Goldman Sachs Funds Directors' Report

Corporate Governance Statement

Introduction

The Board of Directors (the "Board") of Goldman Sachs Funds (the "Fund") is committed to maintaining high standards of corporate governance and as such has adopted the principles set out in the Association of the Luxembourg Fund Industry ("ALFI") Code of Conduct Revision 2022 (the "Code") issued by ALFI in June 2022 which sets out principles of good governance.

The Board considers that the Fund has been in compliance with the principles of the Code in all material aspects for the year ended 30 November 2024. The Board undertakes an annual review of ongoing compliance with the principles of the Code.

The principles of the Code are set out below:

- 1. The Board should adopt clear and transparent standards of corporate governance;
- 2. The Board should have good professional standing and appropriate experience and use best efforts to ensure that it is collectively competent to fulfil its responsibilities;
- 3. The Board should act fairly and independently in the best interests of the investors;
- 4. The Board should act with due care and diligence in the performance of its duties;
- The Board should ensure compliance with all applicable laws and regulations and with the Fund's constitutional documents:
- 6. The Board should ensure that investors are properly informed, are fairly and equitably treated, and receive the benefits and services to which they are entitled;
- 7. The Board should ensure that an effective risk management process and appropriate internal controls are in place;
- 8. The Board should identify and manage fairly and effectively, to the best of its ability, any actual, potential or apparent conflict of interest and ensure appropriate disclosure;
- 9. The Board should ensure that Shareholder rights are exercised in a considered way and in the best interests of the Fund:
- 10. The Board should ensure that the remuneration of the Board members is reasonable and fair and adequately disclosed:
- 11. The Board should integrate as appropriate sustainability standards and objectives including environmental, social and governance (ESG) criteria in its business model and operations.

Board Composition

The Board currently consists of two Independent Non-Executive Directors and four Executive Directors. The Board defines an Executive Director as someone who is employed by the Goldman Sachs Group, Inc. or any of its affiliates, and an Independent Non-Executive Director as someone who is free of any business, family or other relationship with the Fund or Goldman Sachs Group, Inc. or any of its affiliates.

Article 13 of the Fund's Articles of Incorporation in accordance with Luxembourg law, provides that Directors shall be elected by the shareholders at their annual general meeting for a period ending at the next annual general meeting and until their successors are elected.

Directors receive induction training upon appointment, as well as receive regular updates and briefings incorporating all relevant information regarding the Fund to facilitate the Director fulfilling his or her duties responsibilities as a Director. The Fund's policy is to encourage Directors to keep up to date with developments relevant to the Fund. The Directors have attended and will continue to attend updates and briefings run by

Goldman Sachs Funds Directors' Report

Goldmans Sachs Group, Inc. or its affiliates. The Directors also receive regular briefings from, amongst others, auditors, investment specialists, risk specialists, depositary and legal advisers regarding any proposed product developments, changes in laws or regulations and market practice that could affect the Fund.

In addition to the full Board of Directors there is an Audit Committee who are primarily responsible for overseeing the quality and integrity of the financial reporting process, along with a review of any external auditor's findings and review of compliance of legal and regulatory requirements that have a material effect on the financial statements. The Audit Committee will report to the full Board of Directors on a regular basis and will also identify any matters within its mandate which would require further action/attention by the Board.

Board Responsibilities

The Board meets at least quarterly and on an ad hoc basis as required. The Board is supplied with information in a timely manner and of a quality appropriate to enable it to discharge its duties. The Board reserves to itself decisions relating to the determination of investment policy and objectives, any change in investment strategy, entering into any material contracts, any change in board membership, any change of external auditor and any significant change in accounting policies or practices.

The Directors have access to the advice and services of external counsel and the resources of the Goldman Sachs Group, Inc. including, but not limited to, investment specialists, risk specialists and various infrastructure teams. Where necessary, in the furtherance of their duties, the Board and individual Directors may seek independent professional advice.

The Board is responsible for keeping adequate accounting records which disclose with reasonable accuracy at any time the financial position of the Fund and to enable them to ensure that the financial statements are prepared in accordance with Luxembourg legal and regulatory requirements relating to investment funds.

In fulfilment of this responsibility, the Board have appointed Goldman Sachs Asset Management B.V. ("GSAMBV") as its Management Company, which has delegated the administration of the adequate accounting records to State Street Bank International GmbH, Luxembourg Branch.

The Directors are also responsible for safeguarding the assets of the Fund and in fulfilment of this responsibility they have contracted the assets of the Fund to State Street Bank International GmbH, Luxembourg Branch (the "Depositary") for safekeeping in accordance with the Prospectus and Articles of Association of the Fund. They are also responsible for taking reasonable steps for the prevention and detection of fraud and other irregularities.

The Board exercises these functions, inter alia, to fulfil their responsibility of overseeing the management of the Fund and in their fiduciary duty to represent the interest of shareholders.

Remuneration

Ms. Grainne Alexander and Ms. Sophie Mosnier are independent Directors and have no executive function with the Investment Adviser or its affiliated companies. The Fund pays each independent Director an annual fee for their services as a Director of the Fund. For the year ended 30 November 2024, the total Directors' fees amounted to USD 209,505.

Mr. Jonathan Beinner, Mr. Dirk Buggenhout, Mr. Jan Jaap Hazenberg and Ms. Hilary Lopez are affiliated with the Investment Adviser and receive no compensation from the Fund.

Communication with Shareholders

The Board is responsible for convening the annual general meeting and all other general meetings of the Fund. Notice of general meetings is issued in accordance with the Articles of Incorporation of the Fund and notice of the annual general meeting is sent out at least 8 days in advance of the meeting.

The next Annual General Meeting of Shareholders will be held on 30 April 2025 and shareholders will be asked to consider the usual matters presented at such meeting including:

Goldman Sachs Funds Directors' Report

- Approval of the financial statements
- The approval of Directors fees
- The election or re-election of directors
- The election or re-election of the auditor

The proceedings of general meetings are governed by the Articles of Incorporation of the Fund.

Dear Shareholders:

Enclosed is the report for the year ended 30 November 2024.

A. Market Review¹

Macro

Risk assets ended 2023 with strong performance as the goldilocks macro backdrop of resilient growth in the United States alongside continued disinflation across major economies continued, as well as a more dovish shift from the United States Federal Reserve (Fed) towards potential rate cuts. Shifting towards the first half of 2024, continued signs of improvement in global manufacturing data, robust labour markets, a resilient United States economy, and expectations of policy easing by major central banks further supported investor risk appetite. Early in the first half of 2024, while the growth outlook remained benign, inflation, especially in the United States, raised some concerns due to a few downside surprises in key inflation prints. However, the United States began to see disinflationary progress once again in the second quarter of 2024, providing both the Fed and investors with renewed confidence in the path ahead following the string of higher-than-expected prints to start of the year. United States Core PCE (Personal Consumption Expenditures Price Index, Excluding Food and Energy) averaged 0.17% in April and May versus an average reading of 0.37% in the first quarter of 2024. This progress, combined with strong earnings growth, and expectations of policy easing by major central banks supported momentum in risk assets.

In July, the macro backdrop remained fluid with slight moderation in global manufacturing/services activity, but continued disinflation progress in the United States. Then, in August, financial markets were jolted by a weaker than expected United States jobs print in August. The print, headlined by the United States national unemployment rate (U3) rising from 4.1% to 4.3%, triggering the Sahm Rule, which indicates that the United States economy has moved into recession territory whenever the 3-month moving average of the U3 unemployment rate rises by more than 0.5% from its 12-month low. As a result, panic ensued among market participants, leading to sell-off in equities and rally in safe-haven assets like United States treasuries and the Japanese Yen. However, the shock proved to be short-lived as a string of data releases over the next few days and weeks provided better comfort around the strength of the United States economy and labour market. September was an eventful month, as two of the biggest central banks, the Fed and People's Bank of China (PBoC), helped ease monetary policy by lowering interest rates to support domestic economies. The Fed cut its policy rate by 50bps, marking the first United States rate cut since March 2020.

October was characterised by strong growth, moderating inflation, and a cooling labour market in the United States. In November, the key market driver was the outcome of the United States Presidential Elections, which saw Donald Trump and the Republican party register a clean sweep by winning the White House, Senate, and House of Representatives. Tariffs on exports to the United States, clampdown on illegal immigration, extension of Tax Cuts and Jobs Act (TCJA), boosts to United States gas and oil drilling, and deregulation were the key pillars of Trump's economic and foreign policy throughout the United States election campaign. This cocktail of policy mix, if implemented, could potentially lead to the US growth outperformance vs. the rest of the world as higher trade uncertainty could weigh on Asian and European economies, which are more trade dependent than the United States economy.

Monetary Policy

2023 ended with a noticeable slowdown in global inflation, leading to a somewhat dovish stance from major central banks. Strong disinflation progress and continued resilience in the labour market led many to gain further confidence in the possibility of a soft landing. Despite many investors coming into the year with expectations for an earlier and swifter start to central bank easing cycles, many of these central banks, including the Fed, tilted hawkish at the start of 2024 as inflation surprised to the upside and the strong economy gave policymakers the option to be patient around the onset of their policy easing cycle. Elsewhere, the Swiss National Bank surprised markets in March and cut policy rates by 25bps, becoming the first G10 central bank to start easing. In Asia, the Bank of Japan (BoJ) paved its own path and decided to end its negative interest rate policy at its March meeting.

In June of 2024, the European Central Bank (ECB) and the Bank of Canada started their respective easing cycles, both cutting their respective policy rates by 25bps. Continued moderation in the United States inflation over the summer, paired with added stress around the sustainability of the United States labour market, meant that the Fed could start its much-awaited easing cycle in September. The post-meeting statement indicated that the Federal Open Market Committee (FOMC) was "strongly committed to supporting maximum employment" alongside the 2% inflation target and that the risks to the Committee's dual-mandate goals were roughly in balance.

In Europe, the ECB continued its rate cutting cycle in September and October. Elsewhere, in China, the PBoC announced a slew of policy measures in September to boost activity in general and property market in particular. Activity data in November offered early signs of green shoots following China's recent policy pivot and subsequent stimulus programs. Amid all the easing, the Bank of Japan (BoJ), which had been gradually tightening monetary policy, decided to leave policy rate unchanged in September and October.

The FOMC lowered its policy rate further by 25bps in November. The Committee did not provide any strong forward guidance and refrained to comment on the implications of the new United States government policies

on potential monetary policy path going forward. However, Chair Powell did highlight that as the FOMC approaches levels that are close to neutral, it may be appropriate to slow down the pace of easing. Elsewhere, in the United Kingdom, the Bank of England (BoE) eased policy for the second time this cycle by 25bps in November.

Bond Markets

In the United States, both 2Y and 10Y bond yields declined by ~50bps each in December 2023. The United Kingdom and German 10Y yields declined by 60bps and 45bps respectively whereas the Japanese 10Y yield was flat. Moving towards the start of 2024, bond yields climbed higher as recession fears continued to ease and United States inflation surprised to the upside. The United States 10Y yield rose by 35bps to 4.2% in 1Q 2024, following a decline of 70bps in 4Q 2023. Yields were modestly higher in the second quarter of 2024, with the yield on the United States 10Y up by 15bps. This increase was largely concentrated in April in response to strong labour market and inflation data. Subsequently, as inflation and activity data moderated, the yield on the 10Y declined in May and June. In France, the 10Y yield was 55bps in the second quarter of 2024 as the market priced in a higher term premium given increased political uncertainty.

In rates, yields declined in July on the back of weaker United States inflation data and a softening labour market. The United States 10Y yield was down by 25bps whereas German and United Kingdom 10Y yields were down 20bps each. The United States 10Y yield went as low as 3.65% in September following the weak jobs numbers leading the market to price in a greater probability of a 50bps cut in September and more than 100bps of cuts in 2024. Nonetheless, the United States 10Y yield rebounded following the Fed's September meeting on the back of a string of more optimistic economic prints.

Fixed Income markets across major economies sold-off in October with the United States underperforming, alongside election-related uncertainties remaining elevated. In November, developed market yields declined with United States 10Y down from 4.28% to 4.19%, a decline of ~10bps. United Kingdom and German 10Y yields declined by 20bps and 30bps respectively. However, the Japanese 10Y yield went up by 10bps. In summary, bond markets witnessed some dispersion. Interestingly, United States 10Y yield had risen from 4.28% to 4.44% by November 21 as the market baked in expectations of less easing from the FOMC on the back of potentially higher fiscal deficits under a Republican sweep. However, the trend reversed on the nomination of Scott Bessent as the next potential United States Treasury Secretary under the incoming Trump administration.

Equity Markets

In December 2023, United States equities outperformed with a gain of 4.5% (S&P 500) followed up by a 3.2% rally in Euro Area equities (Euro Stoxx 50). After outperforming for the bulk of the year, Japanese Equities (TOPIX) were flat in December. Emerging market equities saw gains. Global equities started 2024 on a strong footing with significant gains in 1Q 2024 following a strong end to 2023, with several equity indices reaching new all-time highs. Continued signs of improvement in global manufacturing activity, a resilient United States economy, and still strong expectations of policy easing by major central banks in 2024 supported risk appetite. In the second quarter of 2024, global developed market equities and emerging market equities were up by 3.2% and 6.4%, respectively, following gains of 10% and 4.5% in 1Q 2024. Within developed market equities, United States equities outperformed their peers once again with a gain of 4.5% in 2Q 2024, whereas Japanese equities were up by 1.7%. Euro area equities were down by 1.3% following increased uncertainty around major elections in June. Elsewhere, Chinese equities rallied at the start of 2024, outperforming most developed and emerging equity markets, but began to retreat in June.

Global developed market equities experienced modest positive returns in July, although weaker European data and a stronger JPY weighed on European and Japanese equities. In the United States, a few disappointing earnings results began to cast doubts on the durability of the mega cap tech names and the future reliability of the hype around artificial intelligence. This led to a significant rotation away from mega-caps names into small-caps—the outperformance of the Russell 2000 over the NASDAQ was the largest in any month since February 2001. August saw small gains for global equities and emerging market stocks. However, at their worst on August 5—as volatility increased due to macro uncertainty—both MSCI World and MSCI EM were down 6.9% and 4.9% before staging a comeback. This uncertainty led defensive sectors like consumer staples and healthcare to outperform in the United States. September saw developed market equities and emerging market equities post gains of 1.5% and 5.7% respectively. United States equities outperformed, posting a gain of 2.1%, followed up by Euro area equities, which rallied 0.9%. Conversely, Japanese equities underperformed as a stronger JPY weighed on equity market performance. The MSCI China index however, delivered a significant stimulus plans on September 24.

There was significant dispersion among major equity markets in November. While the global developed market equities rallied 4.9%, emerging market equities were down 2.7% reflecting higher trade uncertainty and risks of United States tariffs on China and Mexico specifically. Even within developed markets, dispersion was noteworthy as the United States equities were up 6% whereas Euro Area equities and Japanese equities were down slightly. Among the US sectors, consumer discretionary and financials were the best performing sectors as they rallied 13% and 11% respectively. Financials benefited from hopes of deregulation by the incoming United States government. The Russell 2000 was up 11% as US small caps befitted from risk on sentiment in the United States on the back of expectations of deregulation, potential for easier anti-trust laws, and President Trump's focus on helping the domestic economy.

Goldman Sachs Asset Management International

December 2024

All index returns are shown with income re-invested and, in contrast to the Share Classes, without the deduction of any fees or expenses. Returns of the Share Classes are shown net of fees and expenses and after the reinvestment of dividends where applicable using month end NAVs. For Share Classes where performance is shown relative to the index, it is for comparative purposes only. Reference to these benchmarks does not imply that the Share Classes will achieve returns, volatility or other results similar to the benchmark.

Any mention of an investment decision is intended only to illustrate our investment approach or strategy, and is not indicative of the performance of our strategy as a whole. Any such illustration is not necessarily representative of other investment decisions.

Audit report

To the Shareholders of **Goldman Sachs Funds**

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of Goldman Sachs Funds (the "Fund") and of each of its sub-funds as at 30 November 2024, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the statement of assets and liabilities as at 30 November 2024;
- the statement of operations for the year then ended;
- the statement of changes in shareholders' equity for the year then ended;
- the schedule of investments as at 30 November 2024; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
 a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
 involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
 control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures
 that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the
 effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds (except for Goldman Sachs Eurozone CORE® Equity Portfolio where a decision to liquidate exists) to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the
 disclosures, and whether the financial statements represent the underlying transactions and events
 in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and communicate to them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

Other matter

In addition to our responsibility to audit and express an opinion on the financial statements in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we have been requested by the Board of Directors of the Fund to express an opinion on the financial statements in accordance with generally accepted auditing standards in the United States of America as issued by the AICPA, in order to meet the requirements of Rule 206(4)-2 of the US Investment Advisors Act of 1940. We have reported separately in this respect on Page 14.

Luxembourg, 20 March 2025

John Parkhouse

Report of Independent Auditors

To the Shareholders of Goldman Sachs Funds

Opinion

We have audited the accompanying financial statements of Goldman Sachs Funds and each of its sub-funds (the "Fund"), which comprise the statement of assets and liabilities, the schedule of investments as of 30 November 2024 and the related statement of operations and statement of changes in shareholders' equity for the year then ended, including the related notes (collectively referred to as the "Financial Statements").

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of the Fund as of 30 November 2024, and the results of its operations and changes in its net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in the United States of America (US GAAS). Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Fund and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Responsibilities of the Board of Directors of the Fund for the Financial Statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's ability to continue as a going concern for at least, but not limited to, twelve months from the end of the reporting period, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

Auditors' Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with US GAAS will always detect a material misstatement when it exists.

The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with US GAAS, we:

- exercise professional judgment and maintain professional skepticism throughout the audit;
- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or
 error, and design and perform audit procedures responsive to those risks. Such procedures include
 examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that
 are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness
 of the Fund's internal control. Accordingly, no such opinion is expressed;
- evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by the Board of Directors of the Fund, as well as evaluate the overall presentation of the financial statements;
- conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Fund's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Other Information

The Board of Directors of the Fund is responsible for the other information included in the annual report. The other information comprises the information included in the annual report but does not include the financial statements and our auditor's report thereon. Our opinion on the financial statements does not cover the other information, and we do not express an opinion or any form of assurance thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and consider whether a material inconsistency exists between the other information and the financial statements or the other information otherwise appears to be materially misstated. If, based on the work performed, we conclude that an uncorrected material misstatement of the other information exists, we are required to describe it in our report.

1 Organisation

Goldman Sachs Funds (the "Fund") was incorporated on 5 November 1992 under the laws of the Grand Duchy of Luxembourg as a "Société d'Investissement à Capital Variable" ("SICAV"), for an unlimited period of time. The Fund is registered in accordance with the Law of 17 December 2010, as amended and has appointed Goldman Sachs Asset Management B.V. ("GSAMBV") to be its Management Company. GSAMBV is authorised and regulated by the Dutch Authority for the Financial Markets (AFM), and is a wholly owned subsidiary of The Goldman Sachs Group, Inc.

Refer to Note 6 for details of functions the Management Company has delegated.

The Fund has appointed State Street Bank International GmbH, Luxembourg Branch (the "Depositary") to act as the Depositary of the Fund's assets.

As at 30 November 2024, the Fund is comprised of sixty-two different portfolios ("the Portfolios").

As at 30 November 2024, the Fund offered shares in the Portfolios as detailed in Report of the Management Company I.

Please refer to Report of the Management Company II for Portfolios that were launched, merged or closed during the year.

Goldman Sachs India Equity Portfolio (the "India Equity Portfolio") previously invested through a wholly-owned special purpose subsidiary Goldman Sachs India Limited (the "Subsidiary"), a private company incorporated in Mauritius with limited liability. The Subsidiary is administered by Intercontinental Trust Limited, based in Mauritius. Intercontinental Trust Limited has sub-delegated the administration function to State Street Bank International GmbH, Luxembourg Branch. The investments which were held by the Subsidiary for and on behalf of the India Equity Portfolio were transferred away from the Subsidiary for them to be then held directly by the India Equity Portfolio. The transfer was completed on 7 October 2021 (the "Transfer Date") and as of 30 November 2024, no investment of the India Equity Portfolio is held through the Subsidiary.

The India Equity Portfolio's continued ability to invest in India is dependent on it continuing to meet current and future requirements placed on foreign institutional investors by the Securities and Exchange Board of India. If the India Equity Portfolio (or the Investment Adviser) were to fail to meet applicable requirements in the future, the India Equity Portfolio would no longer be permitted to invest directly in Indian securities, may not be able to pursue its principal strategy and may be forced to liquidate.

As a wholly owned subsidiary of the India Equity Portfolio, all assets and liabilities, income and expenses of the Subsidiary are consolidated in the Statement of Assets and Liabilities and Statement of Operations of the India Equity Portfolio, and all intercompany balances and transactions have been eliminated.

As at 22 November 2022, the Subsidiary has appointed a liquidator and commenced the process of liquidation. It is not expected to cause any significant disruption to the operational activities of Goldman Sachs India Equity Portfolio.

3 Significant Accounting Policies

(a) Basis of Preparation of Financial Statements

The financial statements of the individual Portfolios are presented in their base currency while the Combined Total of all the Portfolios is presented in United States Dollars. The Board of Directors considers that the Portfolios' base currency most accurately represents the economic effects of the underlying transactions, events and conditions of the Portfolios.

The financial statements have been prepared in accordance with Luxembourg legal and regulatory requirements relating to investment funds. The financial statements have been prepared on a going concern basis (except for the Portfolios where an intention to liquidate or to cease operations has been taken by the Board of Directors at the time of the approval of the financial statements) as the Directors are of the view that the Fund can continue in operational existence for the foreseeable future.

The preparation of financial statements requires the Board of Directors to make estimates and assumptions that may affect the amounts reported in the financial statements and accompanying notes. Refer to the Statement of Assets and Liabilities and Note 4 where the Board of Directors was required to make certain estimates and assumptions to determine value. Actual results may differ from those estimates.

In accordance with the Prospectus, Shareholders' Equity as at 29 November 2024 reflect all capital and securities transactions received up until 28 November 2024 for all Portfolios of the Fund. By way of information, if the Fund had calculated the Shareholders' Equity solely with a view to publication, all the capital and securities transactions received up until 29 November 2024 would have been included in the Shareholders' Equity as at 29 November 2024. The sub-fund Europe CORE® Equity Portfolio has been adjusted for on this basis, with capital flows on 29th November representing 6.28% of net assets.

(b) Investment Transactions, Related Investment Income and Operating Expenses

Realised gains and losses are based on the Weighted Average Cost Method. Dividend income and dividend expense are recorded on the ex-dividend date and interest income and interest expense are accrued over the life of the investment. Interest income includes accretion of market discount, original issue discounts and amortisation of premiums and is recorded into income over the life of the underlying investment. Interest income and dividend income are recognised on a gross basis before withholding tax, if any.

Operating expenses are recognised on an accrual basis.

(c) Transaction Costs

Transaction costs are recognised in the Statement of Operations as part of net change in unrealised gain/(loss) on investment securities and net realised gain/(loss) on investment securities. Depositary based transaction costs are included in 'Depositary fees' in the Statement of Operations.

Please refer to Note 14 for details of the Portfolios that incurred separately identifiable transaction costs.

Transaction costs for fixed income investments, forward currency contracts and other derivative contracts are not separately identifiable. For these investments, transaction costs are included in the purchase and sales price and are part of the gross investment performance of each Portfolio.

3 Significant Accounting Policies (Continued)

(d) Financial Investment in Securities and Valuation

i. Recognition and Derecognition

The Portfolios recognise financial assets and financial liabilities on the date they become a party to the contractual provisions of the investment. Any gains and losses arising from changes in value of the financial assets or financial liabilities are recorded in the Statement of Operations.

Financial assets are derecognised when the rights to receive cash flows from the investments have expired or the Portfolio has transferred substantially all risks and rewards of ownership.

ii. Value Measurement Principles

The value of all securities and derivatives is determined according to the following policies:

(ii.1) Exchange Listed Assets and Liabilities

The value of exchange traded financial investments, including transferable securities admitted to an official exchange listing or dealt in on any other regulated market that operates regularly, which comprise Common Stocks, Bonds, Real Estate Investment Trusts, Rights, Warrants, Mutual Funds, Preferred Stocks, Options and Futures Contracts, are valued based upon quoted market prices at the period end date without any deduction for estimated future transaction costs.

(ii.2) Debt Securities

Debt securities, comprising Bonds, Non-Agencies Asset Backed Obligations and Agencies Asset Backed Obligations, are valued at mid or bid depending on fund methodology, by third party service providers without any deduction for estimated future transaction costs.

Included within debt securities are mortgage-backed security To Be Announced ("TBA") commitments. These commitments reflect future dated purchases and sales of agency Mortgage Backed Securities ("MBS"). Certain Portfolios use these forward commitments to efficiently manage exposure to MBS. In addition, certain Portfolios may enter into "Dollar Roll" transactions, principally using TBAs, in which the Portfolios commit to simultaneously sell and repurchase MBS for delivery in future months. The Portfolios must maintain liquid securities having a value not less than the repurchase price (including accrued interest) for such forward commitments. The market value of the securities that the Portfolios are committed to purchase may decline below the agreed upon purchase price of those securities.

When a debt security has been identified as being in default, the interest accrual on the defaulted security may be stopped, and upon confirmation from relevant parties, the amount receivable may be written off.

(ii.3) Certificates of Deposit and Money Market Investments

Certificates of Deposit, Time Deposits, Commercial Papers and Money Market Investments are valued at mid by third party service providers, or where such pricing service is unavailable, at amortised cost which approximates market value.

(ii.4) Shares in Collective Investment Schemes

The value of investments in open-ended investment funds, comprising Mutual Funds, are valued based upon the official net asset value per share ("NAV") as at the last available date as supplied by the funds, in accordance with the valuation policy of the applicable fund as outlined in its prospectus. In cases where the most recent available NAV is not deemed representative of their fair value, the valuation is determined by the valuer and any significant changes or events that may have occurred after the latest available NAV is considered.

As at year-end, there are no investments in Collective Investment Schemes that have been valued by the valuer.

3 Significant Accounting Policies (Continued)

(d) Financial Investment in Securities and Valuation (Continued)

ii. Value Measurement Principles (Continued)

(ii.5) Derivatives

A derivative is an instrument whose value is derived from an underlying instrument, index reference rate or a combination of these factors. Derivative instruments may be privately negotiated contracts which are often referred to as over the counter ("OTC") derivatives or they may be listed and traded on an exchange. Derivative contracts may involve future commitments to purchase or sell financial instruments or commodities at specified terms on a specified date, or to exchange interest payment streams or currencies based on a notional or contractual amount.

Derivative contracts are stated at market value and recognised as assets and liabilities in the Statement of Assets and Liabilities. Gains and losses resulting from the change in the market value are reflected in the Statement of Operations as a component of net change in unrealised gain/(loss). Realised gains or losses are recorded on termination or from periodic cash flow payments.

(ii.5) (a) Option Contracts

The Portfolios may enter into exchange traded and OTC option contracts with various counterparties. When the Portfolio purchases an option, an amount equal to market value which is based on the premium paid is recorded as an asset, the value of which is marked-to-market daily. When the Portfolio writes an option, an amount equal to market value which is based on the premium received by the Portfolio is recorded as a liability and is adjusted to the market value of the option written on each valuation date.

When options are closed, the difference between the premium and the amount paid or received, net of brokerage commissions, or the full amount of the premium if the option expires worthless, is treated as realised gain or loss. The exercise of an option written by the Portfolio could result in the Portfolio buying or selling a financial instrument at a price different from the current market value.

The fair value of an OTC contract is determined by using counterparty supplied valuations, an independent pricing service or valuation models which use market data inputs supplied by a third party pricing service, and is typically valued at mid. Exchange traded options are valued based on the exchange settlement/last sale prices, or, if the last settlement price is not available for any reason, at the midpoint of the bid and ask prices (or, in the absence of two-way trading, at the last bid price for long positions and the last ask price for short positions), or independent market quotes provided by a pricing service or counterparty.

(ii.5) (b) Futures Contracts

Futures contracts are contracts to buy or sell a standardised quantity of a specified commodity, security or index and are valued based on exchange settlement/last sale prices, last bid or ask prices on the exchange, or independent market quotes. Initial margin deposits, in either cash or securities, are required to trade in the futures market. Unrealised gains or losses on futures contracts are recognised to reflect the market value of the contracts and are included as a component of the unrealised gains or losses on the Portfolio's Statement of Operations. Variation margin is received or paid, depending on whether unrealised gains or losses are incurred. When the contract is terminated, the Portfolio will recognise a realised gain or loss equal to the difference between the value of the contract at the time it was entered into and the time it was closed.

(ii.5) (c) Swap Contracts

Swaps, comprising Interest Rate Swaps, Credit Default Swaps and Total Return Swaps, can be linked to any number of underlying investments and indices, and swap terms can vary greatly. Cash flows are exchanged based on the underlying. Upfront payments, which represent a risk premium, are amortised or accreted over the contract term. Swap agreements are carried at market value, typically valued at mid, and the value of the swap agreement is based on a counterparty provided price, third party pricing service or valuation model. The model considers various inputs including the market value of the underlying, the risks associated with the underlying and the specific terms of the contract. In connection with these agreements, securities or cash may be identified

3 Significant Accounting Policies (Continued)

(d) Financial Investment in Securities and Valuation (Continued)

ii. Value Measurement Principles (Continued)

(ii.5) Derivatives (Continued)

(ii.5) (c) Swap Contracts (Continued)

as collateral or margin in accordance with the terms of the respective swap agreements to provide assets of value and recourse in the event of default or bankruptcy/insolvency. This collateral or margin is primarily denominated in base currency, and is paid from the custody account to the broker.

For the year ended 30 November 2024, all collateral in relation to total return swaps was pledged in the form of cash. Please refer to Note 13 for cash collateral information and to Report of the Management Company V for more information.

Total return swaps and more specifically OTC derivative transactions are entered into by the Portfolio under an International Swaps and Derivatives Associations, Inc. Master Agreement ("ISDA Master Agreement") or similar agreement. An ISDA Master Agreement is a bilateral agreement between the Portfolio and a counterparty that governs OTC derivative transactions (including total return swaps) entered into by the parties.

All returns from OTC derivative transactions will accrue to the Portfolio and are not subject to any returns sharing agreement with the Portfolio's manager or any other third parties.

(ii.5) (d) Forward Foreign Currency Contracts

In a forward foreign currency contract, the Portfolio agrees to receive or deliver a fixed quantity of one currency for another, at a pre-determined price at a future date. Purchases and sales of forward foreign currency contracts having the same notional value, settlement date and counterparty and right to settle net are generally offset (which result in a net foreign currency position of zero with the counterparty) and any realised gains or losses are recognised.

Forward foreign currency contracts are valued at mid by third party pricing service providers.

(ii.5) (e) Covered Forward Mortgage Backed Securities

Covered forward mortgage backed securities represents TBA sales covered by long Federal National Mortgage Association positions, and are typically valued at mid.

(ii.6) All Securities and Derivatives

If a quoted market price is not available from a third party pricing service or a dealer, or a quotation is believed to be materially inaccurate, the market value of the investment is determined by using valuation techniques. Valuation techniques include the use of recent market transactions, reference to the current market value of another investment that is substantially the same, discounted cash flow analyses or any other techniques that provides a reliable estimate of prices obtained in actual market transactions. Such securities and derivatives shall be valued at their fair value as determined by the Valuer. Please refer to Note 4 for further details.

The investments have been valued in accordance with Luxembourg generally accepted accounting principles that may require the use of certain estimates and assumptions to determine value. Although these estimates and assumptions are based on the best available information, actual results could be materially different from these estimates.

Refer to Note 4 for securities where the Valuer was used to determine fair value.

(e) Cash

Cash is valued at cost, which approximates market value.

3 Significant Accounting Policies (Continued)

(f) Due from/to Brokers

Due from brokers consists primarily of cash receivable for collateral from the Portfolios' clearing brokers and various counterparties. Due to brokers consists primarily of cash payable for collateral to the Portfolios' clearing brokers and various counterparties.

Due from/to broker balances are valued at cost, which approximates market value. Refer to Note 13 for further details.

(g) Foreign Currency Translation

The books and records of all Portfolios are maintained in their base currency. Please refer to Report of the Management Company I for the base currency of each Portfolio. Transactions in foreign currencies are translated at the foreign currency exchange rate in effect at the date of the transaction. Assets and liabilities denominated in foreign currencies are translated into base currency at the foreign currency closing exchange rate in effect at the year end date. Foreign currency exchange differences arising on translation and realised gains and losses on disposals or settlements of assets and liabilities are recognised in the Statement of Operations. Foreign currency exchange gains or losses relating to investments, derivative financial investments, and all other foreign currency exchange gains or losses relating to monetary items, including cash and cash equivalents, are reflected in the net realised gain/(loss) or net change in unrealised gain/(loss) in the Statement of Operations.

(h) Expenses

Expenses incurred by the Fund that do not specifically relate to an individual Portfolio or Share Class of the Fund are allocated to the Portfolios based on an allocation basis that depends upon the nature of the charges. Expenses directly attributable to a Portfolio or Share Class are generally charged to that Portfolio or Share Class.

(i) "Snap" and "Close" Valuation

In the case of certain Portfolios, the Fund may decide to issue Share Classes which have different Valuation Points, termed "snap" and "close", where the "snap" Valuation Point takes a value at a time other than at market close and "close" takes the value based on market closing prices. In consequence, the net asset values and performance per share of such Share Classes are expected to differ from each other as a result of the application of different Valuation Points.

For the year ended 30 November 2024, such "snap" and "close" Share Classes as described above are applicable to:

- · Japan Equity Partners Portfolio
- Japan Equity Portfolio
- · Emerging Markets CORE® Equity Portfolio
- Global CORE® Equity Portfolio
- Global Small Cap CORE[®] Equity Portfolio
- US CORE® Equity Portfolio
- US Small Cap CORE® Equity Portfolio

The Statement of Assets and Liabilities, the Statement of Operations, the Statement of Changes in Shareholders' Equity and the Schedules of Investments have been presented using prices as of "snap" of all markets as of 30 November 2024. If the Schedules of Investments, the Statement of Assets and Liabilities, the Statement of Operations and the Statement of Changes in Shareholders' Equity were to be presented using the "close" prices, then the total market value and the Shareholders' Equity would vary as follows:

		Market Value of Investments and Foreign Currencies including Unrealised Gain/(Loss) on Futures			Shareholders' Equity				
Portfolios	Currency	Snap	Close	Variation	Snap	Close	Variation	Percentage Variation

(j) Income Equalisation Arrangements

Income equalisation arrangements may be applied in some or all of the Portfolios of the Fund. Where they are applied, these arrangements are intended to ensure that the income per share which is distributed or deemed distributed in respect of a distribution period is not affected by changes in the number of shares in issue during that period, and the amount of the first distribution received by a Shareholder in an impacted Portfolio following the purchase of shares in that Portfolio will represent partly participation in income received by the Portfolio and partly a return of capital (the "equalisation amount"). The equalisation amounts are included within the proceeds from shares issued and the payment for shares redeemed in the Statements of Changes in Shareholders' Equity.

(k) Swing Pricing

On any Business Day the Management Company in consultation with its appointed delegate, Goldman Sachs Asset Management International ("GSAMI") as Investment Adviser, in conformity with guidelines established by the Board of Directors, may determine to apply swing pricing (to include such reasonable factors as they see fit) to the net asset value per share. This method of net asset value calculation is intended to pass the estimated costs of underlying investment activity of the Portfolio to the active Shareholders by adjusting the net asset value of the relevant share and thus to protect the Portfolio's long-term Shareholders from costs associated with ongoing redemption and subscription activity. This is processed as a capital adjustment.

Swing pricing may take account of trading spreads on the Portfolio's investments, the value of any duties and charges incurred as a result of trading and may include an estimate of market impact. Where GSAMI, based on the prevailing market conditions and the level of subscriptions or redemptions requested by Shareholders or potential Shareholders in relation to the size of the relevant Portfolio, have determined for a particular Portfolio to apply swing pricing, the Portfolio's net asset value may be valued either on a bid or offer basis.

Because the determination of whether to value the Portfolio's net asset value on a bid or offer basis is based on the net transaction activity of the relevant day, Shareholders transacting in the opposite direction of the Portfolio's net transaction activity may benefit at the expense of the other Shareholders in the Portfolio. In addition, the Portfolio's net asset value and short-term performance may experience greater volatility as a result of swing pricing.

Investors should be aware that, the factor used to apply swing pricing ("swing factor") will under normal conditions not exceed 2% of the net asset value per share of the relevant Share Class of the Portfolio, unless otherwise stated in the relevant Supplement. Notwithstanding the above, where exceptional circumstances (including, but not limited to, widening bid offer spreads often as a result of high market volatility and/or illiquidity, exceptional market conditions market disruptions) the Management Company, in consultation with the Board of Directors, may decide, in the best interest of Shareholders and in respect of any particular Portfolio and on any Business Day, to apply a swing factor which is above 2%. Shareholders will be informed on such decision via a notice and/or a publication posted on www.gsam.com. The swing factor applied to individual Portfolios will be reviewed by the Investment Adviser on a periodic basis in order to verify their appropriateness in light of prevailing market conditions.

The reversal of the swing net asset calculation method presented in the Statement of Changes in Shareholders' Equity represents the reversal of the amount applied as at 30 November 2023.

Refer to the Statement of Assets and Liabilities and the Statement of Changes in Shareholders' Equity for the Portfolios that applied swing pricing as at 30 November 2024.

4 Valuation Determined by the Valuer

The Valuer is appointed by the Management Company. The Valuer also has direct responsibilities to the Board of Directors for certain valuation functions, which are ultimately reflected in the financial statements. The Valuer during the year ended 30 November 2024 was Goldman Sachs & Co. LLC and the valuation function was performed by Goldman Sachs Controllers Division ("Controllers").

4 Valuation Determined by the Valuer (Continued)

The following table sets forth the assets where the Valuer was used to determine the fair value as at 30 November 2024:

	As at 30 No	ovember 2024		
Portfolios	Currency	Number of Assets valued	Value	% of Shareholders' Equity

Securities traded on certain Asia Pacific/Middle Eastern exchanges may utilise international equity adjusted prices provided by an independent third party pricing service in order to more accurately reflect the value of securities traded on markets which are closed at the valuation point.

The independent valuation service takes into account multiple factors including, but not limited to, movements in the securities markets, certain depositary receipts, futures contracts and foreign currency exchange rates that have occurred subsequent to the close of the foreign securities exchange. These investments are not included in the above table.

5 Taxation

Taxation - Luxembourg

The Fund is not liable for any Luxembourg tax on profits or income. However, the Fund is liable in Luxembourg to an annual subscription tax (taxe d'abonnement) of 0.05% per annum. The taxable basis of the subscription tax is the aggregate net assets of the Fund as valued on the last day of each quarter. This rate is however 0.01% per annum for each of the following:

- undertakings whose exclusive object is the collective investment in money market instruments and the placing of deposits with credit institutions;
- · undertakings whose exclusive object is the collective investment in deposits with credit institutions; and
- individual compartments of undertakings for collective investment ("UCI") with multiple compartments
 referred to in the law dated 17 December 2010, as amended, as well as for individual classes of securities
 issued within a UCI or within a compartment of a UCI with multiple compartments, provided that the securities
 of such compartments or classes are reserved to one or more institutional investors.

Taxation - Belgium

The Fund may incur a liability to subscription tax at the rate of 0.0925% in respect of subscriptions made through intermediaries situated in Belgium to the extent that net shares are outstanding as of 31 December of the previous year.

Taxation - Subsidiary

The Governments of India and Mauritius signed a protocol on 10 May 2016 by virtue of which capital gains on all Indian investments made until 31 March 2017 would continue to be exempt from Indian tax under the India-Mauritius Treaty, irrespective of when they are sold. Short term capital gains arising on sale of equity

5 Taxation (Continued)

Taxation - Subsidiary (Continued)

shares sold on or after and from 1 April 2019 are taxable at the full capital gains tax rate as per the Indian tax laws. Long term capital gains were exempt up till March 2018 provided they were traded on the recognised stock exchange in India and suffered securities transaction tax. With effect from April 2018, these have been made taxable at the applicable rates provided under the India tax laws.

The investments which were held by the Mauritius Subsidiary were transferred to be held directly by the India Equity Portfolio - LUX entity. The transfer was completed on 7 October 2021 and as of 30 November 2024, no investment of the India Equity Portfolio is held through such Subsidiary. As at 22 November 2022, the Mauritius Subsidiary has appointed a liquidator and commenced the process of liquidation.

Taxation - General

Each Portfolio may be subject to taxation on capital gains, interest and dividends in certain jurisdictions in which each Portfolio invests. It is the policy of each Portfolio to accrue for any such taxes on dividends and interest when the dividend is declared, interest is earned or capital gains are realised. At each valuation date, taxation on realised and unrealised appreciation of securities may be accrued for at statutory rates.

Prospective investors should consult their own taxation advisers regarding the tax implications of investing in the Fund in relation to their own individual circumstances as they may differ from the general statements that appear above

6 Significant Agreements and Related Parties

Management Company

As outlined in Note 1, the Fund appointed GSAMBV, a wholly-owned subsidiary of The Goldman Sachs Group, Inc., as its Management Company.

The Portfolios pay the Management Company an annual fee which shall be accrued daily and generally paid monthly in arrears.

Investment Adviser and Investment Sub-Advisers

The Management Company has appointed GSAMI (the "Investment Adviser"), a related party to the Fund, as its delegate to provide portfolio management services.

GSAMI has entered into sub-delegation agreements with each of the following affiliated Investment Sub-Advisers:

- · Goldman Sachs Asset Management LP
- Goldman Sachs Asset Management (Hong Kong) Ltd.
- Goldman Sachs Asset Management (India) Private Limited
- Goldman Sachs Asset Management (Singapore) Pte Ltd.
- Goldman Sachs Asset Management Co. Ltd.
- Goldman Sachs Hedge Fund Strategies LLC
- Goldman Sachs International

6 Significant Agreements and Related Parties (Continued)

Investment Adviser and Investment Sub-Advisers (Continued)

GSAMI has entered into sub-advisory agreements with each of the following external Investment Sub-Advisers ("the External Managers"):

Portfolios	External Managers*
Multi-Manager Dynamic World Equity Portfolio	Artisan Partners UK LLP
	Bell Asset Management Ltd.
	Eagle Capital Management LLC
	WCM Investment Management

^{*} None of these investment advisers are an affiliate of GSAMI. As compensation for the services rendered under the Investment Advisory Agreement, GSAMI receives a fee, payable monthly, at an annual rate. A portion of the Investment Adviser's fees may be remitted to the Investment Sub-Adviser.

Expense Cap

GSAMI has voluntarily agreed to limit total expenses in respect of certain Portfolios and certain Share Classes. Therefore, to the extent that total ordinary expenses would exceed the expense cap, GSAMI has voluntarily agreed to bear any actual operating expenses that exceed any expense cap, either directly by waiving a portion of its fees or by reimbursement to the account of the relevant Share Class. The Investment Adviser may, in its sole discretion, designate which expenses of the Fund will be subject to any such expense cap imposed by the Investment Adviser. The expense cap does not include the GSAMI fee portion paid to external Investment Sub-Advisers. There is no guarantee that the existence or level of these expense caps will continue in the future and no obligation on the part of GSAMI to agree to limit total expenses in this way. In addition, the Portfolios are not obliged to reimburse GSAMI for prior financial year expense reimbursement, if any.

Details of advisory fee rates and the expense caps as at 30 November 2024 are detailed in Report of the Management Company I.

Performance Fees

GSAMI is entitled to a performance fee on certain Portfolios. For the Emerging Markets Total Return Bond Portfolio the performance fee accrues daily and is paid annually out of the assets attributable to each Share Class of the Portfolio. The performance fee is equal to 15% of the amount by which the Class NAV per share exceeds such Class' Benchmark Value per share, as defined within the Prospectus.

For the Global Strategic Macro Bond Portfolio the performance fee accrues daily and is paid annually out of the assets attributable to each Share Class of the Portfolios. The performance fee is equal to 10% of the amount by which the Class NAV per share exceeds such Class' Benchmark Value per share, as defined within the Prospectus.

	Base Currency	Amount in base currency	% of Shareholders Equity*
Global Strategic Macro Bond Portfolio "P" Accumulation Share Class (EUR Hedged Class)	USD	4	0.00

There were no performance fees charged to other Share Classes of the mentioned Portfolios for the year ended 30 November 2024.

Fees earned on other Goldman Sachs Funds

To the extent permitted by applicable law and the terms of the Prospectus, any Portfolio may invest all or some of its short term cash investments in any money market fund advised or managed by Goldman Sachs and may invest in other investment funds advised or managed by Goldman Sachs (together "Goldman Sachs Funds"). Subject to applicable law and the terms of the Prospectus, the Fund may be required to bear its proportionate share of any fees (including investment advisory and management fees) applicable to its investment in such investment funds.

For further details on investments into other Goldman Sachs Funds please refer to the Schedules of Investments.

6 Significant Agreements and Related Parties (Continued)

Fees earned on other Goldman Sachs Funds (Continued)

All Portfolios invested in the Goldman Sachs Funds were invested in the non-investment advisory fee bearing share classes. As a result, for the year ended 30 November 2024, there were no investment advisory fees earned on each Portfolio's investment in the Goldman Sachs Funds.

Commissions

In the normal course of its operations, each Portfolio may enter into transactions on securities or futures contracts with the Goldman Sachs Funds or other Goldman Sachs affiliates (together "Goldman Sachs Affiliates").

For the year ended 30 November 2024, the following transactions were entered into with Goldman Sachs Affiliates with total brokerage commissions paid to Goldman Sachs Affiliates being split between commissions related to security transactions and futures contracts:

- * Represents the cost of securities (excluding futures transactions and investments in the Goldman Sachs Liquid Reserves Funds) for transactions entered into with Goldman Sachs Affiliates.
- ** All portfolio futures transactions disclosed in this table were affected through Goldman Sachs.
- *** Expressed in '000.

For all the remaining Portfolios, there were no transactions with Goldman Sachs Affiliates, for the year ended 30 November 2024.

All such transactions, including those with Goldman Sachs Affiliates, were entered into in the ordinary course of business and on normal commercial terms.

Securities Lending

The securities lending agent is Goldman Sachs Agency Lending ("GSAL"), an affiliate of Goldman Sachs. Approved borrowers of GSAL may include Goldman Sachs International ("GSI"), an affiliate of the Investment Adviser, as well as other third parties. The Portfolios may lend portions of investments to third parties. In return, the Portfolios receive a fee that is negotiated for each transaction. The Portfolios receive G-10 (excluding Italy, Japan and the United States) government securities as collateral against the securities loaned. G-10 is made of eleven industrial countries (Belgium, Canada, France, Germany, Italy, Japan, the Netherlands, Sweden, Switzerland, the United Kingdom and the United States) which consult and co-operate on economic, monetary and financial matters. This collateral is maintained over the life of the loan for an amount not less than 105% of the value of lent securities, with any subsequent margin posted in the form of the aforementioned government securities or cash. In general, loans may be effected through the intermediary of prime financial institutions that specialise in such activities and in the way specified by them.

Collateral received by Portfolios in the form of G-10 (excluding Italy, Japan and the United States) government securities or cash, denominated in their respective currencies, is held by the appointed tri-party collateral manager in segregated accounts.

The following summarises the securities lent as at 30 November 2024 and the income earned by each Portfolio and the fees earned by Securities Lending Agent that is part of the Securities Lending program:

Portfolios	Currency	Market Value of Securities Lent as at 30-Nov-2024	% of Shareholders' Equity	% of Total Lendable Assets*	Market Value of Collateral Received as at 30-Nov-2024	Collateral as a Percentage of the Market Value of Securities Lent as at 30-Nov-2024	Gross Income Earned for the Year Ended 30-Nov-2024	Fees Charged for the Year Ended 30-Nov-2024	Net Income Earned for the Year Ended 30-Nov-2024

^{*} Lendable assets are defined as the aggregate market value of equities and bonds held in the portfolio.

Administrator, Domiciliary Agent and Listing Agent

The Management Company has appointed State Street Bank International GmbH, Luxembourg Branch as the central administration agent of the Fund. The Fund has appointed State Street Bank International GmbH, Luxembourg Branch as its domiciliary and corporate agent, paying agent and as its listing agent in Luxembourg.

For its services as an Administrator, Domiciliary Agent and Listing Agent, State Street Bank International GmbH, Luxembourg Branch receives a fee payable monthly in arrears and calculated on the Monthly Average Net Assets of each Portfolio.

For its Financial Reporting Services, State Street Bank International GmbH, Luxembourg Branch receives a fixed fee per annum per Portfolio payable monthly in arrears.

^{**} Expressed in '000.

^{***} The amount used is calculated using the average exchange rate disclosed in Note 10.

6 Significant Agreements and Related Parties (Continued)

Depositary

The Fund has appointed State Street Bank International GmbH, Luxembourg Branch as Depositary. For its services as Depositary, State Street Bank International GmbH, Luxembourg Branch charges a fee which is a combination of a basis point charge on assets and transaction-based charge which is dependent on the country of transaction.

Distributor

The Fund has appointed the Management Company as principal distributor and the Management Company appoints sub-distributors and oversees them. GSAMBV may receive a portion of the sales charge imposed on the sale of Portfolio shares. Please see the table below which details the value of retained sales charges per Portfolio.

Portfolios	Currency	Retained Sales Charges

Global Multi-Asset Income Portfolio	USD	1,965,569
Total (in USD) **		3,878,739

^{*} Expressed in '000

For the year ended 30 November 2024, there were no retained sales charges for all other remaining Portfolios and there were no retained sales charges received by GSAMBV.

Please refer to the Prospectus for further details about distribution fees.

Out of its fees, the Distributor is responsible for remunerating third party sub-distributors.

Transfer Agent

The Management Company has appointed CACEIS Bank, Luxembourg Branch (the "Transfer Agent") to perform registrar and transfer agency functions in respect of the Fund pursuant to the Registrar and Transfer Agent Agreement between the Fund, the Management Company and the Transfer Agent.

CACEIS Investor Services Bank SA has been integrated into CACEIS Bank, Luxembourg branch effective 1 June 2024.

The day-to-day services provided to the Fund by the Transfer Agent include receiving and processing subscription and redemption orders, allotting and issuing shares and maintaining the shareholder register for the shares. The Transfer Agent is paid a fee, quarterly in arrears, out of the net assets of the Portfolios. The Transfer Agent's fee consists of both a fixed and variable fee.

The fixed portion consists of an annual charge for maintenance and shareholder account charges. Variable costs are determined by the level of transactions in each Portfolio.

^{**} The amount is calculated using the average exchange rates disclosed in Note 10.

6 Significant Agreements and Related Parties (Continued)

Valuer

The Management Company has appointed Goldman Sachs & Co. LLC to act as the Valuer and the valuation function was performed by Controllers during the year ended 30 November 2024. Please also refer to Note 4.

7 Share Capital

8 Distributions

The Fund intends that substantially all the net investment income, if any, of each Portfolio will be declared as a dividend and paid at least annually to the Shareholders of the Distribution Share Classes of the Portfolios. Net capital and currency gains realised on each Portfolio's investments and/or capital attributable to certain Share Classes may also be distributed to Shareholders of certain Distribution Share Classes of the Portfolios.

8 Distributions (Continued)

Generally no distributions will be made in respect of the Accumulation Share Classes.

Please refer to the Prospectus for further details about distribution policies.

9 Financial Investments and Associated Risks

The Fund's investing activities expose it to various types of risks that are associated with the financial investments and markets in which it and its underlying Portfolios invest (the "Investment Risks"). The Board of Directors has appointed the Management Company to be responsible for, among other things, investment management and risk management. The Management Company has delegated certain investment management functions to the Investment Adviser.

The main types of financial risks which the Fund is exposed to are market risk, liquidity risk and credit risk. The Prospectus provides details of these and other types of risk some of which are additional to that information provided in these financial statements.

The risk management policies employed in relation to the Fund are outlined below.

(a) Market Risk

The potential for changes in the market value of the Fund's underlying Portfolios' investments is referred to as market risk. Commonly used categories of market risk include currency risk, interest rate risk and other price risk.

- Currency risks may result from exposures to changes in spot prices, forward prices and volatilities
 of currency rates.
- (ii) Interest rate risks may result from exposures to changes in the level, slope and curvature of the various yield curves, the volatility of interest rates, mortgage prepayment speeds and credit spreads.
- (iii) Other price risks are the risk that the value of an investment will fluctuate as a result of changes in market prices other than those arising from currency risk and may result from exposures to changes in the prices and volatilities of individual equities, equity baskets, equity indices, and commodities.

The Fund's market risk strategy is driven by the Fund's underlying Portfolios' investment risk and return objectives.

Market risk is managed through the application of risk budgeting principles. The Investment Adviser determines an appropriate risk target, commonly referred to as Tracking Error, employing a risk budgeting framework.

(i) Currency Risk

The Fund may invest in financial investments and enter into transactions denominated in currencies other than its Portfolios' base currency. Consequently, the Fund may be exposed to risks that the exchange rate of its base currency relative to other foreign currencies may change in a manner that has an adverse effect on the value of that portion of the Fund's assets or liabilities denominated in currencies other than the base currency.

When an investor invests into a Share Class which is in a different currency to the base currency of the Portfolio in which it invests, the currency risk of the investor will be different to the currency risk of the Portfolio.

(ii) Interest Rate Risk

The Fund may invest in fixed income securities and interest rate swaps contracts. Any change to relevant interest rates for particular securities may result in the Investment Adviser being unable to secure similar returns upon the expiry of contracts or the sale of securities. In addition, changes to prevailing interest rates or changes in expectations of future rates may result in an increase or decrease in the value of the securities held. In general,

9 Financial Investments and Associated Risks (Continued)

(a) Market Risk (Continued)

(ii) Interest Rate Risk (Continued)

if interest rates rise, the value of fixed income securities will decline. A decline in interest rates will in general, have the opposite effect. All fixed income securities and floating rate securities, together with their interest rate and maturity date are disclosed in the Schedule of Investments. The Fund may invest in instruments in desired currencies at fixed, floating and zero rates of interest.

(iii) Other Price Risk

Other price risk is the risk that the value of a financial investment will fluctuate as a result of changes in market prices, other than those arising from currency risk or interest rate risk whether caused by factors specific to an individual investment, its issuer or any factor affecting financial investments traded in the market.

The Fund's financial investments are carried at market value with market value changes recognised in the Statement of Operations, all changes in market conditions will directly affect Shareholders' Equity.

(b) Liquidity Risk

Liquidity risk is the risk that the Fund will encounter difficulty in meeting obligations associated with financial liabilities that are settled by delivering cash or another financial asset. Among other things liquidity could be impaired by an inability to access secured and/or unsecured sources of financing, an inability to sell assets or unforeseen outflows of cash or collateral or violations of counterparty or prime broker terms or covenants. This situation may arise due to circumstances outside of the Fund's control, such as a general market disruption or an operational problem affecting the Fund or third parties. Also, the ability to sell assets may be impaired if other market participants are seeking to sell similar assets at the same time.

The redemption of Shares of a Portfolio may be temporarily suspended, or deferred, by the Board of Directors or the Management Company on behalf of the Fund upon certain circumstances, and where it is deemed in the best interests of Shareholders.

As of 30 November 2024, the Fund participated in a USD 300,000,000 committed, unsecured revolving line of credit facility (the "facility") together with other sub-funds of Goldman Sachs Funds II SICAV and Goldman Sachs Lux Investment Funds. This facility is to be used for temporary emergency purposes, or to allow for an orderly liquidation of securities to meet redemption requests. The interest rate on borrowings is based on a reference rate related to the drawn currency (e.g. Federal Funds Rate, EURIBOR, Overnight SONIA). The facility also requires a fee to be paid by the Fund based on the amount of the commitment that has not been utilised. For the year ended 30 November 2024, the Fund did not have any borrowings under the facility.

(c) Credit Risk

Credit and counterparty risk is the risk that one party to a financial investment will cause a financial loss for the other party by failing to discharge an obligation.

Procedures have been adopted to reduce credit risk related to the Fund's dealings with counterparties. Before transacting with any counterparty, the Investment Adviser or its affiliates evaluate both credit-worthiness and reputation by conducting a credit analysis of the party, their business and reputation. The credit risk of approved counterparties is then monitored on an ongoing basis, including periodic reviews of financial statements and interim financial reports as needed.

(d) Additional Risks

(i) Sustainability Risk

Sustainability risk is defined in Article 3 of Regulation (EU) 2019/2088 (the "Sustainable Finance Disclosure Regulation") as an environmental, social or governance event or condition, that if it occurs, could cause an actual or a potential material negative impact on the value of the investment.

Additional details of risks not disclosed in these Financial Statements can be found in the Prospectus.

10 Exchange Rates

The following exchange rates (against USD) were used to calculate the Combined Total, in the Statement of Assets and Liabilities, for the year ended 30 November 2024:

Currency	30-Nov-2024
1 Euro (EUR)	1.055200 USD
1,000 Japanese Yen (JPY)	6.668223 USD
1 United Kingdom Pound (GBP)	1.268900 USD

The following average exchange rates (against USD) were used to calculate the Combined Total, in the Statement of Operations and Statement of Changes in Shareholders' Equity (except for Shareholders' Equity at the start and end of the year) for the year ended 30 November 2024:

Currency	
1 Euro (EUR)	1.085409 USD
1,000 Japanese Yen (JPY)	6.635283 USD
1 United Kingdom Pound (GBP)	1.277963 USD

The following exchange rates were used to convert amounts from local share class currencies to base Portfolios' currencies, for the year ended 30 November 2024:

11 Commission Recapture

All Portfolios may direct trades, subject to obtaining best price and execution, to various brokers who have agreed to rebate a portion of the commissions generated. Such rebates are made directly to the applicable Portfolio as cash payments and are included in net realised gain and loss on investments in the Statement of Operations. For the year ended 30 November 2024, there were no commissions paid on securities in the program and reimbursed to the Portfolios.

12 Statement of Changes in each Portfolio

A Statement of Changes is available, free of charge, upon request from the registered office.

14 Transaction Costs

Transaction costs have been defined as broker commission fees, commission on futures contracts, market fees and taxes relating to purchase or sale of equity and investments in other funds. Depositary based transaction costs are included in 'Depositary fees' in the Statement of Operations.

Details of broker commissions with Goldman Sachs Affiliates can be found under Note 6 Significant Agreements and Related Parties – Commissions.

14 Transaction Costs (Continued)

For the year ended 30 November, 2024, the following Portfolios incurred separately identifiable transaction costs:

Portfolios	Currency	Transaction Costs*	% of average Shareholders' Equity
Asia Equity Portfolio	USD	269,524	0.28%
All China Equity Portfolio	USD	98,679	0.34%

Total (in USD)***		42,834,070	

^{*} Transaction costs for fixed income investments, forward currency contracts and other derivative contracts are not separately identifiable. Portfolios that invest solely in those investments are not disclosed in the table above.

Note: benchmark returns, with the exception of taxes at times, do not incorporate transaction costs.

15 Commissions for Research and/or Execution

Certain Portfolios pay commission for execution only and/or execution and investment research. The commissions for execution are recognised in the settlement amount. The Fund did not otherwise enter into any third party commission arrangements for the year ended 30 November 2024.

16 Prospectus

As at 30 November 2024, the latest Prospectus of the Fund was issued in November 2024.

17 Currency Adjustment

In the Statement of Changes in Shareholders' Equity, the opening value of the Fund has been restated at the exchange rates ruling at 30 November 2023, and the combined figures have been calculated using the average exchange rates throughout the year. The resulting loss of USD 180,457,604 represents the movement in exchange rates between 1 December 2023 and 30 November 2024. This is a notional loss, which has no impact on the Net Asset Value of the individual Portfolios.

18 Cross Liabilities

In accordance with Luxembourg law, each Portfolio is "ring-fenced" and considered to constitute a single pool of assets and liabilities, so that the rights of Shareholders and creditors in relation to each Portfolio should be limited to the assets of that Portfolio.

19 Contingent Liabilities

There were no contingent liabilities as at 30 November 2024.

20 Subsequent Events

Since 30 November 2024, the following Portfolio had name change:

Former name of Portfolio	New name of Portfolio	Date
Global Millennials Equity Portfolio	Global Future Generations Equity Portfolio	2 December 2024
ESG-Enhanced Global Multi-Asset Balanced Portfolio	Global Multi-Asset Balanced Portfolio	24 February 2025

From 1 December 2024 to 17 March 2025, the following Portfolios had movements greater than 25% in Shareholders' Equity:

Portfolio	Currency	% Movement in AUM	% Movement in Performance
US Equity ESG Portfolio	USD	(28.07%)	(11.31%)

^{**} Expressed in '000.

^{***} Total amount is calculated using the exchange rates disclosed in Note 10.

20 Subsequent Events (Continued)

Portfolio	Currency	% Movement in AUM	% Movement in Performance
Europe CORE® Equity Portfolio	EUR	51.61%	8.47%
Emerging Markets Short Duration Bond Portfolio	USD	35.82%	(2.86%)

Since 30 November 2024 there is a firm intention to close the Goldman Sachs Eurozone CORE® Equity Portfolio with expected closure date on 22 April 2025.

There were no other subsequent events to note.

21 Indemnifications

The Fund may enter into contracts that contain a variety of indemnifications. The Fund's maximum exposure under these arrangements is unknown. However, the Fund has not had prior claims or losses pursuant to these contracts.

22 Approval of Financial Statements

The Board of Directors approved the audited Annual Financial Statements on 17 March 2025.

23 Supplemental Information

The Investment Adviser is subject to the Securities and Exchange Commission's amended Rule 206(4)-2 under the Investment Advisers Act of 1940 ("the Act"). The Investment Adviser has determined that they are required to provide the following information to all investors and has determined which Portfolios are to provide this information in accordance with the Act. The Investment Adviser has requested that the Board of Directors includes this information in the Board of Directors' financial statements.

The following is a summary of total return, expense and investment income results for the year ended 30 November 2024:

Global Equity Partners ESG Portfolio	Currency	Total return ¹	Expense before waivers/ reimbursements to average net assets ^{2,3}	Expense after waivers/ reimbursements to average net assets ^{2,3,4}	Net investment income/(loss) to average net assets ^{2,3}

^{*} Share Class launched during the year. Total Return has not been annualised.

¹ Total returns are calculated by dividing the change in the net asset value per share for the year by the net asset value per share at the beginning of the year. An individual shareholder's return may vary from these returns due to the timing of capital transactions.

² The expense and net investment income ratios are calculated for each group of shareholders taken as a whole. Under rules required for SEC 206(4)-2 this ratio does not include realised gains and losses in net investment income. The computation of such ratios based on the amount of income and expenses assessed to an individual shareholder's capital may vary from these ratios based on the timing of capital transactions.

³ Refer to Note 6 Significant Agreements and Related Parties for further details on expense waivers/reimbursement amounts.

⁴ Includes additional fee to Investment Adviser for fixed operating share classes.

Financial Assets and Financial Liabilities at Value

The three levels of the fair value hierarchy under the Accounting Standards Codification ("ASC") 820 are described below:

Level 1 – Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities:

Level 2 — Quoted prices in markets that are not active or financial instruments for which significant inputs are observable (including but not limited to quoted prices for similar securities, interest rates, foreign exchange rates, volatility and credit risk spreads), either directly or indirectly;

Level 3 – Prices or valuations that require significant unobservable inputs (including the Valuer's assumptions in determining fair value measurement).

The level in the fair value hierarchy within which the fair value measurement is categorised in its entirety shall be determined on the basis of the lowest level input that is significant to the fair value measurement in its entirety. For this purpose, the significance of an input is assessed against the fair value measurement in its entirety. If a fair value measurement uses observable inputs that require significant adjustment based on unobservable inputs, that measurement is a Level 3 measurement. Assessing the significance of a particular input to the fair value measurement in its entirety requires judgement, considering factors specific to the asset or liability.

There were no movements in the fair value of financial investments categorised within Level 3 between the beginning and the end of the reporting year.

24 Cross sub-fund investments

As at 30 November 2024, the total cross sub-fund investments amounted to USD 355,919,262 and therefore the total combined Net Asset at year-end without cross sub-fund investments would amount to USD 54,699,817,291.

25 Sustainable Finance Disclosure Regulation ("SFDR")

The EU Sustainable Finance Disclosure Regulation ("SFDR") (Regulation (EU) 2019/2088) has applied since 10 March 2021. Pursuant to Article 11 of SFDR (Transparency of the promotion of environmental or social characteristics and of sustainable investments in periodic reports), Goldman Sachs Asset Management B.V. is required to provide a description of the extent to which environmental or social characteristics have been met with reference to Portfolios providing disclosures pursuant to Article 8(1) of SFDR, and to the extent applicable, Article 9 of SFDR.

In addition, the EU Taxonomy Regulation ("Taxonomy Regulation") (Regulation (EU) 2020/852) establishes a framework for identifying economic activities as environmentally sustainable within the European Economic Area and requires the Portfolios to additionally disclose whether the EU criteria for environmentally sustainable economic activities has been taken into account.

Please see this information disclosed for each of the Portfolios in the Report of the Management Company VI.
