# Features of the Fund

DIGITAL FUNDS (the “Fund”) is an investment company incorporated on 21 September 1998 and registered in Luxembourg for an unlimited duration as a “*société anonyme*” with the status of an investment company with variable capital under the UCI Law and the 1915 Law. The Fund is submitted to Part I of the UCI Law.

The Fund is an investment company qualifying as an investment company with variable capital (*société d’investissement à capital variable* – “SICAV”) with multiple Sub-Funds (each a “Sub-Fund”) under the laws of the Grand Duchy of Luxembourg, which invests and intends to invest in transferable securities and/or in other liquid financial assets referred to in article 41, paragraph (1) of the 17 December 2010 law relating to Undertakings for Collective Investment, as amended (the “UCI Law”), in compliance with the investment policy of each particular Sub-Fund. The Fund complies with the requirements of the UCITS Directive 2009/65/EC.

The Fund is organized as an “Umbrella” Vehicle. An “Umbrella” vehicle is one single entity comprising several Sub-Funds within each of which various classes (each a “Class” or several “Classes”) of shares (each a “Share” or several “Shares”) might be launched, for example accumulation Shares/distribution Shares, different reference currency. Each Sub-Fund constitutes a separate portfolio of assets (invested in accordance with the particular investment features applicable to this Sub-Fund) and liabilities (referred to hereafter as “Sub-Fund” or “Sub-Funds”).

The Board of Directors reserves the right to launch new Sub-Funds at any time. The particulars and investment policy of such Sub-Funds are to be communicated through a revised prospectus. Furthermore, the investors may be informed through a newspaper announcement, if deemed appropriate by the Board of Directors. In compliance with the regulations laid down in Chapter 18 of the sales prospectus “Liquidation and merger of the Fund and its Sub-Funds”, the Board of Directors reserves the right to liquidate certain Sub-Funds.

Following an extraordinary general meeting of the shareholders held on 20 December 2011, the Articles of Incorporation of the Fund (the “Articles of Incorporation”) were amended in order to have the Fund regulated by the Part I of the amended Luxembourg law of 17 December 2010 on undertakings for collective

investment (the “Amendments to the Articles of Incorporation”).

The Articles of Incorporation have been published for the first time in the Mémorial C, Recueil des Sociétés et Associations (the “Mémorial”) on 4 November 1998. The Articles of Incorporation have been deposited with the Registrar of the Luxembourg District Court. The Amendments to the Articles of Incorporation were published in the Mémorial on 19 January 2012. These documents are available for review and copies can be obtained on payment of applicable charges. The Fund is registered with the Luxembourg trade and companies register (*Registre de Commerce et des Sociétés*) under number B 66 323. The registered office of the Fund is established at 33A avenue John F. Kennedy, L-1855 Luxembourg. At the time of incorporation, the corporate capital amounted to FRF 275.000. The capital of the Fund is at all times equal to the total of net assets of the different Sub-Funds and is represented by the issued Shares, without designation of the nominal value and fully paid up. Variations in the capital of the Fund can take place without the need for publication or registration in the Register of Commerce.

As at 30 September 2023, the following Sub-Funds are active:

## *DIGITAL FUNDS Market Neutral Europe*

DIGITAL FUNDS Market Neutral Europe (referred to herein as the “Sub-Fund” or “DIGITAL Market Neutral Europe”) is an active long-short market neutral European equity fund, targeting a net exposure to the equity markets close to zero. It has the freedom to invest long or short and to hold cash. It is a highly liquid absolute return strategy with a daily valuation. Short exposure on equities is done by financial derivative instruments, including over-the-counter (OTC) derivatives. Long exposure on equities can be done by direct investment or by financial derivative instruments, including over-the-counter (OTC) derivatives, or by a mix of both.

The objective of the Sub-Fund is to generate regular positive returns, uncorrelated in the long term to the European equity market.

## *DIGITAL FUNDS Stars Continental Europe*

The objective of DIGITAL FUNDS Stars Continental Europe (referred to herein as the “Sub-Fund” or “DIGITAL FUNDS Stars Continental Europe”) is to achieve long-term appreciation of its capital and to

outperform the broad European markets (excluding United Kingdom), through the use of a sophisticated quantitative model to identify the “stars” performers.

#### *DIGITAL FUNDS Stars Europe*

The objective of DIGITAL FUNDS Stars Europe (referred to herein as the “Sub-Fund” or “DIGITAL FUNDS Stars Europe”) is to achieve long-term appreciation of its capital and to outperform the broad European markets, through the use of a sophisticated quantitative model to identify the “stars” performers.

#### *DIGITAL FUNDS Stars Europe Smaller Companies*

The objective of DIGITAL FUNDS Stars Europe Smaller Companies (referred to herein as the “Sub-Fund” or “DIGITAL FUNDS Stars Europe Smaller Companies”) is to achieve long-term appreciation of its capital and to outperform the European Small Cap markets, through the use of a sophisticated quantitative model to identify the “stars” performers.

#### *DIGITAL FUNDS Stars Eurozone*

The objective of DIGITAL FUNDS Stars Eurozone (referred to herein as the “Sub-Fund” or “DIGITAL FUNDS Stars Eurozone”) is to achieve long-term appreciation of its capital and to outperform the Eurozone markets, through the use of a sophisticated quantitative model to identify the “stars” performers.

#### *DIGITAL FUNDS Stars US Equities*

The objective of DIGITAL FUNDS Stars US Equities (referred to herein as the “Sub-Fund” or “DIGITAL FUNDS Stars US Equities”) is to achieve long-term appreciation of its capital and to outperform the broad US markets, through the use of a sophisticated quantitative model aiming to identify the “stars” performers.

The financial year of the Fund starts on the first of October and ends on the thirty of September of the next year.

All Classes of Shares are receivable to be listed on the Luxembourg Stock Exchange. The Board of Directors decided on 13 September 2012 to remove all listed share classes from the listing as per 1 January 2013.

The Annual General Meeting of shareholders (the “AGM”) is held each year at the registered office of the Fund or at any other address in Luxembourg specified in the notice of meeting. The AGM will be held on the second Wednesday of March at 11:00 a.m. If this date is not a business day in Luxembourg, the AGM will be held on the following business day in Luxembourg.

Each share is entitled to one vote at each general meeting of shareholders and at each meeting of the relevant class. Fractions of shares do not give any voting rights. Any amendment to the Articles of Incorporation involving a variation of the rights of a category of shares will have to be approved by a resolution of a meeting of the shareholders of the Fund and shareholders of the relevant category.

Only the information contained in the sales prospectus and in one of the documents referred to therein shall be deemed to be valid.

The annual and semi-annual reports are available free of charge to shareholders at the registered office of the Fund and the Depositary.

No subscription may be accepted on the basis of the financial reports. Subscriptions are accepted only on the basis of the current prospectus accompanied by the latest annual report and the latest semi-annual report if available.

The figures stated in this report are historical and not necessarily indicative of future performance.

# Directors' Report

Equity indices rebounded strongly in October and November 2022. A combination of positive factors was behind this spectacular rise. Economic momentum was rebounding, due in particular to confidence indicators that were recovering from historic lows. Inflation was falling faster than expected in the US, and this reinforced the likelihood of a scenario where central banks cut rates as early as 2023. China could relax its "zero covid" policy, which was hampering global exchanges. Finally, Q3 earnings publications had been solid and highlighted the "cheap" valuation of equities.

This powerful rally ended in December as recession fears increased. In a bearish environment, financial stocks held up particularly well, benefiting from rising interest rates and earnings estimates that were again revised upwards. Conversely, cyclical sectors (energy, basic materials, consumer discretionary) suffered.

The MSCI Europe Net Return had generated a Q4 2022 performance of +9.5% (in Euros) and the MSCI USA Net Return +7.0% (in USD).

The prospect of "disinflation" led to a bullish rally in the first few days of January, concentrated on stocks which were negatively-sensitive to inflation and had been oversold in 2022. The second half of the month was marked by the announcement of companies' annual results. And it was globally positive.

European equity indices stood out again in February (MSCI Europe NR +1.8%), unlike the US indices (MSCI USA NR -2.4%). The spectacular upturn of China after the sudden withdrawal of the zero covid policy had a positive impact on many European heavyweights. Moreover, the rise in interest rates tended to favour the most "value" geographical area, i.e. Europe. The improvement in economic momentum, linked to the reopening of the Chinese economy, was reflected in the economists' consensus, which recovered strongly.

The banking sector's woes reignited systemic fears in March. Volatility has made a comeback and was emerging from a long period of lethargy. At the same time, a powerful rotation within the stylistic and sectoral segments of the market occurred. The sharp drop in long-term yields, due to the increased risks of recession, also echoed a probable change in the pace of rate hikes by central banks. They knew the red line that must not be crossed in their monetary tightening. In this context, the Value segment, the big winner of

the last 30 months, clearly underperformed in March due to its high exposure to Financials. Conversely, the "Visibility" style, which includes defensive, low-debt stocks with steady cash-flows, sometimes called "proxy-bonds", performed very well, both in absolute and relative terms.

The MSCI Europe Net Return had generated a Q1 2023 performance of +8.6% (in Euros) and the MSCI USA Net Return +7.6% (in USD).

Equity indices performed well in April. Corporate quarterly earnings have been very supportive. However, after a significant improvement since September 2022, recent macro releases have been rather weak in the developed countries, reinforcing the likelihood of a recessionary scenario in the months to come. The banking troubles have also rekindled systemic fears and led investors to focus on defensive stocks with strong balance sheets, while at the same time lowering their expectations of rate hikes by central banks. Long-term rates have thus fallen by nearly 50 basis points on both sides of the Atlantic since the beginning of March, which also provides relative support for Visibility/Quality securities, often qualified as "proxy bonds".

May was a month of contrasts for equity indices. They rose in the United States and fell in Europe. Since the end of January, the trend has clearly been that of horizontal consolidation with relatively minor amplitude. Macro conditions weighed at the start of the month, with disappointing inflation figures and below-expectation economic surveys. Conversely, microeconomic fundamentals continue to deliver upside surprises as the quarterly publication period draws to a close. In this context, the earnings momentum is resuming an upward trend that had been temporarily overshadowed by the banking debacles of March and April.

The global economy is surprisingly resilient, and this is reflected in the powerful appreciation of equity indices in June. Whereas at the start of the year, the consensus of economists was predicting global GDP growth of +2.0% in 2023, the forecast is now +2.6%. This has led central banks to resume the restrictive rhetoric they abandoned at the time of the banking setbacks. They judge that the battle against inflation has not yet been won, despite the significant fall in inflation in recent months. Against this backdrop, the "Value" style logically stood out in June. Pro-cyclical in relative terms, it is benefiting from the rise in rates across

all maturities on the yield curve to resume a trend that began in November 2020, when vaccines were discovered.

The MSCI Europe Net Return had generated a Q2 2023 performance of +3.0% (in Euros) and the MSCI USA Net Return +10.2% (in USD).

Equity markets continued to rise in July. A combination of several favourable factors justified the impressive equity rally initiated in September 2022. Economic momentum continued to pick up, as was reflected in significant upward revisions of economic growth forecasts; inflation and inflation expectations have fallen significantly, pointing to the potential for an accommodating monetary stance from central banks in the near future; corporate earnings are reassuring, highlighting attractive valuations for many segments of the stock market; and the level of equity investment by large institutional investors remains low, fuelling buying flows.

While the resilience of the global economy had buoyed equity indices in July, they declined in August as long-term yields remained high. Furthermore, the latest macro-economic releases from China were disappointing. Against this backdrop, cyclical stocks and growth stocks sensitive to the Chinese economy underperformed. The technology, mining, travel, industrial and automobile sectors thus gave up more than 5% in August in Europe. However, the Chinese authorities reacted strongly at the end of the month with the introduction of credit support measures, and everything now points to a continuation of the rebound in global economic momentum initiated in September 2022. Should this be the case, the equity asset class could continue to benefit from reasonable valuations (12-month P/E of 13.0x in Europe and 15.0x in the US for the S&P 500 Equal Weight). Especially as inflation continues to fall, pointing to an accommodative reversal by central banks as early as the 1st half of 2024.

Equity indices retreated in September (MSCI Europe NR -1.6%, MSCI USA NR -4.7%), due to pressure on interest rates. The US 10-year sovereign yield reached 4.57% (vs. 4.10% at the end of August) and the German 3.84% (vs. 3.47%). Such levels had not been reached since 2007 in the US and 2011 in Germany, respectively. The cause of this brutal tension was the Fed, who took a surprisingly restrictive stance at its September meeting, and significantly toned down its

rate cut projections for 2024. This dampened investors' enthusiasm. However, the significance of this event should not be overestimated. Communication is an integral part of monetary policy, and the priority remains the fight against inflation. It would not be surprising to see a shift in policy soon by central banks.

The MSCI Europe Net Return had generated a Q3 2023 performance of -0.9% (in euros) and the MSCI USA Net Return -2.0% (in USD).

DIGITAL FUNDS posted positive performances over the fiscal year 1 October 2022 – 30 September 2023 but globally underperformed their benchmarks. After a good start of 2023, benefiting from positive surprises on stocks announcing their results, the situation was more complicated in March for the funds. The collapse of Silicon Valley Bank, followed by Credit Suisse, reshuffled the deck, with a crash in banking and energy stocks. The exposure to banks, the cyclical bias and the underweight in defensive mega-caps weighed. The sector rotation was so violent that, unsurprisingly, the funds underperformed and gave back performance. Risk aversion diminished during Summer, leading to better relative performance. High long term yields impaired the returns of August and September, where our size bias impacted our all-cap funds in relative terms.

DIGITAL FUNDS Market Neutral Europe had assets totaling 6.0 million Euros as of 30 September 2023. The objective of this sub fund is to generate regular positive returns, uncorrelated to the European equity markets over the long term, based on a "Long/Short Market Neutral" absolute return strategy. Its performance on the fiscal year (in Euros for the Acc class) was -5.4%. The fund seeks to adapt to the current market regime in the rebalancing implemented in September. The Bottom-Up compartment maintains a positive net exposure to Value and Growth stocks, and a negative net exposure to Visibility stocks. It is also interesting to point out that net exposure to Mid Caps is becoming positive. The Top-Down compartment, whose objective is to generate sector allocation alpha, is further accentuating its cyclical bias, and is becoming long the Mining and Energy sectors in particular.

The future performance of an investment cannot be deduced from previous market value, i.e. the value of an investment may fall as well as rise. An investment may also lose value due to changes in rates of foreign

exchange. The board of director cannot guarantee that any capital invested will maintain or increase in value.

DIGITAL FUNDS Stars Continental Europe is the second sub-fund in terms of size (EUR 149 Million as of 30 September 2023). During the fiscal year, it returned 11.3% (in Euro terms for the Acc Share class) versus 21.9% for its benchmark MSCI Europe ex UK NR.

DIGITAL FUNDS Stars Continental Europe is overweight financials, energy and industrials, and underweight healthcare and consumer staples. Italy is the fund's top weight at 14.98%, ahead of Germany at 14.57% and France at 9.9%.

DIGITAL FUNDS Stars Europe had assets totaling EUR 421 Million as of 30 September 2023. Over the past fiscal year (from 1 October 2022 to 30 September 2023), this "all cap" Sub-Fund returned 8.1% in Euro terms (for the Acc share class) versus 20.6% for MSCI Europe NR.

The rebalancings carried out in September were diversified, increasing our positions in the energy, construction materials and telecommunications sectors. Among the exits were IT and consumer discretionary stocks. The overweight of banking stocks in Digital Stars Europe is now at 5.0%. Digital Stars Europe is also overweight financials and industrials. The fund is underweight healthcare and consumer staples. The UK is still the fund's top weight at 19.4%, ahead of Italy at 15.2% (largest overweight) and Germany at 12.6%.

DIGITAL FUNDS Stars Europe Smaller Companies had assets totaling EUR 5.7 Million at 30 September 2023. Focused on the small and mid caps, the fund displayed a performance of 8.8% (in Euro Terms for the Acc share class) on the fiscal year versus 17.0% for MSCI Europe Small Cap NR.

The portfolio is mainly overweight in consumer discretionary, as well as in consumer staples, and significantly underweight in real estate. The United Kingdom is the biggest country weight in the portfolio and weighs 22.38% (but remains the most largely underweight country), ahead of Italy at 12.26%. Greece is still the most overweight country at 7.88%.

DIGITAL FUNDS Stars Eurozone assets reached EUR 12.3 Million at 30 September 2023. During the fiscal year, it returned 11.2% (in Euro Terms for the Acc Share class) versus 25.9% for its benchmark MSCI EMU NR.

Consumer discretionary became the fund's second relative bet in September, after the communications sector. DIGITAL FUNDS Stars Eurozone is also overweight in real estate, commodities and financials. The fund is underweight utilities, energy, healthcare, food and industrials, and neutral on technology. France is the top weighting at 26.10%, followed by Germany at 25.85% and Italy at 16.22%. Italy is the fund's first relative bet, while France is a strong underweight.

DIGITAL FUNDS Stars US Equities AUM was USD 4.9 Million as of 30 September 2023. This "all cap" Fund invested in US equities displayed on the fiscal year a performance of 7.8% (in USD for the Acc share class) versus 19.3% for MSCI USA NR.

The September monthly portfolio review mainly increased the positions in the industry, and reduced those in the financial sector.

The portfolio is overweight in industry and consumer discretionary. Media is still the biggest underweight, before finance and pharmaceuticals.

## Audit report

To the Shareholders of  
**DIGITAL FUNDS**

---

### Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of DIGITAL FUNDS (the “Fund”) and of each of its sub-funds as at 30 September 2023, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

#### *What we have audited*

The Fund’s financial statements comprise:

- the combined statement of net assets for the Fund and the statement of net assets for each of the sub-funds as at 30 September 2023;
- the combined statement of operations for the Fund and the statement of operations for each of the sub-funds for the year then ended;
- the combined statement of changes in net assets for the Fund and the statement of changes in net assets for each of the sub-funds for the year then ended;
- the statement of investments in securities and other net assets as at 30 September 2023; and
- the notes to the financial statements, which include a summary of significant accounting policies.

---

### Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the “Commission de Surveillance du Secteur Financier” (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the “Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements” section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

---

### Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

---

*PricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg  
T : +352 494848 1, F : +352 494848 2900, [www.pwc.lu](http://www.pwc.lu)*

*Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256)  
R.C.S. Luxembourg B 65 477 - TVA LU25482518*

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

---

### **Responsibilities of the Board of Directors of the Fund for the financial statements**

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

---

### **Responsibilities of the “Réviseur d’entreprises agréé” for the audit of the financial statements**

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;

- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;
- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

# Notes to the Financial Statements

## **Note 1 – Summary of significant accounting policies**

The financial statements have been prepared in accordance with the generally accepted accounting principles for investment funds in Luxembourg. The significant accounting policies are summarised as follows:

### *a) Calculation of the net asset value*

Unless otherwise described under Chapter 1 of the prospectus, the net asset value per share of the individual Sub-Funds (the "Net Asset Value") is calculated on each business day of the Administration Agent (hereinafter called "Valuation Day"). In this context, "business day" refers to the normal bank business day (i.e. each day on which banks are open during normal hours) in Luxembourg, with the exception of individual, non-statutory rest days as well as days on which exchanges in the main countries in which the Sub-Fund invests are closed or 50% or more Sub-Fund investments cannot be adequately valued. Non-statutory rest days are days on which individual banks and financial institutions are closed. The Net Asset Value of each Sub-Fund is equal to the total assets of that Sub-Fund less its liabilities. The Net Asset Value of each Sub-Fund will be expressed in the currency of the relevant Sub-Fund as further described under Chapter 1 of the prospectus (except when there exists any state of affairs which, in the opinion of the Board of Directors, makes the determination in the currency of the relevant Sub-Fund either not reasonably practical or prejudicial to the shareholders, the Net Asset Value may temporarily be determined in such other currency as the Board of Directors may determine) and shall be determined in respect of any Valuation Day by dividing the total net assets of the Sub-Fund by the number of its shares then outstanding. The Net Asset Value per share of the individual Sub-Funds is calculated on the basis of the last known prices (i.e. closing prices or if such do not reflect reasonable market value in the opinion of the Board of Directors, the last available prices at the time of valuation) on each business day in Luxembourg, unless otherwise described under Chapter 1 of the prospectus.

The total net assets of the Fund are expressed in EUR and correspond to the difference between the total assets of the Fund and its total liabilities. For the purpose of this calculation, the net assets of each Sub-Fund, if they are not denominated in EUR, are converted into EUR and added together.

Without prejudice to the regulations of each Sub-Fund, the Valuation of each Sub-Fund and of each of the different Classes follows the criteria below:

### *b) Valuation principles*

- The value of any cash in hand or on deposit, bills and demand notes and accounts receivable, prepaid expenses, cash dividends and interest declared or accrued as aforesaid and not yet received is deemed to be the full amount thereof, unless in any case the same is unlikely to be paid or received in full, in which case the value thereof is arrived at after making such discount as may be considered appropriate in such case to reflect the true value thereof.
- Securities, derivatives and other investments listed on an official stock exchange are valued at the last known market prices. If the same security, derivative or other investment is quoted on several stock exchanges, the last available quotation on the stock exchange that represents the major market for this investment will apply. In the case of securities, derivatives and other investments where trading of these assets on the stock exchange is thin but which are traded between securities dealers on a secondary market using standard market price formation methods, the Fund can use the prices on this secondary market as the basis for the valuation of these securities, derivatives and other investments. Securities, derivatives and other investments that are not listed on a stock exchange, but that are traded on another regulated market which is recognised, open to the public and operates regularly, in a due and orderly fashion, are valued at the last available price on this market.
- Securities and other investments that are not listed on a stock exchange or traded on any other regulated market, and for which no reliable and appropriate price can be obtained, will be valued by the Fund according to other principles chosen by it in good faith on the basis of the likely sales prices.
- The valuation of derivatives that are not listed on a stock exchange (OTC-derivatives) is made by reference to independent pricing sources. In case only one independent pricing source of a derivative is available, the plausibility of the valuation price obtained will be verified by employing methods of calculation recognised by the Board of Directors and the auditors, based on the market value of the underlying instrument from which the derivative has been derived.

- Units or shares of other undertakings for collective investment in transferable securities (“UCITS”) and/or undertakings for collective investment (“UCI”) will be valued at their last Net Asset Value. Certain units or shares of other UCITS and/or UCI may be valued based on an estimate of the value provided by a reliable price provider independent from the target fund’s investment manager or investment adviser (Estimated Pricing).
- For money market instruments, the valuation price will be gradually adjusted to the redemption price, based on the net acquisition price and retaining the ensuing yield. In the event of a significant change in market conditions, the basis for the valuation of different investments will be brought into line with the new market yields.  
For Sub-Funds that predominantly invest in money market instruments,
  - (i) securities with a residual maturity of less than 12 months are valued in accordance with the ESMA guidelines for money market instruments;
  - (ii) interest income earned by Sub-Funds up to and including the second valuation date following the valuation date concerned is included in the valuation of the assets of the Sub-Funds concerned. The asset value per Share on a given valuation date therefore includes projected interest earnings as at two valuation dates hence.
- Securities, money market instruments, derivatives and other investments that are denominated in a currency other than the currency of account of the relevant Sub-Fund and which are not hedged by means of currency transactions are valued at the middle currency rate (midway between the bid and offer rate) obtained from external price providers.
- Time deposits and fiduciary investments are valued at their nominal value plus accumulated interest.
- The value of swap transactions is calculated by the counterpart to the swap transaction and a second independent valuation is made available by another external service provider. The calculation is based on the net present value of all cash flows, both inflows and outflows. In some specific cases, internal calculations based on models and market data available from Bloomberg and/or broker statement valuations may be used. The valuation methods depend on the respective security and are determined pursuant to the Administrative Agent’s Valuation Policy based on market value. This valuation method is recognised by the Board of Directors.

The Fund is entitled to apply other appropriate valuation principles which have been determined by it in good faith and are generally accepted and verifiable by auditors to the Fund’s assets as a whole or of an individual Sub-Fund if the above criteria are deemed impossible or inappropriate for accurately determining the value of the Sub-Funds concerned due to extraordinary circumstances or events.

In the event of extraordinary circumstances or events, additional valuations, which will affect the prices of the Shares to be subsequently issued or redeemed, may be carried out within one day.

*c) Net realized gain (loss) on sales of securities*

The realized gains or losses on the sales of securities are calculated on the basis of the average cost of the securities sold.

*d) Valuation of forward foreign exchange contracts*

The unrealized gain (loss) of outstanding forward foreign exchange contracts is valued on the basis of the forward exchange rates prevailing at valuation date.

*e) Valuation of financial futures contracts*

Financial futures contracts are valued based on the latest available published price applicable on the valuation date. Realized gains and losses and the changes in unrealized gains and losses are recorded in the statement of operations. The realized gains and losses are calculated in accordance with the FIFO method, i.e. the first contracts acquired are regarded as the first to be sold.

*f) Valuation of swaps and synthetic equity swaps*

Swaps and synthetic equity swaps are valued on the basis of the price of the underlying equity. If the swap and the equity are not denominated in the same currency, then the price of the equity is converted.

Changes in unrealized gains and/or losses are presented in the statement of operations under “Unrealized appreciation (depreciation) on synthetic equity swaps”. “Realized gain (loss) on synthetic equity swaps” includes payments by and/or to the Sub-Fund that were made during the reporting year as a result of changes in the nominal amount of the swap and the corresponding increase or decrease in the value of the swap.

Synthetic Equity Swaps are subject to a monthly reset of their unrealized gain (loss). Unrealised gain (loss) disclosed in the Statement of Investments in Securities and other Net Assets reflect the unrealised gain (loss) since the last reset date.

*g) Conversion of foreign currencies*

Bank accounts, other net assets and the valuation of the investments in securities held denominated in currencies other than the reference currency of the different Sub-Funds are converted at the mid closing spot rates on the valuation date. Income and expenses denominated in currencies other than the currency of the different Sub-Funds are converted at the mid closing spot rates at payment date. Gain or loss on foreign exchange is included in the statement of operations.

The cost of securities denominated in currencies other than the reference currency of the different Sub-Funds is converted at the mid closing spot rate prevailing on the day of acquisition.

*h) Combined financial statements*

The combined financial statements of the Fund are expressed in EUR. The various items of the combined statement of net assets and the combined statement of operations as of 30 September 2023 of the Fund are equal to the sum of the corresponding items in the financial statements of each Sub-Fund converted into EUR at the closing exchange rates.

The following exchange rate was used for the conversion of the combined financial statements as of 30 September 2023:

Exchange rate	
EUR 1 = USD	1.058750

*i) Receivable on securities sales,*

*Payable on securities purchases*

The position "Receivable on securities sales" can also include receivables from foreign currency transactions. The position "Payable on securities purchases" can also include payables from foreign currency transactions.

Receivables and payables from foreign exchange transactions are netted.

*j) Income recognition*

Dividends, net of withholding taxes, are recognized as income on the date upon which the relevant securities are first listed as "ex-dividend". Interest income is accrued on a daily basis.

*k) Cross-subfunds investments*

As per 30 September 2023 the Sub-Fund DIGITAL FUNDS Stars Continental Europe and DIGITAL FUNDS Stars Europe had the following investments in other Sub-Fund of DIGITAL FUNDS:

DIGITAL FUNDS Stars Continental Europe	Amount in EUR
DIGITAL FUNDS STARS EUROZONE-SHS-JCC-CAPITALISATION	2 804 832.40
<b>Total</b>	<b>2 804 832.40</b>

DIGITAL FUNDS Stars Europe	Amount in EUR
DIGITAL FUNDS STARS EUROZONE-SHS-JCC-CAPITALISATION	2 804 832.40
<b>Total</b>	<b>2 804 832.40</b>

The total amount of cross Sub-Fund investments amounts to 5 609 664.80 EUR. Accordingly, the adjusted combined net assets at the end of the reporting period are 593 107 101.04 EUR.

*l) Formation expenses*

Costs in connection with the launch of a new Sub-Fund are written off over a period of five years.

**Note 2 – Charges and Expenses**

*a) One-off charges taken before or after investing*

Subscription fee: as further detailed in chapter 1 of the sales prospectus, paragraph 6 ("Offerings") of each Sub-Fund dedicated section an entry charge can be deducted before an investment.

Redemption fee: as further detailed in chapter 1 of the sales prospectus, paragraph 10 ("Redemption & Conversion") of each Sub-Fund dedicated section no redemption fee will be charged from redeemed shares.

Conversion fee: as further detailed in section 10 of the sales prospectus ("Redemption & Conversion") a conversion fee can be applied to converted shares.

*b) Annual fees*

*Management Fee*

The management fee is paid to the Management Company whether or not the Sub-Fund generates a profit.

*DIGITAL FUNDS Market Neutral Europe*

The Management Company is entitled to a management fee payable on a monthly basis at the following

annual rates of the average Net Asset Values of the Sub-Fund during the relevant month:

- Class “Acc EUR”: 1.50% (excluding taxes)
- Classes “Acc 2 EUR” and “I EUR”: 1.00% (excluding taxes)
- Class “P EUR”: 2.20% (excluding taxes)

#### *DIGITAL FUNDS Stars Continental Europe*

The Management Company is entitled to a management fee payable on a monthly basis at the following annual rates of the average Net Asset Values of the Sub-Fund during the relevant month:

- Classes “Acc”, “GBP” and “D”: 1.50% (excluding taxes)
- Class “Acc 1”: 1.25% (excluding taxes)
- Classes “Acc 2”, “I 2” and “I USD H”: 1.00% (excluding taxes)
- Classes “I” and “DI”: 1.00% maximum (excluding taxes)
- Class “P”: 2.20% (excluding taxes)
- Class “R”: 2.00% (excluding taxes)

#### *DIGITAL FUNDS Stars Europe*

The Management Company is entitled to a management fee payable on a monthly basis at the following annual rates of the average Net Asset Values of the Sub-Fund during the relevant month:

- Classes “Acc”, “GBP”, “FI”, “USD” and “D”: 1.50% (excluding taxes)
- Class “Acc 1”: 1.25% (excluding taxes)
- Class “FC”: 1.75% (excluding taxes)
- Classes “FT” and “R”: 2.00% (excluding taxes)
- Classes “I”, “I 1” and “I USD”: 1.00% maximum (excluding taxes)
- Classes “Acc 2” and “D 1”: 1.00% (excluding taxes)
- Class “P”: 2.20% (excluding taxes)

#### *DIGITAL FUNDS Stars Europe Smaller Companies*

The Management Company is entitled to a management fee payable on a monthly basis at the following annual rates of the average Net Asset Values of the Sub-Fund during the relevant month:

- Class “Acc”: 1.50% (excluding taxes)
- Class “Acc 1”: 1.25% (excluding taxes)
- Classes “I” and “I USD”: 1.00% (excluding taxes)
- Class “R”: 2.00% (excluding taxes)

#### *DIGITAL FUNDS Stars Eurozone*

The Management Company is entitled to a management fee payable on a monthly basis at the following annual rates of the average Net Asset Values of the Sub-Fund during the relevant month:

- Class “Acc”: 1.50% (excluding taxes)
- Class “Acc 1”: 1.25% (excluding taxes)
- Class “CD” and “OF”: 2.20% (excluding taxes)
- Class “R”: 2.00% (excluding taxes)
- Class “I”: 1.00% (excluding taxes)
- Class “JCC”: 1.00% maximum (excluding taxes)

#### *DIGITAL FUNDS Stars US Equities*

The Management Company is entitled to a management fee payable on a monthly basis at the following annual rates of the average Net Asset Values of the Sub-Fund during the relevant month:

- Classes “Acc 1 USD” and “Acc 1 EUR H”: 1.25% (excluding taxes)
- Classes “Acc USD” and “Acc EUR”: 1.50% (excluding taxes)
- Class “R EUR”: 2.00% (excluding taxes)
- Class “P EUR”: 2.20% (excluding taxes)
- Classes “I EUR”, “I EUR H” and “I USD”: 1.00% (excluding taxes)
- Class “EB EUR H”: 0.70% (excluding taxes)

#### *Performance Fee*

##### *DIGITAL FUNDS Market Neutral Europe*

As long as the Sub-Fund is in existence, the Management Company will receive within five business days of the last business day of each twelve-month period starting on the last Business Day of September (the “Period”) an annual performance fee of:

- for Classes “Acc EUR”, “Acc 2 EUR” and “I EUR”: 15% (excluding taxes) of the performance of the Total Net Asset (“TNA”) over the Hurdle Rate (“HR”) during the Period.
- for Class “P EUR”: 20% (excluding taxes) of the performance of the Total Net Asset (“TNA”) over the Hurdle Rate (“HR”) during the Period.

There is a performance of the TNA over the HR if there is an increase in the TNA compared to the TNA at the end of the accounting year adjusted for subscriptions and redemptions made during the period “Reference TNA”, and if this increase is higher than the HR applied to the Reference TNA.

The HR is €STR (Euro Short-Term Rate).

The performance fee is crystallized for redemptions. The performance fee will be accrued on each Net Asset Value Calculation and paid out to the Management Company within five Business Days of the last Business Day of each period.

For purposes of applying the performance fee rate, the Management Company begins each reference period with zero gain. If there is a negative performance in net assets at the end of the reference period, it will be carried forward in the following reference period: High Watermark principle ("HWM").

Any underperformance of the Sub-Fund compared to the HWM is clawed back before any performance fee becomes payable. To this purpose, the length of the HWM reference period is set equal to 5 years.

The Board of Directors draws the attention of the investors on the fact that this performance fee calculation method could lead to a discrepancy between the Net Asset Value per Share evolutions of the various Classes.

#### *DIGITAL FUNDS Stars Continental Europe*

As long as the Sub-Fund is in existence, the Management Company will receive within five business days of the last business day of each twelve-month period starting on the last Business Day of September (the "Period") an annual performance fee of:

- for Classes "Acc", "Acc 1", "Acc 2", "D", "DI", "GBP", "I", "I USD H" and "I 2": 15% (excluding taxes) of the net assets (converted into the relevant Class currency) out performance of the MSCI Europe ex UK Net Return Index (or any other suitable index should this benchmark be replaced or changed upon decision of the Board of Directors) during the Period (adjusted on a pro rata temporis basis for subscriptions and redemptions made in the Sub-Fund during the Period);
- for Classes "P" and "R": 20% (excluding taxes) of the net assets out performance of the MSCI Europe ex UK Net Return Index (converted in Classes currency) (or any other suitable index should this benchmark be replaced or changed upon decision of the Board of Directors) during the Period (adjusted on a pro rata temporis basis for subscriptions and redemptions made in the Sub-Fund during the Period).

For the unhedged Shares classes, the benchmark is converted into Shares class currency.

For the hedged Shares classes, the benchmark is hedged against the Shares class currency.

The performance fee is crystallized for redemptions.

The performance fee will be accrued daily and paid out to the Management Company within five business days of the last business day of each Period.

MSCI Europe ex UK Net Return Index is defined as the "Performance Index" or the "Benchmark".

A performance fee could also be payable in case the Sub-Fund has over performed the Benchmark but had a negative performance.

#### *DIGITAL FUNDS Stars Europe*

As long as the Sub-Fund is in existence, the Management Company will receive within five business days of the last business day of each twelve-month period starting on the last Business Day of September (the "Period") an annual performance fee of:

- for Classes "Acc", "Acc 1", "Acc 2", "GBP", "USD", "D", "D 1", "I", "I 1" and "I USD": 15% (excluding taxes) of the net assets (converted into the relevant Class currency) out performance of the MSCI Europe Net Return Index (or any other suitable index should this benchmark be replaced or changed upon decision of the Board of Directors) during the Period (adjusted on a pro rata temporis basis for subscriptions and redemptions made in the Sub-Fund during the Period);
- for Classes "P" and "R": 20% (excluding taxes) of the net assets (converted into the relevant Class currency) out performance of the MSCI Europe Net Return Index (or any other suitable index should this benchmark be replaced or changed upon decision of the Board of Directors) during the Period (adjusted on a pro rata temporis basis for subscriptions and redemptions made in the Sub-Fund during the Period).

No performance fee will be charged for Classes "FC", "FI" and "FT".

For the unhedged Shares classes, the benchmark is converted into Shares class currency.

For the hedged shares classes, the benchmark is hedged against the Shares class currency.

The performance fee is crystallized for redemptions.

The performance fee will be accrued daily and paid out to the Management Company within five business days of the last business day of each Period.

MSCI Europe Net Return Index is defined as the "Performance Index" or the "Benchmark".

A performance fee could also be payable in case the Sub-Fund has over performed the Benchmark but had a negative performance.

#### *DIGITAL FUNDS Stars Europe Smaller Companies*

As long as the Sub-Fund is in existence, the Management Company will receive within five business days of the last business day of each twelve-month period starting on the last Business Day of September (the "Period") an annual performance fee of:

- for Classes "Acc", "Acc 1", "I" and "I USD": 15% (excluding taxes) of the net assets (converted into the relevant Class currency) out performance of the MSCI Europe Small Cap Net Return Index (or any other suitable index should this benchmark be replaced or changed upon decision of the Board of Directors) during the Period (adjusted on a pro rata temporis basis for subscriptions and redemptions made in the Sub-Fund during the Period);
- for Class "R": 20% (excluding taxes) of the net assets (converted into the relevant Class currency) out performance of the MSCI Europe Small Cap Net Return Index (or any other suitable index should this benchmark be replaced or changed upon decision of the Board of Directors) during the Period (adjusted on a pro rata temporis basis for subscriptions and redemptions made in the Sub-Fund during the Period).

MSCI Europe Small Cap Net Return Index is defined as the "Performance Index" or the "Benchmark".

The performance fee is crystallized for redemptions. The performance fee will be accrued daily and paid out to the Management Company within five business days of the last business day of each Period.

A performance fee could also be payable in case the Sub-Fund has over performed the Benchmark but had a negative performance.

#### *DIGITAL FUNDS Stars Eurozone*

As long as the Sub-Fund is in existence, the Management Company will receive within five business days of the last business day of each twelve-month period starting on the last Business Day of September (the "Period") an annual performance fee of:

- for Classes "Acc", "Acc 1", "CD", "I" and "OF": 15% (excluding taxes) of the net assets (converted into the relevant Class currency) outperformance of the MSCI EMU Net Return Index (or any other suitable index should this benchmark be replaced or changed upon decision of the Board of Directors) during the Period (adjusted on a pro rata temporis basis for subscriptions and redemptions made in the Sub-Fund during the Period);
- for Class "JCC": 15% maximum (excluding taxes) of the net assets (converted into the relevant Class currency) outperformance of the MSCI EMU Net Return Index (or any other suitable index should this benchmark be replaced or changed upon decision of the Board of Directors) during the Period (adjusted on a pro rata temporis basis for subscriptions and redemptions made in the Sub-Fund during the Period);
- for Class "R": 20% (excluding taxes) of the net assets (converted into the relevant Class currency) outperformance of the MSCI EMU Net Return Index (or any other suitable index should this benchmark be replaced or changed upon decision of the Board of Directors) during the Period (adjusted on a pro rata temporis basis for subscriptions and redemptions made in the Sub-Fund during the Period).

MSCI EMU Net Return Index is defined as the "Performance Index" or the "Benchmark".

The performance fee is crystallized for redemptions.

The performance fee will be accrued daily and paid out to the Management Company within five business days of the last business day of each Period.

A performance fee could also be payable in case the Sub-Fund has over performed the Benchmark but had a negative performance.

### *DIGITAL FUNDS Stars US Equities*

As long as the Sub-Fund is in existence, the Management Company will receive within five business days of the last business day of each twelve-month period starting on the last Business Day of September (the "Period") an annual performance fee of:

- for Classes "Acc USD", "Acc 1 USD", "Acc EUR", "Acc 1 EUR H", "I USD", "EB EUR H", "I EUR" and "I EUR H": 15% (excluding taxes) of the net assets (converted into the relevant Class currency) outperformance of the MSCI USA Net Return Index (or any other suitable index should this benchmark be replaced or changed upon decision of the Board of Directors) during the Period (adjusted on a pro rata temporis basis for subscriptions and redemptions made in the Sub-Fund during the Period);
- for Classes "R EUR" and "P EUR": 20% (excluding taxes) of the net assets (converted into the relevant Class currency) outperformance of the MSCI USA Net Return Index (or any other suitable index should this benchmark be replaced or changed upon decision of the Board of Directors) during the Period (adjusted on a pro rata temporis basis for subscriptions and redemptions made in the Sub-Fund during the Period).

MSCI USA Net Return Index is defined as the "Performance Index" or the "Benchmark".

For the unhedged Shares classes, the benchmark is converted into Shares class currency.

For the hedged shares classes, the benchmark is hedged against the Shares class currency.

The performance fee is crystallized for redemptions.

The performance fee will be accrued daily and paid out to the Management Company within five business days of the last business day of each Period.

A performance fee could also be payable in case the Sub-Fund has over performed the Benchmark but had a negative performance.

For purposes of applying the performance fee rate for DIGITAL FUNDS Market Neutral Europe, the Management Company begins each reference period with zero gain. If there is a negative performance in net

assets at the end of the reference period, it will be carried forward in the following reference period: High Watermark principle ("HWM"). Any underperformance of the Sub-Fund compared to the HWM is clawed back before any performance fee becomes payable. To this purpose, the length of the HWM reference period is set equal to 5 years.

For purposes of applying the performance fee rate for relevant share classes of DIGITAL FUNDS Stars Continental Europe, DIGITAL FUNDS Stars Europe, DIGITAL FUNDS Stars US Equities, DIGITAL FUNDS Stars Eurozone and DIGITAL FUNDS Stars Europe Smaller companies, a performance fee should only be payable in circumstances where positive over performance has been accrued during the performance reference period (the length of the Performance reference period being set equal to 5 years). Any underperformance previously incurred during the Performance reference period should be recovered before a performance fee becomes payable. Under performance means that the net asset value increase or decrease is less than the increase or more than the decrease respectively of the Performance Index.

Performance in net assets means the difference (positive or negative) between the net assets at the end of the Period (after deduction of management fees and other liabilities, but before deduction of current performance fees and adjusted on a temporary basis for subscriptions and redemptions made during the Period) and the net assets as of the beginning of the Period.

When outperforming the Performance Index during the period notwithstanding a decline in the Net Asset Value during such period, the Management Company will thus also receive a performance fee in case of a decline in the Net Asset Value during the period.

### *Other Charges and Expenses*

The preliminary expenses incurred in the formation of the Fund including:

- the preparation and the publication of the prospectus,
- various fees and taxes to be paid to a Public Notary, tax authorities, (Luxembourg) Stock Exchange,
- printing costs and all other expenses related to the incorporation of the Fund were payable by the Fund from the proceeds of the offering, subject to otherwise provided by the Board of Directors.

Such preliminary expenses have been written off over a period not exceeding five accounting years. The preliminary expenses were only borne by the Sub-Funds which were initially launched. Further Sub-Funds will only bear the preliminary expenses relating to their own launching.

The fees and costs of the Depositary, of the Administrative Agent and of the Domiciliation Agent are borne by the Fund and shall be those generally charged in Luxembourg. They represent an annual percentage of the net assets and are paid on a monthly basis.

The Fund will bear the following operating and administrative expenses: fees and expenses relating to the Fund's permanent representatives in countries where registration fees are due, as well as legal, audit, promotion, printing and publication of sales documents and periodical financial reports fees and expenses as well as expenses relating to agents of the Fund. Costs relating to general meetings of shareholders or of the Board of Directors, travel expenses for administrators and directors, in a reasonable amount; directors' fees, registration fees and all taxes paid to governmental or stock-exchange authorities, as well as publication costs in relation with the issue and redemption of Shares and other expenses, such as financial, bank or broker expenses charged for the selling or buying of assets; and all other administrative expenses are to be considered and taken into account as costs and expenses relating modification of the Articles of Incorporation and the prospectus.

Fees and expenses that cannot be attributed to one single Sub-Fund will either be ascribed to all Sub-Funds on an equal basis or will be prorated on basis of the Net Asset Value of each Sub-Fund, if the amount and cause justify doing so.

For the year ending 30 September 2023 the following performance fees have been paid:

DIGITAL FUNDS	Share class	Amount	Currency	Fee

### Note 3 – Taxe d’abonnement

In accordance with the law and the regulations currently in force, the company is subject in Luxembourg to the subscription tax at the annual rate of 0.05%, or a reduced tax d’abonnement amounting to 0.01% p.a. for institutional share classes, payable quarterly and calculated on the basis of its net assets at the end of each quarter.

### Note 4 – Distribution

#### *DIGITAL FUNDS Market Neutral Europe*

This Sub-Fund will pursue an accumulation policy (= accumulation shares), which bring them no rights to distributions. The income attached to these shares is automatically reinvested.

#### *DIGITAL FUNDS Stars Continental Europe*

This Sub-Fund will pursue both an accumulation policy and a distribution policy, as listed below:

- Shares of Classes “Acc”, “Acc 1”, “Acc 2”, “I”, “I USD H”, “I2”, “P” and “R” in EUR (= accumulation shares), which bring them no rights to distributions. The income attached to these shares is automatically reinvested.
- Shares of Class “GBP” in GBP and Shares of Classes “D” and “DI” in EUR (= distribution Shares), which entitle the shareholder to an annual distribution.

For the fiscal year ending 30 September 2023 the following dividend has been paid out to the shareholders:

#### *DIGITAL FUNDS Stars Continental Europe*

Share classes	Ex-Date	Pay Date	EUR
D	26.10.2022	31.10.2022	4.60
DI	26.10.2022	31.10.2022	2.23

#### *DIGITAL FUNDS Stars Europe*

This Sub-Fund will pursue both an accumulation policy and a distribution policy, as listed below:

- Shares of Classes “Acc”, “Acc 1”, “Acc 2”, “FC”, “FI”, “FT”, “R”, “I”, “I 1” and “P” in EUR and Shares of Classes “USD” and “I USD” in USD (= accumulation shares), which bring them no rights to distributions. The income attached to these Shares is automatically reinvested.
- Shares of Class “GBP” in GBP and Shares of Classes “D” and “D 1” in EUR (= distribution shares), which entitle the shareholder to an annual distribution.

For the fiscal year ending 30 September 2023 the following dividend has been paid out to the shareholders:

#### *DIGITAL FUNDS Stars Europe*

Share classes	Ex-Date	Pay Date	EUR
D	26.10.2022	31.10.2022	5.94
D 1	26.10.2022	31.10.2022	3.34

#### *DIGITAL FUNDS Stars Europe Smaller Companies*

This Sub-Fund will pursue an accumulation policy (no rights to distributions). The income attached to these Shares is automatically reinvested.

#### *DIGITAL FUNDS Stars Eurozone*

This Sub-Fund will pursue an accumulation policy (= accumulation shares), which bring them no rights to distributions. The income attached to these shares is automatically reinvested.

#### *DIGITAL FUNDS Stars US Equities*

This Sub-Fund will pursue an accumulation policy. Therefore, this Sub-Fund will issue one type of Shares which bring them no rights to distributions. The income attached to these shares is automatically reinvested.

### Note 5 – Commitments on Financial Futures

Commitments on Financial Futures per Sub-Fund and respective currency as of 30 September 2023 can be summarised as follows:

## Financial Futures

DIGITAL FUNDS	Financial Futures on Indices (bought)	Financial Futures on Indices (sold)
Market Neutral Europe	2 030 410.00 EUR	2 059 495.00 EUR
Stars Continental Europe	3 825 640.00 EUR	- EUR
Stars Europe	11 939 360.00 EUR	- EUR
Stars Europe Smaller Companies	211 750.00 EUR	- EUR
Stars US Equities	216 275.00 USD	- USD

The commitments on Financial Futures on bonds or index (if any) are calculated based on the market value of the Financial Futures (Number of contracts\* notional contract size\* market price of the futures).

### Note 6 – Soft commission arrangements

During the financial year from 1 October 2022 until 30 September 2023, no “soft commission arrangements” were entered into on behalf of DIGITAL FUNDS and “soft commission arrangements” amount to nil.

### Note 7 – Total Expense Ratio (TER)

This ratio was calculated in accordance with the Asset Management Association Switzerland (AMAS) “Guidelines on the calculation and disclosure of the TER” in the current version and expresses the sum of all costs and commissions charged on an ongoing basis to the net assets (operating expenses) taken retrospectively as a percentage of the net assets.

TER for the last 12 months:

DIGITAL FUNDS	Total Expense Ratio (TER)	thereof Performance fee
Market Neutral Europe Acc EUR	1.71%	0.00%
Market Neutral Europe Acc 2 EUR	1.25%	0.00%
Market Neutral Europe I EUR	1.18%	0.00%

Stars Eurozone R	2.20%	0.00%
Stars US Equities Acc EUR	2.07%	0.00%
Stars US Equities Acc USD	1.89%	0.00%
Stars US Equities Acc 1 EUR H	1.51%	0.00%
Stars US Equities Acc 1 USD	1.52%	0.00%
Stars US Equities EB EUR H	1.21%	0.00%
Stars US Equities I EUR	1.46%	0.00%
Stars US Equities I EUR H	1.20%	0.00%
Stars US Equities I USD	1.36%	0.00%
Stars US Equities P EUR	2.58%	0.00%
Stars US Equities R EUR	2.39%	0.00%

Transaction costs, interest costs, securities lending costs and any other costs incurred in connection with currency hedging are not included in the TER.

### Note 8 – Portfolio Turnover Rate (PTR)

The portfolio turnover has been calculated as follows:

$$\frac{(\text{Total purchases} + \text{total sales}) - (\text{total subscriptions} + \text{total redemptions})}{\text{Average of net assets during the period under review}}$$

Average of net assets during the period under review

The portfolio turnover statistics are the following for the period under review:

<b>DIGITAL FUNDS</b>	<b>Portfolio Turnover Rate (PTR)</b>
Market Neutral Europe	63.46%
Stars Continental Europe	214.30%
Stars Europe	196.53%
Stars Europe Smaller Companies	193.35%
Stars Eurozone	248.19%
Stars US Equities	415.59%

### Note 9 – Transaction costs

Transaction costs include brokerage fees, stamp duty, local taxes and other foreign charges if incurred during the period. Transaction fees are included in the cost of securities purchased and sold.

For the financial year ended on 30 September 2023, the Company incurred transaction costs relating to purchase or sale of investments in securities and similar transactions as follows:

<b>DIGITAL FUNDS</b>	<b>Transaction costs</b>
Market Neutral Europe	1 677.55 EUR
Stars Continental Europe	533 309.31 EUR
Stars Europe	1 503 119.06 EUR
Stars Europe Smaller Companies	39 172.26 EUR
Stars Eurozone	79 823.35 EUR
Stars US Equities	24 891.10 USD

Not all transaction costs are separately identifiable. For fixed income investments, forward currency contracts and other derivative contracts, transaction costs will be included in the purchase and sale price of the investment. Whilst not separately identifiable these transaction costs will be captured within the performance of each Sub-Funds.

### Note 10 – Statement of Investment

The countries listed in the geographical breakdowns of each statement of investment are the countries of registration of the instrument and not necessarily reflecting the location of activity of the instrument.

### Note 11 – Subsequent event

There were no events after the year-end that require adjustment to or disclosure in the Financial Statements.

### Note 12 – Official language

The English version of these financial statements is the authoritative version and only this version was audited by the auditors. However, in the case of Fund shares sold to investors from other countries in which Fund shares can be bought and sold, the Fund and the Depositary may recognize approved translations (i.e. approved by the Fund and the Depositary) into the languages concerned as binding upon themselves.

## Note 13 – OTC-Derivatives and Securities Lending

If the Fund enters into OTC transactions, it may be exposed to risks related to the creditworthiness of the OTC counterparties: when the Fund enters into futures contracts, options and swap transactions or uses other derivative techniques it is subject to the risk that an OTC counterparty may not meet (or cannot meet) its obligations under a specific or multiple contracts. Counterparty risk can be reduced by depositing a security. If the Fund is owed a security pursuant to an applicable agreement, such security shall be held in custody by the Depositary in favour of the Fund. Bankruptcy and insolvency events or other credit events with the OTC counterparty, the Depositary or within their subdepository/correspondent bank network may result in the rights or recognition of the Fund in connection with the security to be delayed, restricted or even eliminated, which would force the Fund to fulfill its obligations in the framework of the OTC transaction, in spite of any security that had previously been made available to cover any such obligation.

The Fund may lend portions of its securities portfolio to third parties. In general, lendings may only be effected via recognized clearing houses such as Clearstream International or Euroclear, or through the intermediary of prime financial institutions that specialise in such activities and in the modus specified by them. Securities lending income and costs are shown separately in the Statement of Operations. Collateral is received in relation to securities lent. Collateral is composed of high quality securities in an amount typically at least equal to the market value of the securities loaned.

### OTC-Derivatives\*

The OTC-derivatives of the below Sub-Funds with no collateral have margin accounts instead.

Sub-Funds Counterparty	Unrealized gain (loss)	Collateral received
<b>DIGITAL FUNDS Stars Continental Europe</b>		
UBS Europe SE	-5.78 EUR	0.00 EUR
<b>DIGITAL FUNDS Stars Europe</b>		
UBS Europe SE	-26 178.77 EUR	196 445.45 EUR

\*\* Effective 1 June 2022, 26.25% of the gross revenue are retained as costs/fees by UBS Switzerland AG acting as securities lending service provider and 8.75% are retained by UBS Europe SE, Luxembourg Branch acting as securities lending agent.

# Appendix 1 – Global Exposure (unaudited)

## Risk management

Commitment approach is applied in accordance with the applicable laws and regulatory provisions.

## Leverage

Leverage is defined pursuant to the applicable ESMA directives as the total of the notional values of the derivatives used by the respective Sub-Funds. According to this definition, leverage may result in artificially increased leverage amounts, as some derivatives that can be used for hedging purposes may be included in the calculation. Consequently, this information does not necessarily reflect the precise actual leverage risk that the investor is exposed to.

<b>Sub-Funds</b>	<b>Global risk calculation method</b>	<b>Expected level of leverage (% value)</b>	<b>Reference portfolio (benchmark)</b>	<b>Level of leverage as at 30.09.2023 (%)</b>

# Appendix 3 – Securities Financing Transaction Regulation (SFTR) (unaudited)

The Fund engages in Securities Financing Transactions (hereafter “SFT”) (as defined in Article 3 of Regulation (EU) 2015/2365). Securities Financing transactions include repurchase transactions, securities or commodities lending and securities or commodities borrowing, buy-sell back transactions or sell-buy back transactions and margin lending transactions through its exposure on reverse repurchase agreements during the year. For the time being, the Fund only enters into securities lending transactions as lender of securities. In accordance with Article 13 of the Regulation, information on securities lendings are detailed below:

## Global Data

The following table details the value of securities lending as a proportion of the Sub-Fund’s Net Assets Value as well as a proportion of the total lendable securities, as at 30 September 2023.

DIGITAL FUNDS	Securities lent in % of Net Assets	Securities lent in % of Total Lendable Securities
Stars Continental Europe	8.08%	8.27%
Stars Europe	16.78%	17.29%
Stars Europe Smaller Companies	16.04%	16.67%

The total amount (absolute value) of the securities lent is disclosed in Note 13 – OTC-Derivatives and Securities Lending.

## Data on collateral reused

Amount of collateral reused, compared with the maximum amount disclosed to investors: None

Cash collateral reinvestment income to the Fund: None

## Data on income and expense for each type of SFT

All expenses relating to the execution of securities lending transactions and their collateralization are borne by the counterparties and the depositary.

Service providers that provide securities lending services to the Fund have the right to receive a fee in line with market standards in return for their services. The amount of this fee is reviewed and adapted, where appropriate, on an annual basis. Since 1 January 2022, 65% of the gross revenue received in the context of securities lending transactions negotiated at arm's lengths is credited to the relevant Sub-Fund, while 35% of the gross revenue are retained as costs/fees by UBS Europe SE, Luxembourg Branch acting as securities lending agent and UBS Switzerland AG providing securities lending services. All costs/fees of running the securities lending programme are paid from the securities lending agents' portion of the gross income. This includes all direct and indirect costs/fees generated by the securities lending activities. UBS Europe SE, Luxembourg Branch and UBS Switzerland AG are part of the UBS Group.

## Appendix 4 – Remuneration Policy (unaudited)

The remuneration policy of the Management Company is consistent with and promotes sound and effective risk management and does not encourage risk-taking which is inconsistent with the risk profile, rules or instruments of incorporation of the Fund managed.

The remuneration policy reflects the Management Company's objectives for good corporate governance as well as sustained and long-term value creation for the shareholders. The remuneration policy has been designed and implemented to:

- support actively the achievement of the Management Company's strategy and objectives;
- support the competitiveness of the Management Company in the markets it operates;
- be able to attract, develop and retain high performing and motivated employees; and
- address any situations of conflicts of interest. For that purpose, the Management Company has implemented and maintains an adequate management of conflicts of interest policy.

Employees of the Management Company are offered a competitive and market-aligned remuneration package making fixed salaries a significant component of their total package. Moreover, the assessment of performance is set in a multi-year framework appropriate to the holding period recommended to the investors of the Fund in order to ensure that the assessment process is based on the longer-term performance of the Fund and its investment risks and that the actual payment of performance-based components of remuneration is spread over the same period.

Given the nature of the Company's activities, it is not currently possible to include environmental, social and governance (ESG) criteria in the assessment of employee performance. However, the funds managed by the Company, whose performance is an important component of the variable compensation of several categories of employees, do include ESG criteria in the selection of securities in their portfolios.

The Management Company complies with the remuneration principles described above in a way and to the extent that is appropriate to its size, internal organisation and the nature, scope and complexity of its activities.

Moreover, the principles of the remuneration policy are reviewed on a regular basis and adapted to the evolving regulatory framework. The remuneration policy has been approved by the Board of directors of the Management Company.

For the Management Company fiscal year ending 31 December 2022, the aggregate total remuneration paid by J.Chahine Capital to all management company staff amounted to EUR 2 325 629 of which EUR 748 242 represented the variable remuneration. The Management Company employed an average of 19.5 staff (full time equivalent) during this period. The aggregate total remuneration paid by J.Chahine Capital to the "Identified staff" amounted to EUR 1 225 235.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

## ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Product name:** DIGITAL FUNDS Stars Continental Europe (the “subfund”)  
**Legal entity identifier:** 5299005TLFT3PU3JF448

### Environmental and/or social characteristics

**Did this financial product have a sustainable investment objective?**

**Yes**
  **No**

<input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ___%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of 0.00% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>
---	--

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

Business conduct risks related to human rights, labour, the environment and corruption can result in risks to a company’s reputation and finances, and therefore in a risk for the final investor. Thus, we exclude companies with a high level of ESG controversy. We use the external RepRisk database for this purpose. RepRisk helps us reducing blind spots and shed light on the ESG and business conduct risks related to our investments.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Through this exclusion filter based on ESG controversies, normative considerations and certain sectors, the fund promotes environmental and social characteristics, such as: respect for human rights and labour rights, peace, prevention of environmental risks, prevention of impacts on biodiversity, reduction of carbon emissions related to the coal industry, public health.

## ● **How did the sustainability indicators perform?**

The sustainability indicators used are:

RepRisk Index (RRI): The RRI is a proprietary algorithm developed by RepRisk that dynamically captures and quantifies reputational risk exposure related to ESG issues. The RRI is not a measure of reputation, but is rather an indicator of ESG-related reputational risk of a company or other entity. It allows the comparison of a company's exposure with that of its peers and helps track the risk trend over time. In essence, the RRI facilitates an initial assessment of the ESG and reputational risks associated with financing, investing, or conducting business with a particular company.

The RRI ranges from zero (lowest) to 100 (highest): 0-24 means low risk exposure, 25-49 means medium risk exposure, 50-59 means high risk exposure, 60-74 means very high risk exposure, and 75-100 means extremely high risk exposure.

RRI E, RRI S: derived from RRI. They respectively quantify reputational risk of a company regarding environmental issues and social issues.

Peak RRI: derived from RRI, it is the maximum value, between 0-100, reached by the RRI over the past two years.

As of 30 September 2023, this is how indicators have performed:

- the fund's RepRisk Indicator (RRI) is 11/100
- The RRI E of the fund is 3
- The RRI S of the fund is 4
- The fund's Peak RRI is 23/100

## ● **...and compared to previous periods?**

	RRI E	Peak RRI	RRI	RRI S
Year 2023	3	23	11	4
Year 2022	2	20	11	4

## ● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable as the fund will not make sustainable investments.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable as the fund will not make sustainable investments.

----- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable as the fund will not make sustainable investments.

----- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

Not applicable as the fund will not make sustainable investments.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

Indicators of principal adverse impacts have been taken into account through RepRisk. RepRisk’s core research scope is comprised of 28 ESG Issues that are broad, comprehensive, and mutually exclusive. These 28 Issues drive the entire research process, and every risk incident in RepRisk’s ESG Risk Platform is linked to at least one of these Issues. RepRisk’s covers issues like climate change, GHG emissions, global pollution, impacts on landscapes, ecosystems and biodiversity, local pollution, waste issues.

**What were the top investments of this financial product?**

Code	Largest investments	Sector	% Assets	Country
NO0010716582	AKER SOLUTIONS	Mining and quarrying	2.30%	Norvege

NL0010801007	IMCD	Manufacturing	1.29%	Netherlands

**Asset allocation** describes the share of investments in specific assets.

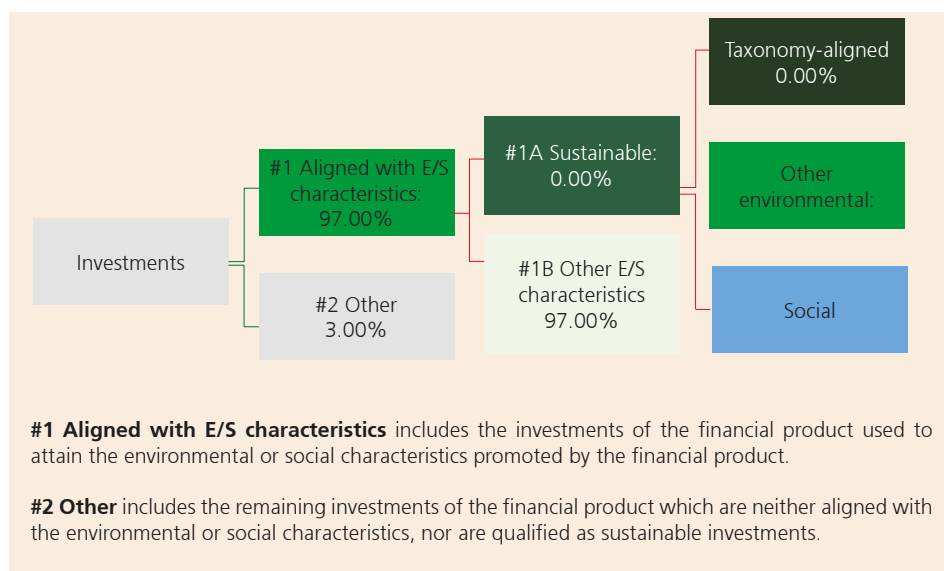

## What was the proportion of sustainability-related investments?

### ● What was the asset allocation?

- #1 Aligned with E/S characteristics: 97%
- #1A Sustainable: 0%
- Taxonomy aligned: 0%
- Other environmental: 0%
- Social: 0%
- #1B Other E/S characteristics: 97%
- #2 Other: 3%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

## ● In which economic sectors were the investments made?

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

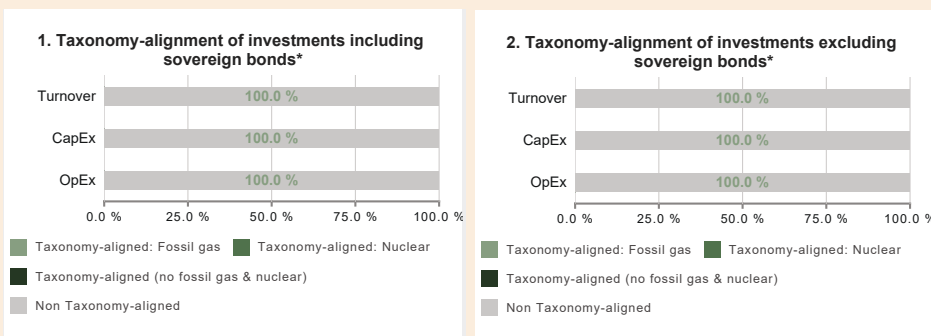

- Yes:
- In fossil gas
  - In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies today.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g., for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

**The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.**

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **What was the share of investments made in transitional and enabling activities?**

Not applicable

- **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable

- **What was the share of socially sustainable investments?**

Not applicable

- **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Not applicable

- **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The management company has implemented several exclusion criteria to meet the environmental and social characteristics promoted by the fund, such as normative exclusions, exclusions relating to the coal, nuclear, non-conventional oil and gas, palm oil, pesticides, GMO sectors, and companies with high environmental or social controversy indicators.

- **How did this financial product perform compared to the reference benchmark?**

- **How does the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

## ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**Product name:** DIGITAL FUNDS Stars Europe (the “subfund”)  
**Legal entity identifier:** 529900SQ5TEHY0DGUN79

### Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
●● <input type="checkbox"/> Yes	●● <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective:</b> ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul>	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of 0.00% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul>
<input type="checkbox"/> It made <b>sustainable investments with a social objective:</b> ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

Business conduct risks related to human rights, labour, the environment and corruption can result in risks to a company’s reputation and finances, and therefore in a risk for the final investor. Thus, we exclude companies with a high level of ESG controversy. We use the external RepRisk database for this purpose. RepRisk helps us reducing blind spots and shed light on the ESG and business conduct risks related to our investments.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Through this exclusion filter based on ESG controversies, normative considerations and certain sectors, the fund promotes environmental and social characteristics, such as: respect for human rights and labour rights, peace, prevention of environmental risks, prevention of impacts on biodiversity, reduction of carbon emissions related to the coal industry, public health.

## ● **How did the sustainability indicators perform?**

The sustainability indicators used are:

RepRisk Index (RRI): The RRI is a proprietary algorithm developed by RepRisk that dynamically captures and quantifies reputational risk exposure related to ESG issues. The RRI is not a measure of reputation, but is rather an indicator of ESG-related reputational risk of a company or other entity. It allows the comparison of a company's exposure with that of its peers and helps track the risk trend over time. In essence, the RRI facilitates an initial assessment of the ESG and reputational risks associated with financing, investing, or conducting business with a particular company.

The RRI ranges from zero (lowest) to 100 (highest): 0-24 means low risk exposure, 25-49 means medium risk exposure, 50-59 means high risk exposure, 60-74 means very high risk exposure, and 75-100 means extremely high risk exposure.

RRI E, RRI S: derived from RRI. They respectively quantify reputational risk of a company regarding environmental issues and social issues.

Peak RRI: derived from RRI, it is the maximum value, between 0-100, reached by the RRI over the past two years.

As of 30 September 2023, this is how indicators have performed:

- the fund's RepRisk Indicator (RRI) is 11/100
- The RRI E of the fund is 4
- The RRI S of the fund is 4
- The fund's Peak RRI is 22/100

## ● **...and compared to previous periods?**

	RRI E	Peak RRI	RRI	RRI S
Year 2023	4	22	11	4
Year 2022	2	21	12	5

## ● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable as the fund will not make sustainable investments.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable as the fund will not make sustainable investments.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable as the fund will not make sustainable investments.

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

Not applicable as the fund will not make sustainable investments.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

Indicators of principal adverse impacts have been taken into account through RepRisk. RepRisk’s core research scope is comprised of 28 ESG Issues that are broad, comprehensive, and mutually exclusive. These 28 Issues drive the entire research process, and every risk incident in RepRisk’s ESG Risk Platform is linked to at least one of these Issues. RepRisk’s covers issues like climate change, GHG emissions, global pollution, impacts on landscapes, ecosystems and biodiversity, local pollution, waste issues.

**Asset allocation** describes the share of investments in specific assets.

## What was the proportion of sustainability-related investments?

### ● What was the asset allocation?

#1 Aligned with E/S characteristics: 97%  
 #1A Sustainable: 0%  
 Taxonomy aligned: 0%  
 Other environmental: 0%  
 Social: 0%  
 #1B Other E/S characteristics: 97%  
 #2 Other: 3%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

## In which economic sectors were the investments made?

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

- Yes:
  - In fossil gas
  - In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies today.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g, for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **What was the share of investments made in transitional and enabling activities?**

Not applicable

- **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable

- **What was the share of socially sustainable investments?**

Not applicable

- **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Not applicable

- **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The management company has implemented several exclusion criteria to meet the environmental and social characteristics promoted by the fund, such as normative exclusions, exclusions relating to the coal, nuclear, non-conventional oil and gas, palm oil, pesticides, GMO sectors, and companies with high environmental or social controversy indicators.

- **How did this financial product perform compared to the reference benchmark?**

- **How does the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

## ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**Product name:** DIGITAL FUNDS Stars Europe Smaller Companies (the “subfund”)  
**Legal entity identifier:** 529900MGP4WVEJFEE408

### Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?	
Yes	No
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul>	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of 0.00% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul>
<input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

Business conduct risks related to human rights, labour, the environment and corruption can result in risks to a company’s reputation and finances, and therefore in a risk for the final investor. Thus, we exclude companies with a high level of ESG controversy. We use the external RepRisk database for this purpose. RepRisk helps us reducing blind spots and shed light on the ESG and business conduct risks related to our investments.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Through this exclusion filter based on ESG controversies, normative considerations and certain sectors, the fund promotes environmental and social characteristics, such as: respect for human rights and labour rights, peace, prevention of environmental risks, prevention of impacts on biodiversity, reduction of carbon emissions related to the coal industry, public health.

## ● **How did the sustainability indicators perform?**

The sustainability indicators used are:

RepRisk Index (RRI): The RRI is a proprietary algorithm developed by RepRisk that dynamically captures and quantifies reputational risk exposure related to ESG issues. The RRI is not a measure of reputation, but is rather an indicator of ESG-related reputational risk of a company or other entity. It allows the comparison of a company's exposure with that of its peers and helps track the risk trend over time. In essence, the RRI facilitates an initial assessment of the ESG and reputational risks associated with financing, investing, or conducting business with a particular company.

The RRI ranges from zero (lowest) to 100 (highest): 0-24 means low risk exposure, 25-49 means medium risk exposure, 50-59 means high risk exposure, 60-74 means very high risk exposure, and 75-100 means extremely high risk exposure.

RRI E, RRI S: derived from RRI. They respectively quantify reputational risk of a company regarding environmental issues and social issues.

Peak RRI: derived from RRI, it is the maximum value, between 0-100, reached by the RRI over the past two years.

As of 30 September 2023, this is how indicators have performed

- the fund's RepRisk Indicator (RRI) is 7/100
- The RRI E of the fund is 2
- The RRI S of the fund is 3
- The fund's Peak RRI is 18/100

## ● **...and compared to previous periods?**

	RRI E	Peak RRI	RRI	RRI S
Year 2023	2	18	7	3
Year 2022	1	13	6	2

## ● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable as the fund will not make sustainable investments.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable as the fund will not make sustainable investments.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable as the fund will not make sustainable investments.

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

Not applicable as the fund will not make sustainable investments.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

Indicators of principal adverse impacts have been taken into account through RepRisk. RepRisk’s core research scope is comprised of 28 ESG Issues that are broad, comprehensive, and mutually exclusive. These 28 Issues drive the entire research process, and every risk incident in RepRisk’s ESG Risk Platform is linked to at least one of these Issues. RepRisk’s covers issues like climate change, GHG emissions, global pollution, impacts on landscapes, ecosystems and biodiversity, local pollution, waste issues.

**What were the top investments of this financial product?**

Code	Largest investments	Sector	% Assets	Country

**Asset allocation** describes the share of investments in specific assets.

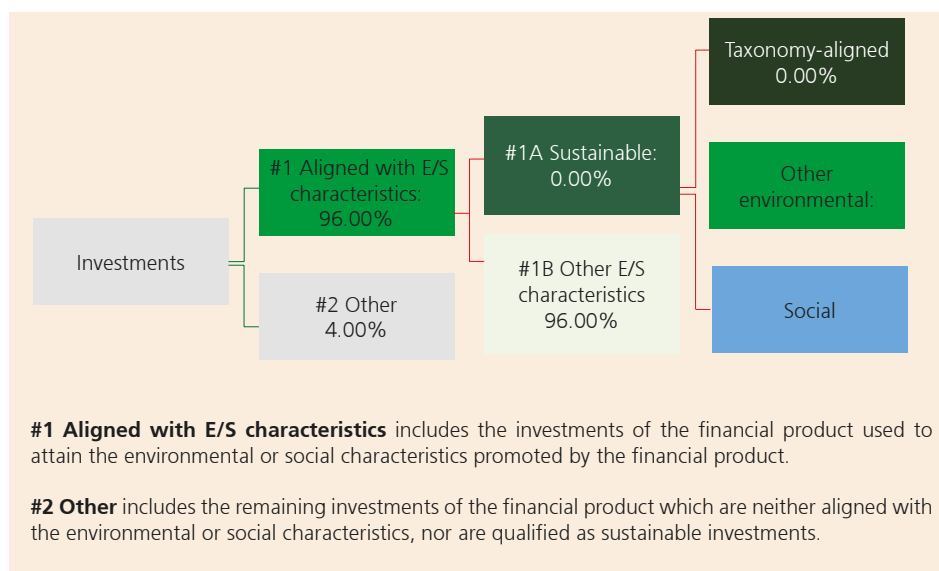

## What was the proportion of sustainability-related investments?

### ● What was the asset allocation?

#1 Aligned with E/S characteristics: 96%  
 #1A Sustainable: 0%  
 Taxonomy aligned: 0%  
 Other environmental: 0%  
 Social: 0%  
 #1B Other E/S characteristics: 96%  
 #2 Other: 4%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

## In which economic sectors were the investments made?

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

### Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

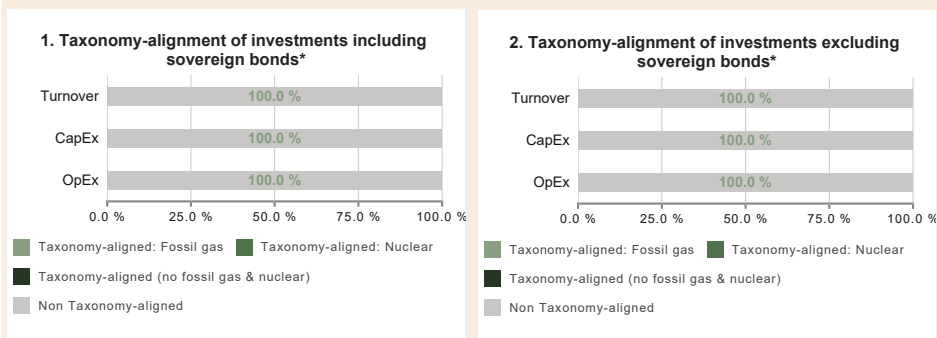

- Yes:
  - In fossil gas
  - In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change (“climate change mitigation”) and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies today.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g., for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, ‘sovereign bonds’ consist of all sovereign exposures.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **What was the share of investments made in transitional and enabling activities?**

Not applicable

- **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable

- **What was the share of socially sustainable investments?**

Not applicable

- **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Not applicable

- **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The management company has implemented several exclusion criteria to meet the environmental and social characteristics promoted by the fund, such as normative exclusions, exclusions relating to the coal, nuclear, non-conventional oil and gas, palm oil, pesticides, GMO sectors, and companies with high environmental or social controversy indicators.

- **How did this financial product perform compared to the reference benchmark?**

- **How does the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

## ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**Product name:** DIGITAL FUNDS Stars Eurozone (the “subfund”)  
**Legal entity identifier:** 529900G224IN5MYEFU82

### Environmental and/or social characteristics

**Did this financial product have a sustainable investment objective?**

**Yes**
  **No**

<input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul> <input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ___%	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of 0.00% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul> <input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>
---	--

### To what extent were the environmental and/or social characteristics promoted by this financial product met?

We take into account the capacity of companies to manage environmental and social risks to which they are exposed through their activities. We therefore favour companies with the least exposure to ESG risks by excluding those with a high level of ESG risk. We also take into account company’s carbon risk based on the transition to a low-carbon economy. We exclude companies with a high level of carbon risk. For these purposes, we use the Sustainalytics database.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Business conduct risks related to human rights, labour, the environment and corruption can result in risks to a company's reputation and finances, and therefore in a risk for the final investor. Thus, we exclude companies with a high level of ESG controversy. We use the external RepRisk database for this purpose. RepRisk helps us reducing blind spots and shed light on the ESG and business conduct risks related to our investments.

At the end of investment process stocks are evaluated on the basis of an ESG indicator, which combines Sustainalytics' ESG Risk Rating and RepRisk's ESG Reputational Risk indicator. Stocks with the best ESG indicators are integrated into the portfolio. We ensure that the ESG indicator for these stocks is in the top 50% of the initial investment universe.

The fund promotes environmental and social characteristics such as respect for human rights and labour rights, peace, prevention of environmental risks, protection of the environment, prevention of impacts on biodiversity, limitation of carbon emissions, public health.

## ● **How did the sustainability indicators perform?**

The sustainability indicators used are:

**ESG Risk Rating:** ESG Risk Rating quantifies a company's exposure to ESG risk and how well the company manages that risk. ESG Risk Rating is a score from 0 (less risky) to 100 (extremely risky): 0-10 is a negligible level of risk, 10-20 is a low level of risk, 20-30 is a medium level of risk, 30-40 is a high level of risk, and 40 and above is a serious level of risk.

**RepRisk Index (RRI):** The RRI is a proprietary algorithm developed by RepRisk that dynamically captures and quantifies reputational risk exposure related to ESG issues. The RRI is not a measure of reputation, but is rather an indicator of ESG-related reputational risk of a company or other entity. It allows the comparison of a company's exposure with that of its peers and helps track the risk trend over time. In essence, the RRI facilitates an initial assessment of the ESG and reputational risks associated with financing, investing, or conducting business with a particular company.

The RRI ranges from zero (lowest) to 100 (highest): 0-24 means low risk exposure, 25-49 means medium risk exposure, 50-59 means high risk exposure, 60-74 means very high risk exposure, and 75-100 means extremely high risk exposure.

**RRI E, RRI S:** derived from RRI. They respectively quantify reputational risk of a company regarding environmental issues and social issues.

**RRI E, RRI S:** derived from RRI. They respectively quantify reputational risk of a company regarding environmental issues and social issues.

**Peak RRI:** derived from RRI, it is the maximum value, between 0-100, reached by the RRI over the past two years.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

ESG Score: which combines Sustainalytics' ESG Risk Rating and RepRisk's ESG Reputational Risk indicator (RRI). Stocks with the best ESG indicators are integrated into the portfolio. We ensure that the ESG indicator for these stocks is in the top 50% of the initial investment universe.

As of 30 September 2023, this is how indicators have performed

- ESG Score of the fund is 14/100
- the fund's RepRisk Indicator (RRI) is 10/100
- The RRI E of the fund is 2
- The RRI S of the fund is 4
- The fund's Peak RRI is 22/100

## ● **...and compared to previous periods?**

	RRI	RRI S	Score ESG	RRI E	Peak RRI
Year 2022	10	4	14.14	2	21
Year 2023	10	4	14	2	22

## ● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable as the fund will not make sustainable investments.

## ● **How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable as the fund will not make sustainable investments.

----- *How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable as the fund will not make sustainable investments.

----- *Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

Not applicable as the fund will not make sustainable investments.

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

*The EU Taxonomy sets out a "do not significant harm" principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The "do no significant harm" principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

## How did this financial product consider principal adverse impacts on sustainability factors?

Indicators of principal adverse impacts have been taken into account through Sustainalytics and RepRisk. In Sustainalytics' ESG Risk Rating calculation method, 29 different ESG issues can be taken into account depending on a company's sector and/or activity. The issues taken into account are for example human capital, business ethics, human rights, land use & biodiversity, emissions, effluents & waste, product governance, carbon. In the Carbon Risk Ratings, a company's management of and exposure to carbon is broken out into three separate Material Carbon Issues: Carbon - Own Operations, Carbon - Products and Services, and Carbon Finance. RepRisk's core research scope is comprised of 28 ESG Issues that are broad, comprehensive, and mutually exclusive. These 28 Issues drive the entire research process, and every risk incident in RepRisk's ESG Risk Platform is linked to at least one of these Issues. RepRisk's covers issues like climate change, GHG emissions, global pollution, impacts on landscapes, ecosystems and biodiversity, local pollution, waste issues.

## What were the top investments of this financial product?

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

## What was the proportion of sustainability-related investments?

### ● What was the asset allocation?

#### Asset allocation

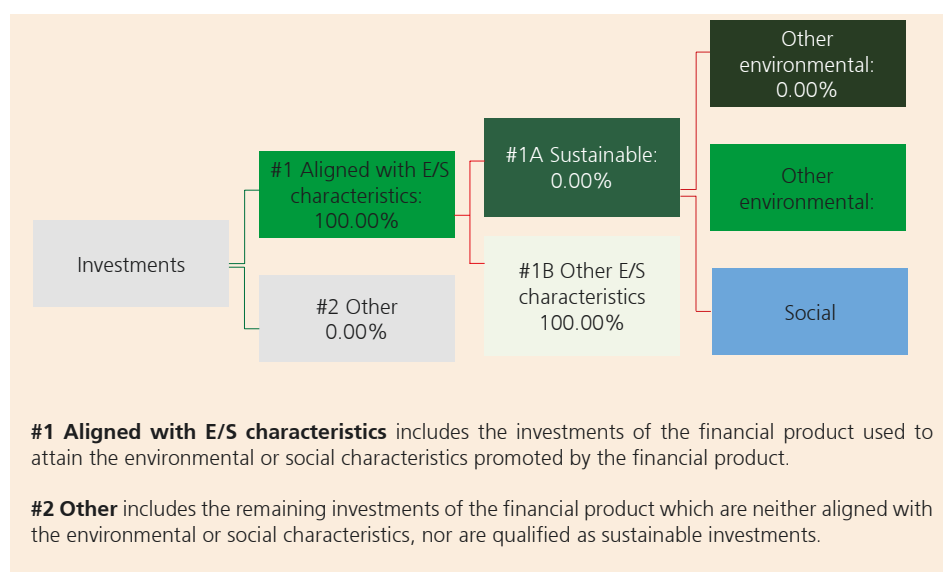

describes the share of investments in specific assets.

#1 Aligned with E/S characteristics: 100%  
 #1A Sustainable: 0%  
 Taxonomy aligned : 0%  
 Other environmental: 0%  
 Social: 0%  
 #1B Other E/S characteristics: 100%  
 #2 Other: 0%

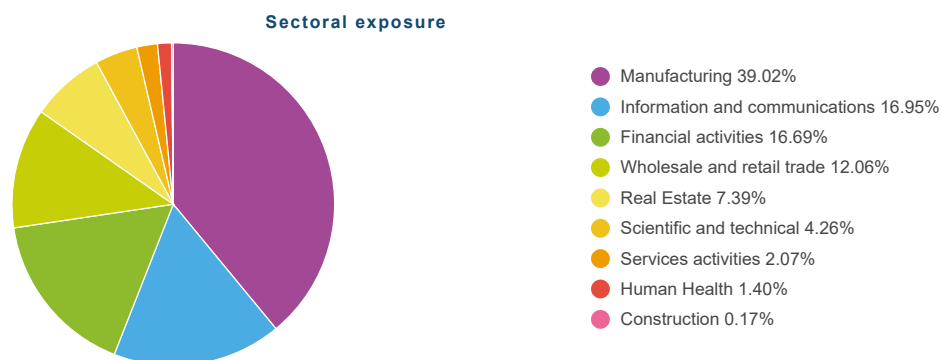

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

### ● In which economic sectors were the investments made?

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies today.

- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g, for a transition to a green economy.

- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

● **Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?**

- Yes:
- In fossil gas     In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objective – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

*The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.*

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

● **What was the share of investments made in transitional and enabling activities?**

Not applicable

**What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **What was the share of investments made in transitional and enabling activities?**

Not applicable

- **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable

- **What was the share of socially sustainable investments?**

Not applicable

- **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Not applicable

- **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The management company has implemented several exclusion criteria to meet the environmental and social characteristics promoted by the fund, such as normative exclusions, exclusions relating to the coal, nuclear, non-conventional oil and gas, palm oil, pesticides, GMO sectors, and companies with high environmental or social controversy indicators.

- **How did this financial product perform compared to the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

## ANNEX IV

Template periodic disclosure for the financial products referred to in Article 8, paragraphs 1, 2 and 2a, of Regulation (EU) 2019/2088 and Article 6, first paragraph, of Regulation (EU) 2020/852

**Sustainable investment** means an investment in an economic activity that contributes to an environmental or social objective, provided that the investment does not significantly harm any environmental or social objective and that the investee companies follow good governance practices.

The **EU Taxonomy** is a classification system laid down in Regulation (EU) 2020/852, establishing a list of **environmentally sustainable economic activities**. That Regulation does not include list of socially sustainable economic activities. Sustainable investments with an environmental objective might be aligned with the Taxonomy or not.

**Sustainability indicators** measure how the environmental or social characteristics promoted by the financial product are attained.

**Product name:** DIGITAL FUNDS Stars US Equities (the “subfund”)  
**Legal entity identifier:** 52990012JWSAECXC8156

### Environmental and/or social characteristics

Did this financial product have a sustainable investment objective?

●● <input type="checkbox"/> Yes	●○ <input checked="" type="checkbox"/> No
<input type="checkbox"/> It made <b>sustainable investments with an environmental objective</b> : ___% <ul style="list-style-type: none"> <li><input type="checkbox"/> in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> </ul>	<input type="checkbox"/> It <b>promoted Environmental/Social (E/S) characteristics</b> and while it did not have as its objective a sustainable investment, it had a proportion of 0.00% of sustainable investments <ul style="list-style-type: none"> <li><input type="checkbox"/> with an environmental objective in economic activities that qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with an environmental objective in economic activities that do not qualify as environmentally sustainable under the EU Taxonomy</li> <li><input type="checkbox"/> with a social objective</li> </ul>
<input type="checkbox"/> It made <b>sustainable investments with a social objective</b> : ___%	<input checked="" type="checkbox"/> It promoted E/S characteristics, but <b>did not make any sustainable investments</b>

**To what extent were the environmental and/or social characteristics promoted by this financial product met?**

Business conduct risks related to human rights, labour, the environment and corruption can result in risks to a company’s reputation and finances, and therefore in a risk for the final investor. Thus, we exclude companies with a high level of ESG controversy. We use the external RepRisk database for this purpose. RepRisk helps us reducing blind spots and shed light on the ESG and business conduct risks related to our investments.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

Through this exclusion filter based on ESG controversies, normative considerations and certain sectors, the fund promotes environmental and social characteristics, such as: respect for human rights and labour rights, peace, prevention of environmental risks, prevention of impacts on biodiversity, reduction of carbon emissions related to the coal industry, public health.

## ● **How did the sustainability indicators perform?**

The sustainability indicators used are:

RepRisk Index (RRI): The RRI is a proprietary algorithm developed by RepRisk that dynamically captures and quantifies reputational risk exposure related to ESG issues. The RRI is not a measure of reputation, but is rather an indicator of ESG-related reputational risk of a company or other entity. It allows the comparison of a company's exposure with that of its peers and helps track the risk trend over time. In essence, the RRI facilitates an initial assessment of the ESG and reputational risks associated with financing, investing, or conducting business with a particular company.

The RRI ranges from zero (lowest) to 100 (highest): 0-24 means low risk exposure, 25-49 means medium risk exposure, 50-59 means high risk exposure, 60-74 means very high risk exposure, and 75-100 means extremely high risk exposure.

RRI E, RRI S: derived from RRI. They respectively quantify reputational risk of a company regarding environmental issues and social issues.

Peak RRI: derived from RRI, it is the maximum value, between 0-100, reached by the RRI over the past two years.

As of 30 September 2023, this is how indicators have performed:

- the fund's RepRisk Indicator (RRI) is 6/100
- The RRI E of the fund is 1
- The RRI S of the fund is 3
- The fund's Peak RRI is 14/100

## ● **...and compared to previous periods?**

	RRI	RRI S	RRI E	Peak RRI
Year 2022	6	3	1	14
Year 2023	3	1	0	9

## ● **What were the objectives of the sustainable investments that the financial product partially made and how did the sustainable investment contribute to such objectives?**

Not applicable as the fund will not make sustainable investments.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

**Principal adverse impacts** are the most significant negative impacts of investment decisions on sustainability factors relating to environmental, social and employee matters, respect for human rights, anti-corruption and anti-bribery matters.

**How did the sustainable investments that the financial product partially made not cause significant harm to any environmental or social sustainable investment objective?**

Not applicable as the fund will not make sustainable investments.

*How were the indicators for adverse impacts on sustainability factors taken into account?*

Not applicable as the fund will not make sustainable investments.

*Were sustainable investments aligned with the OECD Guidelines for Multinational Enterprises and the UN Guiding Principles on Business and Human Rights?*

Not applicable as the fund will not make sustainable investments.

*The EU Taxonomy sets out a “do not significant harm” principle by which Taxonomy-aligned investments should not significantly harm EU Taxonomy objectives and is accompanied by specific EU criteria.*

The “do no significant harm” principle applies only to those investments underlying the financial product that take into account the EU criteria for environmentally sustainable economic activities. The investments underlying the remaining portion of this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

*Any other sustainable investments must also not significantly harm any environmental or social objectives.*

**How did this financial product consider principal adverse impacts on sustainability factors?**

Indicators of principal adverse impacts have been taken into account through RepRisk. RepRisk’s core research scope is comprised of 28 ESG Issues that are broad, comprehensive, and mutually exclusive. These 28 Issues drive the entire research process, and every risk incident in RepRisk’s ESG Risk Platform is linked to at least one of these Issues. RepRisk’s covers issues like climate change, GHG emissions, global pollution, impacts on landscapes, ecosystems and biodiversity, local pollution, waste issues.

**What were the top investments of this financial product?**

Code	Largest investments	Sector	% Assets	Country
US70959W1036	PENSKE AUTO GRP	Wholesale and retail trade	1.98 %	United States
IE00BLNN3691	WEATHERFORD INTL	Mining and quarrying	1.97 %	Ireland
US1251411013	CECO ENVIRONMENTAL	Manufacturing	1.92 %	United States
US01749D1054	ALLEGRO MICROSYSTEMS	Manufacturing	1.91 %	United States
US26856L1035	ELF BEAUTY	Wholesale and retail trade	1.76%	United States
US4583341098	INTER PARFUMS	Manufacturing	1.72%	United States

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

The list includes the investments constituting **the greatest proportion of investments** of the financial product during the reference period which is: October 2022 – September 2023.

Code	Largest investments	Sector	% Assets	Country
US3020811044	EXLSERVICE HOLDINGS	Scientific and technical	1.66%	United States
US3724601055	GENUINE PARTS CO	Wholesale and retail trade	1.63%	United States
US9202531011	VALMONT IND	Manufacturing	1.55%	United States
US4663131039	JABIL	Manufacturing	1.53%	United States
US0774541066	BELDEN	Manufacturing	1.52%	United States
US8873891043	TIMKEN	Manufacturing	1.49%	United States
US53815P1084	LIVERAMP	Information and communications	1.47%	United States
US29283F1030	ENGAGESMART LLC COM	Information and communications	1.45%	United States
US4270965084	HERCULES CAPITAL	Financial activities	1.43%	United States

**Asset allocation** describes the share of investments in specific assets.

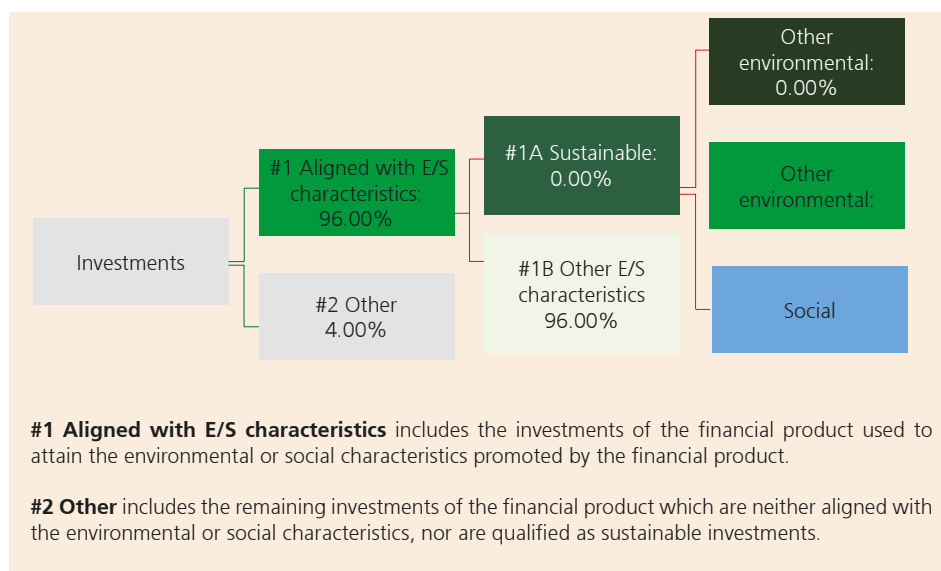

## What was the proportion of sustainability-related investments?

### ● What was the asset allocation?

#1 Aligned with E/S characteristics: 96%  
 #1A Sustainable: 0%  
 Taxonomy aligned: 0%  
 Other environmental: 0%  
 Social: 0%  
 #1B Other E/S characteristics: 96%  
 #2 Other: 4%

To comply with the EU Taxonomy, the criteria for **fossil gas** include limitations on emissions and switching to fully renewable power or low-carbon fuels by the end of 2035. For nuclear energy, the criteria include comprehensive safety and waste management rules.

**Enabling activities** directly enable other activities to make a substantial contribution to an environmental objective.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

**Transitional activities** are activities for which low-carbon alternatives are not yet available and among others have greenhouse gas emission levels corresponding to the best performance.

## ● In which economic sectors were the investments made?

## To what extent were the sustainable investments with an environmental objective aligned with the EU Taxonomy?

### ● Did the financial product invest in fossil gas and/or nuclear energy related activities complying with the EU Taxonomy<sup>1</sup>?

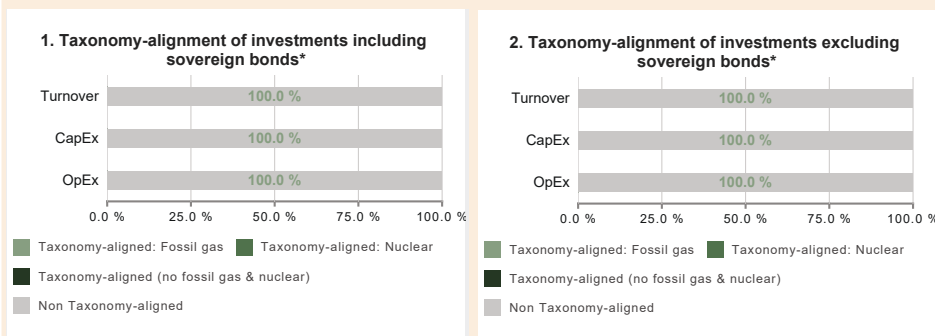

- Yes:
- In fossil gas
  - In nuclear energy
- No

<sup>1</sup> Fossil gas and/or nuclear related activities will only comply with the EU Taxonomy where they contribute to limiting climate change ("climate change mitigation") and do not significantly harm any EU Taxonomy objectives – see explanatory note in the left-hand margin. The full criteria for fossil gas and nuclear energy economic activities that comply with the EU Taxonomy are laid down in Commission Delegated Regulation (EU) 2022/1214.

Taxonomy-aligned activities are expressed as a share of:

- **turnover** reflecting the share of revenue from green activities of investee companies today.
- **capital expenditure** (CapEx) showing the green investments made by investee companies, e.g, for a transition to a green economy.
- **operational expenditure** (OpEx) reflecting green operational activities of investee companies.

**The graphs below show in green the percentage of investments that were aligned with the EU Taxonomy. As there is no appropriate methodology to determine the taxonomy-alignment of sovereign bonds\*, the first graph shows the Taxonomy alignment in relation to all the investments of the financial product including sovereign bonds, while the second graph shows the Taxonomy alignment only in relation to the investments of the financial product other than sovereign bonds.**

\* For the purpose of these graphs, 'sovereign bonds' consist of all sovereign exposures.

# Appendix 5 – Sustainable Finance Disclosure Regulation (Regulation (EU) 2019/2088) (unaudited)

are sustainable investments with an environmental objective that **do not take into account the criteria** for environmentally sustainable economic activities under Regulation (EU) 2020/852.

- **What was the share of investments made in transitional and enabling activities?**

Not applicable

- **What was the share of sustainable investments with an environmental objective not aligned with the EU Taxonomy?**

Not applicable

- **What was the share of socially sustainable investments?**

Not applicable

- **What investments were included under “other”, what was their purpose and were there any minimum environmental or social safeguards?**

Not applicable

- **What actions have been taken to meet the environmental and/or social characteristics during the reference period?**

The management company has implemented several exclusion criteria to meet the environmental and social characteristics promoted by the fund, such as normative exclusions, exclusions relating to the coal, nuclear, non-conventional oil and gas, palm oil, pesticides, GMO sectors, and companies with high environmental or social controversy indicators.

- **How did this financial product perform compared to the reference benchmark?**

- **How does the reference benchmark differ from a broad market index?**

Not applicable.

- **How did this financial product perform with regard to the sustainability indicators to determine the alignment of the reference benchmark with the environmental or social characteristics promoted?**

Not applicable.

- **How did this financial product perform compared with the reference benchmark?**

Not applicable.

- **How did this financial product perform compared with the broad market index?**

Not applicable.

**Reference benchmarks** are indexes to measure whether the financial product attains the environmental or social characteristics that they promote.
