East Capital Global Frontier Markets, class R GBP  
(LU1139920265)  
a sub-fund of East Capital

Management Company: East Capital Asset Management S.A.

Objectives and investment policy

Objectives

To provide long-term capital growth through exposure to companies located in frontier markets throughout the world. Long-term perspective, fundamental analysis and active stock-picking are three main pillars of our investment philosophy.

Investment policy

The sub-fund will invest at least 75% of its assets directly or indirectly in equity or equity-related securities (such as, but not limited to, ADRs and GDRs) of companies domiciled in frontiers markets or that exercise a significant part of their economic activity there. For the purpose of this sub-fund, frontier markets are defined as less advanced and less accessible emerging market countries that are included in Frontier Markets-related indices.

The sub-fund may also invest in any country which is classified as an Emerging Market, or any other market not yet classified as Frontier

Markets, but which, in the opinion of the Investment Manager, demonstrates economic characteristics of countries included in the Frontier Markets-related indices.

The reference currency of the sub-fund is expressed in EUR. The currency of the share class is expressed in GBP.

The investor may subscribe and redeem shares on each bank business day in Luxembourg. For further information please refer to Appendix I: Sub-funds in operation, 9. East Capital Global Frontier Markets, Section Subscriptions / Redemptions / Conversions in the prospectus, available at [www.eastcapital.com](http://www.eastcapital.com).

These shares are capitalisation shares. Income and capital gains are reinvested.

Recommendation

This fund may not be appropriate for investors who plan to withdraw their money within 5-10 years.

Risk and reward profile

The sub-fund is a high-risk fund that invests in frontier markets, which means that fluctuations in price are common. This is because investments on the frontier stock markets are more likely to experience sharp rises and falls in value.

The category 5 means a rather high risk and consequently rather high potential losses and gains.

The risk category has been determined on the basis of historical and simulated data and may not be a reliable indication of the future risk profile. The risk and reward category shown does not necessarily remain unchanged and the categorisation of the fund may shift over time.

The lowest category of the risk indicator does not mean a risk-free investment.

Repayment of the initial investment is not guaranteed.

Financial instruments are impacted by various factors such as the development of the financial market, economic development of the companies, the general world economic situation as well as economic and political conditions prevailing in each country. The currency exposure may also impact the portfolio's performance.

In addition to the risk captured by the indicator, the overall sub-fund value may be considerably affected by currency risk as the sub-fund invests in shares denominated in other currencies than the sub-fund's base currency, which may affect the return on your investment. Also, frontier market countries face more political, economic or structural challenges than developed countries. Investments in such countries may offer higher potential for gains or losses, and markets may be less liquid.

For further information concerning the risks of the sub-fund, please consult the prospectus of the fund, which is available at the registered office of the Management Company and on [www.eastcapital.com](http://www.eastcapital.com).

## Charges

The charges you pay are used for the operation of the sub-fund, including charges for its marketing and distribution. These charges reduce the potential investment growth.

One-off charges taken before or after you invest	
Entry charge	5.00%
Exit charge	3.00%
This is the maximum that might be taken out of your money before it is invested and before the proceeds of your investment are paid out.	
Charges taken from the fund over a year	
Ongoing charge	2.35%
