

Key Investor Information

This document provides you with key investor information about this fund. It is not marketing material. The information is required by law to help you understand the nature and the risks of investing in this fund. You are advised to read it so you can make an informed decision about whether to invest.

DIGITAL FUNDS Stars Eurozone (a sub-fund of DIGITAL FUNDS) - class CD **(ISIN: LU2376122565)**

This sub-fund is managed by J.Chahine Capital.

Objectives and investment policy

The objective of DIGITAL FUNDS Stars Eurozone is to outperform the Eurozone markets, through the use of a model to identify the "stars" performers. The Sub-Fund seeks to limit the Environmental, Social and Governance (ESG) impacts of its investments and to favour companies with the lowest exposure to ESG risks, taking into account their ability to manage these risks.

The sub-fund will invest at least 80% in stocks from the main Eurozone member states followed by at least 3 brokers and whose capitalisation exceeds 100 million EUR. This investment universe will be further filtered for sustainability concerns. This will lead to a reduction of the investment universe by at least 20% by excluding companies that may be impacted by sustainability risks.

The sub-fund will be invested across all markets capitalisation spectrum including large capitalisation companies.

The sub-fund may enter into transactions which are undertaken for purposes other than hedging provided those transactions have no negative effect on the quality of the investment policy.

The sub-fund exposure to the stock market will remain between 80% and 100%.

The sub-fund will use momentum indicators such as the Price Momentum, a statistical concept measuring the significance of a price movement relative to the market, or the Earnings Momentum,

that measures the strength of earnings estimates revisions. The stocks will also be evaluated on the basis of an in-house ESG scoring tool. An allocation of small and mid caps is incorporated into the portfolio.

The MSCI EMU Net Return will serve as a reference benchmark solely for the calculation of performance fees. Due to the active nature of the management process and the full freedom of investment, the Sub-Fund's performance profile may deviate significantly from that of the MSCI EMU Net Return.

Investors may demand to redeem their units every normal bank business day in Luxembourg.

The income in respect of an accumulation share class is not distributed but is retained in the sub-fund.

Recommendation: This fund may not be appropriate for investors who plan to withdraw their money within 5 years.

Risk and reward profile

More about this rating

- The risk category is based on return volatility over the last five years. The method used for this estimation depends on the type of fund.
- Historical data may not be a reliable indication for the future.
- The risk category shown is not guaranteed and may vary over time.
- The lowest category does not mean 'risk free'.

Why is this fund in Category 6?

The fund invests in the all cap universe diversified across various sectors and may be subject to high fluctuations in value. Small and Mid stocks can be more volatile than blue-chip stocks. The risk category is therefore driven by small, mid and large cap stock fluctuations.

Further material risks:

- A portion of the fund is invested in less liquid instruments whose prices could fluctuate in certain market conditions
- No Capital Guarantee exists for this product so investors can lose the whole of their investment
- Operational risk inherent in operating this fund (mainly potential valuation and transaction processing failures) is borne by the Fund Management Company which is governed and supervised by independent functions and external auditors as well as regulators
- Small use of over-the-counter instruments exposes the fund to small potential counterparty default risk

Charges

The charges you pay are used to pay the costs of running the sub-fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	0.00%
Conversion charge	0.50%
This is the maximum that might be taken out of your money before it is invested / before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charges	3.20%
Charges taken from the fund under certain specific conditions	
Performance fee	15.00%
The Management Company can receive a performance fee in case the share class is outperforming its benchmark, even if its absolute performance is negative. As at 30/09/2021, the performance fee represented 0.00% of the fund.	

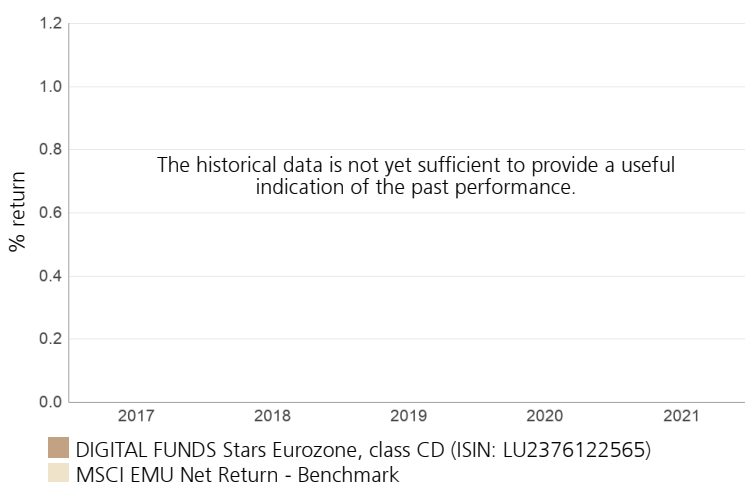

The **entry charge** and **conversion charge** shown are **maximum** figures. In some cases you might pay less – you can find this out from your financial adviser.

The **ongoing charges** are estimated in the absence of historical data. When available, the ongoing charges are reported, and may differ from the estimate. They do not include:

- Portfolio transaction costs, except in the case of an entry/exit charge paid by the fund when buying or selling units in another collective investment undertaking.
- Performance fees.

Please refer to the fund's prospectus, which is available at **www.chahinecapital.com**, for detailed information about charges, the methodology for calculating the performance fee and concrete examples of its impact on the share class net performance.

Past performance

The sub-fund was launched in 2018. The class was launched in 2021.

The benchmark used since inception date is the MSCI EMU Net Return Index.
