UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

Informations about the Fund

Classification

International equities.

Method used to determine and allocate distributable amounts

Capitalisation and/or distribution of income at the discretion of the Asset Manager.

Tax regime

The Fund is eligible for life insurance policies. The Fund may also serve as an investment vehicle for unit-linked life insurance policies.

The UCITS, by its nature, is not subject to taxation. However, unitholders may be subject to tax on any income distributed by the fund or when they sell its units. Taxes applicable to the amounts paid out by the Fund and to realised or unrealised capital gains or losses generated by the Fund depend on the tax laws applicable to each individual investor, their tax residence, and/or the Fund's investment jurisdiction. Any investors unsure of their tax status should contact a tax advisor or professional in order to determine the tax rules that apply to their individual situation, before carrying out any investment. Some income distributed by the UCITS to non-residents in France may be subject to a withholding tax in France.

Benchmark index

The Fund's benchmark index is the euro-denominated STOXX® Europe 50 index, net dividends reinvested (total net return).

The STOXX Europe 50 index is an "equities" index calculated and published by international index provider STOXX Ltd. ("STOXX"). The STOXX Europe 50 index is a sub-category of the STOXX® 600 index. It is composed of the 50 most important stocks of 18 European countries. The equities in the index cover all economic sectors, and are selected for their level of market capitalisation, their liquidity, and their sector weighting.

The STOXX Europe 50 index covers around 60% of the free float-adjusted market capitalisation of the European markets represented by the STOXX 600 index.

Management fees and commissions

Operating and management fees: 0.15% including tax.

Subscription commissions payable to the Fund: None.

In accordance with the regulations, the actual rates for this fund, during the past financial year, are consistent with those mentioned in the detailed memorandum and listed in the following sections:

- Notes to the annual financial statements/- Management fees
- Shareholders' equity/- Subscription and/or redemption fees/- Management fees

Investment objective

The Fund's investment objective is to replicate the performance (positive or negative) of the STOXX Europe 50 index (see "Benchmark Index" section) as closely as possible.

The aim of the fund management strategy is to generate the smallest difference possible between the change in the NAV of the Fund and that of the STOXX Europe 50 index (hereinafter the STOXX Europe 50 index"). The targeted maximum tracking error between the change in the Fund's NAV and that of the STOXX Europe 50 index is thus 2%.

If at any point the tracking error were to exceed 2% despite this, the objective would be to remain below 15% of the volatility of the STOXX Europe 50 index.

Investment strategy

The Fund uses a "passive" investment strategy.

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

1. Strategy used:

The Fund's management is index-linked, with the objective of replicating changes in the performance of the STOXX Europe 50 index using a method that synthetically replicates that index.

To obtain the highest possible correlation with the performance of the STOXX Europe 50 index, the Fund will use a diversified basket of equities (the "Basket"), and a total return swap for equity and indices, swapping the Fund's exposure to the securities comprising the Basket for exposure to the STOXX Europe 50 index.

The Fund will comply with the investment rules set forth in Articles R214-21, R214-22, and R214-23 of the French Monetary and Financial Code.

The Basket, consisting of the directly-held assets described in the "Assets used" section of this document, complies with the provisions of Article R 214-21 of the French Monetary and Finance Code.

The Fund's exposure to the index obtained via the total return swap may benefit from the exceptional ratios applicable to the index UCITS referred to in Article R 214-22 of the French Monetary and Finance Code. This article stipulates that a maximum of 20% of the index may be comprised of equities or debt securities issued by a given entity, and that this limit may be increased to 35% maximum for a single given issuing entity where justified by exceptional market conditions, particularly on regulated markets in which certain transferable securities or money market instruments are predominant.

The fund does not take into consideration environmentally sustainable economic activities as defined by the Taxonomy Regulation and therefore does not take into consideration the European Union's criteria in this area.

2. Assets used (excluding embedded derivatives):

The Fund's exposure is obtained via the total return swap.

The Basket is made up of the assets described below, which are directly held by the Fund.

- Securities:

At least 60% of the Fund will be exposed at all times to a foreign equities market or to the equities markets of several countries, including the French market.

Within the limits of the ratios set forth under the regulations, up to 100% of the Fund's net asset value will be invested in international equities (in all economic sectors, listed on all markets). However, in the event of adjustments related to subscriptions/redemptions, the residual investment may exceed this limit.

The equities comprising the Fund's assets will be equities listed on the STOXX Europe 50 index, as well as other international equities, in all economic sectors, including small cap markets. The equities comprising the Fund's assets will be selected with the aim of limiting the costs associated with the replication of the STOXX Europe 50 index.

At least 90% of the fund will be continuously invested in listed equities. For the purposes of interpreting this ratio, equities issued by REITs (as defined by the German Finance Ministry) and mutual funds are not considered as equities.

- Fixed income instruments:

Up to 25% of the Fund's assets may be invested in bond instruments of any type.

Portfolio securities will be selected on the basis of the portfolio manager's judgement and in compliance with the Asset Manager's internal credit risk management policy.

In selecting securities, the portfolio managers do not systematically or exclusively rely on ratings issued by rating agencies. Rather, they base their decision to buy or sell a security on their own credit and market analyses. Note: the portfolio managers may use securities with a minimum rating of BBB- on the S&P and Moody's scale (Investment Grade rating) at the time of their purchase.

Selected issuers may belong to either the private or public sector (governments, local authorities, etc.), with private debt liable to account for up to 100% of debt instruments.

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

Foreign bonds will be denominated in OECD Member State currencies.

In order to help achieve its investment objective and/or manage intermediate investment flows, the Fund may hold (within the limit of 10% of its assets) the following instruments:

- Debt securities and euro-denominated money-market instruments:

Cash is managed by holding money market instruments.

Portfolio securities will be selected on the basis of the portfolio manager's judgement and in compliance with the Asset Manager's internal credit risk management policy.

In selecting securities, the portfolio managers do not systematically or exclusively rely on ratings issued by rating agencies. Rather, they base their decision to buy or sell a security on their own credit and market analyses. Note: the portfolio managers may use securities with a minimum rating of AA on the S&P and Moody's scale.

Selected issuers may belong to either the private or public sector (Governments, local authorities, etc.), with private debt liable to account for up to 100% of debt instruments. The average duration of such instruments will be less than 10 years.

- UCITS units or shares:

The Fund may invest up to 10% of its assets in units and/or shares of UCITS. These UCITS are representative of all asset classes, in accordance with the Fund's investment constraints.

They may be UCITS managed by the Asset Manager or by other entities belonging to Crédit Agricole SA Group, including affiliates, or to other groups.

3. Derivatives:

The Fund will use derivative instruments including forward financial instruments such as OTC total return swaps whose purpose is to exchange the value of the equities comprising the Fund's assets for the value of the STOXX Europe 50 index.

The Fund may use the following types of derivative instruments:

- Types of markets:

- regulated
- organised
- over-the-counter

- Categories of risks in which the Fund intends to trade:

- equity
- interest rate
- foreign exchange
- credit
- volatility

- Types of operations or transactions that may only be carried out in the interest of achieving the investment objective:

- hedging
- exposure
- arbitrage
- trading
- other

- Types of instruments used:

- equity and index futures
- equity and index options
- total return swaps on equities and indices.

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

The Fund may enter into two types of swap transaction among the following types of flow:

- fixed rate
- variable rate (indexed to Eonia, Euribor, or any other market benchmark)
- performance linked to one or more currencies, equities, stock market indices or listed securities, UCIs, or investment funds
- dividends (net or gross)
- currency forwards
- other

• Strategy for using derivatives to achieve the investment objective:

reconstitution of a synthetic exposure to a given security, business sector, and/or the STOXX Europe 50 index through the use of total return swaps

management of intermediate investment flows (dividends, subscriptions/redemptions, etc.) to achieve the target exposure to a given security, business sector or the STOXX Europe 50 index through the use of futures

management of intermediate investment flows (dividends, subscriptions/redemptions, etc.) to achieve the target exposure to a given security, business sector or the STOXX Europe 50 index through the use of options

These instruments may be used as hedging instruments, within the limit of 100% of the Fund's net assets.

As an indication, total return swaps represented around 100% of net asset value and were limited to 110% of net asset value at the time the fund was created.

The assets held by the Fund to the performance of which the total return swaps are linked are deposited with the custodian.

The total return swap is held in the custodian's books.

The fund's investment in derivatives is limited to 110% of net assets.

4. Securities with embedded derivatives:

None.

5. Deposits and cash holdings:

The Fund may, within the limit of 20% of its net assets, carry out deposits with a maximum term of 12 months. By allowing the Fund to manage cash flows, these deposits help achieve its investment objective.

6. Cash borrowing:

The Fund may borrow cash, on an exceptional and temporary basis and within the limit of 10% of its net assets, for the purpose of optimising the management of its cash holdings.

7. Temporary purchases and sales of securities:

None.

Information pertaining to financial guarantees (temporary buying and selling of securities) and total return swaps:

Types of financial collateral:

For transactions involving the temporary buying and selling of securities and OTC derivatives transactions, the Fund may receive collateral in the form of cash or securities.

Haircuts may be applied to the collateral received. Such discounts specifically factor in the type, maturity, credit quality, currency and price volatility of the securities, in addition to stress test results.

Securities received as collateral must meet criteria set forth by the Asset Manager. They must be:

- liquid,
- sellable at any time,
- diversified under the rules for eligibility, exposure, and diversification of UCITS,
- issued by an issuer that is not an entity of the counterparty or its group.

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

For bonds, the securities must also be issued by high-quality issuers located within the OECD with a minimum rating of AAA to BBB- on the Standard & Poor's scale or a rating deemed equivalent by the Asset Manager. Bonds must have a maximum maturity of 50 years.

The criteria described above are set out in a Risk Policy (available for consultation on the Asset Manager's website: www.amundi.com), and are subject to change, particularly in the event of exceptional market circumstances.

Haircuts may be applied to the collateral received. Such haircuts factor in credit quality, security price volatility and stress test results.

Re-use of cash received as collateral:

Cash collateral may be reinvested in deposits, government bonds, reverse repurchase transactions, or short-term money market UCITS in accordance with the Asset Manager's Risk Policy.

Re-use of securities received as collateral:

Not authorised: Securities received as collateral may not be sold, reinvested or pledged as collateral.

Brief description of the intermediary selection procedure and comments (if any):

The Asset Manager generally selects intermediaries via a tendering process. A general call for tenders (swap and market-making agreement) was carried out for part of the AMUNDI ETF fund range. Accordingly, for this specific Fund, the Asset Manager has not undertaken and will not undertake a formal, traceable and auditable competition procedure for counterparties to the OTC total return swaps referred to above, as the counterparty was already selected via the general call for tenders. The Fund may conduct these transactions with BNP Paribas SA or any other BNP Paribas SA Group company as counterparties or intermediaries.

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

Activity report

December 2021

The Fund's investment objective is to track the performance of the STOXX Europe 50 Index, as closely as possible, whether the Index rises or falls. It holds a basket of shares and a performance swap which turns the Fund's equity exposure into an exposure to the STOXX Europe 50 index.

For the period under review, the portfolio AMUNDI ETF STOXX EUROPE 50 UCITS ETF performance is 26.14%. The benchmark performance is 26.05% with a Tracking Error of 0.06%.

Past performance is no guarantee of future performance.

INFORMATION ON INCIDENTS RELATED TO THE COVID-19 CRISIS

e) Type and quality of collateral

Amundi Asset Management undertakes to accept only securities of a high credit quality and to increase the value of its collateral by applying valuation discounts to securities loaned to it. This process is regularly reviewed and updated.

i) Reuse of collateral

« The regulations governing UCIT forbid the reuse of collateral securities. Cash collateral received is:

- o reinvested in short-term money market funds (as defined by ESMA in its 'Guidelines on ETFs and other UCITS issues')
- o placed on deposit;
- o reinvested in high-quality long-term government bonds
- o reinvested in high-quality short-term government bonds
- o used for the purpose of reverse repurchase transactions.»

The maximum proportion of received collateral that may be reused is 0% in the case of securities and 100% in the case of cash.

The effective usage amounts to 0% for collateral securities and 100% for cash collateral.

k) Custody of collateral provided by the UCI

Amundi Asset Management undertakes to do business with a limited number of depositaries, selected to ensure the adequate custody of securities received and cash.

I) Breakdown of revenue and expenses

For securities lending transactions and repurchase agreements, Amundi Asset Management has entrusted Amundi Intermédiation, acting on behalf of the UCITS, with the following responsibilities: selecting counterparties, ordering the implementation of market agreements, monitoring counterparty risk, performing qualitative and quantitative monitoring of collateralisation (dispersion checks, ratings, liquid assets), repurchase agreements and securities lending. Income generated from these transactions is paid into the UCITS. Costs generated by these transactions are incurred by the UCITS.

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

Significant events during the financial period

23 December 2021 Addition The fund does not take into consideration environmentally-sustainable economic activities as defined by the Taxonomy Regulation and therefore does not take into consideration the European Union's criteria in this area.

23 December 2021 Addition Regulation (EU) 2020/852 (the "Taxonomy Regulation") on the establishment of a framework to facilitate sustainable investment, and amending the Disclosure Regulation. Under the Taxonomy Regulation, environmentally sustainable investments are investments in one or more economic activities that may qualify as being environmentally sustainable under that Regulation. In order to determine an investment's degree of environmental sustainability, an economic activity is considered to be environmentally sustainable where it contributes substantially to one or more of the environmental objectives defined in the Taxonomy Regulation, where it does not significantly infringe one or more of the environmental objectives defined in that Regulation, where it is carried out in accordance with the minimum safeguards established by that Regulation and where it complies with the technical screening criteria established by the European Commission in accordance with the Taxonomy Regulation.

23 December 2021 Modification Date of update of the prospectus: 23/12/2021.

Specific details

Voting rights

In accordance with the Fund's Rules and the Fund Manager's stated policy, the Fund Manager exercises the voting rights attached to the securities held by the Fund and decides on contributions in the form of securities, except where the securities are those of the Fund Manager itself or of any associate company as defined in Art L. 444-3 of the French Labour Code (Code du Travail).

Two documents, "Voting Policy" and "Report on the Exercise of Voting Rights", prepared by the Fund Manager in compliance with the current regulations are available upon request.
This mutual fund (OPC) has not been selected as one of the funds which currently exercise voting rights.

Movement commission

The Fund Manager has received no "soft" commissions.

Movement commission

The Fund Manager has received no commissions on trade.

Use of credit derivatives

The Fund has not used credit derivatives during the period under consideration.

Group funds and instruments

In order to obtain information on the financial instruments held in the portfolio that are issued by the Management Company or by its affiliates, please refer to the sections:

- Additional information,
- Group financial instruments held in the portfolio in the annual financial statements for the year ended, attached hereto.

Calculating overall risk

• Overall risk calculation method: the mutual fund uses the commitment calculation method to calculate the mutual fund's overall exposure to financial contracts.

• Leverage - Funds to which the risk calculation method is applied

Indicative leverage level: 99.53%.

Regulatory informations

Selection procedure for brokers and counterparties

The Broker Selection Policy draws up and implements a policy which enables it to comply with the Fund's obligation under Art.314-75 (iv) while meeting the requirements set out in Art L.533-18 of the French CMF. For each class of instrument, the policy selects the organizations that will be commissioned to execute orders.

AMUNDI execution policy may be consulted on the AMUNDI website.

Investment advice service

The Fund Manager has not prepared a "Report on Brokerage Expenses" since it has not used any investment advice services.

Report on broking fees

A report on broking fees is available for bearers. It can be viewed at the following web address: www.amundi.com.

Remuneration Policy

Remuneration policy and practices of the AIFM/Management company

The remuneration policy implemented by Amundi Asset Management is compliant with the rules in terms of remuneration specified in the Directive 2011/61/UE of the European Parliament and of the Council of June 8th 2011 on Alternative Investment Fund Managers (the "AIFM Directive"), and in the Directive 2014/91/UE of July 23rd 2014 on undertakings for collective investment in transferable securities (the "UCITS V Directive"). These rules, about remuneration policies and practices, have for objective to promote sound and effective risk management of fund managers and the funds they manage.

Moreover, the remuneration policy is compliant with Regulation (EU) 2019/2088 ("SFDR"), integrating sustainability risk and ESG criteria in Amundi control framework, with responsibilities spread between the first level of controls performed by the Investment teams and second level of controls performed by the Risk teams, that can verify the compliance with ESG objectives and constraints of a fund at all time.

This policy is incorporated within the framework of the remuneration policy of Amundi reviewed each year by its Remuneration Committee. The latter checked the application of the remuneration policy in relation to the 2020 fiscal year, its compliance with the AIFM/UCITS Directives' principles and approved the policy applicable for the 2021 exercise at its meeting held on February 2nd 2021.

In 2021, the implementation of the Amundi remuneration policy was subject to an internal, central and independent audit, driven by the Amundi Internal Audit.

1 Amounts of remuneration paid by the Management companies to its employees

During fiscal year 2021, the total amount of compensation (including fixed, deferred and non-deferred variable compensation) paid by Amundi Asset Management to its employees (1 400 employees at December 31st 2021) is EUR 168 546 202. This amount is split as follows:

- The total amount of fixed remuneration paid by Amundi Asset Management in 2021: EUR 111 175 491, which represents 66% of the total amount of compensation paid by Amundi Asset Management to its staff, were in the form of fixed remuneration.

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

- The total amount of variable compensation deferred and non-deferred paid by Amundi Asset Management in 2021: EUR 57 370 712, which represents 34% of the total amount of compensation paid by Amundi Asset Management to its staff, were in this form. The entire staff is eligible for variable compensation.

Additionally, some 'carried interest' was paid by Amundi AM with respect to fiscal year 2021, and is taken into account in the total amount of bonus referred to here above.

Of the total amount of remuneration (fixed and variable compensation deferred and non-deferred) paid during the fiscal year, EUR 20 947 570 were paid to the 'executives and senior managers' of Amundi Asset Management (29 employees at December 31st 2021), and EUR 14 896 957 were paid to the 'senior investment managers' whose professional activities have a material impact on Amundi Asset Management's risk profile (40 employees at December 31st 2021).

2 Alignment of remuneration policy and practices with risk profile of the AIFs/UCITS

The Amundi Group has adopted and implemented remuneration policy and practices compliant with the latest norms, rules, and guidelines issued from the regulatory authorities for its management companies (AIFM/UCITS).

The Amundi Group has also identified all of its 'Identified Staff', that include all the employees of the Amundi Group having a decision authority on the UCITS/AIFM management companies or the UCITS/AIFs managed and consequently likely to have a significant impact on the performance or the risk profile.

The variable remuneration awarded to the Amundi Group staff takes into account the performance of the employee, its business unit and the Amundi Group as a whole, and is based on financial and non-financial criteria as well as the respect of sound risk management rules.

The criteria taken into account for performance assessment and remuneration award depends on the nature of the employee's functions :

1. Management and selection of AIFs/UCITS functions

Common financial criteria:

- Gross and net performance over 1, 3 and 5 years ;
- Information ratio and Sharpe ratio over 1, 3 and 5 years ;
- Performance fees collected during fiscal year when relevant ;
- Competitive ranking ;
- Contribution to net inflows/Successful requests for proposals, mandates during fiscal year.

Common non-financial criteria:

- Compliance with risk, ESG policy, compliance and legal rules
- Innovation / Product development;
- Sharing of best practices and collaboration between employees ;
- Commercial engagement ;
- Quality of management.

2. Sales and marketing functions

Common financial criteria:

- Net inflows ;
- Revenues ;
- Gross inflows; client base development and retention; product mix;

Common non-financial criteria:

- Joint consideration of Amundi's and clients' interests ;
- Clients satisfaction and quality of relationship ;
- Quality of management ;
- Securing/developing the business ;
- Cross-functional approach and sharing of best practices ;
- Entrepreneurial spirit.

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

3. Control and support functions

For control and support functions, performance assessment and remuneration award are independent from the performance of the business they oversee.

Common criteria taken into account are:

- Mainly criteria related to the meeting of objectives linked to their functions (risk management, quality of controls, completion of projects, tools and systems improvement etc.)
- When financial criteria are used, these are mainly related to management/ optimization of expenses.

The above-mentioned performance criteria, and specifically those applicable to Identified staff in charge of the management of AIFs/UCITS, comply with the applicable regulation as well as to the AIF's/UCITS investment policy. These internal rules of Amundi Group contribute to a sound and effective risk management.

Furthermore, Amundi Group has adopted and implemented, for its entire staff, measures aiming to align remuneration with long-term performance and risks in order to avoid conflicts of interest.

In this respect, notably:

- The deferral policy has been adapted to comply with the AIFM and UCITS V Directives' requirements.
- The deferred portion of variable compensation for identified staff members is awarded at 100% in instruments indexed on the performance of a representative basket of AIFs and/or UCITS funds.
- The actual payment of the deferred portion is linked to the financial situation of Amundi Group, to the continued employment within the group and to a sound and effective risk management over the vesting period.

Fund Compliance with criteria relating to environmental, social, and governance quality (ESG) objectives and French Energy Transition for Green Growth Act (Article 173 of Act No. 2015-992)

- AMUNDI's ESG analysis generates ESG ratings for over 13,000 companies worldwide on a scale ranging from A (for issuers with the best ESG practices) to G (for the worst practices). This analysis is complemented by a policy of active commitment among issuers, in particular on major challenges regarding sustainable development within their sectors.
- AMUNDI uses a targeted exclusion policy based on global agreements such as the United Nations Global Compact and other conventions on human rights, the International Labour Organisation, and the environment. In all of its active management strategies, AMUNDI therefore excludes companies that are non-compliant with its ESG principles or international agreements and their transposition into national law:
 - anti-personnel mines,
 - cluster bombs,
 - chemical weapons,
 - biological weapons,
 - depleted uranium weapons.

These issuers receive a "G" rating on the AMUNDI scale.

In addition, AMUNDI implements specific sectoral exclusions targeting the coal and tobacco industries. These sectoral exclusions apply to all active management strategies that give AMUNDI full discretion over its portfolio management.

Coal

Since coal is the largest single contributor to climate change caused by human activity, in 2016 AMUNDI implemented a sectoral policy specific to thermal coal, resulting in the exclusion of certain companies and issuers. AMUNDI has progressively reinforced this coal exclusion policy every year since 2016. These commitments stem from the Crédit Agricole Group's climate strategy. In line with the UN's Sustainable Development Goals and the 2015 Paris Agreement, this strategy is based on the research and recommendations of a Scientific Committee, which takes into account the IEA's (International Energy Agency) energy scenarios, Climate Analytics, and Science-Based Targets. In 2020, as part of the update of its policy on the thermal coal sector, AMUNDI extended its coal mining exclusion policy, which now includes all companies developing or planning to develop new thermal coal mining capacity.

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

AMUNDI excludes:

- Companies developing or planning to develop new thermal coal capacity along the entire value chain (producers, extractors, power plants, transport infrastructure).
- Companies generating more than 25% of their income from thermal coal mining.
- Companies extracting 100 MT or more of thermal coal with no intention of reducing these quantities.
- All companies whose income from thermal coal mining and coal-fired power generation is over 50% of their total income before analysis, all coal-fired power generation and coal mining companies with a threshold between 25% and 50% and a deteriorated energy transition score.

Application in passive management:

• Passive ESG funds

All ETF and ESG index funds (with the exception of highly-concentrated indices) implement AMUNDI's policy of excluding the coal sector wherever possible.

• Passive non-ESG funds

- In passive management, it is a fiduciary duty to replicate an index as faithfully as possible.
- Limited flexibility is afforded to portfolio managers, which are required to meet contractual objectives to achieve passive management that is entirely in line with the requested benchmark index.
- Consequently, AMUNDI's index funds and ETFs that replicate standard (non-ESG) benchmark indices cannot systematically apply sectoral exclusions.
- At the same time, in the context of securities excluded from the "thermal coal policy" in AMUNDI's active investment universe but that may be present in non-ESG passive funds, AMUNDI has reinforced its voting and commitment activities, which may translate to a "nay" vote on the management of the companies in question.

Tobacco

Since 2018, AMUNDI has limited its ESG ratings for tobacco companies to "E", on a scale of A to G (with G-rated companies excluded), in order to take account of concerns, not just around public health, but also the human rights violations, poverty, environmental consequences, and considerable economic cost associated with tobacco, evaluated at over \$1,000 billion per year worldwide, according to World Health Organisation estimates:

- Exclusion rules: companies manufacturing finished tobacco products are excluded (application thresholds: income of over 5%).
- rules: Companies involved in the manufacture, supply, and distribution of tobacco are limited to an ESG rating of E (on a scale of A to G) (thresholds: income of over 10%).

In May 2020, AMUNDI became a signatory to the Tobacco-Free Finance Pledge, thereby reinforcing its tobacco exclusion policy.

- For further information on how environmental (in particular climate change-related), social, and corporate governance (ESG) issues are taken into account in its investment policy, AMUNDI provides investors with the "Application of Article 173" report, available at <https://legroupe.amundi.com> (Legal Documentation section).

SFDR and Taxonomy Regulations

Article 6

The fund does not promote sustainable investment in its portfolio management strategy.

The investments underlying this financial product do not incorporate European Union criteria for environmentally sustainable economic activities.

Auditor's Certification

**STATUTORY AUDITOR'S REPORT
ON THE FINANCIAL STATEMENTS
For the year ended 31 December 2021**

AMUNDI ETF STOXX EUROPE 50 UCITS ETF
UCITS CONSTITUTED AS A *FONDS COMMUN DE PLACEMENT*
Governed by the French Monetary and Financial Code (*Code monétaire et financier*)

Management company
AMUNDI ASSET MANAGEMENT
90, boulevard Pasteur
75015 PARIS

Opinion

In compliance with the assignment entrusted to us by the management company, we conducted an audit of the accompanying financial statements of AMUNDI ETF STOXX EUROPE 50 UCITS ETF a UCITS constituted as a *fonds commun de placement*, for the year ended 31 December 2021.

In our opinion, the financial statements give a true and fair view of the assets and liabilities and of the financial position of the fund at 31 December 2021 and of the results of its operations for the year then ended, in accordance with French accounting principles.

Basis of our opinion

Audit standards

We conducted our audit in accordance with professional standards applicable in France. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion. Our responsibilities under these standards are described in the section "*Statutory Auditor's responsibilities for the audit of the financial statements*" in this report.

Independence

We conducted our audit engagement in compliance with independence requirements of the French Commercial Code (*code de commerce*) and the French Code of Ethics (*code de déontologie*) for statutory auditors, from 01/01/2021 and up to the date of this report, and in particular we did not provide any prohibited non-audit services referred to in Article 5(1) of Regulation (EU) No. 537/2014.

AMUNDI ETF STOXX EUROPE 50 UCITS ETF

Justification of our assessments - Key audit matters

Due to the global crisis related to the Covid-19 pandemic, the financial statements of this period have been prepared and audited under specific conditions. Indeed, this crisis and the exceptional measures taken in the context of the state of sanitary emergency have had numerous consequences for Collective Investment Funds (*Organismes de Placements Collectifs*), their investments and the assessment of the corresponding assets and liabilities. Those measures, such as travel restrictions and remote working, have also had an impact on the Collective Investment Funds' operational monitoring and the performance of the audits.

It is in this complex and evolving context that, in accordance with the requirements of articles L.823-9 and R.823-7 of the French Commercial Code relating to the justification of our assessments, we bring to your attention the key matters as regards to the risk of material misstatement that, in our professional judgement, were the most significant for the audit of the financial statements, as well as how we addressed those risks.

These assessments were made as part of our audit of the financial statements, taken as a whole, and therefore contributed to the opinion we formed which is expressed above. We do not provide an opinion on individual items in the financial statements.

Key audit matters	Audit response to cover these risks
<p>The main risks of the fund relate to the financial instruments in its portfolio.</p> <p>Any error in recording or valuing these financial instruments could lead to a misstatement in the calculation of the fund's net asset value and in the financial statements.</p> <p>We therefore focused our work on the existence and valuation of the financial instruments in the portfolio.</p> <p>Valuation of financial instruments traded on a regulated or equivalent market</p> <p>Valuation of the fund's financial instruments traded on a regulated or equivalent market is not complex as it is based primarily on listed prices provided by independent sources.</p> <p>However, the related amounts are significant and could lead to a material misstatement.</p> <p>The value of the financial instruments traded on a regulated or equivalent market is recorded in the balance sheet and presented in the detailed portfolio provided in the notes to the financial statements. The valuation rules for these financial instruments are disclosed in the "Significant accounting policies" note to the financial statements.</p>	<p>We compared the year-end valuation of the fund's financial instruments traded on a regulated or equivalent market with observable prices obtained from market databases.</p>

PricewaterhouseCoopers Audit, 63, rue de Villiers 92208 Neuilly-sur-Seine Cedex, France
T: +33 (0) 1 56 57 58 59, F: +33 (0) 1 56 57 58 60, w www.pwc.fr

AMUNDI ETF STOXX EUROPE 50 UCITS ETF

Key audit matters	Audit response to cover these risks
<p>Valuation of financial contracts traded over the counter</p> <p>As part of its investment strategy, the fund uses over-the-counter swaps. The valuation of these swaps is not observable on a regulated or equivalent market. The valuation of over-the-counter swaps is therefore a key audit matter.</p> <p>The value of the swap is recorded under the line item "financial contracts" in the balance sheet and presented in the detailed portfolio provided in the notes to the financial statements. The commitment related to the swap is presented in the off-balance sheet statement. The valuation rules for these financial instruments are disclosed in the "Significant accounting policies" note to the financial statements.</p>	<p>We verified that the swap's valuation as recorded at year-end agreed to the value communicated by the counterparty to the swap.</p> <p>We gained an understanding of the internal control procedure performed by the management company over swaps valuation. We verified that this procedure had been applied at year-end.</p>
<p>Existence of financial instruments</p> <p>The portfolio's financial instruments are held in custody or maintained by the fund's depository. The depository certifies the existence of financial instruments at year-end.</p> <p>There is nonetheless a risk that these financial instruments could be inaccurately or only partially recorded in the fund's accounting.</p> <p>The existence of these financial instruments is a key audit matter as the related amounts are material and could lead to a material misstatement.</p>	<p>We verified the existence of the portfolio's financial instruments by reviewing the fund's reconciliation between the fund's financial instruments held at year-end and those identified by the depository in an account opened in the fund's name. Any material differences were examined, if applicable using trade tickets or contracts.</p>

Specific verifications

We have also performed, in accordance with professional standards applicable in France, the specific verifications required by laws and regulations.

We have no matters to report as to the fair presentation and the consistency with the financial statements of the information given in the management report prepared by the management company.

*PricewaterhouseCoopers Audit, 63, rue de Villiers 92208 Neuilly-sur-Seine Cedex, France

AMUNDI ETF STOXX EUROPE 50 UCITS ETF

Disclosures arising from other legal and regulatory requirements

Appointment of the Statutory Auditors

We were appointed as Statutory Auditor of AMUNDI ETF STOXX EUROPE 50 UCITS ETF a UCITS constituted as a *fonds commun de placement*, by the management company on 6 August 2009.

At 31 December 2021, our firm was in the thirteenth consecutive year of its engagement, i.e. the thirteenth year following the admission of the fund's securities for trading on a regulated market.

Responsibilities of the management company for the financial statements

It is the management company's responsibility to prepare the fund's financial statements presenting a true and fair view in accordance with French accounting principles and to implement the internal control that it deems appropriate for the preparation of financial statements that do not contain material misstatements, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the fund's ability to continue as a going concern, disclosing in the financial statements, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the fund or to cease operations.

It is the management company's responsibility to monitor the preparation of financial information and oversee the efficiency of the internal control and risk management system and the internal audit system relating to the preparation and processing of financial and accounting information.

These financial statements have been prepared by the management company.

Statutory Auditor's responsibilities for the audit of the financial statements

Audit purpose and approach

It is our responsibility to prepare a report on the financial statements. Our objective is to obtain reasonable assurance about whether the financial statements, taken as a whole, are free of material misstatement. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with professional standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As indicated in article L.823-10-1 of the French Commercial Code, our statutory audit of the financial statements is not to guarantee the viability or the quality of your management.

*PricewaterhouseCoopers Audit, 63, rue de Villiers 92208 Neuilly-sur-Seine Cedex, France
T: +33 (0) 1 56 57 58 59, F: +33 (0) 1 56 57 58 60, w www.pwc.fr*

AMUNDI ETF STOXX EUROPE 50 UCITS ETF

As part of an audit conducted in accordance with professional standards applicable in France, the Statutory Auditor uses professional judgement throughout the entire audit.

He also:

- identifies and assesses the risks of material misstatement of the financial statements, whether due to fraud or error, designs and performs audit procedures responsive to those risks, and obtains audit evidence that is sufficient and appropriate to provide a basis for his opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtains an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the company's internal control;
- evaluates the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management in the financial statements;
- concludes on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the fund's ability to continue as a going concern. Such conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the company to cease to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are not provided or inadequate, to issue a qualified opinion or a disclaimer of opinion;
- evaluates the overall presentation of the financial statements and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

Notes to the annual accounts

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

1. Accounting rules and methods

The annual financial statements are presented in the format laid down by ANC (French accounting standards authority) Regulation 2014-01, as amended.

The following general accounting principles apply:

- the financial statements shall provide a true and fair view of the current financial position, they shall allow comparability, and observe the going concern principle,
- they shall be produced with consistency and honesty,
- they shall observe the principle of prudence, and
- there shall be consistency in accounting methods from one year to the next.

The accounting method used to record income from fixed income securities is the effective interest method.

Purchases and sales of securities are recognised excluding fees.

The portfolio's accounting currency is the euro.

The length of the financial year is 12 months.

Information on the impact of the COVID-19 crisis

The asset manager has prepared the financial statements on the basis of the information available during the continuously changing circumstances presented by the COVID-19 crisis.

Asset valuation rules

Financial instruments are recognised using the historical cost method and recorded on the balance sheet at their present value, which is determined by taking the last known market value or, where no market exists, by any external means or using financial models.

Differences between the present values used to calculate net asset value and the historical cost of securities at the time they are added to the portfolio are recorded under "valuation differentials".

Any securities not denominated in the portfolio's accounting currency are measured in accordance with the principle described below, then translated into the portfolio's accounting currency at the exchange rate prevailing at the valuation date.

Deposits:

Deposits with a remaining term of three months or less are measured using the straight-line method.

Equities, bonds and other securities traded on a regulated or similar market:

To determine net asset value, equities and other securities traded on a regulated or similar market are measured on the basis of the last closing price.

Bonds and similar securities are valued at the closing price communicated by various financial service providers. Accrued interest on bonds and related securities is calculated up to and including the NAV date.

Equities, bonds and other securities not traded on a regulated or similar market:

Securities not traded in a regulated market are valued by the Fund Manager using methods based on net equity and yield, taking into account the prices retained in significant recent transactions.

Negotiable debt securities:

Negotiable debt securities and similar securities not subject to material transactions are assessed using an actuarial method, based on a benchmark interest rate as defined below, and adjusted upward when necessary to take account of the intrinsic features of the issuer:

- Negotiable Debt Securities with a maturity of up to 1 year: Interbank rate in euros (Euribor);

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

- Negotiable Debt Securities with a maturity of more than 1 year: The rate on coupon-bearing French government bonds (BTAN) and French OAT bonds with a similar maturity for longer periods.

Negotiable Debt Securities with a residual maturity of up to three months may be assessed using the straight-line method.

Treasury bills are valued at the market rate communicated daily by Banque de France or Treasury bond specialists.

Mutual funds:

Fund units or shares are valued at their last known net asset value.

Securities financing transactions:

Securities received under repurchase agreements are recorded as assets under "Receivables on securities received under a repurchase agreement" at the contract amount plus any accrued interest receivable.

Securities sold under repurchase agreements are booked to the buyer's portfolio at their current value. Liabilities on securities sold under repurchase agreements are booked to the seller's portfolio at the value specified in the contract, plus accrued interest payable.

Loaned securities are valued at their current value and recorded on the asset side of the balance sheet under the heading "Receivables representing loaned securities" at current value plus accrued interest receivable.

Borrowed securities are booked to assets under "Borrowed securities" at the amount provided for in the agreement, and to liabilities under "Payables representing borrowed securities" at the amount provided for in the agreement, plus accrued interest payable.

Forward financial instruments :

Forward financial instruments traded on a regulated or similar market:

Forward financial instruments traded on regulated markets are measured at the clearing price for the day.

Forward financial instruments not traded on a regulated or similar market:

Swaps:

Interest rate and/or currency swaps are marked to market based on the price determined by discounting future cash flows at market interest rates and/or exchange rates. This price is adjusted for issuer risk.

Index swaps are assessed using an actuarial method based on a benchmark rate provided by the counterparty.

The portfolio performance swap is valued using the prices calculated by the counterparty and validated by the management company using mathematical models.

Other swaps are marked to market or measured at a value estimated according to the terms established by the asset manager.

Off-balance sheet commitments:

Forward contracts are marked to market as off-balance sheet liabilities at the price used in the portfolio.

Options are converted into their underlying equivalent.

Swap commitments are reported at their par value or, where no par value is available, at an equivalent amount.

Management fees

Management and operating fees cover all of the fees relating to the Fund: financial management, administrative, accounting, custody, distribution, and auditing fees.

These fees are charged to the Fund's income statement.

Management fees do not include transaction fees. For more details about the fees charged to the Fund, please refer to the Fund Rules.

UCIT AMUNDI ETF STOXX EUROPE 50 UCITS ETF

They are recorded on a pro rata basis each time the NAV is calculated.

The total amount of these fees complies with the maximum fee rate based on net assets, as indicated in the Fund Rules:

FR0010790980 - AMUNDI ETF STOXX EUROPE 50 UCITS ETF: Maximum fee rate 0.15% incl. tax.

Allocation of distributable amounts

Definition of distributable sums

Distributable sums consist of:

Income:

Net income is equal to the amount of interest, arrears, premiums and bonuses, dividends, directors' attendance fees and all other income from the securities comprising the portfolio, plus income from temporary cash holdings, minus management fees and borrowing costs.

To it is added retained earnings, plus or minus the balance of the income adjustment account.

Capital gains and losses:

Realised capital gains, net of costs, less realised capital losses, net of costs, recorded during the financial year, plus net capital gains of the same nature recorded in previous financial years that were not distributed or capitalised, plus or minus the balance of the capital gains adjustment account.

Methods for allocating distributable amounts:

<i>Unit(s)</i>	<i>Allocation of net income</i>	<i>Allocation of net capital gains or losses realized</i>
AMUNDI ETF STOXX EUROPE 50 UCITS ETF Units	Capitalization, and/or Distribution, and/or Carry-over by decision of the management company	Capitalization, and/or Distribution, and/or Carry-over by decision of the management company
