Information about the Fund

Classification

International equities.

Determination and allocation of distributable sums

Accumulation and/or distribution at the discretion of the Management Company.

Tax treatment

The Fund is eligible for life insurance policies. The Fund may provide a support vehicle for life insurance policies denominated in units of account.

The UCITS, by its nature, is not subject to taxation. However, unitholders may be taxed on any income distributed by the Fund or when they sell Fund units. The tax treatment applicable to amounts distributed by the Fund or unrealised or realised capital gains or losses will depend on the individual unitholder's tax situation, residence for tax purposes and/or the investment jurisdiction of the Fund. If an investor is uncertain of his or her tax position, the investor should consult a financial advisor or a professional investment consultant to determine the tax rules applicable to his or her particular situation before any investment. Some income distributed by the UCITS to unitholders residing outside France may be subject to withholding tax in France.

Benchmark index

The Fund's benchmark index is the euro-denominated MSCI Europe ex EMU Index with net dividends reinvested (net return).

The MSCI Europe ex EMU Index is an "equities" index calculated and published by the international index provider MSCI Inc. ("MSCI"). The equities included in the MSCI Europe ex EMU Index are leading securities traded in the markets of 5 European Union countries that do not belong to the European Economic and Monetary Union.

Management fees & commissions

Administrative and management fees: 0.30% including tax.

Subscription fees received by the Fund: None.

In compliance with current regulations, this mutual fund has, during the financial period just ended, levied charges at rates which are in line with those stated in the Prospectus and used under the following headings:

- Notes to the Annual Accounts/- Management fees.
- Shareholders' Funds/- Subscription and/or redemption fees/- Management fees.

Investment objective

The Fund's investment objective is to replicate as closely as possible the value of the MSCI Europe ex EMU Index (see section "Benchmark index"), whether the Index rises or falls.

The Fund is managed so as to achieve the smallest possible gap between changes in its NAV and changes in the value of the MSCI Europe ex EMU Index (referred to below as the "MSCI Europe ex EMU Index"). The target for maximum tracking error between changes in the Fund's NAV and those in the MSCI Europe ex EMU Index is 2%.

If the tracking error exceeds 2%, the aim would nevertheless be to remain below 15% of the volatility shown by the MSCI Europe ex EMU Index.

Investment strategy

The Fund is managed "passively".

1. **Strategy employed:**

The Fund is managed using a technique known as "index-tracking", the objective of which is to replicate changes in the performance of the MSCI Europe ex EMU Index using a swap-based replication method.

UCITS AMUNDI ETF MSCI EUROPE EX EMU

UCITS ETF

To maintain the closest possible correlation with the performance of the MSCI Europe ex EMU Index, the Fund will buy a diversified portfolio of stocks (the "Portfolio") and an over-the-counter (OTC) total return swap, a financial derivative instrument which turns the exposure to the securities in the Portfolio into exposure to the MSCI Europe ex EMU Index.

The Fund shall observe the investment rules stipulated in Articles R214-21, R214-22 and R214-23 the French Monetary and Financial Code.

The Portfolio comprising directly held assets described in the "Assets used" section, complies with the provisions of Article R214-21 of the French Monetary and Financial Code (CMF).

The Fund's exposure to the Index achieved through the total return swap may be eligible for exemption ratios applicable to the index-tracking UCITS referred to in Article R214-22 of the French Monetary and Financial Code (CMF). That Article stipulates that an index may comprise up to 20% equities or debt securities issued by the same entity; this limit may be raised to 35% maximum for a single issuing entity, when such increase is justified by special market circumstances such as on regulated markets where some marketable securities or some money-market instruments are largely dominant.

The UCI does not take into account environmentally sustainable economic activities as defined by the Taxonomy Regulation and it does not, therefore, take into account the European Union criteria in this regard.

2. Assets used (except embedded derivatives):

The Fund's exposure to the Index is achieved through the total return swap.

The Portfolio consists of the Fund's directly held assets described below.

- Equities:

At least 60% of the Fund will be permanently exposed to a foreign equity market or equity markets in a number of countries, including the French market when appropriate.

Up to 100% of the Fund's net assets will be invested, subject to the legal and regulatory ratios, in international equities (any economic sector, traded on any market). However, in the event of adjustments associated with subscriptions/redemptions, investments may exceed this limit on a residual basis.

The stocks in the Fund's portfolio will consist of stocks included in the MSCI Europe ex EMU Index and other international stocks, from all economic sectors, including small-cap markets. The equities in the Fund's assets will be chosen to limit costs associated with reproducing the MSCI Europe ex EMU Index.

At least 90% of the Fund will be permanently invested in listed shares. For the purposes of interpreting this ratio, shares issued by REITs (as defined by the German Ministry of Finance) or UCIs are not considered as shares.

- Interest-rate instruments:

Up to 25% of the Fund's net assets may be invested in any kind of bond instruments.

Portfolio securities will be selected according to management decision and in compliance with the internal credit risk monitoring policy of the Management Company.

For the purpose of stock picking, management does not, either exclusively or mechanically, rely on the ratings issued by rating agencies, but bases its buy and sell convictions of a security on its own credit and market analyses. For information, management may specifically deal in securities with minimum ratings, at the time of purchase, of BBB- in the S&P and Moody's scale ("investment grade" rating).

The bond issuers selected may be from the private sector or from the public sector (national or local governments, etc.), and private sector debt may account for up to 100% of all debt instruments.

Foreign debt instruments will be denominated in the currency of one of the OECD member countries.

In order to meet its investment objective and/or manage intermediate cash flows, the Fund may hold up to 10% of its assets in the following:

The bond issuers selected may be from the private sector or from the public sector (national or local governments, etc.), and private sector debt may account for up to 100% of all debt instruments. The average maturity of these instruments will not exceed ten years.

- UCITS units or shares:

The Fund may hold up to 10% of its assets in units and/or shares of UCITS. These UCITS are representative of all asset classes, in compliance with the Fund's requirements.

They may be UCITS managed by the Management Company, or by other entities, which may or may not belong to the Crédit Agricole SA Group, including related companies.

For information purposes, when the Fund is being set up, total return swaps represent approximately 100% of net assets and they represent up to 110% during its life cycle.

The assets held by the Fund and on whose performance of which the total return swaps focus, are retained by the depositary.

For this reason, the Management Company has not undertaken nor shall undertake, for this particular Fund, a formal competitive bidding procedure that can be tracked and monitored among counterparties for OTC derivative financial instruments, as the counterparty has already been selected during the comprehensive RFP. The Fund may carry out these transactions with BNP Paribas SA or any other Company of the BNP Paribas SA group as counterparties or intermediaries.
