1. Organisation

JPMorgan Funds (the "Fund" or the "SICAV") is an investment company incorporated on 14 April 1969 under the name Multi-Trust Fund S.A.. The name of the SICAV was changed to Fleming International Fund on 3 July 1984, to Fleming Flagship Fund on 19 October 1988, to Fleming Funds on 2 June 2000, to JPMorgan Fleming Funds on 19 November 2001 and then to JPMorgan Funds on 12 September 2005.

It is organised under Part I of the Luxembourg Law of 17 December 2010 on Undertakings for Collective Investment, as amended, as a Société Anonyme qualifying as a Société d'Investissement à Capital Variable (SICAV). As at 31 December 2024, it is comprised of 95 Sub-Funds, each relating to a separate investment portfolio consisting of securities, cash and other instruments.

JPMorgan Asset Management (Europe) S.à r.l. was appointed by the SICAV to act as Management Company.

The SICAV is registered with the Registre de Commerce et des Sociétés of Luxembourg, under number B 8478.

Each Sub-Fund may contain A, C, C2, CPF, D, F, I, I2, J, K, S1, S2, T, V, X, X2 and Y Share Classes. These Share Classes may have differing minimum subscription amounts, minimum holding amounts, currency and/or eligibility requirements, fees and expenses, and dividend policies applicable to them. Certain Share Classes may charge a Performance Fee and are redenominated by the inclusion of "(perf)" in the name of the Share Class. Within each Sub-Fund, individual Share Classes may have a currency of denomination that differs from the currency of denomination of the Sub-Fund. The currency of denomination for each Share Class is indicated by a suffix in the name of the Share Class.

2. Significant Accounting Policies

The Financial Statements are prepared in accordance with Luxembourg regulations (under Luxembourg GAAP) relating to Undertakings for Collective Investment under the going concern basis of accounting.

There has been no significant change in market conditions and, as at the date of this report, the suspension remains in place for both JPMorgan Funds - Russia Fund and JPMorgan Funds - Emerging Europe Equity Fund. The last official Net Asset Value (NAV) per Share published was on 25 February 2022. The suspension applies to all types of deals in Shares (except stock transfers) and these two Sub-Funds refuse to accept requests to buy, switch or redeem Shares while these two Sub-Funds are suspended. However, stock transfers (i.e. transfer of ownership) will be allowed. With effect from 17 February 2023, JPMorgan Funds - Emerging Europe Equity Fund was split into two Sub-Funds, (i) the impacted Sub-Fund where illiquid assets are hosted and (ii) JPMorgan Funds - Emerging Europe Equity II Fund into which the liquid assets have been transferred. JPMorgan Funds - Emerging Europe Equity II Fund has since merged into JPMorgan Funds - Middle East, Africa and Emerging Europe Opportunities Fund with effect from 14 December 2023. The NAV, Statement of Net Assets, Statement of Operations and Changes in Net Assets and Schedules of Investment of the two suspended Sub-Funds presented as at 31 December 2024 are indicative and represent an internal estimate of the value of the Sub-Funds' assets taking into account the Management Company's inability to trade Russian assets both onshore and offshore, lack of relevant price discovery and market uncertainty. These are not the official NAVs; the official NAV calculation is still suspended and Shareholders cannot subscribe into nor redeem from these two Sub-Funds.

a) Investment Valuation

For all Sub-Funds, except Money Market Funds, transferable securities which are admitted to an official exchange listing or dealt in on another regulated market are valued on the basis of the latest available price prevailing at the time of calculating the net asset value.

If securities are listed or dealt in on several exchanges or markets, the latest available price, or if appropriate, the average price on the principal exchange or market will be applied.

Transferable securities not admitted to an official exchange listing nor dealt in on another regulated market are valued at the latest available price. Those securities for which no price is available or for which the latest available price is not representative are valued on the basis of their reasonably foreseeable sales price determined with prudence and in good faith by the Board of Directors. As at 31 December 2024, securities which were fair valued are identified with an asterisk (*) in the Schedule of Investments.

Shares or Units in UCITS or other UCIs are valued at the latest available price or net asset value, as reported or provided by such funds or their agents.

Liquid assets and money market instruments are valued at market values plus any accrued interest.

Under a Variable NAV Sub-Fund (VNAV), all investments are valued at the latest available price prevailing on the valuation date.

JPMorgan Funds - EUR Money Market VNAV Fund and JPMorgan Funds - USD Money Market VNAV Fund qualify as Variable Net Asset Value Money Market Fund ("VNAV MMF") under the Money Market Fund regulation (Regulation (EU) 2017/1131).

The assets of VNAV MMF are valued by using mark-to-market prices whenever possible. Where use of mark-to-market prices is not possible or the market data are not of sufficient quality, assets of VNAV MMF are valued conservatively by using mark-to-model. The model accurately estimates the value by considering the up-to-date factors as trading volume, issue size, market risk, interest rate risk and credit risk of each concerned assets.

For the Money Market Funds (MMFs), securitisations, Asset-Backed Commercial Papers and money market instruments are valued at mark-to-market. Where the value of the assets of the Sub-Funds cannot be calculated following the mark-to-market; a) shares or units in MMFs shall be valued at their last available net asset value as reported by such MMFs; b) the value of any cash on hand or on deposit and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid, and not yet received shall be deemed to be the full amount thereof, unless, however, the same is unlikely to be paid or received in full, in which case the value thereof shall be determined conservatively using mark to model.

The Financial Statements are presented on the basis of the net asset values of the Sub-Funds calculated on 31 December 2024, the last business day of the period ended 31 December 2024, except for JPMorgan Funds - ASEAN Equity Fund, JPMorgan Funds - Emerging Europe Equity Fund, JPMorgan Funds - Europe Equity Fund, JPMorgan Funds - Euroland Dynamic Fund, JPMorgan Funds - Europe Dynamic Small Cap Fund, JPMorgan Funds - Europe Dynamic Technologies Fund, JPMorgan Funds - Europe Equity Absolute Alpha Fund, JPMorgan Funds - Europe Equity Plus Fund, JPMorgan Funds - Europe Small Cap Fund, JPMorgan Funds - Europe Strategic Growth Fund, JPMorgan Funds - Europe Strategic Value Fund, JPMorgan Funds - Europe Sustainable Equity Fund, JPMorgan Funds - Europe Sustainable Small Cap Equity Fund, JPMorgan Funds - Japan Equity Fund, JPMorgan Funds - Korea Equity Fund, JPMorgan Funds - Pacific Equity Fund, JPMorgan Funds - Russia Fund, JPMorgan Funds - Emerging Markets Debt Fund, JPMorgan Funds - Emerging Markets Local Currency Debt Fund, JPMorgan Funds - EU Government Bond Fund, JPMorgan Funds - Euro Corporate Bond Fund, JPMorgan Funds - Euro Government Short Duration Bond Fund, JPMorgan Funds - Italy Flexible Bond Fund which were calculated on 30 December 2024 and JPMorgan Funds - EUR Money Market VNAV Fund and JPMorgan Funds - USD Money Market VNAV Fund which were calculated on 1 January 2025. In accordance with the Prospectus, the net asset values were calculated using the latest exchange rates at the timeof calculation.

In managing the daily priced funds, the Board's principle is to ensure that portfolios are appropriately valued to give equal treatment to Shareholders and in this context the Management Company has implemented a Fair Value Committee to address any potential valuation concerns. In line with this, outside of the security level fair valuations detailed within the Schedule of Investments, no adjustments were made on 31 December 2024 as the portfolio value at the valuation point represents the same value since closure of the portfolios' relevant underlying markets.

b) Swing Pricing Adjustment

To protect the interests of Shareholders, a Sub-Fund's NAV may be adjusted to compensate for dilutions that can arise in connection with flows of cash into or out of a Sub-Fund.

These adjustments are normally applied on any Valuation Day when the net volume of all subscriptions and redemptions in a Sub-Fund's Shares exceeds a certain threshold. The adjustments will seek to reflect the anticipated transaction costs which the Sub-Fund will incur when buying or selling assets. The NAV will be adjusted upward when cash net inflows exceed the pre-determined threshold and downward when the net outflows exceed the threshold.

In normal market conditions, for any given Valuation Day, the adjustment will never be larger than 2% of what the NAV would otherwise be. The SICAV Board has delegated to the Management Company all necessary powers to increase the maximum swing factor applied to Sub-Funds from 2% up to a maximum of 5% in exceptional market circumstances. The Management Company will promptly notify the SICAV Board and the CSSF in the event where swing factors increase beyond 2%. During the period, no Sub-Fund has applied a swing factor exceeding 2%. The swing factors typically include the estimated dealing costs, stamp duty and other taxes and market bid/offer spreads. The price adjustment applicable to a specific Sub-Fund is available on request from the Management Company at its registered office.

The Management Company makes, and periodically reviews, the operational decisions about swing pricing, including the thresholds that trigger it, the extent of the adjustment in each case, and which Sub-Funds will and will not be subject to swing pricing at any given time.

The official Net Asset Value per Share as at period end, disclosed in the Statistical Information section of this report may therefore include a swing pricing adjustment, which would not be recognised in the Combined Statement of Net Assets and in the Combined Statement of Operations and Changes in Net Assets.

During the period, the swing pricing mechanism was applied across all Sub-Funds except for JPMorgan Funds - Diversified Risk Fund, JPMorgan Funds - Emerging Europe Equity Fund, JPMorgan Funds - Emerging Markets Social Advancement Fund, JPMorgan Funds - Europe Small Cap Fund, JPMorgan Funds - India Fund, JPMorgan Funds - Italy Flexible Bond Fund, JPMorgan Funds - Managed Reserves Fund, JPMorgan Funds - Russia Fund and JPMorgan Funds - Total Emerging Markets Income Fund due to net flows not reaching the swing threshold and JPMorgan Funds - EUR Money Market VNAV Fund, JPMorgan Funds - Global Multi-Strategy Income Fund and JPMorgan Funds - USD Money Market VNAV Fund, due to Prospectus restriction.

As at the period end, no Swing Pricing adjustments have been applied to the Sub-Funds.

Similarly, in order to protect the interests of Shareholders in a Sub-Fund that is being merged, the Management Company may adjust the final Net Asset Value per Share of the merging Sub-Fund, or make other appropriate adjustments in order to neutralise for the Sub-Fund being merged, the impact of any pricing adjustment made through the swing pricing mechanism in the absorbing Sub-Fund as a result of cash inflows or outflows in the absorbing Sub-Fund on the merger date.

The Management Company may consider it appropriate to waive the swing pricing adjustment to the Net Asset Value per Share of a Sub-Fund where it is seeking to attract inflows so that the Sub-Fund reaches a certain size. If such a decision is taken the Management Company will compensate the impacted Sub-Fund for the corresponding amount of the Swing Pricing waiver to protect the Sub-Fund from suffering dilution of the net asset value. Where this happens Shareholders will subscribe at a net asset value that will not have been adjusted upwards as would have been the case if the swing pricing mechanism had been applied. The Management Company did not waive the application of Swing Pricing during this period.

c) Realised and Unrealised Gains or Losses on Investments

Investment transactions are accounted for on the trade date (the date the order to buy or sell is executed). For trades into other collective investment schemes, transactions are accounted for on receipt of the trade confirmation from the underlying transfer agents.

Realised gains or losses on sales of investments are calculated on the average book cost. The associated foreign exchange movement between the date of purchase and date of sale of investments is included in realised gains or losses on investments. Unrealised gains or losses on holdings of investments are calculated on the total book cost and include the associated unrealised gains or losses on foreign exchange.

d) Income Recognition

Interest income is accrued daily and includes the amortisation of premiums and accretion of discounts, where applicable. Bank interest income is recognised on an accrual basis. Dividend income is accrued on the ex-dividend date. This income is shown net of any withholding taxes and adjusted accordingly when tax reclaims apply. Dividend income received from currently sanctioned Russian securities, are fair valued, to recognise the inability of the Sub-Funds to repatriate the proceeds. The securities lending income is accounted for on a cash basis on the 16th day of each month following the month that the revenue was generated, net of lending fees paid to the lending agent. An element of the securities lending income will include the proceeds related to the re-investment of cash collateral, if any.

e) Conversion of Foreign Currencies

The books and records of each Sub-Fund are denominated in the base currency of the corresponding Sub-Fund. Amounts denominated in other currencies are translated into the base currency on the following basis: (i) investment valuations and other assets and liabilities initially expressed in other currencies are converted each business day into the base currency using currency exchange rates prevailing on each such business day; (ii) purchases and sales of foreign investments, income and expenses are converted into the base currency using currency exchange rates prevailing on the respective dates of such transactions.

Net realised and unrealised gains or losses on foreign exchange transactions represent: (i) foreign exchange gains or losses from the sale and holding of foreign currencies and foreign cash equivalents; (ii) gains or losses between trade date and settlement date on securities transactions and forward currency exchange contracts; (iii) gains or losses arising from the difference between amounts of dividends and interest recorded and the amounts actually received and (iv) gains and losses arising from the foreign exchange difference between the amounts of expenses accrued and the amounts actually paid.

The resulting gains and losses on translation, if any, would be included in "Net realised gain/(loss) on currency exchange" or in the "Net change in unrealised appreciation/(depreciation) on currency exchange" in the Statement of Operations and Changes in Net Assets.

f) Forward Currency Exchange Contracts

Unrealised gains or losses on outstanding forward currency exchange contracts are valued on the basis of currency exchange rates prevailing at the relevant valuation date. The changes in such amounts are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Forward currency exchange contracts". When a contract is closed, the Realised Gain/(Loss) is recorded under "Net realised gain/(loss) on Forward currency exchange contracts" in the Combined Statement of Operations and Changes in Net Assets. Unrealised gains or losses are recorded under "Unrealised gain/(loss) on forward currency exchange contracts" in the Combined Statement of Net Assets.

g) Financial Futures Contracts on Securities and Indices

Regulated financial futures contracts are valued at the exchange quoted settlement price. Initial margin deposits are made upon entering into the contracts and can be either in cash or securities. During the period the contracts are open, changes in the value of the contracts are recognised as unrealised gains or losses by "marking-to-market" on a daily basis to reflect the market value of the contracts at the end of each business day's trading. Variation margin payments are made or received, depending upon whether losses or gains are incurred. The frequency of those margin payments may differ depending on where the contract is traded. When a contract is closed, the SICAV records a realised gain or loss equal to the difference between the proceeds from, or cost of, the closing transaction and the initial cost of the contract in "Net realised gain/(loss) on Financial futures contracts" in the Combined Statement of Operations and Changes in Net Assets.

Unrealised gains or losses are recorded under "Unrealised gain/(loss) on financial futures contracts" in the Combined Statement of Net Assets. The changes in such amounts are recorded under "Net change in unrealised appreciation/(depreciation) on Financial futures contracts" in the Combined Statement of Operations and Changes in Net Assets.

h) Option Contracts

The SICAV writes options on securities, futures and currencies. These options are settled in cash and subject the SICAV to unlimited risk of loss. The SICAV, however, is not subject to credit risk on written options as the counterparty has already performed its obligation by paying the premium at the inception of the contract.

Option contracts purchased are recorded as investments; option contracts written or sold are recorded as liabilities. When the exercise of an option results in a cash settlement, the difference between the premium and the settlement proceeds is accounted for as a realised gain or loss. When securities are acquired or delivered upon exercise of an option, the acquisition cost or sale proceeds are adjusted by the amount of the premium. When an option is closed, the

difference between the premium and the cost to close the position is accounted for as a realised gain or loss. When an option expires, the premium is accounted for as a realised gain for options written or as a realised loss for options purchased.

For options on futures, where the investment manager is based in the United Kingdom, variation margin payments are made or received daily, depending upon whether losses or gains are incurred on the underlying financial futures contracts.

The market values are recorded under "Options purchased/written contracts at fair value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are recorded under "Net change in unrealised appreciation/(depreciation) on Options contracts" in the Combined Statement of Operations and Changes in Net Assets. When a contract is closed, the Realised Gain/(Loss) is recorded under "Net realised gain/(loss) on Options contracts" in the Combined Statement of Operations and Changes in Net Assets.

i) To Be Announced Securities ("TBA")

TBAs are related to mortgage-backed securities issued by government sponsored agencies. These agencies usually pool mortgage loans and sell interests in the pools created. TBAs relate to future pools of these agencies that are bought and sold for future settlement for which either the interest rate or the maturity date is not yet fixed. TBAs are separately disclosed in the Schedule of Investments.

Certain Sub-Funds may enter into Dollar Rolls, principally using TBAs, in which the Sub-Funds sell mortgage-backed securities for delivery in the current month and simultaneously contract to repurchase similar, but not identical, securities at an agreed-upon price on a fixed date. The Sub-Funds account for such Dollar Rolls as purchases and sales and receive compensation as consideration for entering into the commitment to repurchase. The Sub-Funds must maintain liquid securities having a value not less than the repurchase price (including accrued interest) for such Dollar Rolls. The market value of the securities that the Sub-Funds are required to purchase may decline below the agreed upon repurchase price of those securities.

The Sub-Funds had TBA Dollar Rolls outstanding as at 31 December 2024, which are included in "Investment in to be announced contracts at market value", "Open short positions on to be announced contracts at market value", "Receivables on sale of to be announced contracts" and "Payables on purchase of to be announced contracts" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on to be announced contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on to be announced contracts" in the Combined Statement of Operations and Changes in Net Assets.

j) Interest Rate Swap Contracts

An interest rate swap contract is a bilateral agreement in which each of the parties agree to exchange a series of interest payments for another series of interest payments (usually fixed/floating) based on a notional amount that serves as a computation basis and that is usually not exchanged.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The interest on interest rate swap contracts is recorded under "Interest on swap contracts" in the Combined Statement of Operations and Changes in Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

k) Total Return Swap Contracts

The SICAV may enter into swap contracts in which the SICAV and the counterparty agree to exchange payments where one or both parties pay the returns generated by a security, instrument, basket or index thereof. The payments made by the SICAV to the counterparty and vice versa are calculated by reference to a specific security, basket of securities, index, or instruments and an agreed upon notional amount. Any such underlying security or instrument must be a transferable security and any such index must be an index of a regulated market.

A total return swap contract will exchange the total performance on a specific basket of securities, selected by the Investment Manager against a reference rate plus a spread. The total performance includes interest, dividends, gains or losses on the underlying securities during the contract period according to the type of underlying. The risk of this type of instrument will depend on the uncertain evolution, at the time of the contract conclusion, of the performance of the underlying. These underlying securities are listed on a primary exchange.

The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual issuers. The relevant indices include, but are not limited to, currencies, interest rates, prices and total return on interest rates indices, fixed income indices and stock indices.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The changes in such amounts are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the Realised Gain/(Loss) is recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

l) Credit Default Swap Contracts

A credit default swap contract is a credit derivative transaction in which two parties enter into an agreement, whereby one party pays the other a fixed periodic coupon for the specified life of the agreement. The other party makes no payments unless a credit event, relating to a predetermined reference asset, occurs. If such an event occurs, the party will then make a payment to the first party, and the swap will terminate. The value of the underlying securities shall be taken into account for the calculation of the investment and borrowing powers applicable to individual issuers.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

m) Commodity Index Swap Contracts

A commodity index swap contract is a bilateral agreement in which each of the parties agree to exchange the total return of a specified commodity index against money market rate plus fees.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

n) Inflation Rate Swap Contracts

An inflation rate swap contract is a bilateral agreement in which each of the parties agrees to exchange a predetermined fixed rate for an inflation-linked payment based on a notional amount that serves as a computation basis and that is usually not exchanged until the end of the term. Inflation rate swap contracts are marked to market at each NAV calculation date. The estimated market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models.

The market values are recorded under "Swap contracts at fair value" in the Combined Statement of Net Assets. The income from inflation rate swap contracts is recorded under "Interest on swap contracts" in the Combined Statement of Operations and Changes in Net Assets. The changes in unrealised gains or losses are included in the Combined Statement of Operations and Changes in Net Assets under "Net change in unrealised appreciation/(depreciation) on Swaps contracts". When a contract is closed, the realised gains or losses are recorded under "Net realised gain/(loss) on Swaps contracts" in the Combined Statement of Operations and Changes in Net Assets.

o) Consolidation of Mauritian Subsidiary

All income, expenses, receivables, payables and investments of JPMorgan SICAV Investment Company (Mauritius) Limited (the "Subsidiary"), a wholly-owned subsidiary of JPMorgan Funds - India Fund, are consolidated into the Combined Statement of Net Assets and the Combined Statement of Operations and Changes in Net Assets of JPMorgan Funds - India Fund. Intercompany balances are eliminated on consolidation. During the year to 30 June 2021, all securities held by the Subsidiary were transferred under the direct ownership of JPMorgan Funds - India Fund. As at 31 December 2024, the subsidiary no longer holds any securities, only a small residual cash balance as it is still in the liquidation process.

The Directors of JPMorgan SICAV Investment Company (Mauritius) Limited and its sole Shareholder, JPMorgan Funds, have resolved, via written resolutions, to wind up JPMorgan SICAV Investment Company (Mauritius) Limited. The resolution of the sole Shareholder was accepted by the Mauritian Registrar of Companies on 5 May 2021 after which the liquidator assumed control of JPMorgan SICAV Investment Company (Mauritius) Limited. The Subsidiary will remain consolidated into JPMorgan Funds - India Fund until the liquidation process has been completed.

Whilst Indian securities listed on an Indian stock exchange were held through the Mauritius subsidiary, interests and dividends received were not subject to taxation. Interests and dividends on securities listed on an Indian stock exchange held directly in India by JPMorgan Funds – India Fund are subject to tax at a rate of 20% (plus surcharge and education tax). Capital gains on disposal of such investments is subject to tax at rates of 0% to 15% (plus surcharge and education tax) in respect of listed securities depending on the length of time the relevant investment has been held.

3. Reference Currency and Exchange Rates

The reference currency of the SICAV as reflected in the combined statements is USD.

For the preparation of the Financial Statements the principal exchange rates applied for the period ended 31 December 2024 are the latest exchange rates at the time of the NAV calculation:

1 USD =	1.6130 AUD	1 USD =	24.2558 CZK	1 USD =	396.4006 HUF	1 USD =	4.1204 PLN
1 USD =	1.4381 CAD	1 USD =	0.9637 EUR	1 USD =	156.7750 JPY	1 USD =	11.0331 SEK
1 USD =	0.9049 CHF	1 USD =	0.7982 GBP	1 USD =	11.3536 NOK	1 USD =	1.3633 SGD
1 USD =	7.3286 CNH	1 USD =	7.7659 HKD	1 USD =	1.7832 NZD		

4. Fees and Expenses

a) Capped Expense Ratio

The maximum total fees and expenses to be borne by Shareholders on a Share Class of any Sub-Fund will not exceed a capped percentage of the total net assets attributable to that Share Class. These capped fees and expenses comprise the Management Fees, Sub-Investment Manager Fee, Distribution Fees and other Operating and Administrative Expenses; it does not cover performance fees, if any.

No other costs are charged to these Share Classes and the Management Company absorbs any difference that may arise between the actual costs of the operations of these Share Classes and the capped percentage.

This capped annual rate of fees and expenses is categorised as a Capped Expense Ratio as shown in Appendix 1. The actual fees and expenses charged to each Share Class are detailed in the Appendix.

b) Management Fees

The SICAV pays to the Management Company management fees calculated as a percentage of the average daily net assets of each Sub-Fund or Share Class under its management ("Management Fees"). The Management Fees are accrued daily and payable monthly in arrears at a maximum rate as specified in the Prospectus.

Sub-Funds may invest in UCITS, other UCIs and closed ended investment undertakings qualifying as transferable securities within the meaning of UCITS rules (including investment trusts) (the "Undertakings") managed by any affiliate of JPMorgan Chase & Co., double-charging of management fees will either be avoided or rebated. However, if the underlying investment charges higher management fees, the difference may be charged to the investing Sub-Fund. If the underlying affiliate undertaking combines management and other fees and charges into a single total expense ratio, such as in exchange traded funds, the whole total expense ratio will be waived. Where a Sub-Fund invests in undertakings not affiliated with JPMorgan Chase & Co. the fee shown in Sub-Fund Descriptions section of the Prospectus may be charged regardless of any fees reflected in the price of the shares or units of the underlying undertaking.

The Management Company has resolved to waive the Management Fees and Distribution Fee for JPMorgan Funds - Russia Fund and JPMorgan Funds - Emerging Europe Equity Fund during the period the Sub-Funds are suspended.

The Management Company can vary the management fees, at any time and for intervals as short as a single day, to any amount between zero and the stated maximum. For X and Y Share Classes, this fee is not charged at the Share Class level; instead, the applicable JPMorgan Chase & Co. entity collects a fee for these services directly from the Shareholder.

c) Sub-Investment Manager fees

For Multi-Manager Sub-Funds, in addition to the annual management fees, there are Sub-Investment Management fees. This fee goes to pay the Sub-Investment Managers who handle the day-to-day management of their assigned portions of the Sub-Fund portfolio. Where a Sub-Fund invests in Undertakings managed by investment managers which are not members of JPMorgan Chase & Co. group, the Management fees, as specified in the Prospectus, may be charged regardless of any fees reflected in the price of the shares or units of the Undertakings.

d) Distribution Fees

The Management Company typically uses some or all of this fee to compensate Distributors for their services in connection with marketing and distributing the D and T Share Classes. The Management Company can vary this fee, at any time and for intervals as short as a single day, to any amount between zero and the stated maximum.

e) Operating and Administrative Expenses

The SICAV bears all its ordinary operating and administrative expenses at the rates set out in the Prospectus ("Operating and Administrative Expenses") to meet all fixed and variable costs, charges, fees and other expenses incurred in the operation and administration of the SICAV from time to time. This fee is capped for each Share Class and will not exceed the amount stated in Sub-Fund Descriptions section of the Prospectus. The Management Company will bear any operating and administrative expenses that exceed the maximum rate specified.

Where a Sub-Fund invests primarily in UCITS and other UCIs managed by any affiliate of JPMorgan Chase & Co. and where specifically stated for a Sub-Fund in Sub-Fund Descriptions section of the Prospectus, double-charging of operating and administrative expenses will be avoided by a rebate to the Sub-Fund of the operating and administrative expenses (or equivalent) charged to the underlying UCITS or other UCIs. Where a Sub-Fund invests in undertakings not affiliated with JPMorgan Chase & Co. the fee shown in Sub-Fund Descriptions section of the Prospectus may be charged regardless of any fees reflected in the price of the shares or units of the underlying undertaking.

The Operating and Administrative Expenses cover:

i) A "Fund Servicing Fee" paid to the Management Company for the services that the Management Company provides to the SICAV. The Fund Servicing Fee will be reviewed annually and will not exceed 0.15% per annum, except for JPMorgan Funds - Global Research Enhanced Index Equity Fund where it will not exceed 0.05% per annum.

ii) Expenses directly contracted by the SICAV ("Direct Fund Expenses") and expenses directly contracted by the Management Company on behalf of the SICAV ("Indirect Fund Expenses") as detailed in the Prospectus.

f) Performance Fees

As set out in the Prospectus, the Management Company is entitled to receive from the net assets of certain Sub-Funds or Share Classes, an annual performance-based incentive fee (the "Performance Fee") if the performance of the Sub-Fund exceeds the return from the benchmark, subject to the operation of a Claw-Back Mechanism or of a High Water Mark as defined in the Prospectus and as specified in the Prospectus for each Sub-Fund. On each Valuation Day, an accrual for the previous Valuation Day's Performance Fee is made, when appropriate, and the performance fee accrual, if any, becomes payable to the Management Company on the last Dealing Day of the Financial period, or under any of the following circumstances: on very significant orders for switching or redemption (applies to those Shares only) and when a Sub-Fund is merged or liquidated. Pursuant to the provisions of the relevant Investment Management Agreement, the Investment Manager may be entitled to receive the whole or part of the Performance Fee from the Management Company.

On each Valuation Day, the net asset value of each Share Class of each Sub-Fund for which a Performance Fee applies, which includes an accrual for all fees and expenses (including the Management Fees, and the Operating and Administrative Expenses to be borne by the relevant Share Class at the rate set out in the Prospectus), is adjusted for any dividend distributions and for subscriptions and redemptions dealt with on that Valuation Day, if any, and any Performance Fee accrued through that day in respect of such Share Class is added back (the "Adjusted net asset value"). For purposes of calculating the Performance Fee, the "Share Class Return" is computed on each Valuation Day, as the difference between the net asset value (adjusted by adding back any accrued Performance Fee) on such day and the Adjusted net asset value on the previous Valuation Day, expressed as a return based on the previous Valuation Day's Adjusted net asset value for that Share Class.

The following table includes performance fee information for Share Classes that were charged during the reporting period. Any other Share Classes subject to performance fees that are not included in the table below did not incur performance fees charges during the reporting period.

Claw-Back mechanism

The Claw-Back mechanism may accrue a Performance Fee where there is negative return, provided that the performance exceeds the Performance Fee Benchmark return since the last time a Performance Fee was paid.

High Water Mark Method

The High Water Mark mechanism introduces an additional requirement that a Performance Fee may only be accrued where the Net Asset Value per Share is higher than the greater of the Net Asset Value per Share at launch of the Share Class, and the Net Asset Value per Share at which the last Performance Fee was paid.

As at 31 December 2024, Performance Fee rates and benchmarks on all Share Classes with the suffix "(perf)" are as follows:

5. Distribution Policy

Share Classes suffixed "(acc)"

Share Classes with the suffix "(acc)" are accumulation Share Classes and will not normally pay dividends.

Distribution Share Classes will normally pay dividends as described below.

Share Classes suffixed "(dist)"

It is intended that all those Share Classes with the suffix "(dist)" will, if appropriate, pay reportable income annually and will have "UK Reporting Fund Status". Payment of dividends on these Share Classes will normally be made in September of each year.

Share Classes suffixed "(div)"

Share Classes with the suffix "(div)" will normally pay quarterly dividends which are calculated by the Management Company based on the estimated annual yield of the relevant Sub-Fund's portfolio which is attributable to that Share Class. The Management Company will review the dividend rate for each Share Class at least semi-annually, but may adjust the dividend rate more frequently to reflect changes in the portfolio's expected yield.

Investors should be aware that "(div)" Share Classes give priority to dividends, rather than to capital growth. The expected yield for each Share Class will be calculated gross of both the Management Fees and the Operating and Administrative Expenses, and such Share Classes will typically distribute more than the income received. Share Classes with the suffix "(div)" in issue at the dividend record date will be eligible for any dividends which will normally be paid in the currency of the relevant Share Class.

Share Classes suffixed "(mth)"

Share Classes with the suffix "(mth)" will be available to Shareholders subscribing, and remaining subscribed, through specific Asian distribution networks and to other distributors at the sole discretion of the Management Company. Share Classes with the suffix "(mth)" will normally pay dividends on a monthly basis. The monthly dividend rate per Share will be calculated by the Management Company based on the estimated annual yield of the relevant Sub-Fund's portfolio which is attributable to that Share Class. The Management Company will review the dividend rate for each Share Class at least semi-annually, but may adjust the dividend rate more frequently to reflect changes in the portfolio's expected yield. Investors should be aware that "(mth)" Share Classes give priority to dividends, rather than to capital growth. The expected yield for each Share Class will be calculated gross of both the Management Fees and the Operating and Administrative Expenses, and such Share Classes will typically distribute more than the income received. Dividend payments for these Share Classes will normally be made to Shareholders each month and will be paid in the currency of the relevant Share Class. The Management Company reserves the right to fix a minimum amount per Share Class, below which the actual payment of the dividend would not be economically efficient for the SICAV. These payments will be deferred to the following month or reinvested in further Shares of the same Share Class and not paid directly to the Shareholders. The net asset value of "(mth)" Share Classes may fluctuate more than other Share Classes due to more frequent distribution of income.

Share Classes suffixed "(fix)"

Share Classes with the suffix "(fix)" will normally pay a quarterly fixed dividend based on a total amount per Share per annum as defined in the Prospectus. Share Classes with the suffix "(fix)" may be closed, liquidated, not pay a dividend or reduce the dividend amount payable if the payment of the dividend is believed not to be in the best interests of all Shareholders collectively in the Share Class.

Share Classes suffixed "(irc)"

Share Classes with the suffix "(irc)" will normally pay dividends on a monthly basis. The monthly dividend rate per Share will be variable and will be calculated by the Management Company based on: the estimated gross annual yield of the relevant Sub-Fund's portfolio attributable to that Share Class, which is revised at least semi-annually; and the addition or deduction of the estimated interest rate carry depending on whether such carry is positive or negative respectively. The interest rate carry is calculated using the average daily differential of the one month FX forward rate and the spot rate between these two currencies of the preceding calendar month.

Share Classes suffixed "(icdiv)"

Share Classes with the suffix "(icdiv)" will pay a dividend that is expected to include a distribution from capital as well as the gains of the Share Class. It sets a predetermined annual percentage of NAV per Share to be paid as a monthly dividend that is not linked to income or capital gains. Payments are likely to exceed the increase in the NAV per Share from the net income and realised and/or unrealised capital gains of the Share Class resulting in erosion of the amount invested. The annual percentage is based on prevailing investor demand in the region where the Share Class is distributed and Sub-Fund level considerations. The percentage may be changed at the discretion of the Management Company. The latest dividend yield of the Share Class can be found on the website (www.jpmorganassetmanagement.lu).

This Share Class is available only to investors purchasing and holding Shares through specific Asian distribution networks, and to other investors at the discretion of the Management Company. Shareholders should be aware that, during periods of negative performance, the dividend will normally continue to be paid and the value of the investment may fall more rapidly. It may not be possible to maintain the initial / prevailing dividend payment indefinitely and it may be reduced. If the value of the NAV falls to 1.00 in the Sub-Fund's Base Currency, the Share Class will be fully redeemed by the Management Company at the next practicable opportunity. Investors in these Share Classes may have to pay tax on payments out of capital which may be tax inefficient. Investors should consult with their tax advisors.

Other Information

Shareholders should note that, where the dividend rate is in excess of the investment income of the Share Class, dividends will be paid out of the capital attributed to the Share Class, as well as from realised and unrealised capital gains. This may be tax inefficient for Shareholders in certain countries. Shareholders should consult their local tax adviser about their own position. Share Classes with the suffix "(div)", "(fix)" and "(mth)" do not distribute the reportable income in accordance with the United Kingdom tax legislation relating to offshore funds. The (dist) Share Classes of JPMorgan Funds - Russia Fund and JPMorgan Funds - Emerging Europe Equity Fund normally pay an annual distribution in September based on reportable income. Should the Sub-Funds still be suspended on that date, the annual dividend will not be declared.

Details of the dividends distributed during the period ended 31 December 2024 are available on the website:
https://am.jpmorgan.com/lu/en/asset-management/adv/products/fund-explorer/sicavs

6. Taxation

The SICAV is not subject to taxation in Luxembourg on its income, profits or gains. The SICAV is not subject to net wealth tax in Luxembourg. The only tax to which the SICAV in Luxembourg is subject is the subscription tax ("Taxe d'Abonnement"), up to a rate of 0.05% per annum based on the net asset value attributed to each Share Class at the end of the relevant quarter, calculated and paid quarterly. A reduced tax rate of 0.01% per annum of the net assets will be applicable to Share Classes as identified in Appendix 6. The 0.01% and 0.05% rates described above, as appropriate, are not applicable for the portion of the assets of the SICAV invested in other Luxembourg collective investment undertakings which are themselves already subject to the Taxe d'Abonnement.

No stamp duty, capital duty or other tax is payable in Luxembourg upon the issue of the Shares of the SICAV. No tax is payable on realised or unrealised capital appreciation of the assets of the SICAV in the Grand Duchy of Luxembourg. Although the SICAV's realised capital gains, whether short or long-term, are not expected to become taxable in another country, the Shareholders must be aware and recognise that such a possibility is not totally excluded. The regular income of the SICAV from some of its securities, as well as interest earned on cash deposits in certain countries, may be subject to withholding taxes at varying rates, which normally cannot be recovered.

Dividends, interest and capital gains on security investments held by any Sub-Fund may be subject to non-recoverable withholding tax and Capital Gains Tax of varying rates in the source countries.

7. Statement of Changes in Investments

A list, specifying for each investment within each Sub-Fund the total purchases and sales which occurred during the financial period, may be obtained free of charge upon request at the registered office of the SICAV. Additional information on investments within each Sub-Fund's portfolio is available to Shareholders at the registered office of the SICAV.

8. Value of Financial Instruments and Associated Risks

The SICAV entered into forward currency exchange contracts, financial futures contracts, options and swaps which, to varying degrees, represent a market risk in excess of the amount reflected on the Combined Statement of Net Assets. The amount of the contracts represents the extent of the SICAV's participation in these financial instruments. Market risks associated with such contracts arise due to the possible movements in foreign exchange rates, indices, and security values underlying these instruments. Associated risks are set out in the Prospectus.

In emerging and less developed markets, in which some of the Sub-Funds will invest, the legal, judicial and regulatory infrastructure is still developing and there is much legal uncertainty both for local market participants and their overseas counterparts. Some markets may carry higher risks for investors who should therefore ensure that, before investing, they understand the risks involved and are satisfied that an investment is suitable as part of their portfolio. In some markets there may be no secure method of delivery against payment which would minimise the exposure to counterparty risk. It may be necessary to make payment on a purchase or delivery on a sale before receipt of the securities or, as the case may be, sale proceeds.

9. Collateral Received with Respect to Financial Techniques and Financial Derivative Instruments

Assets received from counterparties in securities lending activities and OTC derivative transactions other than currency forwards constitute collateral.

The SICAV will only enter into transactions with counterparties which the Management Company believes to be creditworthy. Approved counterparties will typically have a public rating of A- or above. Counterparties will comply with prudential rules considered by the CSSF as equivalent to EU prudential rules. The counterparty does not have discretion over the composition or management of a Sub-Fund's portfolio or over the underlying of financial derivative instruments used by a Sub-Fund. Counterparty approval is not required in relation to any investment decision made by a Sub-Fund.

Collateral may be offset against gross counterparty exposure provided it meets a range of standards, including those for liquidity, valuation, issuer credit quality, correlation and diversification. In offsetting collateral its value is reduced by a percentage (a "haircut") which provides, inter alia, for short term fluctuations in the value of the exposure and of the collateral. Collateral levels are maintained to ensure that net counterparty exposure does not exceed the limits per counterparty as set out in the Prospectus. If any, collateral is received in the form of securities and cash. Non-cash collateral received is not sold or pledged.

Collateral received with respect to financial derivative instruments is shown in Appendix 8.

10. Securities Lending

The SICAV may lend portions of its securities portfolio to third parties for the purpose of generating additional income or for reducing costs, to the maximum extent allowed by and within the limits set forth in (i) article 11 of the Grand Ducal regulation of 8 February 2008 relating to certain definitions of the Luxembourg Law, (ii) CSSF Circular 08/356 relating to the rules applicable to Undertakings for Collective Investment when they use certain techniques and instruments relating to transferable securities and money market instruments, (iii) CSSF circular 14/592 relating to ESMA Guidelines on ETFs and other UCITS issues and (iv) any other applicable laws, regulations, circulars or CSSF positions.

Borrowers of securities lent by participating Sub-Funds are approved by the Management Company after appropriate assessment of such borrowers' status and financial standing. 90% of any incremental income earned from securities lending is accrued to the applicable Sub-Fund, whilst the remaining 10% income is paid to J.P. Morgan SE - Luxembourg Branch for its role as securities lending agent for the SICAV. The income earned from the securities lending program is detailed in the Combined Statement of Operations and Changes in Net Assets.

As at 31 December 2024, the SICAV valuation of securities on loan is USD 2,185,842,377 as detailed below and received collateral with a market value of USD 2,365,685,145.

* The securities received as collateral are in the form of government securities (US, UK, Eurozone and other government securities). These securities are issued and guaranteed as to principal and interest by the governments of the relevant countries.

11. Transactions with Connected Parties

All transactions with connected parties were carried out on an arm's length basis.

JPMorgan Chase & Co. and its affiliates are counterparties for all securities lending activity and for certain forward foreign exchange contracts, financial futures contracts and swaps contracts. The Management Company, Registrar and Transfer Agent, Global Distributor and Domiciliary Agent, Investment Managers, Depositary, Corporate, Administrative and Listing Agent and other related Agents of the SICAV are considered as connected parties as they are affiliated entities of JPMorgan Chase & Co. In addition, Elvinger Hoss Prussen, société anonyme (of which Mr Jacques Elvinger who is on the Board of Directors of the SICAV, is a partner) has been compensated USD 75,836 for the period for legal services to the SICAV.

The following is a summary of transactions entered into during the period between the SICAV (on behalf of authorised Sub-Funds in Hong Kong) and the Manager and/or its Connected Persons. The Portfolio Turnover Ratio is an indicator of the relevance of the additional costs incurred by a fund when buying and selling investments according to its investment policy. The Portfolio Turnover Ratio is calculated as outlined below:

$$\frac{\text{(Total securities' purchases and sales - total subscriptions and redemptions of Sub-Fund Shares)}}{\text{Average net Sub-Fund assets in Sub-Fund currency}}$$

The Portfolio Turnover Ratio is expressed as a percentage and in the case the outcome of the calculation is negative, a zero value has been published.
