This document was prepared on 7 November 2024.

You are about to purchase a Product that is not simple and may be difficult to understand.

What is the product?

Type: This Product is a share in a Sub-fund of the Umbrella qualifying as an alternative investment fund under the law of 12 July 2013 on alternative investment fund managers and the AIFMD regulation.

Term: This Product has no maturity date. The Sub-fund has been established for an indefinite period of time. The Board of Directors of the Investment Company is entitled to liquidate, merge or reposition the Product at any time unilaterally in case the Product can no longer be managed in the interest of the investors. The amount the investor will receive upon early termination may be less than the amount invested.

Objectives: The investments in this Sub-fund are actively managed. The Sub-fund has a sustainable investment objective (within the meaning of Article 9 of Regulation (EU) 2019/2088). Details are available in the prospectus and the ESG website disclosure of the Sub-fund. The amounts entrusted to the Sub-fund aim to achieve a real increase in value over the long term as well as at contributing to the development of the financial sector in developing and emerging countries and by doing so enhancing the access to financial services to promote entrepreneurial activity, boost the economy and/or create employment. To this end, the assets of the Sub-fund shall be invested, in accordance with the principle of risk diversification, in securities and other investments. The Sub-fund invests its money so that local, successful, respectively promising financial service providers can provide specific financial services to micro, small and medium-sized enterprises over the long term and, depending on demand, are in a position to achieve meaningful growth. The analysis of the investment targets is part of a quantitative rating system. The Sub-fund may invest in the following investment categories: debt securities, liquidity/money market, securities of various types and, in exceptional cases and to a limited extent only, in private equity capital. To a limited extent, the Sub-fund may also use guarantee instruments to activate local financial resources for financial institutions focused on micro, small and medium-sized enterprises ("MSME focused Fis"). The Sub-fund invests primarily in different types of debt instruments. Not more than 10% of the Sub-fund's assets may be invested either directly or indirectly in private equity capital, and such investments may be made only in the following exceptional cases: 1) conversion of this investment into private equity capital as part of a restructuring of an existing fixed-interest investment, provided this is in the investors' best interests; 2) to achieve efficiency gains, a private equity share in a specialized and recognized counterparty for currency hedging transactions, provided this is in the investors' best interests. Solely in order to finance foreseeable liquidity shortfalls, the Sub-fund may take up loans on a temporary basis provided these do not total more than 25% of its assets. The Sub-fund does not aim at a constant average duration of capital tie-up for its investments. Typically, this period will be between two and three years. The beneficiary institutions are usually domiciled in developing and transition countries, primarily in the following regions: Latin America, Africa, Central and Eastern Europe, and Asia. The Sub-fund's investments are usually in US dollars or euros. To a limited extent, investments may be made in freely convertible local currencies of the target countries (non-OECD area). The Sub-fund uses derivative transactions for the purposes of hedging interest rate and currency risk. The Sub-fund's reference currency is the US dollar (USD). The Product pays distributions on an annual basis. Any distributions will be made within four months of the end of the financial year. The Shares of the Sub-fund will be redeemed at the redemption price at the end of each month (Redemption Date). Redemption of Shares may be requested by Shareholders by means of a redemption application, which must be received at least ninety (90) calendar days before the respective Redemption Date. Under certain circumstances, the alternative investment fund manager (AIFM) may, in the name and with the consent of responsAbility SICAV (Lux), temporarily suspend calculation of the net asset value and/or the issue, redemption and conversion of Shares.

Intended Retail Investor: This Product is intended for professional and institutional investors, as well as sophisticated retail investors with sufficient knowledge and experience in collective investment schemes and similar products, an ability to bear a minor investment loss, and a long-term investment horizon.

What are the risks and what could I get in return?

(A) Summary Risk Indicator

The risk indicator assumes you keep the Product for 5 years. The actual risk can vary significantly if you redeem at an early stage and you may get back less. You may not be able to cash in early.

This Product is considered to be illiquid.

The Summary Risk Indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets. We have classified this Product as 2 out of 7, which is a low risk class and poor market conditions are very unlikely to impact our capacity to pay you. **Be aware of currency risk** if your reference currency differs from the currency of the Product. You may receive payments in a different currency, so the final return you will get depends on the exchange rate between the two currencies. Investors shall note that the Product may be exposed to further risks such as operational, counterparty, political, sustainability and legal risks that are not included in the Summary Risk Indicator. This Product does not include any protection from future market performance so you could lose some or all of your investment.

(B) Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back. **What you will get from this product depends on future market performance.**

Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product / a suitable benchmark over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Recommended holding period:		5 years	
Example Investment:		EUR 10,000	
Scenarios	If you exit after 1 year	If you exit after 5 years (Recommended holding period)	
Stress scenario	What you might get back after costs Average return each year	EUR 9,028 -9.7%	EUR 9,047 -2.0%
This type of scenario occurred for an investment responsibility SICAV (Lux) Micro and SME Finance Debt Fund A between 08/2015-08/2020.			
Unfavourable scenario	What you might get back after costs Average return each year	EUR 9,713 -2.9%	EUR 9,879 -0.2%
This type of scenario occurred for an investment responsibility SICAV (Lux) Micro and SME Finance Debt Fund A between 03/2017-03/2022.			
Moderate scenario	What you might get back after costs Average return each year	EUR 9,867 -1.3%	EUR 10,090 0.2%
This type of scenario occurred for an investment responsibility SICAV (Lux) Micro and SME Finance Debt Fund A between 10/2019-10/2024.			
Favourable scenario	What you might get back after costs Average return each year	EUR 10,211 2.1%	EUR 10,583 1.1%

What happens if MultiConcept Fund Management S.A. is unable to pay out?

The investor of this Product will not face financial loss due to the default of MultiConcept Fund Management S.A., as the Sub-fund is considered to be a separate entity with segregated assets.

What are the costs?

The person advising on or selling you this product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Cost over time

The tables show the amounts that are taken from your investment to cover different types of costs. These amounts depend on how much you invest, how long you hold the product and how well the product does. The amounts shown here are illustrations based on an example investment amount and different possible investment periods.

We have assumed:

- In the first year you would get back the amount that you invested (0% annual return). For the other holding periods we have assumed the product performs as shown in the moderate scenario
- EUR 10,000 is invested

	If you exit after 1 year	If you exit after 5 years (Recommended holding period)
Total costs	EUR 438	EUR 1,468
Annual cost impact (*)	4.4%	2.8%

(*) This illustrates how costs reduce your return each year over the holding period. For example it shows that if you exit at the recommended holding period your average return per year is projected to be 3.0% before costs and 0.2% after costs.

Composition of costs

One-off costs upon entry or exit		If you exit after 1 year
Entry costs	2.0% of the value of your investment when entering.	EUR 200
Exit costs	0.0% of the value of your investment before it is paid out to you.	EUR 0
Ongoing costs taken each year		
Management fees and other administrative or operating costs	2.2% of the value of your investment per year.	EUR 218
Transaction costs	0.2% of the value of your investment per year. This is an estimate of the costs incurred when we buy and sell the underlying investments for the product. The actual amount will vary depending on how much we buy and sell.	EUR 20
Incidental costs taken under specific conditions		
Performance fees	There is no performance fee for this product.	n/a

How long should I hold it and can I take money out early?

Recommended holding period: 5 years

The recommended holding period is calculated based on the Summary Risk Indicator presented above. According to the investment objective as described above, the Product is designed for long-term investment. The Product is an open-ended Product. The investor can sell their investment on a monthly basis. No redemption fees or penalties will be charged at the level of the Product.

How can I complain?

Any complaint regarding the person advising on, or selling the Product can be submitted directly to that person or bank. Any complaint regarding the Product or this document can be submitted in writing under the following address: MultiConcept Fund Management S.A., 5, rue Jean Monnet, L-2180 Luxembourg. Investors shall note that a complaint can be also addressed by e-mail to list.lux-multiconcept@credit-suisse.com or visit website: www.credit-suisse.com/microsites/multiconcept/en.html.
