The ICAV has adopted a whistleblowing policy pursuant to the Protected Disclosures Act 2014, as amended which gives legal protection to workers, which includes directors and shareholders, who make disclosures, including protections against dismissal or being penalised by the ICAV. Further details are available in the policy, which is available at no charge upon request.

In respect of Swiss investors, the prospectus, the instrument of incorporation, the key investor information document (KID or KIID), the list of purchases and sales and the latest annual and semi-annual reports can be obtained free of charge from the representative in Switzerland. The representative in Switzerland is 1741 Fund Solutions AG, Burggraben 16, 9000 St. Gallen. The paying agent in Switzerland is Tellco AG, Bahnhofstrasse 4, 6430 Schwyz. In respect of the units offered in Switzerland, the place of performance is the registered office of the representative. The place of jurisdiction is at the registered office of the representative or at the registered office or place of residence of the investor.

### Directors' Report

For the year ended 30 June 2024

---

The Directors submit this report together with the Annual Report and the Audited Financial Statements of Global X ETFs ICAV (the "ICAV"), in each case for the financial year ended 30 June 2024.

#### The ICAV

The ICAV was registered in Ireland, registration number C435449, pursuant to the Irish Collective Asset-management Vehicles Act 2015 (the "ICAV Act") on 20 July 2020 and authorised by the Central Bank of Ireland (the "Central Bank") as an Undertaking for Collective Investment in Transferable Securities pursuant to the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investments in Transferable Securities) Regulations 2019 (S.I. 230 of 2019) (collectively the "UCITS Regulations").

The ICAV is organised in the form of an umbrella fund with segregated liability between Sub-Funds. Each Sub-Fund has a distinct portfolio of investments, and the investment objective and policy of each sub-fund is formulated by Global X Management Company LLC (the "Investment Manager"). At 30 June 2024, the following Sub-Funds were in operation:

<b>Sub-Funds</b>	<b>Central Bank Authorisation Date</b>	<b>Launch date</b>
Global X Video Games & Esports UCITS ETF	24 November 2020	17 December 2020

#### The Sub-Funds

##### *Investment Objective and Policies, and review of business developments*

#### Global X Video Games & Esports UCITS ETF

Global X Video Games & Esports UCITS ETF (the "Sub-Fund") listed on the London stock exchange on 18 December 2020, Deutsche Börse Xetra stock exchange on 4 February 2021, SIX Swiss stock exchange on 16 July 2021 and Borsa Italiana stock exchange on 9 August 2021.

For the year ended 30 June 2024

---

**The Sub-Funds (continued)**

***Investment Objective and Policies, and review of business developments (continued)***

**Global X Video Games & Esports UCITS ETF (continued)**

The investment objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Solactive Video Games & Esports v2 Index (the "Index"). In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the total expense ratio ("TER") and other expenses associated with operating the Sub-Fund. It will do so by investing primarily in a portfolio of equity securities and derivatives that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts and Global Depositary Receipts based on the securities in the Index. By holding each equity security in approximately the same proportion as its weighting in the Index, the Sub-Fund may have exposure to or invest up to 20% of the net asset value of the Sub-Fund in stocks issued by the same body. This limit may be raised to 35% for a single issuer in exceptional market conditions which may include the dominance of a particular issuer in the relevant market. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

**Global X Telemedicine & Digital Health UCITS ETF**

Global X Telemedicine & Digital Health UCITS ETF (the "Sub-Fund") listed on the London stock exchange on 18 December 2020, Deutsche Börse Xetra stock exchange on 4 February 2021, SIX Swiss stock exchange on 16 July 2021 and Borsa Italiana stock exchange on 9 August 2021.

The investment objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Solactive Telemedicine & Digital Health Index (the "Index"). In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. It will do so by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts and Global Depositary Receipts based on the securities in the Index. By holding each equity security in approximately the same proportion as its weighting in the Index, the Sub-Fund may have exposure to or invest up to 20% of the net asset value of the Sub-Fund in stocks issued by the same body. This limit may be raised to 35% for a single issuer in exceptional market conditions which may include the dominance of a particular issuer in the relevant market. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

**Global X Genomics & Biotechnology UCITS ETF**

Global X Genomics & Biotechnology UCITS ETF (the "Sub-Fund") listed on the London stock exchange on 4 November 2021, Deutsche Börse Xetra stock exchange on 11 November 2021, Borsa Italiana stock exchange on 18 November 2021 and SIX Swiss stock exchange on 6 December 2021.

The investment objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Solactive Genomics v2 Index (the "Index"). In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. It will do so by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts and Global Depositary Receipts based on the securities in the Index. By holding each equity security in approximately the same proportion as its weighting in the Index, the Sub-Fund may have exposure to or invest up to 20% of the net asset value of the Sub-Fund in stocks issued by the same body. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

**Global X U.S. Infrastructure Development UCITS ETF**

Global X U.S. Infrastructure Development UCITS ETF (the "Sub-Fund") listed on the London stock exchange on 4 November 2021, Deutsche Börse Xetra stock exchange on 11 November 2021, Borsa Italiana stock exchange on 18 November 2021 and SIX Swiss stock exchange on 6 December 2021.

In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. It will do so by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts and Global Depositary Receipts based on the securities in the Index. By holding each equity security in approximately the same proportion as its weighting in the Index, the Sub-Fund may have exposure to or invest up to 20% of the net asset value of the Sub-Fund in stocks issued by the same body. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

**Global X Renewable Energy Producers UCITS ETF**

Global X Renewable Energy Producers UCITS ETF (the "Sub-Fund") listed on the London, Deutsche Börse Xetra, SIX Swiss, and Borsa Italiana stock exchanges on 9 December 2021.

The investment objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Indxx Renewable Energy Producers v2 Index (the "Index"). In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. It will do so by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts and Global Depositary Receipts based on the securities in the Index. By holding each equity security in approximately the same proportion as its weighting in the Index, the Sub-Fund may have exposure to or invest up to 20% of the net asset value of the Sub-Fund in stocks issued by the same body. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

**Global X Clean Water UCITS ETF**

Global X Clean Water UCITS ETF (the "Sub-Fund") listed on the London and Deutsche Börse Xetra stock exchanges on 9 December 2021 and listed on SIX Swiss and Borsa Italiana stock exchanges on 11 February 2022 and 17 February 2022, respectively.

The investment objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Solactive Global Clean Water Industry v2 Index (the "Index"). In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. It will do so by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts and Global Depositary Receipts based on the securities in the Index. By holding each equity security in approximately the same proportion as its weighting in the Index, the Sub-Fund may have exposure to or invest up to 20% of the net asset value of the Sub-Fund in stocks issued by the same body. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

**Global X Lithium & Battery Tech UCITS ETF**

Global X Lithium & Battery Tech UCITS ETF (the "Sub-Fund") listed on the London and Deutsche Börse Xetra stock exchanges on 9 December 2021 and listed on SIX Swiss and Borsa Italiana stock exchanges on 11 February 2022 and 17 February 2022, respectively.

The investment objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Solactive Global Lithium v2 Index (the "Index"). In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. It will do so by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts and Global Depositary Receipts based on the securities in the Index. By holding each equity security in approximately the same proportion as its weighting in the Index, the Sub-Fund may have exposure to or invest up to 20% of the net asset value of the Sub-Fund in stocks issued by the same body. This limit may be raised to 35% for a single issuer in exceptional market conditions which may include the dominance of a particular issuer in the relevant market. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

**The Sub-Funds (continued)**

***Investment Objective and Policies, and review of business developments (continued)***

**Global X Disruptive Materials UCITS ETF**

Global X Disruptive Materials UCITS ETF (the "Sub-Fund") listed on the London, Deutsche Börse Xetra, and Borsa Italiana stock exchanges on 9 September 2022, and listed on SIX Swiss stock exchange on 12 September 2022.

The investment objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Solactive Disruptive Materials v2 Index (the "Index"). In order to achieve this investment objective, the Sub-Fund will seek to replicate the composition of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. It will do so by investing primarily in a portfolio of equity securities that, as far as possible and practicable, consists of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts and Global Depositary Receipts based on the securities in the Index. By holding each equity security in approximately the same proportion as its weighting in the Index, the Sub-Fund may have exposure to or invest up to 20% of the net asset value of the Sub-Fund in stocks issued by the same body. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

**Global X Nasdaq 100® Covered Call UCITS ETF**

Global X Nasdaq 100® Covered Call UCITS ETF (the "Sub-Fund") listed on the London and Deutsche Börse Xetra stock exchanges on 23 November 2022 and listed on Borsa Italiana and SIX Swiss stock exchanges on 24 November 2022 and 12 April 2023, respectively.

The investment objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the CBOE NASDAQ-100® BuyWrite V2 UCITS Index (the "Index"). In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. The Index each month measures the performance of a portfolio of the equity securities included in the NASDAQ-100® Index (the "Reference Index") while it also "writes" (or sells) a succession of one-month at-the-money covered call options on the securities in the Reference Index, which are held until the expiration dates (i.e., generally the third Friday of the month) (the "Roll Date") and are liquidated at a time-weighted average price of the new call option during the two-hour period beginning at 11:30 Eastern Standard Time ("EST") on the Roll Date. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

**Global X S&P 500® Quarterly Buffer UCITS ETF**

Global X S&P 500® Quarterly Buffer UCITS ETF (the "Sub-Fund") listed on the London and Deutsche Börse Xetra stock exchanges on 23 February 2023 and listed on Borsa Italiana and SIX Swiss stock exchanges on 20 March 2023 and 12 April 2023, respectively.

The investment objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the CBOE S&P 500® 15% WHT Quarterly 5% Buffer Protect Index (the "Index"). The Index seeks to provide similar returns to the S&P 500® Index (the "Reference Index"), with lower volatility and downside risks, in most market environments except for when the U.S. equity market is rallying. In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

**Global X S&P 500® Quarterly Tail Hedge UCITS ETF**

Global X S&P 500® Quarterly Tail Hedge UCITS ETF (the "Sub-Fund") listed on the London and Deutsche Börse Xetra stock exchanges on 23 February 2023 and listed on Borsa Italiana and SIX Swiss stock exchanges on 20 March 2023 and 12 April 2023, respectively.

The investment objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the CBOE S&P 500® 15% WHT Quarterly 9% (-3% to -12%) Buffer Protect Index (the "Index"). The Index seeks to provide similar returns to the S&P 500® Index (the "Reference Index"), with lower volatility and downside risks, in most market environments except for when the U.S. equity market is rallying. In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

**The Sub-Funds (continued)**

***Investment Objective and Policies, and review of business developments (continued)***

**Global X S&P 500® Covered Call UCITS ETF**

Global X S&P 500® Covered Call UCITS ETF (the "Sub-Fund") listed on the London and Deutsche Börse Xetra stock exchanges on 13 July 2023 and listed on Borsa Italiana and SIX Swiss stock exchanges on 20 July 2023 and 3 August 2023, respectively.

The investment objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the CBOE S&P 500® BuyWrite 15% WHT (the "Index"). In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. The Index is comprised of two parts: (1) all the equity securities in the S&P 500® Index ("the Reference Index"); and (2) short (written) call options on up to 100% of the Reference Index. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

**Global X S&P 500® Annual Buffer UCITS ETF**

Global X S&P 500® Annual Buffer UCITS ETF (the "Sub-Fund") listed on the London and Deutsche Börse Xetra stock exchanges on 9 November 2023 and listed on Borsa Italiana and SIX Swiss stock exchanges on 21 November 2023 and 28 November 2023, respectively.

The investment objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the CBOE S&P 500® Annual 15% Buffer Protect Index (the "Index"). The Index seeks to provide similar returns to the S&P 500® Index (the "Reference Index"), with lower volatility and downside risks, in most market environments except for when the U.S. equity market is rallying. In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

**Global X S&P 500® Annual Tail Hedge UCITS ETF**

Global X S&P 500® Annual Tail Hedge UCITS ETF (the "Sub-Fund") listed on the London and Deutsche Börse Xetra stock exchanges on 9 November 2023 and listed on Borsa Italiana and SIX Swiss stock exchanges on 21 November 2023 and 28 November 2023, respectively.

The investment objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the CBOE S&P 500® Annual 30% (-5% to -35%) Buffer Protect Index (the "Index"). The Index seeks to provide similar returns to the S&P 500® Index (the "Reference Index"), with lower volatility and downside risks, in most market environments except for when the U.S. equity market is rallying. In order to achieve this investment objective, the Sub-Fund will seek to replicate the performance of the Index, subject to the deduction of the TER and other expenses associated with operating the Sub-Fund. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

**Global X 1-3 Month T-Bill UCITS ETF**

Global X 1-3 Month T-Bill UCITS ETF (the "Sub-Fund") listed on the London and Deutsche Börse Xetra stock exchanges on 8 December 2023 and listed on Borsa Italiana and SIX Swiss stock exchanges on 9 January 2024.

The investment objective of the Sub-Fund is to provide investment results that closely correspond, before fees and expenses, generally to the price and yield performance of the Solactive 1-3 month US T-Bill Index (the "Index"). In order to achieve this investment objective, the Sub-Fund will track the Index and invest in a portfolio that principally comprises Treasury bills ("T-Bills") issued by the U.S. government. The Sub-Fund invests at least 80% of its total assets in the securities of the Index. The Index is designed to measure the performance of public obligations of the U.S. Treasury that have a remaining maturity of greater than or equal to 1 month and less than 3 months. The Sub-Fund follows a strategy of replicating the Index. The performance of the Sub-Fund is reviewed in detail in the Investment Manager's Report.

***Risk management objectives and policies***

The Directors have identified certain risks arising from the ICAV's holdings. The principal risks and uncertainties which the ICAV faces relate to the use of financial instruments and are listed in Note 7 "Financial risk management". The macro-economic risk related to events arising in Russia and Ukraine is also mentioned on Note 12 "Significant events during the reporting year". The Directors are also aware of these economic and operational risks posed to the ICAV due to ongoing global changes. The Directors continuously monitor these situations and their impact on the ICAV.

For the year ended 30 June 2024

---

**Results**

The results of operations of the ICAV for the financial year are set out in the Statement of Comprehensive Income. A review of the performance of the Sub-Funds for the financial year is included in the Investment Manager's report.

**Significant events during the reporting year**

Significant events during the year under review are disclosed in Note 12 "Significant events during the reporting year".

**Events after the reporting year**

Subsequent events are disclosed in Note 13 "Events after the reporting year".

**Directors**

The Directors as at 30 June 2024 and throughout the financial year are listed in Directors and Other Information on page 3.

**Directors' and Secretary's Interests**

None of the Directors, their families or the Secretary held any interest in the shares of the Sub-Funds during the financial years ended 30 June 2024 and 30 June 2023.

**Transactions involving Directors and ICAV Secretary**

Contracts or arrangements of any significance in relation to the business of the ICAV in which the Directors or the ICAV Secretary had any interest as defined in the ICAV Act, at any time during the years ended 30 June 2024 and 30 June 2023, are disclosed in Note 10 "Related parties and connected persons" in the notes to the financial statements.

**Secretary**

Bradwell Limited held the office of Secretary throughout the financial years ended 30 June 2024 and 30 June 2023.

**Directors' Remuneration**

The ICAV shall be responsible for discharging any fees and expenses of the Directors of the ICAV out of the TER fee. Luis Berruga (resigned as a Director of the ICAV on 13 December 2023) as an employee of the Investment Manager did not receive any remuneration from the ICAV. Robert Oliver (appointed as a Director of the ICAV on 13 March 2024) as an employee of the Sub-investment Manager and director of Global X Management Company (Europe) Limited, does not receive any remuneration from the ICAV. During the year under review, each of the independent non-executive Directors (namely, Mary Canning and Feargal Dempsey) were paid a fixed fee of €20,000, with respect to services provided to the ICAV. Neither of the independent non-executive Directors received variable remuneration.

**Segregated Liability**

The ICAV is an umbrella fund with segregated liability between the Sub-Funds and as such, as a matter of Irish law, the assets of a Sub-Fund will not be exposed to the liabilities of the ICAV's other Sub-Funds.

Segregated liability ensures that the liabilities incurred on behalf of a Sub-Fund will be discharged solely out of the assets of that Sub-Fund and there can generally be no recourse to the other Sub-Funds to satisfy those liabilities.

Each Sub-Fund will be responsible for paying its fees and expenses regardless of the level of profitability. Notwithstanding the foregoing there can be no guarantee or assurance that, should an action be brought against the ICAV in a court of another jurisdiction, that the segregated nature of the Sub-Funds would necessarily be upheld.

**Connected Persons**

Regulation 43(1) of the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations") "Restrictions on transactions with connected persons" states that "A responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length; and b) in the best interest of the unitholders of the UCITS".

As required under regulation 81.4 of the Central Bank UCITS Regulations, the Directors of the Manager (the Responsible Person) are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected persons (as defined in Regulation 42 of the Central Bank UCITS Regulations); and all transactions with a connected persons that were entered into during the financial period to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

Shareholders should note that not all connected persons as defined by the Central Bank UCITS Regulations are deemed related parties as defined by IAS 24 'Related Party Disclosures'. Related parties include the board of Directors, the Manager, and the Investment Manager.

## Global X ETFs ICAV

Directors' Report (continued)

For the year ended 30 June 2024

### *Connected Persons (continued)*

Transactions with related parties during the years ended 30 June 2024 and 30 June 2023 are disclosed in Note 10 "Related parties and connected persons" in the notes to the financial statements.

### *Dividends*

It is intended to declare dividends in respect of the share classes identified as "distributing" classes of the Sub-Funds. Distributions in respect of these classes will be declared on each distribution date, semi-annually, in each year provided that such dates are not business days. The distribution may comprise net income (if any) of the relevant Sub-Fund.

It is not the current intention of the Directors to declare dividends in respect of the share classes identified as "accumulating" classes. The income and earnings and gains of the accumulating classes will be accumulated and reinvested in the Sub-Funds.

During the years ended 30 June 2024 and 30 June 2023, the Directors declared dividends on the distributing classes of the Sub-Funds. The dividends declared are recognised in the "Distribution to shareholders" line of the Statement of Comprehensive Income and Statement of Changes in Equity.

### *Soft Commissions*

There were no soft commission arrangements during the years ended 30 June 2024 and 30 June 2023.

### *Securities Lending*

The ICAV implemented securities lending on 8 April 2021. As at 30 June 2024, the ICAV had the following exposure:

	<b>Lending return BPS</b>	<b>Average loan % AUM</b>	<b>Max loan % AUM</b>	<b>Collateral level % of loan</b>	<b>Current % AUM</b>
Global X Video Games & Esports UCITS ETF	1.990	2.500	12.640	105.230	6.050

**Employees**

The ICAV had no employees throughout the years ended 30 June 2024 and 30 June 2023.

**Future Developments**

The ICAV will seek to add (pending Central Bank approval) additional product offerings during the next financial year. In addition, it will look to continue to market and grow the assets under management within its existing product offering. The ICAV will continue to market in all jurisdictions passported for distribution.

**Accounting Records**

The Directors have ensured that adequate accounting record requirements under Sections 109 to 113 of the ICAV Act have been complied with by outsourcing this function to a specialist provider of such services. The accounting records are held by SEI Investments – Global Fund Services Limited in their office which is located at Styne House, Upper Hatch Street, Dublin 2, Ireland. Effective 1 October 2024, the registered address of SEI Investments – Global Fund Services Limited changed from Styne House, Upper Hatch Street, Dublin 2 to One Charlemont Square, Charlemont Street, Dublin 2.

For the year ended 30 June 2024

---

***Directors' Responsibilities Statement***

The Directors are responsible for preparing the Directors' Report and financial statements in accordance with applicable law and regulations.

The ICAV Act requires the Directors to prepare financial statements for each financial year. Under that law they have elected to prepare the financial statements in accordance with International Financial Reporting Standards ("IFRS") as adopted by the European Union.

The financial statements are required to give a true and fair view of the assets, liabilities and financial position of the Sub-Funds at the end of the financial year and of the increase/(decrease) in net assets attributable to holders of redeemable participating shares in the Sub-Funds for the financial year. In preparing these financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether applicable Accounting Standards have been followed, subject to any material departures disclosed and explained in the financial statements;
- assess the Sub-Funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern; and
- use the going concern basis of accounting unless they either intend to liquidate the Sub-Funds or to cease operations, or have no realistic alternative but to do so.

The Directors are responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the assets, liabilities, financial position and increase or decrease in net assets attributable to holders of redeemable participating shares in the Sub-Funds and enable them to ensure that the financial statements comply with the ICAV Act and the UCITS Regulations. They have general responsibility for taking such steps as are reasonably open to them to safeguard the assets of the Sub-Funds. In this regard, they have entrusted the assets of the Sub-Funds to a depositary for safekeeping. They are responsible for such internal controls as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error, and to prevent and detect fraud and other irregularities. The Directors are also responsible for preparing a Directors' Report that complies with the requirements of the ICAV Act.

The financial statements are published on the Manager's website: <https://globalxetfs.eu>. The Directors, together with the Investment Manager and Manager, are responsible for the maintenance and integrity of the corporate and financial information included on the Investment Manager's website in so far as it relates to the ICAV. Legislation in the Republic of Ireland governing the presentation and dissemination of the financial statements may differ from legislation in other jurisdictions.

For the year ended 30 June 2024

---

**Corporate Governance**

The ICAV is subject to compliance with the requirements of the ICAV Act, the Undertaking for Collective Investment in Transferable Securities pursuant to the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011, and the Central Bank UCITS Regulations. During the year under review, the ICAV was subject to corporate governance imposed by:

- i. The ICAV Act which can be obtained at <https://www.irishstatutebook.ie/>;
- ii. The Instrument of Incorporation of the ICAV which is available for inspection at the registered office of the ICAV at 10 Earlsfort Terrace, Dublin 2, Ireland; and
- iii. The Central Bank UCITS Regulations which can be obtained from the Central Bank's website at: <http://www.centralbank.ie/regulation/industry-sectors/funds/ucits/Pages/default.aspx> and is available for inspection at the registered office of the ICAV.
- v. The London Stock Exchange through the London Stock Exchange Rule book which can be obtained from the London Stock Exchange's website at <http://www.londonstockexchange.com/>. The Deutsche Börse Exchange through the Deutsche Börse Exchange Rule book which can be obtained from the Deutsche Börse website at <https://www.xetra.com/xetra-en/>.
- vi. The Irish Funds, formally Irish Funds Industry Association, Corporate Governance Code for Collective Investment Schemes and Management Companies (December 2011) which can be found at <http://www.irishfunds.ie/regulatory-technical/corporate-governance>.

**Compliance with the Irish Corporate Governance Code**

The Directors have adopted the voluntary Irish Funds (formerly Irish Funds Industry Association) ("IFIA") Corporate Governance Code for Irish domiciled Collective Investment Schemes and Management Companies, issued 14 December 2011 (the "Code"). The Directors have reviewed and assessed the measure included in the Code and consider its corporate governance practices and procedures since the adoption of the Code as consistent therewith.

The Code provides a framework for the organisation and operation of funds to ensure that funds operate efficiently and in the interests of shareholders.

The Board considers that the ICAV has complied with the main provisions contained in the Code throughout this accounting period and that it complies with the various other corporate governance requirements prescribed by the legislation noted above.

**Relevant Audit Information**

The Directors believe that they have taken all steps necessary to make themselves aware of any relevant audit information and have established that the ICAV's statutory auditors are aware of that information. In so far as they are aware, there is no relevant audit information of which the ICAV's statutory auditors are unaware.

**Independent Auditors**

The auditor, PricewaterhouseCoopers, Chartered Accountants and Statutory Audit Firm were appointed as statutory auditor on 14 May 2021 in accordance with Section 125 of the ICAV Act, have expressed their willingness to continue act as auditors of the ICAV.

On behalf of the Board of Directors:

---

**Investment objective**

Where a Sub-Fund's objective is to deliver a return based on the performance of an Index, it may either "track" or "replicate" the Index in question.

**Sub-Fund performance, tracking difference and tracking error**

In "tracking" the performance of an Index, the Investment Manager does not necessarily seek to replicate the composition of the Index (i.e. the full list of constituents in the same or substantially the same proportions as they are weighted within the Index). Instead, the Investment Manager is simply aiming to track the performance of the Index. The Investment Manager may use one or more techniques (including a combination thereof) to track the performance of an Index including (i) optimisation/sampling techniques whereby direct investments are made in physical assets and (ii) the use of FDIs such as OTC Swaps whereby a financial counterparty is engaged contractually to provide the return of the relevant Index. Optimising techniques enable a Sub-Fund to invest in (or gain exposure to) either a representative sample of Index constituents and/or assets unrelated to the Index constituents in each case where the relevant Investments (when taken together) resemble the risk and return characteristics of constituents of the Index or of the Index as a whole.

These techniques will also enable the Investment Manager to reflect anticipated changes in an Index in the Sub-Fund's portfolio (resulting in for example, Index constituents and corporate actions being reflected in the Sub-Fund's portfolio, Index constituents being sold or purchased in anticipation of those constituents being included or removed from the relevant Index, or weightings of Index constituents (vis-à-vis the actual Index composition) being varied).

In "replicating" the performance of an Index, the Investment Manager will seek to invest in (or gain exposure to) all Index constituents in the same or substantially the same proportions as they are weighted within the Index.

"Tracking error" can be defined as the volatility of the difference between the return of an Index Fund which tracks/replicates an Index versus the return of the relevant Index which it tracks or replicates, whereas "tracking difference" can be defined as the total return difference between such an Index Fund and the relevant Index which it tracks or replicates over a certain period of time.

Unless otherwise stated, an Index Fund is not expected to track the performance of its Index at all times with perfect accuracy and there can be no assurance that any Index Fund will achieve any particular level of accuracy in tracking or replicating an Index. Each Index Fund that seeks to track or replicate an Index is, however, expected to provide investment results that, before fees and expenses are applied, generally correspond to the price and yield performance of its Index.

Cash management, efficient portfolio management techniques including securities lending, transaction costs from rebalancing and currency hedging can have an impact on tracking difference. Importantly, these impacts can be either positive or negative depending on the underlying circumstances.

For the year ended 30 June 2024

\*Sub-Funds do not have 1 Year track record. Performance, index return, tracking difference and tracking error since inception have been provided.

For the year ended 30 June 2024

---

**Sub-Fund performance, tracking difference and tracking error (continued)**

Commentary for Sub-Fund with tracking error above anticipated tracking error is set forth below:

**Global X Renewable Energy Producers UCITS ETF**

The Sub-Fund's elevated tracking error over one year is entirely due to a fund constituent (Neoen SA) being fair valued for one day on May 30<sup>th</sup>, leading to the Sub-Fund outperforming by 0.80% on May 30<sup>th</sup> and underperforming the following day by 0.82%.

**Sub-Fund Review:**

**Global X Video Games & Esports UCITS ETF**

The Sub-Fund delivered positive returns over the reporting period. The gaming industry continues to face pressures from various factors, including divided consumer attention, higher inflation, rigid macro conditions, and the end of flexible remote work policies. While the core gamer base maintains positive spending levels, the casual gaming audience has not driven revenues and growth as much as expected. However, after a positive year in terms of net gaming sales in 2023, the US video game spending continued to grow in 2024, driven by game content spending. Overall, the gaming industry does not appear to have emerged from its post-pandemic rough patch yet. There have been a few select instances of growth, driven by new hardware launches or post-hardware purchase content spending, but secular tailwinds have cooled off, and the industry has struggled to retain the attention and spending of casual gamers.

**Global X Telemedicine & Digital Health UCITS ETF**

The Sub-Fund delivered negative returns over the reporting period. With the rise in interest rates, fund constituents have been negatively impacted, and the overall sector has not attracted as much interest as other themes such as AI over this reporting period. Beyond the broad macroeconomic impacts on the sector, there have been some catalysts, such as Hims & Hers offering injectable GLP-1 drugs through its platform, and Masimo receiving FDA approval for its Internet of Things baby monitor, to be purchased without a prescription. As investors focus more on profitability in the higher interest rate environment, it is integral for companies in this theme to demonstrate this and improve their operational efficiency.

**Global X Genomics & Biotechnology UCITS ETF**

The Sub-Fund delivered negative returns over the reporting period. Given the theme tends to be longer duration, with growth factored in further in the future, it has been more sensitive to the rise in interest rates relative to other sectors. Longer term, there are positives around the US FDA's approval of more genomic medicines and expansion of approvals of already-marketed drugs. Going forward, M&A activity could also provide a catalyst for some of the holdings in the Sub-Fund, with a lot of 'dry powder' that has not yet been deployed in the pharmaceutical sector.

**Global X U.S. Infrastructure Development UCITS ETF**

The Sub-Fund generated a positive return over the reporting period as engineering and construction companies announced higher profits, benefitting from cost reductions from technological advancements. Despite ongoing market volatility and the impact of tighter monetary policies globally, the Sub-Fund's exposure to essential materials and infrastructure-related companies helped mitigate downside risks. These sectors remained relatively resilient to economic fluctuations, providing stable returns. Legislative support continued to boost U.S. infrastructure development during the period, with state-level funding from the Infrastructure Investment and Jobs Act (IIJA) reaching \$454 billion for over 57,000 projects by June 2024. Private investments in semiconductors, EVs, batteries, and cleantech grew to \$652 billion by June 2024. The CHIPS Act also advanced, with the Department of Commerce announcing \$6.14 billion in funding for Micron's fabs in New York and Idaho, and \$6.6 billion for TSMC's fabs in Arizona, potentially creating 40,000 construction jobs.

**Global X Cloud Computing UCITS ETF**

The Sub-Fund delivered a return that was just negative over the reporting period. Some challenging quarterly results, particularly from larger constituents like Salesforce, indicated a slowdown in the sales cycle and a tougher period as companies rationalised costs amidst the economic outlook. Salesforce missed its revenue forecast for the first time since 2006, which resulted in a large single-day decline for it and other cloud-related companies. Nevertheless, some of the smaller companies in the Sub-Fund continue to deliver impressive growth amidst the tougher economic backdrop. Investors are increasingly looking beyond revenue growth and assessing profitability.

For the year ended 30 June 2024

---

**Sub-Fund Review (continued):**

**Global X E-commerce UCITS ETF**

The Sub-Fund delivered strong growth over the reporting period, with the e-commerce sector regaining momentum, driven by strong consumer spending, cooling inflation, and a robust economic environment. Major e-commerce platforms have also successfully diversified their revenue streams, particularly through advertising, and implemented aggressive cost-cutting measures, resulting in improved bottom-line performance. Amazon, the industry leader, continued to grow its online sales, although its ads business did not grow as much as expected in the final quarter. There are signs that consumers are willing to wait longer for cheaper goods, as companies like Temu and Shein have performed well, which has seen Amazon plan the launch of a discount store. Emerging markets are also showing promising signs of growth in the e-commerce sector and consumption trends normalize. Finally, one of the largest holdings in the portfolio, GoDaddy, had a strong period and was added to the S&P 500.

**Global X FinTech UCITS ETF**

The Sub-Fund delivered strong double-digit returns over the reporting period. While the final quarter of the reporting period saw relatively weak performance, the Sub-Fund delivered strong returns in the first three quarters. This weakness can be attributed to slower earnings growth relative to other areas of the market, such as internet platforms and AI. However, sentiment remains positive with expectations of a rebound in valuations, as well as M&A and capital market activities. Coinbase was one of the strongest performers over the reporting period, benefitting from positive sentiment around bitcoin and cryptocurrency, following the SEC's approval of the spot bitcoin ETFs.

**Global X CleanTech UCITS ETF**

The Sub-Fund generated negative returns over the reporting period, as companies within the cleantech theme continued to face headwinds from the high interest rate environment, slow and complex permitting processes throughout the United States and Europe, and subsequent dampened demand. The high interest rate environment, as well as shifting policies, continued to weigh particularly hard on residential solar power demand in key markets such as Europe and the United States. More generally, demand for cleantech, particularly residential solar, is unlikely to improve significantly until interest rates begin to decline. As a result, companies are likely to continue looking for ways to limit expenses while also positioning themselves for when market conditions begin to improve. Over the long-term, supportive climate change and renewables policy landscapes, expected tech advancements, and renewables' cost-competitiveness all continue to underpin the positive potential growth outlooks.

**Global X Robotics & Artificial Intelligence UCITS ETF**

The Sub-Fund performed well over the reporting period. Nvidia, the largest holding in the portfolio, was the standout performer in the year, benefitting from continued growth in the demand for AI chips and infrastructure. This was evidenced through the Capital Expenditure of other companies in the 'Magnificent 7', which has increased significantly in 2023 and 2024 because of greater spending on artificial intelligence capabilities. Robotics saw continued demand - manufacturing companies in the United States invested heavily in automation: total industrial robot installations in 2023 rose by 12% to reach 44,303 units.

**Global X Cybersecurity UCITS ETF**

The Sub-Fund delivered a strong positive return over the reporting period. Cybersecurity remains a top strategic priority for CEOs worldwide, with awareness of its importance growing after several large corporate cyberattacks during the year and with the ongoing shift of data to the cloud. Advancements in AI represent a new challenge to cybersecurity, as attacks grow in sophistication, but also an opportunity, as cybersecurity companies utilise AI to create solutions. Valuations have been supported by continued earnings growth in the sector and M&A activity, including Thoma Bravo's takeover offer for Darktrace, one of the portfolio's holdings. CrowdStrike, one of the largest holdings in the Sub-Fund, enjoyed a standout year which culminated in its inclusion in the S&P 500 index.

For the year ended 30 June 2024

---

**Sub-Fund Review (continued):**

**Global X Autonomous & Electric Vehicles UCITS ETF**

The Sub-Fund delivered negative returns over the reporting period. The Autonomous and Electric Vehicles theme has consolidated, with the number of electric vehicles sold globally in 2023 continuing to grow, albeit at a slower rate than prior years. Some carmakers have been caught in the transition between Internal Combustion Engine (ICE) vehicles and EVs, with the former still seeing demand and being more profitable, but the latter increasing in market share. There appears to be a trend of greater volume but lower margins worldwide, particularly as Chinese automakers such as BYD have emerged with significant production. The imposition of tariffs by the US and EU are a recognition of this significant production as well as the 'threat' that Chinese automakers pose to local companies in these two regions. Looking forward, the key will be how US and European automakers can adapt.

**Global X Internet of Things UCITS ETF**

The Sub-Fund delivered a positive return over the reporting period. Growing conversations around the adoption of AI devices as well as a looming smartphone upgrade cycle has benefitted the IoT theme, with select stocks delivering strong returns in anticipation of improved sales and earnings. Meanwhile, other core drivers such as growing demand for connectivity, data collection, measurement, and analytics also remain robust. For example, Samara delivered strong year-on-year sales growth in its annualised subscription revenues and profitability. Earnings have been robust in areas like medical devices as well, with companies like Dexcom recording strong year-on-year sales growth in both domestic and international segments. Legislative efforts like the CHIPS Act and investments in automation and industrial sectors further support ancillary investments in sensing, processing, and other IoT systems.

**Global X Copper Miners UCITS ETF**

The Sub-Fund delivered significant returns over the reporting period. China's effort on energy transition, particularly in the electric vehicles (EVs) and renewables sectors, has mitigated cyclical demand difficulties in the copper market. Supply disruptions in South America exacerbated the fear of copper shortage leading to a spike in the spot price. After First Quantum's closure of their Cobre Panama mine, Codelco, the leading producer of copper, has reported a decrease in production as a result of lower-grade ore at its ageing mines in Chile. MMG's Las Bambas Copper Mine experienced renewed protests in Peru. The Chinese-owned copper mine in Peru, which has been repeatedly affected by road blockades from local people, faced new interruptions after a year of relative stability. Tight copper concentrates supply allowed miners to sign contracts through the second half of the decade at particularly favourable conditions.

**Global X Renewable Energy Producers UCITS ETF**

The Sub-Fund experienced negative returns over the reporting period due to the U.S. Federal Reserve's inflation control measures, which increased costs across the renewable energy value chain and pressured stock valuations. Higher borrowing costs made it more expensive for utilities to finance new projects, leading to delays in utility company projects and impacted residential solar demand, particularly in Europe and the U.S. China's renewables market faced economic challenges. Despite these headwinds, strong corporate demand for renewable energy through long-term power purchase agreements provided some revenue stability. Additionally, rising global data centre energy consumption emphasized the importance of innovation in renewable energy to reduce environmental impacts and dependency on non-renewable sources during peak demand hours.

**Global X Clean Water UCITS ETF**

The Sub-Fund generated positive returns over the reporting period as continued investment into water technology strengthened the resilience of the sector against the broader macroeconomic environment. The substantial industrial allocation lifted performance. Manufacturers of water control, purification, and advanced water products continued to benefit from relatively strong construction activity in the United States, as well as policy tailwinds from water program funding within the Infrastructure Investment and Jobs Act (IIJA). In total, the IIJA devotes \$55 billion towards renovating water infrastructure, replacing lead pipes, investments into desalination, water conservation efforts, and water recycling. The IIJA is the largest investment in water the United States has ever seen. The sizeable Utilities allocation has also contributed positively to performance. Compressed utilities valuations, as well as the potential for interest rate cuts towards the end of the year, could bring more water management companies back into favour with investors over the coming quarters.

For the year ended 30 June 2024

---

**Sub-Fund Review (continued):**

**Global X Lithium & Battery Tech UCITS ETF**

The Sub-Fund delivered negative returns over the reporting period. Global EV sales growth in 2023 and into 2024 was not as strong as previously forecasted, which led to slower-than-expected lithium demand growth. At the same time, the record-high price environment through the end of 2022 and robust EV sales growth forecasts led to a quick expansion of lithium supplies. This has created an environment where there's an oversupply of lithium, resulting in a significant decline in lithium prices over the past 18 months. Moreover, the EU imposed 38% tariffs on Chinese EV producers, and the US also announced new tariffs for EVs and EV components from China, adding to bearish pressure.

**Global X Data Center REITs & Digital Infrastructure UCITS ETF**

The Sub-Fund delivered strong double-digit returns over the reporting period. Driven by growing demand for AI computing power and infrastructure from hyperscalers such as Google Cloud, Amazon AWS and Microsoft Azure, data centres have experienced strong earnings growth over the reporting period. While there are some environmental concerns around the amount of power consumed by AI, data centre companies are exploring options such as renewable energy. Amazon has recently purchased a nuclear-powered data centre, suggesting that nuclear power may also form a logical solution to these concerns going forward. Overall, with management commentary from the Magnificent 7 suggesting that they are looking to increase their capital expenditure in FY25 with a view to more AI-related spending, there will continue to be strong demand, with supply being more of a determining factor.

**Global X Blockchain UCITS ETF**

The Sub-Fund delivered significant positive returns over the reporting period, driven by multiple catalysts. Firstly, the US SEC's approval of the listing of spot bitcoin ETFs resulted in the significant appreciation of the bitcoin price, with spot bitcoin ETFs attracting large inflows. Bitcoin and cryptocurrency mining companies rose as a result, as they are leveraged to the bitcoin price. Post-reporting period, the US SEC has also approved the listing of spot Ethereum ETFs. Secondly, bitcoin miners have also been able to rent out excess computing power to AI developers and users. This has enabled these companies to benefit from the growing demand in the AI space.

**Global X Hydrogen UCITS ETF**

The Sub-Fund generated negative returns over the reporting period. Companies involved in the manufacturing of hydrogen fuel cells faced challenges in controlling expenses, as hydrogen costs surged near historical highs. High production costs remained a significant barrier, particularly for green hydrogen, which relies on renewable energy sources. Despite technological advancements, the cost competitiveness of green hydrogen compared to traditional fossil fuels and even blue hydrogen (produced from natural gas with carbon capture) was still a major hurdle. The global economic environment, characterised by high inflation and rising interest rates, further exacerbated these cost challenges, making financing new hydrogen projects more difficult. The increasing prices of raw materials also made electrolyzers costly for hydrogen-producing companies, resulting in a negative impact on their revenue streams.

Despite these challenges, the sector witnessed some positive signals. Corporate commitments to hydrogen adoption increased, with several multinational companies announcing plans to integrate hydrogen into their operations as part of broader decarbonization strategies. Hydrogen company Nel ASA has been moving forward with expansion plans, including in the United States, with management stating that they "are ready and well positioned to scale up production capacity significantly as soon as the demand picks up". During May 2024, the Department of Energy's Loan Programs Office announced a conditional commitment to Plug Power's subsidiary for up to \$1.66 billion in a loan that will help finance the construction of six clean hydrogen production facilities. The facilities will use Plug Power's electrolyser technology.

For the year ended 30 June 2024

---

**Sub-Fund Review (continued):**

**Global X Wind Energy UCITS ETF**

The Sub-Fund generated negative returns over the reporting period. Challenges persisted throughout 2023 and into 2024, with high interest rates and inflation keeping financing costs elevated, delaying project development, particularly for smaller developers. Despite these issues, corporate commitments to wind energy remained robust, with major companies entering long-term power purchase agreements (PPAs), ensuring a stable demand base and supporting the financial viability of new wind projects. In 2024, Offshore wind projects advanced significantly, with Europe leading in new projects and capacity auctions. The U.S. also progressed with new projects on the East Coast. Wind power turbine maker Nordex for example secured 3,357MW of turbine orders over H1 2024 – a 27% increase over H1 2023. The newly elected labour government in the UK has announced up to £500 million per year of public investments into low-carbon industries such as wind and solar energy, and carbon capture from 2026. Infrastructure reforms are also on the agenda, with plans to accelerate the construction of clean energy infrastructure and housing projects. Similarly, in France the surprise win by the leftist Nouveau Front Populaire (NFP) is likely to see increasing investments into wind energy capacity.

**Global X Solar UCITS ETF**

The Sub-Fund generated negative returns during the reporting period, as companies throughout the solar power value chain faced lower-than-expected demand. Both solar equipment manufacturers and project developers experienced dampened residential and commercial solar demand in key markets such as the U.S. and China. Additionally, the continuous expansion of production capacity across the solar equipment value chain raised fears of overcapacity among investors. For example, when discussing earnings throughout 2024, solar power component manufacturer SolarEdge noted that they “did not expect significant changes in the residential market as long as interest rates and electricity prices remain at elevated levels. More generally, demand for cleantech, particularly residential solar, is unlikely to improve significantly until interest rates begin to decline. As a result, companies are likely to continue looking for ways to limit expenses while also positioning themselves for when market conditions begin to improve. Leading solar inverter manufacturer SMA Solar Technology “is positioning itself to be prepared for a quick turnaround in the Home and Commercial and Industrial segments. Moreover, project delays and rising capital costs negatively impacted the growth prospects of these companies. Lastly, the slow permitting processes continued to remain a challenge for solar power project developers, including in the U.S. and European Union. The newly elected labour government in the UK has announced up to £500 million per year of public investments into low-carbon industries such as wind and solar energy, and carbon capture from 2026. Infrastructure reforms are also on the agenda, with plans to accelerate the construction of clean energy infrastructure and housing projects. Similarly, in France the surprise win by the leftist Nouveau Front Populaire (NFP) is likely to see increasing investments into wind energy capacity.

**Global X SuperDividend® UCITS ETF**

The Sub-Fund generated positive returns over the reporting period. Dividend stocks delivered a mixed performance, influenced heavily by the rising interest rate environment. High-yield sectors like utilities and real estate faced pressure due to increased borrowing costs, which impacted their ability to finance projects and put pressure on dividends. However, sectors like energy and financials contributed positively, with companies in these industries benefiting from elevated inflation and rates which led to strong cash flows, enabling consistent dividend pay-outs.

**Global X AgTech & Food Innovation UCITS ETF**

The Sub-Fund generated negative returns over the reporting period as the agriculture technology industry experienced a decline in capital investments. Inflationary pressures remained persistent, and rising borrowing costs further strained consumer purchasing power, leading to increased purchases of cheaper versions of staples. Fertiliser companies struggled with profits in their earnings releases as prices for fertilisers remain low. Precision agriculture saw a boost with the integration of AI and IoT, optimizing crop yields and resource use. Vertical farming continued to expand, with new facilities opening in urban areas to reduce food miles and ensure year-round production. Additionally, investments in biotech solutions for pest control and soil health gained traction. Companies in the plant-based food sector continued to face challenges in reducing costs and experienced decreased profit margins.

For the year ended 30 June 2024

---

**Sub-Fund Review (continued):**

**Global X Uranium UCITS ETF**

The Sub-Fund delivered significant positive returns over the reporting period. Notable tailwinds on demand continued from government support globally, and countries such as India, Indonesia, Sweden and South Africa further announced their willingness to develop or extend nuclear energy capacity. Focusing on the US, the Biden administration asked US suppliers for offers to buy \$2.7 billion in domestically enriched uranium, and the US Senate enacted Advanced Nuclear for Clean Energy (ADVANCE) to speed up permitting and create incentives for advanced nuclear reactor technologies to deploy nuclear energy capacity. According to a survey, US public support for nuclear energy was at a historic high. Despite differences in energy policies, many in Europe were rallying behind the idea of resuming nuclear power initiatives.

**Global X Silver Miners UCITS ETF**

The Sub-Fund delivered significant returns over the reporting period. The demand for silver far outpaced supply in 2023 and into the first half of 2024, continuing a trend that began three years ago. Strong demand from industrial uses is the bedrock of silver's fundamentals, that kept climbing in 2023 and set a new record. Chinese markets, including the world's largest solar farm coming online in northwestern Xinjiang, particularly supported the market. During the reporting period, silver's deficit conditions were exacerbated by a slow supply.

**Global X Disruptive Materials UCITS ETF**

The Sub-Fund delivered negative returns over the reporting period. Although sales of electric vehicles (EVs) continued to be strong, they were unable to match the remarkable year-over-year (YoY) growth rates that have been seen in recent years. The depletion of cathode companies' stockpile, excess EV production capacity, and inventory accumulation led to a lacklustre demand for battery materials. The market overstock and upstream expansions combined with this caused a significant weakening of battery raw material prices in 2023. Moreover, the EU imposed 38% tariffs on Chinese EV producers, and the US also announced new tariffs for EVs and EV components from China, adding to bearish pressure.

**Global X Nasdaq 100® Covered Call UCITS ETF**

The Sub-Fund invests in the underlying stocks of the Reference Index and "writes" or "sells" corresponding at-the-money call options on the same index. The strategy tends to produce higher levels of income in volatile and uncertain times when it can potentially collect higher option premiums. During the reporting period, the Sub-Fund experienced positive performance. As the adoption of new machine learning platforms and advancements in artificial intelligence (AI) technology resulted in valuation expansions for technology sector constituents within the Sub-Fund.

Increasing optimism surrounding a potential Federal Reserve rate cut and U.S. market price appreciation in the second quarter of 2024 led volatility, as denoted by all four of the major domestic equity indices' primary volatility gauges, to recede to levels rarely seen in the post-pandemic era. The Cboe Volatility Index (VIX) and the Nasdaq 100 Volatility Index (VXN), in particular, established lows of 11.86 and 13.59, respectively, on 21<sup>st</sup> May and 12<sup>th</sup> June. This signal of confidence and bullish sentiment put pressure on the premium values that were attained by the covered call suite of funds. The Sub-Fund underperformed its Reference Index during the reporting period since its covered call strategy forfeits upside potential to generate options premiums. However, it has performed strongly during corrections along the way, and we have witnessed a recent yield pick up as a result of recent volatility pick up.

Covered call strategies could provide an alternative source of income versus bonds offering different risk/return characteristics in addition to upside participation in equity markets. Covered calls could also act as additional diversifier to a heavily weighted information technology portfolio and provide an alternative way of sourcing income during a rangebound market environment or during an equity sector rotation.

For the year ended 30 June 2024

---

**Sub-Fund Review (continued):**

**Global X S&P 500® Quarterly Buffer UCITS ETF**

Implementing a defined outcome strategy, the Sub-Fund aims to protect against the first 5% of losses on the S&P 500 index through the purchase of a put spread each quarter. Additionally, by writing calls, the strategy aims to minimize the cost of the put spread, resulting in a capped maximum gain each quarter. The Sub-Fund generated positive returns over the reporting period. Notably, during the autumn 2023 correction, the strategy buffered downside of the S&P 500 index and participated in the subsequent upside, up to a specified cap.

**Global X S&P 500® Quarterly Tail Hedge UCITS ETF**

Implementing a defined outcome strategy, the Sub-Fund aims to provide a 9% buffer on the S&P 500 index after the first 3% of losses on the same index through the purchase of a put spread each quarter. Additionally, by writing calls, the strategy aims to minimize the cost of the put spread, resulting in a capped maximum gain each quarter. The Sub-Fund generated positive returns over the reporting period. Notably, during the autumn 2023 correction, the strategy buffered downside of the S&P 500 index and participated in the subsequent upside, up to a specified cap.

**Global X S&P 500® Covered Call UCITS ETF**

The Sub-Fund follows a synthetic strategy, in which the Sub-Fund seeks to replicate a buy-write index by selling covered calls, with underlying equity exposure designed to match constituents of the S&P 500 Index. The Cboe S&P 500 BuyWrite 15% WHT Index (BXMU Index) tracks the performance of a hypothetical call strategy portfolio consisting of a "long" position indexed to the S&P 500 NTR 15% USD Index ("SPX15UN") and a short European-Style at the money S&P 500 Index ("SPX") Call option position expiring monthly.

Increasing optimism surrounding a potential Federal Reserve rate cut and U.S. market price appreciation in the second quarter of 2024 led volatility, as denoted by all four of the major domestic equity indices' primary volatility gauges, to recede to levels rarely seen in the post-pandemic era. The Cboe Volatility Index (VIX) and the Nasdaq 100 Volatility Index (VXN), in particular, established lows of 11.86 and 13.59, respectively, on 21<sup>st</sup> May and 12<sup>th</sup> June. This signal of confidence and bullish sentiment put pressure on the premium values that were attained by the covered call suite of funds.

Covered call strategies could provide an alternative source of income versus bonds offering different risk/return characteristics in addition to upside participation in equity markets. Covered calls could also act as additional diversifier to a heavily weighted information technology portfolio and provide an alternative way of sourcing income during a rangebound market environment or during an equity sector rotation.

**Global X S&P 500® Annual Buffer UCITS ETF**

The Sub-Fund seeks to replicate the returns of the S&P 500 Annual 15% Buffer Protect Index while buffering investors against the first 15% of annual losses. The Sub-Fund seeks to achieve this outcome through buying and selling put options and selling out-of-the-money call options on the same index. The Sub-Fund enables investors to participate in the growth of the S&P 500, up to a cap. Through its defined outcome strategy, the Sub-Fund increases the potential to reduce downside equity within a strategic allocation. The Sub-Fund was launched in November 2023 and has generated positive returns since inception.

**Global X S&P 500® Annual Tail Hedge UCITS ETF**

The Sub-Fund seeks to replicate the returns of the S&P 500 Annual 30% (-5% to -35%) Buffer Protect Index, up to a cap, while buffering investors against 30% of the losses after the first 5% of annual losses. The Sub-Fund seeks to achieve this outcome through buying and selling put options and selling out-of-the-money call options on the same index. The Sub-Fund enables investors to participate in the growth of the S&P 500, up to a cap. Through its defined outcome strategy, the Sub-Fund increases the potential to reduce downside. The Sub-Fund was launched in November 2023 and has generated positive returns since inception.

For the year ended 30 June 2024

---

**Sub-Fund Review (continued):**

**Global X 1-3 Month T-Bill UCITS ETF**

The Sub-Fund invests in a basket of Treasury bills issued by the U.S. government that have a remaining maturity of at least 1 month but less than 3 months. The Sub-Fund will primarily invest in Treasury bills, making it an attractive option for investors seeking to potentially minimise credit and interest rate risks.

The Sub-Fund recorded positive returns since launch in December 2023 as short-term treasury bills reflected the U.S. Federal Reserve's elevated interest rate level throughout the year and in turn the average yield to maturity of the Sub-Fund's underlying holdings throughout the reporting period. The Sub-Fund managed to avoid interest rate volatility that impacted interest rates on the long end of the interest rate curve during the reporting period. Throughout the reporting period, the Sub-Fund delivered consistent interest income that largely tracked prevailing short-term interest rates while maintaining a stable net asset value. Simultaneously, rising cost of capital for companies threatened their balance sheets and projected future profits which increased investors attractiveness towards government bonds.

**October 2024**

**Global X ETFs ICAV**  
Depository's Report

For the year ended 30 June 2024

---

We, SEI Investments – Depository and Custodial Services (Ireland) Limited, appointed Depository to Global X ETFs ICAV (the “ICAV”), provide this report solely in favour of the investors of the ICAV for the year ended 30 June 2024 (the “Accounting Period”). This report is provided in accordance with the UCITS Regulations – European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (SI No 352 of 2011) as amended, (the “UCITS Regulations”). We do not, in the provision of this report, accept nor assume responsibility for any other purpose or person to whom this report is shown.

In accordance with our Depository obligation as provided for under the UCITS Regulations, we have enquired into the conduct of the ICAV for the Accounting Period and we hereby report thereon to the investors of the ICAV as follows:

We are of the opinion that the ICAV has been managed during the Accounting Period, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the ICAV by the constitutional documents and by the UCITS Regulations; and
- (ii) otherwise in accordance with the provisions of the constitutional document and the UCITS Regulations.

---

**For and on behalf of SEI Investments – Depository and Custodial Services (Ireland) Limited**

Date: 25 October 2024

# ***Independent auditors’ report to the shareholders of the Sub-Funds of Global X ETFs ICAV***

## **Report on the audit of the financial statements**

### **Opinion**

In our opinion, Global X ETFs ICAV’s financial statements:

- give a true and fair view of the Sub-Funds’ assets, liabilities and financial position as at 30 June 2024 and of their results and cash flows for the year then ended;
- have been properly prepared in accordance with International Financial Reporting Standards (“IFRSs”) as adopted by the European Union; and
- have been properly prepared in accordance with the requirements of the Irish Collective Asset-management Vehicles Act 2015 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Statement of Financial Position as at 30 June 2024;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Cash Flows for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares for the year then ended;
- the Statement of Changes in Equity for the year then ended;
- the Schedule of Investments for each of the Sub-Funds as at 30 June 2024; and
- the notes to the financial statements for each of the Sub-Funds, which include a description of the accounting policies.

Our opinion is consistent with our reporting to the Board of Directors.

### **Basis for opinion**

We conducted our audit in accordance with International Standards on Auditing (Ireland) (“ISAs (Ireland)”) and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors’ responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### **Independence**

We remained independent of the ICAV in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA’s Ethical Standard as applicable to listed public interest entities, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

To the best of our knowledge and belief, we declare that non-audit services prohibited by IAASA’s Ethical Standard were not provided to the ICAV.

Other than those disclosed in note 5, we have provided no non-audit services to the ICAV in the period from 1 July 2023 to 30 June 2024.

### **Our audit approach**

#### **Overview**

	<p><b>Materiality</b></p> <ul style="list-style-type: none"> <li>· Overall materiality: 50 basis points (2023: 50 basis points) of Net asset value attributable to holders of redeemable participating shares (“NAV”) at 30 June 2024 (2023: 30 June 2023) for each of the ICAV’s Sub-Funds.</li> <li>· Performance materiality: 75% of overall materiality.</li> </ul>
	<p><b>Audit scope</b></p> <ul style="list-style-type: none"> <li>· The ICAV is an open-ended investment ICAV with variable capital and engages Global X Management Company (Europe) Limited (the “Manager”) and Global X</li> </ul>

	<p>Management Company, LLC (the ‘Investment Manager’) to manage certain duties and responsibilities with regards to the day-to-day management of the ICAV. We tailored the scope of our audit taking into account the types of investments within the sub-funds of the ICAV, the involvement of the third parties referred to below, the accounting processes and controls, and the industry in which the ICAV operates. We look at each of the sub-funds at an individual level.</p>
	<p>Key audit matters</p> <ul style="list-style-type: none"> <li>· Valuation of financial assets and liabilities at fair value through profit or loss.</li> <li>· Existence of financial assets and liabilities at fair value through profit or loss.</li> </ul>

### *The scope of our audit*

As part of designing our audit, we determined materiality and assessed the risks of material misstatement in the financial statements. In particular, we looked at where the directors made subjective judgements, for example the selection of pricing sources to value the investment portfolio. As in all of our audits, we also addressed the risk of management override of internal controls, including evaluating whether there was evidence of bias by the directors that represented a risk of material misstatement due to fraud.

### *Key audit matters*

Key audit matters are those matters that, in the auditors’ professional judgement, were of most significance in the audit of the financial statements of the current period and include the most significant assessed risks of material misstatement (whether or not due to fraud) identified by the auditors, including those which had the greatest effect on: the overall audit strategy; the allocation of resources in the audit; and directing the efforts of the engagement team. These matters, and any comments we make on the results of our procedures thereon, were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. This is not a complete list of all risks identified by our audit.

<b><i>Key audit matter</i></b>	<b><i>How our audit addressed the key audit matter</i></b>
<p><b><i>Valuation of financial assets and liabilities at fair value through profit or loss</i></b></p> <p><i>Refer to the individual Schedule of Investments, Note 2(d) (ii) (Material accounting policies - Investments), Note 7 (a) (i) (Financial risk management - market risk - price risk) and Note 8 (Fair value measurement).</i></p> <p>As of 30 June 2024, the investment portfolios are comprised primarily of level 1 equities and government bonds. Six of the sub-funds also hold Total Return Swaps.</p> <p>We focused on the valuation of the investments held by the ICAV’s sub-funds as these financial assets and liabilities at fair value through profit or loss represent the principal element of the NAV of the sub-funds as disclosed in the Statement of Financial Position within the audited financial statements.</p>	<p>The fair value of the investment positions held by the sub-funds is determined by the Administrator in conjunction with the Investment Manager.</p> <p>We reviewed the controls surrounding the valuation of investments detailed in the administrator’s controls report.</p> <p>We tested the valuation of the equities and government bonds by independently obtaining price quotations from third party vendor sources for the equities and government bonds held by each sub-fund included within the financial statements.</p> <p>We tested the valuation of the total return swaps by using our internal valuation expert to develop an independent estimate of the fair value and to determine whether management’s fair value estimate was reasonable.</p> <p>No material misstatements were identified as a result of the procedures performed.</p>
<p><b><i>Existence of financial assets and liabilities at fair value through profit or loss</i></b></p> <p><i>Refer to the individual Schedule of Investments, Note 2(d) (ii) (Material accounting policies - Investments), Note 7 (a) (i) (Financial risk management - market risk - price risk) and Note 8 (Fair value measurement).</i></p> <p>The financial assets and liabilities at fvtp are comprised primarily of equities and government bonds as at 30 June 2024 which are held by the depository. Six of the sub-funds also hold Total Return Swaps with counterparties.</p>	<p>We reviewed the controls surrounding the safe-keeping and reconciliation of investment positions detailed in the administrator’s controls report.</p> <p>We obtained independent confirmation of the equity, government bonds and swap positions held with the Depository and counterparties respectively. We then reconciled these confirmations to the accounting records maintained by the sub-funds’ Administrator and evaluated any material differences identified.</p>

We focused on the existence of the investments held by the ICAV's sub-funds as these financial assets at fair value through profit or loss represent the principal element of the NAV of the sub-funds as disclosed in the Statement of Financial Position within the audited financial statements.	No material misstatements were identified as a result of the procedures we performed
---	--

*How we tailored the audit scope*

We tailored the scope of our audit to ensure that we performed enough work to be able to give an opinion on the financial statements as a whole, taking into account the structure of the ICAV, the accounting processes and controls, and the industry in which it operates.

The directors control the affairs of the ICAV and are responsible for the overall investment policy which is determined by them. The ICAV engages the Manager to manage certain duties and responsibilities with regards to the day to day management of the ICAV. The Manager has delegated certain responsibilities to Global X Management Company, LLC (the 'Investment Manager') and to SEI Investments – Global Fund Services Limited (the 'Administrator'). The financial statements, which remain the responsibility of the directors, are prepared on their behalf by the Administrator. The ICAV has appointed SEI Investments - Depositary and Custodial Services (Ireland) Limited (the "Depositary") to act as Depositary of the ICAV's assets. In establishing the overall approach to our audit we assessed the risk of material misstatement at a sub-fund level, taking into account the nature, likelihood and potential magnitude of any misstatement. As part of our risk assessment, we considered the ICAV's interaction with the Administrator, and we assessed the control environment in place at the Administrator.

*Materiality*

The scope of our audit was influenced by our application of materiality. We set certain quantitative thresholds for materiality. These, together with qualitative considerations, helped us to determine the scope of our audit and the nature, timing and extent of our audit procedures on the individual financial statement line items and disclosures and in evaluating the effect of misstatements, both individually and in aggregate on the financial statements as a whole.

Based on our professional judgement, we determined materiality for the financial statements of each of the ICAV's Sub-Funds as follows:

<b>Overall materiality and how we determined it</b>	50 basis points (2023: 50 basis points) of Net asset value attributable to holders of redeemable participating shares ("NAV") at 30 June 2024 (2023: 30 June 2023) for each of the ICAV's Sub-Funds.
<b>Rationale for benchmark applied</b>	We have applied this benchmark because the main objective of the ICAV is to provide investors with a total return at a sub-fund level, taking account of the capital and income returns.

We use performance materiality to reduce to an appropriately low level the probability that the aggregate of uncorrected and undetected misstatements exceeds overall materiality. Specifically, we use performance materiality in determining the scope of our audit and the nature and extent of our testing of account balances, classes of transactions and disclosures, for example in determining sample sizes. Our performance materiality was 75% of overall materiality.

In determining the performance materiality, we considered a number of factors - the history of misstatements, risk assessment and aggregation risk and the effectiveness of controls - and concluded that an amount at the upper end of our normal range was appropriate.

We agreed with the Board of Directors that we would report to them misstatements identified during our audit above 5 basis points of each sub-fund's NAV, for NAV per share impacting differences (2023: 5 basis points of each sub-fund's NAV, for NAV per share impacting differences) as well as misstatements below that amount that, in our view, warranted reporting for qualitative reasons.

**Conclusions relating to going concern**

Our evaluation of the directors' assessment of the Sub-Funds' ability to continue to adopt the going concern basis of accounting included:

- Obtaining an understanding of the liquidity risks of the ICAV for each of the sub-funds and the measures to mitigate and manage these risks (as disclosed in Note 7 - Financial risk management);
- Obtaining management's assessment of going concern which included a consideration of the capital activity of the sub-funds, sub-fund launches and the sub-funds' listing status;
- Agreeing the liquidity terms surrounding the ICAV's ability to manage liquidity risk (as per note 7b - Financial risk management - Liquidity risk), to the legal documents;

- Considering post year end capital activity; and
- Discussing management's plans to assess if there is a plan to terminate any of the sub-funds.

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Sub-Funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Sub-Funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

---

## Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

Based on the responsibilities described above and our work undertaken in the course of the audit, the Irish Collective Asset-management Vehicles Act 2015 requires us to also report the opinion as described below:

### *Directors' Report*

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 30 June 2024 is consistent with the financial statements.

---

## Responsibilities for the financial statements and the audit

### *Responsibilities of the directors for the financial statements*

As explained more fully in the Directors' Responsibilities Statement set out within the financial statements, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Sub-Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the ICAV or to cease operations, or have no realistic alternative but to do so.

### *Auditors' responsibilities for the audit of the financial statements*

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Irregularities, including fraud, are instances of non-compliance with laws and regulations. We design procedures in line with our responsibilities, outlined above, to detect material misstatements in respect of irregularities, including fraud. The extent to which our procedures are capable of detecting irregularities, including fraud, is detailed below.

Based on our understanding of the ICAV and industry, we identified that the principal risks of non-compliance with laws and regulations related to the Irish Collective Asset-management Vehicles Act 2015, and we considered the extent to which non-compliance might have a material effect on the financial statements. We also considered those laws and regulations that have a direct impact on the preparation of the financial statements such as the Irish Collective Asset-management

Vehicles Act 2015 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended). We evaluated management's incentives and opportunities for fraudulent manipulation of the financial statements (including the risk of override of controls), and determined that the principal risks were related to Management Override of Controls.

Audit procedures performed by the engagement team included:

- Enquiry of management to identify any instances of non-compliance with laws and regulations;
- Identifying and testing year end journal entries that met our specific risk based criteria;
- Designing audit procedures to incorporate unpredictability around the nature, timing and extent of our testing;
- Reviewing relevant minutes of the meetings of the board of directors; and
- Reviewing financial statement disclosures and agreeing to supporting documentation to assess compliance with applicable laws and regulations.

There are inherent limitations in the audit procedures described above. We are less likely to become aware of instances of non-compliance with laws and regulations that are not closely related to events and transactions reflected in the financial statements. Also, the risk of not detecting a material misstatement due to fraud is higher than the risk of not detecting one resulting from error, as fraud may involve deliberate concealment by, for example, forgery or intentional misrepresentations, or through collusion.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

[https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description\\_of\\_auditors\\_responsibilities\\_for\\_audit.pdf](https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf).

This description forms part of our auditors' report.

### *Use of this report*

This report, including the opinions, has been prepared for and only for the shareholders of each of the Sub-Funds as a body in accordance with section 120 of the Irish Collective Asset-management Vehicles Act 2015 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

---

## **Other required reporting**

---

### **Irish Collective Asset-management Vehicles Act 2015 exception reporting**

#### *Directors' remuneration*

Under the Irish Collective Asset-management Vehicles Act 2015 we are required to report to you if, in our opinion, the disclosures of directors' remuneration specified by section 117 of that Act have not been made. We have no exceptions to report arising from this responsibility.

---

### **Appointment**

We were appointed by the Board of Directors on 14 May 2021 to audit the financial statements for the year ended 30 June 2021 and subsequent financial periods. The period of total uninterrupted engagement is 4 years, covering the years ended 30 June 2021 to 30 June 2024.

## Global X ETFs ICAV

Notes to the Financial Statements

For the year ended 30 June 2024

(Expressed in United States Dollar)

---

### 1. Nature of operations

The ICAV was registered in Ireland, registration number C435449, pursuant to the Irish Collective Asset-management Vehicles Act 2015 (the “ICAV Act”) on 20 July 2020 and authorised by the Central Bank of Ireland (the “Central Bank”) as an Undertaking for Collective Investment in Transferable Securities pursuant to the European Communities (Undertaking for Collective Investment in Transferable Securities) Regulations 2011 (S.I. No 352 of 2011), and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investments in Transferable Securities) Regulations 2019 (S.I. 230 of 2019) (collectively the “UCITS Regulations”).

The ICAV is organised in the form of an umbrella fund with segregated liability between Sub-Funds. Each Sub-Fund has a distinct portfolio of investments, and the investment objective and policy of each Sub-Fund is formulated by Global X Management Company LLC (the “Investment Manager”). At 30 June 2024, the following Sub-Funds were in operation:

<b>Sub-Funds</b>	<b>Launch date</b>
Global X Video Games & Esports UCITS ETF	17 December 2020
Global X Telemedicine & Digital Health UCITS ETF	17 December 2020
Global X Genomics & Biotechnology UCITS ETF	2 November 2021

### 1. Nature of operations (continued)

The registered office of the ICAV is 10 Earlsfort Terrace, Dublin 2, Ireland. SEI Investments – Global Fund Services Limited (the “Administrator”) is the administrator. SEI Investments – Depository and Custodial Services (Ireland) Limited (the “Depository”) is the depository. Brown Brothers Harriman & Co. and Brown Brothers Harriman Fund Administration Services (Ireland) Limited have been appointed as the sub-custodian (the “Sub-Custodian”) and transfer agent (the “Transfer Agent”), respectively.

### 2. Basis of preparation and material accounting policies

#### (a) Statement of compliance

The financial statements of each of the Sub-Funds are prepared in accordance with International Financial Reporting Standards (“IFRS”), as adopted by the European Union, the UCITS Regulations, and the ICAV Act. This report presents financial statements for the following Sub-Funds as at 30 June 2024:

Global X Video Games & Esports UCITS ETF	Global X Renewable Energy Producers UCITS ETF
Global X Telemedicine & Digital Health UCITS ETF	Global X Clean Water UCITS ETF
Global X U.S. Infrastructure Development UCITS ETF	Global X Lithium & Battery Tech UCITS ETF
Global X FinTech UCITS ETF	Global X Data Center REITs & Digital Infrastructure UCITS ETF
Global X Robotics & Artificial Intelligence UCITS ETF	Global X Blockchain UCITS ETF
Global X Autonomous & Electric Vehicles UCITS ETF	Global X Hydrogen UCITS ETF
Global X SuperDividend® UCITS ETF	Global X Wind Energy UCITS ETF
Global X Uranium UCITS ETF	Global X Solar UCITS ETF
Global X Disruptive Materials UCITS ETF	Global X AgTech & Food Innovation UCITS ETF
Global X Nasdaq 100® Covered Call UCITS ETF	Global X Silver Miners UCITS ETF

Global X E-commerce UCITS ETF	Global X S&P 500® Covered Call UCITS ETF
Global X CleanTech UCITS ETF	Global X S&P 500® Annual Buffer UCITS ETF
Global X Cybersecurity UCITS ETF	Global X S&P 500® Annual Tail Hedge UCITS ETF
Global X Internet of Things UCITS ETF	Global X 1-3 Month T-Bill UCITS ETF
Global X Copper Miners UCITS ETF	

This report presents comparative financial statements as at 30 June 2023 on the Statement of Financial Position and also presents comparative financial statements for the year/period ended 30 June 2023 on the Statement of Comprehensive Income, Statement of Changes in Net Assets Attributable to Holders of Redeemable Participating Shares, Statement of Changes in Equity, Statement of Cash Flows, and related notes.

#### (b) Basis of preparation

The financial statements are presented in United States Dollars (“USD” or “US\$”). The financial statements have been prepared under the going concern basis and under the historical cost convention, as modified by the revaluation of financial assets at fair value through profit or loss.

The preparation of financial statements in conformity with IFRS requires management to make judgements, critical accounting estimates and assumptions that affect the application of policies and the reported amounts of assets and liabilities, income, and expense. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making the judgements about carrying values of assets and liabilities that are not readily apparent from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period or in the period and future periods if the revision affects both current and future periods.

## Global X ETFs ICAV

Notes to the Financial Statements (continued)

For the year ended 30 June 2024

(Expressed in United States Dollar)

---

### 2. Basis of preparation and material accounting policies (continued)

#### (b) Basis of preparation (continued)

All references to net assets throughout this document refer to net assets attributable to holders of redeemable participating shares.

Corresponding figures for the year ended 30 June 2023 have been reclassified to ensure the comparability with the figures for the year ended 30 June 2024.

#### (c) Changes in relevant accounting standards

##### Standards and amendments to existing standards effective during the year

The following amended standard and interpretation became effective during the year:

##### Effective date 1 January 2024:

- Classification of Liabilities as Current or Non-current – Amendments to IAS 1

##### Standards, amendments, and interpretations that are not yet effective for the year and not early adopted

A number of new standards, amendments to standards and interpretations are effective for annual periods beginning after 1 July 2024 and have not been applied in preparing these financial statements. None of these are expected to have a material effect on the financial statements of the Sub-Funds.

#### (d) Material accounting policies

The principal accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied for the periods presented, unless otherwise stated.

##### i. Foreign currency translation

###### *Functional and presentation currency*

Functional currency is the currency of the primary economic environment in which the Sub-Funds operate. When indicators of the primary economic environment are mixed, management uses its judgement to determine the functional currency that most faithfully represents the economic effect of the underlying transactions, events, and conditions. The Board has determined that the functional currency of the Sub-Funds is USD (“US\$”). Investor subscriptions and redemptions are received and paid in the currency of the relevant share class which is predominantly in USD. The expenses incurred by the Sub-Funds (including management fees, custodian fees and administration fees) are also denominated and paid mostly in USD.

###### *Transactions and balances*

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions. Foreign currency assets and liabilities are translated into the functional currency using the exchange rate prevailing at the year-end date.

Foreign exchange gains and losses arising from translation are included in the Statement of Comprehensive Income.

###### *Net gains/(losses) on foreign exchange translation*

Foreign exchange gains and losses relating to cash and cash equivalents are presented in the Statement of Comprehensive Income within ‘Net gains/(losses) on financial assets and liabilities at fair value through profit or loss’.

Foreign exchange gains and losses relating to the financial assets and liabilities carried at fair value through profit or loss are presented in the Statement of Comprehensive Income within ‘Net gains/(losses) on financial assets and liabilities at fair value through profit or loss’.

Notes to the Financial Statements (continued)

For the year ended 30 June 2024

(Expressed in United States Dollar)

---

### 2. Basis of preparation and material accounting policies (continued)

#### (d) Material accounting policies (continued)

##### ii. Investments

###### *Classification*

In accordance with IFRS 9, the Sub-Funds classify equity investments (including rights and warrants), treasury bills and derivative contracts as financial assets or financial liabilities at fair value through profit or loss.

All of the Sub-Funds' financial assets and liabilities designated at fair value through profit or loss are financial instruments that are classified as held for trading and are considered managed investments. Their performance is evaluated on a fair value basis in accordance with the Sub-Funds' investment strategy.

All other financial assets and liabilities including cash, cash equivalents, receivables and payables are classified as being measured at amortised cost. Measurement at amortised cost takes into account any premium or discount on acquisition as well as transaction costs and fees that are an integral part of the effective interest rate. All financial assets measured at amortised cost are short term in nature and the application of the expected credit loss model does not impact the carrying amounts of these financial assets as they approximate their fair values under IFRS 9.

###### *Recognition, derecognition and measurement*

Regular purchases and sales of investments are recognised on the trade date - the date on which each Sub-Fund commits to purchase or sell the investment. Financial assets and financial liabilities at fair value through profit or loss are initially recognised at fair value. Transaction costs are expensed as incurred in the Statement of Comprehensive Income. Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Sub-Fund has transferred substantially all risks and rewards of ownership.

Subsequent to initial recognition, all financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Realised and unrealised gains and losses arising from changes in the fair value of the 'financial assets or financial liabilities at fair value through profit or loss' category are presented in the Statement of Comprehensive Income within 'Net gains/(losses) on financial assets and liabilities at fair value through profit or loss' in the financial year/period in which they arise.

In accordance with IFRS 9, the ICAV applies the 'expected credit loss' ("ECL") model when determining if financial assets are subject to impairment. This impairment model applies to financial assets measured at amortised cost and an assessment is required to determine if an ECL is required. The ICAV has determined that the application of IFRS 9's impairment requirements result in no ECL impairment as the cash and cash equivalents, receivables and payables are short-term in nature.

###### *Fair value estimation*

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value of financial assets and liabilities traded in active markets (such as publicly traded derivatives and equities (including rights and warrants)) are based on quoted market prices at the close of trading on the reporting date. In circumstances where the last traded price is not within the bid-ask spread, management will determine the point within the bid-ask spread that is most representative of fair value.

If a quoted market price is not available on a recognised market or from a broker/dealer for non-exchange traded financial instruments, the fair value of such investment shall be estimated with care and in good faith by a competent professional person, body, firm, or corporation (appointed for such purpose by the Board of the ICAV) and such fair value shall be determined on the basis of the probable realisation value of the investment.

The total return swap has been entered into by some Sub-Funds, and is revalued by the Administrator, reviewed by the Investment Manager, and agreed to counterparty information.

## Global X ETFs ICAV

Notes to the Financial Statements (continued)

For the year ended 30 June 2024

(Expressed in United States Dollar)

---

### 2. Basis of preparation and material accounting policies (continued)

#### (d) Material accounting policies (continued)

##### ii. Investments (continued)

###### *Fair value estimation (continued)*

If the Investment Manager considers that the methods of valuation set out above do not provide a fair valuation of a particular asset, it may ask for the fair value to be estimated with care and in good faith by a competent person appointed by the Board of the ICAV and approved for the purpose by the Depositary.

Cash deposits and similar investments shall be valued at their face value together with accrued interest.

As at 30 June 2024, the fair values of all of the Sub-Funds' investment in equities were determined by reference to quoted market prices except for investments in two securities that were suspended on trading, three securities (including rights and warrant) that were not traded, and three securities domiciled in Russia. The two securities suspended on trading were Scilex Holding Company from Global X Genomics & Biotechnology UCITS ETF and Zhejiang Akcome New Energy Technology Co Ltd from Global X Solar UCITS ETF. The three securities (including rights and warrant) that were not traded were Vizsla Royalties Corp and Vizsla Royalties Corp warrant from Global X Silver Miners UCITS ETF and MMG LTD rights from Global X Disruptive Materials UCITS ETF and Global X Copper Miners UCITS ETF. The three securities domiciled in Russia include RusHydro PJSC from Global X Renewable Energy Producers UCITS ETF, Magnitogorsk Iron & Steel Works PJSC and Severstal PAO from Global X SuperDividend® UCITS ETF which were all written down. See Note 8 for more details.

As at 30 June 2023, the fair values of all of the Sub-Funds' investment in equities were determined by reference to quoted market prices except for investments in three securities that were suspended on trading and three securities domiciled in Russia. The three securities suspended on trading include Scilex Holding Company from Global X Genomics & Biotechnology UCITS ETF and Jervois Global Ltd and South Manganese Investment Ltd from Global X Disruptive Materials UCITS ETF. The three securities domiciled in Russia include RusHydro PJSC from Global X Renewable Energy Producers UCITS ETF, Magnitogorsk Iron & Steel Works PJSC and Severstal PAO from Global X SuperDividend® UCITS ETF which were all written down. See Note 8 for more details.

##### iii. Cash and cash equivalents and bank overdraft

Cash and cash equivalents include cash in hand, deposits held at call with banks and other short-term investments in an active market with original maturities of three months or less. Bank overdraft, if any, is repayable on demand and is included within current liabilities in the Statement of Financial Position.

##### iv. Expenses

Expenses are recognised on an accrual basis. The only expenses charged to and accrued by the Sub-Funds is the TER.

##### v. Income

Interest income is recognised on a time-proportionate basis using the effective interest method. Dividend income from equity securities designated at fair value through profit or loss is recognised in the "Dividend income" line in the Statement of Comprehensive Income. Dividend income is recognised in profit or loss on the date that the right to receive the payment is established. For quoted equity securities, this is usually the ex-dividend date. For unquoted equity securities, this is usually the date on which the shareholders approve the payment of a dividend. Dividend income is shown gross of any non-recoverable withholding taxes, which are presented separately in the Statement of Comprehensive Income.

Securities lending income is income earned from securities lending arrangements which is accrued and paid on a monthly basis. To the extent the Sub-Funds undertake securities lending, the relevant supplement will disclose the proportion of the revenue generated which will remain with the Sub-Fund and the proportion of the revenue generated (representing the attendant direct and indirect operational costs and fees of any securities lending) which will be retained by the securities lending agent. Such direct and indirect operational costs and fees shall not include hidden revenue.

## Global X ETFs ICAV

Notes to the Financial Statements (continued)

For the year ended 30 June 2024

(Expressed in United States Dollar)

### 2. Basis of preparation and material accounting policies (continued)

#### (d) Material accounting policies (continued)

##### vi. Redeemable participating shares

The Sub-Funds are open-ended and issue redeemable participating shares, which are redeemable at a shareholder's option. These shares can be put back to the respective Sub-Fund for cash equal to a proportionate share of the Sub-Funds trading Net Asset Value ("NAV") calculated in accordance with the Prospectus. These shares are classified as equity or liability, as appropriate, in accordance with IAS 32 Financial Instruments - Presentation ("IAS 32"). Typically, where a Sub-Fund has only one such share class in issue, those shares qualify for equity classification as the qualifying criteria in IAS 32.16A and 16B are met. On the other hand, where a Sub-Fund has more than one such share class in issue, those share classes do not, for example, typically have identical rights to each other and therefore those qualifying criteria for equity classification are not met. Where the criteria are no longer met, the Sub-Fund reclassifies from the date when the shares cease to qualify for equity classification. The shares, when first classified as financial liabilities, are measured at their fair value. Subsequently the redeemable shares are classified as financial liabilities at amortised cost and are measured at the present value of the redemption amounts.

A puttable financial instrument that includes a contractual obligation for the respective Sub-Funds to repurchase or redeem that instrument for cash or another financial asset is classified as equity if it meets all of the conditions below:

- it entitles the holder to a pro rata share of the Sub-Fund's net assets in the event of the Sub-Fund's liquidation;
- it is in the class of instruments that is subordinate to all other classes of instruments;
- all financial instruments in the class of instruments that is subordinate to all other classes of instruments have identical features;
- apart from the contractual obligation for the respective Sub-Fund to repurchase or redeem the instrument for cash or another financial asset, the instrument does not include any other features that would require classification as a liability; and
- the total expected cash flows attributable to the instrument over its life are based substantially on the profit or loss, the change in the recognised net assets or the change in the fair value of the recognised and unrecognised net assets of the respective Sub-Fund over the life of the instrument.

As at 30 June 2024, the following Sub-Funds have two classes of units in issue and are classified as financial liability.

<b>Sub-Fund</b>	<b>Net Assets Classified as Liability USD</b>

##### **vii. Distribution policy**

The Directors are empowered by the Instrument of Incorporation to declare and pay dividends in respect of the shares in any Sub-Fund in the ICAV out of the net income of the relevant Sub-Fund less accrued expenses of the ICAV. The Directors are also empowered by the Instrument of Incorporation to declare and pay dividends in respect of the shares in any Sub-Fund in the ICAV out of the capital of the relevant Sub-Fund. Where a Sub-Fund intends to pay dividends out of capital this will be set out in the relevant supplement for that Sub-Fund.

It is intended to declare dividends in respect of the share classes identified as “distributing” Classes of the Sub-Funds. Distributions in respect of these Classes will be declared on each distribution date, semi-annually, in each year provided that such dates are not business days. Where dividends are paid, they shall be paid out of the net income of the ICAV which is attributable to the relevant Class and shall be paid by way of electronic transfer.

It is not the current intention of the Directors to declare dividends in respect of the share classes identified as “accumulating” Classes. The income and earnings and gains of the accumulating classes will be accumulated and reinvested in the Sub-Funds.

##### **viii. Subscriptions receivable**

Subscriptions receivable, if any, are reported on the Statement of Financial Position and relate to unsettled subscriptions.

##### **ix. Redemptions payable**

This relates to the amount requested in the redemption notice becoming fixed. This generally may occur either at the time of the receipt of a valid and approved notice, or on the last day of a fiscal period, depending on the nature of the request. As a result, redemptions paid after the end of the period, but based upon period end capital balance are reflected as redemptions payable.

##### **x. Receivable for securities sold**

Receivable for securities sold, if any, are reported on the Statement of Financial Position and relate to unsettled sales of the equity trades.

##### **xi. Payable for securities purchased**

Payable for securities purchased, if any, are reported on the Statement of Financial Position and relate to unsettled purchases of equity trades.

##### **xii. Soft commissions**

There were no soft commission arrangements during the years ended 30 June 2024 and 30 June 2023.

## Global X ETFs ICAV

Notes to the Financial Statements (continued)

For the year ended 30 June 2024

(Expressed in United States Dollar)

---

### 2. Basis of preparation and material accounting policies (continued)

#### (d) Material accounting policies (continued)

##### xiv. Offsetting financial instruments

Financial assets and liabilities are offset, and the net amount reported on the Statement of Financial Position when, and only when, there is a legally enforceable right to set off the recognised amounts and there is an intention to settle on a net basis or realise the assets and settle the liability simultaneously. Please refer to Note 7(f) “Offsetting and Amounts Subject to Master Netting/Similar Agreements” for further details.

### 3. Taxation

Under current law and practice the ICAV qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or gains.

Notwithstanding the above, Irish tax may arise on the happening of a “chargeable event”. A chargeable event includes:

- a) Any distribution payments made to shareholders by the ICAV in respect of their shares;
- b) Any encashment, redemption, cancellation, or transfer of shares;
- c) The holding of shares at the end of each eight-year period beginning with the acquisition of such shares.

No Irish tax will arise on the ICAV in respect of chargeable events in respect of:

- a) A shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with Section 739D of the Taxes Consolidation Act, 1997, as amended, are held by the ICAV or the ICAV has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations under the ICAV with the necessary signed statutory declarations; and
- b) Certain exempted Irish tax resident shareholders who have provided the ICAV with the necessary signed statutory declarations.

Capital gains, dividends and interest received by the ICAV may be subject to taxes, including capital gains taxes and withholding taxes in the countries in which the issuers of investments are located, which may be reflected in the NAV of the ICAV. Dividend and interest income has been recognised gross in the Statement of Comprehensive Income, with withholding taxes recognised separately. Such taxes may not be recoverable by the ICAV or its shareholders.

The ICAV has evaluated the tax positions and has concluded that there are no significant tax positions requiring recognition, measurement, or disclosure in the financial statements. Tax penalties and interest, if any, would be accrued as incurred and would be classified as tax expense in the Statement of Comprehensive Income. During the years ended 30 June 2024 and 30 June 2023, the ICAV did not incur any interest or penalties.

### 4. Share capital

The share capital of the ICAV shall at all times equal the NAV of the ICAV. The Directors are empowered to issue up to 500 billion Shares of no-par value in the ICAV at the NAV per Share on such terms as they may think fit. There are no rights of pre-emption upon the issue of Shares in the ICAV. The Subscriber Shares do not participate in the assets of any Sub-Fund. The ICAV reserves the right to redeem some or all of the Subscriber Shares provided that the ICAV at all times has a minimum issued share capital to the value of €300,000.

## Global X ETFs ICAV

Notes to the Financial Statements (continued)

For the year ended 30 June 2024

(Expressed in United States Dollar)

### 4. Share capital (continued)

Each of the Shares entitles the Shareholder to participate equally on a pro rata basis in the dividends and net assets of a Sub-Fund attributable to the relevant class in respect of which they are issued, save in the case of dividends declared prior to becoming a Shareholder. The Subscriber Shares' entitlement is limited to the amount subscribed and accrued interest thereon.

The proceeds from the issue of Shares shall be applied in the books of the ICAV to the relevant Sub-Fund and shall be used in the acquisition on behalf of the relevant Sub-Fund of assets in which the Sub-Fund may invest. The records and accounts of each Sub-Fund shall be maintained separately.

The Directors reserve the right to redesignate any Class from time to time, provided that Shareholders in that Class shall first have been notified by the ICAV that the Shares will be redesignated and shall have been given the opportunity to have their Shares redeemed by the ICAV, except that this requirement shall not apply where the Directors redesignate Shares in issue in order to facilitate the creation of an additional Class.

Each of the Shares entitles the Shareholder to attend and vote at meetings of the ICAV and of the relevant Class of a Sub-Fund represented by those Shares. No Class confers on the holder thereof any preferential or pre-emptive rights or any rights to participate in the profits and dividends of any other Class or any voting rights in relation to matters relating solely to any other Class.

Any resolution to alter the Class rights of the Shares requires the approval of three quarters of the Shareholders of the Shares represented or present and voting at a general meeting duly convened in accordance with the Instrument of Incorporation.

The Instrument of Incorporation of the ICAV empowers the Directors to issue fractional shares in the ICAV. Fractional shares may be issued and shall not carry any voting rights at general meetings of the ICAV or of any Sub-Fund or Class and the NAV of any fractional Share shall be the NAV per Share adjusted in proportion to the fraction.

It is intended that all but two of the Subscriber Shares will be redeemed by the ICAV at their NAV on the dealing day on which the first issue of Shares is effected after the Initial Offer Period. The dealing day ("Dealing Day") is a day on which the New York Stock Exchange is open for normal business or such business day(s) as the Directors may from time to time determine for dealings in a Sub-Fund. The Subscriber Shares entitle the Shareholders holding them to attend and vote at all meetings of the ICAV but do not entitle the holders to participate in the dividends or net assets of any Sub-Fund or of the ICAV.

The ICAV offers the following launched classes of shares in each Sub-Fund. The ICAV may also create additional classes of shares in each Sub-Fund in the future with prior notification to, and clearance in advance by, the Central Bank. Details of unlaunched share classes are set out in the Supplement of each Sub-Fund.

**Subscriptions**

Shares will be issued on each Dealing Day at the appropriate NAV per Share with an appropriate provision for duties and charges. Investors may subscribe for shares for cash on each Dealing Day by making an application by the dealing deadline. Consideration, in the form of cleared subscription monies/securities, must be received by the applicable settlement deadline.

**Redemptions**

Shareholders may effect a redemption of shares on any Dealing Day at the appropriate NAV per Share, subject to an appropriate provision for duties and charges, provided that a valid redemption request from the shareholder is received by the ICAV by the dealing deadline on the relevant Dealing Day.

Shares will be redeemed at the applicable NAV per Share on the Dealing Day as of which the redemption is effected, subject to any applicable fees associated with such redemption.

No redemption will be made until the applicant has completed and delivered to the Transfer Agent a redemption request and satisfied all the requirements of the Directors and the Manager as to such applicant's redemption request.

### 5. Fees and expenses

#### TER Fees

All of the following fees and expenses payable in respect of the share classes of the Sub-Funds are paid as one single fee, which will not exceed the amounts listed below. This is referred to as the total expense ratio or “TER”. The TER is calculated and accrued daily from the NAV of each Sub-Fund and payable monthly in arrears by the ICAV at the rate set out below. The following fees and operational expenses of each Sub-Fund shall be paid out of the TER:

- All the ordinary operating and administrative expenses of the Sub-Fund, including, but not limited to, fees and expenses of the Manager, Depositary, Administrator, Transfer Agent, Distributor, the Directors, the costs of maintaining the Sub-Funds and any registration of the Sub-Funds with any governmental or regulatory authority; preparation, printing, and posting of prospectuses, sales literature and reports to Shareholders, regulatory fees of the Central Bank and other governmental agencies; marketing expenses; insurance premiums; fees and expenses for legal, audit and other services; paying for licensing fees related to each Sub-Fund’s Index and any distribution fees or expenses.

Should the above fees and operational expenses of each Sub-Fund exceed the TER, the additional expenses shall be borne by the Investment Manager up to 3 September 2023, and Global X Management Company (Europe) Limited from 4 September 2023. Where all costs and expenses of a Sub-Fund are met and exceeded by the TER, the ICAV will pay any excess from the TER to the Investment Manager as the investment management fee. Refer to Note 10 for more details.

## Global X ETFs ICAV

Notes to the Financial Statements (continued)

For the year ended 30 June 2024

(Expressed in United States Dollar)

---

### 7. Financial risk management

Each Sub-Fund has exposure to the following specific risks from financial instruments:

- market risk (including price risk, currency risk, interest rate risk, and concentration risk);
- liquidity risk; and
- credit risk.

#### (a) Market Risk

Market risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. The likelihood of these types of adverse changes and the extent to which they affect the business of the Sub-Funds cannot always be accurately predicted.

##### (i) Price Risk

Price risk is the risk that the value of an investment may fluctuate as a result of changes in market prices, whether caused by factors specific to an individual investment or all factors affecting all instruments traded in the market. The Investment Manager mitigates this risk by maintaining a diverse portfolio and by diversifying its investments across multiple industries.

The Manager monitors price risk on a daily basis in accordance with the Sub-Funds specific restrictions and the UCITS regulatory limits. The Manager has escalation procedures in place to report breaches of these risks limits to the Directors, the Depositary, the Investment Manager and the Regulator where appropriate.

Based on historic movements and management's knowledge and experience of the financial markets, the Manager believes the movements represented by sensitivity percentages are 'reasonably possible' over a 12 month period. These assumptions are consistent with the assumptions used internally by management for planning purposes and the development of its financial risk management strategy.

#### *Global X Video Games & Esports UCITS ETF*

As at 30 June 2024, the Sub-Fund had 41 positions (30 June 2023: 50) with the top five being 31.75% of net assets (30 June 2023: 27.38%).

As at 30 June 2024, the Sub-Fund was invested in three industries (30 June 2023: three) with the highest industry exposure being 84.77% of net assets (30 June 2023: 88.37%).

As at 30 June 2024, should the price of the securities held by the Sub-Fund have increased or decreased by 10% (2023: 10%) with all other variables remaining constant the increase or decrease in the net assets attributable to holders of redeemable participating shares for the year would amount to approximately USD 421,365 (30 June 2023: USD 1,416,857).

#### *Global X Telemedicine & Digital Health UCITS ETF*

As at 30 June 2024, the Sub-Fund had 41 positions (30 June 2023: 40) with the top five being 22.56% of net assets (30 June 2023: 24.29%).

As at 30 June 2024, the Sub-Fund was invested in four industries (30 June 2023: five) with the highest industry exposure being 72.36% of net assets (30 June 2023: 63.05%).

As at 30 June 2024, should the price of the securities held by the Sub-Fund have increased or decreased by 10% (2023: 10%) with all other variables remaining constant the increase or decrease in the net assets attributable to holders of redeemable participating shares for the year would amount to approximately USD 461,915 (30 June 2023: USD 583,998).

##### (ii) Currency Risk

Currency risk is the risk that the value of a financial instrument will fluctuate due to changes in foreign exchange rates. The Sub-Funds invest in securities and other investments that are denominated in currencies other than the functional currency of the Sub-Funds. Accordingly, the value of the Sub-Funds assets may be affected favourably or unfavourably by fluctuations in currency rates and therefore the Sub-Funds will be subject to foreign exchange risks.

In accordance with the ICAV's policy, the Investment Manager monitors the Sub-Funds' currency exposures on a daily basis and reports regularly to the Board of Directors, which reviews the information provided by the Manager on any significant exposures at its periodic meetings.

### 7. Financial risk management (continued)

#### (a) Market Risk (continued)

##### (ii) Currency Risk (continued)

###### *Sensitivity analysis*

As at 30 June 2024, had the USD weakened by 10% (30 June 2023: 10%) in relation to all currencies, with all other variables held constant, the increase in the value of the Sub-Funds' investments and other net assets and liabilities including cash and cash equivalents denominated in currencies other than USD attributable to holders of redeemable participating shares is disclosed on the prior pages and above.

A 10% (30 June 2023: 10%) strengthening of the USD would have resulted in an equal but opposite effect on the above financial statement amounts on the basis that all other variables remain constant.

Based on historic movements and management's knowledge and experience of the financial markets, the Manager believes the movements represented by sensitivity percentages are 'reasonably possible' over a 12-month period. These assumptions are consistent with the assumptions used internally by management for planning purposes and the development of its financial risk management strategy.

Foreign currency rates used in the preparation of these financial statements are disclosed in Note 6.

##### (iii) Interest Rate Risk

Interest rate risk arises from the possibility that changes in interest rates will affect future cash flows or the fair values of financial instruments. Interest rate risk is not material in respect of the Sub-Funds.

#### (b) Liquidity Risk

This is the risk that a lack of a market in certain portfolio securities could prevent the Sub-Funds from liquidating unfavourable positions or prevent the Sub-Funds from funding redemptions from existing shareholders. The Manager compares the liquidity of portfolio assets versus the redemption profile of the Sub-Funds to determine if there are any potential liquidity shortfalls. The portfolio of investments can be easily liquidated in order to meet the redemption requests of the shareholders as they occur and meet contractual financial liabilities.

### 7. Financial risk management (continued)

#### (b) Liquidity Risk (continued)

The ICAV may temporarily suspend the determination of the NAV and the sale, conversion or redemption of shares in any Sub-Fund during:

- (a) any period (other than ordinary holiday or customary weekend closings) when any of the principal markets on which any significant portion of the Investments of the relevant Sub-Fund from time to time are quoted, listed, traded or dealt in is closed (otherwise than for customary weekend or ordinary holidays) or during which dealings therein are restricted or suspended or trading on any relevant futures exchange or market is restricted or suspended;
- (b) any period when, as a result of political, economic, military or monetary events or any circumstances outside the control, responsibility and power of the Directors, disposal or valuation of a substantial portion of the investments of a Sub-Fund is not reasonably practicable without this being seriously detrimental to the interests of Investors of a Sub-Fund;
- (c) any period during which the disposal or valuation of investments which constitute a substantial portion of the assets of a Sub-Fund is not practically feasible or if feasible would be possible only on terms materially disadvantageous to Investors;
- (d) any period when for any reason the prices of any Investments of a Sub-Fund cannot be reasonably, promptly or accurately ascertained by the Administrator;
- (e) any period when remittance of monies which will, or may, be involved in the realisation of, or in the payment for, Investments of a Sub-Fund cannot, in the opinion of the Directors, be carried out at normal rates of exchange;
- (f) any period when the proceeds of the sale or repurchase of the Shares cannot be transmitted to or from a Sub-Fund's account;
- (g) any period when a notice to terminate a Sub-Fund has been served or when a meeting of Shareholders has been convened to consider a motion to wind up the ICAV or to terminate a Sub-Fund;
- (h) upon the occurrence of an event causing the ICAV to enter liquidation or a Sub-Fund to terminate; or
- (i) any period where the Directors consider it to be in the best interests of the Investors of the ICAV or a Sub-Fund to do so.

A suspension of repurchases may be made at any time prior to the payment of the repurchase monies and the removal of the Shareholder's name from the register of members. A suspension of subscriptions may be made at any time prior to the entry of a Shareholder's name on the Register.

Any such suspension shall be notified immediately (without delay) and in any event within the same Business Day to the Euronext Dublin, the Central Bank and all Relevant Stock Exchanges which the ICAV is required to notify. Where possible, all reasonable steps will be taken to bring a period of suspension to an end as soon as possible.

#### (c) Credit Risk

Credit risk is the risk that a counterparty to a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Sub-Funds, resulting in a financial loss to the Sub-Funds.

## Global X ETFs ICAV

Notes to the Financial Statements (continued)

For the year ended 30 June 2024

---

### 7. Financial risk management (continued)

#### (c) Credit Risk (continued)

The Sub-Funds manage credit risk by monitoring the financial condition and credit rating of their Depository/Sub-Custodian and other counterparties.

The Sub-Funds currently hold no securities, cash, receivables and any other assets with any party other than the Sub-Custodian. The Sub-Custodian is currently rated by Fitch Ratings with a Long-Term Debt rating of A+ as at 30 June 2024 and 30 June 2023. Insolvency or bankruptcy of the Sub-Custodian may cause the Sub-Funds rights with respect to its assets held by the Depository to be delayed or limited.

The maximum exposure to credit risk is the carrying value of the assets held by the respective Sub-Fund.

The Sub-Funds that replicate their investments strategies through use of swaps and a basket of global equity securities and equity related securities (the “Basket”) are exposed to the following risks:

##### *Swaps Counterparty Risk*

The return payable under swaps with an approved counterparty is subject to the credit risk of the approved counterparty. In addition, the approved counterparty will act as the calculation agent under the swaps (the “Calculation Agent”). Investors should note that not only will they be exposed to the credit risk of the approved counterparty but also potential conflicts of interest in the performance of the function of Calculation Agent by the approved counterparty. The approved counterparty has undertaken to use its reasonable endeavours to resolve any such conflicts of interest fairly (having regard to its respective obligations and duties) and to ensure that the interests of the ICAV and its investors are not unfairly prejudiced. The Directors believe that the approved counterparty is suitable and competent to perform such functions. In addition, the valuations provided by the approved counterparty in its role as Calculation Agent will be verified at least weekly by a party independent of the approved counterparty who shall either be the Administrator or sourced by the Administrator as appropriate and who has been approved for such purpose by the Depository. Where swap valuations from an approved counterparty in its role as Calculation Agent would not be provided in time for the calculation of the Sub-Fund’s NAV, the Sub-Fund will value such swaps by utilising the publicly available values for the Index and the Basket, as determined by a competent person appointed by the Directors. This value will be reconciled to the Calculation Agent’s valuation on a daily basis. However, on any day, this alternative valuation could diverge from the valuation calculated by the Calculation Agent, meaning that the valuation of the swaps included in the Sub-Fund’s NAV on any given day may not reflect the Calculation Agent’s valuation. Currently, as it is not expected that swap valuations from the approved counterparty in its role as Calculation Agent will be available at the time Sub-Fund’s NAV is calculated, the alternative valuation is expected to be used.

##### *Basket Default Risk*

Where a Sub-Fund intends to invest primarily in the Basket and thus enter the swap. The Reference Index is the underlying exposure that the investor will receive within the cap and put-spread bounds. This exposure is received via a swap on the Index. The performance of the Basket is delivered to the swap counterparties in return for the exposure on the Index being received by the Sub-Fund, there is no remaining economic exposure in the Sub-Fund to the Basket. An unrectified default by a swap counterparty, may result, in the Sub-Fund having economic exposure to the basket until the matter is resolved.

Further information on the use of derivative contracts is available in Note 9 Derivative Contracts.

Notes to the Financial Statements (continued)

For the year ended 30 June 2024

(Expressed in United States Dollar)

### 7. Financial risk management (continued)

#### (d) Concentration Risk

The Sub-Funds are subject to concentration risk if they have a large exposure to a particular holding or if investors in the Sub-Funds have a holding of shares greater than 5%. The Sub-Funds may invest substantively all of their assets in one country, as a result the Sub-Funds will have greater exposure to market, political, legal, economic and social risks of that country than a Sub-Fund which diversifies country risk across a number of countries.

Each Sub-Fund that aims to track and replicate an index (the “Index Tracking Sub-Fund”) seeks to achieve a return which corresponds generally to the price and yield performance, before fees and expenses, of the relevant Index as published by the Index Provider. Index Provider is an entity or person who by itself or through a designated agent compiles, calculates or publishes information on the relevant Index. There is no assurance that the Index Provider will compile the Index accurately, or that the Index will be determined, composed or calculated accurately. While the Index Provider does provide descriptions of what the Index is designed to achieve, the Index Provider does not provide any warranty or accept any liability in relation to the quality, accuracy or completeness of data in respect of the Index, and does not guarantee that the Index will be in line with the described methodology.

The following table lists the number of individual investment positions for each Sub-Fund that were greater than 5% of the NAV of each Sub-Fund.

#### (e) Efficient Portfolio Management

The ICAV on behalf of the Sub-Funds may employ techniques and instruments relating to financial derivative instruments (“FDIs”) in which it invests for efficient portfolio management purposes, a list of which (if any) shall be, where relevant, set out in the relevant Supplements of the Sub-Funds. FDI’s such as currency forwards and interest rate futures may be utilised for portfolio hedging. Currency forwards may be utilised for NAV hedging. For the years ended 30 June 2024 and 30 June 2023, there were no currency forwards held by the ICAV.

The Sub-Funds’ global exposure and leverage is calculated using the commitment approach and the Sub-Funds’ global exposure will not exceed 100% of NAV. The commitment approach converts the Sub-Funds’ FDI positions into the equivalent positions in the underlying assets and seeks to ensure that the FDI risk is monitored in terms of any future “commitments” to which it is (or may be) obligated. During the years ended 30 June 2024 and 30 June 2023, none of the Sub-Funds held FDI positions.

Direct and indirect operational costs and fees arising from OTC swaps or securities financing transactions may be deducted from the revenue delivered to the UCITS. These costs and fees do not and should not include hidden revenue. All the revenues arising from securities financing transactions and any other efficient portfolio management techniques shall be returned to the relevant Sub-Fund following the deduction of any direct and indirect operational costs and fees arising.

The entities to which direct and indirect costs and fees may be paid include banks, investment firms, broker-dealers, securities lending agents or other financial institutions or intermediaries and may be related parties to the Investment Manager or the Depositary.

Where a Sub-Fund undertakes securities lending, the relevant supplement will disclose the proportion of the revenue generated which will remain with the Sub-Fund and the proportion of the revenue generated (representing the attendant direct and indirect operational costs and fees of any securities lending) which will be retained by the securities lending agent. Such direct and indirect operational costs and fees shall not include hidden revenue.

#### (f) Offsetting and Amounts Subject to Master Netting/Similar Agreements

As at 30 June 2024 and 30 June 2023, the ICAV were subject to ISDA Master Netting Agreements, which are applicable if a Sub-Fund entered into derivative contracts. The Sub-Funds are subject to a securities lending agency agreement with the Sub-Custodian.

The tables below present, at a Sub-Fund level, the Sub-Funds' financial assets and liabilities subject to offsetting, enforceable master netting arrangements and similar agreements as at 30 June 2024 and 30 June 2023. While the terms and conditions of these agreements may vary, all transactions under any such agreement constitute a single contractual relationship between each Sub-Fund and each counterparty, severally and not jointly. Each Sub-Fund's obligation to make any payments, deliveries or other transfers in respect of any transaction under such an agreement may be netted against the counterparty's obligations under such agreement. A default by either party in performance with respect to one transaction under such an agreement would give the other party the right to terminate all transactions under such agreement and calculate one net amount owed from one party to the other. Further information on the Sub-Funds' exposure to the counterparties of the various derivative contracts is provided in Appendix 3.

As at 30 June 2024, the following financial instruments were subject to enforceable master netting agreements.

### 8. Fair value measurement

As the Sub-Funds' investments are classified as financial assets at fair value through profit or loss, the carrying value of the Sub-Funds' investments is a reasonable approximation of fair value. The Sub-Funds accounting policy on fair value measurements is discussed in Note 2(d).

The Sub-Funds measure fair values, as defined by IFRS 13 'Fair Value Measurement' ("IFRS 13"), using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Quoted market price (unadjusted) in an active market for an identical instrument.
- Level 2: Valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes instruments valued using: quoted market prices in active markets for similar instruments; quoted prices for identical or similar instruments in markets that are considered less than active; or other valuation techniques where all significant inputs are directly or indirectly observable from market data.
- Level 3: Valuation techniques using significant unobservable inputs. This category includes all instruments where the valuation technique includes inputs not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Fair values of financial assets that are traded in active markets are based on quoted market prices or dealer price quotations. For all other financial instruments, each Sub-Fund determines fair values using valuation techniques as described above.

As at 30 June 2024, all financial assets and liabilities measured at fair value were carried at Level 1 except for investments in three securities domiciled in Russia, two securities that were suspended on trading, and three securities (including rights and warrant) that were not traded and were carried at Level 3.

## Global X ETFs ICAV

Notes to the Financial Statements (continued)

For the year ended 30 June 2024

(Expressed in United States Dollar)

### 8. Fair value measurement (continued)

The three securities domiciled in Russia in 2024 include RusHydro PJSC which represents 0.00% of the NAV of Global X Renewable Energy Producers UCITS ETF, Magnitogorsk Iron & Steel Works PJSC and Severstal PAO which represents 0.00% and 0.00%, respectively, of the NAV of Global X SuperDividend® UCITS ETF which were all written down.

The two securities that suspended trading in 2024 were Scilex Holding Company which represents 0.05% of the NAV of Global X Genomics & Biotechnology UCITS ETF and Zhejiang Akcome New Energy Technology Co Ltd which represents 0.25% of the NAV of Global X Solar UCITS ETF. The three securities that were not traded were Vizsla Royalties Corp. and Vizsla Royalties Corp. warrant which represents 0.00% and 0.00%, respectively, of the NAV of Global X Silver Miners UCITS ETF and MMG LTD rights which represents 0.03% and 0.05% of the NAV of Global X Disruptive Materials UCITS ETF and Global X Copper Miners UCITS ETF, respectively.

As at 30 June 2023, all financial assets and liabilities measured at fair value were carried at Level 1 except for investments in three securities domiciled in Russia and three securities that were suspended on trading and were carried at Level 3.

The three securities domiciled in Russia in 2023 include RusHydro PJSC which represents 0.00% of the NAV of Global X Renewable Energy Producers UCITS ETF, Magnitogorsk Iron & Steel Works PJSC and Severstal PAO which represents 0.00% and 0.00%, respectively, of the NAV of Global X SuperDividend® UCITS ETF which were all written down.

The three securities suspended its trading in 2023 include Scilex Holding Company which represents 0.28% of the NAV of Global X Genomics & Biotechnology UCITS ETF, Jervois Global Ltd and South Manganese Investment Ltd which represents 0.16% and 0.13%, respectively, of the NAV of Global X Disruptive Materials UCITS ETF.

The tables below analyse the Sub-Funds' assets measured at fair value as at 30 June 2024 by the level in the fair value hierarchy into which the fair value measurement is categorised:

The Investment Manager decided to write down the Russian Securities following the events arising in Ukraine and Russia. Refer to Note 12 for more details.

Transfers between levels are recognised at the end of the reporting period. There were no transfers between Level 1 and Level 3 during the year ended 30 June 2024 (30 June 2023: three).

Each Sub-Fund’s financial instruments not measured at fair value through profit or loss consist of cash and cash equivalents, other assets, bank overdraft, TER fees payable, and other payables whereas cash is classified as Level 1 and the rest as Level 2. These financial instruments are realised or settled within a short period of time. The carrying value of these other financial instruments approximate their fair value.

### 9. Derivative contracts

Typically, derivative contracts serve as components of the Sub-Funds’ investment strategy and are utilised primarily to structure and hedge investments to enhance performance and reduce risk to the Sub-Funds (the Sub-Funds do not designate any derivatives as hedges for hedge accounting purposes as described under IFRS 9).

#### *Total return swaps*

Swaps are bilateral contracts entered into for periods ranging from a few weeks to more than one year. In a standard “swap” transaction, two parties agree to exchange returns (or differentials in rates of return) calculated with respect to a “notional amount”, e.g., the return on or increase in value of a particular dollar amount invested at a particular interest rate, in a particular foreign currency.

Some Sub-Funds intend to invest primarily in a basket of global equity securities and equity related securities (the “Basket”) and entered into an unfunded swap agreement with approved counterparties governed by the International Swaps and Derivatives Association to exchange the performance/return of the Basket for the return of the Index minus any associated fees (the “total return swaps”).

The intention of these Sub-Funds is to gain synthetic exposure to its corresponding reference index via total return swaps. As at 30 June 2024 and 30 June 2023, the following Sub-Funds reported a total return swap included in the Sub-Funds’ financial assets and financial liabilities at fair value through profit or loss in the Statement of Financial Position.

#### **Financial assets at fair value through profit or loss:**

Global X S&P 500® Annual Tail Hedge UCITS ETF	3,376	-

During the years ended 30 June 2024 and 30 June 2023, these Sub-Funds entered into a swap agreement with Citigroup Global Markets Limited.

### 10. Related parties and connected persons

The following parties are considered related parties:

- The Directors
- Carne Global Fund Managers (Ireland) Limited – Manager (up to 3 September 2023)
- Global X Management Company (Europe) Limited – Manager (from 4 September 2023)
- Global X Management Company LLC – Investment Manager
- Carne Global Financial Services Limited – Fund Governance Services (up to 3 September 2023)
- Mirae Asset Securities (USA) Inc. – Broker
- Brown Brothers Harriman & Co. – Securities Lending Agent

Luis Berruga (resigned as a Director of the ICAV on 13 December 2023) as an employee of the Investment Manager did not receive any remuneration from the ICAV. Robert Oliver (appointed as a Director of the ICAV on 13 March 2024) as an employee of the Sub-investment Manager and director of Global X Management Company (Europe) Limited, does not receive any remuneration from the ICAV.

During the year under review, each of the independent non-executive Directors (namely, Mary Canning and Feargal Dempsey) were paid a fixed fee of €20,000, with respect to services provided to the ICAV. Neither of the independent non-executive Directors received variable remuneration.

Directors' fees are disclosed in Note 5, Fees and Expenses. Expenses charged during the years ended 30 June 2024 and 30 June 2023 by the Directors are detailed in Note 5.

Carne Global Fund Managers (Ireland) Limited was the manager of the ICAV until 3 September 2023 and was considered a related party to the ICAV as it was considered to have significant influence over the ICAV in its role as manager. During the period from 1 July 2023 to 3 September 2023, Carne Global Fund Managers (Ireland) Limited received fees of USD 203,124 (year ended 30 June 2023: USD 470,154), of which USD Nil (30 June 2023: USD 163,155) was payable at year end. Carne Global Financial Services Limited, the parent company of Carne Global Fund Managers (Ireland) Limited received fees amounting to USD 254,774 (30 June 2023: USD 133,953) during the year ended 30 June 2024 in respect of other fund governance services to the ICAV, of which USD Nil (30 June 2023: USD 37,197) was payable at year end. Carne Global Financial Services Limited ceased to be a related party on 3 September 2023 following the change of manager, but continues to provide services to the ICAV.

Global X Management Company (Europe) Limited was appointed as the Manager of the ICAV on 4 September 2023 and is considered a related party to the ICAV as it is considered to have significant influence over the ICAV in its role as Manager. During the year ended 30 June 2024, the Manager did not receive any fees from the ICAV.

## Global X ETFs ICAV

Notes to the Financial Statements (continued)

For the year ended 30 June 2024

(Expressed in United States Dollar)

### 10. Related parties and connected persons (continued)

In line with the underlying Management Agreement, certain costs, and expenses of the ICAV shall be borne by the Investment Manager up to 3 September 2023, and Global X Management Company (Europe) Limited from 4 September 2023. In the event the costs and expenses of a Sub-Fund or Class that are intended to be covered within the TER exceed the stated TER, the Manager will discharge any excess amounts out of its own assets.

Transaction costs charged during the years ended 30 June 2024 and 30 June 2023 by Mirae Asset Securities (USA) Inc. are detailed in Note 11.

As of 30 June 2024 and 30 June 2023, each Sub-Fund has a single shareholder which is a nominee of the common depository for the International Central Securities Depositories (“ICSDs”) in which the shares of the Sub-Funds are cleared and settled. However, the beneficial ownership of such shares, and the voting rights in relation to such shares, are passed from the common depository to the ICSDs and onwards to the participants of the ICSDs.

Effective 4 September 2023, Global X Management Company (Europe) Limited replaced Carne Global Fund Managers (Ireland) Limited as the Manager of the ICAV. Mary Canning, Feargal Dempsey and Robert Oliver hold directorships in both Global X Management Company (Europe) Limited and the ICAV.

There were no other related party transactions for the financial year other than those disclosed above, and in Note 5, including any other emoluments or gains which have been paid or are payable, to any Director of the ICAV. All transactions with related parties were at arm’s length.

### 11. Transaction costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument.

During the years ended 30 June 2024 and 30 June 2023, the Sub-Funds incurred the following transaction costs:

<b>Sub-Funds</b>	<b>30 June 2024</b>	<b>30 June 2023</b>

### 12. Significant events during the reporting year

Global X S&P 500® Covered Call UCITS ETF was authorised by the Central Bank on 16 June 2023 and launched on 11 July 2023.

Events arising in Ukraine, as a result of military action being undertaken by Russia in Ukraine, has impacted the securities related to companies domiciled in Russia and/or listed on exchanges located in Russia, including the Moscow Exchange (“Russian Securities”).

On 3 July 2023, the supplement for Global X Copper Miners UCITS ETF was noted to reflect, the TER for each of the share classes of the Sub-Fund was reduced to 0.55% for each share class.

On 1 August 2023, a prospectus addendum and updated supplements for the following Sub-Funds were noted by the Central Bank, which contained updates to trade cut-off time for receipt of applications for subscriptions and redemptions in the Sub-Funds in respect of the relevant Dealing Day from entities registered with the ICAV as authorised participants to 4.30 p.m. (London time) on any business day.

Global X Video Games & Esports UCITS ETF	Global X Copper Miners UCITS ETF
Global X Telemedicine & Digital Health UCITS ETF	Global X Data Center REITs & Digital Infrastructure UCITS ETF
Global X FinTech UCITS ETF	Global X Lithium & Battery Tech UCITS ETF
Global X Robotics & Artificial Intelligence UCITS ETF	Global X Solar UCITS ETF

Global X Autonomous & Electric Vehicles UCITS ETF	Global X Uranium UCITS ETF
Global X Genomics & Biotechnology UCITS ETF	Global X Silver Miners UCITS ETF
Global X Clean Water UCITS ETF	Global X Renewable Energy Producers UCITS ETF

Effective 4 September 2023, Global X Management Company (Europe) Limited replaced Carne Global Fund Managers (Ireland) Limited as the Manager of the ICAV. Global X Management Company (Europe) Limited shall bear additional expenses in excess of TER from this date.

The conflict between Israel and Harakat al-Muqawama al-Islamiya (Islamic Resistance Movement) or HAMAS in Gaza escalated in October 2023. The conflict has temporarily heightened volatility in global markets, although global economic disruptions have been minimal so far. Outside of a geopolitical tail risk that could materially disrupt the market, such as a more direct engagement from Iran, the direct economic and financial implications of the tensions in the Red Sea remain unclear. The outlook for the global economy and markets is expected to be mostly driven by the upcoming potential Federal Reserve’s rate decisions, the outcome of the U.S. presidential elections later this year, and China’s economic growth.

Global X S&P 500® Annual Buffer UCITS ETF and Global X S&P 500® Annual Tail Hedge UCITS ETF were authorised by the Central Bank on 11 October 2023 and launched on 7 November 2023.

On 23 October 2023, Global X S&P 500® Annual Tail Hedge UCITS ETF was noted to reflect an updated index name of CBOE S&P 500® Annual 30% (-5% to -35%) Buffer Protect Index.

On 24 October 2023, an addendum to the prospectus was noted to reflect that the Investment Manager may appoint one or more sub-investment managers, which may include affiliates, to whom it may delegate all or part of the day-to-day conduct of its investment management responsibilities in respect of any Sub-Fund of the ICAV.

### 12. Significant events during the reporting year (continued)

On 26 October 2023, Global X Lithium & Battery Tech UCITS ETF supplement was noted to reflect the index provider's updates to the eligibility requirements for the Lithium Battery Index.

On 6 November 2023, a revised supplement for Global X AgTech & Food Innovation UCITS ETF was noted by the Central Bank to reflect the updated index methodology.

Global X 1-3 Month T-Bill UCITS ETF was authorised by the Central Bank on 10 November 2023 and launched on 6 December 2023.

On 5 December 2023, Global X 1-3 Month T-Bill UCITS ETF was noted to reflect the trade cut off time as 3:30pm UK local time on the relevant Dealing Day.

On 13 December 2023, Luis Berruga resigned as a Director of the ICAV.

On 12 January 2024, all supplements under the Global X ETFs ICAV umbrella at that date were updated to amend the definition of the business day to include the London Stock Exchange.

On 20 February 2024, a revised supplement for Global X Robotics & Artificial Intelligence UCITS ETF was noted by the Central Bank to reflect that the Sub-Fund may have exposure of up to 20% of the NAV in stocks issued by the same body and this limit may be raised to 35% of NAV for a single issuer in exceptional market conditions.

On 13 March 2024, Robert Oliver was appointed as a Director of the ICAV.

On 13 May 2024, a revised supplement for Global X Data Center REITS & Digital Infrastructure UCITS ETF was noted by the Central Bank to reflect that the Sub-Fund does not qualify as an equity fund for German tax purposes.

On 22 May 2024, a revised supplement for the following Sub-Funds were noted by the Central Bank to reflect that, as a result of the U.S. Settlement Rule Changes, it is intended that settlement of subscriptions in the Sub-Funds referred to below will generally occur within one business day (T+1), rather than two business days (T+2), after the relevant Dealing Day (unless otherwise stipulated by the Manager or its delegate at their discretion).

Global X Video Games & Esports UCITS ETF	Global X Copper Miners UCITS ETF
Global X Telemedicine & Digital Health UCITS ETF	Global X Data Center REITS & Digital Infrastructure UCITS ETF
Global X FinTech UCITS ETF	Global X Lithium & Battery Tech UCITS ETF
Global X Robotics & Artificial Intelligence UCITS ETF	Global X Solar UCITS ETF

### 13. Events after the reporting year

Global X European Infrastructure Development UCITS ETF was authorised by the Central Bank on 19 July 2024 and launched on 3 September 2024.

Global X Artificial Intelligence UCITS ETF was authorised by the Central Bank on 19 July 2024 and launched on 10 September 2024.

Global X Defence Tech UCITS ETF was authorised by the Central Bank on 19 July 2024 and launched on 10 September 2024.

On 12 August 2024, the Shenzhen Stock Exchange (“SZSE”) announced that as of that day, that Zhejiang Akcome New Energy Technology Co Ltd was delisted from the exchange. Consequently, the position held in the Global X Solar UCITS ETF was reflected as having zero value.

On 13 August 2024, a revised supplement for Global X AgTech & Food Innovation UCITS ETF was noted by the Central Bank to reflect the recategorisation from an Article 6 fund to an Article 8 fund within the meaning of Regulation (EU) 2019/2088, as amended (“SFDR”).

On 25 September 2024, the U.S. Bankruptcy Court for the Southern District of Texas approved a motion to extend the lock-up period on shares received from a stock dividend of Sorrento Therapeutics Inc. to Scilex Holding to 31 January 2025. As a result, shares of the dividend stock cannot be traded until the new expiration date. Consequently, on 30 September 2024, the position held in the Global X Genomics & Biotechnology UCITS ETF was written down by applying a 95% discount to the price.

Effective 1 October 2024, the registered address of the Administrator and Depositary changed from Styne House, Upper Hatch Street, Dublin 2 to One Charlemont Square, Charlemont Street, Dublin 2.

On 14 October 2024, a revised supplement for Global X U.S. Infrastructure Development UCITS ETF was noted by the Central Bank to reflect the inclusion of a disclosure in the section entitled “Fees and Expenses” to note that the Manager may in its sole discretion, enter into rebate arrangements with certain shareholders in accordance with UCITS requirements.

### Appendix 2 – UCITS V Remuneration Disclosure (Unaudited)

For the year ended 30 June 2024

The European Union Directive 2014/91/EU as implemented in Ireland by S.I. No. 143/2016 - European Union (Undertakings for Collective Investment in Transferable Securities) (Amendment) Regulations 2016, requires management companies to establish and apply remuneration policies and practices that promote sound and effective risk management, and do not encourage risk taking which is inconsistent with the risk profile of the UCITS.

To that effect, Carne Global Fund Managers (Ireland) Limited (up to 3 September 2023) and Global X Management Company (Europe) Limited (from 4 September 2023) (each, the “Managers”) have implemented remuneration policies that apply to all UCITS for which the Managers acts as manager (the “Remuneration Policy”) and covers all staff whose professional activities have a material impact on the risk profile of the Managers or the UCITS it manages (“Identified Staff of the Manager”). In accordance with the Remuneration Policies, all remuneration paid to Identified Staff of the Manager can be divided into:

- Fixed remuneration (payments or benefits without consideration of any performance criteria); and
- Variable remuneration (additional payments or benefits depending on performance or, in certain cases, other contractual criteria) which is not based on the performance of the UCITS.

The Managers have designated the following persons as Identified Staff of the Managers:

Carne Global Fund Managers (Ireland) Limited	Global X Management Company (Europe) Limited
1. The Designated Persons;	1. The Designated Persons;
2. Each of the Manager’s directors;	2. Each of the Manager’s directors;
3. Head of Compliance;	3. Head of Compliance;
4. Risk Officer;	4. Chief Risk Officer;
5. Head of Anti-Money Laundering and Counter Terrorist Financing Compliance	5. Head of Anti-Money Laundering and Counter Terrorist Financing Compliance
6. Money Laundering Reporting Officer;	6. Chief Executive Officer.
7. Chief Executive Officer;	
8. Chief Operating Officer;	
9. All members of the investment committee;	
10. All members of the risk committee and	
11. All members of the valuation committee.	

Carne Global Fund Managers (Ireland) Limited has a business model, policies, and procedures which by their nature do not promote excessive risk taking and take account of the nature, scale, and complexity of the Manager and the UCITS. The Remuneration Policy is designed to discourage risk taking that is inconsistent with the risk profile of the UCITS and the Manager is not incentivised or rewarded for taking excessive risk.

Global X Management Company (Europe) Limited has a business model, policies, and procedures which by their nature do not promote excessive risk taking and take account of the nature, scale, and complexity of the Manager and the UCITS. The Remuneration Policy is designed to discourage risk taking that is inconsistent with the risk profile of the UCITS and the Manager is not incentivised or rewarded for taking excessive risk.

Carne Global Fund Managers (Ireland) Limited has determined not to constitute a separate remuneration committee and for remuneration matters to be determined through the manager’s Compliance and AML Committee, a Committee of the manager’s Board. Carne Global Fund Managers (Ireland) Limited’s Compliance and the AML Committee is responsible for the ongoing implementation of the manager’s remuneration matters and will assess, oversee, and review the remuneration arrangements of the manager as well as that of the delegates as relevant, in line with the provisions of the applicable remuneration requirements.

## Global X ETFs ICAV

### Appendix 2 – UCITS V Remuneration Disclosure (Unaudited) (continued)

For the year ended 30 June 2024

Global X Management Company (Europe) Limited has determined that due to the nature, scale and complexity of the business that it is appropriate for remuneration matters to be determined through the Manager’s Board and through the Remuneration Policy. Global X Management Company (Europe) Limited’s Board is responsible for the ongoing implementation of the Manager’s remuneration matters and will assess, oversee, and review the remuneration arrangements of the Manager as well as that of the delegates as relevant, in line with the provisions of the applicable remuneration requirements.

Carne Global Fund Managers (Ireland) Limited’s parent company is Carne Global Financial Services Limited (“Carne”). Carne operates through a shared services organisational model which provides that Carne employs staff and further enters into inter-group agreements with other Carne Group entities within the group to ensure such entities are resourced appropriately. As at 31 December 2023, 12 of the Identified Staff are employed directly by Carne Global Fund Managers (Ireland) Limited. The remainder of the Identified Staff are employees of Carne, or employees of another entity within the Carne Group, and are remunerated directly based on their contribution to Carne Group as a whole. In return for the services of each of the Carne Identified Staff, Carne Global Fund Managers (Ireland) Limited pays an annual staff recharge to Carne (the “Staff Recharge”). The Other Identified Staff member’s remuneration is linked to their overall individual contribution to the Manager or the Carne group, with reference to both financial and nonfinancial criteria and not directly linked to the performance of specific business units or targets reached or the performance of the UCITS.

The 6 identified staff of Global X Management Company (Europe) Limited are direct employees of the Company.

The independent non-executive directors are paid a fixed remuneration for both Managers

The remuneration of the directly employed identified staff of the Managers and the remuneration of the independent non-executive directors, the portion of this remuneration that are attributable to the UCITS on the basis of number of sub-funds / net asset value of the UCITS relative to the number of sub-funds / assets under management, and the number of Identified Staff for the year ended 31 December 2023 are disclosed below.

	Carne Global Fund Managers (Ireland) Limited	Global X Management Company (Europe) Limited
Remuneration of Identified Staff	€2,424,932	€663,247
Number of Identified Staff	22	6
Remuneration attributable to the UCITS	€40,310	€214,419

The Managers had and has delegated investment management to the Investment Manager. The Managers had and has put in place contractual arrangements with the Investment Manager to receive and disclose information regarding the remuneration of the Investment Manager identified staff in accordance with the remuneration guidelines. No remuneration has been paid to staff of the Investment Manager by the Managers. The Investment Manager pays remuneration to its staff in accordance with the policies, procedures and processes applicable to it.

### Appendix 4 – Sustainable Finance Disclosure Regulation (Unaudited)

For the year ended 30 June 2024

---

#### ***The Sustainable Finance Disclosure Regulation (“SFDR”) and Taxonomy Regulation***

Global X CleanTech UCITS ETF, Global X Renewable Energy Producers UCITS ETF, Global X Clean Water UCITS ETF, Global X Hydrogen UCITS ETF, Global X Wind Energy UCITS ETF, and Global X Solar UCITS ETF are classified as Article 8 funds according to the Sustainable Finance Disclosure Regulation (“SFDR”). This means that these Sub-Funds promote environmental or social characteristics in a way that meets the specific criteria contained in Article 8 of SFDR. Details are disclosed in Appendix 4. The rest of the Sub-Funds are classified as Article 6 funds. The investments underlying these Sub-Funds do not take into account the European Union criteria for environmentally sustainable activities.

During the course of the year, regulation around sustainability-related disclosures continued to evolve, through the Sustainable Finance Disclosure Regulation (Regulation EU/2019/2088) (the “SFDR”) and the EU Taxonomy Regulation (Regulation (EU) 2020/852, and amending SFDR) (the “Taxonomy Regulation”) and their associated regulatory technical standards and available guidance. Additional disclosure requirements under the Commission Delegated Regulation (EU) 2022/12882 (“SFDR Level 2”) are applicable to all annual reports published on or after 1 January 2023 and such disclosures as they relate to the Sub-Funds can be found in Appendix 4 of this report. Such disclosures have in part been prepared using data sourced from third party data providers which was available as at the date of which the disclosures were produced. It has been observed that the availability of data continues to be challenging in some respects and there may be further regulatory guidance of relevance to the content of the disclosures that is still to be issued. The disclosures included in Appendix 4 of this report should consequently be read and understood in light of these continuing challenges. With the assistance of the Manager and the Investment Managers, the Board continues to monitor the ongoing development and evolution of sustainability-related regulation and associated guidance and the availability of relevant data in this regard.

**Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:** Global X CleanTech UCITS ETF (the “Fund”)

**Legal entity identifier:** 635400AFWBVKC5AB2I24

## Environmental and/or social characteristics

**Did this financial product have a sustainable investment objective?** *[tick and fill in as relevant, the percentage figure represents the minimum commitment to sustainable investments]*

**Yes**

It made **sustainable investments with an environmental objective:** \_\_\_%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** \_\_\_%

**No**

It promoted **Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_% of sustainable investments while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_% of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The Fund promoted investment in exchange-listed companies that were positioned to benefit from the increased adoption of technologies focused on improving the efficiency of renewable energy production and/or mitigating the adverse environmental effects of resource consumption (“**CleanTech**”), including, but not limited to, companies whose principal business is in developing technology relating to renewable energy, energy efficiency and storage, smart grid, lithium-ion batteries and/or fuel cells, and/or pollution prevention/amelioration (collectively, “**CleanTech Companies**” as defined by Indxx LLC, (the “**Index Provider**”) of the Indxx Global CleanTech v2 Index (the “**Index**”).

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviewed each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products were defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable.

Any existing or potential constituent of the Index which did not meet the labour, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breaches the established thresholds for involvement in controversial products, as of the quarterly review was excluded from the Index, as determined by the Index Provider.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

The MSCI World Index has been designated as a reference benchmark for the purpose of attaining the environmental / social characteristics promoted by the Fund.

● ***How did the sustainability indicators perform?***

*As at 30 June 2024.*

<b>Sustainability Indicators</b>	<b>Performance as at the end of the reference period.</b>
The eligible universe of companies screened out of the portfolio of the Fund out as a result of the application of the ESG screening criteria incorporated in the Index methodology	0%
Percentage of the Fund portfolio invested in companies which comply with the principles of the United Nations Global Compact (“UNGC”)	99.52%

● ***...and compared to previous periods?***

<b>Sustainability Indicators</b>	<b>As at 30th June 2023</b>
The eligible universe of companies screened out of the portfolio of the Fund out as a result of the application of the ESG screening criteria incorporated in the Index methodology	0%
Percentage of the Fund portfolio invested in companies which comply with the principles of the United Nations Global Compact (“UNGC”)	100%

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

N/A.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

N/A.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

N/A.

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

N/A.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Fund did not consider principal adverse impacts on sustainability factors.

**What were the top investments of this financial product?**

The top investments of this Fund, excluding cash and derivatives, were:

Holding	Sector	% Assets	Country
FIRST SOLAR INC	Information Technology	9.65	US
SAMSUNG SDI CO LTD	Information Technology	5.67	KR
VESTAS WIND SYSTEMS A/S	Industrials	5.49	DK
NEXTRACKER INC-CL A	Industrials	5.40	US
ENPHASE ENERGY INC	Information Technology	5.25	US
CHINA EVERBRIGHT ENVIRONMENT	Industrials	5.23	HK

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: 29.06.2023 – 30.06.2024.

For the year ended 30 June 2024

**Asset allocation** describes the share of investments in specific assets.

Holding	Sector	% Assets	Country
XINYI SOLAR HOLDINGS LTD	Information Technology	4.96	CN
NORDEX SE	Industrials	4.80	DE
JOHNSON MATTHEY PLC	Materials	4.72	GB
BLOOM ENERGY CORP- A	Industrials	4.68	US
SIMPLO TECHNOLOGY CO LTD	Information Technology	4.30	TW
LANDIS + GYR GROUP AG	Information Technology	3.97	CH
FLUENCE ENERGY INC	Industrials	3.74	US
QUANTUMSCAPE CORP	Consumer Discretionary	3.69	US
PLUG POWER INC	Industrials	2.71	US

Weight of top investments is at the end of the financial year.

### What was the proportion of sustainability-related investments?

- What was the asset allocation?**

The Fund invested in a portfolio of equity securities that, as far as possible and practicable, consisted of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts (“ADRs”) and Global Depositary Receipts (“GDRs”) based on the securities in the Index.

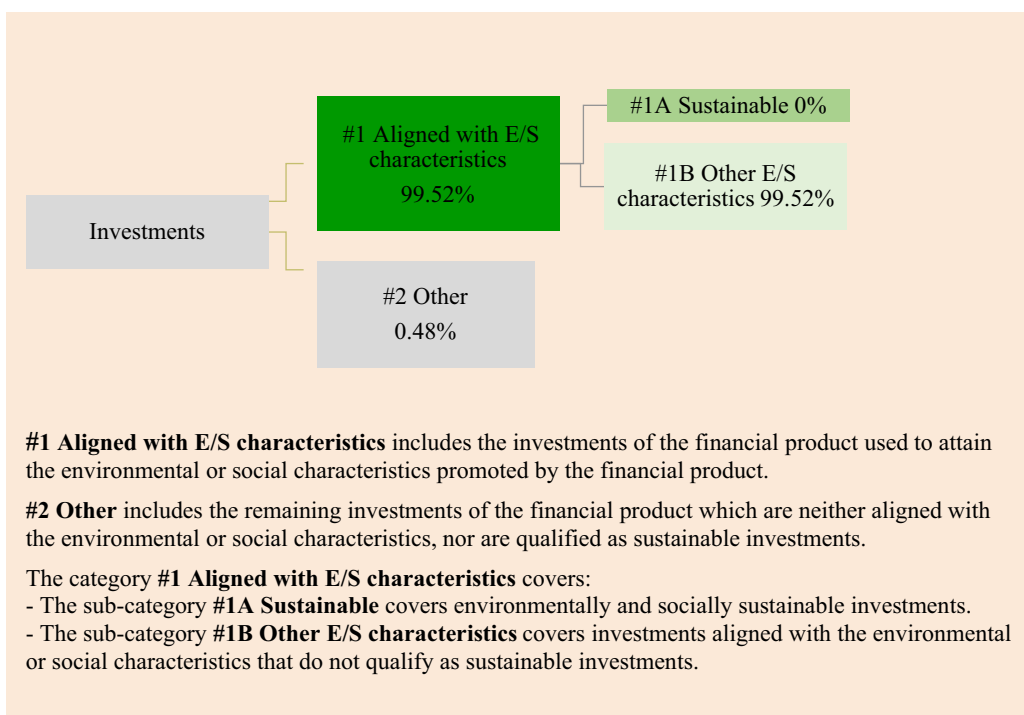

The Fund invested 99.52% of its assets in investments which attained the environmental characteristics promoted by the Fund.

The remaining 0.48% of the Fund’s investments were in investments which sought to achieve the broader objectives of the Fund including instruments for the purposes of efficient portfolio management, and liquidity management purposes. No minimum environmental or social safeguards were applied in relation to these instruments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

For the year ended 30 June 2024

● **In which economic sectors were the investments made?**<sup>1</sup>

**By Sector**

Sector	% Sector Allocation
Industrials	50.76%
Information Technology	40.40%
Materials	4.70%
Consumer Discretionary	3.66%

**By Sub-Industry**

Sub-Industry	% Sub-Industry Allocation
Automotive Parts & Equipment	3.67%
Construction & Engineering	1.67%
Electrical Components & Equipment	22.23%
Electronic Components	9.93%
Electronic Equipment & Instruments	3.95%
Environmental & Facilities Services	5.20%
Heavy Electrical Equipment	21.65%
Semiconductor Materials & Equipment	12.93%
Semiconductors	13.60%
Specialty Chemicals	4.69%

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy?**<sup>2</sup>

Yes:

In fossil gas

In nuclear energy

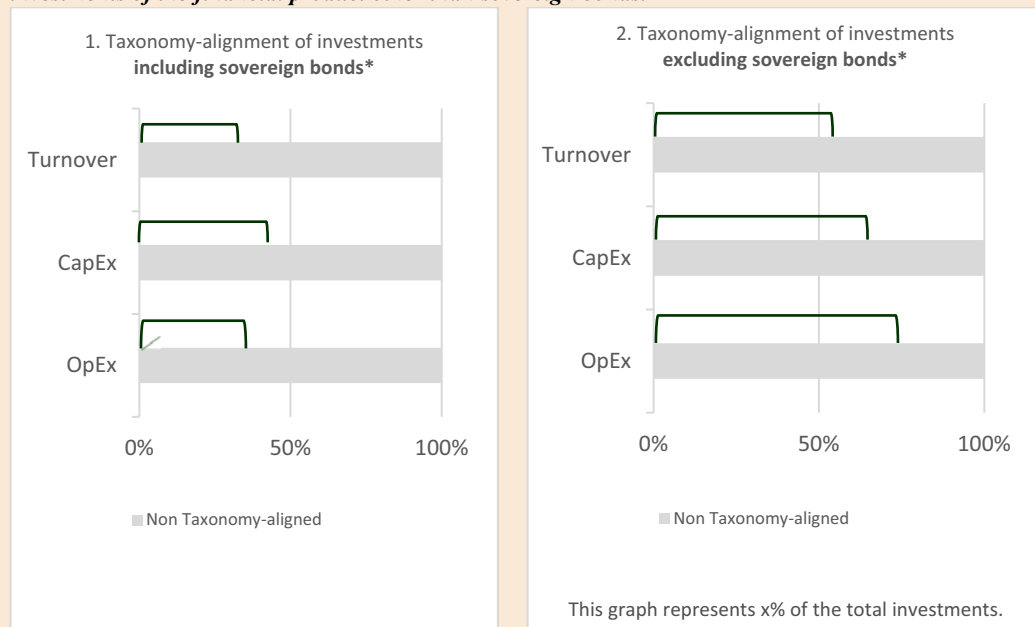

No

<sup>1</sup> This section should provide information on the proportion of investments during the period covered by the periodic report in different sectors and sub-sectors (including, if relevant, sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels). This section may be completed by reference to NACE sectors and sub-sectors, the EU standard classification system.

<sup>2</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

For the year ended 30 June 2024

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● **What was the share of investments made in transitional and enabling activities?**

The Fund did not invest in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

**What was the share of socially sustainable investments?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

No “other” assets were invested in by the Fund for the period. The Fund held cash which was 0.48% of its investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental characteristics promoted by the Fund by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section “How did the sustainability indicators perform” above for further information.

The index was rebalanced in line with methodology to ensure its constituents remained in line with the outlined screening criteria, which necessitated that the portfolio of the Fund was subject to a corresponding rebalance.

### How did this financial product perform compared to the reference benchmark?

The Fund continued to track the Index in accordance with the supplement for the Fund during the reference benchmark.

The methodology for the calculation of the designated index can be found at <https://www.indxx.com/indxx-global-cleantech-v2-index-tr>.

#### ● *How does the reference benchmark differ from a broad market index?*

The Index was weighted according to the Index Provider’s ESG proprietary ratings.

The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviewed each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products were defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable.

Any existing or potential constituent of the Index which did not meet the labour, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breached the established thresholds for involvement in controversial products, as of the quarterly review was excluded from the Index, as determined by the Index Provider.

The universe of possible investments therefore differed from a broad market index.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

For the year ended 30 June 2024

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

The Fund performed broadly in line with the Index. Please see below table.

<b>Sustainability Indicators</b>	<b>Performance of the Fund</b>	<b>Performance of the Index (reference benchmark)</b>
The eligible universe of companies screened out of the portfolio of the Fund <b>and the Index</b> as a result of the application of the ESG screening criteria incorporated in the Index methodology	7.5%	7.5%
Percentage of each of the <b>Index and the Fund's</b> portfolios invested in companies which comply with the principles of the United Nations Global Compact Principles	99.52%.	100%

- ***How did this financial product perform compared with the reference benchmark?***

As the Fund achieves its environmental characteristics by tracking the Index, which has a methodology that is consistent with attaining the environmental characteristics promoted by the Fund, the performance of the Fund broadly aligned with the performance of the Index during the reference period, as set out below. Please see below for the performance of the sustainability indicators versus the Index.

- ***How did this financial product perform compared with the broad market index?***

The Investment Manager has designated MSCI World Index as a relevant broad market index and, accordingly, the performance of the Fund compared with MSCI World Index, against the sustainability indicators for the Fund, is set out below:

<b>Sustainability Indicators</b>	<b>Performance of the Fund</b>	<b>Performance of the broad market index (MSCI World Index)</b>
The eligible universe of companies screened out of the portfolio of the Fund <b>and the Index</b> as a result of the application of the ESG screening criteria incorporated in the Index methodology	7.5%	0%
Percentage of each of the <b>Index and the Fund's</b> portfolios invested in companies which comply with the principles of the United Nations Global Compact Principles	99.52%.	92.19%

**Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name: Global X Renewable Energy Producers UCITS ETF (the “Fund”)**

**Legal entity identifier: 635400FK76ORXEWQ3M88**

**Environmental and/or social characteristics**

Did this financial product have a sustainable investment objective?	
<p><input checked="" type="radio"/> <input type="radio"/> <b>Yes</b></p> <p><input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b>: ___%</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <p><input type="checkbox"/> It made <b>sustainable investments with a social objective</b>: ___%</p>	<p><input checked="" type="radio"/> <input type="radio"/> <input checked="" type="checkbox"/> <b>No</b></p> <p><input type="checkbox"/> It promoted <b>Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <p><input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b></p>

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The Fund promoted investment in renewable sources including wind, solar, hydroelectric, geothermal, and biofuels by investing in publicly traded companies listed in either developed or emerging markets (excluding India) that produce energy from renewable sources including wind, solar, hydroelectric, geothermal, and biofuels (including publicly traded companies that are formed to own operating assets that produce defined cash flows and are focused on returning cash flows generated from renewable energy assets to shareholders (“YieldCos”)) (collectively, “Renewable Energy Companies”), as defined by Indxx LLC (the “Index Provider”) of the the Indxx Renewable Energy Producers v2 Index (the “Index”).

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviewed each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products were defined by Minerva as products that posed a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable.

Any existing or potential constituent of the Index which did meet the labor, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breached the established thresholds for involvement in controversial products, as of the quarterly review were excluded from the Index, as determined by the Index Provider.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

The MSCI World Index has been designated as a reference benchmark for the purpose of attaining the environmental / social characteristics promoted by the Fund.

● ***How did the sustainability indicators perform?***

*As at 30 June 2024.*

<b>Sustainability Indicators</b>	<b>Performance as at the end of the reference period.</b>
The eligible universe of companies screened out of the portfolio of the Fund as a result of the application of the ESG screening criteria incorporated in the Index methodology	0%
Percentage of the Fund's portfolio invested in companies which comply with the principles of the United Nations Global Compact Principles	99.76%

● ***...and compared to previous periods?***

<b>Sustainability Indicators</b>	<b>As at 30th June 2023</b>
The eligible universe of companies screened out of the portfolio of the Fund as a result of the application of the ESG screening criteria incorporated in the Index methodology	14.13%
Percentage of the Fund's portfolio invested in companies which comply with the principles of the United Nations Global Compact Principles	100%

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

N/A.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

N/A.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

N/A.

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

N/A.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Fund did not consider principal adverse impacts on sustainability factors.

**What were the top investments of this financial product?**

The top investments of this Fund, excluding cash, were:

Holding	Sector	% Assets	Country
MERIDIAN ENERGY LTD	Utilities	7.07	NZ
NEOEN SA	Utilities	6.55	FR
VERBUND AG	Utilities	6.07	AT
BROOKFIELD RENEWABLE PARTNER	Utilities	6.00	CA
ORSTED A/S	Utilities	5.97	DK
EDP RENOVAVEIS SA	Utilities	5.24	ES

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is 29.06.2023 – 30.06.2024.:

For the year ended 30 June 2024

Holding	Sector	% Assets	Country
CENTRAIS ELETRICAS BRASILIER	Utilities	4.89	BR
CONTACT ENERGY LTD	Utilities	4.79	NZ
ORMAT TECHNOLOGIES INC	Utilities	4.78	US
MERCURY NZ LTD	Utilities	4.73	NZ
ERG SPA	Utilities	4.05	IT
ENCAVIS AG-TEND	Utilities	3.25	DE
SUNRUN INC	Industrials	2.86	US
NEXTERA ENERGY PARTNERS LP	Utilities	2.86	US
BORALEX INC -A	Utilities	2.79	CA

**Asset allocation** describes the share of investments in specific assets.

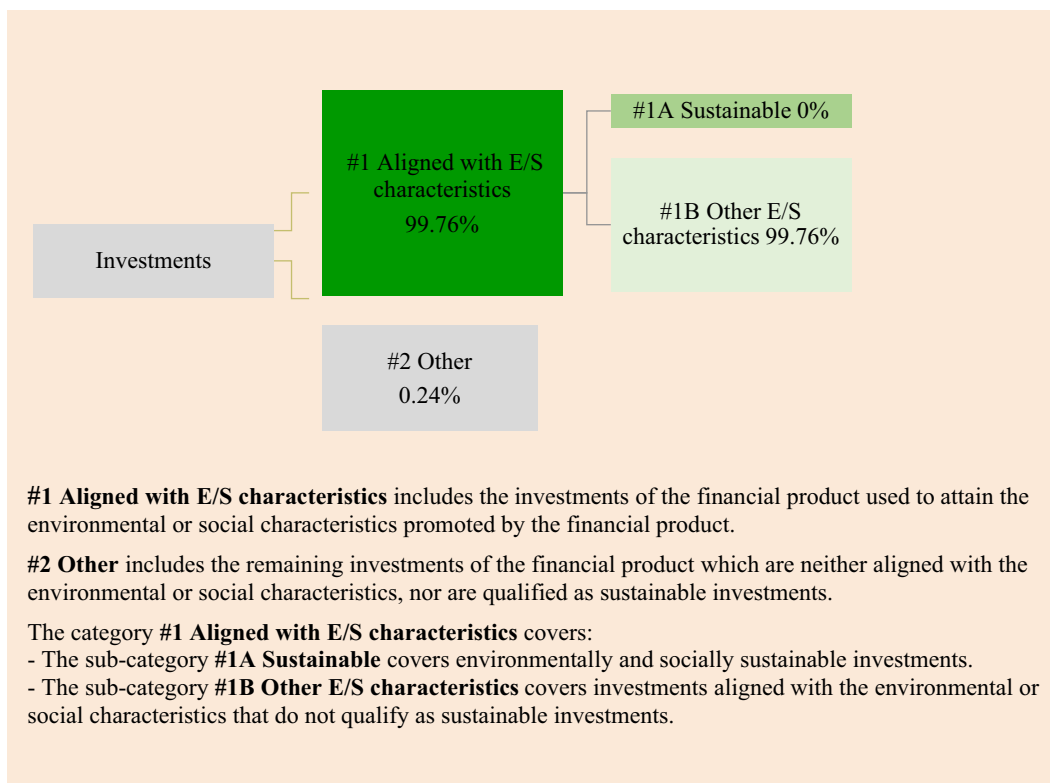

Weight of top investments is at the end of the financial year.

### What was the proportion of sustainability-related investments?

- What was the asset allocation?*

The Fund invested in a portfolio of equity securities that, as far as possible and practicable, consisted of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts (“ADRs”) and Global Depositary Receipts (“GDRs”) based on the securities in the Index.

The Fund invested 99.76% of its assets in investments which attained the environmental characteristics promoted by the Fund.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The remaining 0.24% of the Fund’s investments were in investments which sought to achieve the broader objectives of the Fund including instruments for the purposes of efficient portfolio management, and liquidity management purposes. No minimum environmental or social safeguards were applied in relation to these instruments.

● ***In which economic sectors were the investments made?<sup>1</sup>***

***By Sector***

Sector	% Sector Allocation
Utilities	94.79%
Industrials	3.67%
Energy	1.30%

***By Sub-Industry***

Sub-Industry	% Sub-Industry Allocation
Construction & Engineering	0.82%
Electric Utilities	20.43%
Electrical Components & Equipment	2.85%
Oil & Gas Refining & Marketing	1.30%
Renewable Electricity	74.36%

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>2</sup>?**

Yes:

In fossil gas

In nuclear energy

No

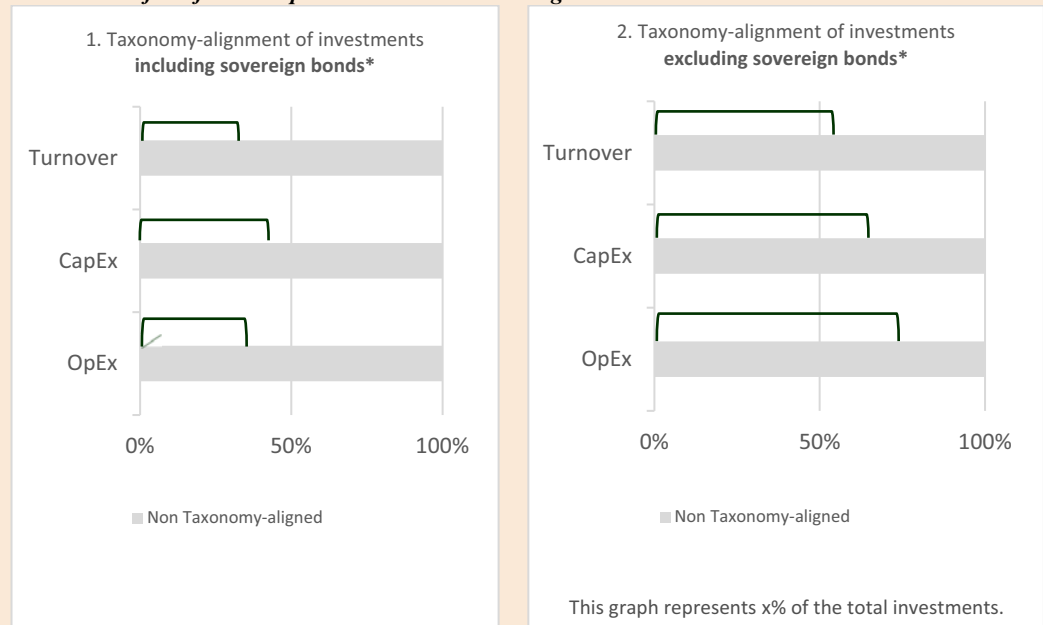

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

<sup>1</sup> This section should provide information on the proportion of investments during the period covered by the periodic report in different sectors and sub-sectors (including, if relevant, sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels). This section may be completed by reference to NACE sectors and sub-sectors, the EU standard classification system.

<sup>2</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of investments made in transitional and enabling activities?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

**What was the share of socially sustainable investments?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

No “other” assets were invested in by the Fund for the period. The Fund held cash which was 0.24% of its investments.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved its environmental characteristics by tracking the Reference Index, which has a methodology that is consistent with attaining the environmental characteristics promoted by the Fund.

Please refer to the section “*How did the sustainability indicators perform*” above for further information.

The Index was rebalanced in line with its methodology to ensure its constituents remained in line with the outlined screening criteria, which necessitated that the portfolio of the Fund was subject to a corresponding rebalance.

### How did this financial product perform compared to the reference benchmark?

The Fund continued to track its reference benchmark within its predefined constraints during the period.

The methodology for the calculation of the designated index can be found at <https://www.indxx.com/indxx-renewable-energy-producers-v2-index-tr>.

- ***How does the reference benchmark differ from a broad market index?***

The Index was weighted according to the Index Provider’s ESG proprietary ratings.

The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviewed each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products are defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable.

Any existing or potential constituent of the Index which did not meet the labor, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breached the established thresholds for involvement in controversial products, as of the quarterly review were excluded from the Index, as determined by the Index Provider.

The universe of possible investments therefore differed from a broad market index.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

For the year ended 30 June 2024

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

The Fund performed broadly in line with the Index. Please see below table.

<b>Sustainability Indicators</b>	<b>Performance of the Fund</b>	<b>Performance of the Index (reference benchmark)</b>
The eligible universe of companies screened out of the portfolio of the Fund <b>and the Index</b> as a result of the application of the ESG screening criteria incorporated in the Index methodology	17.07%	17.07%
Percentage of each of the <b>Index and the Fund's</b> portfolios invested in companies which comply with the principles of the United Nations Global Compact Principles	99.76%.	99.76%

- ***How did this financial product perform compared with the reference benchmark?***

As the Fund achieves its environmental characteristics by tracking the Index, which has a methodology that is consistent with attaining the environmental characteristics promoted by the Fund, the performance of the Fund broadly aligned with the performance of the Index during the reference period, as set out below. Please see below for the performance of the sustainability indicators versus the Index.

- ***How did this financial product perform compared with the broad market index?***

The Investment Manager has designated MSCI World Index as a relevant broad market index and, accordingly, the performance of the Fund compared with MSCI World Index, against the sustainability indicators for the Fund, is set out below:

<b>Sustainability Indicators</b>	<b>Performance of the Fund</b>	<b>Performance of the broad market index (MCI World Index)</b>
The eligible universe of companies screened out of the portfolio of the Fund <b>and the Index</b> as a result of the application of the ESG screening criteria incorporated in the Index methodology	17.07%	0%
Percentage of each of the <b>Index and the Fund's</b> portfolios invested in companies which comply with the principles of the United Nations Global Compact Principles	99.76%.	92.19%

**Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:** Global X Clean Water UCITS ETF (the “Fund”)

**Legal entity identifier:** 635400KHBDPHZRXLHM36

**Environmental and/or social characteristics**

**Did this financial product have a sustainable investment objective?**

<input checked="" type="radio"/> <input type="radio"/> <b>Yes</b>	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> <b>No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ___%	<input type="checkbox"/> It promoted <b>Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The Fund promoted investment in companies that have business operations in the provision of clean water (“**Clean Water Companies**”), by replicating the Solactive Global Clean Water Industry v2 Index (the “**Index**”).

Clean Water Companies as defined by Solactive AG, the provider of the Index (the “**Index Provider**”) are those companies that derive at least 50% of their revenues, operating income, or assets from the following business activities: (1) Industrial water treatment, recycling (including water reclamation), purification, and conservation; (2) water storage, transportation, metering, and distribution infrastructure; (3) production of household and commercial water purifier and heating products; and (4) provision of consulting services identifying and implementing water efficiency strategies at the corporate and/ or municipal levels.

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

For the year ended 30 June 2024

The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviewed each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products were defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable.

Any existing or potential constituent of the Index which did not meet the labour, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breaches the established thresholds for involvement in controversial products, as of the quarterly review was excluded from the Index, as determined by the Index Provider.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

The MSCI World Index has been designated as a reference benchmark for the purpose of attaining the environmental / social characteristics promoted by the Fund.

● ***How did the sustainability indicators perform?***

*As at 30 June 2024.*

<b>Sustainability Indicators</b>	<b>Performance as at the end of the reference period.</b>
The eligible universe of companies screened out of the portfolio of the Fund out as a result of the application of the ESG screening criteria incorporated in the Index methodology	6.8%
Percentage of the Fund portfolio invested in companies which comply with the principles of the United Nations Global Compact (“UNGC”)	99.62%

● ***...and compared to previous periods?***

<b>Sustainability Indicators</b>	<b>As at 30th June 2023</b>
The eligible universe of companies screened out of the portfolio of the Fund out as a result of the application of the ESG screening criteria incorporated in the Index methodology	4.16%
Percentage of the Fund portfolio invested in companies which comply with the principles of the United Nations Global Compact (“UNGC”)	100%

● ***What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?***

N/A.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

N/A.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

N/A.

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

N/A.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The Fund did not consider principal adverse impacts on sustainability factors.

**What were the top investments of this financial product?**

The top investments of this Fund, excluding cash and derivatives, were

Holding	Sector	% Fund	Country
ECOLAB INC	Materials	10.22	US
XYLEM INC	Industrials	9.50	US
AMERICAN WATER WORKS CO INC	Utilities	9.20	US
FERGUSON PLC	Industrials	8.49	GB

ZURN ELKAY WATER SOLUTIONS C	Industrials	2.70	US
KURITA WATER INDUSTRIES LTD	Industrials	2.68	JP

Weight of top investments is at the end of the financial year.

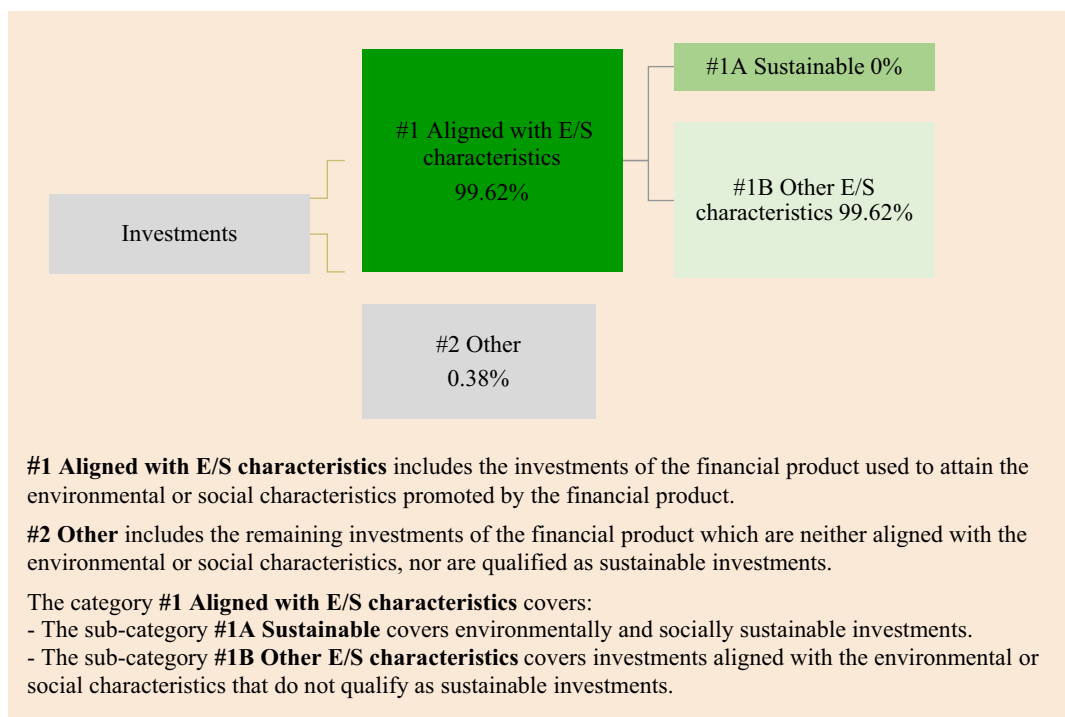

### What was the proportion of sustainability-related investments?

● *What was the asset allocation?*

The Fund invested in a portfolio of equity securities that, as far as possible and practicable, consisted of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts (“ADRs”) and Global Depositary Receipts (“GDRs”) based on the securities in the Index.

The Fund invested 99.62% of its assets in investments which attained the environmental characteristics promoted by the Fund.

The remaining 0.38% of the Fund’s investments were in investments which sought to achieve the broader objectives of the Fund including instruments for the purposes of efficient portfolio management, and liquidity management purposes. No minimum environmental or social safeguards were applied in relation to these instruments.

**Asset allocation** describes the share of investments in specific assets.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?<sup>1</sup>**

**By Sector**

Sector	% Sector Allocation
Industrials	54.37%
Utilities	29.97%
Materials	10.21%
Information Technology	3.50%
Consumer Discretionary	1.57%

**By Sub-Industry**

Sub-Industry	% Sub-Industry Allocation
Building Products	13.73%
Electronic Equipment & Instruments	3.50%
Environmental & Facilities Services	0.70%
Household Appliances	1.57%
Industrial Machinery & Suppliers	26.11%
Specialty Chemicals	10.21%
Trading Companies & Distributors	13.83%
Water Utilities	29.97%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● **To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>2</sup>?**

Yes:

In fossil gas

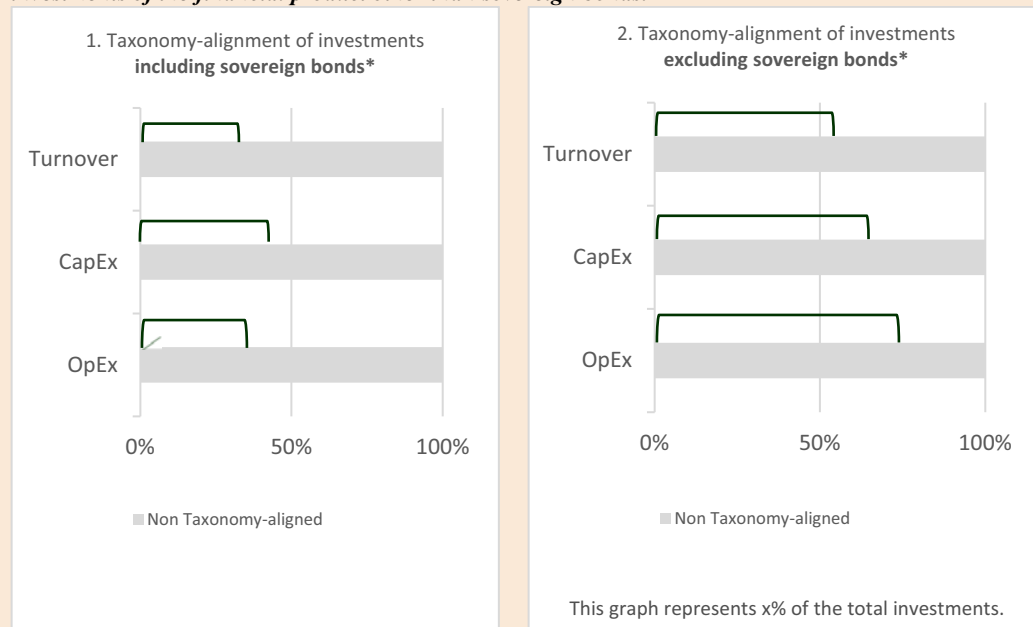

In nuclear energy

No

<sup>1</sup> This section should provide information on the proportion of investments during the period covered by the periodic report in different sectors and sub-sectors (including, if relevant, sectors and sub-sectors of the economy that derive revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels). This section may be completed by reference to NACE sectors and sub-sectors, the EU standard classification system.

<sup>2</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

● **What was the share of investments made in transitional and enabling activities?**

The Fund did not invest in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

**What was the share of socially sustainable investments**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

No “other” assets were invested in by the Fund for the period. The Fund held cash which was 0.32% of its investments.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund achieved the environmental characteristics promoted by the Fund by tracking the Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section “How did the sustainability indicators perform” above for further information.

The index was rebalanced in line with methodology to ensure its constituents remained in line with the outlined screening criteria, which necessitated that the portfolio of the Fund was subject to a corresponding rebalance.

**How did this financial product perform compared to the reference benchmark?**

The Fund continued to track the Index in accordance with the supplement for the Fund during the reference benchmark.

The methodology for the calculation of the designated index can be found at <https://www.solactive.com/indices/?index=DE000SL0CZS9>.

- ***How does the reference benchmark differ from a broad market index?***

The Index was weighted according to the Index Provider’s ESG proprietary ratings.

The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviewed each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products were defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable.

Any existing or potential constituent of the Index which did not meet the labor, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breached the established thresholds for involvement in controversial products, as of the quarterly review was excluded from the Index, as determined by the Index Provider.

The universe of possible investments therefore differed from a broad market index.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

For the year ended 30 June 2024

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

The Fund performed broadly in line with the Index. Please see below table.

<b>Sustainability Indicators</b>	<b>Performance of the Fund</b>	<b>Performance of the Index (reference benchmark)</b>
The eligible universe of companies screened out of the portfolio of the Fund <b>and the Index</b> as a result of the application of the ESG screening criteria incorporated in the Index methodology	10%	10%
Percentage of each of the <b>Index and the Fund's</b> portfolios invested in companies which comply with the principles of the United Nations Global Compact Principles	99.62%.	100%

- ***How did this financial product perform compared with the reference benchmark?***

As the Fund achieves its environmental characteristics by tracking the Index, which has a methodology that is consistent with attaining the environmental characteristics promoted by the Fund, the performance of the Fund broadly aligned with the performance of the Index during the reference period, as set out below. Please see below for the performance of the sustainability indicators versus the Index.

- ***How did this financial product perform compared with the broad market index?***

The Investment Manager has designated MSCI World Index as a relevant broad market index and, accordingly, the performance of the Fund compared with MSCI World Index, against the sustainability indicators for the Fund, is set out below:

<b>Sustainability Indicators</b>	<b>Performance of the Fund</b>	<b>Performance of a relevant broad market index (MSCI World Index)</b>
The eligible universe of companies screened out of the portfolio of the Fund <b>and the Index</b> as a result of the application of the ESG screening criteria incorporated in the Index methodology	10%	0%
Percentage of each of the <b>Index and the Fund's</b> portfolios invested in companies which comply with the principles of the United Nations Global Compact Principles	99.62%.	92.19%

**Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:** Global X Hydrogen UCITS ETF (the “Fund”)

**Legal entity identifier:** 635400P7P5NKHXV1XQ19

**Environmental and/or social characteristics**

**Did this financial product have a sustainable investment objective?**

<input checked="" type="radio"/> <input type="radio"/> <b>Yes</b>	<input type="radio"/> <input checked="" type="radio"/> <input checked="" type="checkbox"/> <b>No</b>
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ___%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The Fund promoted investment in companies that were positioned to benefit from further advances in the field of hydrogen technology. Hydrogen technology includes products and services focused on the development and implementation of hydrogen gas as a renewable fuel source.

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

For the year ended 30 June 2024

---

Specifically, the Fund sought to replicate the performance of the Solactive Global Hydrogen v2 Index (the “**Index**”) that included securities issued by “**Hydrogen Companies**” as defined by Solactive AG, (the “**Index Provider**”) as those companies derived at least 50% of their revenues, operating income, or assets from the following business activities: 1. Hydrogen Production: Companies involved in the production, transportation, storage, and distribution of hydrogen (including renewable hydrogen) that can be used as an energy source. 2. Hydrogen Fuel Cells: Companies that develop and/or manufacture fuel cells (and the components thereof) that convert chemical energy into electricity and heat, powered by hydrogen fuel and/or reformed hydrogen-rich gas. 3. Hydrogen Technology: Companies involved in the production of hydrogen electrolyzers (which produce hydrogen gas from water), tanks and pipelines, commercial and residential infrastructure, generators, engines, and vehicles powered by hydrogen fuel cells, as well as hydrogen fuelling stations. 4. Hydrogen Integration: Companies that provide engineering and consulting services for the adoption and utilization of hydrogen-based fuel and/or energy sources at the residential, commercial, and industrial levels.

In addition, companies identified by the Index Provider as deriving greater than 0% but less than 50% of revenue from the business activities described above (“**Diversified Hydrogen Companies**”), as well as companies identified by the Index Provider as having primary business operations in the business activities described above but that do not currently generate revenues (“**Pre-Revenue Hydrogen Companies**”), were eligible for inclusion in the Index. In addition, Diversified Hydrogen Companies and Pre-Revenue Hydrogen Companies are subject to an individual weight cap of 2% and an aggregate weight cap of 10% at each semi-annual rebalance.

The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviewed each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products were defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable.

Any existing or potential constituent of the Index which did not meet the labour, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breaches the established thresholds for involvement in controversial products, as of the quarterly review were excluded from the Index, as determined by the Index Provider.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

The MSCI World Index has been designated as a reference benchmark for the purpose of attaining the environmental / social characteristics promoted by the Fund.

● **How did the sustainability indicators perform?**

*As at 30 June 2024*

Sustainability Indicators	Performance as at the end of the reference period.
The eligible universe of companies screened out of the portfolio of the Fund out as a result of the application of the ESG screening criteria incorporated in the Index methodology	7.10%
Percentage of the Fund portfolio invested in companies which comply with the principles of the United Nations Global Compact (“UNGC”)	99.75%

● **...and compared to previous periods?**

Sustainability Indicators	As at 30th June 2023
The eligible universe of companies screened out of the portfolio of the Fund out as a result of the application of the ESG screening criteria incorporated in the Index methodology	7.66%
Percentage of the Fund portfolio invested in companies which comply with the principles of the United Nations Global Compact (“UNGC”)	100%

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

N/A.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

N/A.

How were the indicators for adverse impacts on sustainability factors taken into account?

N/A.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

N/A.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

For the year ended 30 June 2024

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of his financial product do not take into account the Union criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### How did this financial product consider principal adverse impacts on sustainability factors?

The Fund did not consider principal adverse impacts on sustainability factors.

### What were the top investments of this financial product?

The top investments of this Fund, excluding cash and derivatives, were:

Holding	Sector	% Assets	Country
BLOOM ENERGY CORP- A	Industrials	16.96	US
NEL ASA	Industrials	13.38	NO
PLUG POWER INC	Industrials	12.24	US
DOOSAN FUEL CELL CO LTD	Industrials	10.04	KR
BALLARD POWER SYSTEMS INC	Industrials	8.65	CA
FUELCELL ENERGY INC	Industrials	5.61	US
SFC ENERGY AG-BR	Industrials	4.82	DE
CERES POWER HOLDINGS PLC	Industrials	3.98	GB
ITM POWER PLC	Industrials	3.83	GB
ILJIN HYSOLUS CO LTD	Consumer Discretionary	2.97	KR
AIR PRODUCTS & CHEMICALS INC	Materials	2.24	US
GREEN HYDROGEN SYSTEMS A/S	Industrials	2.17	DK
HYSTER-YALE INC	Industrials	2.11	US
TOYOTA MOTOR CORP	Consumer Discretionary	2.10	JP
POWERCELL SWEDEN AB	Industrials	2.00	SE

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is 29.06.2023 – 30.06.2024.

Weight of top investments is at the end of the financial year.

**Asset allocation** describes the share of investments in specific assets.

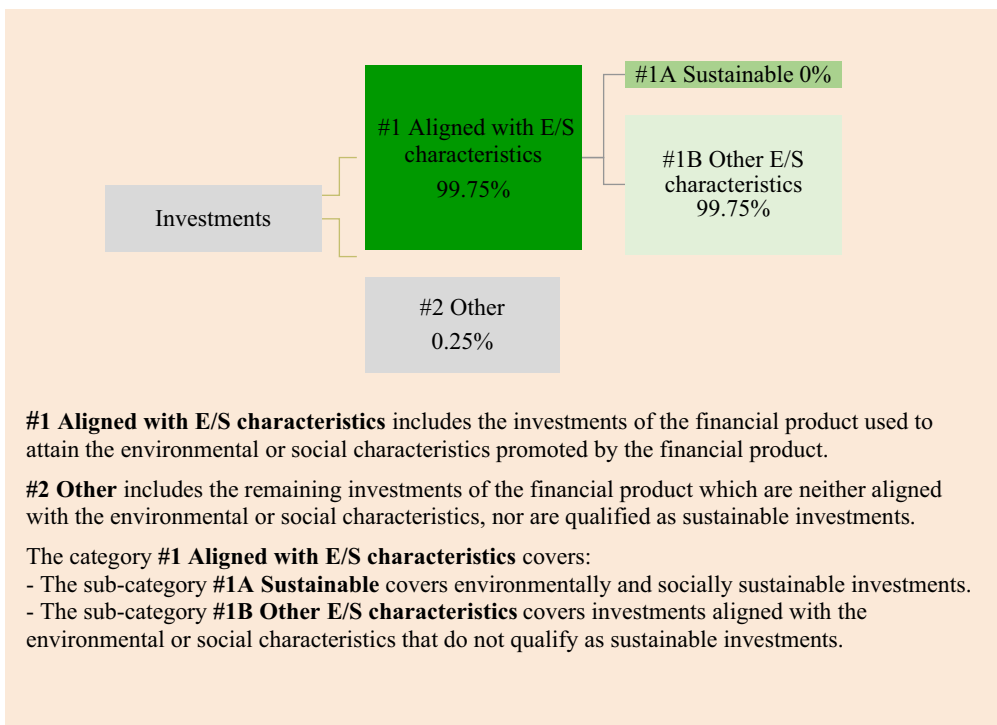

## What was the proportion of sustainability-related investments?

### ● *What was the asset allocation?*

The Fund invested in a portfolio of equity securities that, as far as possible and practicable, consisted of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts (“ADRs”) and Global Depositary Receipts (“GDRs”) based on the securities in the Index.

The Fund invested 99.75% of its assets in investments which attained the environmental characteristics promoted by the Fund.

The remaining 0.25% of the Fund’s investments were in investments which sought to achieve the broader objectives of the Fund including instruments for the purposes of efficient portfolio management, and liquidity management purposes. No minimum environmental or social safeguards were applied in relation to these instruments.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions on switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

**By Sector**

Sector	% Sector Allocation
Industrials	92.45%
Consumer Discretionary	5.07%
Materials	2.23%

**By Sub-Industry**

Sub-Industry	% Sub-Industry Allocation
Automobile Manufacturers	2.10%
Automotive Parts & Equipment	2.97%
Construction Machinery & Heavy Transportation Equipment	3.18%
Electrical Components & Equipment	50.40%
Heavy Electrical Equipment	36.25%
Industrial Gases	2.23%
Industrial Machinery & Supplies & Components	2.62%

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

Yes:

In fossil gas

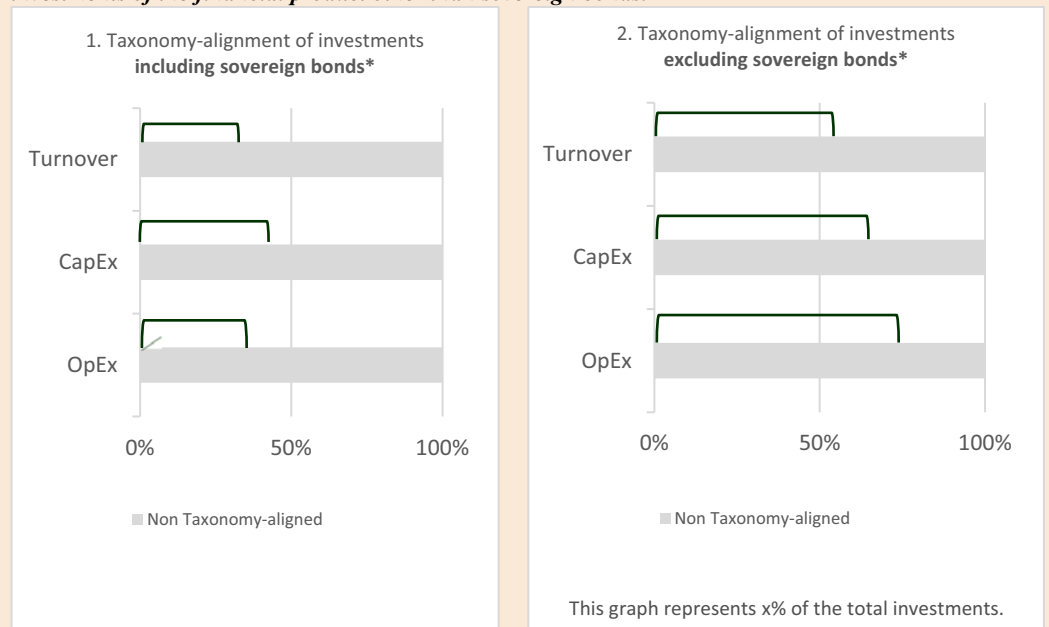

In nuclear energy

No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

For the year ended 30 June 2024

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The Fund did not make investments in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

**What was the share of socially sustainable investments?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

No “other” assets were invested in by the Fund for the period. The Fund held cash which was 0.25% of its investments.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

For the year ended 30 June 2024

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The Fund achieved the environmental characteristics promoted by the Fund by tracking the Index, which has a methodology that is consistent with attaining the environmental characteristics promoted by the Fund.

Please refer to the section “How did the sustainability indicators perform” above for further information.

The index was rebalanced in line with methodology to ensure its constituents remained in line with the outlined screening criteria, which necessitated that the portfolio of the Fund was subject to a corresponding rebalance.

### How did this financial product perform compared to the reference benchmark?

The Fund continued to track the Index in accordance with the supplement for the Fund during the reference benchmark.

The methodology for the calculation of the designated index can be found at <https://www.solactive.com/indices/?index=DE000SL0D1P6>.

#### ● *How does the reference benchmark differ from a broad market index?*

The Index was weighted according to the Index Provider’s ESG proprietary ratings.

The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviewed each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products were defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable.

Any existing or potential constituent of the Index which did not meet the labour, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breached the established thresholds for involvement in controversial products, as of the quarterly review was excluded from the Index, as determined by the Index Provider.

The universe of possible investments therefore differed from a broad market index.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

The Fund performed broadly in line with the Index. Please see below table.

<b>Sustainability Indicators</b>	<b>Performance of the Fund</b>	<b>Performance of the Index (reference benchmark)</b>
The eligible universe of companies screened out of the portfolio of the Fund <b>and the Index</b> as a result of the application of the ESG screening criteria incorporated in the Index methodology	2.94%	2.94%
Percentage of each of the <b>Index and the Fund's</b> portfolios invested in companies which comply with the principles of the United Nations Global Compact Principles	99.75%.	99.75%

- ***How did this financial product perform compared with the reference benchmark?***

As the Fund achieves its environmental characteristics by tracking the Index, which has a methodology that is consistent with attaining the environmental characteristics promoted by the Fund, the performance of the Fund broadly aligned with the performance of the Index during the reference period, as set out below. Please see below for the performance of the sustainability indicators versus the Index.

- ***How did this financial product perform compared with the broad market index?***

The Investment Manager has designated MSCI World Index as a relevant broad market index and, accordingly, the performance of the Fund compared with MSCI World Index, against the sustainability indicators for the Fund, is set out below:

<b>Sustainability Indicators</b>	<b>Performance of the Fund</b>	<b>Broad market index (MSCI World Index)</b>
The eligible universe of companies screened out of the portfolio of the Fund <b>and the Index</b> as a result of the application of the ESG screening criteria incorporated in the Index methodology	2.94%	0%
Percentage of each of the <b>Index and the Fund's</b> portfolios invested in companies which comply with the principles of the United Nations Global Compact Principles	99.75%.	92.19%

**Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name: Global X Wind Energy UCITS ETF (the “Fund”)**

**Legal entity identifier: 635400F4BE2EVOXNGY43**

**Environmental and/or social characteristics**

**Did this financial product have a sustainable investment objective?**

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ___%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The Fund promoted investment in companies that were positioned to benefit from further advances in the field of wind energy technology. The Fund sought to replicate the performance of the Solactive Wind Energy v2 Index (the “**Index**”) to include securities issued by “**Wind Energy Companies**” as defined by Solactive AG, (the “**Index Provider**”) as those companies that derive at least 50% of their revenues, operating income, or assets from the following business activities: Wind Energy Systems: Companies involved in development, manufacturing, integration, and/or maintenance of turbine components and turbines that harness energy from the wind and convert it into electrical power. Wind Power Production: Companies that generate and distribute electricity from

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

For the year ended 30 June 2024

wind power. Wind Energy Technology: Companies that develop commercial and residential infrastructure and systems powered by wind energy, as well as residential and commercial scale batteries for electricity produced from wind power. Wind Power Integration & Maintenance: Companies that provide engineering and/or advisory services for the installation, maintenance, and/or utilization of wind energy at the residential, commercial, and industrial levels. In addition, companies identified by the Index Provider as having primary business operations in the business activities described above but that did not generate revenues (“**Pre-Revenue Wind Energy Companies**”), are eligible for inclusion in the Index if there were fewer than 25 eligible Wind Energy Companies. Pre-Revenue Wind Energy Companies were subject to an aggregate weight cap of 10% at each semi-annual rebalance.

The Index was weighted according to the Index Provider’s ESG proprietary ratings. The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviewed each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products.

Controversial products were defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable. Any existing or potential constituent of the Index which did not meet the labour, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breaches the established thresholds for involvement in controversial products, as of the quarterly review was excluded from the Index, as determined by the Index Provider.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

The MSCI World Index has been designated as a reference benchmark for the purpose of attaining the environmental / social characteristics promoted by the Fund.

● ***How did the sustainability indicators perform?***

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is 29.06.2023 – 30.06.2024.

Weight of top investments is at the end of the financial year.

### What was the proportion of sustainability-related investments?

#### What was the asset allocation?

The Fund invested primarily in a portfolio of equity securities that, as far as possible and practicable, consisted of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts (“ADRs”) and Global Depositary Receipts (“GDRs”) based on the securities in the Index.

The Fund invested 99.84% of its assets in investments which attained the environmental characteristics promoted by the Fund.

**Asset allocation** describes the share of investments in specific assets.

Taxonomy-aligned activities are expressed as a share of:

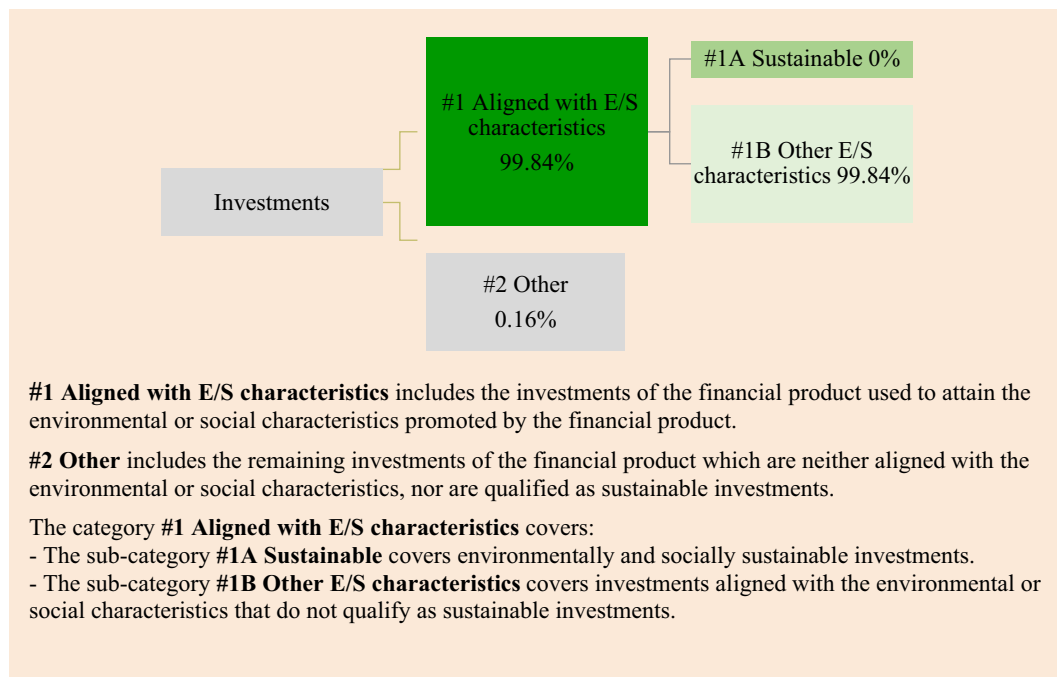

- **turnover** reflects the “greenness” of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

The remaining amount of the Fund’s investments, 0.16% of the Fund’s assets, were investments which sought to achieve the broader objectives of the Fund including instruments for the purposes of efficient portfolio management, and liquidity management purposes. No minimum environmental or social safeguards were applied in relation to these instruments.

**In which economic sectors were the investments made?**

**By Sector**

Sector	% Sector Allocation
Utilities	52.81%
Industrials	42.56%
Materials	4.47%

**By Sub Industry**

Sub-Industry	% Sub-Industry Allocation
Construction & Engineering	4.98%
Heavy Electrical Equipment	37.29%
Industrial Machinery & Supplies & Components	0.28%
Renewable Electricity	52.82%
Steel	4.47%

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

For the year ended 30 June 2024

● **Did the financial product invest in fossil gas and/or nuclear energy related activities that comply with the EU Taxonomy<sup>1</sup>?**

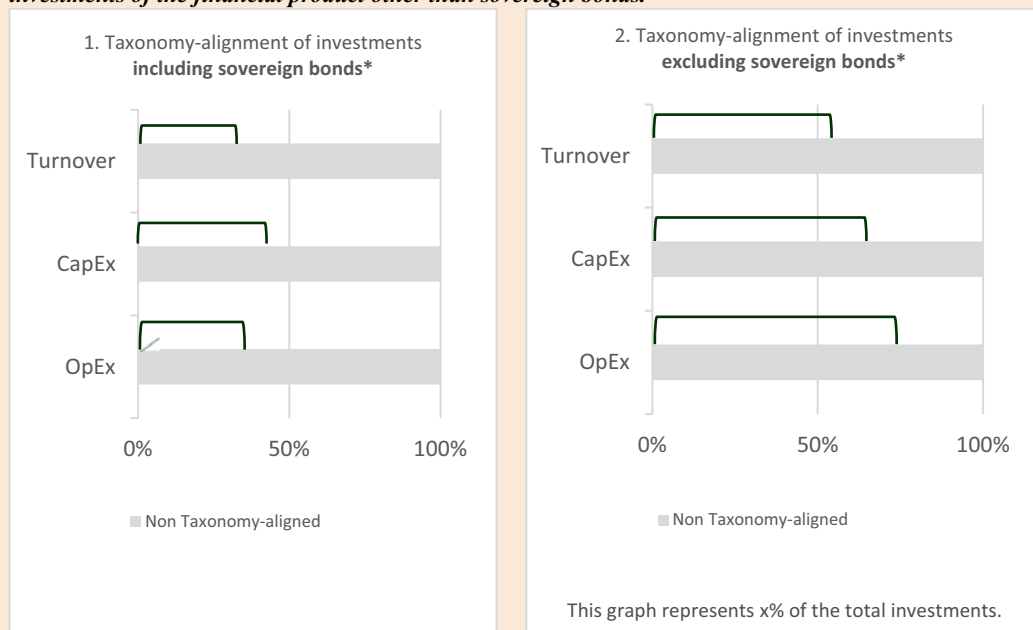

Yes:

In fossil gas

In nuclear energy

No

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The Fund did not invest in transitional and enabling activities.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

No “other” assets were invested in by the Fund for the period. The Fund held cash which was 0.16% of its investments.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund achieved the environmental characteristics by tracking the Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section “How did the sustainability indicators perform” above for further information.

The Index was rebalanced in line with the methodology of the Index to ensure its constituents remain in line with the outlined screening criteria, which necessitated that the portfolio of the Fund was subject to a corresponding rebalance.

**How did this financial product perform compared to the reference benchmark?**

The Fund continued to track its reference benchmark in accordance with the supplement for the Fund during the reference period.

The methodology for the calculation of the designated index can be found at <https://www.solactive.com/indices/?index=DE000SL0D1L5>.

● ***How does the reference benchmark differ from a broad market index?***

The Index was weighted according to the Index Provider’s ESG proprietary ratings.

The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviewed each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products were defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Any existing or potential constituent of the Index which did not meet the labour, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breached the established thresholds for involvement in controversial products, as of the quarterly review will be excluded from the Index, as determined by the Index Provider.

The universe of possible investments therefore differed from a broad market index.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

The Fund performed broadly in line with the Index. Please see below table.

<b>Sustainability Indicators</b>	<b>Performance of the Fund</b>	<b>Performance of the Index (reference benchmark)</b>
The eligible universe of companies screened out of the portfolio of the Fund <b>and the Index</b> as a result of the application of the ESG screening criteria incorporated in the Index methodology	6.67%	6.67%
Percentage of each of the <b>Index and the Fund's</b> portfolios invested in companies which comply with the principles of the United Nations Global Compact Principles	99.84%.	99.84%

- ***How did this financial product perform compared with the reference benchmark?***

As the Fund achieves its environmental characteristics by tracking the Index, which has a methodology that is consistent with attaining the environmental characteristics promoted by the Fund, the performance of the Fund broadly aligned with the performance of the Index during the reference period, as set out below. Please see below for the performance of the sustainability indicators versus the Index.

For the year ended 30 June 2024

● ***How did this financial product perform compared with the broad market index?***

The Investment Manager has designated MSCI World Index as a relevant broad market index and, accordingly, the performance of the Fund compared with MSCI World Index, against the sustainability indicators for the Fund, is set out below:

<b>Sustainability Indicators</b>	<b>Performance of the Fund</b>	<b>Performance of a relevant broad market index (MSCI World Index)</b>
The eligible universe of companies screened out of the portfolio of the Fund <b>and the Index</b> as a result of the application of the ESG screening criteria incorporated in the Index methodology	6.67%	0%
Percentage of each of the <b>Index and the Fund's</b> portfolios invested in companies which comply with the principles of the United Nations Global Compact Principles	99.84%.	92.19%

**Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852**

**Product name:** Global X Solar UCITS ETF (the “Fund”)

**Legal entity identifier:** 635400FA2MLLF9ZHYN83

**Environmental and/or social characteristics**

**Did this financial product have a sustainable investment objective?**

**Yes**

It made **sustainable investments with an environmental objective:** \_\_\_%

- in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective:** \_\_\_%

**No**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of \_\_\_% of sustainable investments

- with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
- with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
- with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The Fund promoted investment in companies that are positioned to benefit from further advances in the field of solar technology. Specifically, the Fund sought to replicate the Solactive Solar v2 Index (the “**Index**”) that consists of securities issued by “**Solar Companies**” defined by Solactive AG, the (“**Index Provider**”) as those companies that derived at least 50% of their revenues from the following business activities: Solar Energy Materials: Companies involved in the production of raw materials that are primarily used in photovoltaic solar cells or concentrating solar-thermal mirrors or lenses (including silicon, cadmium telluride, copper indium gallium diselenide, titanium dioxide, and/or perovskite). Solar Energy Systems & Components: Companies involved in the development and/or manufacturing of solar energy systems (and the components thereof) that harness energy from the photovoltaic effect or from sunlight to generate electricity. For example, a company involved in the production of solar panels may be categorized as having business activities related to Solar Energy Systems & Components. Solar panels

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not lay down a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

For the year ended 30 June 2024

consist of an arrangement of solar photovoltaic cells mounted in a framework for installation. Solar Power Production: Companies that generate and distribute electricity from light energy. Solar Technology: Companies that develop commercial and residential infrastructure, generators, and engines powered by solar energy, as well as residential and commercial scale batteries for electricity produced from solar power, and solar-powered charging systems for electric vehicles or other electric devices. Solar Installation, Integration & Maintenance: Companies that provide engineering and/or advisory services for the installation, integration, maintenance, and/or utilization of solar power at the residential, commercial, and industrial levels.

The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviewed each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products were defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable. Any existing or potential constituent of the Index which did not meet the labor, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breached the established thresholds for involvement in controversial products, as of the quarterly review was excluded from the Index, as determined by the Index Provider.

Derivative instruments have not been used to attain the environmental / social characteristics promoted by the Fund.

The MSCI World Index has been designated as a reference benchmark for the purpose of attaining the environmental / social characteristics promoted by the Fund.

● ***How did the sustainability indicators perform?***

***As at 30 June 2024***

<b>Sustainability Indicators</b>	<b>Performance as at the end of the reference period.</b>
The eligible universe of companies screened out of the portfolio of the Fund out as a result of the application of the ESG screening criteria incorporated in the Index methodology	12.78%
Percentage of the Fund portfolio invested in companies which comply with the principles of the United Nations Global Compact	99.8%

● ***...and compared to previous periods?***

<b>Sustainability Indicators</b>	<b>As at 30th June 2023</b>
The eligible universe of companies screened out of the portfolio of the Fund out as a result of the application of the ESG screening criteria incorporated in the Index methodology	5.86%
Percentage of the Fund portfolio invested in companies which comply with the principles of the United Nations Global Compact	100%

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

- *What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?*

N/A.

- *How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?*

N/A.

- *How were the indicators for adverse impacts on sustainability factors taken into account?*

N/A.

- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:*

N/A.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the Union criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the Union criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### **How did this financial product consider principal adverse impacts on sustainability factors?**

The Fund did not consider principal adverse impacts on sustainability factors.

For the year ended 30 June 2024

## What were the top investments of this financial product?

The top investments of this Fund, excluding cash and derivatives, were:

Holding	Sector	% Assets	Country
FIRST SOLAR INC	Information Technology	10.28	US
ENPHASE ENERGY INC	Information Technology	7.86	US
NEXTRACKER INC-CL A	Industrials	7.84	US
SUNGROW POWER SUPPLY CO LT-A	Industrials	7.65	CN
LONGI GREEN ENERGY TECHNOL-A	Information Technology	6.72	CN
NINGBO DEYE TECHNOLOGY CO -A	Industrials	5.62	CN
TCL ZHONGHUAN RENEWABLE EN-A	Information Technology	4.09	CN
SUNRUN INC	Industrials	3.24	US
XINYI SOLAR HOLDINGS LTD	Information Technology	3.07	CN
JA SOLAR TECHNOLOGY CO LTD-A	Information Technology	2.83	CN
SHENZHEN SC NEW ENERGY TEC-A	Information Technology	2.78	CN
ENCAVIS AG-TEND	Utilities	2.65	DE
HANGZHOU FIRST APPLIED MAT-A	Information Technology	2.50	CN
ARRAY TECHNOLOGIES INC	Industrials	2.39	US
HANWHA SOLUTIONS CORP	Materials	2.22	KR

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is 29.06.2023 – 30.06.2024.

Weight of top investments is at the end of the financial year.

## What was the proportion of sustainability-related investments?

### ● *What was the asset allocation?*

The Fund invested in a portfolio of equity securities that, as far as possible and practicable, consisted of the component securities of the Index in similar proportions to their weightings in the Index and in American Depositary Receipts (“ADRs”) and Global Depositary Receipts (“GDRs”) based on the securities in the Index.

The Fund invested 99.8% of its assets in investments which attained the environmental characteristics promoted by the Fund.

The remaining 0.2% of the Fund’s investments were in investments which sought to achieve the broader objectives of the Fund including instruments for the purposes of efficient portfolio management, and liquidity management purposes. No minimum environmental or social safeguards were applied in relation to these instruments.

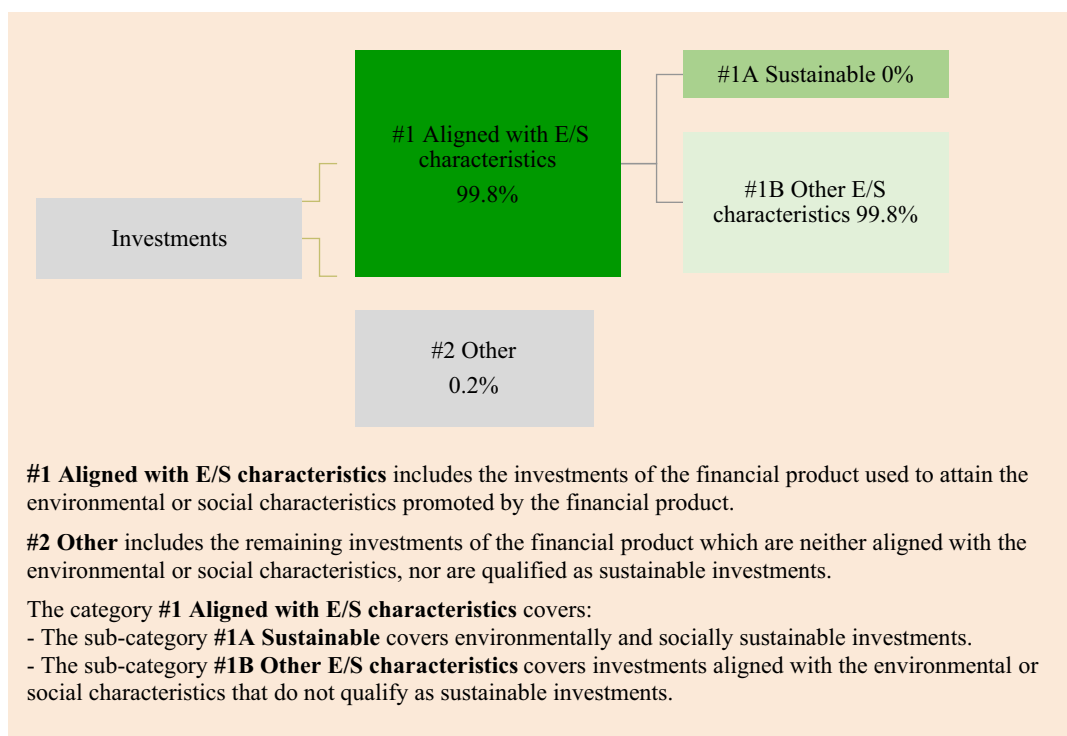

**Asset allocation** describes the share of investments in specific assets.

For the year ended 30 June 2024

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **In which economic sectors were the investments made?**

**By Sector**

Sector	% Sector Allocation
Information Technology	56.04%
Industrials	32.72%
Utilities	8.03%
Materials	3.01%

**By Sub-Industry**

Sub-Industry	% Sub-Industry Allocation
Commodity Chemicals	2.22%
Construction & Engineering	0.46%
Electrical Components & Equipment	26.63%
Electronic Components	1.55%
Industrial Machinery & Suppliers	5.62%
Renewable Electricity	8.04%
Semiconductor Materials & Equipment	22.14%
Semiconductors	32.35%
Specialty Chemicals	0.79%

**To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

**Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

Yes:

In fossil gas

In nuclear energy

No

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

**What was the share of investments made in transitional and enabling activities?**

The Fund did not invest in transitional and enabling activities.

**How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflects the "greenness" of investee companies today.
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

**What was the share of socially sustainable investments?**

The Fund did not make sustainable investments with an environmental objective aligned with the EU Taxonomy.

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

No “other” assets were invested in by the Fund for the period. The Fund held cash which was 0.2% of its investments.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The Fund achieved the environmental characteristics promoted by the Fund by tracking the Index, which has a methodology that is consistent with attaining the environmental and social characteristics promoted by the Fund.

Please refer to the section “How did the sustainability indicators perform” above for further information.

The index was rebalanced in line with methodology to ensure its constituents remained in line with the outlined screening criteria, which necessitated that the portfolio of the Fund was subject to a corresponding rebalance.

**How did this financial product perform compared to the reference benchmark?**

The Fund continued to track its reference benchmark within its predefined constraints during the period.

The methodology for the calculation of the designated index can be found at <https://www.solactive.com/indices/?index=DE000SL0D1S0>.

● **How does the reference benchmark differ from a broad market index?**

The Index was weighted according to the Index Provider’s ESG proprietary ratings.

The Index Provider, in partnership with ESG data provider Minerva, on a quarterly basis reviewed each constituent of the Index for compliance with the principles of the United Nations Global Compact as well as for involvement in the production of controversial products. Controversial products were defined by Minerva as products that pose a material risk due to a large portion of investors perceiving them as offensive, embarrassing, harmful, socially unacceptable, or ethically objectionable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

Any existing or potential constituent of the Index which did not meet the labour, human rights, environmental, and anti-corruption standards as defined by the United Nations Global Compact Principles, or that breached the established thresholds for involvement in controversial products, as of the quarterly review was excluded from the Index, as determined by the Index Provider.

The universe of possible investments therefore differed from a broad market index.

- ***How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?***

The Fund performed broadly in line with the Index. Please see below table.

<b>Sustainability Indicators</b>	<b>Performance of the Fund</b>	<b>Performance of the Index (reference benchmark)</b>
The eligible universe of companies screened out of the portfolio of the Fund <b>and the Index</b> as a result of the application of the ESG screening criteria incorporated in the Index methodology	8.93%	8.93%
Percentage of each of the <b>Index and the</b> Fund’s portfolios invested in companies which comply with the principles of the United Nations Global Compact Principles	99.80%.	99.80%

- ***How did this financial product perform compared with the reference benchmark?***

As the Fund achieves its environmental characteristics by tracking the Index, which has a methodology that is consistent with attaining the environmental characteristics promoted by the Fund, the performance of the Fund broadly aligned with the performance of the Index during the reference period, as set out below. Please see below for the performance of the sustainability indicators versus the Index.

For the year ended 30 June 2024

● ***How did this financial product perform compared with the broad market index?***

The Investment Manager has designated MSCI World Index as a relevant broad market index and, accordingly, the performance of the Fund compared with MSCI World Index, against the sustainability indicators for the Fund, is set out below:

<b>Sustainability Indicators</b>	<b>Performance of the Fund</b>	<b>Performance of the broad market index (MSCI World Index)</b>
The eligible universe of companies screened out of the portfolio of the Fund <b>and the Index</b> as a result of the application of the ESG screening criteria incorporated in the Index methodology	8.93%	0%
Percentage of each of the <b>Index and the Fund's</b> portfolios invested in companies which comply with the principles of the United Nations Global Compact Principles	99.80%.	92.19%
