Investment Manager's Reports

Taxonomy Article 7 Requirement (applicable to all sub-funds except the Global Sustainability Core Equity Fund, Global Sustainability Fixed Income Fund, Global Sustainability Short Fixed Income Fund, Global Sustainability Targeted Value Fund, Emerging Markets Sustainability Core Equity Fund and World Sustainability Equity Fund):

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

SFDR Article 7 Requirement for Transparency of Adverse Sustainability Impacts (applicable to all sub-funds except the Global Sustainability Core Equity Fund, Global Sustainability Fixed Income Fund, Global Sustainability Short Fixed Income Fund, Global Sustainability Targeted Value Fund, Emerging Markets Sustainability Core Equity Fund and World Sustainability Equity Fund):

The Funds considered how exposure to controversial weapons (e.g. anti-personnel mines, cluster munitions, chemical weapons, and biological weapons) impacted sustainability factors. The Investment Manager made this consideration when making investment decision for a Fund by seeking to exclude securities of companies that are involved in the production of controversial weapons. The Funds did not promote environmental or social characteristics (or combination thereof) and did not have sustainable investment as their investment objective.

Information on principal adverse impacts on sustainability factors for the Global Sustainability Core Equity Fund, Global Sustainability Fixed Income Fund, Global Sustainability Short Fixed Income Fund, Global Sustainability Targeted Value Fund, Emerging Markets Sustainability Core Equity Fund and World Sustainability Equity Fund are disclosed in the annex to the annual report on pages 874 to 915.

Information on the environmental or social characteristics of the Global Sustainability Core Equity Fund, Global Sustainability Fixed Income Fund, Global Sustainability Short Fixed Income Fund, Global Sustainability Targeted Value Fund, Emerging Markets Sustainability Core Equity Fund and World Sustainability Equity Fund are disclosed in the annex to the annual report on pages 874 to 915.

Investment Manager's Reports (continued)

Emerging Markets Large Cap Core Equity Fund

The Emerging Markets Large Cap Core Equity Fund (the "Fund") invests in large cap companies with increased exposure to companies with smaller relative market capitalisations, lower relative prices, and higher profitability across emerging markets. As of 30 November 2023, the Fund had holdings in approximately 1,300 companies. This reflects our approach of seeking to deliver highly diversified exposure to emerging markets large cap companies.

Over the 12-month period ending 30 November 2023, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 5.15%. This compares to a total return of 4.21% for the MSCI Emerging Markets Index (the "Index"). With low relative price (value) stocks outperforming high relative price (growth) stocks, the Fund's emphasis on value stocks contributed positively to performance relative to the Index. The Fund's emphasis on high profitability stocks also contributed positively to relative performance, as these stocks outperformed. The Index has been included for market context purposes only.

Emerging Markets Sustainability Core Equity Fund

The Emerging Markets Sustainability Core Equity Fund (the "Fund") invests in companies with increased exposure to companies with smaller market capitalisations, lower relative prices, and higher profitability across emerging markets, while also adjusting the composition of the Fund based on environmental and sustainability impact considerations. As of 30 November 2023, the Fund had holdings in approximately 3,900 companies. This reflects our approach of seeking to deliver highly diversified exposure to emerging markets companies.

Over the 12-month period ending 30 November 2023, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 7.66%. This compares to a total return of 4.21% for the MSCI Emerging Markets Index (the "Index"). The Fund's emphasis on small cap stocks contributed positively to performance relative to the index, as small cap stocks outperformed large cap stocks. With low relative price (value) stocks outperforming high relative price (growth) stocks, the Fund's emphasis on value stocks also contributed positively to performance relative to the Index. Conversely, the Fund's sustainability considerations detracted from performance relative to the Index. The portfolio's underweight to energy stocks detracted from relative performance, as those stocks outperformed. The Index has been included for market context purposes only.

Emerging Markets Value Fund

The Emerging Markets Value Fund (the "Fund") invests in low relative price (value) companies across emerging markets. As of 30 November 2023, the Fund had holdings in approximately 3,210 companies. This reflects our approach of seeking to deliver highly diversified exposure to emerging markets value companies.

Over the 12-month period ending 30 November 2023, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 7.71%. This compares to a total return of 6.74% for the MSCI Emerging Markets Value Index (the "Index"). With low relative price (value) stocks outperforming high relative price (growth) stocks, the Fund's greater emphasis on value stocks contributed positively to performance relative to the Index. The Index has been included for market context purposes only.

Euro Inflation Linked Intermediate Duration Fixed Income Fund

The Euro Inflation Linked Intermediate Duration Fixed Income Fund (the "Fund") invests in EUR inflation linked issues of Eurozone governments with maturities between three and 20 years. As of 30 November 2023, the Fund's (EUR) average real yield to maturity was 0.72%.

Over the 12-month period ending 30 November 2023, the total return of the Fund in euro (the base currency of the Fund) was -2.06%. This compares to a return of -1.71% for the blended Index composed of 50% Bloomberg France Government EMU HICP Linked 5-15 Year Bond Index and 50% Bloomberg Germany Government Inflation Linked 5-15 Year Index (the "Index").

Realised real term premiums were broadly negative for both German and French inflation-linked bonds, as longer-term inflation-linked bonds underperformed their shorter-term counterparts. German inflation-linked bonds generally outperformed their duration-matched French counterparts. As a result, the Fund's underweight to German inflation-linked bonds and overweight to French inflation-linked bonds with intermediate-term maturities detracted from relative performance. The Index has been included for market context purposes only.

European Small Companies Fund

The European Small Companies Fund (the "Fund") invests in small cap companies across Europe. As of 30 November 2023, the Fund had holdings in approximately 1,360 companies. This reflects our approach of seeking to deliver highly diversified exposure to European small cap companies.

Over the 12-month period ending 30 November 2023, the total return of the Fund in euro (the base currency of the Fund) was 4.59%. This compares to a return of 2.73% for the MSCI Europe Small Cap Index (the "Index"). The Fund's focus on small cap stocks contributed positively to performance relative to the index, as larger small caps held by the index underperformed. The Fund's exclusion of stocks with the lowest profitability and highest relative price also contributed positively to relative performance, as those stocks underperformed. The Index has been included for market context purposes only.

European Value Fund

The European Value Fund (the "Fund") invests in large cap low relative price (value) companies across Europe. As of 30 November 2023, the Fund had holdings in approximately 200 companies. This reflects our approach of seeking to deliver highly diversified exposure to European large cap value companies.

Over the 12-month period ending 30 November 2023, the total return of the Fund in euro (the base currency of the Fund) was 8.06%. This compares to a return of 8.82% for the MSCI Europe Value Index (the "Index"). The Fund's emphasis on stocks with higher profitability detracted from performance relative to the index, as stocks with lower profitability outperformed. The Index has been included for market context purposes only.

Global Core Equity Fund

The Global Core Equity Fund (the "Fund") invests in companies with increased exposure to companies with smaller market capitalisations, lower relative prices, and higher profitability across developed markets. As of 30 November 2023, the Fund had holdings in

Investment Manager's Reports (continued)

Global Core Equity Fund (continued)

approximately 8,310 companies. This reflects our approach of seeking to deliver highly diversified exposure to developed markets companies.

Over the 12-month period ending 30 November 2023, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 7.52%. This compares to a total return of 12.98% for the MSCI World Index (the "Index"). The Fund's emphasis on small cap stocks detracted from performance relative to the index, as small cap stocks underperformed large cap stocks. With low relative price (value) stocks underperforming high relative price (growth) stocks, the Fund's emphasis on value stocks also detracted from relative performance. Additionally, the Fund's emphasis on high profitability stocks, particularly within growth stocks, detracted from relative performance, as low profitability growth stocks outperformed. The Index has been included for market context purposes only.

Global Core Fixed Income Fund

The Global Core Fixed Income Fund (the "Fund") invests in fixed income instruments within the investment grade spectrum and may also invest in fixed income instruments rated BB+ through BB-. As of 30 November 2023, the Fund was diversified across issuers from 21 countries, as well as supranational organisations, and invested in 8 currencies. The weighted average duration of the Fund was 6.77 years, and the Fund had an (GBP) average yield to maturity of 5.34%.

Over the 12-month period ending 30 November 2023, the total return of the Fund in British pounds (the base currency of the Fund) was 3.30%. This compares to a return of 1.65% for the Bloomberg Global Aggregate Bond Index (hedged to GBP) (the "Index").

During the period, eligible global developed yield curves were generally flat to inverted in the short-to intermediate-term maturity segment, indicating smaller expected term premiums. As such, the Fund increased its allocation to short-term bonds and had a weighted average duration that was shorter than the Index over the full period. Realised term premiums were negative across global developed markets for the period, as longer-term bonds generally underperformed their shorter-term counterparts. As a result, the Fund's shorter duration, with an underweight to bonds with maturities longer than 20-years, and an allocation to bonds with maturities shorter than one-year, contributed positively to relative performance.

Credit spreads were relatively wide during the period, indicating larger expected credit premiums. As such, the Fund invested in corporate bonds rated single-A and BBB and was overweight these securities relative to the Index. Realised credit premiums were positive across global developed markets for the period, as corporate bonds generally outperformed their government counterparts. As a result, the Fund's overweight to corporate bonds rated single-A and BBB, and underweight to government bonds, contributed positively to relative performance. The Fund's underweight to securitized bonds also contributed positively to relative performance as these bonds underperformed corporate and government bonds during the period. The Index has been included for market context purposes only.

Global Short Fixed Income Fund

The Global Short Fixed Income Fund (the "Fund") invests in high-quality fixed income instruments with maturities at or below five years. As of 30 November 2023, the Fund was diversified across issuers from 18 countries, as well as supranational organisations, and invested in 11 currencies. The Fund's (EUR) average yield to maturity was 4.05%.

Over the 12-month period ending 30 November 2023, the total return of the Fund in euro (the base currency of the Fund) was 2.14%. This compares to a return of 1.22% for the FTSE World Government Bond Index 1-5 Years (hedged to EUR) (the "Index").

During the period, eligible global developed yield curves were generally flat to inverted within the Fund's eligible universe, indicating smaller expected term premiums. As such, the Fund's weighted average duration was shortened from 1.90 years at the beginning of the period to 0.40 year at the end of the period. As of the end of November, the Index's weighted average duration was 2.69 years. Realised term premiums were negative across global developed markets for the period, as longer-term bonds generally underperformed their shorter-term counterparts. As a result, the Fund's allocation to bonds denominated in the Australian dollar, British pound, Canadian dollar, euro, Swedish krona, and US dollar with maturities shorter than one-year, and underweight to longer-term bonds, contributed positively to relative performance. The Index has been included for market context purposes only.

Global Short-Term Investment Grade Fixed Income Fund

The Global Short-Term Investment Grade Fixed Income Fund (the "Fund") invests in fixed income instruments within the investment grade spectrum with maturities at or below five years. As of 30 November 2023, the Fund was diversified across issuers from 22 countries, as well as supranational organisations, and invested in 10 currencies. The Fund's (USD) average yield to maturity was 5.79%.

Over the 12-month period ending 30 November 2023, the total return of the Fund in U.S. dollars (the base currency of the Fund) 4.70%. This compares to a return of 4.85% for the Bloomberg Global Aggregate Credit 1-5 Years (hedged to USD) (the "Index").

During the period, eligible global developed yield curves were generally flat to inverted within the Fund's eligible universe, indicating smaller expected term premiums. As such, the Fund's weighted average duration was shortened from 2.58 years at the beginning of the period to 1.24 years at the end of the period. As of the end of November, the Index's weighted average duration was 2.63 years. Realised term premiums were generally negative across global developed markets for the period, as longer-term bonds underperformed their shorter-term counterparts. As a result, the Fund's underweight to longer-term government bonds denominated in the US dollar contributed positively to relative performance. However, the Fund's underweight to longer-maturity corporate bonds denominated in the euro detracted from relative performance as these bonds were some of the best performers.

Credit spreads were relatively wide during the period, indicating larger expected credit premiums. As such, the Fund invested in corporate bonds rated single-A and BBB during the period. Realised credit premiums were positive across global developed markets for the

Investment Manager's Reports (continued)

Global Short-Term Investment Grade Fixed Income Fund (continued)

period, as corporate bonds generally outperformed their government counterparts. However, this had a negligible impact on relative performance. The Index has been included for market context purposes only.

Global Small Companies Fund

The Global Small Companies Fund (the "Fund") invests in small cap companies across developed markets. As of 30 November 2023, the Fund had holdings in approximately 6,730 companies. This reflects our approach of seeking to deliver highly diversified exposure to small cap companies in developed markets.

Over the 12-month period ending 30 November 2023, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 1.26%. This compares to a return of 1.98% for the MSCI World Small Cap Index (the "Index"). The Fund's exclusion of stocks with the lowest profitability and highest relative price contributed positively to performance relative to the index, as those stocks underperformed. Despite this, valuation timing differences detracted from relative performance. The Index has been included for market context purposes only.

Global Sustainability Core Equity Fund

The Global Sustainability Core Equity Fund (the "Fund") invests in companies with increased exposure to companies with smaller market capitalisations, lower relative prices, and higher profitability across developed markets, while also adjusting the composition of the Fund based on environmental and sustainability impact considerations. As of 30 November 2023, the Fund had holdings in approximately 6,370 companies. This reflects our approach of seeking to deliver highly diversified exposure to developed markets companies.

Over the 12-month period ending 30 November 2023, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 9.29%. This compares to a total return of 12.98% for the MSCI World Index (the "Index"). The Fund's emphasis on small cap stocks detracted from performance relative to the index, as small cap stocks underperformed large cap stocks. With low relative price (value) stocks underperforming high relative price (growth) stocks, the Fund's emphasis on value stocks also detracted from relative performance. Additionally, the Fund's emphasis on high profitability stocks, particularly within growth stocks, detracted from relative performance, as low profitability growth stocks outperformed. Conversely, the Fund's sustainability considerations contributed positively to performance relative to the Index. The portfolio's underweight to energy stocks contributed positively to relative performance, as those stocks underperformed. The Index has been included for market context purposes only.

Global Sustainability Fixed Income Fund

The Global Sustainability Fixed Income Fund (the "Fund") invests in fixed income instruments within the investment grade spectrum with maturities at or below 20 years. As of 30 November 2023, the Fund was diversified across issuers from 20 countries, as well as supranational organisations, and invested in 9 currencies. The weighted average duration of the Fund was 6.74 years, and the Fund had an (GBP) average yield to maturity of 5.29%.

Over the 12-month period ending 30 November 2023, the total return of the Fund in British pounds (the base currency of the Fund) was 3.25%. This compares to a return of 1.65% for the Bloomberg Global Aggregate Bond Index (hedged to GBP) (the "Index").

During the period, eligible global developed yield curves were generally flat to inverted in the short-to intermediate-term maturity segment, indicating smaller expected term premiums. As such, the Fund increased its allocation to short-term bonds and had a weighted average duration that was shorter than the Index over the full period. Realised term premiums were negative across global developed markets for the period, as longer-term bonds generally underperformed their shorter-term counterparts. As a result, the Fund's shorter duration, with an underweight to bonds with maturities longer than 20-years, and an allocation to bonds with maturities shorter than one-year, contributed positively to relative performance.

Credit spreads were relatively wide during the period, indicating larger expected credit premiums. As such, the Fund invested in corporate bonds rated single-A and BBB and was overweight these securities relative to the Index. Realised credit premiums were positive across global developed markets for the period, as corporate bonds generally outperformed their government counterparts. As a result, the Fund's overweight to corporate bonds rated single-A and BBB, and underweight to government bonds, contributed positively to relative performance. The Fund's underweight to securitized bonds also contributed positively to relative performance as these bonds underperformed corporate and government bonds during the period. The Index has been included for market context purposes only.

Global Sustainability Short Fixed Income Fund

The Global Sustainability Short Fixed Income Fund (the "Fund") invests in high-quality fixed income instruments with maturities at or below five years. As of 30 November 2023, the Fund was diversified across issuers from 21 countries, as well as supranational organisations, and invested in 10 currencies. The Fund's (GBP) average yield to maturity was 5.23%.

Over the 12-month period ending 30 November 2023, the total return of the Fund in British pounds (the base currency of the Fund) was 3.94%. This compares to a return of 3.52% for the Bloomberg Global Aggregate Bond Index 1-5 Years (hedged to GBP) (the "Index").

During the period, eligible global developed yield curves were generally flat to inverted within the Fund's eligible universe, indicating smaller expected term premiums. As such, the Fund's weighted average duration was shortened from 2.89 years at the beginning of the period to 2.04 years at the end of the period. As of the end of November, the Index's weighted average duration was 2.70 years. Realised term premiums were negative across global developed markets for the period, as longer-term bonds generally underperformed their shorter-term counterparts. As a result, the Fund's allocation to bonds with maturities shorter than one-year and underweight to bonds denominated in the US dollar in the four- to five-year maturity range, contributed positively to relative performance.

Credit spreads were relatively wide during the period, indicating larger expected credit premiums. As such, the Fund invested in corporate bonds rated single-A and BBB and was overweight these securities relative to the Index. Realised credit premiums were positive across global developed markets for the period, as corporate bonds generally

Investment Manager's Reports (continued)

Global Sustainability Short Fixed Income Fund (continued)

outperformed their government counterparts. As a result, the Fund's overweight to corporate bonds, and underweight to government bonds, also contributed positively to relative performance. The Index has been included for market context purposes only.

Global Sustainability Targeted Value Fund*

The Global Sustainability Targeted Value Fund (the "Fund") invests in small and mid cap low relative price (value) companies across developed markets, while also adjusting the composition of the Fund based on environmental and sustainability impact considerations. As of 30 November 2023, the Fund had holdings in approximately 1,430 companies. This reflects our approach of seeking to deliver highly diversified exposure to small and mid cap developed markets value companies.

Since inception on 7 November 2023 through 30 November 2023, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 5.70%. This compares to a total return of 5.02% for the MSCI SMID Value Index (the "Index"). Due to the short period since inception, we are not able to meaningfully describe performance differences between the Fund and Index.

Global Targeted Value Fund

The Global Targeted Value Fund (the "Fund") invests in small and mid cap low relative price (value) companies across developed markets. As of 30 November 2023, the Fund had holdings in approximately 4,320 companies. This reflects our approach of seeking to deliver highly diversified exposure to small and mid cap developed markets value companies.

Over the 12-month period ending 30 November 2023, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 2.20%. This compares to a total return of 1.44% for the MSCI World SMID Value Index (the "Index"). The Fund's greater emphasis on value stocks contributed positively to relative performance, as deeper value stocks outperformed. The Fund's exclusion of real estate investment trusts (REITs) and highly regulated utilities (HRUs) also contributed positively to relative performance, as REITs and HRUs underperformed. The Index has been included for market context purposes only.

Global Ultra Short Fixed Income Fund

The Global Ultra Short Fixed Income Fund (the "Fund") invests in fixed income instruments within the investment grade spectrum with maturities up to two years. As of 30 November 2023, the Fund was diversified across issuers from 21 countries, as well as supranational organisations, and invested in 8 currencies. The Fund's (GBP) average yield to maturity was 5.67%.

Over the 12-month period ending 30 November 2023, the total return of the Fund in British pounds (the base currency of the Fund) was 4.35%. This compares to a return of 4.52% for the ICE BofA British Pound 1-Month Deposit Offered Rate Constant Maturity Index (the "Index").

During the period, eligible global developed yield curves were generally flat to inverted within the Fund's eligible universe, indicating smaller expected term premiums. As such, the Fund's weighted average duration was shortened from 0.86 year at the beginning of the

period to 0.42 year at the end of the period. As of the end of November, the Index's weighted average duration was 0.08 year. Realised term premiums were negative across global developed markets for the period, as longer-term securities generally underperformed their shorter-term counterparts. As a result, the Fund's inclusion of securities with maturities longer than the one-month Index was the primary detractor from relative performance. Realised credit premiums were positive across global developed markets, as corporate securities generally outperformed their government counterparts. As a result, the Fund's inclusion of corporate securities contributed positively to relative performance. The Index has been included for market context purposes only.

Global Value Fund

The Global Value Fund (the "Fund") invests in large cap low relative price (value) companies across developed markets. As of 30 November 2023, the Fund had holdings in approximately 770 companies. This reflects our approach of seeking to deliver highly diversified exposure to large cap value companies in developed markets.

Over the 12-month period ending 30 November 2023, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 5.03%. This compares to a return of 3.21% for the MSCI World Value Index (the "Index"). The Fund's greater emphasis on value stocks contributed positively to relative performance, as deeper value stocks outperformed. The Fund's exclusion of real estate investment trusts (REITs) and highly regulated utilities (HRUs) also contributed positively to relative performance, as REITs and HRUs underperformed. The Index has been included for market context purposes only.

Pacific Basin Small Companies Fund

The Pacific Basin Small Companies Fund (the "Fund") invests in small cap companies across Pacific Basin markets. As of 30 November 2023, the Fund had holdings in approximately 3,260 companies. This reflects our approach of seeking to deliver highly diversified exposure to Pacific Basin small cap companies.

Over the 12-month period ending 30 November 2023, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 7.57%. This compares to a total return of 5.79% for the MSCI Pacific Small Cap Index (the "Index"). The Fund's inclusion of Taiwan and Korea contributed positively to performance relative to the Index, as these markets outperformed. The Fund's exclusion of stocks with the lowest profitability and highest relative price also contributed positively to performance relative to the Index, as those stocks underperformed. Additionally, the Fund's exclusion of real estate investment trusts (REITs) contributed positively to relative performance, as REITs underperformed. The Index has been included for market context purposes only.

Sterling Inflation Linked Intermediate Duration Fixed Income Fund

The Sterling Inflation Linked Intermediate Fund (the "Fund") invests in sterling inflation linked issues of the U.K. government with maturities between three and 20 years. As of 30 November 2023, the Fund's (GBP) average real yield to maturity was 0.83%.

Investment Manager's Reports (continued)

Sterling Inflation Linked Intermediate Duration Fixed Income Fund (continued)

Over the 12-month period ending 30 November 2023, the total return of the Fund in British pounds (the base currency of the Fund) was -1.18%. This compares to the return of -1.69% for the Bloomberg UK Government Inflation Linked 5-15 Year Bond Index (the "Index").

Realised real term premiums were broadly negative for British pound inflation-linked bonds as longer-term inflation-linked bonds underperformed their shorter-term counterparts. As a result, the Fund's inclusion of inflation-linked bonds with maturities shorter than five years contributed positively to performance relative to the 5- to 15-year Index. The Index has been included for market context purposes only.

U.S. Core Equity Fund

The U.S. Core Equity Fund (the "Fund") invests in U.S. companies with increased exposure to companies with smaller market capitalisations, lower relative prices, and higher profitability. As of 30 November 2023, the Fund had holdings in approximately 2,010 companies. This reflects our approach of seeking to deliver highly diversified exposure to U.S. companies.

Over the 12-month period ending 30 November 2023, the total return of the Fund in U.S. dollars (the base currency of the Fund) was 7.10%. This compares to a total return of 12.07% for the Russell 3000 Index (the "Index"). The Fund's emphasis on small cap stocks detracted from performance relative to the Index, as small cap stocks underperformed large cap stocks. With low relative price (value) stocks underperforming high relative price (growth) stocks, the Fund's emphasis on value stocks also detracted from relative performance. Additionally, the Fund's emphasis on high profitability stocks, particularly within growth stocks, detracted from relative performance, as low profitability growth stocks outperformed. The Index has been included for market context purposes only.

U.S. Small Companies Fund

The U.S. Small Companies Fund (the "Fund") invests in U.S. small companies. As of 30 November 2023, the Fund had holdings in approximately 1,910 companies. This reflects our approach of seeking to deliver highly diversified exposure to U.S. small companies.

Over the 12-month period ending 30 November 2023, the total return of the Fund in U.S. dollars (the base currency of the Fund) was -0.73%. This compares to a total return of -3.00% for the Russell 2000 Index (the "Index"). The Fund's exclusion of stocks with the lowest profitability and highest relative price contributed positively to performance relative to the Index, as those stocks underperformed. The Fund's exclusion of real estate investment trusts (REITs) also contributed positively to relative performance, as REITs underperformed. The Index has been included for market context purposes only.

World Allocation 20/80 Fund

The World Allocation 20/80 Fund (the "Fund") invests in equity securities of companies across developed and emerging markets and fixed income securities of issuers in developed markets. The equity component of the Fund will generally have increased exposure to companies with smaller market capitalisations, lower relative prices, and higher profitability. The fixed income component generally invests

in high quality fixed income issues with maturities at or below five years. The aggregate exposure to equity and fixed income securities is approximately 20% and 80%, respectively.

As of 30 November 2023, the equity component of the Fund had holdings in approximately 14,030 companies. This reflects our approach of seeking to deliver highly diversified holdings in developed and emerging markets companies.

Over the 12-month period ending 30 November 2023, the total return of the World Allocation 20/80 Fund in British pounds (the base currency of the Fund) was 3.53%. This compares to a return of 3.28% for the 20% MSCI All Country World Index / 80% FTSE World Government Bond Index 1-5 Years (the "Index"). The Fund's emphasis on small cap stocks detracted from performance relative to the Index, as small cap stocks underperformed large cap stocks. With low relative price (value) stocks underperforming high relative price (growth) stocks, the Fund's emphasis on value stocks also detracted from relative performance. The Index has been included for market context purposes only.

As of 30 November 2023, the fixed income component of the World Allocation 20/80 Fund was diversified across approximately 928 bonds from 22 different countries.

During the period, eligible global developed yield curves were generally flat to inverted within the Fund's eligible universe, indicating smaller expected term premiums. As such, the Fund increased its allocation to shorter-term bonds, resulting in a decrease in the Fund's weighted average duration from 1.84 years at the beginning of the period to 0.62 year at the end of the period. As of the end of November, the Index's weighted average duration was 2.69 years. Realised term premiums were negative across global developed markets for the period, as longer-term bonds generally underperformed their shorter-term counterparts. As a result, the Fund's shorter duration contributed positively to relative performance. Realised credit premiums were positive across global developed markets for the period, as corporate bonds generally outperformed their government counterparts. As a result, the Fund's inclusion of corporate bonds also contributed positively to relative performance. The Index has been included for market context purposes only.

World Allocation 40/60 Fund

The World Allocation 40/60 Fund (the "Fund") invests in equity securities of companies across developed and emerging markets and fixed income securities of issuers in developed markets. The equity component of the Fund will generally have increased exposure to companies with smaller market capitalisations, lower relative prices, and higher profitability. The fixed income component generally invests in fixed income instruments with maturities at or below twenty years within the investment grade spectrum and may also invest in securities rated BB+ through BB-. The aggregate exposure to equity and fixed income securities is approximately 40% and 60%, respectively.

As of 30 November 2023, the equity component of the World Allocation 40/60 Fund had holdings in approximately 15,320 companies. This reflects our approach of seeking to deliver highly diversified exposure to developed and emerging markets companies.

Over the 12-month period ending 30 November 2023, the total return of the Fund in British pounds (the base currency of the Fund) was 3.24%. This compares to a return of 3.85% for the 40% MSCI All

Investment Manager's Reports (continued)

World Allocation 40/60 Fund (continued)

Country World Index / 60% FTSE World Government Bond Index 1-5 Years (the "Index"). The Fund's emphasis on small cap stocks detracted from performance relative to the Index, as small cap stocks underperformed large cap stocks. With low relative price (value) stocks underperforming high relative price (growth) stocks, the Fund's emphasis on value stocks also detracted from relative performance. The Index has been included for market context purposes only.

As of 30 November 2023, the fixed income component of the World Allocation 40/60 Fund was diversified across approximately 1,390 bonds from 23 different countries.

During the period, eligible global developed yield curves were generally flat to inverted within the Fund's eligible universe, indicating smaller expected term premiums. As such, the Fund increased its allocation to shorter-term bonds, resulting in a decrease in the Fund's weighted average duration from 2.07 years at the beginning of the period to 0.80 year at the end of the period. As of the end of November, the Index's weighted average duration was 2.69 years. Realised term premiums were negative across global developed markets for the period, as longer-term bonds generally underperformed their shorter-term counterparts. As a result, the Fund's shorter duration contributed positively to relative performance. Realised credit premiums were positive across global developed markets for the period, as corporate bonds generally outperformed their government counterparts. As a result, the Fund's inclusion of corporate bonds also contributed positively to relative performance. The Index has been included for market context purposes only.

World Allocation 60/40 Fund

The World Allocation 60/40 Fund (the "Fund") invests in equity securities of companies across developed and emerging markets and fixed income securities of issuers in developed markets. The equity component of the Fund will generally have increased exposure to companies with smaller market capitalisations, lower relative prices, and higher profitability. The fixed income component generally invests in fixed income instruments with maturities at or below twenty years within the investment grade spectrum and may also invest in securities rated BB+ through BB-. The aggregate exposure to equity and fixed income securities is approximately 60% and 40%, respectively.

As of 30 November 2023, the equity component of the Fund had holdings in approximately 11,210 companies. This reflects our approach of seeking to deliver a highly diversified exposure to developed and emerging markets companies.

Over the 12-month period ending 30 November 2023, the total return of the World Allocation 60/40 Fund in British pounds (the base currency of the Fund) was 2.63%. This compares to a return of 4.38% for the 60% MSCI All Country World Index / 40% FTSE World Government Bond Index 1-5 Years (the "Index"). The Fund's emphasis on small cap stocks detracted from performance relative to the Index, as small cap stocks underperformed large cap stocks. With low relative price (value) stocks underperforming high relative price (growth) stocks, the Fund's emphasis on value stocks also detracted from relative performance. The Index has been included for market context purposes only.

As of 30 November 2023, the fixed income component of the World Allocation 60/40 Fund was diversified across approximately 1,260 bonds from 23 different countries as well as supranational organisations.

During the period, eligible global developed yield curves were generally flat to inverted within the Fund's eligible universe, indicating smaller expected term premiums. As such, the Fund increased its allocation to shorter-term bonds, resulting in a decrease in the Fund's weighted average duration from 2.70 years at the beginning of the period to 1.50 years at the end of the period. As of the end of November, the Index's weighted average duration was 2.69 years. Realised term premiums were negative across global developed markets for the period, as longer-term bonds generally underperformed their shorter-term counterparts. As a result, the Fund's shorter duration contributed positively to relative performance. Realised credit premiums were positive across global developed markets for the period, as corporate bonds generally outperformed their government counterparts. As a result, the Fund's inclusion of corporate bonds also contributed positively to relative performance. The Index has been included for market context purposes only.

World Allocation 80/20 Fund

The World Allocation 80/20 Fund (the "Fund") invests in equity securities of companies across developed and emerging markets and fixed income securities of issuers in developed markets. The equity component of the Fund will generally have increased exposure to companies with smaller market capitalisations, lower relative prices, and higher profitability. The fixed income component generally invests in fixed income instruments with maturities at or below twenty years within the investment grade spectrum and may also invest in securities rated BB+ through BB-. The aggregate exposure to equity and fixed income securities is approximately 80% and 20%, respectively.

As of 30 November 2023, the equity component of the Fund had holdings in approximately 15,510 companies. This reflects our approach of seeking to deliver highly diversified exposure to developed and emerging markets companies.

Over the 12-month period ending 30 November 2023, the total return of the World Allocation 80/20 Fund in British pounds (the base currency of the Fund) was 2.26%. This compares to a return of 4.89% for the 80% MSCI All Country World Index / 20% FTSE World Government Bond Index 1-5 Years (the "Index"). The Fund's emphasis on small cap stocks detracted from performance relative to the Index, as small cap stocks underperformed large cap stocks. With low relative price (value) stocks underperforming high relative price (growth) stocks, the Fund's emphasis on value stocks also detracted from relative performance. The Index has been included for market context purposes only.

As of 30 November 2023, the fixed income component of the World Allocation 80/20 Fund was diversified across approximately 1,000 bonds from 23 different countries as well as supranational organisations.

During the period, eligible global developed yield curves were generally flat to inverted in the short- to intermediate-term segments, but upwardly sloped in the 10- to 20-year segment. As such, the Fund increased its allocation to bonds in the zero- to three-year maturity range and the 10- to 20-year maturity range. Overall, the weighted average duration of the Fund decreased from 4.51 years at the

Investment Manager's Reports (continued)

World Allocation 80/20 Fund (continued)

beginning of the period to 4.05 years at the end of the period, but remained longer than that of the Index. As of the end of November, the Index's weighted average duration was 2.69 years. Realised term premiums were negative across global developed markets for the period, as longer-term bonds generally underperformed their shorter-term counterparts. As a result, the Fund's inclusion of bonds in the zero- to one-year maturity range contributed positively to relative performance. However, the Fund's inclusion of bonds in the 15- to 20-year maturity range detracted from relative performance. Realised credit premiums were positive across global developed markets for the period, as corporate bonds generally outperformed their government counterparts. As a result, the Fund's inclusion of corporate bonds also contributed positively to relative performance. The Index has been included for market context purposes only.

World Equity Fund

The World Equity Fund (the "Fund") invests in companies with increased exposure to companies with smaller market capitalisations, lower relative prices, and higher profitability across developed and emerging markets.

As of 30 November 2023, the Fund had holdings in approximately 13,360 companies. This reflects our approach of delivering highly diversified exposure to developed and emerging markets companies.

Over the 12-month period ending 30 November 2023, the return of the Fund in British pounds (the base currency of the Fund) was 1.57%. This compares to a return of 5.37% for the MSCI All Country World Index (the "Index"). The Fund's emphasis on small cap stocks detracted from performance relative to the Index, as small cap stocks underperformed large cap stocks. With low relative price (value) stocks underperforming high relative price (growth) stocks, the Fund's emphasis on value stocks also detracted from relative performance. The Index has been included for market context purposes only.

World Sustainability Equity Fund**

The World Sustainability Equity Fund (the "Fund") invests in companies with increased exposure to companies with smaller market capitalisations, lower relative prices, and higher profitability across developed and emerging markets, while also adjusting the composition of the Fund based on environmental and sustainability impact considerations.

As of 30 November 2023, the Fund had holdings in approximately 3,990 companies. This reflects our approach of delivering highly diversified exposure to developed and emerging markets companies.

Since 1 April 2023, the first full month since the Fund's inception, through 30 November 2023, the return of the Fund in British pounds (the base currency of the Fund) was 3.01%. This compares to a return of 6.13% for the MSCI All Country World Index (the "Index"). The Fund's emphasis on small cap stocks detracted from performance relative to the Index, as small cap stocks underperformed large cap stocks. With low relative price (value) stocks underperforming high relative price (growth) stocks, the Fund's emphasis on value stocks also detracted from relative performance. The Index has been included for market context purposes only.

* The Global Sustainability Targeted Value Fund launched on 7 November 2023.

** The World Sustainability Equity Fund launched on 28 March 2023.

Dimensional Ireland Limited

11 March 2024

Directors' Report

The Directors (the "Directors") of Dimensional Funds plc (the "Company") submit this Annual Report together with the audited financial statements for the financial year ended 30 November 2023. As at 30 November 2023, there were 28 active funds (30 November 2022: 26) (each a "Fund", together the "Funds").

The Company is established as an umbrella investment company with segregated liability between Funds and variable capital incorporated in Ireland as a public limited company pursuant to the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations, 2011 (as amended), and under the Central Bank (Supervision & Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations") (together the "UCITS Regulations").

The Company is constituted as an umbrella fund insofar as the share capital of the Company will be divided into different portfolios of assets which will comprise separate Funds. In accordance with the requirements of the Central Bank of Ireland (the "Central Bank") UCITS Regulations, shares may be divided into different classes to accommodate different subscription and/or redemption charges and/or charges and/or dividend and/or fee arrangements. The portfolio of assets maintained and comprising a separate Fund will be invested in accordance with the investment objectives and policies applicable to such Fund. The Directors of the Company have established 38 Funds as at 30 November 2023 (30 November 2022: 34 Funds), all of which have been approved by the Central Bank.

Directors' Report (continued)

Statement of Directors' Responsibilities

The Directors are responsible for preparing the Annual Report and the financial statements in accordance with applicable Irish law and Financial Reporting Standard 102 ("FRS 102"), the Financial Reporting Standard applicable in the UK and Republic of Ireland.

Irish Company law requires the Directors to prepare financial statements for each financial year that give a true and fair view of the assets, liabilities and financial position for the Company and of the profit or loss of the Company for that financial year. In preparing the financial statements, the Directors are required to:

- select suitable accounting policies and then apply them consistently;
- make judgements and estimates that are reasonable and prudent;
- state whether the financial statements have been prepared in accordance with applicable accounting standards, and note the effect & reasons for any departure from these standards; and
- prepare the financial statements on a going concern basis unless it is inappropriate to presume that the Company will continue in business.

The Directors confirm that they have complied with the above requirements in preparing these financial statements.

The Directors are responsible for keeping adequate accounting records which disclose, with reasonable accuracy at any time, the financial position of the Company and to enable them to ensure that the financial statements are prepared in accordance with accounting standards generally accepted in Ireland and that they comply with the Companies Act 2014 and the UCITS Regulations. They are also responsible for safeguarding the assets of the Company and hence for taking reasonable steps for the prevention and detection of fraud and other irregularities.

Under the UCITS Regulations, the Directors are required to entrust the assets of the Company to the depositary for safe-keeping. In carrying out this duty, the Directors have delegated custody of the Company's assets to State Street Custodial Services (Ireland) Limited (the "Depositary").

The measures taken by the Directors to secure compliance with the Company's obligations to keep adequate accounting records include the use of appropriate systems and procedures and employment of competent persons. The accounting records are retained at the offices of State Street Fund Services (Ireland) Limited, 78 Sir John Rogerson's Quay, Dublin 2, Ireland (the "Administrator"). Dimensional Ireland Limited (the "Management Company") is responsible for the maintenance and integrity of the corporate and financial information regarding the Company included on the Management Company's website. Legislation in the Republic of Ireland governing the preparation and dissemination of financial statements may differ from legislation in other jurisdictions.

Principal Activities and Review of the Business

The Company has been formed to provide investors with an opportunity to purchase shares in a series of investment funds.

During the financial year, the Company delisted its shares from the Euronext Dublin on 9 January 2023.

The investment objective of the Emerging Markets Large Cap Core Equity Fund, Emerging Markets Large Cap Core Equity III Fund and the Emerging Markets Sustainability Core Equity Fund is to seek long term capital appreciation.

The investment objective of the Emerging Markets Value Fund, Emerging Markets Value II Fund, European Core Equity Fund, European Small Companies Fund, European Value Fund, Global Core Equity Fund, Global Core Equity II Fund, Global Core Equity III Fund, Global Small Companies Fund, Global Sustainability Core Equity Fund, Global Sustainability Targeted Value Fund, Global Targeted Value Fund, Global Value Fund, Japan Core Equity Fund, Pacific Basin Small Companies Fund, U.S. Core Equity Fund, U.S. Small Companies Fund, U.S. Small Companies II Fund, U.S. Value Fund, World Allocation 20/80 Fund, World Allocation 40/60 Fund, World Allocation 60/40 Fund, World Allocation 80/20 Fund, World Equity Fund and the World Sustainability Equity Fund, is to maximise or achieve long-term total return.

The investment objective of the Euro Inflation Linked Intermediate Duration Fixed Income Fund and the Sterling Inflation Linked Intermediate Duration Fixed Income Fund is to seek to provide inflation protected intermediate-term fixed income return.

The investment objective of the Global Ultra Short Fixed Income Fund is to seek to maximise returns from investment in short-term debt.

The investment objective of the Global Short Fixed Income Fund and the Global Short Fixed Income II Fund is to seek to maximise current income while preserving capital.

The investment objective of the Global Core Fixed Income Fund, Global Core Fixed Income III Fund, Global Short-Term Investment Grade Fixed Income Fund, Global Sustainability Fixed Income Fund and Global Sustainability Short Fixed Income Fund is to seek to maximise total returns from the universe of debt obligations in which the Fund invests.

Directors' Report (continued)

Principal Activities and Review of the Business (continued)

A review of the performance of the Company together with an analysis of key financial and non-financial performance indicators is available in the Investment Manager's Reports.

Significant Events during the Financial Year

The Company delisted its shares from Euronext Dublin on 9 January 2023.

The First Addendum was issued on 20 February 2023. It was supplemental to the Prospectus dated 30 November 2022, to add a new GBP hedged accumulation share class to the World Equity Fund.

Management continue to monitor the ongoing conflict in Ukraine and its impact on the securities held by the sub-funds. Reliable price quotations for Russian securities, including Russian depository receipts trading outside of Russia that are held by the sub-funds, continue to be difficult to obtain, requiring the Investment Manager to estimate prices for such depository receipts using other market information, which in turn may also be more difficult to obtain and validate. As of 30 November 2023, the Emerging Markets Large Cap Core Equity Fund, Emerging Markets Sustainability Core Equity Fund, Emerging Markets Value Fund and World Equity Fund had an immaterial exposure to Russian securities through investment in depository receipts.

During the financial year ending 30 November 2023, the US regional banking sector experienced liquidity and solvency issues where in a number of cases US government agencies assumed control or otherwise intervened in the operations of these banks. Certain Sub-Funds had exposure to the US regional banking sector through equity holdings in these banks during the period, and the Sub-Funds subsequently divested from these positions. As at 30 November 2023, the Sub-Funds did not have any direct holdings in these banks.

In March 2023 Credit Suisse experienced significant liquidity and solvency issues which ultimately resulted in a takeover by the Swiss bank UBS. UBS completed the acquisition on 12 June 2023. Certain Sub-Funds had exposure to the Credit Suisse during the period, and the Sub-Funds subsequently divested from these positions. As at 30 November 2023, the Sub-Funds did not have any direct holdings in Credit Suisse securities.

An updated Prospectus was issued on 13 March 2023, in order update the pre-contractual disclosure templates required under Commission Delegated Regulation (EU) 2022/1288 (SFDR Level 2).

The First Addendum to the Prospectus dated 13 March 2023 was issued on 30 March 2023, to include a new GBP accumulation share class and GBP distribution share class to the U.S. Core Equity Fund.

The updated Memorandum and Articles of Association were adopted on 13 April 2023, which included the following changes:

- general factual updates throughout the Articles, such as references to legislation and definitions;
- permitting a share class or sub-fund of the Company to be redeemed in full, if such redemption is provided for in the Prospectus or such redemption is in the best interest of shareholders, the Company, or relevant share class or sub-fund;
- providing 14 days' notice in respect of extraordinary general meetings, other than those called for the passing of a special resolution;
- the removal of the requirement for proxies to be deposited 48 hours in advance of the meeting; and
- lowering the quorum for board meetings from four directors to two directors in line with the Companies Act 2014.

World Sustainability Equity Fund was launched on 28 March 2023.

The Extract Prospectus for Switzerland was issued on 26 April 2023, including the Additional Information for Investors in Switzerland.

The Second Addendum to the Prospectus dated 13 March 2023 was issued on 3 July 2023. It was supplemental to the Prospectus dated 13 March 2023 and the First Addendum dated 30 March 2023, to update investment policies for the Global Value Fund with regards to German tax disclosure.

The Third Addendum to the Prospectus dated 13 March 2023 was issued on 24 August 2023. It was supplemental to the Prospectus dated 13 March 2023, the First Addendum dated 30 March 2023 and the Second Addendum dated 3 July 2023, which included the following changes:

- incorporation of a new Fund of the Company, the Global Sustainability Targeted Value Fund;
- adding reference to Damian Hanrahan as a Director of the Manager;
- updating disclosure regarding the receipt of research and brokerage services;
- remove wording regarding the listing of the Company on Euronext Dublin to reflect that the Company is no longer listed;
- appropriate modifications following updates to the memorandum and articles of association of Dimensional Funds Plc, including additional circumstances in which a share class or a sub-fund may be redeemed in full;
- updates regarding receipt of research or brokerage services to align with updates to the Conflicts of Interest Policy of both Dimensional Ireland Limited and Dimensional Funds plc;

Directors' Report (continued)

Significant Events during the Financial Year (continued)

- updates to the sustainability screens for the Article 8 sub-funds of the Company, namely the Global Sustainability Core Equity Fund, the Emerging Markets Sustainability Core Equity Fund, the World Sustainability Equity Fund, the Global Sustainability Fixed Income Fund, the Global Sustainability Short Fixed Income Fund and the Global Sustainability Targeted Value Fund; and
- other minor tidy-up changes.

The Fourth Addendum to the Prospectus dated 13 March 2023 was issued on 4 September 2023. It was supplemental to the Prospectus dated 13 March 2023, the First Addendum dated 30 March 2023, the Second Addendum dated 3 July 2023 and the Third Addendum dated 24 August 2023, to update the investment policy of the Emerging Markets Large Cap Core Equity Fund to provide that no more than 10% of the Fund's net assets will be invested in collective investment schemes.

An updated Prospectus was issued on 25 September 2023 to incorporate three new Sub-Funds of the Company: the Global Core Fixed Income III Fund, the Global Core Equity III Fund, and the Emerging Markets Large Cap Core Equity III Fund.

Global Sustainability Targeted Value Fund was launched on 7 November 2023.

There were no other significant events during the financial year which required adjustment to, or disclosure in, these financial statements.

Outlook

Our goal at Dimensional is to deliver an outstanding investment experience to our clients. Our close ties to academia help us to identify leading research that can be beneficial to investors, and our team works to interpret, rigorously test, and consider the practical applicability of those ideas in carefully implemented investment strategies. This focus on research and implementation has been central to Dimensional's approach since our founding and will continue to be a key part of our offer to investors.

Risk Management Objectives and Policies

Information in relation to the Company's Financial Risk Management Objectives, Uncertainties and Policies are included in Note 11 to the financial statements.

Segregated Liability

The Company is an umbrella investment company with segregated liability between Funds.

Results and Dividends

The Directors may declare dividends in respect of any redeemable shares out of net income (including dividend and interest income) and the excess of realised and unrealised capital gains over realised and unrealised losses in respect of investments of the Company.

The Directors anticipate that there will be no dividend distributions in respect of the accumulation classes of the Funds. Accordingly, income and capital gains arising in respect of the accumulation classes of the Funds will be re-invested in the relevant Fund and reflected in the net asset value per share of the relevant Fund.

The Directors anticipate making dividend distributions in respect of the distributing classes of the Funds. Accordingly, any income arising in respect of the distributing classes of the Funds, will be distributed to investors in the relevant Fund in accordance with their respective shareholdings. Dividends of the GBP distributing classes will normally be declared by the Directors for the periods ending 31 May and 30 November. Dividends of the JPY distributing classes and SGD distributing classes, if any are declared by the Directors, will normally be declared for the periods ending 28 February, 31 May, 31 August and 30 November. Dividends of the other distributing classes will normally be declared by the Directors for the period ending 30 November.

Dividends declared and paid during the financial year are disclosed in note 14 of the financial statements.

Connected party transactions

Central Bank UCITS Regulations 'Restrictions of transactions with connected persons' states that 'a responsible person shall ensure that any transaction between a UCITS and a connected person is conducted a) at arm's length; and b) in the best interest of the unit-holders of the UCITS'.

As required under Central Bank UCITS Regulations, the Directors, as responsible persons are satisfied that there are in place arrangements, evidenced by written procedures, to ensure that the obligations that are prescribed by Regulation 43(1) are applied to all transactions with a connected party; and all transactions with connected parties that were entered into during the financial year to which the report relates complied with the obligations that are prescribed by Regulation 43(1).

Significant events after the Financial Year End

For details of significant events affecting the Funds after the financial year end, refer to note 18 of the financial statements.

Directors' Report (continued)

Directors

The names of the persons who were Directors during the financial year ended 30 November 2023 are set out on page 3.

Directors' and Secretary's Interests in Shares and Contracts

The authorised share capital of the Company is 500,000,030,000 Shares of no par value divided into 30,000 Subscriber Shares of no par value issued at €1 each and 500,000,000,000 (five hundred billion) Shares of no par value, initially designated as unclassified shares. As at 30 November 2023, Peter Blessing, Victoria Parry, Nathan Lacaze and John Romiza held subscriber shares (fully paid-up) in the Company (30 November 2022: Peter Blessing, Victoria Parry, Nathan Lacaze and John Romiza).

Nathan Lacaze, Catherine L. Newell, Gerard O'Reilly and John Romiza, as employees of the Investment Managers during the financial years ended 30 November 2023 and 30 November 2022 or part of them, are not entitled to remuneration from the Company for these financial years.

Aside from the information disclosed above, the Directors and Secretary had no other interest in the shares of the Funds as at and during the financial years ended 30 November 2023 or 30 November 2022. No Director had a material interest in any other contract of significance, during or at the end of the financial year, in relation to the business of the Company.

Compliance statement

The Directors acknowledge that they are responsible for securing the Company's compliance with its relevant obligations. These include all requirements of the Company under Section 225 of the Companies Act 2014, as amended, and all tax law within the Republic of Ireland (the "relevant obligations").

In keeping with the responsibility,

- A Compliance Policy Statement has been drawn up setting out the Company's policy (that, in the Directors' opinion, is appropriate to the Company) respecting compliance by the Company with its relevant obligations;
- The Directors have determined that adequate structures are in place, that in the Directors' opinion, are designed to secure material compliance with the Company's relevant obligations; and
- The Directors have through the Compliance Policy Statement implemented an annual review procedure to review the Company's relevant obligations and determine that a structure is in place designed to comply with the relevant obligations.

Audit Committee

The Directors are aware of section 167 of the Companies Act 2014 which requires certain companies to establish an audit committee. For the financial year ending 30 November 2023, the Directors confirm that they did not establish an audit committee due to the fact that the Board believes that the Company already has adequate procedures in place that cover, in all material respects, the areas of responsibility of an audit committee, as provided for in Section 167(7) of the Companies Act 2014 and in light of the nature, scale and complexity of the Company's sub-funds, the Board does not believe that a separate audit committee is required in the circumstances.

Relevant Audit Information

To the best of each Director's knowledge, at the time that the financial statements are approved, there is no relevant audit information of which the Company's auditors are unaware and the Directors have taken all reasonable steps that should have been taken as Directors in order to make themselves aware of any relevant audit information and to establish that the Company's auditors are aware of that information.

Independent Auditors

The Auditors, PricewaterhouseCoopers, have been re-appointed and continue in office in accordance with section 383(2) of the Companies Act 2014.

Corporate Governance Statement

The Company is subject to and complies with Irish Statute comprising the Companies Act 2014 and the UCITS Regulations.

Although there is no specific statutory corporate governance code applicable to Irish investment funds, the Company is subject to corporate governance practices imposed by:

- (i) The Companies Act 2014 which are available for inspection at the registered office of the Company and may also be obtained at www.irishstatutebook.ie;
- (ii) The Articles of Association of the Company which are available for inspection at the registered office of the Company and at the Companies Registration Office in Ireland;
- (iii) The Central Bank in their UCITS Regulations and Guidance Notes which can be obtained from the Central Bank's website at: www.centralbank.ie and are available for inspection at the registered office of the Company.

Directors' Report (continued)

Corporate Governance Statement (continued)

A voluntary corporate governance code (the "Code") was issued by Irish Funds (formerly the Irish Funds Industry Association) in December 2011. The Board of Directors (the "Board") adopted the Code with effect from 31 December 2012. Paragraph 4.1 of the Code recommends that the Board comprise a majority of non-executive Directors. The Board currently consists of six non-executive Directors, two of which are Independent non-executive Directors.

Diversity

The Company is subject to a number of legal and regulatory requirements regarding the make-up of the Board including the UCITS Regulations. In addition, the Company has adopted the Code for Collective Investment Schemes and Management Companies which includes requirements regarding board composition.

As a consequence, the Company is obliged to have at least two directors resident in Ireland, to have at least one independent director and to have a majority of non-executive directors (as defined for the purposes of the Code). In addition, the Company is obliged to ensure that each of its directors meet all legal and regulatory requirements including being of sufficiently good repute and sufficiently experienced in relation to the type of business carried out by the Company, that all directors meet the Central Bank's fitness and probity requirements and that the Board of the Company has a good balance of skill and expertise so as to enable it to properly and effectively conduct the business of the Company. These requirements aim to ensure a diverse and balanced range of skills as between the directors on the Board.

In addition, the Board has adopted a retirement policy and is obliged to have regard to the educational and professional background of any prospective directors. At this time the Board does not have a specific policy as regards gender representation on the Board but is subject to other legal, regulatory and corporate governance requirements applicable to the Company's appointment of prospective directors.

The Board has regard to the various requirements set out above when considering any prospective new appointments to the Board.

Financial Reporting Process – Description of Main Features

The Board is ultimately responsible for overseeing the establishment and maintenance of adequate internal control and risk management systems, which includes an assessment of both financial and non-financial risks of the Company in relation to the financial reporting process. As the Company has no employees, all functions including the preparation of the financial statements have been outsourced. The Company has appointed State Street Fund Services (Ireland) Limited as its Administrator consistent with the regulatory framework applicable to investment fund companies such as the Company.

On appointing the Administrator the Board noted that it was regulated by the Central Bank and, in the Board's opinion, had significant experience as an administrator. The Board also noted the independence of the Administrator from the Company's Investment Manager. Subject to the supervision of the Board, the appointment of the Administrator is intended to manage rather than eliminate the risk of failure to achieve the Company's financial reporting objectives and can only provide reasonable and not absolute assurance against material misstatement or loss.

The annual and interim financial statements of the Company are required to be approved by the Board of the Company and filed with the Central Bank. The annual financial statements are required to be audited by independent auditors who report annually to the Board on their findings. The Board evaluates and discusses significant accounting and reporting issues as the need arises.

Risk Assessment

The Board is responsible for assessing the risk of irregularities whether caused by fraud or error in financial reporting and for ensuring that processes are in place for the timely identification of internal and external matters with a potential effect on financial reporting. The Board's appointment of an Administrator and Depositary independent of the Investment Manager to the Company and which is regulated by Central Bank is intended to mitigate though not eliminate the risk of fraud or irregularities which may impact the financial statements of the Company.

Monitoring

The Board receives regular presentations and reviews reports from the Depositary, Investment Manager and Administrator. The Board also has an annual process to ensure that appropriate measures are taken to consider and address any control weaknesses identified and measures recommended by the independent auditors.

Capital Structure

No person has a significant direct or indirect holding of securities in the Company. No person has any special rights of control over the Company's share capital. There are no restrictions on voting rights.

For the appointment and replacement of Directors, the Company is governed by its Memorandum and Articles of Association, Irish Statute comprising the Companies Act 2014, the UCITS Regulations as applicable to investment funds and the Code which it adopted. The Articles of Association themselves may be amended by special resolution of the shareholders.

Directors' Report (continued)

Composition and Operation of the Board of Directors

There are six Directors currently, all of whom are non-executive and two of whom are independent of the Investment Manager. All related party transactions during the financial year are detailed in note 10 to the financial statements. The Articles of Association do not provide for retirement of Directors by rotation. However, the Directors may be removed by the shareholders by ordinary resolution in accordance with the procedures established under the Irish Companies Act 2014. The Board generally meets at least quarterly.

The Board is responsible for managing the business affairs of the Company in accordance with the Articles of Association. Subject to its supervision and direction, the Board has appointed Dimensional Ireland Limited as Management Company with responsibility for the day to day management of the assets of the Company. Dimensional Ireland Limited has appointed each of Dimensional Fund Advisors Ltd., Dimensional Fund Advisors Pte. Ltd., Dimensional Fund Advisors LP, DFA Australia Limited, and Dimensional Japan Limited as investment managers to the Company. The Board has delegated the distribution function to Dimensional Ireland Limited. The Board has delegated the day to day administration of the Company to the Administrator and appointed State Street Custodial Services (Ireland) Limited as the Depositary to the Company with responsibility for the safekeeping of the assets of the Company.

Shareholders Meetings

The Annual General Meeting of the Company will usually be held in Dublin, normally during the month of August or such other date as the Directors may determine. Notice convening the Annual General Meeting in each financial year at which the audited financial statements of the Company will be presented (together with the Directors' and Auditors' Reports of the Company) will be sent to shareholders at their registered addresses not less than 21 days before the date fixed for the meeting. Other general meetings may be convened from time to time by the Directors in such manner as provided by Irish law.

Each of the shares entitles the holder to attend and vote at meetings of the Company and of the Fund represented by those shares. Matters will be determined by a meeting of shareholders on a poll. Each share gives the holder one vote in relation to any matters relating to the Company which are submitted to shareholders for a vote by poll. No business shall be transacted at any shareholder meeting unless a quorum is present. Two shareholders present either in person or by proxy shall be a quorum for a general meeting. If within half an hour after the time appointed for a meeting a quorum is not present, the meeting, if convened on the requisition of or by shareholders, shall be dissolved. In any other case it shall stand adjourned to the same day in the next week, at the same time and place or to such other day and at such other time and place as the Directors may determine. One shareholder present either in person or by proxy shall be a quorum for any such adjourned meeting.

Approved on behalf of the Board of Directors

Depository Report to the Shareholders of Dimensional Funds plc

We have enquired into the conduct of the Company for the financial year ended 30 November 2023 in our capacity as Depository to the Company.

This report including the opinion has been prepared for and solely for the shareholders in the Company as a body, in accordance with Regulation 34, (1), (3) and (4) in Part 5 of the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011, as amended, (the "UCITS Regulations"), and for no other purpose. We do not, in giving this opinion, accept or assume responsibility for any other purpose or to any other person to whom this report is shown.

Responsibilities of the Depository

Our duties and responsibilities are outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations. One of those duties is to enquire into the conduct of the Company in each annual accounting period and report thereon to the shareholders.

Our report shall state whether, in our opinion, the Company has been managed in that period in accordance with the provisions of the Company's constitution (the "Constitution") and the UCITS Regulations. It is the overall responsibility of the Company to comply with these provisions. If the Company has not so complied, we as Depository must state why this is the case and outline the steps which we have taken to rectify the situation.

Basis of Depository Opinion

The Depository conducts such reviews as it, in its reasonable opinion, considers necessary in order to comply with its duties as outlined in Regulation 34, (1), (3) and (4) in Part 5 of the UCITS Regulations and to ensure that, in all material respects, the Company has been managed:

- (i) in accordance with the limitations imposed on its investment and borrowing powers by the provisions of the Constitution and the UCITS Regulations; and
- (ii) otherwise in accordance with the Company's constitutional documentation and the appropriate regulations.

Opinion

In our opinion, the Company has been managed during the financial year, in all material respects:

- (i) in accordance with the limitations imposed on the investment and borrowing powers of the Company by the Constitution, the UCITS Regulations and the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (the "Central Bank UCITS Regulations"); and
- (ii) otherwise in accordance with the provisions of the Constitution, the UCITS Regulations and the Central Bank UCITS Regulations.

Independent auditors' report to the members of Dimensional Funds plc

Report on the audit of the financial statements

Opinion

In our opinion, Dimensional Funds plc's financial statements:

- give a true and fair view of the Company's and Funds' assets, liabilities and financial position as at 30 November 2023 and of their results for the year then ended;
- have been properly prepared in accordance with Generally Accepted Accounting Practice in Ireland (accounting standards issued by the Financial Reporting Council of the UK, including Financial Reporting Standard 102 "The Financial Reporting Standard applicable in the UK and Republic of Ireland" and Irish law); and
- have been properly prepared in accordance with the requirements of the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended).

We have audited the financial statements, included within the Annual Report and Audited Financial Statements, which comprise:

- the Statement of Financial Position as at 30 November 2023;
- the Statement of Comprehensive Income for the year then ended;
- the Statement of Changes in Net Assets Attributable to Holders of Redeemable Shares for the year then ended;
- the Portfolio of Investments for each of the Funds as at 30 November 2023; and
- the notes to the financial statements for the Company and for each of its Funds, which include a description of the accounting policies.

Basis for opinion

We conducted our audit in accordance with International Standards on Auditing (Ireland) ("ISAs (Ireland)") and applicable law.

Our responsibilities under ISAs (Ireland) are further described in the Auditors' responsibilities for the audit of the financial statements section of our report. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Independence

We remained independent of the Company in accordance with the ethical requirements that are relevant to our audit of the financial statements in Ireland, which includes IAASA's Ethical Standard, and we have fulfilled our other ethical responsibilities in accordance with these requirements.

Conclusions relating to going concern

Based on the work we have performed, we have not identified any material uncertainties relating to events or conditions that, individually or collectively, may cast significant doubt on the Company's and Funds' ability to continue as a going concern for a period of at least twelve months from the date on which the financial statements are authorised for issue.

In auditing the financial statements, we have concluded that the directors' use of the going concern basis of accounting in the preparation of the financial statements is appropriate.

However, because not all future events or conditions can be predicted, this conclusion is not a guarantee as to the Company's and Funds' ability to continue as a going concern.

Our responsibilities and the responsibilities of the directors with respect to going concern are described in the relevant sections of this report.

Reporting on other information

The other information comprises all of the information in the Annual Report and Audited Financial Statements other than the financial statements and our auditors' report thereon. The directors are responsible for the other information. Our opinion on the financial statements does not cover the other information and, accordingly, we do not express an audit opinion or, except to the extent otherwise explicitly stated in this report, any form of assurance thereon. In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If we identify an apparent material inconsistency or material misstatement, we are required to perform procedures to conclude whether there is a material misstatement of the financial statements or a material misstatement of the other information. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report based on these responsibilities.

With respect to the Directors' Report, we also considered whether the disclosures required by the Companies Act 2014 have been included.

Based on the responsibilities described above and our work undertaken in the course of the audit, ISAs (Ireland) and the Companies Act 2014 require us to also report certain opinions and matters as described below:

- In our opinion, based on the work undertaken in the course of the audit, the information given in the Directors' Report for the year ended 30 November 2023 is consistent with the financial statements and has been prepared in accordance with applicable legal requirements.
- Based on our knowledge and understanding of the Company and its environment obtained in the course of the audit, we have not identified any material misstatements in the Directors' Report.

Responsibilities for the financial statements and the audit

Responsibilities of the directors for the financial statements

As explained more fully in the Statement of Directors' Responsibilities set out on page 13, the directors are responsible for the preparation of the financial statements in accordance with the applicable framework and for being satisfied that they give a true and fair view.

The directors are also responsible for such internal control as they determine is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the directors are responsible for assessing the Company's and Funds' ability to continue as going concerns, disclosing as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Company or to cease operations, or have no realistic alternative but to do so.

Auditors' responsibilities for the audit of the financial statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs (Ireland) will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

Our audit testing might include testing complete populations of certain transactions and balances, possibly using data auditing techniques. However, it typically involves selecting a limited number of items for testing, rather than testing complete populations. We will often seek to target particular items for testing based on their size or risk characteristics. In other cases, we will use audit sampling to enable us to draw a conclusion about the population from which the sample is selected.

A further description of our responsibilities for the audit of the financial statements is located on the IAASA website at:

https://www.iaasa.ie/getmedia/b2389013-1cf6-458b-9b8f-a98202dc9c3a/Description_of_auditors_responsibilities_for_audit.pdf.

This description forms part of our auditors' report.

Use of this report

This report, including the opinions, has been prepared for and only for the Company's members as a body in accordance with section 391 of the Companies Act 2014 and for no other purpose. We do not, in giving these opinions, accept or assume responsibility for any other purpose or to any other person to whom this report is shown or into whose hands it may come save where expressly agreed by our prior consent in writing.

Other required reporting

Companies Act 2014 opinions on other matters

- We have obtained all the information and explanations which we consider necessary for the purposes of our audit.
- In our opinion the accounting records of the Company were sufficient to permit the financial statements to be readily and properly audited.
- The financial statements are in agreement with the accounting records.

Companies Act 2014 exception reporting

Directors' remuneration and transactions

Under the Companies Act 2014 we are required to report to you if, in our opinion, the disclosures of directors' remuneration and transactions specified by sections 305 to 312 of that Act have not been made. We have no exceptions to report arising from this responsibility.

Notes to the Financial Statements

For the financial year ended 30 November 2023

1. Organisation

Dimensional Funds plc (the "Company") was incorporated on 14 January 2002. The Company is established as an umbrella investment company with segregated liability between funds (each a "Fund", together the "Funds") and variable capital incorporated in Ireland as a public limited company pursuant to the Companies Act 2014 and the European Communities (Undertakings for Collective Investment in Transferable Securities) Regulations 2011 (as amended), and under the Central Bank (Supervision and Enforcement) Act 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations 2019 (together the "UCITS Regulations").

A number of the Company shares were listed on Euronext Dublin throughout the previous financial years. During the financial year ended 30 November 2023, the company delisted its shares from Euronext Dublin on 9 January 2023.

2. Basis of Preparation and Presentation

These audited financial statements are prepared in accordance with the Financial Reporting Standard applicable in the UK and Republic of Ireland ("FRS 102").

The Company has continued to avail of the exemption available to open-ended investment funds under FRS 102 and is not presenting a cash flow statement.

The financial statements have been prepared on a going concern basis. Note 11 (c) sets out information on liquidity risks and how they are managed by the Company.

All amounts, including comparative amounts as at and for the financial year ended 30 November 2023 as presented in these financial statements, have been rounded to the nearest thousand, unless otherwise indicated.

3. Significant Accounting Policies

The Company makes estimates and assumptions that affect the reported amounts of assets and liabilities. Estimates and judgements are continually evaluated and are based on historical experience and other factors. Estimates and assumptions used may include the use of valuation techniques for the purposes of determining the fair value of financial instruments that are not quoted in active markets, such as unlisted equities and investment in other investment funds. Fair values of such instruments are determined by using valuation techniques as discussed in note 3(a)(iv).

a) Investments at Fair Value

i) Classification

The Company has classified its investments at fair value through profit or loss.

ii) Recognition/Derecognition

Purchases and sales of investments are recognised on trade date i.e. the date on which the Company commits to purchase or sell the asset. Investments are initially recognised at fair value and transaction costs for all financial assets carried at fair value through profit or loss are expensed as incurred.

Investments are derecognised when the rights to receive cash flows from the investments have expired or the Company has transferred substantially all risks and rewards of ownership.

iii) Measurement

The Company recognises financial assets and financial liabilities on the date it becomes a party to the contractual provisions of the instrument. A regular purchase of financial assets is recognised using trade date accounting. From this date any gains and losses arising from changes in fair value of the financial assets or financial liabilities are recorded.

Profits and losses on the disposal of investments are computed on a first-in, first-out basis and are included in the Statement of Comprehensive Income. Unrealised gains and losses on investments are recognised in the Statement of Comprehensive Income.

iv) Fair value estimation

In preparing the financial statements, the assets and liabilities of each Fund were valued at the respective valuation point for each Fund on 30 November 2023.

Equity and fixed income securities

For financial statements purposes the quoted market price used for financial assets held by the Company is the last traded price with the exception of corporate and government bonds where the quoted mid price is used.

Unlisted securities

Unlisted securities, if any, are valued at their probable realisation value determined with care and in good faith by the Administrator in consultation with the Investment Manager, who is approved for that purpose by the Depositary. When a "readily available market quotation" for a security is not available, the Company employs "fair value" methodologies to price securities.

The fair valuation process requires the Valuation Committee of the Investment Manager (the "Valuation Committee") to make a determination as to the value of a particular security or group of securities depending on the particular facts and circumstances involved. The Funds do not invest in any unlisted securities other than certain unlisted warrants and rights that have been received as a result of corporate actions.

Investee Funds

The Company's investments in other funds ("Investee Funds") are subject to the terms and conditions of the respective Investee Funds' offering documentation. The investments in

Notes to the Financial Statements

For the financial year ended 30 November 2023 (continued)

3. Significant Accounting Policies (continued)

a) Investments at Fair Value (continued)

iv) Fair value estimation (continued)

Investee Funds are primarily valued on the unaudited Net Asset Value ("NAV") at 30 November 2023 of such units for each Investee Fund, as determined by the Investee Funds' administrators.

Forward Currency Contracts

Forward Currency Contracts are measured at fair value based on the reference to the forward price at which a new forward contract of the same size and maturity could be affected at the valuation date. Realised and unrealised gains and/or losses are reported in the Statement of Comprehensive Income.

Futures

Futures are measured at fair value based on their quoted daily settlement prices. Realised and unrealised gains and/or losses are reported in the Statement of Comprehensive Income.

b) Income

Interest income and expenses are recognised in the Statement of Comprehensive Income for all debt instruments using the effective interest method. The effective interest rate is the rate that exactly discounts estimated future cash payments or receipts throughout the expected life of the financial instrument, or a shorter period where appropriate, to the net carrying amount of the financial asset or financial liability. Dividend income is recorded on the ex-dividend date gross of withholding taxes and is disclosed separately in the Statement of Comprehensive Income, net of any tax credits.

c) Expense Recognition

All expenses are taken to the Statement of Comprehensive Income on an accruals basis. Costs and expenses incurred in the operation of a Fund are borne out of the assets of the relevant Fund. The Management Company may, at its discretion, contribute directly towards the expenses attributable to the establishment and/or operation of any particular Fund and/or the marketing, distribution and/or sale of shares and may from time to time at its sole discretion waive any or all of the management fees in respect of any particular payment period.

d) Foreign Currency Translation

Functional and presentational currency: items included in the Company's financial statements are measured using the currency of the primary economic environment in which it operates (the "functional currency"). This is Euro for Euro Inflation Linked Intermediate Duration Fixed Income Fund, European Small Companies Fund, European Value Fund and Global Short Fixed Income Fund, Sterling for Global Core Fixed Income Fund, Global Sustainability Fixed Income Fund, Global Sustainability Short Fixed Income Fund, Global Ultra Short Fixed Income Fund, Sterling Inflation Linked Intermediate Duration Fixed Income Fund, World Allocation 20/80 Fund, World Allocation 40/60 Fund, World Allocation 60/40 Fund, World Allocation 80/20 Fund, World

Equity Fund, World Sustainability Equity Fund and U.S. Dollars for Emerging Markets Large Cap Core Equity Fund, Emerging Markets Sustainability Core Equity Fund, Emerging Markets Value Fund, Global Core Equity Fund, Global Short-Term Investment Grade Fixed Income Fund, Global Small Companies Fund, Global Sustainability Core Equity Fund, Global Sustainability Targeted Value Fund, Global Targeted Value Fund, Global Value Fund, Pacific Basin Small Companies Fund, U.S. Core Equity Fund and U.S. Small Companies Fund. The Company has adopted the functional currency of each Fund as the presentation currency for the financial statements.

The Company Statement of Financial Position, Statement of Comprehensive Income and Statement of Changes in Net Assets Attributable to Holders of Redeemable Shares are presented in Euro. The aggregated financial statements of the Company are measured in the currency of the primary economy operating environment in which the Company operates, which is the Euro. For the purpose of producing the aggregated Statement of Financial Position of the Company, the Statement of Financial Position of the individual Funds are translated into Euro using exchange rates as at 30 November 2023 accumulated for preparation of the aggregated financial statements.

Purchases and sales of securities, and income and expenses are translated at the rate of exchange quoted on the respective date that such transactions are recorded. All assets and liabilities denominated in foreign currencies are translated at the rate of exchange at the latest available rate at the Valuation Point. Foreign exchange gains and losses resulting from both the settlement of such transactions and from the translation at financial year end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the Statement of Comprehensive Income.

For the purpose of producing the aggregated Statement of Comprehensive Income and aggregated Statement of Changes in Net Assets Attributable to Holders of Redeemable Shares from the accounts at the individual Funds, average exchange rates are used.

The differences arising from translation of the primary financial statements at different exchange rates, for the purpose of producing the aggregated financial statements, is included as a foreign currency translation adjustment in the Statement of Changes in Net Assets Attributable to Holders of Redeemable Shares. This notional adjustment does not have any impact on the NAV of any individual Fund. For the financial year ended 30 November 2023 this adjustment amounted to EUR762,532,000 (30 November 2022: EUR1,237,555,000).

Notes to the Financial Statements

For the financial year ended 30 November 2023 (continued)

3. Significant Accounting Policies (continued)

e) Redeemable Shares

Redeemable shares are redeemable at the shareholder's option and are classified as financial liabilities. Any distribution on these redeemable shares is recognised in the Statement of Comprehensive Income. The redeemable shares can be put back to the Company at any time for cash equal to a proportionate share of the Company's NAV. The redeemable shares are carried at the redemption amount that is payable at the Statement of Financial Position date if the shareholders exercised their right to put the shares back to the Company.

f) NAV per Share

The NAV per share of the relevant class of the Fund is calculated by dividing that proportion of the NAV of the Fund which is attributable to the relevant class by the total number of shares of the relevant class in issue at the relevant valuation point.

The NAV per share presented in note 15 is calculated in accordance with the Prospectus.

g) Distributions

The Company's distribution policy is disclosed in note 14.

Dividends paid by a Fund are recorded by that Fund on the ex-dividend date and are disclosed separately in the Statement of Comprehensive Income. Proposed distributions to holders of redeemable shares are recognised in the Statement of Comprehensive Income when such dividends are appropriately authorised.

h) Income Equalisation

The Company may operate an equalisation account in respect of certain classes of shares in each of the Funds. This arrangement is intended to ensure that the income per redeemable share which is distributed in respect of the distribution period is not affected by changes in the number of redeemable shares in issue during that period. The calculation of equalisation is based on net income and represents the income portion of the price of subscriptions/redemptions of redeemable shares. Refer to note 14 for disclosure of income equalisation adjustments on dividends during the financial year.

i) Forward Currency Contracts

A forward currency contract involves an obligation to purchase or sell a specific currency at a future date at a price set at the time the contract is made. Forward currency contracts are valued by reference to the forward price at which a new forward contract of the same size and maturity could be affected at the valuation date. The unrealised gain or loss on open forward currency contracts is calculated as the difference between the contract rate and this forward price and recognised in the Statement of Comprehensive Income. Where a forward currency contract is purchased to hedge the currency risk of a specific class, which is issued in a currency other than the base currency of the respective Fund, all gains or losses on that contract are allocated to that class. Refer to the individual Funds' Portfolio of Investments for disclosure of forward currency contracts held at 30 November 2023.

j) Taxation

As disclosed in note 7, generally the Company is not subject to Irish tax on income, profits or capital gains or other taxes payable.

However, income from investments held by the Company may be subject to withholding taxes or capital gains taxes in jurisdictions other than the Company's country of domicile. Taxes incurred by the Funds are recorded in the Statement of Comprehensive Income within withholding tax on dividends and other taxation.

k) Securities Lending Income

The Company has appointed State Street Bank and Trust Company as securities lending agent (the "securities lending agent"). Certain Funds may lend securities through the securities lending agent to brokers, dealers and other financial organisations to earn additional income.

Income earned from securities lending activities is accounted for on an accruals basis.

As referred to in note 4, any cash collateral received in relation to securities lending activities is presented on the Statement of Financial Position.

Cash received as collateral is recorded as an asset on the Statement of Financial Position and is valued at fair value. A related liability to repay the collateral is recorded as a liability on the Statement of Financial Position and is also valued at its fair value in line with the requirement of FRS 102. Cash or securities may be set aside as collateral by the Depositary in accordance with the terms of the Securities Lending Agreement.

l) Transaction Costs

Transaction costs are incremental costs that are directly attributable to the acquisition, issue or disposal of a financial asset or financial liability. An incremental cost is one that would not have been incurred if the entity had not acquired, issued or disposed of the financial instrument. When a financial asset or financial liability is recognised initially, an entity shall measure it at its fair value through profit or loss with transaction costs for such instruments being recognised directly in the Statement of Comprehensive Income.

Transaction costs charged by the Depositary on the settlement of purchases and sales of investments are disclosed within subcustodian fees in the Statement of Comprehensive Income for each Fund.

Transaction costs on purchases and sales of equities, collective investment funds are included in net gain/(loss) on financial assets and financial liabilities at fair value through profit or loss in the Statement of Comprehensive Income for each Fund. These costs are presented in note 6 "Fees and Expenses - Transaction Costs" for each Fund.

Notes to the Financial Statements

For the financial year ended 30 November 2023 (continued)

3. Significant Accounting Policies (continued)

l) Transaction Costs (continued)

Transaction costs on the purchase and sale of bonds and forward currency contracts are included in the purchase and sale price of the investment. These costs cannot be practically or reliably gathered as they are embedded in the cost of the investment and cannot be separately verified or disclosed.

m) Futures

A future contract involves an obligation to purchase a specific security at a future date at a price set at the time the contract is made. Futures contracts are measured at fair value based on their quoted daily settlement prices at which point a new futures contract could be affected at the valuation date.

The unrealised gain or loss on open futures contracts is calculated as the difference between the contract price and the current market price and recognised in the Statement of Comprehensive Income. Refer to the individual Fund's portfolio for disclosure of futures contracts held at 30 November 2023.

n) Repurchase Agreements

The Company may enter into repurchase agreements subject to the conditions and limits set out in the UCITS Regulations, as applicable under which it acquires securities from a seller (for example, a bank or securities dealer) who agrees, at the time of sale, to repurchase the security at a mutually agreed-upon date (usually not more than seven days from the date of purchase) and price, thereby determining the yield to the relevant Fund during the term of the repurchase agreement. The resale price reflects the purchase price plus an agreed upon market rate of interest which is unrelated to the coupon rate or maturity of the purchased security. The Company may enter into reverse repurchase agreements under which it sells a security and agrees to repurchase it at a mutually agreed upon date and price.

o) Cash and Cash Equivalents

Cash and cash equivalents comprise cash balances valued at their face value with interest accrued, where applicable.

4. Lending of Securities

Each security loan is collateralised with collateral assets in an amount greater than the current market value of the loaned securities. There is a risk of delay in receiving collateral or in recovering the securities loaned or even loss of rights in collateral should the borrower fail financially.

However, in the event of default or bankruptcy by the other party to the agreement, realisation and/or retention of the collateral may be subject to legal proceedings. In the event that the borrower fails to return loaned securities, and collateral being maintained by the Fund in question is insufficient to cover the value of loaned securities and provided such collateral insufficiency is not the result of investment losses, the securities lending agent has agreed to pay the amount of the shortfall to the respective Fund or, at the option of the securities lending agent, to replace the securities.

Subject to each Fund's investment policy, any cash collateral received by a Fund from securities on loan may be invested in securities of the U.S. government or its agencies, repurchase agreements collateralised by securities of the U.S. government or its agencies, time deposits and registered and unregistered money market funds. Agencies include both agency debentures and agency mortgage backed securities.

As at 30 November 2023, EUR194,867,249 (30 November 2022: EUR240,547,749) of the total cash collateral received by the Funds (as disclosed on the Statement of Financial Position and in the tables below) was re-invested in repurchase agreements with approved counterparties: Citigroup, JP Morgan, Merrill Lynch and Societe Generale (30 November 2022: Citigroup, JP Morgan, Merrill Lynch and Societe Generale). The fair value of these repurchase agreements as at 30 November 2023 was EUR194,867,249 (30 November 2022: EUR240,547,749). These agreements were entered into on 30 November 2023 and matured on 1 December 2023 (30 November 2022: entered into on 30 November 2022 and matured on 1 December 2022).

In addition, each Fund will be able to terminate the loan at any time and will receive reasonable interest on the loan, as well as amounts equal to any dividends, interest or other distributions on the loaned securities.

As at 30 November 2023 and 30 November 2022 each of the Funds disclosed in the following tables had outstanding loans of securities to certain brokers, dealers or other financial institutions for which each Fund has a security interest and lien upon segregated cash and/or securities equivalent to at least 100% of the current market value of the loaned securities with respect to any type of securities loaned through the securities lending agent.

As at 30 November 2023 and 30 November 2022 the collateral received for securities lending purposes comprised cash and government bonds as disclosed in the Market Value of U.S. Loaned Securities and Market Value of non-U.S. Loaned Securities on the following tables.

Notes to the Financial Statements

For the financial year ended 30 November 2023 (continued)

4. Lending of Securities (continued)

As at 30 November 2023 and 30 November 2022, each of the following Funds had loaned securities with respect to U.S. securities through the securities lending agent:

	As at 30 November 2023 USD '000	As at 30 November 2022 USD '000

As at 30 November 2023 and 30 November 2022, World Allocation 20/80 Fund, World Allocation 40/60 Fund, World Allocation 60/40 Fund and World Allocation 80/20 Fund invest in other Funds of the Company and also other related collective investment schemes which have appointed the same Investment Manager or other related party entities to provide investment management services to the Company, as disclosed in the Portfolio of Investments. As shareholders of other collective investment schemes, these Funds bear, along with other shareholders, their pro rata portion of the expenses of the other collective investment schemes, including management fees. Such collective investment schemes will not charge annual management fees in excess of 3% of their respective net asset values. These fees are in addition to the fees payable to the Management Company and other expenses which a Fund bears directly in connection with its own operations.

For the financial years ended 30 November 2023 and 30 November 2022, the management fees in relation to these Funds have been waived by the Management Company. Details of amounts waived by the Management Company in relation to management fees and reimbursements to the Funds are disclosed in the Statement of Comprehensive Income.

Management Company Fees

The Management Company is entitled to receive a management company fee of up to 0.02% of the Net Asset Value of the Company. The management company fee shall be payable out of the assets of the Funds on a pro-rated basis based on their proportionate share of the total Net Asset Value of the Company accruing daily and payable monthly in arrears.

Notwithstanding the maximum annual fee payable by the Company to the Manager, the fee provisions agreed between the Company and the Management Company are such that the Funds are charged a fixed fee per sub-fund of €10,000 per annum and 0.00285% of the Net Asset Value of the Funds.

Administration and Depositary fees

State Street Fund Services (Ireland) Limited acts as administrator (the "Administrator") of the Company.

The Administrator receives from the Fund a fee calculated at an annual rate not to exceed 0.01633% of the average NAV of the Fund. The Administrator's fee is subject to a minimum annual fee of USD40,000 per fund multiplied by the total number of funds in existence in the Company and Dimensional Funds II plc. The minimum fee is applied to the aggregate assets under administration (of both the Company and Dimensional Funds II plc) and not at a fund level. From 1 November 2023, the minimum fee was waived and is no longer applicable to the Company. All fees are payable monthly in arrears.

The Administrator shall also be entitled to reimbursement of all reasonable costs and expenses incurred for the benefit of the Fund out of the assets of the Fund in respect of which such costs and expenses were incurred.

State Street Custodial Services (Ireland) Limited acts as depositary (the "Depositary") to the Company.

The Depositary receives from the Fund a fee calculated at an annual rate not to exceed 0.01% of the average NAV of the Fund. From 1 November 2023, the annual rate payable to the Depositary reduced to 0.009%.

Notes to the Financial Statements

For the financial year ended 30 November 2023 (continued)

6. Fees and Expenses (continued)

Administration and Depositary fees (continued)

The Funds also bear the cost of all sub-custodian charges and transaction charges incurred by the Depositary, or any sub-custodian, which shall not exceed normal commercial rates.

The Depositary shall also be entitled to reimbursement of reasonable expenses incurred by the Depositary, or any sub-custodian, for the benefit of the Funds out of the assets of the Fund in respect of which such charges and expenses were incurred.

The registrar and transfer agent is entitled to a fee payable out of the assets of the Company and Dimensional Funds II plc, accruing daily and payable monthly in arrears, of up to USD300,000 per annum, allocated to each Fund based on average assets under management. The registrar and transfer agent is also entitled to reimbursement of all reasonable costs and expenses incurred for the benefit of the Funds out of the assets of the Funds in respect of which such charges and expenses were incurred.

Directors' fees

The Directors are entitled to a fee in remuneration for their services. The amount of each Director's remuneration for the financial year in respect of the Company should not exceed EUR28,000 (save for the Chairperson who could receive up to EUR34,000) (30 November 2022: EUR28,000, save for the Chairperson who could receive up to EUR34,000). The fee cannot be increased without the shareholders being notified.

Aggregate Directors' fees of EUR54,738 (30 November 2022: EUR54,355) were accrued during the financial year ended 30 November 2023. Directors' fees of EUR46,885 (30 November 2022: EUR56,300) were payable at financial year end. The Directors who were employees of the Investment Manager during the financial year were not entitled to any such remuneration.

Nathan Lacaze and John Romiza are current employees of Dimensional Fund Advisors Ltd. Catherine L. Newell and Gerard O'Reilly are current employees of Dimensional Fund Advisors LP, both

Transaction costs

Transaction costs on purchases and sales are included in 'Net gain/(loss) on financial assets and financial liabilities at fair value through profit or loss' in the Statement of Comprehensive Income for each Fund.

Details of transaction costs for the financial year ended 30 November 2023 was as follows:

Fund	Currency	Purchase Commissions '000	Purchases Tax/Fee/Other '000	Sale Commissions '000	Sale Tax/Fee/Other '000	Fees from Custodial Services '000	Fees from Fund Services '000	Total Transaction Costs 30 November 2023 '000

of which are affiliates of Dimensional Ireland Limited. The remuneration of Nathan Lacaze and John Romiza is paid by Dimensional Fund Advisors Ltd. The remuneration of Catherine L. Newell and Gerard O'Reilly is paid by Dimensional Fund Advisors LP. The above mentioned directors' services to this Company and to a number of affiliates are of a non-executive nature and their remuneration is deemed to be wholly attributable to their services to Dimensional Fund Advisors Ltd. and Dimensional Fund Advisors LP, respectively.

Audit fees

The remuneration payable to the auditors by the Company for the financial years ended 30 November 2023 and 30 November 2022 were as follows:

	30 November 2023 EUR '000	30 November 2022 EUR '000
Statutory audit	285	242
	285	242

The audit fees shown above are exclusive of VAT and inclusive of out of pocket expenses.

There were no other assurance, tax, advisory or non audit fees other than the fees disclosed above paid to PricewaterhouseCoopers in Ireland as the Statutory Auditors of the Company as no other services were provided.

Waivers and reimbursements

The Management Company may, at its discretion, contribute directly towards the expenses attributable to the establishment and/or operation of any particular Fund and/or the marketing, distribution and/or sale of Shares and may from time to time at its sole discretion waive any or all of the Management Fees in respect of any particular payment period. Waivers and reimbursements are disclosed in the Statement of Comprehensive Income.

7. Taxation

Under current law and practice, the Company qualifies as an investment undertaking as defined in Section 739B of the Taxes Consolidation Act 1997, as amended. On that basis, it is not chargeable to Irish tax on its income or chargeable gains. However, Irish tax may arise on the happening of a "chargeable event". A chargeable event includes any distribution payments to shareholders, any encashment, redemption, cancellation or transfer of shares and the holding of shares at the end of each eight year anniversary beginning with the acquisition of such shares.

No Irish tax will arise on the Company in respect of chargeable events in respect of:

- a shareholder who is neither Irish resident nor ordinarily resident in Ireland for tax purposes, at the time of the chargeable event, provided appropriate valid declarations in accordance with the provisions of the Taxes Consolidation Act 1997, as amended, are held by the Company at that time or the Company has been authorised by the Irish Revenue to make gross payments in the absence of appropriate declarations; and
- certain exempted Irish tax resident shareholders who have provided the Company with the appropriate signed declarations in the prescribed Revenue format.

Dividends, interest and capital gains (if any) received on investments made by the Company may be subject to taxes imposed by the country from which the investment income/gains are received and such taxes may not be recoverable by the Company or its shareholders.

For the financial year ended 30 November 2023 the Company incurred capital gains taxes of EUR14,143,196 (30 November 2022: incurred capital gains taxes EUR1,669,474).

8. Cash and Cash Equivalents

The cash balances as disclosed in the Statement of Financial Position were held at State Street Custodial Services (Ireland) Limited as at 30 November 2023 and 30 November 2022.

In March 2015, the Central Bank introduced Investor Money Regulations ("IMR"). These regulations, which were effective from 1 July 2016, detail material changes to the current rules in relation to investor money, and were designed to increase transparency and enhance investor protection.

In response to these regulations, cash accounts held with a third party banking entity for collection of subscriptions and payment of redemptions are now deemed to be assets of the Company.

Cash may be deposited or owed by or on behalf of the Funds for initial margin purposes with brokers for options and futures contracts. These amounts are recognised as Margin Cash on the Statement of Financial Position.

Cash collateral received relates to collateral received for securities on loan and is held by the securities lending agent as at 30 November 2023 and 30 November 2022.

See Note 4 for reference to cash collateral received by the Funds that was re-invested in repurchase agreements.

9. Share Capital

The authorised share capital of the Company is 500,000,030,000 Shares of no par value divided into 30,000 Subscriber Shares of no par value issued at €1 each and 500,000,000,000 (five hundred billion) Shares of no par value, initially designated as unclassified shares. The Subscriber Shares entitle the holders to attend and vote at general meetings of the Company but do

Notes to the Financial Statements

For the financial year ended 30 November 2023 (continued)

9. Share Capital (continued)

not entitle the holders to participate in the profits or assets of the Company except for a return of capital on a winding-up. The Subscriber Shares are not included in the calculation of the NAV per redeemable share.

As at 30 November 2023, Peter Blessing, Victoria Parry, Nathan Lacaze and John Romiza held subscriber shares (fully paid-up) in the Company (30 November 2022: Peter Blessing, Victoria Parry, Nathan Lacaze and John Romiza.)

Shares entitle the holders to attend and vote at general meetings of the Company and to participate equally (subject to any differences between fees, charges and expenses applicable to different classes) in the profits and assets of the Company on the terms and conditions set out in the Prospectus. The Funds have the ability to issue multiple classes of redeemable shares. Each redeemable share within a class represents an identical legal interest in the Funds and has identical rights.

The following redeemable share transactions occurred during the financial years ended 30 November 2023 and 30 November 2022:

As at 30 November 2023 and 30 November 2022, World Allocation 20/80 Fund, World Allocation 40/60 Fund, World Allocation 60/40 Fund and World Allocation 80/20 Fund invested in other Funds of the Company and also other related funds which have appointed the same Investment Manager or other related party entities to provide investment management services to the Company, as disclosed in the Portfolio of Investments. The management fees in relation to the underlying Funds have been waived by the Management Company, and these waivers are disclosed in the Statement of Comprehensive Income.

Peter Blessing, Nathan Lacaze, Catherine L. Newell, Gerard O'Reilly and John Romiza are also directors of the Management Company, Dimensional Ireland Limited.

The Investment Manager, Dimensional Fund Advisors Ltd., of which Victoria Parry, John Romiza and Nathan Lacaze are also directors, acts as the authorised corporate director to another fund range in which certain Funds have made investments.

As at 30 November 2023, Peter Blessing, Victoria Parry, Nathan Lacaze and John Romiza held subscriber shares (fully paid-up) in the Company.

In the opinion of the Directors, the Management Company and the Investment Managers are related parties under FRS 102. Fees earned by these parties and the amounts due at 30 November 2023 and 30 November 2022 are disclosed in the Statement of Comprehensive Income and Statement of Financial Position respectively. The Management Company shall pay the fees of any Investment Manager out of the Management fees. Please refer to note 6 for further details.

Management fees waived and reimbursed during the financial year are disclosed in the Statement of Comprehensive Income.

The following tables detail the number of shareholders with significant holdings of at least 20% of the relevant Fund and the aggregate value and percentage of that holding as at 30 November 2023 and 30 November 2022. One or more of the shareholders may be omnibus accounts, which typically hold shares for the benefit of several other underlying investors.

There have been no other related party transactions for the financial year under review.

11. Risk Management

The requirement of FRS 102 is to provide information about the Company's exposure to material risk and to disclose the Company's policies to manage these risks.

The management of financial instruments is fundamental to the Company's business. The Directors have appointed Dimensional Ireland Limited as the Management Company and an Investment Manager to each Fund. The Company has been established for the purpose of investing in transferable securities in accordance with the UCITS Regulations.

Notes to the Financial Statements

For the financial year ended 30 November 2023 (continued)

11. Risk Management (continued)

The Investment Manager has responsibility for investing and managing the assets of the Funds according to their investment objectives, investments guidelines approved by the Board and policies set forth in the Prospectus and in accordance with the UCITS Regulations. The investment objective for each Fund is outlined in the Principal Activities and Review of the Business section of the Directors' Report in the Annual Report.

The Management Company has appointed Dimensional Fund Advisors Ltd., Dimensional Fund Advisors LP, DFA Australia Limited, Dimensional Fund Advisors Pte. Ltd. and Dimensional Japan Ltd. to provide investment advisory and investment management services to the Management Company.

a) Market Risk

The investments of a Fund are subject to normal capital market fluctuations and to the risks inherent in investment in international securities markets, there can be no assurances that capital appreciation or preservation will occur.

The Company is exposed to market risk, credit risk and liquidity risk. Market risk includes market price risk, currency risk, interest risk and other price risk.

Investment decisions for all Funds are made by the Investment Committee of the Investment Manager. The Investment Committee meets on a regular basis and also as needed to consider investment issues. The Investment Committee is composed of certain officers and Directors of the Investment Manager and its affiliate. The Investment Committee maintains and monitors a list of eligible brokers and dealers to effect securities transactions.

The Investment Committee maintains a specified list of approved markets and countries for each of the Funds. Compliance with these investment guidelines is monitored by the Directors on an ongoing basis. The Investment Manager continually reviews the holdings of the Funds and reviews the trading process and the execution of securities transactions. The Investment Committee of the Investment Manager formally reviews all portfolios on a monthly basis.

The Investment Manager is responsible for determining those securities which are eligible for purchase and sale by those Funds.

The overall market positions are monitored on a quarterly basis by the Board of Directors.

Global exposure

In accordance with the UCITS Regulations issued by the Central Bank of Ireland ("the Central Bank"), the Investment Manager is required to employ a risk management process to monitor the exposure to the Funds from derivatives. The Central Bank requires exposure to be measured in one of two ways, either using the Commitment Approach or Value at Risk ("VaR").

During the financial year, the Commitment Approach was used for all Funds. The Commitment Approach is a methodology that aggregates the underlying market or notional values of derivatives to determine the exposure of the Fund to derivatives.

In accordance with the UCITS Regulations, exposure to derivatives for Funds which use the Commitment Approach must not exceed 100% of the Funds' NAV.

i) Market Price Risk

Market price risk is the risk that the fair value of future cash flows of financial instruments will fluctuate because of changes in market prices.

The maximum price risk resulting from the ownership of financial instruments is determined by the fair value of financial instruments. The Investment Manager may consider the asset allocation of the portfolios in order to diversify the risk associated with individual countries, industry sectors or securities while continuing to follow each Fund's investment objective. Market price risk is managed by the Investment Manager through a careful selection of securities within specified limits and investment mandates. The Valuation Committee of the Investment Manager reviews the appropriateness and accuracy of the methods used in fair valuing securities on a monthly basis.

The exposure to market price risk is illustrated within the Portfolios of Investments.

Each Fund's market price risk is monitored, but not managed, relative to an index. The following tables set out a comparative index for each Fund and quantifies the estimated impact to the value of the NAV for each Fund based on positive and negative movements in the comparable index using Beta for the Equity Funds and duration for the Fixed Income Funds.

Beta is a measure of the Fund's securities volatility in relation to the market or index. Duration is a measure of the Fund's securities volatility in relation to movement in interest rates, expressed in years. Please refer to the table in note 11 (a) (iii) on page 771 for details of the Fixed Income Funds' weighted average years to maturity.

It is the opinion of the Directors that a 5% movement in asset prices of equities is a reasonable assumption upon which to base the sensitivity analysis, the same applies to 1% movement in case of bonds.

Sensitivity analysis as presented in these financial statements is subject to limitations for example:

- the sensitivities are based on historical data and cannot take account of the fact that future market price movements and future performance, correlations between markets and levels of market liquidity in conditions of market stress may bear no relation to historical patterns;
- the market price risk information is a relative estimate of risk rather than a precise and accurate number;

- the market price information represents a hypothetical outcome and is not intended to be predictive; and
- future market conditions could vary significantly from those experienced.

ii) Foreign Currency Risk

Since securities may be denominated in a foreign currency and may require settlement in foreign currencies and pay interest and/or a dividend in foreign currencies, changes in the relationship of these foreign currencies to the functional currency in respect of the Funds can significantly affect the value of the investments and earnings of the Funds. Monetary

Notes to the Financial Statements

For the financial year ended 30 November 2023 (continued)

11. Risk Management (continued)

a) Market Risk (continued)

ii) Foreign Currency Risk (continued)

assets and liabilities denominated in foreign currencies are translated to the functional currency of each Fund at the foreign currency closing exchange rate ruling at the Statement of Financial Position date. Foreign currency exchange differences arising on translation and realised gains and losses on disposals or settlements of monetary assets and liabilities are recognised in the Statement of Comprehensive Income. Non-monetary assets and liabilities denominated in foreign currencies that are measured at fair value are translated to the functional currency of each Fund at the foreign currency exchange rates ruling at the dates that the values were determined.

Foreign investments may also subject the Funds to foreign government exchange restrictions, expropriation, taxation, or other political, social or economic developments, all of which could affect the market and/or credit risk of the investments.

A Fund may 'cross-hedge' on foreign currency exposure by selling a related foreign currency into the functional currency of the Fund. The Investment Manager intends to hedge substantially all of the foreign currency exposure of EUR Accumulation Shares and EUR Distributing Shares into Euros, hedge substantially all of the foreign currency

exposure of SEK Distributing Shares and SEK Accumulation Shares into Swedish Krona, hedge substantially all of the foreign currency exposure of CHF Distributing Shares and CHF Accumulation Shares into Swiss Francs, hedge substantially all of the foreign currency exposure of NOK Distributing Shares and NOK Accumulation Shares into Norwegian Kroner and hedge substantially all the foreign currency exposure of USD Distributing Shares and USD Accumulation Shares into U.S. Dollars.

Euro Inflation Linked Intermediate Duration Fixed Income Fund and Sterling Inflation Linked Intermediate Duration Fixed Income Fund have only base currency denominated investments and as such is not exposed to the significant fluctuations in currency exchange rates. Global Core Fixed Income Fund, Global Short Fixed Income Fund, Global Short-Term Investment Grade Fixed Income Fund, Global Small Companies Fund, Global Sustainability Fixed Income Fund, Global Sustainability Short Fixed Income Fund, Global Ultra Short Fixed Income Fund, World Allocation 20/80 Fund, World Allocation 40/60 Fund, World Allocation 60/40 Fund, World Allocation 80/20 Fund and World Equity Fund held forward contracts as at 30 November 2023 as disclosed in the Portfolio of Investments. The Funds enter into forward foreign currency contracts to hedge against fluctuations in currency exchange rates, to hedge exposure to instruments that are denominated in currencies other than the base currency the Fund and to hedge non-base currency exposure in the share classes to the base currency of the share class.

Notes to the Financial Statements

For the financial year ended 30 November 2023 (continued)

11. Risk Management (continued)

a) Market Risk (continued)

ii) Foreign Currency Risk (continued)

All assets and liabilities held by the Funds are monetary assets and liabilities except for investments in equity type instruments which are defined as non-monetary assets under FRS 102.

The Funds' currency exposure, for monetary and non-monetary assets and liabilities, as at 30 November 2023 was as follows:

Emerging Markets Large Cap Core Equity Fund	Assets and Liabilities	Forward Currency Contracts	Net exposure

The following tables set out a sensitivity analysis in relation to foreign currency risk and its effect on the NAV of each Fund where foreign currency risk is deemed significant (greater than 10% of NAV for the Funds exposed to emerging and developing countries and 5% for all other Funds). Sensitivity analysis is calculated based on +/-10% for the Funds exposed to emerging and developing countries and based on +/-5% on all other investments and cash. Other net assets/(liabilities) are not significant and are assumed unchanged. All other market parameters have also been assumed unchanged.

The sensitivity analysis set out above, should not be used as an indication of future performance.

iii) Interest Rate Risk

The majority of the Company's financial assets and financial liabilities are non-interest bearing, as a result the Company is not subject to a significant amount of risk due to the fluctuations in the prevailing levels of market interest rates, except for the Fixed Income Funds which invest in mainly debt securities. Any excess cash and cash equivalents are invested in short-term market interest rates earning a rate under Sterling Overnight Index Average (SONIA) benchmark or invested in money market funds.

The fixed-income investments in which a Fund may invest are interest rate sensitive and may be subject to price volatility due to such factors including, but not limited to, changes in interest rates, market perception of the creditworthiness of the issuer and general market liquidity.

The magnitude of these fluctuations will be greater when the maturity of the outstanding investments is longer. An increase

in interest rates will generally reduce the value of fixed-income securities, while a decline in interest rates will generally increase the value of fixed-income securities.

Notes to the Financial Statements

For the financial year ended 30 November 2023 (continued)

11. Risk Management (continued)

a) Market Risk (continued)

iii) Interest Rate Risk (continued)

The interest rate risk in the Fixed Income Funds is managed by (a) generally limiting the maturity of any individual security to 2 years for Global Ultra Short Fixed Income Fund, 5 years for Global Short Fixed Income Fund, Global Short-Term Investment Grade Fixed Income Fund, and Global Sustainability Short Fixed Income Fund, 15 years Global Core

Fixed Income Fund and Global Sustainability Fixed Income Fund and 20 years for Euro Inflation Linked Intermediate Duration Fixed Income Fund and Sterling Inflation Linked Intermediate Duration Fixed Income Fund and (b) not using leverage.

The estimated impact to the value of the NAV due to movement in interest rates has been disclosed in the market price risk tables on pages 749 and 750.

The weighted average yield to maturity and weighted average years to maturity on fixed income securities held by the Fixed Income Funds as at 30 November 2023 and 30 November 2022 is outlined below:

Currency	30 November 2023		30 November 2022	
	Weighted Average Yield*	Weighted Average Years to Maturity	Weighted Average Yield*	Weighted Average Years to Maturity
Euro Inflation Linked Intermediate Duration Fixed Income Fund				
Euro	0.72%	7.95	(0.12)%	8.84
Global Core Fixed Income Fund				
Pound Sterling	5.28%	8.70	4.51%	7.77
Global Short Fixed Income Fund				
Euro	4.10%	0.85	2.12%	1.99
Global Short-Term Investment Grade Fixed Income Fund

Pound Sterling	5.22%	8.67	4.51%	7.70
Global Sustainability Short Fixed Income Fund				
Pound Sterling	5.15%	2.29	4.37%	3.08
Global Ultra Short Fixed Income Fund				
Pound Sterling	5.70%	0.52	4.11%	0.89
Sterling Inflation Linked Intermediate Duration Fixed Income Fund				
Pound Sterling	0.83%	9.14	(0.50)%	9.02

* Yield is based on real yield which includes adjustments for inflation and not the nominal yield.

The table below summarises the relevant Fund's exposure to interest rate risks. It includes each relevant Fund's assets and liabilities at fair values, categorised by the earlier of contractual re-pricing or maturity dates.

The Funds not mentioned below are mainly investing in non-interest bearing assets or its investments have a very short time to maturity. As a result, those Funds are not subject to significant amounts of risk due to fluctuations in the prevailing levels of market interest rates.

As at 30 November 2023:

Fund Name	Ccy	Up to 1 year '000	1 to 5 years '000	Over 5 years '000	Non-interest bearing '000	Net Assets '000

b) Credit Risk

Credit risk is the risk that a counterparty to or issuer of a financial instrument will fail to discharge an obligation or commitment that it has entered into with the Funds. The Funds are exposed to credit risk on parties with whom it trades and will also bear the risk of settlement default.

All transactions in exchange traded securities are settled/paid for upon delivery using approved brokers. The risk of default is considered minimal, as delivery of securities sold is only made once the broker has received payment. Payment is made on a purchase once the securities have been received by the broker in all developed countries. The trade will fail if either party fails to meet their obligation. In certain emerging markets countries, the Fund settles with the settlement house one day prior to the counterparty settlement. However the transaction will still fail if the counterparty does not settle the transaction.

As of 30 November 2023, each of the Fixed Income Funds have specific exposure to credit risk on the issuer of debt securities in which it invests which will vary depending on the issuer's ability to make principal and interest payments on the obligation. The average credit quality of the Fixed Income Funds are outlined in the table below. Each of the Fixed Income Funds can purchase securities which must have a minimum long term rating as per the Funds investment objective. If the long-term rating is not available, securities must have a minimum short-term rating as per the investment objectives. The credit ratings are monitored daily by the Investment Manager through a ratings update feed and a news check.

The credit quality breakdown of the Fixed Income Funds is as follows:

Fund	Rating	30 November 2023	30 November 2022
Euro Inflation Linked Intermediate Duration Fixed Income Fund	AAA	12.88%	13.55%
	AA	87.12%	86.45%

World Allocation 20/80 Fund*	AAA	-	39.62%
	AA	-	48.23%
	A	-	12.15%

* Global Core Fixed Income Fund, Global Short Fixed Income Fund, Global Short-Term Investment Grade Fixed Income Fund, Global Small Companies Fund, Global Sustainability Fixed Income Fund, Global Sustainability Short Fixed Income Fund, Global Ultra Short Fixed Income Fund, World Allocation 20/80 Fund, World Allocation 40/60 Fund, World Allocation 60/40 Fund, World Allocation 80/20 Fund and World Equity Fund are also exposed to counterparty default on the open forward contracts in which they trade.

Transactions involving derivative financial instruments are with counterparties with whom the Company has master netting agreements which provide for the net settlement for contracts with the same counterparty in the event of default. The credit risk associated with derivative financial assets subject to a master netting arrangement is eliminated only to the extent that financial liabilities due to the same counterparty will be settled after the assets are realised. All forward exchange currency contracts are traded with counterparties. Detail of credit risk associated with security lending and repurchase agreements is disclosed in note 4 of these financial statements.

The Investment Manager's approved list of counterparties is generally limited to the most highly rated and recognised dealers in their sectors. The Investment Manager performs ongoing monitoring of this list. Counterparty/issuer risk is monitored on an ongoing basis in the following manner:

- Approved broker selection - the trading system only permits trading with approved brokers. New brokers are added, subject to a formal review process that includes a review of the broker's creditworthiness, financial strength, ability to enter into legally enforceable arrangements and standing in the financial community.
- Broker monitoring - performed through a variety of ongoing activities, including the assessment of certain regulatory filings and financial statements.
- Measurement and monitoring of counterparty or issuer trade exposure - a daily review of outstanding positions is performed.

The risk exposure of a Fund to a counterparty to an Over the Counter ("OTC") derivative may not exceed 10% of net assets.

The Company's Depository is State Street Custodial Services (Ireland) Limited. The Depository has appointed State Street Bank and Trust Company (the "Sub-Custodian") as its global Sub-Custodian.

All of the Company's assets are held by the Depository and the Sub-Custodian. The Company's non-cash assets are maintained by the Depository in segregated accounts so that in the event of

the Depository's insolvency or bankruptcy the Company's noncash assets are segregated and protected and this further reduces counterparty risk. While cash held by the Depository or any depository will be identifiable as belonging to the Fund, the Company will be exposed to the credit risk of the Depository or any depository where cash is deposited. In the event of the insolvency of the Depository or any depository, the Company will be treated as a general creditor of the Depository or other depository in relation to cash holdings of the Company.

Bankruptcy or insolvency of the Depository may cause the Funds' rights with respect to the cash held by the Depository to be delayed or limited. The long term credit rating of the parent company of the Depository and Sub-Custodian, State Street Corporation, as at financial year ended 30 November 2023 is A1 (30 November 2022: A1). If the credit quality or financial position of the Depository deteriorated significantly the Board would consider moving the custodian relationship to another bank. As at 30 November 2023 and 30 November 2022, the total amount of financial assets exposed to credit risk approximates to their carrying value in the Statement of Financial Position.

The Company has granted a continuing security interest by way of a charge over the assets of each Fund to the Depository and its affiliates, pursuant to the Depository Agreement dated 6 October 2020 between the Company, the Depository and State Street Bank and Trust Company, as continuing security for payment, discharge and performance of the obligations of the relevant Fund.

For efficient portfolio management purposes, each Fund may enter into securities lending agreements subject to the conditions and limits set out in the UCITS Regulations.

Until the expiry of the security lending transactions, collateral in relation to such contracts or transactions:

- must be marked to market daily;
- must equal or exceed, in value at all times, the value of the amount invested or securities loaned as disclosed in note 4;
- must be transferred to the securities lending agent; and

Notes to the Financial Statements

For the financial year ended 30 November 2023 (continued)

11. Risk Management (continued)

b) Credit Risk (continued)

- (iv) immediately be available to the relevant Fund without recourse to the counterparty in the event of default of that counterparty.

The Funds participate in security lending which is executed through the securities lending agent. As such the Funds are exposed to an underlying exposure to the credit risk and risk that the borrower may default. The Funds benefit from a borrower default indemnity provided by State Street Bank and Trust Company. A list of eligible borrowers is maintained by the securities lending agent. Minimum credit rating of an eligible borrower is AA by Standard & Poors or its equivalent or if loan is indemnified no minimum rating. If the credit rating falls below the minimum credit rating, the securities lending agent can terminate the securities lending arrangement.

Collateral is held and monitored by the securities lending agent with the Depository undertaking an overview of this on a periodic basis.

The Company has entered into repurchase agreements with approved counterparties: Citigroup, JP Morgan, Merrill Lynch and Societe Generale rated BBB+, A-, A+ and A respectively (30 November 2022: Citigroup, JP Morgan, Merrill Lynch and Societe Generale rated BBB+, A-, A+ and A respectively).

c) Liquidity Risk

Liquidity risk is the risk that the Funds will encounter difficulty in meeting obligations associated with financial liabilities.

Emerging market securities may decline or fluctuate because of economic and political actions of emerging market governments and less regulated or liquid securities markets. Investors holding the securities are also exposed to the possibility that an emerging market currency will fluctuate against the base currency of the relevant Fund.

The legislative framework in emerging market countries for the purchase and sale of investments and in relation to the beneficial interests in those investments may be relatively new and untested. There can be no assurance regarding how the courts or agencies of emerging market countries will react to questions arising from the Funds' investments in such countries and arrangements contemplated in relation thereto.

The Investment Manager performs liquidity analysis on the Fund on a monthly basis. The number of potentially illiquid assets held in the Fund is minor.

The Company is exposed to daily cash redemptions of redeemable shares. It therefore invests the majority of its assets in investments that are traded in an active market and can be readily disposed of; it invests only a limited proportion of its assets in investments not actively traded on a stock exchange. The

Company's listed securities are considered readily realisable as they are listed on recognised and established stock exchanges. The Administrator monitors subscription and redemption volumes and notifies the Investment Manager of significant movements and unusual trends as appropriate.

If outstanding redemption requests from shareholders of any Fund for any dealing day exceed in the aggregate more than 10% of all the outstanding shares of that Fund, the Directors shall be entitled at their discretion to refuse to redeem such excess shares. If the Directors refuse to redeem shares for these reasons, the requests for redemption on such date shall be reduced rateably and the Company shall treat the balance of such redemption requests as if they were received on each subsequent dealing day until all the shares to which the original request related have been redeemed.

The liabilities presented in the Statement of Financial Position are typically payable within the following periods:

Less than 1 month

Payable for shares repurchased
Payable for securities purchased
Distributions payable

Less than 3 months

Management fees payable
Accrued expenses

More than 3 months

Payable under securities loan agreements
Capital gains tax payable
Unrealised losses on forward contracts

Certain Funds may have a concentrated Shareholder base where Shareholders hold a significant portion of the net assets of a Fund. This exposes other Shareholders in the Fund to certain risks. These risks include the risk that a large portion of the assets of a Fund may be redeemed on any day which could impact the overall viability of the Fund or could impact the ability of other Shareholders, who have not submitted redemption requests on that day, to redeem from the Fund e.g. where it may be necessary to impose a redemption gate. Funds that are exposed to significant concentration risk as they have Shareholders who own more than 20% of the Net Assets of the Fund, are disclosed in Note 10. Such concentration of Shareholders' interests could have a material effect on the Fund in the event this Shareholder requests the withdrawal of substantial amounts of capital.

d) Fair Value Estimation

The fair value of the financial instruments traded in active markets such as publicly traded derivatives and trading securities is based on quoted market prices at the Statement of Financial Position date. The quoted market price at the valuation point used for bonds traded on a regulated market held by the Company can be last traded price or quoted mid price depending on the bond type. Securities other than bonds which are traded on a regulated market will be issued at the last traded prices at the relevant valuation point. When a "readily available market quotation" for a

Notes to the Financial Statements

For the financial year ended 30 November 2023 (continued)

11. Risk Management (continued)

d) Fair Value Estimation (continued)

security is not available, the Company employs "fair value" methodologies to price securities. As a general principle, fair value is the price that the Fund might reasonably expect to receive upon a current sale. The fair valuation process requires the Investment Manager to make a determination in good faith as to the value of a particular security or group of securities depending on the particular facts and circumstances involved. Circumstances in which a market quotation is not readily available may include, trading suspensions prior to the close of the relevant market; events that unexpectedly close entire markets such as natural disasters, power blackouts, or similar major events; market holidays; or volume of trading in a security.

When a market quotation for a security is not available and a fair valuation is being determined, the Investment Manager may consider all relevant methods, including but not limited to any one or all of the following pricing methods:

1. A multiple of earnings;
2. A discount from market of a similar freely traded security;
3. A discounted cash-flow analysis;
4. The book value or a multiple thereof;
5. A risk premium/yield analysis;
6. Yield to maturity; or
7. Fundamental investment analysis.

No material investments were valued using these techniques as at 30 November 2023.

Investments measured and reported at fair value are classified and disclosed in one of the following fair value hierarchy levels based on the significance of the inputs used in measuring its fair value. These levels are the fair value hierarchy levels per FRS 102.

Level 1 inputs are unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity has the ability to access at the valuation date. An active market for the asset or liability is a market in which transactions for the asset or liability occur with sufficient frequency and volume to provide pricing information on an ongoing basis.

Level 2 inputs are inputs other than quoted prices in active markets included within Level 1 that are observable for the asset or liability, either directly or indirectly. Fair value is determined through the use of models or other valuation methodologies.

Level 2 inputs include the following:

- a) Quoted prices for similar assets or liabilities in active markets;
- b) Quoted prices for identical or similar assets or liabilities in markets that are not active, that is, markets in which there are few transactions for the asset or liability, the prices are not current, or price quotations vary substantially either over time or among market makers, or in which little information is released publicly;
- c) Inputs other than quoted prices that are observable for the asset or liability (e.g. interest rate and yield curves observable at commonly quoted intervals, volatilities, prepayment speeds, loss severities, credit risks and default rates); and
- d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 inputs are unobservable inputs for the asset or liability. Unobservable inputs reflect the Company's own assumptions about how market participants would be expected to value the asset or liability. Unobservable inputs are developed based on the best information available in the circumstances, other than market data obtained from sources independent of the Company and might include the Company's own data.

An investment is always categorised as Level 1, 2 or 3 in its entirety. In certain cases, the fair value measurement for an investment may use a number of different inputs that fall into different levels of the fair value hierarchy. In such cases, an investment's level within the fair value hierarchy is based on the lowest level of input that is significant to the fair value measurement. The assessment of the significance of a particular input to the fair value measurement requires judgment and is specific to the investment.

The inputs or methodology used for valuing securities are not necessarily an indication of the risk associated with investing in these securities.

Notes to the Financial Statements

For the financial year ended 30 November 2023 (continued)

* World Sustainability Equity Fund launched on 28 March 2023.

There were no Level 3 securities held during the financial years ended 30 November 2023 and 30 November 2022.

Securities of the aggregated market value of EUR1,495,708 were transferred from Level 1 to Level 2 during the financial year ended 30 November 2023 (30 November 2022: EUR583,427). During the same time securities of the aggregated market value of EUR406,981 were transferred from Level 2 to Level 1 (30 November 2022: EUR6,062,036).

Management continue to monitor the ongoing conflict in Ukraine and its impact on the securities held by the sub-funds. Reliable price quotations for Russian securities, including Russian depositary receipts trading outside of Russia that are held by the sub-funds, continue to be difficult to obtain, requiring the Investment Manager to estimate prices for such depositary receipts using other market information, which in turn may also be more difficult to obtain and validate.

As of 30 November 2023, the Emerging Markets Large Cap Core Equity Fund, Emerging Markets Sustainability Core Equity Fund, Emerging Markets Value Fund and World Equity Fund exposure to Russian securities through investment in depositary receipts have been fair valued by the Investment Manager with a market value of Nil.

12. Foreign Exchange Rates

At 30 November 2023 an exchange rate of 1.0762 (30 November 2022: 1.0643) was used to translate the Statement of Comprehensive Income of Emerging Markets Large Cap Core Equity Fund, Emerging

Markets Sustainability Core Equity Fund, Emerging Markets Value Fund, Global Core Equity Fund, Global Short-Term Investment Grade Fixed Income Fund, Global Small Companies Fund, Global Sustainability Core Equity Fund, Global Sustainability Targeted Value Fund, Global Targeted Value Fund, Global Value Fund, Pacific Basin Small Companies Fund, U.S. Core Equity Fund and U.S. Small Companies Fund from USD to EUR.

At 30 November 2023 an exchange rate of 0.8690 (30 November 2022: 0.8512) was used to translate the Statement of Comprehensive Income of Global Core Fixed Income Fund, Global Sustainability Fixed Income Fund, Global Sustainability Short Fixed Income Fund, Global Ultra Short Fixed Income Fund, Sterling Inflation Linked Intermediate Duration Fixed Income Fund, World Allocation 20/80 Fund, World Allocation 40/60 Fund, World Allocation 60/40 Fund, World Allocation 80/20 Fund, World Equity Fund and World Sustainability Equity Fund from GBP to EUR.

13. Derivative Financial Instruments

A Fund may employ investment techniques and instruments for efficient portfolio management of its assets including hedging against market movements, currency exchange or interest rate risks, under the conditions and within the limits stipulated by the Central Bank under the UCITS Regulations. A Fund may use such investment techniques and instruments only where their use is, in the opinion of the Investment Manager, consistent with the investment policies of that Fund. In particular, a Fund may lend its securities, enter repurchase and reverse repurchase agreements, call options, spot and forward contracts and financial futures. The total exposure of a Fund including but not limited to its exposure from the use of any derivative instruments, may not exceed the total net assets of the Fund.

As at 30 November 2023, Global Core Fixed Income Fund, Global Short Fixed Income Fund, Global Short-Term Investment Grade Fixed Income Fund, Global Small Companies Fund, Global Sustainability Fixed Income Fund, Global Sustainability Short Fixed Income Fund, Global Ultra Short Fixed Income Fund, World Allocation 20/80 Fund, World Allocation 40/60 Fund, World Allocation 60/40 Fund, World Allocation 80/20 Fund and World Equity Fund had investments in forward currency contracts which were utilised for efficient portfolio management purposes (30 November 2022: Emerging Markets Large Cap Core Equity Fund, Emerging Markets Value Fund, Global Core Fixed Income Fund, Global Short Fixed Income Fund, Global Short-Term Investment Grade Fixed Income Fund, Global Sustainability Fixed Income Fund, Global Sustainability Short Fixed Income Fund, Global Ultra Short Fixed Income Fund, World Allocation 20/80 Fund, World Allocation 40/60 Fund, World Allocation 60/40 Fund and World Allocation 80/20 Fund had investments in forward currency contracts which were utilised for efficient portfolio management purposes). Any gains or losses from these forward currency contracts are assigned solely to the relevant non-base currency class.

As at 30 November 2023, none of the Funds invested in futures contracts (30 November 2022: U.S. Small Companies Fund invested in futures contracts).

Notes to the Financial Statements

For the financial year ended 30 November 2023 (continued)

13. Derivative Financial Instruments (continued)

The direct and indirect operational costs arising from these forward currency contracts cannot practically be split from the total return of the instrument. The realised and unrealised gains and losses on forward currency contracts and futures contract are included within net gain/(loss) on financial assets at fair value through profit or loss in the Statement of Comprehensive Income. Details of the exposure obtained and counterparties to the settlement of these forward currency contracts and futures contract are disclosed in the Portfolio of Investments.

As at 30 November 2023, a number of Funds have also entered into securities lending agreements for the purposes of efficient portfolio management. Please refer to note 4 for further details.

14. Distributions

The Directors may declare dividends in respect of any shares out of net income (including dividend and interest income) and the excess of realised and unrealised capital gains over realised and unrealised losses in respect of investments of the Company. Paid and proposed distributions to redeemable participating shares are classified as finance costs in the Statement of Comprehensive Income.

The Directors anticipate that there will be no dividend distributions in respect of the accumulation classes of the Funds. Accordingly, income and capital gains arising in respect of the accumulation classes of the Funds will be re-invested in the relevant Fund and reflected in the NAV per share of the relevant Fund.

Distributions for the financial years ended 30 November 2023 and 30 November 2022 were as follows:

	Emerging Markets Large Cap Core Equity Fund		Emerging Markets Sustainability Core Equity Fund		Emerging Markets Value Fund

Add: Income deducted on cancellation of shares	380	448	240	71	81	42
Deduct: Income received on issue of shares	(111)	(152)	(72)	(91)	(114)	(77)
Net distribution for the financial year	1,800	1,620	1,532	1,434	1,399	1,064

The Directors anticipate making dividend distributions in respect of the distributing classes of the Funds. Accordingly, any income arising in respect of the distributing classes of the Funds will be distributed to investors in the relevant Fund in accordance with their respective shareholdings.

Dividends of the GBP distributing classes, if any are declared by the Directors, will normally be paid for the financial periods ending 31 May and 30 November. Dividends of the JPY distributing classes and SGD distributing classes, if any are declared by the Directors, will normally be paid for the financial periods ending 28 February, 31 May, 31 August and 30 November. Dividends of the other distributing classes will normally be declared by the Directors for the period ending 30 November.

The Directors do not expect to declare a dividend in respect of any class where it would be uneconomical to pay such dividend to shareholders.

Notes to the Financial Statements

16. Use of Soft Commission and Brokerage Services

The Company pays no brokerage services and soft commission through commission sharing arrangements.

17. Commitments and Contingent Liabilities

As at 30 November 2023 and 30 November 2022, the Company did not have commitments or contingent liabilities to be presented in the Statement of Financial Position.

18. Significant Events after the Financial Year End

An updated Prospectus was issued on 20 February 2024 which included the following changes:

- To update disclosures and definition of "Permitted U.S. Person" to clarify that the sub-funds no longer rely on Regulation D but can rely on Regulation S.
- To remove reference to a repealed section of UK legislation, section 264 of the Financial Services and Markets Act 2000.
- To update the minimum market capitalisation amounts for a company, as at 30 September 2023, as provided in the investment policies of several sub-funds.
- To update the list of funds being issued at initial offer price or net asset value, where a class has launched.
- To reflect the Dimensional Ireland registered office and description for its issued share capital.
- To update the list of delegates of the Depositary in Appendix III.
- To align the disclosure in pre-contractual templates of the Sustainability sub-funds in Appendix IV.

- Other immaterial updates to improve style and readability.

The First Addendum to the Prospectus dated 20 February 2024 was issued on 8 March 2024 to add a new JPY accumulation class to the World Equity Fund.

There were no other significant events after the financial year end which required adjustment to, or disclosure in, these financial statements.

19. Approval of Financial Statements

The financial statements were approved by the Directors on 11 March 2024.

Statement of Portfolio Changes (unaudited)

for the financial year ended 30 November 2023

In accordance with the Central Bank (Supervision and Enforcement) Act, 2013 (Section 48(1)) (Undertakings for Collective Investment in Transferable Securities) Regulations, 2019, a statement of the largest changes in the composition of the Portfolio of Investments during the financial year is provided to ensure that shareholders can identify changes in the investments held by the Fund. These statements present the aggregate purchases and sales of an investment exceeding 1.00% of the total value of purchases and sales for the financial year or at least the top 20 purchases and sales. Should there have been less than that amount of transactions, all such transactions have been disclosed.

Remuneration Policy of the Manager (unaudited)

The Manager has established a remuneration policy (the "Remuneration Policy"). The Remuneration Policy complies with the UCITS Regulations regarding remuneration and is designed so that the Manager's remuneration practices, for those staff in scope of the applicable rules:

- (i) are consistent with and promote sound and effective risk management;
- (ii) do not encourage risk taking and are consistent with the risk profile and constitutional documents of the Manager;
- (iii) do not impair the Manager's compliance with its duty to act in the best interests of the Funds; and
- (iv) include fixed components of remuneration.

When applying the Remuneration Policy, the Manager will comply with the UCITS Regulations in a way, and to the extent, that is appropriate to the size, internal organisation and the nature, scope and complexity of the Manager's activities.

Further details will be available on the Manager's website www.dimensionalfunds.com. A paper copy of this information provided on the website is available free of charge following a request to the Manager.

Product name:
Emerging Markets Sustainability Core Equity Fund

Legal entity identifier:
549300OY2XBGDINEI032

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of **0.08%** of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The fund attained the following E/S characteristics:

1. Lower exposure to companies with high **greenhouse gas emissions**: The fund reduced its weighted average **carbon intensity** exposure relative to the fund's eligible market universe by at least 50%
2. Lower exposure to companies owning **coal, oil and gas reserves**: The fund reduced its weighted average **potential emissions from reserves** exposure relative to the fund's eligible market universe by at least 75%
3. Exclusion of companies with **adverse environmental impacts** through material involvement in business activities related to palm oil, factory farming or coal
4. Exclusion of companies with **adverse social impacts** through material involvement in business activities related to adult entertainment, alcohol, gambling, tobacco, civilian firearms, controversial weapons (e.g. cluster munitions, anti-personnel mines, chemical and biological weapons or depleted uranium ammunition and armour), nuclear weapons or private prisons
5. Exclusion of companies identified as operating in a manner inconsistent with **responsible business conduct standards**, such as those defined by the UN Global Compact Principles and the OECD Guidelines for Multinational Enterprises, because of material involvement in severe controversies related to the environment (e.g. land use and biodiversity, toxic spills and releases, operational waste or water management), society (e.g. child labour or human rights) or corporate governance (e.g. corruption or fraud)

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Additionally, the fund held a low proportion of sustainable investments with an environmental objective that qualify as environmentally sustainable under the EU Taxonomy (climate change mitigation) due to its broad diversification across companies and sectors.¹

Details on the promoted E/S characteristics and further sustainability-related disclosures are available at www.dimensional.com/SFDR.

● **How did the sustainability indicators perform?**

The sustainability indicators are monitored on a regular basis to ensure that the E/S characteristics are maintained throughout the fund's lifecycle. As at 30 November 2023, the indicators were as follows:

Sustainability indicator		Fund ²	Market ³	Relative
Carbon intensity (weighted average, in tons CO ₂ e / \$m sales)		78	337	-77%
Potential emissions from reserves (weighted average, in megatons CO ₂)		0	448	-100%
Exclusions (weight)	Environmentally adverse activity involvement	–	4.1%	
	Socially adverse activity involvement	–	2.2%	
	Business conduct controversy involvement	–	0.8%	

Companies where carbon intensity data is not available are assigned a sector average. Companies where potential emissions from reserves data is not available are assigned zero emissions. More information about the methodologies and limitations of the sustainability indicators are included in the fund's website disclosure available at www.dimensional.com/SFDR.

● **...and compared to previous periods?**

Sustainability indicator		2023	2022
Carbon intensity (weighted average, fund ² relative to market ³)		-77%	-72%
Potential emissions from reserves (weighted average, fund ² relative to market ³)		-100%	-100%
Exclusions (weight)	Fund ²	–	–
	Market ³	6.5%	6.9%
<i>Proportion of investments aligned with E/S characteristics</i>		99.6%	99.3%

Weights of exclusions are aggregated and adjusted to account for companies with multiple involvements. The indicators are not subject to an assurance provided by an auditor or reviewed by a third party.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Investment Manager considered the proportion of a portfolio company's disclosed EU taxonomy-aligned economic activities as a sustainable investment. As such, all sustainable investments were aligned with the EU taxonomy and therefore contributed to an environmental objective as stated above.

1. Proportions of taxonomy alignment that amount to 0 basis points when rounded were disregarded in this periodic report.
2. Generally reflects the *financial assets at fair value through profit or loss* (the *total investments*) of the fund. Other remaining assets, such as cash and cash equivalents, are not considered in the table and are further outlined below. Holdings data is derived from the Investment Manager's Investment Book of Record.
3. Represents the fund's eligible market universe, which is a list of securities eligible for the fund prior to the application of the fund's investment strategy, weighted according to their market capitalisation. The list generally consists of a broad and diverse group of securities traded in approved countries as defined in the Prospectus of the fund.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**
- **How were the indicators for adverse impacts on sustainability factors taken into account?**
The Investment Manager only considered EU taxonomy-aligned investments as sustainable investments. A company must take into account adverse impacts on sustainability factors when disclosing EU taxonomy-aligned economic activities.
- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**
Yes. A company must be aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights when disclosing EU taxonomy-aligned economic activities.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As at 30 November 2023, the fund considered the following principal adverse impacts on sustainability factors (PAIs) as outlined in the Sustainable Finance Disclosure Regulation (SFDR):

PAI category	PAI	Actions taken
Greenhouse gas emissions (GHG)	GHG emissions ¹	Reduced carbon intensity and potential emissions from reserves exposure as outlined above.
	Carbon footprint ¹	
	GHG (emissions) intensity of investee companies ¹	
	Exposure to companies active in the fossil fuel sector ²	
Biodiversity, water, waste	Activities negatively affecting biodiversity-sensitive areas	Exclusion of companies identified as operating in a manner inconsistent with responsible business conduct standards as outlined above.
	Emissions to water	
	Hazardous and radioactive waste	
Social and employee matters	Violations of United Nations Global Compact (UNGC) Principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Additionally, if a company’s business conduct is identified to be inconsistent with the responsible business conduct standards, but not to the extent that the concern merits an exclusion, then the Investment Manager may halt additional investment in the company and seek further review within its Investment Stewardship Group.
	Exposure to controversial weapons	Exclusion of companies with adverse social impacts as outlined above.

1. Scope 1 & 2 emissions.
 2. See page 5 for details.
 Indicators applicable to investments in portfolio companies.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **01 December 2022 – 30 November 2023**

Largest investments	Sector	% Assets	Country
TAIWAN SEMICONDUCTOR MANUFAC	Information Technology	3.1	Taiwan
TENCENT HOLDINGS LTD	Communication Services	2.9	China

Top 15 investments based on fund weights at the end of February, May, August and November 2023, ranked by an investment’s average weight over these dates. The table generally reflects the *financial assets at fair value through profit or loss* (the *total investments*) of the fund. Other remaining assets, such as cash and cash equivalents, are not considered in the table and are further outlined below. Holdings data is derived from the Investment Manager’s Investment Book of Record.

Sectors based on GICS. GICS was developed by and is the exclusive property of MSCI and S&P Dow Jones Indices LLC, a division of S&P Global.

What was the proportion of sustainability-related investments?

● What was the asset allocation?

As at 30 November 2023, the fund invested in direct holdings and **99.60% of its investments were aligned with the E/S characteristics (#1)** promoted by the fund. Remaining positions were included under Other (#2) and are further outlined below.

While the fund did not seek to obtain a minimum proportion of sustainable investments or EU taxonomy-aligned investments, a proportion of **0.08%** of the fund’s investments were EU taxonomy-aligned. Of these investments, **0.04%** contributed to the environmental objective of climate change mitigation. The environmental objectives under the EU Taxonomy to which the remaining **0.03%** contributed could not be determined due to insufficient data.

The actual asset allocation is monitored on a regular basis to ensure that the planned asset allocation, as outlined in the Prospectus, is maintained throughout the lifecycle of the fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● **In which economic sectors were the investments made?**

As at 30 November 2023, the fund was broadly diversified across a range of sectors and its exposure to companies active in the fossil fuel sector was low. This exposure can include companies with a small proportion of revenues from fossil fuel activities, such as large food retailers operating petrol stations. More details can be found in the following table:

Sector	All positions	Companies active in the fossil fuel sector ¹	
	% Assets	% Assets	Largest sub-sector
Communication Services	7.9	–	
Consumer Discretionary	12.5	0.3	Automotive Retail
Consumer Staples	5.6	1.0	Packaged Foods & Meats
Energy	1.7	1.5	Oil & Gas Refining & Marketing
Financials	20.0	–	
Health Care	6.1	–	
Industrials	10.5	0.5	Industrial Conglomerates
Information Technology	22.0	–	
Materials	7.9	0.2	Commodity Chemicals
Real Estate	3.4	0.0	Real Estate Development
Utilities	2.3	0.9	Gas Utilities
Other	0.0	–	
Total	100.0	4.4	Oil & Gas Refining & Marketing

1. Companies with revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels. Data was available for 96% of the positions in the fund. The table generally reflects the *financial assets at fair value through profit or loss* (the *total investments*) of the fund. Other remaining assets, such as cash and cash equivalents, are not considered in the table and are further outlined below. Holdings data is derived from the Investment Manager's Investment Book of Record. Numbers may not total 100% due to rounding. Sectors based on GICS. GICS was developed by and is the exclusive property of MSCI and S&P Dow Jones Indices LLC, a division of S&P Global.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

All sustainable investments were aligned with the EU taxonomy. The compliance of those investments with the requirements laid down in Article 3 of Regulation (EU) 2020/852 were not subject to an assurance provided by an auditor or reviewed by a third party.

Information about the degree to which the investments were EU taxonomy-aligned were not readily available from public disclosures by most portfolio companies. The Investment Manager did not obtain equivalent information directly from portfolio companies or from third party providers.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

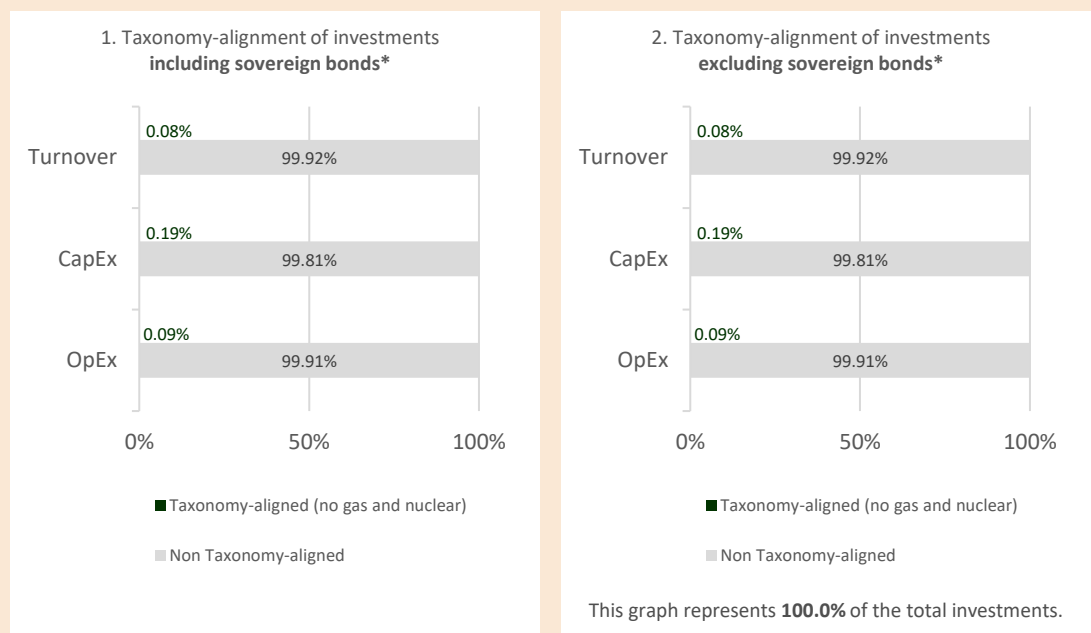

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The fund made investments in transitional (0.01%) and enabling activities (0.03%).

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

EU taxonomy-aligned investments	2023	2022
Environmental objectives	0.08%	–

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

As at 30 November 2023, Other (#2) comprised remaining assets, which included *cash and cash equivalents* held for ancillary liquidity (0.40%). No specific environmental or social safeguards were applied to Other (#2).

The remaining assets reflect assets that were under the discretion of the Investment Manager but that were not included in the *financial assets at fair value through profit or loss* (the *total investments*) of the fund.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The investment strategy used to meet the E/S characteristics is reflected in the fund’s portfolio design and is implemented on a continuous basis by the Investment Manager’s Portfolio Management and Trading Group. Additionally, the Compliance Department of the Investment Manager employs controls to verify that the E/S characteristics promoted by the fund are attained on an ongoing basis.

The Investment Manager has implemented a policy to evaluate the governance practices of portfolio companies. If a company fails the good governance test, the Investment Manager will cease further investments in the company and will assess whether divestment is merited.

The Investment Manager engages with company management and board members at portfolio companies through phone calls, virtual meetings, in-person meetings, or written correspondence.¹ The topics prioritised for engagement may vary by region and country, but in all cases, engagements are tied to the Manager’s key stewardship priority areas (board structure and composition, material environmental and social risks, shareholder rights, and executive compensation). For instance, the Manager engages with companies to encourage the adoption of robust policies and procedures for managing risk (including environmental and social risk) and effective board oversight. The goal of engagement efforts is to encourage companies to improve their corporate governance in these areas, which may result in increased valuations through a combination of lower discount rates and higher cash flows.

1. The Investment Manager discusses governance matters with portfolio companies to represent client interests; however, the Investment Manager on behalf of its clients, regardless of such conversations, acquires securities solely for the purpose of investment and not with the purpose or intended effect of changing or influencing the control of any portfolio company.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective: ___%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: ___%**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of **0.57%** of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The fund attained the following E/S characteristics:

1. Lower exposure to companies with high **greenhouse gas emissions**: The fund reduced its weighted average **carbon intensity** exposure relative to the fund's eligible market universe by at least 50%
2. Lower exposure to companies owning **coal, oil and gas reserves**: The fund reduced its weighted average **potential emissions from reserves** exposure relative to the fund's eligible market universe by at least 75%
3. Exclusion of companies with **adverse environmental impacts** through material involvement in business activities related to palm oil, factory farming or coal
4. Exclusion of companies with **adverse social impacts** through material involvement in business activities related to adult entertainment, alcohol, gambling, tobacco, civilian firearms, controversial weapons (e.g. cluster munitions, anti-personnel mines, chemical and biological weapons or depleted uranium ammunition and armour), nuclear weapons or private prisons
5. Exclusion of companies identified as operating in a manner inconsistent with **responsible business conduct standards**, such as those defined by the UN Global Compact Principles and the OECD Guidelines for Multinational Enterprises, because of material involvement in severe controversies related to the environment (e.g. land use and biodiversity, toxic spills and releases, operational waste or water management), society (e.g. child labour or human rights) or corporate governance (e.g. corruption or fraud)

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Additionally, the fund held a low proportion of sustainable investments with an environmental objective that qualify as environmentally sustainable under the EU Taxonomy (climate change mitigation) due to its broad diversification across companies and sectors.¹

Details on the promoted E/S characteristics and further sustainability-related disclosures are available at www.dimensional.com/SFDR.

● **How did the sustainability indicators perform?**

The sustainability indicators are monitored on a regular basis to ensure that the E/S characteristics are maintained throughout the fund's lifecycle. As at 30 November 2023, the indicators were as follows:

Sustainability indicator		Fund ²	Market ³	Relative
Carbon intensity (weighted average, in tons CO ₂ e / \$m sales)		30	113	-73%
Potential emissions from reserves (weighted average, in megatons CO ₂)		–	133	-100%
Exclusions (weight)	Environmentally adverse activity involvement	–	2.5%	
	Socially adverse activity involvement	–	3.9%	
	Business conduct controversy involvement	–	1.1%	

Companies where carbon intensity data is not available are assigned a sector average. Companies where potential emissions from reserves data is not available are assigned zero emissions. More information about the methodologies and limitations of the sustainability indicators are included in the fund's website disclosure available at www.dimensional.com/SFDR.

● **...and compared to previous periods?**

Sustainability indicator		2023	2022
Carbon intensity (weighted average, fund ² relative to market ³)		-73%	-73%
Potential emissions from reserves (weighted average, fund ² relative to market ³)		-100%	-100%
Exclusions (weight)	Fund ²	–	–
	Market ³	7.2%	7.7%
<i>Proportion of investments aligned with E/S characteristics</i>		<i>99.8%</i>	<i>99.8%</i>

Weights of exclusions are aggregated and adjusted to account for companies with multiple involvements. The indicators are not subject to an assurance provided by an auditor or reviewed by a third party.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Investment Manager considered the proportion of a portfolio company's disclosed EU taxonomy-aligned economic activities as a sustainable investment. As such, all sustainable investments were aligned with the EU taxonomy and therefore contributed to an environmental objective as stated above.

- Proportions of taxonomy alignment that amount to 0 basis points when rounded were disregarded in this periodic report.
- Generally reflects the *financial assets at fair value through profit or loss* (the *total investments*) of the fund. Other remaining assets, such as cash and cash equivalents, are not considered in the table and are further outlined below. Holdings data is derived from the Investment Manager's Investment Book of Record.
- Represents the fund's eligible market universe, which is a list of securities eligible for the fund prior to the application of the fund's investment strategy, weighted according to their market capitalisation. The list generally consists of a broad and diverse group of securities traded in approved countries as defined in the Prospectus of the fund.

- **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**
- **How were the indicators for adverse impacts on sustainability factors taken into account?**
The Investment Manager only considered EU taxonomy-aligned investments as sustainable investments. A company must take into account adverse impacts on sustainability factors when disclosing EU taxonomy-aligned economic activities.
- **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:**
Yes. A company must be aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights when disclosing EU taxonomy-aligned economic activities.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As at 30 November 2023, the fund considered the following principal adverse impacts on sustainability factors (PAIs) as outlined in the Sustainable Finance Disclosure Regulation (SFDR):

PAI category	PAI	Actions taken
Greenhouse gas emissions (GHG)	GHG emissions ¹	Reduced carbon intensity and potential emissions from reserves exposure as outlined above.
	Carbon footprint ¹	
	GHG (emissions) intensity of investee companies ¹	
	Exposure to companies active in the fossil fuel sector ²	
Biodiversity, water, waste	Activities negatively affecting biodiversity-sensitive areas	Exclusion of companies identified as operating in a manner inconsistent with responsible business conduct standards as outlined above.
	Emissions to water	
	Hazardous and radioactive waste	
Social and employee matters	Violations of United Nations Global Compact (UNGC) Principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Additionally, if a company’s business conduct is identified to be inconsistent with the responsible business conduct standards, but not to the extent that the concern merits an exclusion, then the Investment Manager may halt additional investment in the company and seek further review within its Investment Stewardship Group.
	Exposure to controversial weapons	Exclusion of companies with adverse social impacts as outlined above.

1. Scope 1 & 2 emissions.
 2. See page 5 for details.
 Indicators applicable to investments in portfolio companies.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

What were the top investments of this financial product?

Sectors based on GICS. GICS was developed by and is the exclusive property of MSCI and S&P Dow Jones Indices LLC, a division of S&P Global.

What was the proportion of sustainability-related investments?

● What was the asset allocation?

As at 30 November 2023, the fund invested in direct holdings and **99.78% of its investments were aligned with the E/S characteristics (#1)** promoted by the fund. Remaining positions were included under Other (#2) and are further outlined below.

While the fund did not seek to obtain a minimum proportion of sustainable investments or EU taxonomy-aligned investments, a proportion of **0.57%** of the fund’s investments were EU taxonomy-aligned. Of these investments, **0.44%** contributed to the environmental objective of climate change mitigation. The environmental objectives under the EU Taxonomy to which the remaining **0.13%** contributed could not be determined due to insufficient data.

The actual asset allocation is monitored on a regular basis to ensure that the planned asset allocation, as outlined in the Prospectus, is maintained throughout the lifecycle of the fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● **In which economic sectors were the investments made?**

As at 30 November 2023, the fund was broadly diversified across a range of sectors and its exposure to companies active in the fossil fuel sector was low. This exposure can include companies with a small proportion of revenues from fossil fuel activities, such as large food retailers operating petrol stations. More details can be found in the following table:

Sector	All positions	Companies active in the fossil fuel sector ¹	
	% Assets	% Assets	Largest sub-sector
Communication Services	7.7	–	
Consumer Discretionary	11.1	0.9	Home Improvement Retail
Consumer Staples	5.6	1.6	Consumer Staples Merchandise Retail
Energy	2.5	1.4	Oil & Gas Refining & Marketing
Financials	17.3	0.2	Asset Management & Custody Banks
Health Care	12.0	–	
Industrials	14.7	0.1	Trading Companies & Distributors
Information Technology	19.8	–	
Materials	4.9	0.1	Commodity Chemicals
Real Estate	3.2	0.0	Diversified Real Estate Activities
Utilities	1.3	0.9	Electric Utilities
Other	0.0	–	
Total	100.0	5.3	Consumer Staples Merchandise Retail

1. Companies with revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels. Data was available for **100%** of the positions in the fund. The table generally reflects the *financial assets at fair value through profit or loss* (the *total investments*) of the fund. Other remaining assets, such as cash and cash equivalents, are not considered in the table and are further outlined below. Holdings data is derived from the Investment Manager's Investment Book of Record. Numbers may not total 100% due to rounding. Sectors based on GICS. GICS was developed by and is the exclusive property of MSCI and S&P Dow Jones Indices LLC, a division of S&P Global.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

All sustainable investments were aligned with the EU taxonomy. The compliance of those investments with the requirements laid down in Article 3 of Regulation (EU) 2020/852 were not subject to an assurance provided by an auditor or reviewed by a third party.

Information about the degree to which the investments were EU taxonomy-aligned were not readily available from public disclosures by most portfolio companies. The Investment Manager did not obtain equivalent information directly from portfolio companies or from third party providers.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The fund made investments in transitional (0.05%) and enabling activities (0.37%).

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

EU taxonomy-aligned investments	2023	2022
Environmental objectives	0.57%	–

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

As at 30 November 2023, Other (#2) comprised remaining assets, which included *cash and cash equivalents* held for ancillary liquidity (0.22%). No specific environmental or social safeguards were applied to Other (#2).

The remaining assets reflect assets that were under the discretion of the Investment Manager but that were not included in the *financial assets at fair value through profit or loss* (the *total investments*) of the fund.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The investment strategy used to meet the E/S characteristics is reflected in the fund’s portfolio design and is implemented on a continuous basis by the Investment Manager’s Portfolio Management and Trading Group. Additionally, the Compliance Department of the Investment Manager employs controls to verify that the E/S characteristics promoted by the fund are attained on an ongoing basis.

The Investment Manager has implemented a policy to evaluate the governance practices of portfolio companies. If a company fails the good governance test, the Investment Manager will cease further investments in the company and will assess whether divestment is merited.

The Investment Manager engages with company management and board members at portfolio companies through phone calls, virtual meetings, in-person meetings, or written correspondence.¹ The topics prioritised for engagement may vary by region and country, but in all cases, engagements are tied to the Manager’s key stewardship priority areas (board structure and composition, material environmental and social risks, shareholder rights, and executive compensation). For instance, the Manager engages with companies to encourage the adoption of robust policies and procedures for managing risk (including environmental and social risk) and effective board oversight. The goal of engagement efforts is to encourage companies to improve their corporate governance in these areas, which may result in increased valuations through a combination of lower discount rates and higher cash flows.

1. The Investment Manager discusses governance matters with portfolio companies to represent client interests; however, the Investment Manager on behalf of its clients, regardless of such conversations, acquires securities solely for the purpose of investment and not with the purpose or intended effect of changing or influencing the control of any portfolio company.

Product name:
Global Sustainability Fixed Income Fund

Legal entity identifier:
549300CE3MISHPNECC53

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective: ___%**

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective: ___%**

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of **0.01%** of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The fund attained the following E/S characteristics:

1. Lower exposure to companies and agency/supranational issuers with high **greenhouse gas emissions**: The fund reduced its weighted average **carbon intensity** exposures to companies relative to the corporate bond market and to agency/supranational issuers relative to the agency/supranational bond market by at least 50%
2. Lower exposure to companies and agency/supranational issuers owning **coal, oil and gas reserves**: The fund reduced its weighted average **potential emissions from reserves** exposures to companies relative to the corporate bond market and to agency/supranational issuers relative to the agency/supranational bond market by at least 75%
3. Exclusion of companies with **adverse environmental impacts** through material involvement in business activities related to palm oil, factory farming or coal
4. Exclusion of companies with **adverse social impacts** through material involvement in business activities related to adult entertainment, alcohol, gambling, tobacco, civilian firearms, controversial weapons (e.g. cluster munitions, anti-personnel mines, chemical and biological weapons or depleted uranium ammunition and armour), nuclear weapons or private prisons
5. Exclusion of companies identified as operating in a manner inconsistent with **responsible business conduct standards**, such as those defined by the UN Global Compact Principles and the OECD Guidelines for Multinational Enterprises, because of material involvement in severe controversies related to the environment (e.g. land use and biodiversity, toxic spills and releases, operational waste or water management), society (e.g. child labour or human rights) or corporate governance (e.g. corruption or fraud)

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Additionally, the fund held a low proportion of sustainable investments with an environmental objective that qualify as environmentally sustainable under the EU Taxonomy (climate change mitigation) due to its broad diversification across companies and sectors.¹

Details on the promoted E/S characteristics and further sustainability-related disclosures are available at www.dimensional.com/SFDR.

● **How did the sustainability indicators perform?**

The sustainability indicators are monitored on a regular basis to ensure that the E/S characteristics are maintained throughout the fund's lifecycle. As at 30 November 2023, the indicators were as follows:

Sustainability indicator		Asset class	Fund ²	Market ³	Relative
Carbon intensity (weighted average, in tons CO ₂ e / \$m sales)		Corporate	17	209	-92%
		Agencies / Supranational	5	87	-94%
Potential emissions from reserves (weighted average, in megatons CO ₂)		Corporate	–	94	-100%
		Agencies / Supranational	–	309	-100%
Exclusions (weight)	Environmentally adverse activity involvement	Corporate	–	1.9%	
	Socially adverse activity involvement	Corporate	–	3.4%	
	Business conduct controversy involvement	Corporate	–	1.2%	

Corporate issuers where carbon intensity data is not available are assigned a sector average. Agency / supranational issuers where carbon intensity data is not available are not considered in the calculation as no reliable estimate can be assigned (data for agencies and supranationals was available for **71% / 81%** of the positions in the fund / market). Issuers where potential emissions from reserves data is not available are assigned zero emissions. More information about the methodologies and limitations of the sustainability indicators are included in the fund's website disclosure available at www.dimensional.com/SFDR.

● **...and compared to previous periods?**

Sustainability indicator		Asset class	2023	2022
Carbon intensity (weighted average, fund ² relative to market ³)		Corporate	-92%	-92%
		Agencies / Supranational	-94%	-58%
Potential emissions from reserves (weighted average, fund ² relative to market ³)		Corporate	-100%	-100%
		Agencies / Supranational	-100%	-100%
Exclusions (weight)	Fund ²	Corporate	–	0.2%
	Market ³	Corporate	5.9%	3.3%
<i>Proportion of investments aligned with E/S characteristics</i>			84.6%	84.6%

Weights of exclusions are aggregated and adjusted to account for companies with multiple involvements. The indicators are not subject to an assurance provided by an auditor or reviewed by a third party.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Investment Manager considered the proportion of a portfolio company's disclosed EU taxonomy-aligned economic activities as a sustainable investment. As such, all sustainable investments were aligned with the EU taxonomy and therefore contributed to an environmental objective as stated above.

1. Proportions of taxonomy alignment that amount to 0 basis points when rounded were disregarded in this periodic report.
2. Generally reflects the *financial assets at fair value through profit or loss* (the *total investments*) of the fund within the specified asset class. Other remaining assets, such as cash and cash equivalents, are not considered in the table and are further outlined below. Holdings data is derived from the Investment Manager's Investment Book of Record.
3. Represents the positions of the Bloomberg Global Aggregate Bond Index within the specified asset class. Bloomberg data provided by Bloomberg.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager only considered EU taxonomy-aligned investments as sustainable investments. A company must take into account adverse impacts on sustainability factors when disclosing EU taxonomy-aligned economic activities.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes. A company must be aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights when disclosing EU taxonomy-aligned economic activities.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As at 30 November 2023, the fund considered the following principal adverse impacts on sustainability factors (PAIs) as outlined in the Sustainable Finance Disclosure Regulation (SFDR):

PAI category	PAI	Actions taken
Greenhouse gas emissions (GHG)	GHG emissions ¹	Reduced carbon intensity and potential emissions from reserves exposure as outlined above.
	Carbon footprint ¹	
	GHG (emissions) intensity of investee companies ¹	
	Exposure to companies active in the fossil fuel sector ²	
Biodiversity, water, waste	Activities negatively affecting biodiversity-sensitive areas	Exclusion of companies identified as operating in a manner inconsistent with responsible business conduct standards as outlined above.
	Emissions to water	
	Hazardous and radioactive waste	
Social and employee matters	Violations of United Nations Global Compact (UNGC) Principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Additionally, if a company’s business conduct is identified to be inconsistent with the responsible business conduct standards, but not to the extent that the concern merits an exclusion, then the Investment Manager may halt additional investment in the company and seek further review within its Investment Stewardship Group.
	Exposure to controversial weapons	Exclusion of companies with adverse social impacts as outlined above.

1. Scope 1 & 2 emissions.

2. See page 5 for details.

Indicators applicable to investments in portfolio companies.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
PROVINCE OF QUEBEC 2.250% 09/15/2026	Local Authority	1.3	Canada

Top 15 investments based on fund weights at the end of February, May, August and November 2023, ranked by an investment's average weight over these dates. The table generally reflects the *financial assets at fair value through profit or loss* (the *total investments*) of the fund. Other remaining assets, such as cash and cash equivalents, are not considered in the table and are further outlined below. Holdings data is derived from the Investment Manager's Investment Book of Record.

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **01 December 2022 – 30 November 2023**

What was the proportion of sustainability-related investments?

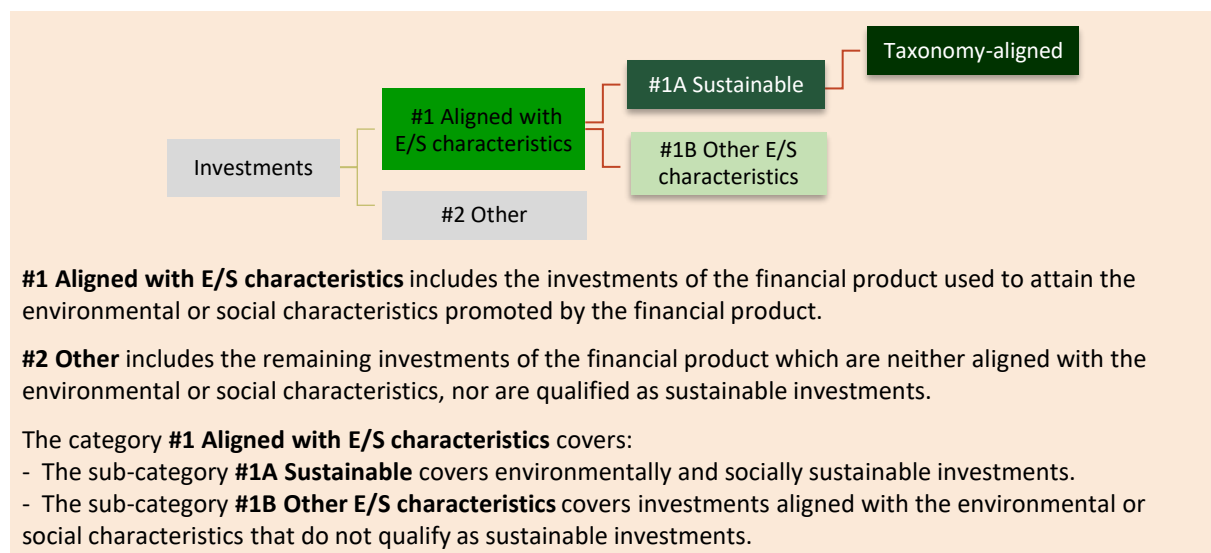

● What was the asset allocation?

As at 30 November 2023, the fund invested in direct holdings and **84.60% of its investments were corporate, agency and supranational bonds aligned with the E/S characteristics (#1)** promoted by the fund. Remaining positions were included under Other (#2) and are further outlined below.

While the fund did not seek to obtain a minimum proportion of sustainable investments or EU taxonomy-aligned investments, a proportion of **0.01%** of the fund's investments were EU taxonomy-aligned. Of these investments, **0.01%** contributed to the environmental objective of climate change mitigation.

The actual asset allocation is monitored on a regular basis to ensure that the planned asset allocation, as outlined in the Prospectus, is maintained throughout the lifecycle of the fund.

Asset allocation describes the share of investments in specific assets.

● **In which economic sectors were the investments made?**

As at 30 November 2023, the fund was broadly diversified across a range of sectors and its exposure to companies active in the fossil fuel sector was low. This exposure can include companies with a small proportion of revenues from fossil fuel activities, such as large food retailers operating petrol stations. More details can be found in the following table:

Sector		All positions	Companies active in the fossil fuel sector ¹	
		% Assets	% Assets	Largest sub-sector
Treasury		6.2	–	
Government-Related	Agencies	9.6	0.6	Government Owned, No Guarantee
	Local Authorities	8.4	–	
	Sovereign	–	–	
	Supranational	5.9	–	
Corporate	Industrial	34.1	2.6	Consumer Cyclical
	Utility	0.1	–	
	Fin. Institutions	35.7	0.5	Insurance
Securitized		–	–	
Other		–	–	
Total		100.0	3.6	Consumer Cyclical

1. Companies with revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels. Data was available for 92% of the positions in the fund. The table generally reflects the *financial assets at fair value through profit or loss* (the *total investments*) of the fund. Other remaining assets, such as cash and cash equivalents, are not considered in the table and are further outlined below. Holdings data is derived from the Investment Manager's Investment Book of Record. Numbers may not total 100% due to rounding.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

All sustainable investments were aligned with the EU taxonomy. The compliance of those investments with the requirements laid down in Article 3 of Regulation (EU) 2020/852 were not subject to an assurance provided by an auditor or reviewed by a third party.

Information about the degree to which the investments were EU taxonomy-aligned were not readily available from public disclosures by most portfolio companies. The Investment Manager did not obtain equivalent information directly from portfolio companies or from third party providers.

As there is no appropriate methodology to determine the EU taxonomy alignment of sovereign bonds, the Investment Manager could not assess the extent to which sovereign exposures (sectors *Treasury*, *Sovereign* and *Supranational*) contributed to environmentally sustainable economic activities. Sovereign exposures accounted for **12.0%** of the fund's investments.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The fund made investments in enabling activities (0.01%).

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

EU taxonomy-aligned investments	2023	2022
Environmental objectives	0.01%	–

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

As at 30 November 2023, Other (#2) mainly comprised investments in treasury, sovereign and local authority bonds (**14.47%**). Remaining assets included *cash and cash equivalents* held for ancillary liquidity (**0.21%**) and derivatives used for currency hedging¹ (**0.72%**). No specific environmental or social safeguards were applied to Other (#2).

The remaining assets reflect assets that were under the discretion of the Investment Manager but that were not included in the *financial assets at fair value through profit or loss* (the *total investments*) of the fund.

1. Calculated by deducting the *unrealised loss on forward contracts* from the *unrealised gain on forward contracts*, but without going below zero.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The investment strategy used to meet the E/S characteristics is reflected in the fund’s portfolio design and is implemented on a continuous basis by the Investment Manager’s Portfolio Management and Trading Group. Additionally, the Compliance Department of the Investment Manager employs controls to verify that the E/S characteristics promoted by the fund are attained on an ongoing basis.

The Investment Manager has implemented a policy to evaluate the governance practices of portfolio companies. If a company fails the good governance test, the Investment Manager will cease further investments in the company and will assess whether divestment is merited.

What drives governance improvements and sets up leverage with which investors can hold boards and management accountable if they fail to respond to engagement is primarily the important mechanism of proxy voting at shareholder meetings. In general, debt holders do not have such a mechanism to influence a company’s governance. This said, the Investment Manager’s investment stewardship on behalf of shareholders promotes best governance practices in areas such as board effectiveness, executive compensation and corporate integrity, where interests between equity and debt holders are closely aligned. For instance, this may include engagements with companies to encourage the adoption of robust policies and procedures for managing risk (including environmental and social risk) and effective board oversight.¹

1. The Investment Manager discusses governance matters with portfolio companies to represent client interests; however, the Investment Manager on behalf of its clients, regardless of such conversations, acquires securities solely for the purpose of investment and not with the purpose or intended effect of changing or influencing the control of any portfolio company.

Product name:
Global Sustainability Short Fixed Income Fund

Legal entity identifier:
549300IK6GE6PKDVFY419

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of **0.17%** of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The fund attained the following E/S characteristics:

1. Lower exposure to companies and agency/supranational issuers with high **greenhouse gas emissions**: The fund reduced its weighted average **carbon intensity** exposures to companies relative to the corporate bond market and to agency/supranational issuers relative to the agency/supranational bond market by at least 50%
2. Lower exposure to companies and agency/supranational issuers owning **coal, oil and gas reserves**: The fund reduced its weighted average **potential emissions from reserves** exposures to companies relative to the corporate bond market and to agency/supranational issuers relative to the agency/supranational bond market by at least 75%
3. Exclusion of companies with **adverse environmental impacts** through material involvement in business activities related to palm oil, factory farming or coal
4. Exclusion of companies with **adverse social impacts** through material involvement in business activities related to adult entertainment, alcohol, gambling, tobacco, civilian firearms, controversial weapons (e.g. cluster munitions, anti-personnel mines, chemical and biological weapons or depleted uranium ammunition and armour), nuclear weapons or private prisons
5. Exclusion of companies identified as operating in a manner inconsistent with **responsible business conduct standards**, such as those defined by the UN Global Compact Principles and the OECD Guidelines for Multinational Enterprises, because of material involvement in severe controversies related to the environment (e.g. land use and biodiversity, toxic spills and releases, operational waste or water management), society (e.g. child labour or human rights) or corporate governance (e.g. corruption or fraud)

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Additionally, the fund held a low proportion of sustainable investments with an environmental objective that qualify as environmentally sustainable under the EU Taxonomy (climate change mitigation) due to its broad diversification across companies and sectors.¹

Details on the promoted E/S characteristics and further sustainability-related disclosures are available at www.dimensional.com/SFDR.

● **How did the sustainability indicators perform?**

The sustainability indicators are monitored on a regular basis to ensure that the E/S characteristics are maintained throughout the fund's lifecycle. As at 30 November 2023, the indicators were as follows:

Sustainability indicator		Asset class	Fund ²	Market ³	Relative
Carbon intensity (weighted average, in tons CO ₂ e / \$m sales)		Corporate	14	135	-90%
		Agencies / Supranational	3	66	-96%
Potential emissions from reserves (weighted average, in megatons CO ₂)		Corporate	–	82	-100%
		Agencies / Supranational	–	100	-100%
Exclusions (weight)	Environmentally adverse activity involvement	Corporate	–	1.3%	
	Socially adverse activity involvement	Corporate	–	2.6%	
	Business conduct controversy involvement	Corporate	–	1.0%	

Corporate issuers where carbon intensity data is not available are assigned a sector average. Agency / supranational issuers where carbon intensity data is not available are not considered in the calculation as no reliable estimate can be assigned (data for agencies and supranationals was available for **84% / 82%** of the positions in the fund / market). Issuers where potential emissions from reserves data is not available are assigned zero emissions. More information about the methodologies and limitations of the sustainability indicators are included in the fund's website disclosure available at www.dimensional.com/SFDR.

● **...and compared to previous periods?**

Sustainability indicator		Asset class	2023	2022
Carbon intensity (weighted average, fund ² relative to market ³)		Corporate	-90%	-89%
		Agencies / Supranational	-96%	-86%
Potential emissions from reserves (weighted average, fund ² relative to market ³)		Corporate	-100%	-100%
		Agencies / Supranational	-100%	-100%
Exclusions (weight)	Fund ²	Corporate	–	–
	Market ³	Corporate	4.4%	3.8%
<i>Proportion of investments aligned with E/S characteristics</i>			83.9%	84.7%

Weights of exclusions are aggregated and adjusted to account for companies with multiple involvements. The indicators are not subject to an assurance provided by an auditor or reviewed by a third party.

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Investment Manager considered the proportion of a portfolio company's disclosed EU taxonomy-aligned economic activities as a sustainable investment. As such, all sustainable investments were aligned with the EU taxonomy and therefore contributed to an environmental objective as stated above.

1. Proportions of taxonomy alignment that amount to 0 basis points when rounded were disregarded in this periodic report.
2. Generally reflects the *financial assets at fair value through profit or loss* (the *total investments*) of the fund within the specified asset class. Other remaining assets, such as cash and cash equivalents, are not considered in the table and are further outlined below. Holdings data is derived from the Investment Manager's Investment Book of Record.
3. Represents the positions of the Bloomberg Global Aggregate Bond Index 1-5 Years within the specified asset class. Bloomberg data provided by Bloomberg.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager only considered EU taxonomy-aligned investments as sustainable investments. A company must take into account adverse impacts on sustainability factors when disclosing EU taxonomy-aligned economic activities.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes. A company must be aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights when disclosing EU taxonomy-aligned economic activities.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As at 30 November 2023, the fund considered the following principal adverse impacts on sustainability factors (PAIs) as outlined in the Sustainable Finance Disclosure Regulation (SFDR):

PAI category	PAI	Actions taken
Greenhouse gas emissions (GHG)	GHG emissions ¹	Reduced carbon intensity and potential emissions from reserves exposure as outlined above.
	Carbon footprint ¹	
	GHG (emissions) intensity of investee companies ¹	
	Exposure to companies active in the fossil fuel sector ²	
Biodiversity, water, waste	Activities negatively affecting biodiversity-sensitive areas	Exclusion of companies identified as operating in a manner inconsistent with responsible business conduct standards as outlined above.
	Emissions to water	
	Hazardous and radioactive waste	
Social and employee matters	Violations of United Nations Global Compact (UNGC) Principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Additionally, if a company’s business conduct is identified to be inconsistent with the responsible business conduct standards, but not to the extent that the concern merits an exclusion, then the Investment Manager may halt additional investment in the company and seek further review within its Investment Stewardship Group.
	Exposure to controversial weapons	Exclusion of companies with adverse social impacts as outlined above.

1. Scope 1 & 2 emissions.

2. See page 5 for details.

Indicators applicable to investments in portfolio companies.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

What were the top investments of this financial product?

Largest investments	Sector	% Assets	Country
ONTARIO (PROVINCE OF) 0.500% 12/15/2023	Local Authority	1.3	Canada

Top 15 investments based on fund weights at the end of February, May, August and November 2023, ranked by an investment’s average weight over these dates. The table generally reflects the *financial assets at fair value through profit or loss* (the *total investments*) of the fund. Other remaining assets, such as cash and cash equivalents, are not considered in the table and are further outlined below. Holdings data is derived from the Investment Manager’s Investment Book of Record.

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **01 December 2022 – 30 November 2023**

What was the proportion of sustainability-related investments?

● What was the asset allocation?

As at 30 November 2023, the fund invested in direct holdings and **83.88% of its investments were corporate, agency and supranational bonds aligned with the E/S characteristics (#1)** promoted by the fund. Remaining positions were included under Other (#2) and are further outlined below.

While the fund did not seek to obtain a minimum proportion of sustainable investments or EU taxonomy-aligned investments, a proportion of **0.17%** of the fund’s investments were EU taxonomy-aligned. Of these investments, **0.16%** contributed to the environmental objective of climate change mitigation. The environmental objectives under the EU Taxonomy to which the remaining **0.01%** contributed could not be determined due to insufficient data.

The actual asset allocation is monitored on a regular basis to ensure that the planned asset allocation, as outlined in the Prospectus, is maintained throughout the lifecycle of the fund.

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● **In which economic sectors were the investments made?**

As at 30 November 2023, the fund was broadly diversified across a range of sectors and its exposure to companies active in the fossil fuel sector was low. This exposure can include companies with a small proportion of revenues from fossil fuel activities, such as large food retailers operating petrol stations. More details can be found in the following table:

Sector		All positions	Companies active in the fossil fuel sector ¹	
		% Assets	% Assets	Largest sub-sector
Treasury		7.8	–	
Government-Related	Agencies	9.8	–	
	Local Authorities	6.8	–	
	Sovereign	–	–	
	Supranational	4.0	–	
Corporate	Industrial	33.3	0.5	Consumer Cyclical
	Utility	0.2	–	
	Fin. Institutions	37.9	1.4	Brokerage Assetmanagers Exchanges
Securitized		–	–	
Other		–	–	
Total		100.0	1.9	Brokerage Assetmanagers Exchanges

1. Companies with revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels. Data was available for 93% of the positions in the fund. The table generally reflects the *financial assets at fair value through profit or loss* (the *total investments*) of the fund. Other remaining assets, such as cash and cash equivalents, are not considered in the table and are further outlined below. Holdings data is derived from the Investment Manager's Investment Book of Record. Numbers may not total 100% due to rounding.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

All sustainable investments were aligned with the EU taxonomy. The compliance of those investments with the requirements laid down in Article 3 of Regulation (EU) 2020/852 were not subject to an assurance provided by an auditor or reviewed by a third party.

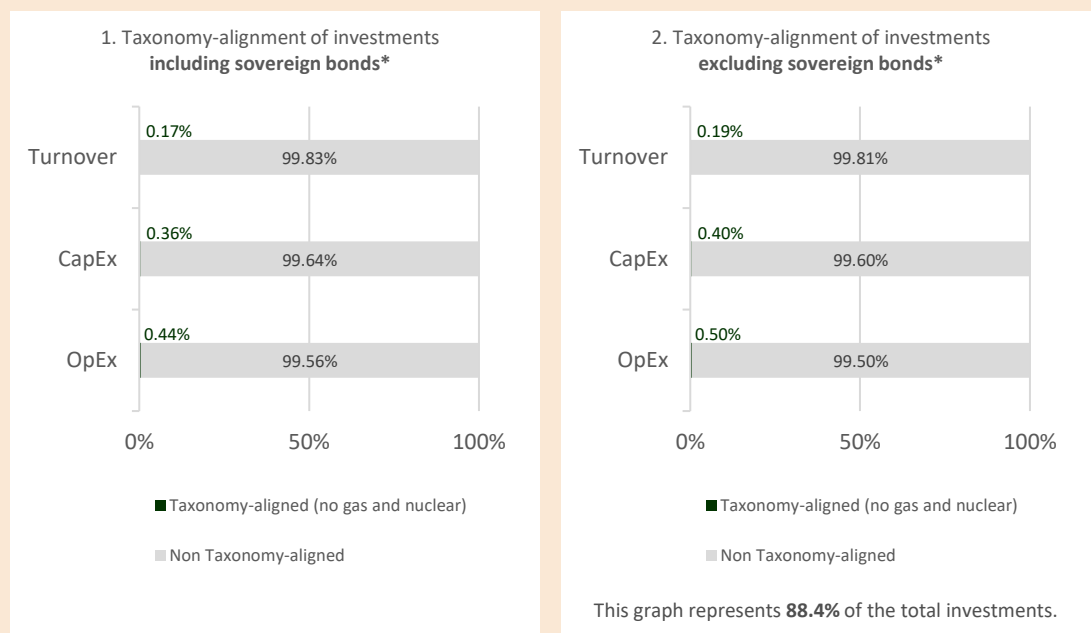

Information about the degree to which the investments were EU taxonomy-aligned were not readily available from public disclosures by most portfolio companies. The Investment Manager did not obtain equivalent information directly from portfolio companies or from third party providers.

As there is no appropriate methodology to determine the EU taxonomy alignment of sovereign bonds, the Investment Manager could not assess the extent to which sovereign exposures (sectors *Treasury*, *Sovereign* and *Supranational*) contributed to environmentally sustainable economic activities. Sovereign exposures accounted for 11.6% of the fund's investments.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The fund made investments in enabling activities (0.15%).

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

EU taxonomy-aligned investments	2023	2022
Environmental objectives	0.17%	–

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

As at 30 November 2023, Other (#2) mainly comprised investments in treasury, sovereign and local authority bonds (**14.34%**). Remaining assets included *cash and cash equivalents* held for ancillary liquidity (**1.19%**) and derivatives used for currency hedging¹ (**0.59%**). No specific environmental or social safeguards were applied to Other (#2).

The remaining assets reflect assets that were under the discretion of the Investment Manager but that were not included in the *financial assets at fair value through profit or loss* (the *total investments*) of the fund.

1. Calculated by deducting the *unrealised loss on forward contracts* from the *unrealised gain on forward contracts*, but without going below zero.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The investment strategy used to meet the E/S characteristics is reflected in the fund’s portfolio design and is implemented on a continuous basis by the Investment Manager’s Portfolio Management and Trading Group. Additionally, the Compliance Department of the Investment Manager employs controls to verify that the E/S characteristics promoted by the fund are attained on an ongoing basis.

The Investment Manager has implemented a policy to evaluate the governance practices of portfolio companies. If a company fails the good governance test, the Investment Manager will cease further investments in the company and will assess whether divestment is merited.

What drives governance improvements and sets up leverage with which investors can hold boards and management accountable if they fail to respond to engagement is primarily the important mechanism of proxy voting at shareholder meetings. In general, debt holders do not have such a mechanism to influence a company’s governance. This said, the Investment Manager’s investment stewardship on behalf of shareholders promotes best governance practices in areas such as board effectiveness, executive compensation and corporate integrity, where interests between equity and debt holders are closely aligned. For instance, this may include engagements with companies to encourage the adoption of robust policies and procedures for managing risk (including environmental and social risk) and effective board oversight.¹

1. The Investment Manager discusses governance matters with portfolio companies to represent client interests; however, the Investment Manager on behalf of its clients, regardless of such conversations, acquires securities solely for the purpose of investment and not with the purpose or intended effect of changing or influencing the control of any portfolio company.

213800MFVHYQNIYUVF39

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of **0.66%** of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The fund attained the following E/S characteristics:

1. Lower exposure to companies with high **greenhouse gas emissions**: The fund reduced its weighted average **carbon intensity** exposure relative to the fund's eligible market universe by at least 50%
2. Lower exposure to companies owning **coal, oil and gas reserves**: The fund reduced its weighted average **potential emissions from reserves** exposure relative to the fund's eligible market universe by at least 75%
3. Exclusion of companies with material involvement in (i) **environmentally harmful business activities** related to palm oil, factory farming and coal, or (ii) **severe environmental controversies** related to land use and biodiversity, toxic spills and releases, operational waste and water management
4. Exclusion of companies with material involvement in (i) **socially harmful business activities** related to adult entertainment, alcohol, gambling, tobacco, civilian firearms, controversial weapons (e.g. cluster munitions, anti-personnel mines, chemical and biological weapons or depleted uranium ammunition and armour), nuclear weapons and private prisons, or (ii) **severe social controversies** related to child labour

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Additionally, the fund held a low proportion of sustainable investments with an environmental objective that qualify as environmentally sustainable under the EU Taxonomy (climate change mitigation) due to its broad diversification across companies and sectors.¹

Details on the promoted E/S characteristics and further sustainability-related disclosures are available at www.dimensional.com/SFDR.

● **How did the sustainability indicators perform?**

The sustainability indicators are monitored on a regular basis to ensure that the E/S characteristics are maintained throughout the fund's lifecycle. As at 30 November 2023, the indicators were as follows:

Sustainability indicator	Fund ²	Market ³	Relative
Carbon intensity (weighted average, in tons CO ₂ e / \$m sales)	61	261	-77%
Potential emissions from reserves (weighted average, in megatons CO ₂)	0	27	-99%
Excluded environmental topics (weight)	–	2.6%	
Excluded social topics (weight)	–	2.6%	

Companies where carbon intensity data is not available are assigned a sector average. Companies where potential emissions from reserves data is not available are assigned zero emissions. More information about the methodologies and limitations of the sustainability indicators are included in the fund's website disclosure available at www.dimensional.com/SFDR.

● **...and compared to previous periods?**

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Investment Manager considered the proportion of a portfolio company's disclosed EU taxonomy-aligned economic activities as a sustainable investment. As such, all sustainable investments were aligned with the EU taxonomy and therefore contributed to an environmental objective as stated above.

1. Proportions of taxonomy alignment that amount to 0 basis points when rounded were disregarded in this periodic report.
2. Generally reflects the *financial assets at fair value through profit or loss* (the *total investments*) of the fund. Other remaining assets, such as cash and cash equivalents, are not considered in the table and are further outlined below. Holdings data is derived from the Investment Manager's Investment Book of Record.
3. Represents the fund's eligible market universe, which is a list of securities eligible for the fund prior to the application of the fund's investment strategy, weighted according to their market capitalisation. The list generally consists of a broad and diverse group of value stocks among smaller companies traded in approved countries as defined in the Prospectus of the fund.

How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?

How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager only considered EU taxonomy-aligned investments as sustainable investments. A company must take into account adverse impacts on sustainability factors when disclosing EU taxonomy-aligned economic activities.

Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes. A company must be aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights when disclosing EU taxonomy-aligned economic activities.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As at 30 November 2023, the fund considered the following principal adverse impacts on sustainability factors (PAIs) as outlined in the Sustainable Finance Disclosure Regulation (SFDR):

PAI category	PAI	Actions taken
Greenhouse gas emissions (GHG)	GHG emissions ¹	Reduced carbon intensity and potential emissions from reserves exposure as outlined above.
	Carbon footprint ¹	
	GHG (emissions) intensity of investee companies ¹	
	Exposure to companies active in the fossil fuel sector ²	
Biodiversity, water, waste	Activities negatively affecting biodiversity-sensitive areas	Exclusions based on severe environmental controversies as outlined above.
	Emissions to water	
	Hazardous and radioactive waste	
Social and employee matters	Violations of United Nations Global Compact (UNGC) Principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	If a company is deemed to be involved in a severe violation of business conduct standards that may pose a material risk to investors, then the Investment Manager may temporarily halt further investment in the company and seek further review within its Investment Stewardship Group.
	Exposure to controversial weapons	Exclusions based on socially harmful business activities as outlined above.

1. Scope 1 & 2 emissions.

2. See page 5 for details.

Indicators applicable to investments in portfolio companies.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

Top 15 investments based on fund weights at the end of February, May, August and November 2023, ranked by an investment’s average weight over these dates. The table generally reflects the *financial assets at fair value through profit or loss* (the *total investments*) of the fund. Other remaining assets, such as cash and cash equivalents, are not considered in the table and are further outlined below. Holdings data is derived from the Investment Manager’s Investment Book of Record.

Sectors based on GICS. GICS was developed by and is the exclusive property of MSCI and S&P Dow Jones Indices LLC, a division of S&P Global.

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **01 December 2022 – 30 November 2023**

What was the proportion of sustainability-related investments?

● What was the asset allocation?

As at 30 November 2023, the fund invested in direct holdings and **98.81% of its investments were aligned with the E/S characteristics (#1)** promoted by the fund. Remaining positions were included under Other (#2) and are further outlined below.

While the fund did not seek to obtain a minimum proportion of sustainable investments or EU taxonomy-aligned investments, a proportion of **0.66%** of the fund’s investments were EU taxonomy-aligned. Of these investments, **0.46%** contributed to the environmental objective of climate change mitigation. The environmental objectives under the EU Taxonomy to which the remaining **0.21%** contributed could not be determined due to insufficient data.

The actual asset allocation is monitored on a regular basis to ensure that the planned asset allocation, as outlined in the Prospectus, is maintained throughout the lifecycle of the fund.

Asset allocation describes the share of investments in specific assets.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● **In which economic sectors were the investments made?**

As at 30 November 2023, the fund was broadly diversified across a range of sectors and its exposure to companies active in the fossil fuel sector was low. This exposure can include companies with a small proportion of revenues from fossil fuel activities, such as large food retailers operating petrol stations. More details can be found in the following table:

Sector	All positions	Companies active in the fossil fuel sector ¹	
	% Assets	% Assets	Largest sub-sector

Utilities	1.3	0.8	Gas Utilities
Other	–	–	
Total	100.0	3.3	Oil & Gas Refining & Marketing

1. Companies with revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels. Data was available for **100%** of the positions in the fund. The table generally reflects the *financial assets at fair value through profit or loss* (the *total investments*) of the fund. Other remaining assets, such as cash and cash equivalents, are not considered in the table and are further outlined below. Holdings data is derived from the Investment Manager's Investment Book of Record. Numbers may not total 100% due to rounding. Sectors based on GICS. GICS was developed by and is the exclusive property of MSCI and S&P Dow Jones Indices LLC, a division of S&P Global.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

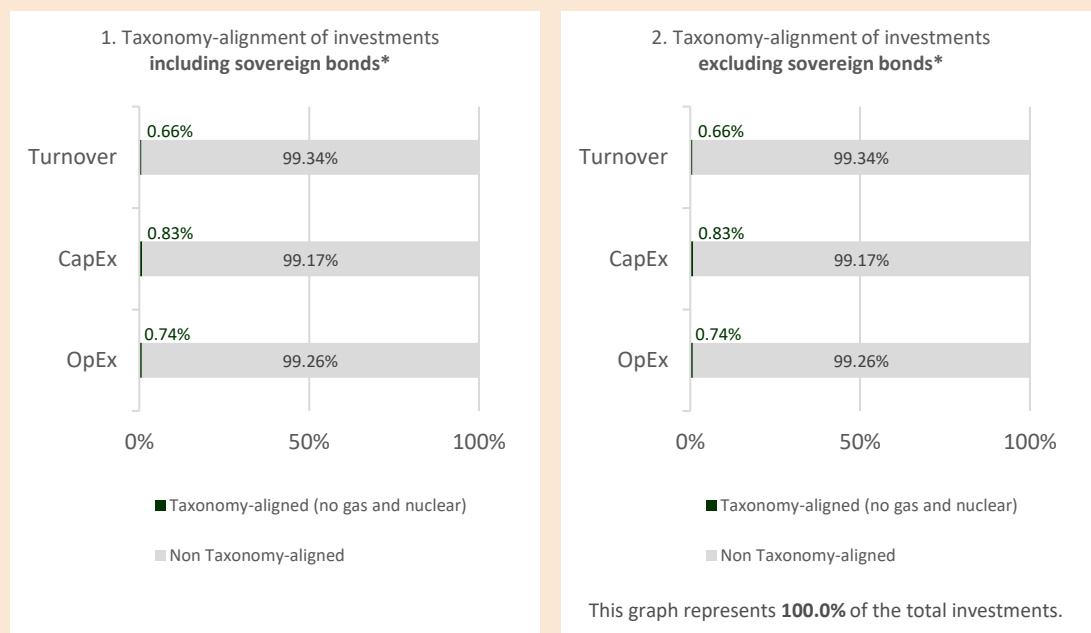

All sustainable investments were aligned with the EU taxonomy. The compliance of those investments with the requirements laid down in Article 3 of Regulation (EU) 2020/852 were not subject to an assurance provided by an auditor or reviewed by a third party.

Information about the degree to which the investments were EU taxonomy-aligned were not readily available from public disclosures by most portfolio companies. The Investment Manager did not obtain equivalent information directly from portfolio companies or from third party providers.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The fund made investments in transitional (0.16%) and enabling activities (0.27%).

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

As at 30 November 2023, Other (#2) comprised remaining assets, which included *cash and cash equivalents* held for ancillary liquidity (0.18%). No specific environmental or social safeguards were applied to Other (#2).

The remaining assets reflect assets that were under the discretion of the Investment Manager but that were not included in the *financial assets at fair value through profit or loss* (the *total investments*) of the fund.

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The investment strategy used to meet the E/S characteristics is reflected in the fund’s portfolio design and is implemented on a continuous basis by the Investment Manager’s Portfolio Management and Trading Group. Additionally, the Compliance Department of the Investment Manager employs controls to verify that the E/S characteristics promoted by the fund are attained on an ongoing basis.

The Investment Manager has implemented a policy to evaluate the governance practices of portfolio companies. If a company fails the good governance test, the Investment Manager will cease further investments in the company and will assess whether divestment is merited.

The Investment Manager engages with company management and board members at portfolio companies through phone calls, virtual meetings, in-person meetings, or written correspondence.¹ The topics prioritised for engagement may vary by region and country, but in all cases, engagements are tied to the Manager’s key stewardship priority areas (board structure and composition, material environmental and social risks, shareholder rights, and executive compensation). For instance, the Manager engages with companies to encourage the adoption of robust policies and procedures for managing risk (including environmental and social risk) and effective board oversight. The goal of engagement efforts is to encourage companies to improve their corporate governance in these areas, which may result in increased valuations through a combination of lower discount rates and higher cash flows.

1. The Investment Manager discusses governance matters with portfolio companies to represent client interests; however, the Investment Manager on behalf of its clients, regardless of such conversations, acquires securities solely for the purpose of investment and not with the purpose or intended effect of changing or influencing the control of any portfolio company.

Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

Yes

No

It made **sustainable investments with an environmental objective**: ___%

in economic activities that qualify as environmentally sustainable under the EU Taxonomy

in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

It made **sustainable investments with a social objective**: ___%

It **promoted Environmental/Social (E/S) characteristics** and while it did not have as its objective a sustainable investment, it had a proportion of **0.55%** of sustainable investments

with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy

with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy

with a social objective

It promoted E/S characteristics, but **did not make any sustainable investments**

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The fund attained the following E/S characteristics:

1. Lower exposure to companies with high **greenhouse gas emissions**: The fund reduced its weighted average **carbon intensity** exposure relative to the fund's eligible market universe by at least 50%
2. Lower exposure to companies owning **coal, oil and gas reserves**: The fund reduced its weighted average **potential emissions from reserves** exposure relative to the fund's eligible market universe by at least 75%
3. Exclusion of companies with **adverse environmental impacts** through material involvement in business activities related to palm oil, factory farming or coal
4. Exclusion of companies with **adverse social impacts** through material involvement in business activities related to adult entertainment, alcohol, gambling, tobacco, civilian firearms, controversial weapons (e.g. cluster munitions, anti-personnel mines, chemical and biological weapons or depleted uranium ammunition and armour), nuclear weapons or private prisons
5. Exclusion of companies identified as operating in a manner inconsistent with **responsible business conduct standards**, such as those defined by the UN Global Compact Principles and the OECD Guidelines for Multinational Enterprises, because of material involvement in severe controversies related to the environment (e.g. land use and biodiversity, toxic spills and releases, operational waste or water management), society (e.g. child labour or human rights) or corporate governance (e.g. corruption or fraud)

Sustainable investment means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

Additionally, the fund held a low proportion of sustainable investments with an environmental objective that qualify as environmentally sustainable under the EU Taxonomy (climate change mitigation) due to its broad diversification across companies and sectors.¹

Details on the promoted E/S characteristics and further sustainability-related disclosures are available at www.dimensional.com/SFDR.

● **How did the sustainability indicators perform?**

The sustainability indicators are monitored on a regular basis to ensure that the E/S characteristics are maintained throughout the fund's lifecycle. As at 30 November 2023, the indicators were as follows:

Sustainability indicator		Fund ²	Market ³	Relative
Carbon intensity (weighted average, in tons CO ₂ e / \$m sales)		39	138	-72%
Potential emissions from reserves (weighted average, in megatons CO ₂)		0	168	-100%
Exclusions (weight)	Environmentally adverse activity involvement	–	2.7%	
	Socially adverse activity involvement	–	3.7%	
	Business conduct controversy involvement	–	1.1%	

Companies where carbon intensity data is not available are assigned a sector average. Companies where potential emissions from reserves data is not available are assigned zero emissions. More information about the methodologies and limitations of the sustainability indicators are included in the fund's website disclosure available at www.dimensional.com/SFDR.

● **...and compared to previous periods?**

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The Investment Manager considered the proportion of a portfolio company's disclosed EU taxonomy-aligned economic activities as a sustainable investment. As such, all sustainable investments were aligned with the EU taxonomy and therefore contributed to an environmental objective as stated above.

1. Proportions of taxonomy alignment that amount to 0 basis points when rounded were disregarded in this periodic report.
2. Generally reflects the *financial assets at fair value through profit or loss* (the *total investments*) of the fund. Other remaining assets, such as cash and cash equivalents, are not considered in the table and are further outlined below. Holdings data is derived from the Investment Manager's Investment Book of Record.
3. Represents the fund's eligible market universe, which is a list of securities eligible for the fund prior to the application of the fund's investment strategy, weighted according to their market capitalisation. The list generally consists of a broad and diverse group of securities traded in approved countries as defined in the Prospectus of the fund.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

— How were the indicators for adverse impacts on sustainability factors taken into account?

The Investment Manager only considered EU taxonomy-aligned investments as sustainable investments. A company must take into account adverse impacts on sustainability factors when disclosing EU taxonomy-aligned economic activities.

— Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights? Details:

Yes. A company must be aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights when disclosing EU taxonomy-aligned economic activities.

The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

Any other sustainable investments must also not significantly harm any environmental or social objectives.

How did this financial product consider principal adverse impacts on sustainability factors?

As at 30 November 2023, the fund considered the following principal adverse impacts on sustainability factors (PAIs) as outlined in the Sustainable Finance Disclosure Regulation (SFDR):

PAI category	PAI	Actions taken
Greenhouse gas emissions (GHG)	GHG emissions ¹	Reduced carbon intensity and potential emissions from reserves exposure as outlined above.
	Carbon footprint ¹	
	GHG (emissions) intensity of investee companies ¹	
	Exposure to companies active in the fossil fuel sector ²	
Biodiversity, water, waste	Activities negatively affecting biodiversity-sensitive areas	Exclusion of companies identified as operating in a manner inconsistent with responsible business conduct standards as outlined above.
	Emissions to water	
	Hazardous and radioactive waste	
Social and employee matters	Violations of United Nations Global Compact (UNGC) Principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises	Additionally, if a company’s business conduct is identified to be inconsistent with the responsible business conduct standards, but not to the extent that the concern merits an exclusion, then the Investment Manager may halt additional investment in the company and seek further review within its Investment Stewardship Group.
	Exposure to controversial weapons	Exclusion of companies with adverse social impacts as outlined above.

1. Scope 1 & 2 emissions.

2. See page 5 for details.

Indicators applicable to investments in portfolio companies.

Principal adverse impacts are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anticorruption and antibribery matters.

What were the top investments of this financial product?

The list includes the investments constituting the **greatest proportion of investments** of the financial product during the reference period which is: **01 December 2022 – 30 November 2023**

Largest investments	Sector	% Assets	Country
APPLE INC	Information Technology	3.7	United States
MICROSOFT CORP	Information Technology	1.7	United States
META PLATFORMS INC-CLASS A	Communication Services	1.4	United States

ELI LILLY & CO	Health Care	0.4	United States

Top 15 investments based on fund weights at the end of February, May, August and November 2023, ranked by an investment's average weight over these dates. The table generally reflects the *financial assets at fair value through profit or loss* (the *total investments*) of the fund. Other remaining assets, such as cash and cash equivalents, are not considered in the table and are further outlined below. Holdings data is derived from the Investment Manager's Investment Book of Record.

Sectors based on GICS. GICS was developed by and is the exclusive property of MSCI and S&P Dow Jones Indices LLC, a division of S&P Global.

What was the proportion of sustainability-related investments?

● What was the asset allocation?

As at 30 November 2023, the fund invested in direct holdings and **100.00% of its investments were aligned with the E/S characteristics (#1)** promoted by the fund.

While the fund did not seek to obtain a minimum proportion of sustainable investments or EU taxonomy-aligned investments, a proportion of **0.55%** of the fund's investments were EU taxonomy-aligned. Of these investments, **0.40%** contributed to the environmental objective of climate change mitigation. The environmental objectives under the EU Taxonomy to which the remaining **0.15%** contributed could not be determined due to insufficient data.

The actual asset allocation is monitored on a regular basis to ensure that the planned asset allocation, as outlined in the Prospectus, is maintained throughout the lifecycle of the fund.

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

● **In which economic sectors were the investments made?**

As at 30 November 2023, the fund was broadly diversified across a range of sectors and its exposure to companies active in the fossil fuel sector was low. This exposure can include companies with a small proportion of revenues from fossil fuel activities, such as large food retailers operating petrol stations. More details can be found in the following table:

Sector	All positions	Companies active in the fossil fuel sector ¹	
	% Assets	% Assets	Largest sub-sector
Communication Services	7.1	–	
Consumer Discretionary	11.6	0.7	Home Improvement Retail
Consumer Staples	5.7	1.3	Consumer Staples Merchandise Retail
Energy	2.9	1.6	Oil & Gas Refining & Marketing
Financials	17.6	0.2	Asset Management & Custody Banks
Health Care	10.8	–	
Industrials	15.0	0.2	Industrial Conglomerates
Information Technology	18.4	–	
Materials	5.7	0.2	Commodity Chemicals
Real Estate	3.6	–	
Utilities	1.7	1.0	Gas Utilities
Other	–	–	
Total	100.0	5.1	Oil & Gas Refining & Marketing

1. Companies with revenues from exploration, mining, extraction, production, processing, storage, refining or distribution, including transportation, storage and trade, of fossil fuels. Data was available for **100%** of the positions in the fund. The table generally reflects the *financial assets at fair value through profit or loss* (the *total investments*) of the fund. Other remaining assets, such as cash and cash equivalents, are not considered in the table and are further outlined below. Holdings data is derived from the Investment Manager's Investment Book of Record. Numbers may not total 100% due to rounding. Sectors based on GICS. GICS was developed by and is the exclusive property of MSCI and S&P Dow Jones Indices LLC, a division of S&P Global.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

All sustainable investments were aligned with the EU taxonomy. The compliance of those investments with the requirements laid down in Article 3 of Regulation (EU) 2020/852 were not subject to an assurance provided by an auditor or reviewed by a third party.

Information about the degree to which the investments were EU taxonomy-aligned were not readily available from public disclosures by most portfolio companies. The Investment Manager did not obtain equivalent information directly from portfolio companies or from third party providers.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy¹?**

- Yes:
 - In fossil gas
 - In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

The fund made investments in transitional (0.05%) and enabling activities (0.31%).

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

¹ Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure (CapEx)** showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure (OpEx)** reflecting green operational activities of investee companies.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

As at 30 November 2023, no assets were considered under Other (#2).

What actions have been taken to meet the environmental and/or social characteristics during the reference period?

The investment strategy used to meet the E/S characteristics is reflected in the fund’s portfolio design and is implemented on a continuous basis by the Investment Manager’s Portfolio Management and Trading Group. Additionally, the Compliance Department of the Investment Manager employs controls to verify that the E/S characteristics promoted by the fund are attained on an ongoing basis.

The Investment Manager has implemented a policy to evaluate the governance practices of portfolio companies. If a company fails the good governance test, the Investment Manager will cease further investments in the company and will assess whether divestment is merited.

The Investment Manager engages with company management and board members at portfolio companies through phone calls, virtual meetings, in-person meetings, or written correspondence.¹ The topics prioritised for engagement may vary by region and country, but in all cases, engagements are tied to the Manager’s key stewardship priority areas (board structure and composition, material environmental and social risks, shareholder rights, and executive compensation). For instance, the Manager engages with companies to encourage the adoption of robust policies and procedures for managing risk (including environmental and social risk) and effective board oversight. The goal of engagement efforts is to encourage companies to improve their corporate governance in these areas, which may result in increased valuations through a combination of lower discount rates and higher cash flows.

1. The Investment Manager discusses governance matters with portfolio companies to represent client interests; however, the Investment Manager on behalf of its clients, regardless of such conversations, acquires securities solely for the purpose of investment and not with the purpose or intended effect of changing or influencing the control of any portfolio company.

Dimensional Funds plc is structured as an umbrella fund with segregated liability between sub-funds, established as an open-ended investment company with variable capital and limited liability under the laws of Ireland with registration number 352043. Dimensional Funds plc qualifies and is authorised by the Central Bank of Ireland as an undertaking for collective investments in transferable securities (UCITS).

Dimensional funds are offered solely under the terms and conditions of the respective fund's current prospectus and applicable UCITS Key Investor Information Document (KIID) and applicable Packaged Retail and Insurance-based Investment Products (PRIIPs) - Key Information Document (KID). Consider the investment objectives, risks, and charges and expenses of the Dimensional funds carefully before investing.
