HANetf ICAV

Directors' Report

The Board of Directors (the "Directors") present Annual Report and audited financial statements of the HANetf ICAV for the year ended 31 March 2024.

Structure of the Entity

HANetf ICAV is a variable capital investment company, organised as an Irish Collective Asset-Management Vehicle (the "ICAV") under the laws of the Republic of Ireland. The Manager has appointed J.P. Morgan Administration Services (Ireland) Limited (the "Administrator") as the administrator. The ICAV has appointed The J.P. Morgan SE – Dublin Branch (the "Depository") to act as depository of the ICAV's assets.

The ICAV is organised as an umbrella with a number of sub-funds each of which has its own investment objective, policies and restrictions.

The ICAV was authorised by the Central Bank of Ireland (the "Central Bank") on 31 August 2018.

As at 31 March 2024, the ICAV has 23 active sub-funds. The sub-funds were registered for sale at the following venues as outlined below at the year end:

*The primary listing venue of the sub-funds is Euronext Dublin and they are admitted for trading on a number of exchanges.

Directors' Report (continued)

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Directors' Report and financial statements, in accordance with the applicable law and regulations.

The Irish Collective Asset-Management Vehicles Act 2015 (the "ICAV Act") Section 116 requires the Directors to prepare financial statements for each financial year. Under that law, they have elected to prepare the financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the EU and applicable law.

Pursuant to the ICAV Act, the Directors must not approve the financial statements unless they are satisfied that they give a true and fair view of the assets, liabilities and financial position of the ICAV and of its changes in net assets attributable to holders of redeemable participating shares for that financial year. In preparing the financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with IFRS and ensure that they contain the additional information required by the ICAV Act; and
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the ICAV will continue in business.

The Directors confirm that they have complied with the above requirements in preparing the financial statements.

So far as each person who is a director at the date of approving this report is aware, there is no relevant audit information, being information needed by the auditor in connection with preparing its report, of which the auditor is unaware. Having made inquiries of fellow directors and the ICAV's auditor, each director has taken all the steps that he/she is obliged to take as a director in order to make himself/herself aware of any relevant audit information and to establish that the auditor is aware of the information.

The Directors are also responsible for safeguarding the assets of the ICAV and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Under the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, as amended (the "UCITS Regulations"), and the Central Bank (Supervision and Enforcement Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019, as amended (the "Central Bank UCITS Regulations"), the Directors are required to entrust the assets of the ICAV to the Depositary for safekeeping. In carrying out this duty, the Directors have delegated custody of the ICAV's assets to The Bank of New York Mellon SA/NV, Dublin Branch (up to 9 June 2023) and J.P. Morgan SE – Dublin Branch (from 10 June 2023) as Depositary to the ICAV. They have general responsibility for taking such steps as are reasonably open to them to prevent and detect fraud and other irregularities. The Directors are also responsible for preparing a Directors' Report that complies with the requirements of the ICAV Act.

Adequate Accounting Records

The Directors believe that they have complied with the ICAV Act with regard to accounting records by the engagement of the services of an Administrator, who employs personnel with appropriate expertise and adequate resources to provide the ICAV's finance function.

The measures taken by the Directors to secure compliance with the ICAV's obligations to keep adequate accounting records include the use of appropriate systems and procedures and the employment of competent persons. The accounting records are retained at the office of the Administrator at 200 Capital Dock, 79 Sir John Rogerson's Quay, Dublin 2, D02 RK57, Ireland.

HANetf ICAV

Directors' Report (continued)

Corporate Governance Statement

The ICAV is subject to corporate governance practices imposed by:

- (i) The ICAV Act, which is available for inspection at the registered office of the ICAV, and may also be obtained at <http://www.irishstatutebook.ie>;
- (ii) The Instrument of Incorporation of the ICAV which is available for inspection at the registered office of the ICAV at 3rd Floor, 55 Charlemont Place, Dublin, Ireland; and
- (iii) The Central Bank in their UCITS Regulations which can be obtained from the Central Bank's website at www.centralbank.ie and are available for inspection at the registered office of the ICAV.

From the establishment of the ICAV, the Directors voluntarily adopted and applied the Irish Funds Corporate Governance Code (the "IF Code") for Irish domiciled collective investment schemes issued in December 2011. The IF Code reflects existing corporate governance practices imposed on Irish authorised collective investment schemes and is available on request from the ICAV Secretary.

Diversity

The Directors consider that diversity in its membership is beneficial and therefore seeks to ensure that the Board of Directors' size, structure and composition, including skills, knowledge and diversity is sufficient for the effective oversight and control of the ICAV. However, as the Board of Directors are committed to appointing the most appropriate candidates as Directors of the ICAV, it has not set any measurable objectives in respect of this policy.

Composition and Operation of the Board of Directors

Unless otherwise determined by an ordinary resolution of the ICAV in general meeting and in accordance with Section 56 of the ICAV Act, the number of Directors may not be less than three. Currently, the Board of Directors of the ICAV is composed of four Directors.

The business of the ICAV is managed by the Directors, who exercise all such powers of the ICAV which are not required by the ICAV Act or by the Instrument of Incorporation of the ICAV to be exercised by the ICAV in a general meeting. The Directors meet on a quarterly basis or more frequently, if required.

A Director may, and the Secretary of the ICAV on the requisition of a Director will, at any time summon a meeting of the Directors. Decisions arising at any meeting of the Directors are determined by a majority of votes. In the case of an equality of votes, the Chairman has a second or casting vote. The quorum necessary for the transaction of business at a meeting of the Directors is two.

Directors and Secretary

The Directors as at 31 March 2024 are listed in Directors and Other Information on page 1. Carne Global Financial Services Limited held the office of ICAV Secretary (the "Secretary") for the year ended 31 March 2024.

Directors' Remuneration

The Board of Directors as a whole reviews Directors' remuneration. The Directors' policy is that the remuneration of non-executive and independent non-executive Directors should be fair and reasonable in relation to the time commitment and responsibilities of the Directors. Directors' fees are paid by the Manager.

Directors' and Secretary's Interests in Shares and Contracts

None of the Directors, the Secretary, and their families had an interest in the shares of the ICAV at 31 March 2024. Other than the information disclosed in Note 14 of these financial statements, none of the Directors had a material interest in any contract or agreement of significance, as defined in the ICAV Act, during or at the end of the year in relation to the business of the ICAV.

Directors' Report (continued)

Employees

The governance framework of the ICAV reflects the fact that it has no employees or subsidiary companies and outsources investment management, distribution and administration.

Transactions with Connected Persons

Regulation 43 of the Central Bank UCITS Regulations "Restrictions of transactions with connected persons" states that "A responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length; and b) in the best interest of the shareholders of the UCITS".

As required under Central Bank UCITS Regulation 81.4, the Manager, as the responsible person is satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected person; and all transactions with connected persons that were entered into during the period to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

Business Review and Future Development

The ICAV is an open-ended Irish collective asset-management vehicle with segregated liability between sub-funds established under the laws of Ireland pursuant to the ICAV Act, the UCITS Regulations and the Central Bank UCITS Regulations. The ICAV was established on 19 February 2018 and authorised by the Central Bank on 31 August 2018.

For a detailed analysis on investment objective of each Sub-Fund, please refer to the Investment Manager's Report on page 13 and Note 1 on page 60 of these financial statements.

Principal Risks and Uncertainties

The main risks arising from the ICAV's financial instruments include market risk (including price risk, foreign currency risk and interest rate risk), credit risk, liquidity risk, capital risk, inflation risk and climate risk which are outlined in Note 9 of these financial statements. Risk information is outlined in the Prospectus.

The Sustainable Finance Disclosure Regulation ("SFDR") and Taxonomy Regulation

The SFDR and Taxonomy Regulation disclosures relating to the environmental or social characteristics of the ICAV can be found on page 226 of these financial statements.

Independent Auditor

Ernst & Young, Chartered Accountants and Statutory Audit Firm, have been appointed as auditors in accordance with Section 125(2) of the ICAV Act.

Results and Distributions

The results for the year are set out in the Statement of Comprehensive Income. Where any Distributing Shares are issued, the Directors may declare dividends annually on or about December in each year to the Shareholders of such Shares out of the profits of the Sub-Fund attributable to the Distributing Shares.

Distributions declared during the financial year are disclosed in Note 21 of these financial statements.

Directors' Report (continued)

Significant Events during the year

Events arising in Ukraine, as a result of military action being undertaken by Russia, may impact on securities directly or indirectly related to companies domiciled in Russia and/or listed on exchanges located in Russia ("Russian Securities"). As at 31 March 2024, AuAg ESG Gold Mining UCITS ETF, EMQQ Emerging Markets Internet & Ecommerce UCITS ETF, FMQQ Next Frontier Internet & Ecommerce ESG-S UCITS ETF, and HAN-GINS Tech Megatrend Equal Weight UCITS ETF held Russian Securities that are currently being fair valued at zero. The Investment Manager and the Board will monitor developments related to this military action, including current and potential future interventions of foreign governments and economic sanctions as they may arise.

Global Online Retail UCITS ETF was terminated on 8 May 2023.

Effective 1 June 2023, the TERs for HANetf S&P Global Clean Energy Select HANzero™ UCITS ETF and Solar Energy UCITS ETF were adjusted to 0.39% and 0.49% respectively.

An updated Prospectus was issued on 12 June 2023. Updates to the prospectus included the change in Administrator of the ICAV from BNY Mellon Fund Services (Ireland) Designated Activity Company to J.P. Morgan Administration Services (Ireland) Limited and the change in Depositary from The Bank of New York Mellon SA/NV, Dublin Branch to J.P. Morgan SE – Dublin Branch.

Future of Defence UCITS ETF was launched on 3 July 2023.

Effective 10 July 2023, the supplement of HAN-GINS Cloud Technology Equal Weights UCITS ETF was noted by the Central Bank.

Effective 14 July 2023, following a reorganisation, the Investment Manager of the relevant Sub-Funds of the ICAV, as detailed on page 2 within Directors and Other Information, changed from Vident Investment Advisory, LLC to Vident Advisory, LLC. This change was supplemented to the ICAV's prospectus by way of an addendum on 14 July 2023. Vident Advisory, LLC is authorised by the Central Bank to serve as Investment Manager to UCITS Funds.

European Green Deal UCITS ETF was launched on 24 July 2023.

Effective 29 September 2023, The Medical Cannabis and Wellness UCITS ETF (the "Merging Sub-Fund") merged into HAN-GINS Indxx Healthcare Megatrend Equal Weight UCITS ETF (the "Receiving Sub-Fund"), whereby the portfolio of investments of the Merging Sub-Fund was sold down before the effective date and, as a result, only cash was transferred to the Receiving Sub-Fund at the effective date. Following the merger, the shareholders of the Merging Sub-Fund received shares in the relevant class of the Receiving Sub-Fund and consequently became shareholders in the Receiving Sub-Fund.

Effective 12 October 2023, L&G US Energy Infrastructure MLP UCITS ETF, a sub-fund of Legal & General UCITS PLC (the "Merging Sub-Fund"), merged into Alerian Midstream Energy Dividend UCITS ETF (the "Receiving Sub-Fund"), whereby the assets of the Merging Sub-Fund became assets of the Receiving Sub-Fund and managed in accordance with the investment policy of the Receiving Sub-Fund on the effective date. Following the merger, the shareholders of the Merging Sub-Fund received shares in the relevant class of the Receiving Sub-Fund and consequently became shareholders in the Receiving Sub-Fund.

Effective 1 November 2023, Toroso Investments, LLC officially changed its name to Tidal Investments LLC.

FMQQ Next Frontier Internet & Ecommerce ESG-S UCITS ETF was terminated on 13 November 2023.

INQQ India Internet & Ecommerce ESG-S UCITS ETF was launched on 15 November 2023.

Directors' Report (continued)

Significant Events during the year (continued)

Sprott Copper Miners ESG Screened UCITS ETF was launched on 6 December 2023.

Sprott Junior Uranium Miners UCITS ETF was launched on 22 February 2024.

Effective 27 February 2024, HANetf S&P Global Clean Energy Select HANzero™ UCITS ETF (the “Merging Sub-Fund”) merged into iClima Global Decarbonisation Enablers UCITS ETF (the “Receiving Sub-Fund”), whereby the portfolio of investments of the Merging Sub-Fund was sold down before the effective date and, as a result, only cash was transferred to the Receiving Sub-Fund at the effective date. Following the merger, the shareholders of the Merging Sub-Fund received shares in the relevant class of the Receiving Sub-Fund and consequently became shareholders in the Receiving Sub-Fund.

Effective 14 March 2024, ETC Group Digital Assets and Blockchain Equity UCITS ETF (the “Merging Sub-Fund”) merged into ETC Group Global Metaverse UCITS ETF (the “Receiving Sub-Fund”), whereby the portfolio of investments of the Merging Sub-Fund was sold down before the effective date and, as a result, only cash was transferred to the Receiving Sub-Fund at the effective date. Following the merger, the shareholders of the Merging Sub-Fund received shares in the relevant class of the Receiving Sub-Fund and consequently became shareholders in the Receiving Sub-Fund.

Effective 28 March 2024, HAN-GINS Cloud Technology Equal Weight UCITS ETF (the “Merging Sub-Fund”) merged into HAN-GINS Tech Megatrend Equal Weight UCITS ETF (the “Receiving Sub-Fund”), whereby the portfolio of investments of the Merging Sub-Fund was sold down before the effective date and, as a result, only cash was transferred to the Receiving Sub-Fund at the effective date. Following the merger, the shareholders of the Merging Sub-Fund received shares in the relevant class of the Receiving Sub-Fund and consequently became shareholders in the Receiving Sub-Fund.

There were no other significant events during the year.

Subsequent Events after the year end

Effective 28 March 2024, the ICAV and the Manager entered into a Securities Lending Agreement with JP Morgan SE – Luxembourg Branch as the Securities Lending Agent. As per the Securities Lending Agreement, the ICAV on behalf of sub-funds may enter into securities lending programmes for the purpose of efficient portfolio management and subject to the conditions and limits set out in the Central Bank UCITS Regulations. The securities lending programme commenced on 17 April 2024.

Effective 16 April 2024, the AuAg ESG Gold Mining UCITS ETF's supplement was updated to incorporate changes relating to maximum and expected proportion of the NAV that can be subject to securities financing transactions including other general updates.

Effective 16 April 2024, the ICAV's Prospectus was updated to incorporate general updates, including, but not limited to, the following:

- Appointment of HANetf EU Limited as the marketing agent of the ICAV;
- Inclusion of definition relating to securities lending agreement, and
- Inclusion of large shareholder risk within risk factors.

Solar Energy UCITS ETF was terminated on 17 April 2024.

Effective 19 April 2024, U.S. Global Jets UCITS ETF (the “Merging Sub-Fund”) merged into The Travel UCITS ETF (the “Receiving Sub-Fund”), whereby the portfolio of investments of the Merging Sub-Fund was sold down before the effective date and, as a result, only cash was transferred to the Receiving Sub-Fund at the effective date. Following the merger, the shareholders of the Merging Sub-Fund received shares in the relevant class of the Receiving Sub-Fund and consequently became shareholders in the Receiving Sub-Fund.

HANetf ICAV

Directors' Report (continued)

Subsequent Events after the year end (continued)

Effective 19 April 2024, Procure Space UCITS ETF (the "Merging Sub-Fund") merged into Future of Defence UCITS ETF (the "Receiving Sub-Fund"), whereby the portfolio of investments of the Merging Sub-Fund was sold down before the effective date and, as a result, only cash was transferred to the Receiving Sub-Fund at the effective date. Following the merger, the shareholders of the Merging Sub-Fund received shares in the relevant class of the Receiving Sub-Fund and consequently became shareholders in the Receiving Sub-Fund.

Electric Vehicle Charging Infrastructure UCITS ETF was terminated on 29 April 2024.

Lloyd Focus Equity UCITS ETF and Lloyd Growth Equity UCITS ETF were launched on 16 May 2024.

Effective 24 June 2024, the name of INQQ India Internet & Ecommerce ESG-S UCITS ETF was changed to INQQ India Internet UCITS ETF.

Effective 24 June 2024, the name of EMQQ Emerging Markets Internet & Ecommerce UCITS ETF was changed to EMQQ Emerging Markets Internet UCITS ETF.

Effective 28 June 2024, the name of ETC Group Global Metaverse UCITS ETF was changed to ETC Group Web 3.0 UCITS ETF including change to index from Solactive ETC Group Global Metaverse Index to Solactive ETC Group Web 3.0 Index.

There were no other significant events after the year end.

REPORT FROM THE DEPOSITARY TO THE SHAREHOLDERS

For the period from 1 April 2023 to 9 June 2023 (the "Period")

The Bank of New York Mellon SA/NV, Dublin Branch (the "Depositary" "us", "we", or "our") has enquired into the conduct of HANetf ICAV (the "ICAV") for the Period, in its capacity as Depositary to the ICAV.

This report including the opinion has been prepared for and solely for the shareholders in the ICAV, in accordance with our role as Depositary to the ICAV and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depositary

Our duties and responsibilities are outlined in Regulation 34 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), as amended (the "Regulations").

Our report shall state whether, in our opinion, the ICAV has been managed in that period in accordance with the provisions of the ICAV's constitutional documentation and the Regulations. It is the overall responsibility of the ICAV to comply with these provisions. If the ICAV has not been so managed, we as Depositary must state in what respects it has not been so managed and the steps which we have taken in respect thereof.

Basis of Depositary Opinion

The Depositary conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties and to ensure that, in all material respects, the ICAV has been managed (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of its constitutional documentation and the appropriate regulations and (ii) otherwise in accordance with the ICAV's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the ICAV has been managed during the Period, in all material respects:

(i) in accordance with the limitations imposed on the investment and borrowing powers of the ICAV by the constitutional documentation and the Regulations; and

(ii) otherwise in accordance with the provisions of the constitutional documentation and the Regulations.

HANetf ICAV

Report of the Depositary to the Shareholders

For the period 10 June 2023 to 31 March 2024

We, J.P. Morgan SE - Dublin Branch, appointed Depositary of HANetf ICAV (the "ICAV") provide this report solely in favour of the Shareholders of the ICAV for the period 10 June 2023 to 31 March 2024 (the "period").

This report is provided in accordance with the UCITS Regulations – European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended ("UCITS Regulations"). We do not, in the provision of this report, accept nor assume responsibility for any other purpose or to any other person to whom this report is shown.

In accordance with our Depositary obligation as provided for under the UCITS Regulations, we have enquired into the conduct of the ICAV for the Accounting Period and we hereby report thereon to the Shareholders of the ICAV as follows;

We are of the opinion that the ICAV has been managed during the period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the ICAV by the constitutional documents and the UCITS Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional documents and the UCITS Regulations.

Investment Manager's Report

For the year ended 31 March 2024

Tracking Difference

Tracking difference is defined as the difference in returns between a fund and its benchmark index. The investment management approach is to buy a portfolio of securities that as far as practicable consist of the securities or a sample thereof that make up the benchmark index, in similar proportion to the weights represented in the index. Due to certain local market restrictions and limitations, the fund may have to look for similar characteristics with a subset or sample of the index. Depending on the underlying circumstances, these security mis-weights can result in either positive or negative tracking. In addition, the exposure of the Sub-Fund to the underlying index can slightly deviate from 100 per cent., i.e. the index investment ratio, which can have an additional impact on the Sub-Funds' tracking difference.

Tracking Error

The tracking error for each Sub-Fund represents the annualised volatility of the daily differences between the returns of the Sub-Fund and the returns of its benchmark index for the year ended 31 March 2023.

The table below compares the Sub-Funds' performance against the performance of the relevant benchmark index during the abovementioned period. An explanation for the difference gross of the Total Expense Ratio ("TER") is provided as well. The table also shows the annualised tracking error for the year ended 31 March 2024.

Sub-Fund	Investment Manager	Sub-Fund return for the year ended 31/03/2024	Benchmark return for the year ended 31/03/2024	Tracking difference of TER	TER (pro rata since inception)	Tracking difference gross of TER	Explanation of the tracking difference	Actual tracking error	Explanation of the tracking error

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF HANETF ICAV

Report on the audit of the financial statements

Opinion

We have audited the financial statements of HANETF ICAV ('the ICAV') for the year ended 31 March 2024, which comprise the financial statements of Alerian Midstream Energy Dividend UCITS ETF, AuAg ESG Gold Mining UCITS ETF, Digital Infrastructure and Connectivity UCITS ETF, Electric Vehicle Charging Infrastructure UCITS ETF, EMQQ Emerging Markets Internet & Ecommerce UCITS ETF, ETC Group Digital Assets and Blockchain Equity UCITS ETF, ETC Group Global Metaverse UCITS ETF, European Green Deal UCITS ETF, Finamex Mexico S&P/BMV International UMS Sovereign Bond 5-10yr UCITS ETF, FMQQ Next Frontier Internet & Ecommerce ESG-S UCITS ETF, Future of Defence UCITS ETF, Grayscale Future of Finance UCITS ETF, HANETF S&P Global Clean Energy Select HANzero™ UCITS ETF, HAN-GINS Cloud Technology Equal Weight UCITS ETF, HAN-GINS Indxx Healthcare Megatrend Equal Weight UCITS ETF, HAN-GINS Tech Megatrend Equal Weight UCITS ETF, iClima Global Decarbonisation Enablers UCITS ETF, INQQ India Internet & Ecommerce ESG-S UCITS ETF, Procure Space UCITS ETF, Saturna AI-Kawthar Global Focused Equity UCITS ETF, Solar Energy UCITS ETF, Sprott Copper Miners ESG Screened UCITS ETF, Sprott Energy Transition Materials UCITS ETF, Sprott Junior Uranium Miners UCITS ETF, Sprott Uranium Miners UCITS ETF, The Medical Cannabis and Wellness UCITS ETF, The Travel UCITS ETF and U.S. Global Jets UCITS ETF (each individually a "Fund" and collectively the "Funds").

The financial statements of the Funds comprise the Statement of Comprehensive Income, Statement of Financial Position, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, Statement of Cash Flows and notes to the financial statements, including the material accounting policy information set out in note 2. The financial reporting framework that has been applied in their preparation is Irish Law and International Financial Reporting Standards (IFRS) as adopted by the European Union.

In our opinion the financial statements:

- give a true and fair view of the assets, liabilities and financial position of the Funds as at 31 March 2024 and of their profit / loss for the year then ended;
- have been properly prepared in accordance with IFRS as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Irish Collective Asset-management Vehicles Act 2015, the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) (ISAs (Ireland)) and applicable law. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the ICAV in accordance with ethical requirements that are relevant to our audit of financial statements in Ireland, including the Ethical Standard as applied to public interest entities issued by the Irish Auditing and Accounting Supervisory Authority (IAASA), and we have fulfilled our other ethical responsibilities in accordance with these requirements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

working world**

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF HANETF ICAV

Emphasis of Matter— financial statements prepared on a basis other than going concern

We draw attention to note 1, note 2(a) and Note 24 to the financial statements which explains that the directors have either terminated or terminated via merger the following Funds:

- FMQQ Next Frontier Internet & Ecommerce ESG-S UCITS ETF
- Electrical Vehicle Charging Infrastructure UCITS ETF
- Solar Energy UCITS ETF
- ETC Group Digital Assets and Blockchain Equity UCITS ETF
- The Medical Cannabis and Wellness UCITS ETF
- HANetf S&P Global Clean Energy Select HANzero™ UCITS ETF
- HAN-GINS Cloud Technology Equal Weight UCITS ETF
- U.S. Global Jets UCITS ETF
- Procure Space UCITS ETF

Therefore, the directors do not consider it to be appropriate to adopt the going concern basis of accounting in preparing the financial statements of these Funds. Accordingly, the financial statements have been prepared on a non-going concern basis for these Funds as described in note 2(a).

Our opinion is not modified in respect of this matter.

Conclusions relating to going concern

Other than as noted in the preceding paragraph, in auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate other than the sub funds noted in the above paragraph. Our evaluation of the directors' assessment of each Fund's ability to continue to adopt the going concern basis of accounting included:

- Confirming our understanding of management's going concern assessment process and also engaging with management to understand the key factors which were considered in their assessment;
- Obtaining management's going concern assessment, which covers at least 12 months from the date of approval of the financial statements;
- Reviewing and evaluating the reasonability of the key factors considered by management in making their assessment of going concern including consideration of the availability of liquid assets to meet ongoing operational costs and known future capital activity in the Funds. In assessing these, we obtained and reviewed the liquidity terms which the Funds offer to investors together with reviewing post year-end capital activity and enquiring of management as to whether there are any subsequent events, including performance, that might give rise to conditions which could lead management to discontinue the operations of the Funds.
- Reviewing the Funds' going concern disclosures included in the annual report in order to assess that the disclosures were appropriate and in conformity with the reporting standards.

Conclusion

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on each Fund's ability to continue as a going concern for a period of at least twelve months from when the financial statements are authorised for issue, with the exception of the Funds noted above, which are prepared on a basis other than going concern. Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report. However, because not all future events or conditions can be predicted, this statement is not a guarantee as to each Fund's ability to continue as a going concern.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF HANETF ICAV

Key audit matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) that we identified, including those which had the greatest effect on: the overall audit strategy, the allocation of resources in the audit; and directing the efforts of the engagement team. These matters were addressed in the context of our audit of the financial statements of the ICAV as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Risk	Our response to the risk	Key observations
<p>Valuation of financial assets and financial liabilities at fair value through profit or loss</p> <p>We have considered valuation of financial assets at fair value through profit or loss (with a combined fair value of USD 1,069,709,998, (2023: USD 608,223,602)) and financial liabilities at fair value through profit or loss (with a combined fair value of (USD 1,388,034) (2023: (USD 431,258))) as a key audit matter as it is a key driver of the Funds' performance and net asset value.</p> <p>Please refer to Note 8 – Net gain/(loss) on financial assets and financial liabilities at fair value through profit or loss, Note 9 – Financial Risk Management and Note 10 – Fair Value disclosures in the financial statements. Please refer to Note 20 – Exchange Rates for exchange rates of non-USD denominated currencies as at year-end used in the calculation of the combined value above.</p>	<p>We obtained the listing of financial assets and financial liabilities at fair value through profit or loss as at 31 March 2024 from the Administrator.</p> <p>We assessed the reasonableness of the valuation for financial assets and financial liabilities at fair value through profit or loss by:</p> <ul style="list-style-type: none">• obtaining an understanding and evaluating the key controls that have been implemented over the valuation process for financial assets and financial liabilities at fair value through profit or loss. This includes obtaining the service auditor's report of the Administrator and identifying the key controls in place at the Administrator over the investment valuation process;• comparing values to quoted prices or vendor prices; or• recalculating fair value using industry standard models, assessing the reasonableness of the assumptions and data inputs used by the Directors.	<p>No issues have been noted from the performance of our procedures over this key audit matter</p>

<p>Existence of financial assets and financial liabilities at fair value through profit or loss</p> <p>We have considered existence of financial assets at fair value through profit or loss (with a combined fair value of USD 1,069,709,998 (2023: USD 1,263,516)) and financial liabilities at fair value through profit or loss (with a combined fair value of (USD 1,388,034) (2023: (USD 431,258))), as a key audit matter as it is a key driver of the Funds' performance and net asset value.</p> <p>Please refer to Note 8 – Net gain/(loss) on financial assets and financial liabilities at fair value through profit or loss, Note 9 – Financial Risk Management and Note 10 – Fair Value disclosures in the financial statements. Please refer to Note 20 – Exchange Rates for exchange rates of non-USD denominated currencies as at year-end used in the calculation of the combined value above.</p>	<p>We obtained the listing of financial assets and financial liabilities at fair value through profit or loss as at 31 March 2024 from the Administrator.</p> <p>We assessed the reasonableness of the existence for all financial assets and financial liabilities at fair value through profit or loss by:</p> <ul style="list-style-type: none">obtaining an understanding and evaluating the key controls that have been implemented over the reconciliation process for financial assets and financial liabilities at fair value through profit or loss. This includes obtaining the service auditor's report of the Administrator and identifying the key controls in place at the Administrator over the investment reconciliation process.obtaining independent confirmations directly from the depositary and counterparty of each of the financial assets and financial liabilities at fair value through profit or loss held at year-end and investigating any material differences identified.	<p>No issues have been noted from the performance of our procedures over this key audit matter.</p>

Our application of materiality

We apply the concept of materiality in planning and performing the audit, in evaluating the effect of identified misstatements on the audit and in forming our audit opinion.

Materiality

The magnitude of an omission or misstatement that, individually or in the aggregate, could reasonably be expected to influence the economic decisions of the users of the financial statements. Materiality provides a basis for determining the nature and extent of our audit procedures.

We determined materiality for the ICAV to be 0.5% of each Fund's Net Asset Value as 31 March 2024 (2023:0.5%) except for the terminated Fund, where we determined materiality to be 0.5% of the final redemption value. We believe that this materiality basis provides us with appropriate measurement basis since the users of the financial statements may focus more on this than on earnings.

**Building a better
working world**

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF HANETF ICAV

Performance materiality

The application of materiality at the individual account or balance level. It is set at an amount to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds materiality.

On the basis of our risk assessments, together with our assessment of the ICAV's overall control environment, our judgement was that performance materiality was 75% (2023: 75%) of our planning materiality. We have set performance materiality at this percentage due to our knowledge of the Funds and their industry, our past history with the entity, the effectiveness of its control environment and our assessment of the risks associated with the engagement.

Reporting threshold

An amount below which identified misstatements are considered as being clearly trivial.

We agreed with the Board of Directors that we would report to them all uncorrected audit differences in excess of 5% (2023:5%) of our defined materiality, as well as differences below that threshold that, in our view, warranted reporting on qualitative grounds.

We evaluate any uncorrected misstatements against both the quantitative measures of materiality discussed above and in light of other relevant qualitative considerations in forming our opinion.

An overview of the scope of our audit report

Tailoring the scope

Our assessment of audit risk, our evaluation of materiality and our allocation of performance materiality determine our audit scope for the ICAV. This enables us to form an opinion on the financial statements. We take into account size, risk profile, the organisation of the ICAV and effectiveness of controls, including controls and changes in the business environment when assessing the level of work to be performed. All audit work was performed directly by the audit engagement team.

Other information

The directors are responsible for the other information. The other information comprises the information included in the annual report other than the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information and, except to the extent otherwise explicitly stated in our report, we do not express any form of assurance conclusion thereon.

Our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If we identify such material inconsistencies or apparent material misstatements, we are required to determine whether there is a material misstatement in the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact.

We have nothing to report in this regard.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF HANETF ICAV

Respective responsibilities

Responsibilities of directors for the financial statements

As explained more fully in the directors' responsibilities statement set out on page 5, the directors are responsible for the preparation of the financial statements in accordance with the applicable financial reporting framework that give a true and fair view, and for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing each Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate a Fund or to cease operations, or has no realistic alternative but to do so.

Auditor's responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Explanation to what extent the audit was considered capable of detecting irregularities, including fraud

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect irregularities, including fraud that could reasonably be expected to have a material effect on the financial statements. The risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion. In addition, the further removed any non-compliance is from the events and transactions reflected in the financial statements, the less likely it is that our procedures will identify such non-compliance. The extent to which our procedures are capable of detecting irregularities, including fraud is detailed below. However, the primary responsibility for the prevention and detection of fraud rests with both those charged with governance of the company and management.

Our approach was as follows:

- We obtained an understanding of the legal and regulatory frameworks that are applicable to the ICAV and determined that the most significant are the Irish Collective Asset-management Vehicles Act 2015, the Undertaking for Collective Investment in Transferable Securities pursuant to the provisions of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 and the Central Bank (Supervision And Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019.
- We understood how HANETF ICAV is complying with those frameworks by updating our understanding of the adequate system of internal control in place. We also considered the existence of independent service providers, proper segregation of duties and the regulated environment in which the Funds operate, which may reduce opportunities for fraud to take place.
- We assessed the susceptibility of the financial statements to material misstatement, including how fraud might occur by management override of controls.
- Based on this understanding we designed our audit procedures to identify non-compliance with such laws and regulations. Our procedures involved inquiries to those charged with governance into possible instances of non-compliance with laws and regulations, a review of board meeting minutes during the year and obtaining representation from the management.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA's website at: http://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

This description forms part of our auditor's report.

INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF HANETF ICAV

Other matters which we are required to address

We were appointed by the Board of Directors on 1 August 2018 to audit the financial statements for the year ending 31 March 2019 and subsequent financial periods. The period of total uninterrupted engagement including previous renewals and reappointments of the firm is 6 years.

The non-audit services prohibited by IAASA's Ethical Standard were not provided to the ICAV and we remain independent of the ICAV in conducting our audit. Our audit opinion is consistent with the additional report to the Board of Directors. Our audit opinion is consistent with the additional report to board of directors.

The purpose of our audit work and to whom we owe our responsibilities

Our report is made solely to the ICAV's members, as a body, in accordance with section 120 of the Irish Collective Asset-management Vehicles Act 2015. Our audit work has been undertaken so that we might state to the ICAV's members those matters we are required to state to them in an auditor's report and for no other purpose. To the fullest extent permitted by law, we do not accept or assume responsibility to anyone other than the ICAV and the ICAV's members, as a body, for our audit work, for this report, or for the opinions we have formed.

HANetf ICAV

Notes to the Financial Statements

For the year ended 31 March 2024

1. Organisation

HANetf ICAV (the “ICAV”) is an Irish collective asset-management vehicle established under the laws of Ireland pursuant to the Irish Collective Asset-Management Vehicles Act 2015 (the “ICAV Act”) and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011, as amended (the “UCITS Regulations”) and the Central Bank (Supervision and Enforcement Act 2013 (Section 48(1))) (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2019 (the “Central Bank UCITS Regulations”). The ICAV was established on 19 February 2018 and approved by the Central Bank on 31 August 2018. The ICAV is registered at 3rd Floor, 55 Charlemont Place, Dublin D02 F985, Ireland.

The ICAV is structured as an umbrella fund with segregated liability between sub-funds. The Directors may from time to time, with the prior approval of the Central Bank, create different series of shares effected in accordance with the requirements of the Central Bank representing separate portfolios of assets, each such series comprising a sub-fund. Within each sub-fund, the Directors may from time to time create different share classes in accordance with the requirements of the Central Bank. Each sub-fund will bear its own liabilities and, under Irish law, any of the service providers appointed to the ICAV, the Directors, any receiver, examiner or liquidator, or any other person will not have access to the assets of a sub-fund in satisfaction of a liability of any other sub-fund.

At 31 March 2024, the ICAV consisted of twenty-three sub-funds in operation (individually the “Sub-Fund” and together the “Sub-Funds”):

- EMQQ Emerging Markets Internet & Ecommerce UCITS ETF, launched on 2 October 2018,
- HAN-GINS Tech Megatrend Equal Weight UCITS ETF, launched on 5 October 2018,
- HAN-GINS Indxx Healthcare Megatrend Equal Weight UCITS ETF, launched on 4 April 2019,
- Alerian Mid Stream Energy Dividend UCITS ETF, launched on 27 July 2020,
- Saturna AI-Kawthar Global Focused Equity UCITS ETF, launched on 28 September 2020,
- Digital Infrastructure and Connectivity UCITS ETF, launched on 9 October 2020,
- iClima Global Decarbonisation Enablers UCITS ETF, launched on 4 December 2020,
- Procure Space UCITS ETF, launched on 1 June 2021,
- The Travel UCITS ETF, launched on 4 June 2021,
- Solar Energy UCITS ETF, launched on 4 June 2021,
- U.S. Global Jets UCITS ETF, launched on 15 June 2021,
- AuAg ESG Gold Mining UCITS ETF, launched on 2 July 2021,
- ETC Group Global Metaverse UCITS ETF, launched on 15 March 2022,
- Finamex Mexico S&P/BMV International UMS Sovereign Bond 5-10yr UCITS ETF, launched on 29 March 2022,
- Electric Vehicle Charging Infrastructure UCITS ETF, launched on 25 April 2022,
- Sprott Uranium Miners UCITS ETF, launched on 3 May 2022,
- Grayscale Future of Finance UCITS ETF, launched on 13 May 2022,
- Sprott Energy Transition Materials UCITS ETF, launched on 9 March 2023,
- Future of Defence UCITS ETF, launched on 3 July 2023,
- European Green Deal UCITS ETF, launched on 24 July 2023,
- INQQ India Internet & Ecommerce ESG-S UCITS ETF, launched on 15 November 2023,
- Sprott Copper Miners ESG Screened UCITS ETF, launched on 6 December 2023,
- Sprott Junior Uranium Miners UCITS ETF, launched on 22 February 2024.

The following Sub-Funds have been terminated:

- Global Online Retail UCITS ETF, terminated on 8 May 2023.
- FMQQ Next Frontier Internet & Ecommerce ESG-S UCITS ETF, terminated on 13 November 2023.

The following Sub-Funds have been merged:

- The Medical Cannabis and Wellness UCITS ETF, merged into HAN-GINS Indxx Healthcare Megatrend Equal Weight UCITS ETF on 29 September 2023.
- HANetf S&P Global Clean Energy Select HANzero™ UCITS ETF, merged into iClima Global Decarbonisation Enablers UCITS ETF on 27 February 2024.
- ETC Group Digital Assets and Blockchain Equity UCITS ETF, merged into ETC Group Global Metaverse UCITS ETF on 14 March 2024.
- HAN-GINS Cloud Technology Equal Weight UCITS ETF, merged into HAN-GINS Tech Megatrend Equal Weight UCITS ETF on 28 March 2024.

At 31 March 2024, each Sub-Funds had one share class in issue – Accumulating share class except Alerian Mid Stream Energy Dividend UCITS ETF which had one share class in issue – Distributing share class.

Notes to the Financial Statements (continued)

For the year ended 31 March 2024

1. Organisation (continued)

The Alerian Mid Stream Energy Dividend UCITS ETF seeks to replicate the price and yield performance, before fees and expenses, of the Alerian Midstream Energy Dividend Index™ (the "AEDWT Index"). The AEDWT Index provides exposure to the performance of the liquid, dividend-paying portion of the North American energy infrastructure market.

The AuAg ESG Gold Mining UCITS ETF seeks to track the price and the performance, before fees and expenses, of the Solactive AuAg ESG Gold Mining Index (the "SOLESGON Index"). The SOLESGON Index provides exposure to the performance of companies which are active in the gold mining industry that have low environmental, social and governance (ESG) risk characteristics.

The Digital Infrastructure and Connectivity UCITS ETF seeks to track the price and the performance, before fees and expenses, of the Tematica BITA Digital Infrastructure and Connectivity Sustainability Screened Index (the "TBDIGI Index"). The TBDIGI Index provides exposure to the performance of companies involved in the digital infrastructure and connectivity sector.

The Electric Vehicle Charging Infrastructure UCITS ETF seeks to track the price and the performance, before fees and expenses, of the Solactive Electric Vehicle Charging Infrastructure Index (the "SOLEVIFN Index"). The SOLEVIFN Index provides exposure to the performance of companies that are active in the field of battery charging equipment and electric vehicle (EV) charging stations.

The EMQQ Emerging Markets Internet & Ecommerce UCITS ETF seeks to track the price and the performance, before fees and expenses, of the EMQQ Emerging Markets Internet & Ecommerce Index™ (the "EMQQITR Index"). The EMQQITR Index measures the performance of publicly-traded, internet and e-commerce emerging market companies.

The ETC Group Global Metaverse UCITS ETF seeks to track the price and the performance, before fees and expenses, of Solactive ETC Group Global Metaverse Index (the "SGLMETA Index"). The SGLMETA Index provides exposure to the performance of companies that potentially stand to benefit from the adoption and use of technologies that are expected to grow and support the functioning of the metaverse which is sometimes referred to as the next iteration of the internet. This includes companies from the following industries: augmented / virtual reality, creator economy, digital infrastructure, digital marketplace, gaming and digital payments.

The European Green Deal UCITS ETF seeks to track the price and the performance, before fees and expenses, of the SGI European Green Deal ESG Screened Index (the "SGIXEGD Index"). The SGIXEGD Index provides exposure to the performance of certain companies that stand to benefit from the implementation of the European Commission's Green Deal policies and aim for EU climate neutrality by 2050.

The Finamex Mexico S&P/BMV International UMS Sovereign Bond 5-10yr UCITS ETF seeks to track the price and the performance, before fees and expenses, of the S&P/BMV Sovereign International UMS 5-10 Year Target Maturity 30% Capped Bond Index (the "SPVU5CU Index"). The SPVU5CU Index provides exposure to the United Mexico States (UMS) sovereign bond market. UMS sovereign bonds are issued by the federal government of Mexico in international capital markets and are investment grade.

The Future of Defence UCITS ETF seeks to track the price and the performance, before fees and expenses, of the EQM Future of Defence Index (the "NATONTR Index"). The NATONTR Index provides exposure to the performance of companies in the defence (including cyber defence) industry.

The Grayscale Future of Finance UCITS ETF seeks to track the price and the performance, before fees and expenses, of Bloomberg Grayscale Future of Finance Index (the "BGFOFN Index"). The BGFOFN Index provides exposure to the performance of companies that have exposure to the digital asset and blockchain ecosystem.

The HAN-GINS Indxx Healthcare Megatrend Equal Weight UCITS ETF seeks to track the price and the performance, before fees and expenses, of the Indxx Global NextGen Healthcare Index NTR (the "IHMEQNT Index"). The IHMEQNT Index measures the performance of companies involved in the Advanced Life Sciences & Smart Healthcare sector, on a global basis, as defined by Indxx.

The HAN-GINS Tech Megatrend Equal Weight UCITS ETF seeks to track the price and the performance, before fees and expenses, of the Solactive Innovative Technologies Index (the "SOLITEK Index"). The SOLITEK Index measures the performance of publicly-traded companies that are involved in innovative and disruptive technological trends across a broad range of industries.

Notes to the Financial Statements (continued)

For the year ended 31 March 2024

1. Organisation (continued)

The iClima Global Decarbonisation Enablers UCITS ETF seeks to track the price and the performance, before fees and expenses, of iClima Global Decarbonisation Enablers Index USD (the “GLCLIMUN Index”). The GLCLIMUN Index provides exposure to the performance of companies involved in the enablement of CO2 avoidance.

The INQQ India Internet & Ecommerce ESG-S UCITS ETF seeks to track the price and the performance before fees and expenses of the INQQ The India Internet & Ecommerce ESG Screened Index (the “INQQETR Index”). The INQQETR Index measures the performance of an investable universe of publicly traded internet and ecommerce companies in India.

The Procure Space UCITS ETF seeks to track the price and the performance, before fees and expenses, of S-Network Procure Space Index (the “SPACENT Index”). The SPACENT Index provides exposure to the performance of companies which are engaged in space-related businesses, including companies utilising satellite technology.

The Saturna Al-Kawthar Global Focused Equity UCITS ETF seeks to achieve capital growth over the medium to long term, whilst complying with the Principles of Shariah investment.

The Solar Energy UCITS ETF seeks to track the price and the performance, before fees and expenses, of the EQM Global Solar Energy Index (the “SOLARNTR Index”). The SOLARNTR Index provides exposure to companies with a business focus on the solar energy industry.

The Sprott Copper Miners ESG Screened UCITS ETF seeks to track the price and the performance, before fees and expenses, of the Nasdaq Sprott Copper Miners ESG Screened Index (the “NSCOPEN Index”). The NSCOPEN Index provides exposure to the performance of companies which are active in the copper mining industry and have been assessed for environmental and social characteristics.

The Sprott Energy Transition Materials UCITS ETF seek to track the price and the performance, before fees and expenses, of the Nasdaq Sprott Energy Transition Materials Ex Uranium Index (the “NSETMU Index”). The NSETMU Index provides exposure to the performance of companies in the energy transition materials industry.

The Sprott Junior Uranium Miners UCITS ETF seeks to track the price and the performance, before fees and expenses, of an the Nasdaq Sprott Junior Uranium Miners Index (the “NSURNJ Index”). The NSURNJ Index provides exposure to the performance of mid and small market capitalisation companies that have or expect to have a significant part of the business operations related to (i) mining, exploration, development and production of uranium and/or (ii) holding physical uranium, owning uranium royalties or engaging in other non-mining activities that support the uranium mining industry, including, but not limited to, infrastructure and labour costs.

The Sprott Uranium Miners UCITS ETF seeks to track the price and the performance, before fees and expenses, of the North Shore Sprott Uranium Miners Index (the “URNMXA Index”). The URNMXA Index provides exposure to the performance of companies that have or expect to have a significant part of the business operations related to (i) mining, exploration, development and production of uranium and/or (ii) holding physical uranium, owning uranium royalties or engaging in other non-mining activities that support the uranium mining industry, including, but not limited to, infrastructure and labour costs.

The Travel UCITS ETF seeks to track the price and the performance, before fees and expenses, of the Solactive Travel Index (the “SOLTRAVN Index”). The SOLTRAVN Index provides exposure to the performance of companies that are in the airline, hotels and cruise lines industries.

The U.S. Global Jets UCITS ETF seeks to track the price and the performance, before fees and expenses, of the U.S. Global Jets Index (the “JETSX Index”). The JETSX Index tracks the performance of global airline companies.

2. Material Accounting Policies

(a) Basis of preparation

The ICAV's audited financial statements have been prepared in accordance with International Financial Reporting Standards (“IFRS”) as adopted by the European Union (“EU”), the ICAV Act, the UCITS Regulations and the Central Bank UCITS Regulations.

Notes to the Financial Statements (continued)

For the year ended 31 March 2024

2. Material Accounting Policies (continued)

(a) Basis of preparation (continued)

The financial statements have been prepared on a going concern basis which assumes that the Sub-Funds within the ICAV will continue in its operational existence for the foreseeable future except for Electric Vehicle Charging Infrastructure UCITS ETF, ETC Group Digital Assets and Blockchain Equity UCITS ETF, FMQQ Next Frontier Internet & Ecommerce ESG-S UCITS ETF, HANetf S&P Global Clean Energy Select HANzero™ UCITS ETF, HAN-GINS Cloud Technology Equal Weight UCITS ETF, Procure Space UCITS ETF, Solar Energy UCITS ETF, The Medical Cannabis and Wellness UCITS ETF and U.S. Global Jets UCITS ETF. The financial statements for these Sub-Funds have been prepared on a non-going concern basis due to discontinued operations (Refer to Note 1 for details). The financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets and financial liabilities at fair value through profit or loss.

The preparation of financial statements in conformity with IFRS requires the use of judgements, estimates and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the year. The Directors have concluded that there are no significant judgements within the financial statements. Refer to Note 10 for details in relation to the determination of the fair value of financial instruments.

The Directors make estimates and assumptions concerning the future of the ICAV. The resulting accounting estimates will, by definition, seldom equal the related actual results. There are no estimates and assumptions that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities.

The following accounting policies have been consistently applied in dealing with items which are considered material in relation to the ICAV's financial statements.

In addition, the ICAV adopted Disclosure of Accounting Policies (Amendment to IAS 1 and IFRS Practice Statement 2) from 1 January 2023. The amendments required companies to disclose their 'material' accounting policies rather than their 'significant' accounting policies. The amendments did not result in any changes to the accounting policies disclosed in the financial statements.

New standards and amendments to existing standards

(i) Standards, amendments and interpretations issued and effective

The following standards, amendments and interpretations to existing standards were adopted by the ICAV effective from 1 January 2023:

- Amendment to IAS 1 Presentation of Financial Statements and IFRS Practice Statements 2: Disclosure of accounting policies (Effective: Beginning on or after 1 January 2023).
- Amendments to IAS 8 – Definition of Accounting Estimates (Effective: Beginning on or after 1 January 2023).
- Amendments to IAS 12 – Deferred Tax related to Assets and Liabilities arising from Single Transactions (Effective: Beginning on or after 1 January 2023).
- Amendment to IAS 12 Income taxes: International Tax Reform Pillar Two Model Rules (Effective: Beginning on or after 1 January 2023).
- IFRS 17 Insurance Contracts (Effective: Beginning on or after 1 January 2023).

The adoption of these amendments did not have a significant impact on the ICAV's financial statements. There are no other standards, amendments to standards or interpretations effective for annual period beginning on or after 1 January 2023 that have a material effect on the ICAV's financial statements

(ii) New standards, amendments and interpretations issued but not effective and not early adopted

The ICAV has not early adopted any of the below forthcoming amended standards in preparing these financial statements as they are not expected to have a significant impact on the ICAV.

- Amendments to IAS 1 – Classification of Liabilities as Current or Non-current and Non-current Liabilities with Covenants (Effective: Beginning on or after 1 January 2024).
- Amendments to IAS 7 - Statement of Cash Flows and IFRS 7 Financial Instruments: Disclosures: Supplier Finance Arrangements (Effective: Beginning on or after 1 January 2024).
- Amendments to IFRS 9 and IFRS 7 - Amendments to the Classification and Measurement of Financial Instruments (Effective: Beginning on or after 1 January 2026).
- Amendment to IFRS 16 – Lease liability in a Sale and Leaseback (Effective: Beginning on or after 1 January 2024).
- IFRS 18 Presentation and Disclosure in Financial Statements (Effective: Beginning on or after 1 January 2027).
- IFRS 19 Subsidiaries without Public Accountability Disclosures (Effective: Beginning on or after 1 January 2027).
- Amendments to IAS 21 – The Effects of Changes in Foreign Exchange Rates: Lack of Exchangeability (Effective: Beginning on or after 1 January 2025).

Notes to the Financial Statements (continued)

For the year ended 31 March 2024

2. Material Accounting Policies (continued)

(b) Financial Instruments

(i) Classification and recognition

The Sub-Funds classify all of its investment portfolio as financial assets or liabilities at fair value through profit or loss.

The fair value of financial assets and liabilities at fair value through profit and loss is based on quoted market prices or fair value basis. Equity instruments and exchange traded funds listed or traded on a regulated market or exchange are valued at the last traded price available. Fixed income instruments which are listed or traded on a regulated market are valued using the latest mid-market prices. Units or shares in investment funds are valued at the latest available unaudited net asset value estimated by the underlying administrator. Derivative instruments are held at fair value through profit or loss.

All other financial assets and liabilities including cash, cash equivalents, receivables and payables are classified as being measured at amortised cost. Measurement at amortised cost takes into account any premium or discount on acquisition as well as transaction costs and fees that are an integral part of the effective interest rate. All financial assets measured at amortised cost are short term in nature and the application of the expected credit loss model does not impact the carrying amounts of these financial assets as they approximate their fair values under IFRS 9.

(ii) Initial measurement

Financial assets at fair value through profit or loss are initially recognised at fair value which equates to cost at the date of recognition. All transaction costs for such instruments are recognised directly in the Statement of Comprehensive Income as incurred.

A purchase of financial assets is recognised using trade date accounting. From this date, any gains and losses arising from changes in the fair value of the financial assets or financial liabilities are recorded in the Statement of Comprehensive Income.

(iii) Subsequent measurement

Subsequent to initial recognition, all instruments classified at fair value through profit or loss, are re-measured at fair value with changes in their fair value recognised in the Statement of Comprehensive Income.

Financial liabilities, arising from the redeemable shares issued by the Sub-Funds of the ICAV, are carried at the redemption amount representing the shareholders' right to a residual interest in each Sub-Fund's net assets.

(iv) Fair value estimation

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as trading securities) are based on quoted market prices at the close of trading on the reporting date.

If a quoted market price in an active market is not available on a recognised stock exchange or from a broker/dealer for non-exchange traded financial instruments, the fair value of the instrument is estimated using valuation techniques, including use of recent arm's length market transactions, reference to the current fair value of another instrument that is substantially the same, discounted cash flow techniques, option pricing models or any other valuation technique that provides a reliable estimate of prices obtained in actual market transactions.

Where discounted cash flow techniques are used, estimated future cash flows are based on management's best estimates and the discount rate used is a market rate at the year end date applicable for an instrument with similar terms and conditions (such as government bonds). Where other pricing models are used, inputs are based on market data at the year end date.

Transfers between levels of the fair value hierarchy are deemed to have occurred at the beginning of the year.

Notes to the Financial Statements (continued)

For the year ended 31 March 2024

2. Material Accounting Policies (continued)

(b) Financial Instruments (continued)

(v) Derecognition

A financial asset is derecognised when the contractual right to receive cash flows from the financial asset has expired or the ICAV has transferred substantially all risks and rewards of ownership. A financial liability is derecognised when the obligation specified in the contract has been discharged, cancelled or expired.

Realised gains or losses on disposals of investments during the year and unrealised gains and losses on valuation of investments held at the year end are recognised in the net gains/(losses) on financial assets/liabilities at fair value through profit or loss line in the Statement of Comprehensive Income.

(c) Foreign currency translation

(i) Functional and presentation currency

The financial statements are presented in the base currency of the Sub-Funds as defined in the Prospectus (the "presentation currency") and the base currency of the ICAV is US Dollar ("USD"). Items included in the financial statements of the ICAV are measured in the currency of the primary economic environment in which the Sub-Funds operate (the "functional currency"). The functional currency of most of the Sub-Funds is USD except European Green Deal UCITS ETF which is Euro ("EUR").

(ii) Transactions and balances

Monetary assets and liabilities denominated in currencies other than the functional currency are translated into the functional currency at the closing rate of exchange at the year end date. Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Comprehensive Income.

Translation differences on non-monetary items, held at fair value through profit or loss are reported as part of the fair value gain or loss.

Reported net realised and unrealised gains and losses arising from foreign currency transactions are recognised in net gains/losses on financial assets/liabilities at fair value through profit or loss in the Statement of Comprehensive Income.

(d) Transaction costs

Transaction costs are incurred on the acquisition or disposal of financial assets or liabilities at fair value through profit or loss. They include fees and commissions paid to agents, advisors, brokers and dealers, interest or taxes payable in respect of purchase and sale transactions. Transaction costs when incurred are expensed immediately and are included in net gain on financial assets and liabilities at fair value through profit or loss in the Statement of Comprehensive Income. Refer to Note 13 for further details.

(e) Dividend income

Dividends are recognised when the relevant securities are listed as ex-dividend. Dividend income is shown gross of any non-recoverable withholding tax which is disclosed separately in the Statement of Comprehensive Income.

(f) Interest income

Interest income is recognised in the Statement of Comprehensive Income using the effective interest method.

(g) Redeemable participating shares

Redeemable participating shares are redeemable at the shareholder's option and are classified as financial liabilities. Any distributions on these shares are recognised in the Statement of Comprehensive Income as a finance cost.

Notes to the Financial Statements (continued)

For the year ended 31 March 2024

2. Material Accounting Policies (continued)

(h) Fees and expenses

All expenses are recognised in the Statement of Comprehensive Income on an accruals basis.

(i) Distributions

Each Sub-Fund may issue redeemable shares which are either distributable shares or accumulating shares. Where any distributing shares are issued, the Directors may declare dividends quarterly in March, June, September and December in each year to the shareholders of such shares out of the profits of the sub-fund attributable to the distributing shares, in accordance with the terms of the Prospectus. The profits attributable to the accumulating shares in the sub-fund shall be retained within the sub-fund and will be reflected in the net asset value of the accumulating shares. Where applicable, proposed distributions to the holders of redeemable participating shares are recognised in the Statement of Comprehensive Income when they are appropriately authorised and no longer at the discretion of the ICAV.

(j) Withholding tax and capital gains tax

Dividends, interest and capital gains received by the ICAV may be subject to taxes imposed in the country of origin, and such taxes may not be recoverable by the ICAV, which is shown separately in the Statement of Comprehensive Income.

(k) Cash and cash equivalents, cash collateral and margin cash

Cash and cash equivalents include cash in hand and other short term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to insignificant changes in value.

Margin cash held or received by the ICAV in relation to swap contracts is identified in the Statement of Financial Position as margin cash (if any) and not included as a component of cash and cash equivalents. Margin accounts represent the total return swap contracts' margin deposits held at brokers and margin deposits received from brokers.

At 31 March 2024, cash collateral payable by the ICAV to J.P. Morgan Securities PLC amounted to USD 50,000 (31 March 2022: USD 740,000). The ICAV may invest cash collateral received, subject to conditions set out in the Prospectus.

Cash collateral payable or amounts due to broker by the ICAV is separately identified in the Statement of Financial Position and not included as a component of cash and cash equivalents. The ICAV may invest cash collateral received, subject to conditions set out in the Prospectus.

(l) Offsetting

Financial assets and liabilities are offset and the net amount reported in the Statement of Financial Position if, and only if, there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis or realise the asset and settle the liability simultaneously. As at 31 March 2024 and 31 March 2023, the Sub-Funds did not offset financial assets and liabilities on the Statement of Financial Position.

(m) Purchase of securities awaiting settlement

Purchase of securities awaiting settlement are securities purchased that have been contracted for but not yet delivered by the year end.

(n) Sale of securities awaiting settlement

Sale of securities awaiting settlement are securities sold that have been contracted for but not yet delivered by the year end.

7. Taxation

Under current law and practice the ICAV qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act, 1997, as amended (“TCA”). On this basis, it is generally not chargeable to Irish tax on its income or gains.

The Irish exit tax regime which is ordinarily applicable to an ‘investment undertaking’ does not apply to an ‘investment undertaking’, such as the ICAV, which is an ETF, provided the shares of the ICAV remain held in a clearing system that is recognised by the Irish Revenue Commissioners (which currently includes Euroclear and Clearstream). As a result, the ICAV will not be obliged to account for any Irish exit tax (or other Irish tax) in respect of the shares.

If the shares cease to be held in such a recognised clearing system, the ICAV would be obliged to account for Irish exit tax to the Irish Revenue Commissioners in certain circumstances.

Any income and gains arising from the assets of the Sub-Fund may be subject to withholding tax which may not be reclaimable in the countries where such income and gains arise. If this position changes in the future and the application of a lower rate results in a repayment to the Sub-Fund, the net asset value will not be re-stated and the benefit will be allocated to the existing shareholders rateably at the time of repayment.

The income and/or gains of the Sub-Funds from its securities and assets may suffer withholding tax in the countries where such income and/or gains arise. The ICAV may not be able to benefit from reduced rates of withholding tax in double taxation agreements between Ireland and such countries. If this position changes in the future and the application of a lower rate results in repayment to the Sub-Funds, the net asset value will not be restated and the benefit will be allocated to the existing shareholders of the Sub-Funds rateably at the time of repayment.

HANetf ICAV

Notes to the Financial Statements (continued)

For the year ended 31 March 2024

9. Financial Risk Management

Investment strategy

HANetf Management Limited acted as the Manager pursuant to the Management Agreement.

In pursuing its investment objective, the ICAV is exposed to a variety of risks: market risk (including price risk, foreign currency risk and interest rate risk), credit risk, liquidity risk and capital risk management that could result in a reduction in the ICAV's net assets.

The ICAV's Investment Managers are responsible for identifying and controlling risks. The Manager supervises the Investment Managers including its delegates and the Board of Directors holds ultimate responsibility for the overall risk management of the ICAV.

The nature and extent of the financial instruments held at the reporting date and the risk management policies employed by the ICAV are discussed below.

Risk management structure

The Investment Managers are responsible for the day to day monitoring and ensuring management of the key risks identified by the ICAV. This function is overseen by the Manager through the provision of exception and periodic reports.

Market Risk

(a) Price Risk

Market price risk arises mainly from uncertainty about future prices of financial instruments held. It represents the potential loss the Sub-Funds might suffer through holdings in the investment portfolio in the face of price movements. Adherence to investment guidelines and to investment and borrowing powers set out in the Prospectus mitigate the risk of excessive exposure to any particular type of security or issuer. The ICAV overall market positions are monitored on a regular basis by the Investment Manager.

Because of the overall size, concentration in particular markets and maturities of positions held by the Sub-Funds, the value at which their investments can be liquidated may differ, sometimes significantly from their current valuation. In addition, the timing of liquidations may also affect the values obtained on liquidation. Securities to be held by the Sub-Funds may routinely trade with bid-ask spreads that may be significant. At times, third-party pricing information may not be available for certain positions held by the Sub-Funds.

A Sub-Fund is not expected to track its respective Index at all times with perfect accuracy. There is no guarantee that the Sub-Fund will achieve perfect tracking and the Sub-Fund may potentially be subject to tracking error risk, which is the risk that their returns may not track exactly those of their respective index, from time to time. This tracking error may result from an inability to hold the exact constituents of the index, for example where there are local market trading restrictions, small illiquid components and/or where the Regulations limit exposure to the constituents of the Index. Each Sub-Fund is, however, expected to provide investment results that, before expenses, generally correspond to the price and yield performance of its respective Index. The Investment Manager will regularly monitor the level of performance of a Sub-Fund compared to its relevant index.

Please refer to the Schedule of Investments for the significant geographical concentrations of investments held by each Sub-Fund.

The below table summarises the sensitivity of the Sub-Funds' net assets attributable to holders of redeemable participating shares to market price movements. It shows the increase/(decrease) in the net assets attributable to holders of redeemable participating shares for the Sub-Funds' given a 5% movement in the underlying investment prices for the financial year ended 31 March 2024 and 31 March 2023; all other variables remaining constant:

(b) Foreign Currency Risk

A Sub-Fund's investments and, where applicable, the investments of any collective investment scheme in which a Sub-Fund invests, may be acquired in a wide range of currencies other than the base currency of the Sub-Fund. Changes in the exchange rate between the base currency of the Sub-Fund and the currency of the asset may lead to a depreciation of the value of the Sub-Fund's assets as expressed in the base currency. It may not be possible or practical to hedge against such exchange rate risk. The Investment Manager may, but is not obliged to, mitigate this risk by using financial instruments. The Sub-Funds did not engage in hedging during the year.

Sub-Funds may from time to time utilise techniques and instruments to seek to protect (hedge) currency exchange transactions either on a spot basis or by buying currency exchange forward contracts. Neither spot transactions nor forward currency exchange contracts eliminate fluctuations in the prices of a Sub-Fund's securities or in foreign exchange rates, or prevent loss if the prices of these securities should decline.

IFRS 7 considers the foreign exchange exposure relating to non-monetary assets and liabilities to be a component of market price risk not foreign currency risk.

The following table shows the relevant Sub-Fund's currency risk exposure as at 31 March 2024:

	Monetary Exposure USD '000s	Non-Monetary Exposure USD '000s	Total USD '000s
AuAg ESG Gold Mining UCITS ETF

Notes to the Financial Statements (continued)

For the year ended 31 March 2024

9. Financial Risk Management (continued)

(c) Interest Rate Risk

This is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The majority of the Sub-Funds' financial assets are equity shares and other instruments which neither pay interest nor have a maturity date. Cash balances of the Sub-Funds are not subject to significant interest rate risk.

The table below summarises the exposure to interest rate risk for Finamex Mexico S&P/BMV International UMS Sovereign Bond 5-10yr UCITS ETF:

31 March 2024

Sub-Fund	Currency	Floating Rate Interest '000	Fixed Rate Interest '000	Non-Interest Bearing '000	Total '000
Finamex Mexico S&P/BMV International UMS Sovereign Bond 5-10yr UCITS ETF	USD	208	25,111	183	25,502

31 March 2023

	Up to 1 year USD '000	1 to 5 years USD '000	Over 5 years USD '000	Non-Interest bearing USD '000	Total as at 31 March 2023 USD '000
Assets					
Cash and cash equivalents	3,321	–	–	–	3,321
Financial assets at fair value through profit or loss	–	–	24,407	–	24,407
Receivable	–	–	–	7,699	7,699
Total current assets	3,321	–	24,407	7,699	35,427
Liabilities					
Payables	–	–	–	(10,587)	(10,587)
Total current Liabilities	–	–	–	(10,587)	(10,587)
Net assets attributable to holders of redeemable participating shares	3,321	–	24,407	(2,888)	24,840

An increase of 100 basis points in interest rates as at the reporting date would have increased the net assets attributable to holders of redeemable participating shares for Finamex Mexico S&P/BMV International UMS Sovereign Bond 5-10yr UCITS ETF by approximately USD 253,187 (31 March 2023: USD 277,286). A decrease of 100 basis points would have had an equal but opposite effect. This primarily arises from the increase/decrease in the fair value of fixed rate interest instruments, with small proportion arising from the decrease/increase in interest income on cash and cash equivalents.

The interest rate risk that all other Sub-Funds are exposed to is deemed minimal and therefore, no sensitivity analysis has been presented.

Credit Risk

The ICAV will be exposed to the credit risk of the Depositary or any sub-custodian used by the Depositary where assets of the ICAV are held by the Depositary or sub-custodians. Credit risk is the risk that an entity will fail to discharge an obligation or commitment that it has entered into with the ICAV.

Cash held by the Depositary and sub-custodians will be a debt owing from the Depositary or other sub-custodians to the ICAV as a depositor. Such cash will be co-mingled with cash belonging to other clients of the Depositary and/or sub-custodians. In the event of the insolvency of the Depositary or sub-custodians, the ICAV will be treated as a general unsecured creditor of the Depositary or sub-custodians in relation to cash holdings of the ICAV. The ICAV may face difficulties and/or encounter delays in recovering such debt, or may not be able to recover it in full or at all, in which case the relevant Sub-Fund(s) will lose some or all of their cash. The Depositary does not have a credit rating, however, its parent company J.P. Morgan Chase Bank N.A. has a long-term credit rating from Standard & Poor's of A+ (31 March 2023: The Bank of New York Mellon SA/NV, Dublin Branch has a credit rating from Standard & Poor's of AA-).

All transactions in quoted securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is made in exchange for payment from the broker. Payment is made on a purchase once the securities have been delivered by the broker. The trade will fail if either party fails to meet its obligation.

HANetf ICAV

Notes to the Financial Statements (continued)

For the year ended 31 March 2024

9. Financial Risk Management (continued)

Credit Risk (continued)

The following table summarises the credit rating profile of the government bonds held by Finamex Mexico S&P/BMV International UMS Sovereign Bond 5-10yr UCITS ETF as at 31 March 2024 and 31 March 2023:

Credit Rating	% of Net Assets 31 March 2024
BBB	98.47%
	<u>98.47%</u>

Investment in securities by rating category	31 March 2023
B and above	98.26%
Total	<u>98.26%</u>

The ICAV is also exposed to counterparty risk on all derivatives held. Failure of the counterparties to meet their commitments under the derivative contracts could result in loss to the ICAV either through failure to realise the value of derivative assets or a failure to return collateral pledged. The risk is managed by only transacting with approved counterparties.

The carrying amounts of financial assets held by the Sub-Funds within the ICAV represent maximum exposure to credit risk.

The prices of all derivative instruments, including contracts for difference and total return swaps are highly volatile. The ICAV is also subject to the risk of the failure of any of the exchanges on which the futures are traded or of their clearing houses. The counterparty for credit default swaps and total return swap is J.P. Morgan Securities PLC which held a credit rating of A+ (31 March 2023: A+) from Standard & Poors.

As part of its investing in derivatives the ICAV may pledge or receive collateral. This collateral can be pledged or received either in the form of cash and cash equivalents or securities. There is a risk that the value of such collateral may fall below the value of the underlying derivatives. In addition, as the ICAV may invest cash collateral received, subject to conditions, the ICAV may be exposed to the risk associated with such investments, such as failure or default of the issuer of the relevant security.

Liquidity Risk

Liquidity risk is the risk that the ICAV may not be able to generate sufficient cash resources to settle its obligations in full as they fall due or can only do so on terms that are materially disadvantageous. Most of the investments owned by a Sub-Fund can usually be sold promptly at a fair price and therefore can be described as relatively liquid. But a Sub-Fund may also hold investments that are illiquid, which means they can't be sold quickly or easily. Some investments are illiquid because of legal restrictions, the nature of the investment itself, settlement terms, or for other reasons.

Sometimes, there may simply be a shortage of buyers. Where a Sub-Fund that has trouble selling an investment can lose value or incur extra costs. In addition, illiquid investments may be more difficult to value accurately and may experience larger price changes. This can cause greater fluctuations in a Sub-Fund's value.

Redemptions or withdrawals from a Sub-Fund could require that Sub-Fund to liquidate its positions more rapidly than otherwise desirable, which could adversely affect that Sub-Fund's net asset value. Illiquidity in certain securities could make it difficult for a Sub-Fund to liquidate positions on favourable terms, which may affect that Sub-Fund's net asset value. Although a Sub-Fund may suspend redemptions or withdrawals in the manner described in the Prospectus in order to minimise this risk, it might not always do so, nor would use of this provision eliminate such value or liquidity risks. Redemption proceeds will be typically transferred within five business days of the relevant dealing day and, in any event, within such other period as the Directors may determine (not exceeding 10 business days following the relevant dealing deadline).

The financial liabilities of the Sub-Funds, including net assets attributable to shareholders, all have a contractual maturity date of within one month.

Notes to the Financial Statements (continued)

For the year ended 31 March 2024

9. Financial Risk Management (continued)

Concentration Risk

There are no limits on each Investment Manager's investment discretion, subject to the Investment Restrictions applicable to each Sub-Fund as set out in each respective Supplement. While the Investment Manager will regularly monitor the concentration of each Sub-Fund's exposure to related risk, at any given time a Sub-Fund's assets may become highly concentrated within a particular region, country, company, industry, asset category, trading style or financial or economic market. In that event, the Sub-Fund's portfolio will be more susceptible to fluctuations in value resulting from adverse economic conditions affecting the performance of that particular company, industry, asset category, trading style or economic market, than a less concentrated portfolio would be. As a result, that Sub-Fund's investment portfolio could become concentrated and its aggregate return may be volatile and may be affected substantially by the performance of only one or a few holdings and, consequently, could have an adverse impact on a Sub-Fund's financial conditions and its ability to pay distributions (where applicable). Refer to Schedule of Investments on page 123 in relation to a detailed breakdown of the countries where Sub-Funds hold in excess of 20% of net assets.

Capital Risk Management

The capital of the ICAV in respect of each sub-fund is represented by the net assets attributable to the holders of redeemable participating shares. The amount of net assets attributable to the holders of redeemable participating shares can change significantly on a daily basis, as the Sub-Funds are subject to daily subscriptions and redemptions at the discretion of the shareholder. The ICAV's objective when managing capital is to safeguard the ICAV's ability to continue as a going concern in order to provide returns for the shareholder and maintain a strong capital base to support the development of the investment activities of the ICAV. The ICAV is not subject to regulatory capital requirements. Refer to Note 17 for the amount of net assets attributable to holders of redeemable participating shares.

In order to maintain or adjust the capital structure, the ICAV's policy is to perform the following:

Monitor the level of daily subscriptions and redemptions relative to the assets it expects to be able to liquidate within a day and adjust the amount of distributions the ICAV pays to the redeemable shareholder.

Redeem and issue new shares in accordance with the constitutional documents of the Sub-Fund, which include the ability to restrict redemptions and require certain minimum holdings and subscriptions.

The Depositary and Manager monitor capital on the basis of the value of net assets attributable to the redeemable shareholders.

Inflation Risk

Inflation risk describes the risk that inflation can pose to the performance of a portfolio over time, specifically where rising prices could outpace returns delivered by investments. The global economy has been experiencing inflation since the end of 2020 to varying degrees related to the COVID-19 pandemic, and while levels of inflation have begun to ease since the beginning of 2023, they remain at elevated levels and have not been aided by the continued conflict in Ukraine.

Climate Risk

Climate risk could impact the financial system through two main channels. The first involves physical risks, arising from damage to property, infrastructure and land together with associated productivity disruptions. The second, transition risk, results from changes in climate policy, technology, and consumer and market sentiment during the adjustment to a lower-carbon economy. Exposures can vary significantly from country to country. Lower and middle-income economies may be more vulnerable to impact of climate risks.

10. Fair value

The Sub-Funds are required to classify fair value measurements using a fair value hierarchy that reflects the significance of the inputs used in making the measurements. The fair value hierarchy has the following levels:

- Level 1: Inputs that are quoted market prices (unadjusted) in active markets for identical instruments;
- Level 2: Inputs other than quoted prices included within Level 1 that are observable either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques in which all significant inputs are directly or indirectly observable from market data; and

HANetf ICAV

Notes to the Financial Statements (continued)

For the year ended 31 March 2024

10. Fair value (continued)

- Level 3: Inputs that are unobservable. This category includes all instruments for which the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments but for which significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety is determined on the basis of the lowest level input that is significant to the fair value measurement. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

The Sub-Funds consider observable data to be market data that is readily available, regularly distributed or updated, reliable and verifiable, not proprietary, and provided by independent sources that are actively involved in the relevant market.

As the fair values of the ICAV's investments are based on quoted prices in active markets, the ICAV's financial assets measured at fair value at 31 March 2024 are classified as Level 1 within the fair value hierarchy, with the exception of Alerian Midstream Energy Dividend UCITS ETF, AuAg ESG Gold Mining UCITS ETF, EMQQ Emerging Markets Internet & Ecommerce UCITS ETF, FMQQ Next Frontier Internet & Ecommerce ESG-S UCITS ETF, HAN-GINS Tech Megatrend Equal Weight UCITS ETF and Sprott Energy Transition Materials UCITS ETF.

The following table analyses within the fair value hierarchy the Sub-Funds' financial assets and financial liabilities (by level) measured at fair value at 31 March 2024:

	Level 1 USD '000	Level 2 USD '000	Level 3 USD '000	Total USD '000
Alerian Midstream Energy Dividend UCITS ETF				
Financial assets at fair value through profit or loss:				
Equities	55,176	–	–	55,176
Unrealised gains on swaps	–	1,861	–	1,861
Unrealised gains on contracts for difference	–	164	–	164
Total	55,176	2,025	–	57,201
Financial liabilities at fair value through profit or loss:				
Unrealised losses on contracts for difference	–	(1,388)	–	(1,388)
Total	–	(1,388)	–	(1,388)
EMQQ Emerging Markets Internet & Ecommerce UCITS ETF				
Financial assets at fair value through profit or loss:				
Equities	125,833	713	–	126,546
Total	125,833	713	–	126,546

The following table presents the transfers between levels of the fair value hierarchy for the year ended 31 March 2024:

Transfers from Level 1 to Level 2	Level 1 USD '000	Level 2 USD '000	Level 3 USD '000
EMQQ Emerging Markets Internet & Ecommerce UCITS ETF			
Equities	(3,220)	3,220	–

The equity security transferred out of Level 1 relates to a position whose fair value was measured using price of similar security that trades in a different active market with different prices. Accordingly, this security was reclassified to Level 2.

Transfers from Level 1 to Level 3	Level 1 USD '000	Level 2 USD '000	Level 3 USD '000
Sprott Energy Transition Materials UCITS ETF			
Equities	(2)	–	2

The equity security transferred out of Level 1 relates to a position whose trading activity was halted during the year. The valuation inputs for this security was not based on market observable input and resulted in reclassification to Level 3.

In addition, there were transfers of Russian securities held by AuAg ESG Gold Mining UCITS ETF, EMQQ Emerging Markets Internet & Ecommerce UCITS ETF, FMQQ Next Frontier Internet & Ecommerce ESG-S UCITS ETF, and HAN-GINS Tech Megatrend Equal Weight UCITS ETF from Level 1 to Level 3 of the fair value hierarchy for the year ended 31 March 2024.

HANetf ICAV

Notes to the Financial Statements (continued)

For the year ended 31 March 2024

10. Fair value (continued)

Transfers between levels of the fair value hierarchy, for the purpose of preparing the above table, are deemed to have occurred at the beginning of the reporting period.

The following table presents the movement in Level 3 instruments for the year ended 31 March 2024:

Sprott Energy Transition Materials UCITS ETF	Total USD '000
Opening balance	–
Purchases	1
Sales	–
Net transfers	2
Gains/(Losses) recognised in profit and loss	(3)
Closing balance	–

AuAg ESG Gold Mining UCITS ETF

There was a Russian investment in Polymetal International plc which is included within Level 3 of fair value hierarchy and fair valued at nil market value at 31 March 2024.

EMQQ Emerging Markets Internet & Ecommerce UCITS ETF

There were Russian investment in HeadHunter Group plc, Ozon Holdings plc, Phoenix Tree Holdings Ltd, QIWI plc, TCS Group Holding plc, VK IPJSC, and Yandex NV which are included within Level 3 of fair value hierarchy and fair valued at nil market value at 31 March 2024.

FMQQ Next Frontier Internet & Ecommerce ESG-S UCITS ETF

There were Russian investment in HeadHunter Group plc, Ozon Holdings plc, QIWI plc, VK IPJSC, and Yandex NV which are included within Level 3 of fair value hierarchy and fair valued at nil market value at 31 March 2024. In the event if the Russian securities are sold for more than zero, that money will be returned to the investors as a top redemption to the final redemptions.

HAN-GINS Tech Megatrend Equal Weight UCITS ETF

There was a Russian investment in Yandex NV which is included within Level 3 of fair value hierarchy and fair valued at nil market value at 31 March 2024.

As the fair values of the ICAV's investments are based on quoted prices in active markets, the ICAV's financial assets measured at fair value as at 31 March 2023 are classified as Level 1 in the fair value hierarchy, with the exception of Alerian Midstream Energy Dividend UCITS ETF financial assets and liabilities (by class) measured at fair value at 31 March 2023.

As at 31 March 2023, fair value pricing at zero was applied to all Russian equity holdings held by AuAg ESG Gold Mining UCITS ETF, EMQQ Emerging Markets Internet & Ecommerce UCITS ETF, FMQQ Next Frontier Internet & Ecommerce ESG-S UCITS ETF, Global Online Retail UCITS ETF and HAN-GINS Tech Megatrend Equal Weight UCITS ETF.

The following table analyses within the fair value hierarchy the Alerian Midstream Energy Dividend UCITS ETF's financial assets and financial liabilities (by level) measured at fair value at 31 March 2023:

	Level 1 USD '000	Level 2 USD '000	Level 3 USD '000	Total USD '000
Alerian Midstream Energy Dividend UCITS ETF				
Financial assets at fair value through profit or loss:				
Equities	19,081	–	–	19,081
Unrealised gains on swaps	–	844	–	844
Unrealised gains on contracts for difference	–	420	–	420
Total	19,081	1,264	–	20,345
Financial liabilities at fair value through profit or loss:				
Unrealised losses on contracts for difference	–	(431)	–	(431)
Total	–	(431)	–	(431)

There were no transfers between levels of the fair value hierarchy for financial assets and liabilities which are recorded at fair value as at 31 March 2023.

HANetf ICAV

Notes to the Financial Statements (continued)

For the year ended 31 March 2024

11. Share Capital

In order to initially incorporate the ICAV, two subscribers are required to subscribe for shares (the "Subscriber Shares"). These are the shares owned by HANetf Holdings Limited. Subscriber Shares are a requirement for ICAV because a shareholder resolution is required to ultimately wind up the ICAV, and the shares hold no other value or function and are separate and distinct from the shares of any Sub-Funds on the platform and do not confer voting rights in the sub-funds.

The Subscriber Shares are thus required because there will be no other shareholders available to pass a wind-up resolution once all sub-funds on the ICAV have been terminated (i.e. there will, by default, be no shareholders to cast a vote otherwise) and it would not otherwise be legally possible to liquidate the ICAV itself.

At the date thereof, the authorised share capital of the ICAV is 2 Subscriber Shares of €1 each and 1,000,000,000,000,000 shares of no par value designated as unclassified shares. Within each sub-fund and share class, the ICAV may issue accumulating shares and distributing shares which shall represent interests in the same distinct portfolio on investments. The Directors are generally and unconditionally authorised to exercise all powers of the ICAV to allot relevant securities, including fractions thereof, up to an amount equal to the authorised but not yet issued share capital of the ICAV. The Subscriber Shares entitle the holders to attend and vote at any general meetings of the ICAV but do not entitle the holders to participate in the profits or assets of the ICAV except for a return of capital on a winding-up.

The participating shares entitle the holders to attend and vote at general meetings of the ICAV and to participate equally in the profits and assets of the sub-fund to which the shares relate (other than the Subscriber Shares), subject to any differences between fees, charges and expenses applicable to different share classes. The rights attached to any class may be varied or abrogated with the consent in writing of the holders of three-fourths in number of the issued Shares of that class, or with the sanction of a special resolution passed at a separate general meeting of the holders of the shares of the class, and may be so varied or abrogated either whilst the ICAV is a going concern or during or in contemplation of a winding-up.

The ICAV may from time to time by ordinary resolution increase its capital, redenominate the currency of any class of shares, consolidate the shares or any of them into a smaller number of shares, sub-divide the shares or any of them into a larger number of shares or cancel any shares not taken or agreed to be taken by any person.

The following table shows the number of shares in issue at the reporting date together with the movements during the year ended 31 March 2024:

	Balance at the beginning of the year	Issued during the year	Redeemed during the year	Balance at the end of the year
Alerian Midstream Energy Dividend UCITS ETF				
Distributing ETF Share Class	1,820,000	3,248,952	(1,040,000)	4,028,952
AuAg ESG Gold Mining UCITS ETF

Notes to the Financial Statements (continued)

For the year ended 31 March 2024

13. Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument.

Transaction costs on purchases and sales of equities are included in net gains/(losses) on financial assets/liabilities at fair value through profit or loss.

Swap expenses are paid to the swap counterparties under normal terms of business and are included in net realised gain/loss on financial assets and financial liabilities at fair value through profit or loss.

For the financial years ended 31 March 2024 and 31 March 2023, the Sub-Funds incurred transaction costs on purchases and sales as below:

14. Related Parties and Connected Persons

Mr Manoj Mistry and Mr Samir Patel, Non-Executive Directors of the ICAV, are related parties to the ICAV as they are employees of HANetf Limited.

Directors' fees are paid by the Manager on behalf of the ICAV. During the year ended 31 March 2024, Brian Healy earned Directors fees of USD 22,431 (31 March 2023: USD 23,365) and Shane Ralph earned Directors fees of USD 7,624 (31 March 2023: USD 7,985). All other Directors waived their entitlement to fees for the year (31 March 2023: Same).

Shane Ralph is a Non- Executive Director of the ICAV, and a related party to the ICAV as he is employed by Carne Global Financial Services Limited. Carne Global Financial Services Limited earned fees during the year ended 31 March 2024 in respect of Director support services, company secretary services and other fund governance services provided to the ICAV to the amount of USD 436,559 (31 March 2023: USD 534,011), respectively, of which USD 125,536 (31 March 2023: USD 133,130) was payable at the year end. The fees are presented exclusive of VAT and are paid by the Manager.

During the year ended 31 March 2024, HANetf Management Limited, as the Manager to the ICAV, earned a fee of USD 5,361,952 (31 March 2023: USD 4,177,837), of which USD 582,225 (31 March 2023: USD 362,366) was payable at the year end.

HANetf ICAV

Notes to the Financial Statements (continued)

For the year ended 31 March 2024

15. Auditor's Remuneration

The audit fees incurred by the ICAV amounted to USD 179,573 for the year ended 31 March 2024 (31 March 2023: USD 183,088). The fees are presented exclusive of VAT and are paid by the Manager. These are the only fees paid to the audit firm for the year. No other fees were paid or payable to the auditor in respect of the year (31 March 2023: Same).

16. Efficient Portfolio Management

Subject to the UCITS Regulations and to the conditions and the limits laid down by the Central Bank, the Investment Manager, on behalf of the Sub-Funds may invest in financial derivative instruments dealt on a Regulated Market and/or over the counter (OTC) derivatives which will be used for investment, hedging and/or efficient portfolio management purposes. The financial derivative instruments in which the Sub-Fund may invest shall be set out in the Supplement for the relevant Sub-Fund.

Alerian Midstream Energy Dividend UCITS ETF held contracts for difference and total return swaps at 31 March 2024 and 31 March 2023. Please refer to page 123 to 125 for further details.

There were no other financial derivative instruments held by the Sub-Funds at 31 March 2024 and 31 March 2023.

17. Net asset value attributable to holders of redeemable participating shares

The NAV per share is calculated by dividing the NAV of the Sub-Fund by the shares in issue at the Statement of Financial Position date, as detailed in the table below:

Notes to the Financial Statements (continued)

For the year ended 31 March 2024

21. Distributions

The Alerian Mid Stream Energy Dividend UCITS ETF declared the following distributions during the year ended 31 March 2024:

	Class currency	Pay date	Dividend distribution per share in class currency
Distributing ETF Share Class	USD	30 June 2023	0.1968
Distributing ETF Share Class	USD	29 September 2023	0.2444
Distributing ETF Share Class	USD	29 December 2023	0.1683
Distributing ETF Share Class	USD	29 March 2024	0.1603

The Alerian Mid Stream Energy Dividend UCITS ETF declared the following distributions during the year ended 31 March 2023:

	Class currency	Pay date	Dividend distribution per share in class currency
Distributing ETF Share Class	USD	01 July 2022	0.1833
Distributing ETF Share Class	USD	30 September 2022	0.1917
Distributing ETF Share Class	USD	30 December 2022	0.1857
Distributing ETF Share Class	USD	24 March 2023	0.1902

22. Operating Segment

An operating segment is a component of the ICAV that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relates to transactions with any of the ICAV's other components, whose operating results are reviewed regularly to make decisions about resources allocated to the segment and assess its performance, and for which discrete financial information is available.

Segment results that are reported include items directly attributable to a segment.

It is considered that each Sub-Fund is an operating segment which is investing in line with its investment objective. The segment information provided to the Investment Manager is the same as that disclosed in the Statement of Comprehensive Income and Statement of Financial Position for each Sub-Fund. The Investment Manager's asset allocation decisions are based on a single, integrated investment strategy, to deliver the performance of the relevant objective. The Sub-Funds have no assets classified as non-current assets. Each Sub-Fund's investments expose it to the performance of the relevant Index with the exception of Saturna Al-Kawthar Global Focused Equity UCITS ETF which focuses on Shariah-compliant stocks with positive ESG characteristics. The revenue attributable to each Sub-Fund is derived from geographical locations in line with those outlined in the Schedule of Investments for that Sub-Fund. The daily asset allocation decisions are made by the Investment Managers for each Sub-Fund.

¹⁰The Sub-Fund merged into HAN-GINS Indxx Healthcare Megatrend Equal Weight UCITS ETF on 29 September 2023.

Notes to the Financial Statements (continued)

For the year ended 31 March 2024

23. Significant events during the year

Events arising in Ukraine, as a result of military action being undertaken by Russia, may impact on securities directly or indirectly related to companies domiciled in Russia and/or listed on exchanges located in Russia ("Russian Securities"). As at 31 March 2024, AuAg ESG Gold Mining UCITS ETF, EMQQ Emerging Markets Internet & Ecommerce UCITS ETF, FMQQ Next Frontier Internet & Ecommerce ESG-S UCITS ETF, and HAN-GINS Tech Megatrend Equal Weight UCITS ETF held Russian Securities that are currently being fair valued at zero. The Investment Manager and the Board will monitor developments related to this military action, including current and potential future interventions of foreign governments and economic sanctions as they may arise.

Global Online Retail UCITS ETF was terminated on 8 May 2023.

Effective 1 June 2023, the TERs for HANetf S&P Global Clean Energy Select HANzero™ UCITS ETF and Solar Energy UCITS ETF were adjusted to 0.39% and 0.49% respectively.

An updated Prospectus was issued on 12 June 2023. Updates to the prospectus included the change in Administrator of the ICAV from BNY Mellon Fund Services (Ireland) Designated Activity Company to J.P. Morgan Administration Services (Ireland) Limited and the change in Depository from The Bank of New York Mellon SA/NV, Dublin Branch to J.P. Morgan SE – Dublin Branch.

Future of Defence UCITS ETF was launched on 3 July 2023.

Effective 10 July 2023, the supplement of HAN-GINS Cloud Technology Equal Weights UCITS ETF was noted by the Central Bank.

Effective 14 July 2023, following a reorganisation, the Investment Manager of the relevant Sub-Funds of the ICAV, as detailed on page 2 within Directors and Other Information, changed from Vident Investment Advisory, LLC to Vident Advisory, LLC. This change was supplemented to the ICAV's prospectus by way of an addendum on 14 July 2023. Vident is authorised by the Central Bank to serve as Investment Manager to UCITS Funds.

European Green Deal UCITS ETF was launched on 24 July 2023.

Effective 29 September 2023, The Medical Cannabis and Wellness UCITS ETF (the "Merging Sub-Fund") merged into HAN-GINS Indxx Healthcare Megatrend Equal Weight UCITS ETF (the "Receiving Sub-Fund"), whereby the portfolio of investments of the Merging Sub-Fund was sold down before the effective date and, as a result, only cash was transferred to the Receiving Sub-Fund at the effective date. Following the merger, the shareholders of the Merging Sub-Fund received shares in the relevant class of the Receiving Sub-Fund and consequently became shareholders in the Receiving Sub-Fund.

Effective 12 October 2023, L&G US Energy Infrastructure MLP UCITS ETF, a sub-fund of Legal & General UCITS PLC (the "Merging Sub-Fund"), merged into Alerian Midstream Energy Dividend UCITS ETF (the "Receiving Sub-Fund"), whereby the assets of the Merging Sub-Fund became assets of the Receiving Sub-Fund and managed in accordance with the investment policy of the Receiving Sub-Fund on the effective date. Following the merger, the shareholders of the Merging Sub-Fund received shares in the relevant class of the Receiving Sub-Fund and consequently became shareholders in the Receiving Sub-Fund.

Effective 1 November 2023, Toroso Investments, LLC officially changed its name to Tidal Investments LLC.

FMQQ Next Frontier Internet & Ecommerce ESG-S UCITS ETF was terminated on 13 November 2023.

INQQ India Internet & Ecommerce ESG-S UCITS ETF was launched on 15 November 2023.

Sprott Copper Miners ESG Screened UCITS ETF was launched on 6 December 2023.

Sprott Junior Uranium Miners UCITS ETF was launched on 22 February 2024.

Effective 27 February 2024, HANetf S&P Global Clean Energy Select HANzero™ UCITS ETF (the "Merging Sub-Fund") merged into iClima Global Decarbonisation Enablers UCITS ETF (the "Receiving Sub-Fund"), whereby the portfolio of investments of the Merging Sub-Fund was sold down before the effective date and, as a result, only cash was transferred to the Receiving Sub-Fund at the effective date. Following the merger, the shareholders of the Merging Sub-Fund received shares in the relevant class of the Receiving Sub-Fund and consequently became shareholders in the Receiving Sub-Fund.

Notes to the Financial Statements (continued)

For the year ended 31 March 2024

23. Significant events during the year (continued)

Effective 14 March 2024, ETC Group Digital Assets and Blockchain Equity UCITS ETF (the “Merging Sub-Fund”) merged into ETC Group Global Metaverse UCITS ETF (the “Receiving Sub-Fund”), whereby the portfolio of investments of the Merging Sub-Fund was sold down before the effective date and, as a result, only cash was transferred to the Receiving Sub-Fund at the effective date. Following the merger, the shareholders of the Merging Sub-Fund received shares in the relevant class of the Receiving Sub-Fund and consequently became shareholders in the Receiving Sub-Fund.

Effective 28 March 2024, HAN-GINS Cloud Technology Equal Weight UCITS ETF (the “Merging Sub-Fund”) merged into HAN-GINS Tech Megatrend Equal Weight UCITS ETF (the “Receiving Sub-Fund”), whereby the portfolio of investments of the Merging Sub-Fund was sold down before the effective date and, as a result, only cash was transferred to the Receiving Sub-Fund at the effective date. Following the merger, the shareholders of the Merging Sub-Fund received shares in the relevant class of the Receiving Sub-Fund and consequently became shareholders in the Receiving Sub-Fund.

There were no other significant events during the year.

24. Significant events after the year end

Effective 28 March 2024, the ICAV and the Manager entered into a Securities Lending Agreement with JP Morgan SE – Luxembourg Branch as the Securities Lending Agent. As per the Securities Lending Agreement, the ICAV on behalf of sub-funds may enter into securities lending programmes for the purpose of efficient portfolio management and subject to the conditions and limits set out in the Central Bank UCITS Regulations. The securities lending programme commenced on 17 April 2024.

Effective 16 April 2024, the AuAg ESG Gold Mining UCITS ETF’s supplement was updated to incorporate changes relating to maximum and expected proportion of the NAV that can be subject to securities financing transactions including other general updates.

Effective 16 April 2024, the ICAV’s Prospectus was updated to incorporate general updates, including, but not limited to, the following:

- Appointment of HANetf EU Limited as the marketing agent of the ICAV;
- Inclusion of definition relating to securities lending agreement, and
- Inclusion of large shareholder risk within risk factors.

Solar Energy UCITS ETF was terminated on 17 April 2024.

Effective 19 April 2024, U.S. Global Jets UCITS ETF (the “Merging Sub-Fund”) merged into The Travel UCITS ETF (the “Receiving Sub-Fund”), whereby the portfolio of investments of the Merging Sub-Fund was sold down before the effective date and, as a result, only cash was transferred to the Receiving Sub-Fund at the effective date. Following the merger, the shareholders of the Merging Sub-Fund received shares in the relevant class of the Receiving Sub-Fund and consequently became shareholders in the Receiving Sub-Fund.

Effective 19 April 2024, Procure Space UCITS ETF (the “Merging Sub-Fund”) merged into Future of Defence UCITS ETF (the “Receiving Sub-Fund”), whereby the portfolio of investments of the Merging Sub-Fund was sold down before the effective date and, as a result, only cash was transferred to the Receiving Sub-Fund at the effective date. Following the merger, the shareholders of the Merging Sub-Fund received shares in the relevant class of the Receiving Sub-Fund and consequently became shareholders in the Receiving Sub-Fund.

Electric Vehicle Charging Infrastructure UCITS ETF was terminated on 29 April 2024.

Lloyd Focus Equity UCITS ETF and Lloyd Growth Equity UCITS ETF were launched on 16 May 2024.

Effective 24 June 2024, the name of INQQ India Internet & Ecommerce ESG-S UCITS ETF was changed to INQQ India Internet UCITS ETF.

Effective 24 June 2024, the name of EMQQ Emerging Markets Internet & Ecommerce UCITS ETF was changed to EMQQ Emerging Markets Internet UCITS ETF.

Effective 28 June 2024, the name of ETC Group Global Metaverse UCITS ETF was changed to ETC Group Web 3.0 UCITS ETF including change to index from Solactive ETC Group Global Metaverse Index to Solactive ETC Group Web 3.0 Index.

There were no other significant events after the year end.

25. Approval of the financial statements

The Directors approved the financial statements on 18 July 2024.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

The CBI requires a schedule of material changes in the composition of the portfolio during the financial period. These are defined as aggregate purchases of a security exceeding one per cent of the total value of purchases for the financial period and aggregate disposals greater than one per cent of the total value of sales. At a minimum the largest 20 purchases and 20 sales must be given or all purchases and sales if less than 20. A full listing of the portfolio changes for the financial period is available, upon request, at no cost from the Administrator.

UCITS Remuneration Policy (Unaudited)

Introduction

The European Communities (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2016 (the “Regulations”) requires that HANetf Management Limited (the “Manager”) establish and apply remuneration policies and practices that are consistent with, and promote, sound and effective risk management and that neither encourage risk taking which is inconsistent with the risk profiles, prospectuses, trust deeds and deeds of constitution of the UCITS to which it has been appointed (the “Sub-Funds”) nor impair compliance with the Manager’s duty to act in the best interests of the Sub-Funds.

The following regulations, guidelines and requirements are of relevance to the remuneration policies and practices of the Manager:

1. the Regulations; and
2. ESMA Guidelines on Sound Remuneration Policies under the UCITS Directive (the “ESMA Remuneration Guidelines”).

The purpose of this document is to set out the remuneration policies and describe the remuneration practices for the Manager taking into consideration the need to align risks in terms of risk management and exposure to risk, including the application of risk assessments and mitigation strategies that consider environmental, social governance events or conditions, and for the policies to be in line with the business strategy, objectives and interests of the Manager.

As the nature and range of the Manager’s activities, its internal organisation and operations are, in the Directors’ opinion, limited in their nature, scale and complexity, that is, to the business of a management company engaging in collective portfolio management of investments of capital raised from the public, this is reflected in the manner in which the Manager has addressed certain requirements regarding remuneration imposed upon it by the Regulations.

The Manager and the Board of Directors

The Manager is a UCITS management company. The board of directors of the Manager (the “Board”) are non-executive directors (each a “Director”). Each Director is appointed pursuant to a letter of appointment with the Manager.

Appointment of the Investment Managers

The Manager has delegated the performance of the investment and re-investment of the assets of the Sub-Funds to investment managers appointed by the Manager or any successor thereto duly appointed in accordance with the requirements of the Central Bank as specified in the supplement in respect of the Sub-Funds as the investment manager for that relevant Sub-Fund (the “Investment Managers”).

As noted below, the Manager relies on the remuneration policies and procedures of each delegate to ensure that their remuneration structures promote a culture of investor protection and mitigate conflicts of interest.

Identified Staff

The Regulations provide that the remuneration policies and practices shall apply to those categories of staff, including senior management, risk takers, control functions and any employee receiving total remuneration that falls within the remuneration bracket of senior management and risk takers whose professional activities have a material impact on the risk profiles of the Sub-Funds.

The employees of the Manager are compensated on a monthly basis and are eligible for an annual discretionary bonus scheme. Compensation is reviewed on an annual basis where bonus entitlements may be disclosed, and are largely dependent upon the performance of the individual staff member (and ascertained via performance reviews).

Bonuses for each financial year will be paid in a mixture of cash and restricted equity in the Manager’s ultimate parent. The relative balance between cash and equity will depend on the seniority of the role but will typically comprise at least 10% to be paid in restricted equity. Bonuses are determined on the basis of the performance of the HANetf group as a whole and are not based solely on the performance of the Manager.

Pursuant to the letter of appointment between each Director and the Manager, the Directors who are not employees of the HANetf group are paid a fixed director’s fee based on an expected number of meetings and the work required to oversee the operations of the Manager, which is considered to be consistent with the powers, tasks, expertise and responsibility of the relevant Directors. The fee payable to each relevant Director is reviewed from time to time, based on the evolution of the Manager’s activities and the aggregate fees payable are disclosed in the annual audited accounts and financial statements of the Manager.

The Directors do not receive performance based variable remuneration, therefore avoiding any potential conflicts of interest.

UCITS Remuneration Policy (Unaudited) (continued)

Delegates of Investment Management Activities

The Board notes that the ESMA Remuneration Guidelines require the identification of “identified staff” being those categories of staff of the Manager and of any entities to which investment management activities have been delegated by the Manager, whose professional activities have a material impact on the risk profile of the Sub-Funds.

The Investment Managers have been appointed to carry out certain investment management functions for the Manager and may have identified staff whose professional activities could have a material impact on the risk profile of the Sub-Funds within the meaning of the ESMA Remuneration Guidelines.

Accordingly, the Investment Managers are either considered by the Manager to be subject to equally as effective regulatory requirements on remuneration or will contractually confirm to the Manager that they will comply with the ESMA Remuneration Guidelines.

Requirement for Remuneration Committee

Given the internal organisation of the Manager as a UCITS management company and considering the size of the Manager with the limited nature, scope and complexity of the activities of the Manager, it is not considered proportionate for the Manager to set up a remuneration committee. The Board notes that the net assets of the Sub-Funds and the legal structure of the Manager as a UCITS management company with a Board of Directors and limited number of employees are factors supporting the view that a remuneration committee would not be considered appropriate for the Manager.

Disclosure

The Manager will comply with the disclosure requirements set out in the Regulations. The total amount of remuneration for the financial year paid by the Manager to its staff, the aggregate amount of remuneration broken down by the relevant categories of employees, a description of how the remuneration has been calculated and any material changes to the Remuneration Policy will be disclosed in the Manager's annual audited financial statements.

Reporting

The Board has requested that the Investment Managers confirm on an annual basis that there has been no material change to their respective remuneration policies, or if there has been a material change, provide details of those changes to the Board.

Appropriateness of policy and conflicts of interest

Given its internal organisation and the limited nature, scale and complexity of the Manager's activities it is considered that the policies described in this document are appropriate for the Manager. Together with the Manager's Conflicts of Interest Policy, the Board considers that there are suitable measures in place to promote effective supervision and risk management, including the integration of sustainability risks.

Review

This policy and the implementation thereof will be reviewed by the Board at least annually.

HANetf ICAV

Securities Financial Transaction Regulation (Unaudited)

The ICAV is required to make available a Report for the financial year for each of the Sub-Funds containing certain disclosures as set out in Article 13 of the European Commission Regulation 2015/2365 on transparency of securities financing transactions and of reuse of collateral (the “Regulation”).

I. Concentration Data

The tables below show the counterparties by the Sub-Fund, across each type of Contract for Difference (“CFD”) and Total Return Swap (“TRS”), with respect to outstanding transactions as at 31 March 2024:

Contract for Difference			
Sub-Fund	Counterparty	Fair value USD '000	% of NAV
Alerian Midstream Energy Dividend UCITS ETF	JP Morgan	(1,224)	(2.20)

Total Return Swap			
Sub-Fund	Counterparty	Net unrealised Gain USD '000	% of NAV
Alerian Midstream Energy Dividend UCITS ETF	JP Morgan	1,861	3.34

II. Transaction Data

The below table summarises the country of Counterparty incorporation across each type of SFT and TRS held by the Sub-Fund as at 31 March 2024.

Sub-Fund	Counterparty's Country of incorporation	Contract For Difference	Total Return Swap	Total USD '000
		Fair value	Net unrealised Gain	
		USD '000	USD '000	
Alerian Midstream Energy Dividend UCITS ETF	United States	(1,224)	1,861	637

As at 31 March 2024, Alerian Midstream Energy Dividend UCITS ETF received USD 50,000 cash collateral from JP Morgan.

Appendix I: Securities Financial Transaction Regulation (continued)

II. Transaction Data (continued)

The below table summarises the maturity tenor of each type of SFT and TRS by Sub-Fund as at 31 March 2024:

Sub-Fund	Maturity Tenor	Contract For Difference	Total USD '000
		Fair value	
		USD '000	
Alerian Midstream Energy Dividend UCITS ETF	Less than one day	-	-
	One day to one week	-	-
	One week to one month	-	-
	One to three months	-	-
	Three months to one year	-	-
	More than one year	-	-
	Open Transaction	(1,224)	(1,224)
	Total	(1,224)	(1,224)

Sub-Fund	Maturity Tenor	Total Return Swap	Total USD '000
		Net unrealised Gain	
		USD '000	
Alerian Midstream Energy Dividend UCITS ETF	Less than one day	-	-
	One day to one week	-	-
	One week to one month	-	-
	One to three months	1,861	1,861
	Three months to one year	-	-
	More than one year	-	-
	Open Transaction	-	-
	Total	1,861	1,861

During the year ended 31 March 2024, none of the other Sub-Funds engaged in transactions which are subject to the Regulation. Accordingly, no global, concentration or transactions data, or information on reuse or safekeeping of collateral is reported.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: AuAg ESG Gold Mining UCITS ETF (“the Sub-Fund”)

Legal entity identifier: 254900SIRXJ7ETFNQS70

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** ____%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It made **sustainable investments with a social objective:** ____%

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted, among other characteristics, environmental and social characteristics by tracking the Solactive AuAg ESG Gold Mining Index (the Index). The Sub-Fund adopted a “passive management” investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it invested in all of the securities in proportion to the weightings comprising the Index, which is comprised of a global investable universe of publicly listed companies active in the gold mining industry that have low environmental, social and governance (ESG) risk characteristics.

The selection criteria for inclusion in the Index universe requires that companies comply with the UN Global Compact principles. The selected companies are then ranked by their ESG score, based on the ESG risk assigned to it, from lowest to highest. The ESG risk rating is measured by reference to the Company's exposure to material ESG issues (MEIs) and its preparedness and track record in managing its

exposure to MEIs through an assessment of its policies, programs, management systems and controversies is then measured. Examples of MEIs include corporate governance, business ethics, bribery and corruption, carbon emissions from own operations, carbon emissions from products and services, human capital, occupational health and safety, land use and biodiversity and emissions, effluents and waste.

● **How did the sustainability indicators perform?**

Indicator	Description	Performance (as at 31.03.2024)
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	3.68%

● **...and compared to previous periods?**

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

Indicator	Description	Performance (as at 31.03.2023)
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	4.84%

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

N/A – The Sub-Fund did not commit to holding sustainable investments during the reference period. Please note that certain sustainable investments may form part of the Sub-Fund's investment portfolio.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

How were the indicators for adverse impacts on sustainability factors taken into account?

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the financial year, the Manager elected not to consider the principal adverse impacts (PAIs) of the investment decisions taken on behalf of the Sub-Fund on sustainability factors in the manner contemplated by Article 4(1)(a) of the SFDR.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **31 March 2024**

Largest investments	Sector	% Assets	Country
GOLD FIELDS LTD-SPONS ADR	Materials	4.9%	South Africa
ELDORADO GOLD CORP	Materials	4.73%	Canada
OSISKO GOLD ROYALTIES LTD	Materials	4.72%	Canada
CENTAMIN PLC	Materials	4.69%	Jersey
ALAMOS GOLD INC-CLASS A	Materials	4.57%	Canada
AGNICO EAGLE MINES LTD	Materials	4.54%	Canada
RAMELIUS RESOURCES LTD	Materials	4.39%	Australia
SANDSTORM GOLD LTD	Materials	4.34%	Canada
FRANCO-NEVADA CORP	Materials	4.29%	Canada
KINROSS GOLD CORP	Materials	4.26%	Canada
FIRST MAJESTIC SILVER CORP	Materials	4.19%	Canada
ROYAL GOLD INC	Materials	4.12%	United States
FORTUNA SILVER MINES INC	Materials	4.06%	Canada
WHEATON PRECIOUS METALS CORP	Materials	3.94%	Canada
PAN AMERICAN SILVER CORP	Materials	3.9%	Canada

What was the proportion of sustainability-related investments?

● What was the asset allocation?

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

During the financial year 99.78% of the Sub-Fund's net assets were aligned with the promoted environmental characteristics. The remaining proportion of the Sub-Fund's investments included ancillary liquid assets and money market instruments and derivatives which were used for efficient portfolio management purposes.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Sector	weight
Materials	99.78%

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund does not commit to a minimum of sustainable investments aligned with the EU taxonomy. None of the Sub-Fund's investments were aligned with EU Taxonomy.

● Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, during the reference period 0% of the portfolio was invested through enabling activities only.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, during the previous reference period 0% of the portfolio was invested through enabling activities only.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A As this is the first reference period that the periodic disclosure for the Sub-Fund are effective, no comparatives are presented.

What was the share of socially sustainable investments?

N/A – this section is not applicable for this Sub-Fund as it did not commit to holding sustainable investments during the reference period.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Those investments included under “#2 Other”, may include ancillary liquid assets, money market instruments, investments in ETFs authorised as UCITS, futures, currency swaps and currency forwards. It may also include securities which no longer meet the screening criteria described above but will not be removed from the Index until the next Index rebalance. There are no minimum environmental or social safeguards.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The investment objective of the Sub-Fund was to track the price and the performance, before fees and expenses, of an index that provides exposure to companies that generate their revenues from the gold mining industry which includes drilling, geological assessment, financing, development, extraction, initial refinement and delivery of gold ore.. The selection criteria for inclusion in the Index universe requires that companies comply with the UN Global Compact principles. The selected companies are then ranked by their ESG score, based on the ESG risk assigned to it, from lowest to highest. The ESG risk rating is measured by reference to the Company's exposure to material ESG issues (MEIs) and its preparedness and track record in managing its exposure to MEIs through an assessment of its policies, programs, management systems and controversies is then measured. Examples of MEIs include corporate governance, business ethics, bribery and corruption, carbon emissions from own operations, carbon emissions from products and services, human capital, occupational health and safety, land use and biodiversity and emissions, effluents and waste.

Investors should note that whilst the Sub-Fund and the Index sought to ensure compliance with such criteria at each rebalancing or review date, between these reviews or rebalances, securities which no longer met these criteria could remain included in the Index until they were removed at the subsequent rebalancing or review.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

How did this financial product perform compared to the reference benchmark?

For the reference period the Sub-Fund has designated the benchmark index as a reference benchmark for the purpose of meeting the environmental or social characteristics promoted by the Sub-Fund. The performance of the Sub-Fund compared to the benchmark index is outlined below.

● **How does the reference benchmark differ from a broad market index?**

The reference benchmark index provides exposure to a subset of the broad market index and excludes issuers that do not meet its ESG selection criteria from its index. This would differ from a broad market index that may not apply these criteria.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Sub-Fund achieved the environmental and social characteristics it promoted by replicating the constituents of its benchmark index

● **How did this financial product perform compared with the reference benchmark?**

The Sub-Fund performed in line with the reference benchmark. Differences can be caused by variations in the ESG Data Provider's methodologies versus that used for the Reference Index . ESG Data for the Sub-Fund is sourced from the issuer's ESG Data Provider, Clarity AI. The Reference Index data is sourced from Minerva Analytics

Indicator	Description	Fund	Reference Benchmark
Exposure to Severe Controversies	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to UNGC principles.	3.68%	0.00%

● ***How did this financial product perform compared with the broad market index?***

Indicator	Description	Fund	Broad Market Index
Exposure to Severe Controversies	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to UNGC principles.	3.68%	27.11%

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Digital Infrastructure and Connectivity UCITS ETF ("the Sub-Fund")

Legal entity identifier: 254900WEE09XWCTC7659

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective? *[tick and fill in as relevant, the percentage figure represents the minimum commitment to sustainable investments]*

Yes

No

It made **sustainable investments with an environmental objective**: ____%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It made **sustainable investments with a social objective**: ____%

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted, among other characteristics, environmental and social characteristics by tracking the Tematica BITA Digital Infrastructure and Connectivity Sustainability Screened Index (the Index). The Sub-Fund adopted a "passive management" investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it invested in all of the securities in proportion to the weightings comprising the Index, which is comprised of a global investable universe of publicly listed companies involved in the digital infrastructure and connectivity sector. The Index methodology excludes companies that are in violation of adopting the UN Global Compact's ten principles (based on the four Sub-Fundamental pillars of human rights, labour, environment and anti-corruption) and companies with focused involvement in the weapon and defence sectors.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

● **How did the sustainability indicators perform?**

Indicator	Description	Performance (as at 31.03.2024)
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	6.40%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%

● **...and compared to previous periods?**

Indicator	Description	Performance (as at 31.03.2023)
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	1.52%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

N/A – The Sub-Fund did not commit to holding sustainable investments during the reference period. Please note that certain sustainable investments may form part of the Sub-Fund's investment portfolio.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

How were the indicators for adverse impacts on sustainability factors taken into account?

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the financial year, the Manager elected not to consider the principal adverse impacts (PAIs) of the investment decisions taken on behalf of the Sub-Fund on sustainability factors in the manner contemplated by Article 4(1)(a) of the SFDR.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **31 March 2024**

Largest investments	Sector	% Assets	Country
NVIDIA CORP	Information Technology	6.47%	United States

INTEL CORP	Information Technology	3.52%	United States
QORVO INC	Information Technology	3.17%	United States
SKYWORKS SOLUTIONS INC	Information Technology	3%	United States
ADVANCED WIRELESS SEMICONDUCTOR	Information Technology	2.93%	Taiwan
MAXLINEAR INC	Information Technology	2.77%	United States
INFINEON TECHNOLOGIES AG	Information Technology	2.45%	Germany
BANDWIDTH INC-CLASS A	Communication Services	1.8%	United States

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

During the financial year 99.76% of the Sub-Fund's net assets were aligned with the promoted environmental characteristics. The remaining proportion of the Sub-Fund's investments included ancillary liquid assets and money market instruments and derivatives which were used for efficient portfolio management purposes.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Sector	weight
Information Technology	82.6%
Real Estate	6.2%
Financials	5.72%
Communication Services	4.17%
Industrials	1.07%

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund does not commit to a minimum of sustainable investments aligned with the EU taxonomy.

● Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, during the reference period 0% of the portfolio was invested through enabling activities only.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, during the previous reference period 0% of the portfolio was invested through enabling activities only.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A – this section is not applicable for this Sub-Fund as it did not commit to holding sustainable investments during the reference period.

What was the share of socially sustainable investments?

N/A – this section is not applicable for this Sub-Fund as it did not commit to holding sustainable investments during the reference period.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Those investments included under “#2 Other”, may include ancillary liquid assets, money market instruments, investments in ETFs authorised as UCITS, futures, currency swaps and currency forwards. It may also include securities which no longer meet the screening criteria described above but will not be removed from the Index until the next Index rebalance. There are no minimum environmental or social safeguards.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The investment objective of the Sub-Fund was to track the price and the performance, before fees and expenses, of an index that provides exposure to companies in the digital infrastructure and connectivity sector. The Index methodology excludes companies that are in violation of adopting the UN Global Compact's ten principles (based on the four sub-fundamental pillars of human rights, labour, environment and anti-corruption) and companies with focused involvement in the weapon and defence sectors

How did this financial product perform compared to the reference benchmark?

For the reference period the Sub-Fund has designated the benchmark index as a reference benchmark for the purpose of meeting the environmental or social characteristics promoted by the Sub-Fund. The performance of the Sub-Fund compared to the benchmark index is outlined below.

- **How does the reference benchmark differ from a broad market index?**

The reference benchmark index provides exposure to a subset of the broad market index and excludes issuers that do not meet its ESG selection criteria from its index. This would differ from a broad market index that may not apply these criteria

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Sub-Fund achieved the environmental and social characteristics it promoted by replicating the constituents of its benchmark index.

- **How did this financial product perform compared with the reference benchmark?**

The Sub-Fund performed in line with the reference benchmark. Differences can be caused by variations in the ESG Data Provider's methodologies versus that used for the Reference Index . ESG Data for the Sub-Fund is sourced from the issuer's ESG Data Provider, Clarity AI. The Reference Index data is sourced from Arabesque.

Indicator	Description	Sub-Fund	Reference Index
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more	6.40%	0.00%

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

	severe controversies related to the United Nations Global Compact principles.		
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%	0.00%

● ***How did this financial product perform compared with the broad market index?***

Indicator	Description	Sub-Fund	Broad market Index
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	6.40%	27.11%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%	0.00%

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Electric Vehicle Charging Infrastructure UCITS ETF (“the Sub-Fund”)

Legal entity identifier: 254900LMKU99GGRUJ17

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** ____%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It made **sustainable investments with a social objective:** ____%

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promotes environmental and social characteristics by seeking to track the Solactive Electric Vehicle Charging Infrastructure Index (the Index). The Sub-Fund will adopt a “passive management” investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it will invest in the equity securities of companies in proportion to the weightings comprising the Index, which is comprised of a global investable universe of publicly listed companies that are active in the field of battery charging equipment and electric vehicle (EV) charging stations. The Index methodology excludes companies which do not comply with UN Global Compact principles or which have any operational business involvement in the fields of controversial weapons, conventional weapons or tobacco or thermal coal from the Index

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

How did the sustainability indicators perform?

Indicator	Description	Performance (as at 31.03.2024)
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	0.00%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%
Exposure to Conventional Weapons	The percentage of the portfolio's market value exposed to companies involved the production or distribution of conventional weapons.	0.00%
Exposure to Thermal Coal	The percentage of the portfolio's market value exposed to companies deriving at least 10% revenue from extraction, power generation and supporting products/services that use Thermal Coal.	0.00%
Exposure to Tobacco	The percentage of the portfolio's market value exposed to companies involved with the distribution and/or retail sale of tobacco products.	0.00%

...and compared to previous periods?

Indicator	Description	Performance (as at 31.03.2023)
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	0.00%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%
Exposure to Conventional Weapons	The percentage of the portfolio's market value exposed to companies involved the production or distribution of conventional weapons.	0.00%

	supporting products/services that use Thermal Coal.	
Exposure to Tobacco	The percentage of the portfolio's market value exposed to companies involved with the distribution and/or retail sale of tobacco products.	0.00%

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

N/A – The Sub-Fund did not commit to holding sustainable investments during the reference period. Please note that certain sustainable investments may form part of the Sub-Fund’s investment portfolio.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

How were the indicators for adverse impacts on sustainability factors taken into account?

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

During the financial year, the Manager elected not to consider the principal adverse impacts (PAIs) of the investment decisions taken on behalf of the Sub-Fund on sustainability factors in the manner contemplated by Article 4(1)(a) of the SFDR.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **31 March 2024**

Largest investments	Sector	% Assets	Country
CHARGEPOINT HOLDINGS INC	Industrials	14.44%	United States
ALFEN N.V.	Industrials	14.07%	Netherlands
EVGO INC	Consumer Discretionary	10.8%	United States
KEMPOWER OYJ	Industrials	10.48%	Finland
BLINK CHARGING CO	Industrials	8.43%	United States
ELECTREON WIRELESS LTD	Industrials	5.02%	Israel
DRAX GROUP PLC	Utilities	3.94%	United Kingdom
TOTALENERGIES SE	Energy	3.66%	France
BP PLC	Energy	3.64%	United Kingdom
LANDIS + GYR GROUP AG	Information Technology	3.45%	Switzerland
TESLA INC	Consumer Discretionary	2.99%	United States
NIO INC-CLASS A	Consumer Discretionary	2.69%	Cayman Islands
NAAS TECHNOLOGY INC-ADR	Consumer Discretionary	2.59%	China
BEAM GLOBAL	Industrials	2.32%	United States
SHOALS TECHNOLOGIES GROUP -A	Industrials	2.32%	United States

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

During the financial year 99.94% of the Sub-Fund's net assets were aligned with the promoted environmental characteristics. The remaining proportion of the Sub-Fund's investments included ancillary liquid assets and money market instruments and derivatives which were used for efficient portfolio management purposes.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Sector	weight
Industrials	60.55%
Consumer Discretionary	19.07%
Energy	7.3%
Information Technology	6.83%
Utilities	6.19%

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund does not commit to a minimum of sustainable investments aligned with the EU taxonomy. However, 59.6% of the Sub-Fund's investments were aligned with EU Taxonomy.

Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, 10.57% was invested in transitional activities and 45.43% through enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, 15.46% was invested in enabling activities only in the previous reference period

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A As this is the first reference period that the periodic disclosure for the Sub-Fund are effective, no comparatives are presented.

What was the share of socially sustainable investments?

N/A – this section is not applicable for this Sub-Fund as it did not commit to holding sustainable investments during the reference period.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Those investments included under “#2 Other”, may include ancillary liquid assets, money market instruments, investments in ETFs authorised as UCITS, futures, currency swaps and currency forwards. It may also include securities which no longer meet the screening criteria described above but will not be removed from the Index until the next Index rebalance. There are no minimum environmental or social safeguards.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The investment objective of the Sub-Fund was to track the price and the performance, before fees and expenses, of an index that provides exposure to companies that are active in the field of battery charging equipment and electric vehicle (EV) charging stations. The Index methodology excluded companies which do not comply with UN Global Compact principles or which have any operational business involvement in the fields of controversial weapons, conventional weapons or tobacco or thermal coal from the Index.. Investors should note that whilst the Sub-Fund and the Index sought to ensure compliance with such criteria at each rebalancing or review date, between these reviews or rebalances, securities which no longer met these criteria could remain included in the Index until they were removed at the subsequent rebalancing or review. The Fund tracked the benchmark index and thus, met the environmental and social characteristics of the benchmark index.

How did this financial product perform compared to the reference benchmark?

For the reference period the Sub-Fund has designated the benchmark index as a reference benchmark for the purpose of meeting the environmental or social characteristics promoted by the Sub-Fund. The performance of the Sub-Fund compared to the benchmark index is outlined below.

- **How does the reference benchmark differ from a broad market index?**

The reference benchmark index provides exposure to a subset of the broad market index and excludes issuers that do not meet its ESG selection criteria from its index. This would differ from a broad market index that may not apply these criteria

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Sub-Fund achieved the environmental and social characteristics it promoted by replicating the constituents of its benchmark index.

- **How did this financial product perform compared with the reference benchmark?**

The Sub-Fund performed in line with the reference benchmark. Differences can be caused by variations in the ESG Data Provider's methodologies versus that used for the Reference Index. ESG Data for the Sub-Fund is sourced from the issuer's ESG Data Provider, Clarity AI. The Reference Index data is sourced from Minerva Analytics

Reference benchmarks
are indexes to measure whether the financial product attains the sustainable objective.

Indicator	Description	Sub-Fund	Reference Benchmark
Violations of the UN Global Compact Principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	0.00%	0.00%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%	0.00%
Exposure to Conventional Weapons	The percentage of the portfolio's market value exposed to companies involved the production or distribution of conventional weapons.	0.00%	0.00%
Exposure to Thermal Coal	The percentage of the portfolio's market value exposed to companies deriving a specified percentage of revenue from extraction, power generation and supporting products/services that use Thermal Coal.	0.00%	0.00%

Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance	0.00%	8.18%

	and trade of controversial weapons.		
Exposure to Conventional Weapons	The percentage of the portfolio's market value exposed to companies involved in the production or distribution of conventional weapons.	0.00%	2.21%
Exposure to Thermal Coal	The percentage of the portfolio's market value exposed to companies deriving a specified percentage of revenue from extraction, power generation and supporting products/services that use Thermal Coal.	0.00%	0.01%
Exposure to Tobacco	The percentage of the portfolio's market value exposed to companies involved with the distribution and/or retail sale of tobacco products.	0.00%	0.58%

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: European Green Deal UCITS ETF (“the Sub-Fund”)

Legal entity identifier: 254900JLH1KFTAW21P96

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: ____%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It made **sustainable investments with a social objective**: ____%

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promotes environmental characteristics by seeking to track the SGI European Green Deal ESG Screened Index (the Index). The Sub-Fund will adopt a “passive management” investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it will invest in all of the securities in proportion to the weightings comprising the Index, which aims to select companies that could potentially benefit from the “European Green Deal”, a growth strategy put in place by the European Commission aimed at making Europe the first climate-neutral continent by 2050. The Index has been designed to select companies involved in four policy areas and related subsectors, which could benefit from the European Commission’s Green Deal, due to their exposure to the following environmental policy areas and sub-sectors, which are likely to benefit from increased demand for their services due to the European Commission’s Green Deal targets, namely:

a) Clean Energy: renewable energy generation, wind energy equipment, electrification;
 b) Sustainable Mobility: rail, electric vehicles, hydrogen, biofuel;
 c) Building and Renovation: climate-proofing, energy efficiency; and
 d) Circular Economy: recycling/waste management, reusable and recycling packaging.
 The companies selected after completion of the above steps will be screened for compliance with UN Global Compact principles.

● **How did the sustainability indicators perform?**

Indicator	Description	Performance (as at 31.03.2024)
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	2.01%
Exposure to Thermal Coal	The percentage of the portfolio's market value exposed to companies deriving a percentage of their revenue from involvement in thermal coal extraction	0.00%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%

● **...and compared to previous periods?**

N/A As this is the first reference period that the periodic disclosure for the Sub-Fund is effective, no comparatives are presented.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

N/A – The Sub-Fund did not commit to holding sustainable investments during the reference period. Please note that certain sustainable investments may form part of the Sub-Fund's investment portfolio.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

How were the indicators for adverse impacts on sustainability factors taken into account?

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the financial year, the Manager elected not to consider the principal adverse impacts (PAIs) of the investment decisions taken on behalf of the Sub-Fund on sustainability factors in the manner contemplated by Article 4(1)(a) of the SFDR.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **As of 31st March 2024**

Largest investments	Sector	% Assets	Country
ENCAVIS AG	Utilities	2.91%	Germany
TOMRA SYSTEMS ASA	Industrials	2.41%	Norway
DS SMITH PLC	Materials	2.34%	United Kingdom
SIEMENS ENERGY AG	Industrials	2.29%	Germany
ALSTOM	Industrials	2.26%	France
SIGNIFY NV	Industrials	2.23%	Netherlands
SPIE SA	Industrials	2.18%	France
NEOEN SA	Utilities	2.14%	France
IBERDROLA SA	Utilities	2.12%	Spain
VERBIO SE	Energy	2.11%	Germany
E.ON SE	Utilities	2.1%	Germany
REDEIA CORP SA	Utilities	2.08%	Spain
SMURFIT KAPPA GROUP PLC	Materials	2.07%	Ireland
NORDEX SE	Industrials	2.07%	Germany
ACCIONA SA	Industrials	2.05%	Spain

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

During the financial year 100% of the Sub-Fund's net assets were aligned with the promoted environmental characteristics. The remaining proportion of the Sub-Fund's investments included ancillary liquid assets and money market instruments and derivatives which were used for efficient portfolio management purposes.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Sector	weight
Industrials	42.9%
Utilities	30.53%
Materials	14.22%
Information Technology	8.33%
Energy	4.02%

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund does not commit to a minimum of sustainable investments aligned with the EU taxonomy. None of the Sub-Fund's investments were aligned with EU Taxonomy.

● Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, during the reference period 17.37% was invested through enabling activities only.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A As this is the first reference period that the periodic disclosure for the Sub-Fund are effective, no comparatives are presented.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A – this section is not applicable for this Sub-Fund as it did not commit to holding sustainable investments during the reference period.

What was the share of socially sustainable investments?

N/A – this section is not applicable for this Sub-Fund as it did not commit to holding sustainable investments during the reference period.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Those investments included under “#2 Other”, may include ancillary liquid assets, money market instruments, investments in ETFs authorised as UCITS, futures, currency swaps and currency forwards. It may also include securities which no longer meet the screening criteria described above but will not be removed from the Index until the next Index rebalance. There are no minimum environmental or social safeguards.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Index promotes environmental characteristics by excluding companies that fail the screening process for compliance with UN Global Compact principles and which do not have: at least 20% exposure by revenue to Europe in one or more of the four themes highlighted above, and must not have a poor environmental score. Companies that appear in the third tier of the environment scoring universe based on analysis by the Equity Research Department of the Index Sponsor will be excluded.

How did this financial product perform compared to the reference benchmark?

For the reference period the Sub-Fund has designated the benchmark index as a reference benchmark for the purpose of meeting the environmental or social characteristics promoted by the Sub-Fund. The performance of the Sub-Fund compared to the benchmark index is outlined below.

● How does the reference benchmark differ from a broad market index?

The reference benchmark index provides exposure to a subset of the broad market index and excludes issuers that do not meet its ESG selection criteria from its index. This would differ from a broad market index that may not apply these criteria.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Sub-Fund achieved the environmental and social characteristics it promoted by replicating the constituents of its benchmark index.

● How did this financial product perform compared with the reference benchmark?

The Sub-Fund performed in line with the reference benchmark. Differences can be caused by variations in the ESG Data Provider's methodologies versus that used for the Reference Index. ESG Data for the Sub-Fund is sourced from the issuer's ESG Data Provider, Clarity AI. The Reference Index data is sourced from Sustainalytics.

Indicator	Description	Fund	Reference Benchmark
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies	2.01%	0.00%

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

	categorised as having one or more severe controversies related to the United Nations Global Compact principles.		
Exposure to Thermal Coal	The percentage of the portfolio's market value exposed to companies deriving a percentage of their revenue from involvement in thermal coal extraction	0.00%	0.00%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%	0.00%

● ***How did this financial product perform compared with the broad market index?***

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: ____%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It made **sustainable investments with a social objective**: ____%

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted, among other characteristics, environmental and social characteristics by tracking the Indxx Global NextGen Healthcare Index (the Index). The Sub-Fund will adopt a “passive management” investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it will invest in all of the securities in proportion to the weightings comprising the Index, which is comprised of an investable universe that is designed to measure the performance of companies involved in the advanced life sciences and smart healthcare sector on a global basis. The Index methodology excludes companies which do not comply with UN Global Compact principles in addition to any operational business involvement in the fields of fossil fuels or banned or controversial weapons

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

How did the sustainability indicators perform?

Indicator	Description	Performance (as at 31.03.2024)
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	1.95%
Exposure to Fossil Fuels	The percentage of the portfolio's market value exposed to companies deriving a specified percentage of revenue from exploration, mining or refining of fossil fuels.	0.00%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%

...and compared to previous periods?

Indicator	Description	Performance (as at 31.03.2023)
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	2.41%
Exposure to Fossil Fuels	The percentage of the portfolio's market value exposed to companies deriving a specified percentage of revenue from exploration, mining or refining of fossil fuels.	0.18%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.06%

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

N/A – The Sub-Fund did not commit to holding sustainable investments during the reference period. Please note that certain sustainable investments may form part of the Sub-Fund's investment portfolio.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

How were the indicators for adverse impacts on sustainability factors taken into account?

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

During the financial year, the Manager elected not to consider the principal adverse impacts (PAIs) of the investment decisions taken on behalf of the Sub-Fund on sustainability factors in the manner contemplated by Article 4(1)(a) of the SFDR.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **31 March 2024**

Largest investments	Sector	% Assets	Country
HIMS & HERS HEALTH INC	Health Care	1.8%	United States
SHOCKWAVE MEDICAL INC	Health Care	1.71%	United States
4D MOLECULAR THERAPEUTICS IN	Health Care	1.56%	United States
NATERA INC	Health Care	1.52%	United States
SAREPTA THERAPEUTICS INC	Health Care	1.43%	United States
EDWARDS LIFESCIENCES CORP	Health Care	1.28%	United States
TELIX PHARMACEUTICALS LTD	Health Care	1.27%	Australia
VEEVA SYSTEMS INC-CLASS A	Health Care	1.24%	United States
BOSTON SCIENTIFIC CORP	Health Care	1.23%	United States
INTUITIVE SURGICAL INC	Health Care	1.2%	United States
ALIGN TECHNOLOGY INC	Health Care	1.2%	United States
SUPERNUS PHARMACEUTICALS INC	Health Care	1.19%	United States
GE HEALTHCARE TECHNOLOGY	Health Care	1.18%	United States
BEAM THERAPEUTICS INC	Health Care	1.18%	United States
DEMANT A/S	Health Care	1.16%	Denmark

What was the proportion of sustainability-related investments?

● **What was the asset allocation?**

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

During the financial year 99.92% of the Sub-Fund's net assets were aligned with the promoted environmental characteristics. The remaining proportion of the Sub-Fund's investments included ancillary liquid assets and money market instruments and derivatives which were used for efficient portfolio management purposes.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Sector	weight
Health Care	96.21%
Consumer Staples	3.71%

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

● Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, during the reference period 0% of the portfolio was invested through enabling activities only.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, during the previous reference period 0% of the portfolio was invested through enabling activities only.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A – this section is not applicable for this Sub-Fund as it did not commit to holding sustainable investments during the reference period.

What was the share of socially sustainable investments?

N/A – this section is not applicable for this Sub-Fund as it did not commit to holding sustainable investments during the reference period.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Those investments included under “#2 Other”, may include ancillary liquid assets, money market instruments, investments in ETFs authorised as UCITS, futures, currency swaps and currency forwards. It may also include securities which no longer meet the screening criteria described above but will not be removed from the Index until the next Index rebalance. There are no minimum environmental or social safeguards.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The investment objective of the Sub-Fund was to track the price and the performance, before fees and expenses, of an index that provides exposure to involved in the Advanced Life Sciences & Smart Healthcare sector, on a global basis, as defined by Indxx. The Index methodology excluded companies which do not comply with UN Global Compact principles in addition to any operational business involvement in the fields of fossil fuels or banned or controversial weapons.. Investors should note that whilst the Sub-Fund and the Index sought to ensure compliance with such criteria at each rebalancing or review date, between these reviews or rebalances, securities which no longer met these criteria could remain included in the Index until they were removed at the subsequent rebalancing or review.

How did this financial product perform compared to the reference benchmark?

For the reference period the Sub-Fund has designated the benchmark index as a reference benchmark for the purpose of meeting the environmental or social characteristics promoted by the Sub-Fund. The performance of the Sub-Fund compared to the benchmark index is outlined below.

● How does the reference benchmark differ from a broad market index?

The reference benchmark index provides exposure to a subset of the broad market index and excludes issuers that do not meet its ESG selection criteria from its index. This would differ from a broad market index that may not apply these criteria

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Sub-Fund achieved the environmental and social characteristics it promoted by replicating the constituents of its benchmark index.

● How did this financial product perform compared with the reference benchmark?

The Sub-Fund performed in line with the reference benchmark. Differences can be caused by variations in the ESG Provider's methodologies versus that used for the Reference Index . ESG Data for the Sub-Fund is sourced from the issuer's ESG Data Provider, Clarity AI. The Reference Index data is sourced from ISS ESG.

Indicator	Description	Sub-Fund	Reference Benchmark
Violations of the UN	The percentage of	1.95%	0.00%

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

Global Compact Principles	the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.		
Exposure to Fossil Fuels	The percentage of the portfolio's market value exposed to companies deriving a specified percentage of revenue from exploration, mining or refining of fossil fuels.	0.00%	0.00%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%	0.00%

● ***How did this financial product perform compared with the broad market index?***

Indicator	Description	Sub-Fund	Broad Market Index

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: HAN-GINS Tech Megatrend Equal Weight UCITS ETF ("the Sub-Fund")

Legal entity identifier: 2549004ADV2AUQOHRD36

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** ____%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It made **sustainable investments with a social objective:** ____%

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted, among other characteristics, environmental and social characteristics by tracking the Solactive Innovative Technologies Index (the Index). The Sub-Fund adopted a "passive management" investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it invested in all of the securities in proportion to the weightings comprising the Index, which is comprised of a global investable universe of publicly listed companies that are involved in innovative and disruptive technological trends across a broad range of industries. The Index methodology excluded companies that fail the screening process for compliance with UN Global Compact principles, in addition to any operational business involvement in the fields of controversial weapons, conventional weapons, tobacco or thermal coal from selection for the Index.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

How did the sustainability indicators perform?

Indicator	Description	Performance (as at 31.03.2024)
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	1.95%
Exposure to Thermal Coal	The percentage of the portfolio's market value exposed to companies with thermal coal revenue above a specified percentage and companies deriving specified percentage of their total operations on thermal coal	0.00%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.87%
Exposure to Tobacco	The percentage of the portfolio's market value exposed to companies involved with the distribution and/or retail sale of tobacco products.	0.00%

...and compared to previous periods?

Indicator	Description	Performance (as at 31.03.2023)
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	1.88 %
Exposure to Thermal Coal	The percentage of the portfolio's market value	0.00%

	exposed to companies with thermal coal revenue above a specified percentage and companies deriving specified percentage of their total operations on thermal coal	
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%
Exposure to Tobacco	The percentage of the portfolio's market value exposed to companies involved with the distribution and/or retail sale of tobacco products.	0.00%

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

N/A – The Sub-Fund did not commit to holding sustainable investments during the reference period. Please note that certain sustainable investments may form part of the Sub-Fund’s investment portfolio.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

How were the indicators for adverse impacts on sustainability factors taken into account?

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the financial year, the Manager elected not to consider the principal adverse impacts (PAIs) of the investment decisions taken on behalf of the Sub-Fund on sustainability factors in the manner contemplated by Article 4(1)(a) of the SFDR.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **31 March 2024**

Largest investments	Sector	% Assets	Country
LIFE360 INC-CDI	Information Technology	1.3%	United States
CIPHER MINING INC	Information Technology	1.18%	United States

SPOTIFY TECHNOLOGY SA	Communication Services	0.97%	Luxembourg
HUT 8 CORP	Information Technology	0.96%	United States
HANSOH PHARMACEUTICAL GROUP	Health Care	0.95%	Cayman Islands
ORACLE CORP	Information Technology	0.93%	United States

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

Asset allocation
describes the share of
investments in specific
assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

During the financial year 99.67% of the Sub-Fund's net assets were aligned with the promoted environmental characteristics. The remaining proportion of the Sub-Fund's investments included ancillary liquid assets and money market instruments and derivatives which were used for efficient portfolio management purposes.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Sector	weight
Information Technology	42.71%
Communication Services	21.24%
Health Care	12.37%
Consumer Discretionary	11.96%
Industrials	6.6%
Financials	2.09%
Materials	0.96%
Utilities	0.84%
Real Estate	0.74%
Energy	0.09%
Consumer Staples	0.07%

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund does not commit to a minimum of sustainable investments aligned with the EU taxonomy. However, 3.41% of the Sub-Fund's portfolio was aligned with EU Taxonomy

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, during the reference period 1.74% was invested through enabling activities only.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A As this is the first reference period that the periodic disclosure for this Sub-Fund are effective no comparatives are presented

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A – this section is not applicable for this Sub-Fund as it did not commit to holding sustainable investments during the reference period.

What was the share of socially sustainable investments?

N/A – this section is not applicable for this Sub-Fund as it did not commit to holding sustainable investments during the reference period.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Those investments included under “#2 Other”, may include ancillary liquid assets, money market instruments, investments in ETFs authorised as UCITS, futures, currency swaps and currency forwards. It may also include securities which no longer meet the screening criteria described above but will not be removed from the Index until the next Index rebalance. There are no minimum environmental or social safeguards.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The investment objective of the Sub-Fund is to track the price and the performance, before fees and expenses, of an index that provides exposure to companies that are involved in innovative and disruptive technological trends across a broad range of industries. The Index methodology excluded companies that fail the screening process for compliance with UN Global Compact principles, in addition to any operational business involvement in the fields of controversial weapons, conventional weapons, tobacco or thermal coal from selection for the Index. Investors should note that whilst the Sub-Fund and the Index sought to ensure compliance with such criteria at each rebalancing or review date, between these reviews or rebalances, securities which no longer met these criteria could remain included in the Index until they were removed at the subsequent rebalancing or review.

How did this financial product perform compared to the reference benchmark?

For the reference period the Sub-Fund has designated the benchmark index as a reference benchmark for the purpose of meeting the environmental or social characteristics promoted by the Sub-Fund. The performance of the compared to the benchmark index is outlined below.

● **How does the reference benchmark differ from a broad market index?**

The reference benchmark index provides exposure to a subset of the broad market index and excludes issuers that do not meet its ESG selection criteria from its index. This would differ from a broad market index that may not apply these criteria

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Sub-Fund achieved the environmental and social characteristics it promoted by replicating the constituents of its benchmark index. ESG Data for the Sub-Fund is sourced from the issuer's ESG Data Provider, Clarity AI. The Reference Index data is sourced from Minerva Analytics.

● **How did this financial product perform compared with the reference benchmark?**

Indicator	Description	Sub-Fund	Reference Index
Violations of the UN Global Compact Principles	The percentage of the portfolio's market value exposed to	1.95%	0.00%

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

	companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.

Product name: iClima Global Decarbonisation Enablers UCITS ETF ("the Sub-Fund")

Legal entity identifier: 254900R6NK0BAQYTE528

Sustainable investment objective

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective: 99.81%**

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It made **sustainable investments with a social objective: _____%**

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent was the sustainable investment objective of this financial product met?

The Sub-Fund has the sustainable investment objective of promoting investment, using a data and research-based approach, in publicly listed companies with products and services that enable CO2e avoidance. The Sub-Fund achieves this by tracking the iClima Global Decarbonisation Enablers Index (the Index) that provides exposure to the performance of companies involved in the enablement of CO2e avoidance. Avoidance is defined as emission reductions that occur as a result of a product or service that provides the same or similar function as existing products in the marketplace but with significantly less greenhouse gas (GHG) emissions, or enables emission reductions of a third party, as defined by the Greenhouse Gas Protocol of 2019 and Mission Innovation's Avoided Emissions Framework. The Index includes securities from sectors including green energy, green transportation, water and waste improvements, decarbonisation enabling solutions and sustainable products. The methodology developed by the Index Sponsor was inspired by the work of Project Drawdown.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

Project Drawdown identified technologically viable, existing solutions to global warming that would help the world reduce GHG. By focusing on companies with these solutions, the Index Sponsor brings a focus to the companies with products and services that provide emissions avoidance.

● **How did the sustainability indicators perform?**

Indicator	Description	Performance (as at 31.03.2024)
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	3.24%
Exposure to Coal Mining	The percentage of the portfolio's market value exposed to companies with coal exploration or processing activities	0.00%
Exposure to Conventional Weapons	The percentage of the portfolio's market value exposed to companies deriving a specified percentage of revenue from conventional weapons	0.00%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	2.03%

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

...and compared to previous periods?

Indicator	Description	Performance (as at 31.03.2023)
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	1.51%
Exposure to Coal Mining	The percentage of the portfolio's market value exposed to companies with coal exploration or processing activities	0.00%
Exposure to Conventional Weapons	The percentage of the portfolio's market value exposed to companies deriving a specified percentage of revenue from conventional weapons	0.00%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%

How did the sustainable investments not cause significant harm to any sustainable investment objective?

All companies are subject to a negative screening test where rules define activities that companies in the Index cannot be exposed to as follows:

(a) companies engaged in oil exploration are excluded; however the Index Sponsor takes into account the following:

- (i) companies that manufacture back up power products that run on diesel or natural gas have a revenue threshold of 50% of total sales;
- (ii) there is a cap on revenues at 1% for companies that have peak generators that run on diesel;
- (iii) land property that is leased for exploration & production activities that are owned and operated by a third party are acceptable; and
- (iv) diesel blended with biofuel is acceptable.

(b) companies which have any exposure to non-conventional weapons are excluded. Specific segments that are completely unacceptable include nuclear weapons or systems, chemical or biological weapons, landmine, cluster bombs, or depleted uranium weapons. Companies with sales of components that are then used by its customers for the production of conventional military weapons must have a revenue derived from such customers below 10%.

The Index Sponsor also includes the following considerations in its analysis:

(a) nuclear energy is not defined as a desirable solution, however companies that are predominantly renewable energy generators that have less than 20% of revenues derived from nuclear energy are included;

(b) companies with any revenue from coal are excluded; however renewable energy companies with less than 1% revenue from coal fired power plants are included;

(c) power generating companies that are predominantly renewable energy must have less than 50% of revenue derived from natural gas to be included; (d) in the electric vehicle sub-segment, automotive makers must have internal combustion engine sales representing less than 40% of total revenue to be included; and

(e) companies with revenues over 1% from direct alcohol production (spirit, beer or wine), adult entertainment, gambling and tobacco production and sale are not allowed.:

Companies in the Index universe are also subject to a final screening in terms of several indicators that provide additional evidence of relevant sustainability and ESG aspects of their operations:

(a) climate and other environmental related aspects;

(b) social and employee, respect for human rights, anti-bribery and anti-corruption.

The indicators that are exclusionary in nature are those referring to elimination of all forms of forced and compulsory labour and effective abolition of child labour (as defined by the UN Global Compact).

The non-exclusionary additional indicators are used to reveal the companies with practices that are in line with higher sustainability objectives and the companies that do not reach specific parameters.

How were the indicators for adverse impacts on sustainability factors taken into account?

The Index incorporates PAI indicators by using data derived from a third-party data provider, Standard & Poor's Financial Services LLC (S&P). Currently, S&P has 82% coverage of the Index Sponsor's universe of companies, with ongoing plans to increase this coverage. For these companies, the Index considers 17 out of the 18 mandatory indicators currently, with the last expected to be in S&P's data set in 2023. Of the PAI mandatory indicators, the data set also includes 19 of the 46 opt-in indicators for the companies covered.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

The Index assesses alignment with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights primarily through the use of the S&P data set, specifically with respect to mandatory indicator 10 (Violations of UN Global Compact principles and Organisation for Economic Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational EN 9 EN Cooperation and Development (OECD) Guidelines for Multinational Enterprises) and 11 (Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises).

How did this financial product consider principal adverse impacts on sustainability factors?

Adverse sustainability indicator	Metric	Impact [year n]	
CLIMATE AND OTHER ENVIRONMENT-RELATED INDICATORS			
Greenhouse gas emissions	1. GHG emissions	Scope 1 GHG emissions	846.5723 tonne CO2e
		Scope 2 GHG emissions	388.41965 tonne CO2e
		From 1 January 2023, Scope 3 GHG emissions	22691.145 tonne CO2e
		Total GHG emissions	23818.9 tonne CO2e
	2. Carbon footprint	Carbon footprint	1020.4274 tonne CO2e / EUR M invested
	3. GHG intensity of investee companies	GHG intensity of investee companies	3657.9785 tonne CO2e / EUR M revenue
	4. Exposure to companies active in the fossil fuel sector	Share of investments in companies active in the fossil fuel sector	5.0366216 %
5. Share of non-renewable energy consumption and production	Share of non-renewable energy consumption and non-renewable energy production of investee companies from non-renewable energy sources compared to renewable energy sources, expressed as a percentage	Consumption: 61.12 %	
6. Energy consumption intensity per high impact climate sector	Energy consumption in GWh per million EUR of revenue of investee companies, per high impact climate sector	Sector C: 0.46413285 GWh / EUR M revenue Sector D: 0.15136786 GWh / EUR M revenue Sector E: 0.016527627 GWh / EUR M revenue Sector F: 0.0047174897 GWh / EUR M revenue Sector G: 0.00080160634 GWh / EUR M revenue Sector H: 0.006594499 GWh / EUR M revenue Sector L: 0.0235728 GWh / EUR M revenue	
Biodiversity	7. Activities negatively affecting biodiversity-sensitive areas	Share of investments in investee companies with sites/operations located in or near to biodiversity-sensitive areas where activities of those investee companies negatively affect those areas	0.71162695 %
Water	8. Emissions to water	Tonnes of emissions to water generated by investee companies per million EUR invested, expressed as a weighted average	0.011397875 tonne / EUR M invested
Waste	9. Hazardous waste ratio	Tonnes of hazardous waste generated by investee companies per million EUR invested, expressed as a weighted average	0.7234879 tonne / EUR M invested
SOCIAL AND EMPLOYEE, RESPECT FOR HUMAN RIGHTS, ANTI-CORRUPTION AND ANTI-BRIBERY MATTERS			
Social and employee matters	10. Violations of UN Global Compact principles and Organisation for Economic Cooperation	Share of investments in investee companies that have been involved in violations of the UNGC principles or OECD Guidelines for Multinational Enterprises	3.24 %

	and Development (OECD) Guidelines for Multinational Enterprises		
	11. Lack of processes and compliance mechanisms to monitor compliance with UN Global Compact principles and OECD Guidelines for Multinational Enterprises	Share of investments in investee companies without policies to monitor compliance with the UNGC principles or OECD Guidelines for Multinational Enterprises or grievance/complaints handling mechanisms to address violations of the UNGC principles or OECD Guidelines for Multinational Enterprises	0 %
	12. Unadjusted gender pay gap	Average unadjusted gender pay gap of investee companies	8.619053 %
	13. Board gender diversity	Average ratio of female to male board members in investee companies	32.04753 %
	14. Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons)	Share of investments in investee companies involved in the manufacture or selling of controversial weapons	0 %

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: **31 March 2024**

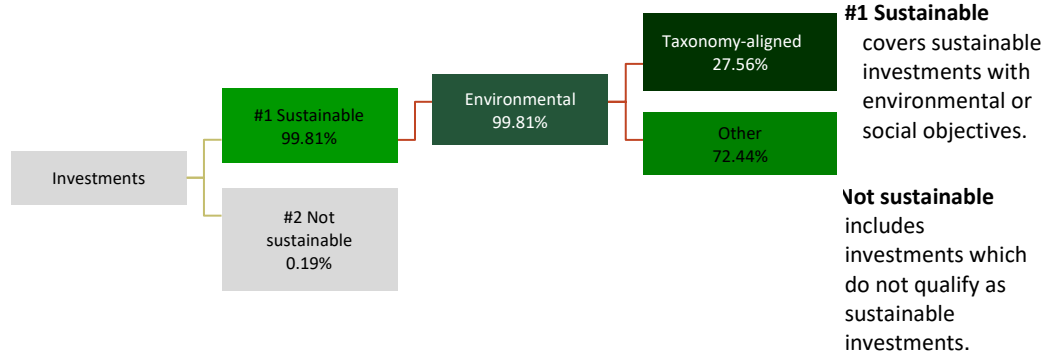

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
QUANTA SERVICES INC	Industrials	1.21%	United States

Financials	0.43%

Asset allocation

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

For the reference period, 27.56% of the Sub-Fund's portfolio was aligned with the EU Taxonomy.

Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

**For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures*

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

What was the share of investments made in transitional and enabling activities?

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, 15.66% was invested through enabling activities only.

How did the percentage of investments aligned with the EU Taxonomy compare with previous reference periods?

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, 15.1% was invested through enabling activities only in the previous reference period.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What was the share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy?

The share of sustainable investments with an environmental objective that were not aligned with the EU Taxonomy was 72.44%.

What was the share of socially sustainable investments?

Socially sustainable investments are not part of the Sub-Fund's objective. However, social sustainability is incorporated into the analysis through the use of the UN Global Compact Indicator.

What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

The Sub-Fund predominantly makes investments that are sustainable investments (#1 Sustainable). Those investments included under “#2 Other”, may include ancillary liquid assets, money market instruments, investments in ETFs authorised as UCITS, futures, currency swaps and currency forwards. It may also include securities which no longer meet the sustainability criteria described above but will not be removed from the Index until the next Index rebalance. There are no minimum environmental or social safeguards.

What actions have been taken to attain the sustainable investment objective during the reference period?

The Sub-Fund selects a universe of companies based on Project Drawdown-identified sectors. Global publicly listed companies within these sectors are then analysed and assessed according to the percentage of their most recent annual revenue that aligns with that sector to determine the extent of their 'green' activities.

Negative screens are applied to exclude companies that exceed thresholds for activities such as nuclear, armament, O&G, coal, alcohol/gambling/adult entertainment; thresholds vary but for instance exploration and production/generation of coal has a 0% revenue test threshold.

The UN Global Compact is incorporated into the analysis to flag breaches of social and governance factors as well. The investor relations department of the majority of the companies in the Sub-Fund are contacted to provide greater detail and granularity.

How did this financial product perform compared to the reference sustainable benchmark?

For the reference period the Sub-Fund has designated the benchmark index as a reference benchmark for the purpose of meeting the environmental or social characteristics promoted by the Sub-Fund. The performance of the compared to the benchmark index is outlined below.

- ***How did the reference benchmark differ from a broad market index?***

The reference benchmark index provides exposure to a subset of the broad market index and excludes issuers that do not meet its ESG selection criteria from its index. This would differ from a broad market index that may not apply these criteria

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the sustainable investment objective?***

The Sub-Fund achieved the environmental and social characteristics it promoted by replicating the constituents of its benchmark index.

- ***How did this financial product perform compared with the reference benchmark?***

The Sub-Fund performed in line with the reference benchmark. Differences can be caused by variations in the ESG Data Provider's methodologies versus that used for the Reference Index. ESG Data for the Sub-Fund is sourced from the issuer's ESG Data Provider, Clarity AI. The Reference Index data is sourced from S&P Trucost.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

Indicator	Description	Sub-Fund	Reference Index
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	3.24%	0.00%
Exposure to Coal Mining	The percentage of the portfolio's market value exposed to companies with coal exploration or processing activities	0.00%	0.00%
Exposure to Conventional Weapons	The percentage of the portfolio's market value exposed to companies deriving a specified percentage of revenue from conventional weapons	0.00%	0.00%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	2.03%	0.00%

● ***How did this financial product perform compared with the broad market index?***

Indicator	Description	Sub-Fund	Broad Market Index
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	3.24%	27.11%
Exposure to Coal Mining	The percentage of the portfolio's market value exposed to companies with coal exploration or processing activities	0.00%	2.53%
Exposure to Conventional Weapons	The percentage of the portfolio's market value exposed to companies deriving a specified percentage of revenue from conventional weapons	0.00%	2.21%

Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	2.03%	8.18%

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: INQQ India Internet & Ecommerce ESG-S UCITS ETF (“the Sub-Fund”)

Legal entity identifier: 254900AM5ODBAQM71049

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** ____%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It made **sustainable investments with a social objective:** ____%

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promotes environmental and social characteristics by seeking to track the INQQ The India Internet & Ecommerce ESG Screened Index (the Index). The Sub-Fund will adopt a “passive management” investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it will invest in all of the securities in proportion to the weightings comprising the Index, which is comprised of an investable universe of publicly listed companies that generate their revenues from internet and ecommerce related activities in emerging and frontier markets excluding China. The Index methodology excludes companies which do not comply with UN Global Compact principles any operational business involvement in the fields of fossil fuels, controversial weapons, conventional weapons or tobacco production from the Index.

● **How did the sustainability indicators perform?**

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

Indicator	Description	Performance (as at 31.03.2024)
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	0.00%
Exposure to Conventional Weapons	The percentage of the portfolio's market value to companies deriving a specified percentage of revenue from the production and distribution of conventional weapons	0.00%
Exposure to Thermal Coal	The percentage of the portfolio's market value exposed to companies deriving a specified percentage of revenue from exploration mining or refining of Thermal Coal.	0.00%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%
Exposure to Tobacco	The percentage of the portfolio's market value exposed to companies involved with the distribution and/or retail sale of tobacco products.	0.00%

● ***...and compared to previous periods?***

N/A As this is the first reference period that the periodic disclosure for the Sub-Fund is effective, no comparatives are presented.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

N/A – The Sub-Fund did not commit to holding sustainable investments during the reference period. Please note that certain sustainable investments may form part of the Sub-Fund’s investment portfolio.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

How were the indicators for adverse impacts on sustainability factors taken into account?

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

During the financial year, the Manager elected not to consider the principal adverse impacts (PAIs) of the investment decisions taken on behalf of the Sub-Fund on sustainability factors in the manner contemplated by Article 4(1)(a) of the SFDR.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **As of 31st March 2024**

Largest investments	Sector	% Assets	Country
JIO FINANCIAL SERVICES LTD	Financials	9.71%	India
RELIANCE INDUSTRIES LTD	Energy	8.99%	India
ZOMATO LTD	Information Technology	8.98%	India

FSN E-COMMERCE VENTURES LTD	Consumer Discretionary	3.73%	India
INTELLECT DESIGN ARENA LTD	Information Technology	3.48%	India
JUBILANT FOODWORKS LTD	Consumer Discretionary	3.24%	India
INDIAMART INTERMESH LTD	Industrials	3.22%	India
ICICI SECURITIES LTD	Financials	2.61%	India

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

During the financial year 99.97% of the Sub-Fund's net assets were aligned with the promoted environmental characteristics. The remaining proportion of the Sub-Fund's investments included ancillary liquid assets and money market instruments and derivatives which were used for efficient portfolio management purposes.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Sector	weight
Financials	34.59%
Information Technology	26.94%
Consumer Discretionary	14.91%
Communication Services	10%
Energy	8.99%
Industrials	4.6%

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund does not commit to a minimum of sustainable investments aligned with the EU taxonomy. None of the Sub-Fund's investments were aligned with EU Taxonomy.

● Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, during the reference period 0% of the portfolio was invested through enabling activities only.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, during the previous reference period 0% of the portfolio was invested through enabling activities only.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A As this is the first reference period that the periodic disclosure for the Sub-Fund are effective, no comparatives are presented.

What was the share of socially sustainable investments?

N/A – this section is not applicable for this Sub-Fund as it did not commit to holding sustainable investments during the reference period.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Those investments included under “#2 Other”, may include ancillary liquid assets, money market instruments, investments in ETFs authorised as UCITS, futures, currency swaps and currency forwards. It may also include securities which no longer meet the screening criteria described above but will not be removed from the Index until the next Index rebalance. There are no minimum environmental or social safeguards.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Index promotes environmental and social characteristics by excluding companies that fail the screening process for compliance with UN Global Compact principles, in addition to any operational business involvement in the fields of fossil fuels, controversial weapons, conventional weapons or tobacco production from selection for the Index.

How did this financial product perform compared to the reference benchmark?

For the reference period the Sub-Fund has designated the benchmark index as a reference benchmark for the purpose of meeting the environmental or social characteristics promoted by the Sub-Fund. The performance of the Sub-Fund compared to the benchmark index is outlined below.

● How does the reference benchmark differ from a broad market index?

The reference benchmark index provides exposure to a subset of the broad market index and excludes issuers that do not meet its ESG selection criteria from its index. This would differ from a broad market index that may not apply these criteria.

● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

The Sub-Fund achieved the environmental and social characteristics it promoted by replicating the constituents of its benchmark index.

● How did this financial product perform compared with the reference benchmark?

The Sub-Fund performed in line with the reference benchmark. Differences can be caused by variations in the ESG Data Provider's methodologies versus that used for the Reference Index. ESG Data for the Sub-Fund is sourced from the issuer's ESG Data Provider, Clarity AI. The Reference Index data is sourced from Minerva Analytics.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

Indicator	Description	Sub-Fund	Reference Benchmark
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies	0.00%	0.00%

		categorised as having one or more severe controversies related to the United Nations Global Compact principles.		
Exposure to Conventional Weapons		The percentage of the portfolio's market value to companies deriving a specified percentage of revenue from the production and distribution of conventional weapons	0.00%	0.00%
Exposure to Thermal Coal		The percentage of the portfolio's market value exposed to companies deriving a specified percentage of revenue from exploration mining or refining of Thermal Coal.	0.00%	0.00%
Exposure to Controversial Weapons		The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%	0.00%
Exposure to Tobacco		The percentage of the portfolio's market value exposed to companies involved with the distribution and/or retail sale of tobacco products.	0.00%	0.00%

How did this financial product perform compared with the broad market index?

Indicator	Description	Sub-Fund	Broad Market
-----------	-------------	----------	--------------

			Index
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	0.00%	27.11%
Exposure to Conventional Weapons	The percentage of the portfolio's market value to companies deriving a specified percentage of revenue from the production and distribution of conventional weapons	0.00%	18.74%
Exposure to Thermal Coal	The percentage of the portfolio's market value exposed to companies deriving a specified percentage of revenue from exploration mining or refining of Thermal Coal.	0.00%	0.68%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%	10.38%

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Saturna Al-Kawthar Global Focused Equity UCITS ETF ("the Sub-Fund")**

Legal entity identifier: **254900JG5QV3U6DKBS93**

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: ____%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It made **sustainable investments with a social objective**: ____%

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted, among other characteristics, environmental and social characteristics by adopting an actively managed investment strategy for a portfolio of global publicly listed companies that comply with the Principles of Shariah Investment and have in place robust policies in the areas of the environmental, social and governance. The Investment Manager uses an internally developed ESG rating system to identify companies that demonstrate these sustainable characteristics. The Investment Manager will exclude companies that are engaged in business activity such as alcohol, tobacco, pornography, weapons, gambling and fossil fuel extraction.

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

How did the sustainability indicators perform?

Indicator	Description	Performance (as at 31.03.2024)
Exposure to Alcohol	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from alcohol	0.00%
Exposure to Tobacco	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from tobacco	0.00%
Exposure to pork-related products	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from pork-related products	0.00%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from controversial weapons	0.00%
Exposure to Gambling	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from gambling activities	0.00%
Exposure to adult entertainment	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from adult entertainment	0.00%

...and compared to previous periods?

Indicator	Description	Performance (as at 31.03.2023)
Exposure to Alcohol	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from alcohol	0.00%
Exposure to Tobacco	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from tobacco	0.00%
Exposure to pork-related products	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from pork-related products	0.00%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from controversial weapons	1.62%
Exposure to Gambling	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from gambling activities	0.00%
Exposure to adult entertainment	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from adult entertainment	0.00%

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

N/A – The Sub-Fund did not commit to holding sustainable investments during the reference period. Please note that certain sustainable investments may form part of the Sub-Fund's investment portfolio

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

How were the indicators for adverse impacts on sustainability factors taken into account?

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

During the financial year, the Manager elected not to consider the principal adverse impacts (PAIs) of the investment decisions taken on behalf of the Sub-Fund on sustainability factors in the manner contemplated by Article 4(1)(a) of the SFDR.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **31st March 2024**

Largest investments	Sector	% Assets	Country
MICROSOFT CORP	Information Technology	3.89%	United States
TRANE TECHNOLOGIES PLC	Industrials	3.44%	Ireland
TAIWAN SEMICONDUCTOR-SP ADR	Information Technology	3.37%	Taiwan
ELI LILLY & CO	Health Care	3.36%	United States
ASML HOLDING NV	Information Technology	3.19%	Netherlands
BROADCOM INC	Information Technology	3.14%	United States
SIEMENS HEALTHINEERS AG	Health Care	3.07%	Germany
ALPHABET INC-CL A	Communication Services	2.96%	United States
ASTRAZENECA PLC	Health Care	2.94%	United Kingdom
JOHNSON CONTROLS INTERNATION	Industrials	2.91%	Ireland
WOLTERS KLUWER	Industrials	2.9%	Netherlands
CANADIAN PACIFIC KANSAS CITY	Industrials	2.78%	Canada
SCHNEIDER ELECTRIC SE	Industrials	2.75%	France
SERVICENOW INC	Information Technology	2.73%	United States
BOSTON SCIENTIFIC CORP	Health Care	2.73%	United States

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

During the financial year 98.17% of the Sub-Fund's net assets were aligned with the promoted environmental characteristics. The remaining proportion of the Sub-Fund's investments included ancillary liquid assets and money market instruments and derivatives which were used for efficient portfolio management purposes.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Sector	weight
Information Technology	34.33%
Health Care	23.32%
Industrials	19.61%
Communication Services	7.79%
Consumer Discretionary	7.12%
Consumer Staples	6%

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund does not commit to a minimum of sustainable investments aligned with the EU Taxonomy.

● Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, during the reference period 0.88% of the portfolio was invested through enabling activities only.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, during the previous reference period 2.48% of the portfolio was invested through enabling activities only.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A – this section is not applicable for this Sub-Fund as it did not commit to holding sustainable investments during the reference period.

What was the share of socially sustainable investments?

N/A – this section is not applicable for this Sub-Fund as it did not commit to holding sustainable investments during the reference period.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The Sub-Fund predominantly promotes asset allocation in investments that are aligned with environmental and social characteristics (#1 Aligned with E/S characteristics). Those investments included under “#2 Other”, may include ancillary liquid assets in Islamic money market instruments, being Islamic commercial paper or non-interest-bearing Islamic certificates of deposits or deposits with one or more Islamic financial institutions.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The investment objective of the Sub-Fund is to follow an actively managed investment strategy by investing in a portfolio of global publicly listed companies that comply with the Principles of Shariah Investment and have in place robust policies in the areas of the environmental, social and governance. The Investment Manager uses an internally developed ESG rating system to identify companies that demonstrate these sustainable characteristics. The Investment Manager will exclude companies that are engaged in business activity such as alcohol, tobacco, pornography, weapons, gambling and fossil fuel extraction.

How did this financial product perform compared to the reference benchmark?

● **How does the reference benchmark differ from a broad market index?**

The reference benchmark index provides exposure to a subset of the broad market index and excludes issuers that do not meet Islamic Investment principles. This will differ from a broad market index that may not apply these criteria.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The reference benchmark does not take into consideration the environmental, social and governance characteristics which the Investment Manager has in place for the Sub-Fund.

● **How did this financial product perform compared with the reference benchmark?**

Indicator	Description	Sub-Fund	Reference Benchmark
Exposure to Alcohol	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from alcohol	0.00%	0.00 %
Exposure to Tobacco	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from tobacco	0.00%	0.00%

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

Exposure to pork-related products	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from pork-related products	0.00%	0.41%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from controversial weapons	0.00%	0.00%
Exposure to Gambling	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from gambling activities	0.00%	0.00%
Exposure to adult entertainment	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from adult entertainment	0.00%	0.00%

How did this financial product perform compared with the broad market index?

Indicator	Description	Sub-Fund	Broad Market Index
Exposure to Alcohol	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from alcohol	0.00%	3.43%
Exposure to Tobacco	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from tobacco	0.00%	0.58%
Exposure to pork-related products	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from pork-related	0.00%	0.94%

	products		
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from controversial weapons	0.00%	0.18%
Exposure to Gambling	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from gambling activities	0.00%	0.40%
Exposure to adult entertainment	The percentage of the portfolio's market value exposed to companies that derive a specified percentage of revenue from adult entertainment	0.00%	0.00%

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Sprott Copper Miners ESG Screened UCITS ETF ("the Sub-Fund")

Legal entity identifier: 2549001OTGUWJIM12Q68

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** ____%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It made **sustainable investments with a social objective:** ____%

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promotes environmental and social characteristics, including the specific environmental characteristics of reducing exposure to companies in the copper mining industry which have high GHG emissions and high intensity scores or operational involvement in the fields of oil and gas, Arctic oil and gas, oil sands, thermal coal and pesticides and the social characteristic of reducing exposure to controversial weapons. The Sub-Fund will adopt a "passive management" investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it will invest in all of the securities in proportion to the weightings comprising the Nasdaq Sprott Copper Miners ESG Screened Index (the Index), which is comprised of a global investable universe of securities (predominantly publicly listed companies) that are active in the copper mining industry. The Index methodology excludes companies in the copper mining industry which have high GHG emissions and energy intensity scores and do not comply with UN Global Compact principles and/or have any operational business

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

involvement in the fields of controversial weapons, oil and gas, Arctic oil and gas, oil sands, thermal coal, or pesticides from the Index.

● **How did the sustainability indicators perform?**

Indicator	Description	Performance (as at 31.03.2024)
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	0.00 %
Exposure to Arctic Oil and Gas	The percentage of the portfolio's market value exposed to companies with a specified percentage of revenue derived from Arctic Oil and Gas	0.00%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%
Exposure to Pesticides	The percentage of the portfolio's market value exposed to companies with a specified percentage of revenue from the production of Pesticides	0.00%

● **...and compared to previous periods?**

N/A As this is the first reference period that the periodic disclosure for the Sub-Fund are effective, no comparatives are presented.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

N/A – The Sub-Fund did not commit to holding sustainable investments during the reference period. Please note that certain sustainable investments may form part of the Sub-Fund’s investment portfolio.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How were the indicators for adverse impacts on sustainability factors taken into account?

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the financial year, the Manager elected not to consider the principal adverse impacts (PAIs) of the investment decisions taken on behalf of the Sub-Fund on sustainability factors in the manner contemplated by Article 4(1)(a) of the SFDR.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **as of 31st March 2024**

Largest investments	Sector	% Assets	Country
IVANHOE MINES LTD-CL A	Materials	7.58%	Canada

AMMAN MINERAL INTERNASIONAL	Materials	3.35%	Indonesia

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

Asset allocation
describes the share of
investments in specific
assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

During the financial year 99.82% of the Sub-Fund's net assets were aligned with the promoted environmental characteristics. The remaining proportion of the Sub-Fund's investments included ancillary liquid assets and money market instruments and derivatives which were used for efficient portfolio management purposes.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Sector	weight
Materials	99.82%

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

● Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, during the reference period 0% of the portfolio was invested through enabling activities only.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A As this is the first reference period that the periodic disclosure for this Sub-Fund are effective no comparatives are presented

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A – this section is not applicable for this Sub-Fund as it did not commit to holding sustainable investments during the reference period.

What was the share of socially sustainable investments?

N/A – this section is not applicable for this Sub-Fund as it did not commit to holding sustainable investments during the reference period.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Those investments included under “#2 Other”, may include ancillary liquid assets, money market instruments, investments in ETFs authorised as UCITS, futures, currency swaps and currency forwards. It may also include securities which no longer meet the screening criteria described above but will not be removed from the Index until the next Index rebalance. There are no minimum environmental or social safeguards.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Sub-Fund met its environmental and social characteristics by tracking an index that excludes companies in the copper mining industry which have high GHG emissions and energy intensity scores and further excludes companies that fail the screening process for compliance with UN Global Compact principles, in addition to any operational business involvement in the fields of controversial weapons, oil and gas, Arctic oil and gas, oil sands, thermal coal, or pesticides from selection for the Index.

How did this financial product perform compared to the reference benchmark?

For the reference period the Sub-Fund has designated the benchmark index as a reference benchmark for the purpose of meeting the environmental or social characteristics promoted by the Sub-Fund. The performance of the compared to the benchmark index is outlined below.

● **How does the reference benchmark differ from a broad market index?**

The reference benchmark index provides exposure to a subset of the broad market index and excludes issuers that do not meet its ESG selection criteria from its index. This would differ from a broad market index that may not apply these criteria

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Sub-Fund achieved the environmental and social characteristics it promoted by replicating the constituents of its benchmark index. ESG Data for the Sub-Fund is sourced from the issuer's ESG Data Provider, Clarity AI. The Reference Index data is sourced from Sustainalytics.

● **How did this financial product perform compared with the reference benchmark?**

Indicator	Description	Sub-Fund	Reference Benchmark
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as	0.00 %	0.00 %

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

	having one or more severe controversies related to the United Nations Global Compact principles.		
Exposure to Arctic Oil and Gas	The percentage of the portfolio's market value exposed to companies with a specified percentage of revenue derived from Arctic Oil and Gas	0.00%	0.00 %
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%	0.00 %
Exposure to Pesticides	The percentage of the portfolio's market value exposed to companies with a specified percentage of revenue from the production of Pesticides	0.00%	0.00 %

● ***How did this financial product perform compared with the broad market index?***

Indicator	Description	Sub-Fund	Broad Market Index
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more	0.00 %	27.11 %

	severe controversies related to the United Nations Global Compact principles.		
Exposure to Arctic Oil and Gas	The percentage of the portfolio's market value exposed to companies with a specified percentage of revenue derived from Arctic Oil and Gas	0.00%	0.02 %
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%	18.51 %
Exposure to Pesticides	The percentage of the portfolio's market value exposed to companies with a specified percentage of revenue from the production of Pesticides	0.00%	0.30 %

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: Sprott Energy Transition Materials UCITS ETF (“the Sub-Fund”)

Legal entity identifier: 2549009AW7HQ09YPZK18

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** ____%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It made **sustainable investments with a social objective:** ____%

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promotes environmental and social characteristics by seeking to track the Nasdaq Sprott Energy Transition Materials Ex Uranium Index (the Index). The Sub-Fund will adopt a “passive management” investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it will invest in all of the securities in proportion to the weightings comprising the Index, which is comprised of a global investable universe of securities (predominantly publicly listed companies) that are active in the energy transition material industry. The Index methodology excludes companies which do not comply with UN Global Compact principles and/or have any operational business involvement in the fields of controversial weapons, oil and gas, oil sands, thermal coal, or pesticides from the Index.

● **How did the sustainability indicators perform?**

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

Indicator	Description	Performance (as at 31.03.2024)
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%
Exposure to Pesticides	The percentage of the portfolio's market value exposed to companies with a specified percentage of revenue derived from distribution/retail sales	0.00%
Exposure to Oil Sands	The percentage of the portfolio's market value exposed to companies with a specified percentage of revenue derived from oil sand extraction or extraction capacity	0.00%
Violations of the UN Global Compact Principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact Principles	0.00%

● **...and compared to previous periods?**

N/A As this is the first reference period that the periodic disclosure for the Sub-Fund is effective, no comparatives are presented.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

N/A – The Sub-Fund did not commit to holding sustainable investments during the reference period. Please note that certain sustainable investments may form part of the Sub-Fund’s investment portfolio.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

How were the indicators for adverse impacts on sustainability factors taken into account?

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

During the financial year, the Manager elected not to consider the principal adverse impacts (PAIs) of the investment decisions taken on behalf of the Sub-Fund on sustainability factors in the manner contemplated by Article 4(1)(a) of the SFDR.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **[complete]**

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

During the financial year 99.40% of the Sub-Fund's net assets were aligned with the promoted environmental characteristics. The remaining proportion of the Sub-Fund's investments included ancillary liquid assets and money market instruments and derivatives which were used for efficient portfolio management purposes.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Sector	weight
Materials	96.53%
Unclassified	1.98%
Industrials	0.6%
Energy	0.29%

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund does not commit to a minimum of sustainable investments aligned with the EU taxonomy.

● Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, during the reference period 0.32% was invested through enabling activities only.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

N/A As this is the first reference period that the periodic disclosure for the Sub-Fund are effective, no comparatives are presented.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A – this section is not applicable for this Sub-Fund as it did not commit to holding sustainable investments during the reference period

What was the share of socially sustainable investments?

N/A – this section is not applicable for this Sub-Fund as it did not commit to holding sustainable investments during the reference period

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Those investments included under “#2 Other”, may include ancillary liquid assets, money market instruments, investments in ETFs authorised as UCITS, futures, currency swaps and currency forwards. It may also include securities which no longer meet the environmental and/or social criteria described above but will not be removed from the Index until the next Index rebalance. There are no minimum environmental or social safeguards.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Index promotes environmental and social characteristics by excluding companies that fail the screening process for compliance with UN Global Compact principles, in addition to any operational business involvement in the fields of controversial weapons, oil and gas, oil sands, thermal coal, or pesticides from selection for the Index

How did this financial product perform compared to the reference benchmark?

For the reference period the Sub-Fund has designated the benchmark index as a reference benchmark for the purpose of meeting the environmental or social characteristics promoted by the Sub-Fund. The performance of the Sub-Fund compared to the benchmark index is outlined below.

● **How does the reference benchmark differ from a broad market index?**

The Index differs from a broad market index as it seeks to measure the performance of a global investable universe of securities that are active in the energy transition materials industry. The Index includes companies classified by the Index Provider as Energy Transition Materials Producers, Developers, Explorers, Refiners, Smelters, Recyclers or Royalty Companies and which meet the minimum market capitalisation and liquidity requirements and have a primary listing on a stock exchange or regulated market as described in Appendix 1 of the Prospectus. The Index excludes companies for violations of the UN Global Compact principles and any operational business involvement in the fields of controversial weapons, oil and gas, oil sands, thermal coal, or pesticides.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Sub-Fund achieved the environmental and social characteristics it promoted by replicating the constituents of its benchmark index.

● **How did this financial product perform compared with the reference benchmark?**

The Sub-Fund performed in line with the reference benchmark. Differences can be caused by variations in the ESG Data Provider's methodologies versus that used for the Reference Index. ESG Data for the Sub-Fund is sourced from the issuer's ESG Data Provider, Clarity AI. The Reference Index data is sourced from Sustainalytics.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

Indicator	Description	Fund	Reference Index
-----------	-------------	------	-----------------

Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%	0.00%
Exposure to Pesticides	The percentage of the portfolio's market value exposed to companies with a specified percentage of revenue derived from distribution/retail sales	0.00%	0.00%
Exposure to Oil Sands	The percentage of the portfolio's market value exposed to companies with a specified percentage of revenue derived from oil sand extraction or extraction capacity	0.00%	0.00%
Violations of the UN Global Compact Principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact Principles	0.00%	0.00%

● ***How did this financial product perform compared with the broad market index?***

Indicator	Description	Fund	Broad Market Index
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%	0.00%
Exposure to Pesticides	The percentage of the portfolio's market value exposed to companies with a specified percentage of revenue derived from distribution/retail sales	0.00%	0.22%
Exposure to Oil Sands	The percentage of the portfolio's market value exposed to companies with a specified percentage of revenue derived from oil sand	0.00%	0.19%

	extraction or extraction capacity		
Violations of the UN Global Compact Principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact Principles	0.00%	27.11%

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: The Travel UCITS ETF (“the Sub-Fund”)

Legal entity identifier: 254900G2Y5KGL0J24B53

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective:** ____%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It made **sustainable investments with a social objective:** ____%

It promoted E/S characteristics, but **did not make any sustainable investments**

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852 establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

To what extent were the environmental and/or social characteristics by this financial product met?

The Sub-Fund promoted, among other characteristics, environmental and social characteristics by tracking the Solactive Travel Index (the Index). The Sub-Fund adopted a “passive management” investment strategy and will seek to employ a replication methodology, meaning as far as possible and practicable, it invested in all of the securities in proportion to the weightings comprising the Index, which is comprised of a global investable universe of publicly listed companies that are in the travel industry. The Index methodology excluded companies which do not comply with UN Global Compact principles any operational business involvement in the fields of controversial weapons, conventional weapons, tobacco or thermal coal from the Index.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

● **How did the sustainability indicators perform?**

Indicator	Description	Performance (as at 31.03.2024)
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	6.09%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%
Exposure to Tobacco	The percentage of the portfolio's market value exposed to companies involved with the distribution and/or retail sale of tobacco products.	0.00%

● **...and compared to previous periods?**

Indicator	Description	Performance (as at 31.03.2023)
Violations of the UN Global Compact principles	The percentage of the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.	2.73%
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%
Exposure to Tobacco	The percentage of the portfolio's market value exposed to companies involved with the distribution and/or retail sale of tobacco products.	0.00%

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

N/A – The Sub-Fund did not commit to holding sustainable investments during the reference period. Please note that certain sustainable investments may form part of the Sub-Fund's investment portfolio.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

How were the indicators for adverse impacts on sustainability factors taken into account?

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A – the Sub-Fund did not commit to holding sustainable investments during the reference period.

The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How did this financial product consider principal adverse impacts on sustainability factors?

During the financial year, the Manager elected not to consider the principal adverse impacts (PAIs) of the investment decisions taken on behalf of the Sub-Fund on sustainability factors in the manner contemplated by Article 4(1)(a) of the SFDR.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **31 March 2024**

Largest investments	Sector	% Assets	Country
NORWEGIAN CRUISE LINE HOLDIN	Consumer Discretionary	4.9%	Bermuda
INTERCONTINENTAL HOTELS GROU	Consumer Discretionary	4.52%	United Kingdom
ROYAL CARIBBEAN CRUISES LTD	Consumer Discretionary	4.48%	Liberia
DELTA AIR LINES INC	Industrials	4.47%	United States
AIRBNB INC-CLASS A	Consumer Discretionary	4.33%	United States
HILTON WORLDWIDE HOLDINGS IN	Consumer Discretionary	4.23%	United States
TRIP.COM GROUP LTD-ADR	Consumer Discretionary	4.18%	Cayman Islands
RYANAIR HOLDINGS PLC-DI	Industrials	4.07%	Ireland
MARRIOTT INTERNATIONAL -CL A	Consumer Discretionary	4.07%	United States
SOUTHWEST AIRLINES CO	Industrials	3.97%	United States
BOOKING HOLDINGS INC	Consumer Discretionary	3.92%	United States
CARNIVAL CORP	Consumer Discretionary	3.82%	Panama
EXPEDIA GROUP INC	Consumer Discretionary	2.98%	United States
UNITED AIRLINES HOLDINGS INC	Industrials	2.66%	United States
HOST HOTELS & RESORTS INC	Real Estate	2.51%	United States

What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

During the financial year 99.82% of the Sub-Fund's net assets were aligned with the promoted environmental characteristics. The remaining proportion of the Sub-Fund's investments included ancillary liquid assets and money market instruments and derivatives which were used for efficient portfolio management purposes.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective

Transitional activities are economic activities for which low-carbon alternatives are not yet available and that have greenhouse gas emission levels corresponding to the best performance.

● ***In which economic sectors were the investments made?***

Sector	weight
Consumer Discretionary	56.79%
Industrials	35.26%
Real Estate	7.18%
Communication Services	0.59%

To what extent were sustainable investments with an environmental objective aligned with the EU Taxonomy?

The Sub-Fund does not commit to a minimum of sustainable investments aligned with the EU taxonomy. None of the Sub-Fund's investments were aligned with EU Taxonomy.

● Did this financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds*

2. Taxonomy-alignment of investments excluding sovereign bonds*

*For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective- see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **What was the share of investments made in transitional and enabling activities?**

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, during the reference period 0% of the portfolio was invested through enabling activities only.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

While the Sub-Fund has not committed a minimum proportion of investments to transitional and enabling activities, during the previous reference period 0% of the portfolio was invested through enabling activities only.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

N/A – this section is not applicable for this Sub-Fund as it did not commit to holding sustainable investments during the reference period.

What was the share of socially sustainable investments?

N/A – this section is not applicable for this Sub-Fund as it did not commit to holding sustainable investments during the reference period.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

Those investments included under “#2 Other”, may include ancillary liquid assets, money market instruments, investments in ETFs authorised as UCITS, futures, currency swaps and currency forwards. It may also include securities which no longer meet the screening criteria described above but will not be removed from the Index until the next Index rebalance. There are no minimum environmental or social safeguards.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under the EU Taxonomy.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The investment objective of the Sub-Fund was to track the price and the performance, before fees and expenses, of an index that provides exposure to companies in the travel industry. The Index methodology excludes companies, which do not comply with UN Global Compact principles any operational business involvement in the fields of controversial weapons, conventional weapons, tobacco or thermal coal from the Index. Investors should note that whilst the Sub-Fund and the Index sought to ensure compliance with such criteria at each rebalancing or review date, between these reviews or rebalances, securities which no longer met these criteria could remain included in the Index until they were removed at the subsequent rebalancing or review.

How did this financial product perform compared to the reference benchmark?

For the reference period the Sub-Fund has designated the benchmark index as a reference benchmark for the purpose of meeting the environmental or social characteristics promoted by the Sub-Fund. The performance of the Sub-Fund compared to the benchmark index is outlined below.

● **How does the reference benchmark differ from a broad market index?**

The reference benchmark index provides exposure to a subset of the broad market index and excludes issuers that do not meet its ESG selection criteria from its index. This would differ from a broad market index that may not apply these criteria.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

The Sub-Fund achieved the environmental and social characteristics it promoted by replicating the constituents of its benchmark index.

● **How did this financial product perform compared with the reference benchmark?**

The Sub-Fund performed in line with the reference benchmark. Differences can be caused by variations in the ESG Data Provider's methodologies versus that used for the Reference Index. ESG Data for the Sub-Fund is sourced from the issuer's ESG Data Provider, Clarity AI. The Reference Index data is sourced from Minerva Analytics.

Indicator	Description	Sub-Fund	Reference Index
Violations of the UN	The percentage of	6.09%	0.00%

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective.

Global Compact principles	the portfolio's market value exposed to companies categorised as having one or more severe controversies related to the United Nations Global Compact principles.		
Exposure to Controversial Weapons	The percentage of the portfolio's market value exposed to companies involved in development, production, maintenance and trade of controversial weapons.	0.00%	0.00%
