Note on the risk management

HSBC Investment Funds (Luxembourg) S.A. (the "Management Company") uses a risk management process that allows monitoring of the risk of the portfolio positions and their share of the overall risk profile of the portfolios of HSBC Portfolios (the "Company") at any time. In accordance with the Law of 17 December 2010 on undertakings for collective investment, as amended (the "2010 Law"), and the applicable regulatory requirements of the Commission de Surveillance du Secteur Financier ("CSSF"), the Management Company reports to the CSSF on a regular basis on the risk management process. The Management Company shall monitor, on the basis of appropriate and reasonable methods, that the Company's global exposure relating to derivative instruments does not exceed the total net asset value of its portfolio.

For the Company, the Management Company uses the "commitment approach" for the calculation of the global exposure. The "commitment approach" is based on converting the value of each financial derivative instrument position into the market value of an equivalent position in the underlying asset of that derivative. Netting and hedging might be considered for derivative financial instruments and their underlying assets. The sum of these underlying equivalents must not exceed the net asset value of the portfolio.

Statement of changes in the investment portfolio

A list, specifying for each portfolio total purchases and sales transacted during the year under review, may be obtained, upon request, at the registered office of the Company.

Director's Report

The Board of Directors present the Audited Annual Report for HSBC Portfolios (the "Company") for the year ending 31 July 2024.

The Company

The Company is a variable capital investment company, incorporated under the laws of the Grand Duchy of Luxembourg and is organized as an "umbrella" with a number of Portfolios, each of which has their own investment policies and restrictions. At present, the Company has issued shares in 5 Portfolios. During the year, total net assets of the Company decreased from USD 2,857.98 million to USD 2,700,24 million at year end. The Company qualifies as an Undertaking for Collective Investments in Transferable Securities under Directive 2009/65/EC of 13 July 2009, as amended, and may therefore be offered for sale in European Union Member States, subject to registration in countries other than the Grand Duchy of Luxembourg. In addition, applications to register the Company and its Portfolios may be made in other countries. The Company and its Portfolios are currently registered for offer and distribution in the Grand Duchy of Luxembourg and in the following jurisdictions: Bahrain, Brunei, France, Germany, Greece, Guernsey, Hong Kong, Isle of Man, Japan, Jersey, Jordan, Lebanon, Macau, Malta, Oman, Qatar, Singapore, United Arab Emirates, United Kingdom and Vietnam.

The Portfolios

Each Portfolio is managed to a specific risk profile.

World Selection 1 - Aims to provide long term return by investing in a portfolio of fixed income and equity securities consistent with a low risk investment strategy.

World Selection 2 - Aims to provide long term return by investing in a portfolio of fixed income and equity securities consistent with a low to medium risk investment strategy.

World Selection 3 - Aims to provide long term return by investing in a portfolio of fixed income and equity securities consistent with a medium risk investment strategy.

World Selection 4 - Aims to provide long term return by investing in a portfolio of fixed income and equity securities consistent with a medium to high risk investment strategy.

World Selection 5 - Aims to provide long term return by investing in a portfolio of fixed income and equity securities consistent with a high risk investment strategy.

Responsibility of the Directors

The responsibility of the Directors of the Company is governed exclusively by Luxembourg law. With respect to these financial statements, the duties of the Directors are governed by general corporate law and the law of 19 December 2002 on, inter alia, the accounting and annual accounts of undertakings, as amended, and by the law of 17 December 2010, as amended, relating to undertakings for collective investments.

Remuneration Policy

HSBC Investment Funds (Luxembourg) S.A. ("HIFL") has implemented a remuneration policy pursuant to Directive 2014/91/EU of the European Parliament and of the Council of 23 July 2014 amending Directive 2009/65/EC on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities (UCITS) as regards to depositary functions, remuneration policies and sanctions (the "UCITS V Directive"), which was transposed into Luxembourg law on 1 June 2016 by way of the Luxembourg law of 10 May 2016.

The remuneration policy, which has been approved by HIFL's Board of Directors, includes measures to avoid conflicts of interest and seeks to promote sound and effective risk management that neither encourages risk taking which is inconsistent with the risk profile and articles of incorporation of the Company nor impairs compliance with HIFL's duty to act in the best interest of the Company.

The remuneration policy, which describes how remuneration and benefits are determined, is available at www.global.assetmanagement.hsbc.com/about-us/governance-structure, or on request from HIFL.

Total amount of remuneration paid by HIFL to its staff and paid by the investment advisers to their identified staff * during the 12 months period ending 31 July 2024 is as follows:

| Number of beneficiaries: 22 | | | |
|--|------------------------|----------------------|---|
| Fixed remuneration | USD | 2,343,506 | |
| Variable remuneration | USD | 326,986 | |
| of which, the disclosure of the f is: Number of beneficiaries: 7 | fixed and variable rer | nuneration of ser | nior management within HIFL and of identified staff * of the investment adviser |
| Fixed remuneration Variable remuneration | USD USD | 1,186,596 179,138 | |

Director's Report (continued)

Remuneration Policy (continued)

The above amounts of remuneration include the staff of HIFL and the staff of HSBC Global Asset Management (UK) Limited involved in the investment management of HSBC Portfolios.

The annual review of the remuneration policy, including a review of the existing remuneration structure as well as implementation of the regulatory requirements and compliance with them, was completed during the year and no irregularities were identified. Furthermore, there were no material changes made to the remuneration policy in the past financial year.

* identified staff are defined as members of staff whose actions have a material impact on the risk profile of the Company.

Withdrawal of the UK from the EU

Following the end of the transition period all cross-border passporting rights to the UK for EU funds have ceased, however, the UK's introduction of a Temporary Permissions Regime enables all funds that have registered into the regime to continue to be distributed in the UK and purchased by UK domiciled investors. The UK Government has brought forward domestic legislation to streamline the process to allow overseas (including EU) investment funds to be sold in the UK post-Brexit.

It is becoming increasing clear that there will be more divergence between UK and EU regulations which may limit the cross-border activities that can take place. As at the date of the Financial Statements, the sub-funds continue to be recognised by the FCA and can be marketed to UK investors. The UK is continuing to consider regulatory changes post-Brexit. The nature and extent of such changes still remains uncertain, but may be significant.

Impact of Pandemics

Pandemics can impact global markets in several ways, including: (i) adding ongoing uncertainty to global markets as there is currently no clarity as to how long a pandemic will continue (ii) impeding regular business operations across many different businesses, including manufacturers and service providers; and (iii) slowing down or stopping international, national, and local travel. By way of an example, all of these factors and more have been seen in recent years with the global outbreak of COVID-19. Notwithstanding that Covid 19 cases are again on the rise coupled with a risk of new variants, the initial impact on global markets on certain industries has started to lessen however, the financial impact of the outbreak to date, and whether or not any new variant will give rise to further challenges, cannot be estimated reliably. The Board continues to monitor the situation and receives regular updates from the Management Company. As at 31 July 2024, to our knowledge, the impact of COVID-19 has not affected the Investment Managers' ability to execute the investment strategy of the Portfolios, nor has there been interruption to key service providers engaged by the Company.

Russia's invasion of Ukraine

Russia's invasion of Ukraine has had, and could continue to have, severe adverse effects on regional and global economic markets for securities and commodities. Following Russia's actions, various governments have issued broad-ranging economic sanctions against Russia including, among other actions:

- a prohibition on doing business with certain Russian companies, large financial institutions, officials and oligarchs;
- the removal by certain countries and the European Union of selected Russian banks from the Society for Worldwide Interbank Financial Telecommunications ("SWIFT"), the electronic banking network that connects banks globally; and
- restrictive measures to prevent the Russian Central Bank from undermining the impact of the sanctions.

The current events, including sanctions and the potential for future sanctions, which include (but not limited to) those impacting Russia's energy sector, and other actions, and Russia's retaliatory responses to those sanctions and actions, could continue to have, an adverse effect on global markets performance and liquidity, thereby negatively affecting the value of the Portfolios' investments beyond any direct exposure to Russian issuers. They also give rise to material uncertainty and risk with respect to markets globally and the performance of the Portfolios and their investments or operations could be negatively impacted. Investors should be aware that the duration of the ongoing hostilities and the vast array of sanctions and related events cannot be predicted. The Company does not have any exposure to Russian securities.

Corporate Governance Statement

The Board of Directors confirms its adoption of the principles of the ALFI (Association of the Luxembourg Fund Industry) Code of Conduct for Luxembourg Investment Funds. A copy of the Code of Conduct can be obtained at : <u>https://www.alfi.lu/getattachment/50c22f50-3f25-4e45-b296-222c630f842e/app_data-import-alfi-alfi-code-of-conduct-update-2022.pdf</u>

Annual General Meeting

The next Annual General Meeting of the Company will be held on 23rd December 2024.

Investment Adviser's Report

Given the rally in both equity and bond markets, all World Selection portfolios delivered strong absolute returns over the period.

World Selection 1 and 2 were behind their peer groups, while 3, 4, and 5 were well ahead. World Selection 1 and 2 have structurally lower risk settings than their corresponding Morningstar peer groups. As a result, in periods when risk markets are rallying, they would be expected to lag their peer group averages.

| Morningstar Categories (Group) | Investment | Return (Cumulative) 01/08/2023 - 31/07/2024 | Sharpe Ratio (Annualized) |
|----------------------------------|------------------------------|--|------------------------------|
| EAA OE USD Cautious Allocation | | | |
| | World Selection 1 - AC Class | 6.3900 | 0.1614 |
| | Peer Group Average | 7.2538 | 0.3047 |
| | Peer Group Median | 7.1799 | 0.2951 |
| EAA OE USD Moderate Allocation | | | |
| | World Selection 2 – AC Class | 8.3488 | 0.3464 |
| | World Selection 3 – AC Class | 10.3512 | 0.4869 |
| | Peer Group Average | 8.9071 | 0.3842 |
| | Peer Group Median | 8.9915 | 0.4110 |
| EAA OE USD Aggressive Allocation | | | |
| | World Selection 4 – AC Class | 12.2092 | 0.5706 |
| | World Selection 5 – AC Class | 13.0608 | 0.6014 |
| | Peer Group Average | 10.3285 | 0.4488 |
| | Peer Group Median | 10.6970 | 0.5305 |

Market Review

Global equities rallied over the period, with many market indices – including the S&P 500, the Stoxx Euro 600, the FTSE 100 and the Nikkei 225 – setting new all-time highs. Markets were largely driven by growing expectations of interest-rate cuts during 2024. Rising hopes of an economic soft landing in the US and stronger-than-expected corporate earnings also underpinned markets.

After retreating during the autumn, share prices bottomed in late October. They subsequently rose strongly in the final months of 2024 and continued to make headway during the rest of the period. There was some disappointment among investors in early 2024 when it became clear that the major central banks would resist any immediate cut to interest rates. However, investors appeared to readjust their sights and markets continued to rally, despite rising concerns about events in the Middle East and increasing tensions about the situation in Gaza.

Inflation and central banks' response to it continued to be a major focus for markets. Headline inflation in most countries dropped significantly over the period, while core inflation (excluding more volatile energy and food prices) also fell sharply, boosting confidence that the inflation scare of the past few years was largely over. However, the world's major central banks left interest unchanged for most of the period, happy to take a 'wait-and-see' approach and monitor economic data before making any decisions about altering rate levels. Having been the last major central bank to raise rates in September 2023, the European Central Bank became the first to cut them in June of this year, reducing its key interest rate by 25 basis points. By the end of the period, most investors expected the US Federal Reserve and the Bank of England (BoE) to cut rates in the next month or so (the BoE duly obliged in early August). In contrast, the Bank of Japan raised rates modestly for the first time in 17 years in March and then again in July, as it began to pull back from its longstanding ultra-loose monetary policy.

The mid-term trend of developed world markets outperforming emerging markets persisted. Within developed markets, the US led the way, outperforming the MSCI and FTSE World indices. Continental Europe, the UK and Japan all produced positive returns but were behind the benchmark indices in sterling terms, although Japan outperformed in yen terms. In Asian and emerging markets, mainland China continued to lag, while India and Taiwan were strong. Latin American markets weakened as Brazil produced a negative return in sterling terms.

Economic growth was mixed. The US economy slowed but seemed to be more or less on track for a soft landing. The eurozone and UK economies rebounded in the first half of 2024, following a weak second half of 2023, in which the UK fell into a shallow recession. Mainland China's economy picked up in the first quarter, growing at just over the government's annual 5% target rate. India was one of the strongest economies, growing at, or close to, 8% over the past four quarters. Japan's economy remained subdued, however, as the largest spring pay round for several decades failed to spark any meaningful pick-up in consumer spending.

Investment Adviser's Report (continued)

Market Review (continued)

World Selection Portfolios 1-5

Portfolio activity commentary for the funds for the period 1st August 2023 to 31st July 2024

The MSCI All Country World Index in USD delivered a return of +18.2% over the period, by contrast the FTSE World Government Bond Index (USD Hedged) delivered a return of 5.8%. Equity markets were supported by a solid macro backdrop, with declining inflation, easing recession concerns in the west, and enthusiasm related to progress in Artificial Intelligence

Cooling inflation and some softening in labour market data has led to increased expectations of rate cuts by the Fed, resulting in a rally for global fixed income markets.

The World Selection Portfolios have participated enthusiastically in the market rally, with all five funds delivering positive returns over the period. The portfolios started the period more defensively positioned: underweight global equity, global high yield bonds, and hard currency emerging market debt. In March 2024, we tilted the portfolios towards equity markets given strong corporate earnings growth and momentum. We also moved overweight duration, due to increased expectations of rate cuts by the major central banks. Additionally, the portfolios maintained a preference towards higher quality and more defensive areas of the US equity market. Finally, the portfolios held a preference for 'Eastern' over 'Western' markets, and as a result were overweight in Japan equity, and added other positions through the period, such as exposure to Taiwan and Turkey (added in April and May 2024 respectively). However, towards the end of the period, our allocations towards UK, US and European equities saw relative increases, following signs of cyclical recovery.

Audit report

To the Shareholders of **HSBC Portfolios**

Our opinion

In our opinion, the accompanying financial statements give a true and fair view of the financial position of HSBC Portfolios (the "Fund") and of each of its sub-funds as at 31 July 2024, and of the results of their operations and changes in their net assets for the year then ended in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements.

What we have audited

The Fund's financial statements comprise:

- the statement of net assets as at 31 July 2024;
- the statement of operations for the year then ended;
- the statement of changes in net assets for the year then ended; and
- the notes to the financial statements, which include a summary of significant accounting policies.

Basis for opinion

We conducted our audit in accordance with the Law of 23 July 2016 on the audit profession (Law of 23 July 2016) and with International Standards on Auditing (ISAs) as adopted for Luxembourg by the "Commission de Surveillance du Secteur Financier" (CSSF). Our responsibilities under the Law of 23 July 2016 and ISAs as adopted for Luxembourg by the CSSF are further described in the "Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements" section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

We are independent of the Fund in accordance with the International Code of Ethics for Professional Accountants, including International Independence Standards, issued by the International Ethics Standards Board for Accountants (IESBA Code) as adopted for Luxembourg by the CSSF together with the ethical requirements that are relevant to our audit of the financial statements. We have fulfilled our other ethical responsibilities under those ethical requirements.

Other information

The Board of Directors of the Fund is responsible for the other information. The other information comprises the information stated in the annual report but does not include the financial statements and our audit report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

 $[\]label{eq:pricewaterhouseCoopers, Société coopérative, 2 rue Gerhard Mercator, B.P. 1443, L-1014 Luxembourg T: +352 494848 1, F: +352 494848 2900, www.pwc.lu$

Cabinet de révision agréé. Expert-comptable (autorisation gouvernementale n°10028256) R.C.S. Luxembourg B 65 477 - TVA LU25482518

In connection with our audit of the financial statements, our responsibility is to read the other information identified above and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibilities of the Board of Directors of the Fund for the financial statements

The Board of Directors of the Fund is responsible for the preparation and fair presentation of the financial statements in accordance with Luxembourg legal and regulatory requirements relating to the preparation and presentation of the financial statements, and for such internal control as the Board of Directors of the Fund determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, the Board of Directors of the Fund is responsible for assessing the Fund's and each of its sub-funds' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the Board of Directors of the Fund either intends to liquidate the Fund or close any of its sub-funds or to cease operations, or has no realistic alternative but to do so.

Responsibilities of the "Réviseur d'entreprises agréé" for the audit of the financial statements

The objectives of our audit are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an audit report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with the Law of 23 July 2016 and with ISAs as adopted for Luxembourg by the CSSF, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- identify and assess the risks of material misstatement of the financial statements, whether due to
 fraud or error, design and perform audit procedures responsive to those risks, and obtain audit
 evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting
 a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may
 involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal
 control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Fund's internal control;
- evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the Board of Directors of the Fund;

- conclude on the appropriateness of the Board of Directors of the Fund's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Fund's or any of its sub-funds' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our audit report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our audit report. However, future events or conditions may cause the Fund or any of its sub-funds to cease to continue as a going concern;
- evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

1. General Information

The Company was incorporated under the laws of the Grand Duchy of Luxembourg as an investment company (Société d'Investissement à Capital Variable or "SICAV") on 21 July 2009 with different compartments (hereafter called a "Portfolio"). Within each Portfolio, various Classes of Shares may be issued. Each Portfolio consists of securities, cash and other sundry assets and liabilities. The accompanying Financial Statements present the assets and liabilities of the individual Portfolios and of the Company taken as a whole. The Financial Statements of each individual Portfolio are expressed in the currency designated in the prospectus for that particular Portfolio and the Financial Statements of the Company are expressed in US Dollar ("USD"). The financial statements have been prepared in accordance with the format prescribed by the Luxembourg authorities for Luxembourg investment companies under the going concern basis of accounting.

The combined financial statements of the Company are expressed in USD.

The combined statement of net assets and the combined statement of operations and changes in net assets are the sum of the statements of each Portfolio.

The Company is an officially registered investment fund under Part I of the 2010 Law, as amended and qualifies as a UCITS fund under the amended European directive 2009/65/EC.

The Company seeks to provide a comprehensive range of Portfolios with the purpose of spreading investment risk and satisfying the requirements of investors seeking to emphasise income, capital conservation and/or capital growth.

The Company offers investors, within the same vehicle, a choice of investments in one or more Portfolios. The Company may issue different Classes of Shares in one or several Portfolios. Details of the characteristics of such share classes, if and when offered, by one or several Portfolios will be determined by the Directors of the Company (the "Directors" and each a "Director").

As at 31 July 2024, the Company was comprised of the following Portfolios:

HSBC Portfolios - World Selection 1

- HSBC Portfolios World Selection 2
- HSBC Portfolios World Selection 3
- HSBC Portfolios World Selection 4

HSBC Portfolios - World Selection 5

2. Share Capital

The Company currently offers the following classes of shares:

| Class | Description |
|----------|--|
| Class A | A Shares are available to all investors. |
| Class B | B Shares are available to sub-distributors who are prohibited from accepting and retaining inducements from third parties under applicable laws and regulations or court rulings, such as in the United Kingdom or the Netherlands; or sub-distributors who have a separate fee arrangement with their clients in relation to the provision of investment services and activities (for example, in the European Union, services and activities performed under MiFID II) and who have opted to not accept and retain inducements from third parties. |
| Class E | E Shares will be available in certain countries, subject to the relevant regulatory approval, through specific distributors selected by the Distributor on application to the Company. |
| Class S* | S Shares are available through distributors selected by the Distributor provided that the investors qualify as institutional investors within the meaning of article 174 of the 2010 Law, as amended. |
| Class X | X Shares are available through distributors selected by the Distributor provided that the investors qualify as institutional investors within the meaning of article 174 of the 2010 Law, as amended. |
| Class Z | Z Shares are available to investors having entered into a discretionary management agreement with an HSBC Group entity and to investors subscribing via distributors selected by the Distributor provided that such investors qualify as institutional investors within the meaning of article 174 of 2010 Law, as amended. |

* Successive issue of Classes S Shares are numbered 1, 2, 3, etc. and respectively referred to as S1, S2, S3 etc. A series of Class S Shares may be issued in one or more Portfolios and each series may or may not be available in all Portfolios.

for the year ended 31 July 2024 (continued)

2. Share Capital (continued)

Within each share class of a Portfolio, the Company is entitled to create different sub-classes, distinguished by their class name, by their distribution policy (Capital-Accumulation ("C"), Distribution ("D"), Quarterly Distribution ("Q") and Monthly Distribution ("M") shares), their reference currency, their hedging activity ("H") and/or by any other criterion to be stipulated by the Board of Directors of the Company.

Within each share class of a Portfolio, separate currency hedged classes may be issued (suffixed by "H" and the currency into which the Base Currency is hedged e.g. "HEUR" or "HGBP") which seek to minimise the effect of currency fluctuations between the reference currency of the share class and the base currency of the relevant Portfolio. Any fees relating to carrying out the administration of the currency hedging policy will be borne by the relevant currency hedged class.

Within each share class of a Portfolio, Pay-Out share classes may be offered as Fixed Pay-Out shares (suffixed by "FLX") and Flexible Pay-Out shares (suffixed by "FLX"). The dividend rate on Fixed Pay-Out Shares may either be (i) based upon a pre-determined fixed percentage of the Net Asset Value per Share or (ii) set at a pre-determined fixed dividend rate per share with the aim of paying a fixed monetary amount. The dividend rate on Flexible Pay-Out shares is based upon the Portfolio's long-term expected income and net capital gains (both realised and unrealised) (the "Expected Return") which is attributable to the Flexible Pay-Out shares. Dividends will be paid gross of fees and expenses and may be paid gross of taxes. The "Expected Return" will vary over time and consequently the dividend rate will be adjusted. The Board of Directors may decide, as its discretion, to make adjustments to the dividend rate at any time on each share class. Only FLX share classes are active as at 31 July 2024.

Within each share class of a Portfolio, the Management Company may decide to issue share classes having a different reference currency than the base currency of the Portfolio and which denotes the currency in which the net asset value per share of the share class will be calculated. A share class' reference currency is identified by a standard international currency acronym added as a suffix e.g. "ACEUR" for a Capital Accumulation Share class expressed in Euro".

Investment Minima:

| Class of Shares | A, | , B and E* | | | S 1* | | | X and Z* | |
|---|-------|------------|-------|------------|-------------|------------|-----------|-----------|-----------|
| Dealing Currency | USD | EUR | GBP | USD | EUR | GBP | USD | EUR | GBP |
| Minimum initial investment and minimum holding | 5,000 | 5,000 | 5,000 | 10,000,000 | 10,000,000 | 10,000,000 | 1,000,000 | 1,000,000 | 1,000,000 |
| Minimum subsequent investment | 1,000 | 1,000 | 1,000 | 1,000,000 | 1,000,000 | 1,000,000 | 100,000 | 100,000 | 100,000 |

* or equivalent to USD amount in any other Dealing Currencies or Share Class Reference Currencies.

3. Accounting Policies

The following accounting policies have been used consistently in dealing with items which are considered material in relation to the Company's financial statements.

a) Accounting Convention

The financial statements have been prepared under the historical cost convention modified by the revaluation of investments.

b) Assets and Portfolio Securities Valuation

Securities are initially recognised at cost, being the fair value of the consideration given.

All purchases and sales of securities are recognised on the trade date, i.e. the date the Company commits to purchase or sell the security.

Portfolio securities and/or financial derivative instruments which are listed on an official stock exchange are valued at the last available stock price. Where such securities or other assets are quoted or dealt in or on more than one stock exchange or other organised markets, the Board of Directors shall select the principal of such stock exchanges or markets for such purposes. Shares or units in undertakings for collective investment the issue or redemption of which is restricted and in respect of which a secondary market is maintained by dealers who, as principal market-makers, offer prices in response to market conditions may be valued by the Board of Directors in line with such prices.

for the year ended 31 July 2024 (continued)

3. Accounting Policies (continued)

b) Assets and Portfolio Securities Valuation (continued)

Shares or units in open-ended undertakings for collective investment, which do not have a price quotation on a regulated market, will be valued at the actual net asset value for such shares or units as of the relevant dealing day, failing which they shall be valued at the last available net asset value which is calculated prior to such dealing day. In the case where events have occurred which have resulted in a material change in the net asset value of such shares or units since the last net asset value was calculated, the value of such shares or units may be adjusted at their fair value in order to reflect, in the reasonable opinion of the Board of Directors, such change.

The financial derivative instruments which are not listed on any official stock exchange or traded on any other organised market are valued in a reliable and verifiable manner on a daily basis and verified by a competent professional appointed by the Company.

The Financial Statements are presented on the basis of the net asset value calculated on 31 July 2024.

Futures Contracts

Upon entering into a futures contract, the Company is required to deposit with the broker, cash or securities in an amount equal to a certain percentage of the contract amount which is referred to as the initial margin account. Subsequent payments, referred to as variation margin, are made or received by each Portfolio periodically and are based on changes in the market value of open futures contracts.

The unrealised appreciation/(depreciation) on future contracts is disclosed in the statement of net assets under "Net unrealised appreciation on futures contracts". Changes in the market value of open futures contracts are recorded as "Net change in unrealised appreciation/(depreciation) on derivatives" in the statement of changes in net assets. Realised gains or losses, representing the difference between the value of the contract at the time it was opened and the value at the time it was closed, are reported at the closing or expiration of futures contracts in the statement of changes in net assets under "Net realised gains/(losses) on derivatives". Securities deposited as initial margin account are designated in the statement of investments and cash deposited is recorded under cash at bank and at broker in the statement of net assets. A receivable and/or a payable to brokers for the daily variation margin is also recorded in the statement of net assets under caption Cash at Bank or Bank Overdraft.

Forward Foreign Exchange Contracts

The values of the forward foreign currency exchange contracts are adjusted daily based on the applicable exchange rate of the underlying currency. Changes in the value of these contracts are recorded as unrealised appreciation or depreciation until the contract settlement date. When the forward contract is closed, the Portfolio records a realised gain or loss equal to the difference between the value at the time the contract was opened and the value at the time it was closed.

The unrealised appreciation/(depreciation) on forward foreign exchange contracts is disclosed in the statement of net assets under "Net unrealised gain on forward foreign exchange contracts". Realised gains and change in unrealised appreciation resulting there from are included in the statement of changes in net assets respectively under "Net realised gains/(losses) on derivatives" and "Net change in unrealised appreciation/(depreciation) on derivatives".

Credit Default Swaps

A credit default swap is a credit derivative transaction in which two parties enter into an agreement, whereby one party (the protection buyer) pays the other (the protection seller) a fixed periodic coupon for the specified life of the agreement in return for a payment contingent on a credit event related to the underlying reference obligation.

If a credit event occurs, the protection seller would be obliged to make a payment, which may be either: (i) a net cash settlement equal to the notional amount of the swap less the auction value of the reference obligation or (ii) the notional amount of the swap in exchange for the delivery of the reference obligation. Selling protection effectively adds leverage to a Fund's portfolio up to the notional amount of swap agreements.

Credit default swaps are marked to market at each NAV calculation date. The market value is based on the valuation elements laid down in the contracts, and is obtained from third party pricing agents, market makers or internal models.

The unrealised appreciation is disclosed in the statement of net assets under "Net unrealised appreciation on swaps". Realised gains/(losses) and change in unrealised appreciation/(depreciation) resulting there from are included in the statement of operations and changes in net assets respectively under the heading "Net realised gains/(losses) on derivatives" and "Net change in unrealised appreciation/(depreciation) on derivatives".

c) Income and Expenses

Interest is accrued on a day-to-day basis. Dividends are accounted for on an ex-dividend basis.

Expenses are recognised on an accrual basis.

for the year ended 31 July 2024 (continued)

3. Accounting Policies (continued)

d) Foreign Exchange

The cost of investments, income and expenses in currencies other than the Company relevant reporting currency have been recorded at the rate of exchange ruling at the time of the transaction. The market value of the investments and other assets and liabilities in currencies other than the relevant reporting currency has been converted at the rates of exchange ruling at the date of these financial statements. The exchange rates used as at 31 July 2024 are as follows:

| USD/AUD | : | 1.53139 |
|---------|---|-----------|
| USD/CAD | : | 1.38145 |
| USD/CNH | : | 7.22760 |
| USD/CNY | : | 7.22705 |
| USD/DKK | : | 6.89590 |
| USD/EUR | : | 0.92413 |
| USD/GBP | : | 0.77854 |
| USD/HKD | : | 7.81200 |
| USD/JPY | : | 150.46000 |
| USD/SEK | : | 10.71760 |
| USD/SGD | : | 1.33760 |

e) Realised Profit/(Loss) on Sale of Investments

Realised profit/(loss) on sale of investments is the difference between the historical average cost of the investment and the sale proceeds.

f) Segregated Liability

The Company has segregated liability between its Portfolios; meaning, the assets of a Portfolio are exclusively available to satisfy the rights of shareholders in relation to that Portfolio and the rights of creditors whose claims have arisen in connection with the creation, operation and liquidation of that Portfolio.

g) Dividends Payable

Dividends payable by the Company are recorded on the ex-date.

h) Net Asset Value per Share

The net asset value per share of the Company (the "Net Asset Value per Share") is calculated by dividing the net assets of the relevant Class of Shares in a Portfolio included in the Statement of Net Assets by the number of Shares of the relevant class in that Portfolio in issue at the year end.

The Directors adopted a Pricing Adjustment Policy on 10 June 2014, details of which are disclosed in section 2.6 (3) "Pricing Adjustment" of the current Prospectus of the Company. The Directors have not implemented this policy and there were no pricing adjustments during the year.

- 4. Charges and Expenses
- a) Management Fee

The Company pays to the Management Company an annual management fee calculated as a percentage of the net asset value of each Portfolio or share class ("Management Fee"). The Management Fee is accrued daily and payable monthly in arrears. The fee rate per annum actually charged and applicable to each Class of Shares is set below:

| HSBC Portfolios – World Selection 1 | |
|-------------------------------------|--------|
| Class A Shares | 1.000% |
| Class B Shares | 0.500% |
| Class E Shares | 1.300% |

| Class X Shares | 0.650% |
| Class Z Shares | 0.000% |

The Management Fee covers management, advisory and distribution services provided in relation to the relevant Portfolio of the Company by the Management Company, the Investment Advisers and the Share Distributors. The Management Company is responsible for discharging, out of such fee, the fees of the Investment Advisers and the Share Distributors and may pay part of such fee to recognised intermediaries or such other person as the Management Company may determine, at its discretion.

The Management Company may instruct the Company to pay a portion of the Management Fee directly out of the assets of the Company to any of such service providers. In such case the Management Fee due to Management Company is reduced accordingly.

The Management Company is also acting as a management company for other investment funds, namely HSBC AdvantEdge plc, HSBC ETF plc, HSBC Global Funds ICAV plc, HSBC Global Investment Funds, HSBC Global Liquidity plc, HSBC Islamic Funds, HSBC Real Economy Green Investment Opportunity GEM Bond Fund, HSBC Global Infrastructure Debt Fund SCSP Master Fund, HSBC Global Infrastructure SCA SICAV-RAIF - High Yield USD compartment and HSBC Senior Infrastructure Debt Master Fund SCSP.

The Company has invested in other HSBC promoted funds, which include the following funds:

**The above underlying funds are subject to a single fee, referred to as the "Total Expense Ratio" or "TER" which covers all fees and expenses except transaction charges and taxes or duties for portfolio rebalancing.

The Directors endeavor to reduce duplication of management charges by negotiating rebates where applicable in favor of the Company with the collective investment schemes or their managers. The rebates are calculated on a monthly basis applied on Irish ETF assets.

b) Operating, Administrative and Servicing Expenses

There are certain operating, administrative and servicing expenses ('the expenses') incurred throughout the lifetime of a Portfolio or share class. These expenses are associated with services rendered to a relevant Portfolio which are overseen by either the Management Company or the Company. Many of the services are delegated to other service providers who are paid directly by the Company.

Operating, administrative and servicing expenses cover the ongoing depositary fees and safekeeping charges payable to the Depositary Bank and its correspondent banks, fees for fund accounting and administration services (including domiciliary services) payable to the Administrative Agent and transfer agency fees for registrar and transfer agency services payable to the Transfer Agent.

Operating, administrative and servicing expenses also cover expenses relating to the Luxembourg asset-based *taxe d'abonnement*; reasonable out-of-pocket expenses incurred by the Board of Directors; legal expenses for advice on behalf of the Company; audit fees; ongoing registration and listing fees (if applicable); the costs of preparing, printing, translating and distributing the Company's Prospectus, financial reports, statements and other documents made available directly or through intermediaries to its shareholders. These expenses also cover formation expenses for current and new Portfolios including initial registration fees (these expenses are amortised over a period not exceeding 5 years from the formation date of the Portfolio). The only operating expenses which are not covered by the fee rate paid to the management company and which are included under this caption are 'hedging fees' incurred by the respective portfolios for hedging the different share classes.

The Company pays the expenses directly to the service providers and as such the ongoing charge for each share class will vary. The expenses paid by the Company will not exceed 0.25% of the net assets per annum on a rolling basis of each share class. Where actual expenses exceed 0.25% per annum, the excess will be borne directly by the Management Company or by HSBC Global Asset Management distributors.

The expenses will be accrued daily and will be payable monthly in arrears. The accrual amount will be reviewed each quarter using the previous 12 months' expenses as an initial basis and amending when necessary.

for the year ended 31 July 2024 (continued)

4. Charges and Expenses (continued)

c) Directors' Fees, Expenses and Interests

A Director may be a party to, or otherwise interested in, any transaction or arrangement with the Company or in which the Company is interested, provided that he has disclosed to the other Directors, prior to the conclusion of any such transaction or arrangement, the nature and extent of any interest of his therein. Subject to approval of the Board, a Director may vote in respect of any contract or arrangement or any proposal whatsoever in which he has an interest, having first disclosed such interest. He shall not be disqualified by his office from contracting with the Company. If a Director declares his interest in any contract which the Company is considering entering into, he may be counted in the quorum of any meeting to consider the contract and may vote on any resolution to enter into such contract, provided that the decision to be taken by the Board of Directors relates to the current operations entered into under normal conditions.

The Company pays an annual fee to each of the Independent and non executive Directors amounting to EUR 20,000. This amount is paid by the Management Company through the operating, administrative and servicing expenses paid by the Company. The amount of operating, administrative and servicing expenses is accrued with every net asset value calculation and paid quarterly in arrears. For the year-end as at 31 July 2024, a total of EUR 60,000 has been charged as Independent and Non Executive Directors' fees.

5. Taxation of the Company

The following is based on the Company's understanding of the law and practice currently in force in the Grand Duchy of Luxembourg and is subject to changes therein.

The Company is not subject to taxation in Luxembourg on its income, profits or gains.

The Company is not subject to net wealth tax in Luxembourg. No stamp duty, capital duty or other tax will be payable in Luxembourg upon the issue of the Shares of the Company.

The Portfolios are nevertheless, in principle, subject to a subscription tax (taxe d'abonnement) levied at the rate of 0.05% per annum based on its NAV at the end of the relevant quarter, calculated and paid quarterly.

A reduced subscription tax rate of 0.01% per annum is however applicable to any Portfolio whose exclusive object is the collective investment in money market instruments, the placing of deposits with credit institutions, or both. A reduced subscription tax rate of 0.01% per annum is also applicable to any Portfolio or Share Class provided that their shares are only held by one or more institutional investors within the meaning of article 174 of the 2010 Law, as amended (an "Institutional Investor").

A subscription tax exemption applies to:

a) The portion of any Portfolio's assets (prorata) invested in a Luxembourg investment fund or any of its Portfolio to the extent it is subject to the subscription tax;

b) Any Portfolio (i) whose securities are only held by Institutional Investor(s), and (ii) whose sole object is the collective investment in money market instruments and the placing of deposits with credit institutions, and (iii) whose weighted residual portfolio maturity does not exceed 90 days, and (iv) that have obtained the highest possible rating from a recognised rating agency. If several Share Classes are in issue in the relevant Portfolio meeting (ii) to (iv) above, only those Share Classes meeting (i) above will benefit from this exemption;

c) Any Portfolio, whose main objective is the investment in microfinance institutions;

d) Any Portfolio, (i) whose securities are listed or traded on a stock exchange and (ii) whose exclusive object is to replicate the performance of one or more indices. If several Share Classes are in issue in the relevant Portfolio meeting (ii) above, only those Share Classes meeting (i) above will benefit from this exemption; and

e) Any Portfolio only held by pension funds and assimilated vehicles.

Withholding tax

Interest and dividend income received by the Company may be subject to non-recoverable withholding tax in the source countries. The Company may further be subject to tax on the realised or unrealised capital appreciation of its assets in the countries of origin. The Company may benefit from double tax treaties entered into by Luxembourg, which may provide for exemption from withholding tax or reduction of withholding tax rate.

Distributions made by the Company as well as liquidation proceeds and capital gains derived therefrom are not subject to withholding tax in Luxembourg.

for the year ended 31 July 2024 (continued)

6. Dividends

The Company paid the following dividends during the year ended 31 July 2024:

Certain share classes in issue as at 31 July 2024 have had UK Reporting Fund status since 1 August 2015. Details of the share classes that have UK Reporting Fund status can be found on the HM Revenue & Customs website (<u>www.hmrc.gov.uk</u>).

At the date of this Report, the status can be found at https://www.gov.uk/government/publications/offshore-funds-list-of-reporting-funds.

*The dividend rates disclosed in the note are reported in USD by using the exchange rates as at record dates of the distributions.

for the year ended 31 July 2024 (continued)

7. Soft Commission Arrangements

The Investment Adviser of the Portfolios may from time to time receive goods and services which are paid for out of broker commissions provided that they relate to execution and research services which meet the criteria laid down by United Kingdom's Financial Conduct Authority Rules.

There were no soft commissions paid or accrued during the year.

8. Cash collateral information

As at 31 July 2024, the Company has paid/(received) the following cash collateral:

| Portfolio | Counterpar | ty Instrume | ent Type Currency | Cash Collateral (Received)/Paid in USD |
|-----------------------------------|-------------|---|-------------------|---|

* Cash at bank are made with HSBC Continental Europe

** Cash at broker are made with HSBC Bank PLC, London

*** Bank overdraft are made with HSBC Bank PLC, London and HSBC Continental Europe

for the year ended 31 July 2024 (continued)

9. Transactions with Connected Persons (continued)

(b) Investment Transactions with Related Parties

HSBC group entities are counterparties or brokers for certain future and forward foreign exchange contracts.

The sub-funds of HSBC Portfolios invest into bonds issued by other HSBC group entities as well as into Collective Investment Schemes managed by HSBC group entities (refer to Note 4a).

| | HSBC Portfolios – | HSBC Portfolios – | HSBC Portfolios – | HSBC Portfolios – | HSBC Portfolios - |
|--|-------------------|-------------------|-------------------|-------------------|-------------------|
| | World Selection 1 | World Selection 2 | World Selection 3 | World Selection 4 | World Selection 5 |
| | USD | USD | USD | USD | USD |
| Total aggregate value of such transactions during the year | 565,962,236 | 838,496,172 | 859,700,882 | 522,822,075 | 258,391,960 |
| Percentage of such transactions in value to total transactions during the year | 36.79% | 40.43% | 42.10% | 37.19% | 38.71% |
| Commission paid during the year | 2,206 | 6,067 | 10,125 | 9,210 | 5,319 |
| Average rate of commission | 0.000% | 0.001% | 0.001% | 0.002% | 0.002% |

Amongst other brokers HSBC Global Asset Management (UK) Ltd trade with HSBC Bank PLC. All the transactions were entered into the normal course of business and on normal commercial terms. When HSBC Global Asset Management (UK) Ltd trades with HSBC Bank, HSBC Bank PLC is acting as agent (i.e. sourcing market liquidity from third party brokers rather than fulfilling the trade from positions on their own book). Furthermore, HSBC Global Asset Management (UK) Ltd will never have any indication whether any given trade is with HSBC Bank PLC acting as principal or agent (given the arm's length relationship HSBC Global Asset Management (UK) Ltd has with HSBC Bank PLC).

10. Transaction Costs

For the year from 1 August 2023 to 31 July 2024, the Company incurred transaction costs related to purchase or sale of securities and derivative products as follows:

| HSBC Portfolios - World Selection 1 | USD 14,702 |
|-------------------------------------|-------------|
| HSBC Portfolios - World Selection 2 | USD 38,932 |
| HSBC Portfolios - World Selection 3 | USD 101,083 |
| HSBC Portfolios - World Selection 4 | USD 82,399 |
| HSBC Portfolios - World Selection 5 | USD 39,590 |

The above transaction costs include costs directly linked to the acquisition or sale of investments, to the extent that such costs are shown separately on transaction confirmations.

Transaction costs are incorporated directly in dealing prices of assets and are not reported as a separate line in the Statement of Operations.

11. Global Exposure

The global risk on derivatives has been determined according to the commitment approach during the financial year ended 31 July 2024.

12. Significant Events

Impact of Pandemics

Pandemics can impact global markets in several ways, including: (i) adding ongoing uncertainty to global markets as there is currently no clarity as to how long a pandemic will continue (ii) impeding regular business operations across many different businesses, including manufacturers and service providers; and (iii) slowing down or stopping international, national, and local travel. By way of an example, all of these factors and more have been seen in recent years with the global outbreak of COVID-19. Notwithstanding that Covid 19 cases are again on the rise coupled with a risk of new variants, the initial impact on global markets on certain industries has started to lessen however, the financial impact of the outbreak to date, and whether or not any new variant will give rise to further challenges, cannot be estimated reliably. The Board continues to monitor the situation and receives regular updates from the Management Company. As at 31 July 2024, to our knowledge, the impact of COVID-19 has not affected the Investment Managers' ability to execute the investment strategy of the Portfolios, nor has there been interruption to key service providers engaged by the Company.

for the year ended 31 July 2024 (continued)

12. Significant Events (continued)

Russia's invasion of Ukraine

Russia's invasion of Ukraine has had, and could continue to have, severe adverse effects on regional and global economic markets for securities and commodities. Following Russia's actions, various governments have issued broad-ranging economic sanctions against Russia including, among other actions:

- a prohibition on doing business with certain Russian companies, large financial institutions, officials and oligarchs;
- the removal by certain countries and the European Union of selected Russian banks from the Society for Worldwide Interbank Financial Telecommunications ("SWIFT"), the electronic banking network that connects banks globally; and
- restrictive measures to prevent the Russian Central Bank from undermining the impact of the sanctions.

The current events, including sanctions and the potential for future sanctions, which include (but not limited to) those impacting Russia's energy sector, and other actions, and Russia's retaliatory responses to those sanctions and actions, could continue to have, an adverse effect on global markets performance and liquidity, thereby negatively affecting the value of the portfolios' investments beyond any direct exposure to Russian issuers. They also give rise to material uncertainty and risk with respect to markets globally and the performance of the Portfolios and their investments or operations could be negatively impacted. Investors should be aware that the duration of the ongoing hostilities and the vast array of sanctions and related events cannot be predicted. The Company does not have any exposure to Russian securities.

Changes in the Board of Directors

Mr John Li resigned effective 30 September 2023 and Mr Timothy Palmer was appointed (by co-optation of the Board) with effect 2 October 2023.

Mr Jean de Courrèges resigned effective 31 March 2024 and Mrs Carine Feipel was appointed (by co-optation of the Board) with effect 2 April 2024.

13. Subsequent Events

There were no events subsequent to the annual report date which would require adjustments to or disclosures in these financial statements.

Appendix I (Unaudited Additional Disclosures) – Taxation of the Company (foreign countries)

The following summary is based on the Company's understanding of the law and practice currently in force in other jurisdictions and is subject to changes therein.

Germany

The Management Company aims to manage the Portfolios listed below in accordance with the so-called partial exemption regime for equity funds under Sec. 20 para. 1 of the German Investment Tax Act (as in effect since 1 January 2018).

Accordingly, the Portfolios listed below will seek to continuously invest a minimum percentage of their net assets in equity assets as defined in sec. 2 para 8 German Investment Tax Act (2018).

| % of Portfolios' Net Assets | Portfolios |
|-----------------------------|-------------------------------------|
| At least 51% | HSBC Portfolios - World Selection 5 |
| At least 25% | HSBC Portfolios - World Selection 3 |
| At least 25% | HSBC Portfolios - World Selection 4 |

United Kingdom

On the basis that the Company is not resident in the United Kingdom for tax purposes it should not be subject to United Kingdom corporation tax on its income and capital gains.

In many markets the Company, as a foreign investment fund, may be subject to non-recoverable tax on income and gains (either by withholding or direct assessment) in relation to the investment returns it realizes from its holdings of shares and securities in those markets. Where practicable the Company will make claims under the relevant double tax treaties and domestic law of the countries concerned in order to minimize the impact of local taxation on the investment return and to obtain the best return for its shareholders. Those claims will be made on the basis of the Company's understanding of the validity of such claims given the information available from the Company's custodians, external advisers and other sources as' to the interpretation and application of the relevant legal provisions by the tax authorities in the country concerned.

The Company will seek to provide for tax on capital gains where it considers that it is more likely than not that the tax will be payable, given the advice and information available to the Company at the date concerned. However, any provision held may be insufficient to cover, or be in excess of, any final liability.

The Company will seek to claim concessionary tax treatment and account for tax on a best efforts basis, given the tax law and practice at that date. Any change in tax law or practice in any country where the Company is registered, marketed or invested could affect the value of the Company's investments in the affected country.

In particular, where retrospective changes to tax law or practice are applied by the legislature or tax authorities in a particular country these may result in a loss for current Shareholders in the affected Portfolio. The Company does not offer any warranty as to the tax position of returns from investments held in a particular market nor of the risk of a retrospective assessment to tax in a particular market or country.

Appendix II (Unaudited Additional Disclosures) – UK SORP Disclosure

Investment Risk

Information in relation to certain investment risks are disclosed for selected Portfolios as follows:

Market risk

Market risk is the risk that the fair value or future cash flows of financial instruments will fluctuate due to changes in market variables such as market prices, foreign exchange rates and interest rates. It comprises of three major types of risks i.e. currency risk, interest rate risk and other price risk.

As invested in securities and collective investment schemes, the Company is exposed to the risk that the equity and fixed income markets decline.

(i) Currency risk

Currency risk is the risk that the fair value or future cash flows of a financial asset will fluctuate because of changes in foreign exchange rates.

The below table summarises the following Portfolios' exposure to currency risks.

| | | Net currency exposure in |
|-------------------------------------|----------|--------------------------|
| Portfolio | Currency | Portfolio currency |
| HSBC Portfolios - World Selection 1 | | |
| | EUR | 76,986,136 |
| | GBP | 51,161,646 |
| | Other | 18,927,669 |
| HSBC Portfolios - World Selection 2 | | |
| | EUR | 99,946,568 |
| | GBP | 187,238,991 |
| | Other | 10,899,449 |
| | | |
| HSBC Portfolios - World Selection 3 | | |
| | EUR | 167,580,802 |
| | GBP | 448,858,904 |
| | Other | 24,041,182 |
| HSBC Portfolios - World Selection 4 | | |
| | EUR | 357,771,716 |
| | GBP | 308,245,171 |
| | Other | 5,150,231 |
| HSBC Portfolios - World Selection 5 | | |
| | EUR | 189,540,909 |
| | GBP | 147,530,742 |
| | Other | 35,004,925 |

(ii) Interest rate risk

Interest rate risk is the risk that the fair value or future cash flows of a financial asset will fluctuate because of changes in market interest rates.

The following table details the below Portfolios' exposure to interest rate risks.

| | HSBC Portfolios - World Selection 1 USD | HSBC Portfolios - World Selection 2 USD | HSBC Portfolios - World Selection 3 USD | HSBC Portfolios - World Selection 4 USD | HSBC Portfolios - World Selection 5 USD |
|----------------------------|---|---|---|---|---|
| Cash at bank and at broker | 9,645,563 | 19,840,996 | 20,090,980 | 17,707,255 | 10,805,470 |
| Bank overdraft | (1,279,765) | (1,119,319) | (1,227,679) | (740,092) | (540,915) |
| Bonds | 114,576,479 | 94,346,338 | - | - | - |
| Total | 122,942,277 | 113,068,015 | 18,863,301 | 16,967,163 | 10,264,555 |

Appendix II (Unaudited Additional Disclosures) – UK SORP Disclosure (continued)

Investment Risk (continued)

Market risk (continued)

(iii) Credit risk

The Company is subject to credit risk as the Portfolios invest in bonds.

Analysis of direct credit risk

| | | | Non-investment | | |
|-------------------------------------|----------|------------------|----------------|-------------|-------------|
| | Currency | Investment grade | grade | Unrated | Total |
| HSBC Portfolios - World Selection 1 | USD | 83,857,693 | 18,425,190 | 151,376,051 | 253,658,934 |
| HSBC Portfolios - World Selection 2 | USD | 63,211,245 | 22,456,942 | 380,976,828 | 466,645,015 |
| HSBC Portfolios - World Selection 3 | USD | - | - | 871,774,075 | 871,774,075 |
| HSBC Portfolios - World Selection 4 | USD | - | - | 671,721,473 | 671,721,473 |
| HSBC Portfolios - World Selection 5 | USD | - | - | 350,671,496 | 350,671,496 |

Credit risk arising on bonds is mitigated by investing in government bonds where the credit risk is minimal, or corporate bonds which are rated at least investment grade. The Portfolios also invest in high yield and emerging market bonds which are non-investment grade. The Portfolios manage the associated risk by diversifying the portfolio to minimise the impact of default by any one issuer.

(iv) Other price risk

Other price risk is the risk that the fair value or future cash flows of a financial asset will fluctuate because of changes in market prices (other than those arising from interest rate risk or currency risk), whether those changes are caused by factors specific to the individual financial instrument or its issuer, or factors affecting all similar financial instruments traded in the market.

Other price risk arises principally in relation to the Portfolios' return seeking portfolio which includes collective investment scheme.

The Portfolios manage this exposure to other price risk by constructing a diverse portfolio of investments across various markets.

At the year end, the exposure to investments subject to other price risk was:

| | USD |
|-------------------------------------|-------------|
| Indirect | |
| Collective Investment Schemes | 139,082,455 |
| HSBC Portfolios - World Selection 2 | |
| | USD |
| Indirect | |
| Collective Investment Schemes | 372,298,677 |
| HSBC Portfolios - World Selection 3 | |
| | USD |
| Indirect | |
| Collective Investment Schemes | 871,774,075 |
| HSBC Portfolios - World Selection 4 | |
| | USD |
| Indirect | |
| Collective Investment Schemes | 671,721,473 |
| HSBC Portfolios - World Selection 5 | |
| | USD |
| Indirect | |
| Collective Investment Schemes | 350,671,496 |

Appendix II (Unaudited Additional Disclosures) – UK SORP Disclosure (continued)

Investment Risk (continued)

Fair value hierarchy

Fair value is the amount for which an asset could be exchanged, a liability settled, or an equity instrument granted could be exchanged, between knowledgeable, willing parties in an arm's length transaction.

The fair value of financial instruments has been determined using the following fair value hierarchy:

Category (a) The quoted price for an identical asset in an active market.

Category (b) When quoted prices are unavailable, the price of a recent transaction for an identical asset adjusted if necessary.

Category (c) Where a quoted price is not available and recent transactions of an identical asset on their own are not a good estimate of fair value, the fair value is determined by using a valuation technique which uses:

Category (c) (i) observable market data; or

Category (c) (ii) non-observable data.

The Portfolio's investment assets and liabilities have been fair valued using the above hierarchy categories as follows:

| Portfolio | Currency | Category (a) | Category (b) Cate | gory c (i) Category c (ii) | Total |
|-------------------------------------|----------|--------------|-------------------|----------------------------|-------------|
| HSBC Portfolios - World Selection 1 | USD | 115,311,154 | 139,176,607 | | 254,487,761 |
| HSBC Portfolios - World Selection 2 | USD | 95,462,596 | 371,917,476 | | 467,380,072 |
| HSBC Portfolios - World Selection 3 | USD | 1,671,210 | 870,858,283 | | 872,529,493 |
| HSBC Portfolios - World Selection 4 | USD | 1,195,413 | 670,662,947 | | 671,858,360 |
| HSBC Portfolios - World Selection 5 | USD | 411,545 | 350,315,176 | | 350,726,721 |

Appendix III (Unaudited Additional Disclosures) – Fund Holiday Calendar for 2024

All Portfolios have holidays on:

- all Saturdays and Sundays
- and on the following dates :

| 01 | January | Luxembourg, UK |
|----|----------|----------------|
| 29 | March | Luxembourg, UK |
| 01 | April | Luxembourg, UK |
| 01 | May | Luxembourg |
| 06 | May | UK |
| 09 | May | Luxembourg |
| 20 | May | Luxembourg |
| 27 | May | UK |
| 15 | August | Luxembourg |
| 26 | August | UK |
| 01 | November | Luxembourg |
| 25 | December | Luxembourg, UK |
| 26 | December | Luxembourg, UK |

Shareholders who deal through the Company's local distributor or representative should note that there will be no dealing for the shares of the Company in the jurisdiction in which such distributor or representative operates on a day which is not a business day in such jurisdiction.

The Company will determine the fund holiday calendar according to the latest market information obtained by the Company from time to time. Shareholders can obtain the latest fund holiday calendar of the Company from the registered office of the Company or from the Company's local distributor or representative.

Appendix IV (Unaudited Additional Disclosures) – Securities Financing Transactions Regulation ("SFTR")

As of the date of this annual report, no Portfolio currently uses any instruments falling into the scope of SFTR.

Appendix V (Unaudited Additional Disclosure) – Sustainable Finance Disclosure Regulation ("SFDR")

The investments underlying this financial product do not take into account the EU criteria for environmentally sustainable economic activities.

HSBC Global Asset Management, the initiator of HSBC Portfolios, is the asset management specialist of the HSBC Group and operates through HSBC Bank Plc, London and its subsidiaries.

HSBC Global Asset Management is the trading name of HSBC Global Asset Management UK Limited. HSBC Global Asset Management is established at 8 Canada Square, London E14 5HQ, United Kingdom, which is its registered office.
