Information to Shareholders

Formation

MANDARINE FUNDS (the "SICAV") is an open-ended investment company with multiple sub-funds governed by Luxembourg law established on 3 March 2010, subject to part I of the modified law of 17 December 2010 regarding undertakings of collective investment, incorporating the conditions of the European Directive of 13 July 2009 (2009/65/EC). The articles of association of the SICAV have been published in Mémorial, Recueil des Sociétés et Associations du Luxembourg, and registered with the Luxembourg Registry of Commerce and Companies (RCS) from whom copies may be obtained.

The minimum capital of the SICAV is EUR 1,250,000. The SICAV's capital is denominated in euros (EUR) and is, at any time, equal to the sum of the Net Asset Values of the sub-funds.

Shareholder reports and communication

1. Periodic reports

The Annual Reports including the audited financial statements for the year ending 31 December and the unaudited semi-annual reports as at 30 June, as well as the list of changes in the composition of the Securities Portfolios, are kept available to shareholders free of charge at the Depositary Bank's counters, as well as at the registered office of the SICAV. These reports contain information both on each of the sub-funds and on the assets of the SICAV as a whole.

The Annual Reports including the audited financial statements are available in the four months following the close of the financial

year. Semi-annual reports are made public in the two months following the end of the half-year in question.

- Shareholder Information
- a) Net asset value

The net asset values of the shares, the share classes or categories of the sub-funds are available every working day from the SICAV's registered office. The SICAV's Board of Directors may decide, at a later date, to publish these net asset values in the press of the countries in which the SICAV's shares are offered or sold. Additionally, they are displayed each working day on Fundsquare or Reuters.

They may also be obtained at the registered office of the Depositary Bank.

b) Issue and redemption price

The subscription and redemption prices for shares in each sub-fund of the SICAV and each category or share class of the SICAV are made public every day at the counters of the Custodian Bank.

c) Shareholder notifications

Other information intended for shareholders is published in the Luxembourg "Mémorial, Recueil des Sociétés et Associations" (until 31 May 2016) and "Recueil Electronique des Sociétés et Associations" (since 1 June 2016), in Luxembourg, if this publication is required by the Law. Moreover, it may be published in a newspaper in Luxembourg.

Note 1 - General information

MANDARINE FUNDS (the "SICAV") is an Open-ended Investment Company with multiple sub-funds governed by Luxembourg law, subject to Part I of the amended Law of 17 December 2010 relating to undertakings for collective investment in transferable securities, incorporating the conditions of the European Directive of 13 July 2009 (2009/65/EC), as amended.

As part of the entry into force of the European SFDR regulation on 10 March 2021, the prospectus of the Mandarine Funds SICAV has been updated in order to classify the sub-funds according to the two categories "Article 9" and to take into account, in the management process, the sustainability risk (defined as an environmental, social or governance event or condition that, if it occurs, could cause a negative material impact on the value of the investment).

Information on changes in the NAV (unaudited figures) of the various sub-funds is available on the financial information platforms as well as on the management company's website at www.mandarine-gestion.com. The monthly factsheets published by the management company are also freely accessible on the website.

Note 3 - Main accounting methods

The financial statements of the SICAV are established in accordance with the legal directives and regulations in force in Luxembourg relating to undertakings of collective investment in transferable securities, and with generally accepted accounting principles.

3.1 Combination of the different sub-funds

The financial statements of MANDARINE FUNDS are expressed in euros (EUR) by converting and adding together the financial statements of the sub-funds denominated in currencies other than the euro at the exchange rate in force at the end of the period.

3.2 Currency conversion

The accounts of each sub-fund are held in the currency of their net asset value (NAV) and the financial statements of each sub-fund are expressed in this currency.

The acquisition price of securities denominated in a currency other than that of the sub-fund is converted into the currency of the sub-fund based on the exchange rate in effect at the date of acquisition of the securities.

Income and charges denominated in a currency other than that of the sub-fund are converted into the sub-fund currency based on the exchange rate in force on the date of the transaction.

For the period ending 30 June 2023, the valuation values of the securities (determined as described below), receivables, bank deposits and debts denominated in a currency other than that of the sub-fund are converted into the currency of the sub-fund on the basis of the exchange rates in force at that date, the exchange differences resulting from the conversion of receivables, bank deposits and liabilities being included in net income/(loss) on Foreign Exchange in the Statement of Operations and Changes in Net Assets.

3.3 Valuation of Investments held by the SICAV

The assets and liabilities of each sub-fund of the SICAV are valued according to the following principles:

- a) The value of cash in hand or on deposit, the bills and demand notes payable at sight and accounts receivable, prepaid expenses, dividends and interests announced or matured but not yet received shall be represented by the face value of these assets, except, however, if it is unlikely that this value can be collected. In this case, the value will be determined by deducting an amount that the SICAV deems appropriately to reflect the actual value of these assets;
- b) The value of all transferable securities and money market instruments that are listed or traded on a stock market is determined by their latest available price;
- c) The value of all transferable securities that are traded on another regulated market that is regularly operated, recognised and open to the public is determined according to the latest available price;
- d) Money market instruments and fixed income securities shall be evaluated based on the amortised cost, a method which consists, following purchase, of taking into consideration a straight line amortisation to obtain the reimbursement price upon the security's maturity;

Notes to the financial statements as at 30 June 2023 (continued)

Note 3 - Main accounting policies (continued)

3.3 Valuation of Investments held by the SICAV (continued)

- e) The value of securities representing any undertaking of collective investment will be determined in accordance with the latest official Net Asset Value. Insofar as the transferable securities in the portfolio on the Valuation Day are not listed or traded on a stock market, or on another regulated market that is regularly operated, recognised and open to the public or, in the case of securities listed and traded on the stock market or on another such market, the price determined according to the second and third paragraphs above would not be representative of the actual value of these transferable securities, the valuation is based on the probable realisation value, which shall be estimated with care and in good faith by the SICAV's Board of Directors;
- f) The profits and losses realised on sales of securities are calculated based on the average acquisition cost;
- g) Open forward foreign exchange contracts are evaluated depending on the forward exchange rate for the remaining duration of the contract. The net profit and losses realised and changes in unrealised net gains and losses are included in the Statement of Operations and Changes in Net Assets;

The net profit and losses realised and changes in unrealised net gains and losses are included in the Statement of Operations and Changes in Net Assets.

3.4 Income

Bank interest is recorded upon receipt in the SICAV's accounts. Dividends are recorded on the date on which the shares are listed as net "ex-dividend" for the first time. Bond interest is accrued daily net of tax.

3.5 Taxation of the SICAV

Payments of dividends or of the redemption price to shareholders may be subject to withholding tax in accordance with the provisions of the European Council Directive 2003/48/EC of 3 June 2003 and the Savings Directive on the automatic exchange of information concerning the taxation of savings income in the form of interest payments (in accordance with the provisions of European Directive 2003/48/EC ("the Directive")). If such payments are subject to withholding tax, investors have the option of not paying the tax if they submit a certificate of exemption or an authorisation for exchange of information, in accordance with the options made available by the paying agent.

The Directive was transposed into Luxembourg legislation through the law of 21 June 2005 ("the Law").

The dividends distributed by a sub-fund of the SICAV shall be subject to the Directive and the Law if more than 15% of the sub-fund's assets are invested in receivables as defined by the Law.

The capital gains that a shareholder earns upon the sale of shares of a sub-fund are subject to the Directive and the Law if more than 25% of the sub-fund's assets are invested in receivables as defined by the Law.

Note 4 - Exchange rate 30 June 2023

^{*} The management fee is payable monthly and is based on the average net assets of the sub-fund during the month in question. The payment is due during the month following the end of the month in question.

Performance fee:

The outperformance fee corresponds to variable charges and is contingent on the sub-fund achieving a positive performance over the financial year and outperforming its benchmark over the observation period.

Calculation method

The amount of the outperformance fee is calculated based on a comparison between the performance of the sub-fund and that of a notional sub-fund that achieves the performance of its benchmark and has the same subscription and redemption pattern as the actual sub-fund.

The outperformance generated by the sub-fund on a given date is defined as the difference between the net assets of the sub-fund and the assets of the notional UCI on the same date.

Provisioning

Each time the net asset value (NAV) is established, the outperformance fee is subject to a provision (of 15% of the outperformance above the STOXX® Europe Small 200 (EUR) Net Return) if the performance of the sub-fund exceeds that of the notional UCI over the observation period, or to a reversal of the provision limited to the existing allocation in the event of underperformance.

Catching up on underperformance and reference period

The reference period is the period during which the performance is measured and compared to that of the benchmark index and at the end of which it is possible to reset the compensation mechanism for the underperformance (or negative performance) passed.

This period is set at 5 years.

Condition of positivity

A provision cannot be made and a fee can only be collected if the Sub-Fund's performance is strictly positive over the year (NAV greater than the NAV at the start of the year).

Crystallisation

The crystallisation period, i.e. the frequency with which the accrued outperformance fee, if any, must be paid to the management company, is twelve months. The initial crystallisation period will end on the last day of the financial year ending on 31 December 2022.

Observation period

The initial observation period will start with a duration of 12 months starting at the beginning of 2022. At the end of a crystallisation period, one of the following three situations may arise:

- The sub-fund underperforms over the observation period. In this case, no provision is taken, and the observation period is extended by one year, up to a maximum of five years (reference period).
- The sub-fund outperforms over the observation period but underperforms over the financial year overall. In this case, no provision is taken, but a new observation period of twelve months shall begin.
- The sub-fund outperforms over the observation period and outperforms over the financial year overall. In this case, the management company shall receive the provisioned fee (crystallisation) and a new observation period of twelve months shall begin.

In the event of redemptions during the period, the portion of the provision set aside corresponding to the number of shares redeemed will be definitively acquired and deducted by the Investment Manager.

Life of the sub-fund

In the event of closure of an existing unit class during the financial year, any provision potentially accumulated by this unit class in respect of the outperformance fee will be definitively acquired by the management company. In the event of creation of a new unit class during the financial year, the initial observation period will be automatically extended by a further 12 months to end at the end of the financial year following that of the creation of the unit, in order to ensure an observation period of at least 12 months.

Performance fee:

The outperformance fee corresponds to variable charges and is contingent on the sub-fund achieving a positive performance over the financial year and outperforming its benchmark over the observation period.

Calculation method

The amount of the outperformance fee is calculated based on a comparison between the performance of the sub-fund and that of a notional sub-fund that achieves the performance of its benchmark and has the same subscription and redemption pattern as the actual sub-fund.

The outperformance generated by the sub-fund on a given date is defined as the difference between the net assets of the sub-fund and the assets of the notional UCI on the same date.

Provisioning

Each time the net asset value (NAV) is established, the outperformance fee is subject to a provision (of 15% the outperformance of the capitalised €STR + 300 basis points) if the sub-fund's performance exceeds that of the notional UCI over the observation period, or to a reversal of the provision limited to the existing allocation in the event of underperformance.

Catching up on underperformance and reference period

^{*} The management fee is payable monthly and is based on the average net assets of the sub-fund during the month in question. The payment is due during the month following the end of the month in question.

Outperformance fee:

The outperformance fee corresponds to variable charges and is contingent on the sub-fund achieving a positive performance over the financial year and outperforming its benchmark over the observation period.

Calculation method

The amount of the outperformance fee is calculated based on a comparison between the performance of the sub-fund and that of a notional sub-fund that achieves the performance of its benchmark and has the same subscription and redemption pattern as the actual sub-fund.

The outperformance generated by the sub-fund on a given date is defined as the difference between the net assets of the sub-fund and the assets of the notional UCI on the same date.

Notes to the financial statements as at 30 June 2023 (continued)

Note 6 - Management fee and performance fee (continued)

Provisioning

At each calculation of the net asset value (NAV), the performance fee is subject to a provision (15% of the outperformance above the MSCI ACWI Net Total Return EUR Index (all countries world index) NR) if the sub-fund's performance is higher than that of the fictitious UCI over the observation period, or a reversal of provisions limited to the existing allocation in the event of underperformance.

Catching up on underperformance and reference period

The reference period is the period during which the performance is measured and compared to that of the benchmark index and at the end of which it is possible to reset the compensation mechanism for the underperformance (or negative performance) passed.

This period is set at 5 years.

Condition of positivity

A provision cannot be made and a fee can only be collected if the Sub-Fund's performance is strictly positive over the year (NAV greater than the NAV at the start of the year).

Crystallisation

The crystallisation period, i.e. the frequency with which the accrued outperformance fee, if any, must be paid to the management company, is twelve months. The initial crystallisation period will end on the last day of the financial year ending on 31 December 2022.

Observation period

The initial observation period will start with a duration of 12 months starting at the beginning of 2022. At the end of a crystallisation period, one of the following three situations may arise:

- The sub-fund underperforms over the observation period. In this case, no provision is taken, and the observation period is extended by one year, up to a maximum of five years (reference period).
- The sub-fund outperforms over the observation period but underperforms over the financial year overall. In this case, no provision is taken, but a new observation period of twelve months shall begin.
- The sub-fund outperforms over the observation period and outperforms over the financial year overall. In this case, the management company shall receive the provisioned fee (crystallisation) and a new observation period of twelve months shall begin.

In the event of redemptions during the period, the portion of the provision set aside corresponding to the number of shares redeemed will be definitively acquired and deducted by the Investment Manager.

Life of the sub-fund

In the event of closure of an existing unit class during the financial year, any provision potentially accumulated by this unit class in respect of the outperformance fee will be definitively acquired by the management company. In the event of creation of a new unit class during the financial year, the initial observation period will be automatically extended by a further 12 months to end at the end of the financial year following that of the creation of the unit, in order to ensure an observation period of at least 12 months.
