The annual reports, including audited financial statements, and the unaudited semi-annual reports are available to shareholders free of charge at the registered office of the SICAV, from the Depositary Bank and from any Paying Agent or Representative in the countries in which the SICAV is marketed i.e.: Austria, Belgium (only for the share classes authorised by Belgian's Financial Services and Markets Authority), Chile, Cyprus, Czech Republic, Denmark (only for the sub-funds authorised by Denmark's Financial Supervisory Authority), Spain (only for the share classes authorised for sale by the "Comisión Nacional del Mercado de Valores"), Finland, France, Germany, Greece (only for the sub funds authorised by the Hellenic Capital Market Commission ("HCMC")), Hong Kong (only for the sub-funds authorised by the Securities and Futures Commission ("SFC")), Ireland, Italy (only for the share classes authorised by the Commissione Nazionale per le Società e la Borsa ("CONSOB")) and the "Banca d'Italia"), Liechtenstein, Luxembourg, Macao (only for the sub funds authorised by the Macau Monetary Authority ("MMA")), Malta, the Netherlands, Norway, Peru, Portugal, the United Kingdom, Singapore, South Korea, Sweden, Switzerland, Taiwan (only for those sub-funds registered in Taiwan) and United Arab Emirates (only for those sub-funds registered in United Arab Emirates).

All other published financial information, such as the net asset value per share of the SICAV and details of any suspension of the calculation of the net asset value, is available to the public at the registered office of the SICAV.

A detailed schedule of changes in the securities portfolios for all the sub-funds for the year ended September 30, 2024, is available free of charge upon request at the registered office of the SICAV and from the representative in each country in which the SICAV is authorised for distribution.

#### **Sustainable Finance Disclosure Regulation ("SFDR")**

In accordance with Article 50 (2) of Commission Delegated Regulation (EU) 2022/1288, a description of the following is included in the corresponding SFDR appendix.

For sub-funds categorized as financial products as referred to in Article 8 of SFDR, that promote, among other characteristics, environmental or social characteristics, the extent to which environmental or social characteristics are met.

For sub-funds categorized as financial products as referred to in Article 9 of SFDR, the overall sustainability-related impact of such financial product by means of relevant sustainability indicators.

For any other sub-funds that are not categorized under Article 8 or Article 9 of SFDR, the investments underlying these financial products do not take into account the EU criteria for environmentally sustainable economic activities.

## 1. MARKETING / DISTRIBUTION IN SWITZERLAND

### Representative

The Swiss representative is Pictet Asset Management SA, 60, route des Acacias, CH-1211 Geneva 73.

### Paying agent

The paying agent in Switzerland is Banque Pictet & Cie SA., with registered office at 60, route des Acacias, CH-1211 Geneva 73.

The following sub-fund is not authorised for distribution to the public in Switzerland:

- Pictet - Corto Europe Long Short.

### Place of distribution of reference documents

The full prospectus, the Key Information Documents ("KIDs"), the articles of incorporation, the detailed schedule of changes in the securities portfolios for the period under review and the annual report, including the audited financial statements and unaudited semi-annual reports may be obtained free of charge from the representative.

### Publications

Information regarding foreign collective investments is published on Swiss Fund Data AG.  
[www.swissfunddata.ch](http://www.swissfunddata.ch)

The subscription and redemption prices of every share class, as well as the net asset value followed by the note "excluding fees", are published at the time of each subscription and redemption of shares. The prices are published each business day on Swiss Fund Data AG. ([www.swissfunddata.ch](http://www.swissfunddata.ch))

### Payment of trailer fees and rebates

1. The Management Company and its representatives may pay trailer fees as payment for distributing SICAV shares in Switzerland or from Switzerland. This payment can cover the following services:
  - Implementation of processes for subscribing and holding or acting as Depositary Bank for shares;
  - Storage and distribution of marketing and legal documents;
  - Sending or provision of publications and notices;
  - Analysis and fulfilment of due diligence obligations in areas such as money laundering, knowing your client and distribution restrictions;
  - Provision of information and answers to investors' specific questions;
  - Production of fund analysis material;
  - Centralised investor relationship management;
  - Training of client advisers on collective investment schemes;
  - Selection, appointment and monitoring of sub-distributors.

Trailer fees are not considered to be rebates, even if they are fully or partially repaid to investors. The beneficiaries of trailer fees undertake to ensure transparent publication and provide free and spontaneous information to investors on the payment they may receive for distribution. On request, beneficiaries provide information on the amounts actually received for the distribution of collective investment schemes to investors.

2. The Management Company and its representatives may pay rebates directly to investors, upon request, under the scope of distribution in Switzerland or from Switzerland. The rebates will serve to reduce the fees or costs borne by the investors concerned. Rebates are permitted subject to the following points:
- they are paid from the fees of the Management Company and are therefore not deducted from the assets of the SICAV;
  - they are granted on the basis of objective criteria;
  - they are granted with the same timing conditions and to the same extent to all investors fulfilling the objective criteria and requesting rebates.

Rebates are granted by the Management Company on the basis of one or more of the following objective criteria:

- Applicable regulatory requirements;
- The investment volume for a share class, in a fund or in a product range of the Pictet group;
- The percentage that the investment volume represents with respect to the size of the SICAV or the share class in question;
- The amount of fees incurred;
- The investment date and/or the expected investment horizon;
- Support in the SICAV launch phase.

The quantitative criteria may be considered to be met by the total investments held by investors using the same investment adviser.

The Management Company provides information related to rebates free of charge on request from the investor.

### **Place of execution and jurisdiction**

The place of execution and jurisdiction is the registered office of the representative of the SICAV's shares distributed in or from Switzerland.

## **2. ADDITIONAL INFORMATION FOR INVESTORS IN GERMANY**

No sales notification pursuant to § 310 of the German Investment Code (Kapitalanlagegesetzbuch) has been issued in Germany for the following sub-fund, so that shares of this sub-fund may not be publicly distributed to investors within the scope of the German Investment Code:

- Pictet - Corto Europe Long Short

### **Provision of facilities to investors:**

FundPartner Solutions (Europe) S.A.  
15 Avenue J. F.Kennedy, L- 1855 Luxembourg

- Provides investors in Germany with facilities to perform the following functions in accordance with Article 92(1) of Directive 2009/65/EC, as amended by Directive (EU) 2019/1160:
- Process subscription, redemption and repurchase orders and make payments to German investors

Pictet Asset Management (Europe) S.A.  
L-2226 Luxembourg, 6B, rue du Fort Niedergrünewald  
<https://eifs.lu/pictetam>

- Provides investors in Germany with facilities to perform the following tasks in accordance with Article 92(1) of Directive 2009/65/EC, as amended by Directive (EU) 2019/1160:
- Provide information to investors on how to make requests for redemption and conversion of units and how redemption and repurchase proceeds are paid

- Facilitate the handling of information and access to procedures and arrangements relating to the exercise of investors' rights arising from their investment (investor complaints)
- Provide investors with the necessary information and documentation for inspection and obtaining copies
- Provide investors with information relevant to the tasks performed by the institutions in a durable medium

#### **Documentation and information:**

The current version of the full prospectus, the Key Information Documents ("KIDs"), the articles of association of the SICAV and the annual and semi-annual reports are available free of charge from the management company. The issue, redemption and conversion prices of the shares and all other notices to shareholders are also available at the facilities.

In addition, the following documents are available for inspection at the institutions:

- The management agreement between the SICAV and the Management Company;
- The custodian bank agreement between Bank Pictet & Cie (Europe) AG, succursale de Luxembourg and the SICAV.

Furthermore, the issue and redemption prices are published on each trading day in the "Börsen-Zeitung". All notifications to shareholders are sent free of charge to shareholders in the Federal Republic of Germany by mail. In addition, notifications to shareholders will be sent in the following cases pursuant to Section 298 (2) of the German Investment Code (Kapitalanlagegesetzbuch - KAGB) will be published on the Fund's website at <https://www.am.pictet/>:

- Suspension of the redemption of units
- Termination of the management of the fund or its liquidation
- Any amendments to the Articles of Incorporation that are incompatible with the previous investment principles, changes to material investor rights to the detriment of investors, or changes to the detriment of investors that affect remuneration and reimbursement of expenses that may be paid or incurred out of the Company Asset pooling
- Merger of funds
- Conversion of a fund into a feeder fund or change in a master fund

Any complaints should first be addressed to the Head of Compliance of the Management Company, i.e. Pictet Asset Management (Europe) S.A., 6B, rue du Fort Niedergrünewald, L 2226 Luxembourg, Grand Duchy of Luxembourg. The details of the responsible investment policy are available at

<https://am.pictet/-/media/pam/pam-common-gallery/pictet-asset-management/responsible-investment-policy.pdf>, and the procedure for the resolution of complaints by the management company and the details of the procedure for the out-of-court resolution of complaints with the CSSF are available at <https://am.pictet/en/luxembourg/articles/complaint-resolution-procedure>. A copy of these documents is also available free of charge upon request.

### **3. FACILITIES FOR INVESTORS IN LIECHTENSTEIN**

LGT Bank AG  
Herrengasse 12

#### **5. FACILITIES FOR INVESTORS IN AUSTRIA**

##### **Paying and information agent**

Raiffeisen Bank International AG  
Am Stadtpark 9  
A-1030 Vienna

Applications for the redemption of shares of the SICAV may be sent to Raiffeisen Bank International AG which will arrange for the processing of the redemptions and the payment of redemption proceeds as well as other payments from the SICAV to Austrian shareholders, at their request, in collaboration with the SICAV and the Depositary Bank.

The latest version of the prospectus including the addendum for Austrian investors, the Key Information Documents ("KIDs"), the annual reports report, including the audited financial statements and unaudited semi-annual reports, the articles of incorporation of the SICAV as well as the subscription and redemption prices of the shares of the SICAV, may be obtained from Raiffeisen Bank International AG, where other available documents, if provided for that purpose, may also be consulted.

The net asset values of the sub-funds and share classes published in Luxembourg shall also be published in Austria in the daily newspaper "Der Standard".

The following sub-fund is not authorised for distribution to the public in Austria:

- Pictet - Corto Europe Long Short.

##### **SICAV's tax consultant in Austria**

Deloitte Exinger GmbH  
Renngasse 1/Freyung  
P.O. Box 18  
A-1013 Vienna

## 6. TAXATION

Shareholders are invited to contact their tax advisor in order to obtain information regarding the taxation applicable to their investment in their country of residence or in any other country concerned.

## ECONOMIC AND FINANCIAL CONDITIONS

The last twelve months have ended on an extremely positive note for risky assets, continuing a trend that was already favourable during the previous period. The scenario of resilient global growth, coupled with solid corporate earnings and falling inflation, consolidating the disinflationary rhetoric of central banks, and optimism surrounding artificial intelligence (AI), more than offset the high geopolitical uncertainty. However, the context remained tense, whether in terms of major conflicts (wars in Ukraine and the Middle East) or on the political front (dissolution of the National Assembly in France, US elections).

The economic outlook has improved overall. While major regional disparities remained, with weak economic momentum in Europe and China, the United States and emerging markets (excluding China) emerged as the engines of global growth. Moreover, US GDP figures published quarterly have also been revised upwards on several occasions. They confirmed the US economy has had sustained growth above long-term potential over the last eight quarters. The main driver of this growth has been US consumption, with spending accounting for around two-thirds of GDP. The surplus savings accumulated during the pandemic and the strength of the labour market have supported purchasing power. The Chinese economy, which has been struggling since the covid crisis, with falling consumption and investment and persistent deflationary pressures, got a boost from a major new stimulus package over the summer. The authorities have implemented a series of strong monetary policy measures, as well as targeted support for the equity and property markets, raising hopes that the economy will stabilise and achieve the official 5% growth target.

The period under review also brought some relief on the inflation front, whereas investors had ended the previous period with concerns about whether inflation would continue to fall. In the United States, reassuring figures were seen across a wide range of statistics (core CPI, CPI headline, PPI, core PCE), confirming the progress made on disinflation. A similar trend was seen in the euro zone, with inflation in September falling back below the European Central Bank's (ECB) 2% target. At 1.8%, this is the lowest figure since April 2021.

Against this backdrop, central banks in developed countries were able to begin cutting their key rates, following in the footsteps of those in emerging countries, which had already done so last year. The Swiss National Bank (SNB) was the first to take the plunge in March. On three occasions, its key rate was cut by 25 basis points (bp) to 1%. With two 25 bp cuts, the ECB has adopted a policy of taking small steps in the face of a sluggish economy. In September, the Federal Reserve (Fed) cut rates by half a percentage point, hitting back hard, and forecasting a further half point by the end of 2024.

The global stock market outlook was also buoyed by the momentum of US equities, and more specifically by the AI theme. The promise of AI, through the surge in the shares of the “Magnificent 7” (Nvidia, Microsoft, Apple, Amazon, Meta, Alphabet and Tesla, the major US players in the sector), underpinned the market’s rise. The dispersion of performance between the Mag 7 and the rest of the market was thus considerable, underlining the capacity of AI to disrupt industries and market expectations. The Mag 7 are up 44.4% in 2024 and have dominated the S&P500 index, accounting for around 30% of its market capitalisation.

To conclude, a resilient macroeconomic environment played a stabilising role in supporting corporate earnings. The quarterly figures published on the vast majority of stock markets showed positive earnings momentum, albeit at a slower pace.

The behaviour of financial markets calls for several observations. The period ended on a highly positive note for equities. Buoyed by a scenario of a soft landing for the US economy and generally good corporate results, several stock market indices reached unprecedented levels during the period (the three main US indices, the DAX and

the FTSE 100). Expressed in local currencies, the MSCI World indices gained 7.2% and 30.4%, respectively. On a regional level, the United States outperformed all other equity markets. With a gain of 36.3%, the S&P500 index benefited from its bias to large caps, which have grown from advances in the field of AI. However, that over the last three months, the recovery has extended to segments benefiting from lower interest rates, such as financials, real estate and small- and mid-cap sectors. Euro zone equities also earned solid returns of 20.4%, as did emerging equities. The latter recorded a performance of 25.0%, driven mainly by Indian equities (+41.6%). The Chinese market also contributed to this trend, with a positive performance of 22.4%. The many new stimulus measures aimed at stabilising the property sector and restoring consumer confidence triggered a spectacular rally in stock prices in September. Elsewhere in Asia, Japanese equities were at the other end of the spectrum, up 16.5%. The Bank of Japan's (BoJ) 25bp rate hike and decision to halve its purchases of government bonds, as well as the liquidation of short positions in the yen, weighed on the trend. The UK equity market also lagged (+12.2%), due to a combination of higher exposure to underperforming energy stocks and the strength of sterling.

In fixed income, bond markets benefited from disinflation and the easing of monetary conditions by central banks. Expressed in local currencies, developed-economy sovereign bonds posted positive performances (BofAML Euro Govt: +9.3%, BofAML US Govt: +9.9%). In broad terms, the positive economic backdrop gave a boost to the riskiest bond segments. The solid resilience of the economy was reflected in corporate earnings, which helped keep credit spreads down. As such, we saw double-digit performances from investment-grade corporate bonds (ICE BofA Global Corporate: +12.6%) and high-yield bonds (ICE BofA Global High Yield: +15.6%), as well as from emerging-market debt in US dollar and local currencies (JPM EMBI USD: +18.6%; ML GBI-EM: +13.4%).

All alternative investment segments posted positive performances over the period, with the exception of commodities. Gold hit a record high as it climbed over \$2,600 an ounce. Buoyed by substantial purchases by central banks in emerging markets such as China, and by geopolitical risks, the yellow metal has posted a remarkable gain of more than 40%. On the other hand, the geopolitical context did not play in favour of the price of Brent crude oil, which ended down 14.0% against a backdrop of high volatility. The energy sector dragged down the GSCI commodities index (-6.1%). Supportive conditions also helped hedge funds to advance by 6.9% (HFRX Global Index).

## Report of the Réviseur d'Entreprises Agréé / Auditor's report

To the Shareholders of  
Pictet  
(Société d'Investissement à Capital Variable de droit Luxembourgeois)  
15, Avenue J.F. Kennedy  
L-1855 Luxembourg

### Opinion

We have audited the financial statements of Pictet (the "SICAV") and of each of its sub-funds, which comprise the statement of net assets and the statement of investments and other net assets as at September 30, 2024, the statement of operations and changes in net assets for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements give a true and fair view of the financial position of the SICAV and of each of its sub-funds as at September 30, 2024, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

### Emphasis of matter

We draw attention to Note 21 to the financial statements, which describes the decisions taken by the Board of Directors of the SICAV, in the context of the conflict between Russia and Ukraine, to value at zero the Russian securities in local and hard currency together with RUB cash and deposit accounts and to suspend the calculation of the net asset value, the subscriptions, the redemptions of shares, as well as to waive the management fees of the sub-fund Pictet - Russian Equities as from February 28, 2022.

Our opinion is not modified in respect of this matter.

### Basis for Opinion

We conducted our audit in accordance with the Law of July 23, 2016 on the audit profession (Law of 2 July 23, 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "*Commission de Surveillance du Secteur Financier*" (CSSF). Our responsibilities under the Law of July 23, 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "*Responsibilities of the "réviseur d'entreprises agréé"* for the Audit of the Financial Statements" section of our report. We are also independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements, and have fulfilled our other ethical responsibilities under those ethical requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

### Other information

The Board of Directors of the SICAV is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our report of the "*réviseur d'entreprises agréé*" thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

Société à responsabilité limitée au capital de 360,000 €

## Report of the Réviseur d'Entreprises Agréé / Auditor's report (continued)

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report this fact. We have nothing to report in this regard.

### **Responsibilities of the Board of Directors of the SICAV for the Financial Statements**

The Board of Directors of the SICAV is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the SICAV determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the SICAV is responsible for assessing the Fund's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the SICAV either intends to liquidate the Fund or to cease operations, or has no realistic alternative but to do so.

### **Responsibilities of the "réviseur d'entreprises agréé" for the Audit of the Financial Statements**

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue a report of the "réviseur d'entreprises agréé" that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law dated July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law dated July 23, 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the SICAV.
- Conclude on the appropriateness the Board of Directors of the SICAV's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our report of the "réviseur d'entreprises agréé" to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our report of the "réviseur d'entreprises agréé". However, future events or conditions may cause the Fund to cease to continue as a going concern.

## Report of the Réviseur d'Entreprises Agréé / Auditor's report (continued)

- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

For Deloitte Audit, Cabinet de Révision Agréé

\* The difference mentioned above is the result of fluctuations in the exchange rates used to convert the different items related to share classes denominated in a currency other than the currency of the sub-funds into the currency of the related sub-funds between September 30, 2023 and September 30, 2024.

\*\* The difference mentioned above results from the conversion of the net assets at the beginning of the year (for the sub-funds denominated in currencies other than Euro) at exchange rates applicable on September 30, 2023 and exchange rates applicable on September 30, 2024.

## 1. GENERAL

Pictet (the "SICAV") is an Open-ended Investment Company ("Société d'Investissement à Capital Variable") governed by Luxembourg law, subject to the provisions of Part I of the amended law of December 17, 2010 governing Undertakings for Collective Investment in Transferable Securities (the "2010 Law").

The SICAV was incorporated for an indefinite period on September 20, 1991, under the name Pictet Umbrella Fund and its articles of incorporation were published in the "*Mémorial C, Recueil des Sociétés et Associations du Grand Duché de Luxembourg*" on October 29, 1991. The Articles of association were amended for the last time by notarial deed on January 18, 2024 and published in the "*Recueil des Sociétés et Associations du Grand Duché de Luxembourg*" on February 15, 2024.

The SICAV is registered in the Luxembourg Trade and Companies Register under No. B38034.

Pictet Asset Management (Europe) S.A., a public limited company (société anonyme) with registered office at 6B, rue du Fort Niedergruenewald, L-2226 Luxembourg, was appointed management company of the SICAV as of December 8, 2005. It is a management company within the meaning of chapter 15 of the 2010 Law.

### Sub-funds in activity

As at September 30, 2024, the SICAV comprises the following 74 sub-funds:

Pictet - EUR Bonds	denominated in Euro (EUR)
Pictet - USD Government Bonds	denominated in U.S. Dollar (USD)
Pictet - EUR Corporate Bonds	denominated in Euro (EUR)

## Significant events

A new prospectus came into force in March 2024. Subsequently, the following sub-funds were renamed with effect on March 21, 2024:

- Pictet - EUR Short Mid-Term Bonds was renamed to Pictet - EUR Income Opportunities
- Pictet - Quest Emerging Sustainable Equities was renamed to Pictet - Global Multi Asset Themes
- Pictet - Sustainable Emerging Debt Blend was renamed to Pictet - Emerging Debt Blend

The Board of Directors of the SICAV has decided to approve the merger between Pictet - Short-Term Emerging Local Currency Debt into Pictet – Emerging Debt Blend with effective date as of March 22, 2024.

A new sub-fund Pictet - Quest AI-Driven Global Equities has been launched on March 28, 2024.

The Board of Directors of the SICAV has decided to approve the merger between Pictet - Global Fixed Income Opportunities into Pictet – Absolute Return Fixed Income with effect as of July 30, 2024.

A new prospectus came into force in August 2024.

### **Share classes**

Classes of shares offered to investors are presented in the annexes of the prospectus of the SICAV.

All the sub-funds constitute the SICAV. The net assets of each sub-fund are represented by shares which may be divided into different share classes. All the shares representing the assets of a sub-fund form a class of shares. Where classes of shares are issued, their specificities are detailed in the annexes of the prospectus of the SICAV.

The Board of Directors of the SICAV may decide to create several share classes for each sub-fund, whose assets will be invested according to the specific investment policy of the relevant sub-fund, but where the share classes may differ by specific subscription and/or redemption fee structures, currency risk hedging policies, distribution policies and/or management or investment advisory fees or by any other particularities applicable to each class. Where applicable, this information is provided in the current prospectus of the SICAV.

### **Master feeder structure**

#### **Pictet - Global Equities Diversified Alpha**

The Pictet - Global Equities Diversified Alpha sub-fund acts as Feeder Fund for the Pictet TR - Diversified Alpha sub-fund (the "Master Fund") and invests at least 85% of its assets in Class I EUR shares in the Master Fund.

As at September 30, 2024, the percentage of ownership share of the Master Fund is 0.93%.

As at September 30, 2024, the annualised total expense ratios of the sub-fund Pictet - Global Equities Diversified Alpha are as follows:

CLASS	ANNUALISED TER INCLUDING PERFORMANCE FEES	ANNUALISED TER EXCLUDING PERFORMANCE FEES	SYNTHETIC TER
I EUR	0.13%	0.13%	1.50%
I CHF	0.13%	0.13%	1.50%
I USD	0.11%	0.11%	1.50%
Z EUR	0.03%	0.03%	1.40%

The total expense ratio (including performance fees) of the share class I EUR of the Master Fund is 1.53%.

#### **Pictet - Corto Europe Long Short**

The Pictet - Corto Europe Long Short sub-fund acts as Feeder Fund for the Pictet TR - Corto Europe sub-fund (the "Master Fund") and invests at least 85% of its assets in Class M EUR shares in the Master Fund.

As at September 30, 2024, the percentage of ownership share of the Master Fund is 30.12%.

As at September 30, 2024, the annualised total expense ratios of the sub-fund Pictet - Corto Europe Long Short are as follows:

CLASS	ANNUALISED TER INCLUDING PERFORMANCE FEES	ANNUALISED TER EXCLUDING PERFORMANCE FEES	SYNTHETIC TER
P EUR	1.68%	1.68%	1.88%
I EUR	1.19%	1.19%	1.39%
R EUR	2.09%	2.09%	2.29%

The total expense ratio (including performance fees) of the share class M EUR of the Master Fund is 0.21%.

## Pooling

The SICAV makes use of pooling for technical reasons linked to the accounting of the performance fees and the hedging of the exchange risk for its hedged share classes denominated in currencies other than the reference currency of the sub-funds. Such pooling is set-up as a "pool feeder" structure.

### Technical pooling (performance fees and hedged share classes)

The investments, other net assets and operations (such as dividends, interest, realised results on investments, ...) common to all share classes are held in the sub-fund via the investments in the pool of investments, while items specific to each share class (such as depositary, service, management fees and performance fees) and items specific to hedged share classes (such as forward foreign exchange contracts and other contractual fees linked to the hedging) are recorded in dedicated "feeder" accounts.

Each "feeder" is allocated a portion of the pool (percentage participation) according to its initial contribution. Subsequently, the portion of the percentage participation of each feeder is determined on each NAV calculation based on the size of each feeder as converted in the reference currency of the pool at the exchange rate applicable on the NAV calculation date.

### Presentation and impact of Pooling in the financial statements

The data recorded in the statement of operations and changes in net assets under "Net realised gain/loss on pool - pooling effect" represent the currency effect due to differences between the exchange rates used as at the closing date and those used at each NAV calculation.

During the year and as at year-end, investments held at the level of a specific pool are fully allocated to a specific sub-fund.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING PRINCIPLES

### General

The financial statements are prepared in accordance with generally accepted accounting principles and with the legal reporting requirements applicable in Luxembourg relating to undertakings for collective investment ("UCI").

### Formation expenses

Formation expenses have been amortised over a maximum period of five years.

## **Conversion of foreign currencies for each sub-fund**

Cash at banks, other net assets and the market value of the investment portfolio expressed in currencies other than the base currency of the sub-fund are converted into the base currency of the sub-fund at the exchange rate prevailing at the closing date.

Income and expenses expressed in currencies other than the base currency of the sub-fund are converted into the base currency of the sub-fund at the exchange rate applicable on the transaction date.

Resulting foreign exchange gains and losses are recorded in the statement of operations and changes in net assets.

## **Combined financial statements of the SICAV**

The combined financial statements of the SICAV are expressed in Euro and correspond to the sum of items in the financial statements of each sub-fund, converted into Euro at the exchange rate prevailing at the closing date.

## **Valuation of assets of each sub-fund**

1. Securities listed on an official stock exchange or another regulated market are valued at the last known price or snap shot and fair value price, provided this price is representative.
2. Securities not listed on such stock exchange or regulated market and listed securities for which the last known price is not representative are valued with prudence and in good faith by the Board of Directors of the SICAV on the basis of their foreseeable sale prices.
3. The value of companies not listed on a stock exchange or regulated market may be determined on the basis of a valuation method put forward with prudence and in good faith by the Board of Directors of the SICAV based on the last audited annual financial statements available, and/or based on recent events that could have an impact on the value of the security in question and/or on any other valuation available. The choice of method and means used for the valuation depends on the estimated relevance of the data available. The value may be corrected on the basis of any unaudited interim financial statements available. If the Board of Directors of the SICAV considers that the price thus obtained does not reflect the probable sale price of such a security, it shall then estimate the value of the security with prudence and in good faith on the basis of its probable selling price.
4. The value of futures contracts and options contracts traded on a stock exchange or another regulated market shall be based on the closing price or settlement price published by the stock exchange or by the other regulated market that as a general rule serves as the principal trading place for these contracts. Futures contracts and options contracts not traded on a stock exchange or another regulated market are valued at their liquidation value determined in accordance with the rules established with prudence and in good faith by the Board of Directors of the SICAV, in keeping with uniform criteria set out for each type of contract.
5. Units/shares issued by open-ended undertakings for collective investment are valued:
  - on the basis of the most recent NAV available to the Central Administration Agent, or;
  - on the basis of the estimated NAV on the date closest to the sub-fund's valuation day.
6. Money market instruments are valued according to the amortised cost method, at their nominal value plus any accrued interest, or using the "mark-to-market" method.
7. Contracts For Difference ("CFD") are valued on the basis of the difference between the price of their underlying on the valuation date and on the acquisition date.
8. The unrealised gains or losses resulting from outstanding forward foreign exchange contracts are determined on the valuation day on the basis of the forward foreign exchange prices applicable on this date and are recorded in the statement of net assets.
9. For the Interest Rate Swaps ("IRS"), expected future cash flows receivable and payable on swap contracts are valued at their present value.
10. Credit Default Swaps ("CDS") are revalued on the basis of replacement spreads provided by Bloomberg Valuation Services.

11. Total Return Swaps ("TRS") are valued on the basis of the difference between the price of their underlying on the valuation date and on the acquisition date.
12. The value of cash in hand or at bank, notes and bills payable at sight and accounts receivable, prepaid expenses, dividends and interest declared or due but not yet received, consists of the nominal value of these assets, unless it appears unlikely that this value will be received; in the latter case, the value is determined by deducting an amount the Board of Directors of the SICAV deems appropriate to reflect the real value of those assets.

If the Board of Directors of the SICAV considers it necessary, it may employ a valuation committee which will be entrusted with estimating the value of certain securities with prudence and in good faith.

The Board of Directors of the SICAV is authorised to apply any other suitable valuation principles to a sub-fund's assets where it would be impossible or inappropriate to use the above criteria.

### **The specific valuation of securities in certain sub-funds**

For the Short-Term Money Market (CHF, EUR, GBP, JPY and USD) and Sovereign Short-Term Money Market (EUR and USD) sub-funds, unlisted securities are valued using the "Marked-to-Model" method, taking into account the issuer spread and the risk-free rates. Securities for which a market quotation exists are valued using a "Mark to Market" method.

### **Valuation of non-listed investments**

Such securities are entered into the portfolio at acquisition cost. The valuation frequency depends on the occurrence of significant events affecting the security. In the absence of a significant event, valuations should be carried out at least twice per year. Examples of significant events triggering a valuation process include:

- Substantially higher/lower-than-expected profits;
- A new round of financing initiated by the company;
- A new transaction (initiated by a third party investor);
- Restructuring operations.

### **Recognition of futures contracts, options on futures contracts and CFD**

At the time of each NAV calculation, the margin call on futures contracts, options on futures contracts and CFD is recorded directly in the realised capital gains and losses accounts relating to forward contracts.

### **Accounting of futures contracts, options on futures contracts and CFD**

Unrealised appreciations and depreciations on futures contracts, options on futures contracts and CFD are settled daily through the reception/payment of a cash amount corresponding to the daily increase/decrease of the market value of each opened future, option on future contract or CFD. Such cash amount is recorded under the caption "Cash at banks" in the statement of net assets and the corresponding amount is recorded under the caption "net realised gain and loss on forward contracts" in the statement of operations and changes in net assets.

### **Accounting and valuation of repurchase agreements and reverse repurchase agreements**

A repurchase agreement ("repo") is the sale of a security with a commitment by the seller to buy the same security back from the purchaser at a specified price at a designated future date.

A reverse repurchase agreement ("reverse repo") is the purchase of a security with a commitment by the buyer to sell the same security back to the seller at a specified price at a designated future date. By convention, whether the transaction is called a repo, or a reverse repo agreement is determined by viewing the transaction from the perspective of the dealer (i.e. the fund counterparty).

A repurchase agreement is similar in effect to a loan by the SICAV to the seller collateralised by the securities. The SICAV does not record the purchase of the securities received but records the repurchase agreement as if it were a loan. The transaction is disclosed in the statement of net assets under "Receivable for repurchase agreements", including any interest receivable on such transaction. Because a repurchase agreement between the two specific parties involved is generally for a relatively short time and is not transferable, it has no active market. The SICAV carries repurchase agreements at cost, which, combined with accrued interest, approximates market value.

The interest income is recorded in the statement of operations and changes in net assets under "Interest income on repurchase agreements".

Under a reverse repo agreement, the SICAV sells a security to a buyer, usually a broker, for cash. The SICAV does not record a sale of the security and agrees to repay cash plus interest at a later date in exchange for the return (repurchase) of the same security. The transaction is thus similar in effect to borrowing by the SICAV collateralised by the securities. The proceeds are recorded in the statement of net assets under "Payable for reverse repurchase agreements", including any interest payable on such transaction. The securities are marked to market. The interest expense is recorded in the statement of operations and changes in net assets under "Interest expense on reverse repurchase agreements".

In this case, the SICAV is not subject to the risk of an impairment loss for the underlying assets. The repurchase/reverse repurchase agreements are respectively considered as borrowing and lending for the amount of cash received and/or paid.

### **Net realised gains or losses on sales of investments**

Net realised gain or loss on sales of investments is calculated on the basis of the weighted average cost of the investment sold.

### **Acquisition cost of investment securities**

Cost of investment securities denominated in currencies other than the base currency of the sub-fund is converted into the base currency of the sub-fund at the exchange rate applicable on the acquisition date.

### **Income**

Dividends are recorded net of withholding tax at the ex-date. Interest is recorded on an accrual basis.

### **Dividend distribution**

The Board of Directors of the SICAV reserves the right to introduce a distribution policy that may vary between sub-funds and sub-classes of shares in issue. In addition to the aforementioned distributions, the SICAV may decide to distribute interim dividends. The SICAV may distribute the net investment revenue, realised capital gains, unrealised capital gains and capital. Investors should thus be aware that distributions may effectively reduce the net value of the SICAV. No income is distributed if the SICAV's net assets after distribution fall below EUR 1,250,000. The SICAV may distribute free bonus shares within the same limits. Dividends and allotments not claimed within five years of their payment date lapse and revert to the sub-funds or to the relevant sub-class of shares in the sub-funds of the SICAV.

## Closing NAV

As at September 30, 2024, in the official NAVs (used as a basis for subscriptions and redemptions as at that date) and in the NAVs shown in these financial statements, investments in securities were valued as follows:

1) As at September 30, 2024, for the assets of the following sub-funds, the prices taken into consideration at the time of the calculation of the NAVs were those at close of trading on September 27, 2024:

- Pictet - Emerging Local Currency Debt
- Pictet - Multi Asset Global Opportunities
- Pictet - Global Dynamic Allocation
- Pictet - Emerging Markets Multi Asset
- Pictet - Short-Term Money Market CHF
- Pictet - Short-Term Money Market USD
- Pictet - Short-Term Money Market EUR
- Pictet - Short-Term Money Market JPY
- Pictet - Short-Term Money Market GBP
- Pictet - Sovereign Short-Term Money Market USD
- Pictet - Sovereign Short-Term Money Market EUR

2) For the assets of the following sub-funds, the prices taken into consideration at the time of the calculation of the NAVs were those at intra-day on September 30, 2024:

- Pictet - USD Government Bonds
- Pictet - Global Emerging Debt
- Pictet - Global Bonds
- Pictet - USD Short Mid-Term Bonds
- Pictet - Global High Yield
- Pictet - Global Sustainable Credit
- Pictet - Emerging Corporate Bonds
- Pictet - Short Term Emerging Corporate Bonds
- Pictet - Absolute Return Fixed Income
- Pictet - Emerging Debt Blend
- Pictet - Strategic Credit
- Pictet - Climate Government Bonds
- Pictet - Family
- Pictet - Emerging Markets
- Pictet - Quest Europe Sustainable Equities
- Pictet - Digital
- Pictet - Biotech
- Pictet - Premium Brands
- Pictet - Water
- Pictet - Indian Equities
- Pictet - Japanese Equity Opportunities
- Pictet - Asian Equities Ex Japan
- Pictet - China Equities
- Pictet - Japanese Equity Selection
- Pictet - Health
- Pictet - Security
- Pictet - Clean Energy Transition
- Pictet - Russian Equities
- Pictet - Timber
- Pictet - Nutrition
- Pictet - Global Megatrend Selection
- Pictet - SmartCity

- Pictet - Quest Global Sustainable Equities
- Pictet - Robotics
- Pictet - Global Thematic Opportunities
- Pictet - Human
- Pictet - Positive Change
- Pictet - ReGeneration
- Pictet - China Environmental Opportunities

3) For all other sub-funds, the official NAVs (used as a basis for subscriptions and redemptions as at that date) and the NAVs shown in these financial statements were determined on the basis of the valuation of the underlying assets at close of trading on September 30, 2024.

Had the Board of Directors of the SICAV decided to use, for the preparation of those Financial Statements, closing prices as at September 30, 2024, the NAVs of the following sub-funds would have been different as follows:

SUB-FUND	CURRENCY	OFFICIAL NAVS AS AT 30.09.2024	NAV CALCULATED ON THE BASIS OF CLOSING PRICES AS AT 30.09.2024	DIFFERENCE

PICTET - GLOBAL SUSTAINABLE CREDIT	USD	1,012,411,934.76	1,012,107,699.54	-0.03%

The Money Market Instruments sub-funds are not disclosed in the table above due to the low volatility of their investments.

## **Transaction fees**

Transaction fees represent the costs incurred by each sub-fund in relation to the purchases and sales of investments. They include brokerage fees, bank charges, taxes, deposit fees and other transaction costs and are included in the statement of operations and changes in net assets for the year ended September 30, 2024.

## **Capital gain tax**

The Management Company and/or the Investment Managers reserve the right to book tax accruals on capital gains, thus impacting the valuation of the relevant Funds. With the uncertainty of whether and how certain capital gains are to be taxed, any provision for taxation made by the Management Company and/or the Investment Managers may be excessive or inadequate to meet final tax liabilities on capital gains. Such Tax accrual is recorded under the caption "Other fees payables" in the statement of net assets.

## **3. "TAXE D'ABONNEMENT"**

The SICAV is subject to a subscription tax (taxe d'abonnement) levied at the rate of 0.05% per annum based on its net asset value at the end of the relevant quarter, calculated and paid quarterly. This subscription tax will however be reduced to 0.01% for:

- sub-funds or classes of shares reserved to Institutional Investors, or
- sub-funds whose sole objective is the collective investment in money market instruments and the placing of deposits with credit institutions.

A subscription tax exemption is applicable to:

- the portion of any sub-fund's assets invested in other Luxembourg investment funds subject to the subscription tax;
- any sub-fund (i) whose shares are reserved to institutional investors, and (ii) whose sole objective is the collective investment in money market instruments and the placing of deposits with credit institutions, and (iii) the weighted residual portfolio maturity does not exceed 90 days, and (iv) that has obtained the highest possible rating from a recognised rating agency. If there are several classes of shares within the relevant sub-fund, the exemption is only applicable to the classes of shares reserved to institutional investors;
- any sub-fund whose shares are reserved to (i) institutions for occupational retirement provision, or similar investment vehicles, set up on one or more employers' initiative for the benefit of their employees; and (ii) companies of one or more employers investing funds they hold in order to provide retirement benefits to their employees;
- any sub-fund whose investment policy provides that at least 50% of their assets shall be invested in one or several microfinance institutions; and
- any sub-fund (i) listed or traded on at least one stock exchange or another regulated market, operating regularly, and recognised and open to the public, and (ii) whose exclusive object is to replicate the performance of one or more indexes. If there are several classes of shares within the relevant sub-fund, the exemption is only applicable to the classes of shares meeting condition (i) above.

## **Belgian annual tax**

The SICAV is registered with the Belgium Financial Services and Markets Authority in accordance with the Article 154 of the Act of August 3, 2012 relating to financial markets. Funds registered for public distribution in Belgium are subject to an annual tax of 0.0925% on the NAV of share distributed in Belgium via Belgian intermediaries as at December 31 of the previous year.

This tax is recorded in the caption "Professional fees, audit fees and other expenses" of the statement of operations and other changes in net assets.

#### 4. MANAGEMENT FEES

The SICAV has entrusted the management function to the Management Company, which has delegated it to one or more Investment Managers for each sub-fund.

Subject to prior approval by the Management Company, the Investment Managers may appoint one or more investment sub-managers, which may or may not be part of the Pictet Group, to provide all or part of the management of certain sub-funds, as specified in the annexes of the current prospectus of the SICAV.

The Management Company may be assisted by one or more Investment Advisors internal or external of the Pictet Group for the purpose of advising the Management Company on investment opportunities for the SICAV.

The Management Company receives management fees from the sub-funds for the purpose of remunerating the Investment Managers, the Investment Sub-Managers, the Investment Advisors and the Distributors, where applicable. These fees are levied on each sub-fund and on the classes of shares prorata to their net assets.

The maximum annual rates applicable for the year ended September 30, 2024, are as follows:

Pictet - Sovereign Short-Term Money Market EUR <sup>9,10</sup>	0.15%	0.10%	0.30%	0.60%	0.00%	-	-	-	-

The Board of Directors of the SICAV has decided to present the rates for the classes launched and not yet launched as at September 30, 2024.

When a sub-fund invests a significant portion of its assets in the units of other UCITS and/or other UCIs managed directly or by delegation by the same management company or by any other company with which the management company is linked through common management or control or through a substantial direct or indirect equity holding, the maximum percentage of the fixed management fees that may be obtained at the level of the target UCITS and/or UCIs will be 1.6%, to which, if applicable, a fee may be added at a maximum of 20% of the performance of the NAV per share.

On June 14, 2017, The European Parliament and The Council of the European Union released the Regulation 2017/1131 on money market funds (the "MMF Regulation") with effect as of July 20, 2018.

As at September 30, 2024, the following sub-funds of the SICAV are qualified as short-term variable net asset value money market funds and are in the scope of the article 16.4 of the MMF Regulation, but invest less than 10% of their assets in other money market funds:

- Pictet - Short-Term Money Market CHF
- Pictet - Short-Term Money Market EUR
- Pictet - Short-Term Money Market JPY
- Pictet - Short-Term Money Market USD
- Pictet - Short-Term Money Market GBP
- Pictet - Sovereign Short-Term Money Market EUR
- Pictet - Sovereign Short-Term Money Market USD

## 5. SERVICE FEES

An annual service fee calculated on the average NAVs of each sub-fund is paid, depending on the terms of the agreement, to the Management Company in remuneration for the services that it provides to the SICAV. This fee also enables the Management Company to remunerate FundPartner Solutions (Europe) S.A. for its transfer agent, administrative agent and paying agent services. The maximum rates applicable for the year ended September 30, 2024, are as follows:

	UNHEDGED SHARES (MAX)	HEDGED SHARES (MAX)
Pictet - EUR Bonds	0.15%	0.20%
Pictet - USD Government Bonds	0.15%	0.20%

## 6. OTHER FEES PAYABLE

As at September 30, 2024, other fees payable mainly include service, capital gain tax and depositary fees.

## 7. SUBSCRIPTION, REDEMPTION AND/OR CONVERSION PRICE

The issue price for shares in each sub-fund is equal to the NAV of each share in the sub-fund in question, calculated on a forward pricing basis as at the relevant valuation day. This price may be increased by fees paid to financial intermediaries, which will not exceed up to 5% of the NAV per share for the sub-fund in question and will be paid to financial intermediaries and/or distributors (excluding the Management Company) involved in the distribution of the SICAV's shares. Front- and back-end load for intermediaries will vary according to the sub-class of share. This issue price will be increased to cover any duties, taxes and stamp duties due.

The redemption price for shares (or sub-class of shares) of each sub-fund is equal to the NAV of each share (or each sub-class of shares) in the sub-fund in question, calculated on a forward pricing basis as of the applicable valuation day. A commission paid to financial intermediaries and/or distributors may be deducted from this amount, representing up to 1% of the NAV per share, may be deducted from this amount and paid to financial intermediaries and/or distributors (excluding the Management Company). Front- and back-end load for intermediaries will vary according to the sub-class of share. The redemption price will be reduced to cover any duties, taxes and stamp duties to be paid.

In certain exceptional circumstances such as, for example:

- significant trading volumes,
- and/or market disturbances,
- and in any other cases when the Board of Directors of the SICAV deems, at its sole discretion, that the interest of the existing shareholders (concerning issues/switches) or of the remaining shareholders (concerning redemptions/switches) might be negatively affected.

The Board of Directors of the SICAV will be authorised to charge a "Dilution Levy" for a maximum of 2% of the value of the NAV.

\*\*\* Since March 28, 2024 (launch date)

The Board of Directors of the SICAV will be authorised to apply corrections to the NAV as described in the section "How to calculate NAV" of the current Prospectus.

## 8. SWING PRICING

A swing pricing mechanism has been put in place in order to protect the existing shareholders, at the time of subscriptions and/or redemptions received for a given valuation day. As a general principle, investors entering or shareholders exiting generally bear the costs incurred by trading activity. These costs estimated at a flat rate or effective value may be invoiced separately or by adjusting the net asset value of a concerned sub-fund either down or up.

The swing pricing mechanism may be applied across all sub-funds with the exception of certain share classes of the indexed funds. The extent of the price adjustment is set by the Board of Directors of the SICAV. The amount of the adjustment may vary from sub-fund to sub-fund and will not exceed 2% as general principal of the original NAV per share. Exceptions, if any, are disclosed in the sub-fund annexes.

For each sub-fund with a swing pricing mechanism, a pre-defined swing threshold has been defined set as a percentage of the sub-fund's net asset value ("NAV"). This pre-defined swing threshold might be equal to 0% (the terminology "full swing" is then used) or different to 0% (the terminology "partial swing" is then used).

If for a given valuation day:

- the net inflow into a sub-fund exceeds the pre-defined threshold, then the NAV per share will be swung up. The shareholders subscribing into the sub-fund will thus bear the costs incurred by the trading activities triggered by their subscriptions by paying a higher NAV.
- the net outflow into a sub-fund exceeds the pre-defined threshold, then the NAV per share will be swung down. The redeeming shareholders of the sub-fund will thus bear the costs incurred by the trading activities triggered by their redemptions by receiving a lower NAV.

The Board of Directors of the SICAV may decide to increase the maximum adjustment limit (invoiced separately or charged by adjusting the net asset value) stated in the Prospectus in exceptional circumstances and on a temporary basis, to protect Shareholders' interests.

The following sub-funds used the swing pricing mechanism during the year ended September 30, 2024:

## 9. PERFORMANCE FEES

Within the SICAV, performance fees have been implemented for two sub-funds and are intended to remunerate the investment managers of these sub-funds.

The performance fee is calculated as follows:

The investment manager receives a performance fee for all shares of the sub-fund, except for "X" shares, accrued for every valuation day and paid annually, based on the NAV, equivalent to the rate mentioned in the below table of the performance of the NAV per share (measured against the high water mark) versus the index shown in the table below for each class of shares since the last payment of the performance fee.

	PICTET - MULTI ASSET GLOBAL OPPORTUNITIES	PICTET - GLOBAL FIXED INCOME OPPORTUNITIES*
<b>Performance fee rate</b>	10.00%	10.00%
<b>TYPE OF SHARE</b>		
Share classes denominated in EUR	Euro Short Term Rate (€STR) + 3%	Secured Overnight Financing Rate (SOFR) + 1.5%
Share classes denominated in USD	-	Libor USD Overnight Rate + 1.5%
Hedged share classes denominated in EUR	-	Euro Short Term Rate (€STR) + 1.5%
Hedged share classes denominated in USD	Secured Overnight Financing Rate (SOFR) + 3%	-
Hedged share classes denominated in JPY	-	Tokyo Overnight Average Rate (TONAR) + 1.5%
Hedged share classes denominated in CHF	Swiss Average Rate Overnight (SARON) + 3%	Swiss Average Rate Overnight (SARON) + 1.5%
Hedged share classes denominated in GBP	Sterling Overnight Interbank Average Rate (SONIA) + 3%	Sterling Overnight Interbank Average Rate (SONIA) + 1.5%

\*until July 30, 2024, (date of merger)

The performance fee is calculated on the basis of the NAV per Share after deduction of all expenses, liabilities, and management fees (but not performance fee), and is adjusted to take account of all subscriptions and redemptions.

Any first calculation period (a period is at least 12 months) shall start on the launch date of the relevant Class and terminate as at the last Valuation Day of the current fiscal year. The subsequent calculation periods shall start as at the last Valuation Day at the end of the previous calculation period and terminate as at the last Valuation Day of each following fiscal year.

The crystallisation frequency is yearly.

The performance fee is calculated by reference to the outperformance of the NAV per share, adjusted for subscriptions into and redemptions out of the relevant classes during the calculation period. No performance fee is due if the NAV per share before the performance fee turns out to be below the high water mark for the calculation period in question.

For the above sub-funds, the high water mark is defined as the greater of the following two values:

- The last highest NAV per share for which a performance fee was paid; and
- The initial NAV per share.

The dividends paid to shareholders are deducted from the high water mark.

The reference period corresponds to the SICAV's financial year.

A detail of the performance fee calculation appears in the current prospectus.

For the year ended September 30, 2024, the performance fees amounted to:

The net unrealised gain on this Total Return Swap contract as at September 30, 2024 was EUR 302,022.04 and is included in the statement of net assets.

## 15. CREDIT DEFAULT SWAPS ("CDS")

A CDS is a bilateral financial agreement whereby a counterparty (the protection buyer) pays a premium for the commitment of the protection seller to pay a certain amount if the reference issuer experiences a credit event as provided for by the agreement.

The protection buyer acquires the right to sell a specific bond issued by the reference issuer at its nominal value (or at another reference value or execution price) when a credit risk arises. Credit event generally includes bankruptcy, insolvency, judicial settlement/compulsory liquidation, deferral, or non-payment of outstanding debts.

The SICAV had the following CDS outstanding as at September 30, 2024:

### Pictet - EUR Bonds

PROTECTION	UNDERLYING	CURRENCY	NOMINAL VALUE	RATE PAYABLE	RATE RECEIVABLE	MATURITY DATE

Pictet - Multi Asset Global Opportunities	EUR	51,014,841.39	53,656,258.47

The sub-funds receive a remuneration on these lending transactions. This remuneration is presented in the statement of operations and changes in net assets in the section entitled "Interest on securities lending". A fee amounting to a maximum of 20% of the interest received is perceived by the Depositary Bank, Bank Pictet & Cie (Europe) AG, *succursale de Luxembourg*, for the services that it provides to the SICAV in the framework of securities lending contracts.

In the framework of these lending transactions, the sub-funds of the SICAV receive a guarantee (in the form of bonds issued or guaranteed by a government or by a regional or local government in a member state of the OECD, or issued or guaranteed by local, regional or international branches of supranational institutions or organisations that have a rating of at least AA and/or bonds issued or guaranteed by leading issuers offering adequate liquidity), whose value at the time of concluding the securities lending contract should be with a target of 105% of the total market value of the securities lent.

## 19. CROSS INVESTMENTS BETWEEN SUB-FUNDS

As at September 30, 2024, twenty-six sub-funds of the SICAV invest in other sub-funds of the SICAV.

### Pictet - EUR Corporate Bonds

INVESTEE SUB-FUND	INVESTMENT AMOUNT IN EUR	% OF NET ASSETS
Pictet Short-Term Money Market EUR	13,805,081.27	2.13

The total amount of cross investments for the Pictet - EUR Corporate Bonds sub-fund stands at EUR 13,805,081.27 and represents 2.13% of its net assets.

**Pictet - Global Emerging Debt**

INVESTEE SUB-FUND	INVESTMENT AMOUNT IN USD	% OF NET ASSETS
Pictet - Short-Term Money Market USD	59,970,962.43	2.97

The total amount of cross investments for the Pictet - Global Emerging Debt sub-fund stands at USD 59,970,962.43 and represents 2.97% of its net assets.

**Pictet - EUR High yield**

INVESTEE SUB-FUND	INVESTMENT AMOUNT IN EUR	% OF NET ASSETS
Pictet - Short-Term Money Market EUR	3,321,519.18	0.90

The total amount of cross investments for the Pictet - EUR High Yield sub-fund stands at EUR 3,321,519.18 and represents 0.90% of its net assets.

**Pictet - Emerging Local Currency Debt**

INVESTEE SUB-FUND	INVESTMENT AMOUNT IN USD	% OF NET ASSETS
Pictet - Short-Term Money Market USD	13,068,095.27	0.55

The total amount of cross investments for the Pictet - Emerging Local Currency Debt sub-fund stands at USD 13,068,095.27 and represents 0.55% of its net assets.

**Pictet - EUR Short Term High Yield**

INVESTEE SUB-FUND	INVESTMENT AMOUNT IN EUR	% OF NET ASSETS
Pictet - Short-Term Money Market EUR	97,231,763.98	7.37

The total amount of cross investments for the Pictet - EUR Short Term High Yield sub-fund stands at EUR 97,231,763.98 and represents 7.37% of its net assets.

**Pictet - Emerging Corporate Bonds**

INVESTEE SUB-FUND	INVESTMENT AMOUNT IN USD	% OF NET ASSETS
Pictet - Short-Term Money Market USD	13,794,631.09	1.78

The total amount of cross investments for the Pictet - Emerging Corporate Bonds sub-fund stands at USD 13,794,631.09 and represents 1.78% of its net assets.

**Pictet - Short Term Emerging Corporate Bonds**

INVESTEE SUB-FUND	INVESTMENT AMOUNT IN USD	% OF NET ASSETS
Pictet - Short-Term Money Market USD	48,584,208.99	7.67

The total amount of cross investments for the Pictet - Short Term Emerging Corporate Bonds sub-fund stands at USD 48,584,208.99 and represents 7.67% of its net assets.

**Pictet - Emerging Debt Blend**

INVESTEE SUB-FUND	INVESTMENT AMOUNT IN USD	% OF NET ASSETS
Pictet - Short-Term Money Market USD	972,626.79	1.56

The total amount of cross investments for the Pictet - Emerging Debt Blend sub-fund stands at USD 972,626.79 and represents 1.56% of its net assets.

**Pictet - Digital**

INVESTEE SUB-FUND	INVESTMENT AMOUNT IN USD	% OF NET ASSETS
Pictet - Short-Term Money Market USD	210,075,728.41	4.90

The total amount of cross investments for the Pictet - Digital sub-fund stands at USD 210,075,728.41 and represents 4.90% of its net assets.

**Pictet - Biotech**

<b>INVESTEE SUB-FUND</b>	<b>INVESTMENT AMOUNT IN USD</b>	<b>% OF NET ASSETS</b>
Pictet - Short-Term Money Market USD	23,534,294.03	1.46

The total amount of cross investments for the Pictet - Biotech sub-fund stands at USD 23,534,294.03 and represents 1.46% of its net assets.

**Pictet - Premium Brands**

<b>INVESTEE SUB-FUND</b>	<b>INVESTMENT AMOUNT IN USD</b>	<b>% OF NET ASSETS</b>
Pictet - Premium Brands	43,457,001.60	2.45

The total amount of cross investments for the Pictet - Biotech sub-fund stands at USD 43,457,001.60 and represents 2.45% of its net assets.

**Pictet - Water**

<b>INVESTEE SUB-FUND</b>	<b>INVESTMENT AMOUNT IN EUR</b>	<b>% OF NET ASSETS</b>
Pictet - Short-Term Money Market EUR	69,600,374.59	0.83

The total amount of cross investments for the Pictet - Water sub-fund stands at EUR 69,600,374.59 and represents 0.83% of its net assets.

**Pictet - Health**

<b>INVESTEE SUB-FUND</b>	<b>INVESTMENT AMOUNT IN USD</b>	<b>% OF NET ASSETS</b>
Pictet - Short-Term Money Market USD	9,461,344.32	1.76

The total amount of cross investments for the Pictet - Health sub-fund stands at USD 9,461,344.32 and represents 1.76% of its net assets.

**Pictet - Security**

The amount of cross investments is included in the combined statement of net assets as at September 30, 2024 and in the statement of operations and changes in net assets for the year ended September 30, 2024. This amount represents a total of EUR 1,370,339,952.58 and represents 1.16% of the SICAV's combined net assets.

## 20. COLLATERAL ON OTC DERIVATIVES PRODUCTS

In the framework of their transactions on OTC derivatives products (CFD, options contracts, Swaps contracts and CDS), the sub-funds of the SICAV receive cash collateral from the various counterparties they deal with.

As at September 30, 2024, the sub-funds of the SICAV had received as collateral the following amounts:

<b>SUB-FUND</b>	<b>CURRENCY</b>	<b>COLLATERAL AMOUNT</b>
Pictet - Global Emerging Debt	USD	2,920,000.00
Pictet - EUR High Yield	EUR	400,000.00
Pictet - Emerging Local Currency Debt	USD	26,190,000.00
Pictet - Asian Local Currency Debt	USD	630,000.00
Pictet - EUR Short Term High Yield	EUR	410,002.54
Pictet - Emerging Corporate Bonds	USD	780,000.00
Pictet - Short Term Emerging Corporate Bonds	USD	810,000.00
Pictet - Emerging Debt Blend	USD	260,000.00
Pictet - Global Equities Diversified Alpha	EUR	260,000.00
Pictet - Multi Asset Global Opportunities	EUR	23,967,000.00
Pictet - Short-Term Money Market CHF	CHF	7,650,000.00

SUB-FUND	CURRENCY	COLLATERAL AMOUNT
Pictet - Short-Term Money Market EUR	EUR	3,900,000.00
Pictet - Short-Term Money Market JPY	JPY	536,000,000.00
Pictet - Short-Term Money Market GBP	GBP	3,820,000.00
Pictet - Sovereign Short-Term Money Market EUR	EUR	7,350,000.00

## 21. RUSSIA UKRAINE CONFLICT

The onset of the conflict between Russia and Ukraine in February 2022 has impacted financial markets performance, further compounded by sanctions, dislocated markets and poor liquidity particularly around Russian and Ukrainian securities making it impossible to trade or value the majority of Russian securities (onshore securities i.e., in RUB, UAH) or repatriate any proceeds of sales into hard currency from any S-account.

As reference to the context described above

- the Russian securities in local and hard currency have been valued at zero by the Board of Directors of the SICAV.
- The RUB cash account and deposits have been valued at zero by the Board of Directors

This may be subject to change because of the evolution of the situation.

The Management Company continues to monitor existing exposures to Russia and Ukraine and the effects of the Ukraine / Russia conflict. In the context of the regular Valuation Committee and Risk Committee meetings in particular, decisions are made considering the current situation and its evolution. These decisions are subject to regular review. Key considerations include, but are not limited to:

- Direct and indirect exposures, and spill-over effects likely to have a negative impact on sub-funds.
- Markets, and asset valuation.
- Portfolio Compliance considering capital restrictions and sanctions imposed as an outcome of the Russia / Ukraine conflict.

The Board of Directors of the SICAV is confident that the SICAV operations will continue as a going concern and is carefully following the current crisis.

### Specific to Pictet - Russian Equities

In the context described above, The Board of Directors of the SICAV decided to suspend the calculation of the net asset value, the subscriptions, the redemptions of shares of the sub-fund Pictet - Russian Equities as of February 28, 2022 (as mentioned in the Shareholder notice dated February 25, 2022) and to waive the management fees until further notice.

The Board of Directors of the SICAV will regularly review the suspension and all reasonable steps will be taken to bring the Suspension Period to an end as soon as possible, having regard to the best interest of shareholders.

Under the current situation, it is not possible to determine for how long the suspension of official NAV calculation (including issue, redemption, and conversion of shares) will last. The accounting information and net asset value related to the sub-fund, presented in the current financial statements, have been established and calculated according to the accounting principles described in note 2. This net asset value is a technical and unpublished one.

Any subsequent decision that changes this status will be communicated to the investors as and when required.

### Other sub-funds impacted.

With the exception of Pictet - Russian Equities, the following sub-funds' exposure to Russia has been calculated based on a theoretical market price (non-tradable market prices) to Russian securities and to the exposition on the RUB as of September 30, 2024, in percentage of the sub-fund's NAV, is as follows. This for indicative purposes only.

- Pictet - Emerging Markets Index: 2.04%
- Pictet - Global Multi Asset Themes: 8.42%
- Pictet - Emerging Markets Multi Asset\*: 0.47%

\* Which includes the last official NAV of Pictet - Russian Equities HZ EUR.

## 22. REVERSE REPURCHASE AGREEMENTS

During the year ended September 30, 2024, the Fund entered into reverse repurchase agreements transactions. For the following sub-funds, the value of the reverse repurchase agreements as at September 30, 2024 amount to:

### Pictet - Short-Term Money Market CHF

	QUANTITY	INTEREST RATE	MATURITY DATE
Euroclear REPOC	85,000,000.00	0.45%	01/10/2024

The amount of collateral on these contracts as at September 30, 2024 was CHF 86,578,061.29.

### Pictet - Short-Term Money Market USD

	QUANTITY	INTEREST RATE	MATURITY DATE

Euroclear REPOC	16,000,000.00	4.98%	01/10/2024

The amount of collateral on these contracts as at September 30, 2024 was GBP 43,087,107.15.

### Pictet - Sovereign Short-Term Money Market USD

	QUANTITY	INTEREST RATE	MATURITY DATE
Euroclear REPOC	85,000,000.00	4.84%	30/09/2024
Euroclear REPOC	85,000,000.00	4.82%	30/09/2024

The amount of collateral on these contracts as at September 30, 2024 was USD 173,749,453.35.

**Pictet - Sovereign Short-Term Money Market EUR**

	QUANTITY	INTEREST RATE	MATURITY DATE
Euroclear REPOC	180,000,000.00	3.44%	30/09/2024
Euroclear REPOC	185,000,000.00	3.40%	30/09/2024

The amount of collateral on these contracts as at September 30, 2024 was EUR 372,328,040.40.

**23. EVENTS AFTER THE YEAR-END**

A new Prospectus came into force in October 2024.

The Board of Directors of the SICAV has decided to approve the merger between Pictet Sicav II - Dynamic Asset Allocation Fund into Pictet - Dynamic Allocation Fund with effective date as of October 15, 2024.

Pursuant to the "Guidelines on the calculation and disclosure of the total expense ratio ("TER") of collective investment schemes" of May 16, 2008 (version of August 5, 2021) of the Asset Management Association Switzerland ("AMAS"), the SICAV is obliged to publish a TER for the latest 12-month period ("AMAS TER").

The TER is defined as the ratio between the total operating expenses (Operating charges primarily consist of management and investment advisory fees, depositary fees, bank charges and interest, service fees, performance fees, taxes and duties) and the relevant sub-fund's / share class' average NAV (calculated on the basis of the daily average of the total net assets for the relevant period) expressed in its reference currency.

The SICAV also discloses the Securities Lending TER having the same calculation method as the one used for the AMAS TER, but including the income from interests on securities lending.

Moreover, for the new share classes launched during the period, operating fees were annualised as stated in point 8 of the Guidelines. The amounts were annualised whereas certain fixed costs were not split equally over the period.

As much as the sub-funds invest more than 10% of their assets in other investment funds, a synthetic TER is calculated:

- by adding to the TER the sum of the TER of underlying funds weighted according to their share in the net assets of the related sub-fund at the reference date. If one of the target funds does not publish any TER, no synthetic TER will be calculated for this fraction of investment,
- by subtracting the impact of the retrocession received calculated by dividing the amount of retrocessions by the average assets.

For the year from October 1, 2023 to September 30, 2024, the TER were:

CLASS	CURRENCY	SECURITIES LENDING TER	AMAS TER INCLUDING PERFORMANCE FEES	AMAS TER EXCLUDING PERFORMANCE FEES	SYNTHETIC TER

The performance per share class was calculated by comparing the net assets per share as at September 30, 2024, with the net assets per share as at September 30, 2023 in accordance with SFAMA Guidelines.

For share classes that distributed a dividend (cf. note 18), the dividend amount was reintegrated into the net assets as at September 30, 2024, in order to compute the performance including dividends.

The performance data do not take account of the commissions and costs incurred on the issue and redemption of shares.

As at September 30, 2024, performances were the following:

## 1. INDEX-TRACKING UCITS

The SICAV is comprised of the following 7 index sub-funds as at September 30, 2024:

Sub-fund	Benchmark	Currency	Ex post TE (1)	Sub-fund's Performance (2)	Benchmark's Performance
Pictet - Europe Index (3)	MSCI EUROPE	EUR	0.21%	19.07%	18.80%
Pictet - USA Index	S&P 500 Comp	USD	0.03%	35.68%	35.76%
Pictet - Japan Index	MSCI JAPAN	JPY	0.05%	16.47%	16.52%
Pictet - Pacific Ex Japan Index	MSCI PACIFIC EX JAPAN	USD	0.08%	28.09%	28.20%
Pictet - Emerging Markets Index (4)	MSCI EM	USD	0.24%	25.21%	26.05%
Pictet - Euroland Index (5)	MSCI EMU	EUR	0.26%	20.68%	20.31%
Pictet - China Index (6)	MSCI CHINA	USD	0.25%	23.83%	23.89%

(1) Ex post tracking error (TE) is reported as a standard deviation percentage difference. This measure reports the difference between the return the investor receives and that of the benchmark.

(2) The performance of the sub-fund is calculated on the basis of a daily frequency and on the basis of a gross return after transactions fees but before other fees.

(3) The positive deviation relative to the benchmark also corresponds to dividends that are less taxed than what is assumed by MSCI in its index calculation. While MSCI applies country specific corporate tax rates these might differ from the actual tax rate of the individual companies. The fund's largest stock, industrial and country weight deviations were kept below 0.06%. The portfolio holds 219 stocks in the benchmark, with one of the MSCI EMU Index constituents being discarded to abide by the group restrictions directive on weapons and ammunition.

(4) Since the India introduction of a Capital Gain tax in 2018 (15% over the short term and 10% over the long term applicable on all Indian stocks), Pictet has introduced a daily provision applicable on the NAV of the fund. This provision materialises upon subscriptions and redemptions for entering/exiting investors. Russian securities held in the portfolio (2.2% as at 25.02.2022) have been valued at 0 after 25.02.2022, whereas MSCI removed Russia from its indexes on 09.03.2022.

(5) The positive deviation relative to the benchmark also corresponds to dividends that are less taxed than what is assumed by MSCI in its index calculation. While MSCI applies country specific corporate tax rates these might differ from the actual tax rate of the individual companies.

(6) The relative performance volatility of the Pictet-China index versus its benchmark is due to a currency mismatch in the valuation of Chinese local shares: The fund NAV uses the CNY/USD rate in its calculation while the index provider uses the CNH/USD in that of the benchmark. The largest weight deviations between the fund and the benchmark originates from securities that had been excluded from the investment universe based on internal sustainability criteria.

## 2. REMUNERATION OF THE MEMBERS OF THE MANAGEMENT COMPANY

### Remuneration policy

Pictet Asset Management (Europe) S.A. ("The Management Company") has adopted a remuneration policy which is in accordance with the principles established by the European Directive 2014/91/UE, relating to Undertakings for Collective Investment in Transferable Securities Directive ("UCITS V") and the transposition into Luxembourg Law dated May 10, 2016, amending the Law of December 17, 2010 ("The UCITS Law"), as well as the Guidelines on sound remuneration policies issued by the European Securities and Markets Authority under the UCITS Directive (the "ESMA Guidelines").

More details about this remuneration policy, which describes, but not limited to, how remuneration and benefits are determined, are available on the following website:

<https://www.am.pictet/en/luxembourg/global-articles/ucits-remuneration-disclosure>

A paper copy is also made available free of charge upon request at the Management Company's registered office.

## Quantitative elements

Figures below relate to Pictet Asset Management (Europe) S.A. (including its branches) based on apportionment of Assets Under Management ("AUM") represented by the SICAV in respect of the financial year ended September 30, 2024.

(IN CHF ,000S)	FIXED REMUNERATION	VARIABLE REMUNERATION	TOTAL REMUNERATION	NUMBER OF BENEFICIARIES
The Staff	9,006	5,378	14,384	100
The Key Identified Staff	3,885	3,084	6,699	27
<b>TOTAL</b>	<b>12 891</b>	<b>8,462</b>	<b>21,353</b>	<b>127</b>

For additional context, the Management Company manages 17 Alternative Investment Funds and 3 UCITS, with a combined AUM as at September 30, 2024, of CHF 140,195,009,895.

The aggregate 2024 total remuneration paid to Key Identified Staff of delegates is CHF 19,770,490.

### Disclosure notes:

1. Fixed remuneration is an aggregated salary, pension, and benefits paid for the year from October 1, 2023 to September 30, 2024 for Management Company staff in Luxembourg and for the staff of the European branches.
2. Variable remuneration is aggregated target, discretionary, and parts remunerations paid for the year from October 1, 2023 to September 30, 2024.
3. Total fixed and variable remuneration disclosed is based on apportionment of AUM represented by the SICAV. Beneficiaries are current and past employees that received a fixed and variable remuneration during the respective period.
4. The 127 headcounts of the Management Company and its European branches as at September 30, 2024 is composed of:
  - 27 people identified as Key identified staff ("The Key Identified Staff") of the Management Company and its European branches as per the AIFM Directive and ESMA Guidelines.
    - > 6 members of the Board of Directors of the Management Company. Only 2 member of the Board of Directors of the Management Company receives an emolument from the Management Company.
    - > 7 conducting officers, members of the Management committee of the Management Company
    - > conducting officers and 1 internal auditor and 2 senior members of the Management Company.
    - > 11 Heads of Distribution, Investment, Marketing, Intermediaries, Operations and Business development in the Management Company's European branches.
  - 100 employees from the Management Company and its European branches ("The staff").
5. For 2024, delegates are counterparties to which portfolio management has been formally delegated, in line with the latest ESMA guidance. The figure is based on a prorated basis for the part of the SICAV assets which are managed by the identified staff within the delegates.

## 3. ELIGIBLE FOR THE PEA OR PLAN D'EPARGNE EN ACTIONS (FRENCH EQUITY SAVINGS PLAN)

French tax resident investors should be aware that the sub-fund listed below is eligible to be held within a "plan d'épargne en actions" ("PEA") in France. The SICAV undertakes that the sub-funds are investing at least 75% of their assets on a permanent basis in securities or rights eligible to the PEA.

As at September 30, 2024, the below sub-fund had the following percentage of their assets invested in eligible PEA assets:

- Pictet - Euroland Index: 96.85%

## 4. ALFI CODE OF CONDUCT

The Board of Directors of the Fund has adopted the Principles of the ALFI Code of Conduct dated June 2013, and further amended in June 2022 (the "Code"), which sets out a framework of high level principles and best practice recommendations for the governance of Luxembourg investment funds. The Board of Directors of the Fund considers that it has been in compliance with the Principles of the Code in all material respects for the year ended September 30, 2024.

## 5. INFORMATION ON RISK MEASUREMENT

As of September 30, 2024 the following sub-funds of Pictet use the Value-at-Risk (VaR) approach to monitor their global risk exposure. All other sub-funds of Pictet use the commitment approach to monitor the global risk exposure.

The VaR may be calculated either using the absolute VaR approach or using the relative VaR approach. The treatment and presentation of VaR figures will differ, taking into account the approach used (relative or absolute).

### Absolute VaR approach

The absolute VaR approach limits the maximum VaR that a sub fund can have relative to its Net Asset Value. It is measured against a regulatory limit of 20%.

The leverage level is included as well. It has been calculated as the sum of the notional of the financial derivative instruments used (CESR/10-788 - Box 25). The presented figure is based on an average of the monthly observations covering the period from October 1, 2023 to September 30, 2024.

SUB-FUND NAME	AVERAGE LEVERAGE	MINIMUM VAR	MAXIMUM VAR	AVERAGE VAR
Pictet - EUR Bonds	147%	4.46%	7.42%	5.46%
Pictet - USD Government Bonds	7%	3.84%	4.60%	4.27%
Pictet - EUR Corporate Bonds	12%	3.74%	5.48%	4.66%

Pictet - EUR Short Term Corporate Bonds	27%	2.68%	3.16%	2.95%
Pictet - Emerging Corporate Bonds	23%	3.63%	4.89%	4.28%
Pictet - Short Term Emerging Corporate Bonds	2%	1.73%	2.71%	2.18%
Pictet - Chinese Local Currency debt	65%	0.76%	1.00%	0.86%
Pictet - Absolute Return Fixed Income	298%	1.06%	2.73%	2.02%
Pictet - Emerging Debt Blend	268%	5.98%	9.03%	7.87%
Pictet - Strategic Credit	134%	4.73%	7.71%	6.32%
Pictet - Climate Government Bonds	233%	2.66%	3.49%	3.13%
Pictet - Global Multi Asset Themes	4%	0.00%	8.80%	7.91%
Pictet - Corto Europe Long Short	83%	1.04%	4.62%	2.64%
Pictet - Multi Asset Global Opportunities	98%	4.46%	6.18%	5.35%
Pictet - Global Dynamic Allocation	52%	6.48%	9.26%	8.34%
Pictet - Emerging Markets Multi Asset	62%	8.61%	13.91%	11.10%

## Relative VaR approach

The relative VaR approach is used for sub-funds where a reference portfolio is defined reflecting their investment strategy. The relative VaR of a sub-fund is expressed as a multiple of the VaR of the reference portfolio (benchmark) and is limited by regulation to no more than twice the VaR of its benchmark.

The daily VaR observations (from October 1, 2023 to September 30, 2024) for the sub-funds have been systematically measured against the VaR observations for their benchmark. The ratio obtained is called the VaR limit utilization ratio.

As an example, the limit utilization ratio for Pictet EUR Short Term High Yield equaled 115.36% on one occasion. On this day the following figures were calculated:

- Sub-fund VaR 4.58%
- Benchmark VaR 3.97 %
- VaR limit utilization 115.36%

This ratio has to be put into perspective with the maximum limit allowed by the Law, which is 200% of the VaR of the Benchmark.

SUB-FUND NAME	AVERAGE LEVERAGE	MINIMUM VAR	MAXIMUM VAR	AVERAGE VAR
Pictet - EUR High Yield	19%	106%	120%	92%
Pictet - Global High Yield	43%	87%	117%	65%
Pictet - EUR Short Term High Yield	22%	129%	142%	113%
Pictet - Emerging Corporate Bonds	23%	135%	155%	116%
Pictet - Emerging Debt Blend	268%	116%	136%	90%
Pictet - Global Equities Diversified Alpha	496%	108%	126%	93%

## Sub-funds' benchmarks

SUB-FUND NAME	SUB-FUND BENCHMARK
Pictet - EUR High Yield	ICE BofA Euro High Yield Constrained (EUR)
Pictet - Global High Yield	ICE Developed Markets High Yield Hedged to USD (from 01/08/2024)
Pictet - EUR Short Term High Yield	ICE BofA Euro High Yield Ex Financial BB-B 1-3 Years Constrained (EUR)
Pictet - Emerging Corporate Bonds	JP Morgan CEMBI Broad Diversified (USD)
Pictet - Emerging Debt Blend	JP Morgan ESG EMD Sovereign HC/LC Blended (USD)
Pictet - Global Equities Diversified Alpha	MSCI World (EUR)

## General comments

All VaR measures are determined on the basis of the following parameters:

- 1 month holding horizon;
- 99% confidence interval (this means that there is a 1% probability that the value of the portfolio could have a monthly decline larger than the percentage displayed);
- Monte Carlo simulations, and;
- 3.5 years of weekly data history to determine the risk factors. Except the ones for Pictet Chinese Local CCY Debt that use a 1 year daily horizon window exponentially decayed.

## 6. SECURITIES FINANCING TRANSACTIONS REGULATION ("SFTR")

As at September 30, 2024, the following sub-funds entered into Total Return Swaps transactions :

- Pictet - Emerging Local Currency Debt
- Pictet - Asian Local Currency Debt
- Pictet - Global Equities Diversified Alpha

As at September 30, 2024, the following sub-funds entered into reverse repurchase agreements ("Reverse Repos") transactions :

- Pictet - Short-Term Money Market CHF
- Pictet - Short-Term Money Market USD
- Pictet - Short-Term Money Market EUR
- Pictet - Short-Term Money Market GBP
- Pictet - Sovereign Short-Term Money Market USD
- Pictet - Sovereign Short-Term Money Market EUR

And the following sub-funds entered into securities lending transactions as type of instrument under the scope of the Regulation (EU) 2015/2365 of the European Parliament and of the Council of November 2015 on transparency of SFTR and amending Regulation (EU) No 648/2012:

- Pictet - EUR Corporate Bonds
- Pictet - EUR High Yield
- Pictet - Global High Yield
- Pictet - Global Sustainable Credit
- Pictet - EUR Short Term High Yield
- Pictet - EUR Short Term Corporate Bonds
- Pictet - Strategic Credit
- Pictet - Europe Index
- Pictet - Japan Index
- Pictet - Pacific Ex Japan Index
- Pictet - Premium Brands
- Pictet - Japanese Equity Opportunities
- Pictet - Japanese Equity Selection
- Pictet - Euroland Index
- Pictet - Nutrition
- Pictet - Global Megatrend Selection
- Pictet - SmartCity
- Pictet - Multi Asset Global Opportunities

With respect to total return swaps contracts, the total market values disclosed hereafter are the sum of the absolute value of the unrealised gain or loss of each contracts. This is applicable to all sections mentioned below.

As at September 30, 2024, all securities lending and TRS are treated as open maturity.

**Guarantee by collateral**

In the framework of lending transactions, the sub-fund of the SICAV receives a guarantee by collateral (in the form of bonds issued or guaranteed by a government or by a regional or local government in a member state of the OECD, or issued or guaranteed by local, regional or international branches of supranational institutions or organisations that have a rating of at least AA and/or bonds issued or guaranteed by leading issuers offering adequate liquidity).

## Guarantee on repo

Repurchase transactions are by their nature Collateralised (in the form of cash or Bonds forming part of the Investment Strategy of the Fund).

## Data on return and cost

The sub-funds receive a remuneration on these lending transactions. This remuneration is presented in the statement of operations and changes in net assets in the section entitled "Interest on securities lending". A fee amounting to 20% of the interest received is perceived by the Depositary Bank, Bank Pictet & Cie (Europe) AG, *succursale de Luxembourg*, for the services that it provides to the SICAV in the framework of securities lending contracts.

In the framework of these lending transactions, the sub-funds of the SICAV receive a guarantee (in the form of bonds issued or guaranteed by a government or by a regional or local government in a member state of the OECD, or issued or guaranteed by local, regional or international branches of supranational institutions or organisations that have a rating of at least AA and/or bonds issued or guaranteed by leading issuers offering adequate liquidity), whose value at the time of concluding the securities lending contract should be with a target of 105% of the total market value of the securities lent.

During the year ended September 30, 2024, the Fund entered into Repo and Reverse Repo transactions.

These operations are mainly executed for financing operation i.e. acquiring securities and / or raising cash. As such the Fund might receive a remuneration on the repo transactions and might pay a remuneration on the repo transactions.

The received/paid remuneration is presented either in the caption "Interest received on reverse repurchase agreements", or in the caption "Interest paid on repurchase agreements" in the statement of operations and changes in net assets.

## Data on reuse of collateral

The sub-funds may, in connection with certain reverse repurchase transactions, receive securities as collateral and may reinvest up to a maximum of 10% of such securities received as collateral, into repurchase agreements in order to offset associated transaction costs.

There were no collateral Repo, collateral securities and cash collateral reused during the year ended September 30, 2024.

On November 27, 2019, Regulation (EU) 2019/2088 of the European Parliament and of the Council on sustainability-related disclosures in the financial services sector was published (the "SFDR"). The SFDR aims to increase the harmonization of, and transparency towards the end investors with regard to, the integration of sustainability risks, the consideration of adverse sustainability impacts, the promotion of environmental or social characteristics and sustainable investment by requiring pre-contractual and ongoing disclosures to end investors.

The SFDR provides high-level definitions and distinguishes between several categorizations of products including "Article 8 products" which are financial products that promote, among other characteristics, environmental or social characteristics, or a combination of those characteristics, provided that the companies in which the investments are made follow good governance practices ("SFDR Article 8 Products") and "Article 9 products" which are products that have sustainable investment as their objective ("SFDR Article 9 Products").

The following sub-funds are categorized as financial products falling under the scope of the following SFDR articles as at September 30, 2024:

Within the meaning of SFDR (regulation EU 2019/2088 of November 27, 2019 on sustainability-related disclosures in the financial services sector), the other sub-funds do not promote environmental and/or social characteristics nor have a sustainable investment as its objective.

For the purpose of the "taxonomy" regulation (regulation EU 2020/852 of June 18, 2020 on the establishment of a framework to facilitate sustainable investment, and amending the EU regulation 2019/2088), the investments underlying the sub-funds do not take into account the EU criteria for environmentally sustainable economic activities.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - EUR Bonds**

Legal entity identifier: **5493000B06Q6PX1XRQ35**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?			
<input checked="" type="radio"/> Yes		<input checked="" type="radio"/> No	
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____%		<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>43.60%</b> of sustainable investments	
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy		<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy	
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy		<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	
<input type="checkbox"/> It made sustainable investments with a social objective: ____%		<input type="checkbox"/> with a social objective	
		<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>	

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, the securities it holds had a better environmental, social and governance (ESG) profile than the reference index. The Bloomberg Euro-Aggregate index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

#### **Country Exclusions**

Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund’s weighted average ESG score was better than that of the reference index.

The fund’s weighted average ESG score was 7.67 against 7.63 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	1.38	0.77
Weapons	0.03	0.05
Other controversial activities	0.04	0.21
Eligible:	46.64	37.68
Covered:	97.86	99.69

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 26 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023		01.10.2023 - 30.09.2024		Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024
Overall ESG profile	Fund ESG score: 7.70		Fund ESG score: 7.67		Higher fund's score than that of the reference index	Higher fund's score than that of the reference index
	Reference index ESG score: 7.60		Reference index ESG score: 7.63			
Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Refer- ence Index	Fund	Refer- ence Index		
Fossil fuels and nuclear energy	0.57%	0.84%	1.38%	0.77%	(*)	
Weapons	0.02%	0.05%	0.03%	0.05%	(*)	
Other controversial activities	0.02%	0.22%	0.04%	0.21%	(*)	

Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Reference Index	Fund	Reference Index	
<i>Eligible</i> (**):	38.10%	38.11%	46.64%	37.68%	
<i>Covered</i> (**):	98.49%	99.49%	97.86%	99.69%	
<b>Engagement</b>	30		26		

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

**Environmental**

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 37.26%.

**Social**

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 6.34%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts were addressed through a combination of:

(i) portfolio management decisions

The investment team assessed its corporate holdings according to an analysis of Environmental, Social & Governance risks as part of the fund's investment framework. Investment managers, informed by internal and third-party research, including quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's analysis was a key component of the compartment's portfolio construction process, determining target weights in the portfolio to achieve a positive tilt in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls in collaboration with other investment teams and external third parties. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's Responsible Investment policy.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

## What was the proportion of sustainability-related investments?

43.60%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 95.76% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 4.24% invested in Other (#2 Other). 43.60% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

The category #1 Aligned with E/S characteristics covers:  
 - The sub-category #1A Sustainable covers environmentally and socially sustainable investments.  
 - The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

*Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.*

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Aligned with E/S characteristics	94.98%	95.76%
#2 Other	5.02%	4.24%
#1A Sustainable	27.51%	43.60%
#1B Other E/S characteristics	67.47%	52.16%
Taxonomy-aligned	0.92%	1.80%
Other environmental	20.43%	37.26%
Social	7.08%	6.34%

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas     In nuclear energy

No

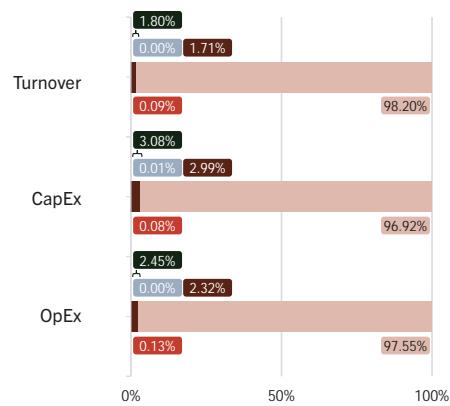

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

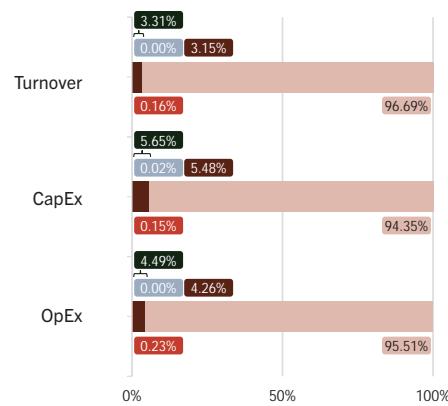

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

### 1. Taxonomy-alignment of investments including sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned (no fossil gas and nuclear)
- Non Taxonomy-aligned

### 2. Taxonomy-alignment of investments excluding sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned (no fossil gas and nuclear)
- Non Taxonomy-aligned

This graph represents 54.66% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

### ● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.16%
- Enabling activities: 1.18%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.92% versus 1.80% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

37.26%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### What was the share of socially sustainable investments?

6.34%

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- a better ESG profile than the investment universe
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 26 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - EUR Corporate Bonds**

Legal entity identifier: **549300BPK7857G4FHG58**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>37.26%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The Bloomberg Euro-Aggregate Corporate index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

#### **Country Exclusions**

Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund’s weighted average ESG score was better than that of the reference index.

The fund’s weighted average ESG score was 8.21 against 8.07 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	3.17	3.06
Weapons	0.04	0.05
Other controversial activities	0.06	0.21
Eligible:	87.68	100.00
Covered:	99.15	99.18

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 6 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023		01.10.2023 - 30.09.2024		Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024
Overall ESG profile	Fund ESG score: 8.06		Fund ESG score: 8.21		Higher fund's score than that of the reference index	Higher fund's score than that of the reference index
	Reference index ESG score: 7.99		Reference index ESG score: 8.07			
Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Refer- ence Index	Fund	Refer- ence Index		
Fossil fuels and nuclear energy	3.82%	3.38%	3.17%	3.06%	(*)	
Weapons	0.06%	0.05%	0.04%	0.05%	(*)	
Other controversial activities	0.05%	0.22%	0.06%	0.21%	(*)	

Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Reference Index	Fund	Reference Index	
<i>Eligible</i> (**):	92.53%	100.00%	87.68%	100.00%	
<i>Covered</i> (**):	98.47%	98.83%	99.15%	99.18%	
<b>Engagement</b>	33		6		

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

**Environmental**

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 18.00%.

**Social**

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 19.27%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Molnlycke Hld 4.25% 08.09.2028 'Emtn' Sr	Consumer Non-Cyclicals	0.92	Sweden

## What was the proportion of sustainability-related investments?

37.26%

### What was the asset allocation?

The fund was 96.65% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 3.35% invested in Other (#2 Other). 37.26% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas     In nuclear energy

No

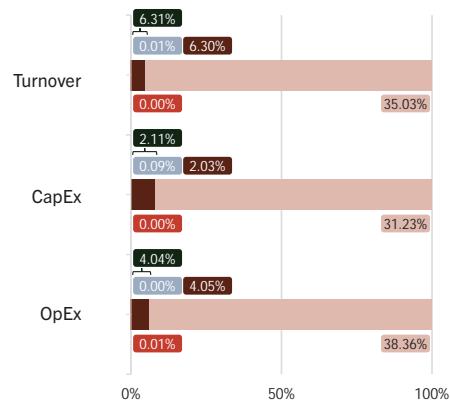

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

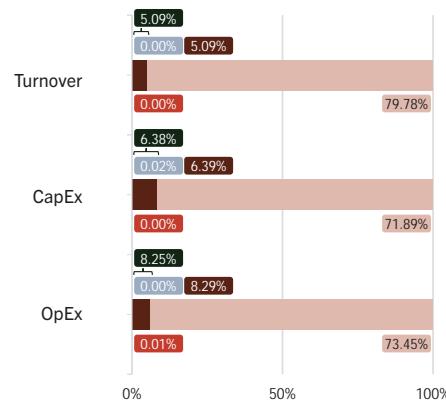

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

#### 1. Taxonomy-alignment of investments including sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned (no fossil gas and nuclear)
- Non Taxonomy-aligned

#### 2. Taxonomy-alignment of investments excluding sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned (no fossil gas and nuclear)
- Non Taxonomy-aligned

This graph represents 96.65% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

#### ● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.25%
- Enabling activities: 2.39%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 3.12% versus 4.91% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

18.00%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### What was the share of socially sustainable investments?

19.27%

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 6 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Global Emerging Debt**

Legal entity identifier: **549300A8YN6U8D2CFX77**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>14.96%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Best-in-class / best effort:

The fund invested in securities of issuers with low and/or decreasing sustainability risks while avoiding those with high and/or increasing sustainability risk, reducing the investment universe by at least 20%. The investment universe is composed of sovereign and corporate bonds from emerging countries.

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Labelled bonds:

The fund partially invested in environmental and/or social labelled bonds.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	25%
Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%
<b>Addictive Products</b>	
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
<b>Country Exclusions</b>	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under "high alert" or "very high alert" in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with selected sovereigns on ESG topics over the reference period.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

14.96%

- Exposure to green and/or social labelled bond

During the reference period, the fund had 9.01% exposure to labelled bonds.

Labelled bonds include environmental, social and sustainability bonds. Classification of labelled bonds is provided by the bond issuer and may not reflect our internal view

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- **Reduction of the investment universe based on ESG factors**

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

The fund mainly invests in government bonds during the reference period. In case of investments in non-sovereign bonds and in line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment Policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment.

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.19	5.74
Weapons	0.01	0.01
Other controversial activities	0.00	0.07
Eligible:	13.36	18.47
Covered:	73.31	98.80

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

*Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Engagement**

The fund engaged with 3 sovereigns on ESG topics (data as of 30.09.2024).

*Source: Pictet Asset Management.*

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024	Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024
The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR	10.93%	14.96%	5.00%	5.00%
Exposure to green and/or social labelled bond	10.93%	9.01%		
Reduction of the investment universe based on ESG factors	Yes	Yes	20.00%	20.00%
Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Reference Index	Fund	Reference Index
<i>Fossil fuels and nuclear energy</i>	0.56%	6.34%	0.19%	5.74% (*)
<i>Weapons</i>	0.01%	0.01%	0.01%	0.01% (*)
<i>Other controversial activities</i>	0.02%	0.08%	0.00%	0.07% (*)
<i>Eligible</i> (**):	15.51%	18.72%	13.36%	18.47%
<i>Covered</i> (**):	73.73%	98.63%	73.31%	98.80%
<b>Engagement</b>	6	3		

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 12.26%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 2.70%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including

data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

#### (ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions and collaborative institutional investor initiatives.

#### (iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's responsible investment policy.

### What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

### What was the proportion of sustainability-related investments?

14.96%

#### ● What was the asset allocation?

The fund was 97.97% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 2.03% invested in Other (#2 Other). 14.96% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Asset allocation describes the share of investments in specific assets.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS.

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

#### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas     In nuclear energy

No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

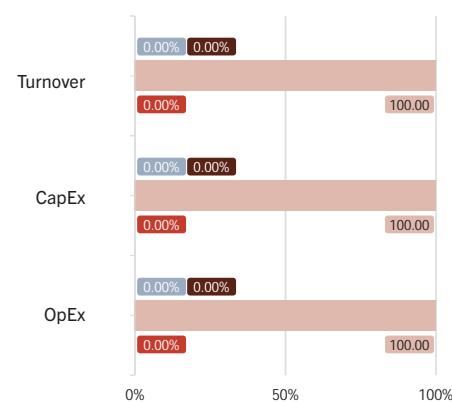

- **turnover** reflects the "greenness" of investee companies today.

- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.

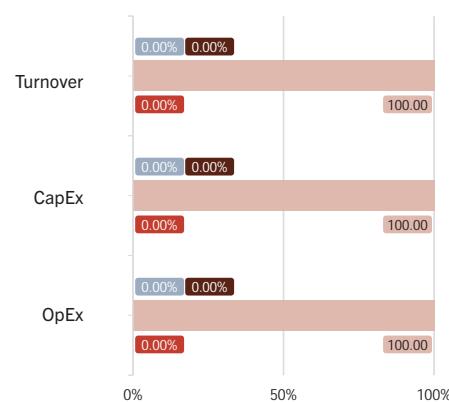

- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

#### 1. Taxonomy-alignment of investments including sovereign bonds\*

#### 2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 14.54% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

#### What was the share of investments made in transitional and enabling activities?

Not applicable.

Enabling activities directly enable other activities to make a substantial

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

contribution to an environmental objective.

**Transitional activities**  
are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

12.26%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not** take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

2.70%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.

- severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

The fund engaged with 3 sovereigns on ESG topics (data as 30.09.2024).

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**Reference benchmarks**  
are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

##### ● How did the reference benchmark differ from a broad market index?

Not applicable.

##### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

##### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

##### ● How did this financial product perform compared with the broad market index?

Not applicable.

Product name: **Pictet - Global Bonds**

Legal entity identifier: **5493009TDSBRGGNYLX39**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> ●	<input type="checkbox"/> Yes
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>35.29%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, the securities it holds had a better environmental, social and governance (ESG) profile than the reference index. The FTSE WBGI All Maturities index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

#### **Country Exclusions**

Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund’s weighted average ESG score was better than that of the reference index.

The fund’s weighted average ESG score was 6.82 against 6.58 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	1.00	0.00
Weapons	0.00	0.00
Other controversial activities	0.02	0.00
Eligible:	20.31	0.00
Covered:	93.01	100.00

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 8 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023		01.10.2023 - 30.09.2024		Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024
Overall ESG profile	Fund ESG score: 6.76		Fund ESG score: 6.82		Higher fund's score than that of the reference index	Higher fund's score than that of the reference index
	Reference index ESG score: 6.63		Reference index ESG score: 6.58			
Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Refer- ence Index	Fund	Refer- ence Index		
<i>Fossil fuels and nuclear energy</i>	0.26%	0.00%	1.00%	0.00%	(*)	
<i>Weapons</i>	0.00%	0.00%	0.00%	0.00%	(*)	
<i>Other controversial activities</i>	0.01%	0.00%	0.02%	0.00%	(*)	

Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Reference Index	Fund	Reference Index	
<i>Eligible</i> (**):	12.88%	0.00%	20.31%	0.00%	
<i>Covered</i> (**):	92.93%	100.00%	93.01%	100.00%	
<b>Engagement</b>	10		8		

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 33.76%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 1.53%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts were addressed through a combination of:

(i) portfolio management decisions

The investment team assessed its corporate holdings according to an analysis of Environmental, Social & Governance risks as part of the fund's investment framework. Investment managers, informed by internal and third-party research, including quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's analysis was a key component of the compartment's portfolio construction process, determining target weights in the portfolio to achieve a positive tilt in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls in collaboration with other investment teams and external third parties. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's Responsible Investment policy.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

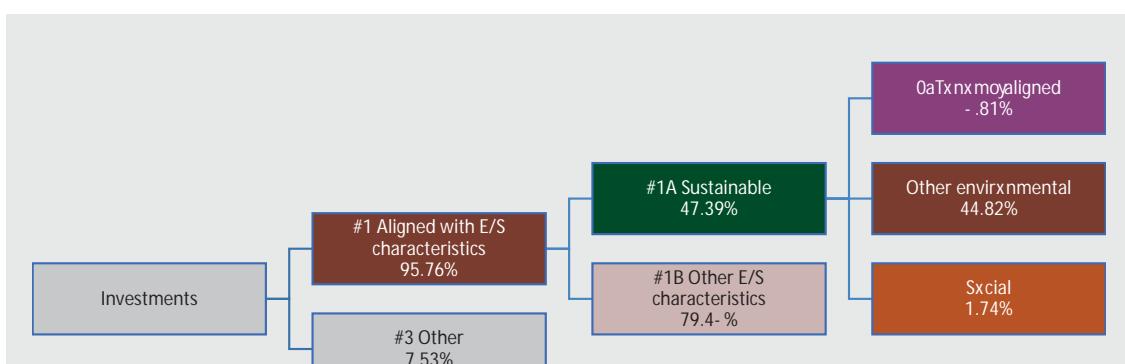

## What was the proportion of sustainability-related investments?

35.29%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 94.58% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 5.42% invested in Other (#2 Other). 35.29% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

*Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.*

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas  In nuclear energy

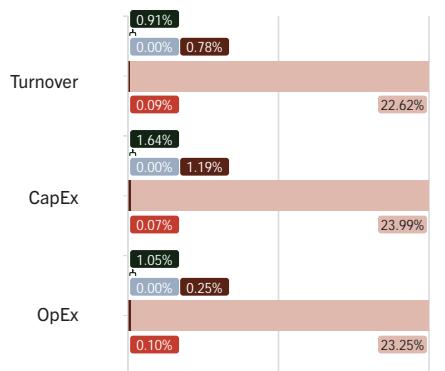

No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

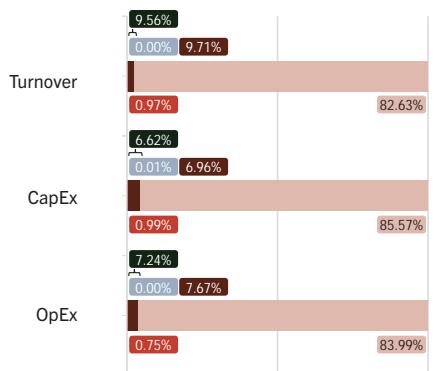

Taxonomy-aligned activities are expressed as a share of:  
- **turnover** reflects the “greeness” of investee companies today.  
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 28.11% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Enabling activities**  
directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities**  
are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.10%
- Enabling activities: 0.48%

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

33.76%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.**

**What was the share of socially sustainable investments?**

1.53%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- a better ESG profile than the investment universe
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 8 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

##### How did the reference benchmark differ from a broad market index?

Not applicable.

##### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

##### How did this financial product perform compared with the reference benchmark?

Not applicable.

##### How did this financial product perform compared with the broad market index?

Not applicable.

In addition to the terms and conditions of any license agreement for MSCI information, services or products ("MSCI Products") entered into with MSCI Inc. and/or its affiliates ("MSCI") by customers ("Customer(s)'), each Customer must comply with the terms and conditions required by third party suppliers ("Supplier(s)") regarding Customer's use of Supplier content, data, software and other materials ("Materials") within MSCI Products. Customers may also be required to pay additional fees associated with Supplier Materials. If a Customer does not comply with a Supplier's terms, a Supplier may enforce such terms and/or require MSCI to terminate Customer's access to that Supplier's Materials, without any remedy to Customer.

Additional terms and conditions required by Suppliers with respect to its Materials are provided in the expanders below. If Customer receives Materials from a Supplier not listed below via MSCI Products, additional terms and conditions related to such Materials may apply. Notwithstanding anything to the contrary set forth below, none of the additional terms and conditions of MSCI Suppliers shall supersede (nor shall MSCI waive) any MSCI proprietary and/or intellectual property rights in MSCI Products.

21.03.2024 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - USD Short Mid-Term Bonds**

Legal entity identifier: **549300X18HRZWYSVCX65**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>49.20%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of corporate issuers with low sustainability risks and/or decreased the weight of corporate issuers with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The ICE BofA 1-3 Year US Corporate Index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

#### **Country Exclusions**

Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under "high alert" or "very high alert" in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

49.20%

- Exposure to green and/or social labelled bond

During the reference period, the fund had 1.46% exposure to labelled bonds.

Labelled bonds include environmental, social and sustainability bonds. Classification of labelled bonds is provided by the bond issuer and may not reflect our internal view

- Overall ESG profile

The fund's weighted average ESG score of corporate bonds was better than that of the reference index.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The fund's weighted average ESG score was 8.27 against 7.72 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.02	0.00
Weapons	0.03	0.00
Other controversial activities	0.00	0.00
Eligible:	43.66	0.00
Covered:	97.37	100.00

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Engagement**

The fund engaged with 6 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

- ...and compared to previous periods?

Not applicable.

- **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
  - Efficiency & Circularity
  - Natural Capital Management
- Such investments represented 44.02%.

#### Social

- Healthy Life
  - Water, Sanitation & Housing
  - Education & Economic Empowerment
  - Security & Connectivity
- Such investments represented 5.18%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions and collaborative institutional investor initiatives.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's responsible investment policy.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 21.03.2024 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

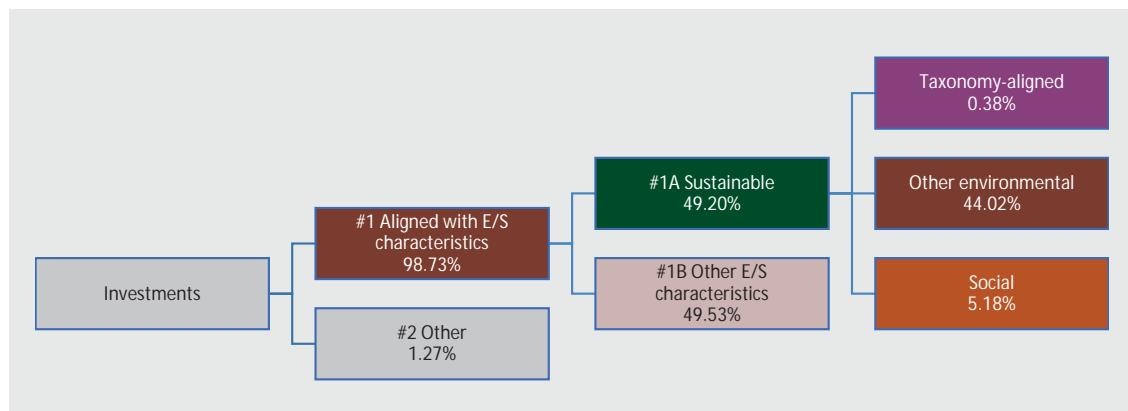

## What was the proportion of sustainability-related investments?

49.20%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 98.73% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.27% invested in Other (#2 Other). 49.20% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO<sub>2</sub> emissions or implemented policies that led to meaningful improvement in reducing CO<sub>2</sub> emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.

### In which economic sectors were the investments made?

SECTOR LEVEL 1	% ASSETS
Automobile	0.46
Basic Industries	3.70
Capital Goods	3.77
Consumer Cyclicals	0.17
Consumer Non-Cyclicals	5.96
Financial	22.50
Government	53.36

Information Technology	7.95
Supranational	0.08
Telecommunication	0.48
Utilities	0.29

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas    In nuclear energy

No

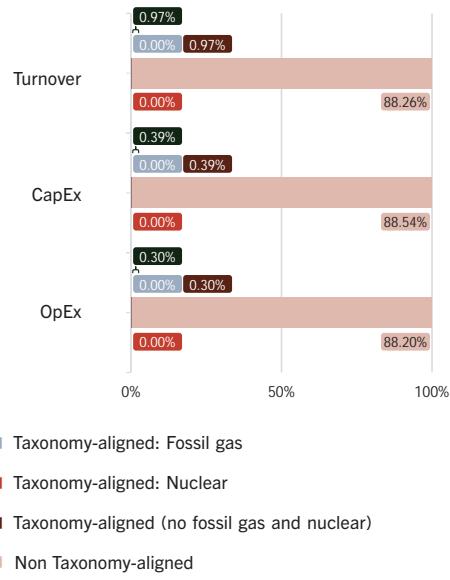

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

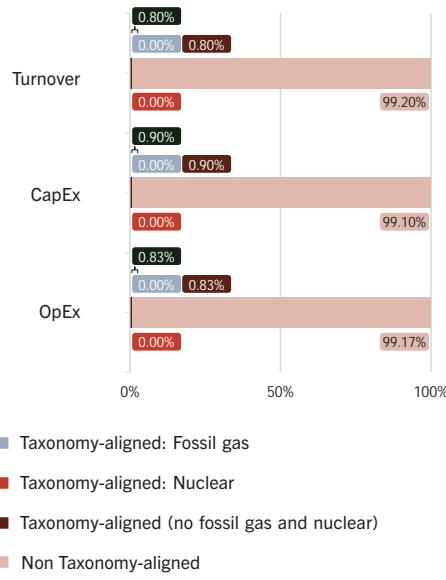

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 45.37% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

#### ● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.01%
- Enabling activities: 0.21%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

44.02%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental

objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

#### What was the share of socially sustainable investments?

5.18%

#### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

#### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
- are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
- derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
- severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- a better ESG profile than the corporate reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 6 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

##### ● How did the reference benchmark differ from a broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?  
Not applicable.
- How did this financial product perform compared with the reference benchmark?  
Not applicable.
- How did this financial product perform compared with the broad market index?  
Not applicable.

In addition to the terms and conditions of any license agreement for MSCI information, services or products (“MSCI Products”) entered into with MSCI Inc. and/or its affiliates (“MSCI”) by customers (“Customer(s)”), each Customer must comply with the terms and conditions required by third party suppliers (“Supplier(s)”) regarding Customer’s use of Supplier content, data, software and other materials (“Materials”) within MSCI Products. Customers may also be required to pay additional fees associated with Supplier Materials. If a Customer does not comply with a Supplier’s terms, a Supplier may enforce such terms and/or require MSCI to terminate Customer’s access to that Supplier’s Materials, without any remedy to Customer.

Additional terms and conditions required by Suppliers with respect to its Materials are provided in the expanders below. If Customer receives Materials from a Supplier not listed below via MSCI Products, additional terms and conditions related to such Materials may apply. Notwithstanding anything to the contrary set forth below, none of the additional terms and conditions of MSCI Suppliers shall supersede (nor shall MSCI waive) any MSCI proprietary and/or intellectual property rights in MSCI Products.

**01.10.2023 - 30.09.2024**

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name: Pictet - CHF Bonds**

**Legal entity identifier: 549300640RZPBDXPBN65**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>23.43%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The Swiss Bond Index Foreign AAA-BBB was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

#### **Country Exclusions**

Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund’s weighted average ESG score was better than that of the reference index.

The fund’s weighted average ESG score was 8.19 against 8.16 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	1.01	1.44
Weapons	0.01	0.01
Other controversial activities	0.00	0.22
Eligible:	91.11	95.88
Covered:	90.41	95.61

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 12 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023		01.10.2023 - 30.09.2024		Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024
Overall ESG profile	Fund ESG score: 8.11		Fund ESG score: 8.19		Higher fund's score than that of the reference index	Higher fund's score than that of the reference index
	Reference index ESG score: 8.06		Reference index ESG score: 8.16			
Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Refer- ence Index	Fund	Refer- ence Index		
Fossil fuels and nuclear energy	0.83%	2.51%	1.01%	1.44%	(*)	
Weapons	0.01%	0.01%	0.01%	0.01%	(*)	
Other controversial activities	0.00%	0.35%	0.00%	0.22%	(*)	

Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Reference Index	Fund	Reference Index	
<i>Eligible</i> (**):	94.25%	96.03%	91.11%	95.88%	
<i>Covered</i> (**):	88.39%	93.72%	90.41%	95.61%	
<b>Engagement</b>	17		12		

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

**Environmental**

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 13.20%.

**Social**

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 10.23%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

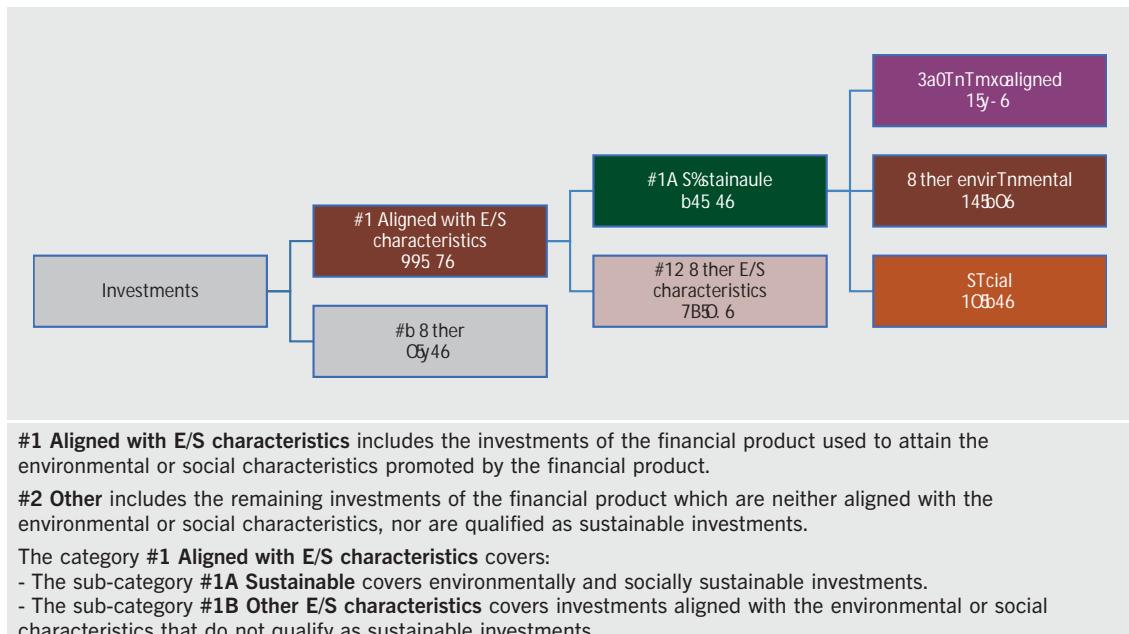

## What was the proportion of sustainability-related investments?

23.43%

Asset allocation describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 99.47% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.53% invested in Other (#2 Other). 23.43% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Aligned with E/S characteristics	98.86%	99.47%
#2 Other	1.14%	0.53%
#1A Sustainable	24.74%	23.43%
#1B Other E/S characteristics	74.12%	76.04%
Taxonomy-aligned	0.23%	1.58%
Other environmental	10.53%	13.20%
Social	14.21%	10.23%

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas  In nuclear energy

No

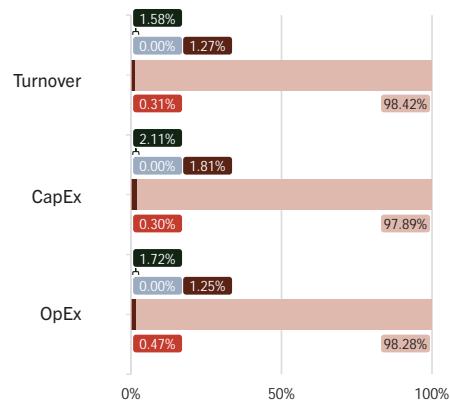

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

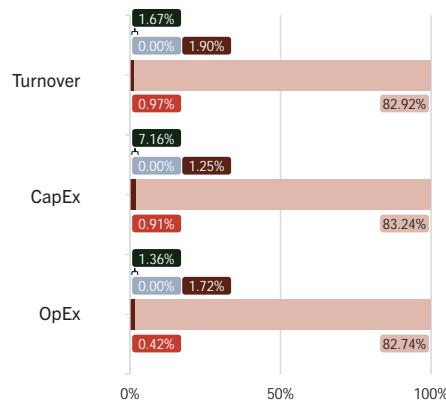

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

#### 1. Taxonomy-alignment of investments including sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned (no fossil gas and nuclear)
- Non Taxonomy-aligned

#### 2. Taxonomy-alignment of investments excluding sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned (no fossil gas and nuclear)
- Non Taxonomy-aligned

This graph represents 97.88% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

#### ● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.36%
- Enabling activities: 0.44%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.23% versus 1.58% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

13.20%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### What was the share of socially sustainable investments?

10.23%

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 12 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?  
Not applicable.
- How did this financial product perform compared with the reference benchmark?  
Not applicable.
- How did this financial product perform compared with the broad market index?  
Not applicable.

The Information is provided “as is” and the user assumes the entire risk of any use it may make or permit to be made of the Information. No MSCI Party warrants or guarantees the originality, accuracy and/or completeness of the Information and each expressly disclaims all express or implied warranties. No MSCI Party shall have any liability for any errors or omissions in connection with any Information herein, or any liability for any direct, indirect, special, punitive, consequential or any other damages (including lost profits) even if notified of the possibility of such damages.

In addition to the terms and conditions of any license agreement for MSCI information, services or products (“MSCI Products”) entered into with MSCI Inc. and/or its affiliates (“MSCI”) by customers (“Customer(s)”), each Customer must comply with the terms and conditions required by third party suppliers (“Supplier(s)”) regarding Customer’s use of Supplier content, data, software and other materials (“Materials”) within MSCI Products. Customers may also be required to pay additional fees associated with Supplier Materials. If a Customer does not comply with a Supplier’s terms, a Supplier may enforce such terms and/or require MSCI to terminate Customer’s access to that Supplier’s Materials, without any remedy to Customer.

Additional terms and conditions required by Suppliers with respect to its Materials are provided in the expanders below. If Customer receives Materials from a Supplier not listed below via MSCI Products, additional terms and conditions related to such Materials may apply. Notwithstanding anything to the contrary set forth below, none of the additional terms and conditions of MSCI Suppliers shall supersede (nor shall MSCI waive) any MSCI proprietary and/or intellectual property rights in MSCI Products.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Emerging Local Currency Debt**

Legal entity identifier: **549300YGHOSBCB47SV89**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>21.51%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Best-in-class / best effort:

The fund invested in securities of issuers with low and/or decreasing sustainability risks while avoiding those with high and/or increasing sustainability risk, reducing the investment universe by at least 20%. The investment universe is composed of sovereign and corporate bonds from emerging countries.

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Labelled bonds:

The fund partially invested in environmental and/or social labelled bonds.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	25%
Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%
<b>Addictive Products</b>	
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
<b>Country Exclusions</b>	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under "high alert" or "very high alert" in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with selected sovereigns on ESG topics over the reference period.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

21.51%

- Exposure to green and/or social labelled bond

During the reference period, the fund had 8.30% exposure to labelled bonds.

Labelled bonds include environmental, social and sustainability bonds. Classification of labelled bonds is provided by the bond issuer and may not reflect our internal view

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- **Reduction of the investment universe based on ESG factors**

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

The fund mainly invests in government bonds during the reference period. In case of investments in non-sovereign bonds and in line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment Policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment.

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	0.00
Weapons	0.00	0.00
Other controversial activities	0.00	0.00
Eligible:	0.49	0.00
Covered:	100.00	100.00

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Engagement**

The fund engaged with 3 sovereigns on ESG topics (data as of 30.09.2024).

Source: Pictet Asset Management.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024	Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024
The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR	5.42%	21.51%	5.00%	5.00%
Exposure to green and/or social labelled bond	5.42%	8.30%		
Reduction of the investment universe based on ESG factors	Yes	Yes	20.00%	20.00%
Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Reference Index	Fund	Reference Index
<i>Fossil fuels and nuclear energy</i>	0.00%	0.00%	0.00%	0.00%
<i>Weapons</i>	0.00%	0.00%	0.00%	0.00%
<i>Other controversial activities</i>	0.00%	0.00%	0.00%	0.00%
<i>Eligible</i> (**):	1.33%	0.00%	0.49%	0.00%
<i>Covered</i> (**):	N/A	100.00%	100.00%	100.00%
<b>Engagement</b>	6	3		

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 18.59%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 2.92%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including

data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

#### (ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions and collaborative institutional investor initiatives.

#### (iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's responsible investment policy.

### What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Indonesia Gov't 8.375% 15.03.2034 Uns	Government	2.12	Indonesia

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

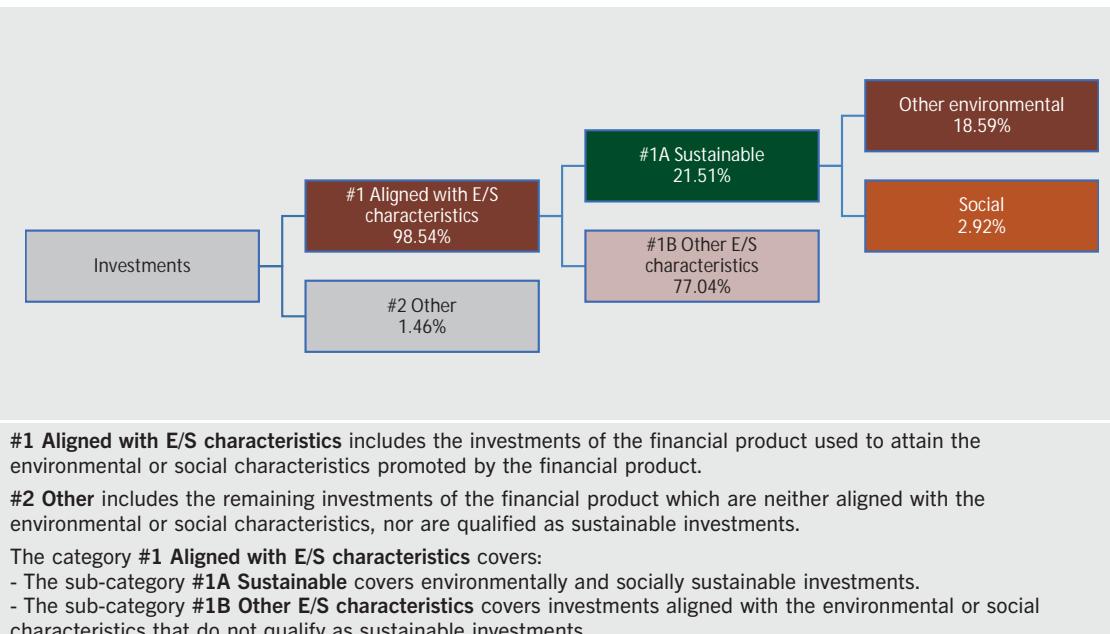

### What was the proportion of sustainability-related investments?

21.51%

#### ● What was the asset allocation?

The fund was 98.54% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.46% invested in Other (#2 Other). 21.51% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Asset allocation describes the share of investments in specific assets.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS.

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Aligned with E/S characteristics	97.17%	98.54%
#2 Other	2.83%	1.46%
#1A Sustainable	5.42%	21.51%
#1B Other E/S characteristics	91.75%	77.04%
Taxonomy-aligned	0.00%	0.00%
Other environmental	3.00%	18.59%
Social	2.42%	2.92%

#### ● In which economic sectors were the investments made?

SECTOR LEVEL 1	% ASSETS
Financial	0.19
Government	92.80
Sovereign	4.00
Supranational	0.31

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

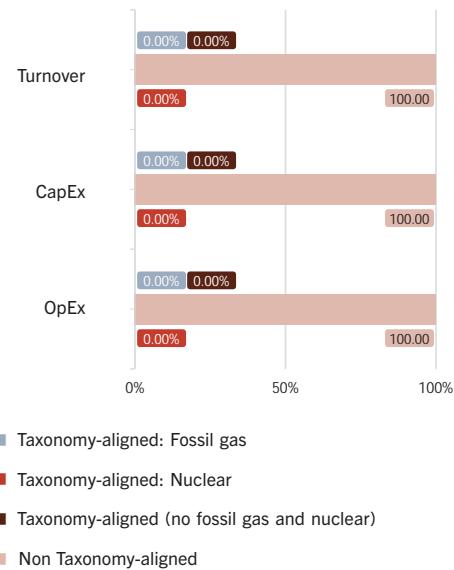

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

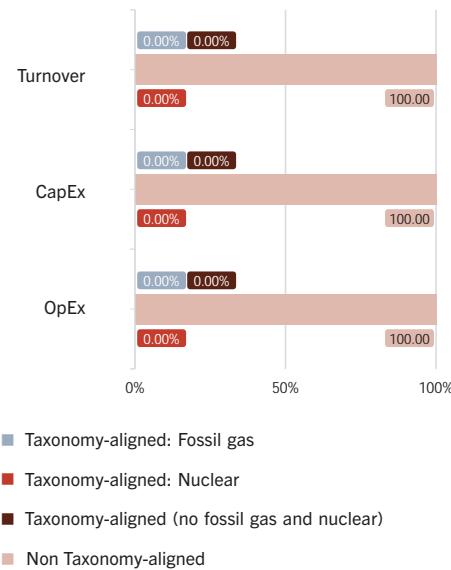

- Yes:  
 In fossil gas     In nuclear energy  
 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 0.50% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

● What was the share of investments made in transitional and enabling activities?

Not applicable.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

#### What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

18.59%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

#### What was the share of socially sustainable investments?

2.92%

#### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

#### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

The fund engaged with 3 sovereigns on ESG topics (data as 30.09.2024).

## How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### ● How did the reference benchmark differ from a broad market index?

Not applicable.

### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

### ● How did this financial product perform compared with the broad market index?

Not applicable.

This publication includes information and data provided by Sustainalytics. Use of such data is subject to conditions available at <https://www.sustainalytics.com/legal-disclaimers>

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Global High Yield**

Legal entity identifier: **549300SQCEGXVG3EIP06**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>38.24%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The ICE BofA Developed Markets High Yield index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

#### **Country Exclusions**

Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund’s weighted average ESG score was better than that of the reference index.

The fund’s weighted average ESG score was 7.99 against 7.89 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	4.78	3.98
Weapons	0.62	0.52
Other controversial activities	0.13	2.17
Eligible:	98.68	99.82
Covered:	93.07	91.55

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 6 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024	Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024
Overall ESG profile	Fund ESG score: 7.98  Reference index ESG score: 7.88	Fund ESG score: 7.99  Reference index ESG score: 7.89	Higher fund's score than that of the reference index	Higher fund's score than that of the reference index
Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund  Fossil fuels and nuclear energy  Weapons  Other controversial activities	Refer- ence Index  Fund  Fund  Fund	Refer- ence Index  Fund  Fund  Fund	
Fossil fuels and nuclear energy	3.45%	3.07%	4.78%	3.98% (*)
Weapons	0.77%	0.48%	0.62%	0.52% (*)
Other controversial activities	0.20%	2.43%	0.13%	2.17% (*)

Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Reference Index	Fund	Reference Index	
<i>Eligible</i> (**):	98.51%	99.89%	98.68%	99.82%

<b>Engagement</b>	11		6		

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 9.23%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 29.01%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

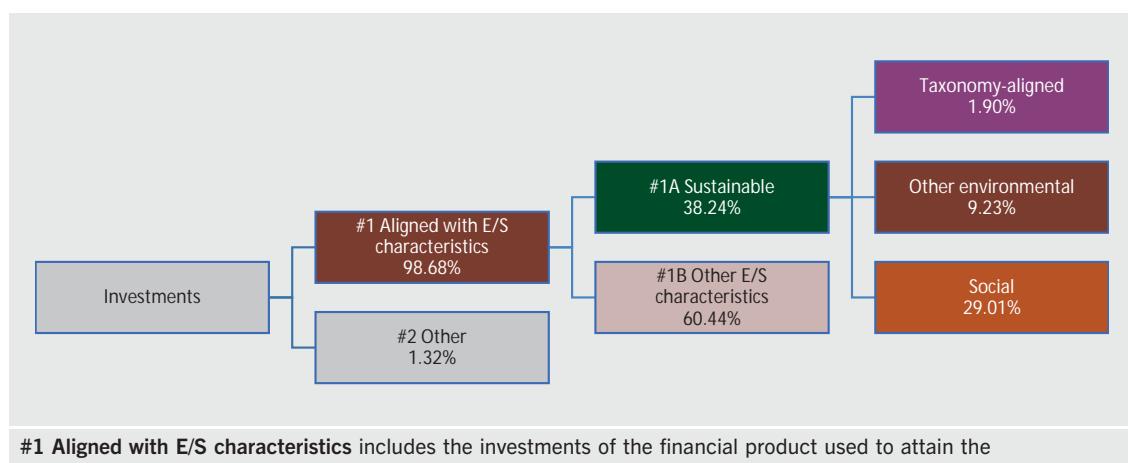

## What was the proportion of sustainability-related investments?

38.24%

### What was the asset allocation?

The fund was 98.68% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.32% invested in Other (#2 Other). 38.24% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas  In nuclear energy

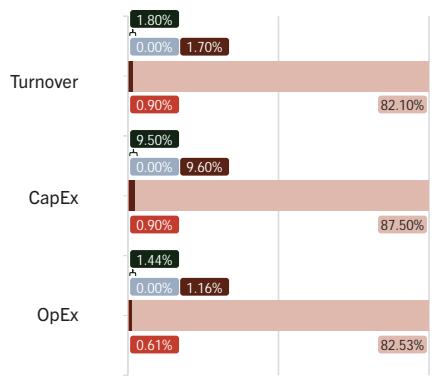

No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

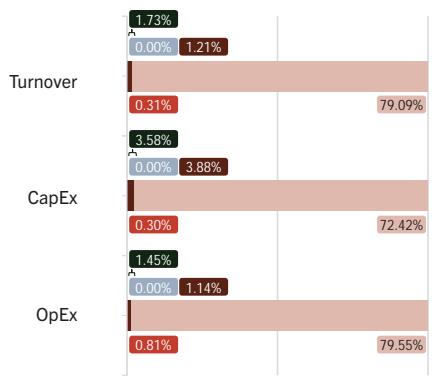

Taxonomy-aligned activities are expressed as a share of:  
- **turnover** reflects the “greenness” of investee companies today.  
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

■ Taxonomy-aligned: Fossil gas  
■ Taxonomy-aligned: Nuclear  
■ Taxonomy-aligned (no fossil gas and nuclear)  
■ Non Taxonomy-aligned

This graph represents 98.68% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Enabling activities**  
directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities**  
are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.21%
- Enabling activities: 0.55%

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

9.23%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.**

**What was the share of socially sustainable investments?**

29.01%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 6 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

##### ● How did the reference benchmark differ from a broad market index?

Not applicable.

##### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

##### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

##### ● How did this financial product perform compared with the broad market index?

Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Global Sustainable Credit**

Legal entity identifier: **549300B37OSRF8QQ7T62**

## SUSTAINABLE INVESTMENT OBJECTIVE

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 42.73%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
<input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 53.90%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

### To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- Positive impact:

The fund achieved a positive environmental and/or social impact, by investing mainly in

(i) companies whose significant proportion of their activities are related to products and services supporting the energy transition, circular economy, energy efficiency, water quality and supply, healthcare and social integration

(ii) ESG Labelled Bonds, including but not limited to, Green and/or Social Bonds

(iii) companies with a low environmental footprint with consideration of, but not limited to, carbon intensity.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

Eligible securities included:

(i) securities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities

(ii) where relevant, green and/or social labelled bonds issued by companies or countries whose use of proceeds are financing such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

<b>Activity</b>	<b>Revenue thresholds</b>
<b>Energy</b>	
Thermal Coal Extraction	10%
Thermal Coal Power Generation	10%
Oil & Gas Production	10%
Oil Sands Extraction	10%
Shale Energy Extraction	10%
Off-shore Arctic Oil & Gas Exploration	10%
Nuclear Power Generation	50%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Production of nuclear weapons from countries signatory to the NPT	Excluded
Military Contracting Weapons	10%
Military Contracting Weapon-Related Products and/or Services	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	10%
Small Arms Key Components	10%
<b>Addictive Products</b>	
Alcoholic Beverages Production	10%
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
Gambling Specialised Equipment	10%
<b>Agriculture</b>	
Genetically Modified Plants and Seeds Development	10%
Genetically Modified Plants and Seeds Growth	10%
Pesticides Production	10%
Pesticides Retail	10%
Palm Oil Production and Distribution	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded[2]
<b>Country Exclusions</b>	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[3] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[4]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[4]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Excluded

## Company Exclusions based on Controversial Activities and Revenue thresholds

Countries subject to social violations as referred to in international treaties and conventions, United Nations principles and, where applicable, national law

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

[3] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[4] Exclusions also apply to companies if the headquarter is located in an excluded country.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Labelled bonds:

The fund invested partially in environmental and/or social labelled bonds.

- Carbon intensity:

The fund invested in companies with a low carbon footprint with consideration of, but not limited to, carbon intensity.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

- Sustainable Investments:

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 42.73%.

### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 53.90%.

### How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

96.63%

- Exposure to green and/or social labelled bond

During the reference period, the fund had 39.16% exposure to labelled bonds.

Labelled bonds include environmental, social and sustainability bonds. Classification of labelled bonds is provided by the bond issuer and may not reflect our internal view

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

Sustainability indicators measure how the sustainable objectives of this financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.17	5.38
Weapons	0.02	0.88
Other controversial activities	0.01	1.25
Eligible:	87.00	99.99
Covered:	99.34	98.27

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 20 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024	Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024
The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR	94.52%	96.63%	80.00%	80.00%
Exposure to green and/or social labelled bond	48.63%	39.16%		
Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Reference Index	Fund	Reference Index
Fossil fuels and nuclear energy	0.28%	5.45%	0.17%	5.38%
Weapons	0.02%	0.83%	0.02%	0.88%

Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Reference Index	Fund	Reference Index	
<i>Other controversial activities</i>	0.02%	1.16%	0.01%	1.25%	(*)
<i>Eligible (**):</i>	79.54%	99.30%	87.00%	99.99%	
<i>Covered (**):</i>	97.63%	97.45%	99.34%	98.27%	
<b>Engagement</b>	25	20			

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

#### ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

#### ● How were the indicators for adverse impacts on sustainability factors taken into account?

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

#### ● Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Intesa Sanpaolo 6.625% 31.05.2033 'Emtn' Sr	Financial	1.71	Italy

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

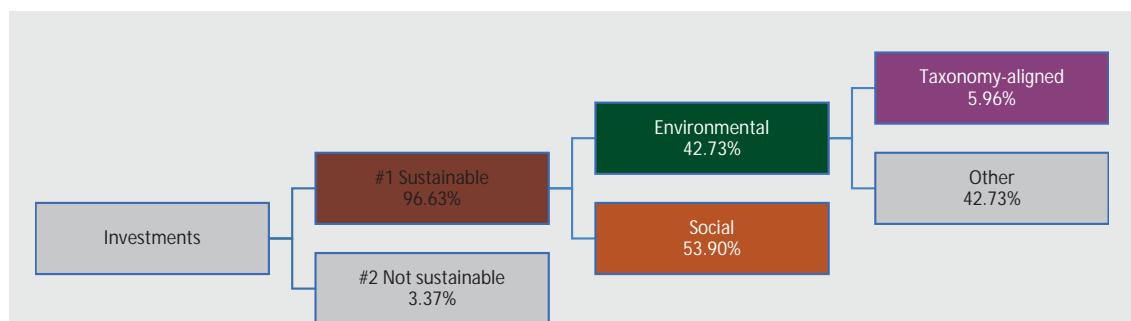

## What was the proportion of sustainability-related investments?

96.63%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund allocated 96.63% of its assets to Sustainable investments (#1 Sustainable) and 3.37% to Not sustainable investments (#2 Not sustainable). 42.73% of its assets is allocated to environmental objectives and 53.90% to social objectives.

#1 Sustainable covers sustainable investments with environmental or social objectives.

#2 Not sustainable includes investments which do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1 Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Factset RBICS, MSCI.

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Sustainable	94.52%	96.63%
#2 Not sustainable	5.48%	3.37%
Environmental	55.75%	42.73%
Social	38.77%	53.90%
Taxonomy-aligned	4.55%	5.96%
Other	55.75%	42.73%

● In which economic sectors were the investments made?

SECTOR LEVEL 1	SECTOR LEVEL 4	% ASSETS
Automobile		1.79
Basic Industries		6.55
Capital Goods		7.24
Consumer Cyclicals		2.51
Consumer Non-Cyclicals		13.69
Energy	Oil Refining & Marketing	0.41
Financial		38.36

Telecommunication		8.07
Transportation		1.72
Utilities		12.56

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas    In nuclear energy

No

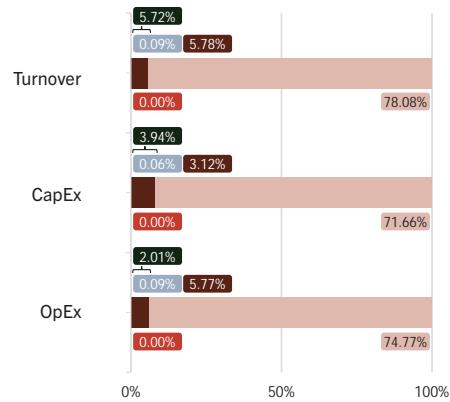

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

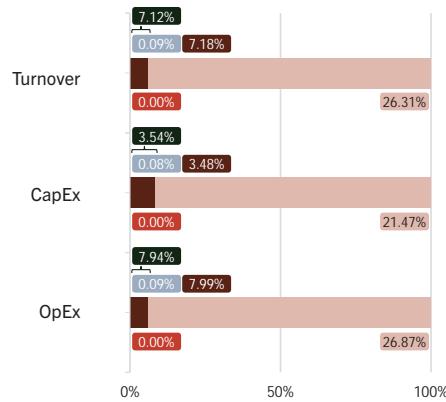

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflecting the share of revenue from green activities of investee companies  
 - **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

■ Taxonomy-aligned: Fossil gas  
 ■ Taxonomy-aligned: Nuclear  
 ■ Taxonomy-aligned (no fossil gas and nuclear)  
 ■ Non Taxonomy-aligned

This graph represents 96.63% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

#### ● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.05%
- Enabling activities: 2.10%

**Enabling activities**  
directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities**  
are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 4.55% versus 5.96% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

42.73%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

### What was the share of socially sustainable investments?

53.90%

### What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

### What actions have been taken to attain the sustainable investment objective during the reference period?

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- investments in companies that have a significant proportion of their activities related to, but not limited to products and services supporting the energy transition, circular economy, energy efficiency, water quality and supply, healthcare and social integration (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- min exposure of 80% to sustainable investments, including but not limited to, environmental and/or social labelled bonds
- lower carbon footprint than the reference index
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons and nuclear weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 20 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

- **How did the reference benchmark differ from a broad market index?**  
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - EUR Short Term High Yield**

Legal entity identifier: **5493001BLDF0NBC83W95**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>28.53%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the investment index. The ICE BofA Euro High Yield Ex Financial BB-B 1-3 Years Constrained index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

#### **Country Exclusions**

Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund’s weighted average ESG score was better than that of the reference index.

The fund’s weighted average ESG score was 7.94 against 7.90 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.89	2.19
Weapons	0.04	0.19
Other controversial activities	0.08	2.54
Eligible:	93.97	99.84
Covered:	73.01	79.01

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 5 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024	Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024

<b>Engagement</b>	7		5		

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 12.36%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 16.17%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

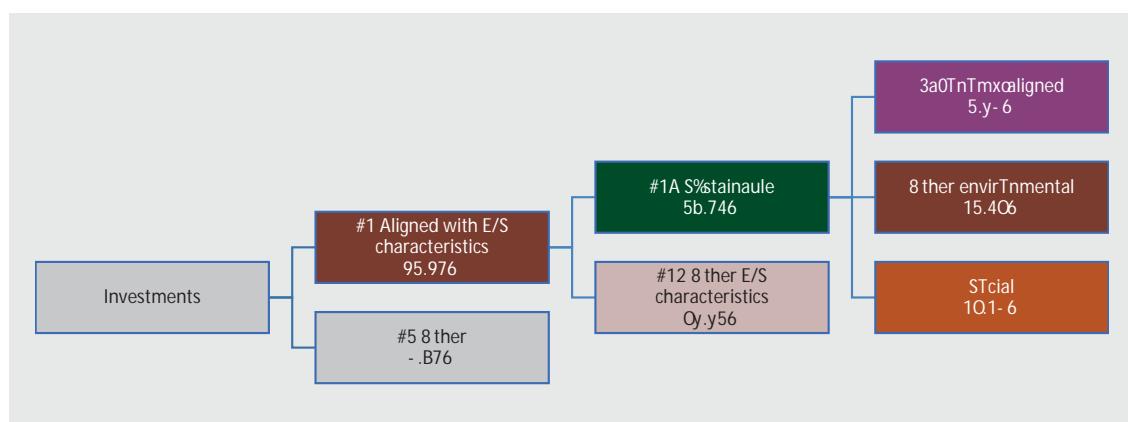

## What was the proportion of sustainability-related investments?

28.53%

Asset allocation describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 92.95% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 7.05% invested in Other (#2 Other). 28.53% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:  
 - The sub-category #1A Sustainable covers environmentally and socially sustainable investments.  
 - The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

*Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.*

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Aligned with E/S characteristics	87.90%	92.95%
#2 Other	12.10%	7.05%
#1A Sustainable	25.31%	28.53%
#1B Other E/S characteristics	62.58%	64.42%
Taxonomy-aligned	1.45%	2.47%
Other environmental	8.67%	12.36%
Social	16.64%	16.17%

#### ● In which economic sectors were the investments made?

Utilities		3.87

*Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.*

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas  In nuclear energy

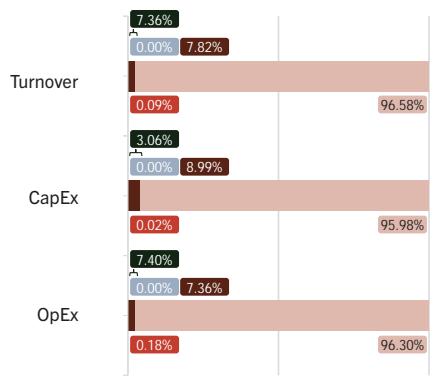

No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

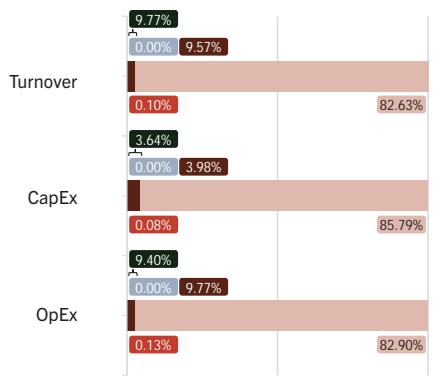

Taxonomy-aligned activities are expressed as a share of:  
- **turnover** reflects the “greeness” of investee companies today.  
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

■ Taxonomy-aligned: Fossil gas  
■ Taxonomy-aligned: Nuclear  
■ Taxonomy-aligned (no fossil gas and nuclear)  
■ Non Taxonomy-aligned

This graph represents 92.95% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Enabling activities**  
directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities**  
are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.10%
- Enabling activities: 1.12%

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

12.36%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.**

**What was the share of socially sustainable investments?**

16.17%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 5 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

##### ● How did the reference benchmark differ from a broad market index?

Not applicable.

##### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

##### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

##### ● How did this financial product perform compared with the broad market index?

Not applicable.

**01.10.2023 - 30.09.2024**

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name: Pictet - EUR Short Term Corporate Bonds**

**Legal entity identifier: 54930064KZHCJX80KV24**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>37.16%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The Bloomberg Euro-Aggregate Corporate 1-3 Years A-BBB index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

#### **Country Exclusions**

Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund’s weighted average ESG score was better than that of the reference index.

The fund’s weighted average ESG score was 8.14 against 8.06 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	2.45	2.81
Weapons	0.04	0.33
Other controversial activities	0.03	1.13
Eligible:	91.84	100.00
Covered:	98.85	99.60

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 18 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 18.50%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 18.66%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Ing Groep Nv 2.125% 23.05.2026 'Emtn' Sr	Financial	1.59	Netherlands

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

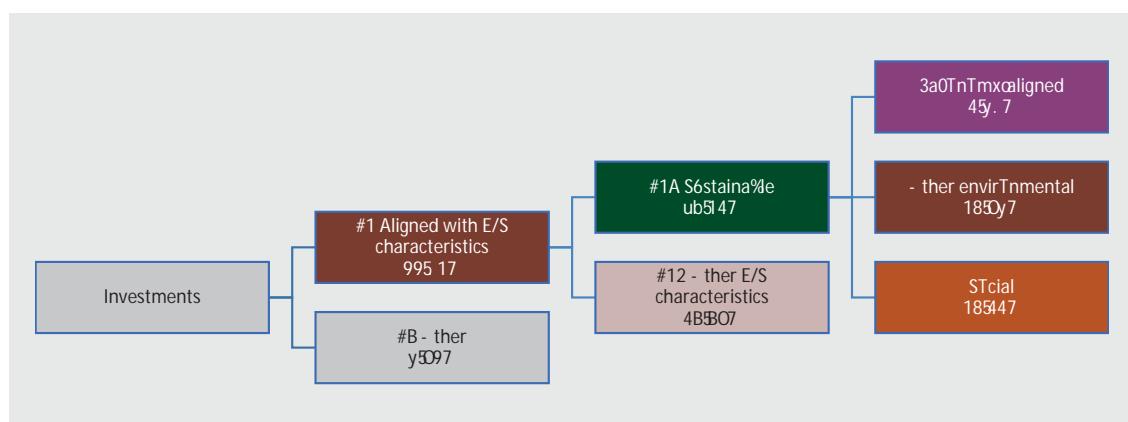

## What was the proportion of sustainability-related investments?

37.16%

Asset allocation describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 99.41% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.59% invested in Other (#2 Other). 37.16% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:  
 - The sub-category #1A Sustainable covers environmentally and socially sustainable investments.  
 - The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

*Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.*

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Aligned with E/S characteristics	98.87%	99.41%
#2 Other	1.13%	0.59%
#1A Sustainable	37.01%	37.16%
#1B Other E/S characteristics	61.86%	62.25%
Taxonomy-aligned	2.80%	6.04%
Other environmental	10.90%	18.50%
Social	26.12%	18.66%

● In which economic sectors were the investments made?

SECTOR LEVEL 1	SECTOR LEVEL 4	% ASSETS

Transportation		1.74
Utilities		10.00

*Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.*

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas     In nuclear energy

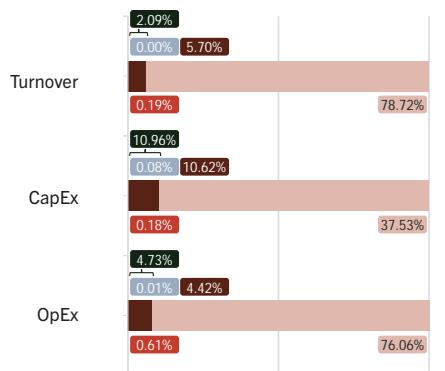

No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

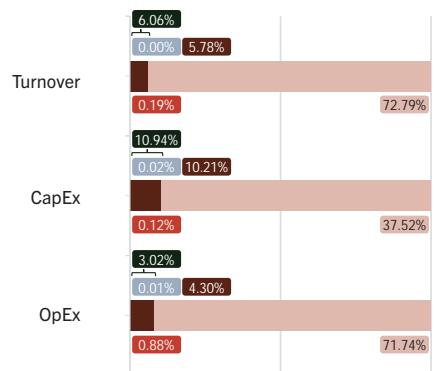

Taxonomy-aligned activities are expressed as a share of:  
- **turnover** reflects the “greeness” of investee companies today.  
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

■ Taxonomy-aligned: Fossil gas  
■ Taxonomy-aligned: Nuclear  
■ Taxonomy-aligned (no fossil gas and nuclear)  
■ Non Taxonomy-aligned

■ Taxonomy-aligned: Fossil gas  
■ Taxonomy-aligned: Nuclear  
■ Taxonomy-aligned (no fossil gas and nuclear)  
■ Non Taxonomy-aligned

This graph represents 99.41% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Enabling activities**  
directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities**  
are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.37%
- Enabling activities: 3.29%

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

18.50%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.**

**What was the share of socially sustainable investments?**

18.66%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 18 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

##### ● How did the reference benchmark differ from a broad market index?

Not applicable.

##### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

##### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

##### ● How did this financial product perform compared with the broad market index?

Not applicable.

Notwithstanding anything to the contrary set forth below, none of the additional terms and conditions of MSCI Suppliers shall supersede (nor shall MSCI waive) any MSCI proprietary and/or intellectual property rights in MSCI Products.

**01.10.2023 - 30.09.2024**

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name: Pictet - Short Term Emerging Corporate Bonds**

**Legal entity identifier: 5493009K8UKDUDN85D74**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>17.70%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The JP Morgan CEMBI Broad Diversified 1-3 Years index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

#### **Country Exclusions**

Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund’s weighted average ESG score was better than that of the reference index.

The fund’s weighted average ESG score was 7.39 against 7.33 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	9.19	11.19
Weapons	0.00	0.24
Other controversial activities	0.05	3.73
Eligible:	95.07	100.00
Covered:	95.19	99.35

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 14 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023		01.10.2023 - 30.09.2024		Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024
Overall ESG profile	Fund ESG score: 7.25		Fund ESG score: 7.39		Higher fund's score than that of the reference index	Higher fund's score than that of the reference index
	Reference index ESG score: 7.14		Reference index ESG score: 7.33			
Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Refer- ence Index	Fund	Refer- ence Index		
Fossil fuels and nuclear energy	10.28%	10.93%	9.19%	11.19%	(*)	
Weapons	0.00%	0.16%	0.00%	0.24%	(*)

<b>Engagement</b>	6		14		

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

**Environmental**

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 6.84%.

**Social**

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 10.86%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Santander Mexico 5.375% 17.04.2025 'Regs' Sr	Financial	1.63	Mexico
Banco De Bogota 6.25% 12.05.2026 'Regs' Sub	Financial	1.54	Colombia
Teva Pharmaceuci 3.15% 01.10.2026 Sr	Consumer Non-Cyclicals	1.48	Israel

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

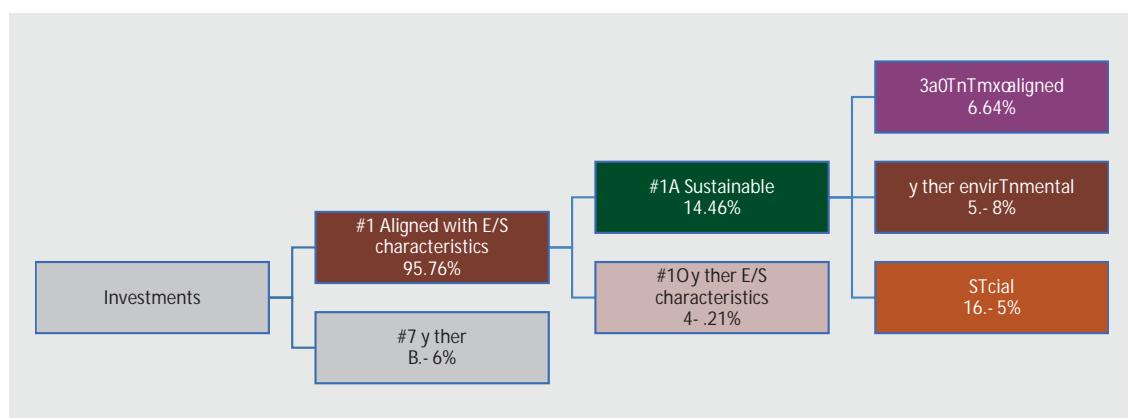

## What was the proportion of sustainability-related investments?

17.70%

Asset allocation describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 96.20% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 3.80% invested in Other (#2 Other). 17.70% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas    In nuclear energy

No

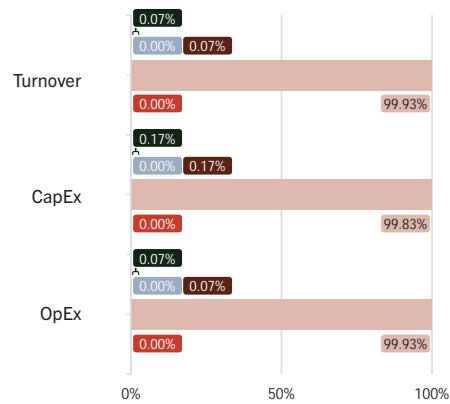

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the “greenness” of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

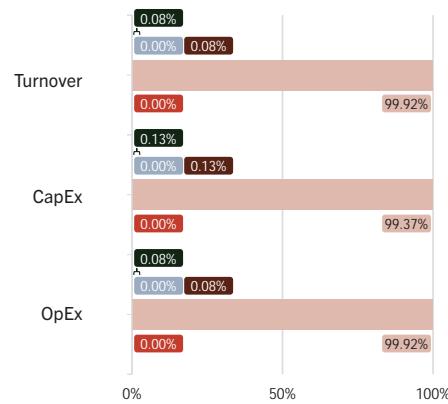

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

#### 1. Taxonomy-alignment of investments including sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned (no fossil gas and nuclear)
- Non Taxonomy-aligned

#### 2. Taxonomy-alignment of investments excluding sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned (no fossil gas and nuclear)
- Non Taxonomy-aligned

This graph represents 95.29% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

#### ● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.01%
- Enabling activities: 0.01%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.00% versus 0.07% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

6.84%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### What was the share of socially sustainable investments?

10.86%

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 14 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name: Pictet - Chinese Local Currency Debt**

**Legal entity identifier: 549300KZ68000ZEEP423**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>8.35%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The Bloomberg China Composite index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

#### **Country Exclusions**

Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund’s weighted average ESG score was better than that of the reference index.

The fund’s weighted average ESG score was 6.62 against 6.20 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.19	0.21
Weapons	0.00	0.00
Other controversial activities	0.00	0.00
Eligible:	78.95	71.44
Covered:	78.22	77.90

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 5 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Not applicable.

#### ● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 6.41%.

Social

- Healthy Life
- Water, Sanitation & Housing

- Education & Economic Empowerment

- Security & Connectivity

Such investments represented 1.94%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

**● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**● How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**● Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?**

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions and collaborative institutional investor initiatives.

### (iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's responsible investment policy.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 21.03.2024 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

## What was the proportion of sustainability-related investments?

8.35%

**Asset allocation**  
describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 99.26% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.74% invested in Other (#2 Other). 8.35% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.

### In which economic sectors were the investments made?

SECTOR LEVEL 1	SECTOR LEVEL 4	% ASSETS
Automobile		1.10

SECTOR LEVEL 1	SECTOR LEVEL 4	% ASSETS
Basic Industries		1.79
Consumer Cyclicals		0.38
Consumer Non-Cyclicals		1.71
Energy	Oil Refining & Marketing	0.10
Financial		40.07
Government		10.90
Information Technology		0.18
Media		1.30
Quasi-Sovereign		18.04
Sovereign		9.53
Telecommunication		0.50
Transportation		11.24
Utilities		2.43

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas    In nuclear energy

No

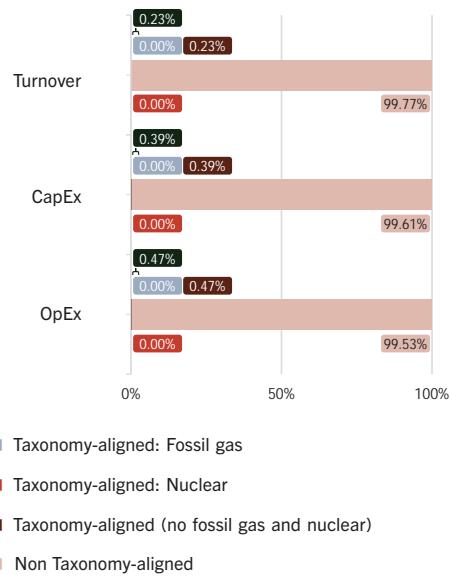

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

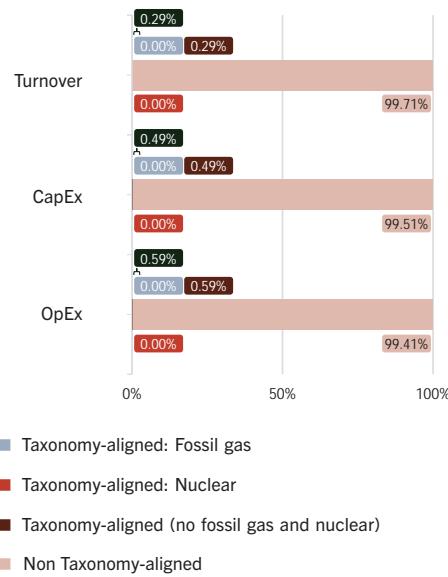

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

#### 1. Taxonomy-alignment of investments including sovereign bonds\*

#### 2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 78.99% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

#### ● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 0.22%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

6.41%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

  
are sustainable investments with an environmental objective that do not

#### What was the share of socially sustainable investments?

1.94%

#### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

#### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 5 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

##### ● How did the reference benchmark differ from a broad market index?

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Absolute Return Fixed Income**

Legal entity identifier: **549300UVU2ZEG8T8ZH17**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> ●	<input type="checkbox"/> Yes
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>27.76%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of corporate bonds with low sustainability risks and/or decreased the weight of corporate bonds with high sustainability risks and, as a result, the corporate bonds it holds had a better ESG profile than the corporate bonds of the investment universe.

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

<b>Addictive Products</b>	
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

<b>Country Exclusions</b>	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund’s weighted average ESG score of corporate bonds was better than that of corporate bonds of the investment universe.

The fund’s weighted average ESG score was 22.03 against 25.82 for the investment universe. A lower score means a lower risk. Scores range from 0 to 100, 0 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management’s Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	1.73	N/A
Weapons	0.01	N/A
Other controversial activities	0.03	N/A
Eligible:	28.95	N/A
Covered:	94.99	N/A

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 8 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023		01.10.2023 - 30.09.2024		Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024
Overall ESG profile	Fund ESG score: 20.59		Fund ESG score: 22.03		Lower fund's score than that of the investment universe	Lower fund's score than that of the investment universe
	Investment universe ESG score: 26.64		Investment universe ESG score: 25.82			
Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Refer- ence Index	Fund	Refer- ence Index		
<i>Fossil fuels and nuclear energy</i>	0.53%	N/A	1.73%	N/A		(*)
<i>Weapons</i>	0.00%	N/A	0.01%	N/A		(*)
<i>Other controversial activities</i>	0.03%	N/A	0.03%	N/A		(*)

Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Reference Index	Fund	Reference Index	
Eligible (**):	16.08%	N/A	28.95%	N/A	
Covered (**):	94.87%	N/A	94.99%	N/A	
Engagement	11		8		

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 25.38%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 2.38%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts were addressed through a combination of:

(i) portfolio management decisions

The investment team assessed its corporate holdings according to an analysis of Environmental, Social & Governance risks as part of the fund's investment framework. Investment managers, informed by internal and third-party research, including quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's analysis was a key component of the compartment's portfolio construction process, determining target weights in the portfolio to achieve a positive tilt in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls in collaboration with other investment teams and external third parties. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's Responsible Investment policy.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

## What was the proportion of sustainability-related investments?

27.76%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 95.27% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 4.73% invested in Other (#2 Other). 27.76% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

The category #1 Aligned with E/S characteristics covers:  
 - The sub-category #1A Sustainable covers environmentally and socially sustainable investments.  
 - The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas  In nuclear energy

No

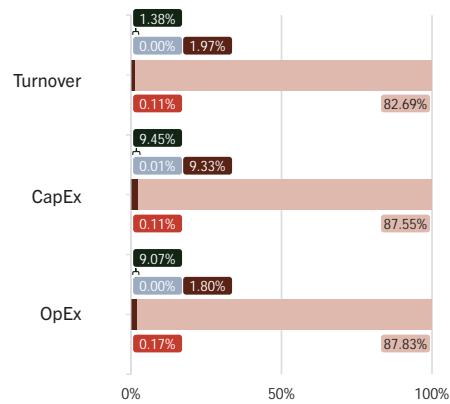

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the “greenness” of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

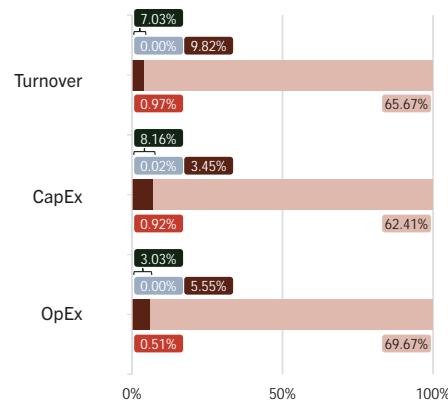

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

### 1. Taxonomy-alignment of investments including sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned (no fossil gas and nuclear)
- Non Taxonomy-aligned

### 2. Taxonomy-alignment of investments excluding sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned (no fossil gas and nuclear)
- Non Taxonomy-aligned

This graph represents 35.15% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

### ● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.17%
- Enabling activities: 0.97%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.64% versus 1.39% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

25.38%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### What was the share of socially sustainable investments?

2.38%

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- a better ESG profile than the investment universe
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 8 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?  
Not applicable.
- How did this financial product perform compared with the reference benchmark?  
Not applicable.
- How did this financial product perform compared with the broad market index?  
Not applicable.

**Product name: Pictet - Emerging Debt Blend**

**Legal entity identifier: 549300X7BFFQ66LK0H18**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>21.90%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Best-in-class / best effort:

The fund invested in securities of issuers with low and/or decreasing sustainability risks while avoiding those with high and/or increasing sustainability risk, reducing the investment universe by at least 20%. The investment universe is composed of sovereign and corporate bonds from emerging countries.

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Labelled bonds:

The fund partially invested in environmental and/or social labelled bonds.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	25%
Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%
<b>Addictive Products</b>	
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
<b>Country Exclusions</b>	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under "high alert" or "very high alert" in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under "alert" on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] "State Sponsors of Terrorism" is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with selected sovereigns on ESG topics over the reference period.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

21.90%

- Exposure to green and/or social labelled bond

During the reference period, the fund had 13.27% exposure to labelled bonds.

Labelled bonds include environmental, social and sustainability bonds. Classification of labelled bonds is provided by the bond issuer and may not reflect our internal view

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- **Reduction of the investment universe based on ESG factors**

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

The fund mainly invests in government bonds during the reference period. In case of investments in non-sovereign bonds and in line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment Policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment.

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.07	2.34
Weapons	0.00	0.01
Other controversial activities	0.00	0.02
Eligible:	8.87	8.16
Covered:	76.84	99.41

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Engagement**

The fund engaged with 3 sovereigns on ESG topics (data as of 30.09.2024).

Source: Pictet Asset Management.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024	Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024
The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR	14.30%	21.90%	5.00%	5.00%
Exposure to green and/or social labelled bond	14.30%	13.27%		
Reduction of the investment universe based on ESG factors	Yes	Yes	20.00%	20.00%
Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Reference Index	Fund	Reference Index
<i>Fossil fuels and nuclear energy</i>	0.10%	1.43%	0.07%	2.34% (*)
<i>Weapons</i>	0.00%	0.00%	0.00%	0.01% (*)
<i>Other controversial activities</i>	0.00%	0.01%	0.00%	0.02% (*)
<i>Eligible</i> (**):	7.43%	5.21%	8.87%	8.16%
<i>Covered</i> (**):	68.37%	99.31%	76.84%	99.41%
<b>Engagement</b>	6	3		

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 18.57%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 3.32%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including

data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions and collaborative institutional investor initiatives.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's responsible investment policy.

### What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

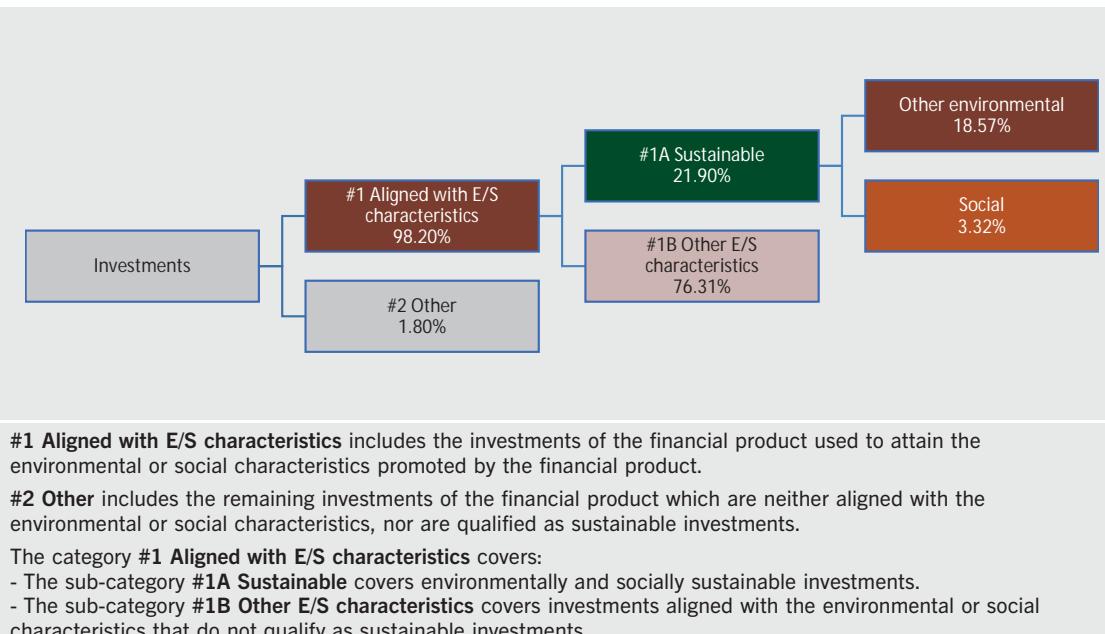

### What was the proportion of sustainability-related investments?

21.90%

● **What was the asset allocation?**

The fund was 98.20% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.80% invested in Other (#2 Other). 21.90% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

Asset allocation describes the share of investments in specific assets.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments. The fund had EU taxonomy alignment based on Capex.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Aligned with E/S characteristics	94.35%	98.20%
#2 Other	5.65%	1.80%
#1A Sustainable	14.30%	21.90%
#1B Other E/S characteristics	80.05%	76.31%
Taxonomy-aligned	0.00%	0.00%
Other environmental	11.07%	18.57%
Social	3.23%	3.32%

#### ● In which economic sectors were the investments made?

SECTOR LEVEL 1	% ASSETS

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. The fund had EU taxonomy alignment based on Capex.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

- Yes:
  - In fossil gas
  - In nuclear energy
- No

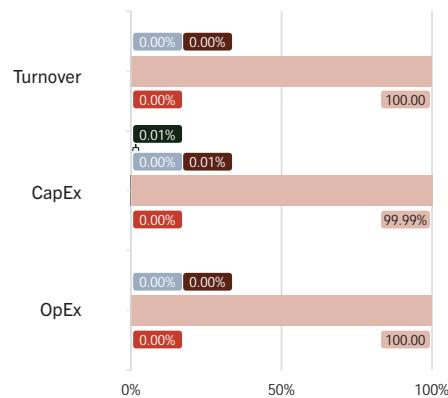

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

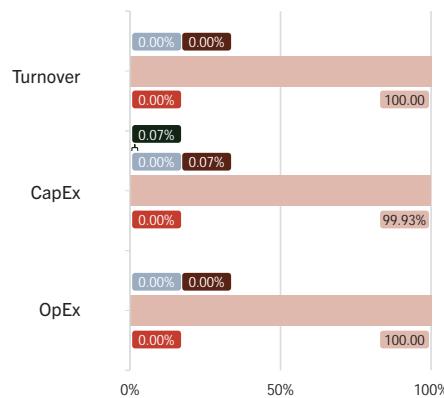

■ Taxonomy-aligned: Fossil gas

■ Taxonomy-aligned: Nuclear

■ Taxonomy-aligned (no fossil gas and nuclear)

■ Non Taxonomy-aligned

2. Taxonomy-alignment of investments excluding sovereign bonds\*

■ Taxonomy-aligned: Fossil gas

■ Taxonomy-aligned: Nuclear

■ Taxonomy-aligned (no fossil gas and nuclear)

■ Non Taxonomy-aligned

This graph represents 9.63% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

- What was the share of investments made in transitional and enabling activities?
- Not applicable.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?
- Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

18.57%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

  
are sustainable investments with an environmental objective that do not

take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### What was the share of socially sustainable investments?

3.32%

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

The fund engaged with 3 sovereigns on ESG topics (data as 30.09.2024).

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Climate Government Bonds**

Legal entity identifier: **213800YGY2GACS3I3720**

## SUSTAINABLE INVESTMENT OBJECTIVE

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 96.20%  <input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy  <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments  <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy  <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  <input type="checkbox"/> with a social objective
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 0.35%	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

### To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- Positive impact:

The fund achieved a positive environmental impact by investing in countries that have a low carbon emission exposure in view of supporting the long-term global warming objectives of the Paris Agreement (and adopted under the United Nations Framework Convention on Climate Change seeking to limit global warming).

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested mainly in bonds and other debt securities:

- issued or guaranteed by governments or by regional or local governments having a minimum credit rating at the time of acquisition, equivalent to "B-" as defined by Standard & Poor's or an equivalent credit rating from other recognized rating agencies. When there is no official rating system, the Managers acquired transferable securities with identical quality criteria;
- of countries which are reducing their greenhouse gas emissions and carbon intensity (net of land and forestry management); or

- of countries which are, in the opinion of the manager, in the process of implementing policies that may lead to a meaningful improvement in reducing CO2 emissions, for example, a country legislating on their carbon policies which not yet represented in the data

The above-mentioned investments include ESG Labelled Bonds.

Eligible securities included:

- (i) securities issued by countries which are reducing their greenhouse gas emissions and carbon intensity (net of land and forestry management) or are in the process of implementing such policies
- (ii) where relevant, green and/or social labelled bonds issued by companies or countries whose use of proceeds are financing such economic activities.

- Inclusion:

The fund invested partially in environmental labelled bonds.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

**Company Exclusions based on Controversial Activities and Revenue thresholds**

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	10%
Thermal Coal Power Generation	10%
Oil & Gas Production	10%
Oil Sands Extraction	10%
Shale Energy Extraction	10%
Off-shore Arctic Oil & Gas Exploration	10%
Nuclear Power Generation	50%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Production of nuclear weapons from countries signatory to the NPT	Excluded
Military Contracting Weapons	10%
Military Contracting Weapon-Related Products and/or Services	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	10%
Small Arms Key Components	10%
<b>Addictive Products</b>	
Alcoholic Beverages Production	10%
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
Gambling Specialised Equipment	10%
<b>Agriculture</b>	
Genetically Modified Plants and Seeds Development	10%
Genetically Modified Plants and Seeds Growth	10%
Pesticides Production	10%
Pesticides Retail	10%
Palm Oil Production and Distribution	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded

## Company Exclusions based on Controversial Activities and Revenue thresholds

High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded[2]
<b>Country Exclusions</b>	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[3] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[4]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[4]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Excluded
Countries subject to social violations as referred to in international treaties and conventions, United Nations principles and, where applicable, national law	Excluded

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

[3] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[4] Exclusions also apply to companies if the headquarter is located in an excluded country.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

Over the reference period there was no engagement activity with sovereign issuers on ESG topics.

- Sustainable Investments:

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 96.20%.

### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 0.35%.

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Exposure to green and/or social labelled bond**

During the reference period, the fund had 38.53% exposure to labelled bonds.

Labelled bonds include environmental, social and sustainability bonds. Classification of labelled bonds is provided by the bond issuer and may not reflect our internal view.

- **Average carbon footprint at the portfolio level, both in terms of total carbon emissions and carbon emissions by GDP, incorporating Land Management (LULUCF) contribution in our measurement of emissions**

0.23 KtCo2e/GDP EUR

As measured by a reduction in country's total CO2 emissions in kilotons over the past 4 years and improving CO2 efficiency i.e. total CO2 emissions in kilotons per billion USD of GDP over the past 4 years.

**Sustainability indicators** measure how the sustainable objectives of this financial product are attained.

Source: Pictet Asset Management, based on data from EDGAR and FAOSTAT

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

The fund mainly invests in government bonds during the reference period. In case of investments in non-sovereign bonds and in line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	0.00
Weapons	0.00	0.00
Other controversial activities	0.00	0.00
Eligible:	1.74	0.00
Covered:	100.00	100.00

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

- ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023		01.10.2023 - 30.09.2024		Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024
Exposure to green and/or social labelled bond	37.18%		38.53%			
Average carbon footprint at the portfolio level, both in terms of total carbon emissions and carbon emissions by GDP, incorporating Land Management (LULUCF) contribution in our measurement of emissions	0.21		0.23			
Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Refer- ence Index	Fund	Refer- ence Index		
Fossil fuels and nuclear energy	0.01%	0.00%	0.00%	0.00%	(*)	

Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Reference Index	Fund	Reference Index	
Weapons	0.00%	0.00%	0.00%	0.00%	(*)
Other controversial activities	0.00%	0.00%	0.00%	0.00%	(*)
Eligible (**):	3.20%	0.00%	1.74%	0.00%	
Covered (**):	92.17%	100.00%	100.00%	100.00%	

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

#### ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

#### ● How were the indicators for adverse impacts on sustainability factors taken into account?

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

#### ● Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?

The fund mainly invests in government bonds during the reference period.

In case of investments in non-sovereign bonds, the fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental Risks as part of the fund's scoring framework. Scores are determined on a quantitative screen based on carbon emissions data and qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data, primarily carbon emissions - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's responsible investment policy.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

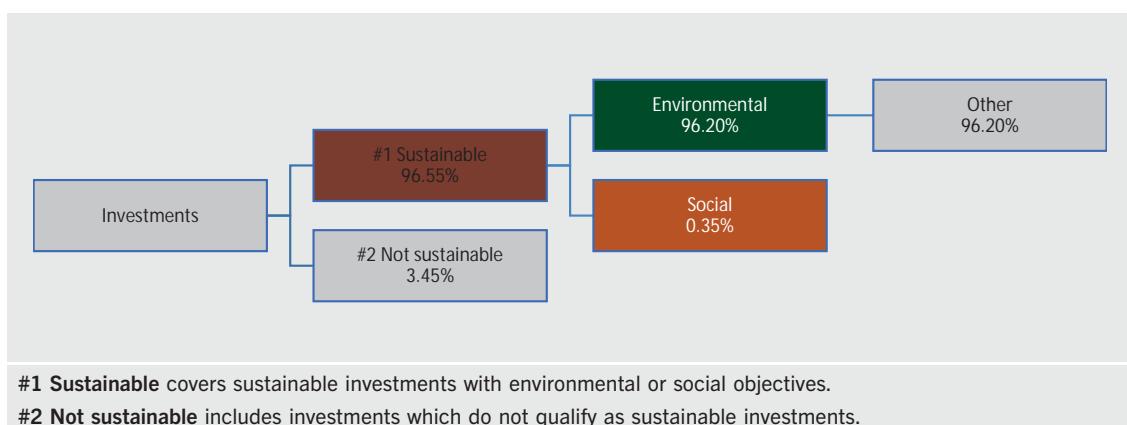

## What was the proportion of sustainability-related investments?

96.55%

### ● What was the asset allocation?

The fund allocated 96.55% of its assets to Sustainable investments (#1 Sustainable) and 3.45% to Not sustainable investments (#2 Not sustainable). 96.20% of its assets is allocated to environmental objectives and 0.35% to social objectives.

Asset allocation describes the share of investments in specific assets.

#1 Sustainable covers sustainable investments with environmental or social objectives.

#2 Not sustainable includes investments which do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Source: Pictet Asset Management, Factset RBICS.

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Sustainable	93.44%	96.55%
#2 Not sustainable	6.56%	3.45%
Environmental	93.44%	96.20%
Social	0.00%	0.35%
Taxonomy-aligned	1.38%	0.00%
Other	93.44%	96.20%

#### ● In which economic sectors were the investments made?

SECTOR LEVEL 1	% ASSETS
Agencies	0.66
Government	86.86
Sovereign	8.41
Supranational	0.64

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:  
- **turnover** reflecting the share of revenue from green activities of investee companies  
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.  
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

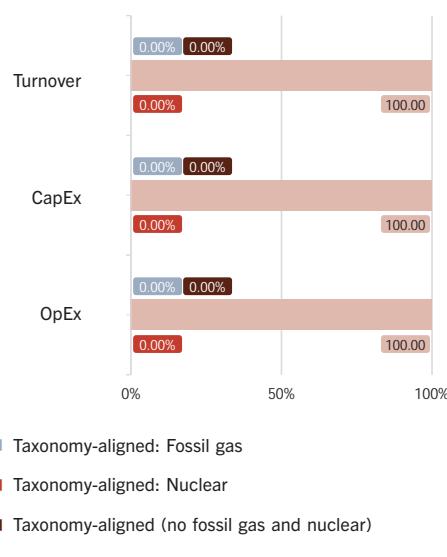

Yes:

In fossil gas    In nuclear energy

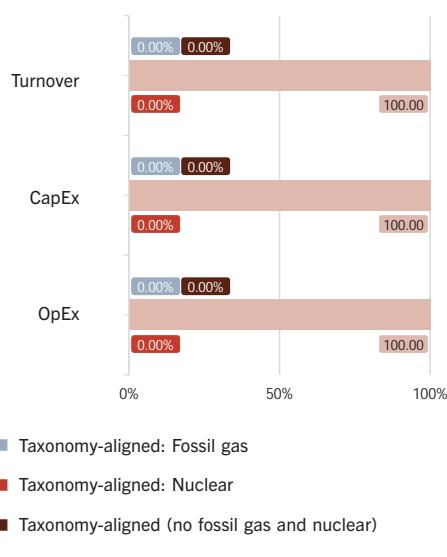

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 2.16% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

### What was the share of investments made in transitional and enabling activities?

Not applicable.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 1.38% versus 0.00% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

96.20%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not** take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

0.35%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- investments in bonds and other debt that:
  - of countries which are reducing their greenhouse gas emissions and carbon intensity (net of land and forestry management); or
  - of countries which are, in the opinion of the manager, in the process of implementing policies that may lead to a meaningful improvement in reducing CO<sub>2</sub> emissions, for example, a country legislating on their carbon policies which is not yet represented in the data.
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons and nuclear weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment,

genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds.

- severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

There was no engagement activity with sovereign issuers on ESG topics over the reference period.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

Reference benchmarks are indexes to measure whether the financial product attains the sustainable objective

##### ● How did the reference benchmark differ from a broad market index?

Not applicable.

##### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

##### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

##### ● How did this financial product perform compared with the broad market index?

Not applicable.

#### Disclaimers

This publication includes information and data provided by Sustainalytics. Use of such data is subject to conditions available at <https://www.sustainalytics.com/legal-disclaimers>

**01.10.2023 - 30.09.2024**

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name: Pictet - Family**

**Legal entity identifier: 549300M1TOB2573YHT17**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?			
<input checked="" type="radio"/> <input type="radio"/> Yes	<input checked="" type="radio"/> <input type="radio"/> No		
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%		<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>43.45%</b> of sustainable investments	
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy		<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy	
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy		<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	
<input type="checkbox"/> It made sustainable investments with a social objective: ___%		<input type="checkbox"/> with a social objective	
		<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>	

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI AC World index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

**Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

**Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

**Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

**Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

**How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

43.45%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was -0.32 against -0.37 for the reference index. A higher score means a lower risk. Scores range from -2 to 0, 0 being the best.

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.14	3.53
Weapons	0.08	0.97
Other controversial activities	0.01	0.84
Eligible:	98.76	100.00
Covered:	99.48	99.65

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 45 general assembly meetings out of 45 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 62.22% of meetings.

In respect to Environmental and/or Social issues we voted for 2 out of 2 management resolutions and for 29 out of 44 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 9 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation

- Efficiency & Circularity
  - Natural Capital Management
- Such investments represented 5.16%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 38.29%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Brown & Brown Inc	Financials	3.71	United States of America

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

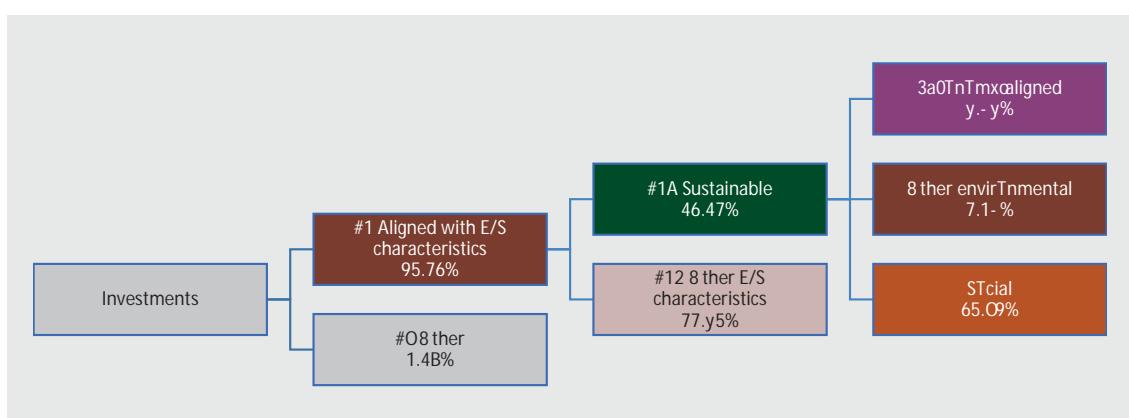

## What was the proportion of sustainability-related investments?

43.45%

**Asset allocation** describes the share of investments in specific assets.

### ● What was the asset allocation?

The fund was 98.53% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.47% invested in Other (#2 Other). 43.45% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Aligned with E/S characteristics	98.32%	98.53%
#2 Other	1.68%	1.47%

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

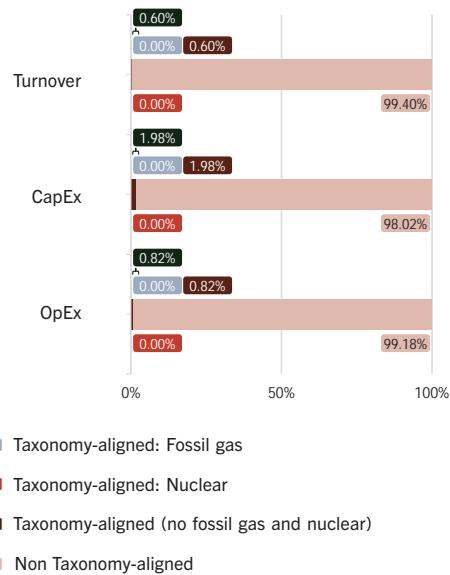

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

## ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

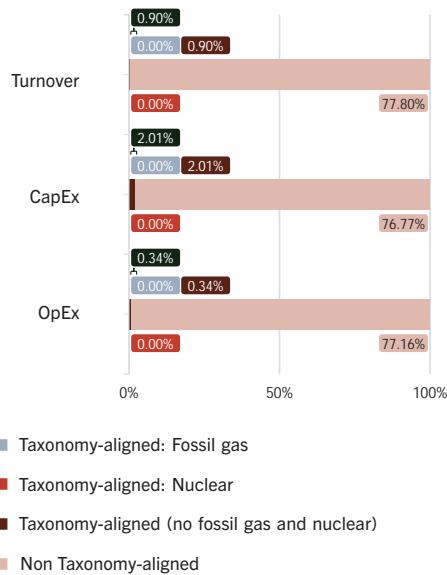

- Yes:
  - In fossil gas  In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 98.53% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

## ● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 0.59%

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.44% versus 0.60% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

5.16%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

38.29%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 9 companies as of 30.09.2024.

## How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### ● How did the reference benchmark differ from a broad market index?

Not applicable.

### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

### ● How did this financial product perform compared with the broad market index?

Not applicable.

**01.10.2023 - 30.09.2024**

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name: Pictet - Emerging Markets**

**Legal entity identifier: 549300AIDBFR45UK7K91**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>32.57%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI EM index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

#### **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 7.86 against 7.67 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	2.01	0.00
Weapons	0.07	0.00
Other controversial activities	0.04	0.00
Eligible:	96.93	100.00
Covered:	98.57	99.94

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 82 general assembly meetings out of 82 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 43.90% of meetings.

In respect to Environmental and/or Social issues we voted for 0 out of 1 management resolutions and for 0 out of 0 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 16 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

<i>Votes in favor of shareholder resolutions categorized as Environmental and/or Social issues</i>	0		0		
<b>Engagement</b>	22		16		

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

**Environmental**

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 15.50%.

**Social**

- Healthy Life
- Water, Sanitation & Housing

- Education & Economic Empowerment

- Security & Connectivity

Such investments represented 17.07%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

**● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**● How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**● Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?**

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

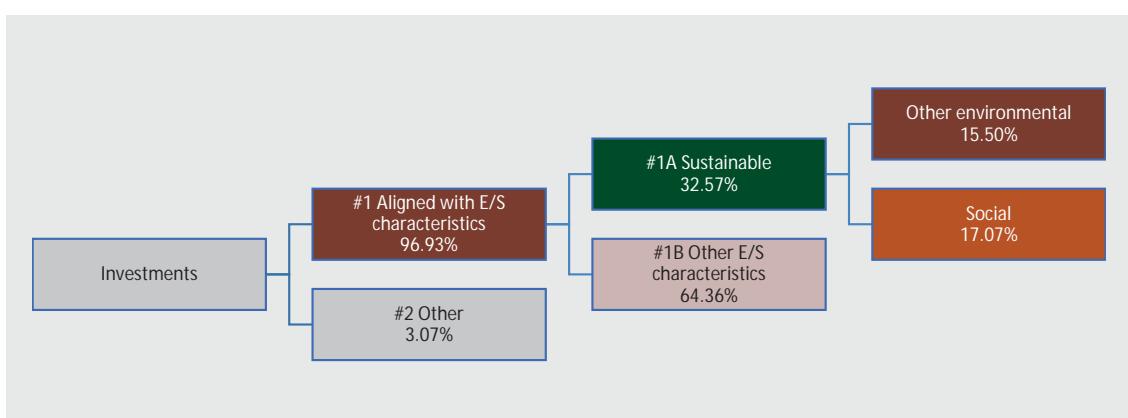

## What was the proportion of sustainability-related investments?

32.57%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 96.93% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 3.07% invested in Other (#2 Other). 32.57% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments. The fund had EU taxonomy alignment based on Capex.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. The fund had EU taxonomy alignment based on Capex.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas  In nuclear energy

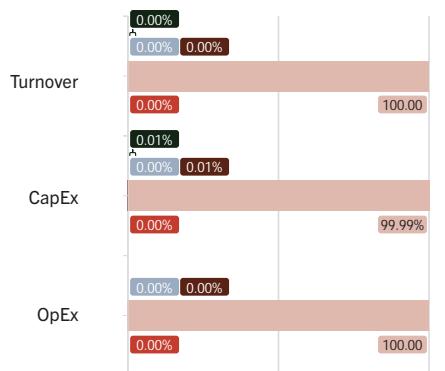

No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

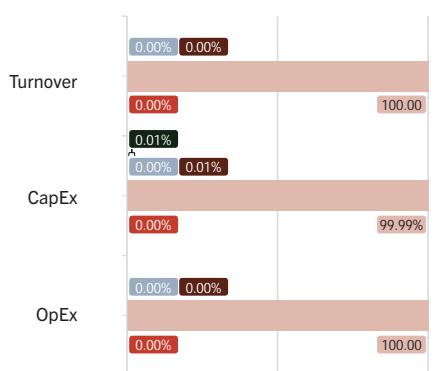

Taxonomy-aligned activities are expressed as a share of:  
- **turnover** reflects the “greeness” of investee companies today.  
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

■ Taxonomy-aligned: Fossil gas  
■ Taxonomy-aligned: Nuclear  
■ Taxonomy-aligned (no fossil gas and nuclear)  
■ Non Taxonomy-aligned

This graph represents 96.93% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Enabling activities**  
directly enable other activities to make a substantial contribution to an environmental objective.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

**Transitional activities**  
are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

15.50%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

  
are sustainable investments with an environmental objective that **do not** take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

17.07%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
- are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons

- derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
- severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 16 companies as of 30.09.2024.

### **How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**● How did the reference benchmark differ from a broad market index?**

Not applicable.

**● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

**● How did this financial product perform compared with the reference benchmark?**

Not applicable.

**● How did this financial product perform compared with the broad market index?**

Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Quest Europe Sustainable Equities**

Legal entity identifier: **549300NPMY49SMN5GK24**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>45.69%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Best-in-class:

The fund invested in securities of issuers with low sustainability risks while avoiding those with high sustainability risks, reducing the investment universe by at least 20%. The MSCI Europe index was used to measure the universe reduction; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Carbon intensity:

The fund has a lower carbon intensity than the investment universe.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	25%
Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%
<b>Addictive Products</b>	
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### Company Exclusions based on Breaches of International Norms

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises      Excluded

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

45.69%

#### ● Reduction of the investment universe based on ESG factors

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

#### ● Principle Adverse Impact (PAI)

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	3.86
Weapons	0.04	1.30
Other controversial activities	0.00	1.46
Eligible:	99.80	100.00
Covered:	100.00	99.95

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

*Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 62 general assembly meetings out of 63 votable meetings (98.41%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 33.33% of meetings.

In respect to Environmental and/or Social issues we voted for 22 out of 22 management resolutions and for 1 out of 6 shareholder resolutions.

*Source: Pictet Asset Management, ISS ESG.*

#### • Engagement

The fund engaged with 12 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

*Source: Pictet Asset Management, Sustainalytics.*

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● ...and compared to previous periods?

<i>Votes in favor of shareholder resolutions categorized as Environmental and/or Social issues</i>	1		1		
<b>Engagement</b>	19	12			

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

**Environmental**

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 4.78%.

**Social**

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 40.91%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

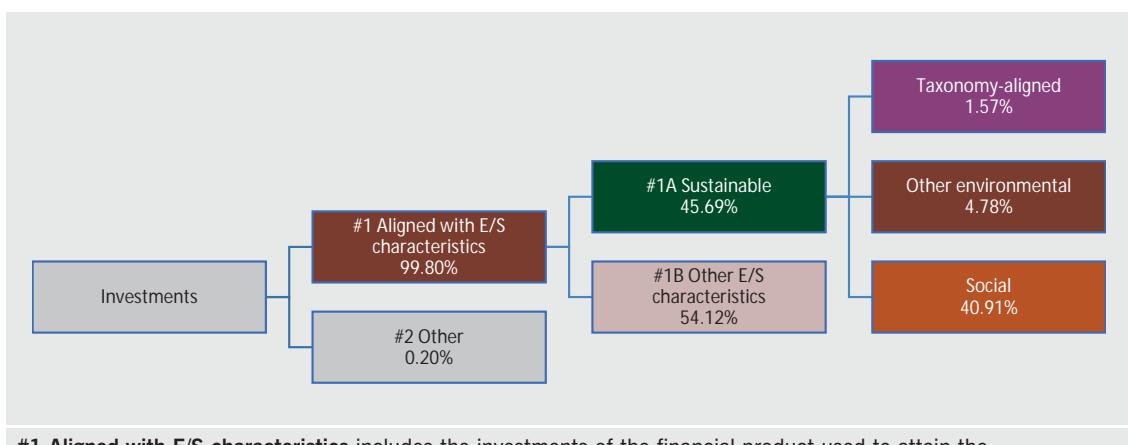

## What was the proportion of sustainability-related investments?

45.69%

**Asset allocation**  
describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 99.80% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.20% invested in Other (#2 Other). 45.69% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by

revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

*Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.*

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024

*Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.*

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas  In nuclear energy

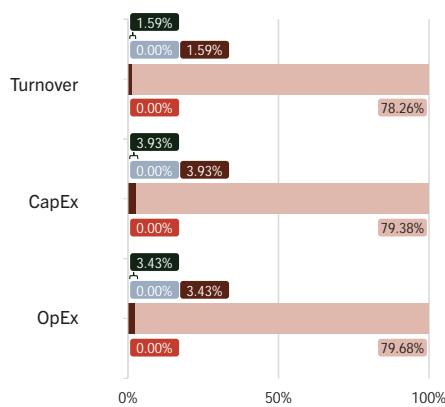

No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

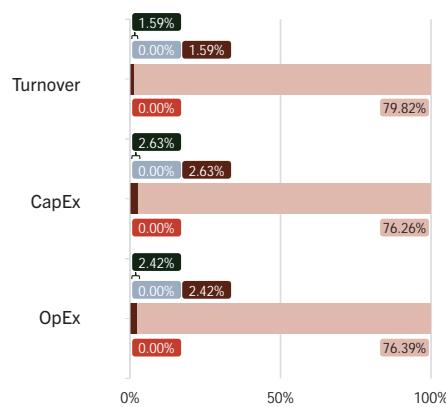

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 99.80% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.01%
- Enabling activities: 1.40%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Transitional activities**  
are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 1.31% versus 1.57% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

4.78%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

40.91%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.

- severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 12 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

#### How did the reference benchmark differ from a broad market index?

Not applicable.

#### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### How did this financial product perform compared with the reference benchmark?

Not applicable.

#### How did this financial product perform compared with the broad market index?

Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Digital**

Legal entity identifier: **549300JWHWRPWRFUMF97**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?			
<input checked="" type="radio"/> Yes		<input checked="" type="radio"/> No	
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%		<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>44.82%</b> of sustainable investments	
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy		<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy	
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy		<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	
<input type="checkbox"/> It made sustainable investments with a social objective: ___%		<input type="checkbox"/> with a social objective	
		<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>	

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO<sub>2</sub> emissions or implemented policies that led to meaningful improvement in reducing CO<sub>2</sub> emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI AC World index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

**Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

**Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

**Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

**Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B). Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

**How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

44.82%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was -0.31 against -0.37 for the reference index. A higher score means a lower risk. Scores range from -2 to 0, 0 being the best.

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	3.53
Weapons	0.10	0.97
Other controversial activities	0.00	0.84
Eligible:	96.52	100.00
Covered:	100.00	99.65

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 35 general assembly meetings out of 35 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 60.00% of meetings.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 36 out of 51 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 9 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation

- Efficiency & Circularity
  - Natural Capital Management
- Such investments represented 29.52%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 15.30%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is:  
01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Amazon.Com Inc	Consumer Discretionary	8.33	United States of America
Meta Platforms Inc-Class A	Communication Services	7.63	United States of America
Nvidia Corp	Information Technology	7.15	United States of America
Microsoft Corp	Information Technology	6.41	United States of America
Taiwan Semiconductor Manufac	Information Technology	5.64	Taiwan
Alphabet Inc-C1 A	Communication Services	5.19	United States of America
Netflix Inc	Communication Services	4.57	United States of America
Mercadolibre Inc	Consumer Discretionary	4.00	Brazil
Booking Holdings Inc	Consumer Discretionary	3.87	United States of America

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

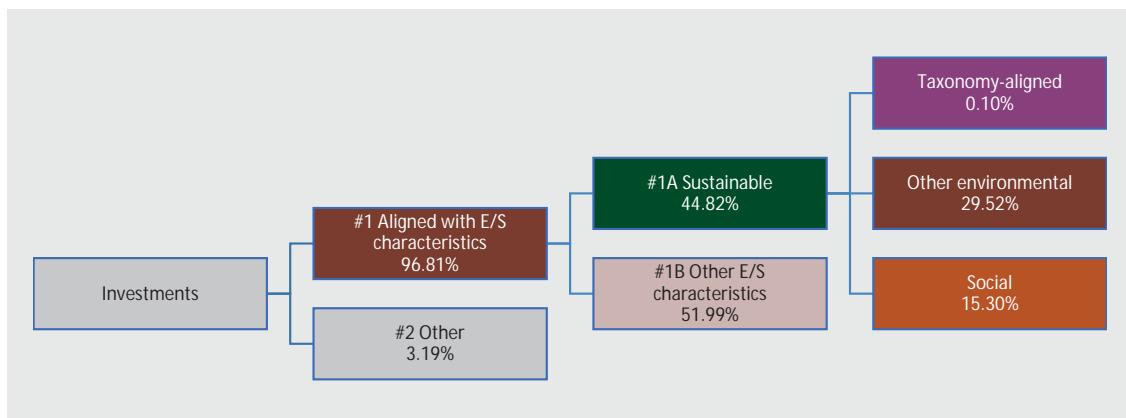

## What was the proportion of sustainability-related investments?

44.82%

**Asset allocation**  
describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 96.81% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 3.19% invested in Other (#2 Other). 44.82% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO<sub>2</sub> emissions or implemented policies that led to meaningful improvement in reducing CO<sub>2</sub> emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Aligned with E/S characteristics	96.84%	96.81%
#2 Other	3.16%	3.19%
#1A Sustainable	40.17%	44.82%
#1B Other E/S characteristics	56.67%	51.99%
Taxonomy-aligned	0.05%	0.10%
Other environmental	11.14%	29.52%
Social	29.02%	15.30%

● In which economic sectors were the investments made?

SECTOR LEVEL 1	SECTOR LEVEL 2	% ASSETS

Information Technology	Software & Services	28.13
Information Technology	Technology Hardware & Equipment	3.36

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas    In nuclear energy

No

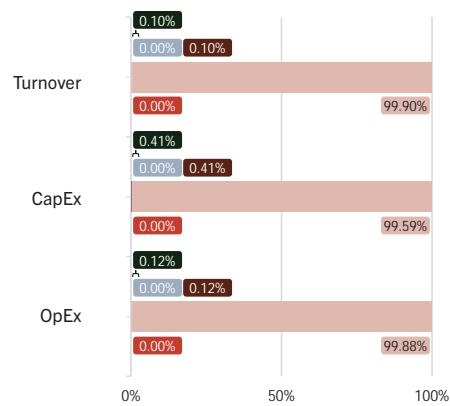

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the “greenness” of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

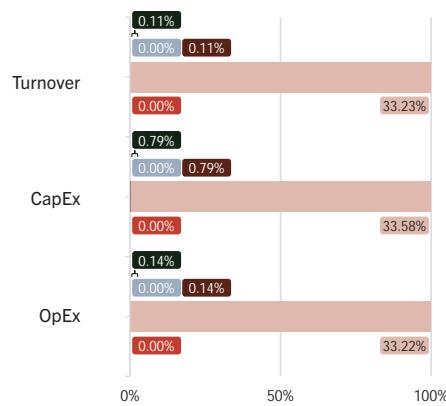

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

#### 1. Taxonomy-alignment of investments including sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned (no fossil gas and nuclear)
- Non Taxonomy-aligned

#### 2. Taxonomy-alignment of investments excluding sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned (no fossil gas and nuclear)
- Non Taxonomy-aligned

This graph represents 96.81% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

#### ● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 0.10%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.05% versus 0.10% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

29.52%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### What was the share of socially sustainable investments?

15.30%

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 9 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?  
Not applicable.
- How did this financial product perform compared with the reference benchmark?  
Not applicable.
- How did this financial product perform compared with the broad market index?  
Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Biotech**

Legal entity identifier: **549300HEJK1QY30BWK41**

## SUSTAINABLE INVESTMENT OBJECTIVE

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="checkbox"/> Yes	<input type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ____%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ____% of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 98.67%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

### To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- Positive impact:

The fund achieved a positive social impact by investing at least two-thirds of its total assets/total wealth in companies supporting the health of people with high innovation capacity. Better therapies can deliver true value to patients and healthcare systems alike. These companies are tackling high unmet medical needs and reduce the pressures on healthcare budgets through the reduction of hospital admissions or symptom management.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested mainly in companies whose significant proportion of their activities are related to new mechanisms of actions offering potential cures or management of diseases that were hard to treat before, technology platforms, research tools and services in the biotechnology value chain as well as the improvement of therapies or drugs and other relevant economic activities.

Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	10%
Thermal Coal Power Generation	10%
Oil & Gas Production	10%
Oil Sands Extraction	10%
Shale Energy Extraction	10%
Off-shore Arctic Oil & Gas Exploration	10%
Nuclear Power Generation	50%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Production of nuclear weapons from countries signatory to the NPT	Excluded
Military Contracting Weapons	10%
Military Contracting Weapon-Related Products and/or Services	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	10%
Small Arms Key Components	10%
<b>Addictive Products</b>	
Alcoholic Beverages Production	10%
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
Gambling Specialised Equipment	10%
<b>Agriculture</b>	
Genetically Modified Plants and Seeds Development	10%
Genetically Modified Plants and Seeds Growth	10%
Pesticides Production	10%
Pesticides Retail	10%
Palm Oil Production and Distribution	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded[2]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights. The fund also engaged with the management of selected companies on material ESG issues.

- Sustainable Investments:

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to social objectives such as:

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 98.67%.

**Sustainability indicators**  
indicators measure  
how the sustainable  
objectives of this  
financial product are  
attained.

### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

98.67%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 0.79 against 0.02 for the reference index. A higher score means a lower risk. Scores range from -2 to 1, 1 being the best.

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	3.53
Weapons	0.00	0.97
Other controversial activities	0.00	0.84
Eligible:	98.67	100.00
Covered:	98.87	99.65

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 61 general assembly meetings out of 61 votable meetings (100.00%). We voted “against” (incl. “abstained” or “withhold”) at least one resolution at 72.13% of meetings.

In respect to Environmental and/or Social issues we voted for 1 out of 1 management resolutions and for 1 out of 2 shareholder resolutions.

*Source: Pictet Asset Management, ISS ESG.*

- **Engagement**

The fund engaged with 17 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

*Source: Pictet Asset Management, Sustainalytics.*

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

- ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023		01.10.2023 - 30.09.2024		Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024

<b>Engagement</b>	16	17	

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **How did the sustainable investments not cause significant harm to any sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● **Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?**

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Argenx Se - Adr	Health Care	4.66	Netherlands
Regeneron Pharmaceuticals	Health Care	4.01	United States of America

## What was the proportion of sustainability-related investments?

98.67%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund allocated 98.67% of its assets to Sustainable investments (#1 Sustainable) and 1.33% to Not sustainable investments (#2 Not sustainable). 0.00% of its assets is allocated to environmental objectives and 98.67% to social objectives.

#1 Sustainable covers sustainable investments with environmental or social objectives.

#2 Not sustainable includes investments which do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Source: Pictet Asset Management, Factset RBICS.

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Sustainable	97.93%	98.67%
#2 Not sustainable	2.07%	1.33%
Environmental	0.00%	0.00%
Social	97.93%	98.67%
Taxonomy-aligned	0.00%	0.00%
Other	0.00%	0.00%

### In which economic sectors were the investments made?

SECTOR LEVEL 1	SECTOR LEVEL 2	% ASSETS
Health Care	Pharmaceuticals, Biotech & Life Sciences	98.67

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:  
- **turnover** reflecting the share of revenue from green activities of investee companies  
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.  
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

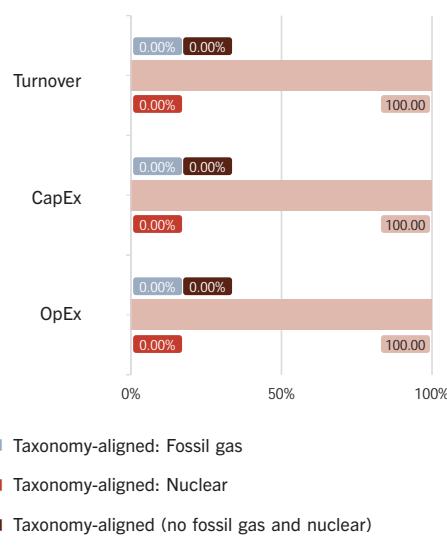

Yes:

In fossil gas    In nuclear energy

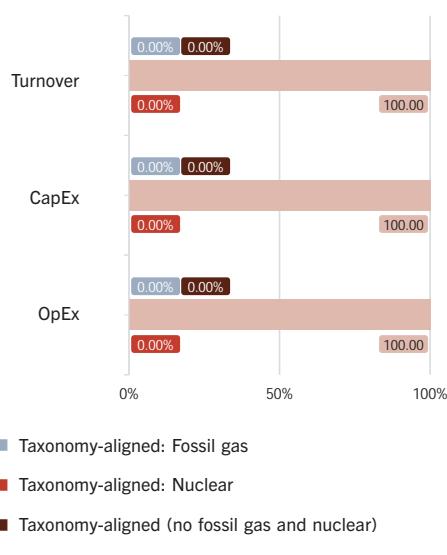

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 98.67% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

### What was the share of investments made in transitional and enabling activities?

Not applicable.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

among others have greenhouse gas emission levels corresponding to the best performance.

- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

0.00%

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

98.67%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as new mechanisms of actions offering potential cures or management of diseases that were hard to treat before, technology platforms, research tools and services in the biotechnology value chain as well as the improvement of therapies or drugs and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds

- severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 17 companies as of 30.09.2024.

### **How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the sustainable investment objective.

**Reference benchmarks** are indexes to measure whether the financial product attains the sustainable objective

#### **● How did the reference benchmark differ from a broad market index?**

Not applicable.

#### **● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

#### **● How did this financial product perform compared with the reference benchmark?**

Not applicable.

#### **● How did this financial product perform compared with the broad market index?**

Not applicable.

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?			
<input checked="" type="radio"/> Yes		<input checked="" type="radio"/> No	
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%		<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>25.28%</b> of sustainable investments	
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy		<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy	
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy		<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	
<input type="checkbox"/> It made sustainable investments with a social objective: ___%		<input type="checkbox"/> with a social objective	
		<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>	

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI AC World index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

**Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

**Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

**Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

**Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B). Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

**How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

25.28%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was -0.32 against -0.37 for the reference index. A higher score means a lower risk. Scores range from -2 to 0, 0 being the best.

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	3.53
Weapons	0.04	0.97
Other controversial activities	0.15	0.84
Eligible:	98.15	100.00
Covered:	99.19	99.65

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 36 general assembly meetings out of 36 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 61.11% of meetings.

In respect to Environmental and/or Social issues we voted for 4 out of 4 management resolutions and for 12 out of 23 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 12 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation

- Efficiency & Circularity
  - Natural Capital Management
- Such investments represented 1.81%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 23.46%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
American Express Co	Financials	5.20	United States of America
Visa Inc-Class A Shares	Financials	4.87	United States of America

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

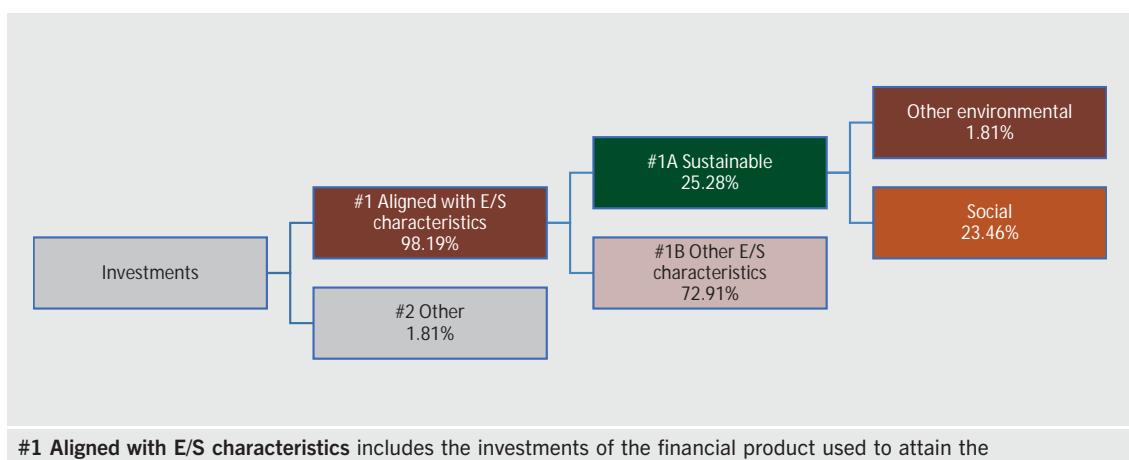

## What was the proportion of sustainability-related investments?

25.28%

**Asset allocation**  
describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 98.19% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.81% invested in Other (#2 Other). 25.28% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments. The fund had EU taxonomy alignment based on Capex and Opex.

Information Technology	Technology Hardware & Equipment	3.83

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. The fund had EU taxonomy alignment based on Capex and Opex.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas    In nuclear energy

No

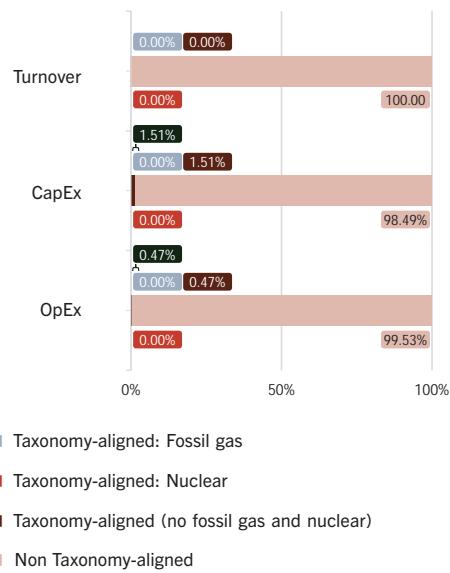

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

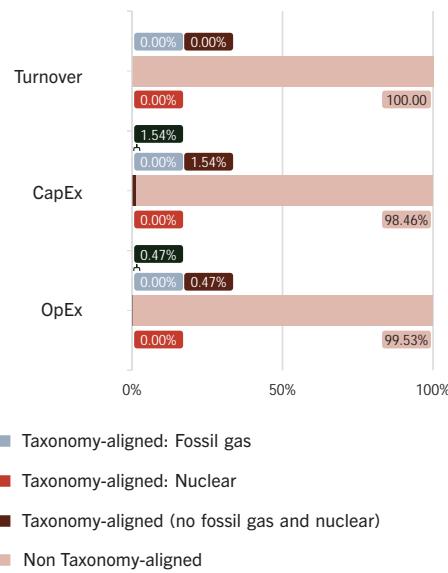

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 98.19% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

- What was the share of investments made in transitional and enabling activities?
- Not applicable.

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

- How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?
- Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

1.81%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

  
are sustainable investments with an environmental objective that do not

### What was the share of socially sustainable investments?

23.46%

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 12 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Water**

Legal entity identifier: **549300750VPZP6MC4674**

## SUSTAINABLE INVESTMENT OBJECTIVE

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 30.99%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
<input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 67.94%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

### To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- Positive impact:

The fund achieved a positive environmental and/or social impact by investing at least two-thirds of its total assets/total wealth in companies operating in the water sector and providing solutions to global water challenges. The fund targeted companies that are providing technologies to improve water quality, maximize water efficiency or increase the number of households connected to water services.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, water production water conditioning and desalination, water suppliers, transport and dispatching, collection and treatment of waste water, sewage and solid, liquid and chemical waste, sewage treatment plants and providing water equipment, consulting and engineering services and other relevant economic activities.

The companies targeted in the air sector include those responsible for inspecting air quality, suppliers of air-filtration equipment and manufacturers of catalytic converters for vehicles.

Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	10%
Thermal Coal Power Generation	10%
Oil & Gas Production	10%
Oil Sands Extraction	10%
Shale Energy Extraction	10%
Off-shore Arctic Oil & Gas Exploration	10%
Nuclear Power Generation	50%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Production of nuclear weapons from countries signatory to the NPT	Excluded
Military Contracting Weapons	10%
Military Contracting Weapon-Related Products and/or Services	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	10%
Small Arms Key Components	10%
<b>Addictive Products</b>	
Alcoholic Beverages Production	10%
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
Gambling Specialised Equipment	10%
<b>Agriculture</b>	
Genetically Modified Plants and Seeds Development	10%
Genetically Modified Plants and Seeds Growth	10%
Pesticides Production	10%
Pesticides Retail	10%
Palm Oil Production and Distribution	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded[2]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights. The fund also engaged with the management of selected companies on material ESG issues.

- Sustainable Investments:

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

#### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 30.99%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 67.94%.

### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

98.93%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index after removing the bottom 20% of issuers with the weakest ESG scores.

The fund's weighted average ESG score was 0.61 against 0.18 for the reference index . A higher score means a lower ESG risk. Scores range from -2 to 1, 1 being the best.

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability  
indicators**  
measure  
how the sustainable  
objectives of this  
financial product are  
attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.04	3.53
Weapons	0.19	0.97
Other controversial activities	0.01	0.84
Eligible:	98.93	100.00
Covered:	100.00	99.65

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 54 general assembly meetings out of 54 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 46.30% of meetings.

In respect to Environmental and/or Social issues we voted for 6 out of 6 management resolutions and for 4 out of 5 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 22 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

## ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in

the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

### What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Xylem Inc	Industrials	4.96	United States of America
Republic Services Inc	Industrials	4.61	United States of America
Waste Connections Inc	Industrials	4.17	United States of America

### What was the proportion of sustainability-related investments?

98.93%

**Asset allocation** describes the share of investments in specific assets.

#### What was the asset allocation?

The fund allocated 98.93% of its assets to Sustainable investments (#1 Sustainable) and 1.07% to Not sustainable investments (#2 Not sustainable). 30.99% of its assets is allocated to environmental objectives and 67.94% to social objectives.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

*Source: Pictet Asset Management, Factset RBICS, MSCI.*

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Sustainable	98.61%	98.93%
#2 Not sustainable	1.39%	1.07%
Environmental	26.72%	30.99%
Social	71.90%	67.94%
Taxonomy-aligned	3.31%	4.28%
Other	26.72%	30.99%

#### ● In which economic sectors were the investments made?

SECTOR LEVEL 1	SECTOR LEVEL 2	% ASSETS
Consumer Discretionary	Consumer Discretionary Distribution & Retail	1.28
Consumer Discretionary	Consumer Durables & Apparel	1.00
Health Care	Pharmaceuticals, Biotech & Life Sciences	6.92
Industrials	Capital Goods	44.44
Industrials	Commercial & Professional Services	19.98
Information Technology	Software & Services	2.70
Information Technology	Technology Hardware & Equipment	1.10
Materials	Materials	4.67
Utilities	Utilities	16.84

*Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.*

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

## Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

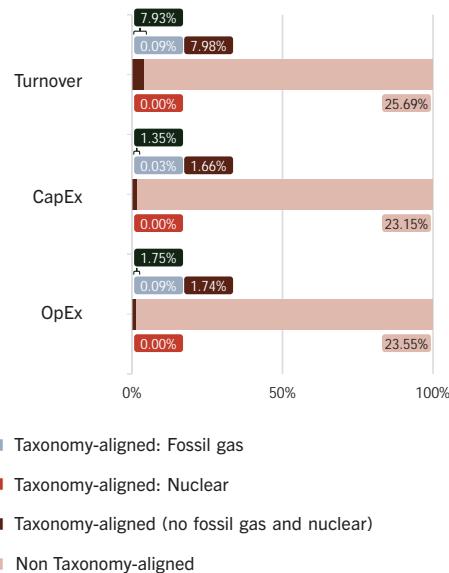

Yes:

In fossil gas    In nuclear energy

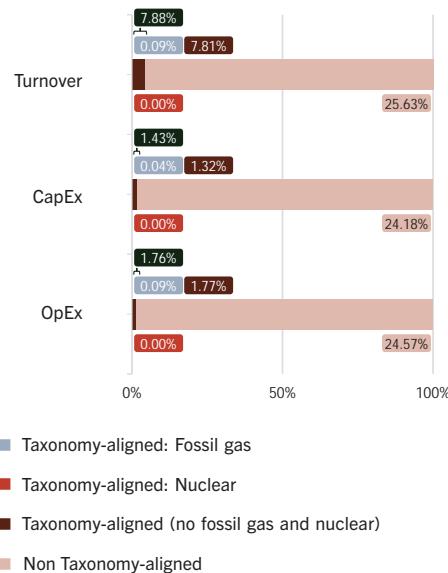

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 98.93% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

## What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.02%
- Enabling activities: 0.25%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 3.31% versus 4.28% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

30.99%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

67.94%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as water production water conditioning and desalination, water suppliers, transport and dispatching, treatment of waste water, sewage and solid, liquid and chemical waste, sewage treatment plants and providing water equipment, consulting and engineering services and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption

- a better ESG profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 22 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

**Reference benchmarks**  
indexes to measure whether the financial product attains the sustainable objective

#### How did the reference benchmark differ from a broad market index?

Not applicable.

#### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### How did this financial product perform compared with the reference benchmark?

Not applicable.

#### How did this financial product perform compared with the broad market index?

Not applicable.

Product name: **Pictet - Japanese Equity Opportunities**

Legal entity identifier: **549300P01KPUTAFHD235**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>48.33%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The Topix index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

**Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

**Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

**Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

**Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

**How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

48.33%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 7.90 against 7.66 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.02	1.44
Weapons	0.17	0.23
Other controversial activities	0.15	0.70
Eligible:	99.60	100.00
Covered:	100.00	99.18

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 73 general assembly meetings out of 73 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 17.81% of meetings.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 4 out of 5 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 21 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation

- Efficiency & Circularity
  - Natural Capital Management
- Such investments represented 18.35%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 29.98%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Toyota Motor Corp	Consumer Discretionary	3.95	Japan
Mitsubishi Ufj Financial Gro	Financials	3.81	Japan

## What was the proportion of sustainability-related investments?

48.33%

**Asset allocation** describes the share of investments in specific assets.

### ● What was the asset allocation?

The fund was 99.60% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.40% invested in Other (#2 Other). 48.33% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS.

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Aligned with E/S characteristics	99.23%	99.60%
#2 Other	0.77%	0.40%
#1A Sustainable	38.35%	48.33%
#1B Other E/S characteristics	60.88%	51.27%
Taxonomy-aligned	0.00%	0.00%
Other environmental	14.25%	18.35%
Social	24.10%	29.98%

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

- Yes:  
 In fossil gas    In nuclear energy  
 No

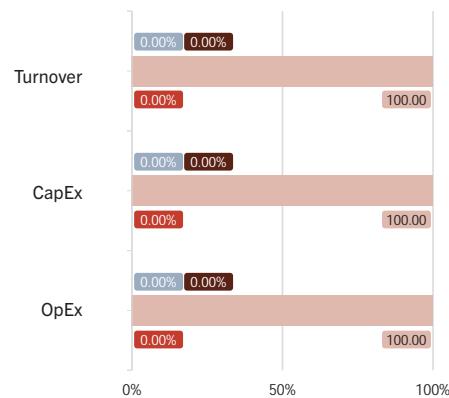

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

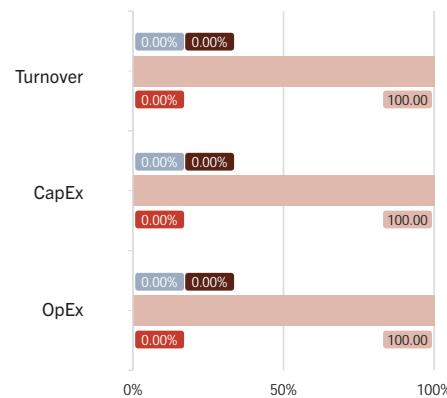

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 99.60% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#### ● What was the share of investments made in transitional and enabling activities?

Not applicable.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

18.35%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

  
are sustainable investments with an environmental objective that do not take into account the

### What was the share of socially sustainable investments?

29.98%

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 21 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

Reference  
benchmarks are  
indexes to measure  
whether the financial  
product attains the  
environmental or  
social characteristics  
that they promote.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>41.36%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI AC Asia ex-Japan index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

#### **● How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 7.88 against 7.75 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.68	2.93
Weapons	0.09	0.49
Other controversial activities	0.03	0.57
Eligible:	97.55	100.00
Covered:	97.56	99.94

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 66 general assembly meetings out of 66 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 33.33% of meetings.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 0 out of 0 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 11 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

**Environmental**

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 18.31%.

**Social**

- Healthy Life
- Water, Sanitation & Housing

- Education & Economic Empowerment

- Security & Connectivity

Such investments represented 23.04%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

**● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**● How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**● Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?**

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Taiwan Semiconductor Manufac	Information Technology	9.26	Taiwan

## What was the proportion of sustainability-related investments?

41.36%

**Asset allocation**  
describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 97.55% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 2.45% invested in Other (#2 Other). 41.36% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS.

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas  In nuclear energy

No

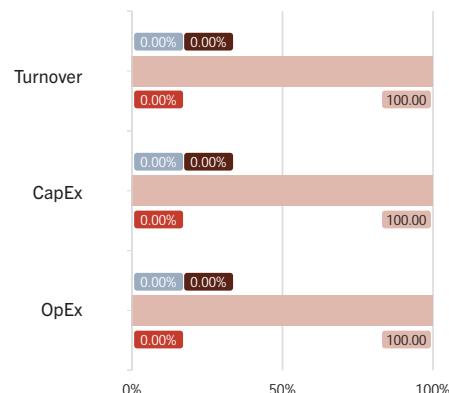

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

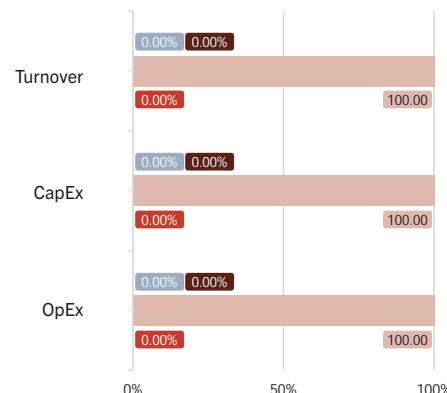

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 97.55% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#### ● What was the share of investments made in transitional and enabling activities?

Not applicable.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

18.31%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

  
are sustainable investments with an environmental objective that do not take into account the

### What was the share of socially sustainable investments?

23.04%

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 11 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

Reference  
benchmarks are  
indexes to measure  
whether the financial  
product attains the  
environmental or  
social characteristics  
that they promote.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Product name: **Pictet - China Equities**

Legal entity identifier: **549300B58PJQP3EQCX89**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>32.36%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI China 10/40 index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

#### **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 7.62 against 7.38 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.06	3.27
Weapons	0.00	0.04
Other controversial activities	0.04	0.11
Eligible:	97.69	100.00
Covered:	100.00	99.94

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 63 general assembly meetings out of 63 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 44.44% of meetings.

In respect to Environmental and/or Social issues we voted for 3 out of 3 management resolutions and for 0 out of 0 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 10 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

**Environmental**

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 10.91%.

**Social**

- Healthy Life
- Water, Sanitation & Housing

- Education & Economic Empowerment

- Security & Connectivity

Such investments represented 21.45%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

**● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**● How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**● Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?**

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Tencent Holdings Ltd	Communication Services	9.40	China
Alibaba Group Holding Ltd	Consumer Discretionary	7.01	China
Pdd Holdings Inc	Consumer Discretionary	6.41	China
Meituan-Class B	Consumer Discretionary	4.72	China
China Construction Bank-H	Financials	4.18	China
Netease Inc	Communication Services	3.59	China

Trip.Com Group Ltd	Consumer Discretionary	3.34	China
Ping An Insurance Group Co-H	Financials	3.30	China
Byd Co Ltd-H	Consumer Discretionary	3.25	China
Kweichow Moutai Co Ltd-A	Consumer Staples	2.68	China

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

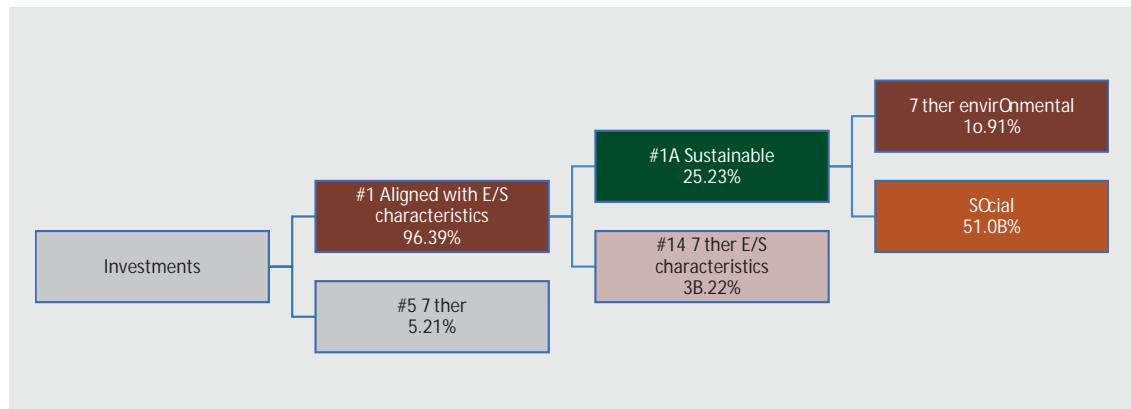

## What was the proportion of sustainability-related investments?

32.36%

**Asset allocation**  
describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 97.69% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 2.31% invested in Other (#2 Other). 32.36% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

- Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas  In nuclear energy

No

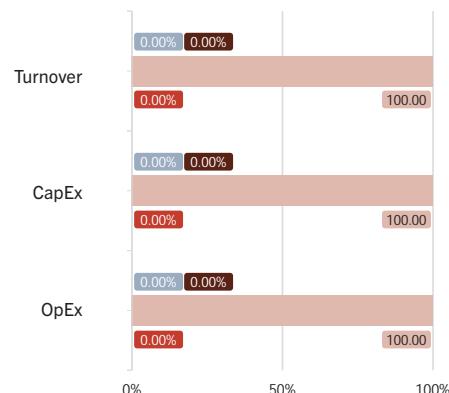

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

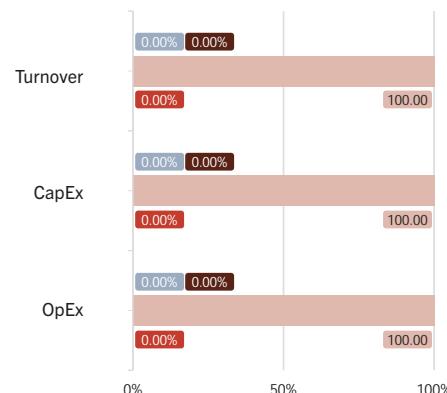

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

■ Taxonomy-aligned: Fossil gas  
 ■ Taxonomy-aligned: Nuclear  
 ■ Taxonomy-aligned (no fossil gas and nuclear)  
 ■ Non Taxonomy-aligned

This graph represents 97.69% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#### ● What was the share of investments made in transitional and enabling activities?

Not applicable.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

10.91%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

  
 are sustainable investments with an environmental objective that do not take into account the

### What was the share of socially sustainable investments?

21.45%

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 10 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

Reference  
benchmarks are  
indexes to measure  
whether the financial  
product attains the  
environmental or  
social characteristics  
that they promote.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>46.21%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI Japan index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

**Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

**Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

**Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

**Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

**How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

46.21%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 7.86 against 7.76 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.03	1.45
Weapons	0.22	0.24
Other controversial activities	0.24	0.86
Eligible:	99.44	100.00
Covered:	100.00	100.00

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 36 general assembly meetings out of 36 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 22.22% of meetings.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 4 out of 5 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 12 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024	Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation

- Efficiency & Circularity
  - Natural Capital Management
- Such investments represented 18.36%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 27.85%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Sony Group Corp	Consumer Discretionary	4.27	Japan
Hitachi Ltd	Industrials	4.15	Japan

## What was the proportion of sustainability-related investments?

46.21%

**Asset allocation** describes the share of investments in specific assets.

### ● What was the asset allocation?

The fund was 99.44% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.56% invested in Other (#2 Other). 46.21% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

#1 Aligned with E/S characteristics includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

#2 Other includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category #1 Aligned with E/S characteristics covers:

- The sub-category #1A Sustainable covers environmentally and socially sustainable investments.
- The sub-category #1B Other E/S characteristics covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS.

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Aligned with E/S characteristics	99.29%	99.44%
#2 Other	0.71%	0.56%
#1A Sustainable	35.06%	46.21%
#1B Other E/S characteristics	64.23%	53.23%
Taxonomy-aligned	0.00%	0.00%
Other environmental	14.68%	18.36%
Social	20.37%	27.85%

● In which economic sectors were the investments made?

SECTOR LEVEL 1	SECTOR LEVEL 2	% ASSETS
Communication Services	Telecommunication Services	2.18

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas    In nuclear energy

No

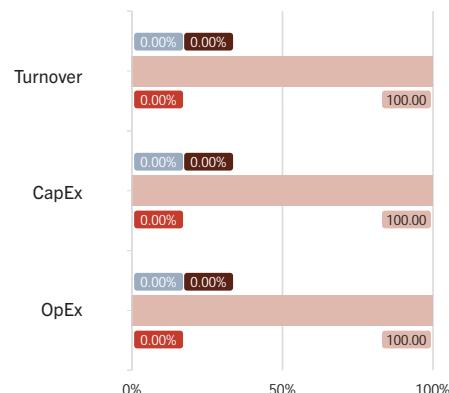

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

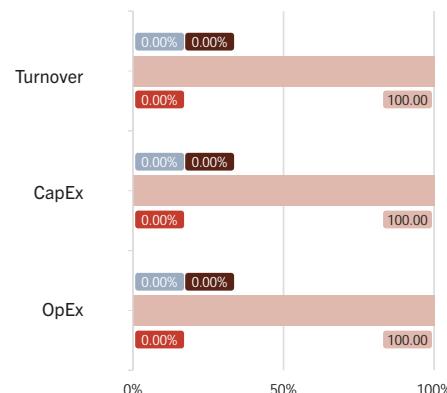

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

■ Taxonomy-aligned: Fossil gas  
 ■ Taxonomy-aligned: Nuclear  
 ■ Taxonomy-aligned (no fossil gas and nuclear)  
 ■ Non Taxonomy-aligned

This graph represents 99.44% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#### ● What was the share of investments made in transitional and enabling activities?

Not applicable.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

18.36%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the

#### What was the share of socially sustainable investments?

27.85%

#### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

#### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 12 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

##### ● How did the reference benchmark differ from a broad market index?

Not applicable.

Reference  
benchmarks are  
indexes to measure  
whether the financial  
product attains the  
environmental or  
social characteristics  
that they promote.

##### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Product name: **Pictet - Health**

Legal entity identifier: **549300PIUSJV81WDAH03**

## SUSTAINABLE INVESTMENT OBJECTIVE

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 3.97%  <input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy  <input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments  <input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy  <input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy  <input type="checkbox"/> with a social objective
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 94.16%	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

### To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- Positive impact:

The fund achieved a positive social impact by investing mainly in companies supporting the health of people. To safeguard the future of the world's health services, better prevention and more effective treatments are necessary. These companies help to stem health care costs growth and maximize productivity.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested mainly in companies whose significant proportion of their activities are related to increasing the health span of people (the time an individual spends in generally good health), preserving the health of individuals through promoting active lives or healthy environments, restoring health or improving the quality of life, financing health and helping to improve the efficiency of the health care system and other relevant economic activities.

Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	10%
Thermal Coal Power Generation	10%
Oil & Gas Production	10%
Oil Sands Extraction	10%
Shale Energy Extraction	10%
Off-shore Arctic Oil & Gas Exploration	10%
Nuclear Power Generation	50%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Production of nuclear weapons from countries signatory to the NPT	Excluded
Military Contracting Weapons	10%
Military Contracting Weapon-Related Products and/or Services	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	10%
Small Arms Key Components	10%
<b>Addictive Products</b>	
Alcoholic Beverages Production	10%
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
Gambling Specialised Equipment	10%
<b>Agriculture</b>	
Genetically Modified Plants and Seeds Development	10%
Genetically Modified Plants and Seeds Growth	10%
Pesticides Production	10%
Pesticides Retail	10%
Palm Oil Production and Distribution	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded[2]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights. The fund also engaged with the management of selected companies on material ESG issues.

- Sustainable Investments:

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

#### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 3.97%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 94.16%.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

98.13%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 0.67 against 0.02 for the reference index. A higher score means a lower risk. Scores range from -2 to 1, 1 being the best.

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability  
indicators** measure  
how the sustainable  
objectives of this  
financial product are  
attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	3.53
Weapons	0.03	0.96
Other controversial activities	0.11	0.84
Eligible:	98.13	100.00
Covered:	98.90	99.65

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 47 general assembly meetings out of 47 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 31.91% of meetings.

In respect to Environmental and/or Social issues we voted for 9 out of 9 management resolutions and for 10 out of 11 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 19 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

## ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in

the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

## What was the proportion of sustainability-related investments?

98.13%

**Asset allocation** describes the share of investments in specific assets.

### ● What was the asset allocation?

The fund allocated 98.13% of its assets to Sustainable investments (#1 Sustainable) and 1.87% to Not sustainable investments (#2 Not sustainable). 3.97% of its assets is allocated to environmental objectives and 94.16% to social objectives.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented

policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Sustainable	97.04%	98.13%
#2 Not sustainable	2.96%	1.87%
Environmental	3.66%	3.97%
Social	93.38%	94.16%
Taxonomy-aligned	0.00%	0.13%
Other	3.66%	3.97%

#### ● In which economic sectors were the investments made?

SECTOR LEVEL 1	SECTOR LEVEL 2	% ASSETS
Consumer Discretionary	Consumer Durables & Apparel	10.69
Consumer Discretionary	Consumer Services	2.39
Consumer Staples	Consumer Staples Distribution & Retail	1.47
Consumer Staples	Food, Beverage & Tobacco	1.30
Consumer Staples	Household & Personal Products	2.95
Health Care	Health Care Equipment & Services	32.78
Health Care	Pharmaceuticals, Biotech & Life Sciences	36.79
Industrials	Capital Goods	1.24
Industrials	Commercial & Professional Services	0.24
Information Technology	Technology Hardware & Equipment	1.56
Materials	Materials	6.72

*Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.*

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

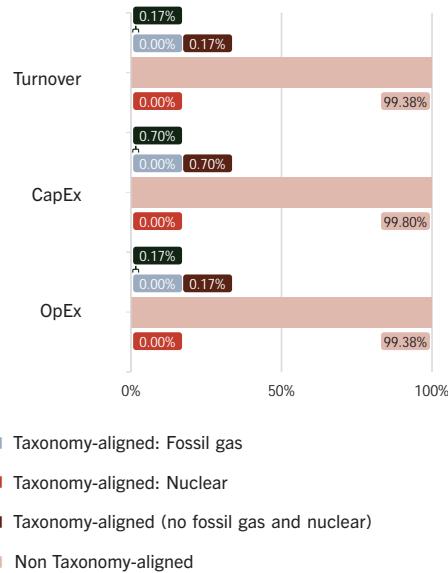

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

## ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

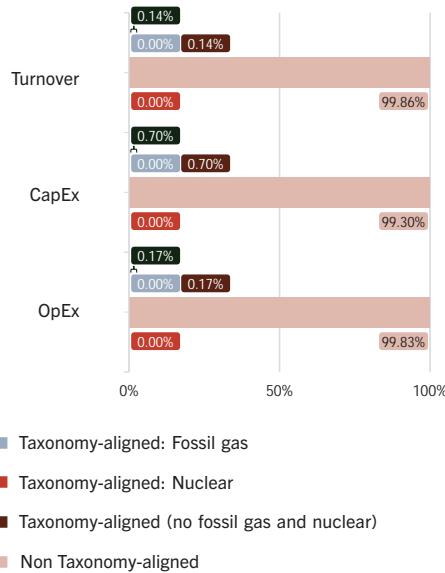

- Yes:  
 In fossil gas     In nuclear energy  
 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

### 1. Taxonomy-alignment of investments including sovereign bonds\*

### 2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 98.13% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

## ● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 0.11%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.00% versus 0.13% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

3.97%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

94.16%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund's “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund's investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as increasing the health span of people (the time an individual spends in generally good health), preserving the health of individuals through promoting active lives or healthy environments, restoring health or improving the quality of life, financing health and helping to improve the efficiency of the health care system and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index

- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 19 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

**Reference benchmarks** are indexes to measure whether the financial product attains the sustainable objective

##### How did the reference benchmark differ from a broad market index?

Not applicable.

##### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

##### How did this financial product perform compared with the reference benchmark?

Not applicable.

##### How did this financial product perform compared with the broad market index?

Not applicable.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Security**

Legal entity identifier: **549300V8FZYMQ1ITR48**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>97.93%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Positive impact:

The fund achieved a positive environmental and/or social impact by investing mainly in companies that help maintain the integrity, health, safety and protection of individuals, enterprises and governments (excluding defense).

This included security services across the physical and digital world, IT network security and identification solutions, as well as physical security solutions and tools that help to protect people, vehicles, and buildings in both personal and professional settings.

The fund invested at least two-thirds of its total assets/total wealth in equities issued by companies operating in this sector.

The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, internet security, software, telecommunications and computer hardware security, physical safety and health protection, access and identification security, traffic security, workplace security, and other relevant economic activities.

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	10%
Thermal Coal Power Generation	10%
Oil & Gas Production	10%
Oil Sands Extraction	10%
Shale Energy Extraction	10%
Off-shore Arctic Oil & Gas Exploration	10%
Nuclear Power Generation	50%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Production of nuclear weapons from countries signatory to the NPT	Excluded
Military Contracting Weapons	10%
Military Contracting Weapon-Related Products and/or Services	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	10%
Small Arms Key Components	10%
<b>Addictive Products</b>	
Alcoholic Beverages Production	10%
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
Gambling Specialised Equipment	10%
<b>Agriculture</b>	
Genetically Modified Plants and Seeds Development	10%
Genetically Modified Plants and Seeds Growth	10%
Pesticides Production	10%
Pesticides Retail	10%
Palm Oil Production and Distribution	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded[2]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B). Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

- How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

97.93%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 0.40 against -0.08 for the reference index. A higher score means a lower risk. Scores range from -2 to 1, 1 being the best.

Note that the fund has been classified Article 8 positive impact during 2024 (previously Article 8 positive tilt).

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	3.53
Weapons	0.03	0.97
Other controversial activities	0.01	0.84
Eligible:	99.08	100.00
Covered:	100.00	99.65

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- Voting rights

During the reference period, the fund voted at 40 general assembly meetings out of 40 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 27.50% of meetings.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 3 out of 3 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 14 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 37.01%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 60.92%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

## What was the proportion of sustainability-related investments?

97.93%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 99.13% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.87% invested in Other (#2 Other). 97.93% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Materials	Materials	3.98
Real Estate	Equity Real Estate Investment Trusts (Reits)	12.09

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas  In nuclear energy

No

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include

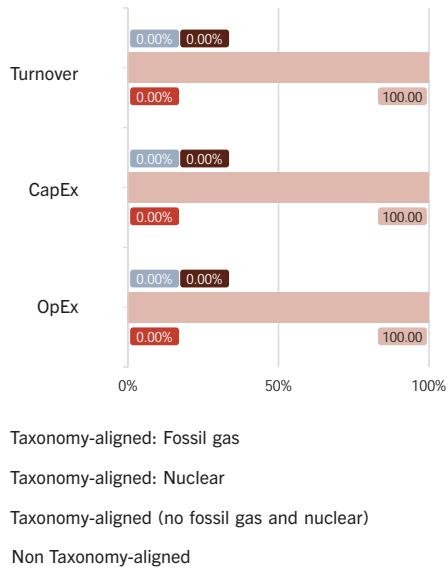

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

comprehensive safety  
and waste  
management rules.

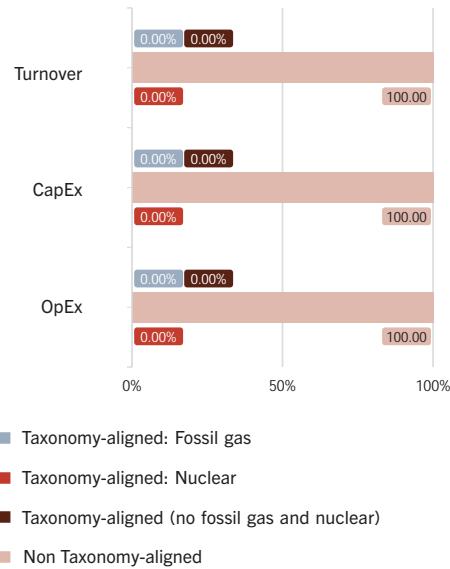

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the “greenness” of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 99.13% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

**Enabling activities**  
directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities**  
are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#### ● What was the share of investments made in transitional and enabling activities?

Not applicable.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.05% versus 0.00% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

37.01%

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

### What was the share of socially sustainable investments?

60.92%

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- at least 51% of sustainable investments, i.e. investments in companies that contribute to providing safety and security products for systems, people or organisations (as measured by revenue, enterprise value, earnings before interest and tax, or similar).
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds.
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 14 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Clean Energy Transition**

Legal entity identifier: **549300RO1K3C2PFOGH13**

## SUSTAINABLE INVESTMENT OBJECTIVE

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 83.40%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
<input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 14.62%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

### To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- Positive impact:

The fund achieved a positive environmental impact by investing at least two-thirds of its total assets/total wealth in shares issued by companies that support the structural change towards a sustainable, low-carbon economy, helping to reduce greenhouse gas emissions and air pollution.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, renewable energy, technologies that reduce CO2 emissions or energy consumption in areas such as industry, buildings or transportation, and enabling technologies and infrastructure that are critical preconditions for the transition to a low carbon economy, such as energy storage, power semiconductors, investments into the power grid and other relevant economic activities.

Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	10%
Thermal Coal Power Generation	10%
Oil & Gas Production	10%
Oil Sands Extraction	10%
Shale Energy Extraction	10%
Off-shore Arctic Oil & Gas Exploration	10%
Nuclear Power Generation	50%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Production of nuclear weapons from countries signatory to the NPT	Excluded
Military Contracting Weapons	10%
Military Contracting Weapon-Related Products and/or Services	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	10%
Small Arms Key Components	10%
<b>Addictive Products</b>	
Alcoholic Beverages Production	10%
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
Gambling Specialised Equipment	10%
<b>Agriculture</b>	
Genetically Modified Plants and Seeds Development	10%
Genetically Modified Plants and Seeds Growth	10%
Pesticides Production	10%
Pesticides Retail	10%
Palm Oil Production and Distribution	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded[2]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights. The fund also engaged with the management of selected companies on material ESG issues.

- Sustainable Investments:

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

#### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 83.40%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 14.62%.

### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

98.03%

- The percentage of the financial product's portfolio aligned with the EU Taxonomy:

7.83%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index after removing the bottom 20% of issuers with the weakest ESG scores.

The fund's weighted average ESG score was 0.42 against 0.18 for the reference index . A higher score means a lower ESG risk. Scores range from -2 to 1, 1 being the best.

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

Sustainability  
indicators measure  
how the sustainable  
objectives of this  
financial product are  
attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	1.52	3.53
Weapons	0.36	0.96
Other controversial activities	0.00	0.84
Eligible:	98.02	100.00
Covered:	100.00	99.65

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 44 general assembly meetings out of 45 votable meetings (97.78%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 35.56% of meetings.

In respect to Environmental and/or Social issues we voted for 2 out of 2 management resolutions and for 5 out of 9 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 14 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

## ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

### What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Nextera Energy Inc	Utilities	5.55	United States of America
Trane Technologies Plc	Industrials	5.25	United States of America
Broadcom Inc	Information Technology	5.05	United States of America
Nxp Semiconductors Nv	Information Technology	5.02	China
On Semiconductor	Information Technology	4.78	United States of America
Marvell Technology Inc	Information Technology	4.77	United States of America
Linde Plc	Materials	4.62	United States of America
Topbuild Corp	Consumer Discretionary	4.61	United States of America
Applied Materials Inc	Information Technology	4.27	United States of America
Iberdrola Sa	Utilities	3.81	Spain
Eaton Corp Plc	Industrials	3.20	United States of America

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

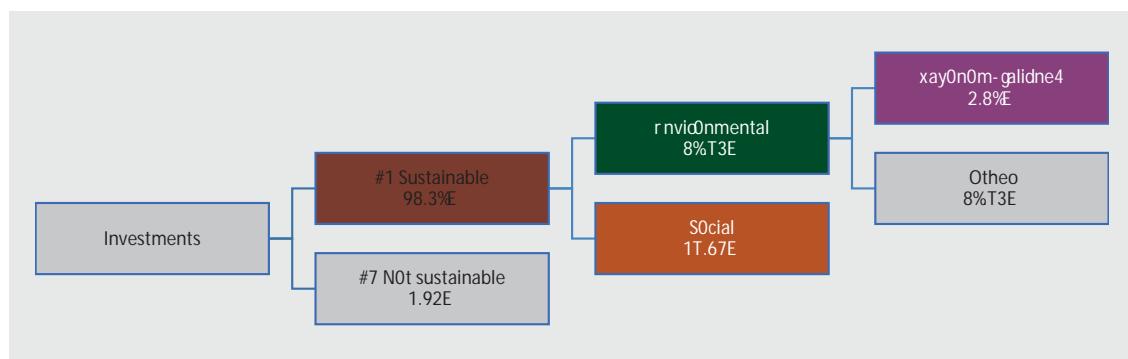

### What was the proportion of sustainability-related investments?

98.03%

Asset allocation describes the share of investments in specific assets.

#### What was the asset allocation?

The fund allocated 98.03% of its assets to Sustainable investments (#1 Sustainable) and 1.97% to Not sustainable investments (#2 Not sustainable). 83.40% of its assets is allocated to environmental objectives and 14.62% to social objectives.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Source: Pictet Asset Management, Factset RBICS, MSCI.

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024

Real Estate	Equity Real Estate Investment Trusts (Reits)	0.67
Utilities	Utilities	16.72

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

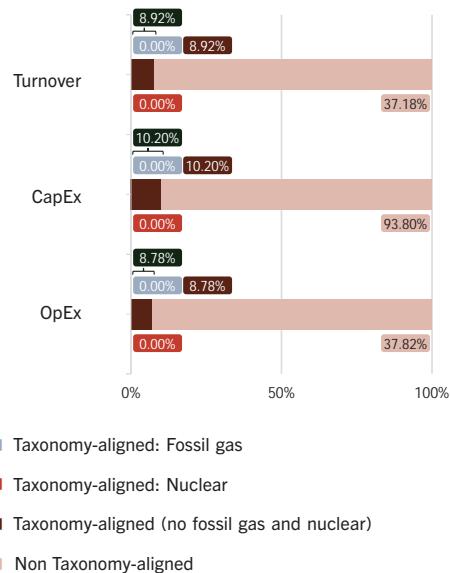

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

## ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

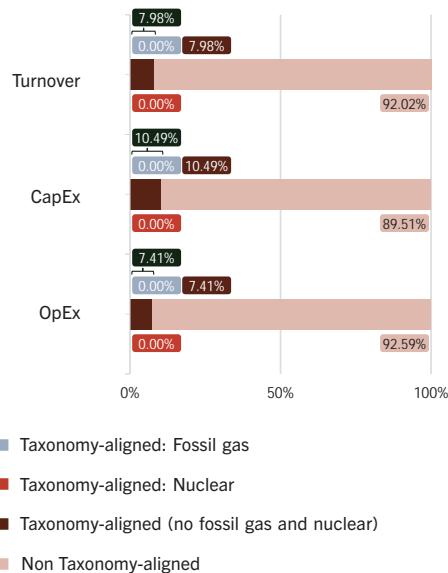

- Yes:  
 In fossil gas     In nuclear energy  
 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 98.03% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

## ● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 3.57%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 9.27% versus 7.83% in the current reference period.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

83.40%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

14.62%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as renewable energy, technologies that reduce CO<sub>2</sub> emissions or energy consumption in areas such as industry, buildings or transportation, and enabling technologies and infrastructure that are critical preconditions for the transition to a low carbon economy, such as energy storage, power semiconductors and investments into the power grid and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds.
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption

- a better ESG profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 14 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

**Reference benchmarks** are indexes to measure whether the financial product attains the sustainable objective

#### How did the reference benchmark differ from a broad market index?

Not applicable.

#### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### How did this financial product perform compared with the reference benchmark?

Not applicable.

#### How did this financial product perform compared with the broad market index?

Not applicable.

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Timber**

Legal entity identifier: **5493007Y7JCK1EBOLJ63**

## SUSTAINABLE INVESTMENT OBJECTIVE

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 70.42%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
<input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 27.00%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

### To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- Positive impact:

The fund achieved a positive environmental and/or social impact by investing at least two-thirds of its total assets / total wealth in companies that contribute to solving global environmental challenges through sustainable forest management and wood-based materials. Sustainable management of forestland and the wood fibre value chain play a vital role in the sequestration of atmospheric carbon (CO2). Sustainably managed forests are also reservoirs of biodiversity and help to safeguard soil and water resources. Timber is the raw material for a growing variety of bio-based material that can substitute plastics and other non- biodegradable materials and are essential in a circular economy model.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested in companies whose significant proportion of their activities are related to, but not limited to, financing, planting, and management of forests and wooded areas and/or in the processing, production and distribution of wood and wood fibre based materials, products and related services along the entire forest value chain and other relevant economic activities.

Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	10%
Thermal Coal Power Generation	10%
Oil & Gas Production	10%
Oil Sands Extraction	10%
Shale Energy Extraction	10%
Off-shore Arctic Oil & Gas Exploration	10%
Nuclear Power Generation	50%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Production of nuclear weapons from countries signatory to the NPT	Excluded
Military Contracting Weapons	10%
Military Contracting Weapon-Related Products and/or Services	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	10%
Small Arms Key Components	10%
<b>Addictive Products</b>	
Alcoholic Beverages Production	10%
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
Gambling Specialised Equipment	10%
<b>Agriculture</b>	
Genetically Modified Plants and Seeds Development	10%
Genetically Modified Plants and Seeds Growth	10%
Pesticides Production	10%
Pesticides Retail	10%
Palm Oil Production and Distribution	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded[2]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights. The fund also engaged with the management of selected companies on material ESG issues.

- Sustainable Investments:

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

#### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 70.42%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 27.00%.

### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

97.42%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index after removing the bottom 20% of issuers with the weakest ESG scores.

The fund's weighted average ESG score was 0.65 against 0.18 for the reference index . A higher score means a lower ESG risk. Scores range from -2 to 1, 1 being the best.

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability  
indicators**  
measure  
how the sustainable  
objectives of this  
financial product are  
attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.09	3.53
Weapons	0.00	0.97
Other controversial activities	0.05	0.84
Eligible:	97.27	100.00
Covered:	99.02	99.65

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 71 general assembly meetings out of 72 votable meetings (98.61%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 34.72% of meetings.

In respect to Environmental and/or Social issues we voted for 2 out of 2 management resolutions and for 9 out of 14 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 9 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

<b>Engagement</b>	11		9			

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

## ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in

the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

### What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Weyerhaeuser Co	Real Estate	5.83	United States of America

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

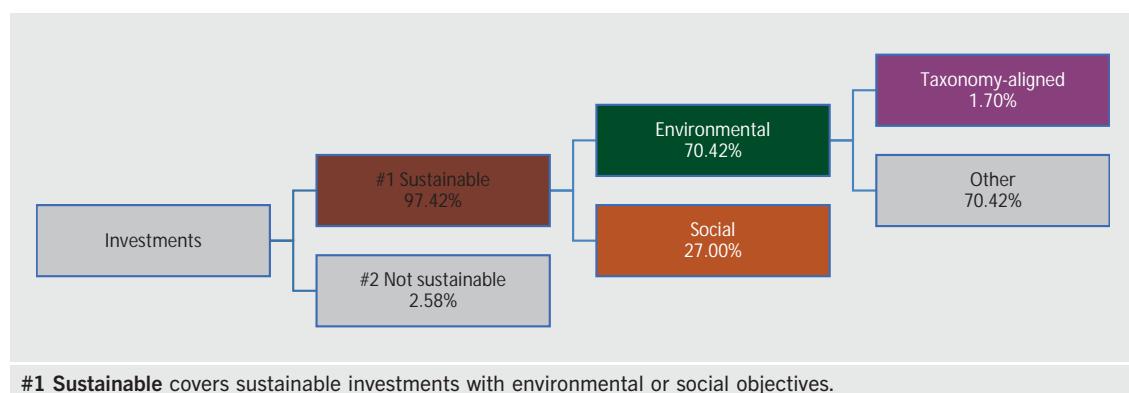

### What was the proportion of sustainability-related investments?

97.42%

**Asset allocation** describes the share of investments in specific assets.

#### What was the asset allocation?

The fund allocated 97.42% of its assets to Sustainable investments (#1 Sustainable) and 2.58% to Not sustainable investments (#2 Not sustainable). 70.42% of its assets is allocated to environmental objectives and 27.00% to social objectives.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

*Source: Pictet Asset Management, Factset RBICS, MSCI.*

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Sustainable	97.30%	97.42%
#2 Not sustainable	2.7%	2.58%
Environmental	69.36%	70.42%
Social	27.95%	27.00%
Taxonomy-aligned	1.11%	1.70%
Other	69.36%	70.42%

#### ● In which economic sectors were the investments made?

SECTOR LEVEL 1	SECTOR LEVEL 2	% ASSETS
Consumer Discretionary	Consumer Discretionary Distribution & Retail	3.12
Consumer Discretionary	Consumer Durables & Apparel	10.14
Consumer Staples	Household & Personal Products	7.91
Industrials	Capital Goods	7.67
Materials	Materials	52.62
Real Estate	Equity Real Estate Investment Trusts (Reits)	15.95

*Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.*

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

## Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

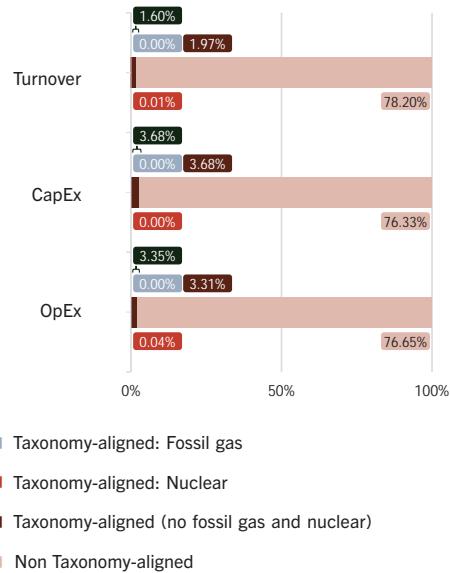

Yes:

In fossil gas    In nuclear energy

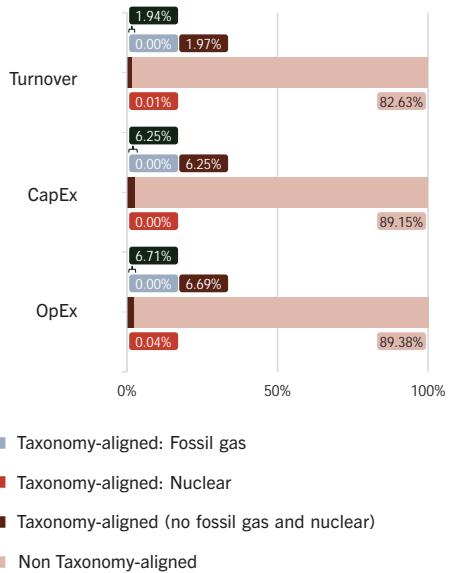

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 97.42% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

## What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 0.61%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 1.11% versus 1.70% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

70.42%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

27.00%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund's “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund's investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as financing, planting, and management of forests and wooded areas and/or in the processing, production and distribution of wood and wood fibre based materials, products and related services along the entire forest value chain and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics

- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 9 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

**Reference benchmarks** are indexes to measure whether the financial product attains the sustainable objective

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Nutrition**

Legal entity identifier: **549300MD1R2NMU6B8J09**

## SUSTAINABLE INVESTMENT OBJECTIVE

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 40.09%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
<input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 59.04%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

### To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- Positive impact:

The fund achieved a positive social and/or environmental impact by investing mainly in companies contributing to and/or benefiting from the nutrition value chain, in particular the quality of nutrition, access to nutrition, and sustainability of food production. These companies help to secure food supplies and improve human and planetary health by contributing to positive dietary shifts and global food security. They also help reducing negative environmental impacts compared to traditional agriculture as well as reducing food waste.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested mainly in companies whose significant proportion of their activities are related to agricultural technology, sustainable agriculture or aquaculture, food products, ingredients and supplements, food logistics such as distribution, food waste solutions, food safety and other relevant economic activities.

Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	10%
Thermal Coal Power Generation	10%
Oil & Gas Production	10%
Oil Sands Extraction	10%
Shale Energy Extraction	10%
Off-shore Arctic Oil & Gas Exploration	10%
Nuclear Power Generation	50%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Production of nuclear weapons from countries signatory to the NPT	Excluded
Military Contracting Weapons	10%
Military Contracting Weapon-Related Products and/or Services	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	10%
Small Arms Key Components	10%
<b>Addictive Products</b>	
Alcoholic Beverages Production	10%
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
Gambling Specialised Equipment	10%
<b>Agriculture</b>	
Genetically Modified Plants and Seeds Development	10%
Genetically Modified Plants and Seeds Growth	10%
Pesticides Production	10%
Pesticides Retail	10%
Palm Oil Production and Distribution	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded[2]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights. The fund also engaged with the management of selected companies on material ESG issues.

- Sustainable Investments:

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

#### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 40.09%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 59.04%.

### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

99.14%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index after removing the bottom 20% of issuers with the weakest ESG scores.

The fund's weighted average ESG score was 0.57 against 0.18 for the reference index . A higher score means a lower ESG risk. Scores range from -2 to 1, 1 being the best.

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability  
indicators**  
measure  
how the sustainable  
objectives of this  
financial product are  
attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	3.53
Weapons	0.00	0.97
Other controversial activities	0.26	0.84
Eligible:	98.96	100.00
Covered:	99.98	99.65

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 41 general assembly meetings out of 41 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 39.02% of meetings.

In respect to Environmental and/or Social issues we voted for 8 out of 8 management resolutions and for 2 out of 6 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 20 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

<b>Engagement</b>	17		20			

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

## ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in

the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

### What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Dsm-Firmenich Ag	Materials	5.66	Switzerland

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

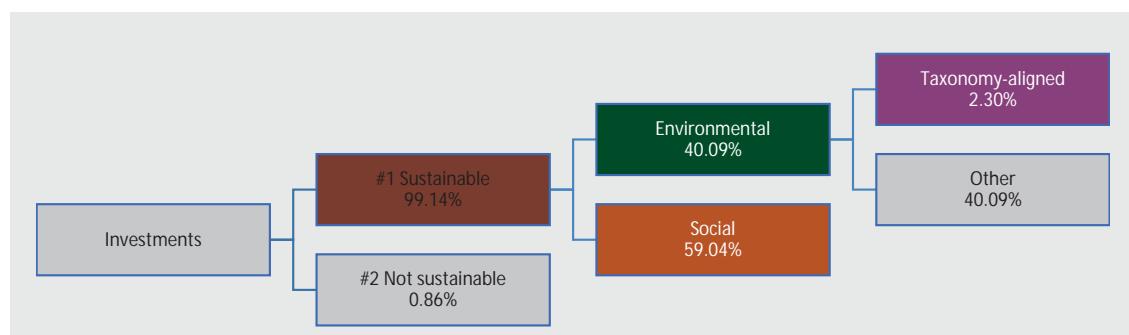

### What was the proportion of sustainability-related investments?

99.14%

**Asset allocation** describes the share of investments in specific assets.

#### ● What was the asset allocation?

The fund allocated 99.14% of its assets to Sustainable investments (#1 Sustainable) and 0.86% to Not sustainable investments (#2 Not sustainable). 40.09% of its assets is allocated to environmental objectives and 59.04% to social objectives.

#1 Sustainable covers sustainable investments with environmental or social objectives.

#2 Not sustainable includes investments which do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented

policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

*Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.*

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflecting the share of revenue from green activities of investee companies  
 - **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

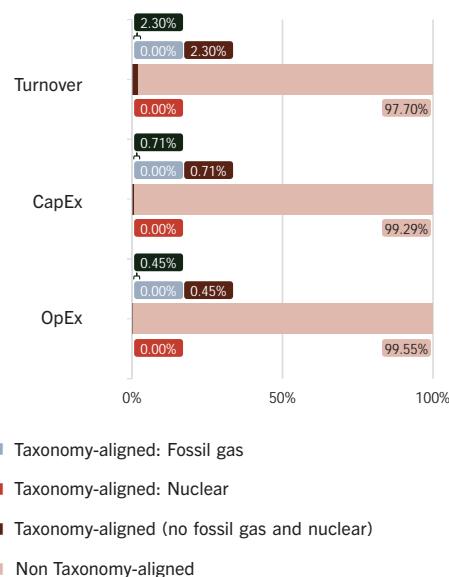

Yes:

In fossil gas  In nuclear energy

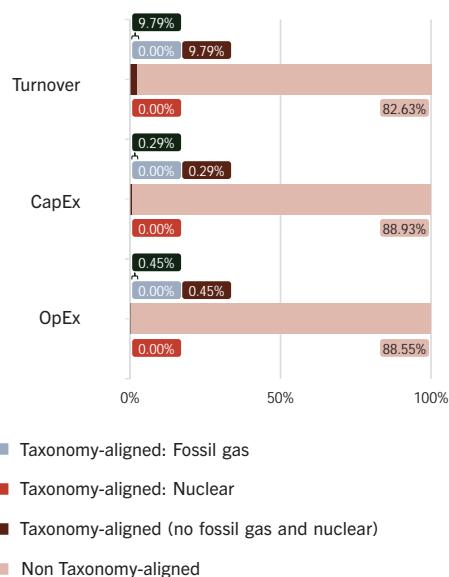

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 99.14% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 0.02%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 1.37% versus 2.30% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

40.09%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

59.04%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as agricultural technology, sustainable agriculture or aquaculture, food products, ingredients and supplements, food logistics such as distribution, food waste solutions, food safety and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment,

genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds

- severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 20 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

**● How did the reference benchmark differ from a broad market index?**

Not applicable.

**● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

**● How did this financial product perform compared with the reference benchmark?**

Not applicable.

**● How did this financial product perform compared with the broad market index?**

Not applicable.

Product name: **Pictet - Global Megatrend Selection**

Legal entity identifier: **549300HMJRYVBYQOZ025**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> ●	<input type="checkbox"/> Yes
<input type="checkbox"/>	It made sustainable investments with an environmental objective: ___%
<input type="checkbox"/>	in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/>	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/>	It made sustainable investments with a social objective: ___%
<input type="checkbox"/>	It promoted E/S characteristics, but did not make any sustainable investments
<input checked="" type="radio"/> ●	<input checked="" type="checkbox"/> No
<input checked="" type="checkbox"/>	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>83.06%</b> of sustainable investments
<input checked="" type="checkbox"/>	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/>	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/>	with a social objective

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Positive impact:

The fund achieved a positive environmental and/or social impact by investing at least two-thirds of its total assets in securities that may benefit from global megatrends, i.e. long-term market trends resulting from secular changes in economic, social and environmental factors such as demographics, lifestyle or regulations.

The fund invested mainly in companies whose significant proportion of their activities are related to products and services supporting the energy transition, circular economy, energy efficiency, water quality and supply, sustainable forestry, sustainable cities, nutrition, human health and therapeutics, personal self-fulfilment and security and other relevant economic activities.

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	10%
Thermal Coal Power Generation	10%
Oil & Gas Production	10%
Oil Sands Extraction	10%
Shale Energy Extraction	10%
Off-shore Arctic Oil & Gas Exploration	10%
Nuclear Power Generation	50%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Production of nuclear weapons from countries signatory to the NPT	Excluded
Military Contracting Weapons	10%
Military Contracting Weapon-Related Products and/or Services	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	10%
Small Arms Key Components	10%
<b>Addictive Products</b>	
Alcoholic Beverages Production	10%
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
Gambling Specialised Equipment	10%
<b>Agriculture</b>	
Genetically Modified Plants and Seeds Development	10%
Genetically Modified Plants and Seeds Growth	10%
Pesticides Production	10%
Pesticides Retail	10%
Palm Oil Production and Distribution	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded[2]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B). Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

- How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

83.06%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 0.48 against 0.02 for the reference index. A higher score means a lower risk. Scores range from -2 to 1, 1 being the best.

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.14	3.53
Weapons	0.08	0.97
Other controversial activities	0.06	0.84
Eligible:	97.89	100.00
Covered:	99.70	99.65

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

*Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- Voting rights

During the reference period, the fund voted at 438 general assembly meetings out of 439 votable meetings (99.77%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 44.42% of meetings.

In respect to Environmental and/or Social issues we voted for 28 out of 28 management resolutions and for 81 out of 128 shareholder resolutions.

*Source: Pictet Asset Management, ISS ESG.*

- **Engagement**

The fund engaged with 122 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

*Source: Pictet Asset Management, Sustainalytics.*

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

Engagement	131	122	

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 33.11%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 49.96%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Thermo Fisher Scientific Inc	Health Care	1.35	United States of America

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

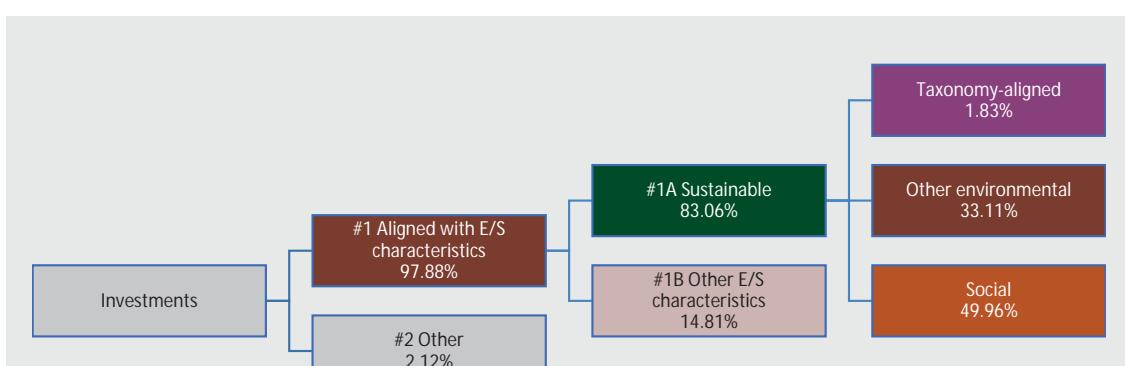

## What was the proportion of sustainability-related investments?

83.06%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 97.88% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 2.12% invested in Other (#2 Other). 83.06% were allocated to Sustainable Investments (#1A Sustainable) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

*Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.*

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

- Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas    In nuclear energy

No

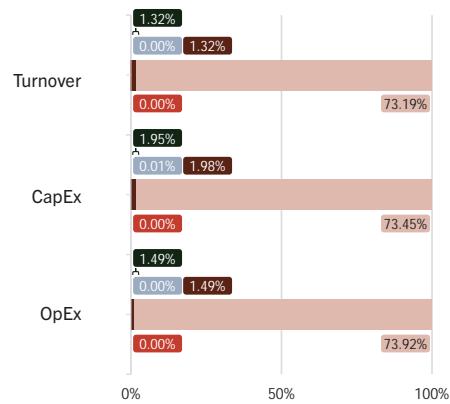

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

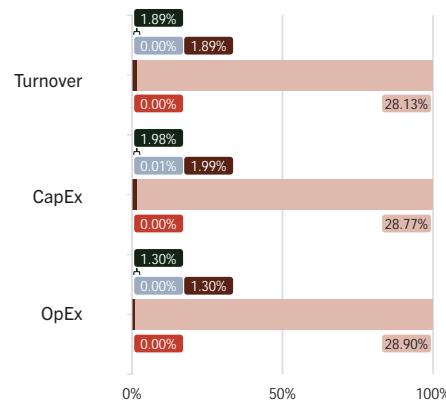

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

#### 1. Taxonomy-alignment of investments including sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned (no fossil gas and nuclear)
- Non Taxonomy-aligned

#### 2. Taxonomy-alignment of investments excluding sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned (no fossil gas and nuclear)
- Non Taxonomy-aligned

This graph represents 97.88% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

#### ● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 0.60%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 1.66% versus 1.83% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

33.11%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### What was the share of socially sustainable investments?

49.96%

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- at least 51% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as products and services supporting the energy transition, circular economy, energy efficiency, water quality and supply, sustainable forestry, sustainable cities, nutrition, human health and therapeutics, personal self-fulfilment and security and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds.
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 122 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did the reference benchmark differ from a broad market index?**  
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Global Environmental Opportunities**

Legal entity identifier: **549300NZP1SIONC13983**

## SUSTAINABLE INVESTMENT OBJECTIVE

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 72.91%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
<input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 25.83%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

### To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- Positive impact:

This fund achieved a positive environmental and/or social impact by investing mainly in companies with a low environmental footprint that contribute to solving global environmental challenges by providing products and services in the environmental value chain. These products and services are needed to support the transition towards a lower carbon economy, a circular economy model, monitor and prevent pollution or for example protect scarce resources such as water.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, energy efficiency, renewable energy, pollution control, water supply & technology, waste management & recycling, sustainable agriculture & forestry, dematerialized economy and other relevant economic activities.

Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	10%
Thermal Coal Power Generation	10%
Oil & Gas Production	10%
Oil Sands Extraction	10%
Shale Energy Extraction	10%
Off-shore Arctic Oil & Gas Exploration	10%
Nuclear Power Generation	50%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Production of nuclear weapons from countries signatory to the NPT	Excluded
Military Contracting Weapons	10%
Military Contracting Weapon-Related Products and/or Services	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	10%
Small Arms Key Components	10%
<b>Addictive Products</b>	
Alcoholic Beverages Production	10%
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
Gambling Specialised Equipment	10%
<b>Agriculture</b>	
Genetically Modified Plants and Seeds Development	10%
Genetically Modified Plants and Seeds Growth	10%
Pesticides Production	10%
Pesticides Retail	10%
Palm Oil Production and Distribution	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded[2]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights. The fund also engaged with the management of selected companies on material ESG issues.

- Sustainable Investments:

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

#### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 72.91%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 25.83%.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

98.74%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index after removing the bottom 20% of issuers with the weakest ESG scores.

The fund's weighted average ESG score was 0.56 against 0.18 for the reference index . A higher score means a lower ESG risk. Scores range from -2 to 1, 1 being the best.

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability  
indicators**  
measure  
how the sustainable  
objectives of this  
financial product are  
attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.01	3.53
Weapons	0.27	0.97
Other controversial activities	0.01	0.84
Eligible:	98.68	100.00
Covered:	100.00	99.65

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 46 general assembly meetings out of 46 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 28.26% of meetings.

In respect to Environmental and/or Social issues we voted for 2 out of 2 management resolutions and for 3 out of 4 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 17 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

<b>Engagement</b>	22		17			

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

## ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in

the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

### What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Republic Services Inc	Industrials	4.10	United States of America

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

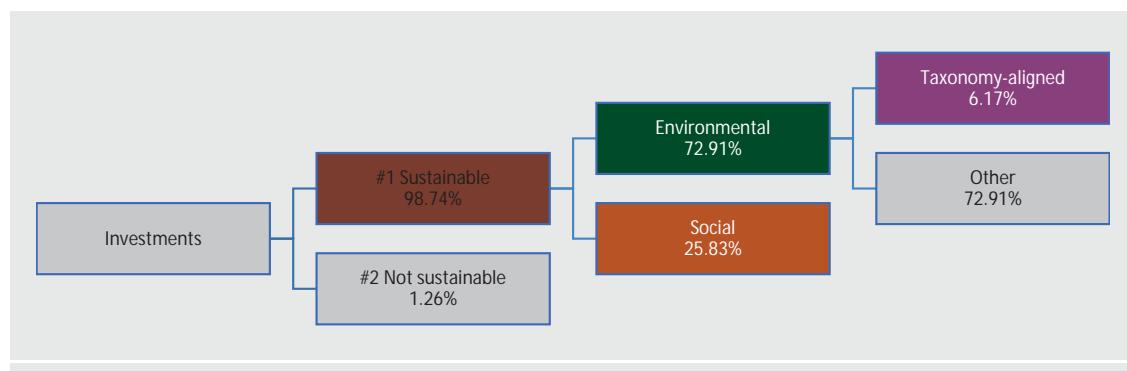

### What was the proportion of sustainability-related investments?

98.74%

**Asset allocation** describes the share of investments in specific assets.

#### What was the asset allocation?

The fund allocated 98.74% of its assets to Sustainable investments (#1 Sustainable) and 1.26% to Not sustainable investments (#2 Not sustainable). 72.91% of its assets is allocated to environmental objectives and 25.83% to social objectives.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflecting the share of revenue from green activities of investee companies  
 - **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

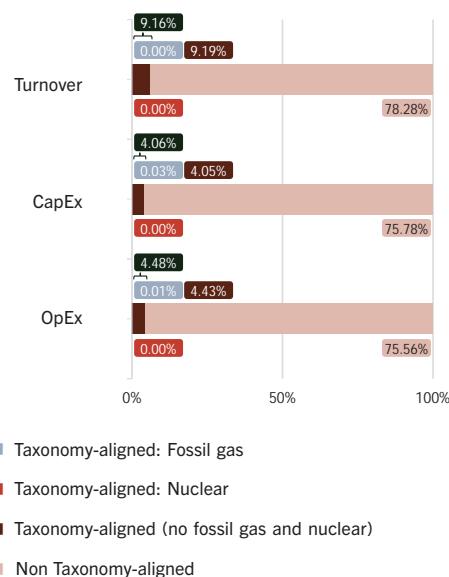

Yes:

In fossil gas    In nuclear energy

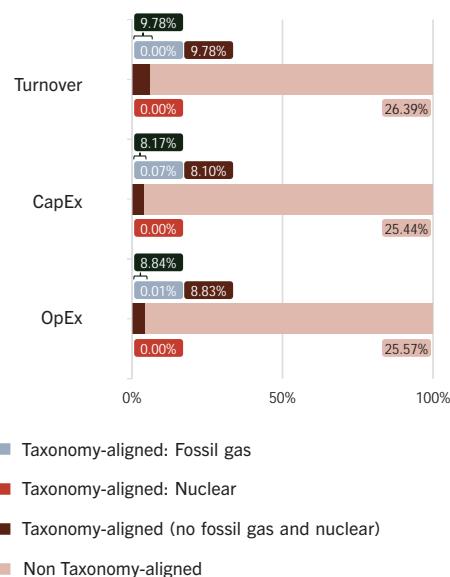

No

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.*

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 98.74% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 3.28%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 3.08% versus 6.17% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

72.91%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

25.83%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities that provide solutions to environmental challenges such as energy efficiency, renewable energy, pollution control, water supply and technology, waste management and recycling, sustainable agriculture and forestry and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment,

genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds

- severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 17 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

● **How did the reference benchmark differ from a broad market index?**

Not applicable.

● **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

● **How did this financial product perform compared with the reference benchmark?**

Not applicable.

● **How did this financial product perform compared with the broad market index?**

Not applicable.

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>96.57%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive impact:

The fund achieved a positive environmental and/or social impact by investing mainly in companies providing smarter solutions to the challenges of urbanization and improving the quality of life of city residents, in particular in the areas of the environment, safety, health, education, employment, community or mobility.

The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, mobility and transportation, infrastructure, real estate, sustainable resources management (such as energy efficiency or waste management) as well as enabling technologies and services supporting the development of smart and sustainable cities and other relevant economic activities.

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	10%
Thermal Coal Power Generation	10%
Oil & Gas Production	10%
Oil Sands Extraction	10%
Shale Energy Extraction	10%
Off-shore Arctic Oil & Gas Exploration	10%
Nuclear Power Generation	50%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Production of nuclear weapons from countries signatory to the NPT	Excluded
Military Contracting Weapons	10%
Military Contracting Weapon-Related Products and/or Services	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	10%
Small Arms Key Components	10%
<b>Addictive Products</b>	
Alcoholic Beverages Production	10%
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
Gambling Specialised Equipment	10%
<b>Agriculture</b>	
Genetically Modified Plants and Seeds Development	10%
Genetically Modified Plants and Seeds Growth	10%
Pesticides Production	10%
Pesticides Retail	10%
Palm Oil Production and Distribution	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded[2]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B). Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

- How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

96.57%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 0.62 against 0.02 for the reference index. A higher score means a lower risk. Scores range from -2 to 1, 1 being the best.

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	3.53
Weapons	0.05	0.97
Other controversial activities	0.00	0.84
Eligible:	98.83	100.00
Covered:	99.91	99.65

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

*Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- Voting rights

During the reference period, the fund voted at 40 general assembly meetings out of 40 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 32.50% of meetings.

In respect to Environmental and/or Social issues we voted for 3 out of 3 management resolutions and for 5 out of 12 shareholder resolutions.

*Source: Pictet Asset Management, ISS ESG.*

- **Engagement**

The fund engaged with 12 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

*Source: Pictet Asset Management, Sustainalytics.*

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

- **...and compared to previous periods?**

Comparison of the sustainability indicators to previous period:

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 32.52%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 64.05%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

## What was the proportion of sustainability-related investments?

96.57%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 98.77% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.23% invested in Other (#2 Other). 96.57% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

*Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.*

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas  In nuclear energy

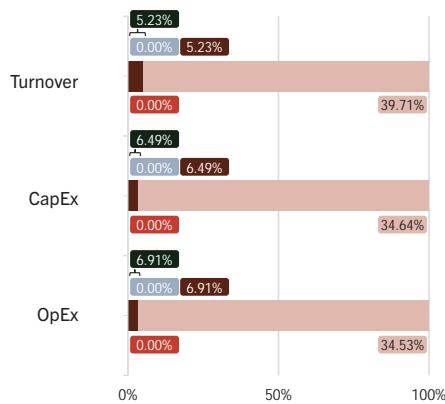

No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

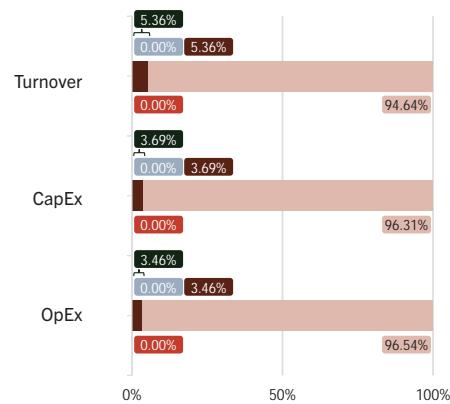

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 98.77% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 2.10%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Transitional activities**  
are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 3.68% versus 5.29% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

32.52%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

64.05%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 51% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as smarter solutions to the challenges of urbanization and improving the quality of life of city residents, in particular in the areas of the environment, safety, health, education, employment, community or mobility (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium

- derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds.
- severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 12 companies as of 30.09.2024.

#### **How did this financial product perform compared to the reference benchmark?**

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

#### **How did the reference benchmark differ from a broad market index?**

Not applicable.

#### **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

#### **How did this financial product perform compared with the reference benchmark?**

Not applicable.

#### **How did this financial product perform compared with the broad market index?**

Not applicable.

Product name: **Pictet - Quest Global Sustainable Equities**

Legal entity identifier: **549300TUK050NDNPS715**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> ● <input type="radio"/> Yes	<input checked="" type="radio"/> ● <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>49.49%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Best-in-class:

The fund invested in securities of issuers with low sustainability risks while avoiding those with high sustainability risks, reducing the investment universe by at least 20%. The MSCI World index was used to measure the universe reduction; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Carbon intensity:

The fund has a lower carbon intensity than the investment universe.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	25%
Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%
<b>Addictive Products</b>	
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### Company Exclusions based on Breaches of International Norms

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises      Excluded

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

49.49%

#### ● Reduction of the investment universe based on ESG factors

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.01	3.51
Weapons	0.10	1.03
Other controversial activities	0.00	0.89
Eligible:	99.74	100.00
Covered:	100.00	99.62

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 129 general assembly meetings out of 129 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 30.23% of meetings.

In respect to Environmental and/or Social issues we voted for 11 out of 11 management resolutions and for 46 out of 76 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 21 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Votes in favor of management resolutions categorized as Environmental and/or Social issues	6	11		
Total shareholder resolutions - categorized to Environmental and/or Social issues	70	76		
Votes in favor of shareholder resolutions categorized as Environmental and/or Social issues	50	46		
<b>Engagement</b>	24	21		

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

**Environmental**

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 9.13%.

**Social**

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 40.36%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

## What was the proportion of sustainability-related investments?

49.49%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 99.74% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.26% invested in Other (#2 Other). 49.49% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by

revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

Yes:

In fossil gas     In nuclear energy

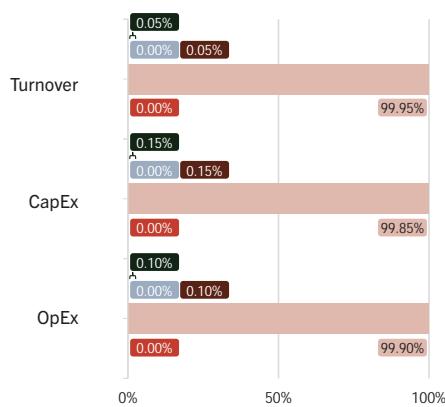

No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

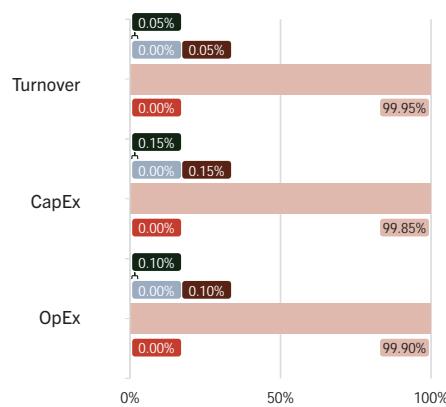

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 99.74% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 0.05%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Transitional activities**  
are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.06% versus 0.05% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

9.13%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

40.36%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.

- severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 21 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

#### How did the reference benchmark differ from a broad market index?

Not applicable.

#### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### How did this financial product perform compared with the reference benchmark?

Not applicable.

#### How did this financial product perform compared with the broad market index?

Not applicable.

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>75.12%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive impact:

The fund achieved a positive environmental and/or social impact by investing mainly in companies providing robotic applications, automation solutions or enabling technologies.

The fund invested mainly in companies whose significant proportion of their activities are related to products and services contributing to sustainable economic growth by improving companies' use of resources, improving the quality of their goods and services, reducing their environmental impact, and helping companies to compensate for the loss of productivity due to population ageing, in particular in the areas of, but not limited to, robotics applications and components, automation, autonomous systems, sensors, microcontrollers, 3D printing, data processing, actuation technology as well as image, motion or voice recognition and other enabling technologies and software, and other relevant economic activities.

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	10%
Thermal Coal Power Generation	10%
Oil & Gas Production	10%
Oil Sands Extraction	10%
Shale Energy Extraction	10%
Off-shore Arctic Oil & Gas Exploration	10%
Nuclear Power Generation	50%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Production of nuclear weapons from countries signatory to the NPT	Excluded
Military Contracting Weapons	10%
Military Contracting Weapon-Related Products and/or Services	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	10%
Small Arms Key Components	10%
<b>Addictive Products</b>	
Alcoholic Beverages Production	10%
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
Gambling Specialised Equipment	10%
<b>Agriculture</b>	
Genetically Modified Plants and Seeds Development	10%
Genetically Modified Plants and Seeds Growth	10%
Pesticides Production	10%
Pesticides Retail	10%
Palm Oil Production and Distribution	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded[2]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B). Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

- How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

75.12%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 0.23 against -0.08 for the reference index. A higher score means a lower risk. Scores range from -2 to 1, 1 being the best.

Note that the fund has been classified Article 8 positive impact during 2024 (previously Article 8 positive tilt).

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	3.53
Weapons	0.19	0.97
Other controversial activities	0.00	0.84
Eligible:	96.33	100.00
Covered:	100.00	99.65

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- Voting rights

During the reference period, the fund voted at 36 general assembly meetings out of 36 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 38.89% of meetings.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 1 out of 3 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 11 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 62.11%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 13.01%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

## What was the proportion of sustainability-related investments?

75.12%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 96.33% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 3.67% invested in Other (#2 Other). 75.12% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

*Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.*

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Aligned with E/S characteristics	96.82%	96.33%
#2 Other	3.18%	3.67%
#1A Sustainable	79.89%	75.12%
#1B Other E/S characteristics	16.93%	21.21%
Taxonomy-aligned	0.00%	0.27%
Other environmental	62.49%	62.11%
Social	17.40%	13.01%

● In which economic sectors were the investments made?

SECTOR LEVEL 1	SECTOR LEVEL 2	% ASSETS
Communication Services	Media & Entertainment	8.09
Health Care	Health Care Equipment & Services	3.68
Health Care	Pharmaceuticals, Biotech & Life Sciences	0.25
Industrials	Capital Goods	7.83
Industrials	Commercial & Professional Services	0.71
Information Technology	Semiconductors & Semiconductor Equipment	43.89
Information Technology	Software & Services	28.65
Information Technology	Technology Hardware & Equipment	3.22

*Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.*

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

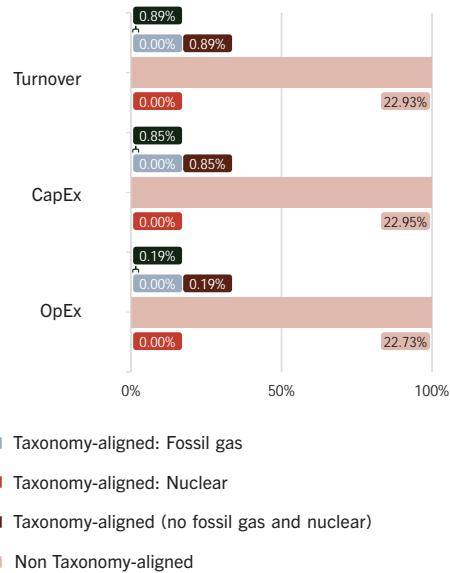

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

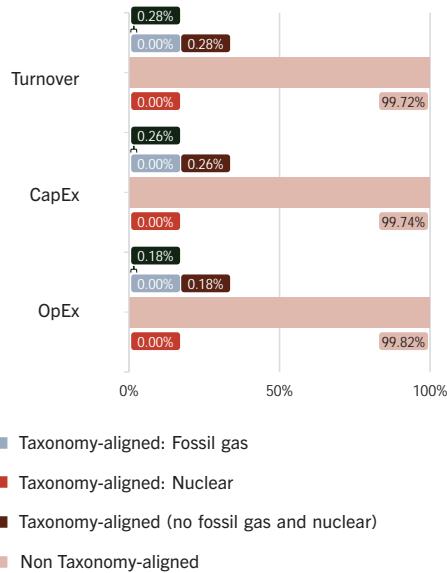

- Yes:
  - In fossil gas  In nuclear energy
- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 96.33% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 0.28%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.00% versus 0.27% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

62.11%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

13.01%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 51% of sustainable investments, i.e. investments in companies that have a significant exposure to activities that contribute to sustainable economic growth through automation, robotics systems and enabling technologies (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds.
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index

- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 11 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

Product name: **Pictet - Global Thematic Opportunities**

Legal entity identifier: **54930047FQRZRSMPH67**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> ●	<input type="checkbox"/> Yes
<input type="checkbox"/>	It made sustainable investments with an environmental objective: ___%
<input type="checkbox"/>	in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/>	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/>	It made sustainable investments with a social objective: ___%
<input type="checkbox"/>	It promoted E/S characteristics, but did not make any sustainable investments
<input checked="" type="radio"/> ●	No
<input checked="" type="checkbox"/>	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>82.22%</b> of sustainable investments
<input checked="" type="checkbox"/>	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/>	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/>	with a social objective

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Positive impact:

The fund achieved a positive environmental and/or social impact by investing mainly in companies that may benefit from global long-term themes resulting from secular changes in economic, social and environmental factors such as demographics, lifestyle or regulations.

The fund invested mainly in companies whose significant proportion of their activities are related to products and services supporting the energy transition, circular economy, energy efficiency, water quality and supply, sustainable forestry, sustainable cities, nutrition, human health and therapeutics, personal self-fulfilment and security and other relevant economic activities.

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	10%
Thermal Coal Power Generation	10%
Oil & Gas Production	10%
Oil Sands Extraction	10%
Shale Energy Extraction	10%
Off-shore Arctic Oil & Gas Exploration	10%
Nuclear Power Generation	50%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Production of nuclear weapons from countries signatory to the NPT	Excluded
Military Contracting Weapons	10%
Military Contracting Weapon-Related Products and/or Services	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	10%
Small Arms Key Components	10%
<b>Addictive Products</b>	
Alcoholic Beverages Production	10%
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
Gambling Specialised Equipment	10%
<b>Agriculture</b>	
Genetically Modified Plants and Seeds Development	10%
Genetically Modified Plants and Seeds Growth	10%
Pesticides Production	10%
Pesticides Retail	10%
Palm Oil Production and Distribution	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded[2]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B). Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

- How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

82.22%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 0.38 against 0.02 for the reference index. A higher score means a lower risk. Scores range from -2 to 1, 1 being the best.

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.46	3.53
Weapons	0.10	0.97
Other controversial activities	0.03	0.84
Eligible:	98.27	100.00
Covered:	100.00	99.65

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

*Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- Voting rights

During the reference period, the fund voted at 48 general assembly meetings out of 48 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 45.83% of meetings.

In respect to Environmental and/or Social issues we voted for 4 out of 4 management resolutions and for 35 out of 53 shareholder resolutions.

*Source: Pictet Asset Management, ISS ESG.*

- **Engagement**

The fund engaged with 22 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

*Source: Pictet Asset Management, Sustainalytics.*

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

- **...and compared to previous periods?**

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023		01.10.2023 - 30.09.2024		Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 39.76%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 42.46%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

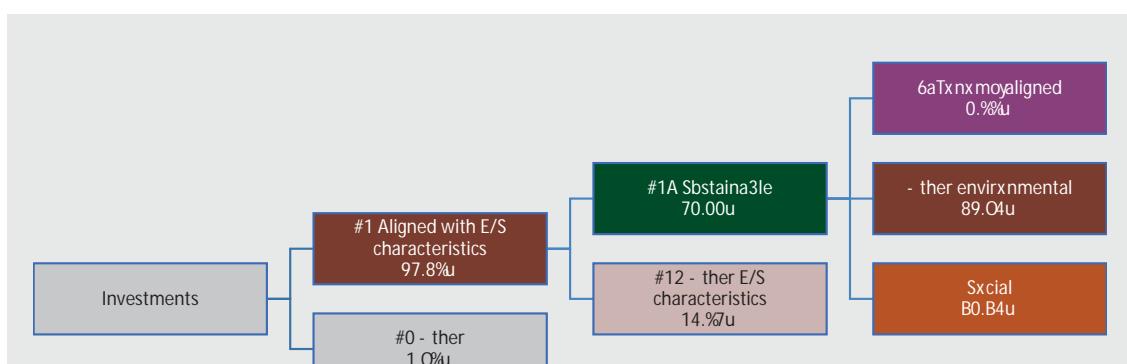

## What was the proportion of sustainability-related investments?

82.22%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 98.30% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.70% invested in Other (#2 Other). 82.22% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

Utilities	Utilities	3.28

*Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.*

To what extent were the sustainable investments with an environmental objective aligned

## with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for fossil gas include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:  
 - turnover reflects the “greenness” of investee companies today.  
 - capital expenditure (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - operational expenditure (OpEx) reflects the green operational activities of investee companies.

## Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

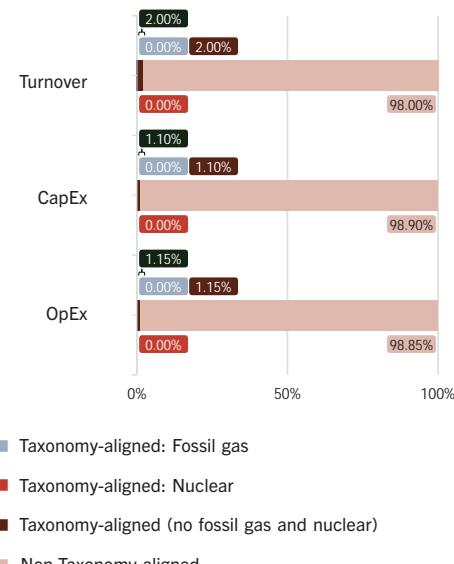

Yes:

In fossil gas     In nuclear energy

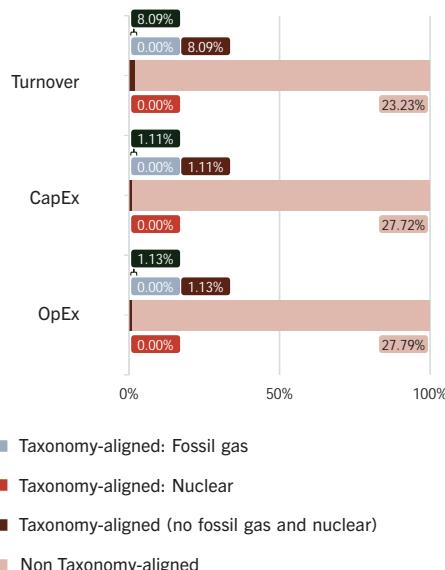

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 98.30% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Enabling activities**  
directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities**  
are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 0.60%

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

39.76%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.**

**What was the share of socially sustainable investments?**

42.46%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- at least 51% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as products and services supporting the energy transition, circular economy, energy efficiency, water quality and supply, sustainable forestry, sustainable cities,

nutrition, human health and therapeutics, personal self-fulfilment and security and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)

- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds.
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 22 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

##### ● How did the reference benchmark differ from a broad market index?

Not applicable.

##### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

##### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

##### ● How did this financial product perform compared with the broad market index?

Not applicable.

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> ● <input type="radio"/> Yes	<input checked="" type="radio"/> ● <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>72.42%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive impact:

The fund achieved a positive social impact by investing mainly in companies that help individuals to adapt to the demographic and technological shifts that have transformed lives. These companies help individuals to lead more fulfilling lives through services that enable life-long learning, provide care services and the services to enjoy themselves.

The fund invested mainly in companies whose significant proportion of their activities are related to services in education, distance learning, career development, support services, retirement homes, entertainment and other relevant economic activities.

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	10%
Thermal Coal Power Generation	10%
Oil & Gas Production	10%
Oil Sands Extraction	10%
Shale Energy Extraction	10%
Off-shore Arctic Oil & Gas Exploration	10%
Nuclear Power Generation	50%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Production of nuclear weapons from countries signatory to the NPT	Excluded
Military Contracting Weapons	10%
Military Contracting Weapon-Related Products and/or Services	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	10%
Small Arms Key Components	10%
<b>Addictive Products</b>	
Alcoholic Beverages Production	10%
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
Gambling Specialised Equipment	10%
<b>Agriculture</b>	
Genetically Modified Plants and Seeds Development	10%
Genetically Modified Plants and Seeds Growth	10%
Pesticides Production	10%
Pesticides Retail	10%
Palm Oil Production and Distribution	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded[2]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy (Appendix B). Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

- How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

72.42%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 0.44 against 0.02 for the reference index. A higher score means a lower risk. Scores range from -2 to 1, 1 being the best.

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	3.53
Weapons	0.00	0.97
Other controversial activities	0.19	0.84
Eligible:	99.28	100.00
Covered:	100.00	99.65

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

*Source: Pictet Asset Management, Sustainalytics.*

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- Voting rights

During the reference period, the fund voted at 32 general assembly meetings out of 32 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 43.75% of meetings.

In respect to Environmental and/or Social issues we voted for 2 out of 2 management resolutions and for 6 out of 12 shareholder resolutions.

*Source: Pictet Asset Management, ISS ESG.*

- **Engagement**

The fund engaged with 5 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

*Source: Pictet Asset Management, Sustainalytics.*

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

- **...and compared to previous periods?**

Comparison of the sustainability indicators to previous period:

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 4.68%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 67.73%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Welltower Inc	Real Estate	5.13	United States of America

## What was the proportion of sustainability-related investments?

72.42%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 99.28% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.72% invested in Other (#2 Other). 72.42% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented

policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

*Source: Pictet Asset Management, Sustainalytics, Factset RBICS.*

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Aligned with E/S characteristics	97.80%	99.28%
#2 Other	2.20%	0.72%
#1A Sustainable	76.14%	72.42%
#1B Other E/S characteristics	21.66%	26.86%
Taxonomy-aligned	0.00%	0.00%
Other environmental	4.65%	4.68%
Social	71.49%	67.73%

● In which economic sectors were the investments made?

SECTOR LEVEL 1	SECTOR LEVEL 2	% ASSETS
Communication Services	Media & Entertainment	16.86
Consumer Discretionary	Consumer Discretionary Distribution & Retail	0.28
Consumer Discretionary	Consumer Services	18.75
Financials	Financial Services	2.73

Health Care	Pharmaceuticals, Biotech & Life Sciences	4.69
Industrials	Commercial & Professional Services	22.87
Information Technology	Software & Services	11.05
Real Estate	Equity Real Estate Investment Trusts (Reits)	7.28

*Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.*

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas    In nuclear energy

No

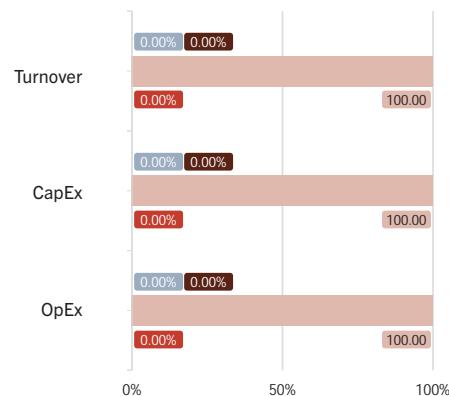

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

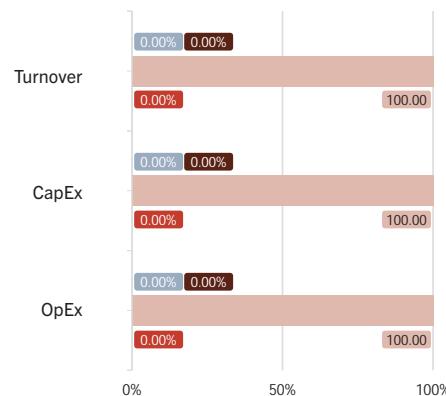

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 99.28% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#### ● What was the share of investments made in transitional and enabling activities?

Not applicable.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

4.68%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

  
are sustainable investments with an environmental objective that do not take into account the

#### What was the share of socially sustainable investments?

67.73%

#### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

#### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 51% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as services in education, distance learning, career development, support services, retirement homes, entertainment and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds.
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 5 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

##### ● How did the reference benchmark differ from a broad market index?

Not applicable.

- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?  
Not applicable.
- How did this financial product perform compared with the reference benchmark?  
Not applicable.
- How did this financial product perform compared with the broad market index?  
Not applicable.

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>55.95%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Best-in-class / best effort:

The fund invested in securities of issuers with low and/or decreasing sustainability risks while avoiding those with high and/or increasing sustainability risk, reducing the investment universe by at least 20%. The MSCI AC World index was used to measure the universe reduction; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Improving impact:

The fund achieved a positive environmental and social impact through improving alignment with globally accepted frameworks or principles.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	25%
Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%
<b>Addictive Products</b>	
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### Company Exclusions based on Breaches of International Norms

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

55.95%

#### ● Extent of alignment with SDGs

The compartment used a proprietary systematic indicator based on natural language processing technology to estimate the alignment of the products and services of each issuer to all relevant SDGs. The output of this indicator is provided in strategy level reporting documentation.

#### ● Reduction of the investment universe based on ESG factors

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	2.62	3.53
Weapons	0.20	0.97
Other controversial activities	0.00	0.84
Eligible:	99.45	100.00
Covered:	100.00	99.65

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 48 general assembly meetings out of 48 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 39.58% of meetings.

In respect to Environmental and/or Social issues we voted for 2 out of 2 management resolutions and for 15 out of 31 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 18 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) The fund used a proprietary indicator based on natural language processing to provide a systematic and independent assessment of the alignment of the products and services of each issuer to all relevant SDGs. Individual issuer outputs were combined, on a sector relative basis, to provide a portfolio assessment of SDG alignment – showing aggregate positive, negative and average alignment to the 14 relevant SDGs. Portfolio level SDG alignment is shown on a quarterly basis in the compartment reporting documentation. Due to the detail provided, SDG alignment is not suitable to be shown in this document.

(\*\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Pictet Asset Management used a proprietary reference frameworks as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 31.51%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 24.44%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

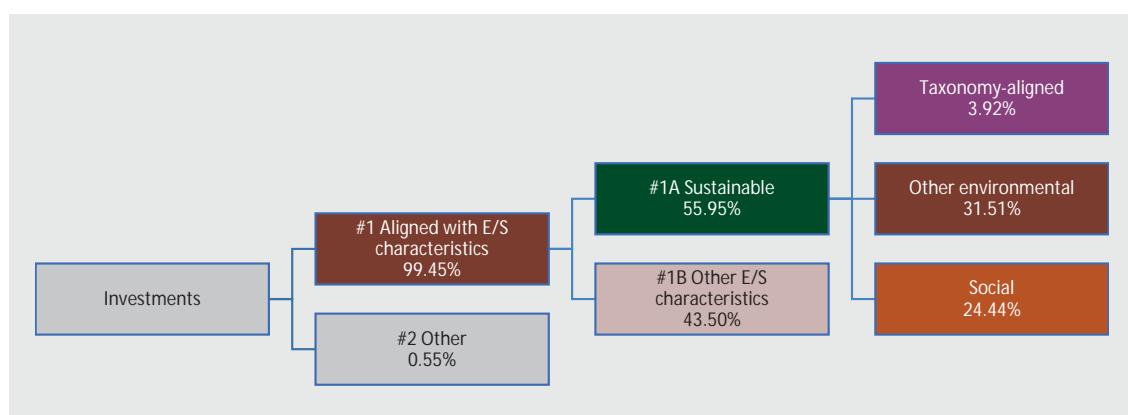

## What was the proportion of sustainability-related investments?

55.95%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 99.45% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 0.55% invested in Other (#2 Other). 55.95% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by

revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

*Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.*

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas  In nuclear energy

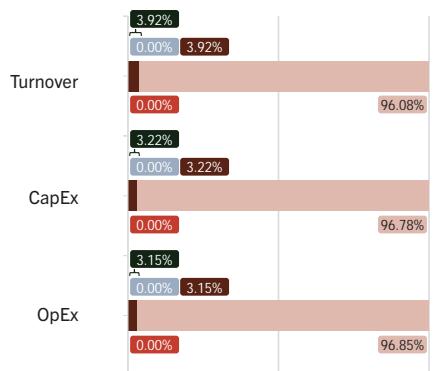

No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

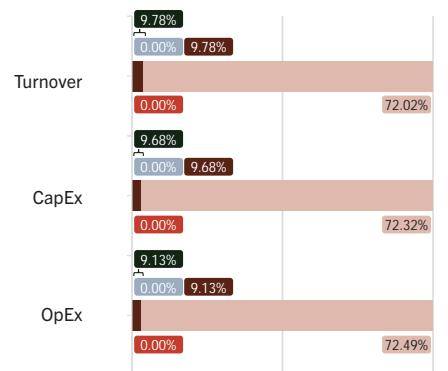

Taxonomy-aligned activities are expressed as a share of:  
- **turnover** reflects the “greeness” of investee companies today.  
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

#### 1. Taxonomy-alignment of investments including sovereign bonds\*

#### 2. Taxonomy-alignment of investments excluding sovereign bonds\*

Taxonomy-aligned: Fossil gas  
 Taxonomy-aligned: Nuclear  
 Taxonomy-aligned (no fossil gas and nuclear)  
 Non Taxonomy-aligned

This graph represents 99.45% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Enabling activities**  
directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities**  
are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 0.28%

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

31.51%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that **do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.**

**What was the share of socially sustainable investments?**

24.44%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 18 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

##### ● How did the reference benchmark differ from a broad market index?

Not applicable.

##### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

##### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

##### ● How did this financial product perform compared with the broad market index?

Not applicable.

Template periodic disclosure for the financial products referred to in Article 9, paragraphs 1 to 4a, of Regulation (EU) 2019/2088 and Article 5, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - ReGeneration**

Legal entity identifier: **2138000U5V7XZIMGDV31**

## SUSTAINABLE INVESTMENT OBJECTIVE

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 59.85%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
<input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 38.27%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

### To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- Positive impact:

The fund achieved a positive environmental and/or social impact by mainly investing in companies with a low environmental footprint that contribute with their products and services to solving two closely linked environmental challenges: biodiversity and the circular economy.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, renewable resources, ecological design, optimized production, biological cycle, smart consumption, waste repurposing and other relevant economic activities.

Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	10%
Thermal Coal Power Generation	10%
Oil & Gas Production	10%
Oil Sands Extraction	10%
Shale Energy Extraction	10%
Off-shore Arctic Oil & Gas Exploration	10%
Nuclear Power Generation	50%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Production of nuclear weapons from countries signatory to the NPT	Excluded
Military Contracting Weapons	10%
Military Contracting Weapon-Related Products and/or Services	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	10%
Small Arms Key Components	10%
<b>Addictive Products</b>	
Alcoholic Beverages Production	10%
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
Gambling Specialised Equipment	10%
<b>Agriculture</b>	
Genetically Modified Plants and Seeds Development	10%
Genetically Modified Plants and Seeds Growth	10%
Pesticides Production	10%
Pesticides Retail	10%
Palm Oil Production and Distribution	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded[2]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights. The fund also engaged with the management of selected companies on material ESG issues.

- Sustainable Investments:

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

#### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 59.85%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 38.27%.

### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

98.12%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 0.58 against 0.02 for the reference index. A higher score means a lower risk. Scores range from -2 to 1, 1 being the best.

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability  
indicators** measure  
how the sustainable  
objectives of this  
financial product are  
attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.01	3.53
Weapons	0.03	0.97
Other controversial activities	0.06	0.84
Eligible:	98.12	100.00
Covered:	100.00	99.65

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 53 general assembly meetings out of 53 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 54.72% of meetings.

In respect to Environmental and/or Social issues we voted for 3 out of 3 management resolutions and for 2 out of 5 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 22 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

## ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in

the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

### How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

## What was the proportion of sustainability-related investments?

98.12%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund allocated 98.12% of its assets to Sustainable investments (#1 Sustainable) and 1.88% to Not sustainable investments (#2 Not sustainable). 59.85% of its assets is allocated to environmental objectives and 38.27% to social objectives.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

*Source: Pictet Asset Management, Factset RBICS, MSCI.*

Comparison of the asset allocation to previous period:

Asset allocation	16.12.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Sustainable	95.69%	98.12%
#2 Not sustainable	4.31%	1.88%
Environmental	58.69%	59.85%
Social	37.00%	38.27%
Taxonomy-aligned	3.33%	3.03%
Other	58.69%	59.85%

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

Yes:

In fossil gas     In nuclear energy

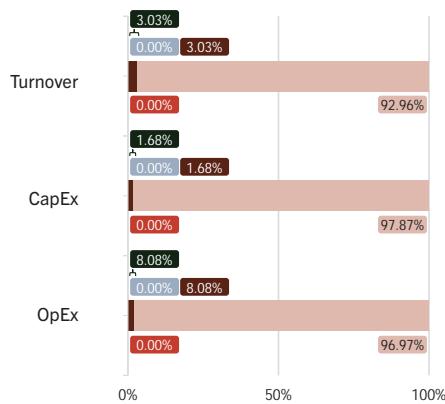

No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

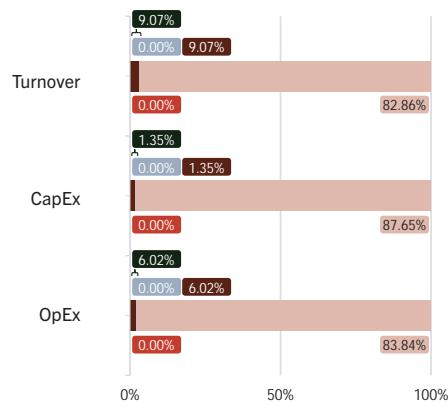

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflecting the share of revenue from green activities of investee companies  
 - **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

■ Taxonomy-aligned: Fossil gas

■ Taxonomy-aligned: Nuclear

■ Taxonomy-aligned (no fossil gas and nuclear)

■ Non Taxonomy-aligned

This graph represents 98.12% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 1.27%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Transitional activities**  
are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 3.33% versus 3.03% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

59.85%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

38.27%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as renewable resources, ecological design, optimized production, biological cycle, smart consumption, waste repurposing and other relevant economic activities (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
- are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium

- derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds
- severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 22 companies as of 30.09.2024.

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

**Reference benchmarks** are indexes to measure whether the financial product attains the sustainable objective

#### How did the reference benchmark differ from a broad market index?

Not applicable.

#### How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### How did this financial product perform compared with the reference benchmark?

Not applicable.

#### How did this financial product perform compared with the broad market index?

Not applicable.

Product name: **Pictet - China Environmental Opportunities**

Legal entity identifier: **2138005SU67AUB1RXC79**

## SUSTAINABLE INVESTMENT OBJECTIVE

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input checked="" type="checkbox"/> It made sustainable investments with an environmental objective: 77.79%	<input type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of ___% of sustainable investments
<input checked="" type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/> It made sustainable investments with a social objective: 17.99%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

### To what extent was the sustainable investment objective of this financial product met?

Main ways in which the fund achieved its sustainable objective:

- Positive impact:

This fund achieved a positive environmental and/or social impact by investing mainly in Chinese companies with a low environmental footprint that contribute to solving global environmental challenges by providing products and services in the environmental value chain. These products and services are needed to support the transition towards a lower carbon economy, a circular economy model, monitor and prevent pollution or for example protect scarce resources such as water.

No reference index has been designated for the purpose of attaining the sustainable investment objective.

The fund invested mainly in companies whose significant proportion of their activities are related to, but not limited to, renewable energy, green transportation, industrial decarbonization, resource efficiency, environmental protection.

Eligible securities included equities issued by companies with a significant proportion of activities (as measured by revenue, EBIT, enterprise value or similar metrics) derived from such economic activities.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Activity	Revenue thresholds
<b>Energy</b>	
Thermal Coal Extraction	10%
Thermal Coal Power Generation	10%
Oil & Gas Production	10%
Oil Sands Extraction	10%
Shale Energy Extraction	10%
Off-shore Arctic Oil & Gas Exploration	10%
Nuclear Power Generation	50%
<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Production of nuclear weapons from countries signatory to the NPT	Excluded
Military Contracting Weapons	10%
Military Contracting Weapon-Related Products and/or Services	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	10%
Small Arms Key Components	10%
<b>Addictive Products</b>	
Alcoholic Beverages Production	10%
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%
Gambling Specialised Equipment	10%
<b>Agriculture</b>	
Genetically Modified Plants and Seeds Development	10%
Genetically Modified Plants and Seeds Growth	10%
Pesticides Production	10%
Pesticides Retail	10%
Palm Oil Production and Distribution	10%
<b>Company Exclusions based on Breaches of International Norms</b>	
Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
High controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded[2]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] Applies only to Sustainable Investments.

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

In addition to the above exclusions based on Pictet Asset Management's Responsible Investment policy, the strategy applied stricter exclusion limits based on internal guidelines.

- Active ownership:

The fund methodically exercised its voting rights. The fund also engaged with the management of selected companies on material ESG issues.

- Sustainable Investments:

Pictet Asset Management used a proprietary framework as well as the objectives of the EU Taxonomy to define sustainable investments.

The fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

#### Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 77.79%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 17.99%.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- The percentage of the financial product's exposure to "sustainable investments" as defined in Article 2 (17) of SFDR:

95.78%

- Overall ESG profile

The fund's weighted average ESG score was better than that of the reference index after removing the bottom 20% of issuers with the weakest ESG scores.

The fund's weighted average ESG score was 0.60 against 0.09 for the reference index . A higher score means a lower ESG risk. Scores range from -2 to 1, 1 being the best.

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability  
indicators**  
measure  
how the sustainable  
objectives of this  
financial product are  
attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment as detailed below:

Controversial activities (weighted average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	3.25
Weapons	0.00	0.25
Other controversial activities	0.04	0.01
Eligible:	95.78	100.00
Covered:	98.42	99.82

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 86 general assembly meetings out of 86 votable meetings (100.00%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 40.70% of meetings.

In respect to Environmental and/or Social issues we voted for 0 out of 0 management resolutions and for 2 out of 2 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 2 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

<b>Engagement</b>	2		2			

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

## ● How did the sustainable investments not cause significant harm to any sustainable investment objective?

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were excluded.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in

the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks and opportunities as well as the exposure to sustainable investments as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

(iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers to address either significant ESG concerns, improve companies' sustainability practices or engage on positive impact topics to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

### What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Beijing-Shanghai High Spe-A	Industrials	5.12	China

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

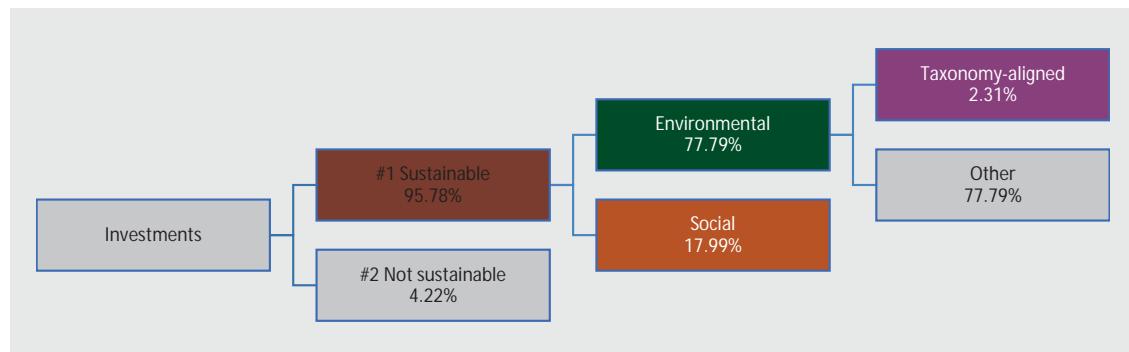

### What was the proportion of sustainability-related investments?

95.78%

#### What was the asset allocation?

The fund allocated 95.78% of its assets to Sustainable investments (#1 Sustainable) and 4.22% to Not sustainable investments (#2 Not sustainable). 77.79% of its assets is allocated to environmental objectives and 17.99% to social objectives.

#1 Sustainable covers sustainable investments with environmental or social objectives.

#2 Not sustainable includes investments which do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented

policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

*Source: Pictet Asset Management, Factset RBICS, MSCI.*

Comparison of the asset allocation to previous period:

Asset allocation	31.03.2023 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Sustainable	96.76%	95.78%
#2 Not sustainable	3.24%	4.22%
Environmental	78.93%	77.79%
Social	17.84%	17.99%
Taxonomy-aligned	1.48%	2.31%
Other	78.93%	77.79%

*Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.*

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:

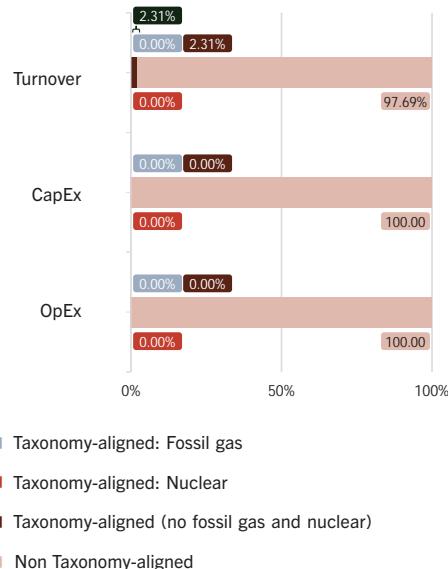

- **turnover** reflecting the share of revenue from green activities of investee companies
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g. for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

## Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

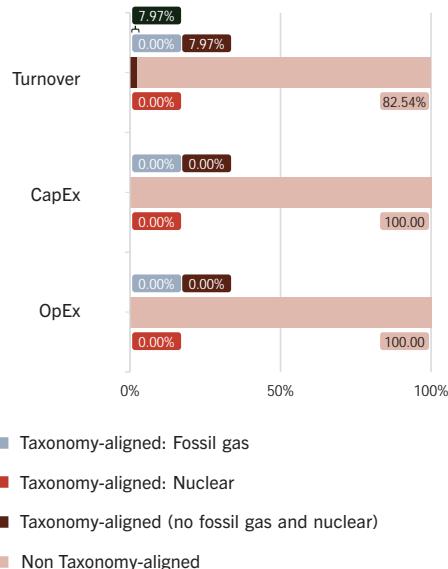

- Yes:  
 In fossil gas     In nuclear energy  
 No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 95.78% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

## What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.00%
- Enabling activities: 0.00%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 1.48% versus 2.31% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

77.79%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under the EU Taxonomy.

**What was the share of socially sustainable investments?**

17.99%

**What investments were included under “not sustainable”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund's “not sustainable” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund's investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to attain the sustainable investment objective during the reference period?**

During the reference period, the attainment of the sustainable investment objective was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- at least 80% of sustainable investments, i.e. investments in companies that have a significant exposure to activities such as renewable energy, green transportation, industrial decarbonization, resource efficiency, environmental protection (as measured by revenue, enterprise value, earnings before interest and tax, or similar)
- exclusion of issuers that:
  - are involved in the production of controversial weapons including anti-personnel mines, cluster munitions, biological and chemical weapons, nuclear weapons and depleted uranium
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas exploration and extraction, conventional oil and gas production, nuclear power generation, military contracting weapons, weapon-related products and services, small arms, alcoholic beverages, tobacco production, adult entertainment production, gambling operations and specialised equipment, genetically modified organisms development and growth, pesticides production and retail, and palm oil production and distribution. Please refer to Pictet Asset Management's Responsible Investment policy for further details on excluded sectors and exclusion thresholds
  - severely violate international norms including the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- a better ESG profile than the reference index after removing the bottom 20% of issuers with the weakest ESG characteristics

- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 2 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the sustainable investment objective.

**Reference benchmarks** are indexes to measure whether the financial product attains the sustainable objective

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>44.62%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input checked="" type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the reference index. The MSCI World index was used to measure the positive tilt; however, no reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

For further details please refer to Pictet Asset Management's Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

#### **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund's weighted average ESG score was better than that of the reference index.

The fund's weighted average ESG score was 7.98 against 7.95 for the reference index. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	3.84	3.45
Weapons	0.29	1.03
Other controversial activities	0.10	0.88
Eligible:	99.60	100.00
Covered:	99.66	99.66

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Voting rights

During the reference period, the fund voted at 190 general assembly meetings out of 197 votable meetings (96.45%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 41.62% of meetings.

In respect to Environmental and/or Social issues we voted for 43 out of 47 management resolutions and for 41 out of 67 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

#### • Engagement

The fund engaged with 63 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Not applicable.

#### ● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation

- Efficiency & Circularity
  - Natural Capital Management
- Such investments represented 17.21%.

#### Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 27.40%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

**● How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

**● How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

**● Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?**

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognized global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is:  
28.03.2024 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Apple Inc	Information Technology	4.86	United States of America
Microsoft Corp	Information Technology	4.80	United States of America

Source: Pictet Asset Management, GICS/MSCI. Exposure data are expressed as a quarterly weighted average.

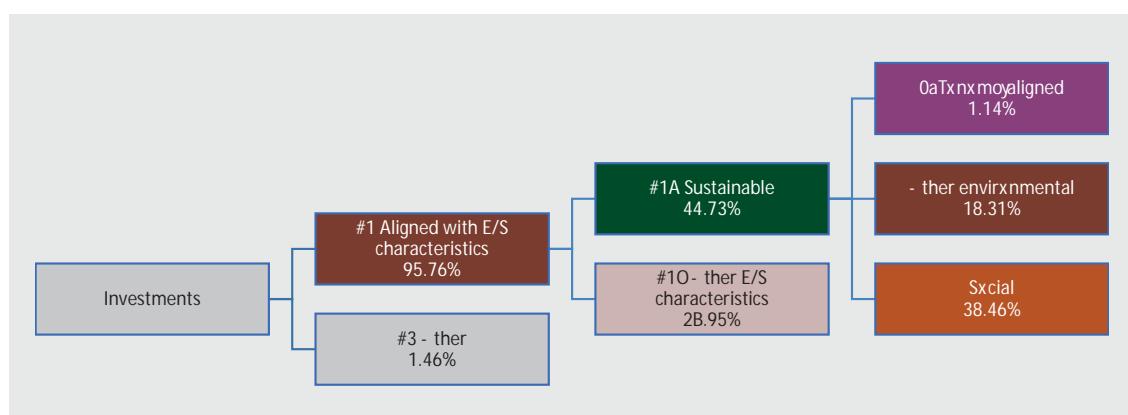

## What was the proportion of sustainability-related investments?

44.62%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 98.60% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 1.40% invested in Other (#2 Other). 44.62% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by

revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas  In nuclear energy

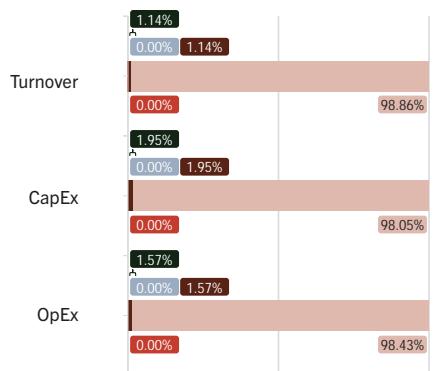

No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

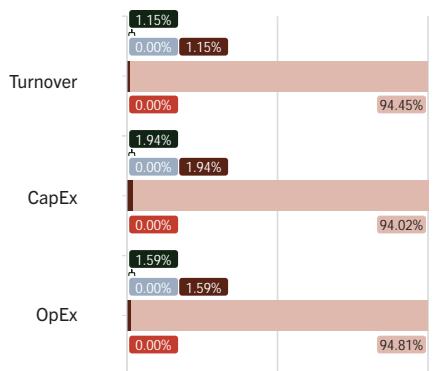

Taxonomy-aligned activities are expressed as a share of:  
- **turnover** reflects the “greeness” of investee companies today.  
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

#### 1. Taxonomy-alignment of investments including sovereign bonds\*

#### 2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 98.60% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Enabling activities**  
directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities**  
are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **What was the share of investments made in transitional and enabling activities?**

The share of investments made in:

- Transitional activities: 0.03%
- Enabling activities: 0.83%

● **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

17.21%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

● **What was the share of socially sustainable investments?**

27.40%

● **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

● **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
- are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons

- derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
- severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 63 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Multi Asset Global Opportunities**

Legal entity identifier: **549300Y6STSCWOUIU46**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> ● <input type="radio"/> Yes	<input checked="" type="radio"/> ● <input type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>34.88%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks and, as a result, had a better environmental, social and governance (ESG) profile than the investment universe.

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

#### **Country Exclusions**

Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund methodically exercised its voting rights and engaged with the management of selected companies on material ESG issues.

The proxy voting and engagement process were mainly led by investment professionals across several investment teams at Pictet Asset Management, with the support of a central ESG team.

- **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund’s weighted average ESG score was better than that of the investment universe.

The fund’s weighted average ESG score was 5.21 against 5.00 for the investment universe. A higher score means a lower risk. Scores range from 0 to 10, 10 being the best.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	1.45	N/A
Weapons	0.09	N/A
Other controversial activities	0.11	N/A
Eligible:	52.50	N/A
Covered:	97.25	N/A

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

- **Voting rights**

During the reference period, the fund voted at 1388 general assembly meetings out of 1392 votable meetings (99.71%). We voted "against" (incl. "abstained" or "withhold") at least one resolution at 42.17% of meetings.

In respect to Environmental and/or Social issues we voted for 130 out of 135 management resolutions and for 264 out of 433 shareholder resolutions.

Source: Pictet Asset Management, ISS ESG.

- **Engagement**

The fund engaged with 246 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

## Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 21.18%.

## Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 13.70%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

### ● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

### ● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

### ● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) proxy voting

The fund followed Pictet Asset Management's voting guidelines which are designed to support a strong culture of corporate governance, effective management of environmental and social issues and comprehensive reporting according to credible standards. These guidelines also seek to support recognised global governing bodies promoting sustainable business practices advocating for stewardship of environment, fair labour practices, non-discrimination, and the protection of human rights. All voting activities of the fund were logged and can be shared upon request.

### (iii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organisation, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives.

Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

The proxy voting and engagement process were mainly led by investment professionals across several investment teams in Pictet Asset Management, with the support of a central ESG team.

### (iv) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's responsible investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

## What was the proportion of sustainability-related investments?

34.88%

**Asset allocation**  
describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 92.72% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 7.28% invested in Other (#2 Other). 34.88% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable

investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

Yes:

In fossil gas  In nuclear energy

No

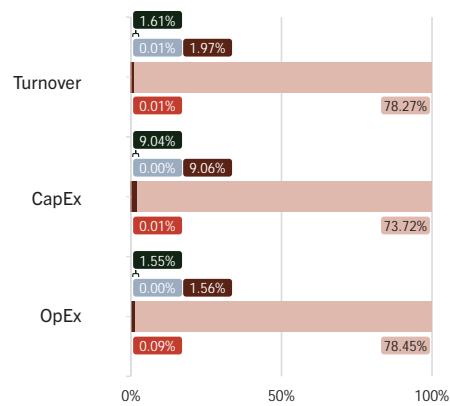

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

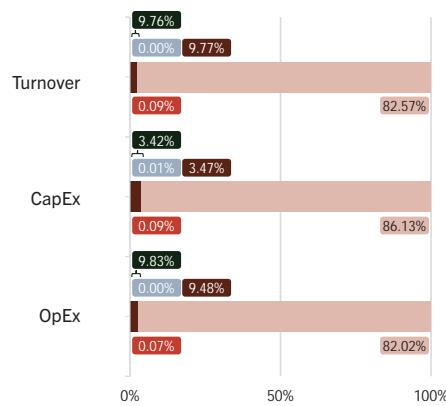

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

#### 1. Taxonomy-alignment of investments including sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned (no fossil gas and nuclear)
- Non Taxonomy-aligned

#### 2. Taxonomy-alignment of investments excluding sovereign bonds\*

- Taxonomy-aligned: Fossil gas
- Taxonomy-aligned: Nuclear
- Taxonomy-aligned (no fossil gas and nuclear)
- Non Taxonomy-aligned

This graph represents 52.92% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

#### ● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.07%
- Enabling activities: 0.70%

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.74% versus 1.31% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

21.18%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

### What was the share of socially sustainable investments?

13.70%

### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- a better ESG profile than the investment universe
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 246 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?  
Not applicable.
- How did this financial product perform compared with the reference benchmark?  
Not applicable.
- How did this financial product perform compared with the broad market index?  
Not applicable.

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Short-Term Money Market CHF**

Legal entity identifier: **549300B0XJ1QTRUQE61**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>15.80%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks, resulting in a better environmental, social and governance (ESG) profile than a neutral portfolio. A neutral portfolio would have an average ESG Risk rating of "medium".

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

#### **Country Exclusions**

Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund's exposure was 50.32% versus 0.00% for the neutral portfolio.

Exposure range from -100% to 100%, 100% being the best. To achieve a positive tilt the fund's exposure should always be greater than 0%.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.17	N/A
Weapons	0.01	N/A
Other controversial activities	0.01	N/A
Eligible:	71.62	N/A
Covered:	96.96	N/A

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 7 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024	Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024
Overall ESG profile	Fund ESG score: 47.14%  Neutral portfolio ESG score: 0.00%	Fund ESG score: 50.32%  Neutral portfolio ESG score: 0.00%	Higher fund's score than that of the neutral portfolio	Higher fund's score than that of the neutral portfolio
Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund  Fossil fuels and nuclear energy  Weapons  Other controversial activities	Refer- ence Index  N/A  N/A  N/A	Fund  0.08%  0.03%  0.01%	Refer- ence Index  N/A  N/A  N/A
			0.17%  0.01%  0.01%	N/A  (*)  (*)  (*)

Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Reference Index	Fund	Reference Index	
Eligible (**):	79.29%	N/A	71.62%	N/A	
Covered (**):	94.94%	N/A	96.96%	N/A	
Engagement	14		7		

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 7.36%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 8.45%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

## What was the proportion of sustainability-related investments?

15.80%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 92.66% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 7.34% invested in Other (#2 Other). 15.80% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

*Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.*

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Aligned with E/S characteristics	93.71%	92.66%
#2 Other	6.29%	7.34%
#1A Sustainable	13.96%	15.80%
#1B Other E/S characteristics	79.75%	76.86%
Taxonomy-aligned	1.16%	1.12%
Other environmental	2.13%	7.36%
Social	11.83%	8.45%

#### ● In which economic sectors were the investments made?

SECTOR LEVEL 1	SECTOR LEVEL 4	% ASSETS
Automobile		4.22
Basic Industries		0.27

Telecommunication		0.54
Transportation		0.67
Utilities		1.05

*Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.*

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation. Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the “greenness” of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

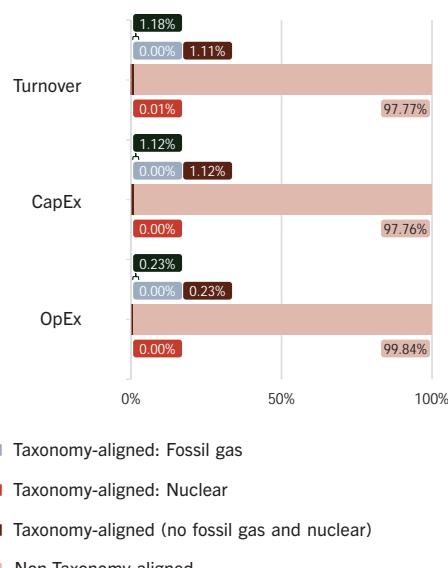

Yes:

In fossil gas    In nuclear energy

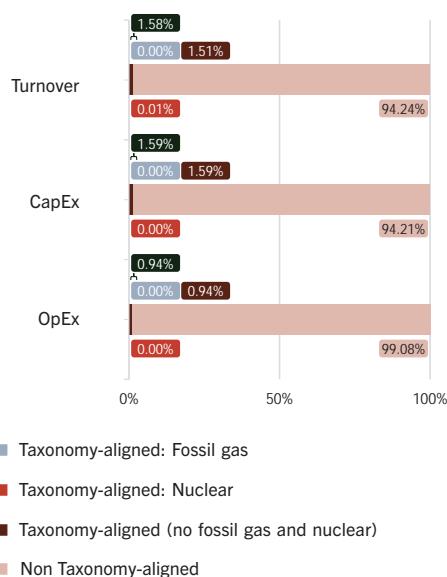

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 71.62% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

### ● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.03%
- Enabling activities: 0.79%

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 1.16% versus 1.12% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

7.36%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

8.45%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
- are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
- derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
- severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- overweight securities with low sustainability risks

- ESG criteria analysis of eligible securities that covers at least 80% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 7 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

**Legal entity identifier: 549300TT7REUYX78XS84**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> ●	<input type="checkbox"/> Yes
<input type="checkbox"/>	It made sustainable investments with an environmental objective: ___%
<input type="checkbox"/>	in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/>	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/>	It made sustainable investments with a social objective: ___%
<input type="checkbox"/>	It promoted E/S characteristics, but did not make any sustainable investments
<input checked="" type="radio"/> ●	<input checked="" type="checkbox"/> No
<input checked="" type="checkbox"/>	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>10.35%</b> of sustainable investments
<input type="checkbox"/>	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/>	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/>	with a social objective

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks, resulting in a better environmental, social and governance (ESG) profile than a neutral portfolio. A neutral portfolio would have an average ESG Risk rating of "medium".

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

<b>Weapons</b>	
Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

<b>Addictive Products</b>	
Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

<b>Country Exclusions</b>	
Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund's exposure was 52.55% versus 0.00% for the neutral portfolio.

Exposure range from -100% to 100%, 100% being the best. To achieve a positive tilt the fund's exposure should always be greater than 0%.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.09	N/A
Weapons	0.01	N/A
Other controversial activities	0.01	N/A
Eligible:	71.65	N/A
Covered:	98.61	N/A

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 13 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 4.64%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 5.71%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

## What was the proportion of sustainability-related investments?

10.35%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 91.55% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 8.45% invested in Other (#2 Other). 10.35% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

*Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.*

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Aligned with E/S characteristics	92.07%	91.55%
#2 Other	7.93%	8.45%
#1A Sustainable	10.14%	10.35%
#1B Other E/S characteristics	81.93%	81.20%
Taxonomy-aligned	0.33%	0.61%

Telecommunication	0.49
Transportation	0.40
Utilities	0.53

*Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.*

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports. The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation. Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the “greenness” of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

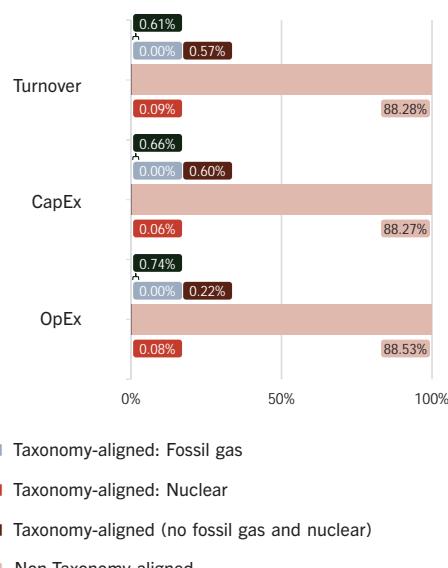

Yes:

In fossil gas    In nuclear energy

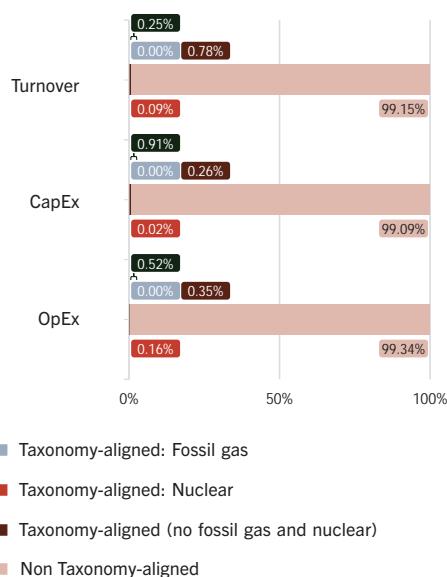

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 71.65% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

### ● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.07%
- Enabling activities: 0.33%

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.33% versus 0.61% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

4.64%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

5.71%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
- are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
- derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
- severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- overweight securities with low sustainability risks

- ESG criteria analysis of eligible securities that covers at least 80% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 13 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

In addition to the terms and conditions of any license agreement for MSCI information, services or products (“MSCI Products”) entered into with MSCI Inc. and/or its affiliates (“MSCI”) by customers (“Customer(s)”), each Customer must comply with the terms and conditions required by third party suppliers (“Supplier(s)”) regarding Customer’s use of Supplier content, data, software and other materials (“Materials”) within MSCI Products. Customers may also be required to pay additional fees associated with Supplier Materials. If a Customer does not comply with a Supplier’s terms, a Supplier may enforce such terms and/or require MSCI to terminate Customer’s access to that Supplier’s Materials, without any remedy to Customer.

Additional terms and conditions required by Suppliers with respect to its Materials are provided in the expanders below. If Customer receives Materials from a Supplier not listed below via MSCI Products, additional terms and conditions related to such Materials may apply. Notwithstanding

anything to the contrary set forth below, none of the additional terms and conditions of MSCI Suppliers shall supersede (nor shall MSCI waive) any MSCI proprietary and/or intellectual property rights in MSCI Products.

01.10.2023 - 30.09.2024

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

Product name: **Pictet - Short-Term Money Market EUR**

Legal entity identifier: **549300M2254XJ2ZJD015**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>10.85%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks, resulting in a better environmental, social and governance (ESG) profile than a neutral portfolio. A neutral portfolio would have an average ESG Risk rating of "medium".

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

#### **Country Exclusions**

Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund's exposure was 54.51% versus 0.00% for the neutral portfolio.

Exposure range from -100% to 100%, 100% being the best. To achieve a positive tilt the fund's exposure should always be greater than 0%.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.09	N/A
Weapons	0.01	N/A
Other controversial activities	0.01	N/A
Eligible:	73.94	N/A
Covered:	98.58	N/A

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 12 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ● ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 5.37%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 5.48%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

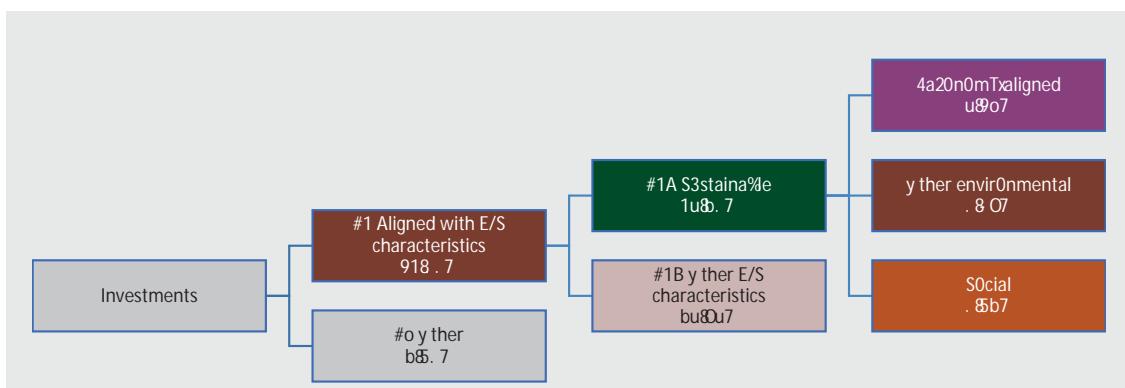

## What was the proportion of sustainability-related investments?

10.85%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 91.55% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 8.45% invested in Other (#2 Other). 10.85% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

*Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.*

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Aligned with E/S characteristics	91.14%	91.55%
#2 Other	8.86%	8.45%
#1A Sustainable	13.28%	10.85%
#1B Other E/S characteristics	77.86%	80.70%
Taxonomy-aligned	0.72%	0.92%
Other environmental	2.63%	5.37%
Social	10.65%	5.48%

● In which economic sectors were the investments made?

SECTOR LEVEL 1	% ASSETS

Financial	60.14
Government	8.96
Quasi-Sovereign	1.42
Sovereign	14.73
Telecommunication	0.16
Transportation	1.01
Utilities	0.90

*Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.*

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the “greenness” of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

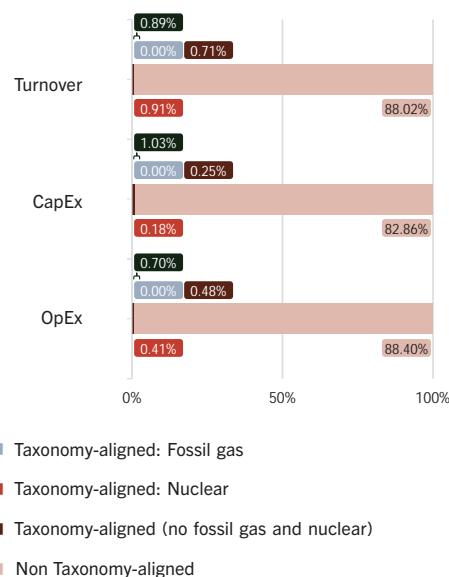

Yes:

In fossil gas  In nuclear energy

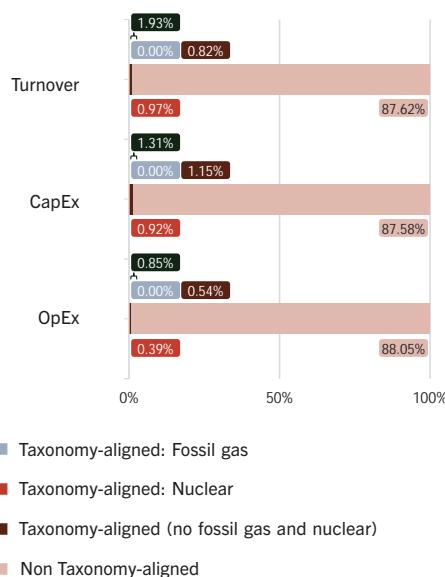

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 73.94% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.22%
- Enabling activities: 0.36%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.72% versus 0.92% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

5.37%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

5.48%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- overweight securities with low sustainability risks

- ESG criteria analysis of eligible securities that covers at least 80% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 12 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

In addition to the terms and conditions of any license agreement for MSCI information, services or products (“MSCI Products”) entered into with MSCI Inc. and/or its affiliates (“MSCI”) by customers (“Customer(s)”), each Customer must comply with the terms and conditions required by third party suppliers (“Supplier(s)”) regarding Customer’s use of Supplier content, data, software and other materials (“Materials”) within MSCI Products. Customers may also be required to pay additional fees associated with Supplier Materials. If a Customer does not comply with a Supplier’s terms, a Supplier may enforce such terms and/or require MSCI to terminate Customer’s access to that Supplier’s Materials, without any remedy to Customer.

Additional terms and conditions required by Suppliers with respect to its Materials are provided in the expanders below. If Customer receives Materials from a Supplier not listed below via MSCI Products, additional terms and conditions related to such Materials may apply. Notwithstanding

anything to the contrary set forth below, none of the additional terms and conditions of MSCI Suppliers shall supersede (nor shall MSCI waive) any MSCI proprietary and/or intellectual property rights in MSCI Products.

**01.10.2023 - 30.09.2024**

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Product name: Pictet - Short-Term Money Market JPY**

**Legal entity identifier: 549300184SDM88N97072**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> ●	<input type="checkbox"/> Yes
<input type="checkbox"/>	It made sustainable investments with an environmental objective: ___%
<input type="checkbox"/>	in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/>	in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/>	It made sustainable investments with a social objective: ___%
<input type="checkbox"/>	It promoted E/S characteristics, but did not make any sustainable investments
<input checked="" type="radio"/> ●	<input checked="" type="checkbox"/> No
<input checked="" type="checkbox"/>	It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>20.08%</b> of sustainable investments
<input checked="" type="checkbox"/>	with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/>	with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input checked="" type="checkbox"/>	with a social objective

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks, resulting in a better environmental, social and governance (ESG) profile than a neutral portfolio. A neutral portfolio would have an average ESG Risk rating of "medium".

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

#### **Country Exclusions**

Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● How did the sustainability indicators perform?

Over the reporting period the sustainability indicators performed as follows:

- Overall ESG profile

The fund's exposure was 57.27% versus 0.00% for the neutral portfolio.

Exposure range from -100% to 100%, 100% being the best. To achieve a positive tilt the fund's exposure should always be greater than 0%.

- Principle Adverse Impact (PAI)

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.09	N/A
Weapons	0.04	N/A
Other controversial activities	0.00	N/A
Eligible:	55.78	N/A
Covered:	98.75	N/A

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 5 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023		01.10.2023 - 30.09.2024		Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024
Overall ESG profile	Fund ESG score: 45.22%	Neutral portfolio ESG score: 0.00%	Fund ESG score: 57.27%	Neutral portfolio ESG score: 0.00%	Higher fund's score than that of the neutral portfolio	Higher fund's score than that of the neutral portfolio
Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Refer- ence Index	Fund	Refer- ence Index		
<i>Fossil fuels and nuclear energy</i>	0.10%	N/A	0.09%	N/A		(*)
<i>Weapons</i>	0.04%	N/A	0.04%	N/A		(*)
<i>Other controversial activities</i>	0.00%	N/A	0.00%	N/A		(*)

Covered (**):	92.94%	N/A	98.75%	N/A	
Engagement	6		5		

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 14.72%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 5.36%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

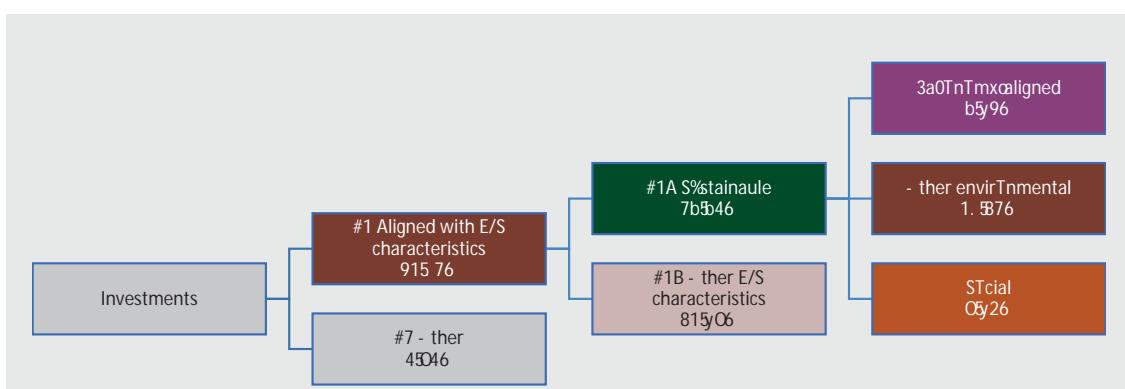

## What was the proportion of sustainability-related investments?

20.08%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 91.42% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 8.58% invested in Other (#2 Other). 20.08% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.
- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

*Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.*

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Aligned with E/S characteristics	95.93%	91.42%
#2 Other	4.07%	8.58%
#1A Sustainable	17.13%	20.08%
#1B Other E/S characteristics	78.80%	71.35%
Taxonomy-aligned	0.97%	0.39%
Other environmental	3.81%	14.72%
Social	13.32%	5.36%

● In which economic sectors were the investments made?

SECTOR LEVEL 1	% ASSETS
Automobile	3.37
Basic Industries	0.28
Consumer Cyclicals	0.62
Consumer Non-Cyclicals	1.83
Financial	44.51
Government	32.20
Quasi-Sovereign	1.92
Sovereign	4.89
Transportation	1.19
Utilities	0.62

*Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.*

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the “greenness” of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

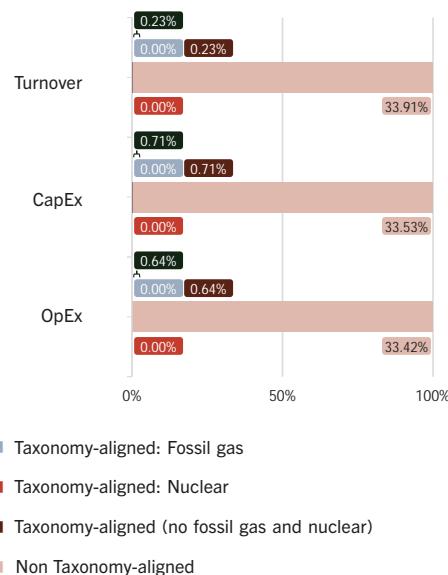

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

- Yes:  
 In fossil gas    In nuclear energy

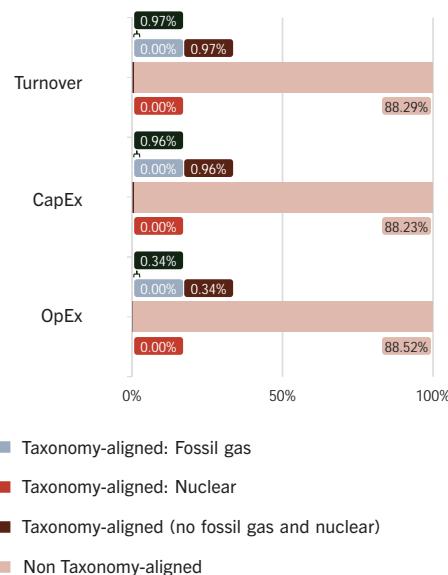

- No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 55.78% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

● What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.01%
- Enabling activities: 0.26%

Enabling activities directly enable other activities to make a substantial contribution to an environmental objective.

Transitional activities are activities for which low-carbon alternatives are not

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.97% versus 0.39% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

14.72%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

5.36%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- overweight securities with low sustainability risks

- ESG criteria analysis of eligible securities that covers at least 80% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 5 companies as of 30.09.2024.

### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**Reference benchmarks**  
are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

#### ● How did the reference benchmark differ from a broad market index?

Not applicable.

#### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

#### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

#### ● How did this financial product perform compared with the broad market index?

Not applicable.

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>9.67%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

The environmental and social characteristics of this fund included:

- Positive tilt:

The fund increased the weight of securities with low sustainability risks and/or decreased the weight of securities with high sustainability risks, resulting in a better environmental, social and governance (ESG) profile than a neutral portfolio. A neutral portfolio would have an average ESG Risk rating of "medium".

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

#### **Country Exclusions**

Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

The fund engaged with the management of selected companies on material ESG issues.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Overall ESG profile**

The fund's exposure was 52.56% versus 0.00% for the neutral portfolio.

Exposure range from -100% to 100%, 100% being the best. To achieve a positive tilt the fund's exposure should always be greater than 0%.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

Sustainability indicators measure how the environmental or social characteristics promoted by the financial product are attained.

In line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.06	N/A
Weapons	0.02	N/A
Other controversial activities	0.00	N/A
Eligible:	75.89	N/A
Covered:	99.33	N/A

\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

#### • Engagement

The fund engaged with 9 companies on ESG topics (based on companies held in the portfolio as at 30.09.2024). This includes in-house-led dialogues, collaborative investor initiatives, and third-party engagement services. To be considered an engagement, a dialogue with a targeted company must have a clear and measurable objective within a pre-defined time horizon. It is important to note that not all routine or monitoring interactions are regarded as engagements in our assessment even if they involve senior management or Board of Directors.

Source: Pictet Asset Management, Sustainalytics.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

#### ...and compared to previous periods?

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 3.96%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 5.71%.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

(i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.

(ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

The fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a "do no significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

### How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) engagement

Interaction with issuers took the form of one-to-one discussions, shareholder/bondholder meetings, investor roadshows and/or conference calls. The objectives of these interactions were to assess an organization, monitor that their strategy was implemented in line with our expectations and ensure that issuers were on track to meet their goals and objectives. Where appropriate, we engaged issuers on material ESG issues such as GHG reduction targets, governance improvements and on a range of environmental, social or governance controversies, to satisfy ourselves that they fully understood and addressed them effectively over the short, medium and long term. Our engagement activities included a combination of targeted in-house-led discussions, collaborative institutional investor initiatives, and third-party engagement services.

(iii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's Responsible Investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons.

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

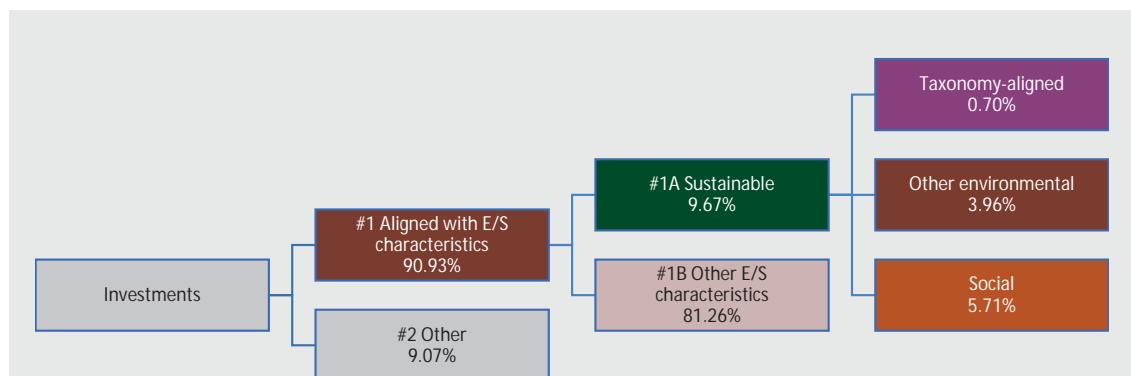

## What was the proportion of sustainability-related investments?

9.67%

**Asset allocation** describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 90.93% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 9.07% invested in Other (#2 Other). 9.67% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented

policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

- EU Green taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach. Given that Pictet Asset Management's proprietary framework to define sustainable investments requires a corporate issuer to have at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives, not all issuers with reported EU taxonomy alignment are automatically considered as sustainable investments.

*Source: Pictet Asset Management, Sustainalytics, Factset RBICS, MSCI.*

Comparison of the asset allocation to previous period:

Asset allocation	02.05.2023 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Aligned with E/S characteristics	90.61%	90.93%
#2 Other	9.39%	9.07%
#1A Sustainable	10.73%	9.67%
#1B Other E/S characteristics	79.88%	81.26%

Basic Industries	1.44
Consumer Non-Cyclicals	1.06
Financial	66.97
Government	6.50
Media	0.22
Quasi-Sovereign	0.52
Sovereign	9.30
Utilities	0.71

*Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.*

#### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

The fund made investments in economic activities that contributed to the environmental objectives as set out in the Article 9 of Regulation (EU) 2020/852.

EU taxonomy-aligned investments were calculated on a revenue-weighted basis (ie security weights are multiplied by the proportion of revenues from economic activities that contribute to relevant environmental objectives) and cannot be consolidated with other numbers following a pass/fail approach.

EU Green Taxonomy alignment data were sourced from publicly available reports.

The monitoring procedures have been implemented to verify at all times compliance with Article 3 of the EU taxonomy regulation.

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

## Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

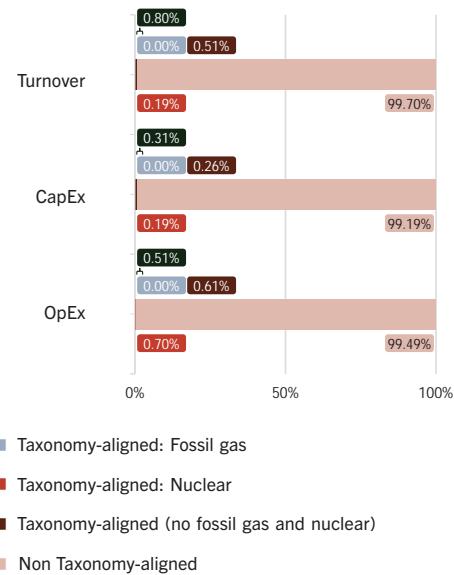

Yes:

In fossil gas    In nuclear energy

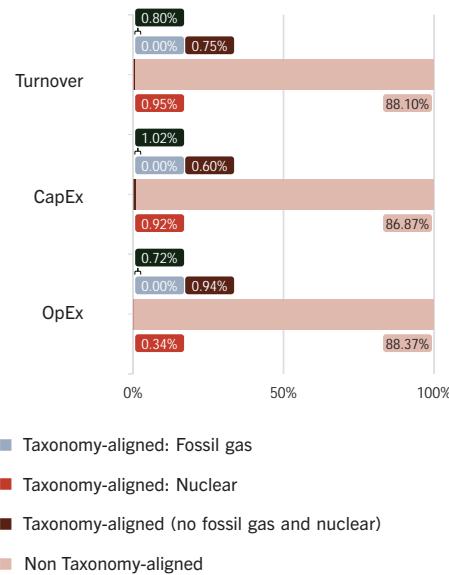

No

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 75.89% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

Source: Pictet Asset Management, MSCI.

## What was the share of investments made in transitional and enabling activities?

The share of investments made in:

- Transitional activities: 0.21%
- Enabling activities: 0.11%

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

The percentage of investments aligned with the EU Taxonomy in the previous reporting period was 0.34% versus 0.70% in the current reference period.

Please note that this fund did not have an ex-ante EU Taxonomy commitment.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

3.96%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

are sustainable investments with an environmental objective that do not take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

5.71%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- overweight securities with low sustainability risks
- ESG criteria analysis of eligible securities that covers at least 80% of net assets or the number of issuers in the portfolio

Furthermore, the fund engaged with 9 companies as of 30.09.2024.

## How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

Reference benchmarks are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

### ● How did the reference benchmark differ from a broad market index?

Not applicable.

### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

### ● How did this financial product perform compared with the reference benchmark?

Not applicable.

### ● How did this financial product perform compared with the broad market index?

Not applicable.

Product name: **Pictet - Sovereign Short-Term Money Market USD**

Legal entity identifier: **549300RS8D1NP2GNN063**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> ● <input type="radio"/> Yes	<input checked="" type="radio"/> ● <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>20.61%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Best-in-class:

The fund invested in securities of issuers with low sustainability risks while avoiding those with high sustainability risks, reducing the investment universe by at least 20%. The investment universe is composed of investment grade sovereign bonds.

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

#### **Country Exclusions**

Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

No engagements have been conducted during the reference period.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Reduction of the investment universe based on ESG factors**

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

The fund mainly invests in government bonds during the reference period. In case of investments in non-sovereign bonds and in line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment Policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	N/A
Weapons	0.00	N/A
Other controversial activities	0.00	N/A
Eligible:	36.13	N/A
Covered:	100.00	N/A

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

- ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023		01.10.2023 - 30.09.2024		Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024
Reduction of the investment universe based on ESG factors	Yes		Yes		20.00%	20.00%
Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Refer- ence Index	Fund	Refer- ence Index		
<i>Fossil fuels and nuclear energy</i>	0.00%	N/A	0.00%	N/A	(*)	
<i>Weapons</i>	0.00%	N/A	0.00%	N/A	(*)	
<i>Other controversial activities</i>	0.00%	N/A	0.00%	N/A	(*)	
<i>Eligible (**):</i>	46.78%	N/A	36.13%	N/A		
<i>Covered (**):</i>	100.00%	N/A	100.00%	N/A		

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental and/or social objectives such as:

Environmental

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 20.33%.

Social

- Healthy Life
- Water, Sanitation & Housing
- Education & Economic Empowerment
- Security & Connectivity

Such investments represented 0.29%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● **How were the indicators for adverse impacts on sustainability factors taken into account?**

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

- Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?

The fund mainly invests in government bonds during the reference period.

In case of investments in non-sovereign bonds, the fund excluded issuers that were subject to high or severe controversies in areas such as human rights, labour standards, environmental protection and anti-corruption, or in breach of UN Global Compact Principles or OECD Guidelines for Multinational Enterprises.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

### (i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

### (ii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's responsible investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's responsible investment policy.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

## What was the proportion of sustainability-related investments?

20.61%

**Asset allocation**  
describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 93.37% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 6.63% invested in Other (#2 Other). 20.61% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable", "Other Environmental" and "Social" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS.

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Aligned with E/S characteristics	95.78%	93.37%

● In which economic sectors were the investments made?

SECTOR LEVEL 1	% ASSETS
Agencies	0.67
Financial	11.27
Government	54.34
Sovereign	17.57
Supranational	9.53

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

- Yes:
  - In fossil gas  In nuclear energy
- No

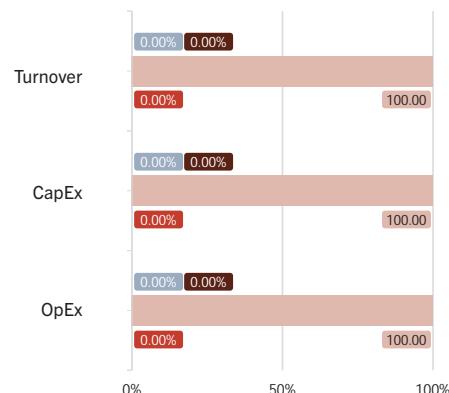

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

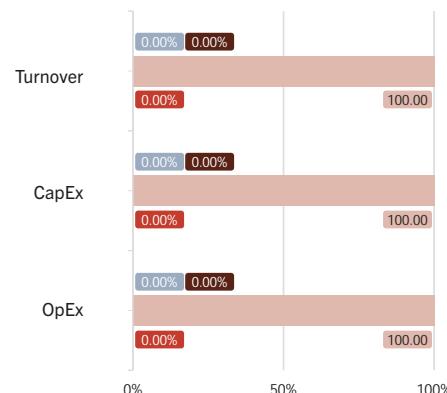

Taxonomy-aligned activities are expressed as a share of:  
 - **turnover** reflects the "greenness" of investee companies today.  
 - **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
 - **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 36.13% of the total investments.

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

#### ● What was the share of investments made in transitional and enabling activities?

Not applicable.

#### ● How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?

Not applicable.

What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?

20.33%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

  
are sustainable investments with an environmental objective that do not take into account the

#### What was the share of socially sustainable investments?

0.29%

#### What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

#### What actions have been taken to meet the environmental and/or social characteristics during the reference period?

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund's binding elements include:

- exclusion of issuers that:
  - are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons
  - derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
  - severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

Reference  
benchmarks are  
indexes to measure  
whether the financial  
product attains the  
environmental or  
social characteristics  
that they promote.

##### ● How did the reference benchmark differ from a broad market index?

Not applicable.

##### ● How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.

Product name: **Pictet - Sovereign Short-Term Money Market EUR**

Legal entity identifier: **549300VAPISFDQ8EQ771**

## ENVIRONMENTAL AND/OR SOCIAL CHARACTERISTICS

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include a list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

DID THIS FINANCIAL PRODUCT HAVE A SUSTAINABLE INVESTMENT OBJECTIVE?	
<input checked="" type="radio"/> Yes	<input checked="" type="radio"/> No
<input type="checkbox"/> It made sustainable investments with an environmental objective: ___%	<input checked="" type="checkbox"/> It promoted Environmental/Social (E/S) characteristics and while it did not have as its objective a sustainable investment, it had a proportion of <b>15.42%</b> of sustainable investments
<input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy	<input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy	<input checked="" type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy
<input type="checkbox"/> It made sustainable investments with a social objective: ___%	<input type="checkbox"/> with a social objective
	<input type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

Note: Pictet Asset Management used a proprietary framework to define sustainable investments. Sustainable investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO2 emissions or implemented policies that led to meaningful improvement in reducing CO2 emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives. Please refer to Pictet Asset Management's Responsible Investment policy for further details on our Sustainable Investment Framework.

To what extent were the environmental and/or social characteristics promoted by this financial product met?

The environmental and social characteristics of this fund included:

- Best-in-class:

The fund invested in securities of issuers with low sustainability risks while avoiding those with high sustainability risks, reducing the investment universe by at least 20%. The investment universe is composed of investment grade sovereign bonds.

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

- Norms- and values-based exclusions:

The fund excluded issuers that have significant activities with adverse impacts on society or the environment or are in severe breach of international norms as detailed below:

### Company Exclusions based on Controversial Activities and Revenue thresholds

Activity	Revenue thresholds
Energy	
Thermal Coal Extraction	25%

#### **Company Exclusions based on Controversial Activities and Revenue thresholds**

Thermal Coal Power Generation	25%
Oil Sands Extraction	25%
Shale Energy Extraction	25%
Off-shore Arctic Oil & Gas Exploration	10%

#### **Weapons**

Production of controversial weapons[1]	Excluded
Military Contracting Weapons	10%
Small Arms Civilian Customers (Assault Weapons)	10%
Small Arms Civilian Customers (Non-Assault Weapons)	10%
Small Arms Military/Law Enforcement Customers	25%
Small Arms Key Components	25%

#### **Addictive Products**

Tobacco Products Production	10%
Adult Entertainment Production	10%
Gambling Operations	10%

#### **Company Exclusions based on Breaches of International Norms**

Breaches of, or severe controversies related to UN Global Compact Principles or OECD Guidelines for Multinational Enterprises	Excluded
---	----------

#### **Country Exclusions**

Countries (i) listed as State Sponsors of Terrorism as defined by the Office of Foreign Assets Control[2] or (ii) subject to EU financial sanctions targeting central banks and/or State-Owned enterprises (SOEs)	Excluded[3]
Countries (i) listed under “high alert” or “very high alert” in the Fragile State Index or (ii) affected by violent conflict as defined by the World Bank	Excluded[3]
Countries (i) listed under “alert” on the Fragile State Index or (ii) subject to export related sanctions by the EU	Watchlist[4]

[1] Regarding nuclear weapons, this exclusion applies to companies that have their registered office in a country which is not a signatory to the 1968 Treaty on the Non-Proliferation of Nuclear Weapons (NPT).

[2] “State Sponsors of Terrorism” is a designation applied by the United States Department of State to countries that repeatedly provided support to acts of international terrorism.

[3] Exclusions also apply to companies if the headquarter is located in an excluded country.

[4] In addition to hard exclusions, Pictet Asset Management maintains a watchlist including countries that require additional due diligence by investment teams prior to investment.

For further details please refer to Pictet Asset Management’s Responsible Investment policy. Note that our exclusion framework has been updated during 2024.

- Active ownership:

No engagements have been conducted during the reference period.

#### ● **How did the sustainability indicators perform?**

Over the reporting period the sustainability indicators performed as follows:

- **Reduction of the investment universe based on ESG factors**

The fund reduced its investment universe by removing at least 20% of issuers with the highest sustainability risks and/or principle adverse impacts on society or the environment.

Sustainability risks are ESG related risk or conditions that could cause a material negative impact on the value of investments if they were to occur. Sustainability risks included but were not limited to the following: climate transition risk, climate physical risk, environmental risk, social risk, governance risk. Periodic reviews and risk controls are in place to monitor implementation.

Principal adverse impacts are negative, material, or likely to be material effects on sustainability factors that are caused, compounded by, or directly linked to investment decisions and advices. Such principle adverse impacts included among others, GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/ radioactive waste, social & employee matters and corruption & bribery.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

- **Principle Adverse Impact (PAI)**

The fund considered principal adverse impacts (PAIs) on sustainability factors mainly through the exclusion of issuers associated with controversial conduct or activities. Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment. How exclusions map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

The fund mainly invests in government bonds during the reference period. In case of investments in non-sovereign bonds and in line with Pictet Asset Management's exclusion policy outlined in the firm's Responsible Investment Policy (see table above for excluded activities and applied exclusion thresholds), the fund did not have any exposure to companies that derived a significant portion of their revenue from activities detrimental to society or the environment:

Controversial activities (weighted-average company revenues, in %)\*:

	Fund (%)	Reference Index (%)
Fossil fuels and nuclear energy	0.00	N/A
Weapons	0.00	N/A
Other controversial activities	0.00	N/A
Eligible:	32.66	N/A
Covered:	100.00	N/A

*\*Fossil fuels and nuclear energy include thermal coal extraction and power generation, oil & gas production and extraction, shale energy extraction, off-shore arctic oil & gas exploration, and nuclear power generation. Weapons include military contracting (weapon and weapon related services), and small arms (civilian customers (assault/ non-assault weapons, military law enforcement, key components). Other controversial activities include tobacco production, adult entertainment production, gambling operation, GMS development or growth, pesticides production or retail. Exposures are based on third-party data and may not reflect our internal view. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis in instances where it is deemed incorrect or incomplete.*

Source: Pictet Asset Management, Sustainalytics.

In addition, the fund excluded issuers that had exposure to:

- (i) PAI 10: Violations of UN Global Compact principles and Organisation for Economic Cooperation and Development (OECD) Guidelines for Multinational Enterprises.
- (ii) PAI 14: Exposure to controversial weapons (anti-personnel mines, cluster munitions, chemical weapons and biological weapons).

Data provided have not been verified by an external auditor or reviewed by an independent third-party.

- ...and compared to previous periods?

Comparison of the sustainability indicators to previous period:

Sustainability indicators	01.10.2022 - 30.09.2023		01.10.2023 - 30.09.2024		Commitments 01.10.2022 - 30.09.2023	Commitments 01.10.2023 - 30.09.2024
Reduction of the investment universe based on ESG factors	Yes		Yes		20.00%	20.00%
Principle Adverse Impact (PAI) - Controversial activities (weighted average company revenues, in %) (**):	Fund	Refer- ence Index	Fund	Refer- ence Index		
<i>Fossil fuels and nuclear energy</i>	0.00%	N/A	0.00%	N/A	(*)	
<i>Weapons</i>	0.00%	N/A	0.00%	N/A	(*)	
<i>Other controversial activities</i>	0.00%	N/A	0.00%	N/A	(*)	
<i>Eligible (**):</i>	40.85%	N/A	32.66%	N/A		
<i>Covered (**):</i>	100.00%	N/A	100.00%	N/A		

(\*) For applied exclusion thresholds see table "Company Exclusions based on Controversial Activities and Revenue Thresholds" above.

(\*\*) Product Adverse Impact exposure is rebased on the eligible part of the fund. Categories changed in 2024 from "Not covered" to "Covered" and from "Not applicable" to "Eligible".

● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

The fund did not commit to a minimum proportion of sustainable investments.

However, ex-post, the fund invested in securities financing economic activities that substantially contributed to environmental objectives such as:

- De-carbonisation
- Efficiency & Circularity
- Natural Capital Management

Such investments represented 15.42%.

Pictet Asset Management used a proprietary reference framework as well as the objectives of the EU Taxonomy to define sustainable investments.

● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

To prevent sustainable investments from causing significant harm to any other environmental or social objective, the fund applied the following screening criteria on a best effort basis:

- (i) Exclusions of issuers that have significant activities with adverse impacts on society or the environment.
- (ii) Issuers associated with high and severe controversies were not counted as Sustainable Investments.

Information were obtained from third-part providers and/or internal research. ESG information from third-party data providers may have been incomplete, inaccurate or unavailable. As a result, there was a risk that the Investment Manager may incorrectly assessed a security or issuer, resulting in the incorrect inclusion or exclusion of a security in the fund. Incomplete, inaccurate or unavailable ESG data may also acted as a methodological limitation to a non-financial investment strategy (such as the application of ESG criteria or similar). Where identified, the Investment Manager sought to mitigate this risk through its own assessment. In the event that the ESG characteristics of a security held by the fund changed, resulting in the security being sold, the Investment Manager does not accept liability in relation to such change.

● *How were the indicators for adverse impacts on sustainability factors taken into account?*

The fund monitored all mandatory and two voluntary Principal Adverse Impact indicators where we have robust data available. The quality of available data is expected to improve over time.

The fund considered and, where possible, mitigated principal adverse impacts of its investments on society and the environment that were deemed material to the investment strategy through a combination of portfolio management decisions, exclusion of issuers associated with controversial conduct or activities, and active ownership activities.

Exclusions allowed the fund to remove economic activities and behaviours towards international norms that have high adverse impacts on society or the environment.

Active ownership activities aimed at positively influencing the issuer's ESG performance and to protect or enhance the value of investments. Engagement was conducted by the investment team either independently or as part of a Pictet-level initiative, or was conducted by a third party.

How exclusions and entity-level initiatives map to PAIs and their related indicators is set out in Pictet Asset Management's Responsible Investment policy.

● *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

Not applicable.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a “do no significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific Union criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

## How did this financial product consider principal adverse impacts on sustainability factors?

The fund considered and, where possible, mitigated adverse impacts that were deemed material to the investment strategy. Such adverse impacts included but were not limited to GHG emissions, air pollution, biodiversity loss, emissions to water, hazardous/radioactive waste, social and employee matters and corruption and bribery and were addressed through a combination of:

(i) portfolio management decisions

The investment team scored holdings according to an assessment of Environmental, Social & Governance risks as part of the fund's scoring framework. Scores are determined on a qualitative basis by the investment managers, informed by fundamental research and quantitative ESG data - including data on Principle Adverse Impact, ESG data provided by the companies and data provided by third-party ESG data providers. The investment team's scoring process was a key component of the compartment's portfolio construction process, determining target weights in the portfolio.

(ii) exclusion of issuers associated with controversial conduct or activities

The fund did not have any exposure to (i) companies that derived a significant portion of their revenue from activities detrimental to society or the environment as defined in Pictet Asset Management's responsible investment policy and/or (ii) companies that severely violated the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption and controversial weapons or (iii) countries subject to international sanctions see also detailed information on exclusions in Pictet Asset Management's responsible investment policy.

## What were the top investments of this financial product?

The list includes the investments constituting the greatest proportion of investments of the financial product during the reference period which is: 01.10.2023 - 30.09.2024

LARGEST INVESTMENTS	SECTOR	% ASSETS	COUNTRY
Cp Sweden Kingdm Of Zero % 09.02.2024	Government	1.42	Sweden

## What was the proportion of sustainability-related investments?

15.42%

**Asset allocation**  
describes the share of investments in specific assets.

### What was the asset allocation?

The fund was 91.99% aligned with E/S characteristics (#1 Aligned with E/S characteristics) and had 8.01% invested in Other (#2 Other). 15.42% were allocated to Sustainable Investments (#1A Sustainable Investments) and the remainder was invested in investments aligned with other environmental and/or social characteristics (#1B Other E/S characteristics).

**#1 Aligned with E/S characteristics** includes the investments of the financial product used to attain the environmental or social characteristics promoted by the financial product.

**#2 Other** includes the remaining investments of the financial product which are neither aligned with the environmental or social characteristics, nor are qualified as sustainable investments.

The category **#1 Aligned with E/S characteristics** covers:

- The sub-category **#1A Sustainable** covers environmentally and socially sustainable investments.
- The sub-category **#1B Other E/S characteristics** covers investments aligned with the environmental or social characteristics that do not qualify as sustainable investments.

- Pictet Asset Management used a proprietary framework to define sustainable investments. "#1A Sustainable" and "Other Environmental" investments were calculated on a pass/fail basis including labelled bonds, general bonds from countries that reduced CO<sub>2</sub> emissions or implemented policies that led to meaningful improvement in reducing CO<sub>2</sub> emissions, and securities from issuers with at least 20% combined exposure (as measured by revenue, EBIT, enterprise value or similar metrics) to economic activities that contributed to environmental or social objectives.

Source: Pictet Asset Management, Sustainalytics, Factset RBICS.

Comparison of the asset allocation to previous period:

Asset allocation	01.10.2022 - 30.09.2023	01.10.2023 - 30.09.2024
#1 Aligned with E/S characteristics	94.24%	91.99%
#2 Other	5.76%	8.01%
#1A Sustainable	0.00%	15.42%
#1B Other E/S characteristics	94.24%	76.57%
Taxonomy-aligned	0.00%	0.00%
Other environmental	0.00%	15.42%
Social	0.00%	0.00%

### In which economic sectors were the investments made?

SECTOR LEVEL 1	% ASSETS
Agencies	0.50
Financial	12.06

SECTOR LEVEL 1	% ASSETS
Government	56.96
Sovereign	12.94
Supranational	9.52

Source: Pictet Asset Management. Exposure data are expressed as a quarterly weighted average.

### To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Not applicable.

- Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

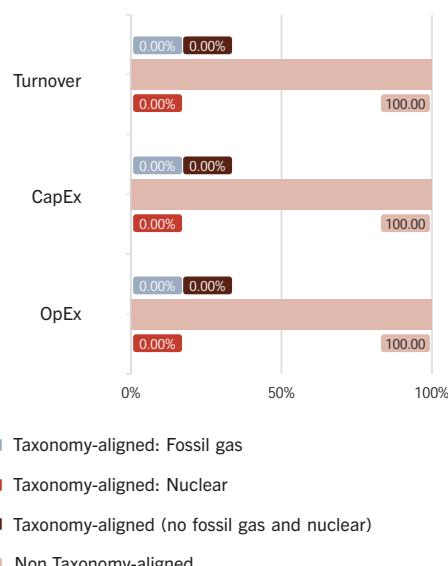

- Yes:  
 In fossil gas     In nuclear energy  
 No

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For **nuclear energy**, the criteria include comprehensive safety and waste management rules.

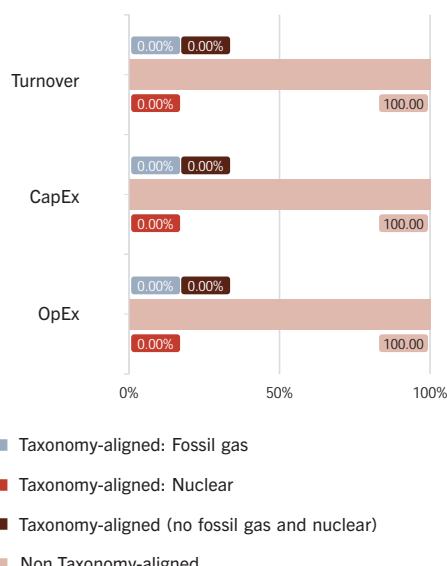

Taxonomy-aligned activities are expressed as a share of:  
- **turnover** reflects the “greenness” of investee companies today.  
- **capital expenditure** (CapEx) shows the green investments made by investee companies, relevant for a transition to a green economy.  
- **operational expenditure** (OpEx) reflects the green operational activities of investee companies.

The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the Taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy-alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy-alignment only in relation to the investments of the financial product other than sovereign bonds.

1. Taxonomy-alignment of investments including sovereign bonds\*

2. Taxonomy-alignment of investments excluding sovereign bonds\*

This graph represents 32.66% of the total investments.

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do no significant harm to any EU Taxonomy objective - see explanatory note in the left hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

**Enabling activities**  
directly enable other activities to make a substantial contribution to an environmental objective.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable.

**Transitional activities**  
are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

● **How did the percentage of investments that were aligned with the EU Taxonomy compare with previous reference periods?**

Not applicable.

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

15.42%

These Sustainable Investments are not aligned with the EU Taxonomy because their economic activities either (i) are not covered by the EU Taxonomy, or (ii) do not comply with the technical screening criteria to achieve substantial contribution in the sense of the EU Taxonomy.

  
are sustainable investments with an environmental objective that **do not** take into account the criteria for environmentally sustainable economic activities under Regulation (EU) 2020/852.

**What was the share of socially sustainable investments?**

0.00%

**What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

The fund’s “other” investments included cash positions primarily held for meeting daily liquidity and risk management purposes as allowed and foreseen by the fund’s investment policy. Where relevant, minimum environmental or social safeguards apply to the underlying securities.

**What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

During the reference period, the attainment of the environmental and/or social characteristics was met by following the investment strategy and adhering to the binding elements.

The fund’s binding elements include:

- exclusion of issuers that:
- are involved in the production of nuclear weapons in countries that are not signatories to the Treaty on the Non-Proliferation of Nuclear Weapons (NPT), and in the production of other controversial weapons

- derive a significant portion of their revenue from activities detrimental to society or the environment, such as thermal coal extraction and power generation, unconventional oil and gas production, military contracting weapons and small arms, tobacco products, gambling operations and adult entertainment production. Please refer to Pictet Asset Management's Responsible Investment policy for further details on exclusion thresholds.
- severely violate the UN Global Compact principles on human rights, labour standards, environmental protection and anti-corruption
- exclusions of countries subject to international sanctions
- ESG criteria analysis of eligible securities that covers at least 90% of net assets or the number of issuers in the portfolio

#### How did this financial product perform compared to the reference benchmark?

No reference index has been designated for the purpose of attaining the environmental or social characteristics promoted by the fund.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

- **How did the reference benchmark differ from a broad market index?**  
Not applicable.
- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**  
Not applicable.
- **How did this financial product perform compared with the reference benchmark?**  
Not applicable.
- **How did this financial product perform compared with the broad market index?**  
Not applicable.
