ETF, Strategic UCITS Fund, ESG Leaders ETF, Alerian DTRE ETF, Smart Grid Infrastructure ETF, U.S. Equity Moderate Buffer ETF - August, U.S. Equity Moderate Buffer ETF - November, Scarce Resources ETF, Economy Metals ETF, U.S. Equity Moderate Buffer ETF - February, SMID Rising Achievers ETF, U.S. Equity Moderate Buffer ETF - May, US Momentum ETF, Nasdaq-100[®] Moderate Buffer ETF - September, Growth Strength ETF, Global Semiconductor Supply Chain UCITS ETF, Indxx Global Aerospace & Defence ETF, Nasdaq-100[®] Moderate Buffer ETF - December is US Dollar.

The functional currency of the UK ETF is British Pound.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

2. Significant Accounting Policies (continued)

I. Foreign Currency (continued)

For the purpose of combining the financial statements of the Funds to arrive at total Company figures (as required under Irish company law), the amounts in the Funds' Statement of Financial Position have been converted to Euro at the exchange rate ruling at 31 December 2024. The notional foreign exchange gain of €158,197,835 at 31 December 2024 (31 December 2023: loss of (€50,903,325)) set out in the Company Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares is due to the use of average exchange rates when translating the net increase/(decrease) in net assets attributable to holders of redeemable participating shares from operations, issuance of redeemable participating shares, and redemption of redeemable participating shares, in comparison to the use of closing exchange rates when translating the financial year end Statement of Financial Position. This notional foreign exchange adjustment has no impact on the NAV of the individual Funds.

The Company may invest in assets denominated in a currency other than the functional currency of each Fund. Accordingly, the value of a shareholder's investments may be affected favourably or unfavourably by fluctuations in the rates of different currencies. Transactions in foreign currencies are converted at the foreign exchange rate in effect at the date of the transaction. Assets and liabilities denominated in foreign currencies are converted into Euro at the foreign currency closing exchange rate in effect at the financial year end. Foreign currency exchange gains and losses relating to investments at fair value through profit or loss, derivative financial investments, and all other foreign currency exchange gains or losses relating to monetary items, including cash, are reflected in the net gain/(loss) on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

J. Forward Currency Contracts

In a forward currency contract, the Fund agrees to receive or deliver a fixed quantity of one currency for another, at a predetermined price at a future date. The fair value of forward currency contracts is calculated as the difference between the contracted rate and the current forward rate that would close out the contract on the Statement of Financial Position date. Gains or losses on forward currency contracts are included in the financial assets at fair value through profit or loss or financial liabilities at fair value through profit or loss on the Statement of Financial Position and are shown in the Schedule of Investments. Any realised gains or losses are recognised in the Statement of Comprehensive Income on the trade date. The Funds may enter into these contracts to hedge against changes in currency exchange rates. The forward currency contracts are used to hedge the currency exposure on individual positions taken by the Funds and to hedge non-base currency investors.

K. FLEX Options

FLEX Options are customised equity or index put and call option contracts that are cleared by the Options Clearing Corporation and traded on Regulated Markets in the US (and in particular the Cboe Options Exchange), which provide investors with the ability to customise key contract terms such as exercise prices, styles and expiration dates.

The market value is included in financial assets at fair value through profit or loss or in financial liabilities at fair value through profit or loss on the Statement of Financial Position and are shown in the Schedule of Investments. Any realised gains or losses are recognised in the Statement of Comprehensive Income on the trade date.

L. Open Futures Contracts

A futures contract obligates one party to sell and the other party to purchase a specific instrument for an agreed price at an agreed future date. Futures may be used subject to the conditions and limits laid down by the Central Bank and the constitution of the Company as of 29 January 2020 (the "Constitution") and subject to any other restrictions or regulations which may affect the portfolio management of the Funds or the Investment Manager/respective Sub-Investment Manager. Certain Funds may buy or sell futures to provide an efficient, liquid and effective method for the management of risks by "locking in" gains and/or protecting against future declines in value. The fair value of open future contracts is calculated as the difference between the contracted rate and the current rate that would close out the contract on the Statement of Financial Position date. Gains or losses on futures are included in the financial assets at fair value through profit or loss or financial liabilities at fair value through profit or loss on the Statement of Financial Position and are shown in the Schedule of Investments. When the contract is terminated, the Fund will recognise a realised gain or loss in the Statement of Comprehensive Income equal to the difference between the value of the contract at the time it was entered into and the time it was closed.

M. Transaction Costs

A Fund pays transaction costs, such as commissions, when it buys and sells securities. Transaction costs means any costs and expenses incurred in respect of the buying and selling of portfolio securities and financial instruments as Investments, including but not limited to brokerage fees and commission, interest or taxes payable in respect of such purchase and sale transactions. Transaction costs are included in the purchase and sale of each security.

4. Taxation

Under current law and practice the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended (the “TCA”). On that basis, it is not chargeable to Irish tax on its income or gains. However, Irish tax may arise on the happening of a “chargeable event”. A chargeable event includes any distribution payments to shareholders or any encashment, redemption, cancellation or transfer of shares. No Irish tax will arise on the Company in respect of chargeable events in respect of:

(a) a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the TCA, are held by the Company; and

(b) certain exempted Irish tax resident shareholders who have provided the Company with the necessary signed statutory declarations.

A chargeable event does not include:

(i) any transaction (which might otherwise be a chargeable event) in relation to shares held in a recognised clearing system as designed by order of the Revenue Commissioners of Ireland; or

(ii) a transfer of shares between spouses/civil partners and any transfer of shares between spouses/civil partners or former spouses/civil partners on the occasion of judicial separation, decree of dissolution and/or divorce as appropriate; or

(iii) an exchange by a shareholder, effected by way of arm’s length bargain where no payment is made to the shareholder, of shares in a Fund for shares in another Fund; or

(iv) an exchange of shares arising on a qualifying amalgamation or reconstruction (within the meaning of Section 739H of the TCA) with another investment undertaking.

It is the intention of the Directors that the shares of the ETF Funds will at all times be held in a recognised clearing system. On that basis, it is not envisaged that a chargeable event will arise on which the Company will be liable to account for tax. However, if, for any reason, the shares cease to be held in a recognised clearing system and the Company becomes liable to account for tax on a chargeable event, the Company shall be entitled to deduct from the payment arising on that chargeable event an amount equal to the appropriate tax and/or, where applicable, to repurchase and cancel such number of shares held by the shareholder as is required to meet the amount of tax. The relevant shareholder shall indemnify and keep the Company indemnified against loss arising to the Company by reason of the Company becoming liable to account for tax on the happening of a chargeable event.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

4. Taxation (continued)

Other Countries:

Provisions have been made for Capital Gains Taxes payable on certain Brazilian securities held by the Emerging Markets ETF, Global Equity ETF, Scarce Resources ETF and Smart Grid Infrastructure ETF and for certain Indian securities held by the Emerging Markets ETF, Global Equity ETF, Indxx NextG ETF, Indxx ETF, Scarce Resources ETF and ESG Leaders ETF.

Income and capital gains (if any) received on investments made by the Company may be subject to withholding taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

5. Financial Assets and Liabilities at Fair Value through Profit or Loss

The Company is required to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making measurements. The fair value hierarchy has the following levels:

- Level 1 - The unadjusted quoted price in an active market for identical assets or liabilities that the entity can access at the measurement date.
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable (i.e. developed using market data) for the asset or liability, either directly or indirectly.
- Level 3 - Inputs are unobservable (i.e. for which market data is unavailable) for the asset or liability.

During the financial year ended 31 December 2024, there were no transfers between levels of the fair value hierarchy for financial assets and financial liabilities which were recorded at fair value.

During the financial year ended 31 December 2023, there were no transfers between levels of the fair value hierarchy for financial assets and financial liabilities which were recorded at fair value.

Transfers are deemed to have occurred at the beginning of the financial year.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

As at 31 December 2024, First Trust Emerging Markets AlphaDEX® UCITS ETF had six fair valued securities, Magnitogorsk Iron & Steel Works PJSC, Magnit PJSC, Tatneft PJSC, Huaneng Renewables Corp Ltd 'H', Inter RAO UES PJSC and RusHydro PJSC held under Level 3 as instructed by the Investment Manager. As at 31 December 2023, the Fund had seven fair valued securities, Magnitogorsk Iron & Steel Works PJSC, Magnit PJSC, Tatneft PJSC, Huaneng Renewables Corp Ltd 'H', Inter RAO UES PJSC, RusHydro PJSC, Wistron Corporation Rights 05/01/2024 held under Level 3 as instructed by the Investment Manager.

As at 31 December 2024 and 31 December 2023, First Trust United Kingdom AlphaDEX® UCITS ETF had one fair valued security, Evraz Plc, held under Level 3 as instructed by the Investment Manager.

As at 31 December 2024 and 31 December 2023, First Trust Indxx NextG UCITS ETF had one fair valued security, Mobile TeleSystems PJSC ADR, held under Level 3 as instructed by the Investment Manager.

As at 31 December 2024 and 31 December 2023, First Trust Global Equity Income UCITS ETF had seven fair valued securities, Alrosa PJSC, Magnitogorsk Iron & Steel Works PJSC, GMK Norilskiy Nickel PAO, Novolipetsk Steel PJSC, Polyus PJSC, Severstal PAO and Inter RAO UES PJSC held under Level 3 as instructed by the Investment Manager.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

7. Share Capital

On incorporation the authorised and fully paid share capital of the Company was 2 subscriber shares valued at €2.00 with no par value and 500,000,000,000 participating shares of no par value. The subscriber shares do not form part of the Company's NAV and are disclosed in the financial statements by way of this note only. In the opinion of the Directors, the disclosure reflects the nature of the Company's investment business. The subscriber shares do not entitle the holders to any dividends and on winding up entitle the holders to receive the amount paid up thereon but not otherwise participate in the net assets of the Company. The Company reserves the right to redeem some or all of the subscriber shares provided that the Company at all times has a minimum issued share capital to the value of €300,000.

Each of the participating shares of the Company entitles the holder to one vote per share, dividends as the Directors may from time to time declare and, in the event of a winding up or dissolution of the Company, be entitled, in priority to the holders of the subscriber shares, firstly to an amount equal to the NAV of the shares of each class or series held at the date of winding up and, after payment to the holders of the subscriber shares of the nominal amount paid up thereon, to participate in surplus assets of the Company (if any).

The issued and fully paid redeemable participating share capital is at all times equal to the NAV of the Company. Redeemable participating shares are redeemable at the shareholders option and are classified as financial liabilities.

The following tables show the movement in share classes for the Funds during the financial year ended 31 December 2024:

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

8. Efficient Portfolio Management

The Company may, on behalf of the Funds and subject to the conditions and within the limits laid down by the Central Bank, employ techniques and instruments relating to transferable securities for efficient portfolio management purposes as described in the prospectus.

Transactions for the purposes of efficient portfolio management may be undertaken with a view to achieving a reduction in risk, a reduction in costs or an increase in capital or income returns to a Fund and may not be speculative in nature. These techniques and instruments may include investments in currency related transactions such as forward currency contracts, options on currencies, futures and swap agreements in order to hedge against certain currency risks.

The Central Bank requires that all UCITS that use financial derivative instruments employ a risk management process which enables it to accurately manage, measure and monitor the various risks associated with financial derivative instruments. This is documented in the Company's risk management process which is a document filed with the Central Bank (the "Risk Management Process").

The revenue arising from the efficient portfolio management techniques consists of revenues from stock lending, repurchase and reverse repurchase arrangement interest income (disclosed in the Statement of Comprehensive Income) and realised gains/losses on forward foreign currency contracts, options on currencies, futures, contracts for differences and swap agreements (disclosed in the Statement of Comprehensive Income). These revenues are subject to transaction costs which are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability.

Such techniques and instruments will be utilised in accordance with the requirements of the Central Bank. New techniques and instruments may be developed which may be suitable for use by the Company and the Company (subject as aforesaid) may employ such techniques. Please refer to the Schedule of Investments for details of the OTC financial derivative instruments held as at 31 December 2024.

9. Significant Agreements and Operating Expenses

A. The Administrator

The Manager (as defined below) of the Funds discharges the fees of the Administrator in respect of the relevant Fund. The Manager does not discharge the fees of the Administrator in respect of the Strategic UCITS Fund. These fees are discharged by the Fund.

The Manager (as defined below) has appointed BNY Mellon Fund Services (Ireland) Designated Activity Company (the "Administrator") to act as administrator and transfer agent for the Strategic UCITS Fund with responsibility for performing the day to day administration of the Company, including the calculation of the NAV and the NAV per share of the Fund. The Company will pay to the Administrator an annual fee up to 0.065% of the average NAV of the Strategic UCITS Fund; subject to a minimum fee of up to US\$75,000 per annum (with VAT thereon, if applicable). Such fees shall accrue daily and be paid monthly in arrears. Minimum Administrator fees have been waived for three financial years from the launch date of the Fund.

The Company shall pay fixed transaction fees to the Administrator in respect of all Funds which shall be charged at normal commercial rates. In addition, the Administrator shall be entitled to be reimbursed its reasonable vouched out-of-pocket expenses.

B. The Manager

First Trust Global Portfolios Management Limited (the "Manager") has been appointed as manager of the Company pursuant to the Management Agreement. Under the terms of the Management Agreement, the Manager has responsibility for the management and administration of the Company affairs, subject to the overall supervision and control of the Directors. The Management Agreement between the Company and the Manager became effective on 25 September 2019.

The Manager was incorporated as a private company limited by shares in Ireland under the Companies Act, under registration number 637071 on 6 November 2018 and is authorised by the Central Bank to act as a UCITS management company pursuant to the UCITS Regulations. The Manager's main business is the provision of fund management services to UCITS. The Manager is a wholly owned subsidiary of First Trust Global Enterprises L.P. which is a limited partnership established under the laws of the State of Illinois in the United States of America.

The manager is managed and supervised by its Board. The Board oversees the general management and conduct of all aspects of the Company's business, including its compliance with its obligations under the UCITS Regulations, the Central Bank Regulations and the Central Bank's Fund Management Company Guidance. With the exceptions of Kathleen Brown, Don Swade and Bronwyn Wright, the Directors of the manager are also the Directors of the Company.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

9. Significant Agreements and Operating Expenses (continued)

B. The Manager (continued)

Under the Management Agreement, the Company will pay to the Manager in respect of each Fund, a management fee in the amount specified in the following table, which shall be calculated and accrued daily and be payable monthly in arrears. For the ETF Funds, the Manager is responsible for discharging all operational expenses, including but not limited to, fees and expenses of the Investment Manager, Depositary, Administrator, Distributor, Registrar and Directors, the costs of maintaining the Funds and any registration of the Funds with any governmental or regulatory authority; preparation, printing and posting of prospectuses, sales literature and reports to shareholders, regulatory fees of the Central Bank or stock exchange and other governmental agencies; marketing expenses; insurance premiums; fees and expenses for legal, audit and other services; paying for sub-licensing fees related to each Fund's Index (where relevant) and any distribution fees or expenses but excluding interest, taxes, brokerage commissions and other expenses connected with execution of portfolio transactions, and extraordinary expenses.

The Manager will receive from each Fund an annual management fee as disclosed in the table above based on each Fund's average daily net assets.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

9. Significant Agreements and Operating Expenses (continued)

B. The Manager (continued)

With respect to the US Large Cap ETF, UK ETF, Eurozone ETF, Global ETF, Germany ETF and US Equity ETF there is a further 0.10% fee waiver from the annual management fees which shall expire on 18 November 2025.

In the event that a Fund's operational, establishment and/or registration expenses combined exceed the stated management fees, the Manager shall discharge any excess out of its own assets.

C. The Investment Manager

The Manager has appointed the Investment Manager to act as investment manager for the Funds. The Investment Manager is a limited partnership with one limited partner, Grace Partners of DuPage L.P., and one general partner, The Charger Corporation.

Under the investment management agreement, the Manager will pay to the Investment Manager an investment management fee, which shall be calculated and accrued daily and be payable monthly in arrears. For the financial years ended 31 December 2024 and 31 December 2023, no fees were paid by the Manager to the Investment Manager.

In addition, the Investment Manager shall be entitled to be reimbursed for its reasonable vouched out-of-pocket expenses. For the financial years ended 31 December 2024 and 31 December 2023, no out-of-pocket expenses were paid by the Manager to the Investment Manager.

Out of the investment management fee, the respective Investment Manager/Sub-Investment Manager shall discharge the fees and reasonable out-of-pocket expenses of First Trust Global Portfolios Limited ("FTGP") as distributor of the Company.

D. The Sub-Investment Managers

The Investment Manager has appointed FTGP as a Sub-Investment Manager of FactorFX ETF and Low Duration ETF and Vest Financial, LLC as the Sub-Investment Manager of each of the U.S. Equity and Nasdaq-100[®] Moderate Buffer ETFs.

FTGP shall be liable to the Manager and the Investment Manager as sub-investment manager of FactorFX ETF and Low Duration ETF and Vest Financial, LLC shall be liable to the Manager and the Investment Manager as sub-investment manager of U.S. Equity Moderate Buffer ETF - August, U.S. Equity Moderate Buffer ETF - November, U.S. Equity Moderate Buffer ETF - February, U.S. Equity Moderate Buffer ETF - May, Nasdaq-100[®] Moderate Buffer ETF - September and Nasdaq-100[®] Moderate Buffer ETF - December for any losses, liabilities, actions, proceedings, claims, costs and expenses ("Losses") sustained by reason of its negligence, fraud, bad faith, reckless disregard or wilful default in respect of its obligations and duties under the sub-investment management agreements. The Investment Manager shall pay the fees and expenses of the Sub-Investment Managers out of its own fees. For the financial years ended 31 December 2024 and 31 December 2023, no fees were paid by the Investment Manager to the Sub-Investment Managers.

First Trust Global Enterprises L.P., an affiliate of First Trust, has a 97% (31 December 2023: 97%) ownership interest in FTGP the Sub-Investment Manager of the FactorFX ETF and the Low Duration ETF.

Vest Financial, LLC is an affiliate of First Trust.

E. Performance Fees

No performance fees are payable in respect of the Funds.

F. The Depositary

The Manager has appointed The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary") to act as the Depositary to the Company.

The Depositary receives a fiduciary fee for its services in respect of the Strategic UCITS Fund at a rate of up to 0.025% per annum of the average NAV of the Fund, subject to a minimum fee of up to US\$17,500 per Fund per annum (plus VAT, if any). The fee shall accrue daily and be calculated and payable monthly in arrears. Minimum Depositary fees have been waived for three financial years from the launch date.

The Manager will discharge the fees of the Depositary for all the Funds except for the Strategic UCITS Fund.

The Manager does not discharge the fees of the Depositary in respect of the Strategic UCITS Fund. These fees are discharged by the Fund.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

9. Significant Agreements and Operating Expenses (continued)

F. The Depositary (continued)

The Depositary shall also be entitled to receive transaction charges and sub-custodian fees which shall be charged at normal commercial rates. The Depositary is also entitled to reimbursement of its reasonable vouched out-of-pocket expenses.

G. Expense Cap

The Manager has voluntarily undertaken to limit the aggregate annual operating expenses of the Strategic UCITS Fund for the financial year to 0.75% of the average daily NAV of the Class A share class, excluding any performance fee, interest, taxes, brokerage fees and extraordinary expenses. The expenses above the cap as set out in the Statement of Comprehensive Income represent the expenses that the Manager has undertaken to discharge in order to meet the limits set out above. The expense cap shall remain in effect at least until 18 May 2026.

H. Audit Fees

The following table sets out the fees of the PricewaterhouseCoopers Ireland for the financial years ended 31 December 2024 and 31 December 2023:

	31 December 2024	31 December 2023
Statutory Audit fees	€247,000 (VAT excl)	€175,500 (VAT excl)
Non-audit services	€53,100 (VAT excl)	€49,250 (VAT excl)

The above figures represent the actual PricewaterhouseCoopers Ireland fees charged during the financial year. The audit fees reflected in the financial statements relate to amounts booked as an expense to the Fund. As per Note 9B, audit fees are paid by the Manager and the financial statements reflect the proportion that is paid by the Fund. The non-audit services relate to tax services with the exception of €3,000 which relates to the provision of services in connection with non-statutory annual financial statements to meet the Swiss Financial Market Supervisory Authority requirements.

There were no other assurance services or other non-audit services provided by PricewaterhouseCoopers Ireland as the auditors of the Company during the financial year.

PricewaterhouseCoopers network fees for tax compliance and regulatory services for the financial year ended 31 December 2024 were €330,546 (31 December 2023: €306,500).

I. Other Fees

The Manager will discharge the fees and expenses of the registrar of the Funds. In addition to the fees and expenses the Funds incur directly, fees will also be payable by any investment funds in which the Funds invest.

10. Related Party and Connected Persons Transactions

Director Relationships

Mr. James A. Bowen is the Chief Executive Officer of First Trust Portfolios L.P. and its affiliate, First Trust Advisors L.P., which is the Investment Manager of the Company.

Mr. Andy Roggensack is President of First Trust Portfolios L.P. and its affiliate, First Trust Advisors L.P., which is the Investment Manager of the Company.

Mr. David G. McGarel is Chief Investment Officer and Chief Operating Officer of First Trust Portfolios L.P. and its affiliate, First Trust Advisors L.P., which is the Investment Manager of the Company.

Ms. Bronwyn Wright, Ms. Sarah Cunniff, Mr. Michael Boyce and Mr. Tom Coghlan are independent non-executive Directors to the Company.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

10. Related Party and Connected Persons Transactions (continued)

Director Relationships (continued)

The Independent Directors shall be entitled to be paid a fee from the assets of the Company by way of remuneration for their services at a rate to be determined from time to time by the Directors and notified to the shareholders from time to time by the Directors, provided that the aggregate amount of each Directors' remuneration in any one year shall not exceed €40,000 or other such maximum amount as may be determined by the Directors, and disclosed in the prospectuses or the Company's annual or interim financial statements. The Directors will be entitled to be reimbursed by the Company for all reasonable disbursements and out-of-pocket expenses incurred by them. During the financial year ended 31 December 2024, total Directors' fees of €70,000 (31 December 2023: €60,000) were paid by the Investment Manager for the Company to the Independent Directors. The Directors who held office at 31 December 2024 and their connected persons and the Company Secretary had no interest in the shares of the Company or any of its Funds' at that date or at 1 January 2024 or at any time during the Reporting Period. Additionally, the Directors had no transactions or interest in any transactions or any of the Funds of the Company. Mr. James Bowen, Mr. Andy Roggensack and Mr. David G. McGarel are employees of the Investment Manager and do not receive a fee for their services as Directors.

Fees paid to First Trust Global Portfolios Management Limited in respect of the financial year ended 31 December 2024 were €13,634,734 (31 December 2023: €9,194,807) of which €1,626,862 was outstanding as at 31 December 2024 (31 December 2023: €895,654).

Vest Financial, LLC is an affiliate of First Trust.

First Trust Advisors L.P. invested seed money in the newly launched Funds.

11. Financial Instruments and Associated Risks

A. General

The Company's activities expose it to a variety of financial risks – market risk (including currency risk, interest rate risk and price risk), credit/counterparty risk, and liquidity risk, which are discussed in this note.

The Company has delegated responsibility for the investment and re-investment of the Company's assets to the Investment Manager pursuant to the investment management agreement. First Trust Advisers L.P. appointed FTGP and Vest Financial, LLC as Sub-Investment Managers (the "Sub-Investment Managers") in respect of certain Funds. While the Directors and the Manager are responsible for monitoring the risks associated with the Company and its Funds including the overall supervision of investment performance risk monitoring, the day to day management of investment risk has been delegated to the Investment Manager/Sub-Investment Managers.

The Investment Manager/Sub-Investment Managers will be responsible to the Company, and ultimately the Directors, in regard to the investment management of the assets of the Company.

B. Market Risk

Market risk is the risk that the value of instruments held will fluctuate due to changes in market prices resulting from price risk, currency risk and interest rate risk.

(i) Price Risk

Price risk arises when the fair value or future cash flows of an investment fluctuates because of changes in market prices, other than those arising from interest rate risk or currency risk, whether those changes are caused by factors specific to the individual financial instrument, its issuer, or factors affecting similar financial instruments traded in the market.

U.S. Equity Moderate Buffer UCITS ETF - August, U.S. Equity Moderate Buffer UCITS ETF - November, U.S. Equity Moderate Buffer UCITS ETF - February, U.S. Equity Moderate Buffer UCITS ETF - May, Nasdaq-100[®] Moderate Buffer UCITS ETF - September and Nasdaq-100[®] Moderate Buffer ETF - December are not exposed to market price risk as at 31 December 2024 as they invest solely in flexible option derivatives.

NOTES TO THE FINANCIAL STATEMENTS (continued)

(ii) Currency Risk

Currency risk is the risk that the value of a Fund's net assets will fluctuate due to changes in foreign currency rates. Consequently, the assets of a Fund as measured in its functional currency relative to other currencies may fluctuate in a manner which may have an adverse effect on the value of the Fund's assets denominated in currencies other than its base currency.

Monetary assets, such as cash, are assets which hold a right to receive a fixed or determinable amount of currency. Non-monetary assets, such as transferable securities, are assets in which the right to receive a fixed or determinable amount of currency is absent.

NOTES TO THE FINANCIAL STATEMENTS (continued)

B. Market Risk (continued)

(iii) Interest Rate Risk

Interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. As the US Large Cap ETF, Emerging Markets ETF, UK ETF, Eurozone ETF, Indxx NextG ETF, US Equity Opportunities ETF, Global ETF, Germany ETF, US Equity ETF, International Internet ETF, Clean Edge ETF, Indxx ETF, Dow Jones ETF, Cloud Computing ETF, Capital Strength ETF, Value Line Dividend ETF, Biotechnology ETF, Cybersecurity ETF, Strategic UCITS Fund, ESG Leaders ETF, IPOX Europe ETF, Alerian DTRE ETF, Smart Grid Infrastructure ETF, Scarce Resources ETF, Economy Metals ETF, SMID Rising Achievers ETF, US Momentum ETF, Growth Strength ETF, Global Semiconductor Supply Chain ETF and Indxx Global Aerospace & Defence ETF primarily hold shares in equities, the Investment Manager feels there is minimal exposure to interest rate risk and no sensitivity analysis has been presented. Similarly, U.S. Equity Moderate Buffer ETF - August, U.S. Equity Moderate Buffer ETF - November, U.S. Equity Moderate Buffer ETF - February, U.S. Equity Moderate Buffer ETF - May, Nasdaq-100® Moderate Buffer ETF - September and Nasdaq-100® Moderate Buffer ETF - December invest in FLEX Options as at 31 December 2024, there is minimal exposure to interest rate risk and no sensitivity analysis has been presented.

The FactorFX ETF and Low Duration ETF primarily hold bonds. Funds which hold interest bearing financial assets and liabilities are exposed to interest rate risk, where the value of the securities may fluctuate as a result of a change in interest rate.

The following tables summarise the exposure to interest rate risk for the FactorFX ETF and Low Duration ETF for the financial year ended 31 December 2024. It includes the FactorFX ETF and Low Duration ETF assets and trading liabilities at fair value categorised by the earlier of re-pricing or maturity date measured by the carrying value of the assets and liabilities.

As at 31 December 2024, if there was a reasonable shift in interest rates of 1%, the NAV of FactorFX ETF would change approximately by US\$42,901 and if there was a reasonable shift in interest rates of 6%, the NAV of Low Duration ETF would change by approximately €559,478. Management considers these rates to be a reasonable possible change in interest rates.

As at 31 December 2023, if there was a reasonable shift in interest rates of 1%, the NAV of FactorFX ETF would change approximately by US\$58,267 and if there was a reasonable shift in interest rates of 6%, the NAV of Low Duration ETF would change by approximately €670,340. Management considers these rates to be a reasonable possible change in interest rates.

(iv) VaR Approach

The FactorFX ETF uses the absolute VaR approach and not relative VaR so the reference portfolio is not applicable. The absolute VaR limit is 20% of NAV.

The Factor FX ETF's VaR will be limited to 20% of NAV, based on a 20 day holding period and calculated daily using a 'one-tailed' 99% confidence interval using an observation period of at least 1 year. The level of leverage is expected to range from 200% to 500% of the FactorFX ETF's NAV. It is possible, although it is not expected, that in abnormal market circumstances (for example, periods characterised by (i) lack of liquidity, particularly in Fixed Income Securities listed, traded or dealt on a Regulated Market, causing the Investment Manager to seek exposure in derivatives markets; (ii) volatility where the Investment Manager seeks to hedge or be opportunistic while respecting the investment policies and restrictions applicable to the FactorFX ETF; or (iii) imperfect correlations and unanticipated market conditions) there may be higher levels of leverage of up to 600% of the NAV of the FactorFX ETF. For the FactorFX ETF in 2024 the average, maximum and end values were 257.4% (average), 291.2% (Maximum) and 257.1% and in 2023 the average, maximum and end values were 284.7% (average), 343.98% (Maximum) and 270.68% (29 December 2023).

The Absolute VaR limit is 20% of NAV. During the year the VaR measure (20 Day, 99% confidence, Historical VaR) averaged 5.68%. Maximum was 7.63%, Minimum value was 4.64%. There were no breaches in the backtest of the daily VaR measure. During the year ended 31 December 2023 the VaR measure (20 Day, 99% confidence, Historical VaR) averaged 7.27%. Maximum was 10.02%, Minimum value was 4.93%. There were no breaches in the backtest of the daily VaR measure.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

11. Financial Instruments and Associated Risks (continued)

B. Market Risk (continued)

(iv) VaR Approach (continued)

The FactorFX ETF employs the absolute VaR approach for estimating the FactorFX ETF's VaR using the Historical Stimulation model. The VaR model is validated on a periodic basis by the Risk Manager. The Investment Team will review the results of back-testing and stress testing of the VaR model calculations against back-testing and stress testing calculations produced by an independent third party. This analysis is reviewed by the Risk Oversight Committee and the Risk Manager's compliance department. The VaR calculation utilises a 99% confidence interval, with 20 day holding period and using an observation period of more than 1 year of historical data. Calculations are completed daily. The VaR is monitored to remain below 20 percent of the FactorFX ETF's NAV.

The VAR model employed utilises a long observation period to adequately capture all material market risks. All of the portfolio exposures are included in the calculation to cover all risk factors. The financial derivative instruments the FactorFX ETF invests in are very liquid currency derivatives with transparent pricing and a long historical record. The stress-testing program has additionally taken into account market stress events and simulated scenarios, this includes the monitoring of the FactorFX ETF beta to currency related risk factors which, given the FactorFX ETF investment universe are more specific for the FactorFX ETF. By using a sufficiently long historical period and utilising Historical VaR to calculate the VaR exposure we are not relying on estimations of volatilities and correlations. The underlying financial derivative instruments are very liquid with linear payoffs and long-term histories which allow for a high level of accuracy.

C. Credit Risk

Credit risk is the risk that the counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Funds.

Most of the investments and cash of the Company are held by the Depositary at the financial year end. Bankruptcy or insolvency of the Depositary may cause the Company's rights with respect to its investments in debt securities held by the Depositary to be delayed. The Company's securities are segregated from the assets of the Depositary. Thus, in the event of insolvency or bankruptcy of the Depositary, the Company's assets are segregated. The Company will, however, be exposed to the credit risk of the Depositary in relation to the Company's cash maintained by the Depositary. In the event of the insolvency or bankruptcy of the Depositary, the Company will be treated as a general creditor of the Depositary in relation to cash holdings of the Company.

At 31 December 2024, the Depositary has a credit rating of AA- with Standard & Poor's (31 December 2023: AA-), Aa1 with Moody's (31 December 2023 : Aa2) and AA with Fitch (31 December 2023 : AA).

The Depositary is under a duty to take into custody and to hold the property of each Fund on behalf of its shareholders. The Central Bank requires the Depositary to hold legally separately the non-cash assets of each Fund and to maintain sufficient records to clearly identify the nature and amount of all assets that it holds, the ownership of each asset and where the documents of title to such assets are physically located. When the Depositary employs a sub-custodian the Depositary retains responsibility for the assets of the Fund.

However, it should be noted that not all jurisdictions have the same rules and regulations as Ireland regarding the custody of assets and the recognition of the interests of a beneficial owner such as a Fund. Therefore, in such jurisdictions, there is a risk that if a sub-custodian becomes bankrupt or insolvent, the Fund's beneficial ownership of the assets held by such sub-custodian may not be recognised and consequently the creditors of the sub-custodian may seek to have recourse to the assets of the Fund. In those jurisdictions where the Fund's beneficial ownership of its assets is ultimately recognised, the Fund may suffer delay and cost in recovering those assets. The Funds may invest in markets where custodial and/or settlement systems are not fully developed, such as Russia and Argentina. The assets of a Fund which are traded in such markets and which have been entrusted to sub-custodians, in circumstances where the use of such sub-custodians is necessary, may be exposed to risk in circumstances whereby the Depositary will have no liability.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

11. Financial Instruments and Associated Risks (continued)

C. Credit Risk (continued)

The counterparties for the various investments held by the Funds are listed below along with their credit rating at 31 December 2024 and 31 December 2023 as per the rating agency Standard and Poor's:

D. Liquidity Risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting obligations associated with financial liabilities. The main liquidity risk to the Company arises from the redemption requests of its shareholders. The Company's shareholders may redeem their shares on any business day for cash equal to a proportionate share of a Fund's NAV, and it is therefore exposed to the liquidity risk of meeting the daily redemption by its shareholders.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

11. Financial Instruments and Associated Risks (continued)

D. Liquidity Risk (continued)

The Company provides for the subscription and redemption of shares and it is therefore exposed to the liquidity risk associated with shareholder redemptions in accordance with the terms in the prospectuses. The shares of each Fund (except for the Strategic UCITS Fund) will be listed and admitted to trading on one or more stock exchanges. The purpose of the listing of the shares on stock exchanges is to enable investors to buy and sell shares on the secondary market, normally via a broker/dealer or third party administrator, in smaller quantities than would be possible if they were to subscribe and/or redeem shares through the Company in the primary market. In accordance with the requirements of the relevant recognised stock exchange, market-makers (which may or may not be an AP) are expected to provide liquidity and bid and offer prices to facilitate the secondary market trading of the shares. There is no guarantee as to the liquidity of the shares on any relevant stock exchange, or as to the provision of intra-day prices for the shares.

These terms of the prospectuses include the discretion to limit redemptions to 10% of the NAV on any dealing day. The portfolios are managed to include liquid investments sufficient to meet normal liquidity needs although substantial redemptions of shares in a Fund could require the Fund to liquidate investments more rapidly than otherwise desirable in order to raise cash for redemptions. These factors could adversely affect the value of the shares redeemed, the valuation of the shares that remain outstanding and the liquidity of remaining assets if more liquid assets have been sold to meet redemptions.

As at 31 December 2024 and 31 December 2023 all liabilities had an earliest potential settlement of less than one month.

E. Custody & Title Risk

The Depositary is under a duty to hold in custody all financial instruments that may be registered in a financial instruments account opened in the Depositary's books and all financial instruments that can be physically delivered to the Depositary. The Depositary is required to ensure that all financial instruments that can be registered in a financial instruments account opened in the Depositary's books are registered in the Depositary's books within segregated accounts. For other assets, the Depositary shall verify the Company's ownership of such assets. The Depositary will maintain a record of the financial instruments entrusted to it and those assets for which it is satisfied that the Company holds the ownership. When the Depositary employs a sub-custodian the Depositary retains responsibility for the assets of the Fund.

However, it should be noted that not all jurisdictions have the same rules and regulations as Ireland regarding the custody of assets and the recognition of the interests of a beneficial owner such as a Fund. Therefore, in such jurisdictions, there is a risk that if a sub-custodian becomes bankrupt or insolvent, the Fund's beneficial ownership of the assets held by such sub-custodian may not be recognised and consequently the creditors of the sub-custodian may seek to have recourse to the assets of the Fund. In those jurisdictions where the Fund's beneficial ownership of its assets is ultimately recognised, the Fund may suffer delay and cost in recovering those assets.

The Funds may invest in markets where custodial and/or settlement systems are not fully developed, such as Russia and Argentina. Therefore, the assets of a Fund which are traded in such markets and which have been entrusted to sub-custodians, in circumstances where the use of such sub-custodians is necessary, may be exposed to risk. The Depositary shall maintain an appropriate level of supervision over the sub-custodian and make appropriate enquiries from time to time to confirm that the obligations of the agent continue to be competently discharged.

F. Cybersecurity Risk

Cybersecurity breaches may occur allowing an unauthorised party to gain access to assets of the Funds, shareholder data, or proprietary information, or may cause the Company, the Investment Manager, the Sub-Investment Managers, the Distributor, the Administrator or the Depositary to suffer data corruption or lose operational functionality. The Funds may be affected by intentional cybersecurity breaches which include unauthorised access to systems, networks, or devices (such as through "hacking" activity); infection from computer viruses or other malicious software code; and attacks that shut down, disable, slow, or otherwise disrupt operations, business processes, or website access or functionality. In addition, unintentional incidents can occur, such as the inadvertent release of confidential information (possibly resulting in the violation of applicable privacy laws). A cybersecurity breach could result in the loss or theft of shareholder data or funds, the inability to access electronic systems, loss or theft of proprietary information or corporate data, physical damage to a computer or network system, or costs associated with system repairs. Such incidents could cause the Company, the Investment Manager, the Sub-Investment Managers, the Distributor, the Administrator, the Depositary, or other service providers to incur regulatory penalties, reputational damage, additional compliance costs, or financial loss. Consequently, shareholders may lose some or all of their invested capital. In addition, such incidents could affect issuers in which a Fund invests, and thereby cause a Fund's investments to lose value, as a result of which investors, including the relevant Fund and its shareholders, could potentially lose all or portion of their investment with that issuer.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

12. Global Exposure

The Company employs a risk-management process which enables them to monitor and measure at any time the risk of the positions and their contribution to the overall risk profile of the Funds. The Investment Manager/Sub-Investment Managers and the Company will employ, if applicable, a process for accurate and independent assessment of the value of any over-the-counter derivative instrument. The Investment Manager/Sub-Investment Managers will apply the commitment approach with respect to the determination of the global exposure of the Funds. The Low Duration ETF and each of the U.S. Equity and Nasdaq-100[®] Moderate Buffer ETFs use the commitment approach. A Fund using the commitment approach must ensure that its global exposure does not exceed its total Net Asset Value. The Fund may not therefore be leveraged in excess of 100% of its Net Asset Value. A Fund using the VaR approach must employ back testing and stress testing and comply with other regulatory requirements regarding the use of VaR.

13. Transaction Costs

The Funds' transactions costs incurred during the financial year relate to the purchase or sale of the transferable securities, derivatives or other eligible assets. Transaction costs include commission costs, settlement fees, broker fees and depositary transaction fees. These costs are included in the net gain/(loss) on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income. The transaction costs incurred are as given in the following table:

	2024	2023

EUR 1 = USD 1.074948

U.S. Equity Moderate Buffer ETF - November

EUR 1 = USD 1.091230

16. Segregated Liability

The Company was incorporated as an umbrella fund with segregated liability between sub-funds in accordance with the Companies Act and as such as a matter of Irish law the assets of a sub-fund will not be exposed to the liabilities of the Company's other sub-funds. Each Fund is a Sub-Fund of the Company and will be responsible for paying its fees and expenses regardless of the level of its profitability. Fees and expenses, that are not specific to a sub-fund/sub-funds, are allocated pro-rata based on net assets across the sub-funds. Notwithstanding the foregoing, there can be no assurance that, should an action be brought against the Company in the courts of another jurisdiction, the segregated nature of the sub-funds would necessarily be upheld.

17. Contingent Liabilities and Commitments

There were no significant contingent liabilities or commitments as at 31 December 2024 or 31 December 2023 other than those disclosed in the financial statements.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

19. Significant Events during the Financial Year

On 2 January 2024, a new ETF prospectus was issued which reflects a change in the composition of the Board of Directors of the Company; the addition of new sections dealing with new risk factors: “Options Risk” and “Covered Call Risk”; the addition of wording providing for possible rebate arrangements entered into by the Manager in accordance with the UCITS rules; the creation of Appendix A listing all of the sub-funds of the Company; the name change of the sub-investment manager from “Cboe Vest Financial, LLC” to “Vest Financial, LLC”; and minor passage of time updates.

On 2 January 2024, a new Mutual Funds prospectus was issued which reflects a change in composition of the Board of Directors of the Company; the creation of “Appendix A” to the prospectus listing all of the Funds; and minor passage of time updates.

Effective 2 January 2024, First Trust Cboe Vest U.S. Equity Moderate Buffer UCITS ETF - August changed its name to First Trust Vest U.S. Equity Moderate Buffer UCITS ETF - August.

Effective 2 January 2024, First Trust Cboe Vest U.S. Equity Moderate Buffer UCITS ETF - November changed its name to First Trust Vest U.S. Equity Moderate Buffer UCITS ETF - November.

On 3 January 2024, updated supplements were issued for First Trust Cloud Computing UCITS ETF and First Trust Nasdaq® Clean Edge® Smart Grid Infrastructure UCITS ETF respectively, detailing that these Funds are now classified under Article 8 of the Sustainable Finance Disclosures Regulation.

Effective 3 January 2024, the index for First Trust Cloud Computing UCITS ETF changed from ISE CTA Cloud Computing Index Nasdaq to ISE CTA Cloud Computing Exclusions Index.

Effective 3 January 2024, the index for First Trust Nasdaq® Clean Edge® Smart Grid Infrastructure UCITS ETF changed from Nasdaq OMX Clean Edge Smart Grid Infrastructure Index to Nasdaq OMX Clean Edge Smart Grid Infrastructure Exclusions Index™.

First Trust Bloomberg Scarce Resources UCITS ETF was launched on 23 January 2024.

First Trust Indxx Future Economy Metals UCITS ETF was launched on 23 January 2024.

On 29 January 2024, a new ETF prospectus was issued which reflects updates to the disclosures relating to “Management Risk” and “Insufficiency of Duties and Charges Risk”. In addition, the list of actively managed Funds was replaced with a reference to “any actively managed Fund” so that the ETF prospectus does not need to be updated each time an actively managed fund is launched.

On 14 February 2024, an updated supplement for First Trust NYSE ARCA Biotechnology UCITS ETF was noted by the Central Bank to amend the description of the Index.

First Trust Vest U.S. Equity Moderate Buffer UCITS ETF - February was launched on 16 February 2024.

On 19 March 2024, the Central Bank approved the First Trust Growth Strength UCITS ETF and noted the updated Appendix A to the prospectuses along with the supplement issued for the First Trust Growth Strength UCITS ETF.

First Trust SMID Rising Dividend Achievers UCITS ETF was launched on 9 April 2024.

The supplement for First Trust Alerian Disruptive Technology Real Estate UCITS ETF (the “Alerian Fund”) was updated to remove a disclosure that the Alerian Fund’s assets are permanently invested with a minimum of at least 51% of their value in securities defined as equities in accordance to sec. 2 para. 8 of the German Investment Tax Act as the Alerian Fund no longer maintains this minimum investment for the purposes of the German Investment Tax Act. The updated supplement was noted by the Central Bank on 23 April 2024.

On 18 April 2024, the Central Bank approved the First Trust Vest U.S. Equity Moderate Buffer UCITS ETF - May (the “U.S. Equity Moderate Buffer ETF - May”) and noted the updated Appendix A to the prospectuses along with the supplement issued for the U.S. Equity Moderate Buffer ETF - May.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

19. Significant Events during the Financial Year (continued)

The supplements for the following Funds which include impacted securities (as defined below) were amended on 28 May 2024 to reflect the transition to a T+1 settlement cycle for impacted securities on that date when the settlement cycle changed in the U.S., Canada and Mexico:

1. First Trust Growth Strength UCITS ETF
2. First Trust SMID Rising Dividend Achievers UCITS ETF
3. First Trust US Large Cap Core AlphaDEX[®] UCITS ETF
4. First Trust US Equity Opportunities UCITS ETF
5. First Trust US Equity Income UCITS ETF
6. First Trust Cloud Computing UCITS ETF
7. First Trust Capital Strength UCITS ETF
8. First Trust Value Line[®] Dividend Index UCITS ETF
9. First Trust NYSE Arca Biotechnology UCITS ETF
10. First Trust Nasdaq[®] Clean Edge[®] Green Energy UCITS ETF
11. First Trust Emerging Markets AlphaDEX[®] UCITS ETF
12. First Trust Indxx Innovative Transaction & Process UCITS ETF
13. First Trust Bloomberg Scarce Resources UCITS ETF
14. First Trust Nasdaq[®] Cybersecurity UCITS ETF
15. First Trust Alerian Disruptive Technology Real Estate UCITS ETF
16. First Trust Global Capital Strength ESG Leaders UCITS ETF
17. First Trust Dow Jones International Internet UCITS ETF
18. First Trust Global Equity Income UCITS ETF
19. First Trust IPOX[®] Europe Equity Opportunities UCITS ETF
20. First Trust Nasdaq[®] Clean Edge[®] Smart Grid Infrastructure UCITS ETF
21. First Trust Indxx Future Economy Metals UCITS ETF
22. First Trust Indxx NextG UCITS ETF

On 28 May 2024, the Central Bank approved the First Trust Bloomberg Global Semiconductor Supply Chain UCITS ETF and noted the updated Appendix A to the prospectuses along with the supplement issued for the First Trust Bloomberg Global Semiconductor Supply Chain UCITS ETF.

The approval of the below Funds was withdrawn by the Central Bank on 29 May 2024:

- (a) First Trust Asia Pacific ex-Japan AlphaDEX UCITS ETF;
- (b) First Trust All Weather UCITS Fund;
- (c) First Trust Nasdaq Artificial Intelligence and Robotics UCITS ETF; and
- (d) First Trust S-Network Streaming & Gaming UCITS ETF.

On 11 June 2024, the Central Bank approved First Trust Momentum UCITS ETF and noted the updated prospectuses, which included the removal of references to Funds that had their approval withdrawn, along with the supplement issued for the First Trust Momentum UCITS ETF.

First Trust Vest U.S. Equity Moderate Buffer UCITS ETF - May was launched on 17 May 2024.

On 1 July 2024, an Investment Advisory Agreement between FTGP and First Trust Portfolios Asia PTE. LTD in respect of the Funds of the Company managed by FTGP was filed with the Central Bank.

On 10 July 2024, the updated supplement for First Trust Nasdaq Cybersecurity UCITS ETF was noted by the Central Bank to reflect methodology changes to the Cybersecurity Exclusions Index.

On 17 July 2024, the Central Bank approved the First Trust Emerging Markets Equity Income UCITS ETF and noted the issued prospectus supplement.

On 22 July 2024, the updated supplement for First Trust US Momentum UCITS ETF was noted by the Central Bank to reflect an update to the description of the iINDEX US Momentum Index. The Fund was launched on 30 July 2024.

First Trust US Momentum UCITS ETF was launched on 30 July 2024.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

19. Significant Events during the Financial Year (continued)

On 12 August 2024, the Central Bank approved: (i) First Trust Vest Nasdaq-100[®] Moderate Buffer UCITS ETF - September; (ii) First Trust Vest Nasdaq-100[®] Moderate Buffer UCITS ETF - December; (iii) First Trust Vest Nasdaq-100[®] Moderate Buffer UCITS ETF - March; (iv) First Trust Vest Nasdaq 100[®] Moderate Buffer UCITS ETF - June; (v) First Trust Indxx Global Aerospace & Defence UCITS ETF; and (vi) First Trust S&P 500 Economic Moat UCITS ETF and noted the updated prospectuses along with the supplements issued for each of these Funds.

First Trust Vest Nasdaq-100[®] Moderate Buffer UCITS ETF - September was launched on 24 September 2024.

First Trust Growth Strength UCITS ETF was launched on 21 October 2024.

On 22 November 2024, a new supplement was issued for First Trust Bloomberg Semiconductor Supply Chain UCITS ETF updating the SFDR annex to change one of the Fund's sustainability indicators given the controversies indicator being used by the Fund had changed to be based on data provided by Sustainalytics rather than MSCI to align with the data used by the index for the Fund.

Sarah Cunniff was redesignated from non-executive director (PCF-2A) to independent non-executive director (PCF-2B) on 9 December 2024.

First Trust Bloomberg Global Semiconductor Supply Chain UCITS ETF was launched on 11 December 2024.

First Trust Indxx Global Aerospace & Defence UCITS ETF was launched on 11 December 2024.

First Trust Vest Nasdaq-100[®] Moderate Buffer UCITS ETF - December was launched on 20 December 2024.

The following Funds were authorised by the Central Bank during the year:

1. First Trust Vest Nasdaq-100[®] Moderate Buffer UCITS ETF - September (on 12 August 2024)
2. First Trust Vest Nasdaq-100[®] Moderate Buffer UCITS ETF - December (on 12 August 2024)
3. First Trust Vest Nasdaq-100[®] Moderate Buffer UCITS ETF - March (on 12 August 2024)
4. First Trust Vest Nasdaq-100[®] Moderate Buffer UCITS ETF - June (on 12 August 2024)
5. First Trust Indxx Global Aerospace & Defense UCITS ETF (on 12 August 2024)
6. First Trust S&P 500 Economic Moat UCITS ETF (on 12 August 2024)
7. First Trust Bloomberg Global Semiconductor Supply Chain UCITS ETF (on 30 September 2024)
8. First Trust Vest U.S. Equity Moderate Buffer UCITS ETF - February (on 29 January 2024)
9. First Trust Growth Strength UCITS ETF (on 19 March 2024)
10. First Trust SMID Rising Dividend Achievers UCITS ETF (on 19 March 2024)
11. First Trust US Momentum UCITS ETF (on 11 June 2024)
12. First Trust Emerging Markets Equity Income UCITS ETF (on 17 July 2024)

There were no other significant events during the financial year.

20. Significant Events after the Financial Year End Date

The following new Funds were approved by the Central Bank on 2 January 2025 and the updated Appendix A to the prospectuses were noted, along with the supplement for each of the new Funds:

1. First Trust Vest U.S. Equity Buffer UCITS ETF - January;
2. First Trust Vest U.S. Equity Buffer UCITS ETF - April;
3. First Trust Vest U.S. Equity Buffer UCITS ETF - July;
4. First Trust Vest U.S. Equity Buffer UCITS ETF - October.

On 2 January 2025, a new supplement for First Trust SMID Rising Dividend Achievers UCITS ETF was issued to amend the description of the index used by the fund for investment purposes in order to reflect methodology changes implemented by the index provider, namely the minimum market capitalisation for constituents of the index was increased from \$500 million to \$1 billion.

First Trust Vest U.S. Equity Buffer UCITS ETF - January was launched on 21 January 2025.

On 27 January 2025, a new supplement was issued for each of First Trust Bloomberg Global Semiconductor Supply Chain UCITS ETF, First Trust Cloud Computing UCITS ETF, First Trust Nasdaq Clean Edge Smart Grid Infrastructure UCITS ETF and First Trust Nasdaq Cybersecurity UCITS ETF. The SFDR Annexes to the supplements were updated to reflect that the Funds consider principal adverse impacts under Article 7 of SFDR, namely PAI 14 on controversial weapons.

NOTES TO THE FINANCIAL STATEMENTS (continued)

For the financial year ended 31 December 2024

20. Significant Events after the Financial Year End Date (continued)

On 12 February 2025, First Trust Bloomberg Artificial Intelligence UCITS ETF was approved as a new Fund of the Company and the Central Bank noted the updated Appendix A to the prospectuses along with the supplement for the new Fund.

On 24 February 2025, a new ETF prospectus was issued which reflects the removal of references to revoked Funds which have had their approval withdrawn by the Central Bank since the date of the last ETF prospectus; updates to certain risk factors to remove references to specific Funds and passage of time updates; the rationalisation of the disclosures on the use of derivatives for investment and hedging purposes as well as the inclusion of expanded disclosures in relation to futures to include specific disclosures on interest rate and bond futures; updates to the principal adverse impact disclosures contained in the “Sustainable Finance” section; updates to the list of sub-custodians contained in the schedule to the prospectus; and other minor passage of time updates.

First Trust Vest Nasdaq-100® Moderate Buffer UCITS ETF - March was launched on 21 March 2025.

First Trust SMID Rising Dividend Achievers UCITS ETF – Class B (Distributing) was launched on 9 April 2025.

Up to the date of approval of these financial statements there were no other significant events after 31 December 2024 affecting the Company which would require adjustment to or disclosure in these financial statements.

21. Reconciliation of net assets attributable to holders of redeemable participating shares

There was no NAV adjustment required to the Financial Statements as at 31 December 2024.

First Trust Emerging Markets AlphaDEX® UCITS ETF

	As at 31 December 2023 US\$
Net Assets attributable to holders of redeemable participating shares per financial statements	13,670,971
Adjustment to payable on capital shares ¹	1,608,650
Adjustment for reversal of capital gains tax receivable included in the published NAV	2,620
Net Assets attributable to holders of redeemable participating shares per shareholder dealing	15,282,241

¹ Adjustment for T+1 redemption.

22. Valuation Point

The Financial Statements have been prepared based on the last Net Asset Value of the year which was calculated on 31 December 2024.

23. Whistleblowing policy

The Company has adopted a whistleblowing policy pursuant to the Protected Disclosures Act 2014, as amended which gives legal protection to workers, which includes directors and shareholders, who make disclosures, including protections against dismissal or being penalised by the Company. Further details are available in the policy, which is available at:

<https://www.ftglobalportfolios.com/uk/professional/Document-Library/#other-documents>

24. Approval of the Financial Statements

The Directors authorised the financial statements for issue on 23 April 2025.

First Trust Global Funds plc

UCITS V Remuneration Policy (unaudited)

Remuneration Policy of the Manager

In line with the requirements of the UCITS Regulations, the Manager has adopted a remuneration policy which is consistent with the principles outlined in the ESMA guidelines on sound remuneration policies under the UCITS Directive (the “Remuneration Guidelines”). The remuneration policy is appropriate to the Manager’s size, internal organisation and the nature, scope and complexity of its activities. The remuneration policy and its implementation is reviewed at least annually in accordance with Regulation 24(b) (c) and (d) of the UCITS Regulations.

The purpose of the remuneration policy adopted by the Manager is to describe the remuneration principles and practices within the Manager and for such principles and practices:

- (a) to be consistent with, and promote, sound and effective risk management;
- (b) to be in line with the business strategy, objectives, values and interests of the Manager;
- (c) not to encourage excessive risk-taking as compared to the investment policy of the relevant sub-funds of the Company;
- (d) to provide a framework for remuneration to attract, motivate and retain staff including directors to which the policy applies in order to achieve the objectives of the Company; and
- (e) to ensure that any relevant conflicts of interest can be managed appropriately at all times.

As at 31 December 2024, the Manager had eleven employees. The Manager’s remuneration policy applies to certain identified staff whose professional activities have a material impact on the risk profile of the Manager. This would include for example, members of senior management as well as those exercising control functions within the Manager. The Manager reviews the remuneration policy and the implementation of the policy at least annually. The Directors of the Manager not affiliated with the Investment Manager receive a fixed annual fee (disclosed in the table overleaf) which is in line with the fees paid by similar Irish management companies and compensates the Directors for their tasks, expertise and responsibilities.

Directors of the Manager that are employees of the Investment Manager (or an affiliate) are not paid any fees for their services as directors. None of the Directors of the Manager are entitled to receive any variable remuneration in connection with their role as directors of this entity.

The Manager has delegated investment management (including risk management) to the Investment Manager. The Manager has put in place contractual arrangements with the Investment Manager to receive and disclose information regarding the remuneration of the Investment Manager’s identified staff in accordance with the Remuneration Guidelines. The Investment Manager pays remuneration to its staff in accordance with the policies, procedures and processes applicable to it.

The Investment Manager has delegated investment management to the Sub-Investment Managers, First Trust Global Portfolios Limited (“FTGP”) and Vest Financial, LLC (“Vest”). FTGP and Vest pay remuneration to their staff in accordance with their own remuneration policies. The Investment Manager has requested and FTGP has provided confirmation that it has a remuneration policy in place that is equally as effective as the remuneration requirements under the UCITS Directive. The Investment Manager has requested and Vest has provided confirmation that it has a remuneration policy in place that is equally as effective as the remuneration requirements under the UCITS Directive. No remuneration has been paid to staff of FTGP or Vest by the Manager. Instead, the Investment Manager pays fees to FTGP and Vest out of its own fees as disclosed in Note 9 of the financial statements. FTGP and Vest pay remuneration to their staff in accordance with the policies, procedures, and processes applicable to each of them.

First Trust Global Funds plc
UCITS V Remuneration Policy (unaudited) (continued)

Remuneration Policy of the Manager (continued)

The table below sets out the total remuneration paid to all staff of the Manager.

<i>Total remuneration paid to staff of the Manager during the financial year to 31 December 2024⁽¹⁾</i>	
<i>Fixed remuneration</i>	€1,428,250
<i>Variable remuneration</i>	€909,695
<i>Number of staff (including independent non-executive directors)</i>	14
<i>Total remuneration of senior management</i>	€205,000
<i>Aggregate remuneration of employees whose actions have a material impact on the risk profiles of the Manager</i>	€1,221,270

⁽¹⁾ The remuneration stated in the table above includes amounts paid to the Directors of the Manager.

First Trust Global Funds plc

Sustainable Finance Disclosures Regulation (unaudited)

For the financial year ended 31 December 2024

Please note that the underlying investments for all Funds do not take into account the EU criteria for environmentally sustainable economic activities for the purposes of the Taxonomy Regulation.

For the financial year ended 31 December 2024

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Product name: First Trust Nasdaq® Clean Edge® Green Energy UCITS ETF
Legal entity identifier: 549300XKE2OM4T4K1Y84

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
<div><input checked="" type="radio"/> <input type="radio"/> Yes</div> <div><input type="checkbox"/> It made sustainable investments with an environmental objective: ____%<div><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</div><div><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</div></div> <div><input type="checkbox"/> It made sustainable investments with a social objective: ____%</div>	<div><input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> No</div> <div><input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments<div><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</div><div><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</div><div><input type="checkbox"/> with a social objective</div></div> <div><input checked="" type="checkbox"/> It promoted E/S characteristics, but did not make any sustainable investments</div>

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promotes environmental characteristics by seeking to track the performance of the Nasdaq® Clean Edge® Green EnergySM Index (the “Index”), using a “passive management” investment strategy to replicate, as far as possible, the investments of the Index.

The Fund promotes the following environmental characteristics: investment in companies that are primarily manufacturers, developers, distributors and/or installers of clean energy and/or low carbon technologies. Derivative instruments have not been used to attain the environmental/social characteristics promoted by the Fund.

The Index has been designated as a reference benchmark for the purposes of attaining the environmental characteristics promoted by the Fund.

Derivative instruments have not been used to attain the environmental/social characteristics promoted by the Fund.

For the financial year ended 31 December 2024

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● ***How did the sustainability indicators perform?***

The Fund uses the following indicators to measure the attainment of the environmental characteristics promoted by the Fund:

The Fund invests only in securities that are constituents of the Index, which has a methodology designed to ensure that the starting universe of investments, which is provided by Clean Edge Inc. ("Clean Edge"), comprises issuers that are active in the clean energy sector (as measured by revenues). In connection with each semi-annual reconstitution of the Index, the Investment Manager will receive the updated investment universe from Clean Edge and will perform a secondary check on the Index constituents to ensure that the clean energy characteristics continue to be met, which will ensure that the Fund continues to attain the environmental or social characteristics that it promotes.

The Fund's investment manager, First Trust Advisors L.P. (the "Investment Manager") believes that the Index methodology and the Investment Manager's monitoring combined to ensure that the Fund achieved the promotion of the environmental and/or social characteristics it promotes. The Investment Manager believes the Fund did achieve the promotion of those characteristics during the reporting period.

● ***...and compared to previous periods?***

The investment policy has resulted in consistent performance for the current and previous financial years of the Fund.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable

— ***How were the indicators for adverse impacts on sustainability factors taken into account?***

Not applicable

For the financial year ended 31 December 2024

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Not applicable

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund does not consider principal adverse impacts on sustainability factors.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion (in this case 100% of the portfolio) of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

What were the top investments of this financial product?

For the financial year ended 31 December 2024

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is 1 January through 31 December 2024.

Largest investments	Sector	% Assets	Country
Tesla Inc.	Consumer Discretionary	9.89%	United States
Rivian Automotive Inc. (Class A)	Consumer Discretionary	7.57%	United States
ON Semiconductor Corporation	Information Technology	7.49%	United States

Brookfield Renewable Partners L.P.	Utilities	3.70%	Canada
Nextracker Inc. (Class A)	Industrials	3.11%	United States
Bloom Energy Corporation (Class A)	Industrials	3.01%	United States
Itron Inc.	Information Technology	2.91%	United States
Advanced Energy Industries, Inc.	Information Technology	2.59%	United States
Ormat Technologies Inc.	Utilities	2.43%	United States
Allegro Microsystems Inc.	Information Technology	2.39%	United States
EnerSys	Industrials	2.18%	United States
Power Integrations Inc.	Information Technology	2.08%	United States
Hannon Armstrong Sustainable Infrastructure Capital Inc.	Financials	1.89%	United States
MP Materials Corp.	Materials	1.51%	United States

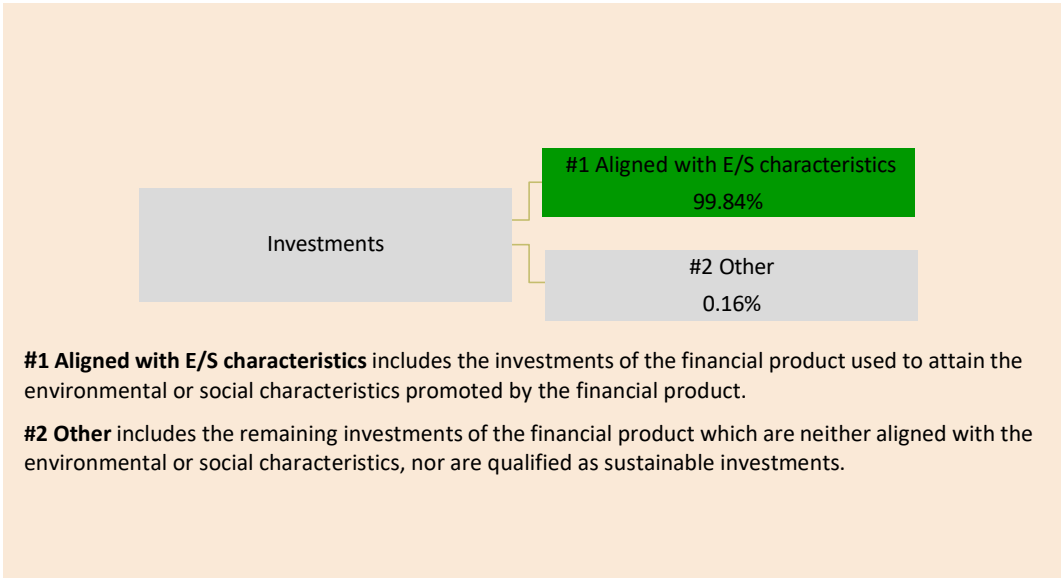

What was the proportion of sustainability-related investments?

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

To meet the environmental and/or social characteristics promoted, the Fund invested only in companies that were included in the Index through direct investments. A maximum of 10% of the Fund’s assets may consist of cash, money market instruments, short-term instruments and eligible collective investment schemes for liquidity purposes that do not incorporate any environmental and/or social characteristics. During the financial year ended 31 December 2024, the average portfolio weighting was:

For the financial year ended 31 December 2024

● **In which economic sectors were the investments made?**

Sector	Weight
Information Technology	34.14%
Consumer Discretionary	23.43%
Industrials	21.06%
Utilities	10.37%
Materials	8.62%
Financials	1.89%
Not classified	0.49%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

**For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures*

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

These non-aligned investments are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

For the financial year ended 31 December 2024

● **What was the share of investments made in transitional and enabling activities?**
 Not applicable. The Fund did not invest in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**
 Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

A small portion of the Fund’s assets were in cash, for liquidity purposes and do not incorporate any environmental and/or social characteristics.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund invested only in securities that were (at the time of Investment) constituents of the Index.

Companies eligible for inclusion in the Index must meet the following selection criteria (the “Selection Criteria”):

1. Companies which are manufacturers, developers, distributors and/or installers of clean energy and/or low-carbon technologies in one of the following sectors (the “Clean Energy Sector”):
 - Advanced Materials (silicon; lithium; bio-based; and/or other materials and processes that enable clean-energy and low-carbon technologies);
 - Energy Intelligence (conservation; efficiency; smart meters; energy management systems; LEDs; smart grid; superconductors; power controls; etc.);
 - Energy Storage & Conversion (advanced batteries; power conversion; electric vehicles; hybrid drivetrains; hydrogen; fuel cells for stationary, portable, and transportation applications; etc.); and / or
 - Renewable Electricity Generation (solar; wind; geothermal; water power; etc.; and
2. Companies which derive, as determined by Clean Edge, a majority (50% or more) of their revenue from (or, in the case wherein a company has multiple business units and revenue.

For the financial year ended 31 December 2024

At each quarterly rebalancing of the Index, the Index Provider (i.e. Nasdaq Inc.) applies the applicable Selection Criteria. The Index is fully reconstituted semi-annually in March and September and rebalanced quarterly in line with the Selection Criteria. Adjustments made to the constituents of the Index through the quarterly rebalancing and semi-annual reconstitution will ensure that the Index is continuously aligned with the environmental characteristics promoted by the Fund.

The Investment Manager has adopted a policy to apply good governance tests as part of its reviews of the Fund's portfolio on areas such as sound management structures, employee relations, remuneration of staff and tax compliance. Companies identified as potentially having governance issues are subject to further review and considered for divestment.

No changes to the Fund's portfolio were made during the reporting period as a result of the good governance testing.

How did this financial product perform compared to the reference benchmark?

The Index is the Fund's reference benchmark for the purposes of attaining the environmental and/or social characteristics promoted by the Fund. The methodology for the Index can be found at:

https://indexes.nasdaqomx.com/docs/methodology_CELS.pdf

● ***How does the reference benchmark differ from a broad market index?***

The Index differs from a broad market index as it provides a thematic exposure to companies involved in the manufacturing, development, distribution and installation of clean energy and low-carbon technologies. The Index is comprised of companies that are listed on Nasdaq, Inc., the New York Stock Exchange, NYSE American or the Cboe BZX Exchange. The application of the Selection Criteria results in exclusions of equity securities that would otherwise be included in a broad market index, which would not take environmental characteristics into account, but would instead focus on traditional factors, such as market capitalisation or geographic location.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

During the reporting period the Fund was managed in accordance with its investment policy and securities that no longer met the environmental and/or social criteria, if any, were divested at the Index rebalance dates.

● ***How did this financial product perform compared with the reference benchmark?***

Fund and Benchmarks	Return
First Trust Nasdaq® Clean Edge® Green Energy UCITS ETF	-19.36%

☒ ☐ No

☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

- ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- ☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promotes environmental and social characteristics by seeking to track the Nasdaq ISE CTA Cloud Computing Exclusions Index™ (the “Index”) using a “passive management” investment strategy to replicate, as far as possible, the investments of the Index.

The Index, which is designed to track the performance of companies involved in the cloud computing industry, excludes companies involved in certain activities deemed to have negative environmental and/or social outcomes, and also any companies that have a “controversy level” higher than Category 4, as defined by Sustainalytics (together, the “ESG Selection Criteria”).

Derivative instruments have not been used to attain the environmental/social characteristics promoted by the Fund.

For the financial year ended 31 December 2024

The Index has been designated as a reference benchmark for the purposes of attaining the environmental characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● ***How did the sustainability indicators perform?***

The Fund uses the Index methodology as a guide for measuring the attainment of the environmental and social characteristics promoted by the Fund. From 2 January 2024 (the date the Fund began to follow the Index) to the end of the financial year on 31 December 2024, the Fund’s portfolio had the following characteristics:

- (i) 0% of the Fund’s portfolio was invested in companies engaged in excluded business activities (as defined in the methodology of the Index)
- (ii) 0% of the Fund’s portfolio was invested in companies with “Event Ratings” higher than 3 as defined in the methodology of the Index); and
- (iii) 0% of the Fund’s portfolio was invested in companies that had a “Controversy Rating” of higher than 4 (as defined in the methodology of the Index).

The Fund’s investment manager, First Trust Advisors L.P. (the “Investment Manager”) believes that the Index methodology and the Investment Manager’s monitoring combined to ensure that the Fund achieved the promotion of the environmental and/or social characteristics it promotes. The Investment Manager believes the Fund did achieve the promotion of those characteristics during the reporting period.

● ***...and compared to previous periods?***

Not applicable for this period.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable

— ***How were the indicators for adverse impacts on sustainability factors taken into account?***

Not applicable

For the financial year ended 31 December 2024

— — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund does not consider principal adverse impacts on sustainability factors.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion (in this case 100% of the portfolio) of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

For the financial year ended 31 December 2024

What was the proportion of sustainability-related investments?

What was the asset allocation?

To meet the environmental and/or social characteristics promoted, the Fund invested only in companies that were included in the Index through direct investments. A maximum of 10% of the Fund's assets may consist of cash, money market instruments, short-term instruments and eligible collective investment schemes for liquidity purposes that do not incorporate any environmental and/or social characteristics. The Fund began following the Index on 2 January 2024. From that date to the end of the financial year on 31 December 2024, the average portfolio weighting was:

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 2 January through 31 December 2024.

Asset allocation describes the share of investments in specific assets.

For the financial year ended 31 December 2024

● **In which economic sectors were the investments made?**

Sector	Weight
Information Technology	85.80%
Communication Services	7.44%
Consumer Discretionary	4.19%
Industrials	1.22%
Health Care	0.61%
Financials	0.55%
Not classified	0.19%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

For the financial year ended 31 December 2024

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

These non-aligned investments are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- ***What was the share of investments made in transitional and enabling activities?***
Not applicable. The Fund did not invest in transitional and enabling activities.
- ***How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?***

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

A small portion of the Fund’s assets were in cash, for liquidity purposes and do not incorporate any environmental and/or social characteristics.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund invested only in securities that were (at the time of Investment) constituents of the Index.

At each quarterly rebalancing of the Index, the Index Provider (i.e. Nasdaq Inc.) applies the ESG Selection Criteria to the ISE CTA Cloud Computing Index (the “Parent Index”). The Index is fully reconstituted semi-annually and rebalanced quarterly in line with the ESG Selection Criteria. Adjustments made to the constituents of the Index through the quarterly rebalancing and semi-annual reconstitution will ensure that the Index is continuously aligned with the environmental characteristics promoted by the Fund.

The Investment Manager has adopted a policy to apply good governance tests as part of its reviews of the Fund’s portfolio on areas such as sound management structures, employee relations, remuneration of staff and tax compliance. Companies identified as potentially having governance issues are subject to further review and considered for divestment.

No changes to the Fund’s portfolio were made during the reporting period as a result of the good governance testing.

For the financial year ended 31 December 2024

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

The Parent Index is the Fund’s reference benchmark for the purposes of attaining the environmental and/or social characteristics promoted by the Fund. The methodology for the Index can be found at:

<https://indexes.nasdaqomx.com/Index/Overview/CPQE>

● **How does the reference benchmark differ from a broad market index?**

The Index differs from a broad market index as it provides a thematic exposure to companies engaged in the cloud computing segment of the technology and industrial sectors. The Index also results in a smaller investment universe than the broad market index and the Parent Index due to the application of the ESG Selection Criteria applied to the constituents of the Index.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

During the reporting period the Fund was managed in accordance with its investment policy and securities that no longer met the environmental and/or social criteria, if any, were divested at the Index rebalance dates.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ Yes

☐ It made **sustainable investments with an environmental objective:** ____%

- ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective:** ____%

☒ ☐ No

☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

- ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- ☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promotes environmental and social characteristics by seeking to track the performance of the Nasdaq CTA Cybersecurity Exclusions Index™ (the “Index”) using a “passive management” investment strategy to replicate, as far as possible, the investments of the Index.

The Index, which is designed to track the performance of companies engaged in the cybersecurity segment of the technology and industrial sectors, excludes companies involved in certain activities deemed to have negative environmental and/or social outcomes, and also any companies that have a “controversy level” higher than Category 4, as defined by Sustainalytics (together, the “ESG Selection Criteria”).

Derivative instruments have not been used to attain the environmental/social characteristics promoted by the Fund.

For the financial year ended 31 December 2024

The Index has been designated as a reference benchmark for the purposes of attaining the environmental characteristics promoted by the Fund.

● ***How did the sustainability indicators perform?***

The Fund uses the Index methodology as a guide for measuring the attainment of the environmental and social characteristics promoted by the Fund. For the financial year ended 31 December 2024, the Fund's portfolio had the following characteristics:

- (i) 0% of the Fund's portfolio was invested in companies engaged in excluded business activities (as defined in the methodology of the Index)
- (ii) 0% of the Fund's portfolio was invested in companies with "Event Ratings" higher than 3 as defined in the methodology of the Index); and
- (iii) 0% of the Fund's portfolio was invested in companies that had a "Controversy Rating" of higher than 4 (as defined in the methodology of the Index).

The Fund's investment manager, First Trust Advisors L.P. (the "Investment Manager") believes that the Index methodology and the Investment Manager's monitoring combined to ensure that the Fund achieved the promotion of the environmental and/or social characteristics it promotes. The Investment Manager believes the Fund did achieve the promotion of those characteristics during the reporting period.

● ***...and compared to previous periods?***

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

To what extent were the environmental and/or social characteristics promoted by this financial product met? The Fund promotes the following environmental and/or social characteristics by investing in securities from issuers that meet a threshold for environmental and/or social standards, achieved through the selection of global equity securities based on proprietary ESG ratings from MSCI Inc. and inclusion in the MSCI All Country World ESG Leaders Index (the “Index”). The Index is the Fund’s reference benchmark for the purposes of attaining the environmental and/or social characteristics promoted by the Fund. First Trust Advisors L.P., the Fund’s investment manager (the “Investment Manager”), screens the Fund’s holdings in between index reconstitutions to review the MSCI Controversy Score and ensure that all holdings maintain a minimum MSCI ESG Rating. Derivative instruments have not been used to attain the environmental/social characteristics promoted by the Fund.

For the financial year ended 31 December 2024

● ***How did the sustainability indicators perform?***

The Fund invests only in securities that are constituents of the Index which, according to the Index provider, uses the following indicators to measure the attainment of the promoted environmental and/or social characteristics:

MSCI ESG Rating – this is a forward-looking measure that seeks to measure: 1) the ESG risks a company faces and the severity and potential impact of those risks on its business; and 2) how well the company manages those ESG risks. In order for a company to be included in the Index it must have an MSCI ESG Rating of “BB” or better.

MSCI ESG Controversy Score – this is a backward-looking measure which attempts to assess ESG related events (i.e. controversies) that have occurred and have the potential to negatively impact a company. A controversy is an instance or ongoing situation in which the company’s operations and/or product allegedly have a negative environmental, social, and/or governance impact. The controversy is judged on both the severity and scale of the impact. Controversies may, but do not always, impact a company’s ESG Rating. In order for a company to be included in the Index initially it must have an MSCI ESG Controversy Score of 3 or better. However, after this initial screening in relation to the MSCI ESG Controversy Score a company will remain eligible to be a constituent of the Index provided that its MSCI ESG Controversy Score is 1 or better, and such a company will remain eligible to be an Index constituent at the next annual balancing of the Index if it satisfies the MSCI ESG Rating and MSCI ESG Business Involvement Screening criteria.

MSCI Business Involvement Screening – this process seeks to screen out companies with significant operations in eight controversial business practices, such as alcohol production or manufacturing of nuclear weapon components or nuclear weapons systems.

The Index is re-constituted annually. In the interim, the Index provider reviews the Index each quarter and will remove, but not replace, constituents that no longer meet eligibility requirements. Also, the Investment Manager reviews the Fund’s portfolio on a weekly basis and will eliminate any companies that have an MSCI ESG Rating lower than “BB” or an MSCI ESG Controversy Score of less than 1.

The Investment Manager’s reference to the MSCI scores outlined above, together with its weekly evaluations of the Fund’s investments, ensured that the Fund consistently invested only in issuers with strong environmental and/or social characteristics and that any deviation in the Fund’s portfolio of investments would have been quickly corrected. During the reporting period, the Investment Manager did not identify any instances of drops in ESG scores that would require immediate changes to the Fund’s portfolio. The Investment Manager believes that the screens built into the Index and the active management style used for the Fund combined to ensure that the Fund achieved the promotion of the environmental and/or social characteristics it promotes. The Investment Manager believes the Fund did achieve the promotion of those characteristics during the period covered by this report.

● ***...and compared to previous periods?***

Moody's Corporation	Financials	2.01%	United States
Publicis Groupe	Communication Services	2.01%	France
Amadeus IT Group S.A. (Class A)	Consumer Discretionary	2.00%	Spain

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

To meet the environmental and/or social characteristics promoted, the Fund invested only in companies that were included in the Index through direct investments and indirectly through eligible collective investment schemes. A maximum of 10% of the Fund's assets may consist of cash, money market instruments, short-term instruments and eligible collective investment schemes for liquidity purposes that do not incorporate any environmental and/or social characteristics. During the financial year ended 31 December 2024, the average portfolio weighting was:

Asset allocation describes the share of investments in specific assets.

For the financial year ended 31 December 2024

● **In which economic sectors were the investments made?**

Sector	Weight
Financials	30.26%
Industrials	21.69%
Consumer Staples	18.24%
Health Care	9.94%
Information Technology	5.94%
Consumer Discretionary	5.89%
Materials	5.89%
Communication Services	2.01%
Not classified	0.14%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

**For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures*

Enabling activities

directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are

activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

These non-aligned investments are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

For the financial year ended 31 December 2024

- ***What was the share of investments made in transitional and enabling activities?***
Not applicable. The Fund did not invest in transitional and enabling activities.
- ***How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?***

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

A small portion of the Fund’s assets were in cash, for liquidity purposes and do not incorporate any environmental and/or social characteristics.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund invested only in securities that were (at the time of Investment) constituents of the Index which, according to the index provider, includes only those securities from the starting universe that meet minimum requirements for MSCI ESG Rating, MSCI ESG Controversy Score, and MSCI Business Involvement Screening..

The Index is re-constituted annually. In the interim, the Index provider reviewed the Index each quarter to remove , but not replace, constituents that no longer met eligibility requirements. Also, the Investment Manager reviewed the Fund’s portfolio on a weekly basis and eliminated any companies that have an MSCI ESG Rating lower than “BB” or an MSCI ESG Controversy Score of less than 1.

The Investment Manager has adopted a policy to apply good governance tests as part of its weekly reviews of the Fund’s portfolio on areas such as sound management structures, employee relations, remuneration of staff and tax compliance. Companies identified as potentially having governance issues are subject to further review and considered for divestment.

No changes to the Fund’s portfolio were made during the reporting period as a result of the good governance testing.

For the financial year ended 31 December 2024

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

The MSCI ACWI ESG Leaders Index (the "Index") is the Fund's reference benchmark for the purposes of attaining the environmental and/or social characteristics promoted by the Fund. The methodology for the Index can be found at:

https://www.msci.com/eqb/methodology/meth_docs/MSCI_ESG_Leaders_Methodology_Nov2020.pdf

● ***How does the reference benchmark differ from a broad market index?***

The Index starts with a broad-based market index (MSCI ACWI Index) and screens are applied. In order to be included in the Index, each issuer must have minimum scores under the MSCI ESG Rating, MSCI ESG Controversy Score, and MSCI Business Involvement Screening. This process results in exclusions of equity securities that would otherwise be included in a broad market index, which would not take ESG characteristics into account but would instead focus on traditional factors, such as market capitalisation or geographic location. The Index targets a cumulative market cap of 50% of the underlying broad-based market index.

● ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

During the reporting period the Fund was managed in accordance with its investment policy and securities that no longer met the environmental and/or social criteria were immediately divested.

● ***How did this financial product perform compared with the reference benchmark?***

Fund and Benchmarks	Return
First Trust Global Capital Strength ESG Leaders UCITS ETF	9.58%
MSCI All Country World ESG Leaders	16.85%

● ***How did this financial product perform compared with the broad market index?***

Fund and Benchmarks	Return
First Trust Global Capital Strength ESG Leaders UCITS ETF	9.58%
MSCI All Country World Index	17.49%

For the financial year ended 31 December 2024

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: First Trust Nasdaq Clean Edge Smart Grid Infrastructure UCITS ETF
Legal entity identifier: 549300HRXI2TKXHVO729

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ Yes

☐ It made **sustainable investments with an environmental objective:** ____%

- ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective:** ____%

☒ ☐ No

☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

- ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- ☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The Fund promotes environmental and social characteristics by seeking to track the Nasdaq OMX Clean Edge Smart Grid Infrastructure Exclusions Index™ (the “Index”) using a “passive management” investment strategy to replicate, as far as possible, the investments of the Index.

The Index, which is designed to track the performance of companies involved in the smart grid and electric infrastructure sectors, excludes companies involved in certain activities deemed to have negative environmental and/or social outcomes, and also any companies that have a “controversy level” higher than Category 4, as defined by Sustainalytics (together, the “ESG Selection Criteria”).

Derivative instruments have not been used to attain the environmental/social characteristics promoted by the Fund.

For the financial year ended 31 December 2024

The Index has been designated as a reference benchmark for the purposes of attaining the environmental characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● ***How did the sustainability indicators perform?***

The Fund uses the Index methodology as a guide for measuring the attainment of the environmental and social characteristics promoted by the Fund. From 2 January 2024 (the date the Fund began to follow the Index) to the end of the financial year on 31 December 2024, the Fund’s portfolio had the following characteristics:

- (i) 0% of the Fund’s portfolio was invested in companies engaged in excluded business activities (as defined in the methodology of the Index)
- (ii) 0% of the Fund’s portfolio was invested in companies with “Event Ratings” higher than 3 as defined in the methodology of the Index); and
- (iii) 0% of the Fund’s portfolio was invested in companies that had a “Controversy Rating” of higher than 4 (as defined in the methodology of the Index).

The Fund’s investment manager, First Trust Advisors L.P. (the “Investment Manager”) believes that the Index methodology and the Investment Manager’s monitoring combined to ensure that the Fund achieved the promotion of the environmental and/or social characteristics it promotes. The Investment Manager believes the Fund did achieve the promotion of those characteristics during the reporting period.

● ***...and compared to previous periods?***

Not applicable for this period.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable

— ***How were the indicators for adverse impacts on sustainability factors taken into account?***

Not applicable

For the financial year ended 31 December 2024

— — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund does not consider principal adverse impacts on sustainability factors.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion (in this case 100% of the portfolio) of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

What were the top investments of this financial product?

For the financial year ended 31 December 2024

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 2 January through 31 December 2024.

Largest investments	Sector	% Assets	Country
Schneider Electric SE	Industrials	8.15%	France

Red Elctrica Corporacion S.A.	Utilities	1.42%	Spain

What was the proportion of sustainability-related investments?

What was the asset allocation?

To meet the environmental and/or social characteristics promoted, the Fund invested only in companies that were included in the Index through direct investments. A maximum of 10% of the Fund's assets may consist of cash, money market instruments, short-term instruments and eligible collective investment schemes for liquidity purposes that do not incorporate any environmental and/or social characteristics. The Fund began following the Index on 2 January 2024. From that date to the end of the financial year on 31 December 2024, the average portfolio weighting was:

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

For the financial year ended 31 December 2024

● **In which economic sectors were the investments made?**

Sector	Weight
Industrials	57.38%
Utilities	19.01%
Information Technology	17.45%
Consumer Discretionary	5.82%
Materials	0.02%
Not classified	0.32%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

For the financial year ended 31 December 2024

Enabling activities

directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are

activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- ***What was the share of investments made in transitional and enabling activities?***
Not applicable. The Fund did not invest in transitional and enabling activities.
- ***How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?***

Not applicable.

These non-aligned investments are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

A small portion of the Fund’s assets were in cash, for liquidity purposes and do not incorporate any environmental and/or social characteristics.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund invested only in securities that were (at the time of Investment) constituents of the Index.

At each quarterly rebalancing of the Index, the Index Provider (i.e. Nasdaq Inc.) applies the ESG Selection Criteria to the Nasdaq OMX Clean Edge Smart Grid Infrastructure Index (the “Parent Index”). The Index is fully reconstituted semi-annually and rebalanced quarterly in line with the ESG Selection Criteria. Adjustments made to the constituents of the Index through the quarterly rebalancing and semi-annual reconstitution will ensure that the Index is continuously aligned with the environmental characteristics promoted by the Fund.

The Investment Manager has adopted a policy to apply good governance tests as part of its reviews of the Fund’s portfolio on areas such as sound management structures, employee relations, remuneration of staff and tax compliance. Companies identified as potentially having governance issues are subject to further review and considered for divestment.

No changes to the Fund’s portfolio were made during the reporting period as a result of the good governance testing.

For the financial year ended 31 December 2024

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

The Parent Index is the Fund’s reference benchmark for the purposes of attaining the environmental and/or social characteristics promoted by the Fund. The methodology for the Index can be found at:

<https://indexes.nasdaqomx.com/Index/Overview/QRDGE>

● **How does the reference benchmark differ from a broad market index?**

The Index differs from a broad market index as it provides a thematic exposure to companies engaged in the smart grid and electric infrastructure sectors. The Index also results in a smaller investment universe than the broad market index and the Parent Index due to the application of the ESG Selection Criteria applied to the constituents of the Index.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

During the reporting period the Fund was managed in accordance with its investment policy and securities that no longer met the environmental and/or social criteria, if any, were divested at the Index rebalance dates.

● **How did this financial product perform compared with the reference benchmark?**

Fund and Benchmarks	Return

First Trust Nasdaq Clean Edge Smart Grid Infrastructure UCITS ETF	15.32%
Nasdaq OMX Clean Edge Smart Grid Infrastructure Index	15.60%

For the financial year ended 31 December 2024

ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: First Trust Bloomberg Global Semiconductor Supply Chain UCITS ETF
Legal entity identifier: 254900IGHOAZ08G9Q055

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

☒ ☐ Yes

☐ It made **sustainable investments with an environmental objective:** ____%

- ☐ in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☐ in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

☐ It made **sustainable investments with a social objective:** ____%

☒ ☐ No

☐ It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

- ☐ with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- ☐ with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- ☐ with a social objective

☒ It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

By tracking the Bloomberg Global Semiconductor Supply Chain Select Index (the "Index") using a "passive management" investment strategy to replicate, as far as possible, the investments of the Index, the Fund provides investors with exposure to the semiconductor supply chain sector while promoting better ESG practices among investee companies by:

- directing investment to companies that have not been associated with severe ESG controversies (as evidenced by their compliance with the Index requirements); and
- declining to invest in certain companies which have produced negative environmental and/or social outcomes (as evidenced by their failure to comply with the Index requirements).

For the financial year ended 31 December 2024

The Fund seeks to achieve the promotion of these characteristics by replicating the performance of the Index, which is designed to act as a transparent and liquid benchmark for the semiconductor supply chain sector, excluding companies involved in certain activities deemed to have negative environmental and/or social outcomes, and also any companies that have a “controversy level” higher than Category 4, as defined by Sustainalytics (together, the “ESG Selection Criteria”).

The environmental and/or social characteristics promoted by the Fund are the promotion of good ESG practices amongst investee companies as determined by their inclusion in the Index, which is designed to exclude companies that engage in business activities found to be controversial or to have negative environmental impacts. The good ESG practices promoted are (i) positive impact on climate change, and the natural environment, which is achieved through not investing in certain companies that derive 5% or more of their revenue from extracting oil sands or that are engaged in the irresponsible use of raw materials; (ii) peace and stability, which is achieved through not investing in certain companies involved with banned weapons and controversial weapons; and (iii) human rights and anti-corruption achieved as a result of not investing in companies which are involved in certain controversial events or which derive 5% or more of their revenues from adult entertainment.

Derivative instruments have not been used to attain the environmental/social characteristics promoted by the Fund.

The Index has been designated as a reference benchmark for the purposes of attaining the environmental characteristics promoted by the Fund.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

● ***How did the sustainability indicators perform?***

The Fund uses the Index methodology as a guide for measuring the attainment of the environmental and social characteristics promoted by the Fund. From 11 December 2024 (the date the Fund launched) to the end of the financial year on 31 December 2024, the Fund’s portfolio had the following characteristics:

- (i) 0% of the Fund’s portfolio was invested in companies engaged in excluded business activities (per the methodology of the Index); and
- (ii) 0% of the Fund’s portfolio was o invested in companies with an MSCI ESG Controversy Score of lower than "1".

The Fund’s investment manager, First Trust Advisors L.P. (the “Investment Manager”) believes that the Index methodology and the Investment Manager’s monitoring combined to ensure that the Fund achieved the promotion of the environmental and/or social characteristics it promotes. The Investment Manager believes the Fund did achieve the promotion of those characteristics during the reporting period.

● ***...and compared to previous periods?***

Not applicable for this period.

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

Not applicable

● ***How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?***

Not applicable

For the financial year ended 31 December 2024

— — *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable

— — *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

Not applicable

How did this financial product consider principal adverse impacts on sustainability factors?

The Fund does not consider principal adverse impacts on sustainability factors.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion (in this case 100% of the portfolio) of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

For the financial year ended 31 December 2024

What was the proportion of sustainability-related investments?

What was the asset allocation?

- To meet the environmental and/or social characteristics promoted, the Fund invested only in companies that were included in the Index through direct investments. A maximum of 10% of the Fund's assets may consist of cash, money market instruments, short-term instruments and eligible collective investment schemes for liquidity purposes that do not incorporate any environmental and/or social characteristics. The Fund launched on 11 December 2024. From that date to the end of the financial year on 31 December 2024, the average portfolio weighting was:

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 11 December through 31 December 2024.

Asset allocation describes the share of investments in specific assets.

For the financial year ended 31 December 2024

● **In which economic sectors were the investments made?**

Sector	Weight
Information Technology	93.84%
Materials	3.79%
Health Care	1.69%
Industrials	0.20%
Not classified	0.48%

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

Yes:

In fossil gas

In nuclear energy

No

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

*For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

For the financial year ended 31 December 2024

- ***What was the share of investments made in transitional and enabling activities?***
Not applicable. The Fund did not invest in transitional and enabling activities.
- ***How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?***

Not applicable.

These non-aligned investments are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

Not applicable. The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

What was the share of socially sustainable investments?

Not applicable.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

A small portion of the Fund’s assets were in cash, for liquidity purposes and do not incorporate any environmental and/or social characteristics.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund invested only in securities that were (at the time of Investment) constituents of the Index.

At each quarterly reconstitution and rebalancing of the Index, the Index Provider (i.e. Bloomberg) applies the ESG Selection Criteria (in addition to market capitalisation and average daily trading volume criteria) to the components of the Bloomberg Intelligence Semiconductors Basket which is a universe of equity securities exposed to semiconductors as determined by Bloomberg Intelligence. The Index is fully reconstituted semi-annually and rebalanced quarterly in line with the ESG Selection Criteria. Adjustments made to the constituents of the Index through the quarterly rebalancing and semi-annual reconstitution will ensure that the Index is continuously aligned with the environmental characteristics promoted by the Fund.

The Investment Manager has adopted a policy to apply good governance tests as part of its reviews of the Fund’s portfolio on areas such as sound management structures, employee relations, remuneration of staff and tax compliance. Companies identified as potentially having governance issues are subject to further review and considered for divestment.

No changes to the Fund’s portfolio were made during the reporting period as a result of the good governance testing.

For the financial year ended 31 December 2024

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

How did this financial product perform compared to the reference benchmark?

The Parent Index is the Fund’s reference benchmark for the purposes of attaining the environmental and/or social characteristics promoted by the Fund. The methodology for the Index can be found at:

<https://assets.bbhub.io/professional/sites/27/Bloomberg-GlobalSemiconductors-Supply-Chain-Select-Index-Methodology.pdf>

● **How does the reference benchmark differ from a broad market index?**

The Index differs from a broad market index as it provides a thematic exposure to companies engaged in the semiconductor supply chain sector. The Index also results in a smaller investment universe than the broad market index and the Parent Index due to the application of the ESG Selection Criteria applied to the constituents of the Index.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

During the reporting period the Fund was managed in accordance with its investment policy and securities that no longer met the environmental and/or social criteria, if any, were divested at the Index rebalance dates.

● **How did this financial product perform compared with the reference benchmark?**

Fund and Benchmarks	Return
